Annexure C – Communication Public Participation Plan

1. PREAMBLE

Baviaans Local Municipality is an open, accessible and transparent institution. The internal atmosphere is warm and enthusiastic where employees are helpful, keen to go the extra mile and have the interests of customers at heart. As a developmental local government, Baviaans Municipality (BM) promotes active participation of all its communities through information sharing, participatory and democratic decision-making and development. It does this in accordance with the Constitution of South Africa and the ensuing Local Government legislative framework.

2. LEGAL BACKGROUND

The policy is informed and guided by several legal documents, particularly those that have a direct bearing on communication, public participation, integration and coordination. Amongst these are:

- The Constitution of the Republic of South Africa Act 108 of 1996
- The National Framework for Government, 2009 issued by Government Communication and Information Systems (GCIS)
- Municipal Systems Act 32 of 2000, which obligates municipalities to ensure public participation of communities and stakeholders and provide rights for citizens in terms of developmental communication
- Promotion of Access to Information, Act 2 of 2000, which deals with how communities can gain access to information
- The Municipal Structures Act 117 of 1998
- Intergovernmental Relations Framework Act of 2005
- The Local government Five-Year Strategic Agenda

3. AIM

The aim of this policy is to enable BM to use communication as a tool to facilitate its developmental roles by encouraging a culture of stakeholder participation for democratic governance.

The developmental roles of Baviaans Municipality include:

- i. Implementation of programmes and projects
- ii. Community participation
- iii. Community Based Planning
- iv. Building of local leadership skills and social capital
- v. Financial management of programmes and projects
- vi. Sustainable operations and maintenance; and
- vii. Community based monitoring and evaluation

In encouraging a culture of stakeholder participation for democratic governance, Baviaans Municipality:

- i. Creates “A Better Life for All”;
- ii. Is a developmental local government;
- iii. Understands integrated communication as being multi-dimensional and holistic; as such all initiatives will be multi-dimensional and holistic;
- iv. Commits itself to providing resources and leadership to implement the Integrated Communications Action Plan;
- v. Has the Integrated Development Plan as the heart of its Integrated Communications Action Plan; and
- vi. Is committed to ensuring that all interacting with it, understands its identity and values

4. PRINCIPLES AND APPROACHES

In enabling BM to use communication as a tool to facilitate their development roles by encouraging a culture of stakeholder participation for democratic governance, Baviaans Municipality undertakes that this policy will:

- a) Be implemented in consultation with municipal officials; communities; and with councilors
- b) Promote the principles of Batho Pele
- c) Encourage a culture of involvement and interaction of all its stakeholders by creating platforms for people and sectors to meet and engage
- d) Foster a spirit of integrated, transparent, cooperative and participatory governance by:
 - i. Complimenting and supporting, as far as possible, all other national, provincial, district and local government interventions taking place within its area of jurisdiction
 - ii. Forging municipal services partnerships
- e) Adopt a communication approach which will promote community spirit by fostering love, care, dignity, integrity, freedom and worthiness
- f) Not discriminate against people
- g) Mainstream and integrate communication in all municipal objectives, strategies and programmes
- h) Target selected marginalized groups of people for specific interventions
- i) Constantly strive to improve communication with its stakeholders
- j) Promote its image to all stakeholders
- k) Monitor, measure and evaluate the effect of all its current and future projects, initiatives and programmes and report its impact

5. TARGET AUDIENCE

5.1 Primary BM Stakeholders

- i. *Communities within Baviaans Municipality's area of jurisdictions, i.e.:*
 - Willowmore
 - Steytlerville
 - Baviaanskloof
 - Rietbron
 - Vondeling
 - Miller
 - Fullarton
- ii. *Cacadu District Municipality*
- iii. *All municipal employees of Baviaans Municipality*
- iv. *Organised stakeholder groups operating within Baviaans Municipality's area of jurisdiction*

5.2 Secondary BM Stakeholders

- v. *South African Government*
 - Cacadu District Municipality
 - Eastern Cape Provincial Government Departments
 - National Government Departments
 - National Tourism Organisations & Agencies
- vi. *International*
 - International Tourism Organisations & Agencies
- vii. *Other*
 - South African Donor Agencies
 - South African Development Agencies and Institutions
 - International Donor Agencies
 - International Development Agencies and Institutions

6. COMMUNICATING KEY BM ISSUES

6.1 Integrated Development Planning

- a) Baviaans Municipality must release its Program of Action and Timeframes (IDP Review Process Plan) annually on the process to be followed in the IDP
- b) Within 21 days of the adoption of the Integrated Development Plan (IDP) BM must notify the public of the adoption of the plan and that copies or extracts of the plan are available for inspection at public venues.

- c) The functions of the IDP Representative Forum, for the purpose of integrated planning, will include:
 - Consultation on and monitoring of the IDP
 - Review of the IDP
- d) Notice must be given to all stakeholders of the IDP Review and the relevant timeframes.
- e) Furthermore there will be a process of Community Based Planning (CBP) meetings to inform communities on the IDP process
- f) The implementation of the IDP will be the function of Baviaans Municipality's administration

6.2 Performance Management

- a) Baviaans Municipality and its IDP Representative Forum must involve the local communities in the development, implementation and review of BM's performance management system (PMS) and, in particular, allow the community to participate in the setting of appropriate key performance indicators and performance targets for the municipality
- b) The IDP Representative Forum will enhance public participation in monitoring, measuring and reviewing municipal performance
- c) The functions of the IDP Representative Forum, for the purposes of performance management, will include:
 - Discussion of the PMS
 - Monitor municipal performance according to the Key Performance Indicators (KPI's) and targets as set by BM; and
 - Review of the PMS
- d) Municipal performance will be overviewed by the MPAC and Oversight Committee
- e) The implementation of PMS will be the function of Baviaans Municipality's administration

6.3 Annual Reports

- a) Reporting as a key municipal function will be done through BM's Annual Report
- b) The Annual report will report on:
 - Performance of Baviaans Municipality against its budget objectives
 - Performance Targets for the following year; and
 - Measures to improve performance
- c) The Annual Report will be made available to all of BM's identified primary stakeholders and shall be made available to all of BM's identified secondary stakeholders

6.4 Municipal Budget

- a) Baviaans Municipality, through its IDP Review Process Plan, must inform all communities on the process to be followed in the development of its budget
- b) The functions of the IDP Representative Forum, for the purposes of budget process, will include:
 - Consultation with relevant community and stakeholder groups on the budget process
 - Identification of budget priorities
 - Review of the budget
- c) Notice must be given to all stakeholders of the budget process and the relevant timeframes

- d) The budget will be made available to all of BM's identified primary stakeholders and shall be made available to all of BM's identified secondary stakeholders

6.5 Finance (Credit Control and Debt Collection)

Baviaans Municipality is obligated to undertake extensive communication tasks pertaining to finance, these include:

- a) Establishment, maintenance and review of a customer management system to ensure a 'positive reciprocal' relationship between BM and its levy payers
- b) Mechanisms for communities to give feedback on service quality
- c) Ensuring that levy payers are aware of the costs of services
- d) Ensuring that service consumption is accurately measured and charged accordingly
- e) Levy payers receive regular and accurate accounts that are clear on the basis for calculations and ensure that accounts can be easily queried and verified
- f) Provide mechanisms for promptly dealing with complaints and taking corrective action and monitor time and efficiency related to this.

6.6 Service Provision

Baviaans Municipality is entitled to enter into service delivery agreements with external agencies or partners. However before doing so, BM:

- a) must establish a mechanism and programme for community consultation and information dissemination regarding the service delivery agreement;
- b) must ensure that the contents of the service delivery agreement be communicated to the local community through the media;
- c) is obliged to enter into a competitive bidding process requiring carefully managed public communication;
- d) must ensure that the terms of the agreement reached including the service in question and the name of the selected provider be available at BM's offices and published as a notice in the media.

6.7 Accessing By-Laws and Law Making

- a) A compilation of all BM by-laws, including any reference as by-laws of BM, must be maintained and updated
- b) BM, at the request of a member of the public, must provide that person with a copy of or an extract from its municipal code against payment of R1 per page
- c) BM is obliged to communicate with the public concerning the drafting of municipal by-laws
- d) BM by-laws must be published for public comment in the Provincial Gazette and when feasible also in a local newspaper or in any other practical way to bring the contents of the by-law to the attention of its local communities

6.8 Administrative Communication

- a) Clear relationships must be established to facilitate cooperation, coordination and communication between BM's:
 - Political structures, political office bearers and its administration (employees)
 - Political structures, political office bearers and administration and its identified primary stakeholders
 - Political structures, political office bearers, administration and Local Labour Forum

6.9 Municipal Elections

Baviaans Municipality will embark on special forms of communication between the municipality and voters for municipal elections and by-elections. This will be done through the Municipal Party Liaison Committee (MPLC).

6.10 Public Access to Information

- a) Only with permission of Baviaans' Council may a Councilor disclose any privileged or confidential information of its Council to any unauthorised person.
- b) For the purpose of this item 'privileged or confidential information' includes any information:
 - Determined by Baviaans' Council or to be privileged or confidential
 - Discussed in closed session by Baviaans' Council
 - Disclosure of which would violate a person's right to privacy; or
 - Declared to be privileged, confidential or secret in terms of law
- c) This item does not derogate from the right of any person to access to information in terms of national legislation
- d) In order to avail information to the public, all Council agendas will be displayed in the municipal libraries

6.11 Participatory Democracy

To enhance participatory democracy, Baviaans Municipality will:

- a) Ensure that political leaders remain accountable and work within their mandate
- b) Allow its primary target stakeholders to have continuous input into its policies
- c) Allow its primary target stakeholders to have input on the way services are delivered; and
- d) Afford organised civil society the opportunity to enter into partnerships and contracts with Baviaans Municipality to mobilize additional resources

6.12 Use of Media

Baviaans Municipality must issue notifications by:

- a) Using local newspapers and radio
- b) Using the official language within the area, i.e. Afrikaans, English and Xhosa
- c) Notices in the Provincial Gazette, which must also be displayed at the municipal offices

- d) Providing for verbal representation when invitations to make written representations are issued
- e) Providing to assist illiterate members of the community to complete forms

6.13 Mechanisms to Ensure Participation

Baviaans Municipality will make use of the following mechanisms to ensure participation of its stakeholders, through:

- its core political structures;
- receiving, processing and considering petitions and complaints;
- engaging in community based planning;
- issuing notices and getting public comment when appropriate;
- public meetings and hearings, or
- consultative sessions with locally recognised community organisations, IDP Representative Forum, etc.

In using the above communication mechanisms the Baviaans Communication Unit has to ensure that the communication needs of women, the illiterate, disabled and youth are taken into account.

7. POLICY IMPLEMENTATION

7.1 Integrated Communications Programme of Action

This policy will be implemented through an Integrated Communications Programme of Action. The Integrated Communications Programme of Action will consist of:

- IDP Communication Plan
- Communication Strategy and Action Plan
- Issues emanating from this Policy

7.2 Policy Implementation

The Integrated Communication Programme of Action shall be coordinated and implemented by the BM Community Services Department.

The main role players will be:

- a) Council and Management
 - i. Council and Councilors will:
 - Carry the messages and themes set out in 7.3 below
 - Take decisions that is in line with 7.3 below
 - Ensure all relevant parties are part of the IDP Representative Forum
 - Will ensure that Ward Councilors facilitate the effective working of Ward Committees and CBP

ii. Management (Head of Departments) will:

- Carry the messages and themes as set out in 7.3 below
- Liaise with National and Provincial Departments on issues impacting BM – programmes and projects
- Liaise with the CDM on issues impacting BM – programmes and projects
- Liaise with Communication and Participation unit on issues to be communicated and areas where participation is needed

b) Communication and Public Participation Unit lead by the Mayor

i. The Mayor will:

- In consultation with the Municipal Manager, issue press releases
- Liaise with the media
- Be the official spokesperson
- Communicate all policies to stakeholders
- Implement, monitor and evaluate the Integrated Communication Programme of Action
- Advise Council and management on programme implementation and progress quarterly
- Liaise with CDM and Provincial departments on issues impacting BM
- Table a quarterly program and time frames of communication and participation at Council

c) MPAC and Oversight Committee

i. The MPAC and Oversight Committee will:

- Evaluate the effectiveness and performance of the Integrated Communication Programme of Action quarterly

d) Strategic Manager

i. The Strategic Manager will:

- Be responsible for internal communication and participation in BM
- Ensure that all relevant government programmes and projects receive the needed attention
- Monitor the implementation and progress of the Communication Programme of Action
- Ensure the effective functioning of all stakeholders taking part in the Baviaans Communication and Participation model

7.3 Messages and Themes

- Carry the message of Batho Pele: People First
- Make democracy work
- BM as a government institution for all the people of Baviaans
- Council resolutions and Council activities
- National and Provincial government policies
- Relevant legislation

- Municipal policies and by-laws

7.4 Message Carriers

- i. BM Councilors
- ii. BM officials (importantly Heads of Departments and IDP / Communication official)
- iii. Electronic and Print Media whose target audience is within the BM's area of jurisdiction
- iv. BM stakeholder forums
- v. All employees of BM

7.5 Budget

Baviaans Municipality will allocate suitable resources (financial, human and technical) to implement its Integrated Communication Programme of Action

COMMUNICATION STRATEGY

1. INTRODUCTION

1.1 Aim and Primary Purpose

The aim of Baviaans Municipality's Communication Strategy is to focus on communication solutions that Baviaans Municipality needs most to realise its development agenda (IDP) and "business model"

Such focus will enable communication activities which cut across each function and department to be coordinated and managed at a central point as opposed to fragmented attempt by each department at communicating and promoting the Municipality. Each function and department in the Municipality has its own communication requirements and these must be included in the Municipality's communication plan. This approach requires systems and good working arrangements that are endorsed and applied by the Municipality's principles.

1.2 Developmental Communication

Government's approach to communication is developmental. Development communication is the provision of information to people in the language they understand. Such information should facilitate their socio-economic wellbeing, thereby aiding development and service delivery. The development communication approach is aimed at making public programmes and policies real, meaningful and sustainable.

Existing legislation focuses on ensuring that communities participate in matters of government and that government is accessible and conducts its matters transparently. In order to facilitate such an environment, however, communication principles need to be applied. Baviaans Municipality's Communication Strategy identifies the audience, messages, tools and an action plan that can begin to put in place an environment for communication that facilitates development in the municipality's area of jurisdiction.

2. STRATEGIC POSITION

2.1 Vision

Baviaans Municipality strives towards the establishment of a progressive community within a safe environment where basic service delivery is guaranteed and wherein decision making is based on maximum participation from the community

2.2 Mission

The political office bearers, staff and the people of Baviaans Local Municipality will:

- Effect open communication channels to keep communities informed
- Effect participative and accountable developmental local governance;

- Pro-actively identify suitable land for settlement;
- Facilitate housing delivery
- Provide basic services
- Create a climate conducive to local economic development, with a particular focus on eradicating poverty, creating jobs and developing the tourism and eco-tourism sector; and
- Facilitate social upliftment and development

2.3 Values

Baviaans Local Municipality subscribes to the following values to build the type of organisational culture needed to implement its vision, mission and development facilitation role:

- 2.3.1 *Honesty*
- 2.3.2 *Accountability*
- 2.3.3 *Professionalism*
- 2.3.4 *Loyalty*
- 2.3.5 *Humanity*

This communication strategy underpins these values and supports the culture that the municipality is working towards achieving. The communication function through this strategy, strives to demonstrate these values in communicating about all the municipality's decisions, actions and day-to-day operations and behavior.

2.4 Development Priorities

Guided by the national directives contained in the implementation plan for the Five Year Local Government Strategic Agenda 2006 – 2011, national targets to beat backlogs in basic services, the Eastern Cape Provincial Growth and Development Plan and input from Cacadu District Municipality, Baviaans Local Municipality has identified the following development priorities for the term 2012 to 2017:

- 2.4.1 *Building the institution and employee capacity*
- 2.4.2 *Enhance Community Services*
- 2.4.3 *Economic Development*
- 2.4.4 *Provision of basic infrastructure*

These priorities indicate the focus and direction of the municipality and will form the subject and content of communication programmes.

3. COMMUNICATION OBJECTIVES

Baviaans' communication objectives seek to support and express the goals contained in the Integrated Development Plan (IDP) 2012/13 which feeds into the overall vision of Baviaans Municipality to be a transformed and integrated municipality contributing to development and a sustainable quality of life in its communities. During this process, communication efforts aim to strengthen and maintain the municipality's reputation and stakeholder relationships. The communication objectives are the following:

Communication objectives

1. Establish a clearly stated Vision and Mission Statement for Public Participation and communication and ensure that it is known and understood internally and externally.
2. Develop and maintain a stable, well informed and motivated workforce that is geared towards service delivery.
3. Cultivate a productive working relationship with the broader community where citizens play a meaningful role and contribute to the ongoing development of our towns
4. Promote a positive image of Baviaans Municipality and its people (internal, locally and nationally)
5. Manage any complaint in a transparent, constructive and efficient manner
6. Create a financial and administrative structure that supports sustainable Public Participation and Communication
7. Monitor and evaluate Public Participation and communication in the Baviaans area

4. STRATEGIC FOCUS AREAS

4.1 Positioning of the local municipality

Baviaans Local Municipality is an entity of government. As much as it has its own specific mandate and stakeholders to target, it also has to conduct this mandate within the bigger scheme of government. It has its own programmes and messages but at the same time has to position itself within government targets, messages and programmes. National government has put in place structures and systems that aim to bring about synergy between the three spheres. The Local Municipality also has to position itself in the area of jurisdiction according to its powers and functions and its developmental facilitation role, while assessing its place in the larger district, region and province.

4.2 Internal Communication

The key to unlocking a thriving Municipality and moving forward to meeting its targets is increasing communication and information-sharing with internal stakeholders – Baviaans' staff and councilors. These are the ambassadors of the Municipality, who are vital to the

success of the communication strategy. The focus for internal communication will largely be on firstly informing internal audiences of council resolutions, policies, targets, plans and achievements; secondly coordinating activities, messages, campaigns and events and thirdly, internally branding Baviaans Municipality as a good place to work.

4.3 Communication and the Integrated Development Planning and Budget Process

There is a need to ensure that there is a communication cycle tailored to Baviaans Municipality’s Integrated Development Plan (IDP) and Budget process. This is where the role of communication facilitates public participation in the various phases of the IDP and Budget process to bring about a credible, “client-based” IDP and Budget. The communication cycle on page 08 incorporates the planning cycle of the municipality across spheres to coordinate communication in the following way:

January	Mid Year Budget and Performance Reports Table draft annual report of previous financial year
March	Adoption of Draft IDPs and Budget for public comment Adoption of Oversight Report and Annual Report
April	Draft IDP / Budget for public comment
May / June	Adoption of IDP and Budget by Council
July	Distribute and promote new IDPs and Budget
September	Next IDP / Budget Cycle (Review)
October	Consultation for IDP Review
November	Vuna Awards (An opportunity to showcase IDP successes)

“Consultation for IDP and Budget Review” is a key phase for improved communication to ensure effective liaison with Cacadu District Municipality, and provincial and national government departments (intergovernmental relations) and communities in the district management area who will contribute and assess the implementation of the IDP. Other stakeholders may serve as partners and provide resources towards the implementation of IDP projects, which is where the period for raising awareness of the draft IDP should prove valuable.

4.4 External Communication

While internal stakeholders need to be well versed in the “business” of the municipality, external stakeholders need the same clear understanding on the role of Baviaans

Municipality and how exactly they can partner with the municipality for local development. External communication should therefore concentrate on the following:

- 4.4.1 *Communicating the plans and services of the municipality*
- 4.4.2 *Facilitating access to government services and information*
- 4.4.3 *Facilitating public participation*
- 4.4.4 *Media Relations*
- 4.4.5 *Intergovernmental relations forums*

4.5 Accessibility

The municipality needs to ensure it is accessible to its stakeholders. Systems to receive enquiries and provide information and assistance need to be in place.

4.6 Training

All of those involved in government communications may require training on various aspects of communications such as media relations or stakeholder engagement. The implementation of this communication strategy requires an investment in the upgrading of communication capacity amongst those who will play a primary role in implementation i.e. councilors and officials.

5. MESSAGES AND LANGUAGE

Messages

Messages are informed by the State of the Nation Address, State of the Province Address and State of the District Address (when the IDP is tabled for adoption). Messages are further developed using the feedback from stakeholders and are tailored to programmes and campaigns developed with Baviaans Municipality's departments.

Languages of Baviaans

Council has adopted English as its administrative language; however communication takes place in the three official languages dominant in the Baviaans area and district, namely Afrikaans, English and Xhosa, however it has to be taken into account that the home language of 80% of the people living in Baviaans is Afrikaans. This will be reviewed quarterly based on the result of the National Census 2011.

6. MESSENGERS

Messengers are the main champions to reinforce the Municipality's message and image. The champions at Baviaans Municipality who will give effect to this strategy are the following:

- Baviaans Councilors
- Mayor / Communication staff
- Municipal Manager and Heads of Departments

7. TARGET AUDIENCE

There are multiple and diverse audiences vying for the municipality's attention. These audiences differ in respect of language preferences, location within Baviaans, sophistication, interests, access to various media and relationship with the municipality. The Baviaans Municipality undertook a stakeholder mapping exercise to analyse the impact and influence of various stakeholders on its mandate and objectives. The analysis provides focus for the municipality in terms of who it should target with its messages, the channels and tools that will be most appropriate when sending these messages and how messages should be tailored to each audience and campaign. This approach ensures that resources are strategically allocated. The following stakeholders emerged as Baviaans Local Municipality's target audience:

1. Councilors and employees of Baviaans Municipality
2. Communities within the jurisdiction of Baviaans Municipality
3. Organised farming community / organised Agriculture sector
4. Organised tourism sector (nationally and internationally)
5. Cacadu District Municipality
6. Provincial Government Departments
7. National Government Departments
8. Neighboring Municipalities
9. Donor and Development Agencies
10. Private Sector
11. Parastatals
12. Non Government Organisations
13. Community Based Organisations

8. COMMUNICATION CHANNELS

The tools that are most appropriate for communicating with the target audience identified by Baviaans Municipality include the following:

8.1 Electronic and Digital Channels

8.1.1 Baviaans Municipality website

8.2 Commercial Media

8.2.1 Eastern Cape regional newspapers

8.2.2 National newspapers

8.2.3 Regional and national radio

8.2.4 Television

8.3 Advertising and Advertorials

8.4 Municipal Publications

8.4.1 Integrated Development Plan

8.4.2 Annual Report

8.4.3 Calendars

8.4.4 Baviaans newsletter

8.5 Events and platforms

8.5.1 Council meetings

8.5.2 Internal meetings with staff (departmental and organisational)

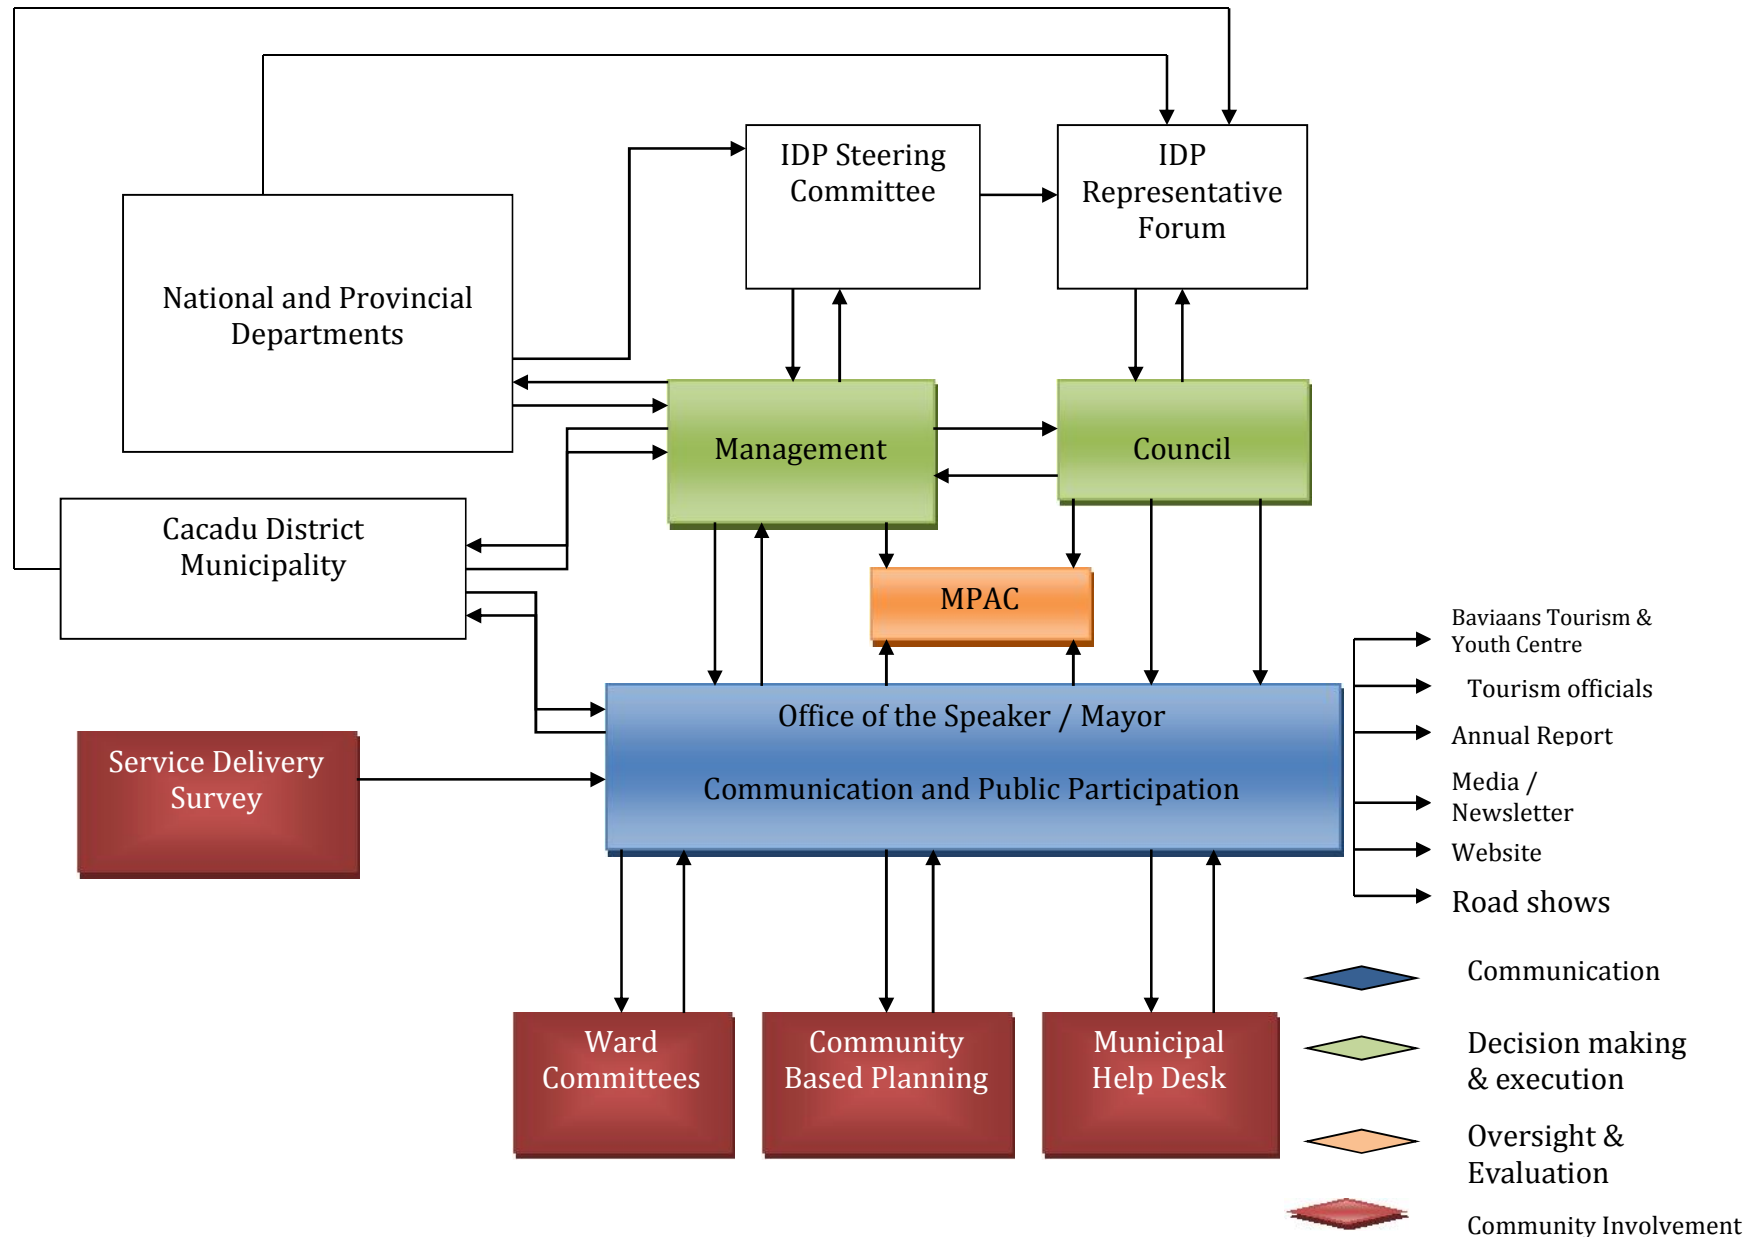

8.5.3 Stakeholder meetings (e.g. Farmers' Association Meetings)

8.5.4 LLF

9. COMMUNICATION STRUCTURES

The diagram on page 08 demonstrates the internal and external communication channels and structures of the communication processes of Baviaans Municipality.

Baviaans Communication and Public Participation Model

10. MONITORING AND EVALUATION

Monitoring and evaluation of communication programmes will be conducted through the Municipality's performance management system, MPAC and Oversight Committee. The communication plan forms part of the Integrated Development Plan and annual budget. It will further be expressed in the Service Delivery and Budget Implementation Plan (SDBIP) and individual performance plans of Section 57 Managers and communication officials of Baviaans Local Municipality.

Baseline information, against which the strategy is monitored and evaluated, may be established through the following:

- Annual Community Survey
- Feedback from IDP Public meetings
- Auditing the current communication structures, tools and activities (website, advertising, media releases, etc.)
- Professional monitoring of the media

Monitoring of communication activities should focus on:

- Cost
- Audience / Target Market reached
- Outputs delivered (feedback received, response by target audience, brochures, pamphlets, posters, media space and positive media mentions, advertisements, radio spots, audit of who visits website, etc.)

11. CONCLUSION

The elements of this strategy, namely messengers, messages, audiences, tools and channels come together to bring about coordinated and planned communication that can strengthen the Municipality's image and credibility. Such planned communication increases confidence in the Municipality's performance and existence. It will further reflect strong leadership and management of the Municipality, showing that councilors and staff alike understand the vision and values of the organization as well as the role they play in the organization.

It is evident that effective communication is not a task for communication specialists alone. **Everyone involved in, and connected with Baviaans Municipality has a role to play – through what they say or do and how they say or do it.** The action plan on page 12 identifies key actions that will build a stronger foundation with which to meet the objectives of this strategy.

Annexure G - HR Strategy

The Baviaans Local Municipality has developed its strategic plan for the period 2013– 2014. Within this plan the Municipality prioritized the staff retention and training of current staff to continue with service delivery.

In order to implement this plan, it is imperative that a Human Resource Plan to be developed to ensure that the Municipality has the appropriate human resource capacity, to enable it to deliver on its mandate and achieve its strategic goals and objectives.

The Human Resource Plan therefore aims to ensure that the Municipality:

- ✓ Have the human resource capabilities to deliver on its mandate
- ✓ That the workforce has the necessary skills and competencies to deliver on the strategic goals and objectives as outlined in the strategic plan
- ✓ Recruits and retains the quantity and quality of staff that it requires
- ✓ Promotes Employment Equity
- ✓ Optimally utilizes its human resources
- ✓ Anticipates and manages shortage and surplus of staff
- ✓ Progressively and continuously develops staff towards the developmental approach in order to meet changing needs.
- ✓ Develops leadership and creates a learning organization that values the importance of service delivery and hence putting people first

The Baviaans Local Municipality has thus developed a Human Resource Plan that talks to the strategic plan of the Municipality, in accordance with mandated service delivery imperatives and legislative requirements. The information contained herein is drawn from a number of processes IDP, Departmental Plans. This plan will be utilized to guide the Baviaans Local Municipality of its Human Resources, as well as to assist with the planning for future service delivery needs.

The Plan is structured to include the background of the Municipality. An assessment of the human resource required to deliver on the department's strategic objectives is presented, followed by a gap analysis indicating the current human resource needs of the Municipality. The plan includes the challenges and strategies aimed at resolving these. The financial implications are then set. And the plan concludes with an explanation of the monitoring and communication strategies in place within the Baviaans Municipality.

PURPOSE OF HR PLANNING

The Baviaans Local Municipality has thus developed a Human Resource Plan in accordance with mandated service delivery imperatives and new legislation requirement.

This plan will be utilised:

- To guide the Municipality in the management of its Human Resources,
- To assist with the planning for future service delivery needs,

- To analyse the gap between the demand and the supply and strategies to close gap.

LEGISLATIVE FRAME WORK

Current legislation governing HR planning is listed below. These documents include interalia

The Constitution of the Republic of South Africa, 108 of 1996
Employment Equity Act, 1999
Labour Relations Act
Skills Development Act, 1998
Occupational Health and Safety Act
Basic Conditions of Employment Act
Promotion of Equality and Prevention of Unfair Discrimination Act 2000

SECTION ONE

INTRODUCTION

OVERVIEW OF THE MUNICIPALITY

The following sets out the Integrated Development Planning of the Baviaans Local Municipality which governs all planning as obligated by Section 153 of Act No. 108 of 1996
(The Constitution of Republic of South Africa)

MUNICIPALITY PURPOSE

To provide basic service to the Community for example, houses, water, electricity, houses, sanitation and etc

VISION

Baviaans Municipality strives towards the establishment of a progressive community within a safe environment where basis service delivery is guaranteed and wherein decision making is based on maximum participation from the Community.

MISSION

The Political Office Bearers, Staff and the people of the Baviaans Local Municipality will:

- Effective participative and accountable developmental local governmental and governance;
- Facilitate sustainable development and ensure environmental integrity;
- Pro-actively identify suitable land for settlement;
- Facilitate housing service;
- Provide basic services;
- Create a climate conducive to local economic development, with a particular focus on eradicating poverty, creating jobs and developing the tourism and eco-tourism sector; and

- Facilitate social upliftment and development

MUNICIPALITY VALUES

A culture of honesty
 High standard of service delivery
 Loyalty
 Professionalism
 Effective and efficiency service delivery
 Implement “Batho Pele” principle
 Goal- orientation

SWOT ANALYSIS

A valuable exercise in the comprehensive planning process of an organization is the identification of the strengths, weaknesses, opportunities and threats (SWOT) facing the organization. In order to analyze the Baviaans SWOT a need to define the strength, weaknesses, opportunities and threats becomes imperative.

STRENGTH: Are those available and valuable assets and attributes that should be preserved or improved on.

WEAKNESSES: Drawbacks, short-comings or short-term challenges that need to be addressed so that they do not cause long-term problems viability and quality of service

OPPORTUNITIES: The long-range positive trends affecting the Organisation as well as the positive paths and that might be followed.

THREATS: Long-term weaknesses, risks intimidations and pressures that can undermine attempts to meeting the goals established the organization.

The SWOT analysis is developed from data derived from the Baviaans Senior Management as well as interpretation of the other profile information about Baviaans. This analysis is the basis for the development of goals and future strategies and will be used to help identify opportunities that offer the Municipality a set of realistic, tangible and affordable actions to pursue.

Top management therefore should start focusing on planning and developing strategies to tackle the challenges that are posed by the SWOT analysis reflected in the table below with reference to weaknesses, opportunities and threats.

The following table illustrates the Baviaans Municipality SWOT analysis:

STRENGTHS	WEAKNESSES
<ul style="list-style-type: none"> • Effective leadership departmentally • Strong political leadership • Sound Financial Management and capacity • Strict compliance to legislation • Stable Political Environment • Sound Internally Developed IDP • Strong Balance Sheet • Sound Management and Planning Team • Skilled and Competent Staff 	<ul style="list-style-type: none"> • Dependence External Service Provider • Lack of sound recruitment & retention strategy • Lack of open communication & transparency • No integrated health & wellness programmes <p>Human Resources Management Departmental objectives and goals</p> <ul style="list-style-type: none"> • Lack of implementing trainings needs with sufficient funds

OPPORTUNITIES <ul style="list-style-type: none"> • Taking the opportunity of the Government emphasis on rural development 	THREATS <ul style="list-style-type: none"> • Increase in Training Budget

OVERVIEW OF THE MUNICIPAL DEPARTMENTS

The current structure of the Municipality is comprised of the following departments:

DEPARTMENT 1: OFFICE OF THE MUNICIPAL MANAGER

- Municipal Manager

DEPARTMENT 2: BUDGET & TREASURY

- Office of Chief Financial Manager
- Revenue & Debt Management
- Financial Management & Support
- Supply Chain Management

DEPARTMENT 3: CORPORATE SERVICES

- Office of the Corporate Services Manager
- Administration Support
- Secretariat

DEPARTMENT 4: COMMUNITY SERVICES

- Office of the Community Services Manager
- LED
- IDP
- PMS
- Career Development
- Library Services

DEPARTMENT 5: TECHNICAL SERVICES

- Office of the Technical Services Manager
- Civil services
- Electricity
- Water
- Protection Services
- Traffic Services
- Parks & Recreation
- Community facilities

SECTION TWO

STRATEGIC DIRECTION

MUNICIPAL HUMAN RESOURCE PLANNING STRATEGIC OBJECTIVES

The Municipality acknowledges that one of the most compelling imperatives for human capital management in the workplace is the alignment of human resource planning with the strategic and operational objectives of the organization. In line with this acknowledgement the Municipality has further moved to a human resource planning which seeks to go beyond merely forecasting the number of employees required to meet strategic objectives of the Municipality. A comprehensive human resource plays an important role in achieving an organization's overall strategic and operational objectives, as it supports the strategic direction of the municipality. Therefore, in order for the Municipality to successfully play its role in the transformation agenda of the Municipality, it is critical that the Municipality has the right workforce profile.

This Human Resource Plan therefore takes into account the strategic priorities of the Municipality and has through the consultation process identified key strategies to close gap between demand and supply of human resources.

This can be done through the implementation of the following HR Planning Objectives:

- Full implementation of Performance Management System
- Development of Integrated Human Resource Plan and monitoring of its implementation
- Development, review and implementation of HR policies, procedures, guidelines and process flow
- Promote transformation through implementation of Employment Equity Programmes
- Facilitate the implementation of Organisational Development interventions through implementation of Job Evaluations, Job Descriptions, and updated organisational structure
- Ensure that the Municipality has competent staff through continuous capacity development and organisational development initiatives
- Facilitate and maintain provision of human resources, conditions of services, human resource information system and implementation of wellness programmes
- Fully implement disciplinary grievance and dispute procedure

ALIGNMENT OF THE MUNICIPAL STRATEGIC OBJECTIVES AND HR STRATEGIC OBJECTIVES

ORGANISATION / MUNICIPAL OBJECTIVES	HR STRATEGIC OBJECTIVES	INTERVENTIONS
A well established Municipality with sufficient resources and institutional capacity to deliver an excellent municipal services	An effective, customized organizational structure	Review of existing organisational structure and drafting of "new" ideal structure
	Create incentives for staff to improve performance / productivity	Formulate a policy for "Bonus Contracts" for section 57 employees
	Conducting Skills Audit	Develop employee skills profile
	Development and implementation of WSP	Consolidate information-n from Skills Audit Attend District Skills Development Forum Implement WSP

ORGANISATION / MUNICIPAL OBJECTIVES	HR STRATEGIC OBJECTIVES	INTERVENTIONS
	Conduct a Training in HR capacity building	Conduct Training for all employees Compile assessment report
	Implementation of Employment Equity Plan	Develop EE Action Plan Monitor and update EE Plan Implementation of Recruitment and Selection Policy
	Established an Integrated Employee Wellness Program	Conduct research from employees e.g. HIV/ AIDS, OSH
	PMS to be implemented to lower levels employees	Consultation with staff Conduct quarterly monitoring reports Develop a programme to assist employees who are under-performing for example specialized training needs

SECTION THREE

ENVIRONMENTAL ANALYSIS

Is the analytical tool which considers external factors & helps the Municipality to think about their impacts, and also useful tool for understanding the big picture of the environment in which we are operating by understanding your environment and by that we can take an advantage of the opportunities and minimize the threats, and are called as PESTEL FACTORS

External Scan Assessment

SECTOR	EXTERNAL ENVIRONMENTAL SCAN
Political	The Municipality is politically driven and that leads to misunderstanding between Council, Management and employees
Economic	Baviaans Municipality is economic rural, employment is very scarce and people are depended on government grants. People are only employed only when there are some projects and sometimes the contractors that are getting tenders and coming outside Baviaans they bring their own labourers to do job, unlike to employ people within Municipality for economic growth and development. LED must to consider these challenges and also to implement the LED objectives that are stated in IDP for creation of employment
Social	Unemployment rate in Baviaans in currently 62%. The youth is unemployed Attitude within Council, Management and Employees is acceptable
Technology	Appointed an external Service Provider
Environmental	Our environmental problem is the distance from other cities, so it's difficult to get people outside to work in Baviaans and many outside employees don't stay for long period, the disadvantage is advertise the posts every time
Legislative / Legal	The Municipality is operating under prescribed legislations, but we don't have a person who is employed, we utilize private attorneys

OJECTIVES & STRATEGIES

Building the Institution & Employee Capacity
Enhance Community Service
Economic Development
Infrastructure Development

RECONCILIATION OF HUMAN RESOURCE DEMAND AND SUPPLY

HR DEMAND

A pre-requisite for achieving the sustainable of service delivery is the adequate staff provisioning of the Municipality. Critical posts that need to be filled as a matter of priority were identified.

An analysis of human resources indicates that the Municipality is mostly having adequate staff.

The Baviaans Municipality is currently developing a retention policy which will guide the Municipality as to how to retain its professional staff, but other interventions will have to be put in place such as the fast tracking development and promotion of people with potential, the recognition of prior learning. The recruitment and selection policy will have to design innovative practices to ensure that employees are attracted to work in Baviaans Municipality and thus guarantee the constant supply of staff.

A second area in the supply chain value refers to the need for skills development of existing staff so as to strengthen their ability to deliver. Learnerships and internship remain a huge challenge.

A third area which requires intervention refers to more improved championing of internal staff needs in the form of the strengthening of an employee wellness program with immediate effect to address ongoing staff mental and physical health problems.

The organizational structure to carry out the mandate and the strategic plan of the Municipality:

Total number of post -121
Number of staff - 107
Number of vacancies – 14

The Municipality plans to fill the vacant posts as soon as possible.

The current structure aims to achieve the goals of the service delivery and try to address the shortage of skills and retain the scarce skills through the following:-

Strengthening the leadership and management structure

Capacitating the Human Resources in the areas of human resource administration, financial administration, community development, infrastructure development and information technology

HR SUPPLY

The Baviaans Local Municipality prepare its HR Plan that talks to the strategic plan of the Municipality that talks to the strategic of the Municipality, and that informs the Municipality of how many Human Resources needed, what kind of Human Resource needed, where they are needed and why they are needed for.

The successful implementation of Strategic Planning depends on the analysis of the Human Resource demand and supply hence the strategic planning was considered for the development of this plan.

HR GAP ANALYSIS

According to the Municipality's Human Resource demand and supply analysis, the gaps are identified, and plan to fill the gaps before the end of this financial

Technical Services	0
TOTAL	1

1. Analysis

The internships are effective because they are able to assist where there is a lack of fulfilling all the functions and they are getting experience to that specific field and also be able to be recommended when there is a vacancy.

2. Implication

They are able to implement what they've learnt from tertiary institution and also come up with new information of doing things

3. Challenges

Unable to appoint more due to financial constraints and also appointing Interns who have left the Institutions some years long ago and that creates some difficulties in performing the functions

4. Recommendations

In future to recruit at least Interns with experience or who are new from tertiary institutions if they've applied and to consider the people who left the institution may be 5 years ago after that.

SITUATIONAL ANALYSIS AND HR CHALLENGES

The Municipality delivers basic services as determined by legislation

A systematic and well-managed human resources programme will result in the following benefits:

- An effective, customized organizational structure
- Good governance and Public Participation
- Municipal Financial Viability & Management
- Basic service delivery
- Local Economic Development

All these aspects of human resources, organizational structures and systems, and infrastructure need to be taken into account when we undertake the situation analysis for our HR work.

HUMAN RESOURCE BUDGET

The Human Resource Management goods and services budget stands to

COMMUNICATION OF THE PLAN

To ensure the successful of the Human Resource Plan it is essential that the plan should be extensively communicated to all relevant stakeholders. This can be accomplished through the following strategies:

- The Human Resource Task Team will communicate the plan by conducting workshops to all departments
- Corporate Services Manager will issue memos and circulars that communicate certain aspects of the plan
- Presentation at staff and management meetings the most important and urgent part of the plan
- The workers will be given an opportunity to access the information through labour representatives.

IMPLEMENTATION, MONITOR AND EVALUATION OF THE PLAN

The turnaround strategy has introduced a number of innovative systems and procedures to improve effectiveness, efficiency and the general management of Baviaans Municipality's functioning. The change strategy will support these initiatives through structure such as:

- Management Meeting whereby operations are monitored in relation to strategic priorities
- Local Labour Forums to track the trainings spend and its impact
- Workgroup Meetings where co-ordination and progress are monitored
- Progress on the implementation of the above will be measured on a continuous basis and corrective actions will be taken where necessary. The above mechanisms are also utilized to measure progress.

												legislation is adhered to.	
5	34	Procurement: Deviations not submitted to council	Non-compliance with legislation	Procurement	Other important matters	Management should ensure that all deviations are submitted to council as per the requirement of the SCM policy.	New	Immediately	The error is noted. The finding will be brought to the attention of all parties involved to ensure that it does not re-occur. The deviation will be submitted to council.	<ul style="list-style-type: none"> Processes and procedures should be implemented to ensure that all requirements and stipulations of the SCM Policy are executed as required. 	CFO/SCM Practitioner	<ul style="list-style-type: none"> The National Treasury MFIP II Advisor will assist the responsible officials to ensure that all policies of the Municipality are implemented and executed as required. 	Okay - manageable issues
6	35	Procurement: Missing documentation	Misstatements in financial statements	Procurement	Other important matters	Management should ensure that full and proper records of the financial affairs of the municipality are kept in accordance with any prescribed norms and standards.	New	Immediately	The error is noted. The finding will be brought to the attention of all parties involved to ensure that it does not re-occur. This matter will be followed up and all the documentation available will be provided for audit purposes.	<ul style="list-style-type: none"> Ensure that all prescribed norms and standards are implemented and executed with regards to all financial records of the Municipality. 	CFO/SCM Practitioner	<ul style="list-style-type: none"> All municipal officials should be informed of the importance of full and proper records with regards to the financial affairs of the Municipality. 	Okay - manageable issues
7	36	Procurement: Contract expenditure exceeds total contract value	Misstatements in financial statements	Procurement	Other important matters	The commitments register should be updated at the end of each month to determine that value of the contract remaining.	New	1 February 2015 & monthly thereafter	Irregular disclosure has been amended.	<ul style="list-style-type: none"> Processes and procedures should be implemented to ensure that the Commitments Register is updated at every month-end. 	CFO/SCM Practitioner	<ul style="list-style-type: none"> The National Treasury MFIP II Advisor will assist the responsible officials to ensure that the Commitments Register is updated on a monthly basis. 	Okay - manageable issues

Control no.	Query #	Finding	Classification	Area	Impact/Rating	Audit Recommendation	New / Old issue	Estimated date of completion/correction	Management Response	Key tasks that need to be performed	Official(s) delegated to	Comments	Status
8	10	Service delivery: Lack of blue drop status and no plan to improve	Service delivery	Service delivery	Other important matters	The municipality should develop and implement an action plan to improve the water quality in the municipal area.	New	30 June 2016	The development of a blue drop improvement plan could not be developed for the 14/15 year due to the fact that the Minister of DWS has not released the blue drop evaluation results for this year, as soon as the results is released, an improvement plan will be developed by the end of June 2016.	<ul style="list-style-type: none"> A Blue Drop Improvement Plan must be developed and implemented before the conclusion of the 2015/2016 Annual Financial Year. 	Manager Technical Services	<ul style="list-style-type: none"> The Manager Technical Services will have to take responsibility for this activity. 	Okay - manageable issues
9	11	Service delivery: Waste water quality not achieved	Service delivery	Service delivery	Other important matters	The municipality should develop and implement an action plan to improve the waste water of the municipal area and plans should be in place to test water annually.	New	31 January 2016	The results that are reported on a monthly basis is the drinking (potable) water results from samples taken by the district municipality, not waste water results. We do not as yet, and has never up to this point sampled final effluent from the various waste water treatment plans, due to budget constraints. The municipality is however going to institute a sampling program shortly, and is in negotiations with the NMMM scientific laboratory to perform the monthly testing of the final effluent from the treatment works on a monthly basis according to minimum determinants as prescribed by SANS 241. The municipality	<ul style="list-style-type: none"> The sampling of the waste water should commence by the end of January 2016 in order to avoid a repeat of the audit finding.
