#### I. FOREWORD BY THE MAYOR

Makana Municipality once again engage full participatory democracy as enshrined in the Constitution of the Republic of South Africa 1996, this IDP Review represents of a series of IDP stakeholder engagement with Councilors,), Ward Committees, NGOs, Business, Labor, People with Disabilities and other key stakeholders. During these workshops, we tested the credibility of our IDP based on previous comments of the MEC of Local Government and Traditional Affairs in the Province of the Eastern Cape and took into consideration the suggestions made by our stakeholders.

The IDP Document that you are now reading is therefore a product of a series of events which, among many, includes community consultation through Ward to Ward Community based Planning program, IDP Community meetings, IDP Representative Forum meetings and Intergovernmental Relations (IGR) meetings. This document reflects the second revision of our five year 2012-2017 Integrated Development Plan.

The successful implementation of the IDP and Budget can be achieved only through a partnership between the Municipality and the other spheres of government to create a single window of co-ordination as reflected in Outcome 9. This should be complemented by partnerships with local communities and key stakeholders.

HIS WORSHIP, THE EXECUTIVE MAYOR COUNCILOR ZAMUXOLO J. PETER

#### II. FOREWORD BY THE MUNICIPAL MANAGER

Informed by the prescriptions of the Municipal Systems Act, Act No 32 of 2000, the Makana Municipality adopted the Integrated Development Process Plan in order to guide the development of the Integrated Development Plan (IDP) for the new electoral term of 2012/2017. The public consultation process was premised on the IDP and Budget Participation Sessions which were held in the majority of the wards. The inputs received from such Sessions informed which were subsequently analysed and prioritized in the Institutional and Departmental Strategic Planning Sessions are the integral part of the Integrated Development Plan. It is the intention of the Municipality to guarantee compliance ensuring that the IDP is considered in conjunction with the budget by Council on or before 31 May 2014.

The extent of the challenges still prevailing within the municipal operating environment required external assessment. The Municipality consistently and continuously strives to improve its capacity to better facilitate service delivery. To achieve this and compliance to its constitutional mandate, Municipality strives within its financial and administrative capacity to improve social and economic development.

The revenue base of the Municipality is threatened by the declining revenue collection rate, the Municipality will have to initiate the development of a Revenue Enhancement Strategy and implement vigorous interventions.

Although the Municipality is fairly capable of funding its operations from its financial resources it is a concern that it is increasingly becoming dependable on the unconditional grants and equitable share allocations from the national fiscus.

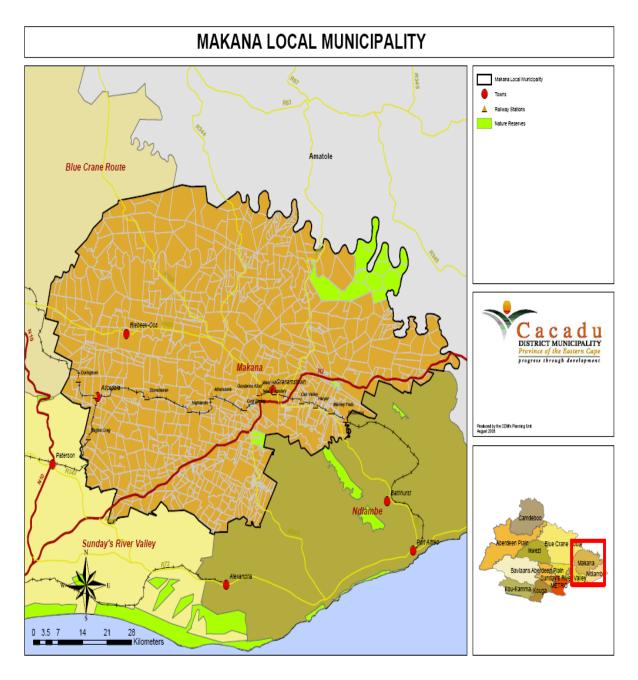

Makana Municipality's challenges of strategic focus areas have been identified and distilled over a number of years. Due to the lack of resources to address some of the strategic focus areas, most of the strategic issue still remain relevant to date.

- Maintenance of aging infrastructure, Poverty, Unemployment and low economic growth,
- Ensure provision of drinking water to all community of Makana
- Rural Development and support to vulnerable group
- Institutional Capacity and Financial Viability
- Stimulating local Economic Development through the creation of conducive climate for economic growth

ACTING MUNICIPAL MANAGER

MANDISI PLAGA

#### III. MAP no 1: MAKANA MUNICIPALITY

#### **CHAPTER ONE: INTRODUCTION**

The Makana local municipality's Integrated Development Plan (2012-17) is undergoing its sirst review and is structured into the following chapters:

Chapter 1	Introduction	
	1.1 Background	
	1.2 Legal Framework	
	1.3 Mandate	
	1.4 Process Plan	
Chapter 2	Situational Analysis	
	2.1 KPA Spatial Analysis	
	2.2 KPA Service Delivery & Infrastructure Planning	
	2.3 KPA Financial Planning Budget Analysis	
	2.4 KPA Local Economic Development	
	2.5 KPA Good Governance	
	2.6 KPA Institutional Analysis	
Chapter 3	Strategic Framework	
Chapter 4	Integration	

#### 1.1 BACKGROUND

The Municipal Systems Act (No. 32) of 2000 requires that local government structures prepare Integrated Development Plans (IDP). The IDP serves as a tool for the facilitation and management of development within the areas of jurisdiction. In conforming to the Act's requirements Makana Municipality's Counil has delegated the authority to the Municipal Manager to prepare the IDP.

Makana Municipality's commitment to developing a "Great Place to be" with specific emphasis of translate the Municipality strategy into action. Also the Municipality is committed to ensure it achieve its six development priorities as approved by Council in the 2013-14 first revision.

- Development Priority No One: Basis Service Delivery and Infrastructure Development
- Development Priority No Two: Community Development and Social Cohesion
- Development Priority No Three: Local Economic Development
- Development Priority No Four: Institutional Development and Financial Development
- Development Priority: Five Good Governance and Public Participation
- Development Priority Six: Rural Development and support to vulnerable groups

#### **1.2 LEGAL FRAMEWORK**

This document represents the second revision of Makana Municipality's Integrated Development Plan (IDP) 2014 –2015. IDP's are compiled in terms of the requirements of chapter 5 of the Municipal Systems Act (MSA) (Act 32 of 2000), Section 25 of the MSA states inter-alia the following:

Each municipal council must, within a prescribed period after the start of its elected term, adopt a single inclusive and strategic plan for the development of the municipality which:

- a) links, integrates and co-ordinates plans and takes into account proposals for the development of the municipality;
- b) aligns the resources and capacity of the municipality with the implementation of the plan;
- c) forms the policy framework and general basis on which annual budgets must be based;
- d) complies with the provisions of the chapter ;and
- e) be compatible with National and Provincial development plans and planning requirements binding on the municipality in terms of legislation".

As far as the annual review and amendments of Integrated Development Plan (IDP) a municipal council-

- a) must review its IDP
  - (i) annually in accordance with an assessment of its performance measurements in terms of section 41of the MSA,
  - (ii) to the extent that changing circumstances so demand; and
- b) may amend its IDP in accordance with a prescribed process.

As far as the status of an integrated development plan is concerned Section 35 of the MSA states that an IDP adopted by municipal council: -

- a) is the principal strategic planning instrument which guides and informs all planning and development issues in the municipality;
- b) binds the municipality in the exercise of its executive authority, except to the extent of any inconsistency between a municipality's integrated development plan and National or Provincial legislation, in which case such legislation prevails; and
- c) binds all other person to the extent that those parts of the integrated development plan impose duties or affect the rights of those person have been passed as a by-law

Section 36 of the MSA states that a municipality must give effect to its integrated development plan; conduct its affairs in a manner, which is consistent with its integrated development plan.

#### 1.3 MANDATE

The Local Government Municipal Systems Act, 2000, introduced the process of municipal planning for municipalities and regulates the development of Integrated Development Plans (IDPs).

Over the years various initiatives have been undertaken to engage all spheres of government in SA to become an integral part of the Developmental State, but the inconsistent participation of departments in the planning process poses a lingering problem. Another constraint is that communities are not centrally involved in local planning.

Community engagements begins at the inception of the planning cycle which provides an ideal opportunity for government departments, local communities and municipalities to plan in a collaborative manner and to develop in tandem.

#### 1.3.1 National Outcomes

The paradigm shift in developmental local government dictates that planning must become more 'outcomes-driven' and the priorities of government sets the context for this to be realised. Accordingly, Government has formulated 12 Outcomes.

Nat. Outcome	National outcomes	Nat. Outcome	National outcomes
NO1	Quality basic education	NO7	Vibrant, equitable, sustainable rural communities contributing towards food security for all
NO2	A long and healthy life for all SA	NO8	Sustainable human settlements and improvement quality of household life
NO3	All people in SA are and feel safe	NO9	Responsive, accountable, effective and efficient Local Government Systems
NO4	Decent employment through inclusive economic growth	NO10	Protect and enhance our environment assets and a better world
NO5	Skilled and capable workforce to support an inclusive growth path	NO11	Create a better SA, a better Africa and a better world
NO6	An efficient, competitive and responsive economic infrastructure network	NO12	An efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship.

Ten (10) of which have been reshaped as provincial strategic priorities, as indicated below: - Each outcome has a number of measurable outputs with targets and in most cases the activities / results occur in a municipal space and involves all of the spheres of government. The operationalisation of these Outcomes reflects government's delivery and implementation plans for its priorities up to 2014.

#### 1.3.2 Revised Provincial Strategic Framework 2011

Developments at both national and provincial level warranted a need to review the Eastern Cape Strategic priorities in order to respond to the policy environment and alignment to the National Outcomes. Development programmes must be crafted to address the following renamed and reshaped provincial strategic priorities, as paired with the National Outcomes that are to be focused upon until the end of the 2014 term.

Nat.	National outcomes	Prov.	Reviewed Provincial Priorities	Clusters
Outcome		Priority		
NO1	Quality basic education	PP4	Quality basic education, skilled and	Social &
			capable workforce to support an	Govt &
			inclusive growth path	Admin

NO11	Create a better SA, a better Africa and a better world			
NO12	An efficient, effective and development oriented public service and an empowered, fair and inclusive citizenship.	PP7	An efficient, effective and developmental oriented public service and an empowered, fair and inclusive citizenship with responsive, accountable, effective and efficient Local Government system	

#### 1.4 Cacadu Development Interventions Priority Issue

The following issues which surfaced from the situational analysis and community participation during local level engagement sessions were systematically selected into the listed development priorities.

• Infrastructure Development

- Capacity Building and Support to local municipalities
- Economic Development
- Community Services
- Institutional Development

#### 1.5 Makana development agenda

The combination of community planning with inter-spheres strategic planning will culminate in local initiatives becoming central to provincial and national government programs that will manifest in credible IDPs which are reflective of a developmental State.

In order to ensure that the Makana Municipality is empowered to deliver on a flow of priority services, this review process will endeavor to respond to the challenges being experienced at community level. It will align prioritization by eliminating poor integration between the municipality and the programs of various sector services in the IDP.

#### 1.5.1 Makana Vision and Mission Statement

"Makana Municipality strives to ensure sustainable, affordable, equitable and quality services in a just, friendly, secure and healthy environment, which promotes social and economic growth for all".

#### 1.5.2 Core Values of the Municipality - Our Values

Value	Behaviour
Honesty	We are corruption free
Transparency	We are open and communicate freely
Quality	We are committed to a culture in which we continuously strive for excellence
Participatory Democracy	We ensure maximum involvement of all stakeholders in all our activities.
Accountability	We are answerable for our actions.
Professionalism	We practice the highest standards applicable to our work and we embrace humanity, discipline and respect

#### 1.5.3 Municipal Development Priorities

. Makana Municipality has adopted in last year IDP Review six year development priorities.

- Development Priority No One: Basis Service Delivery and Infrastructure Development
- Development Priority No Two: Community Development and Social Cohesion
- Development Priority No Three: Local Economic Development
- Development Priority No Four: Institutional Development and Financial Development
- Development Priority: Five Good Governance and Public Participation
- Development Priority Six: Rural Development and support to vulnerable groups.

#### 1.6 PROCESS PLAN (2014-2015 CYCLE)

Council formulate and adopted an IDP process plan in August 2013 to serve as guide in preparation for the review of the Integrated Development Plan. In brief the IDP process plan outlines the time frames of scheduled events / activities, and co-ordinating structures involved in the processes.

The Integrated Development Planning (IDP) Process is a process through which Municipalities prepare strategic development plans for a five year period. An IDP is one of the key tools for Local Government to cope with its developmental role and seek to arrive at decisions on issues such as municipal budget, land management, promotion of local economic development and institutional transformation in a consultative,

#### 1.6.1 Objective of the IDP review process plan

The Makana Municipality wants to continue to develop the IDP as an effective management tool for the municipality, this includes:

- Creating a greater level of focus and thereby improving on the strategic nature of the document.
- Aligning this strategic document with the realities of the resources available i.e. financial and human,
- Alignment of the IDP with the activities of the Sector Departments and other service providers (and vice versa) and
- Alignment of the IDP with the various sector plans.

#### 1.6.2 Approach to the 2014/15 IDP review

- Strategic review of the content of the 2013-2014
- Review and Development Sector plans
- Development Ward Based Planning
- Review last year MEC Comments
- Sector Alignment
- IDP –Budget Alignment
- Community Engagement(Public Participation) for approval
- Review and update Strategies and projects in the project register
- Review 2016 Vision

#### 1.6.3 Roles and responsibilities

ROLE PLAYERS	ROLES AND RESPONSIBILITIES
Council	- Final decision making
	- Approval of the reviewed IDP documentation.
Ward Councillor	- Linking the IDP process with their constituencies.
	- Organising public participation at ward level.
Mayor	- Assign responsibilities to the MM.
	- Submit the IDP Process Plan to Council for approval.
	- Chairs the IDP Rep Forum.

Municipal Manager	- Prepare IDP process plan.
	- Ensure that timeframes are adhered to.
	- Decide on and monitor IDP process.
	- Overall management and co-ordination.
Mayoral Committee	- To help to harness common understanding between political and
	administrative component before the IDP reports are considered at Council meeting.
	- Makes recommendations to the IDP Representative Forum.
IDP Manager	- Day to day management of the IDP process.
	- Co-ordinate technical or sector expertise.
	- Co-ordinate Sector plan inputs
	- Prepare draft progress reports.
IDP Steering	- Assist and support the Municipal Manager/IDP Manager and IDP
Committee	Representative Forum.
	- Information "GAP" identification.
	- Oversee the alignment of the planning process internally with those of the
	Local Municipality areas.
	- Portfolio head to lead related Portfolio matters
	- Monitor the Process plan progress
	- Plan Public Participation Engagement
	- Alignment of IDP and Budget
	- Plan stakeholder Engagement
	- Integration with Sector department
The District Council	- Co-ordination role with all Local Municipalities within the District.
	- Ensuring horizontal and vertical alignment of the IDP's of the Municipalities
	in the District Council area.
	- Facilitation of vertical alignment of IDP's with other spheres of Government
	and Sector Departments.
	<ul> <li>Provide events for joint strategy workshops with Local municipalities,</li> </ul>
	Provincial and National role players and other subject matter specialist.

#### 1.7 Implementation of the IDP

The IDP drives the strategic development of Makana Municipality. The municipality budget is influenced by the strategic objectives identified in the IDP. The Services Delivery Budget Implementation Plan (SDBIP) ensure that the municipality implements programs and projects based on the IDP targets and associated budget. The performance of the municipality is reported in its Annual Report.

#### CHAPTER TWO: SITUATIONAL ANALYSIS

#### 2.1 INTRODUCTION

The analysis phase aims to assess the existing level of development within the Municipality through analysis of the prevailing environment, the impact thereof on the inhabitants of the municipality and by taking cognisance of community perceptions and needs. It also facilitates the identification and analysis of the environmental challenges facing the Municipality and allows the Municipality to accurately prioritise these challenges.

The analysis phase should be seen as the foundation of the IDP that informs the ensuing phases. Municipal planning, budgeting, decision making and service delivery are based on the IDP and it is therefore critical that the analysis phase of the IDP provide an accurate understanding of the prevailing environment to ensure credibility of the final IDP. This section provides a strategic analysis of the external and internal dimensions hereunder, which have a direct impact on development in Makana Local Municipality.

The Makana Municipality is located in the Eastern Cape Province on the south –eastern seaboard of South Africa and in the western part of the Eastern Cape Province falling under the Cacadu District Municipality. With the cities of Port Elizabeth 120km to the west and East London 180 km to the Makana Municipality is strategically situated between two of the province's largest industrial center. Both coastal cities are serving by well-equipped container ports and have major airports linking them to Cape Town, Durban and Johannesburg. It is the home of the National Arts Festival and the seat of the Rhodes University in and other prominent and internationally acclaimed primary and high schools found in Grahamstown. Makana Municipality consists of 14 wards in which 3 are found in the rural areas of the Municipality.

#### 2.1.1 Towns and Villages of Makana Municipality:

#### Grahamstown:

At the heart of Makana Municipality is the city of Grahamstown, situated 55 km from the coast and 535 m above sea level, Grahamstown is famous as one of the leading cultural, educational, tourist centers and host of National Arts Festival in South Africa.

Alicedale:

Owing its existence to the development of the railways, the station at Alicedale is a vital link between the Makana region and the main railway line between Port Elizabeth and Johannesburg.

#### Salem:

The Methodist Church founded Salem in the mid-1820s. It is famous for its many fine buildings and also for the historic negotiations between Richard Gush and the approaching Xhosa during the War of Hintsa, when the Xhosa agree to leave village in peace.

#### **Riebeeck East:**

The Dutch Reformed Church established the village of Riebeeck East in 1830 on the farm Mooimeisiesfontein, the home of the famous Voortrekker leader Piet Retief, Riebeeck East is now in the

midst of a game and sheep farming area and offers many attractions and hiking trails through the surrounding diverse and beautiful hills.

#### Seven Fountains:

This farmers' community derived its name from seven springs located on different farms in area.

#### Fort Brown:

Established as a military post in 1817, the gun tower and adjoining walls of the fort, overlooking the Great Fish River and central to a number of major game reserves, is a national monument.

#### 2.1.2 Opportunities

- Strategically situated between two of the province's largest industrial center.
- Economic opportunities in Tourism industry
- Magnificent game and wildlife
- Small scale mining
- Agriculture farming
- World class education institutions

#### 2.2 SPATIAL AND GEOGRAPHY ANALYSIS

The Makana Municipality falls within the Cacadu District Municipal area. The Municipality's area is bordered on the North-east by Amathole District Municipality, North-west by Blue Crane Route, the South by Ndlambe Municipalities and the South-west by Sunday River Valley.

#### 2.2.1 Spatial Overview and Geographic Description

Based on the Stats SA 2011, the population figure is 80 390. The largest concentration of people is found in Grahamstown. The Makana Local Municipality covers an area of 4,375.62 km<sup>2</sup> and constitutes 07.5% of the Cacadu District.

#### Location of makana within the context of cacadu district municipality

The Cacadu District Municipality (CDM), is the largest (58 243 km<sup>2</sup>) of the six (6) District Municipalities in the Eastern Cape Province, as shown on Map no. 1 below. Map no. 2: Spatial Location of the

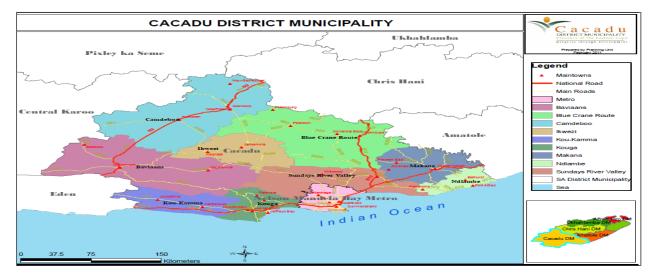

Eastern Cape Source: Municipal Demarcation Board, 2011

The District is situated in the western portion of the Province, bordering the Western Cape, Northern Cape and Chris Hani and Amathole District Municipalities in the Eastern Cape. Nine local municipalities have been established within the jurisdiction of Cacadu DM, as reflected on Map no. 2 below.

#### 2.2.2 Spatial Location of Cacadu District Municipal Area

#### Source: Cacadu District Municipality

The Makana Municipality falls within the Cacadu District Municipal area. The Municipality's area is bordered on the North-east by Amathole District Municipality, North-west by Blue Crane Route, the South by Ndlambe Municipalities and the South-west by Sunday River Valley. In 2011, the Makana was delimited into fourteen wards, as depicted in Map no. 3 below and the municipal area covers an area of 4375.62km<sup>2</sup>.

#### 2.2.3 EC Provincial Spatial Development Plan (ECPSDP): 2010 Review

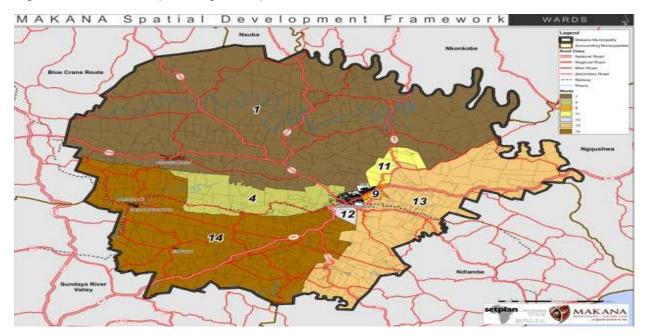

The Department of Local Government and Traditional Affairs reviewed of the Eastern Cape Provincial Development Plan (ECPSDP) in 2010.

The Review underscores the clustering of opportunities in nodes and development corridors to achieve areas of shared impact. It also takes into account the environmental potential, and characteristics, economic attributes, migration trends and the impact of climate change on development. The impact of these factors will influence the development trends in Makana are taken into account in the current SDF review.

#### 2.2.3 Makana spatial development framework

The Makana Municipality Spatial Development Framework revised and was adopted on the November 2013.

#### Fig 1: Makana LM SDF (Showing Wards)

#### Source: Revised Makana SDF 2013

#### 2.2.4 Legal Framework for the SDF

Section 26 (e) of the Municipal Systems Act 32 of 2000 (Act No. 32 of 2000) states that an integrated development plan must reflect a spatial development framework which must include the provision of basic guidelines for a land use management system for the Municipality.

In order to achieve this, the Government has adopted a range of new legislation and policies, which allows for a more flexible, participative planning methodology that is principle-led and rights-based. The legislation includes the following:

- Land Use Planning Ordinance 15 of 1985 (Ordinance 15 of 1985)
- Development Facilitation Act (67 of 1995)
- The Local Government: Municipal Planning and Performance management Regulations (GNR796 of 2001)
- The white paper on Land Use: Spatial Planning and Land Use Management (march 2001).

#### 2.2.5 Makana SDF Focus Areas

General Focus Areas as aligned to mission and vision:

- Improve financial/ revenue generating capacity of Municipality through devising and implementing support tools.
- Improve Auditor General Opinion
- Development of Human resources skills development strategy
- · Empowering and capacitating staff to ensure efficiency
- Supporting Municipal staff training and staff retention programmes
- Improving communication internal and external

- Exploring good management system
- · Improve environmental management aspects
- Financial Viability and
- Institutional Capacity Stimulating local Economic Development through the creation of conducive climate for economic growth.

#### 2.2.6 Spatially Relevant Focus Areas:

- Expediting the provision of services such as roads, alternative water source, and provision of alternative energy sources for rural and urban areas
- Addressing housing backlog
- Addressing fragmented spatial planning in urban areas and land distribution rural area
- Ageing infrastructure
- Sustainable Human Settlements
- Rural development, land reforms, food production
- Sustainable development (Source, Makana IDP Review 2012-2017).

#### 2.2.7 Spatial Outcomes

#### 2.2.7.1 Environmental Issues

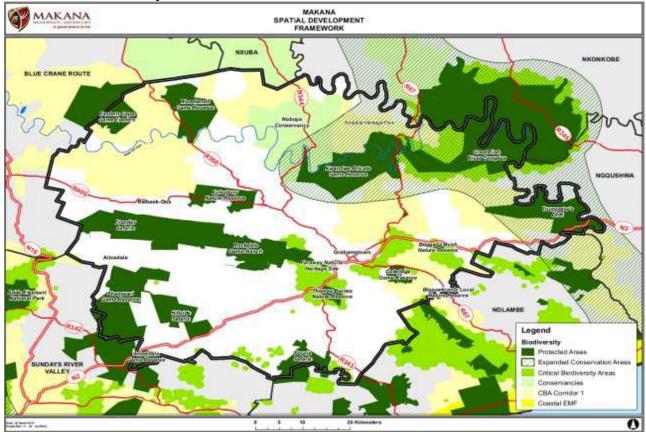

#### Key Issue:

- The ECPSDF (Eastern Cape Province Spatial Development Framework) has identified a biodiversity footprint that from a Provincial perspective, is considered to be 'non-negotiable':
- This footprint has been adopted into the CDM SDF will be accommodated into the Makana SDF.
- Cognisance needs to be taken of the protected area expansion areas.
- There are critical biodiversity areas that fall outside of the protected area network.
- The extent and location of the components of the Environmental Footprint have not been 'ground trothed'

#### Strategies

- Map the ECPSDF biodiversity framework (Critical biodiversity areas, protected nature reserves and parks etc.)
- Make the information available to all stakeholders.
- Specific attention needs to be given to the critical biodiversity areas that fall outside of the protected area network.
- Determine guidelines and actions to ensure that the environmental footprint is achieved.
- Ensure that the provisions of NEMA are applied.
- Establish partnerships with the relevant stakeholders to ensure cross border alignment.
- The accurate identification of the various components of the environmental network needs to be undertaken, either on a project by project basis through the EIA process or by means of a specific verification process.

#### 2.2.8 LAND USE MANAGEMENT SYSTEM

As indicated in Section 26(e) of the Municipal Systems Act, the SDF is required to: "include the provisions of basic guidelines for a land use management system (LUMS) for the municipality"

#### 2.2.8.1 Guidelines for Land Use Management aim is to regulate:

- Land-use changes such as the rezoning of a property from residential to commercial use.
- 'Green fields' land development, i.e. the development of previously undeveloped land;
- Subdivision and consolidation of land parcels
- Regularization and upgrading process of information settlements, and
- The facilitation of land development through the more active participation of the municipality in the land development process, especially through public-private partnerships

#### 2.2.8.2 Planning Schemes/Mechanisms

The Planning Schemes are the statutory mechanisms whereby the use of land may be developed, managed and regulated.

#### 2.2.8.3 Land Use Management Needs

The current land use management mechanisms in Makana are unable to address the needs of the residents. The following shortcomings have been identified:

- Ineffective zoning records, specifically for the former Western District Council Area
- The public does not have easy access to information

A full set of general guidelines for Land Use Applications are contained in the SDF and for this reason will not be elaborated upon in the IDP.

#### 2.3 ENVIRONMENTAL ANALYSIS

#### 2.3.1 Environmental overview

Guidelines pertaining to environmental aspects within the municipality are guided by the Subtropical Thicket Ecosystem Planning (STEP) initiative / project. The STEP Project encompasses the southeastern Cape region, extending from the Kei River to Riversdale, referred to as the STEP domain. The project's aim was to assess the region's biodiversity in terms of the diversity of indigenous plants and animals and the processes that sustain them with special emphasis on the unique, indigenous vegetation type known as thicket. The assessment measured how much of this vegetation type has been destroyed or damaged by human activities and determined the degree to which biodiversity is endangered in different areas.

Based on assessment, development guidelines pertaining to environmental issues were compiled, the objectives of which were to:

- Ensure the persistence of biodiversity by developing a co-operative strategy for conserving corridors of land along major river valleys and the coast (the Mega Conservancy Network) which were identified as needing special safeguarding.
- Ensure the retention of biodiversity by categorizing those areas not contained within the Network into areas of conservation status with guidelines for appropriate land use.

#### 2.3.2 Environmental profile

This Environmental profile provides an overview of the environmental characteristics of the Makana area. Development associated with primary activities such as mining and agriculture, as well as tertiary activity such as tourism is often based on an area's physical attributes. The environmental profile will thus feed into the developmental potential that can be based on Makana's inherent physical characteristics. The environmental characteristics of Makana are discussed under the following sub-sections.

#### 2.3.2.1 Climate

The southern portion of the municipality has the highest rainfall. The majority of the municipality is classified as semi-arid. Makana lies in a subtropical climatic zone, meaning that the area is characterized by warm summers and cool winters and fairly evenly distributed rainfall throughout the year. The Grahamstown area experiences moderate weather conditions. Rain falls throughout the year with mean precipitation averaging 680mm. Summer temperatures (January) vary from an average maximum of 26'C to a minimum of 15'C. In winter (July) temperatures vary from an average maximum of 18'C to an average minimum of 4'C. The prevailing wind direction is from the west and southwest. In Alicedale,

rainfall is approximately 555mm per year. Temperatures in Alicedale range from 40°C to 15°C in summer, and 18°C to -8°C in the winter months. Rainfall in Riebeeck East area is approximately 865mm per year, with identical average winter and summer temperatures to those experienced Grahamstown.

#### 2.3.2.2 Climate Change

Climate change is defined as a change of climate which is attributed directly or indirectly to human activity that alters the composition of the global atmosphere and which is in addition to natural climate variability over comparable time periods. ' (United Nations Framework Convention on

#### 'The manifestations of climate change in the Eastern Cape are expected to be:

High temperature increases towards the northwest interior with lowest increases along the coast. A drying trend towards the south and south west. Increased precipitation more likely towards the east of the Province. Sea level rise scenario's ranging from 2m to 6,5m depending on exposure. Risk assessment, adaptation and mitigation measures addressed in CDM and Eastern Cape Climate Change Response Strategy (DEDEAT, 2011).

No spatial demarcation has been made of the high risk areas:

- Lower rainfall in the south and south-west and higher rainfall to the east.
- Water shortages
- Lower food production
- Reduced tourism
- Increased fire risk

These areas need to be mapped and reflected in the Makana Disaster

#### 2.3.3 Geology and Soil

From a municipal wide perspective there are no unfavorable geotechnical conditions that will prevent development or require specific safety considerations. The necessary on-site investigations should be undertaken to ensure that the site specific circumstances are suitable for the intended development

#### 2.3.4 Topography

The eastern part of the municipality can be classified as lowlands, with contours generally lying below 300m above sea level. The western part of the locality in which Alicedale is situated can be classified as being of a moderate elevation, lying between 300m and 600m above sea level. The central part of the municipality that contains Grahamstown and Riebeeck East has the highest elevation of between 600m and 900m above sea level. Grahamstown is situated in a valley that cuts into a plateau. The highest point on the plateau is 770m above sea level and the lowest point in the valley is 490m above sea level. Alicedale is located about 360m above sea level in a flood plain created by the confluence of the Bushman's river and the New Year's river Riebeeck East is located 630m above sea level.

#### 2.3.5 Topography and Slope

Most of the land in Makana has a slope of either between 3-8° or between 8-20 ° (State of the Cacadu Environment, 2005)

#### 2.3.6 Hydrology

The major water related driver in the municipal area is the Orange-Fish-Sundays Water Supply System which ensures continuous sustainable water supply for economic activity and is essential for community well-being and socio-economic prosperity in the area. The whole municipality is classified as a primary catchment area, with a mean quaternary runoff of between 12m<sup>3</sup> and 40m<sup>3</sup>. (State of the Cacadu Environment (2005)

Surface water is largely provided by dams and reservoir that are linked to perennial and non-perennial rivers. Ground water is provided by boreholes and springs that are evenly distributed throughout the municipality. In terms of water sources in the towns it is found that:

**Grahamstown's** water is from local dams and sources transferred from the Orange River. There is adequate supply to cater for the 8.6Mm<sup>3</sup>/that is used, but also a need for more groundwater development.

**Riebeeck** East's water is sourced from local boreholes. It also has adequate supplies of water to cater for the 0.0285 Mm<sup>3</sup>/that it uses. A planned water scheme for Riebeeck East is an increase in storage capacity in the form of tanks and a reservoir.

Alicedale's water is sourced from a local dam. (State of the Cacadu Environment, 2005)

With regards to the quality of water resources in the area, the State of the Cacadu Environment report of 2005 states that water quality is 'good, or even natural (or example the New Year's Dam and Bushman's River sites) even though it is naturally saline and not suitable for certain uses"

#### 2.3.7 LAND CAPACITY AND SOIL TYPES

Land capacity is determined by the collective effects of soil, topography, hydrology and climate features. It indicates the most intensive long-term and sustainable use of land for rain-fed agriculture and at the same time highlights the permanent limitations associated with different land use classes. Table 6.1 shows the classifications with which land is classified.

It also shows different land usages that go in line with the different levels of land capability. This shows the nature of agricultural activity that can be feasibly undertaken throughout the municipality.

Classes	Forest	Veld	Pasture	Limited	Moderate	Intensive	Very
							Intensive
Ι	Х	Х	Х	Х	Х	х	
II	Х	Х	X	Х	Х	X	
III	Х	Х	Х	Х	Х		
IV	Х	Х	Х	Х			
V	Х	Х	Х				
VI	Х	Х					
VII	Х	Х					
VIII	Х						

#### Table Land use options per land capabilities class

Source: Directorate Agriculture Land Resource Management, 2002

#### Table Land Capability in Makana

Land capability class	Area (ha)	Percentage
1	0.00	0.00%
2	0.00	0.00%
3	0.00	0.00%
4	31789.20	7.27%
5	20456.20	4.68%
6	300661.00	68.71%
7	46331.70	10.59%
8	38072.30	8.70%

#### Source: Cacadu ABP & LAA, 2008

Most of the land (68.71%) in Makana is classified under class 6. This means that the majority of land in Makana is only suitable for grazing of animals and non-arable. Based on the results presented in Table 6.2 and Figure 6.2, the Makana Area Based Plan (2008) states that land in the Makana area has suitable potential to for:

- Large areas of irrigation, should water be available
- Rain-fed cropping of Wheat, chicory, pecan nuts and aloe
- Irrigation-fed cropping of stone fruit, olives, cotton, vegetable, sugar beet and oranges
- Livestock including game farming and ostrich farming

Soils in the Makana area are generally shallow and weakly developed, with depths typically not exceeding 600mm. This is because the municipality's geology is based on Beaufort group sandstones and shale's which dominate the landscape. The shallow and weakly developed soils limit the types of crops that may be planted throughout the municipality as this affects root development, nutrient retention and moisture drainage.

There are some rich alluvial and colluvial soils close to rivers, which support intensive agricultural cultivation. Topsoil textures vary from loamy sand to sandy clay loam (Makana ABP & LAA, 2008).

#### 2.3.8 VEGETATION TYPES AND BIODIVERSITY

The vegetation in an area represents an integration of climate, soil and a number of other biological factors. Physical factors including geomorphology and geology also act as variables that determine vegetation types and biodiversity.

The Makana District has richly diverse and unique vegetation, comprising ten vegetation types, representing six of the seven major southern African biomes (namely forest, grassland, succulent Karoo, fynbos, savannah grasslands and the thicket vegetation).

The Makana municipality is situated in the Albany Centre of Endemism and has 27 endemic plant species of which 17 (62%) are cited as being vulnerable and 5 (32%) are cited as being endangered.

Significant portions of land in the Makana municipality are classified as "Critical Biodiversity Areas". This means that they are to be managed for biodiversity and conservation, with only limited development in the form of small scale tourism amenities recommended. Critical Biodiversity Areas also have guidelines on the form an agriculture that may take place (State of the Cacadu Environment, 2005; Makana ABP and LAA, 2008)

The biodiversity of the thicket within Makana is threatened by several factors, including:

- Urbanization
- Transformation of land for agricultural purposes
- Overgrazing by livestock
- Habitat loss through preparation of cultivated land for products such as cash crops
- Overpopulation of alien species introduced through agriculture and game reserves
- Unsustainable resource use
- Collection of plant species for medicinal and ornamental uses
- Land degradation because of the use of irrigation in areas with poor soils

#### 2.3.9 LAND REFORM PROGRAMME

The Department of Rural Development has compiled an Area Based Plan, for the Cacadu district area as a whole. An Area Based Plan essentially is a sector plan that seeks to address land related issues at a municipal level and is intended to form part of the Integrated Development Plan (IDP), informing the Spatial Development Framework (SDF) and Land Use Management System (LUMS).

Fundamentally the Plan seeks to integrate Land Reform into the municipal planning process wherein identified projects are supported during and post implementation phases to ensure sustainability. Also to develop an implementation tool for pro-active land acquisition to facilitate acquisition of land at scale by DRD & LR to meet the 2014 target of transferring 30% of white owned land into the hands of the black farming class.

The Land Reform Programme is anchored on three key programmes, namely: *restitution, redistribution,* and *tenure reform.* These were developed to promote land acquisition, restore land rights lost through dispossession and achieve tenure upgrade respectively.

#### Source: Municipal Demarcation Board, 2011

Twenty eight councilors have been elected and the seat of the municipality is situated in Grahamstown. The Makana area comprises of rural commercial farms with small rural nodes and Grahamstown is the main urban town. Rural nodes and settlements include:

#### 2.4 DEMOGRAPHIC TRENDS AND ANALYSIS

2.4.1 Population and population density

Table 1: Population and extent of Area km<sup>2-</sup> EC, CDM and BLM

Stats SA 2011	Province o Eastern Cape	f the	Cacadu Municipal		Makana Municipality	Local
Total Population	6 562 053		450 584		80 390	
Area km <sup>2</sup>	168 966 km <sup>2</sup>		58 243.3 k	rm <sup>2</sup>	4375.62 km <sup>2</sup>	
Courses Chata CA 2044						

#### Source: Stats SA 2011

As indicated by the statistical information above, Makana accounts for 17.8% of the Cacadu District and 1.2% of the Provincial population. The Makana is the second largest population contributor in the district. Geographically Makana has a fairly large population living in a relatively small area with a population density of 18.4 per km<sup>2</sup>.

#### 2.4.2 Population distribution by age, gender, grouping and head of households

DEMOGRAPHICS	MAKANA AREA	MAKANA AREA	%	<b>GROWTH %</b>
	(STATSSA 2001)	(STATSSA 2011)		p.a.
Makana Total Population	74 529	80 390		0.8
Age distribution	74 529	80391		
0-14	19439	19 611	24.4	0.1
15-64	50521	55 777	69.4	1.0
65+	4569	5 003	6.2	0.9
Gender	74529	80390		
Male	34946	38 175	47.5	0.9
Female	39583	42 215	52.5	0.7

Other	0	464	0.6	
Head of Household: Gender	18 009	21 388		
Male				
Female				

 Table 2: Age distribution, Gender, Population Grouping and Head of Household

Source: Stats SA 2011

By comparison the demographic information indicates an increase in the population figures and this is reflective in the population growth rate of 0.8% p.a. between the period of 2001 and 2011. The sex ratio is fairly even with 9 males for every 10 females.

Stats SA 2011 reflects that 24.4% of the population is young and less than 15 year of age, which requires intergovernmental planning efforts to jointly focus on improved education and providing sport and recreation facilities.

Sport in particular plays an important part in youth development and relevant role-players should form partnerships to promote sport initiatives and youth programs in Makana. The high number of children could also be an indication of a dependency on child support grants.

The Stats SA reflects that there has been a 2.4% increase, from 42.1% to 44.5%, in respect of female headed households between 2001 and 2011. The increase is moderate considering that the population has grown by 7.9% over a 10 year period and the male to female sex ratio has only risen marginally.

#### 2.4.3 Population country of birth

DEMOGRAPHIC	MAKANA AREA (STATSSA 2001)	MAKANA AREA (STATSSA 2011)	%	GROWTH % p.a.

#### 2.5.2 Income levels

#### Table 4: Income Category

SOCIO ECONOMIC ANALYSIS	MAKANA AREA (STATSSA 2001)	MAKANA AREA (STATSSA 2011)	%	GROWTH % p.a.
Total Population				
Income 15 to 65	14 919	51 057		
No Income	320	22 964	45.0	707.6
R1 – R400	3 078	2 789	5.5	-0.9
R401 – R800	3 265	2 565	5.0	-2.1
R801 - R1600	2 812	8 573	16.8	20.5
R1601 – R3200	2 376	4 610	9.0	9.4
R 3 201 - R 6 400	1 783	2 720	5.3	5.3
R 6 401 - R 12 800	852	2 515	4.9	19.5

R 12 801 - R 25 600	227	1 627	3.2	61.7
R 25 601 - R 51 200	81	535	1.0	56.2
R 51 201 - R 102 400	64	127	0.2	9.8
R 102 401 - R 204 800	46	79	0.2	7.2
R 204 801 or more	15	50	0.1	23.3
Unspecified	0	1 902	3.7	

Source: Stats SA 2011

Stats SA 2011 reflects that poverty levels are high with 45.0% of the population not receiving any income, and a further 10.5% earning less than R801 per month, therefore technically falling under the poverty line. This is exacerbated by the fact that 63.4% of the potential labour force are not working. The population lack buying power which makes it difficult to exploit local economic development opportunities and the situation implies a high dependency on social grants. Interventions must be created and expedited to support poor communities. The potential economic labour force accounts for 65% of the total population, which reinforces the need to boost the economy and stimulate job growth.

### 2.5.3 Labour status and trends

### Table 5: Labour Status

SOCIO ECONOMIC	MAKANA AREA	MAKANA AREA	%	GROWTH % p.a.
ANALYSIS	(STATSSA 2001)	(STATSSA 2011)		
Total Population				
Labour status 15 to	50 915	52 582		
65				
Employed	14 922	19 234	36.6	2.9
Unemployed	14 489	9 260	17.6	-3.6
Non economically	21 504	24 088	45.8	1.2
active				

Source: Stats SA 2011

Stats SA reflects that 17.6% of the potential workforce is unemployed and a further 45.8% were not economically active in 2011. The remaining 36.6% of the labour force were employed. The overall dependency ratio is 5 persons per ten population of working age. Stats SA 2011 also concludes that 5 705 of the youth in Makana are unemployed.

### 2.5.4 Grant dependency

PAYPOINT	GRANT TYPE	NUMBER OF GRANTS	AMOUNT
Total Population		80,389	
Bank Payments	Old Age	8,498	9,888,678.82
Bank Payments	War Veterans	4	4,193.22
Bank Payments	Disability	4,554	5,406,656.76
Bank Payments	Foster Care	1,432	1,583,254.87
Bank Payments	Care Combination	60	146,302.56
Bank Payments	Care Dependency	277	322,996.62
Bank Payments	Child Support	11,157	4,605,725.96
SUB-TOTAL		25,982	21,958,078.81

Community Halls	Old age	Disability	Forster care	CSG Grant	Other	Grants	benefi ciaries
200505- B.B. Zondani – GHT	81	37	3	106	2	229	217
200543- Bathurst Community Hall	21	1	0	12	0	34	30
200540- Jawuka Community Hall	14	6	1	27	0	48	45
200523- Kwanonzwakazi Community Hall	14	3	0	13	0	30	28
200562- Kwanonkqubela Community Hall	16	6	1	24	0	47	43
200560- Marselle Community Hall	27	7	0	15	0	49	45
200599- Sekulula – GHT	1,715	1,184	384	6,743	126	10,152	9,312
	1,888	1,244	389	6,940	128	10,589	9,722

Assuming that no individual qualifies for more than one grant then 45.5% of the total population is receiving a social grant. The dependency on grant funding further reinforces the need to stimulate the local economy by creating labour intensive growth opportunities and optimizing the job creation elements of the EPWP.

### 2.5.5 Education attainment levels

SOCIO ECONOMIC	MAKANA AREA	MAKANA AREA	%	GROWTH % p.a.
ANALYSIS	(STATSSA 2001)	(STATSSA 2011)		
Total Population				
Level of education 20 +				
No schooling	5373	3 594	5.3	-3.3
Some primary	9581	18 510	27.3	9.3
Complete primary	4012	4 494	6.6	1.2
Some secondary	14233	23 154	34.2	6.3
Std 10/Grade 12	7707	11 817	17.4	5.3
Higher	4741	5 929	8.8	2.5
Unspecified	0	227	0.3	
Not applicable	0	12 664		

### Table 6: Education Levels 20 year +

Source: Stats' 2011

Stats' 2011 show that 5.3% of the population over 20 years of age has not received any schooling. The figure is moderate and furthermore shows a decline of -3.3% p.a. since 2001 when 5 373 or 11.8% of the population over 20 years had not undergone any schooling. The trend from 2001 to 2011 supports the notion that educational prospects have improved. Prestigious primary and secondary schools and the seat of the Rhodes University are situated in Grahamstown, making this a Mecca of academia.

### 2.5.6 Disability spectrum

SOCIO ECONOMIC ANALYSIS	MAKANA AREA	MAKANA AREA	%	GROWTH %
	(STATSSA 2001)	(STATSSA 2011)		p.a.
Total Population	75 302	80 390		0.79
Disability				
None / Unspecified	69880	63563	79.07	-0.9
Sight / Seeing only	776	6604	8.22	75.1
Hearing / Gearing only	521	818	1.02	5.7
Communication	145	177	0.22	2.2
Physical / Walking only	1386	831	1.03	-4.0
Intellectual / Remembering	430	676	0.84	5.7
only				
Emotional / Self care only	931	540	0.67	-4.2
Multiple disability	469	0	0.00	-10.0
Institution / Not applicable	0	7180	8.93	
	74 538	80 389		

Stats SA indicates that there has been an overall decline of -0.9% p.a. in the number of population with disabilities. People with a sight disability have increased drastically by 7.2% from 1.0% in 2001 to 8.2 in 2011.

### 2.5.7 CRIME STATISTICS

## CRIME IN SEVEN FOUNTAINS (EC) FOR APRIL TO MARCH 2003/2004 - 2012/2013

## 2.6 DEVELOPMENT PRIORITIES KEY PERFORMANCE AREA

## 2.6.1 KPA ONE: SERVICE DELIVERY & INFRASTRUCTURE PLANNING

In view of the IDP content requirements outlined by the DLGTA in the Draft Checklist, the municipality has attempted to broaden the conceptualization of the IDP into output and where possible outcomes. The Makana local municipality is both, the Water Service Authority and Water Service Provider and is also responsible to provide all the other local government services such as municipal roads, storm water management, electricity and waste collection and disposal etc.

Service delivery falls within the functional area of a number of different institutions and it must be noted that despite attempts; difficulty has been experienced to source information in respect of functional areas that resides outside the powers and functions of the municipality.

### STRATEGIC OBJECTIVES FOR SERVICE DELIVERY

### Strategic Objectives:

 Eradicate backlogs with improved access to services and ensuring proper operations & maintenance.

### Intended Outcome:

• Improved provision of Water, Sanitation, Waste Management, Electricity, Roads & Storm water, Education, and Health facilities.

Improved access to basic services. (Outcome 9 targets for 2014)

- 100% of households have access to basic level of water by 2014
- 100% households have access to basic level of sanitation by 2014
- 75% of households have access to basic level of refuse removal by 2014
- 92% of households have access to electricity by 2014

### 2.6 1.1 WATER AND SANITATION

According to Stats' the level of improvement of flush toilets shows a positive growth of 16.3% p.a. over a period of 10 years (2001 to 2011). The number of bucket latrines reflects a decline or negative growth of -8.6% p.a. over the same period, which in effect means that bucket toilets have been reduce from 30.4% in 2001 to 3.6% in 2011

The standard and provision of sanitation and water shows a significant improved from 2001 to 2011 as duplicated in table 9 below. The water quality is monitored by an Environmental Health Practitioner attached to Cacadu District Municipality. Water samples are collected and submitted to the National Health Laboratory for analysis of its microbial quality and suitability for human consumption. The results indicated that the samples taken from Makana did comply with the set standards due to high level of Standard Agar Plate and Total Plate Count.

### Accesses to water

- The 5 wards with the most households with no access to piped water are (From highest to lowest)
  - o Ward13
  - o Ward14
  - Ward 1
  - Ward 10
  - o Ward 11

### 2..6.1.2 ROADS AND STORM WATER

The provision and maintenance of roads covers the functional areas of the Department Roads and Public Works and the Local Municipality.

The Municipality does not have a Storm water Master plan /Pavement Management System or sufficient roads infrastructure and maintenance is carried out as and when required. During community based planning concerns were raised about potholes and corrugated gravel roads

<b>BASIC SERVICE / INFRASTRUCTURE</b>	Municipal Roads
Total length of Roads	757.4Km

### Table 10: Road Infrastructure and Transport Modes

### Draft Makana SDF 2013

A large contingent of the population in 2001 was travelling by foot. Unfortunately the 2011 Stats' does not give a comparison.

Grahamstown is situated on the N2, which links it to East London/Bhisho and Port Elizabeth

- The R400 links Grahamstown to Riebeeck East and the N10.
- The MR476 links Grahamstown and Alicedale.
- The R343 links Grahamstown and Salem to Kenton-on-Sea and Alexandria.
- The R350 links Grahamstown to Bedford.
- The R344 links Grahamstown to Adelaide.
- The R67 links Grahamstown to Port Alfred in the South and Fort Beaufort to the North.

### RAIL

No functional rail service. The intention is to look at the feasibility of changing the train station to a bus station /depot.

### AIRSTRIPS

There is a municipal airstrip just outside of Grahamstown, adjacent to the Army Base.

### 2.6.1.3 ELECTRICITY AND ENERGY

The Municipality is the Service Provider for electricity and distributes in the old Grahamstown (CPA) municipal area and the newer urban settlements are serviced by ESKOM (Grahamstown East). Riebeeck East, Alicedale and the rural farm areas are carried out by Eskom.

A service provider has been appointed to develop the Electricity Master Plan. The Maintenance Plan is in place but not fully adhered to, due to staff shortages. Budgetary constraints hinder the effective operation and maintenance as the infrastructure is aging and needs to be upgraded.

### Accesses to Electricity

There 5 wards with the most households with no access to electricity are (From highest to lowest)

o Ward13

- o Ward 3
- o Ward 11
- o Ward 14
- o Ward 10
- There has been an overall reduction in the number of persons without access to electricity.

None	0	32		

Source: Stats' 2011

Provision of electricity has improved from 73% in 2001 to 90% in 2011. The dependency on paraffin was reduced from 24% in 2001 to 7.4% in 2011.

### ALTERNATIVE ENERGY -

The Municipality is looking at innovative alternative energy sourcing methods and progress has been made with the Innowind at Waainek to create alternative power wind farm.

The southern portion of the municipality has been identified as having potential for the development of wind energy generation infrastructure. Land Use and Locational Policy for Renewable Energy Projects: Cacadu District Municipality Renewable Energy Policy –

This draft policy sets out criteria which will enable the evaluation of renewable energy generation infrastructure in a manner which will limit the potential negative impacts thereof.

## 2.6.1.4 SOLID WASTE MANAGEMENT

Makana municipality is responsible for waste management which includes the street sweeping, collection, transportation and disposal of solid waste. The municipality adopted a Local Waste Management Plan in 2007 which was endorse by the DEDEAT

Persons with no access to	No of persons (2001)		No of per	sons (2011)	Change		
Refuse Removal	Numeric	% of the total	Numeric	% of the total	Numeric	% Change	
Ward 1	30	11.11	28	8.54	-2	-6.67	
Ward 2	51	18.89	1	0.30	-50	-98.04

Ward 11	6	2.22	6	1.83	0	0.00	
Ward 12	3	1.11	0	0.00	-3	-100.00	
Ward 13	-	-	121	36.89	-	-	
Ward 14	-	-	116	35.37	-	-	
EC104: Makana	270		328		58	21.48	

### Table: Persons with no access to Ruse Removal

### Table 12: Refuse Removal Services

BASIC SERVICE / INFRASTRUCTURE	MAKANA AREA (STATSSA 2001)	MAKANA AREA (STATSSA 2011)	%	GROWTH % p.a.
Total number of households	18 009	21 388		
Refuse Removal	17 815	21 388		
How often by municipality?				
a) @ least once a week	15 393	19 017	88.9	2.4
b) Less often	71	146	0.7	10.6
How often is refuse bags provided		4 Time per month for each house hold		
Mode Disposal				
i) Communal dumping	122	184	0.9	5.1
ii) Own dump	1 939	1 446	6.8	-2.5
iii) No disposal	290	329	1.5	1.3
Other	0	266	1.2	

In 2011, 89% of households had access to a weekly refuse removal service as opposed to 86.4% in 2001.

The overall improvement of service provision and development of bulk infrastructure should have a positive impact on economic growth and increase possibilities to attract new business opportunities. The municipality should focus on the maintenance, refurbishment of existing infrastructure and recycling programs.

### 2.6.1.5 LANDFILL SITE

The Makana Municipality has three landfill sites namely the Grahamstown, Alicedale and Riebeeck East landfill; all the sites are managed by the Municipality. The landfills are located on municipal property. The landfill site at Grahamstown was permitted by the Department of Water Affairs and Forestry on 10 September 1996 as a Class G:M:B+ waste disposal site in terms of Section 20 of the Environment Conservation Act (Act 73 of 1989).

**Grahamstown:** The site is located 2km from town at co-ordinates: S 330 17' 28" and E 260 29' 32". The expected lifetime of the site is approximately 20 years. The municipality uses a cell method to dispose of the waste in an old quarry. Waste is properly and regularly covered with excavated material from the quarry and building rubble. A bulldozer is used on the site for compaction and covering purposes. No burning of waste takes place. The Municipality is experiencing problems with the disposal of chillies and abattoir waste.

These waste streams need to be disposed of in a dedicated deeply dug trench and be covered immediately after disposal.

It could be necessary depending on the quantities of abattoir waste (dead animals) to treat the waste with lime once disposed of. Illegal scavenging is only taking place at the landfill during the night. The site is properly fenced with an access gate at the entrance. Record-keeping of incoming waste should be improved and properly recorded. The site continues to be operated in accordance with the permit conditions for the site and the Minimum Requirements for Waste Disposal by Landfill document as published by DWAF in 1998.

Position of site:	Located approximately 2km from town at co-ordinates: S 330 17' 28" and E 260 29' 32".
Permit:	Yes
Year issued:	10 September 1996
Classification of site:	GMB+
Type of Operation (end – tip, trench, cell):	Cell method, filling of quarry.
Estimated size of site:	Approximately 10 ha.
Estimated remaining life of site:	20 years
Separation of fresh and contaminated water:	Yes.
Groundwater monitoring:	6 monthly monitoring of down stream borehole located at neighbouring farmer – no problems with ground water pollution encountered
Volumes per day, week or month:	It is estimated that the site receives approximately 125 tons per day.
Is cover material available?	Yes, from quarry and building rubble
Is the drainage sufficient?	Yes
Is there access control?	Yes, but record keeping of incoming waste should be improved
Is the site fenced?	Yes
Does the site have a sufficient buffer zone?	Yes (2 km)
Type of equipment utilised on site:	Kamatsu Bulldozer
Operating hours:	The site is open 24 hours. Saving plan for closure: No estimate regarding closure exists. The Municipality must budget for the closure and rehabilitation timeously.

**Alicedale:** this site was authorised in May 2005 through Directions in terms of Section 20(5)(b) of the Environment Conservation Act, Act 73 of 1989, by the Department of Water Affairs and Forestry. The site is located approximately 500m from town (Co-ordinates: S 330 19' 04'' and E 260 04' 35''). The landfill site is operated by filling an old sandstone quarry. The site is approximately 0.9 Ha in size. The expected lifetime of the site is approximately 20 years.

Waste is covered once a year by hiring a bulldozer for this purpose. Waste is being burned on a regular basis although it is prohibited in the authorisation for the site. There is scavenging taking place at the landfill. The site is not fenced and should be equipped with a gate at the entrance to prevent unauthorised persons from entering, access is not controlled. It is recommended that the burning of waste be phased out as an operational method and that waste be covered on a weekly basis as required in the authorisation for the site that the site be fenced and proper access control be executed (including proper record-keeping of incoming waste streams) and that the salvagers be formalised or disallowed on the site. The management of the site in general should be improved in accordance with the Minimum Requirements for Waste Disposal by Landfill document published by DWAF in 1998 and in accordance with the authorisation issued for the site.

Position of site:	The site is located 500m from town (Co-ordinates: S 330 19' 04" and E 260 04' 35")						
Permit:	Yes, controlled through Directions						
Year issued:	2005						
Classification of site:	GCB – Type of Operation (end – tip, trench, cell): Filling						
	of sandstone quarry, waste burning						
Estimated size of site:	Approximately 0.9 ha.						
Estimated remaining life of site:	20 years						
Separation of fresh and contaminated water:	None in place.						
Groundwater monitoring: Not required							
Volumes per day, week or month: It is estimated	that the site receives approximately 1.56 tons per day.						
Is cover material available? Yes, from quarry							
Is the drainage sufficient? No							
Is there access control? No							
Is the site fenced? No							
Does the site have a sufficient buffer zone? Yes	(500m)						
Type of equipment utilised on site: No permanent equipment, a Bulldozer is hired once a year for							
covering purposes							
Operating hours: There are no official operating	hours for the site.						
Saving plan for closure: No estimate regardin	g closure exists. The Municipality must budget for the						

**Riebeeck East** authorised in May 2005 through Directions in terms of Section 20(5) (b) of the Environment Conservation Act, Act 73 of 1989, by the Department of Water Affairs and Forestry. The site is located approximately 2 kilometres from town (Co-ordinates: S 330 12' 35'' and E 260 10' 56''). The site is approximately 0.5 Ha in size. The expected lifetime of the current disposal area is approximately 10-15 years. Waste is covered once a year by hiring a bulldozer for this purpose. Waste is being burned

on a regular basis although it is prohibited in the authorisation for the site. The site is fenced (but need maintenance) with an access gate to prevent unauthorised persons from

closure and rehabilitation in the near future.

entering. Access to the site is however not properly controlled.

It is recommended that the burning of waste be phased out as an operational method and that waste be covered on a weekly basis as required in the authorisation for the site. Access to the site should be controlled and proper record keeping of incoming waste should be done. The management of the site in general should be improved in accordance with the Minimum Requirements for Waste Disposal by Landfill document published by DWAF in 1998 and in accordance with the authorisation issued for the site.

Position of site: The site is located approximately 2 kilometres from town (Co-ordinates: S 330 12' 35" and E 260 10' 56")
Permit: Yes, controlled through Directions
Year issued: 2005
Classification of site: GCB –

**Type of Operation (end – tip, trench, cell):** No proper operational method followed, waste is burned Estimated size of site: Approximately 0.5 ha. Estimated remaining life of site: 10 -15 years Separation of fresh and contaminated water: None in place. Groundwater monitoring: No, not required Volumes per day, week or month: It is estimated that the site receives approximately 0.56 tons per day. Is cover material available? Yes Is the drainage sufficient? No Is there access control? No Is the site fenced? Yes, but need maintenance Does the site have a sufficient buffer zone? Yes, 2 km from nearest house Type of equipment utilised on site: No permanent equipment, a bulldozer is hired once a year for covering purposes **Operating hours:** There are no official operating hours for the site. Saving plan for closure: No estimate regarding closure exists. The Municipality must budget for the closure and rehabilitation in the near future.

### Recycling and community awareness

Municipality has recycling program in Grahamstown landfill which called Masihlule and has a Public Private Partnership with Social development and private company. Municipality has EPWP program for community environmental awareness program where it employee one environmental facilitator for each ward for facilitate environmental campaigns in the community.

### 2.6.1.6 AIR QUALITY

There is an opinion that the Air Quality Act requires local municipalities to monitor ambient air quality within its area of jurisdiction. From an environmental perspective the importance of appointing a permanent air quality officer to regularly monitor air pollution in highly developed areas with heavy industrial emissions is acknowledged. This situation does not warrant the appointment of a permanent air quality officer thus the municipality is looking at a more sustainable solution like partnering with the Cacadu District Municipality and DEA to monitor the air quality in Makana.

An Air Quality Management (AQM) Plan is a recognized tool in terms of national policy and legislation for the management of air quality in order to protect human health and the environment. The objectives to be met by the implementation of the AQM Plan are:-

- To ensure sustainable implementation of air quality standards throughout the municipal area.
- To promote a clean and healthy environment for all citizens;
- To minimize the negative impacts of air pollution on health and the environment; and
- To ensure provision of sustainable air quality management support and services to all stakeholders within the District.

### Air Quality Management Plan Development

The AQM Plan must be in line with the requirements of the National Environmental Management: Air Quality Management Act, No. 39 of 2004, and seek to;

- Advise on the municipality's responsibilities and related consequences in terms of Chapter 3
  of the National Environmental Management Act to the extent that that Chapter is applicable;
- Identify and analyse key pollutants in the municipality, its sources and impacts, including past, on-going and planned activities;
- Identification of sources for which the implementation of emission reduction measures in the short-term is justified (offenders falling outside permissible emission standards);
- Identify measures and options to improve air quality in the municipality;
- Address the effects of emissions from industrial sources, residential applications and any other source;
- Determine emission standards at the municipal level.
- Provide for institutional arrangements and planning matters;

## 2.6.1.7 DISASTER MANAGEMENT

### Introduction:

The aim of the Disaster Management Act, No. 57 of 2002, and the Disaster Management Framework, is to minimise the effects of hazards on local communities by ensuring co-ordinated efforts to manage risks. This plan has been designed around the identified risks, highlighted during the Risk Assessment process. A Disaster Management Plan outlines the key institutions and programming components relative to deal effectively with disaster management and emergency responses. Partnerships have been established with Provincial Government, District and Non-governmental Organisations with a responsibility or capacity to render disaster management services. In terms of Makana Disaster Management Plan the following are the result of risk assessment conducted that the municipality is prone to:

- Tornado
- Floods
- Fires
- Epidemics
- Accidents

Furthermore the plan contains contingency plans for every risk identified

The most common disaster that occurs in the area is floods and protracted drought. Tornado's is fairly common and has caused extensive damage to homes in Alicedale and the Grahamstown area.

### **Disaster Incidents**

Makana Municipality was affected by Disaster on the 8<sup>th</sup> October 2008 where 161 houses were affect in Grahamstown, 22 house in Alicedale. An amount of 101000.00 was approved by Provincial Government and project was to be coordinated by them. The project has been delayed until to date.

Makana was again in October 2012 effected floods where most of its roads infrastructure was damaged. In October 2012, The Premier of the Province of the Eastern Cape had, in consultation with other MEC's declared a provincial state of disaster in terms Section 41 of Disaster Management Act (Act 57 of 2002)

After the occurrence of the October 2012 disaster incident, the Provincial Disaster Management Centre had, in terms of section 35 of the Disaster Management Act 57 of 2002, initiated efforts to assess the magnitude and severity of the disaster and informed the National Disaster Management Centre of the cost of the damages for provision of emergency relief.

The National Treasury had through the National Disaster Management allocated an amount R43.5m for emergency projects which was divided among the Nelson Mandela Bay Municipality and five other municipalities in the Cacadu District Municipality, Makana Municipality allocated R 2 400 567. For the following projects

The following were the projects to be attended by the grant;

- 1. Repairs to electrical infrastructure at Old town filters, Evans Poort and Market feeders R2 400 567 and
- 2. Repair pump station (replace sewer pump) at Lingelihle R387 236, the above mentioned projects were completed between January 2013 and May 2013.

There were about 128 informal house damage by the flood, the Makana Municipality made an application for temporary housing structures which the Department of Human Settlement, on the 23<sup>rd</sup> of November 2012 made an assessment together with municipality and 39 temporal housing structure where approved.

Makana Municipality subsequently to that was allocated to an amount R8 7224 000 for reconstruction and rehabilitation. The above mentioned amount is intended to re-gravel, reconstruction of municipal roads, storm water pipe, channels, slabs and pedestrian bridges that were affected during the October 2012 flooding, this include Alicedale.

The Provincial Disaster Management Centre established a Project Management Steering Committee to monitor the funds allocated for response and recovery of the flood incidents which engulfed the Province during the period.

### 2.6.1.8 HOUSING AND SETTLEMENT ANALYSIS

### Heritage:

The heritage resource of the municipality is significant and contributes to the economy of the municipality and needs to be conserved in terms of the provisions of the The National Heritage Resources Act (Act 25 of 1999 - NHRA). The Act introduced an integrated system for the identification, protection and management of heritage resources nationally, provincially and at municipal level.

The Act prescribes that land use planning and management to give attention to, and respond to, heritage considerations both at site and landscape levels. Of particular significance is the obligation placed on the municipality to undertake the preparation of a comprehensive heritage inventory in terms of Section 30(5) of the National Heritage Resources Act, 1999 (Act 25 of 1999), Makana Municipality have not prepared such an inventory.

It is also important to note that the heritage resource of the municipality does not only comprise of conservation worthy buildings and urban precincts, but also includes physical and cultural landscapes.

### **Urban and Rural Settlement Areas:**

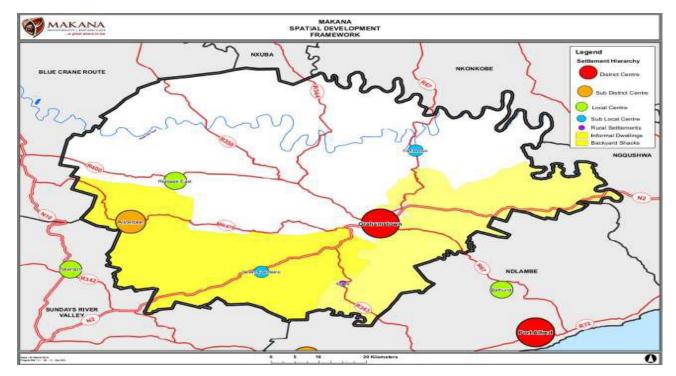

The existing Settlements are:

- Grahamstown
- Riebeeck East
- Alicedale
- Seven Fountains
- Fort Brown
- Salem (Surrounding land is the subject of a substantial land claim, which may result in the need to expand the settlement)
- Sidbury (Entirely surrounded it has become the administrative centre for game farming and no longer performs a true human settlement function.)

### The approximate population distribution is:

SETTLEMENT	PERCENTAGE
Grahamstown	80%
Alicedale	10%
Riebeeck East	5%
Rural Areas	4%

### The map below depicts human settlement in Makana Municipality.

### **Total Population:**

The data extracted from the Census 2011 figures has revealed the following about the Municipality:

- The growth over the past 10 years has been lower than 1% per year.
- The total population has grown by almost 8% from 2001.
- There are now approximately 5900 new persons residing in the municipality.
- The growth has been approximately 590 persons per year.
- Ward 4 reflects an increase of almost 70%.
- The population of Wards 11 and 8 have remained static.
- The population is highly urbanized
- The population density of 18,36 persons/km<sup>2</sup> is higher than the district density of 7,7 persons/km<sup>2</sup>.
- The population density has increased from the 16,1 persons/km<sup>2</sup> in 2001.
- The total number of households has increased from 17 000 to 21 388.
- The average household size is 3.8 persons

### Informal dwellings

The five wards with the highest no. of informal dwellings are (From highest to lowest)

- o Ward 3
- o Ward 14
- o Ward 11
- o Ward 13
- o Ward 9

There has been a reduction in the number of informal dwellings from 2001.,informal dwellings are concentrated in Grahamstown and in Alicedale.

Informal	No of persons (2001)		No of persons (2011)		Change	
Dwellings (Not Backyard Shack)	Numeric	% of the total	Numeric	Numeric % of the total		% Change
21004001: Ward 1	46	2.93	28	1.96	-18	-39.13
21004002: Ward 2	76	4.85	4	0.28	-72	-94.74

EC104: Makana	773		723		-50	-6.47

# Table 13: Dwelling type and Tenure status Source: Stats' 2011

BASIC SERVICE INFRASTRUCTURE	MAKANA AREA (STATSSA 2001)	MAKANA AREA (STATSSA 2011)	%	GROWTH % p.a.
Total number of households	18 009	21 388		
Dwelling Type	17 815	21 387		
Brick house in yard	10293	15822	74.0	5.4
Mud/Traditional Dwelling	3112	780	3.6	-7.5
Apartment in block of flats	761	647	3.0	-1.5
Town/cluster/semi-detached	264	872	4.1	-2.4

house (simplex: duplex: triplex)				
House/Flat in back yard	882	810	3.8	-0.8
Informal shack in yard	785	722	3.4	-0.8
Informal shack not in back yard	1598	1431	6.7	-1.0
Room/flate not in back yard but on shared property	66	117	0.5	7.7
Other (ship/caravan)	54	186	0.9	24.4
		21 388		
Rented		5 685	26.6	
Owned but not yet paid off		1 701	8.0	
Rent-free		4 130	19.3	
Owned and fully paid off		8 629	40.3	
Other		1 243	5.8	

The number of traditional dwellings significantly decreased, by 75% over the last ten years (2001 to 2011). There has also been a slight decline in both the number of informal shacks in the yard and those not in the back yard since 2001. This implies that the there is still a demand for urban housing development.

### **Housing Demand**

The total estimated housing demand resulting from population growth (Based on the current growth rate) is 4430 additional households by 2030. This demand equates to a land requirement of approximately 220 ha across the entire municipality. Most of this demand would be accommodated in Grahamstown. Based on the Census 2011 figure the housing demand associated with the eradication of informal dwellings would be 723 households and backyard shacks 1432 households. The associated land demand is 36ha and 72ha respectively.

Officials speculate that there may be considerable duplication in the backlog figures for Grahamstown and estimate that the figure should be in the region of 7000 to 8000 households. If the informal dwelling and backyard shacks figures are deducted from this approximately 6000 households or persons are accommodated elsewhere or in formal dwellings in the established urban areas of the municipality. The settlement planning priority is therefore to provide adequate shelter to those households accommodated in informal settlements and in backyard shacks.

### Housing Backlog

A the 9 September 2011, our housing waiting list had an inflated figure of 16 582. Our housing needs register reveals the following:

- 1. Fort Brown 111(not recently verified)
- 2. Seven Fountains 222(not recently verified)
- 3. Riebeeck East 306(not recently verified)
- 4. Alicedale 948 Verified in 2013
- **5.** Grahamstwon 14 995(not recently verified)

### Housing sector plan

Makana Municipality reviewed its Housing Sector Plan in 2012. Currently the municipality has some capacity to deal with housing administration and development and Makana Council is committed to establish a fully-fledged department to manage the Human Settlement development.

Municipality	House	Del to	Current	housing	Serviced	Units	New
	Need	date	project	units	sites	rect.	projects
Makana	14026	5217		200 house	600	64 (3	188 (1
				(2 projects)	(1 project)	Projects)	projects)
Mayfield							100 (600
(W3)							serviced sites
							increased to
							1000)
Alicedale						16	
Scotsfarm						24	
Ghost Town						24	
Mayfield							100 units
(W3)							

Table 14: The table below gives a reflection of the housing status:

The following projects are currently taking place in Makana

- Mayfield Phase 2 •
- Transit Camp 440

The municipality has projects that require a RECTIFICATION PROGRAMME to be implemented as the matter of urgency. The projects that are submitted to the Department of Human Settlement are as follows:

- PRE-1994 •
  - Alicedale
  - Ghost Town
  - Scotts farm •

### **POST-1994**

Projects for the period were submitted to NHBRC and they have done the assessment for funding application. Are there any rectification projects underway With regards to the disaster that occurred in 2006 & 2008 Disaster that hit Makana, Human Settlement has approved the repairs of 2 008 houses. A contractor has been appointed and Dept. of Human Settlement in conjunction with Makana Local Municipality is busy finalizing the funding resolution.

Based on the needs expressed by the community during the IDP participation processes, plans are underway to identify informal settlements and to investigate upgrade formalisation initiatives.

### **Rhodes University Campus**

The Rhodes University Campus is the largest single ownership footprint within the Grahamstwon urban footprint. Rhodes University is currently undertaking a review of their long term spatial planning and were not able to provide any details thereof during the preparation of this document. For the purpose of this review information was sourced form older Rhodes University Spatial Planning. Extracts thereof are set out below.

PROJECT						
Current	6954	2009	2010	2014	2019	2023
Number						
		2%	7093	7678	8477	9176
		4%	7232	8461	10294	12042
		8%	6510	10218	15013	20425
PROJEC	TED GROW	TH OF RESIDENCE	S			
Current	6954	2009	2010	2014	2019	2023
Number						
		2%	2	8	18	26
		4%	3	18	39	60
		8%	7	38	95	158

The Municipality and Rhodes University will have to integrate the infrastructure planning to ensure the availability of bulk services. Further to this the need to accommodate additional off- campus residence will have a direct impact on the existing urban fabric. (Higher densities, demolition of older structures, new structures, increasing height, etc)

It is therefore recommended that the spatial planning and growth of the University be undertaken without effective participation inputs from the Municipality both spatial planning and engineering services)

### Key Issue for Human Settlement

- The Department of Human Settlements is tasked with the funding of and development of Human Settlements.
- Makana Municipality are mandated with making appropriate land available to meet the housing demand (Either through the guidance of the existing market forces (private development) or through State funded development processes.
- Informal dwellings are concentrated in Wards 3, 10, 11, 13 and 14.
- Backyard shacks are concentrated in Wards3, 5,7,10 and 14.
- There is a significant housing backlog (Approx. 14000 in Grahamstown, 1000 in Alicedale and 450 in Riebeeck East)
- Mayfield Phase 2 is under construction.
- The Ethembeni Settlement plan is in preparation.
- The Alicedale housing project has received Environmental Authorisation and the Township Establishment is now underway.
- The CDM settlement structure has been adopted.
- There is low population growth of less than 1% per year.
- Settlement development needs to be concentrated in the existing nodes.
- There is a demand for middle income dwellings.
- Guidelines need to be established for the provision of social and community facilities in the settlements.
- Settlement formalisation is underway in Seven Fountains and Fort brow

### 2.6.2 PUBLIC, SOCIAL, RECREATIONAL SERVICES AND AMENITIES FIRE SERVICES

Makana operates a firefighting service that provides fire fighting, fire preventing, and road rescue services. This service is render within a very large area. The service and personnel is funded by Cacadu District Municipality. The SLA has been entered into between Cacadu and Makana and the funding component is regulated by an annual built-in escalation or yearly top-up. There is a fire office in Grahamstown run by the Chief Fire Officer.

### Community halls:

There are 8 *community/town halls* in the Makana area which are utilised by the community. These facilities maintained on a regular basis and are in a good state of repair.

### Libraries:

There are 8 libraries in Makana and they managed by the Municipality in terms of a Service Level Agreement with the Province. These libraries are situated in ward 1; 7; 8; 10; 14 and a mobile library that services ward 5.

### Sport and recreation facilities:

### Grahamstown- erhini

- Indoor Sports Centre (New Facility under construction)
- Mickey Yili Rugby Fields (2 x Playing fields) In need of upgrading especially lighting and stands
- Millennium Cricket Stadium (1 x field with turf wicket and Practice nets)
- Dlepu Stadium (2 x soccer fields) In need of upgrading especially lighting, ablutions and Pavilion
- Foley's Ground (soccer field with tennis court and basketball court under construction
- The Oval Lavender Valley Sports grounds (2 x rugby fields and Basketball court) In need of upgrading leveling of fields, ablutions and lighting
- Egazini Rugby field (1 x field under reconstruction)
- Extension 5 Satellite Soccer ground (3 x Soccer fields out on tender)

### Alicedale:

- Transriviere (1 x Rugby Field plus two netball courts
- Kwanonozwakazi (1 x Soccer Field and Netball court)

### Riebeek east:

Kwanomzamo (1 x Rugby field and netball court)

Council has a Maintenance Budget for Sport grounds to the value of R 2,062,620 all inclusive and Capital Program for R 406,000

There are two Golf Courses in the Municipal Area, both privately run, the one being Grahamstown and the other in Alicedale

### CEMETERIES

### Grahamstown

 Mayfield Cemetery (currently in use and has capacity for another 12 Years at the current rate of burials

- Waainek Cemetery (currently in use and has capacity for a further 5 years at current rate of burials
- Lavender Valley (Currently not in use other than for reserved graves)
- Grahamstown Historical Cemetery (currently not in use other than for reserved graves)
- Extension 1 Cemetery (currently not in use)
- Kings Flats Cemetery (currently not in use other than for reserved graves)
- Kwadinga Cemetery (currently not in use)

### Alicedale

- Kwanonzwazi (currently at capacity)
- Transriviere (currently in use and has capacity for a further 5 years at current rate of burials)
- Town Cemetery (currently in use and has capacity for a further 5 years at current rate of burials)

### **Riebeeck East**

- Kwanonzamo (currently in use and has capacity for a further 5 years at current rate of burials)
- Town Cemetery (currently in use and has capacity for a further 5 years at current rate of burials)

### D Outlying Districts

- A number of farm cemeteries that are not registered (status of cemetery and available space for burials still being investigated

### PRIMARY HEALTH CARE

Health services are provided by the Department of Health. There are 12 *clinics* and 2 *ambulance services* all stationed in Grahamstown.

Institution	Contact Person	Address	Telephone Number
Anglo African Clinic	Mrs. Haywood	Huntley Street	(046)6223430

Tantyi Clinic	Mrs. Somngesi	"T" Street	(046)6036153

Table 15:	Makana	<b>Clinics and</b>	hospitals
			noopitaio

Makana Municipality has two Ambulance Services i.e. EMS and Netcare

For those patients referred to either Port Elizabeth or East London there is transportation organised by the hospital and the ambulance service; on Monday, Wednesday and Friday (PE) and Tuesday is East London.

## EDUCATIONAL INSTITUTIONS (SCHOOLS)

There are 33 Primary Schools; 8 High Schools; 3 pre- schools; 2 Combined School in the Makana area. As one can see, Makana also boasts a host of private schools, DSG; St Andrews and Kingswood College with Amasango & Kuyasa for kids with special needs.

There are 8 libraries in the Makana Area. The libraries are situated in the following wards:	

## Table 17: Community Facilities and Public Amenities

**TRAFFIC SERVICES** 

Makana municipality operates a traffic service (7 posts). A fully functional motor vehicle test center is located in Grahamstown and is fully operational. There is also Grade A Traffic and Parking (town). Makana delivers an agency service for licensing (NATIS) on behalf of the Provincial Department.

Three Peace Officers have been appointed to enforce by-laws.

## **COMMUNITY SAFETY**

The South African Police Service Act as amended made provision for the establishment of municipal police services and community police forums. In Makana a cluster ward approach was taken to establish Community Police Forums in total five are established. During the Community based planning, concern was raised around the effectiveness of these forums and the lack of visibility of the SAPS.

SAPS Crime Research Statistics show that crime levels are high in Grahamstown. Contact crimes against a persons and burglary at residential premises are most prevalent.

### Areas of Prioritised Intervention

- Increase visibility of Police
- Resuscitate Community Policing Forums

There are 5 police stations in the Makana region that are as follows:

- 1x Grahamstown
- 1x Riebeeck East
- 1x Alicedale
- 1x Fort Brown
- 1x Joza

### KPA 2. 6.3: FINANCIAL PLANNING AND BUDGET ANALYSIS

### INTRODUCTION:

**Strategic Objective:** Improve financial management and implement appropriate financial management policies, procedures and systems

Intended Outcome: Improved financial management and accountability

### Municipal Financial Targets

To improve its audit status each year and maintain an unqualified audit opinion by 2014. Income Allocations and Sources

The Makana Municipality derives its income from two sources namely;

### ⇒ External income

- o Government Grants and subsidies
- o Capital Grants
- o Loans (DBSA)

### $\Rightarrow$ Own income

- Property rates, including those levied on agricultural properties
- Service charges on electricity, refuse removal, water and sanitation
- o Interest on outstanding debtors and external investments
- Rental on facilities
- o Fines
- Licenses and permits

### Funding and Equitable Share

The importance of the municipality's reliance on grant funding is accentuated by the pattern of revenue streams. This means that considerable thought is to be given to cash flow management in order to smooth out the expenses in line with revenue flows. The growth or otherwise of the equitable share is a matter that is very pertinent to the municipality's cash management.

### FINANCIAL MANAGEMENT POLICIES:

The purpose of Financial Policies is to provide a sound environment to manage the financial affairs of the Municipality. The following are key budget related policies:

- **Tariff Policy** the Policy prescribes the procedures for calculating tariffs. This policy is required in terms of Section 74 of the Local Government Municipal System Act, Act 32 of 2000;
- **Rates Policy** a Policy required by the Municipal Property Rates Act, Act 6 of 2004. This Policy provides the framework for the determination of rates;
- Indigent Management support Policy to provide access to and regulate free basic Services to all indigents; Indigents are those households who are unable to access or pay for basic services due to a number of socio-economic factors. Indigents must gain access to the Municipal Services infrastructure including water supply, sanitation, refuse removal, electricity and alternative energy where no electricity is available. The Municipality needs to ensure that the services provided to indigent households are always maintained and available. The indigent subsidy must be targeted to the poor.
  - **Budget Policy** this Policy set out the principles which must be followed in preparing Medium Term Revenue and Expenditure Framework Budget. It further ensures that the Budget reflects the strategic outcomes embodied in the IDP and related strategic policies.
  - Asset Management Policy the objective of the Policy is to prescribe the accounting and
  - Administrative procedures relating to the property, plant and equipment;

**Accounting Policy** - The policy describes the basis of presentation of the Annual Financial Statements in accordance with the Generally Recognized Accounting Practices and Accounting Standards.

**Supply Chain Management Policy** - this Policy is developed in terms of Section 1 of the Municipal Finance Management Act, Act 56 of 2003. The principles of this Policy is to give effect to a fair, equitable, transparent, competitive and cost effective system for the procuring of goods and services, disposing of goods and selecting of contractors in the provision of Municipal Services.

Subsistence and Travel Policy - this Policy regulates the reimbursement of travelling and

• Subsistence costs to officials and Councilors attending official business.

Credit Control and Debt Collection Policy - this Policy provides for Credit and Debt

- Collection Procedures and mechanisms to ensure that all consumers pay for the services
- That is supplied.

Cash Management and Investment Policy - this Policy was compiled in accordance with

• The Municipal Investment Regulation R308 and ensures that cash resources are managed in the most efficient and effective manner possible.

**Short-term Insurance Policy** - the objective of the Policy is to ensure the safe-guarding of Council's assets.

## General Ledger Chart of Accounts Maintenance Policy

 A current and accurate Chart of Accounts is an integral part of the accounting systems of the municipality. This Chart of Accounts is generally consistent with the definitions and procedures presented in the GRAP (General Recognize Accounting Practices) Requirement as well as the General Financial Statistics (GFS Classification) and various budget reform processes as aligned by National Treasury.

### Information Technology Policy

- Aim of this policy is:
- To promote the professional, ethical, lawful and productive use of Makana Municipality information systems.
- To define and prohibit unacceptable use of Makana Municipality information systems.
- o To educate Municipal officials about their Information Security responsibilities.
- To describe where, when and why monitoring may take place.
- To outline disciplinary procedures.

## • Debt Management Policy

### The objectives of this policy are to:

- Record the circumstance under which a municipality may incur debt.
- Describe the conditions that must be adhered to by the Municipal Manager or his/her delegate when a loan application is submitted to council for approval;
- And record the key performance indicators to ensure access to the money markets.
- Petty Cash Policy

### **Policy Objectives**

- o To ensure the correct procedures are followed when requesting a petty cash facility
- $\circ$   $\;$  To ensure that petty cash is kept safe at all times  $\;$
- To ensure that advances are only paid for valid expenses purchases and that all transactions are accurate and complete
- To ensure that petty cash is balanced and reconciled on a daily basis in order to detect mistakes, and to prevent the float being depleted before replenishment takes place
- To ensure that replenishment of petty cash is done when required and that replenishment only takes place for amounts that are supported by valid supporting documents.
- To ensure that the petty cash facility is available and managed well in the absence of the regular petty cash official.

### TARIFF SETTING

Makana Municipality derives its revenue from the provision of services such as electricity, water, sanitation and refuses removal. A considerable portion of the Revenue is also derived from property rates and grants by National Governments as well as other minor charges such as traffic fines.

As in the past, increase cost primarily driven by the Consumer Price Index (CPIX), dictates an increase in the tariffs charged to the consumers and the ratepayers. It therefore follows that all the tariffs will have to be increased by a percentage in line with the forecasted CPIX estimated at 5.6 % for the 2015/2015 year and 5.4% for the 2015/2016 year and 5.4% for the 2016/2017 year.

It is realized that the ability of the community to pay for services rendered is also under tremendous pressure and that the economic outlook for the near future require everybody to make sacrifices.

The additional revenue that will be generated through tariff increased has to ensure continued service delivery.

DETAILS	2014/ 2015 PROPOSED TARIFF INCREASE
Property Rates	6%
Electricity	7.39%
Water	6%
Sanitation	6%
Refuse Removal	6%

The outcome of the proposed increase in tariffs for the 2013/2014 on the different a category is as follows:

The implementation of the Credit Control and Debt Collection Policy, particularly with regards to the appointment of the Debt Collection Agency will aid in ensuring that the Municipality reverts back to its collection rate of 91% over the past financial year. It is however envisaged that with the pressure on tariff increases to fund the Medium Term Budget, the payment rate will become under pressure and special attention will have to be paid on managing all revenue and cash streams especially debtors.

### **REVENUE FRAMEWORK**:

- 1 In order to serve the Community and to render the services needed, revenue generation is fundamental to financial sustainability of every Municipality.
- 2 The reality is that we are faced with developmental backlogs and poverty, challenging our Revenue generation capacity. The requests always exceed the available funds. This becomes more obvious when compiling the Municipality's Annual Budget

3. Municipalities must table a balanced and more credible Budget, based on realistic estimation of revenue that are consistent with their budgetary resources and collection experience

- 4 The Revenue strategy is a function of key components such as:
- 4.1 Growth in town and economic development
- 4.2 Revenue enhancement
- 4.3 Achievement of above 90% annualized collection rate for consumer revenue;
- 4.4 National Treasury guidelines;
- 4.5 Electricity tariff increase within National Electrification Regulator of South Africa (NERSA) approval;
- 4.6 Approval of full cost recovery of specific department
- 4.7 Determining tariff escalation rate by establishing / calculating revenue requirement; and The following table is a high level summary of the projected operating revenue for the Municipality over the Medium Term:

## EXPENDITURE FRAMEWORK:

- 6.1 Some of the salient features and best practice methodologies relating to expenditure include the following:
- 6.1.1 Asset renewal strategy (infrastructure repairs and maintenance a priority)
- 6.1.2 Balanced budget constraint (Expenditure cannot exceed Revenue)
- 6.1.3 Capital programme aligned to Asset renewal Strategy
- 6.1.4 Operational gains and efficiencies resulting in additional funding capacity on the Capital Programme as well as redirection of funding to other critical areas, and
- 6.1.5 Strict principle of no project plan (business plan) no budget allocation (funding allocation)
- 6.2 The following table is a high level summary of the total projected expenditure for the Municipality over the Medium Term period and aligned to the IDP.

### Supply Chain Management

• Makana municipality have the Bid Committees. Specification, Evaluation and Adjudication Committee that sits on a weekly basis on availability of tenders.

The municipality does have a designated Contract Management Unit, however SCM drafts and compiles the

### KPA 2.6.4: LOCAL ECONOMIC DEVELOPMENT ANALYSIS

Provincial Spatial Economic Development Strategy (PSEDS)

In terms of the PSEDS, the following Sectors of the provincial economy will drive the growth of the Province and address unemployment and poverty:

- Agriculture, including agri-industry (with opportunities to impact considerably on the economic needs of the poor through Land Reform)
- Industry, including heavy and light industry and manufacturing
- Tourism, including domestic and foreign tourism
- Service sector including financial, social, transport, retail and government.

The following critical threats are identified in the PSEDS:

## (a) Agriculture and Land Reform

- Loss of productive commercial agricultural land to residential development
- Loss of land with agricultural potential in poor rural areas
- Land reform resulting in a loss of productive commercial agriculture
- Municipal rates on agricultural land
- Provision of adequate water supplies

#### o **Tourism**

- Safety and Security
- Land invasion and illegal activities affecting tourism assets

#### • Industry

- Reliability of services
- Social support services
- Destructive Inter-Municipal competition
- Municipal rates on Industrial and commercial development

#### OVERALL ECONOMIC PERFORMANCE

Regional Gross Geographic Product (R-GDP) is an important indicator of economic activity and comprises the value of all final goods and services, produced during one year, within the boundaries of a specific region and is commonly used to measure the level of economic activity in a specific area e.g. local municipality. Table 9 shows the overall historic performance of the Makana economy, and Table 10 compares the Makana growth rate with that of the district and the province.

#### This Table Makana Municipality Overall Economic Performance

Year	R-GDP (R'000 at 20 prices	00 Contribution to Cacadu R- GDP	Contribution to Eastern Cape R-GDP
1995	1 215 095	23.5%	1.92%
2001	1 219 496	21.2%	1.73%
2007	1 327 491	19.7%	1.51%
			(Source: Quantec, 2007)

#### This Table: Average Annual R-GDP Growth Rate

Period	Makana	Cacadu	Eastern Cape Province
1995-2001	0.06	1.83	2.60
2001-2007	1.47	2.82	4.21

(Source: Quantec, 2007)

The Makana R-GDP in 2007 (at year 2000 constant prices) was approximately R1, 3 billion, which accounted for 19.7% of the Cacadu R-GDP and 1.51% of the provincial R-GDP. Grahamstown makes the largest contribution to the Makana economy, mainly in the form of educational services and tourism related activities.

Looking at it from a historical perspective the Makana economy grew at a slow rate between 1995 and 2007, lagging behind district and provincial trends. The Makana economy performed below par from 1995 to 2001, as seen through a decline in agricultural incomes and changes in government and community service expenditures. From 2001 to 2007 the Makana economy grew at a faster rate than before (average of 1.47 a year), as tourism and agriculture recovered in the form of Private game reserves. Despite this, throughout the period 1995-2007, the Makana economy grew at a much slower pace than the Cacadu district and the Eastern Cape. There was thus a matching fall in the Makana area's contribution to district and provincial output.

## SECTOR CONTRIBUTION TO R-GDP

This section will briefly consider each of the different economic sectors individually .This will be done in order to see which sectors are most active and dominant in the Makana area, and to gain a better understanding of how each sector functions.

#### **Standard Industrial Classification**

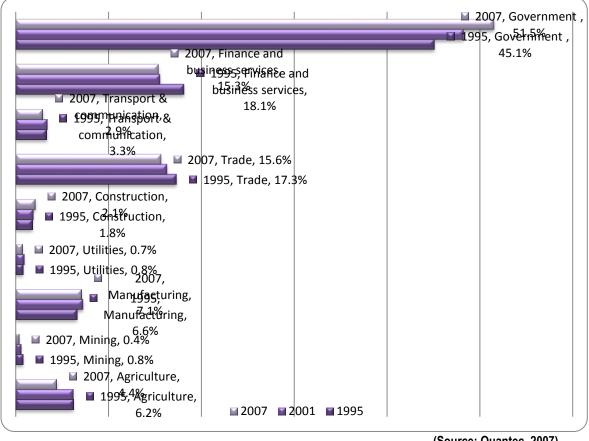

Classification of economic activity in this report shall be based on the South African Standard Classification of all Economic Activities (SIC) approach. Under this approach, similar forms of economic activity are organised and distinguishable under the following nine major sectors which are discussed further in detail and their performance in the Makana LED Strategy that was approved in February 2010:

- 1. Agriculture, hunting, forestry and fishing
- 2. Mining and quarrying
- 3. Manufacturing
- 4. Electricity, gas and water supply
- 5. Construction
- 6. Wholesale and retail trade;
- 7. Transport, storage and communication
- 8. Financial intermediation, insurance, real estate and business services
- 9. Government and Community services

As is evident, these sectors are made up of combinations of diverse forms of activity. Under the SIC approach, it is possible to disaggregate economic activity to sub-sectoral level, as well as into lower levels of greater detail.

## **Economic Structure**

The relative contribution of each economic sector to R-GDP shows how important each is to the overall functioning of the Makana economy. Figure 4.2 shows historic trends of how much each economic sector has contributed over the period 1995 to 2007. It must be noted that official statistics only show activity in the formal economy, and do not reveal the full extent of activity in the informal economy. **Figure 4.2: Sector contribution to R-GDP 1995-2007** 

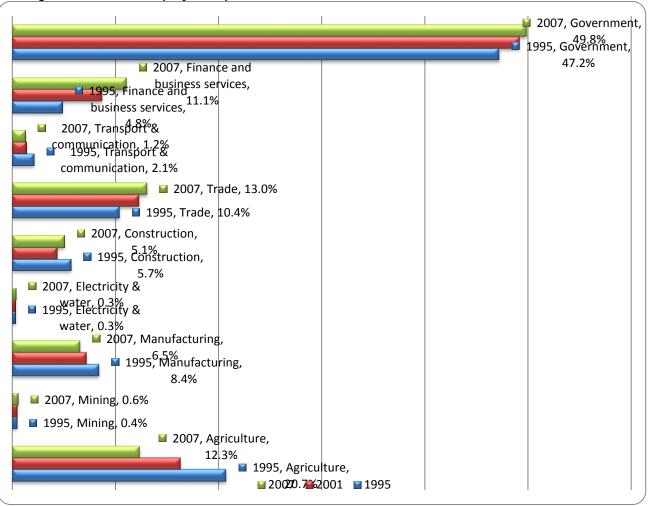

(Source: Quantec, 2007)

Makana does not possess a strong resource-based economy as the mining and agriculture sectors make a combined contribution of less than 5%. This then filters through to it having a manufacturing sector that plays a smaller role than is seen in the district and the province.

## **Sectoral Employment**

It is prudent to consider how sectoral employment compares with sectoral output. This will allow identification of those sectors that are capital or labour intensive and thus driving potentially driving job creation in Makana. Figure 4.3 shows employment contributions per sector, with associated changes from 1995 to 2007.

#### Figure 4.3: Formal employment per sector: 1995-2007

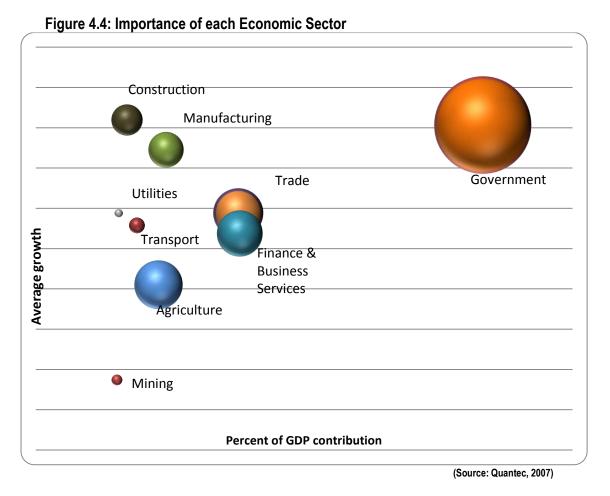

(Source: Quantec, 2007)

Employment created by the government and community services sector (50%) matches its R-GDP contribution of 51%. Employment in this sector has increased as the sector's output has also increased. A large proportion of this is from Rhodes University, which directly employs approximately 10% (+-1500 workers) of the entire Makana labour force, and indirectly creates employment in other sectors as well.

## **Relative importance of sectors**

Figure 4.4 reveals the relative importance of different economic sector in Makana as seen through their:

- Average R-GDP Growth rates from 1995 to 2007
- Average contribution to R-GDP from 1995 -2007
- Average employment contribution

From Figure 4.4 it is clear that Government and community services dominate the Makana economy is terms of R-GDP and employment contribution. Though they currently do not contribute sizeable amounts to the R-GDP, construction and manufacturing grew faster than other sectors, albeit still at a slow pace. During that same period agriculture was declining. Three sectors (community services, trade and finance) make up approximately 82.4% of Makana's output, and this is visually represented in Figure 4.4.

## MAKANA LOCAL ECONOMIC STRATEGY

LED Strategy: The LED Strategy was approved on the 3rd of February 2010

## SMME base line information and targets going forward

A creative city project was launched with following strategic objective and goals:

- 1. Grahamstown to be recognized as a creative city of South Africa by 2020.
  - a. To create 500 jobs in the arts and creative sector.
  - b. Create 500 jobs in the supporting industries.
  - c. To foster a strong cohesion in the Municipality through creativity and arts.
  - d. To create an environment conducive to creative
  - e. To identify public art spaces, places of learning and performances.
  - f. To increase access to existing creative/ tourism outlets

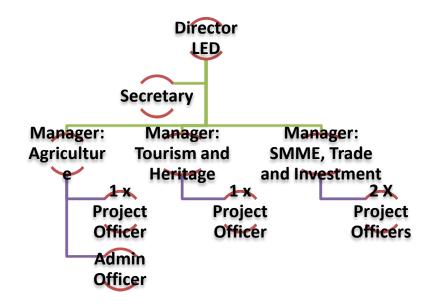

- g. To ensure that capacity building takes place to facilitate the establishment and growth of sustainable enterprises
- h. To foster strong partnerships with the government, government agencies, Businesses and NGO's.

**Funding Allocation:** 

ITEMS	2014//2015	2015/16	2016/17
GENERAL EXPENSES			
CAPITAL			

#### LED INSTITUTIONAL CAPACITY

Four positions were added to the organogram namely, Liaison Officers under the Managers: Agriculture, Tourism and Heritage, as well as SMME, Trade and Investment

The Makana R-GDP in 2007 (at year 2000 constant prices) was approximately R1,3 billion, which accounted for 19.7% of the Cacadu R-GDP and 1.51% of the provincial R-GDP. Grahamstown makes the largest contribution to the Makana economy, mainly in the form of educational services and tourism related activities.

#### SECTORIAL PROFILES

This section provides an overview of all the economic sectors in Makana, profiling the nature and extent of activity to be found as well as their defining traits. In Makana there are three distinct types of activity to be found in this sector are:

## AGRICULTURE

## **Commercial Agriculture**

Commercial agriculture is found in the north of Grahamstown is known as Upper Albany, and accounts for approximately two thirds of the municipality. Livestock and game farming thus dominate in Upper Albany. Lower Albany land is suitable well suited to rain-fed cropping (Agriculture in Makana, 2008).

The main source of income for commercial farmers (78%) is from livestock farming and animal products. This is largely made up of dairy farming (41%). With regards to field crops, the majority of income comes from maize and chicory (a combined contribution of 74%).

Most value addition of commercial agricultural produce (packaging, canning, manufacturing, processing, etc.) occurs outside the Makana Municipality. There is however, some value addition that takes place, which will be discussed in the manufacturing sector profile.

#### Challenges Faced by Commercial Farmers in Makana include:

- Water shortages and inadequate infrastructure (irrigation, boreholes etc.) to mitigate resultant effects.
- Problem animals that are introduced through Private Game Reserves. These kill livestock and introduce diseases to the area
- Crime in the form of stock theft
- (Agriculture in Makana, 2008).

#### **Emerging and Subsistence Agriculture**

Emerging and subsistence agriculture in Makana follows patterns found throughout most of the Eastern Cape.

#### **Emerging farmers:**

Makana has PDIs that are engaging in agriculture of a commercial orientation, often on farms that were previously farmed by commercial farmers. Emerging farmers typically operate on plots of land that are less than 20ha in size which are often in the form of commonages leased out from the Makana Municipality or the Department of Agriculture. Group and cooperative activity dominates as the most common form of organisation due to limited resources (such as land and equipment) and skills. Emerging farmers are principally involved in the rearing of livestock, piggeries and poultry.

#### Subsistence agriculture:

Makana is made up of people residing in villages and townships that use agriculture as a means to supplement their food and income requirements. This form of agriculture is impeded by the availability of arable and grazing land, which reduces the potential for increased maize and livestock production going into the future. Because Makana is a largely urbanised area (with most settlements being in townships rather than rural villages) subsistence agriculture is not spatially spread out, which further diminishes the availability of land.

#### a) Bee-keeping project

5 Framers were trained in bee- keeping. There were hives over the N2 road that the group had identified, which had to be transferred into boxes. All the hives were transferred successfully and there were 2 boxes with bees.

## b) Food gardens

All implements to develop food garden were delivered. In total 5 gardens (Tantyi Clinic, Extension 6, Mavikela Poultry N-street, St Augustine, Umthathi Projects) were developed in urban setting and 2 from rural areas will benefit.

The farmers were provided with inputs such as compost, seedlings, and garden tools and few were provided with bicycles with trailers (means of sustainable transport to reduce carbon emission. In rural areas (Castle Farm and Yarrow Farm) the tendering process for small tunnels is still in the pipeline. This is a strategy to extend the SUS programme to rural areas, 2 farms (Castle and Yarrow Farms) were identified through consultation with various stakeholders including the relevant councillors.

Small tunnels (5mx 12m) will be built and the purpose is to pilot the project in rural areas develop more productive ways of producing vegetables. Terms of Reference are available electronically.

## c) Competition

In total 5 co-ops have won seed funding through the farmers' competition that was held in Alicedale In total 5 co-ops have benefited from Municipal agricultural-related programmes. One co-op benefited (Inqaba Yegolide supplied inputs for SUS programme and also won the competition in Alicedale).

#### Some of the challenges they face include:

- Lack of skills, training and education
- Inadequate land, which leads to problems such as stray animals, theft, land degradation, etc.
- Insufficient support from the Department of Agriculture in the form of mentorship, extension officers, dipping facilities etc.
- Low profit margins because of low market prices and small scope of operations
- Inadequate working capital for day-today operations (chemicals, seed, fuel, etc.)
- Access to markets (Makana Farmers Association, 2009)

#### Hunting and Private Game Reserves

The third distinct type of activity found in Makana's agricultural sector is hunting and private game reserves. This is a form of activity that has grown immensely in Makana from 1995 in terms of market players, hectares covered and revenue. Though now somewhat saturated, the market for Private game reserves and Hunting is now a notable contributor to agricultural sector output in Makana.

The transformation of land from pastoral farming to use as hunting and game reserves has yielded mixed fortunes throughout the Makana area. Average employee wages on game reserves and hunting

operations are typically higher than those on traditional farms. However, these operations are often less labour intensive than traditional agriculture and thus employ fewer people than farms. This means that total community welfare and income (as expressed through wages earned and other benefits such as rations, housing subsidies, etc.) may not necessarily rise in every instance in which farmland has been converted into a hunting and game reserve (Whisson, 2009).

## **MINING SECTOR**

This sector includes the extraction and beneficiation of minerals occurring naturally through underground and surface mines, quarries and all supplemental activities for dressing and beneficiating for ores and other crude materials.

Based on the above definition, mining in Makana takes the form of surface mining of Kaolin and sand quarrying. Mining in Makana makes the smallest contribution of all the sectors in Makana. With regards to employment, between 1995 and 2007 the number of people employed in the Makana mining sector has gone up from 66 to 78. Although increasing, this represents only 0.6% of all the people employed in Makana.

Challenges: As much as Makana possesses large reserves of Kaolin, this does not directly translate into significant potential for economic growth and development. Due to extrinsic matters (locality of Makana in relation to major industrial hubs, market factors, waning global demand, etc.) the scope for an expansion of mining activity or even that of improved sectorial linkage is very limited

R500, 000.00 was secured from the IDC to commission a business plan for Kaolin Mining and a feasibility study. The final reports will be presented to a Kaolin PSC during this month. These studies are outlining the way forward for Kaolin mining in Makana. On the basis of the draft reports that were presented to the PSC last month the CDM and other funders such as ECDC have already showed interest in funding some aspects of the project.

# SMALL MEDIUM AND MICRO-ENTERPRISE DEVELOPMENT

#### SMME's base line information and targets going forward

- A majority of SMME's fall within the survivalist, micro and small enterprise category with few SMME's in the medium category;
- Increased potential and performance of tourism enterprises as a result of the strong tourism sector in the economy;
- Organised farming sector with a potential for growth;
- Increase in start-up mining enterprises as a result of good prospects in the kaolin value chain;
- Existence of an SMME Development strategy which is based on the following pillars:
  - Training;
  - Access to land;
  - Access to finance;
  - Information;
  - Communication;
  - Access to Land; and

- SMME Database.

Targets for SMME development us underpinned and articulated in the SMME Strategy Development are the following:

- Facilitating the training of 100 SMMEs in technical and business skills;
- Develop a communication policy and strategy, which is inclusive of social networking, for SMME by 2014;
- Facilitate the release of 300 hectares of land for industrious SMMEs and Cooperatives for 2014;
- Identify premises for SMME information and incubation centre by 2014;
- Sign 4 MoUs with at least four national and provincial SMME support structures ensuring a physical presence in Makana;
- Develop a database of SMMEs and Cooperatives in Makana; and
- Review SCM to ensure maximum participation of SMMEs in Makana.

#### Co-operatives in Makana Municipality,

- Makana has ±80 co-operatives (includes registered and those who are in the registration process), the list is
  inclusive of co-operatives registered by Department of Social Development, Department of Sport, Arts and
  Culture, Department of Rural Development and Agricultural Reform who are other stakeholders who are in
  involved in co-operative development;
- Facilitated the registration of 9 co-operatives in this current financial year;
- Conducted 7 co-operative information sessions;
- Facilitated the establishment of Makana local co-operative forum, which is a local representative structure for all co-operatives in Makana

#### Session held in support of Co-operative and SMME Development

- Co-operatives Training: (20 co-operatives were trained by WRSETA on 20-31 August 2013)
- 20 Contractors were trained on Tender calculation on the 27-31 August 2012
- SARS Tax compliance workshop for 14 SMME's
- Co-operative information session towards the establishment of a local co-operative forum on the 25 Oct. 2012
- Regional Co-operative workshop on the 18 Sept. 2012
- A business partnership workshop was held on the 1st of November 2012
- One co-operative-Masikhuthale Women Co-operative profiled by Institute for Co-operative Development
- Co-operative verification of Makana Co-operatives by Institute for Co-operative Development
- Facilitated one co-operative exhibition in EL Co-operative Fair in November 2012
- Business Information session on the 10 Oct. 2012
- Co-operative information session on the 30 Oct. 2012 On-going

## TOURISM OVERVIEW

Grahamstown tourism potential is varied from heritage sites to its close proximately to the Addo Elephant Park and location midway between Port Elizabeth and East London.

Makana Local Tourism Organisation is registered as a Section 21 Company and is functional and meetings are held monthly. Makana Tourism and Heritage Manager attends as a member of the Executive Committee

The main forms of Tourism in Makana are environmental, educational and cultural tourism. This section will not repeat previously stated facts, but profile these forms of tourism in further detail. Tables 4.5 to 4.7 will list some of the activities, attractions and products that constitute Makana's tourism offering as listed in the Responsible Tourism Sector Plan 2009 Review Report.

Amakhala Private Game Reserve	Beggars Bush State Forest

Source: Responsible Tourism Sector Plan 2009 Review Report

In addition to the above, there are a total of 121 providers of accommodation that can be classified under Hotels, guest and country houses, lodges, caravan parks and camping sites, self-catering, backpackers, hostels, and B&BS. From Table 4.5 to 4.7 it becomes clear that unlike most other activity in Makana (with the exception of agriculture), tourism occurs throughout the entire municipality and is not just concentrated in Grahamstown. Tourism thus has the capacity and capability to improve the spatial spread of activity in Makana.

Tourism is currently marketed by Makana tourism. It has approximately 120-130 members that engage in the different forms of tourism profiled. In addition to Makana tourism, the following associations and organisations are involved with tourism activity:

- The Grahamstown Foundation, which in involved with the various Festivals that take place in Makana
- Indalo, which an association for Private Game and Nature Reserves

- The Grahamstown Hospitality Guild, which is involved with grading of accommodation facilities
- Makana EduTourism Project, which is involved with EduTourism

**Challenge:** There is a need for marketing of Makana's tourism offerings to be coordinated and intensified for cooperative synergies to be experienced

#### TRADE AND BUSINESS SERVICES

The trade sector is defined as the resale (sale without transformation) of new and used goods to the general public for personal or household consumption or use by shops, department stores, stalls, hawkers etc. The trade sector entails wholesale, commission trade, retail trade and repair of personal household goods; sale, maintenance and repair of motor vehicles and motor cycles; hotels, restaurants, bars, canteens, camping sites and other provision of short-stay accommodation. It can thus be seen that this sector involves a broad spectrum of activity which is diverse and varied in nature.

The sale of goods and services by shops and stores represents general commerce related to the day-today existence of local residents. The sale of goods and services by restaurants, camping sites, hotels and other short stay accommodation providers represents some elements of tourism related activity. This sector is thus important is it reflects that originates activity from within Makana (shops, and stores) and activity that originates from outside Makana (tourism through hotels and restaurants)

*The nature and challenges of trade in Makana:* There are several national chains and franchises located in Grahamstown, including Pick n Pay, Shoprite, Edgars and Pep Stores. There are two main shopping centers – the 6 876m<sup>2</sup> Pepper grove Mall which targets the middle to high income band and the 6 130 m<sup>2</sup> Market Square Mall which targets the lower to middle income band. In addition to these, there is a variety of shops in the Grahamstown town Centre (mainly in High street, Beaufort Street and Hill Street), and several informal spaza traders located in the townships. (Mall guide, 2009)

Despite the wide array of options (in comparison to other similarly sized towns), there is a significant amount of expenditure leakage to other towns such as Port Elizabeth for goods such as specialty products, luxury items, electronic equipment and clothing. This is a result of Makana's demographic profile, which is made up of young, upwardly mobile consumers that seek variety. High income earners thus often travel outside the Makana locality to buy goods and services. As a result of the relatively small population in Makana, there is little wholesale activity, as demand levels are insufficient to reach the necessary critical mass.

In the tourism trade there are several restaurants (including take-away, convenience food and fast food outlets) short term accommodation facilities (including hotels, guest houses and camp sites) in Grahamstown. These will be expanded upon in the tourism sector profile. It must be noted that these serve both tourism demand, and demand from local residents as well. Facilities situated in the township (such as homestays and taverns) are underprovided, when consideration of the actual size and population of the townships in Makana is made. In the other areas in Makana (Riebeeck East and Alicedale), owner managed enterprise dominates the trade sector. This applies to both the retail and tourism sides of the trade sector. This is because it is not profitable for large businesses to establish themselves in these areas due to their small populations and low income levels. The smaller settlements

in Makana are thus dominated by general dealers, liquor stores and mini-markets that serve the needs of local resident.

#### MANUFACTURING

This sector is broadly defined as the physical or chemical transformation of materials or compounds into new products. The Manufacturing sector is thus the sector where natural resources and other intermediate goods are converted through value adding processes into final products for the Trade sector.

Manufacturing in Makana is described under the Industry classification has 'limited prospects overall' and under the Carvalho classification as making a 'marginal' contribution to the municipality's economy. Despite this forecast, there is scope for specialist/niche manufacturing activity such as deboning of ostrich meat. As a result of Makana's industrial profile, such operations will not typically employ large amounts of labour. They can however, generate much needed income into the area and will often have linkages with other economic sectors

#### CONSTRUCTION

The construction sector includes activities related to site preparation, construction of buildings, building installations, building completion and the renting of construction equipment. The range of activity contained within the construction sector thus includes shop fitting, plumbing, electrical contracting, painting and decoration. There are few large and accredited building contractors in Makana that are able to undertake large, high value projects. Such contractors are typically associated with the Master Builders Association. Large construction sector organisations in the Makana area include *CM Heunis Building* contractors and *Strydom and Kroqwana Construction*.

In order to remain accredited, they often have to bring in skilled and certified labourers from outside the Makana area, which represents an income and employment leakage out of the Makana area. A leakage in this context refers to a flow of resources out of the local economy. Building contractors are thus often brought in from outside the Makana area in order to oversee building projects.

The contractors who are from outside the LM do however provide jobs for the locals but often bring in their own labour, and for this reason local job creation is not as high as it could be in the construction sector. In addition to this, limited institutional support for apprenticeship, mentorships and other forms of training propagate continued leakage of incomes from the area.

There are several emerging building contractors located within the Makana region. However, they are often plagued with a lack of experienced and skilled staff, which limits their growth. Other problems faced by emerging contractors include project management capacity constraints that ultimately affect project completion and quality. As a result of no accreditation, emerging contractors are often bypassed when it comes to opportunities to tender for high value construction projects such as government funded infrastructure provision. This then reinforces a cycle in which emerging contractors remain too small, inexperienced and undercapitalised to grow their businesses. (Lisa Trading, 2009)

**Physical inputs** are widely available throughout the Makana area, as there are a wide range of suppliers or equipment, tools, machinery, etc. though falling under the Trade sector; these include large (MBA associated) organisations such as *Pennypinchers, PG Glass and D&A Timbers*. Small emerging businesses such as *Grahamstown Block and Quarry* also contribute.

## TRANSPORT AND COMMUNICATION IN MAKANA

In terms of transport services in Makana, there is no water transport, regularly scheduled air transport or transport by pipeline. Rail transport used to be important in the region, but has been significantly reduced in recent years. This then means that the bulk of transport services in the municipality may be classified under road transport. There are several operators of road transport within Makana that provide transport within the municipality and to other regions as well.

The following forms of transport activity are found within the Makana area:

- Bus and Coach Passenger lines (such as Greyhound and Intercape) operate in the area, even though they do not have base offices in Makana.
- Mass Commuter transport (in the form of minibuses/ taxis, associated with Uncedo, the taxi organisation)
- Taxis services (such JCs shuttle service and Rhode Trip)
- Flights from the Grahamstown airstrip for entertainment purposes (such as E.P. skydiving and guests to game reserves such as Kwandwe)
- Occasional sightseeing rail tours (such as the Alicedale adventure)

These activities are supported by enabling infrastructure and service including:

- Grahamstown's proximity to the N2 highway and linkages with other major roads as shown in the infrastructure profile
- A taxi rank facility that serves a hub for transport within and outside Makana
- Several petrol stations (garages) that trade on local and transient demand
- Travel agents (such as Sure-go travel)

In terms of **communications**, Makana is relatively well linked. Postal services are provided by Postnet (Private) and The Post Office (Public). In addition to these, several courier companies such as speed services and UTI sun operate within the Makana area, as do several internet cafes.

Rhodes University also has comprehensive information and communication technology (ICT) infrastructure. In fact, South Africa's first internet link was based at Rhodes University in 1988. This led to the establishment of UNINET, which was a gateway that provided internet access for South African universities. In recognition of this, a Centre of Excellence in Distributed Media was established at Rhodes University in 1997, in association with Telkom SA and other partners.

**Challenge transport and communication:** The transport sector in Makana has limited opportunities for growth, partly as a result of its small and stable population. The communications sector grew while the transport sector declined between 1995 and 2007. With linkages to the trade and service sectors, a growing communication sector can allow business growth and the establishment of a knowledge economy

## FINANCE AND BUSINESS SERVICES IN MAKANA

In terms of finance and insurance, all the major banks are found in Grahamstown (ABSA, FNB, Standard Bank, Nedbank, Capitec Bank, Old Mutual Bank and GBS Mutual Bank. These largely service the banking requirements of local businesses and farmers in the area.

A range of mortgage providers, micro-lenders and investment facilitators such as Wesbank and Louhen financial Services are also present. Insurance brokers such as Sanlam life assurance and McCallum Brokers also operate in the Makana area. These target personal financial services.

A full range of business services are also available in Grahamstown These include accounting (Neill Pike), real estate agents (Pam Golding), attorneys (Nettletons), IT services (Albany Computers), engineers (MBB consulting) and other forms of activity.

It is apparent that a broad spectrum of activity in the business services sector is covered in Makana. It is prudent to point out that some of the business services located in Makana are directly linked to the existence of Rhodes University, and may not have been established in Makana if it were not for the presence of the university. These include:

- Birch's (Robe making for university gowns)
- CES (linked to Environmental Science department)
- Grocott's Mail (Department of Journalism)
- Geodetic (Geography and Information Systems Departments)
- NISC (Department of linguistics, Rhodes library, research office)
- Private consultancies run by Rhodes university faculty members and alumni
- The number of real estate agents is high compared to other towns of a similar size. This is a result of the demand for accommodation that results from the student population studying at Rhodes University.

In a pattern that resembles the other sectors, provision of business and financial services is mainly centred in the Grahamstown area, with few businesses in other towns such as Salem, Riebeeck East and Alicedale. This means that residents of these towns often have to commute to Grahamstown in order to have access to these services.

#### Challenge:

This sector will have a role in economic development through its ability to attract and its ability to absorb local semi-skilled and skilled labour.

One of this sector's roles in economic development is that of improving the quality of financial and businesses services rendered to economic development stakeholders and beneficiaries. The performance of this sector also has an impact on the true 'cost of doing business' in Makana as it represents the bulk of the tertiary sector of the economy

## **GOVERNMENT SERVICES IN MAKANA**

Based on their annual reports and financial statements publicly available online, it emerges that the two main entities in Makana's government sector are Rhodes University and the Makana Municipality (Rhodes University Annual Report, 2007; Makana Municipality IDP, 2007).

Rhodes University which provides educational services is responsible for approximately 71% of the government sector's output in Makana, and approximately 21% of the sector's permanent employment. Of its entire workforce 26% are employed in academic instruction and research, 43% are employed in administrative support and 31% are employed in support service positions.

The Makana municipality which provides local governance and public administration is responsible for approximately 19.4% of the government sector's output, and 8% of its employment creation. That means that Rhodes University and the Makana Municipality make a combined contribution of 90% of the government sector's output.

Other organisations and forms of activity in the Makana government sector include

- Government departments (such as Home Affairs, Roads and Transport, Agriculture, Education, Labour, Water Affairs and Forestry, amongst others)
- Defence activities (such as the SANDF Grahamstown military base, Midlands Command and the SAPS)
- Government agencies (such as SEDA, ECARP)
- Justice services including the department of Public Prosecutions, High court, Magistrates court and Small Claims Court
- Education (The East Cape Midlands College and Schools such as Nombulelo High School, Mary Waters School, St Andrews, DSG, Victoria Girls, amongst others)
- Health facilities (such as Settler's hospital)

It can thus be seen that the majority of activity classified under the government sector within Makana is undertaken in Grahamstown.

# COMMUNITY WORK PROGRAMME (CWP)

The creation of decent work will take time and the CWP have been operationalized in the interim. The programme is intended to supplement unemployed individual's existing livelihood and offers a basic income through work. Is designed to create work for 8 days a month, for 8 hours a day and be paid a stipend of R60 per day.

Makana is a CWP Site (2012) and 1224 participants are benefitting from this programme. A bit of a challenge is that a local Implementing Agent must be appointed by Border Rural Committee responsible for the Makana area.

# KPA 5: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

Makana Municipality is a Category B Municipality (local municipality) with a executive mayor committee system combined with a ward participatory system, as defined under Chapter 1 of the Local Government: Municipal Structures Act No. 117 of 1998. The Political and Administrative seat is situated in Grahamstown.

# 5.1 GOVERNANCE STRUCTURES

Section 53 of the Municipal Systems Act (Act 32 of 200) stipulate that inter alia that the respective roles and areas of responsibilities of each political structures and each Political Office Bearer of the

Municipality and the Municipal Manager must be defined. Makana Municipality has Fourteen(14)ward and 28 Councilors.

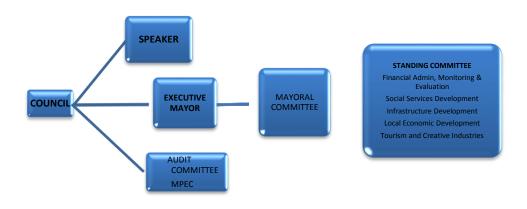

## 5.1.1 MAKANA POLITICAL STRUCTURE OVERVIEW

The Makana Local Municipality was established in terms of Section 12 of the Local Government Municipal Structures Act (Act No. 177 of 1998). Council has of twenty four (24) Councillors (including the Mayor), 12 of whom are proportional councillors. The municipality operates an Executive Mayoral Committee system with an Executive Mayor and five Portfolio Chairpersons being members of the Mayoral Committee.

The Council plays an oversight role in terms of the delegations and the Mayor and council provides political guidance over the financial matters of the Municipality.

There is a fully functional Audit Committee attached to the municipality that provides opinions and recommendations on financial processes and performance and provides comments to the Oversight Committee on the Annual Report. The Municipal Public Accounts Committee is comprised of non-executive councillors, with the specific purpose of providing the Council with comments and recommendations on the Annual Report. The Oversight Committee report will be published separately in accordance with MFMA guidance.

## OUTLINE OF THE POLITICAL STRUCTURE

## 5.1.2 COUNCIL COMMITTEES

#### 5.1.2.1 Section 80 Committees

- Financial Admin, Monitoring & Evaluation
- Social Services Development
- Infrastructure Development
- Local Economic Development
- Tourism and Creative Industries

## .1.2.2 WARD COMMITEES AND COMMUNITY DEVELOPMENT WORKERS

Makana Municipality has 13 Ward committees in place the 14th one is the Rhodes University area and Grahamstown foundation Monument with not residential areas. issues pertinent to IDP are referred from these structures like IDP Representative which they are part of and through the Ward Councillor to the IDP unit for attention. A Community Development Worker (CDW) is based in each Ward and act as an ex-officio in the Ward Committee. Ward Committee meet on a monthly basis and regular constituency meetings are held, to keep the communities informed about Municipal affairs, progress with project implementation and also to receive public input on matters of general concern.

#### 5.1.2.3 COMMUNITY-BASED PLANNING

The Ward-based public participation for developing the 2012 – 2017 IDP and its annual review was even more rigorous than previous year. Community-Based Planning Workshops were held in all 13 Wards and a comprehensive CBP Report containing extensive data for each Ward was the final outcome. This in turn informed Municipal and Sector Department as to the Development Needs & Priorities of the Communities and assisted them in their project planning & design for the forthcoming fiscal and outer years. Community Consultation & Participation is taken further by regular Ward Meetings held by Ward Councillor and their Ward Committees, as well as the Mayoral Imbizo and other events.

## 5.1.2.4 INTER-GOVERNMENTAL RELATIONS

The Honourable Mayor has established an Inter-Governmental Relations Forum and is in the process of developing a local IGR Strategy, to ensure its efficient and effective functioning and also clarifying the aims & objectives, as well as the roles and responsibilities of the IGR and its various stakeholders. This structure also serves to co-ordinate the planning of projects and implementation of programmes stemming from the IDP process, Ward-based Plans, etc.

#### 5.1.2.5 AUDIT COMMITTEES

Makana Municipality has it own Audit Committee.

The Audit Committee holds regular meetings and performs its function in terms of the Makana Municipality Audit Committee Charter Approved on the 30<sup>th</sup> May 2013 (Reviewed Annually).

## Other parties in attendance are:

- Makana Municipality : The Municipal Manager, Director of Budget & Treasury, Chief financial officer, Director of LED, Director Corporate – Technical, Director of Corporate Services and Director Community and Social Services.
- On a rotational basis : 1 Representative from Kabuso Internal Audit / Auditor-General

## 5.1.2.6 INTERNAL AUDIT

Makana Municipality as Internal Audit Unit which outsourced to Kabuso Audit Firm which perform all Internal Audit Function and in has Contracted with Municipality for 3years.

## 5.1.2.7 SOCIAL COHESION IN MUNICIPAL PLANNING

## Activities

- National Art Festival
- Science Festival
- Makana Freedom Festival
- Mayoral Cup

## 5.1.2.8 DIMENSIONS AND CROSS-CUTTING ISSUES: SPU

Municipal planning is influenced by a number of dimensions and cross-cutting issues. The main dimension being:

- Social
- Spatial
- Economic
- Institutional
- Natural Environment

The impact that projects can and will have on the above must always be borne in mind, hence the importance of designing strategies that will incorporate these considerations, as well as address cross-cutting issues such as Poverty Relief, HIV/AIDS and SPUs.

Special Programmes Units (SPUs) has be established in the Municipality in the office of the Mayor. The Special Programmes Unit of the Makana Municipality is responsible for the following categories:

- People living with disabilities
- Youth (incl. Sports)
- Gender
- Older persons
- HIV/AID
- People with disability

The post of Special Programmes Officer was included as part of the restructuring of the Municipality's Organogram. The position was filled on 1<sup>st</sup> July 2008. The SPU Officer is holding monthly meetings and has already successfully activated a number of Special Events, such as Youth tournament, etc. Programmes have also been identified for inclusion in the Municipality's Operating Budget, whilst some projects of capital nature have been earmarked for external funding.

HIV/AIDS is a matter of such importance that it should feature as a cross-cutting issues in every area of development. Municipality has HIV/AIDS Policy plan which is revised annually and is in the processes of developing policy.

Other programs the office is involves in is mainstreaming of HIV/AIDS in workplace and society, awareness of HIV/AIDS, how to manage it within the workplace and curb the spread of it, it is advocated during all project training and employment orientation sessions.

## 5.2 RISK MANAGEMENT

The Internal Audit Unit facilitated strategic risk workshops for the Municipality on 1 March, 12 and 18 April 2013, with a view to best direct the Municipal Manager, Executive Management and Internal Audit's efforts towards the highest risks to which the Municipality is exposed. The main purpose of the workshops was to involve and assist management in assessing and prioritising the risks that need to be managed in order to achieve the mission and strategic objectives of the Municipality.

The workshops were also designed to provide guidance to the internal audit function in the development of a risk based internal audit strategy and annual internal audit plan for the Municipality. The participants included amongst others: Acting Municipal Manager on 1 March 2013. Management Risk Management Intern- Internal Audit Unit (observation and facilitation only) Summary of the results of the strategic risk assessment. The risk assessment information incorporates the participants 'perceptions, assumptions and judgments about the Municipality's business risks and related controls.

Risk Category	Description	No of risk inherited	No of risk Residual
High	Loos of ability to sustain on-	20	16
	going operations or a		
	significant impact on		
	achievements of strategic		
	objectives		
Medium	Disruption of normal operations	2	4
	with a limited effect on		
	achievement of strategic		
	objectives or targets		
Low	No material impact on	0	2
	achievement of the		
	Municipality's strategy or		
	objectives		
Total		22	22

## Inherent risk

Of the 22 strategic risks identified by Management of Municipality for further assessment 20 (91%) were assessed as high by the participants attending the risk workshop.

## Risks rated with HIGH inherent risk ratings are as follows:

These risks are classified as **Priority 1** Risks. The risk is intolerable and requires action to further mitigate the exposure.

#### **Risk Issue**

1 Inability to effectively utilise available resources (human and financial)

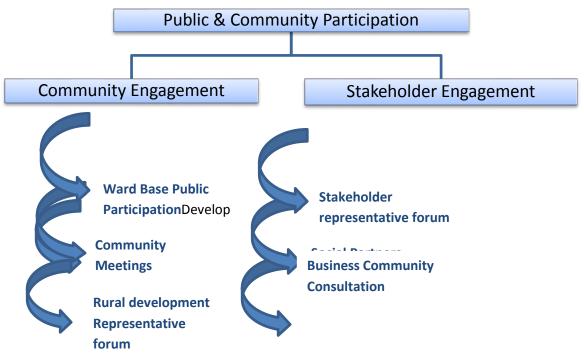

- 2 Ineffective utilisation of the budget
- 3 Non-achievement of revenue targets
- 4 Silo culture which inhibits communication, information sharing and a common vision (Lack of co-
- operation between directorates/departments)
- 5 Lack of adequate investment attraction
- 6 Lack of marketing strategy
- 7 Lack of Performance Management throughout municipality
- 8 Lack of business continuity processes

9 Inadequate communication of the existing and revised policies; **and** inadequate implementation of the existing and revised policies

- 10 Inadequate management and control of confidential municipal information
- 11 Inability to provide sufficient & safe drinking water
- 12 The organisational culture does not promote service delivery
- 13 Lack of implementation of the communication strategy
- 14 Poor management if inter-governmental relations
- 15 Thefts, Fraud and Corruption
- 16 Critical staff/skill shortages in key areas of responsibility
- 17 Not meeting the realistic expectations of stakeholders (Community dissatisfaction)
- 18 Lack of community awareness on environmental management
- 19 Increasing crime in the municipal area
- 20 on-alignment of IDP, SDBIP and budget

#### 5.4 PUBLIC AND COMMUNITY PARTICIPATION FRAMEWORK PLAN

#### A. MUNICIPAL APPROACH: PROCESSES

B.1 Community Engagement

#### Purpose:

- 1. Community engagement on municipality services. Specific program will have to be developed for community consultation/ engagement (i.e. development / Review by-law)
- 2. IDP, Budget and performance review; wards will be clustered where demarcation is not conducive for maximum communities to participate.

## CHALLENGES ON THE POLICIES AND BY-LAWS

- Municipal Polices are not maintained at the Registry.
- The format of the policies and procedures is inconsistent.
- The majority of the municipal policies are in draft format.
- In majority of instances, the date and the stage of approval for the various policies is not reflected.
- Directorates do not maintain By-law / Policy / Procedure register applicable to the directorate, which *inter-alia* should track the status of the document from draft to final.
- Policies are not developed and maintained by the responsible directorates.
- The reporting of Performance Information by the various directorates is inconsistent.
- The Municipality's control environment is lacking in that it does not appear to have the minimum necessary approved By-laws, policies and procedure documentation in place.

#### RECOMMENDATIONS

The Municipality will address the deficiencies in respect of the aforementioned By-laws, policies and procedures identified by Internal Audit.

#### **BY-LAWS**

- o Advertising By-law
- Boarding Houses and Guest Houses By-law
- Cemeteries By-law
- Furnishing of Information to the Public By-law
- o Unsightly and Neglected Building and Premises By-law
- Child Care Facilities By-law
- Prevention of Fire By-law

- Nuisances By-law
- Street Trading By-law
- o Public Amenities By-law
- Fire Brigade Services By-law
- o Butcheries By-law
- o Municipal Valuation of Land By-law
- o Property Rates By-law

## POLICIES

- Complaints Handling Policy
- o Indigent Support Policy
- o Internal Audit Policy
- o Integrated Development Planning Policy
- o Risk Management Policy
- $\circ \quad \text{Tariff Policy} \\$
- o Rates Policy

## The Municipality to be consolidate, where applicable

Directorate	Title	Recommendation
	Asset (Moveable and Immoveable) Disposal Policy	Consider possible
Budget and	Immovable Property Policy	consolidation in a
Treasury Office		single Asset
	Municipal Asset Management Policy	Management Policy

Туре	Title	Recommendation
	Payment of Travel and Subsistence for Councillors and	Consider possible
Corporate Services	Officials Policy	consolidation in a
Corporate Services		single Travel and
	Subsistence and Travel Policy	Subsistence Policy

- 4.1 The Municipality will standardise the format, process and tracking of policies and procedures.
- 4.2 The Municipality will ensure that policies are maintained by the relevant directorate for example, the Customer Care policy is currently maintained by the BTO, however, Corporate Services should be the relevant directorate.

- 4.3 All final approved policies and procedures will be maintained at the Registry.
- 4.4 Each Directorate will maintain a register of its policies, which register must track the stage of approval and the date of review of the respective policies.

## 6.4 SUMMARY O F BASIC SERVICE COMMUNITY PRIORITIES:

## WASTE MANAGEMENT

## **DEVELOPMENT PRIORITIES**

- Eradication of Illegal dumping site
- Street cleaning
- Provision of the cleaning service in all areas of Makana
- Fencing of legal dumping sites
- Provision of more than one black band and one extra recycling
- Cleaning of street verges and rivers beds
- Monitoring of cleaning staff
- Improve collection schedule

#### WATER & SANITATION

## **DEVELOPMENT PRIORITIES**

- Access to portable water and basic sanitation with special reference to rural areas
- No constant water supply in some areas special reference Grahamstown east.
- Portable water doesn't always meet minimum quality standard
- Provision of waterborne sanitation to all urban areas
- Provision of bulk for water and sanitation infrastructure
- Eradication of sanitation backlogs
- Social facilitation in rural areas for the use of waterless sanitation
- Provision of free basic services
- Maintenance of existing infrastructure
- Bulk water supply for Riebeeck East
- Water and sanitation reticulation and rebuilding toilets
- Explore alternative ways of sanitation in rural areas vs. waterless toilets
- Resuscitate of water boreholes
- Customer care

#### **ROADS AND STOMEWATER**

#### **DEVELOPMENT PRIORITIES**

- New roads construction plan to include storm water channels
- Upgrading and maintenance of roads and storm water
- Construction of new roads and sidewalks
- Provision of storm water channels
- Paving / tarring of all access roads (streets)
- Upgrading of old main roads with tar
- Upgrading of rural roads
- Road safety mechanisms
- Cleaning of main roads
- Repairs and maintenance of storm water drains
- Installation of storm water channels
- Installation of storm water in all new human settlement development
- Construction of bridges
- Construction of sidewalks

#### **DEVELOPMENT PRIORITIES**

- Electrification of formal and informal areas.
- Provision of High Mast and street lights
- Provision of free basic service
- Provision of electricity in rural areas
- Electricity cuts
- Electrification of formal and informal areas.
- Provision of High Mast and street lights

#### DEVELOPMENT PRIORITIES

- Provision of land for housing development
- Land audit open space
- Effective use of municipal buildings
- Influx and informal settlements
- Provision land for recreation facilities i.e. Child care centre
- Provision of land for housing development
- Land audit open space

#### ELECTRICITY

LAND USE MANAGEMENT

#### **KPA 6: INSTITUTIONAL ANALYSIS**

#### 6.1 POWERS AND FUNCTIONS

The Makana LM currently has 39 different functions, based on the Municipal Systems Act, No 32 of 2000 and Act 117 of 1998.

Air pollution	Markets
Child care facilities	
Fire fighting incl. DM function	Municipal parks and recreation
Municipal airports	Municipal roads
Municipal Health services	Noise pollution
Pontoons and ferries	Pound
Trading regulations	Public places
Sanitation	Refuse removal, refuse dumps and solid waste disposal
Building regulations	Control of undertakings that sell liquor to the public
Electricity reticulation	Fencing and fences
Local tourism	Street trading
Municipal planning	Street lighting
Municipal public transport	Traffic and parking
Storm water	Control of public nuisance
Water (potable)	Fencing and fences
Cemeteries, funeral parlours and crematoria	Licensing of dogs
Billboards and the display of advertisements in public places	Licensing and control of undertakings that sell food to the public
Facilities for the accommodation, care and burial of animals	Cleansing
Local sport facilities	Local amenities

#### 6.2 MAKANA INSTITUTIONAL OVERVIEW

Office accommodation

The administrative and political seat is in Grahamstown. There is a serious lack of office space in Grahamstown for the entire staff component resulting in various Directorates being accommodated in separate localities. At the main Administrative Office, staff members are in some cases required to share office space, creating cramped working conditions and in other instances in need of serious refurbishment.

#### Organizational Structure:

The institutional structure is administratively headed by the municipal manager. The current organizational structure for the Makana Local Municipality makes provision for six directorates namely:

- Municipal Manager
- Corporate and Share Services
- Public Safety and Community Services
- Budget and Treasury Services
- Engineering and Infrastructural Services (including housing and land)
- Local Economic Development and Planning

The currently organizational structure was approved on the 30 May 2013 and currently the Micro Structure is implemented and in the current structure there are **638** posts. The table below provides the high level operational institutional organogram, with associated mandates for each directorate.

The following Organogram illustrates the relationship between the Political and Administration: **Administrative Structure:** 

### DIRECTORATE AND DEPARTMENT:

  - Manager: Mr. K. Bates
- Environmental Management
  - o Manager: Mr. J. Esterhuizen
- Environmental Health
  - Manager: Mr. N. Nongwe

#### **Employment Equity Plan:**

The Council has a no approved Employment Equity Plan which to comply with the Employment Equity Plan Act, Council has been assisted by the province to develop the plan but is still in draft form ithas now asked for assistant from CDM to complete.

#### Work Skills Plan:

Work Skills Plan is developed annually by the Skills Development Facilitator. This is a product of numerous processes that ranged from identifying the employee current skills, gaps or shortages, overall Council and department objectives to develop training intervention. The Work Place Skills Plan is approved by Council with a specific budget and implementation report is submitted to the SETA to recover a portion of monies spend on implementing the plan.

#### **Recruitment, Training Retention Strategies:**

Council has a policy on Selection and Recruitment which emphasises the appointment of historically disadvantaged persons and those with disability challenges. The policy further takes cognisance of knowledge and skills required to provide efficiency in the work.

Training for all employees is regulated by a Training policy which is backed up by an annually approved budget. Training takes place in the form of academic and graduate studies leading towards a formal qualification, skills and knowledge development, which is identified through a Workplace Skills Development Plan [WSP], designed for individuals or group of employees in similar positions and finally in the employee participation on developmental programme initiated by employer bodies or academic institutions.

The WSP emphasised a competency based training that is backed by registered or approved unit standards. Therefore, every training undertaken or conducted or one is exposed to must lead towards credits towards a certificate or qualification which is recognised by the South African Qualification Authority [SAQA].

#### Succession Plan:

Council has a no policy on Succession Planning it has asked for assistant form CDM..

#### 6.4 PERFORMANCE MANAGEMENT

Makana Municipality is implementing a Manual Performance Management System in terms of the Systems Act and the PMS Regulations of 2006. An automotive system is currently being introduced for implementation. The Framework was adopted by Council in 2008 and is currently under review.

For the past two years no reviews were conducted and therefor no performance bonus where pay in past two financial year. Auditor General pronounced a qualified performance report in respect of PMS. 48% of key performance indicators where met in last financial year and somewhere rolled over in the current financial year.

#### CHAPTER THREE: STRATEGIC FRAMEWORK

The previous Chapter undertook an in-depth status quo and gap analysis based on the needs of the people and priority setting. This Chapter will focus mainly on the 'outcomes approach and the Strategic Framework will set the context for this to be realised.

## DEVELOPMENT PRIORITY NO ONE: BASIS SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

#### WATER AND ELECTRIFY:

- Ageing infrastructure with special reference water and electricity network system.
- Inadequate provision of water and electricity in rural areas
- Improve services provision of water in urban areas(quality and constant provision of water)
- Loss of water and electricity is increasing on yearly bases
- Customer care( no communication of to community on interruption of service)
- No proper planning and constant maintenance of the existing infrastructure.

#### SANITATION AND SEWER:

- Eradicate sanitation backlogs(formal areas
- Provision of alternative sanitation system in rural areas

#### **ROAD AND STORM-WATER:**

- Improve the maintenance of storm-water drainage system (occasion blockage and flooding of storm water drain.
- Maintenance of manholes
- Poor state of roads in urban areas (pot holes)

- Maintenance of access roads
- Tarring of roads and paving
- Construction of street walk
- Realising and rehabilitation of Main roads
- Upgrading and maintenance of gravel roads

#### LAND & ESTATE:

- Land acquisition for housing development
- Illegal occupation of RDP houses
- Land audit open space
- Effective use of municipal buildings
- Influx and informal settlements
- Provision land for recreation facilities i.e. child care centre

#### HOUSING DEVELOPMENT

#### **PRE-1994 HOUSING DEVELOPMENT**

- Alicedale
- Ghost Town
- Scotts farm

#### POST-1994

- Projects for the period were submitted to NHBRC and they have done the assessment for funding application. Are there any rectification projects underway
- Completion of RDP houses in Fingo Village and Riebeeck east
- Housing developed Alicedale
- Mayfield's phase II
- Disaster Housing projects 2006 & 2008
- Speed up Agri-Village housing development (Seven fountain Fort Brown)
- Provision of houses for those living in mud houses (Phumlani&Xolani locations)
- Facilitation the housing development application for all approved areas for town establishment.
- Insufficient provision of houses (backlog)
- Conversion of RDP houses into business sites(being used as shops by foreigners)
- Transparency in the allocation of RDP House

#### DEVELOPMENT NO TWO: COMMUNITY DEVELOPMENT AND SOCIAL COHESION

#### ENVIRONMENTAL MANAGEMENT:

- Review of Integrated Waste Management Plan
- Disposal Infrastructure Development

- Waste Collection Infrastructure
- Institutional Capacity and Human Resources
- Lack of financial Resources
- Improve management of illegal dumping activities
- Waste minimization

#### LIBRARIES:

- New libraries needed
- Upgrading of the existing infrastructure
- Security
- Extension of services to new areas
- Internet connection in all libraries

#### PARKS AND RECREATION FACILITIES:

- Boundary fencing for recreation facilities
- Provide more and upgrading of sport fields
- Provide sport facilities in rural areas
- Provision of recreational facilities in the needed areas(Community hall, Multipurpose Centre )
- Provide more land and Maintenance of grave yards
- Agri- zoning

#### KEY PERFORMANCE AREAS THREE: LOCAL ECONOMIC DEVELOPMENT

## The focus the implementation of Makana Local Economic Development Strategy with special reference to the following Pillars

- Agriculture Development
- Tourism Development
- SMME, Trade and Investment

## DEVELOPMENT PRIORITY NO FOUR: INSTITUTIONAL DEVELOPMENT AND FINANCIAL DEVELOPMENT

#### INSTITUTIONAL DEVELOPMENT

#### Key Performance Indicator 1: Human Resource

- Improve and maintaining an effective system to manage performance amongst its human resource to ensure scarce resources is utilized efficiently.
- Cascading of Individual Performance Management System
- Development Human Resource Strategy
- Ensuring conducive working environment(i.e. office space)

• Managing outcomes organizational designs exercise and Job evaluation

#### Key Performance Indicator 2: Communication

- Improve communication and marketing
- Improve internal communication
- Improve Municipal Image through any effective marketing and promotion strategies

#### Key Performance Indicator 3: Administration

- Improve interface between EXCO the council to align administration and political priorities of Council management.
- Improve customer care management system and ensure the rollout of Batho- Pele principles
- Integrated IT management system
- Improve Record Management System

#### Key Performance Indicator 4: Performance Management:

- A PMS Process plan with timetable to be developed
- A standing Item on PMS on Portfolio Committee be introduced
- Full alignment of the IDP, Budget and PMS
- PMS should be rolled down to all municipal workers
- Ensure quality assurance on the performance information.

#### FINANCIAL MANAGEMENT:

- Improve credit and revenue enhancement
- Improve Supply Chain Management Systems
- Asset Management
- Financial system unable to produce financial reporting timeously. Section 71 and 72 reports
- Capacity building on GRAP, Supply Chain Management and basic Accountancy
- Strategy to deal with non-metered
- Consumer and losses (electricity and water)
- Improve AG Opinion( Adequately address the matter raised)
- Provision of Indigent subside
- Improve customer care

#### DEVELOPMENT PRIORITYSIX: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

#### INTEGRATED DEVELOPMENT PLAN:

- Enhance oversight on the monitoring of implementation of IDP
- Funding and revenue strategy to be developed for IDP Projects
- Appoint of Community Development Facilitator.

#### MONITORING AND EVALUATION

- Development policy framework
- Continues Monitoring of expenditures and revenue collection
- Improve oversight by political arm of the Municipality
- Development policy framework
- Effective monitoring and evaluation system for developmental objective and delivery strategies of the municipality
  - ✓ Non-financial target,
  - ✓ Financial performance and
  - ✓ Strategies to achieving clean administration.

#### PUBLIC PARTICIPATION

- Development Policy framework on public participation
- Improve relationship with stakeholders
- Formation of rural development representative forum that will specialise on rural areas development issues
- Development Policy framework on public participation
- Human Resource capacity in office of the speaker
- Enhance public participation with communities the following processes
  - ✓ Planning,
  - ✓ Budgeting,
  - ✓ Monitoring and reporting
  - Regular communication with communities on the achievement of targets set out in the IDP is carried out, Improve functioning of ward committees

#### INTERGOVERNMENTAL RELATIONSHIP:

- Review structure of IGR and define role and responsibility
- Define role and responsibilities
- Encourage participation of stakeholders

#### INTERNATIONAL RELATIONSHIP

- Review of the Policy to also look at forming cooperation's with other municipalities' national not only international.
- Identify the developmental need or desired outcome to form cooperation with other municipalities whether national of international.

#### ANTI-CORRUPTION:

• Awareness program on the Anti-corruption policy

#### **INTERNAL AUDIT:**

• Establishment to Internal audit unit

#### **RISK MANAGEMENT**

- Awareness capacity program on risk management
- Appointment of risk management Officer
- Risk Management should be linked with IDP in terms of identifying the risks of the institution objectives.
- Heads of depart to be involve in the risk management processes

# DEVELOPMENT PRIORITY SEVEN: RURAL DEVELOPMENT AND SUPPORT TO VULNERABLE GROUPS

#### SPECIAL PROGRAMME

- Development of Special program Development Framework
- Identification of spinoffs for people with disabilities
- More Dedicated budget for special programs
- All Directorates should implement mainstreaming
- Need of a good marketing tool for the Municipality that is able to reflect the indigenous history
- Development special program sectorial long term plans
- Improve operational planning

#### SPECIAL PROGRAM SECTORIAL PLANS

#### YOUTH DEVELOPMENT

- Development Plan with action plan that states the objectives that need to be achieved the objectives must be developed yearly in terms of projects that are being done reviews that reflect if the targeted goals have been met
  - the decade plan will indicate the direction of Youth Development and commits all departments to meet youth development targets

#### DISABILITY

- Must align it with what has been done by National (integrated disability strategy)
- Creation of disability Action Plan
- The plan will define disability and outline the opportunities that exist for disabled people

#### HIV/AIDS

- Need of political support
- Creation of external response strategy
- Clear partnerships and network

#### RURAL DEVELOPMENT

- Development of Rural Development Strategy
- Development of Annual Operatio0nal plan

### RURAL DEVELOPMENT

- Development of Rural Development Strategy
- Development of Annual Operatio0nal plan

### INSTITUTIONAL DEVELOPMENT PRIORITIES: DIRECTORATE INFRASTRUCTURE AND TECHNICAL SERVICES

ADMINISTRATION	CHALLENGES		
	Customer care		
	Knowledge Management (proper filing and documentation)		
	Feedback reporting		
RECOMMENDATIONS			
	To have the dedicated sector report to director and attend to the directorate's administration (not human resource) i.e. compliance reports (SDBIP, coordination of monthly reports and others).		
	Customer care management (feedback reporting).		
	Propose a dedicated call centre for after hours for emergency.		
Knowledge management (proper filing and documer to be part of the administration section and get upda weekly (continuous filing)			
	Take service to the community – open the customer care within the community areas i.e. Joza Housing offices, Old Ambulance Building and others		
PROJECT MANAGEMENT	CHALLENGES		
	Poor planning		
	Implementation of construction laws (GCC, JBCC, FIDIC & NEC)		
	Monitoring and evaluation of project performance		
No mechanism in managing expenditure as to be with construction programme			
	Lack sense of professionalism		
	RECOMMENDATIONS		
	Empower the unit with training and skills transfer		
	Proper planning and procure for 2013/2014 financial year		
after the budget approval (April/ May 2013) as to			

	commence construction early July 2013.		
	Strict monitoring and evaluation of service providers (apply		
	the contract agreement effectively –JBCC, FIDIC, GCC &		
	NEC)		
	Compliance with reporting timelines and expenditure as		
	agreed with the service provider (cash flow and programme		
	management)		
	Contract dedicated support staff (contracted trainee		
	technician to be100% on site for supervision)		
OPERATIONS AND MAINTENANCE	E CHALLENGES		
	Poor planning and supervision of staff performance (poor		
	human resource management and discipline)		
	On implementation of monitoring and evaluation		
	mechanism		
	Lack of financial control and resource management		
	Lack of sense of professionalism		
	No sense of urgency and customer care		
	Attend to the imbalance of staff packages on the same level		
	and doing the same function		
F	RECOMMENDATIONS		
	Filing of HOD – Feb/Mar'2013		
	Empower the departments with skill supervisors		
	Proper planning and procure for 13/14 FY after the budget		
	approval (Apr/May'13) as to commence construction early		
	Jul'13.		
	Strict monitoring and evaluation of departmental plans		
	(Operations and maintenance plan need to be developed		
	and implemented).		
	Compliance with reporting timelines and expenditure as		
	agreed in the procurement plan(Cash-flow and programme		
	management)		
	Build staff morale and correct the in-balance		

### COMMUNITY AND SOCIAL SERVICES

PARKS AND RECREATION	CHALLENGES	
	Ageing fleet	
	Insufficient recreational sports facilities	
	Turnaround time in filling vacancies	
	Vandalism to municipal buildings	
	Water deliveries	
	Stray animals	
	Management of external funded projects	

	Protective clothing		
	Fast increasing work load without manpower and		
	equipment adjustment		
	RECOMMENDATIONS		
	Long term fleet replacement plan		
	Re-instatement of accident investigation panel/ committee		
	Improved HR support in respect of filling of vacancies,		
	timeous dealing with disciplinary cases		
	Employee awareness programme – visibility		
	Full assessment of needs including cost- improving sports		
	facilities and establishment of playgrounds		
	Outsource impounding service- SMME's		
	Intensive training of managers. Supervisors- overtime &		
	leave management		
	Review of our security system		
	Use of one standard colour- print name of department in		
	large letters		
	Have a strong Project Advisory Committee		
	15% MIG allocation – use in sport recreational facilities		
	Review maintenance of public spaces- some of the services		
	to be outsourced		
FIRE AND RESCUE SERVICES	CHALLENGES		
	Shortage of fleet		
	Customer care centre		
	Extension of services to outlying areas:		
	Alicedale, Grahamstown East		
	Alicedale,Grahamstown East Water delivery		
	Water delivery Job evaluation: salary scale on new positions less than that

	Manpower challenges during disasters			
RECOMMENDATIONS				
	Involve councillors when issuing delivering materials			
	Disallow erection of shacks in low lying areas			
	Improve communication with CDM- in respect of volunteers			
ENVIRONMENTAL HEALTH &	CHALLENGES			
CLEANSING	CHALLENGES			
	Shortage of human and capital resources			
	Illegal dumping			
	Staff discipline			
	Lack of municipal by-law enforcement			
	Inadequate coordination of supervision of government			
	funded initiatives and stray animals			
	RECOMMENDATIONS			
	-			
	Increase fleet yearly			
	Intensive awareness campaign			
	Encourage establishment of parks in open spaces			
	Absorb all street sweepers			
	By-law enforcement			
	Two black bag system			
	Use cooperatives in new establishments			
	Improve cooperation with community environmental workers			
	Extend recycling to all areas			
	Strengthen eco schools programme			
	Seek funding			
TRAFFIC	CHALLENGES			
	Ageing fleet			
	Turnaround time in filling of vacancies			
	Office space			
	Extension of services to outlying areas			
	Traffic fines			
	Job evaluation			
	RECOMMENDATIONS			
	Municipal court			
	Establish a satellite office in outlying areas			
	Improve HR support			
	Improve facilities			
	Increase fleet yearly			
LIBRARY	CHALLENGES			
	Ageing infrastructure and buildings			
	Procurement of books / SCM			

	Security	
	Job evaluation	
	Extension of services to new areas	
	Internet connection in some libraries	
F	RECOMMENDATIONS	
	Budget for repairs and refurbishment	
	Review security system	
	Engage DSRAC for funding	
Explore wireless connection		
	Review SCM Policy	
	Complete job evaluation	

#### CORPORATE SERVICES

INFORMATION TECHNOLOGY	CHALLENGES		
	Network problems		
	Internet and Email		
	Office space		
	Lack of communication		
	Outdated information		
	Lack of office equipment		
	No dedicated section vehicle		
	IT Budget is lesser than 1% of the entire municipal budget		
	Deed search		
	RECOMMENDATIONS		
	Working Tools and Office Space should be made available before		
	people are appointed		
	Periodical emails will be sent to notify users on routine IT matters		
	Users should oblige to log their call-outs via the website or fill-in		
	forms (especially the Senior Managers & Councillors)		
	Municipality must invest in IT by prioritising IT Budget		
	There should be continuous IT training as IT skills expires with new		
	IT innovations		
	Internal IT audit must precede the External Audit		
	Municipality must centralise IT Budget		
REGISTRY	CHALLENGES		
	Lack of skilled staff to handle records		
	Shortage of fire proof storage		
	Lack of proof filling unit		
	Attitude		
	Lack of supervision		
	Filling of vacancy for Registry Clerk		
	Clarity on Job Descriptions		

	Training of Messenger Clerk			
	Faxing and Copying (Personal stuff			
	HR & Estates files (To be removed and placed at HR)			
	RECOMMENDATIONS			
	Re-introduction of electronic records management (mun-admin)			
Review the entire Registry structure				
Investigating relocating Registry office CUSTOMER SERVICES				
CUSTOMER SERVICES CUSTOMER CARE CHALLENGES				
	No proper systems in place to handle complaints, but working on it			
	– needs capacity.			
	Inability to access the Presidential hotline due to security settings.			
	No dedicated customer care toll free number			
	RECOMMENDATIONS			
	Investigate Software to handle complaints			
	Centralize customer handling of complaints			
	Undertake Customer satisfaction survey			
	Develop and implement proper systems			
	COMMITTEE SERVICES			
ADMINISTRATION – COMMITTEE				
SERVICES	CHALLENGES			
	Shortage of staff			
	Lots of supplementary items (reprinting & re-delivering)			
	Not receiving items by the due dates as per meetings schedule –			
	resulting in agendas being delivered late			
	Lack of a dedicator Replicator			
	Office space			
	RECOMMENDATION			
	Electronic agenda (Intranet, email or softcopy)			
	Upgrading of recording equipment			
	Budget allocation			
	ADMINISTRATION			
GENERAL	CHALLENGES			
	Lack of office space			
	Regular staff meetings			
	Coordination and control of stationary and cleaning materials			
HUMAN RESOURCES	CHALLENGES			
Staff recruitment and selection	Shortage of staff to achieve the required objectives			
	RECOMMENDATIONS			
	To design adverts that will appear to the target market.			
	To attract the right candidate for the position (head hunting,			
	interview and assessment)			

	To design adverts that will appear to the target market.		
	To attract the right candidate for the position (head hunting,		
	interview and assessment)		
TRAINING AND DEVELOPMENT	CHALLENGES		
	In adequate staffing		
	Insufficient Budget		
	Lack of resources		
	Lack of management support to identify training needs of the staff		
	RECOMMENDATIONS		
	To enhance the skills of all employees on all levels		
	Develop workplace skills plan		
	To create relationship with ABET to empower the illiterate staff		
	Re-establishment training committee		
	Review the training unit structure		
HR RECORDS AND LEAVE MANAGEMENT	CHALLENGES		
	To ensure that information on employee leave forms is captured onto the system		
	Non- adherence to leave provisions		
	Lack of timeous capturing of leave		
	Limited access to pay day due to proper network		
	Excessive overtime resulting in excessive leave i.e. 48 hours		
	provision		
	Inadequate staff		
	Ineffective use of attendance register		
	RECOMMENDATIONS		
	Review of the leave policy		
	Review leave encashment policy		
	Access payday licenses for users		
	Review HR structure		
	To introduce thumbprint system to monitor attendance.		
	To allocate sufficient budget for the thumbprint system.		
LABOUR RELATIONS	CHALLENGES		
	No dedicated person due to the continued vacancy of the IRO		
	Lack of communication; Mistrust		
	Grievances and counter grievances		
	RECOMMENDATIONS		
	Strengthened the LLF		
	Capacity building for senior management and unions officials		
	Awareness on collective agreements and municipal policies		
WELLNESS PRACTITIONER	CHALLENGES		
EMPLOYEE WELLNESS	There are no many referrals' from the supervisors, most cases are		
	self- referrals

				Development and review of vulnerable group support plans	IDP 6.02	Development of youth, People with disability, women and children and review HIV/ sector plan
				Establishment of youth skills centre	IDP 6.03	Establishment of skill centre in Alicedale, Riebeeck east and GHT

# **CHAPTER FOUR: INTEGRATION**

## INTRODUCTION:

To ensure that the IDP address all strategic issues relevant to any effective municipality, the following section offers a comprehensive list of issues discussed during the IDP process. The integration phase represents the institutional readiness for implementation and to ensure integrated planning for the provision of basic services

# PART ONE: SECTOR PLANS:

An analysis was conducted in respect of various sector plans for the Municipality. Some of these sector plans were found to be still relevant and required minor changes. Others required a review, whilst new ones need to be developed and this was based on benchmarked and IDP Assessment with other local Municipal with our side.

STATUS	SECTOR PLANS			
	Review Water Service Development Plan			
	Integrated Waste Management Plan			
	Area Based Plan			
	Comprehensive Infrastructure Plan			
EXISTING PLANS	Disaster Management Plan			
	Housing Settlement Plan			
	Review of Transport Plan			
	Review Fire and rescue plan(CPS report )			
	Environmental strategy(LEAP)			
	Spatial Development Framework			
	Human resources development plan			
	Five Invest Financial plan			
	Development of Job creation sector plan			
	Poverty alleviation plan			
	Fleet management plan			
NEW ONE TO BE DEVELOPED	Development of Electricity Master Plan			
	Development of Job creation sector plan			
	Asset Management Strategy			
	Supply chain Management Strategy			
	Cooperative strategy Revenue enhancement strategy			
	Plans Action require d			
	Local Economic	Strategy was was		
	Development Plan	approved by		
	HIV/AIDS action plan t	To be developed		
CROSS CUTTING PLANS	Special Programs	Youth plan need		
	sectoral plans	to be develop
