SECTION -1. MAYORAL SPEECH

Honourable Speaker, fellow Councillors, officials and everybody present here today, it is indeed a special privilege that I stand here for the first and the last time to make some comments on the IDP and Draft Budget which you are about to consider and finally approve. But allow me Mr Speaker before I even make the comments, to call on Council to join me in silence in paying tribute to the late Cllr. Fose who has since passed on at the beginning of this year. May his soul rest in peace.

Today we are about to approve the fourth Budget during our term in office as this Council. We might differ on many issues, but one thing that we shall all agree on is that, ours was always a bumpy ride. For the past four financial years we had to approve Budgets which did not meet the expectations of our people in relation to service delivery issues. We had to contend with the fact that our revenue base was incomparable to the needs on the ground and the situation still remains the same.

Cash flow challenges have become a permanent feature of our municipality. For us the budget process had become more or less a compliance issue rather than a realistic financial planning process, to guide Council and its administration in both revenue generation and expenditure management in implementing Council's Service Delivery Action Plans. All indications point to the fact that this municipality has been in financial distress since its establishment close to ten years ago.

It therefore remains a miracle as to why up to now Inxuba Yethemba Municipality has survived without any need for provincial government to put it under administration. Fellow Councillors, this speaks volumes about your collective ability and that of our staff to withstand even the worst of situations. If to become a Cllr. were like applying for a job, I would have been the first person to recommend each and every one of you to serve in any Council anywhere in the country. Being Councillor at Inxuba Yethemba during the worst of times indirectly prepared you to serve as a Councillor anywhere in the Republic of South Africa.

Allow me honourable Speaker to briefly highlight some of the key elements of the budget that Council is about to consider.

In line with legislative requirements, communities were consulted before tabling of the Draft Budget at the end of March 2010. This was done in order to obtain proposals and inputs regarding the budget, and also to explain the process in order to

- get a buy-in. Some of the inputs from communities have found expression in this draft budget. After the tabling of the draft budget to Council, it was then taken back again to the communities, this time with an indication of the tariffs.

In an ideal world, the budget process would encompass the estimation of the total expenses needed for service delivery and then the tariffs would be determined in order to generate the necessary income needed to cover the expenses. However, the reality today does not conform to this utopian dream. The reality within which we operate suggests that, we first determine potential income and then adjust expenses in line with the anticipated income.

Challenges:

Due to both ESKOM's extraordinary increases and the limitations placed on the percentage increases in the ESKOM tariffs by NER, the increase on Council's bulk purchase of electricity far exceed the increases which are passed on to the consumer. This has seriously hampered Council's ability to generate income from the most reliable source.

The other reality is that approximately 40% of IYM's properties are located in Lingelihle where ESKOM supplies the electricity. Due to this factor, Council's capacity for debt collection is seriously compromised. In addition to this, improved residential property in our municipal area has a market value which is below R50,000.00. This translates into statistics that indicate 76% of our communities are potentially indigent consumers. All of these factors combined, explain the difficulties we have in maintaining Council's infrastructure that is deteriorating by the day.

On compliance issues, national government has set 2014, as a target during which all municipalities are expected to achieve clean audits with regard to their Annual Financial statements. Whilst we are very much aware that meeting this target is not going to be easy, however we are confident that with the assistance of the Office of the Auditor General, everything will be done to ensure that IYM complies with the vision of the National Government.

Budget 2010/2011

One of the key issues, we must collectively take note of is that, for the first time in so many years, this budget has boldly, consciously and deliberately prioritised expenditure that is directly linked to service delivery. We are very pleased to announce that expenditure on maintenance of infrastructure has been increased by

- R1,2 million compared to the current financial year. This excludes water and sewerage services. The actual breakdown of infrastructure maintenance is as follows:
 1. Sport complex (Pavilion) R30 000
 2. Commonage (Windmills & Pumps) R100 000
 3. Commonage (Fencing & Gates) R100 000
 4. Workshops (Vehicles) R203 369
 5. Buildings R300 000
 6. Electricity Distribution R700 000
 7. Streets & Storm water drainage R1 000 000

In addition to this, a provision has also been made in the operating expenditure for the leasing of new bakkies, to be allocated proportionally to Community services, Technical services and corporate services. No one amongst us can deny the fact that our very old fleet had seriously compromised Council's capacity to deliver on some of its core functions, such as street lights, plumbing and refuse removal. We are confident that this will go a long way in responding to some of the basic needs of our people.

This bold initiative that we have taken is a clear demonstration of our commitment to make this year, a year of Action in line with the clarion call made by the President of Republic of South Africa.

However, we are at the same time keenly aware of the fact that this is not necessarily enough, compared to the enormous needs from communities. But if seen against the background of our constraints, it can be understood as a small step for a man, but a giant leap for human kind.

Conclusion:

Honourable Speaker and Councillors, this was merely meant to highlight some few elements of the budget. Nothing has been exhausted. The main challenge for members of this Council would be to ensure that after the budget has been approved, your responsibility to do political oversight is exercised to the maximum. So as to ensure that what has been provided for in the budget gets implemented.

In closing, let me take this opportunity to thank the Municipal Manager, the CFO his team, members of the Finance Committee, fellow Councillors who took the budget to our communities, but most importantly, the communities who participated during the consultative process.

I thank you.

SECTION -2. CFO Comments and Budget Overview

This year, the approach to the budget differed from that of previous years. Firstly, communities were consulted prior to the tabling of the draft budget at the end of March 2010. This was done in order to obtain proposals and input from the communities regarding the budget and also to explain the budget process to communities in order to ensure "buy-in". The inputs that were attainable, have been included in the budget. After the tabling of the draft budget to Council, the draft budget was then taken back to the communities, this time with an indication of the tariffs.

The compilation of the budget for the past three years has a challenge of such magnitude that when I commence the process, I think that each budget has been the greatest challenge to date. Little did we know three years ago what challenges would still have to be faced!! The budget tabled today has been one of the hardest and most complex budgets to collate in the past eight years.

In an ideal world, the process would encompass the estimation of the total expenses needed for service delivery and then the tariffs would be determined in order to generate the necessary income needed to cover the expenses. Unfortunately the reality today does not meet this utopian dream.

So much pressure is placed on local government with regard to service delivery while the income remains set. On the contrary, the income is low due to a number of external factors which are beyond Council's control. The reality is that Councils first have to determine potential income and then adjust their expenses in line with the anticipated income.

Eskom's extraordinary increases are going to be with us for the next few years. However, Council's ability to generate income is severely hampered by the limitations placed on the tariffs by NER as well as the subsidisation of electricity tariffs for the indigents. Due to the limitations placed on the percentage increases in the Eskom tariffs by NER, the increase on Council's bulk purchases of electricity far exceed the increases which are passed on to the consumer.

- Council's infrastructure is deteriorating by the day. The full impact of this
- deterioration will become clearer after the implementation of GRAP.

IYM's position, in common with most other rural municipalities, is deteriorating due to external factors beyond the control of Council (e.g. infrastructure). Our only hope is that National Government, by means of the Turn Around Plan, will come to the rescue of municipal infrastructure.

IYM is a Karoo municipality that leans heavily on the domestic sector. The reality is that 76% van die improved residential property in IYM has a market value below R50,000.00. This translates into statistics that indicate that 76% of our communities are potential indigent consumers. The other reality is that approximately 40% of IYM's properties are located in Lingelihle where Eskom supplies the electricity. Due to this factor, debt collection is impossible.

The excessive Eskom increases have also resulted in increased levels of theft of electricity in IYM as well as an increased consumer resistance on the other hand.

It can only be hoped that the Sugar Beet Project in the Cradock admin unit will bring about a much needed indirect economic injection for the local communities.

IYM needs to have the necessary policies and measures in place to foster and grow this indirect economic injection where necessary.

IYM, in common with all other municipalities still faces the after effects of the global recession. IYM perhaps feels this even harder and more seriously than most due to our limited income resources to be used for service delivery

On Tuesday 4 March 2010, The National Government announced the implementation of the Local Government Turn Around Strategy (LGTAS). The purpose of this is to provide a long-term and sustainable citizen-centred intervention, which is aimed at turning the tide on service delivery protests by dealing with the backlogs and complaints from citizens, which government agrees are valid in the main.

- Parallel to the implementation of the LGTAS, the department has promised to boost capacity at the same time. This will be done in order to ensure a rapid response to communities that have embarked on, or are about to embark on, protest action, using existing staff.

IYM can only trust that the Minister's vision of "making Local Government work for us, and turn South Africa into a better country to live in" will also materialise for IYM too.

Another Vision of the National Department this year is that by 2014 all the 283 municipalities and 9 provincial departments in South Africa will achieve clean audits with regard to their Annual Financial statements and will be maintaining systems for sustaining quality financial statements and management information.

As a low capacity municipality, IYM is subject to the implementation of GRAP compliant annual financial statement by end August 2010 for the period 2009/2010.

IYM, with the assistance of the Auditor General, will be doing its very best, within its available resources, to comply to the National Government's vision of a clean audit in 2014.

GENERAL VALUATION ROLL:

2010/2011 is the second year that IYM will be levying property rates on the Valuation Roll in terms of the Property Rates Act 6 of 2004.

Up to and including 30/6/2009, IYM still levied rates in terms of the old valuation roll which was administered in terms of an Ordinance governing the old Cape Province which was based upon both land and improvements. The implementation of the new valuation roll has made provision for fair and equitable property valuation methods, thus giving implementation to the intention of the law.

Many properties which have never been valued before were identified during this process and are now being levied.

The challenge which IYM now faces is that as a result of the NER and CHDM, Rates and refuse removal are the only two services over which Council still has control in terms of tariffs. Rates are the larger in amount of the two. Rates make approximately 8% contributions to Council income and Refuse Removal approximately 4%. The low total contribution which these two services make to Council income has resulted in a relatively large increase of the two tariffs as the shortfall which they have to compensate is huge. The fact that the market value of 76% of the improved residential properties is less than R50,000.00, makes Rates en Refuse removal very sensitive in terms of tariff increases.

The position of our pensioners who make up a large portion of our ratepayers is still weak due to the economic downturn. Council has made all possible efforts to accommodate these groups of consumers who live with fixed incomes when determining the tariffs.

The farming community now forms part of the valuation roll. This is also a group that has not only been affected by the economic downturn but is facing unforeseen challenges like the current rift valley fever crisis. When it is taken into account that presently Council does not render any services in the rural areas, Council has taken all possible steps to accommodate them with regard to tariffs. The steps taken by Council in this regard are also in line with those of surrounding municipalities.

CAPITAL BUDGET 2010/2011

The proposed capital budget totals R47.196 million with the main expenditures being R 16.778 million for water, R 16.541 million for Electricity, R 10.237 million for roads. The majority of the projects are funded by means of MIG grant funding. R25.066 million will be administrated by IYM and R16.778 million will be administrated by CHDM. Funds have not yet been secured for the remaining R 5.041 million.

OPERATING EXPENDITURE

The Operating budget for the forthcoming year will total sum R 140.177 million. The major expenditure items are salaries (R59.9 million), general expenses (R20.2 million) and repairs and maintenance (R7.4 million).

- The salary increase results from the 8.48% budgetary provision for salaries.

Our expenditure is focussed on the community but in a manner that attempts to make the best utilisation of our limited resources.

OPERATING INCOME

Income from property rates is budgeted at R10.3 million. This is based on an increase of 10% in income generated from assessment rates.

Service water, sewerage and refuse tariffs will increase by, 6%, 6% and 10% respectively. Electricity tariffs are determined by the NER and a inclining block tariff is to be implemented with increments of 5% (consumption 0 to 50 kwh), 7% (consumption 51 to 350 kwh) and 19% for consumption more than 351 kwh.

FUNDING THE OPERATING BUDGET

As already discussed the Operating budget is funded by the following contributors in order of importance:

1. Electricity
2. Water

As already mentioned it is of great concern that Council has to carry out its Constitutional mandate of service delivery but only has control over 8.8% of its total income.

CONCLUSION

At the outset it was said that this has been a very complex budget. As a result of the approach taken with regard to the budget this year, it has become the most discussed and transparent budget I have encountered.

I should like to share some of the statistics:

- Meetings were held in all the wards and with other stakeholders such as local businesses. The farming community which has become a new stakeholder in IYM's budget processes, was included in the consultative process.

The feedback from the public was extremely useful and some of their inputs have been included in the budget.

Many residents attended the various consultative meetings on the Budget in the two set of meeting both before and after the draft budgets.

No major complaints have been received regarding the management of the public participation process and this bears testament to our customer care efforts. I wish to communicate my gratitude to all the staff involved in the process.

Unfortunately, the final budget tabled before us is not one which will make everyone happy, but in the circumstances this is hardly surprising. However, this budget will, I believe, provide a much-needed buffer against future economic downturns and allow us to take service delivery forward as opposed to sticking our heads in the sand and allowing the poor economy to swamp us. It is a pragmatic, sensible and pro-active budget.

SECTION -3. BUDGET RELATED RESOLUTIONS

Draft budget resolution of Council meeting on the 28th of March 2010

09/57 APPROVAL OF DRAFT BUDGET : 2009 / 2010

RESOLVED

1. THAT, in line with section 16 of the MFMA, the consolidated operating and capital budget as set out in the Annexure 1, 2 and 3 are adopted in principle by Council as follows:
Financial Year

Operating Budget 2009/2010	R133,115,666	Capital Budget R36,006,294
-------------------------------	--------------	-------------------------------
2. THAT Council approves the fees, tariffs and rates in principle effective from the 1July 2009 as per annexure 2 in terms of Section 17(3) and 23 of the MFMA. (Electricity tariffs are subject to determination by NER and water and sewage be CHDM.
3. THAT Council charge interest on arrear municipal accounts at prime rate plus 1% per annum on all accounts outstanding longer than 7 days after the due date in terms of the provincial Gazette 4755 of 26 July 1992 read with section 64(2)(g) of the MFMA of 2003 but that no interest be charges on arrear accounts of registered indigents.
4. THAT it be noted that budgetary provision for a 10% salary increase has been made across the board although the negotiation process has not yet been completed.
5. THAT the subsidy policy remains as presently applicable, i.e.100% subsidy in respect of refuse, sewerage and water availability with a 50 kwh electricity and 6 kilolitre water free for households earning less that R1 500,00 per month.
6. THAT the registration of indigents commences in July 2007 and takes place continuously thereafter.
7. THAT where two persons in a household receive old age pensions, this be treated as a special case and evaluated on merit by a committee comprising the Chairperson : Finance, the CFO and the Municipal Manager.
8. THAT the CFO tables all the amended Finance Policies to the Council Meeting scheduled for 11 June 2009 for approval.

10/41 APPROVAL OF BUDGET : 2010 / 2011

RESOLVED

1. THAT, in line with section 16 of the MFMA, the consolidated operating and capital budget as set out in the Annexure 1, 2 and 3 are adopted in principle by Council as follows:

Financial Year	Operating Budget (OPEX)	Capital Budget (CAPEX)
2010/2011	R140,177,051	R47,196,065

- 2.1 THAT Council approves the fees, tariffs and rates in principle effective from the 1 July 2010 as per annexure B (page 333) in terms of Section 17(3) and 23 of the MFMA. (Electricity tariffs are subject to determination by NER)
- 2.2 THAT the basic charge for residential non-indigent conventional meter users is no longer levied and the rate becomes the same as the kWh rate for the prepaid user.
3. THAT Council charge interest on arrear municipal accounts at prime rate plus 1% per annum on all accounts outstanding longer than 7 days after the due date in terms of the provincial Gazette 4755 of 26 July 1992 read with section 64(2)(g) of the MFMA of 2003 but that no interest be charged on arrear accounts of registered indigents.
4. THAT it be noted that budgetary provision for a salary increase has been made across the board in terms of the Collective Agreement (this includes Section 57 and contract employees).
5. THAT the subsidy policy remains as presently applicable, i.e. 100% subsidy in respect of refuse, sewerage and water availability and rates (all properties with a valuation under R70,000) with a 50 kWh electricity and 6 kilolitre water free for households earning less than R1 500,00 per month. The CFO will investigate this amount and table a report in this regard to the next Finance Committee meeting.
6. THAT all special cases are evaluated on merit by a committee comprising the Chairperson: Finance and the CFO.
7. THAT for the 2010/11 financial book year, the approval of all purchases is subject to the Supply Chain Management policy.
8. THAT the following arrangements be applicable for the delegation of powers for the approval of purchases in terms of the operating budget, subject to the SCM policy :
 - 8.1 Petty Cash Purchases (R1 - R350): A Manager may delegate powers to a Sectional Head who will sign with the SCM Official.

- 8.2 R351 - R30 000 : The Manager must sign or delegate powers to Sectional Heads who will then sign together with the SCM Official.
 - 8.3 Above R30 000 : The Manager together with the CFO and the Municipal Manager must sign for approval of the purchases. No delegation allowed.
 - 8.4 All these delegations, including specimen signatures, must be forwarded to the SCM for audit purposes.
9. THAT all expenditure not included in the operating budget be approved by the Finance Department in advance.
 10. THAT all S&T expenditure for Councillors be approved by the Office of the Mayor.
 11. THAT all S&T expenditure for Officials be approved by the relevant Manager and the Municipal Manager.
 12. THAT all S&T expenditure takes place in the most cost effective manner possible.
 13. THAT all budget control be done on a month to date basis.
 14. THAT Council notes the A1 Budget Reports as attached.

CAPITAL BUDGET 2010/2011 to 2012/2013

	Funding	Project Total	2010/2011	2011/2012	2012/2013
