FOREWORD BY THE EXECUTIVE MAYOR

Once again we applaud the continuous robust engagement on developmental agenda of Thaba Chweu and further resonate to improve the socio economic conditions of our beloved people. This is a Programme of action that base its foundation on consultation as guided by the principle of continuous mobilization of resources to inform, educate and empower our communities. As a developmental municipality we have put community participation and engagement as the cornerstone of our activities. We are faced with a mammoth critical tasks of renewal and reconnecting Thaba Chweu municipality with its people and consider strengthening relations with role players, and restoring the values and integrity of our municipality.

As the Political head of Thaba Chweu commit all councillors to subscribe to the call by ANC as the ruling party to give substance and concrete expression to the 'new dawn', in the context of 54th National Conference resolutions, including commitments in the January 8 statement and the State of the Nation Address on an urgent national plan of economic recovery, tackling youth unemployment and increasing investments in the real economy, and unification of all citizens regardless of race and gender - around a shared vision of radical socio-economic transformation.

On initiatives geared towards economy, we welcomed the imminent launch of the **Youth Employment Service (YES)** by National Government. This initiative is a partnership between government and the private sector and aims to see 1 million young South Africans being offered paid work experience over the next three years. We urge and reiterate our call to first voters, primarily youth, to register, and for those who are registered, to check and confirm their registration details including residential addresses and that the key focus area for the next general elections should be an inclusive voters roll as set out in our constitution.

We continue to put in place innovative and sustainable measures to deliver on our strategic mandate from how we maintain strategic infrastructure, maximize revenue collection, improving Auditor General's Reports and institutional development. Frank and robust consultations with our communities on what is possible or not puts us in a good space to deliver fast paced and immediate response in delivery of services to our communities. We will embark on ensuring that the decentralization of services to business units guarantees community involvement to a greater extent and the provision of improved services. The Municipality is geared towards holding open and honest consultations with all stakeholders.

We reiterate the fact that our municipality still face a plethora of challenges to be turned around i.e. Negative Audit opinion, Dilapidating infrastructure particularly roads, Mushrooming of Informal Settlements and Land Invasion, Illegal Electricity Connections and bridging of electricity by some of our own employees, Capacity gaps, poor functioning of Administrative Units, poor revenue collection and Eskom Account debt. The referred to challenges must be confronted with velocity of a bull. Failure which would have unnecessary insurmountable drawbacks that will negatively impact service delivery.

Our IDP is in line with the National Development Plan and African National Congress policies. At the end of this work I hope all our commitment will bear relevant fruits called service delivery and economic growth that will improve our society at large. In closing I urge all parties; private and public sector to join hands in implementing this integrated development plan.

Honourable Executive Mayor

Cllr S Mashigo-Sekgobela

CHAPTER 1 (Introduction)

1.1. Executive summary

Thaba Chweu Local Municipality (TCLM) is a Category B municipality located in the north-western region of the Mpumalanga Province in the Ehlanzeni District. It is one of four municipalities in the district. It came into being after the December 5th 2000 local government elections. The escarpment divides the district into eastern and western halves. It is located on the far north-eastern part of the district. It shares its northern boundaries with Limpopo. The municipality is on the Lowveld escarpment of Mpumalanga, with an average elevation of 1 400m above sea level and altitudes varying from 600 to 2 100m.

The main economic sectors are forestry, agriculture, mining, business services and tourism. The western half (Lydenburg Town) is dominated by agricultural and farming activities, while forestry is the main economic activity of the eastern half (Sabie and Graskop Towns).

The municipality is one of the major tourist attraction areas in South Africa. Mashishing (previously as Lydenburg) is the oldest town in the province, and a hub of heritage where the famous Lydenburg Heads, which are said to date back to 400AD, were found in the 1950s. Also found here are old stone houses. Most of all, this is the home of trout fishing.

Graskop is home to the Three Rondavels, The Blyde Canyon, Potholes, God's Window, The Pinnacle, Berlin, Lisbon, and Graskop Falls, all of which are World Heritage Sites, and form the Panorama Route. In the Sabie area, when travelling east of Mashishing through the Long Tom Pass, there are hectares of pine plantations. These mountains are part of the Drakensberg Mountain Range.

The municipality is governed by the African National Congress (ANC) which was democratically re-elected to govern after the 03rd August 2016 local government election. The total number of councilors in the municipality is 27 with ANC holding a majority of 17 seats and the other seats are split over to the opposition parties. There are fourteen wards in the municipality with three Towns namely: Mashishing (Lydenburg) which is the main town located in ward 01, 02, 03, 05, 12 & 14, Sabie town which is the second largest located in ward 06 & 07, the smallest is Graskop located in ward 10 and Pilgrim's Rest located in ward 13 which is a heritage place whereas ward 08 & 09 holds the rural population in the northern part of the municipality, the other wards are mainly farms with small population.

1.2. Legal Background

Section 25 of the Municipal System (MSA) Act 32 of 2000 requires that every elected Council must develop and adopt a strategic plan, commonly known as Integrated Development Plan (IDP) to guide & inform the municipality's planning, development & budgeting. The Act (MSA) also requires that the approved IDP be reviewed annually based on its performance & other changing circumstances deemed relevant and necessary by the municipal council. Integrated development planning is a process through which a municipality prepare an inclusive strategic development plan for a period of five-year.

The need for the integrated development plans is entrenched in the South African Constitution (Section 152 and 153). The Constitution states that local government is in charge of the development process in municipalities and it is in charge of municipal planning. Furthermore the municipal Systems Act 32 of 2000 provides that all municipalities have to undertake an integrated development planning process to produce integrated development plans. As the Integrated Development Plan is a legal requirement it has a legal status and thus supersedes all plans that guide development at a local government level. It is very important for a municipality to have an IDP, one of the primary role of this council policy (IDP) document is to coordinate and consolidate

all planning and budgeting within a municipality. The aim of this planning is to achieve the envisaged vision of the municipal council.

The IDP should inform the following:

- The budget processes of the municipality,
- Allocation of scarce resources to maximize development impact in areas of greatest needs,
- Alignment of municipal, provincial, national and parastatals programmes and projects
- To ensure sustainable development and growth,
- Facilitate an inclusive planning within the municipal jurisdiction,
- To facilitate credible accessibility to the municipality and its governance structures by citizens,
- To enable active citizen participation in affairs pertaining to planning and development,
- Facilitate access to development funding,
- Encourage local and international investment,
- Building capacity among Councilors and officials,
- Effective and efficient use of the available resources for a maximum development impact in the communities.

The TCLM IDP becomes a principal strategic plan that guides and informs resource planning and budgeting that informs decision-making processes for the municipal development. The process of the IDP allows for participation throughout the process with various stakeholders from all walks of life in matters of development that interest and affects them. The participation platforms for various stakeholders inform various sub-strategies and policies including by-laws that are developed to address stakeholder's needs and development priorities. All aspects of planning should be contained in an integrated form in this policy document i.e economic, social, environmental, infrastructural and spatial aspect. This process assists the municipality in identifying its key areas of greatest needs of service delivery and development which then assist in identifying development vision, mission statements and development priorities under which appropriate strategies are developed address the priorities.

1.3. Overview of the IDP process

The Municipal Systems Act (Section 29) also requires that a process be set out in writing and be adopted by the Municipal Council to guide, among other aspects, the IDP review process. The Municipal Systems Act refers to the Process Plan that had to be prepared for the IDP process, which had to include the process for IDP Review. The Process Plan is a management tool for each municipality, which helps the management of the IDP process on a day-to-day basis. The Process Plan has to include:

- A list of the required roles and responsibilities, also indicating responsible persons or agencies, and terms of reference describing the roles and responsibilities,
- A description of the organisational arrangements to be established, including terms of reference, selection criteria, list of agreed representatives, code of conduct
- Mechanisms and procedures for public participation, including organisational arrangements, a communication strategy, etc
- Action Programme: activities, responsible persons, time frames, resources
- Alignment mechanisms and procedures, including responsible persons, specific activities/events and conflict resolution procedures
- Binding legislation and planning requirements at provincial/national level
- Budget per activity and aggregated by category

In terms of Section 21 of the Municipal Finance Management Act 56 of 2003 (MFMA), the mayor of a municipality:

- Must co-ordinate the processes for preparing the annual budget and reviewing the municipality's Integrated Development Plan (IDP) and Budget related policies to ensure that the tabled budget and any revisions of the IDP and budget related policies are mutually consistent and credible. Section 53 of the MFMA requires the mayor to provide general political guidance over the budget process and the priorities that must guide the preparation of a budget.

The following are the legislative framework for IDP, Budget and Performance Management System processes:

1. Municipal Systems Act, No. 32 of 2000 (As amended)
2. Municipal Finance Management Act, No. 56 of 2003
3. Municipal Planning and Performance Management Regulations, 2001

Key role players in the IDP process

Sketch 01: Process Plan structure's flow

N.B: The roles and responsibilities of the above structures are defined in the process plan available as annexure in this IDP.

This figure refers to the structures that are going to be responsible for the implementation of the process plan and management of the IDP processes, namely IDP Technical/Managers Committee, IDP Budget Steering Committee and the IDP Representative Forum.

Stakeholders Involved in the IDP process

- Members of the Thaba Chweu Local Municipal council/Local Communities
- Executive Mayor
- Members of Mayoral Committee
- Ward councillors
- Municipal Manager
- Municipal Officials
- IDP Manager
- A designated official of the Municipality to represent gender ,disability and other unorganised group in their absence (person to be nominated)
- Provincial Sector Departments
- Ehlanzeni District Municipality
- Representatives of Traditional Authorities
- All Heads of Provincial and National Departments and designation senior officials or top Management (Head of Departments)
- Local stakeholders representatives of organised groups include:

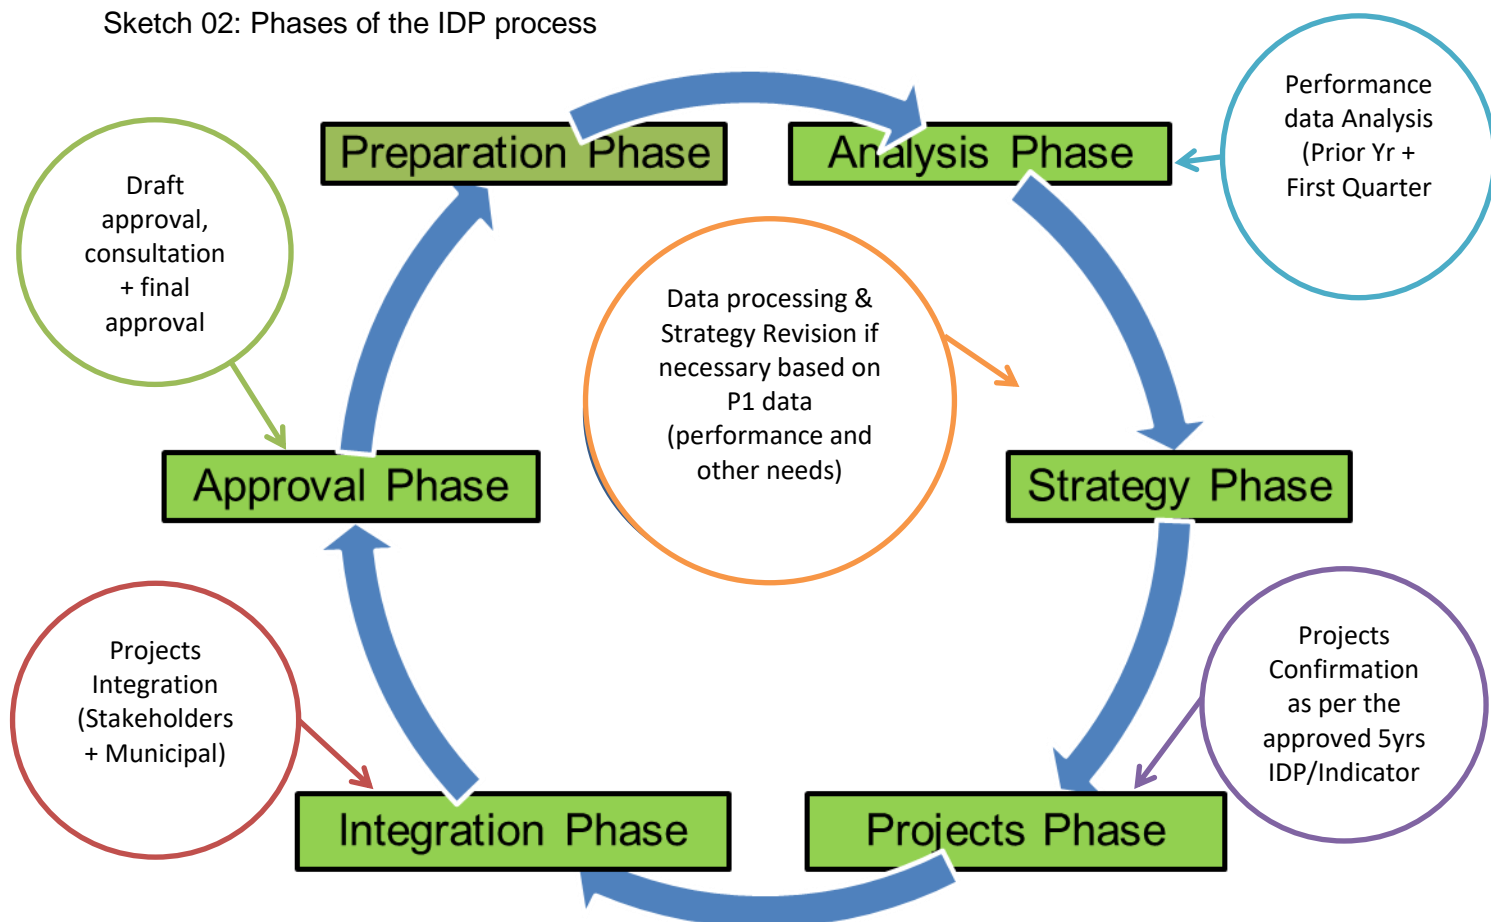

1. Ward Committees
2. CDW
3. NGOs
4. NPOs
5. Parastatals
6. Business Organisations
7. Church bodies
8. Organised Groups e.g. disabled

A representative forum (Rep Forum) comprises of selected stakeholders representing various organisations. For more info on this refer to the process plan attached as **annexure**.

Summary of the Process followed during the review

In reviewing the current IDP and Budget the municipal planning and budget processes was governed by a process plan which was approved by council on 31st of August 2018 under council resolution number A131/2018. The sketch below summarises the phases followed. Safe to say that the municipality to date has managed to meet all the phases as required by the plan.

Sketch 02: Phases of the IDP process

This IDP is crafted on the basis of intense consultation with various stakeholders. During the strategy review phase of the process a number of issues were identified which triggered the development of a Turnaround Strategy “*Re Direla Batho Turnaround Strategy*” under which most of its resolutions have found expression in the previously revised IDP 2018/19. The copy of the strategy is attached as an Annexure in this IDP. The following table summarises the consultation dates for Draft IDP and Budget including its policies and By-Laws:

Consulting on the Draft IDP & Budget for the next two years (2019-2021)

Table 01: Schedule of meetings planned for the IDP review 2019 - 2021

DATES	VENUE	TIME	WARD
03 April 2019	Lydenburg Town Hall	17H00	12 & 14

	Leroro Community Hall	13H00	

The municipality has managed to consult various wards for the draft budget and its policies. All comments received have been assessed and considered based on applicable principles together with council, provincial and national policies and guidelines.

2. CHAPTER 2 (Situational Analysis)

This chapter presents the situational analysis of the municipality which is a requirement in terms of section 26 (b) of chapter 5 of local government legislation (Municipal System Act 32 of 2000) which compels the IDP to reflect an **assessment of the existing level of development** in the municipality, which must include an **identification of communities which do not have access to basic municipal services**. In order to enable the municipality to determine the accurate status quo two processes have been used namely: Technical Commissions established by the IDP & Budget Steering Committee aimed at conducting technical investigations on key basic aspects of municipal core functions and Public Participation process aimed at obtaining perception of various stakeholder's needs also established as part of the steering committee work through process plan implementation.

This chapter reveals the actual status of the current situation which includes challenges and problems from core functions of the municipality in order to simplify the planning and execution of successful strategies for the IDP in the next five years (2017-2022). The information presented in this chapter is very crucial as it informs appropriate projects planning and budgeting.

2.1. Municipal Location

Provincial context

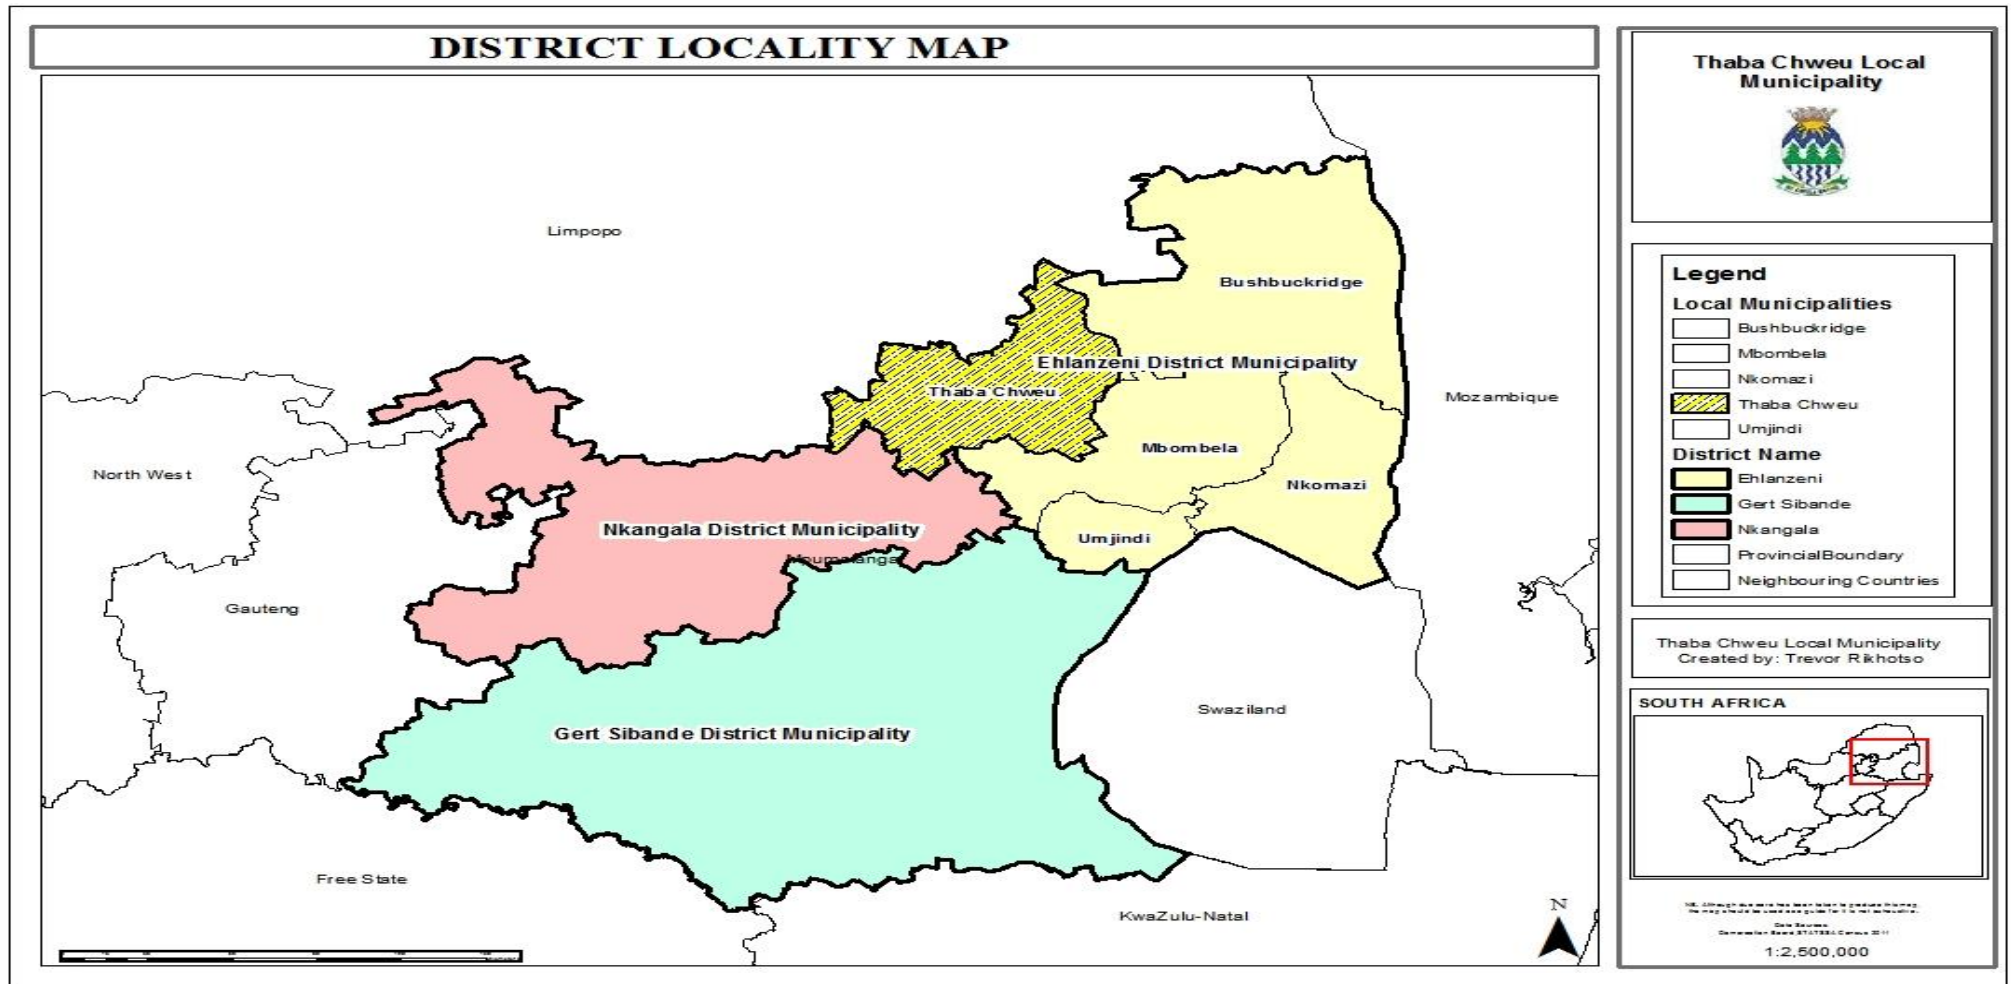

The municipality is one of the four municipalities of the Ehlanzeni District Municipality (EDM) of Mpumalanga province. TCLM is located on the far north eastern part of the EDM. It shares its northern boundaries with the Limpopo province. Map 01 below demonstrates the location of the municipality from the provincial context.

Municipal Context

From the sea level altitude perspective, the municipality is located on the Lowveld escarpment of the Mpumalanga Province with an average elevation of 1400m above sea level and altitudes varying from 600 to 2100m. The municipality shares its boundaries with the following municipalities: Bushbuckridge Local Municipality on the eastern part, Greater Tubatse Local Municipality on the northern part and Mbombela Local Municipality on the Southern part. Thaba Chweu comprises of 14 wards; The major towns within the municipality are Lydenburg, located along the R37, Graskop & Sabie situated along the R532. Map 02 below demonstrates the location of the municipality including the main towns and all current wards and population density within the municipality.

DRAFT WARDS Thaba Chweu (MP321)

2.2. Demography

2.2.1. Population Size & Growth

This section deals with population size, distribution of population by age and sex, composition of population by sex and age. The information provided is as per census 1996, 2001 and 2011. It considers the change in demarcation during 1996 to 2016; these demarcation changes have influenced or affected the census results over periods.

Figure: 01. Population size (1996 - 2016) *Source: StatsSA 2016*

Figure 01 above presents the population size of TCLM in the year 1996, 2001 and 2011. According to the Census results of Stats SA the population size in 1996 was 65,909, 2001 it stood at 81,681 and in 2011 it was 98,387 it is projected that by 2030 we will be around 113,290. According to this statistics there has been an increase in population size from 1996 to 2011 and we will experience a further increase in the population. This is due to migration and unemployment as there is continuous need for employment in Thaba Chweu as there are a number of economic pull factors into the area.

Figure: 02. Population size (2011 - 2016) *Source: StatsSA 2016*

Furthermore the community surveys conducted by statsSA indicated an increase in population from 98387 in the year 2011 to a population of 101895 in 2016. Figure 02 above illustrates that increase in population.

This statistical information becomes important in TCLM planning in order to accurately determine the service demand and focus areas for basic service improvement from all pieces of municipal sector plans and policies. In simple terms this becomes a key directive for planning and budgeting within the municipality.

The population change is somewhere around 0.8 percent a year which is about 817 in numbers of people this excluding other migration forms as a result of economic and social pull factors which has proven to be a case in the Lydenburg and Sabie areas.

2.2.2. Population Pyramid

Figure 03: Population Pyramid

Source: Stats SA, CS 2016

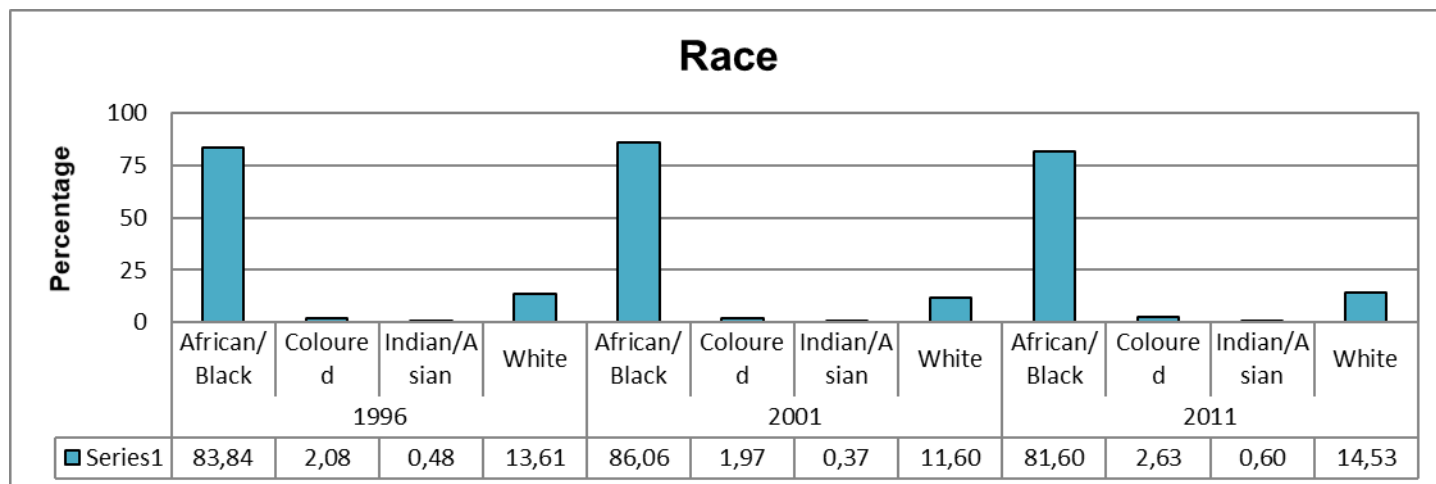

The population of Thaba Chweu municipality shows a typical age structure of a different age group distribution during the 2016 community survey. Figure 3 above represents a high proportion of the age group of between 25-29 to be highest and 0-4 to be the second highest. With males at a higher number compared to females in the age group of 25-29 and the females being the highest in the 0-4 age group. The number decreases as the age goes up. The age group of 80+ has the lowest proportion compared to the rest of the other groups. In terms of gender balance the females have the highest proportion in almost all the age groups. The figure 01 demonstrates the

population pyramid of different age groups. Despite this population distribution by sex and age, the population of the municipality has concentration of younger age groups.

2.2.3 Race/Ethnic Group

Figure: 04. Race

Source: Stats SA 1996, 2001 and 2011

The graph above presents the status quo in terms of the percentage of ethnic/race groups within TCLM. It shows that blacks/black people are the most dominant in the year 1996, 2001 and 2011 followed by whites/white people. This means that the municipal planning in terms of socio-economic related up-liftment programmes and projects must target groups or speak or respond to the race with the highest percentage. The municipal plans have taken note of this information and are responding (through prioritisation of programmes and projects) to these figures through its relevant sector plans. Although there is still a huge backlog for most black households for basic infrastructure provision. The IDP development approach has identified all areas with black/black people dominance for basic service delivery back-log intervention and to address some of the socio-economic challenges facing this race although the impact will be realised over a medium to long term period.

2.2.4 Age Grouping (1996-2011)

Table 02: Age Group

Age	Years	Percentage
0-14 years	1996	29,21 %
	2001	28,42 %
	2011	25,17 %
15-64 years	1996	64,49 %
	2001	67,16 %
	2011	69,91 %
65+ years	1996	6,29 %
	2001	4,42 %
	2011	4,92 %

Source: Stats SA 1996, 2001 & 2011

The table above presents the population grouping by age. It consist of group 0-14, 15-64 and 65+/and above. Amongst all the three groups the one that has hit a peak in the years (1996, 2001 and 2011) is the age group of 15-64 which sat at a percentage of 64,49 in 1996, 67,16 in 2001 and

69,91 in 2011. The lowest age group is 65+ in the years (1996, 2001 and 2011) whereas the age group 0-14 years had a percentage ranging from 25,17 to 29,21. Although the table shows that there has been a slight constant decrease in the age group 0-4 years from 1996 to 2001 and 2001 to 2011 which means there was some adverse effect either on mortality or other factors, whereas in the age group 15-64 there was an increase from 1996 to 2001 and 2001 to 2011 which shows that there has been a slight increase. The age group 65+ sat at 6,29 in 1996 and remained almost the lowest in the years 2001 and 2011. In general this shows that in the age group 0-14 there is a need to determine the actual cause of the decline in percentage in order develop appropriate strategies to mitigate such causes, although on the other age group of 15-65 the increase might have resulted from other pull factors such employment opportunities from mining and tourism recreational activities.

Table 03: Youth Age

Age (Youth)	Years	Percentage
14-35 years	1996	40,21 %
	2001	41,14 %
	2011	41,77 %

Source: Stats SA 1996, 2001 & 2011

The table above depict an age group of 14-35 (Youth) in the years 1996, 2001 and 2011. There has been an increase in percentage in the years 1996, 2001 and 2011. In 2011 the percentage of the youth sat at 41,77 percent which is a huge figure compared to the age group 0-4 and 65+ (table 15). This evident a fact that youth has the biggest portion of the entire percentage in the years 1996, 2001 and 2011. This means that the IDP development plans must give attention to such group to improve socio-economic status.

2.2.5 Gender

Table 04: Gender

Years	Gender	Percentage
1996	Male	50 %
	Female	50 %
2001	Male	49 %
	Female	50, %
2011	Male	51 %
	Female	49 %

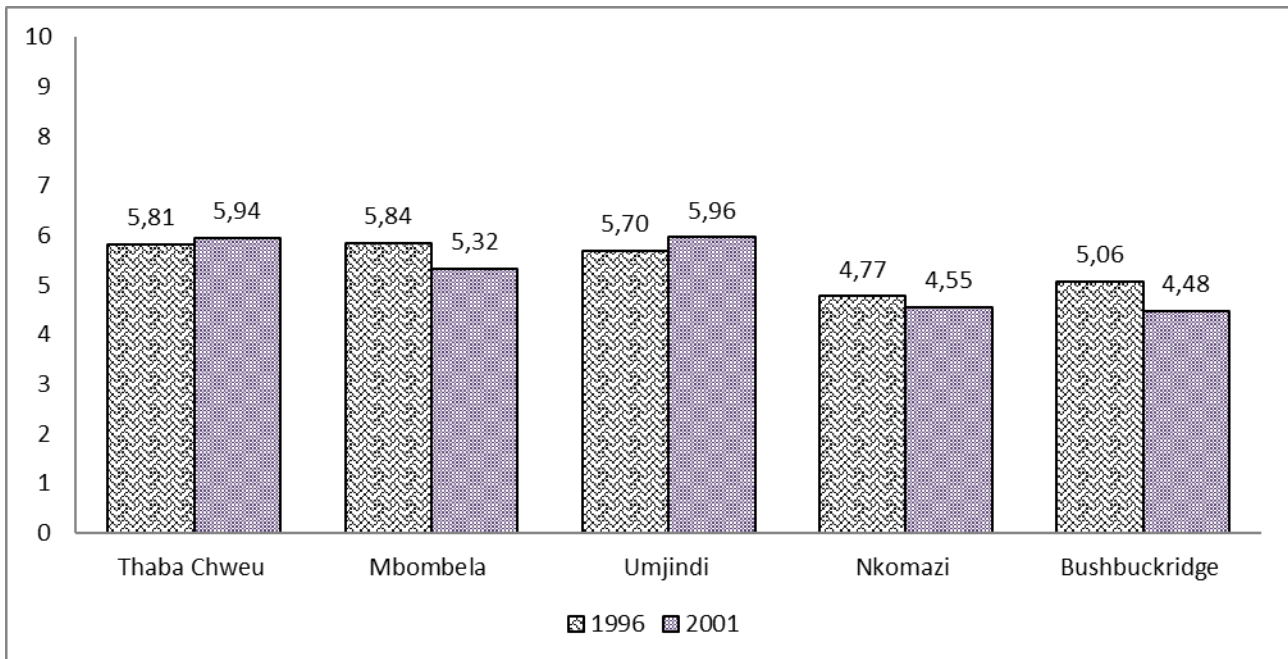

Source: Stats SA 1996, 2001 & 2011

In terms of gender there has been not much change in the years 1996, 2001 and 2011. The percentage of males and females fairly remained the same, in the year 1996, the number of males went down to 49 percent while the number of females was at 50 percent in the year 2001 at least higher than the males, and in the 2011 there has been a slight change in the number females at least this time males were higher by 1% to the females. Table 15 above presents the status of gender figures in 1996, 2001 and 2011.

2.2.6 Persons with Disabilities

Figure 05: Persons with Disabilities

Source: Stats SA 1996, 2001 & 2011

The table above presents the percentage of persons with disabilities within TCLM. In terms of the figure depicted below TCLM is the second highest compared to the other municipalities in the district although the figure presented in the table shows the status in the year 1996 and 2001. TCLM recognises that the figure might have gone high in the year 2011 and to date. TCLM has recently established a transversal unit in the municipality with strong recognition of persons with disabilities. The transversal unit is currently in process of developing a transversal strategy aimed at assisting in terms of persons living with disabilities within the municipal area of jurisdiction in order to address some of the socio-economic and other related challenges facing these groups. A number of programmes have been prioritised in the financial year 2014/15. Figure 05 presents the status of people living with disabilities in years 1996 and 2001.

2.3 Socio-economic profile

2.3.1 Poverty Rate

Table 05: Poverty Rate

Local Municipal Area	Poverty rate (lower bound) 2011	Poverty rate (lower bound) 2015	Poverty numbers (lower bound) 2015
Emalahleni	19.6%	21.0%	90 494
Steve Tshwete	18.9%	21.0%	53 567
Thaba Chweu	21.2%	21.5%	21 792
Govan Mbeki	24.3%	26.1%	81 481
Emakhazeni	27.9%	27.8%	13 240
Umjindi	28.3%	28.9%	20 375
Dipaleseng	30.0%	29.3%	12 650
Lekwa	28.6%	30.7%	35 801
Mbombela	33.3%	32.6%	202 433
Msukaligwa	30.4%	32.7%	50 964
Victor Khanye	30.1%	34.1%	27 524
Thembisile Hani	44.4%	40.2%	133 169

Chief Albert Luthuli	46.7%	40.8%	74 944
Dr JS Moroka	48.4%	44.8%	112 258
Dr Pixley Ka Isaka Seme	46.3%	47.0%	38 723
Bushbuckridge	53.9%	47.7%	266 620
Nkomazi	50.2%	48.1%	199 827
Mkhondo	50.2%	51.0%	92 77

Source: StatsSA 2016

2.3.2 Human Development Index (HDI)

Figure 06: Human Development Index

Source: Mpumalanga Dept of Finance 2010

The table above presents the status of human development index calculated by taking into account literacy rate, household income and life expectancy. Value ranges from 0 to 1 where 0 is the worst and 1 is the best. In the case of TCLM in 2010 the value was sitting at 0,54 percent at least above 50 percent per the above given formula, not that worse though this means improvement measures are necessary to up-lift the status.

2.3.3 Gini-Co-efficiency

Figure 07: Gini-Co-efficiency

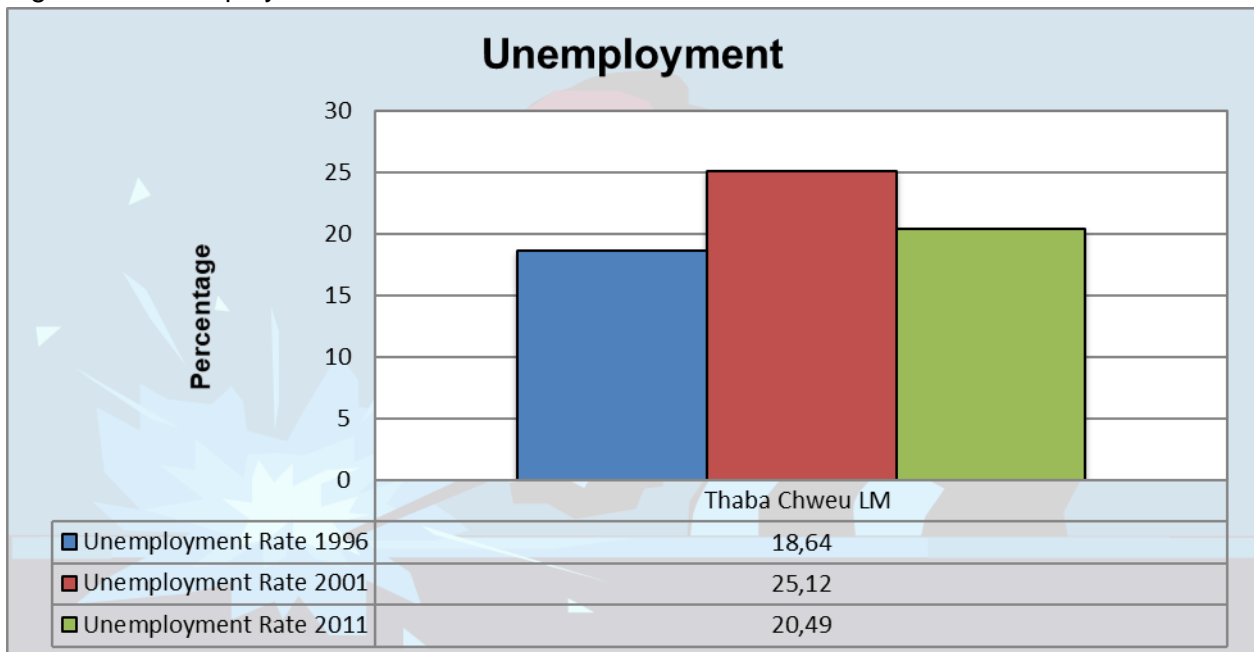

Data Source: Mpumalanga Dept of Finance 2010

The indicator figure 07 measures inequality in terms of living standards. The estimate in TCLM ranges from 0 to 1 where 1 is an indication of total inequality and 0 a total equality. Given the figures above TCLM is not that bad because in the year 2010 the exact figure was at 0,59 percent. Although an improvement is crucial to completely eradicate inequality in municipality. The SDF is aimed addressing this challenge.

2.3.4 Unemployment General

Figure 08: Unemployment Rate

Source: Stats SA 1996, 2001 & 2011

The graph above depicts the trend of unemployment in general in the years 1996, 2001 and 2011. TCLM was sitting at 18,64 percent in 1996 whereas in 2001 it was at its highest at a percentage of

25,12 and 20,49 percent in the year 2011. An analyses proves a decrease in unemployment rate i.e there was an increase of 6,48 percent from 1996 to 2001 and between 2001 and 2011 the graph shows that there has been a constant decrease of 4,63 percent. In 2011 TCLM sat at an overall percentage of 20,49 which is not that bad compared to the figure in 2001. In general unemployment remains high in TCLM and in order to combat this, the LED strategy must be strengthened.

The general unemployment of TCLM population comprises of classified persons i.e People with disabilities, Women and Youth. Persons with disabilities contributes a percentage of 20,12 percentage in the classified category of disabled persons in the year 2001 which has risen by 1,28 percent from 1996 (See figure 10). Women unemployment contribute 28,04 percent which is a decrease compared to the figure in 1996 (See figure 11) whereas youth unemployment was rife in 2001 and decreased in 2011. TCLM sat at 26,56 percent in the year 2011 (See figure 12) *[Note the percentages are in terms of the total population of each classified person's category and not in terms of the total population of TCLM].*

2.3.5 Number of social grand recipients

The municipality has a high number of persons with prevalence of child support grand, the number stand at about 8000, the other category stand at least 4000 i.e half of the child grant recipient are the elderly people receiving social grants, persons with disabilities are at least half the size of the old age person receiving grant and the lowest groups are in the category of war veteran, foster care, care dependency and grant aid. The municipality is aware of these challenges and is committed through its municipal departmental unit to eradicate such dependencies. However TCLM always faces financial challenges to completely absorb the magnitude of all social problems. The transversal unit and other related unit has various programmes aimed at eradicating these dependencies.

Figure 09: Social Grant Recipients

Source: Stats SA 1996, 2001 & 2011

2.3.6 Employment by industry

Figure 10: Employment by Industry

Source: 2018: Revised Draft LED Strategy

The Figure 10 presents employment by industry/sector within TCLM. It has been observed that a large number of employment opportunities come from the agricultural sector followed by retail services and then manufacturing sector. Social, Government and business services also contribute a better percentage in employment whereas mining, transport and construction share the least in terms employment within the local economy.

2.3.7 Highest Educational Attainment

Table 06: Highest Educational Attainment

Local municipal area	Grade 12 Pass Rate			Admission to B degree
	2011	2014	2015	2015
Emakhazeni	74.8%	85.7%	87.0%	29.5%
Steve Tshwete	74.4%	85.6%	86.3%	30.5%
Thaba Chweu	69.0%	81.1%	85.7%	35.4%
Nkomazi	76.2%	86.0%	85.7%	26.7%
Victor Khanye	70.3%	74.6%	85.4%	27.3%
Emalahleni	75.8%	81.9%	84.6%	27.7%
Lekwa	71.1%	84.7%	82.6%	35.9%
Mbombela	69.1%	80.5%	80.5%	30.0%
Dr JS Moroka	57.6%	73.8%	80.0%	24.1%
Chief Albert Luthuli	69.7%	80.1%	79.5%	25.4%
Thembisile Hani	67.2%	77.1%	77.8%	19.9%
Bushbuckridge	51.2%	76.4%	76.0%	18.6%
Govan Mbeki	71.3%	76.3%	74.4%	22.7%
Umgindi	74.9%	67.6%	72.3%	25.2%
Msukaligwa	74.1%	80.6%	71.3%	24.8%
Mkhondo	55.2%	70.9%	66.9%	24.7%
Dr Pixley Ka Isaka Seme	46.0%	68.1%	60.7%	13.6%
Dipaleseng	42.6%	81.4%	53.6%	11.8%
Mpumalanga	64.8%	79.0%	78.6%	24.5%

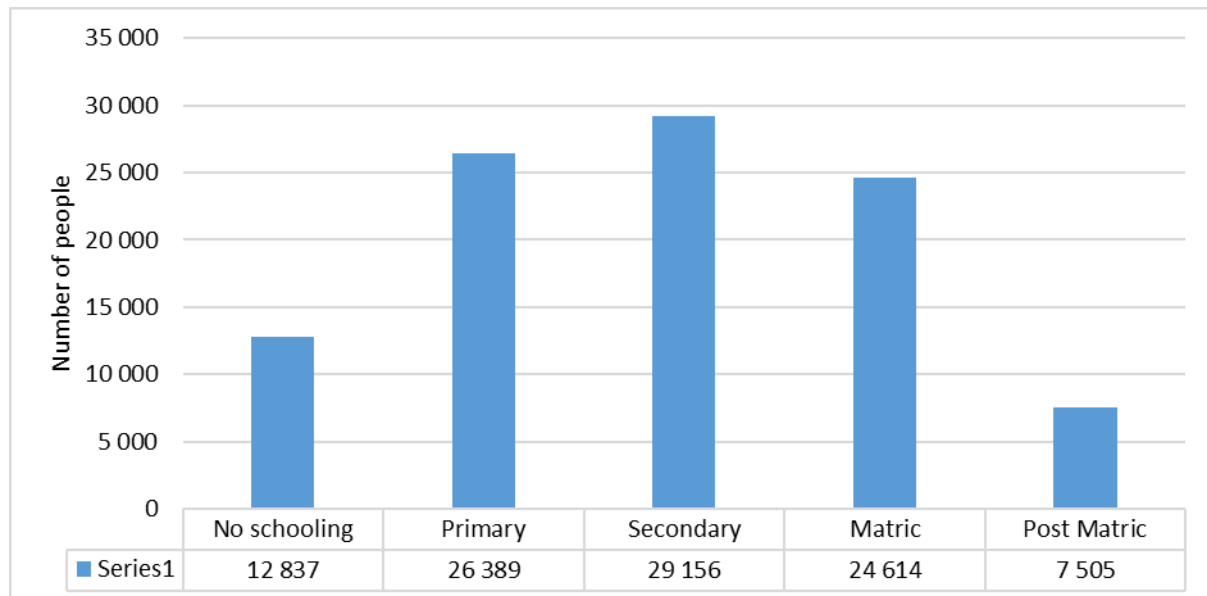

Source: StatsSA 2016

In terms of education TCLM occupies the third place in terms of matric pass rated which is a good thing however an improvement is needed so that we strive to be number one. The role of TCLM in this regard ensure provincial department of education well updated in terms of areas of improvement obtained via intense consultation with school governing bodies as part of the IDP process.

2.3.8 Level Of Education

Figure 11: TCLM Level of Education

The figure above gives a presentation of the level of education of the community of Thaba Chweu Local Municipality and it clearly gives an indication that about 29% of the population within the municipality have attended secondary School, followed by a percentage of 26% for people who attended Primary school with the lowest being of people who have qualifications post matric. It is clear that those who attended secondary school didn't go through to matric as the percentages of the two don't correspond. It is therefore clear that overall the population of Thaba Chwu attended school up to

2.4 Environmental Profile

2.4.1 Nature Reserves

TCLM has nature reserves covering approximately 31823.6ha in extent there is a total of 21 nature reserves, making the area a haven for nature lovers. The following table presents a list of these nature reserves.

Table 07: List of Nature Reserves

Name of Nature Reserve	Type	Coverage in Hectors
Vertroosting Nature Reserve	Provincial Nature Reserve	32.05
Gustav Klingbiel Nature Reserve	Municipal Nature Reserve	2219.72
Tweefontein	Primary Conservation Area	515.88
Buffelskloof Private NR	Private Nature Reserve	1457.38
Sterkspruit Nature Reserve	Provincial Nature Reserve	2337.49
Sterkspruit Nature Reserve	Private Nature Reserve	825.27

Mount Anderson Catchment NR	Private Nature Reserve	1577.4
Mount Anderson Catchment NR	Private Nature Reserve	1154.6
Morgenzon	Primary conservation area	2215.67

Hartebeesvlakte	Primary Conservation Area	31.72
Mount Anderson Catchment NR	Private Nature Reserve	337.69
Mount Anderson Catchment NR	Private Nature Reserve	244.32
Ohrigstad Dam NR	Provincial Nature Reserve	2507.23
Mount Anderson Catchment NR	Private Nature Reserve	7807.31
Total		31823.6

Source: TCLM, SDF 2008

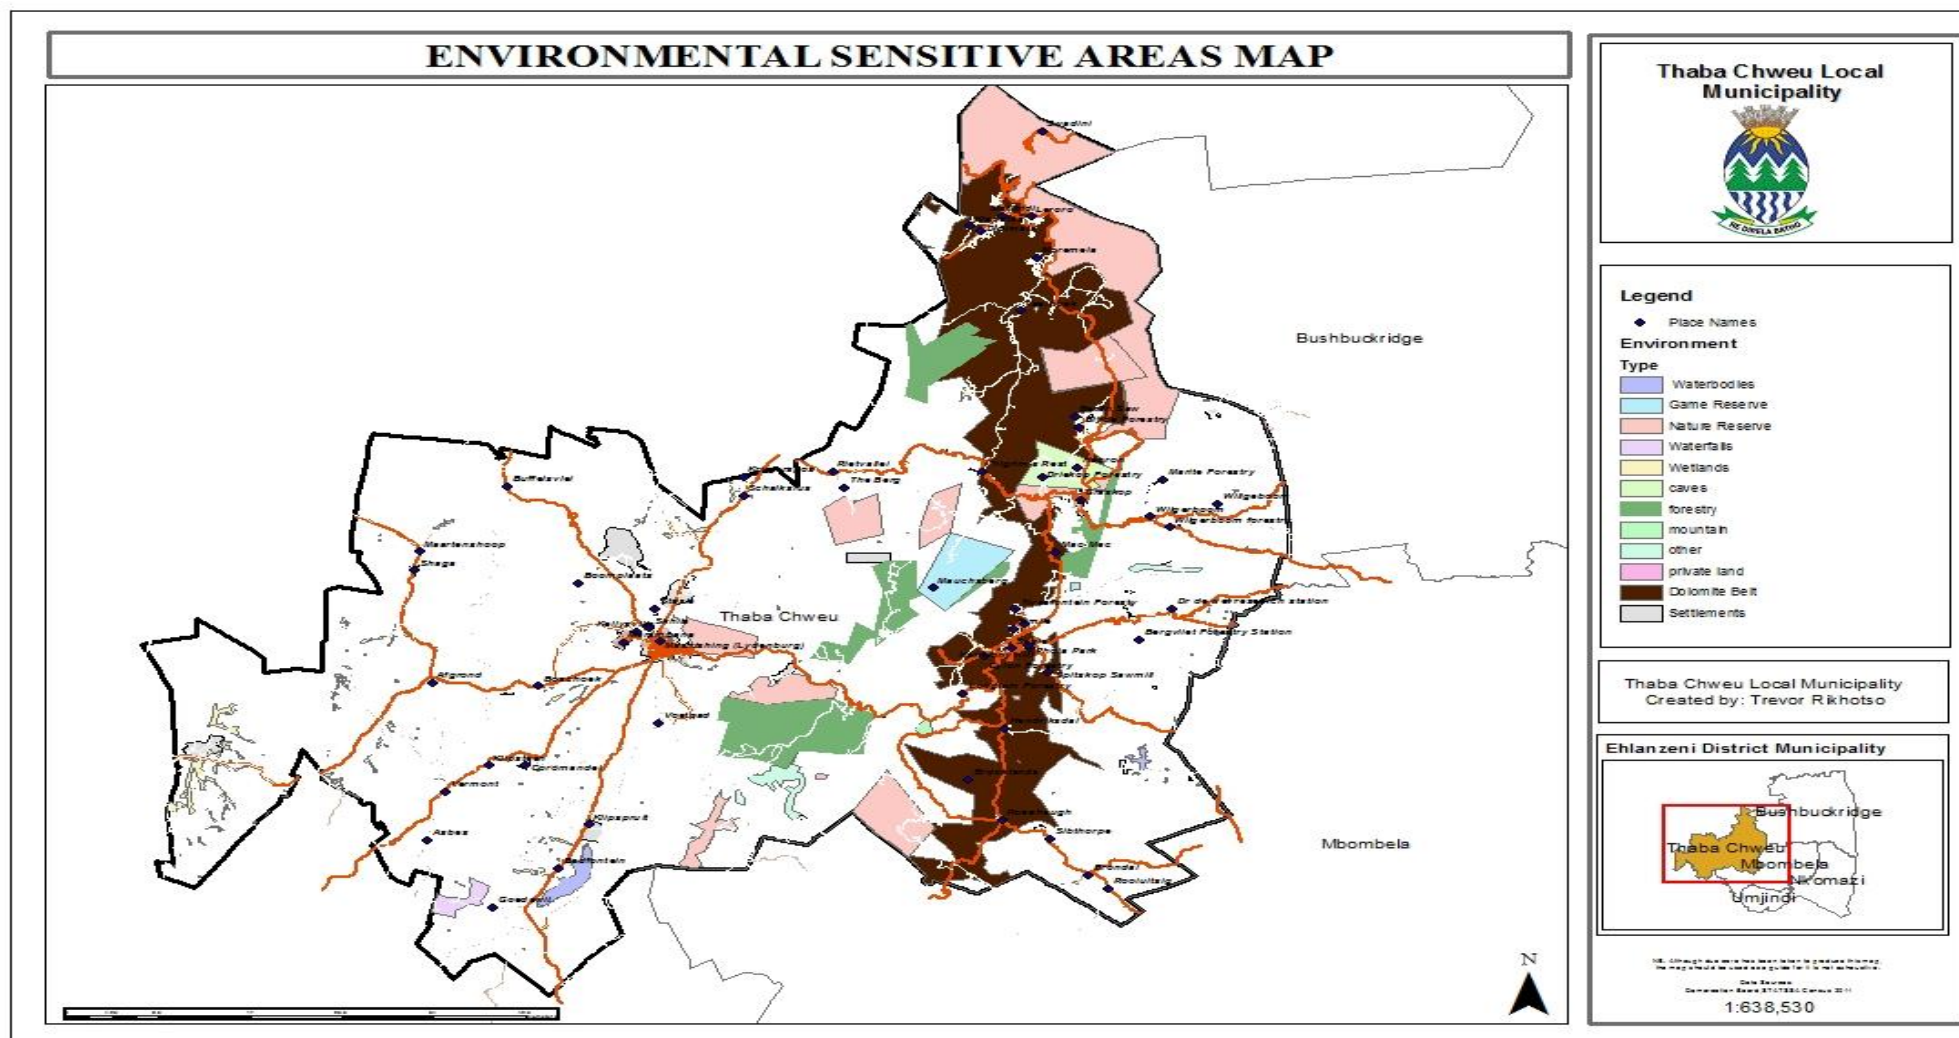

There are other nature reserves which formed part of TCLM recently namely: Blyde Canyon Nature Reserve. The municipality was approached by Mpumalanga Tourism Parks and Agency for an intention to develop some of the nature reserves. Due to the fact that we are a tourism municipality those proposals have been supported provided that they are not in conflict with our policies and other provincial and national policy frameworks. The municipality has in this current IDP identified LED and tourism as one of its objectives to drive growth in the municipality.

2.4.2 Nature Reserve and Environmental Sensitive Areas

TCLM is well known for its tourism attraction. There are a number of nature reserves in the area, most of these areas are sensitive and not developable or need to be treated with caution. Due to lack of capacity and knowing the obligations the Municipality in addressing environmental issues, The municipality forms part of a number of forums and committees which are developed to look into the issues faced by our environment (i.e Provincial Climate Change Forum, Provincial Waste Management officers Forum etc). The map below presents all areas ear-marked as sensitive areas. See Map 07 on the following page

Map 15: Environmental Sensitive Areas

Source: TCLM, GIS unit 2013

2.4.3 Natural Heritage/Archaeological/Historical

Archaeological resources within TCLM are listed in the table below:

Table 08: Archaeological Resources in TCLM

No	Description
1	Mulford Paintings Stone Age
2	Belvedere Paintings
3	Boesmanskloof Paintings Stone Age
4	New Chum III Paintings Stone Age
5	New Chum II Paintings Stone Age
6	Ledophine Paintings Stone Age
7	New Chum I Paintings Stone Age
8	Clear Stream Pinnacle Stone Age
9	Clear Stream Huts, I, II, Paintings Stone Age
10	London Paintings Stone Age
11	Water valspruit Paintings Stone Age

Source: TCLM, SDF 2008

It is important to take note that these heritage sites are maintained through a maintenance plan developed by the municipality.

2.4.4 Environmental Management & Compliance

Thaba Chweu Local Municipality implements a number of environmental activities in the quest of taking care of the environment we live in. The activities are as follows:

2.4.4.1 Air quality management

- a) Reduce impact of air pollution through compliance Inspections
- b) Atmospheric emission licences (AELs) application with the District Municipality EDM

2.4.4.2 Climate Change

- a) Reduce impact of Climate Change through development of Climate Change Response and Adaptation Strategy (CCRAS) currently using the provincial strategy
- b) Active participation in all forums (National, Provincial, and District)

2.4.4.3 Compliance and Enforcement

- a) Environmental Management Inspector (Green Scorpion) functions and powers
- b) To create a clean, healthy and safe sustainable environment through legislative and by-law enforcement.

2.4.4.4. Environmental Management Governance

- a) Stakeholder engagement and active participation in all relevant group meetings and forums

Active TCLM Participation	Seating's
District Environmental Management Forum	Quarterly
Provincial Waste Management officers Forum	Quarterly
Provincial Climate Change Forum	Quarterly

2.4.4.5 Environmental Impact Assessment and Land use

- a) Environmental Impact Assessment documents review and commenting
b) Land use applications documents review and comments

2.4.4.6 Environmental Education and Awareness

- a) Conduct community Awareness and school base environmental issues
b) Conduct clean-up complain (Community and Illegal Dumping Hotspots)
c) Active Participation in the Greenest Municipality Competition

2.5 State of the Municipality

2.5.1 Planning and Development analysis

This section presents the spatial analysis guided by the Spatial Development Framework (SDF) adopted in 2015, which gives a holistic guidance for current, future and development growth of the entire Municipality. This section attempts to give a clear spatial status quo regarding current developments as well as guidance on the direction of development giving much attention on the three towns namely; Mashishing (Lydenburg), Sabie and Graskop and the Northern Areas (Matibidi, Leroro & Moremela). Furthermore this SDF is supplemented by a Spatial Planning and Land Use Management By-law also adopted by council which regulate development in terms of various land uses.

a. Status Quo of development and envisaged development

The status of development has been at halt for the past 5 years, where developments cannot be approved **due to insufficient infrastructure capacity (water, Sewer and Electricity)**. This places the Technical Services department at a very critical role in terms of basic services provision of erven or integrated human settlement, where implementation of infrastructure projects should be aligned to the direction of development as stipulated on the SDF. Currently the municipality is struggling to deliver new townships due to unsuccessful townships agreements and bulk connections, for example Sabie Extension 10 and Lydenburg 6 where it has been developed and later vandalized by the Community (Map 03). However a step in the

right direction has started where council took a decision to build low cost housing in Sabie extension 10 and the project has commenced from the financial year 2016/17 and was completed around 2017/18 financial year.

Lydenburg Ext 6

Sabie Ext 10

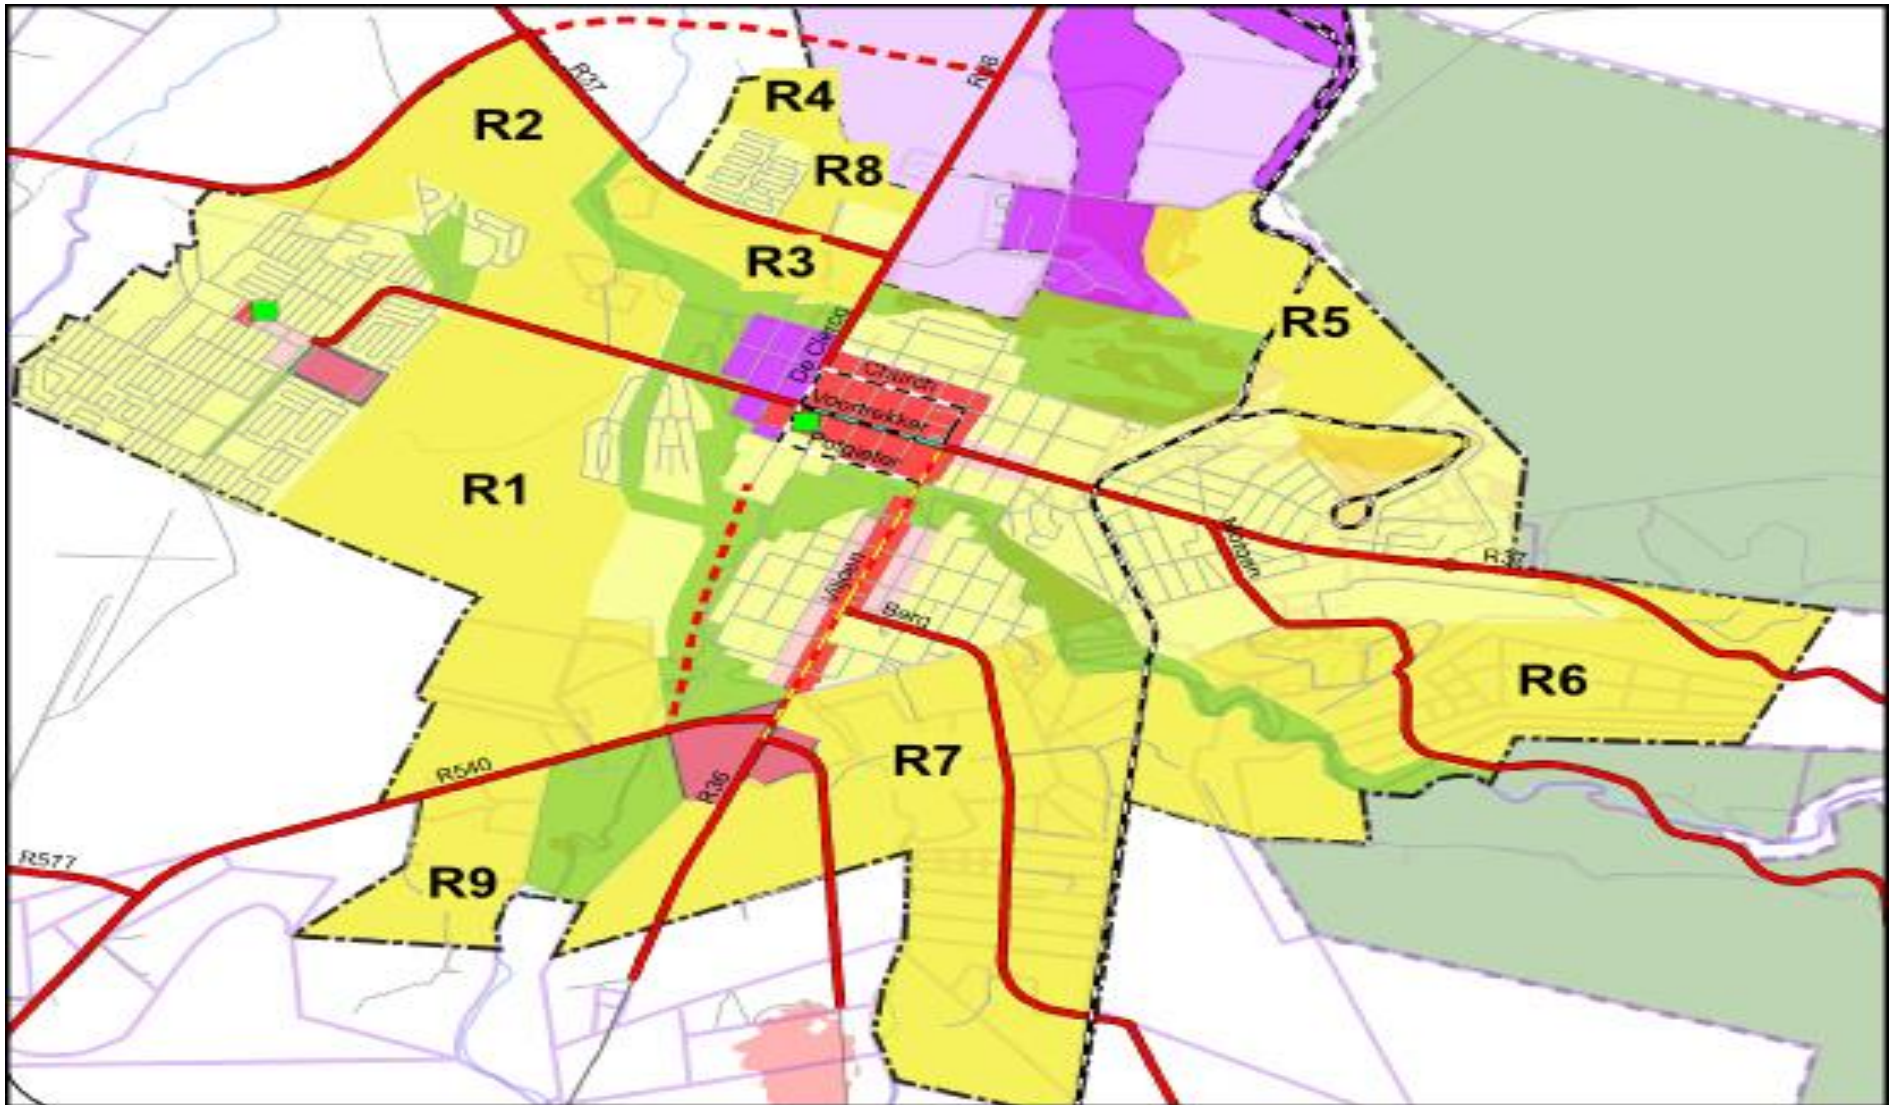

Above is a map that shows how much land is left abandoned because of the land availability agreements, subsequently this gives council a bad name. As we begin our new IDP, drastic and radical actions are critical in ensuring that the municipality delivers as mandated by the Constitution of the Republic of South Africa Act, 108 of 1996.

Future Developments and Direction of Development

Map 04: Lydenburg/Mashishing Future Development Area

The map above shows the direction in terms of the future development, however infrastructure is a hindrance since there is not enough bulk to service the proposed areas. Technical services must give extreme attention to these proposals and plan on future infrastructure projects to unlock development.

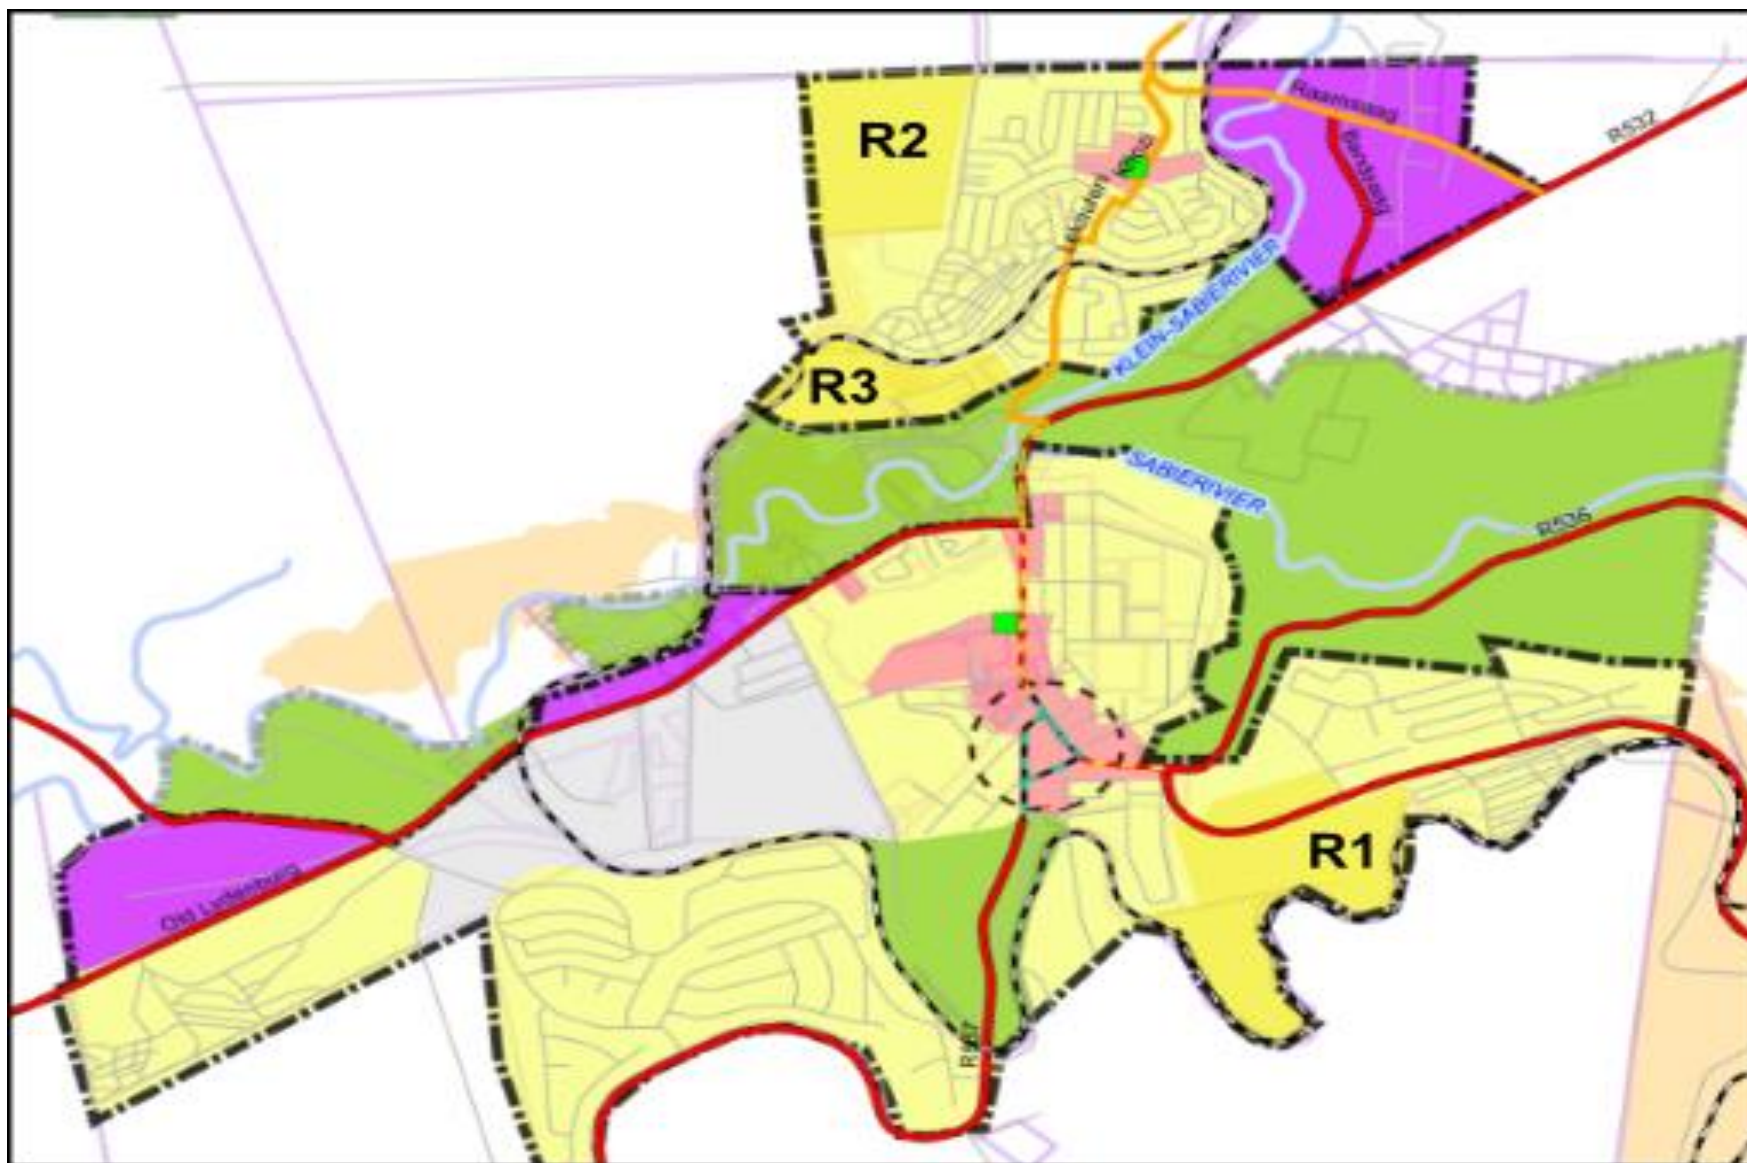

Below is a table with estimates on the number of households envisaged from developing the areas indicated on the map above for easy planning and budgeting for services, it should be noted that the land for the roads has been taken into consideration.

Table 09: Envisaged Housing Development Units

Lydenburg / Mashishing Land Use		Household Estimates		
Land Use Category	Land Area (ha)	Developable Land Area	Average Density	Number of Units
High Intensity Mixed Use	91,94			
Low Intensity Mixed Use	37,59			
New Mixed Use	52,23			
Predominately Residential (existing)	1049,10			
Residential Extensions (new): Total	1959,64	1371,75		28540
<i>Area R1</i>	<i>420,91</i>	<i>294,64</i>	<i>30u/ha</i>	<i>8839</i>
<i>Area R2</i>	<i>214,44</i>	<i>150,11</i>	<i>30u/ha</i>	<i>4503</i>
<i>Area R3</i>	<i>71,35</i>	<i>49,94</i>	<i>30u/ha</i>	<i>1498</i>
<i>Area R4</i>	<i>26,29</i>	<i>18,40</i>	<i>30u/ha</i>	<i>552</i>
<i>Area R5</i>	<i>160,14</i>	<i>112,10</i>	<i>15u/ha</i>	<i>1681</i>
<i>Area R6</i>	<i>298,29</i>	<i>208,80</i>	<i>15u/ha</i>	<i>3132</i>
<i>Area R7</i>	<i>649,59</i>	<i>454,71</i>	<i>15u/ha</i>	<i>6821</i>
<i>Area R8</i>	<i>25,43</i>	<i>17,80</i>	<i>30u/ha</i>	<i>534</i>
<i>Area R9</i>	<i>93,21</i>	<i>65,25</i>	<i>15u/ha</i>	<i>979</i>
Major Open Space	467,80			
Industrial (existing)	263,34			
Industrial Extensions (new)	508,92			
Lydenburg / Mashishing: Total	4430,55			

Map 05: Sabie Future Development Area

The Map above shows the direction of the future development in Sabie, after riots early in 2016, the municipality embarked on implementation of some of the formalisation, currently **R3 and R1** is being developed where Thaba Chweu and Mpumalanga Department of Human Settlements are funding the two processes respectively.

For **R1**, township establishment is underway to ensure integrated human settlement and also to formalize the informal settlement opposite Harmony Hill (known as Polar Park).

For **R3**, formalization of Simile informal settlement (Area 3, 4 and 5) to be followed by electrification of the area. This will eradicate the loss of revenue where people are using services for free or illegal.

Below is the table interpreting the map above on the future developments.

Table 10: Envisaged Housing Development Units (Sabie)

Sabie / Simile Land Use Budget		Household Estimates		
Land Use Category	Land Area (ha)	Developable Land Area	Average Density	Number of Units
Mixed Use	41,62			
Predominately Residential (existing)	523,11			
Residential Extensions (new): Total	98,43	68,90		1563
Area R1	48,04	33,63	15u/ha	504
Area R2	31,53	22,07	30u/ha	662
Area R3	18,86	13,20	30u/ha	396
Major Open Space	376,67			
Undetermined	132,73			
Industrial	112,90			
Sabie / Simile: Total	1285,46			

Graskop Future Development Area

Map 06: Graskop Future Development Area

Below is the table interpreting the map above on the future developments.

Table 11: Envisaged Housing Development Units (Graskop)

Graskop Land Use Budget		Household Estimates			
Land Use Category	Land Area (ha)		Developable Land Area	Average Density	Number of Units
Mixed Use	14,56				
Predominately Residential (existing)	228,78				
Residential Extensions (new): Total	57,78		40,44		1010
Area R1	26,93		18,85	30 u/ha	565
Area R2	11,49		8,04	30 u/ha	241
Area R3	10,36		7,25	15 u/ha	109
Area R4	9,00		6,30	15 u/ha	95
Major Open Space	39,23				
Industrial (existing)	1,79				
Industrial Extension (new)	1,78				
Graskop: Total	345,22				

Pilgrims Rest

Map 07: Pilgrim's Rest Future Development Area

Below is the table interpreting the map above on the future developments.

Table 12: Envisaged Housing Development Units (Pilgrim's Rest)

Pilgrim's Rest Land Use Budget		Household Estimates			
Land Use Category	Land Area (ha)		Developable Land Area	Average Density	Number of Units
Pelgrims Rest Total	74,93				
Historic CBD	9,69				
Museum Town	29,41				
Predominately Residential (existing)	21,63				
Residential Extensions (new): Total	18,80		13,16		293
Area R1	11,73		8,21	30 u/ha	246
Area R2	2,23		1,56	30 u/ha	47

For Pilgrim's rest it's imperative to note that for geological reasons it is important to do a socio economic study to find out whether it's feasible to relocate the community to a safer area. To continue developing the area will be expensive since it will need different engineering services and foundations, because there's existing structures it will also be more difficult to plan the area and the area is highly dolomitic which reflects on the safety of the people.

Northern Areas

Below is the table interpreting the map above on the future developments.

Map 08: Northern Areas Future Development Area

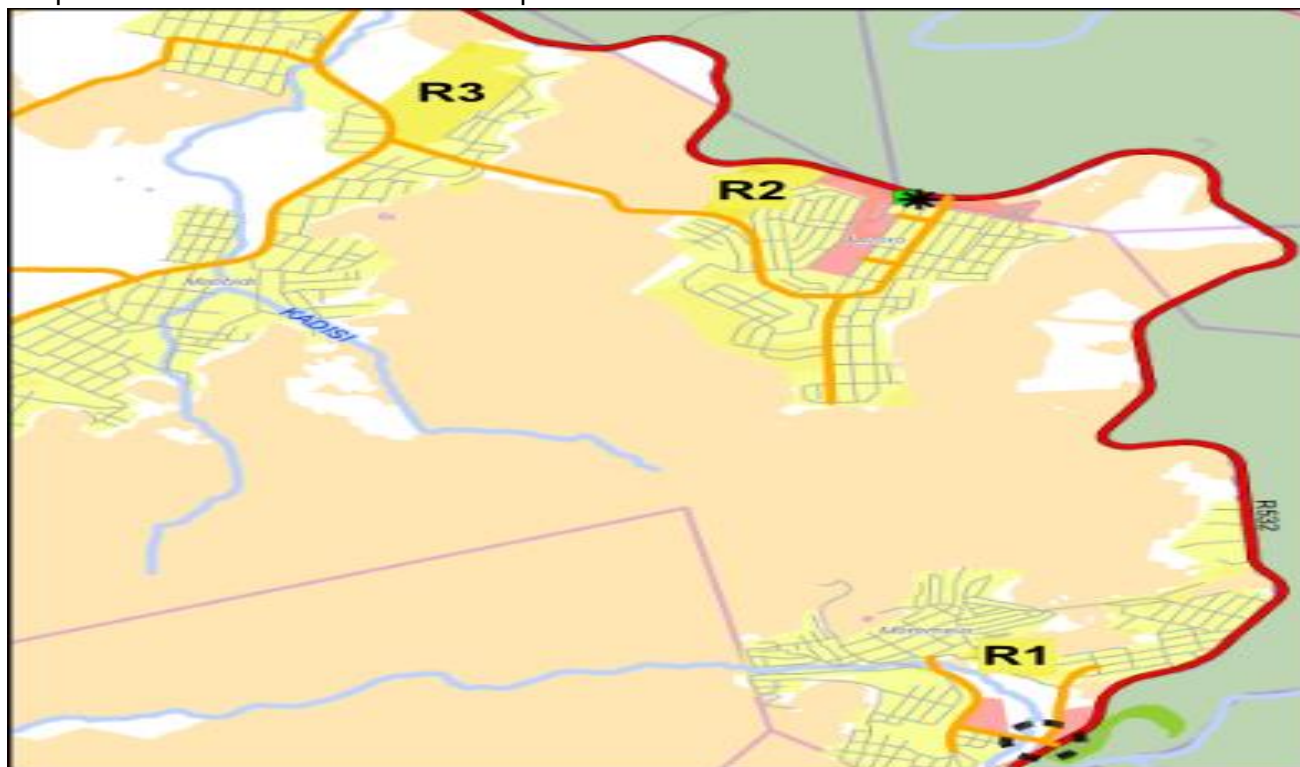

Table 13: Envisaged Housing Development Units (Northern Areas)

Moremela, Leroro, Matibidi Land Use		Households Estimates		
Land Use Category	Land Area (ha)	Developable Land Area	Average Density	Number of Units
Mixed Use	115,50			
Predominately Residential (existing)	1420,60			
Residential Extensions (new): Total	97,56	68,29		1366
Area R1	14,56	10,19	20 u/ha	204
Area R2	25,48	17,84	20 u/ha	357
Area R3	57,52	40,27	20 u/ha	805
Major Open Space	81,47			
Moremela, Leroro, Matibidi: Total	1742,56			

The technical department must consider Infrastructure Investment aimed at realization of the future development planned from Lydenburg, Sabie, Graskop, Pilgrims Rest and Northern Areas (Matibidi, Leroro and Moremela) as proposed on the SDF.

Infrastructure Demands to meet the proposed developments are summarised in tables below

The basic services will be set out per town as per the proposed developments, again technical services will play a vital role to ensure that we achieve our objective.

Table 14: Estimated Water Demand for Housing Development in Lydenburg

Lydenburg / Mashishing					
Area	Land Area (ha)	Number of Units	Average Density	Water Demand (l/d)	Sanitation Flow (l/d)

Area R3	40.27	805	20 u/ha	483198	402665

Table 3: Moremela, Leroro, Matibidi: Water and Sanitation Demand

All the tables outline what Technical Services should strive to address and also ensure that their project planning must directly be informed by the requirements set above particularly key basic services which include bulk water, sanitation, electricity and expansion of roads to support traffic flows.

Current Projects

- Township Establishments
 - Through the provincial Department of Human Settlements, Thaba Chweu is currently busy with ***Township establishment and Formalization of the Farm Grootfontein (Polar Park informal settlement)*** however there were challenges with acquiring a portion of land owned by York timbers. The department facilitated the land acquisition with the assistance of CAPSTAN and it was finalised and as it stands the portion of land has been purchased. The Township establishment application has been approved and other processes are still underway.
- Formalization in Sabie
 - Service provider was appointed in 2016 for 400 units and studies which need to be conducted as part of the township establishment are underway and an application (rezoning, street closure, park closure and subdivision) was approved by council. An approved SG diagram is still outstanding but has been submitted to the surveyor general for approval. There is a challenge with the number households in the area which is about 1000; however York Timbers is in the process of assisting with the outstanding amount to finish the project. Whilst waiting for York to assist, TCLM appointed a service provider for Area 3 and 4 and the process is unfolding.
- Pilgrim's Rest (Newtown) township establishment/formalization
 - Service provider is currently busy the application, however to develop the area will be very expensive to develop and the developer has reservations about continuing. A socio economic study was conducted on the area and it was discovered that the occupants of the area are willing to relocate as the area is dolomitic and not suitable for habitation. The process of land acquisition has commenced and the department of Human Settlement is overseeing the process on the areas that have been.
- Leroro Township correction
 - This project (Leroro township establishment) is semi complete and has been prioritised for correction and completion in the future years. The correction relates to the services rendered which overrides the layout plan which was never concluded.
- Mashishing Formalisation
 - Formalisation of Mashishing Informal Settlement mainly Manjenje, Marikana, Nkandla and other has been prioritised.

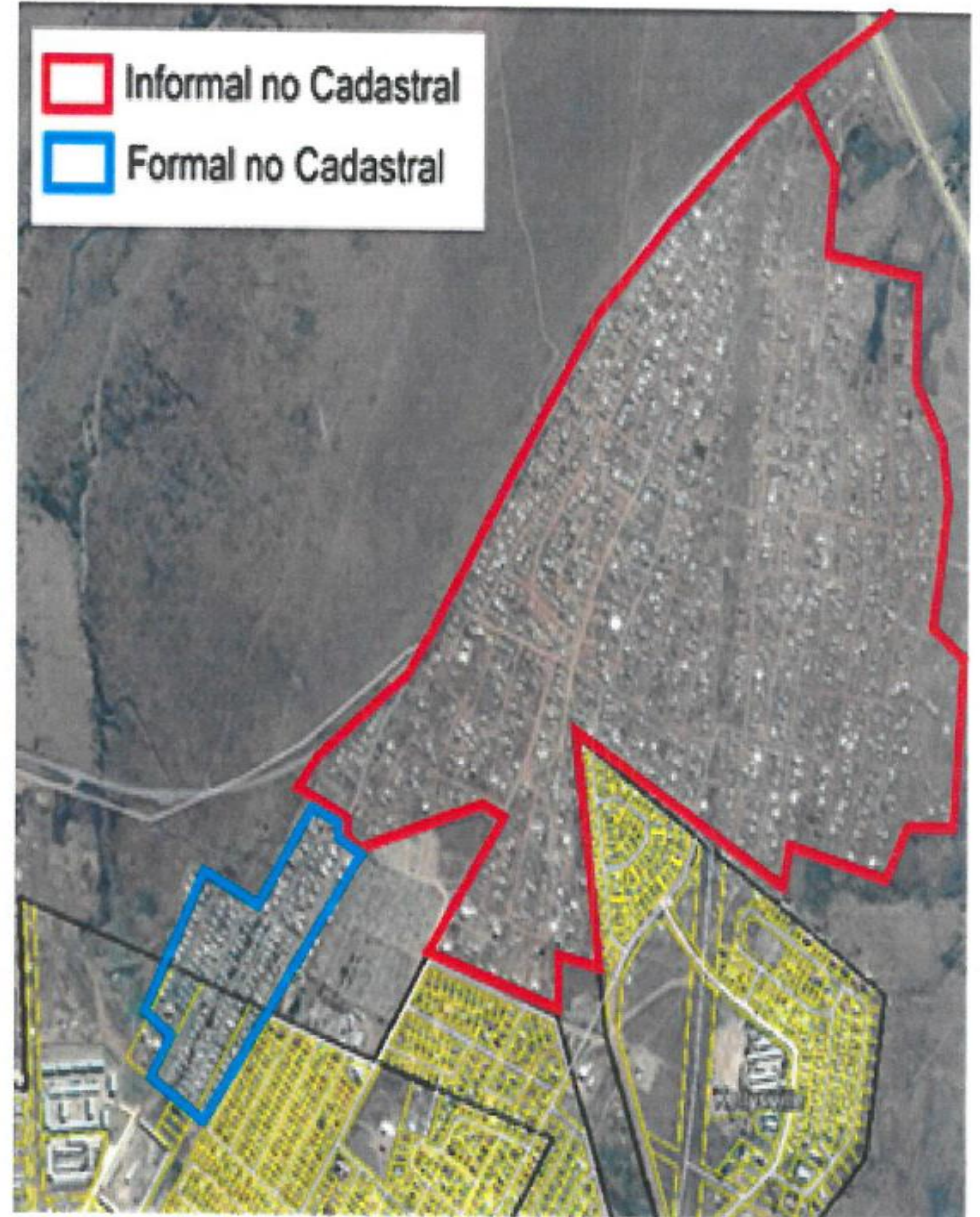

- This project is funded in partnership with the provincial department Human Settlement. Which has since started to formalise Marikana and Manjenje Informal settlements and the process is unfolding properly. Socio Economic studies have been conducted in the areas and the land development applications have also been submitted to TCLM and have since been approved. The only outstanding activities which need to be concluded in this process are obtaining the relevant environmental authorisation, pegging and obtaining the general plan from the surveyor general.

Lydenburg Extension 21

Mashishing/Kellysville No cadastral & an existing informal settlement

2.5.2 Infrastructure analysis

The focus area's work under this commission can be classified into three categories for easy presentation and understanding of the magnitude of civil engineering work that must be done, namely:- **a) Backlog** (areas without infrastructure in townships and rural areas), **b) Maintenance** (Managing existing infrastructure), **c) New Infrastructure** (To support the SDF for future growth and development demand). Given the scenario our analysis and proposed recommendations will be guided by the three categories.

a. Roads Analysis (Priority Roads and Streets)

Take note that TCLM have a draft maintenance plan which once approved by council will replace this analysis and inform project planning moving forward. However this analysis still applies pending the approval. The said maintenance plan which is under development will include a comprehensive analysis of all road networks in the municipality. This assessment includes roads outside the municipal functions and jurisdiction i.e provincial, national and SANRAL.

- a. The tables below summarises **facts and figures on roads** where investment is required.

Municipal Competency

b. Roads and Street Signage (Street Names, Road Marking, Traffic Signs)

There are no road marking in all roads and streets and this must be done while the roads are refurbished. The street names are dilapidated in all streets in all the town's roads and streets and must maintained.

Provincial & National Competency

The following economic routes are at critical stage for refurbishment in our municipality and are in need of urgent attention in order to revive the economy of our main towns whose economy depends largely on tourism.

Table 30: Provincial and National Route Condition Analysis

Routes	Affected Towns & Tourism Spots	Ward/s affected

C. ELECTRICITY

(a) Capacity Upgrade

The municipality has in this financial year funded the development of a comprehensive maintenance plan which should take precedent over prioritisation of key maintenance programme in the municipality, once approved by council it will then inform all priority project planning. Currently this analysis applies for current and future planning.

Table 31: Electricity Demand Analysis

Ward No.	Type of service required	Total Number of HH & Businesses in need of service	Type of infrastructure (3-5 years)	Priority Areas
01, 02 & 03, 5, 12 & 14	Construction of Duma 132/22Kv Substation	New Development	New built (additional capacity)	Mashishing/Lydenburg

Source: TCLM Technical Report 2016/17

(b) Backlog

Note that the electrification in most of the farm community is done by Eskom and this backlog will dramatically be reduced in the next few years. (Refer to the Annexure: Stakeholders projects)

Table 32: Electricity Backlog in Priority Areas

Ward No.	Type of service required	Total Number of HH & Businesses in need of service	Type of infrastructure (3-5 years)	Priority Areas
04	Electrification of households	573	New built (access to electricity)	Belskop, Langdraai, Doornhoek, Goedeheop, Coromandel, Bultkop, Uitwakfontein.
05	Electrification of households	921	New built (access to electricity)	Draaikraal, kiwi, Rooikrans and Bosfontein.
06 & 07	Electrification of households	520	New built (access to electricity)	Sabie
08	Electrification of households	64	New built (access to electricity)	Matibidi
09	Electrification of households	89	New built (access to electricity)	Leroro, Moremela
10	Electrification of households	22	New built (access to electricity)	Graskop, Graskop Ext 5, Glory Hill.
11	Electrification of households	539	New built (access to electricity)	Kagcagca, KaBenni, Roseugh.
13	Electrification of households	516	New built (access to electricity)	Pilgrims Newtown, Darksgully, Carmine, Brownhill, Ohrigstad dam, Spekboom, Boomplaas, Buffelsvlei.
	Total	3244

D. Water Analysis

Status Quo

Two of the three towns (Graskop and Sabie) face infrastructure challenges in terms of water while Mashishing is confronted by a water source challenge.

Supply and Demand

Mashishing is the only town currently experiencing major challenges from both the infrastructure and water source point of view. The bulk water storage has been upgraded with additional steel reservoir for emergency supply only, The Department of Water and Sanitation is currently replacing old valves to combat current water losses through leaks. In terms of sustainable supply in Lydenburg Town and its potential growth triggered by mining investment. The might be

a need for more storage capacity upgrade and water source identification and or upgrade of catchment in Lydenburg dam or a bulk line from Kwena Dam to supplement Lydenburg Dam.

1. Sabie

Here the yield of the current source is not under immediate threat. It is on the infrastructure where investment will have to be made. The municipality has completed the following projects in the financial year 2017/18 to curb the problem:

- Water link pipelines to Ext 10 and Saw mill Crossing;
- Sabie New pump and Gravity pipeline for Harmony Hill;
- New Rising Main to Tweefontein reservoirs.

These coupled with the replacement of asbestos water pipeline in the network will bring stability in the water supply of the area for the foreseeable future.

2. Graskop

The arrival of the Chinese and the Extension 5 housing settlements coupled with the informal settlement in the Graskop Hostel area have stretched the current existing supply scheme close to a maximum. In the past winter, shortages of water and the decrease in pressure in the high lying areas have indicated a need for the system to be reassessed. The municipality has is currently completing one bulk line upgrade in Graskop Town to cub the problem.

3. Northern Areas (Matibidi, Leroro and Moremela)

The limitations of the current supply by means of boreholes in the area can never be over emphasized also considering the population growth in the recent areas. On the other hand, the outcome of the allocation review of the **water use license** is much awaited as this will bring much needed relief to provide much needed support to the borehole system that can hardly cope. There is about seven million mega liters flowing in these areas on a daily basis. The demand in these areas is about 1 million mega liters and we are of a view that sustainable water supply in these areas can be achieved. A full scheme will be needed (catchment, water bulk line, water treatment plant and reservoirs) to resolve the current water challenges. The current reservoirs and reticulation lines can be refurbished. We have in the previous financial year (2017/18) with the help of EDM provided borehole augmentation projects to cub the problem. However the Municipality needs intervention from the political sphere of Government to assist with the issuing of the Water license in the Northern areas.

4. Rural areas (Farm Areas, South western part of TCLM)

Boreholes will continue to play a critical role in these areas. Much of these settlements do not have electricity. Considering the size of some of them, water tankers may just be an ideal solution currently. The main issue in these areas is land ownership; once this is resolved a sustainable solution will be provided. However in some areas where a partnership in a form of

service level agreement can be reached boreholes will be drilled to improve access to basic portable water. The Private sector (i.e Booyendaal) through Social Labour Plans are continuously assisting council with maintenance and drilling of boreholes in the farm areas to address the backlogs experienced.

5. Coromandel

In addition the proposed gravity line from the river, a borehole or two will have to be provided as a back-up plan especially during winter.

Facts and Figures on water access and source

Water access by HH

Table 35: Water Access Backlog in TCLM

E. Sanitation

There is a need to consider rerouting, integrating and gravitating some of sewer networks in various extensions of the Lydenburg town to ease the current pressure. Taking into consideration the recent population growth in Mashishing, a potential boom both residential and business that might trigger a need for bulk network capacity and sewer treatment works

upgrades in the town centre. In Graskop we have completed a pump to curb the strain of sewer system.

2.5.3 Community And Social Related Facilities

The focus area's work under this commission focuses on public and social services facilities as guided by the guideline provided. Our analysis comprises of the following categories: **a) Maintenance** (Managing existing infrastructure), **b) New Infrastructure** (where our analysis proves the need), **c) Social Services' Management** (Non infrastructure and related services). Given the scenario our analysis and proposed Recommendations will be guided by the three categories.

A. Public Parks

(a) Maintenance

Table 39: Public Parks Condition Assessment

<div> <div>Good: No service needed</div> <div>Moderate: Need for Partial Maintenance</div> <div>Bad: Need for Full maintenance</div> </div>

H. Social Services whose competency resides with Provincial and National Departments.

These services are under the management of the said departments within their internal policies and legal frameworks; however the municipality plays a role in coordinating the planning, approvals and needs as raised by relevant stakeholders. Having said this, the assessment only looks into accessibility and functionality affecting various communities in TCLM.

	Need for a targeted percentage Programmes aimed at empowering disabled persons	✓	
	Need socio-economic empowerment for the youth to avoid drug abuse	✓	
5. Community and Social Development	Need for disability sports dedicated Programmes	✓	
	Need for awareness Programmed for social inclusion of disabled persons	✓	
	Need for awareness Programmes for the youth to avoid drug abuse	✓	
	Need for an establishment of peer council to champion awareness for substance abuse	✓	
	Need for skills development Programme for young people targeted at post rehabilitation phase	✓	
6. Land and Land Uses	Need for land for Churches in all Towns	✓	
	Need for land-use audit on churches to combat illegal churches	✓	
	Need for strict reasonable land use compatibility for churches	✓	
7. Other	Need for reasonable tax and rates for all NPOs & NGOs	✓	

2.6.3 Local Business Priority Needs

Table 50: Local Business Priority Need Perception

Summary of TCLM based Needs from the Business Community		Classification	
Priority Issue	Problem Statement	Opex	Capex
1. Bulk Infrastructure Services (to cater for new potential development)	Roads Expansions on main streets (Voortrekker Street up Mashishing & Veljoen Street)		✓
	Water Supply increase i.e upgrade bulk availability		✓
	Sewer supply increase i.e upgrade bulk availability		✓
	Electricity supply increase i.e upgrade bulk availability		✓
	Sewer supply increase i.e upgrade bulk availability		✓
2. Investor Attraction (Incentives)	Bulk service contributions must be reasonable enough compared to neighbouring towns for easy preferences		✓

	Ensure SDF or spatial plans are easily available or placed on strategic areas for investor attraction purposes	✓	
	Provide incentives for small and other potential investors	✓	
3. Basic Public Services	Maintenance of street names in all streets priority be given to main roads and streets since this a municipality	✓	
	Maintenance of open and public spaces	✓	
	Road Marking must also be given attention	✓	
	Improve billing services for effectiveness and efficiency purposes	✓	
	Fixing property address in all Towns	✓	
	Apply and enforce all by-laws for basic services (littering, Advertising, trading, etc)	✓	
	Improve on communication between to council and all stakeholders including the general public	✓	

2.6.4 Non-External (Governance or Internal Issues) issues raised in all the meetings from of all stakeholders

Table 51: Internal Concern raised by stakeholders

Stakeholders	Issues	Statement problems
General Public	Policies and systems	Need for effectiveness systems for all Community based services (Billing, Communications, Complain center, call center, breakdown services reported)
	Human Behavior	Need to improve or fire staff who are customer friendly (learn from private sector e.g Banks)
	Personnel	Align resources to directly respond to public problems
	Internal Control	Avoid reactionary approach by being pro-active on government issues
	Service delivery	Improve planned maintenance on all basic services and notifies the public efficiently
Business	Policies and systems	Need for effectiveness systems for all Community based services (Billing, Communications, Complain centre, call centre, breakdown services reported)
	Human Behaviour	Need to improve or fire staff who are customer friendly (learn from private sector e.g Banks)
NGOs & NPOs	Policies and systems	Need for effectiveness systems for all Community based services (Billing, Communications, Complain centre, call centre, breakdown services reported)
	Human Behaviour	Need to improve or fire staff who are not customer friendly (learn from private sector e.g Banks)

2.7 SWOT Analysis

The previous chapter provided the base information on municipal resource availability (internal and external) and different characteristics crucial to inform development planning and economic development and growth. TCLM has made an analysis from its external (physical) and internal (Institutional) base information in order to come up with SWOT analyses which is crucial to inform prioritization planning accordingly. Based on this information within the municipal jurisdiction, appropriate analyses have been concluded based on the aforesaid aspects and other sources contained in sector plans. Table 20 presents the SWOT analysis of the municipality.

Table 52: SWOT Analysis

SWOT ANALYSIS	
Strengths	Weaknesses
<ul style="list-style-type: none"> Current stability of council, Motivated employees Filled critical posts Master plans development in process Intensive involvement with stakeholders 	<ul style="list-style-type: none"> Lack of master and operating updated sector plans in some departments Lack of adequate staff in key directorates Lack adequate assets Unfilled vacancies

<p>including communities</p> <ul style="list-style-type: none"> ▪ Best tourism destination which strengthen economic growth ▪ Support tourism accommodation and recreational facilities ▪ Access to private sector investment opportunity. ▪ Significant natural resources. ▪ Local sponsor from mining sectors ▪ Pull factors (Mining activities occurring within TCLM and neighbouring municipality) 	<ul style="list-style-type: none"> ▪ Lack of finance and financial support ▪ Insufficient budget to fund IDP projects ▪ Shortage of skills ▪ Failure of overcoming basic services back-log ▪ Insufficient land for development ▪ insufficient support from provincial departments ▪ Lack coordination of plans through the IDP ▪ Limited development due to dolomite risks ▪ Lack of tourism strategies
Opportunities	Threats
<ul style="list-style-type: none"> ▪ Strong work force (employees) ▪ Proper placement or utilisation of personnel ▪ Chance of programmes/workshops for promotion of dedication and commitment of employees ▪ Best tourism destination for LED ▪ Availability of mineral resources ▪ Potential pull factors (Mining and tourism) for investors ▪ Favourable weather for settlement preferences and other recreational activities ▪ Malaria free region ▪ Wonderful scenic landscapes ▪ Study case references for other places (Historical sites) 	<ul style="list-style-type: none"> ▪ Demoralisation of dedicated officials ▪ Lack of retention plans (promotion of resignation of professionals) ▪ Poor performance by directorates ▪ Service delivery protest due to inherited social service back-log ▪ Developmental risk on dolomite areas ▪ Tourism risk on mountains roads (mist) ▪ Dilapidated infrastructure ▪ Unfunded community priority need projects due to lack of funding ▪ Unemployment and high prevalence of poverty ▪ Poor-payment municipal services and illegal connection to municipal services

3 CHAPTER 3 (Good Governance & Learning and Points of Improvement: AG's Report)

3.1. Council Functionality

Good governance is often used to describe the desired objective of a Local government as espoused in section 152 of the Constitution of the Republic of South Africa. In this regard the municipality has place compliance with legislation and the following issues at the top of its transformation agenda to improve the current status.

- Asset management
- Compliance to council policies and other legal requirements
- Financial management (effectiveness and efficiencies)
- Efficient delivery of basic services
- Oversight management

This is manifested in our values and motto contained in this document.

The municipality has never managed to obtain an unqualified audit outcome for the past six years since 2008/2009 financial year, although there are matters emphasised by the Auditor-General which needs urgent attention. However in the 2017/18 financial year the municipality obtained a qualified Audit with findings, this proves that there are improvements in the institutional management systems.

Council

The TCLM Council was sworn in on the first meeting of Council after the 03rd of August 2016 election. The Council comprises of 27 Councillors, fourteen (14) of which are ward Councillors and the remainder is proportional representation. Council meetings are chaired by the Speaker of Council. The Council sits every quarter (excluding special council meetings).

Mayoral Committee

The Mayoral Committee is comprised of 4 (four) Councillors (The Executive Mayor and 3 (three) Members of the Mayoral Committee). The Mayoral Committee is chaired by the Executive Mayor and sits at least once a month (excluding special sittings).

Section 80 Committees

Council established three Section 80 Committees, namely; the Finance and Technical, Social Development Services & LED & Planning, Corporate Services and Human Settlement. The three Committees are chaired by the Members of the Mayoral Committee and shall sit on a monthly basis to deal with the reports and consider items submitted by Administration for further recommendations to the Mayoral Committee.

Section 79 Committee Meetings

Section 79 Committees are Committees of Council established to monitor and play oversight role on the implementation of Council's resolutions. The Section 79 Committee meets once in two months to play such oversight. These Committees are chaired by non-executive Committee members. The composition of these committees is as follows:

- Local Geographical Names Committee
- Thaba Chweu LM Labour Forum
- Rules & Ethics Committee
- Agenda Committee
- MPAC

Municipal Public Account Committee

This committee plays an oversight role out-side the administration environment. Their role is to scrutinise performance reports obtainable from internal departments. The committee comprises of seven members of the mayoral committee and two directors in TCLM. The committee also scrutinise the audit report both internally and externally and provide council with the steps to take as corrective measures.

Municipal Planning Tribunal (MPT)

Council approved the appointment of the MPT under Council Resolution A24/2016. Its role is to process Land Development Applications (i.e Township Establishment Applications, Hearings etc) and the committee sits as and when there are applications received.

3.2. Internal Auditing and Risk Management

The internal audit function plays an important role in supporting the Municipal's operations. It provides assurance on all the important aspects of risk management strategy and practices, management control frameworks and practices and governance.

The Standard for the Professional Practice of Internal Audit number 2100 stipulates that the role of the internal audit function is to add value, evaluate and improve the organization's risk management, control and governance processes. The internal audit function must also provide assurance that the systems of internal controls are adequate and effective to manage the risk at a level that is acceptable to management.

Internal control is defined broadly and encompasses those elements of an organization (including its resources, systems, processes, culture, structure and tasks) that taken together support the achievement of the organizational objectives.

The scope of the internal audit function is broad and includes those systems of internal controls that are in place to achieve the following objectives:

Risk Management

The municipality has established the Risk Management Unit and has staff to manage risk and compliance. The Risk Assessment for the 2017-18 was conducted and completed by the Risk Management Unit

Objectives:

- Implementation of purposeful, systematic risk identification, risk assessment, risk evaluation and risk mitigation management strategies to ensure the achievement of entity goals and objectives including adhering to the municipality's mandate,
- The identification of risk mitigation strategies and controls to reduce risk expose, and improve the management of significant and cross entity,
- Regular assessment, evaluation and prioritisation of risks with a view to ensure optimal risk management and related results, and
- Enable entity wide risk management within the strategic and operational activities of TCLM and ensure that it becomes part of its corporate culture.

The risks identified affecting the Integrated Development Plan implementation are contained in the strategic risk and operational risk registers available on request and are reported on a quarterly basis.

Audit Committee

The audit committee is an independent advisory body which must advise the municipal council, the political office- bearers, the accounting officer and the management staff of the municipality, on matters relating to:

- Internal financial control and internal audits
- Risk Management
- Accounting policies
- The adequacy, reliability, and accuracy of financial reporting and information
- Performance management

To ensure effective government and compliance with the MFMA, DORA and other applicable legislations. The municipality uses a shared services from EDM which consisting of four audit committee members.

3.3. Performance Management System

The municipality has an established PMS system with a PMS Manager who focuses on an organisational level and enables the cascading of PMS to lower levels of staff. The IDP therefore placed key performance indicators in the IDP Action programme that are measurable per annum for a period of five years where performance reports and SDBIPs can be derived to evaluate performance progress on IDP implementation. The municipality is approving the organogram and the PMS policy simultaneously as to ensure the smooth implementation of the IDP over the next five years.

Other role players in oversight committees

Supply Chain Management

According to MFMA Section 111, each municipality must have a Supply Chain Management Policy which gives effect to the provisions of this Act, It further says under section 112, the policy of a municipality or municipal entity must be fair, equitable and transparent, competitive,

cost effective and comply with the prescribed regulatory framework for Municipal Supply Chain Management. TCLM has a supply chain policy that governs all financial management. The following committees have been established:

- Bid Specification Committee
- Bid Evaluations Committee
- Bid Adjudication Committee

It must be noted that the specification committee is not a standing committee but sits as in when there are specific projects to be done and it comprises of different people who are drawn from the affected departments from time to time.

Complaint Centre

TCLM supported by MISA represented by CoGTA is in a process of upgrading a complaint centre with a call desk to manage complains and automatically create a job card for traceable reasons. The complaints are thereafter directed to relevant department for responses. This system serves as a monitoring tool for community issues relating to municipal service.

3.4. Stakeholder's involvement and value proposition

The challenge that TCLM always face is involvement of sector department on annually IDP participation processes. Specific attention has been given to different stakeholders (specifically the mines) for their role when it comes from corporate social responsibilities.

4. CHAPTER 4 (Strategies)

This chapter presents the strategic approach of the municipality which is a requirement in terms of section 26 (b) of chapter 5 of local government legislation (Municipal System Act 32 of 2000) which compels the IDP to reflect: (a) the municipal council's vision for the long term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs, (c) the council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs, (d) the council's development strategies which must be aligned with any national or provincial sectoral plans and planning requirements binding on the municipality in terms of legislation.

4.1. Vision

Custodian of sustainable service delivery, economic development and good governance

4.2. Mission

Improving socio-economic conditions by improving service delivery and growing the economy through sound governance

4.3. Core Values

- Putting people first,
- Delivery of quality service,
- Uphold local government laws,
- Investor friendly

4.4. Motto

"Re direla batho"

4.5. Municipal Priorities for the next five years

Table 53: Municipal Priorities

Code#	Priority Issue	Key Issues to be address
P1	1. Roads	<ul style="list-style-type: none"> ▪ Refurbishment of roads/streets ▪ New construction of roads in formal townships ▪ Refurbishment of storm water drainage system in all towns
P2	2. Water	<ul style="list-style-type: none"> ▪ Bulk (Storage, Network & Capacity) upgrade in Lydenburg ▪ New Bulk (Storage, WTP, Network) supply construction in Matibidi, Leroro & Moremela
P3	3. Sanitation	<ul style="list-style-type: none"> ▪ Bulk (WWTP, Network & Capacity) upgrade in Lydenburg ▪ Maintenance of sewer lines in Lydenburg, Sabie & Graskop ▪ Bulk (WWTP, Network & Capacity) upgrade in Graskop
P4	4. Electricity	<ul style="list-style-type: none"> ▪ New connection of households for new development ▪ Bulk upgrade (network & capacity) for growth ▪ Maintenance of existing network (poles, overhead lines and safety mechanisms)
P5	5. Public Facilities	<ul style="list-style-type: none"> ▪ Maintenance of Parks, Halls, Sports facilities, Cemeteries and municipal servitudes and related facilities
P6	6. Waste Management	<ul style="list-style-type: none"> ▪ Alternative land fill site for Sabie Town ▪ Improve management of Land fill sites ▪ Extend Collection to rural (Matibidi, Leroro & Moremela) and farm areas

P7	7. Spatial Planning/SDF Implementation	<ul style="list-style-type: none"> Formation of informal settlements in Lydenburg Township establishment (Brown field development) in Lydenburg
P8	8. Revenue Enhancement	<ul style="list-style-type: none"> Tariffs reviews on critical services under which policies and by-laws applies Combat illegal electricity and water connections Review SLAs on council assets
P9	9. LED	<ul style="list-style-type: none"> Facilitate PPP investment in Lydenburg, Sabie, Graskop and CPAs farms Facilitate catalytic investment in the municipality Facilitate and coordinate the exploitation mining, tourism and agricultural opportunities aimed at socio-economic improvement in the municipality
P10	10. Institutional Transformation	<ul style="list-style-type: none"> Alignment of the Organogram Policy and By-law implementation Job description signing Delegation of powers signing at Senior and Management levels Individual Performance management implementation Compliance to legislation
P11	11. Human Settlement	<ul style="list-style-type: none"> Facilitation of housing delivery in line with legislation and council policies
P12	12. Environmental Management	<ul style="list-style-type: none"> Facilitate and coordinate monitoring and compliance to NEMA from mining community Facilitate and promote safety, protection and cleanliness of environment through various programmes
P13	13. Social Programmes mainstreaming	<ul style="list-style-type: none"> Support the mainstreaming of social programmes aimed at improving different special social groups
P14	14. Education	<ul style="list-style-type: none"> Facilitate development and expansion of Schools, Libraries and further education and training

4.6. Strategic Objectives (Code=SO#) for the municipality

- 4.6.1. (1) Provide access to quality services in line with council mandate
- 4.6.2. (2) Realisation of harmonious development within the municipal jurisdiction
- 4.6.3. (3) Increase revenue base and financial viability
- 4.6.4. (4) Enhance economic development and growth
- 4.6.5. (5) Improve institutional transformation and resources management
- 4.6.6. (6) Ensure effective and good governance
- 4.6.7. (7) Strengthen IGR & stakeholder relation
- 4.6.8. (8) Mainstreaming of social advocacy and marginalised groups

4.7. Goals

In order to realize the **Strategic Objectives** council has set itself the following goals that must be achieved by 2022

Table 54: Municipal Goals

Code#	Goal
G1	1. Improve the condition of road networks in the urban areas of the municipality by 2022
G2	2. Improve the capacity of water supply in urban areas of municipality by 2022
G3	3. Provide sustainable water supply in the northern areas and farm communities of the municipality by 2022
G4	4. Improve the capacity of electricity supply in Lydenburg by 2022
G5	5. Improve the capacity of sewer lines and water waste treatment plants in urban areas of the municipality by 2022
G6	6. Eradicate sewer leakages and spillages in the urban areas of the municipality by 2022
G7	7. Eradicate informal settlements in urban areas of the municipality by 2022
G8	8. Reduce the Eskom debt account by 2022

G9	9. Facilitate economic development and growth by 2022
G10	10. Improve the maintenance of council public facilities by 2022
G11	11. Grow municipal revenue by 2022
G12	12. Improve state of governance in the municipality by 2022
G13	13. Improve social programmes and services in the municipality by 2022
G14	14. Improve state of service delivery and labour practice in privately owned land in the farm and forestry communities by 2022

To effectively bring about an effective strategy that will work for the municipality, the municipality has crafted development objectives as required by MSA which are directly linked to the problem statements identified in the technical report (situational analysis) and consultations outcomes of communities and other key stakeholders consulted during the development of this plan. The strategy identifies focus areas and sequences them per priority. The prioritising strategy therefore is driven by the following principles; namely: (i) Population size (concentration) within a given area/s, (ii) Commonality i.e common issues raised by communities, (iii) Economic impact as well as (iv) Socio-economic impact of such priority area/s. The said factors do not overrides approved council master plans or other district, provincial and or national frameworks aimed at achieving national objectives or other technical reports with substantial scientific evidence on certain areas of resource needs and intervention. This strategy and the said principles drives how projects and programmes are prioritised and implemented in various areas of the municipality in the five years of the plan.

4.8. Development Objectives

Table 55: Municipal Development Objectives

No	Focus Areas	Problems Description	Development Objectives [Code=DO#]
1	Roads	<ul style="list-style-type: none"> • Dilapidation Road Network • None existence of Road Signage or Incorrect Signage • None existence or Incorrect Street Names • Lack of maintenance of Road Signs, Street Names and Robots • Gravel Roads Network • None maintenance or none existence of Road Walkways • Dilapidating Storm Water infrastructure • Speeding vehicles in townships 	<ol style="list-style-type: none"> 1. To refurbish 30.371km of road network in Lydenburg/Mashishing Town, Sabie and Graskop by June 2022 2. To construct 11.287km of new road infrastructure in Lydenburg/Mashishing Town, Sabie and Graskop by June 2022. 3. To reconstruction of 8.606km of road network in Lydenburg/Mashishing Town, Sabie and Graskop by June 2022 4. To patch 39540m² of potholes in Lydenburg, Sabie & Graskop by 2022. 5. To ensure the refurbishment of 2km Voortrekker and De-Clerk Streets by SANRAL by June 2019 6. To install traffic signage boards on street/roads of Lydenburg/Mashishing, Sabie/Simile and Graskop (e.g Viljoen, Voortrekker and De-Clerk) by June 2018. 7. To refurbish 1000 street names boards in Lydenburg, Mashishing, Sabie, Simile, Graskop and Harmony Hill by June 2020 8. To upgrade 7km storm water drainage system in Lydenburg/Mashishing by June 2022. 9. To grade of 100 km gravel roads in Kiwi, Shaga, Draaikral, Matibidi, Moremela and Leroro by June 2019 10. To pave 6km of gravel roads in Matibidi, Leroro & Moremela by 2022. 11. To install 125 speed humps in Lydenburg/Mashishing Town, Sabie and Graskop by June 2019
2	Water	<ul style="list-style-type: none"> • Improve Bulk Water Supply(Demand + Supply) • Illegal Connection of Water • Dilapidating infrastructure • Maintenance of Boreholes • Installation of meters in households without meters • None existence of Water infrastructure in Informal Settlements • Poor water quality 	<ol style="list-style-type: none"> 12. To increase the water supply capacity in Lydenburg/Mashishing by June 2022 13. To obtain water extraction licence for Blyde River Canyon by 2019 14. To refurbish water peline networks in Lydenburg/Mashishing, Sabie/Simile and Graskop by June 2022 15. To provide sustainable water supply in Matibidi, Moremela and Leroro by 2022 16. To provide basic access to water in farm communities of Thaba Chweu municipality by 2022 17. To maintain boreholes in Draaikral, Shagan, Kiwi, Spekbom, Orhigstad Dam, Matibidi, Leroro and Moremela by June 2018 18. To install 6000 water meters in the households without the meters in Lydenburg/Mashishing, Sabie/Simile and Graskop by June 2022 19. To refurbish Water Treatment Plants in Lydenburg by 2022 20. To conduct quarterly water meter audits in Lydenburg/Mashishing/ Sabie and Graskop by June 2018 21. To refurbish Waste Water Treatment Plants in Lydenburg, Sabie and Graskop
3	Sanitation	<ul style="list-style-type: none"> • Improve Bulk Sanitation Supply(Demand + Supply) • Illegal Connection of Sewer • Dilapidating infrastructure • None existence of Sewer infrastructure in Informal 	<ol style="list-style-type: none"> 22. To refurbish waste water treatment plant in Lydenburg, Sabie and Graskop by 2022 23. To connect Sewer Network in Lydenburg/Mashishing (Ext 6 and Graskop (Ext 5) by June 2019 24. To upgrade capacity of sewer network lines in Lydenburg 25. To upgrade capacity of waste water treatment plants in Lydenburg

		Settlements	
4	Electricity	<ul style="list-style-type: none"> • Illegal connection • Dilapidating Electricity Network(upgrade +maintenance) • Improve Electricity Capacity (Network and Bulk) • Electricity infrastructure Theft • Electrification of informal settlements • Dark areas around towns and townships • Lack of effective power supply backup 	26. To develop an electrical maintenance plan by June 2018 27. To conduct 1000 monthly Electricity meter audits in Lydenburg/Mashishing/ Sabie and Graskop by June 2019 28. To ensure monthly implementation of the Top 100 Debtors cut-off list by June 2018; 29. To ensure monthly implementation of the Households cut-off list by June 2018; 30. To increase electricity capacity in Lydenburg by June 2022 31. To install (5 667 annually) 17 000 split smart meters by June 2022 32. To install 4500 energy saving bulbs in Lydenburg, Sabie and Graskop by June 2022 33. To electrify 3534 households in Lydenburg, Sabie, Graskop by 2022 34. To maintain 1400 streets lights in Lydenburg, Mashishing, Sabie, Simile, Graskop, Matibidi, Moremela and Leroro by June 2022 35. To refurbish 25km electricity overhead lines in Lydenburg, Sabie and Graskop by 2022 36. To replace 348 electricity poles in in Lydenburg, Sabie and Graskop by 2022
5	Public Facilities (Halls, Cemeteries, Stadium, Parks, Recreational centres, soccer fields etc)	<ul style="list-style-type: none"> • None maintenance of public facilities(Parks, Stadiums and Halls) • Lack of Security on Public Facilities • Poor management of Public Facilities • Inadequate of recreational facilities • None existence of Taxi Ranks • Lack of maintenance of the designated areas • Poor relations between the municipality and the Taxi Associations 	37. To refurbish public parks in Lydenburg, Sabie and Graskop by June 2022 38. To refurbish recreational facilities in Sabie and Lydenburg by June 2022 39. To refurbish community Halls in Lydenburg, Sabie, Graskop, Moremela & Leroro by June 2022 40. To refurbish soccer grounds in Kelly's Ville, Coromandel, Matibidi, Simile, Harmony Hill by 2019 41. To construct a community hall in coromandel by June 2022 42. To construct new stadium in Simile by 2022 43. To refurbish a stadium in Leroro by June 2022 44. To construction of 04 Taxi ranks in Lydenburg, Sabie, Graskop & Leroro by 2022 45. To re-establish taxi rank associations by 2019
		<ul style="list-style-type: none"> • Fencing of new and old Cemeteries • Land allocation of new cemeteries 	46. To fence all of cemeteries in the municipality by 2022 47. To identify land for cemeteries by 2022
6	Environment & Waste Management	<ul style="list-style-type: none"> • Dirtiness/Littering in Towns and Townships • None collection of waste in the informal settlements • None collection of waste in the rural communities (Matibidi,Leroro, Moremela) • Illegal Dumping sites 	48. To promote Towns and Townships cleanliness on a monthly basis by June 2022 49. To ensure waste collection in the informal settlements(Nkandla, Marikana, Manjenje,) weekly by June 2022 50. To ensure waste collection and recycling in the Northern Areas and farm communities of TCLM by June 2022 51. To procure waste disposal facilities in Lydenburg, Sabie and Graskop by June 2022 52. To rehabilitate of illegal dumping sites in Mashishing/Lydenburg, Sabie and Graskop by June 2020

		<ul style="list-style-type: none"> • Lack of Pollution Control Monitoring • No cutting of Grass and Trees in the municipal servitudes, • Lack of clean and attractive entrances in the municipal Towns and Townships 	53. To procure 03 weigh bridges for Lydenburg, Sabie and Graskop by June 2022 54. To review land fill site licenses in Lydenburg, Sabie and Graskop by June 2022 55. To ensure the coordination of Environmental Compliance quarterly by June 2022 56. To ensure Clean and Safe municipal servitudes, open spaces by June 2017 57. To develop infrastructure entrances in Lydenburg, Sabie and Graskop by June 2022
		<ul style="list-style-type: none"> • Land Fill sites life span exhaustion • Poor Management of Landfill sites • Fencing of Landfill sites • Uncoordinated Recycling activities 	58. To develop a land fill site in Sabie by June 2022 59. To conduct awareness campaign for illegal campaign in and littering in all areas of the municipality by 2022 60. To construct a buy back centre in Mashishing by 2019 61. To install weigh bridge in Lydenburg, Sabie and Graskop by 2022 62. To apply for the extension of landfill site in Lydenburg land fill site 63. To review the IWMP by 2018
7	Spatial Planning (SDF Implementation)	<ul style="list-style-type: none"> • Escalating informal Settlements • Land Invasion • Illegal approval of building plans over restricted areas(servitudes) • Inadequate Land Use Control (illegal extension of buildings) • Uninformed Infrastructure development • Lack of serviced land • Poor planning for housing development (<i>building houses without sewer network</i>) 	64. To facilitate township establishment in TCLM by June 2022; 65. To formalise informal settlement in Sabie by 2022 66. To facilitate formalisation in Marikana and Majenje informal settlements by PPP in Mashishing by 2022 67. To formalise informal settlement in Graskop Hostels by 2022 68. To formalise informal settlement in New Town in Pilgrim's Rest by 2022 69. To establish a townships in Fok Fok in Harmony Hill Sabie by 2022 70. To subdivide portions of council land the municipality 71. To develop advertisement by-law in Thaba Chweu Local Municipality by June 2018 72. To develop precinct plan for Lydenburg town by 2021 73. To facilitate the development and completion of a Wall to Wall land use scheme funded by CoGTA by 2019 74. To establish a township in Brondal by 2020 75. To link the GIS system to the other TCLM municipal systems by 2022
8	Revenue Enhancement	<ul style="list-style-type: none"> • Outdated Revenue Enhancement Strategy • Expired Lease Agreement • Lease agreement Tariffs (Golf Course, Rooikat etc.) • Low Tariffs in the Flats (e.g Kerpasol, Kanabas, Fanniéstalls) • Court Interdicts affects the implementation of Credit Control • Inaccurate Billing • Poor Inter-departmental 	76. To review the Revenue Enhancement Strategy by June 2018 77. To review and apply tariffs structure on all applicable municipal services by June 2018 78. To conduct an audit on the lease agreements and update the register by June 2018 79. To update market related tariffs for all leased properties by June 2018 80. To conduct audit billing on water and electricity services quarterly by end of June 2022 81. To conduct awareness campaigns on payment of municipal services 2022 82. To develop outdoor advertising policy and by-law by June 2018 83. To align land-use to the municipal valuation roll by 2018 84. To monitor the implementation of electricity service' cut-off list by 2022 85. To conduct indigent register audit on a quarterly basis till June 2022 86. To Facilitate settlement of debts disputes with defaulting consumers by June 2018 87. To implement revenue programmes and projects aimed at improving the financial health of the municipality

		<ul style="list-style-type: none"> Communication • Outdated service provision volumes(waste collection etc) • None alignment of the Land Use and Valuation Roll • Inadequate Disconnection(cut-off) process(Debtors List) • Inappropriate confirmation of Indigent customers • Existence of Problematic Consumer Accounts • Poor Customer Care • Uncontrolled Outdoor Advertising • None existence of Public Parking • None existence Informal Trading Tariffs • None existence of tariffs for Proof of Residence 	
9	LED	<ul style="list-style-type: none"> • Outdated LED Strategy • Lack plans for job creation and poverty alleviation • None usage of the Unemployment Graduates Database for municipal programs • Linkages of the Internships/Learnerships to the Unemployment Graduates Database in both the public and private sector) • EPWP and CWP not linked to the programs of the municipality • Immerging Contractor Program Management (Control and Education) • Linkages of the Immerging Contractor with other public 	<ul style="list-style-type: none"> 88. To facilitate catalytic projects within the LED strategy 89. To implement LED strategy by June 2022 90. To manage LED forum in the municipality by 2022 91. SO8	G13	P13	DO129 – DO133

4.9. Alignment of the strategy to National, Provincial and other local imperatives and guidelines

In terms of section 24 of the Municipal Systems Act - (1) *The planning undertaken by a municipality must be aligned with, and complement, the development plans and strategies of other affected municipalities and other organs of state so as to give effect to the principles of co-operative government contained in section 41 of the Constitution.* (2) *Municipalities must participate in national and provincial development programmes as required in section 153(b) of the Constitution.*” It is therefore important for our municipality to align its strategic approach with national and provincial development programmes. Although the national, provincial and district are summarized in the following tables. The following highlights are the key elements of **National Development Plan (NDP)**. The NDP is a step in the process of charting a new path for the country. The broad goal of this plan is to eliminate poverty and reduce inequality by 2030. The key focus areas of this plan are summarised in the figure below:

4.10. Localised Strategy Guidelines

4.10.1. Localised Strategic Guidelines for SDF (Code=LSG/SDF#)

Spatial development framework is summarised in this chapter 05 giving effect to the principles of spatial correction and inclusion in the municipality

4.10.1.1. Legislation and Policies

4.10.1.1.1. Spatial Planning and Land Use Management Act

4.10.1.1.2. The White Paper on South African Land Policy

4.10.1.1.3. The Housing Act

4.10.1.1.4. The Housing White Paper

4.10.1.1.5. Green Paper on Development and Planning

4.10.1.1.6. National Environmental Management Act

4.10.1.1.7. The Mining Charter 2016

4.10.1.2. Spatial Development Principles

4.10.1.2.1. Correction of historically distorted spatial patterns.

4.10.1.2.2. Spatial integration (rural/urban, poor/rich, black/white, housing/workplace)

4.10.1.2.3. Spatial Justice (Spatial Sustainability, Efficiency, Spatial Resilience, Good Administration)

4.10.1.2.4. Diversity of land uses

4.10.1.2.5. Discouragement of urban sprawl/densification/compact towns and cities.

4.10.1.2.6. Environmentally sustainable land development practices.

4.10.1.2.7. Spatially coordinated sectoral activities

4.10.1.3. Land Development Guidelines

4.10.1.3.1. Provision for development of urban and rural land, existing and new settlements.

4.10.1.3.2. Discouragement of land invasions (without ignoring reality of informal land use processes).

4.10.1.3.3. Equitable access to land

4.10.1.3.4. Tenure security

4.10.1.4. Housing Ownership

4.10.1.4.1. Enforces integration of housing development with existing communities for mining employees where housing development for mining labour applies

4.10.1.4.2. Enforces a contribution towards housing ownership of mining employees in consultation with labour organization

4.10.2. Localised Strategic Guidelines for LED (Code=LSG/LED#)

LED strategy to be reviewed aimed at mainstreaming the guidelines contained hereunder

4.10.2.1. Legislation and Policies

4.10.2.1.1. Constitutional mandate for municipalities to promote social and economic development.

4.10.2.1.2. The White Paper on Local Government encourages municipalities to address unemployment and to promote LED.

4.10.2.1.3. Employment generation based on economic growth and competitiveness is a major goal of the GEAR (Growth, Employment and Redistribution) Programme.

4.10.2.1.4. The mining charter 2016 (redefines the contribution of local mining companies on local development)

4.10.2.1.5. The Forestry Charter

4.10.2.1.6. The Tourism Charter

4.10.2.1.7. Minerals and Petroleum Resources Development Act 2002

4.10.2.2. Principles

4.10.2.2.1. Redistribution of economic resources and opportunities for the benefit of all residents through economic growth and development based primarily on local resources.

4.10.2.2.2. Some of the socio-economic needs (i.e. Priority Issues) will be best addressed through LED initiatives.

4.10.2.2.3. Sector-specific or location-specific economic development guidelines, such as Spatial Development Initiatives (SDI), agricultural development policies, tourism development strategies etc.

4.10.2.2.4. Community development is enforced at 1% of the annual mine turnover on labour sending areas

4.10.2.2.5. Enforces a 60% procurement of capital goods from a locally based BEE companies of which 30% of the 60% must be given to SMMEs

4.10.2.2.6. Enforces a 70% procurement of consumables from a locally based BEE companies of which 30% of the 70% must be given to SMMEs

4.10.2.2.7. Social labour plan is required to be in line with the IDP of the municipality in labour sending areas

4.10.2.3. Localised Strategic Guidelines for LED should include;

4.10.2.3.1. Focal economic sectors for promotion (e.g. tourism, agro-based industries, processing industries).

4.10.2.3.2. Basic principles of promotion (e.g. focus on labour-intensive techniques, viability, and sustainability).

4.10.2.3.3. Major instruments of promotion.

4.10.2.3.4. Major target groups (type of enterprises) and intended beneficiaries (e.g. women, school leavers).

4.10.2.3.5. Focal geographic areas.

4.10.3. Localised Strategic Guidelines for Poverty Alleviation and Gender Equity (Code=LSG/PAGE#)

Transversal strategy, Employment Equity Plan & Emerging SMMEs support plan to be reviewed & developed aimed at mainstreaming the principles contained hereunder

4.10.3.1. Legislation and Policies

4.10.3.1.1. Constitution Section 26, 27 regarding basic needs and Section 9 regarding gender equality.

4.10.3.1.2. Children's Act

4.10.3.1.3. Sexual offenses Act

4.10.3.1.4. National Health Act

4.10.3.1.5. Criminal Procedure Act

4.10.3.1.6. Act 70 for Substance abuse

4.10.3.1.7. Older Person's Act

4.10.3.1.8. Sustainable Development Goals

4.10.3.1.9. National Development Plan

4.10.3.1.10. Immigration Act

4.10.3.1.11. Traffic in Person Act (Tip)

4.10.3.1.12. RDP (Reconstruction and Development Programme).

4.10.3.1.13. White Paper on Local Government.

4.10.3.1.14. SALGA Handbook on "Gender and Development".

4.10.3.2. Poverty Alleviation

- 4.10.3.2.1. Crucial role of local government in meeting basic needs of the poor (access to basic services).
- 4.10.3.2.2. Creating opportunities for all to sustain themselves through productive activity.
- 4.10.3.2.3. Establishing a social security system and other safety nets to protect the poor and other disadvantaged groups.
- 4.10.3.2.4. Empowerment of the poor/encouraging the participation of marginalised groups.
- 4.10.3.3. Gender Equity
- 4.10.3.4. South Africa's National Policy Framework for Women's Empowerment and Gender Equality (2002).
- 4.10.3.5. Women's Charter for Effective Equality (1994).
- 4.10.3.6. The Promotion of Equality and Prevention of Unfair Discrimination Act, 2000 (No. 4 of 2000).
- 4.10.3.7. SADC Declaration on Gender and Development and its Addendum on Violence Against Women.
- 4.10.3.7.1. Addressing existing gender inequalities as they affect access to jobs, land, housing, etc.
- 4.10.3.7.2. Focusing efforts and resources on improving the quality of life especially of those members and groups that are most often marginalised or excluded, such as women.
- 4.10.3.7.3. Inclusiveness by empowerment strategies which focus on women.
- 4.10.3.7.4. Understanding the diverse needs of women and addressing these needs in planning and delivery processes.

4.10.4. Localised Strategic Guidelines for Environment (Code=LSG/ENV#)

The current SDF already covers all aspects contained hereunder, however an Environmental plan will be developed to mainstream the principles contained in this section

4.10.4.1. Legislation and Policies

4.10.4.1.1. Principles of Chapter 1 of the National Environmental Management Act.

4.10.4.1.2. Local Agenda 21.

4.10.4.1.3. National Environmental Management Plans.

4.10.4.1.4. Provincial Environmental Implementation Plans.

4.10.4.2. Principles

4.10.4.2.1. avoiding pollution and degradation of the environment;

4.10.4.2.2. avoiding waste, ensuring recycling or disposal in a responsible manner;

4.10.4.2.3. minimising and remedying negative impacts on the environment and on people's environmental rights;

4.10.4.2.4. considering the consequences of the exploitation of non-renewable natural resources;

4.10.4.2.5. avoiding jeopardising renewable resources and ecosystems;

4.10.4.2.6. paying specific attention to sensitive, vulnerable, highly dynamic or stressed ecosystems;

4.10.4.2.7. minimising loss of biological diversity; and

4.10.4.2.8. Avoiding disturbance to cultural heritage sites.

4.10.4.3. The Guidelines may include

4.10.4.3.1. a list of especially endangered or degraded resources;

4.10.4.3.2. a list of locations which may require restrictions for utilisation;

4.10.4.3.3. a list of economic activities which needs special attention with regard to environmental impact; and

4.10.4.3.4. Risks of environmental disasters.

4.10.5. Localised Strategic Guidelines for Institutional (Code=LSG/INST#)

Part of what will be enforced includes delegation of powers to managers below section 56 as well as implementation of IPMS in order to have an effective government systems and controls aimed at realising good governance

- 4.10.5.1. Legislation and policies
 - 4.10.5.1.1. White Paper on Local Government, Section F.
 - 4.10.5.1.2. Employment Equity Act
 - 4.10.5.1.3. National Skills Development Act
 - 4.10.5.1.4. Consequence Management Policy
 - 4.10.5.1.5. Systems Act Section 59
 - 4.10.5.1.6. SCM Policy and Regulations
 - 4.10.5.1.7. MFMA Section 65
- 4.10.5.2. Guidelines
 - 4.10.5.2.1. Market related tariffs for all leased properties
 - 4.10.5.2.2. Risk Management Action Plans
 - 4.10.5.2.3. Municipal Budget
- 4.10.5.3. Develop delivery capacities for accessible, affordable, basic needs orientated, integrated, sustainable and efficient quality services on an accountable basis.
 - 4.10.5.3.1. objectives-and results orientated management;
 - 4.10.5.3.2. effectiveness-and efficiency orientated management (“value for money”); and
 - 4.10.5.3.3. service-and client orientated management
 - 4.10.5.3.4. performance-based contracts;
 - 4.10.5.3.5. service orientated codes of conduct;
 - 4.10.5.3.6. Deconcentration of operational responsibility by giving more power and skills to the frontline workers; and
 - 4.10.5.3.7. consultative decision-making approaches within the administration
- 4.10.5.4. Selection of appropriate forms of service delivery
 - 4.10.5.4.1. corporatisation,
 - 4.10.5.4.2. public-public partnerships,
 - 4.10.5.4.3. public-community partnerships,
 - 4.10.5.4.4. contracting out,
 - 4.10.5.4.5. lease and concessions,
 - 4.10.5.4.6. privatisation

5. CHAPTER 5 (Key Plans of the IDP)

5.1. Financial Plan and Capital Expenditure Plan for the next three years

5.1.1. Executive Summary

The key service delivery priorities, as reflected in the IDP, informed the development of the Draft Budget, including the need to maintain the Municipality's financial sustainability.

Revenue collection strategies are required to improve the collection of outstanding consumer debt are being implemented by the Municipality, such as the debt relief programme and securing external capacity to deal with revenue enhancement and the improvement of debt recovery. The municipality appointed a service provider in order to deal with Electricity Cut-off in respect to enhance the municipal revenue and it is hoped that there will be positive results thereof.

Cost containment measures are also being implemented considering the Strategic Planning Resolutions to curb costs and to improve operational efficiency.

All National Treasury's MFMA Circulars were used to guide the compilation of the 2019/20 -2021/22 MTREF, including the latest MFMA Budget Circulars, as well the plans and recommendations of the political leadership.

The Municipality faced the following significant challenges during the compilation of the 2019/20 MTREF:

- Budgeting for a surplus (i.e. Total Revenue not exceeding Total Expenditure) on the Operating Budget;
- Fully implementing cost containment measures and eliminating non-core expenditure items;
- Maintaining revenue collection rates at acceptable levels and even more;
- Ensuring that electricity and water losses are maintained at an acceptable levels;
- Allocation of the required operating budget provision for newly created infrastructure and facilities, with a consequential impact on the level of rates and tariff increases;
- Allocation of the required budget provision for the rehabilitation and maintenance of existing infrastructure;
- Allocation of the required operating budget provision for staffing requirements, including the existing staff and planned appointments for 2018/19;
- Depleted Capital Replacement Reserve, impacting on the Municipality's ability to fund capital expenditure from internal sources such as purchases of the Yellow Fleet and Refurbishment of internal street of Lydenburg, Graskop and Sabie;
- Maintaining an acceptable cost coverage ratio;
- Reprioritisation of capital projects and operating expenditure within the financial affordability limits of the Budget, taking the municipality's declining cash position into account;

In preparing the draft Medium Term Revenue and Expenditure Framework 2019/20-2021/22, Thaba Chweu Local Municipality considered a number of factors that not only affect the Thaba Chweu Community but the entire country and world economy.

The South African economy grew by 0.7% in 2018, which is below National Treasury's expectation of 1.0% growth announced during the National Budget Speech in February. The GDP growth rate is forecasted at 1.5 per cent in 2019, 1.7 per cent in 2020 and 2.1 percent in 2020. Statistics South Africa's December 2017 economic statistics showed an unexpected improvement in the economic outlook, largely as a result of growth in agriculture and mining.

Macroeconomic Performance and Projections; 2019-2022

Fiscal year	2018/19 Estimate	2019/20 Forecast	2020/21 Forecast	2021/22 Forecast
Consumer Price Inflation	5.3%	5.2%	5.4%	5.4%
Real GDP Growth	0.7%	1.5%	1.7%	2.1%

Considering the current performance of the Economic drivers in the Country, Thaba Chweu Local Municipality has analysed the opportunities in Tourism, Mining and Agricultural Sectors as elementary resources to inflate the economy within the surrounding of Thaba Chweu Local Municipality by providing better services to the communities.

The following budget principles and guidelines directly informed the compilation of the 2019/20 MTREF:

- The 2018/19 Adjustments Budget priorities and targets, as well as the base line allocations contained in that Adjustments Budget were adopted as per the upper limits for the new baselines for the 2019/20 draft annual budget;
- Tariffs and property rates increases should be affordable and should generally not exceed inflation as measured by the CPI, except where there are price increases in the inputs of services that are beyond the control of the municipality. In addition, tariffs need to remain or move towards being cost reflective, and should take into account the need to address backlogs;

The following table is an overview of the proposed 2019/20 Medium-term Revenue and Expenditure Framework:

Draft Summary Statement of Financial Performance forecast				
Description	Adjustment Budget 2018/19	Budget Year 2019/20	Budget Year +1 2020/21	Budget Year +2 2021/22
	R'000	R'000	R'000	R'000
Total Revenue (Incl Capital Transfers)	R 699 329 000.00	R 648 569 869.00	R 684 872 179.00	R 754 846 383.00
Total Expenditure (Including CAPEX)	-R 668 692 000.00	-R 742 455 674.00	-R 771 729 785.00	-R 838 011 604.00
Surplus/(Deficit) for the year	R 30 637 000.00	-R 93 885 805.00	-R 86 857 606.00	-R 83 165 221.00

Total revenue increased by 4.8% from the Revised/Adjustment Budget of 2018/19 financial year in comparison to the estimates of 2019/20 Budget year. For the two outer years, operational revenue will increase by 5.6 and 10.2 per cent respectively.

Total expenditure for the 2019/20 financial year has been appropriated at R 742.5 million and translates into a budgeted deficit of R93.8million. When compared to the 2018/19 Adjustments Budget, operational expenditure has grown by 11.0 per cent in the 2019/20.

The capital budget of R77.8 million for 2019/20 shows a decrease of 19% when compared to the 2018/19 Adjustment Budget. The capital programme will further decrease to R 61.4 million in the 2020/21 financial year and then evens out in 2021/22 to R78.6 million, this massive decrease is experienced from the decline of allocation by National Treasury as indicated in MFMA Circular 94 and the Division of Revenue Bill gazetted in 09th of February 2019.

A substantial portion of the capital budget will be funded from the allocation of the conditional grants over MTREF in addition the balance will be funded from internally generated funds.

Operating and Capital Revenue Framework

In view of the aforementioned summary, it is important also to enlighten the Council and Management that the 2019/20 Draft Budget was compiled in compliance with the Municipal Standard Charts of Accounts (mSCOA) 6.3 version. Item description and formats of tables will look differently from the customary formats.

It is important to familiarise ourselves with the mSCOA reporting templates, as we anticipate to be fully compliant in 2019/20 Financial Year.

Draft Summary of revenue classified by main revenue source

Draft Summary of revenue classified by main revenue source				
Item Description	Revised Budget 2018/19	Budget Year 2019/20	Budget Year 20120/21	Budget Year 2021/22
Total Revenue	R 699 329 257.00	R648 570 000.00	R 684 872 179.00	R 754 846 201.00
Discontinued Operations				
Exchange Revenue	R 340 800 715.00	R316 284 000.00	R 342 056 679.00	R 369 926 388.50
Agency Services		R 2 500 000.00	R 2 687 500.00	R 2 889 062.50
Interest, Dividend and Rent on Land	R 23 986 000.00	R 30 368 000.00	R 30 646 000.00	R 35 094 000.00
Operational Revenue	R 45 410 000.00	R 6 480 000.00	R 11 017 179.00	R 11 909 076.00
Rental from Fixed Assets	R 1 717 715.00	R 2 000 000.00	R 2 150 000.00	R 2 311 250.00
Sales of Goods and Rendering of Services				
Service Charges	R 269 687 000.00	R274 936 000.00	R 295 556 000.00	R 317 723 000.00
Intercompany/Parent-subsidiary Transactions				
Licenses or Permits				
Non-exchange Revenue	R 358 528 542.00	R332 286 000.00	R 342 815 500.00	R 384 919 812.50
Fines, Penalties and Forfeits	R 1 769 541.00	R 2 500 000.00	R 2 687 500.00	R 2 889 062.50
Licenses or Permits				
Property Rates	R 135 594 001.00	R110 000 000.00	R 118 250 000.00	R 127 118 750.00
Surcharges and Taxes				
Transfers and Subsidies	R 221 165 000.00	R219 786 000.00	R 221 878 000.00	R 254 912 000.00
Interest, Dividend and Rent on Land				
Default				

The graph below indicates the capability and potential of the Municipality to generate its own income. Total own generated revenue total to R 428.7 million for 2019/20 financial year against the total Budget of R 648.6 million.

The 2019/20 -2021/22 Medium Term Revenue and Expenditure Framework (Budget) Revenue is expected to increase by 4.8% in 2019/20 from the 2018/19 revised budget. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult decisions have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

Service Charges consist of the following

1. Electricity	R110 000 000
2. Refuse	R18 830 262
3. Water	R53 785 000
4. Sewerage	R16 325 614
TOTAL	R198 940 876

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the Municipality and continued economic development;
- Efficient revenue management, which aims to ensure at least 95 per cent annual collection rate for property rates and other key service charges;
- Achievement of full cost recovery of specific user charges especially in relation to trading services;
- Determining the tariff escalation rate by establishing/calculating the revenue requirement of each service;
- The municipality's Property Rates Policy approved in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004) (MPRA);

Table below indicate the contributing factors to revenue increment in terms tariff structure-

TARIFF DESCRIPTION	2018/19	2019/20	% INCREASE
Electricity	R'0.00		
Energy rate (c/kwh)	R0,91	R1,03	R13,54
0-50kwh			
Energy rate (c/kwh)	R1,17	R1,33	13,54
51-350kwh			
Energy rate (c/kwh)	R1,65	R1,87	13,31
351-600kwh			
Energy rate (c/kwh)	R1,94	R2,20	13,32
>600kwh			
Water	R10,23	R11,05	7,98
Refuse	R106,06	R114,55	8,00
Sewerage	R106,06	R114,55	8,00
Assessment Rate	R0,01	R0,01	0,00

The table above has reflected domestic tariffs only; the entire tariff listing will be made available for public notes.

Property rate still in 2019/20 will not be increased; increment on the budget is calculated on basis that Municipal Investment Property which was still under Council ownership will be transferred to the rightful owner prior the new financial year. The focus on non-increment of property rates remains to ensure that people of Thaba Chweu Local Municipality continued to receive an affordable rate during this tenure of economic difficulties.

In terms of the price determination for Eskom's tariffs, **(NERSA)** National Energy Regulator of South Africa has approved a tariff increase of 13.32 per cent for the 2020 financial year.

Proposed water, sewer and refuse tariffs will increased by 8% for 2018/19 approved tariffs were increased by 8 per cent which was little above the inflation rate, Council believes that the proposed rate hikes will not be a huge burden to the community, business and all other stakeholders.

The following table indicates all grants and subsidies to be transferred to Thaba Chweu Local Municipality in 2019/20

Description	Revised Budget 2018/19	Budget Year 2019/20	Budget Year 2020/21	Budget Year 2021/22
CAPITAL GRANTS				
MIG	R46 457 000	R47 382 000	R49 940 000	R53 620 000
WSIG	R15 000 000	R15 000 000	R1 500 000	R20 000 000
INEG	R4 935 000	R9 620 000	R10 000 000	R5 000 000
EEDG		-	-	-
RFMIG	R9 000 000		-	-
Total Capital Grants	R75 392 000	R72 002 000	R61 440 000	R78 620 000
OPERATIONAL GRANTS				
Equitable Share	R132 627 000	R143 286 000	R157 326 000	R172 916 000
FMG	R2 215 500	R2 680 000	R3 112 000	R3 376 000
EPWP	R1 931 000	R1 818 000	R0	R0
Total Operational Grants	R136 773 500	R147 784 000	R160 438 000	R176 292 000
TOTAL ALLOCATION	R212 165 500	R219 786 000	R221 878 000	R254 912 000

A total of **R 219.8 million** will be transferred to Thaba Chweu Local Municipality in the 2019/20 financial year by the National government in the form of Capital and Operational Grants and Subsidies. This is an overall increase of **R 7.6 million** from the 2018/19 allocation. Hence the equitable share will increase by 8 per cent and Municipal Infrastructure Grant by 2 per cent. The Municipality is gazetted to receive R15 Million in the **(WSIG)** Water Services Infrastructure Grant which reflects a **consistent performance** as it is equal to last financial year amount of **R15 million** and **INEG increase** by over **R 4.6 million**.

It is anticipated that the cost of providing municipal services will grow at a faster rate than the transfers from national government, as we recognise the high rate on own generated revenue.

Operating Expenditure Framework

The Municipality's expenditure framework for the 2019/20 budget and MTREF is informed by the following:

- The funding of the budget over the medium-term is informed by the requirements of Section 18 and 19 of the MFMA;
- A balanced budget approach by limiting operating expenditure to the operating revenue;
- The asset renewal strategy and the repairs and maintenance plan;
- Strict adherence to the principle of "no budget allocations without a business plan, procurement plan and cash flow".
- The following table is a high level summary of the 2019/20 budget and MTREF (classified per main type of operating expenditure):

Summary of operating expenditure by standard classification item

Item Description	Revised Budget	Budget Year 2019/20	Budget Year 2020/21	Budget Year 2021/22
	2018/19			
Expenditure				
Bad Debts Written Off	R23 500 000.00	R32 000 000.00	R34 400 000.00	R36 980 000.00
Bulk Purchases	R172 243 340.00	R194 634 974.00	R209 232 597.00	R224 925 042.00
Contracted Services	R80 423 176.00	R73 250 000.00	R78 743 750.00	R84 649 531.00
Depreciation and Amortization	R60 211 000.00	R62 000 000.00	R66 650 000.00	R71 648 750.00
Employee Related Cost	R193 635 643.91	R191 592 806.00	R205 962 266.00	R221 409 436.00
Interest, Dividends and Rent on Land	R30 000 000.00	R28 000 000.00	R30 100 000.00	R32 357 500.00
Inventory Consumed	R4 250 000.00	R4 250 000.00	R4 568 750.00	R4 911 406.00
Remuneration of Councillors	R11 015 913.00	R11 787 028.00	R12 671 056.00	R13 621 385.00
Operating Leases				
Operational Cost	R54 065 428.00	R55 598 866.00	R55 598 866.00	R55 598 866.00
Transfers and Subsidies	R14 231 660.00	R11 500 000.00	R12 362 500.00	R13 289 688.00

Limits were set for the following items amongst others and allocations to these items had to be supported by a list and/or motivation setting out the intention and cost of the expenditure which was used to non-priority expenditures:

- Subsistence and travelling allowance
- Furniture and office Equipment
- Refreshments and entertainment
- Fuel
- Advertising and printing

The Municipality encourages business continuity and certain expenditure has to be maintained in line with the inflation rate to enable the institution to continue and provide basic services.

Employee related costs

The 2019/20 draft budget provides for annual increments, where applicable, and a general increase of 7%. It is a Council's target to restrict personnel costs to below 34% of total expenditure. Personnel costs in the 2019/20 Budget represent **31%** of total operating expenditure.

Remuneration of Councillors

The remuneration of Councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in preparing the budget

Debt Impairment

The provision for debt impairment was determined based on a targeted annual collection rate of 94% for 2017/18, 95% for 2018/19 and 96% for 2019/20. It must be noted that resulting from the mSCOA implementation this category now incorporates Impairment of Traffic Fines.

Depreciation and Asset Impairment

The provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy and the asset register.

Interest, Dividends and Rent on Land

Consist primarily of the repayment of interest on existing long-term borrowing and Liabilities.

Bulk Electricity Purchases

NERSA has approved a 13.54% increase in the Eskom bulk tariff for the 2019/20 financial year. Energy consumption levels are influenced by the following:

- Significant increases in electricity prices;
- Consumer awareness of the need to conserve energy; and
- The implementation of energy conservation measures.

Departmental Revenue & Expenditure Summary

Engagements with departments was conducted and the below are the tables illustrating the departmental income and expenditure based on the submissions made by departmental Heads.

Departmental Revenue by Vote

DEPARTMENTAL REVENUE SUMMARIES						
	Main Vote Summaries	Current Year 2018/19		2019/20 Medium Term Revenue & Expenditure Framework		
Item Nr	Item Description	Adjusted Budget	Pre-audit outcome	Budget Year 2019/20	Budget Year 2020/21	Budget Year 2021/22
0001/1001001	MUNICIPAL MANAGER & COUNCIL	R 134 557 000,00	R 134 557 000,00	R 143 286 000,00	R 157 326 000,00	R 172 916 000,00
0002/2001003	CHIEF FINANCIAL OFFICER SUPPORT SERVICES	R 129 130 000,00	R 129 130 000,00	R 145 268 000,00	R 156 358 000,00	R 168 115 000,00
0003/3001001	DIRECTOR CORPORATE SERVICES	R 1 337 000,00	R 1 337 000,00	R 2 000 000,00	R 2 150 000,00	R 2 311 250,00
0004/4001001	DIRECTOR COMMUNITY SERVICES	R 28 607 000,00	R 28 607 000,00	R 23 165 000,00	R 24 881 000,00	R 26 747 000,00
0005/5001001	TECHNICAL & ENGINEERING SERVICES DIRECTOR	R 324 867 970,00	R 324 867 970,00	R 330 925 613,82	R 337 906 194,39	R 375 820 879,97
0006/6002001	LOCAL ECONOMIC DEVELOPMENT DIVISION	R 72 992,00	R 72 992,00	R 3 925 000,00	R 4 199 750,00	R 4 514 731,25
TOTAL		R 618 571 962,00	R 618 571 962,00	R 648 569 613,82	R 682 820 944,39	R 750 424 861,22

The table and graph above indicate the total revenue by vote; Technical department still remains to be the biggest contributor to the Council revenue due to the allocation of Conditional Grants and Subsidies from National government and Electricity sales, followed by Finance and the Municipal Manager & Council.

As per above graph Corporate Services department contribute 0% to revenue of the Municipality. Corporate Services must initiate to realize revenue from the revenue streams such as Litigations or contingents Assets as per GRAP 19 implies.

Departmental Expenditure by Vote

Procurement of laptop	Internal Funding	R100 000.00	R0.00	R0.00
Capital Fencing of old cemeteries	Internal Funding	R500 000.00	R0.00	R0.00
Capital Construction of toilets at cemeteries	Internal Funding	R250 000.00	R0.00	R0.00
Procurement of portal street bins	Internal Funding	R150 000.00	R0.00	R0.00
Total		R5 840 000.00	R0.00	R0.00

Roads remain to receive the highest allocation of R17.7 million in 2019/20 which equates to 22.4 per cent of the total capital budget. Further detail relating to asset classes and proposed capital expenditure is contained in Table A9 (Asset Management). In addition to the MBRR Table A9, MBRR Tables SA34a, b, c provides a detailed breakdown of the capital programme relating to new asset construction, capital asset renewal as well as operational repairs and maintenance by asset class.

Draft Budget Tables

The following pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2019/20 budget

and MTREF to be approved by the Council on or before 31st of March. Draft Budget tables are attached as **Annexure A**, each table has explanatory notes below.

Explanatory notes to MBRR Table A1 - Budget Summary

- Table A1 is a budget summary and provides a concise overview of the Municipality budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
- The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
- Financial management reforms emphasises the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard: a. The operating surplus/deficit (after Total Expenditure) is positive over the MTREF b. Capital expenditure is balanced by capital funding sources, of which i. Transfers recognised is reflected on the Financial Performance Budget; ii. Borrowing is incorporated in the net cash from financing on the Cash Flow Budget iii. Internally generated funds are financed from a combination of the current operating surplus and accumulated cash-backed surpluses from previous years. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive, and is improving indicates that the necessary cash resources are available to fund the Capital Budget.
- The Cash backing/surplus reconciliation shows that in previous financial years the municipality was not paying much attention to managing this aspect of its finances, and consequently many of its obligations are not cash-backed. This place the municipality in a very vulnerable financial position, as the recent slow-down in revenue collections highlighted. Consequently Council has taken a deliberate decision to ensure adequate cash-backing for all material obligations in accordance with the recently adopted Funding and Reserves Policy. This cannot be achieved in one financial year. But over the MTREF there is progressive improvement in the level of cash-backing of obligations. It is anticipated that the goal of having all obligations cash-back will be achieved by 2018/19, when a small surplus is reflected.
- Even though the Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the poor. The section of Free Services shows that the amount spent on Free Basic Services and the revenue cost of free services provided by the municipality continues to increase. In addition, the municipality continues to make progress in addressing service delivery backlogs.

Explanatory notes to MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)

- Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and

capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports.

- Note the Total Revenue on this table includes capital revenues (Transfers recognized – capital) and so does not balance to the operating revenue shown on Table A4.
- Note that as a general principle the revenues for the Trading Services should exceed their expenditures. The table highlights that this is the case for Electricity, Water and Waste water functions, but not the Waste management function.
- Functions that show a deficit between revenue and expenditure are being financed from rates revenues and other revenue sources reflected under the Budget and treasury Office.

Explanatory notes to MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)

Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the Municipality. This means it is possible to present the operating surplus or deficit of a vote.

Explanatory notes to Table A4 - Budgeted Financial Performance (revenue and expenditure)

- Total revenue is R648,5 million in 2019/20 and escalates to R684.8 million by 2020/21. This represents a year-on-year increase of over 5.6 per cent for the 2020/21 financial year.
- Revenue to be generated from property rates is R110 million in the 2019/20 financial year and R 118.2 million by 2020/21 which represents 25.6 per cent of the operating revenue base of the municipality and therefore remains a significant funding source for the municipality. Tariff increases have been factored in at 7 per cent for each of the respective financial years of the MTREF.
- Services charges relating to Electricity constitutes the biggest component of the revenue basket of the municipality totalling R274.9 million for the 2019/20 financial year, which represent 42.3 per cent of the total revenue base and grows by 7.5 per cent per annum over the medium-term.

Explanatory notes to Table A5 - Budgeted Capital Expenditure by vote, standard classification and funding source

- Table A5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
- The MFMA provides that a municipality may approve multi-year or single-year capital budget appropriations. In relation to multi-year appropriations, 2019/20 allocation total R76.9 million respectively allocated for capital budgets.

Explanatory notes to Table A6 - Budgeted Financial Position

- Table A6 is consistent with international standards of good financial management practice, and improves understanding for councillors and management of the impact of the budget on the statement of financial position (balance sheet).
- This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as “accounting” Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
- Table A6 is supported by an extensive table of notes providing a detailed analysis of the major components of a number of items, including: • Call investments deposits; • Consumer debtors; • Property, plant and equipment; • Trade and other payables; • Provisions non-current; • Changes in net assets; and • Reserves
- The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
- Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt.

These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes to Table A7 - Budgeted Cash Flow Statement

- The budgeted cash flow statement is the first measurement in determining if the budget is funded.
- It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.
- The draft 2019/20 MTREF provide for a further net increase in cash of R14.3 million for the 2019/20 financial year resulting in an overall projected position cash position at year end.
- As part of the 2018/19 mid-year review and Adjustments Budget this unsustainable cash position had to be addressed as a matter of urgency and various interventions were implemented such as the reduction of expenditure allocations and rationalization of spending priorities.
- The 2019/20 MTREF has been informed by the planning principle of ensuring adequate cash reserves over the medium-term.
- **Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation**
- The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.

- In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
- The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
- Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
- As part of the budgeting and planning guidelines that informed the compilation of the 2019/20 MTREF the end objective of the medium-term framework was to ensure the budget is funded aligned to section 18 of the MFMA.

Explanatory notes to Table A9 - Asset Management

- Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.
- National Treasury has recommended that municipalities should allocate at least 40 per cent of their capital budget to the renewal of existing assets, and allocations to repairs and maintenance should be 8 per cent of PPE. The municipality meets both these recommendations.

Explanatory notes to Table A10 - Basic Service Delivery Measurement

- Table A10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
- The municipality continues to make good progress with the eradication of backlog in the following areas:
 - Water services
 - Sanitation services
 - Electricity services
 - Refuse services

However it should be noted that this function is being investigated with a view to realising greater efficiencies, which is likely to translate into a more rapid process to address backlogs.

Part 2 – Supporting Documentation

Overview of the draft budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the Municipal Manager and senior officials of the municipality.

The primary aim of the Budget Steering Committee is to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the Municipality IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

2.1.1. Budget Process Overview

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August) a time schedule that sets out the process to revise the IDP and prepare the budget. The Mayor tabled in Council the required the IDP and budget time schedule on 30 August 2018. Key Schedule or process plan is attached as **Annexure R**

2.1.2. IDP and Service Delivery and Budget Implementation Plan

- Thaba Chweu Local Municipality IDP is principal strategic planning instrument, which directly guides and informs its planning, budget, management and development actions. This framework is rolled out into objectives, key performance indicators and targets for implementation which directly inform the Service Delivery and Budget Implementation Plan. The Process Plan applicable to the fourth revision cycle included the following key IDP processes and deliverables:
- Registration of community needs;
- Compilation of departmental business plans including key performance indicators and targets;
- Financial planning and budgeting process;
- Public participation process; • Compilation of the SDBIP, and
- The review of the performance management and monitoring processes.

The IDP has been taken into a business and financial planning process leading up to the 2019/20 MTREF, based on the approved 2018/19 MTREF, Mid-year Review and adjustments budget. The business planning process has subsequently been refined in the light of current economic circumstances and the resulting revenue projections.

With the compilation of the 2019/20 MTREF, each department/function had to review the business planning process, including the setting of priorities and targets after reviewing the midyear and third quarter performance against the 2018/19 Departmental Service Delivery and Budget Implementation Plan.

Business planning links back to priority needs and master planning, and essentially informed the detail operating budget appropriations and three-year capital programme.

Financial Modeling and Key Planning Drivers

As part of the compilation of the 2019/20 – 201/22 MTREF, extensive financial modeling was undertaken to ensure affordability and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2019/20 MTREF:

- Municipality growth • Policy priorities and strategic objectives
- Asset maintenance
- Economic climate and trends (i.e inflation, and household debt)
- Performance trends
- The approved 2019/20 adjustments budget and performance against the SDBIP
- Cash Flow Management Strategy
- Debtor payment level
- The need for tariff increases versus the ability of the community to pay for services;
- Improved and sustainable service delivery

In addition to the above, the strategic guidance given in National Treasury's MFMA Circulars 89 and 91 have been taken into consideration in the planning and prioritisation process.

5.2. Audi Action Plan

Thaba Chweu Local Municipality received a qualified Audit opinion with findings for the 2017/18 financial year.

Amongst the contributing factors the following were critical matters:

- Accumulated surplus and revaluation reserve
 - Property, plant and equipment
 - Rates of assets without actual values(Deemed cost)
- Accumulated Surplus
- Consumer Debtors
- Loss on Disposal of Assets
- Irregular expenditure

There have been a lot of accomplishments and achievements in comparison to prior years:

- No findings on the alignment between TB, GL, AR and the AFS
- No findings under the following components:
 - Conditional grants management
 - Cash and cash equivalents
 - Intangible and Heritage assets
 - Payables from exchange transactions
 - Verification and existence
 - Investment property
 - Inventories
 - Debt impairment
 - Supply chain management and procurement
 - Distribution losses

- Not all is lost and we are heading into the right direction

The Action Plan in summary:

Table 64: Audit Action Plan 2017/18

#	DETAIL FINDING	ROOT CAUSE	REMEDIAL ACTION	OUTPUT	TIME FRAME
1	Property plant and equipment:				
	The municipality revalued its community assets and buildings using deemed cost of depreciated replacement value. I was unable to obtain sufficient appropriate audit evidence to support the deemed cost used to calculate the value of some of these assets. I was unable to determine these adjustments and deemed cost calculations by alternative means, due to weaknesses in the controls of the municipality. Consequently, I was unable to confirm whether adjustments were necessary to the property plant and equipment amount of R1 155 422 178 (2017: R1 132 804 101) in the statement of financial position.	Incorrect application of GRAP Standard.	To revalue all community assets and buildings in accordance with the requirements of GRAP 17 and Directive 7. An expert will be appointed to help with revaluation.	Updated community and building register	30-Apr-19
2	Accumulated surplus				
	The municipality's adjustment to its opening balance of the accumulated surplus in the statement of changes in net assets by R16 464 507 could not be supported by sufficient appropriate evidence. I further could not identify which other account balances and classes of transactions were affected by this adjustment made in the accumulated surplus. I was unable to confirm this adjustment by alternative means due to weaknesses in the internal control of the municipality. Consequently, I was unable to determine whether any adjustments were necessary to the accumulated surplus stated at R873 120 132. (2017: R876 635 504)	Different Interpretation of Accounting Principles.	A technical memo will be written to Accounting Standard Board to get an expert advice on how to resolve the matter.	Feedback from Accounting Standard Board	28-Feb-19
3	Consumer debtors				

	In terms of GRAP 104, <i>Financial Instruments</i> , an entity is required to assess individually significant financial assets for impairment where there are indicators of impairment and collectively assess significant financial assets with groups of assets with similar characteristics. Contrary to this requirement, the municipality did not assess the payment history to calculate impairment during 2017. Consequently, I was unable to determine if any adjustments were necessary to consumer debtors amounting to R42 363 944. My audit opinion on the financial statements for the period ended 30 June 2017 was modified accordingly. My opinion on the current financial statements is also modified because of the possible effect of this matter on the comparability of consumer debtors.	Incorrect application of GRAP 104.	The finding will automatically fall off in 2018/2019 financial year as it was on the comparative in 2017/2018. Also engagement will be held with AG to confirm the accuracy of the principle.	Minutes of meeting with AG	28-Feb-19
4	Loss on disposal of assets				
	During 2017, the municipality wrote off some of its land used for reconstruction and development programme houses amounting to R80 916 146 in 2017 instead of in the period in which the municipality lost control over those assets. As a result, the loss on disposal of assets stated at R119 983 473 was misstated. My audit opinion on the financial statements for the period ended 30 June 2017 was modified accordingly. My opinion on the current financial statements is also modified because of the possible effect of this matter on the comparability of the loss on disposal of assets.	Incorrection application of GRAP Standard.	The finding will automatically fall off in 2018/2019 financial year as it was on the comparative in 2017/2018. Also engagement will be held with AG to confirm the accuracy of the principle.	Minutes of meeting with AG	28-Feb-19
5	Irregular expenditure				

<p>The municipality did not have adequate controls to prevent and detect irregular expenditure to ensure that all irregular expenditure was disclosed in accordance with section 125(2) of the MFMA. In addition, the municipality made payments in contravention of the supply chain management (SCM requirements, resulting in additional irregular expenditure of R56 241 599 (2017: R29 056 897), which was not disclosed in note 42 to the financial statements. I was unable to determine whether any further adjustments were necessary relating to irregular expenditure disclosed at R394 152 158 (2017: R298 985 679) in note 42 to the financial statements.</p>	<p>Inadequate controls and capacity within all forms of procurements.</p> <p>Lack of consequence management.</p> <p>Prolong council processes with investigations and recommendations of irregular expenditure.</p>	<p>Internal audit to perform completeness testing audit of 2016/2017 and 2017/2018 disclosed Unauthorised, irregular, fruitless and wasteful expenditure.</p> <p>MPAC to investigate all disclosed unauthorised, irregular, fruitless and wasteful expenditure.</p>	<p>Internal Audit UIF report.</p> <p>Council Resolution.</p>	<p>30-Jun-19</p>
---	---	---	--	------------------

5.3. Spatial Development Framework (SDF)

In terms of section 26 (e) of local government legislation (The Municipal Systems Act 32 of 2000) the IDP must reflect the SDF as a core component which must include the provision of basic guidelines for a land use management system for the municipality. The SDF is one of the most important amongst other plans. It serves as a guide line for the following but not limited to: land-use management systems, infrastructure investment directive, address socio-economic inequalities, effective and efficient land use, land use integration e.t.c. other legislation, policies and or frameworks crucial in informing the SDF include: SPLUMA, NSDP, PDGS, MPSDF, and EDM SDF.

The TCLM has an approved SDF which was adopted in 2015 which applies to date pertaining land use development decisions and management. In recent years TCLM discovered that its jurisdiction area particularly the north-eastern part is affected by dolomite risk which poses a serious threat to development growth. However the TCLM in partnership with MISA/DRDLR has undertaken a study to investigate the risk which will provide a guideline on development structures that can be developed or not developed in those areas. Refer to environmental sensitive chapter 02

- The current spatial form and its characteristics,
- Economic opportunities,
- Strategic spatial development,
- Social Spatial Integration,
- Desired spatial pattern (Developmental growth direction),
- Capital expenditure frame work & Implementation plan and time frames (as per the above aspects).

5.3.1. The relationship between an SDF and IDP

The SDF becomes a road map for all infrastructural development; this means that the SDF must inform all infrastructure projects that must be implemented on space. The IDP is the short to medium term implementation tool for the SDF objectives relating to infrastructure investments; the relationship is that the SDF portrays all spatial opportunities and areas ear-marked for various developments (including current existing land-uses) wherein stakeholder's participation should consider in order to give direction to development proposals.

Participation of stakeholders need to take place to determine the need and desirability of projects proposals including the benefits (social and economic) of projects in order to be prioritized in the IDP/Budget participatory processes during the development and annual reviews of the five year IDP. The processes of IDP public participation create a platform where community/public and private project's proposals are drawn in and this must happen at the presence and guidance of the SDF maps/frameworks i.e. Local spatial frameworks or ward spatial framework which should indicate the opportunities of current and future land use of a specific locality.

Current and future Land Use Proposal in Thaba Chweu Local Municipality

The following maps depict current and future development of Lydenburg, Sabie/Simile, Graskop, Matibidi, Leroro and Moremela. It is important to note that major development proposals in Graskop, Sabi/Simile and Matibidi, Leroro and Moremela have been halted pending the dolomite investigation.

5.3.2. Land-Use Management

The municipality has an approved Spatial Planning and Land Use management By-Law which was promulgated on the 19th of January 2016. The by-law will amongst other serves as guiding land use management for development application within the jurisdiction of TCLM. A wall to wall scheme has been developed to replace the old land use schemes, it was approved by council under council resolution A120/2018 and promulgated on the 28th of September 2018, under notice No. 119 of 2018. The department of corporative governance and Traditional Affairs (COGTA) have piloted an electronic system named ePGLUM and Thaba Chweu is one of the beneficiaries. The municipality is yet to set up the program officially and announce to the public that we are now receiving applications using this service. The municipality has established a tribunal to deal with category 2 development applications and a Land Development Officer who deal with Category 1 applications as preparations in implementing SPLUMA.

5.4. LED plan

Local Economic Development Chapter emanates from the section 26 (c) of the systems act; it contributes to strategic number 04 and goal number 09 of the IDP. It is central to the Integrated Development Plan of a Municipality in terms of economic growth. TCLM is in the process of finalizing its reviewed LED strategy aimed at revisiting key priority economic sectors and new pillars of economic growth in the medium to long term. The prioritized sectors of tourism, agriculture and mining as the main key drivers of LED still applies. Other drivers including manufacturing, construction, retail & trade, government services, utilities, transport & communications and finance & business services have been identified. LED is an ongoing process which incorporates various stakeholders, identifying local resources and stimulating economic growth. The aim of the LED process is to create employment, alleviate poverty, redistribute resources and most importantly keep money circulating in the Local Municipality.

Poverty Alleviation Projects

The COGTA as a support agent of Local Government has in the quest of alleviating poverty and creating job opportunities developed a number of programmes. Programmes such as Community Workers Programme (CWP) has employed 1325 Jobs seekers and the Extended Public Works Programme (EPWP) has appointed about 141 people and about 98 tourism monitors were employed in the 2018/19.

The Final LED strategy:

This strategy was approved by council on the 13th of September 2018 under council resolution A122/2018. The LED Plan deals with interventions that are necessary to turn around the economic situation of the municipality. Sectorial opportunities are categorised according to strategic thrusts and then broken further down into strategic programmes. To identify the broad goal to which local development is aimed at we use strategic thrusts therefore enabling an integrated approach towards drawing on the identified sectoral opportunities, while the strategic programmes provide more focused developmental aspects of the opportunities within Thaba Chweu Local Municipality (TCLM).

This section forms the backbone of the strategy and provides the LED vision for the municipality, a set of objectives, development thrusts, programmes and projects. The projects are then prioritised.

TCLM LED strategy focuses on the following:

- PPP and business incentives to increase business activities in the Local Municipality.
- LED projects have to focus on empowering youth, women and the disabled.
- LED projects need to focus on localities with greatest economic potential to enhance accessibility to employment opportunity by the poor.

Development Thrusts, Programmes and Projects

The LED Strategy for TCLM is based on both the comparative and competitive advantages of the area. The LED document is based on the opportunities the area has to offer as identified in the preceding sections. In order to maximise the spin-off effects from these advantage, as well as to intensify the local community benefit and enhance the competencies of the municipality, the strengths and opportunities that have been identified in the previous section are grouped into strategic thrusts. Thrusts can be defined as: "Planned actions aimed at creating impetus and a critical mass in the local economic environment in order to generate momentum in the economy."

Within each thrust, a number of programmes have been identified which are aimed on specific areas of development. These programmes were formulated specifically to obtain the overall goals set for the LED Strategy. Furthermore, each programme has a number of projects and facilitation issues that need to be implemented and addressed. These projects and facilitation actions are aimed specifically at enabling the municipality to achieve the targets that have been set by the various development programmes and thrusts.

The thrusts are therefore formulated and packaged in such a way that an integrated approach towards development and growth in the municipality is possible. The various thrusts also enable projects and other development initiatives to be linked to the different thrusts identified, so as to enable a more focused and coordinated approach to economic development.

While issues such as the expansion of economic infrastructure, improved institutional capacity and good governance do have a critical role to play in ensuring the effective economic development does take place, these issues are considered to be supportive elements that will not in its own result in the expansion of the economic base, and are therefore not isolated in the strategic thrusts.

As can be seen below, there are five (5) thrusts, and each have a number of supporting programmes.

Thrust 1: Agricultural support and value adding

The agricultural sector had comparative advantage and it is in many respects perceived as an important sector. Not only does the sector hold a great share of employment in the Municipality, the sector has a growth rate of 1.6% and accounts for 28% of the total employment in the municipality

The following programmes have been identified under the agriculture sector support and value adding thrust, which are unpacked hereunder:

- Forestry Enhancement and Intensification
- Agricultural Expansion and Diversification
- Value Adding and Agro processing
- Agricultural Development and Support

Thrust 2: Tourism development and promotion

The municipality is well known for its tourism attraction sites and is considered as one of the key economic sectors in TCLM given the potential that the industry has. The sector can help eradicate poverty and ensure employment creation in rural townships of Thaba Chweu due to its labour-intensive nature. The objective of this thrust is to develop and promote the tourism sector.

The following programmes have been identified under the Tourism Development and Promotion:
Thrust:

- Heritage Hub Development
- Tourism Facilitation and Skills Development
- Township Tourism Development
- Rural Tourism Development
- Tourism Asset Expansion, Integration and Promotion

Thrust 3: SMME development and support to integrate rural and township economies

This thrust is focused on the expansion, development and support of local businesses to ensure that the needs of local communities are sufficiently served from within the Municipality.

The following programmes have been identified under the SMME Development and support to integrate rural and Township Economies:

- Business Development and Support
- Informal Economy Enhancement and Growth
- SMME Skills development
- Rural Land Use Management and Spatial Development
- Regional Connectivity and Accessibility

Thrust 4: Mining development and value chain diversification

Not only does the sector hold a great share of employment in the Municipality, but many households are dependent on the sector for survival. Thaba Chweu Local Municipality's mining sector is the largest contributor (41%) to the total district mining sector. The thrust is aimed at the development and expansion of the mining sector value chain, to enable improved efficiency and diversification within the main commodities mined within Thaba Chweu Local Municipality namely platinum, gold, chrome and coal.

The following programmes have been identified under the mining development and value chain diversification thrust:

- Mining value chain linkages
- Industrial activities Development Support
- Mining Business Development and Support

Thrust 5: Green economy development and town revitalisation

The development of the green economy has become a significant topic and focus throughout South Africa and government. In order to obtain sustainable development and to ensure the future of our towns and country, it is vitally important that all development actions should include green practices such as carbon reduction measures. A green economy is one that results in improved wellbeing and social equity, while significantly reducing environmental risks and ecological scarcities. The underlying principle is to reduce the reliance of economic development on the increased consumption of, and damage to, natural resources and the environment, while meeting social needs and understanding inequities.

The following programmes have been identified under the green economy development and rural township revitalisation:

- Green Economy Stimulation
- Alternative Energy Resourcing
- Environmental Protection
- Town Beautification and Urban Design

Project prioritisation and priority projects

Relevant stakeholders identified priority projects and facilitation actions based on the level of importance for the economy during various workshop deliberations. Further internal deliberations by municipal officials finalised the list of priority projects and actions that tackle the most pressing needs in the Municipality, will have the largest impact within the local economy, and which thus need to be implemented first (within the 5-year timeframe of the LED Strategy).

Priority projects and facilitation actions per thrust

Thrust 1: Agricultural support and value adding

- Support SAFCOL community timber manufacturing initiatives through supporting the establishment of local manufacturers of timber products.
- Develop a furniture manufacturing incubator at Furntech in Sabie to support local furniture design and production.
- Market feasibility for trout hatchery and sales to local trout dams, restaurants and possible trout product processing.
- Feasibility for goat rearing commercialisation and demand for a slaughtering facility.

Thrust 2: Tourism Development and Promotion

- Develop and promote less known heritage potential lures and link to well-known attractions
- Promote packaged route attractions as incentives to reinvigorate enthusiasm and affordability
- Facilitate specialised skills development and training workshops through SEDA for women and youth in tourism related activities (arts and craft, hospitality, sewing, etc.)
- Link up local farmers, future and arts & crafts manufacturers with a weekend local market.

Thrust 3: SMME Development and Support to integrate Rural and Township economies

- Develop an economic consultation and information point at Mashishing Thusong Centre.
- Establish a mobile SMME development support and community e-centre for central access to different SMMEs in different sectors and areas throughout the TCLM
- Provide infrastructure and facilities to informal traders in Lydenburg, Sabie and Graskop towns
- Develop TCLM Informal trader strategy and policy

Thrust 4: Mining Development and Value Chain Diversification

- Pre-feasibility investigation into beneficiation of local minerals (phosphate fertiliser, agrochemicals, and fluorspar).
- Local mining services and products supplier opportunities identification and supplier enterprise development
- Support the establishment of industrial zones in Sabie and Lydenburg
- Business plan development for local mining PPE clothing manufacturing

Thrust 5: Green economy development and town revitalisation

- Feasibility on sustainable farming practices and enabling linkages to local markets
- Feasibility on mining sector waste processing opportunities
- Feasibility for alternative energy (biomass) production
- Development support to MEGA in championing the MEGA Blyde River Hydro Power Project

The Implementation of the LED Strategy

The implementation of the LED strategy is not only the responsibility of the Local Municipality but also involves other stakeholders to ensure projects are sustainable and contribute towards local development. The role of support service agencies is crucial to implementing LED projects and ensuring necessary support structures are in place before implementing projects. Clear implementation guidelines are set out in the framework with indicators, for all projects, to ensure optimal stimulation of economic development, job creation and SMME development.

The following essential actions will be taken into consideration when the Department of LED & Planning starts with the implementation:

- The Municipality will ensure that human resource capacity is adequate in the LED unit to enable smooth operation and implement the LED Strategy.
- A fully functional and active LED Forum is key in the mobilization of various stakeholders to participate in the implementation process.
- Utilise external experts in drafting project business plans and conducting feasibility studies and utilise expert networking to obtain sufficient funding sources.
- Ensure that all necessary financial sources, equipment, human resources are in place and available prior to starting with the implementation of projects.
- The implementation of programmes and projects with the fastest anticipated impact on job creation, poverty alleviation, BEE etc. followed by those with medium and long term effects.

TCLM has a Local Economic Development Agency known as Thaba Chweu Local Economic Development Agency (THALEDA) assisting in catalytic capital LED programmes and projects implementation.

THALEDA was established in 2009 and is a wholly-owned municipal entity. THALEDA's **principal mandate is to facilitate economic development through initiation and implementation of catalytic projects within the jurisdiction of its parent municipality**. THALEDA was incorporated as a private company limited with all the issued shares owned by the parent municipality; Thaba Chweu Local Municipality.

The Agency received funding from the IDC for the pre-establishment phase in 2011, and has since completed the milestones, as per funding agreement, for the pre-establishment phase. THALEDA, amongst other key milestones they had achieved is the appointment of the board of directors and the appointment of their second Chief Executive Officer (CEO). Their former CEO went to join the municipality as Director: LED & Planning. THALEDA is presently operating with the offices in Sabie. The Agency has completed a number of projects amongst others are the Mashishing Amusement Park, Graskop Holiday Resort, Sabie Caravan Park, Graskop Gorge etc. A number of feasibility studies have been conducted on other projects to be implemented at a later stage.

THALEDA is expected to assist in the implementation of the identified projects in the new LED strategy of the municipality. For more information on Strategy refer to annexure: *LED Strategy*

5.5. Disaster management

The municipality has an approved disaster management plan which was approved on the 8th of December 2017 under Council resolution A120/2017 and has improved the minimum standard requirement for the municipal disaster situation. This service is a shared service between TCLM and EDM where the municipal expectation is merely to coordinate whereas the district resides with the direct responsibility. The forestry which takes huge part of TCLM land coverage, dolomitic belt, and other informal residential development in Lydenburg and Sabie poses a serious risk to the TCLM. Given the up-dated plan the municipality through its shared service can respond to a minimal serious disaster that may occur or struck in its jurisdiction area. Given this background the municipality considers this to be a serious issue. The municipal department; Public Safety has entered into an engagement with the district to assist and use the EDM' Disaster Management centre as shared service in case of emergency disasters. **(For detailed information refer to annexure; Disaster Management Plan)**

5.6. Housing Chapter

NB. The housing chapter key housing data was planned to be reviewed in the financial year 2018-19, but due to the process of adjusting our budget downwards. The budget was removed and the LED & Planning Directorate has taken an initiative to involve the Department of Human Settlement to assist with the reviewal. It is important to note that a clearly coordinated information crucial for housing delivery and related services, some information contained herein come from both the draft housing chapter (2009) sector plan and information from provincial department of human settlement. The Housing Development Agency NATIONAL Office developed an Informal Housing policy in 2015 to deal with all informal settlement in our three main towns. The policy will be tabled in council before implementation.

The municipality has a Housing Chapter which still applies to date but the biggest challenge that has struck the municipality is land availability. TCLM has in the past financial years completed a informal settlement study in order to determine the level of housing demands in Lydenburg, Sabie and Graskop. TCLM has in conjunction with the district municipality also conducted a comprehensive study on land-audit to determine the status of land ownership. Land becomes key in determining housing development within TCLM. In addition to this one of the good thing is that will unlock housing development in TCLM is the reviewed SDF which has been completed. There is currently an engagement with the provincial department of Human Settlement to review the Housing Chapter, The municipality resolved that in its meeting with Human Settlement funding for the dolomite study with its comprehensive study be made in order to unlock various developments including housing delivery within the municipality.

Current Provision of Housing within Thaba Chweu

Housing within Thaba Chweu is provided for the full array of Subsidy-Linked Mass housing Schemes; Middle and High Income Housing and Social Housing, however, the development of social housing schemes is a specific priority of Thaba Chweu Municipality. This provision excludes private contribution by other sectors.

Status of Housing Types in TCLM

5.7. Integrated Waste Management Plan

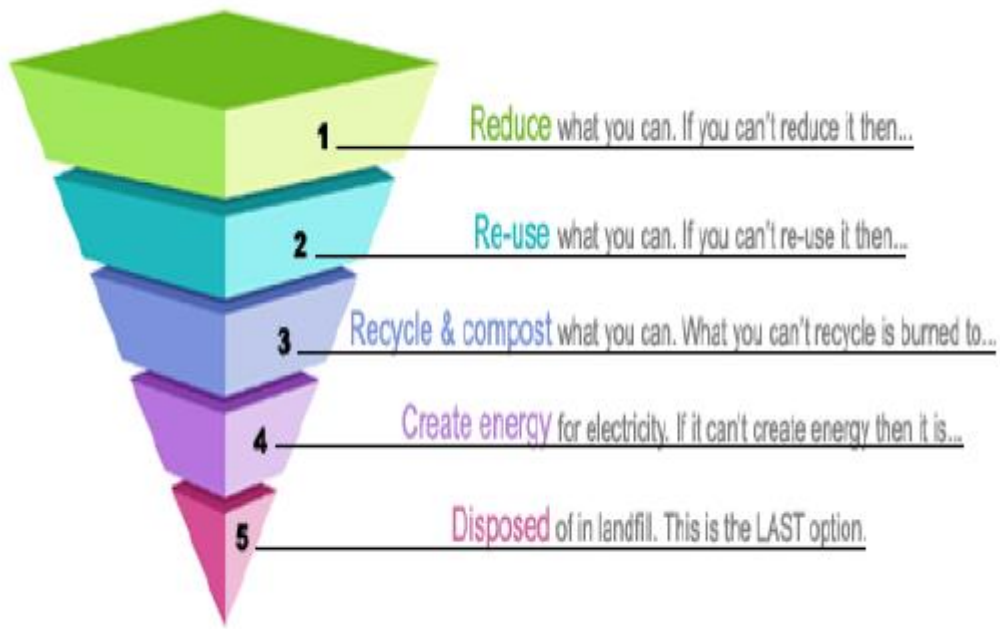

The Integrated Waste Management Plan was developed in 2012 and is now due for review. The purpose of this exercise is to enable the Thaba Chweu Local Municipality to develop and implement an Integrated Waste Management Plan (IWMP) capable of delivering general waste management services to all households and businesses. General waste is defined by the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) as waste that does not pose an immediate hazard or threat to health or to the environment, and includes:

- Domestic waste (including garden waste)
- Building and demolition waste
- Business waste
- Inert waste

The goals of the IWMP are:

- Compliance with national and policy and legislation for waste
- Service for all
- Cost effectiveness
- Reduce the negative impact of waste on human health and the environment
- Maximise developmental objectives

Current practices in Thaba Chweu and in South Africa generally are based on so-called “end of pipe practices” focusing on Collection–Transport–Disposal of waste after it has been generated. National policy and legislation require local municipalities to promote a paradigm shift from “end of pipe” waste practices to Integrated Waste Management based on the principles of the waste hierarchy. This approach is recognised as an international best practice.

Sketch 06: Waste Hierarchy

In Integrated Waste Management, the focus is on cleaner production, recycling of waste and treatment that is able to reduce the potentially harmful impacts of waste. Only after these efforts, should remaining waste be disposed of at a properly engineered and managed Waste Disposal Facility. It may also be possible in some municipalities to generate energy from waste. This is done in Thaba Chweu using forestry waste. Separation at source is the key to successfully achieving the paradigm shift required to achieve national objectives: cost effectiveness-reduced negative impact of waste on human health and the environment-developmental objectives including job creation, food security and Broad-Based BEE.

Specifically, separation at source means that households separate their waste into three parts: organic, non-organic reusable materials (glass, cans, plastic and paper) and remaining waste. Additional waste fractions such as tyres, household hazardous and electronic waste can also be separated and recycled. Organic waste should be used as animal feed, treated through vermiculture (worms) or treated to produce compost. Composting not only reduces waste management costs but also contributes to soil fertility, greening projects and food security.

Non-organic recyclable material, when separated at source has higher value, is more easily routed to end users and can be recovered at a far higher efficiency rate than when it is salvaged at a waste disposal facility. Thus, recycling in addition to its benefits for human health and the environment can improve the overall productivity of the economy. Only remaining waste should be collected and disposed of at a properly engineered and managed waste disposal facility. Businesses must also promote cleaner production, support recycling and participate in waste exchange initiatives. The Waste Act refers to the responsibility of industry and most particularly for the producers of paper products and packaging materials such as glass, plastic and tins as Extended Producer Responsibility. This also applies to manufacturers of other products that should be recycled including long life bulbs, tyres and electronic equipment such as computers and cell phones.

To achieve separation at source, all members of the community must act responsibly –separating, recycling, storing and disposing of the different parts of their waste. Government must ensure that there is a waste management service delivery system providing a network of collection and disposal options so that generators can effectively exercise their responsibilities. In addition, original manufacturers must work to create a market for, and assist with recovery of recyclables. Thus, Integrated Waste Management combines personal responsibility, government service delivery and producer responsibility. Appropriate education and training is required for everyone.

Separation at source will also make it possible to achieve a related national objective: eliminating salvaging at landfills. Salvagers often work without safety equipment and are exposed to serious health and safety risks. The practice of disposing of infectious Health Care Risk Waste (HCRW) at waste disposal facilities adds to the risk. Separation at source reduces the amount of recoverable material going to waste disposal facilities and over time opportunities for salvaging will disappear. The salvagers however are not eliminated - the IWMP will create new forms of safer employment with better remuneration, while education and training will enable salvagers to take advantage of new career paths. Integrated Waste Management can create new and better opportunities for employment for salvagers.

From the economic perspective, “end of pipe” solutions are expensive because of the costs involved in transporting and disposing all generated waste. All waste must be transported to a waste disposal facility where it is permanently separated from the environment. Such a system is complicated by the fact that landfilled waste will decompose producing methane gas and leachate, elements that must also be isolated or treated to prevent serious damage to human health and the environment. Moreover, transport, using motorised vehicles, increases air pollution and this results in indirect costs because of the negative impact of air pollution on human health and the environment. Thus, any reduction in the waste that must be transported and disposed has the dual benefit of lower costs and less pollution.

Government has estimated that 30% of all the methane gas generated in South Africa comes from waste disposal facilities. Methane is a dangerous emission contributing to global warming. In August 1997, South Africa ratified the United Nations Framework Convention on Climate Change (UNFCCC) and since then has worked to develop and implement policies to support its international commitment by reducing the emission of greenhouse gasses. Converting organic material into compost rather than disposal will save money and contribute towards achieving South Africa’s international commitments. This Integrated Waste Management Plan includes the following:

- Status Quo
- Gap Analysis and Options
- Strategy for Implementation

The Status Quo Report details current waste management practices in Thaba Chweu LM. The Gap Analysis and Options details what the Integrated Waste Management System should look like and compares the cost effectiveness of traditional practices and an Integrated Waste Management System. The Strategy seeks to bridge the gap between the reality of today and the vision for tomorrow: beginning within the context of current reality (financial, capacity, organisational as well as policy) it sets forth a specific way forward – a way to begin the journey and make significant progress towards achieving long term goals.

This Plan is a people centred approach within the framework of National Waste Management policy and legislation and the overall national strategy for sustainable development and transformation.

Policy and Legislative Framework

The central focus of national policy is the elimination of poverty. All initiatives of local government should contribute to this goal. Thus, this Integrated Waste Management Plan focuses on the goal to make Thaba Chweu a:

“Clean, Green and Healthy Community”

Integrated Waste Management is recognised internationally as the best practice approach to waste and has been adopted as policy by South Africa as a strategy to improve service delivery for waste. It is cost effective and maximises job creation. Because Integrated Waste Management captures the value in waste through new business processes, municipalities can not only improve service and reduce costs but can also promote Local Economic Development and Broad-based Black Economic Empowerment. Effective waste management facilitates transformation towards developmental local government. The sections below summarise some of the more important and relevant legislation and policies. In particular it should be understood that all generators of waste have a legal responsibility to manage their own waste properly.

This means, amongst others, that generators must separate waste and ensure that most organic waste is composted or otherwise properly managed. In addition, manufacturers of packaging material (and manufacturers of other recyclable products) must partner with municipalities to facilitate recycling processes and to ensure a market for collected materials. Municipalities must manage the transition from current practices to a separation at source based recycling system.

National Waste and Legislation Strategy

Section 24 of the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996) says that:

- Everyone has the right to have the environment protected, for the benefit of present and future generations, through ecologically sustainable development and use of natural resources while promoting justifiable economic and social development,

The White Paper on Environmental Management Policy (July 1997) sets forth an overarching framework policy to guide government in giving practical effect to section 24 of the constitution. The White Paper led to passage of the National Environmental Management Act, 1998 (Act 107 of 1998) (NEMA/1998) including guiding principles for sustainable development to be used in creating specific policy in various areas. Key among these are the promotion of recycling and composting and that polluters must pay for the consequences of their actions. NEMA/1998 is the key framework legislation for waste management.

This was followed by the National Waste Management Strategy (1999) and the White Paper on Integrated Pollution and Waste Management for South Africa (2000). The National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) is subsidiary and supporting legislation to the NEMA/1998 and gives legal effect to the principles and objectives of the White Paper on Integrated Pollution and Waste Management for South Africa. The Waste Act provides a legislative framework for the regulation and management of pollution and waste. Its aim is to reform laws regulating waste management by providing:

- Reasonable measures for integrated pollution and waste management,
- For compliance to those measures,
- Generally giving effect to Section 24 of the Constitution,

in order to achieve an environment that is not harmful to the health and well-being of people.

The purpose of the Waste Act is to:

- Prevent Pollution and ecological degradation,
- Reduce the use of natural resources,
- Reform laws for waste management,
- Protect human health and the environment,

The legislation requires municipalities to:

- Adopt and implement Integrated Waste Management Plans,
- Promote the minimisation of waste,
- Promote Recycling,
- Promote separation at source,
- Provide for the proper (where appropriate) treatment and disposal of waste as a last resort,
- Ensure service for all,
- Designate a waste management officer,

The legislation also:

- Gives legal effect to the principles of the Waste Hierarchy and Extended Producer Responsibility
- Requires Government to adopt a Waste Management Strategy

Following adoption of the Act, the Department for Environmental Affairs issued a set of documents as guidelines for implementation of the Act. In November 2011, Cabinet approved the National Waste Management Strategy. The Strategy details the roles and responsibilities of key stakeholders as follows:

Government

- Legislation, Regulations, Standards and Planning
- Waste Management Officers
- Service for all
- Facilitate recycling infrastructure
- Promote and work in Partnerships with private sector and civil society

Private Sector

- Responsibility for products throughout the products life cycle
- Cleaner technology and minimise waste generation
- Develop and deploy waste management technologies
- Industry waste management plans
- Join Partnerships

Civil Society

- Households must separate waste
- Participate in waste awareness campaigns
- Participate in recycling initiatives
- Comply with all laws and regulations
- Monitor compliance

Waste Generation Areas/Main Pollution Hot Spots

Thaba Chweu is divided into three administrative units. Each of these has a main town as well as townships and rural settlements including traditional areas as follows:

Mashishing

- Mashishing Town
- Mashishing Township
- Skhila
- Kiwi Farm (traditional area)
- Coromandel
- Boomplaats
- Draikraal
- Buffelsvlei

Graskop

- Graskop Town
- RDP area and Chinese Project
- Extension 5
- Glory Hill
- Graskop Hostel and Informal area
- Moremela (traditional area)
- Leroro
- Matibidi

Sabie

- Sabie
- Simile
- Harmony Hill
- Phola Park
- Hendriksdal
- Brondal

Current Waste Services as per the Plan

Below is the type of services provided by the municipality:

Provision of Refuse collection for Residential and Business

- (a) Household / Residential refuse collection for about 12 000 households is done at least once per week (Kerbside)
- (b) Businesses, the minimum level of service for routine collected waste would be at least twice per week
- (c) Bulk waste collection services is provided to the business/commercial sector, in which case the bulk containers would be collected as per arrangement

The areas in which refuse is removed are as follows:

- Mashishing town
- Mashishing township
- Skilla Extension 2 and 6
- Kellllisville
- Sabie
- Graskop
- Harmony Hill
- Glory Hill
- Simile

The table below shows the status on waste collection in all the wards, it reveals that about 19550 households receive the services once a week and about 1770 households don't receive the service out of a total of 33 352 households.

Table 69: Status of Waste Collection in TCLM

Ward No	Removed by local authority/private company at least once a week	Removed by local authority/private company less often	Communal refuse dump	Own refuse dump	No rubbish disposal	Other	Total
Ward 1	1023	-	-	21	2	1	1047
Ward 2	2609	15	22	155	111	3	2916

Ward 13	790	109	16	213	39	11	1178
Ward 14	3060	177	7	95	1	14	3355
Total	19550	1940	388	9427	1770	277	33352

Source: Stats SA 2011

Street cleaning and illegal dump rehabilitation

- a) Daily street and site walks litter picking
- b) Illegal dumping clearance and rehabilitation (carwash, parks, and gardens)

Provision of Landfill Site Management

- a) Operation and maintenance of three waste disposal sites Lydenburg, Sabie and Graskop through the use of service providers
- b) Promoting Recycling initiative for waste minimisation and diversion from the landfill site

The full detailed Integrated Waste Management Plan is available for further information as an annexure of the IDP.

List of Waste Management Projects/Programmes

Project Name	Implementer	Time Frames
Good Green deeds	National Department of Environmental Affairs	24 Months
Zondinsila	Mpumalanga Department of Agriculture Rural Development Land & Environmental Affairs	24 Months

5.8. Special Programmes

Sports, Culture and Recreation

The municipality has observed that sport facilities in TCLM play a very important role in social cohesion within the entire society. It therefore deems sports facilities to be import social tools not only for sports activities but social integration as well. There are numerous sports facilities in TCLM' three towns (Lydenburg, Sabie and Graskop). It has been further noted that some of these facilities are not strategically located to benefit the ethnic groups thus remain not accessible to some of the the community at large, especially the displaced communities. In the rural areas most of the schools have very basic sport facilities such as a levelled area for soccer, netball and athletics.

Facilities such as libraries, community halls, dams and picnic areas form the core recreation facilities in abundance in areas of Sabie and surrounding. TCLM has established a number programmes focusing on maintenance and sustaining of these facilities for the benefits of the broader community at large.

TCLM has focused on following for intervention:

- Upgrading of Parks
- Upgrading of Soccer Stadiums

The following are development strategies and priorities for Sports, Culture and recreation

Table 70: Development Priorities and Strategies for Sports, Culture and Recreation

Development Priority	Strategies
Facilitating of cultural activities	To facilitate cultural activities with the NGP/NPO and community organisation partners
Optimal use of existing sporting facilities	To encourage and facilitate the co-operation between schools, clubs and sporting codes to make optimal use of existing sporting facilities
Make land available for sports and cultural activities	To facilitate in the provision of land for the use of initiation and other sports and cultural activities
Public open spaces and playgrounds	To plan for the creation of public open space and play facilities in new low-income housing development as

	part of the housing and infrastructure development
Investing in tourism and recreational facilities	To invest in public tourism and recreational facilities
Promote the beauty of Thaba Chweu	To promote the attractiveness of our municipality through the maintenance and development of public spaces, entrances, etc
Extension of partnerships and development	To actively seek partnerships with community, private sector and other role-players in finding the most effective service provision mechanism for the management and operations of municipal resort facilities

Transversal

The Municipality recently configured the Transversal Unit and later in July 2015 Approved the Transversal Strategy under Council Resolution A69/2015. Although there is funding challenges to implement some of the programmes mentioned below the strategy is in place and the District Municipality assists where possible.

Purpose

The unit main responsibility is to advocate for the marginalised members of the community by initiating, coordinating and implementation of programmes relating to the marginalised groups.

Strategic Objective

To ensure that transversal issues are mainstreamed into all policies, plans, programmes and activities of the Municipality, thus significantly helping to enhance the quality of life, full participation, and empowerment of the marginalized group. (Disability, Women, the Elderly, Children and Gender Equality) in all spheres of life.

Status Quo

The unit presently functions with one (1) official who deals with all Transversal Services. The following are programmes initiatives of the unit:

1. Disability Programmes

- Thaba Chweu Disability Forum
- Stimulation Centres
- Disabled Organizations

2. Children's Programmes

- Early Childhood Development
- Learners(school support programmes)
- Orphans and Vulnerables(Needy children)

3. Women Programmes

4. Elderly Programmes

5. Gender Equality

In the Municipal draft organogram a proposal of two (2) employees has been made to capacitate the unit in order to execute its programmes and ensure effectiveness of all services which will lead to transformation of lives of the marginalised groups in TCLM.

The Objectives of the Unit is:

- To initiate, coordinate and monitor programmes for Transversal Unit.
- To advice on budget allocation and monitor approved the budget allocated for programmes.
- To Develop Strategies and Policies that will assist municipality to deal with Transversal issues.
- To cater for all issues that affects the marginalised so that their lives can change to better.
- To alleviate poverty affecting the disadvantaged community members.

Planned transversal programmes

- Children

Children are the important part of our country and the rights of every child are important. Their rights ensure their survival protection, development and participation. The municipality as a custodians of the community at large, children as members of community therefore the municipality has a pivotal role to play in ensuring that children are catered as per the constitutions 'Children's Rights'.

The municipality's main role in terms of children issues is to coordinate, mainstream, monitor and evaluate child rights delivery at local level as per National Plan of Action for Children in South Africa.

The municipality in partnership with Department of Social Development Early Child Development Forum has been established. The forum aims to ensure uniformity of functioning of all Early Childhood Development Centres.

Available ECD registered and funded by Department of Social Development

Table 171: ECDs in TCLM

Area	No. of ECDs	Funded	Unfunded
Mashishing	13	12	01
Sabie	05	03	02
Matibidi /Leroro	13	08	05
Graskop/ Pilgrims	03	00	03

- Libraries (for children beneficiary)

There are five (5) libraries within TCLM; one (1) in Graskop, two (2) in Mashishing, two (2) in Sabie and one (1) in Matibidi with one (1) provincial centre in Lydenburg. There is a need to develop mobile libraries in farm areas.

Due to community riots in 2009 the library in Mashishing Township was burned down which affected education for our children, fortunately through assistance from the private companies *XStrata Lydenburg Works* has managed to provide aid by constructing a Multipurpose Centre with library and computer centre that will benefit our Children's in education.

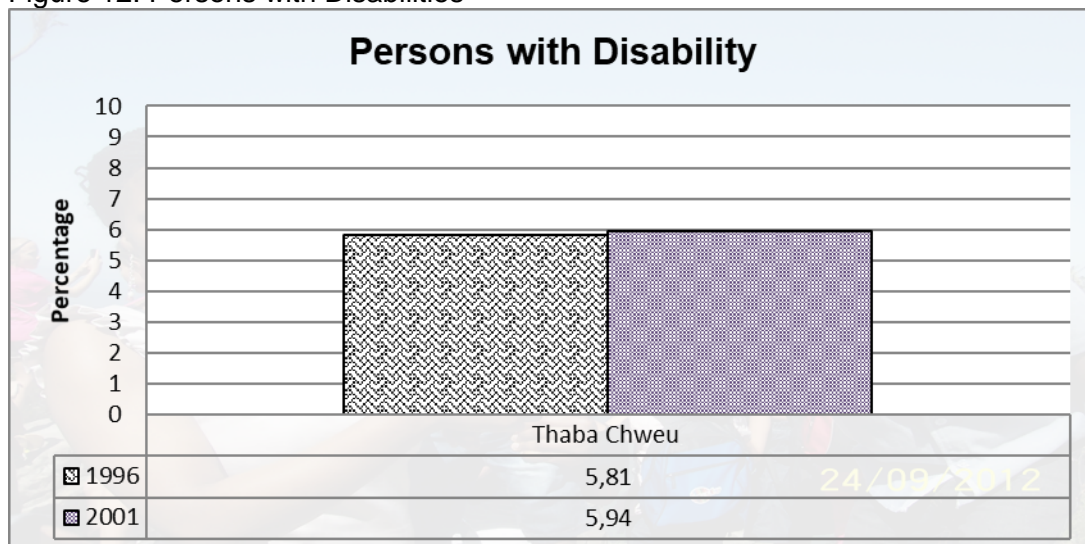

Programmes

- a) Children's Rights training for ECD Educators.
- b) Children's Fun Days
- c) Back to school Campaign
- d) Library week
- e) Donation of School uniforms for orphans
- f) National Children's Day Celebration
- g) Jamboree
- h) Take a child to work
- i) 16 Days of Activism
- j) Child protection Week
- k) Mandela Day Celebration
- l) Career Exhibitions (Annual events)
- m) Substance Abuse Campaigns
- n) Construction of Early Childhood Development Centres
- o) Construction of Drop in Centres
- p) Establishment of Mobile Libraries.

▪ Disability

The South African Constitution recognizes the right of persons with disabilities as equal citizens of the country, and prohibits discrimination on the basis of disability. Yet, persons with disabilities, "the world's largest minority", continue to experience barriers to participation in all aspects of society. The marginalised group within the municipality is more vulnerable to socio-economic realities (See *Unemployment of people with disabilities in figure 8*). There are 12 organizations with people with disabilities which aim to deal directly with issues that affect them.

Figure 12: Persons with Disabilities

Source: Stats SA, 1996 & 2001

TCLM Launched the Disability Forum in 2012 which aims to create platform to persons with disability to raise the challenges and assist each other to overcome them.

Presently TCLM consults with Ehlanzeni District Municipality and Office of Premier under the sub directorate; Persons with Disability. There is only one (1) Special School that cater for children's with

mental disability, the other with different disabilities are not accommodated. There are two (2) Stimulation centres (Mashishing and Moremela) that cater for children's with disabilities. These centres are not user friendly to people with disability.

The Objectives of Thaba Chweu Disability Forum is:

- To highlight challenges being experienced by persons with disabilities in exercising their rights as equal citizens,
- To raise awareness of enabling mechanisms and opportunities that reduce these challenges and enable persons with disabilities to participate as equal citizens in mainstream society,
- To promote awareness of the capabilities and contributions of persons with disabilities as recommended by the United Nations Convention on the Rights of Persons with Disabilities,
- To reflect on progress made in the implementation of policies, programmes and legislation that seek to improve the quality of life of persons with disabilities,
- To develop programme of action for 2014/15 financial year,
- To ensure sustainable livelihoods among disabled people through the formation of cooperative, Small businesses with assistance of LED, which will assist in the decrease of high rate of unemployment that also affect Disabled people,
- To develop Education and Skills development programmes,
- To ensure that Disability Project are catered in the IDP.

Programmes/Projects

- Computer Training (to have employable people with disability),
- Support The Disability Forum,
- Food Gardening Projects
- Skills Development Trainings through FET Colleges.
- Disability Month (November),
- Establishment of Cooperatives
- Donations of Wheelchairs.
- Construction of Stimulation Centres in 3 Units.
- Sign Language Trainings (Municipal Staff and Stakeholders)
- Spring Walk
- Sports Facilities
- Develop Database of All Disabled people

Women

At the level of their participation within the municipality women have an important role to play in articulating their needs, prioritizing programmes and in the evaluation of outcomes.

Programmes

- Establish Women Council
- Women's Month Celebration
- Women in Business Seminar
- Hiv/Aids Workshops
- National Women's Day Celebration
- Food Security Projects
- 16 Days of Activism

Elderly

Elderly people are now who you will one day become. Respecting their wisdom, knowledge and their existence within the Municipality should always be considered. Sometimes we need to remind ourselves of why it is so important to respect our elders for what they have to impart to us that will help ease our journey through life. They should always be respected and treated with dignity.

The Programmes aims to create raise and sustain awareness on issues affecting Elderly people within the Municipality. Particularly participation in municipal planning matters and access to municipal information.

TCLM work hand in hand with Department of Social Services to establish programmes that can cater for our elderly which aims to give them access to municipality to address the issues affecting them. The following are the porgrammes and projects targeted to elderly.

- Sports Activities for the aged
- Food gardening projects
- Hand work projects
- Human Rights Day
- 16 Days of Activism
- Construction of Old Age Centre (Sabie and Matibidi/Leroro)

Gender Equality

The Municipality must promote the protection, development and attainment of gender equality and to make recommendation on any legislation affecting the marginalised in terms of Section 187 of the constitution Act 108 Of 1996..

The Municipality will consult with Commission for Gender Equality, SALGA and Ehlanzeni District Municipality to ensure that Gender issues are implemented to create a society free from gender discrimination.

Every five years Municipal Council change leadership and therefore it is very important to ensure that there is gender balance on leadership positions. There is a need ensure that the municipal council is familiar and understand the roles and relations played by the gender mainstreaming issues.

Programmes

- Mens Summit
- Womens Council
- Cultural/Traditional and Religion Campaigns
- Human Rights Campaigns
- Awareness Campaign against Rape

Challenges

- Staffing in the Transversal unit
- Budget Allocation to implement Transversal programmes and projects
- Lack of sponsorship and political support

HIV/AIDS

Background

HIV/AIDS is serious pandemic that disturb or can reverse all the planned and progress that has been made in our democracy towards building a better life for our people. National and provincial government cannot fight this battle alone. However TCLM together with organisations on the ground, have to provide the type of leadership and direction that will lead to real change in people's attitudes and behaviour. TCLM through its HIV/AIDS programmes engages civil society, sector departments, NGOs/NPOs, as well as schools, churches and so on to make sure that everyone works together to combat the spread of AIDS/HIV and to care for those affected and infected by these pandemic. We cannot tackle this epidemic unless we can break the silence and remove the stigma.

Strategy

Thaba Chweu local municipality has its adopted HIV/AIDS Strategy guiding the rollout programmes of the HIV/AIDS activities. This implementation is informed by the IDP strategic objectives number which states: **Mainstreaming of social advocacy and marginalised groups** under these strategic objectives we are implementing goal 13 of our G14 goals aimed at 2022. TCLM has a 2012-15 HIV/AIDS Strategy which was approved by Council in 2012 (Resolution number A81/2012) which will be reviewed in the financial year 2017/18.

TCLM HIV/AIDS Status quo

36.4% HIV/AIDS prevalence

Vision: Getting to zero

Purpose

- To create the positive response to the HIV / AIDS, TB and STI's through the involvement of every member of society, in order for all efforts to be effective.
- To encourage the efficiency, effectiveness and multi-sectoral approach on all HIV/AIDS, TB and STI's related programs.
- To develop the well- structured co-ordination, facilitation, advocacy on HIV/AIDS, TB and STI's and implementation and planning.

Objectives

- To represent the coordinated approach in fighting the continuous spreading of HIV, mitigating its impact.
- To coordinate, facilitate all HIV/AIDS Programmes and mainstreaming HIV/AIDS

Strategies

Thaba Chweu Local AIDS strategy should be and is informed by the National, Provincial and District HIV/AIDS Strategies in all government policies focusing on the four key NSP Strategy:

- SO1:** Addressing social and structural barriers that increase vulnerability to HIV, STI and TB infection
- SO2:** Preventing new HIV, TB and STI infections
- SO3:** Sustaining health and wellness
- SO4:** „Increasing the protection of human rights and improving access to justice

Table 172: HIV/AIDS Programmes planned for the coming financial years:

PROGRAMME	PROJECT
Local AIDS Councils	<ul style="list-style-type: none"> ▪ Quarterly meetings of the Local AIDS Councils (TCLAC) ▪ Implementation HIV/AIDS Strategy ▪ Mainstreaming HIV/AIDS
Reviewal of HIV/AIDS strategy	<ul style="list-style-type: none"> ▪ Alignment of local HIV/AIDS strategy with National , Provincial and District Strategic plan
Civil Society's	<ul style="list-style-type: none"> ▪ Strengthening Local AIDS Councils ▪ Establishment of outstanding forums
WARD AIDs Councils	<ul style="list-style-type: none"> ▪ Quarterly meetings of WAC's in all 14 Wards ▪ Conduct Ward Base Advocacy (awareness Campaignes
Awareness Campaigns	<ul style="list-style-type: none"> ▪ Conduct HIV/AIDS, TB and SIT's campaigns for LAC's and WAC's ▪ Community dialogues ▪ Educational campaigns, to guard against violations, stigma and discrimination for people living with HIV AIDS. ▪ Robust Treatment campaign (90-90=90 strategy, Test and treat) ▪ Capacity building (Condom demonstration, usage, storage and constant condom usage. ▪ Sensitisation workshops for traditional healers, Faith Base Organisation and Gender based violence etc. ▪ Zazi Campaign, She Conquer, Mayihlasela Izazi, and Boy child, ▪ MMC, ▪ LGBTI's ▪ Care and support for OVC's, Child care jamboree (integrated service provision ▪ community outreach services in all wards ▪ Migration issues ▪ Employee Wellness

The following graph presents the trend and current status in HIV prevalence in TCLM.

Figure 13: HIV prevalence

5.8.1. Executive Mayor's programmes

The Executive Mayor has initiated programmes aimed at addressing problems emanating from consultative meetings of the Imbizos. The executive Mayor in her programme intends to respond some of the issues particularly issues that may partially be covered by the IDP. The

following programmes and projects have been identified by the office of the Executive Mayor to support and ease some challenges faced by TCLM:

- Mayoral Imbizo
- Executive Mayor's Bursary Programme,
- Mayor's Partnership on roads maintenance,
- Mayoral Cup
- Mayoral fellowship
- Further and Education Training College
- Mayor's Miscellaneous

The municipality has done a lot with regard to the Executive Mayor's Outreach programmes and is looking forward to continue assisting needy communities in TCLM.

Speakers Programmes

The speaker has programmes aimed at encouraging ward committees to exercise their roles and responsibilities at ward levels. The municipality is championing Operation Vuka Sisebente known as OVS. This programme is intended for operational management of basic services by government in all wards currently there are 13 of those functional and one with challenges.

6. CHAPTER 6 (Projects)

6.1. Municipal projects

This chapter deals with all IDP projects for the current term of council that should be implemented. These projects are both capital and operational. The tables comprise of municipal funded projects, provincial and national funded projects, parastatal funded projects and unfunded projects. The following tables present specification of each service delivery and development project i.e. addresses community developmental needs, show location, time frame and target indicators for the duration of the MTRF term.

Annexure A: Funded Projects

The projects listed below are projects funded internally and through different grants, it is also important to note that the projects highlighted in Orange are projects which will require an Environmental authorization.
