Council resolves to adopt the Integrated Development Plan as submitted.

That the 11% provided for salary increases for employees is maintained.

That the new rate for property rates be calculated once the valuation roll is complete and received back.

2. Executive Summary

The Municipal Finance Management Act (MFMA) and the related Circulars that have been distributed by the National Treasury require that the Mayor table a three year medium term budget strategy and expenditure framework to the Sakhisizwe Municipal Council, 30 days before the start of the budget year, for the financial year beginning July 1, 2009 and ending 30 June 2010.

The tabled budget is to be taken out to the public for consultation and then with all revisions be brought back to the entire municipal council for approval before the beginning of the new financial year as required in the MFMA. This final budget to be brought back to council will incorporate any of the submissions and changes that are deemed required by the Mayor.

Most of the requirements of the MFMA concerning the budget content and documentation are in place for this budget process and were incorporated into this budget document. Major requirements of the MFMA include:

- 1) The budget must set out 'realistically anticipated revenues' for the year by each revenue source;
- 2) The budget must be generally divided between capital and operating expenditures and each must be set out by 'vote';
- 3) Expenditures can only be funded by 'realistic' revenues; surplus cash carried forward and not committed to any other expenditure or borrowed funds (borrowed funds can only be used to fund capital projects).

There are many other format requirements for the budget that are too numerous to mention here, however, a complete listing can be found in section 17 of the MFMA.

The preparation of this budget document evolved the making of critical policy decisions and key strategies and policy directions. that were given by the Mayoral Committee over the past months. In August of 2008 the Mayoral committee approved a set of assumptions and forecasts that were then used to prepare 'baseline' budgets. These 'baseline' budgets formed the basis for operating budget discussions and these were given to the Managers to review and revise within given guidelines. These revised baseline budgets returned by the Managers then formed the basis for the draft budget that was built upon the key assumptions and decisions.

The budget and financial policies used to develop this budget are focused on making Sakhisizwe financially sustainable in the long run. One of the biggest challenges facing the municipality in the near future is maintaining an operating yearend cash balance to allow for positive operating cash flows and unexpected contingencies. We must not only have sufficient cash available to pay all the creditors that we owe as required by the MFMA but also to allow for a cash reserve to even out sporadic cash flows during the operating year. We have worked diligently toward this goal over the past few years and have finally reached the point where we anticipate beginning the next financial year with enough cash to pay our creditors and still maintain some level of cash reserves.

As presented, the Budget for 2009 - 2010 balances expenditures with revenues and available cash balances as required by the MFMA. In addition, we

anticipate moving toward our goal of maintaining an operating cash reserve of 30 days.

Operating Revenue are anticipated to reach **R82 885 722** (including currently known grants received for operational expenditures).

Operating Expenditure funded from cash carry forwards and operating revenues are proposed at **R58 527 947**.

The **Capital Budget** is funded from a blend of conditional grants, proposed borrowings and cash carried forward from prior years. Capital expenditures for the 2009 – 2010 are **R21 524 000** for a variety of projects and purchases.

In preparing the budget many issues emerged that had to be taken into account. Several assumptions were utilized to produce estimates and forecasts. In addition, many policy decisions were incorporated into this budget document. The following list attempts to give the most significant of these:

Operating Revenues

- **Revenues** are shown on a ‘billed’ (or accrual) basis where applicable. In many cases revenue billed is much higher than cash actually collected on the billing. An offsetting bad debt expense is also included on each billed revenue vote. This expense must be considered in any revenue discussion. Allocations for bad debt include the following amounts:

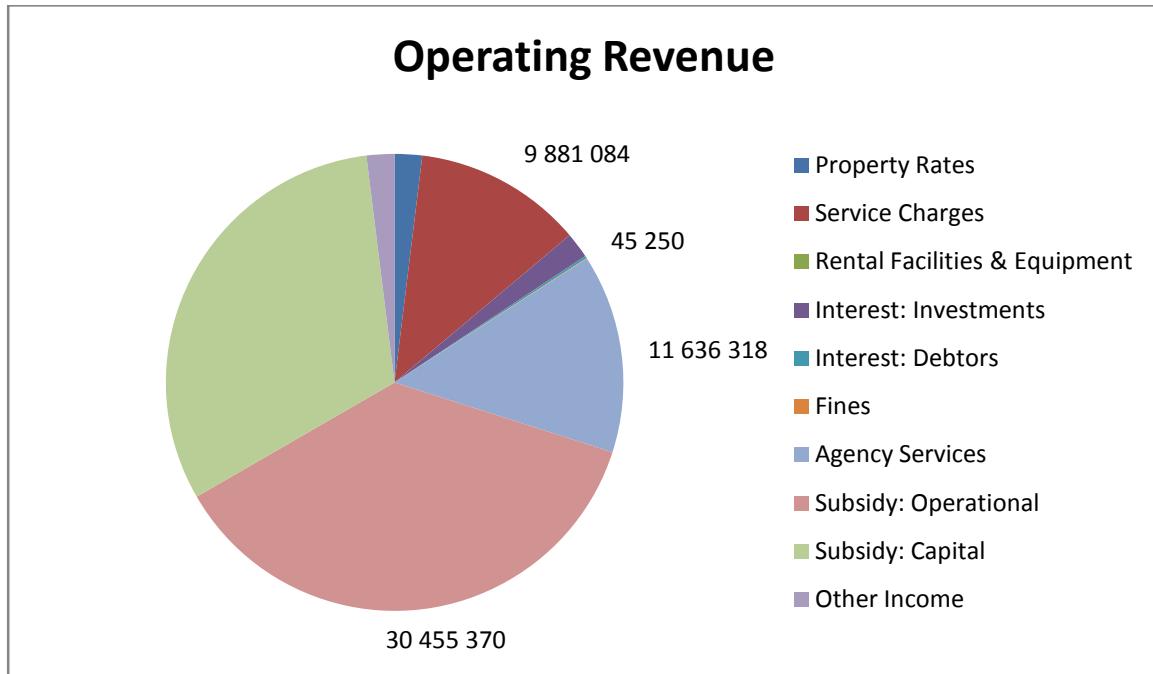

○ Electricity	R 600 000.00
○ Rates	R 700 000.00
○ Refuse Collection	R1 300 000.00
○ Water	R2 500 000.00
○ Sewerage	R1 400 000.00

- **Rates and Tariffs** in most cases contain proposed increases. A detailed listing and explanation of these are included in this document (see page 80 – 89).

○ Electricity	34%
○ Rates	5%
○ Refuse	5%
○ Water & Sewerage	5%

- The **Equitable Share** allocation from National Treasury is R20 754 000 and the contribution towards councillor remuneration is R645 000.00.
- The operating revenue budget for Water and Sewerage from Chris Hani District Municipality is R11 151 318.

HOW THE OPERATING REVENUE BUDGET IS FUNDED

Operating Expenditures

- **Employee salaries** and related expenses are increased by 11% for the financial year 2009 – 2010. Council salaries are also budgeted to increase with the same percentage. All positions are budgeted to be filled for the entire year.
- **Electricity bulk purchases** are anticipated to increase by 25% for the year 2009 – 2010.
- All costs related to our current **Wes Bank Loans** on vehicles are fully funded in this budget. In addition the budget makes provision for the payment for capital acquisitions, including the maintenance of the electricity reticulation and other capital assets.
