1. MAYOR' REPORT

2011/12 Budget Speech and the State of the District Address by the Executive Mayor of Capricorn District Municipality, His Worship, Councillor Makgabo Lawrence Mapoulo,

CDM Council Chambers

15 April 2011

Our Speaker, Honourable Mme Nakedi Lekganyane, His and Her worships, Mayors of our local municipalities;

Speakers and Chief Whips of our local municipalities

Honourable Councillors:

Our Honoured Traditional Leaders;

Our Ward Committee members; Municipal Manager, managers and other officials;

Representatives of various government departments, municipalities, Parastatals;

Members of the Business Community;

Members of the academia;

Representatives of Community Based Organisations;

The media;

Distinguished Guests;

Members of the community in the public gallery and those who are listening to various radio stations:

Honourable Madam Speaker, allow me to take this opportunity to convey my sincere, warm and heartfelt greetings to everyone present here today, including all residents of Capricorn District listening to these proceedings out there.

Thobela!

On the 18 May 2011 the people of Capricorn District, like the rest of the country, will be going to the polls to once again, exercise their democratic right and vote in the third local government elections. Their decisive vote and outcome thereof will usher in a new council term to continue delivering on the mandate of meeting the core aspirations of the people in pursuit of a better life.

We are presenting this budget today, in the month of April, during which we celebrate and commemorate not only our freedom but the lives and times of some of the most revered and fallen titans of our liberation struggle. Not forgetting that this month is the month where tragedy befell the nation in our prestigious soccer tournament at Ellispark stadium where over 40 lives were lost.

Madam speaker, our liberation and freedom would not have been possible without the humble yet courageous contributions from titans such as President Oliver Reginald Tambo (commonly known as Cde OR), Isithalwandwe Chris Thembisile Hani and comrade Solomon Mahlangu, and many more, who all passed on during the month of April. We owe our freedom and lives today to amongst many of our heroines and heroes these leaders who gave up their individual and family lives for our right not only to vote, but to lead freely decent living and earnings. Their blood has indeed nourished our freedom, if only we could all lead responsible and accountable lives in honour of their memories.

Madam speaker, I would urge that through the rest of our council work, we commit ourselves in the spirit of these fallen martyrs of our revolution to uplift our people from dehumanizing socio-economic conditions such as poverty, joblessness, lack of proper housing, poor sanitation facilities and other related social ills.

Madame Speaker, although the past decade of local government made significant advances to the course of a better life for all, this new financial year should set new goalposts with a renewed vision to accelerate service delivery in line with the Local Government Strategic Agenda. It should open yet another chapter in our gallant effort to dislodge the stranglehold of poverty and free more of our people out of hunger and diseases. This will lead to ensure that the New Growth Path is indeed achievable.

With that in mind, Honourable Speaker, let me remind this hallowed house that the IDP/Budget we're presenting today is a culmination of community and stakeholder consultations which carries perspectives and aspirations of our people for the District Municipality and other spheres of government to address.

Honourable Speaker, it is noteworthy that this is the last sitting of the current term, which as we all know concludes a hectic and challenging trajectory of development that was traversed to improve the lives of our people in the past five years. Although there is much still to be done to meet the aspirations of our poor people, we got no

doubt that this Council shall stand down with pride as they look back at the progress that the Capricorn District Municipality has made since 2006.

We should therefore acknowledge with pride the labour and sweat of most councillors who worked together with our communities and other partners in services delivery, to change our people's daily encounter with poverty for the better.

Madam Speaker, let us however remember that the long and hard journey has only begun, for when the electorate, our people go to the polls in a few weeks to give us yet another mandate, they will do so with hope that we are going to work hard to change their lives for the better - free of abject poverty, disease and unemployment.

Given that we will be commencing with a new term, we have decided to use the 2011/12 IDP and Budget to identify and prioritize key service delivery programmes and implement them to ensure:

- access to clean and portable water to all by 2014
- access to adequate sanitation by 2014
- access to electricity by 2012
- tarring of 210km of district roads by 2011
- 6% growth rate of the district economy and creation of 8 000 sustainable jobs per annum
- halving poverty by 2014
- halving HIV and AIDS infections by 2011
- provision of disaster, emergency and municipal health services, amongst many other priorities.

Budget Statement 2011/12

Honourable Speaker, in compliance with the Municipal Finance Management Act and relevant Treasury budget regulations, we have tabled to Council a total budget of R 774 876 666 million for the financial year 2011/12. This budget is comprised of R 270 921 075 million in capital budget and R 503 955 591 million of operating budget. It worthwhile to state that the R 503 million includes R 431 830 222 of income budgeted and R72m of depreciation. This budget is part of a R 2.1 billion budget that is projected for the Medium Term Expenditure Framework (MTREF) period ending in 2013/14.

This budget also represents a 16.8% increase from last year's budget of R601 million (after adjustment budget).

This budget will address the service delivery mandate that the new council will carry in line with the six Key Strategic Thrusts or KPA's of local government including:

Institutional Transformation and Organisational Development,

- Basic Services and Infrastructure Delivery,
- Spatial Analysis and Rationale
- Local Economic Development (LED),
- Good Governance and Public Participation,
- Municipal Financial Management and Viability;

All which we will now go into in greater detail:

INSTITUTIONAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT

Madam Speaker, the Capricorn District Municipality has always been a venerated institution with supreme culture of stability and dynamic administration which has so far grown in leaps and bounds to an organisation that currently boasts an establishment of 522 posts, 60% of which posts have been filled. Senior management team is also well structured - Seven (7) out of the eight (8) Section 57 managers have been appointed and the post of the Municipal Manager will be filled shortly. Of major concern though is the level of representation of women at management level, a matter that will require attention in the new term of Council.

We are making significant progress in ensuring that our district municipality is equipped with qualified, competent and dedicated personnel at the technical and strategic level of the administration. We cannot afford to make the mistakes of employing people based on reasons other than qualification, competence and passion to serve our people with excellence.

Our skills development programme have catered for councillors, officials and traditional leaders in town planning and geographic information systems (GIS). Even more urgent will be the need to develop HR Development Strategy in order to build an administration of staff with the capability to discharge their responsibilities and meet the demands and dynamics of service delivery. Also very important is that the strategic placement of staff responsible for water services and environmental health services should come to finality.

We are therefore setting aside, for the 2011/12 financial year, R17,3 million for corporate services to amongst others improve our corporate support systems infrastructure. This will aid in our effort to make Capricorn District a responsive and caring organization.

In addition, an amount of R8,760 million is put aside for operational support systems, human resources development as well as operations and maintenance.

BASIC SERVICE DELIVERY

In line with the Millennium Development targets, National and Provincial mandates in particular, the New Growth Path, the Limpopo Employment, Growth and Development Strategy, as well as the Local Government Strategic Agenda, the key priorities of the ANC Manifesto (i.e. the ruling party), our IDP, the District's Municipal Infrastructure Investment Plan and other policy frameworks, we are happy to report that we remain on course to meet our targets and respond to the needs of our people.

Water Supply

Madam Speaker, with regard to water, the Capricorn District Municipality has over the years moved with speed to expedite the provision of water to fight off backlogs that were long inherited from the apartheid regime. To this end, we have thus increased access to water to 87% of the District population.

This we have achieved despite challenges of over-reliance on ground water sources and the growing demand for household water connection to the reticulation network. We also made significant advances to balance the construction of new water projects with maintenance of water schemes' infrastructure, a move which goes a long way in clearing off the remaining water backlog of 13%.

Madame Speaker, it is a universal imperative to provide free basic water to all households that are classified as indigent. This we do through our indigent policies and Free Basic Services packages to ensure that poor households are not excluded from accessing clean water because of their poor socio-economic status.

We also are steaming ahead with our continued efforts to perform water quality tests to ensure that all households receive clean drinkable water. Plans are at an advanced stage to establish our district's own water quality laboratory in Mankweng (within and in partnership with the University of Limpopo) with a view to ensure testing and therefore purification of our drinking water in compliance with the drinking water quality Blue Drop standard.

For the 2011/12 financial year, we are allocating a total of R158.7 million for water supply to communities. In addition, we are also setting aside a total of R94 million for Operations and Maintenance of water service while a total of R4 million will be put aside for water quality operations.

Sanitation

Madam Speaker, although with regard to sanitation 51% of the population has access, we acknowledge that much still needs to be done to provide our people with decent sanitation in order to restore their dignity. Since the District Municipality requires over R100 million to clear off the 49% backlog, we are making sanitation a priority in this financial year.

We are setting aside R 31,3 million towards sanitation - part of which is to be used for VIP toilets in Blouberg, Molemole, Aganang, Lepelle-Nkumpi, as well as waste water treatment work in Mogwadi, Molemole municipality.

Electricity

As the new council term commences, the Capricorn District Municipality, together with our local municipalities and Eskom, will continue to work in partnership to ensure that every household is connected to electricity by the end of 2012. In the last financial year, we managed to electrify 4 271 households, thus increasing access to electricity to 78% of the households in Capricorn District.

The district municipality also provides Free Basic Electricity to widen the distribution network and benefit more of our indigent households and transform their livelihoods. And we are happy that 77% households receive free basic electricity every month; and as with water, we are aiming to increase this number every year.

In this new financial year, we are allocating R13,144 million for electrification and hopefully this allocation will go a long way in reducing the 22% backlog and help us attain the Millennium Development Goal of ensuring 100% access to electricity by 2012.

Roads infrastructure and Public Transport

Madam Speaker, the district municipality has and will continue to do its best in improving the condition of our roads by widening the tarred road network especially in outlying rural areas where roads are not usable and safe. This we do by transforming the gravel roads thus increasing their lifespan. However, this has proved a very expensive responsibility in the past and going forward it will be pursued in collaboration with the Department of Roads and Transport as well as Roads Agency Limpopo.

It is for this reason that the district municipality managed to tar 21% (281 km) of the district road network. We are therefore putting aside R 17.7 million to complete other outstanding district roads such as Mamaolo-to-Seleteng road in Lepelle-Nkumpi.

We will also engage in a programme to plan for rural public transport infrastructure, implementation of our various public transport strategies including capacity building of our taxi operators, all to a total cost of R 2,9 million.

Environmental Management

We are making our bit as a district municipality to protect the environment from human neglect and/or ignorance and other environmental crimes. It is for this reason that we participated in the Greening Project which, as in the past, sought to urge communities to plant as many trees as possible in order to green the environment and contribute to the reduction of carbon footprints and resultant climate change, a phenomenon which threatens our being and social dwellings. Climate change brings with natural disasters, and as we have seen with the people of Japan, no South African would wish to face such experiences. Madam Speaker, while on this point, please let's again jointly express our heartfelt condolences to the people of Japan for their recent loss of lives and belongings.

Therefore we should work hard to continue educating our communities on issues of caring for our environment as well as our officials and community leaders.

We shall also continue with our waste management work by completing the construction of landfill sites in Molemole, Blouberg and Lepelle-Nkumpi and thereafter Aganang. We are therefore allocating, for the 2011/12 financial year, R21,3 million to complete the construction of land fill sites.

In addition, we allocating R8,6 million to implement programmes to monitor air quality within our district, environmental training, running of landfill sites, launch a programme to clean our cemeteries and community surroundings through a community-based waste collection model.

Sports, arts and culture

Madam Speaker, there is no doubt that the FIFA 2010 Soccer World Cup created impetus for development of sport in the district. We are steaming ahead with programmes to nurture passion, talents, fun and excitement that our communities have in sport.

On completion of the upgrading of the four sporting facilities as commenced in the current financial year, we should press ahead with our sport development initiatives bearing in mind the diversity of codes and our communities. For the 2011/12 financial year, we are therefore allocating R2,9 million for sporting and cultural programmes. In addition, a bulk chunk of the funds will be used for refurbishment of Mamaolo community hall, Komaneng Hall, Ben Serala facility, Molemole community hall and finalization of the district sports academy.

With regard to arts and culture, Capricorn is a venerated cultural capital that is rich in varied cultural heritage and generous African pride. And we therefore should provide the much needed leadership and continue to forge partnerships with key role players to support the development of arts and culture in the district.

Emergency and Disaster Management

Madam Speaker, although our emergency and disaster management centres have got reasonable capacity, we know there is a lot still to done to improve on our preparedness, risk assessment, response, mitigation, recovery, rehabilitation and post disaster development.

We have over the years made advances to consolidate our strength through purchase of fire rescue vehicles and further that the planning phase for the construction of a fire station in Aganang has been completed and construction will begin in the near future. And for the 2011/12 financial year, we are allocating R1,5 million to consolidate our response capacity. In addition, we putting just about a R1 million for our operational processes including training and sourcing of relieve material.

SPATIAL ANALYSIS AND RATIONALE

Madam Speaker, our district comes from a history where development was determined through discriminatory policies which isolated and excluded many of our people to outlying rural areas from the main economic development centres. This practice distorted the district spatial pattern and continue to subject many of our communities to high levels of poverty today; making it difficult and complex for us to plan for land usage, growth and facilitate economic development and sustainable human settlement.

We have however managed to align the objects of our Spatial Development Framework (SDF) with the IDP in order to facilitate sound economic development and future human settlement opportunities. However, the 41% of the district land that is subjected to land claims is posing a challenge as it inhibits proper planning for land use and infrastructure investment. This is despite our municipal boundaries having been re-configured and re-mapped for the coming municipal elections.

Going forward, we are allocating R1,8 million towards implementation of the SDF, upgrading of our Geographic Information System. This will position us to be a planning theatre that will speedily shape the perfect spatial pattern for development to flourish.

SOCIAL TRANSFORMATION

Special Focus

The district municipality has forged progressive partnerships with key role players in strategic development sectors with intent to transform the lives of special groupings through high-impact advocacy and empowerment initiatives. We have invested in socio-economic development programmes to dispense adequate support for youth, women, people with disability and the elderly; and to advance moral rebirth and alley all stereotypes on gender equality.

We are working together with youth – both organised and non-organised - to provide conditions under which all young people can be empowered and make use of their abilities to harness prosperity. This will free many of them from all social ills such as crime, alcohol/ substance abuse, teenage pregnancies, HIV/Aids and many others that inhibit their development.

Going forward, we are allocating R1,8 million towards Special Focus to continue with programmes aimed at addressing empowerment of special groupings and creating an institutional framework that will facilitate the effective implementation of our social responsibility programmes.

HIV and AIDS

Madam Speaker, HIV/Aids has somehow found a permanent home in within our families and the district municipality shall never rest until the health of our communities are free of the scourge of this pandemic.

During the year under review, we went all out to strengthen our efforts of fighting the infection and prevalence rates through HCT campaigns. This we did in partnership with many affected partners who equally played a role in advocating volunteerism to care for the infected and affected. Of recent late, we managed to launch Local Aids Councils in all local municipalities; and we are confident these councils will provide necessary institutional mechanisms for our response to HIV/Aids and help fight the current 21% prevalence rate.

For the financial year 2011/12 we are setting aside R1 million to continue with the implementation of this Plan. More importantly, we are working with the Department of Health and Social Development to support the national action to facilitate awareness, education and prevention by encouraging our population to get tested and know their status. We will also be building capacity of our AIDS Councils to provide the much needed leadership to mount a concerted fight against HIV at individual, family, community and governance level. Hopefully this way we can one

day look back and thank ourselves for taking responsibility to defend our sexuality and lives.

LOCAL ECONOMIC DEVELOPMENT

Madam Speaker, since the ruling party's announcement that the 2011/12 is a year of job creation, the district municipality, in the true spirit and objects of the New Growth Path, the Limpopo Employment Growth and Development Strategy, have identified areas or sectors where employment creation is possible with a clear intent to fight poverty and unemployment. We are therefore placing decent work at the heart of our service delivery initiatives and this will include measures such as skills enhancement, capacity building and small enterprise development.

Taking from the New Growth Path and the provincial plan, as a district our approach will focus on investment promotion for all the sectors, infrastructure development, technical support services to SMME's and cooperatives as well as skills development. This will help us to propel a conducive environment for economic growth and development

The district municipality has therefore identified agriculture and community works programmes as key avenues that can facilitate labour-absorbing activities. And we are pleased to report that we have already managed to create over 50 400 man-day jobs through community works programme.

Madam Speaker, as a District we remain concerned with an unemployment rate of 27%, and it is with this trend that we continue with our database of unemployed graduates which, as we know, serves as a skills labour pool that facilitates skills absorption in order to reduce unemployment. We have therefore partnered with Wits Business School to empower these graduates with entrepreneurial skills so that they too can become a generation of job creators instead of job hunters.

We also trained 11 tourism ambassadors, 300 informal traders as well as 50 tourism SMME's. We have also hosted a successful Investor Conference to showcase investment opportunities that are inherent and available in Capricorn. The district also undertook an outward trade and investment mission to Indonesia to attract investment particularly in the agriculture, agro-processing and manufacturing industries especially that Capricorn District is the 3rd largest contributor (22.4% GDP) to the Limpopo economy.

We are confident that the mission set the tone for economic co-operation between Capricorn and Indonesia, and other spin-offs such as academic exchange programmes, internship programmes for small farmers and sponsorships for SMME training and support are in the pipeline. We look forward to other potential trade missions in the pipeline to continue with our investment promotion initiatives.

We have completed the development of District Tourism Growth Strategy and a business plan for the long-awaited Capricorn District Economic Agency (CEDA) that will hopefully allow us greater capacity to establish linkages and synergies between existing SMME's and investment promotion initiatives.

And for this financial year, we are allocating R3,5 million for Local Economic Development. Part of this allocation will be used for investment promotion, skills development, tourism promotion and support, SMME development and support.

More importantly we will be taking our willing communities back to the ploughing fields come September 2011. I have agreed with our Traditional leaders that land will be made available for this programme and ours will be to avail tractors and seeds to ensure this project takes off.

MUNICIPAL FINANCE MANAGEMENT AND VIABILITY

Revenue Management

Madam Speaker, the district municipality is progressing well in looking for alternative sustained sources of revenue other than grants and we have identified fire fighting services as a possible sustainable source. Though we still have to finalize our bylaws, consultations and tariff setting, we are confident that it will boost our cost recovery mechanism, reduce reliance on grants and improve our budget growth. We will also be commencing or maximizing with revenue generation in the area of water services where much work has been done.

Financial Management and Audit

We are also concerned with the repeated instances of oversights in the area of compliance with the MFMA and treasury regulations which, on an annual basis, result in negative audit opinions. We know financial management is a challenging thematic area that needs effective independent oversight measures. We have therefore appointed the inaugural Municipal Public Accounts Committee (MPAC), to complement the Audit Committee, and hope it will boost our internal controls, risk oversight, financial reporting and compliance to propel us towards Government's 2014 Vision of a Clean Audit.

Madam Speaker, our council has made thorough consultations/representation with the National Treasury, Office of the Auditor General, SALGA and the Department of Local Government and Housing to pay special attention to the best way of cracking the correct interpretation of RSC replacement grant position and its resultant implications on the municipal grading and the implementation of upper limits.

We are also taking a remedial approach to improve financial management systems particularly compliance to supply chain and asset management. We have carved a

Financial Plan to this course that will hopefully indicate multi-year budget, sources of revenue and cost recovery plan.

Moving forward Madam Speaker, we are allocating, for the next financial year, R4.3million, part which will be used for asset management, employees benefits valuation, capacity building and systems integration.

GOOD GOVERNANCE AND PUBLIC PARTICIPATION

Madame Speaker, our district municipality enters the new term with a well defined public participation model that puts people at the centre of development. Our engagements with our communities and other key stakeholders speak volumes about how people want their government to be. We are working tirelessly to hone our systems and give them timely feedback throughout the service delivery planning cycle.

This afternoon, Madam Speaker, I want mainly to challenge our partners to join us in reshaping our approach to governance in Capricorn District. It is our strong view that all government plans and/or programmes should be informed by people's needs and input. That is, we should end the practice of some officials who put in place plans for communities without their concern nor that of municipalities or even ward committees/councillors. We together with our communities should decide what projects/programmes, where and when should be implemented. Key to this is that our planning, implementation, monitoring and evaluation as well as reporting should be coordinated from some central point. This way we shall be bringing reality to the concept of cooperative governance and intergovernmental relations as anticipated in our constitution, therefore ensuring integrated planning and service delivery.

Please let's accept there are many flaws in our current approach and therefore take time and put our energies going forward to correct these flaws. We cannot afford silo working anymore in Capricorn for this set us against our communities. Some projects are completed without key basic services input therefore compromising the socio-economic rights of our people. Our main legislative function as a district is to coordinate and support service delivery, therefore placing the burden on us to ensure our people receive comprehensive services that impacts positively on their quality of life. Anything less is an indication of failure on our part. We therefore plead with everyone to respect us and engage us on any proposals for development in Capricorn.

We intend to mobilise our local municipalities, the sector departments and Stateowned enterprises to join us in reorganising the district into a concerted planning theatre that is inclusive of all their plans and aspirations. This we do to wish away the tendency of indirect solitary development that precludes our multi-sectoral cooperative governance.

We hope to see every sphere of government and affected sector coming on board to play a role in working together to turn Capricorn District into a nerve centre of integrated planning coordination. In essence, this will boost critical project management capacity; improve service delivery in line with planned outputs, budgets and time-frames. And the District Planning Forum, as a convenor and organiser, is making this happen in deepening stakeholder participation and oversight in the implementation of our Integrated Development Programme.

To this effect, going forward, we therefore have to meet on a quarterly basis to continue with our future planning efforts while monitoring services delivery through reporting by all stakeholders.

Madam Speaker, our anti-corruption strategies are still intact and we are determined to change our people's perception of local government for the better by involving them in the fight against corruption. We are still also appealing to everyone of us to report any suspicion of fraud and misdemeanour. We shall continue to show no mercy nor grace to those who prove to have bonds with corruption, impropriety, financial misconduct and deceit. We shall however continue to pray for them if they believe in redemption.

To continue on this path, for the 2011/12 financial year, we are allocating R8.2million toward good governance and public participation.

Conclusion

Madam Speaker, our district municipality takes honour to acknowledge and celebrate achievements of outstanding personalities of our district. We take this opportunity to congratulate our own Ms Bokang Montjane for being crowned Miss South Africa, as well as Ms Rose Mantsho for having been crowned Miss Mamelodi Sundowns 2011. Indeed Capricorn is a home of a blend of beauty and brains!

Madam Speaker, as we tap into the new council term, we wish to take this opportunity to thank everybody in our society for the commitment they have shown in shaping governance and service delivery initiatives.

We also take a bow to thank Maaparankwe a rena ka moka for your excellence leadership, willingness and interest in the affairs of the municipality. We know you do it in the interest of your communities at large. We hope this joint relationship can continue into the new council term as we continue with a common vision to serve our people.

We also thank all Mayors in our local municipalities for your sustained support and cooperation, ward councillors and ward committees, for working cooperatively to represent concerns and aspirations of our communities at district level. As we begin into the new term, our hope is that you shall continue to work together in providing requisite leadership to restore public confidence and trust in local government.

We also give thanks to every other stakeholder for the devotion shown in shaping the life of our IDP; and we also extend tributes to our Members of the Mayoral Committee and Councillors for your active leadership. As we are nearing the end of this second council term, we are humbled by your outstanding leadership and dedication to the course of a better life for all. We thank you also for marching uninterruptedly to the finishing line, in the midst of uncertainties that came with political dynamics. Indeed you have left indelible marks in the course of making difference in the lives of your people.

In addition, I want to acknowledge and appreciate the ANC, the ruling party, for its ever-present direction and support. We wish to also take this opportunity to thank the municipal administration, inclusive of the management and staff for all the hard work and passion expended in putting together this IDP/Budget.

Madam Speaker, I therefore submit to you and the house, for consideration and approval, this, the People's Integrated Development Plan and Budget for the 2011/12 financial year.

Re Šoma le Setšhaba!

Ke a leboga! Baie dankie! I thank you !!!

3. EXECUTIVE SUMMARY

3.1 INTRODUCTION

The 2011/12 medium term budget was developed within the municipality budget framework, municipal budget and reporting frameworks and treasury guidelines. A total of **R774 876 666** for 2011/12 medium term is proposed comprising of **R503 955 591** for operating budget and **R270 921 075** for capital budget.

The municipality has experienced a positive budget growth of 16.8% compared to the 2010/11 financial year. The 85.6% of the budget funding is based on grants and subsidies provided for by the national government. The grants are utilised to fund both operating and capital expenditure. The Municipality will realise operating deficit over the multi-year period. The deficit has resulted from the implementation of GRAP 17, wherein water related assets were recognised as a result of transfer and assets constructed through grants. The deficit will be funded through accumulated surplus as the assets depreciate in accordance to their useful life.

The budget was prepared in line with the National, provincial and district priorities to ensure that services are planned according to planning guidelines.

BUDGET	2011/12	2012/13	2013/14
	BUDGET	BUDGET	BUDGET
Operating revenue budget	R 431 830 222	R 442 558 410	R 471 434 410
Operating expenditure budget	R 503 955 591	R 514 053 060	R 548 097 225
Operating deficit	R 72 125 369	R 71 495 123	R 76 662 815
Capital budget	R 270 921 075	R 274 782 320	R 283 368 445

TOTAL BUDGET R 774 876 666 R 788 835 980 R 831 465 670

3.2. DEMOGRAPHICS

The municipality has five local municipalities namely Polokwane, Aganang, Blouberg, Molemole and Lepelle-Nkumpi. The district is largely made up of rural areas with a lot of infrastructural backlog.

Total population of the district is estimated at 1 243 167 with household of 285 565 with fifty five percent (55%) of economic population unemployed and 15% who did not attend school.

3.3. PAST PERFOMANCE

Capricorn District Municipality has significantly reduced its backlog on basic services provision. We have reduced our infrastructure backlog to 12.3% for water, 50.70% for sanitation (RDP level), 13.6% for electricity and 88.23% for roads.

The municipality has spent a total of R 671m on infrastructure projects from 2007/08 to 2009/10 financial year. We had further budgeted R 203m on infrastructure projects such as water, electricity, roads, sanitations and waste management for the 2010/11 financial year. Our level of spending on infrastructure is confirmed through the majority of households in the district having access to water and electricity.

Our strategic objectives for the medium term are as follows:

Water

- ✓ By 2014, 100% of the citizens of the district will have affordable, clean and portable water according to RDP standard
- ✓ To increase access to free basic water services by 10% per year
- ✓ To provide clean and safe drinking water according to SANS 241

Sanitation

✓ To provide sanitation service to 57% of the population by 2013/14

Electricity

- By 2013, all people in the district will have access to electricity according to set standards
- 13% of backlog on electricity within the district

Roads

- ✓ To tar 4% (100km) of the district roads by 2012
- ✓ To improve access to sports facilities to 80% by 2012

3.4. FINANCIAL PERFOMANCE (2009/10 AND 2010/11)

The municipality in the previous financial year have improved in terms of budget spending, hence alternative source of revenue or funding models needs to be exploited in order to realise the millennium goals. The increased spending is attributed to utilisation of our reserve funds.

Budget

Our budget was funded through grants and reserves. The impact of 2010/11 budget funding resulted in the municipality utilising available reserves. We are currently water service authority in four municipality's areas except Polokwane. The water business is currently not sustainable as it is funded from grants only.

3.5 BUDGET SUMMARY 2011/12 MTREF

3.5.1. Operating Budget

The operating budget increased by 13% from R 380.6m to R431.8m in the 2010/11 and 2011/12 financial years respectively. The budget increased in the 2010/11 budget compared to the 2011/12 financial year. The budgetary constraints realised in the 2011/12 medium term budget is due to high dependency on grant funding.

The municipality is currently the water services authority with four local municipalities operating the water business as water services provider. We have budgeted in the current year for revenue raising strategies, development and enforcement of bylaws and improving our billing systems. The projects are aimed at increasing the revenue of the district.

3.5.2. Capital Budget

Our capital budget spending is projected at around R 829m over the next three years. The 2011/12 budget realised an increase. The 2009/10 and 2010/11 financial years realised a huge amount of cash injected in the capital budget. The municipality utilised its surplus cash for the projects. The 2011/12 financial year capital budget was mainly funded by grants.

3.5.3. Budget Analysis

Personnel cost total 40.4% of the operating budget. Personnel costs increased by 12% in 2011/12 financial year. Bulk water purchases totalled 10% of the operating budget and 2.8% was budgeted for repairs and maintenance.

The municipality has set aside 10% of the 2011/12 operating budget on contracted services and general expenses whereas 9% is budgeted for operating projects.

3.5.4. Capital Budget outlook and Challenges

Our capital budget realised a positive growth in the 2011/12 financial year. The municipality will spent a total of R 829m for MTREF on infrastructure assets, 62.2% of our budget on water infrastructure, 11.6% on sanitation programmes, 7.8% of landfill sites and environmental projects and 11.4% on electricity and roads.

3.5.4.1. Water

A total of R158.7m was set aside for water infrastructure projects, this budget constitute 58.6% of the total 2011/12 capital budget. A further R9.8m is budgeted for water quality programmes together with securing and electrifying our boreholes.

Although the municipality is spending a lot of its budget on water, there are serious challenges relating to water in the district:

- ✓ The district is water scarce, as it does not have many primary sources of water
- √ 80% of the population is dependent on ground water. The capacity of boreholes is compromised as the ground water is drying out and engines are being stolen.
- ✓ The challenges has a huge implication on the medium term budget .The
 municipality budget is planned to eradicate the remaining 12.3% backlog over
 the medium term.

Blue Drop Performance

The Municipality started to participate on the Annual Blue Drop Assessment in 2009. The table below summarises the previous Blue Drop score performance:

Year of Assessment	Blue Drop Score
2009	45 %
2010	55,88 %
2011	Results will be released on June 2011 during the
	Drinking Water Quality Conference

Challenges in Blue Drop Performance

- ✓ Training of process controllers (operators) at treatment works.
- ✓ Water Sampling Training Water Quality officials for the past 12 months.
- ✓ Unavailability of funds to implement Water Safety Plans.
- ✓ Stand alone boreholes supply in villages which don't qualify for Blue Drop
 Assessment.
- ✓ Salty groundwater sources which are not complying with SANS 241 (South African National Standards).
- ✓ Lack of annual process audit of treatment works for process optimization purposes.

Interventions to satisfy Blue Drop requirements

✓ Mahube Training and Development cc appointed by DWA together with Local Government & Housing to use LGSETA funds to train 20 Process Controllers within CDM.

- ✓ Budgeted R 1 000 0000.00 requested for implementation safety plans for the District.
- ✓ Budgeted for R 200 000.00 to conduct Water Treatment Works Assessment for audit purposes.
- ✓ Budgeted for Inline Disinfection to ensure safety of potable water provided to consumers.
- ✓ Discussion with IKM will be initiated to request provision on the website to publish Drinking Water Quality Status on six (6) months basis.

3.5.4.2. SANITATION

A total of R99.3m is set aside for the medium term for sanitation projects. The sanitation backlog is currently the largest in the district. The municipality requires a huge amount of money to clear the 50.70% sanitation backlog

Green Drop Performance

- ✓ Green Drop Assessment was conducted on November/ December 2010 for the following Wastewater Treatment Works (WWTW):
 - Lebowakgomo WWTW
 - Senwabarwana WWTW.
 - Alldays WWTW
- ✓ Assessment outcome for the above WWTW from Department of Water Affairs will be released on June 2011 during the WISA Municipal Drinking Water Quality Conference.

<u>References</u>

- 1. Must reconcile with Budgeted Cash Flows
- 2. For example: VAT, taxation
- 3. Council approval for policy required include sufficient working capital (e.g. allowing for a % of current debtors > 90 days as uncollectable)
- 4. For example: sinking fund requirements for borrowing
- 5. Council approval required for each reserve created and basis of cash backing of reserves

Example supporting calculations only below (municipalities to adjust to suit their circumstances)

6. ANNUAL BUDGET CHARTS

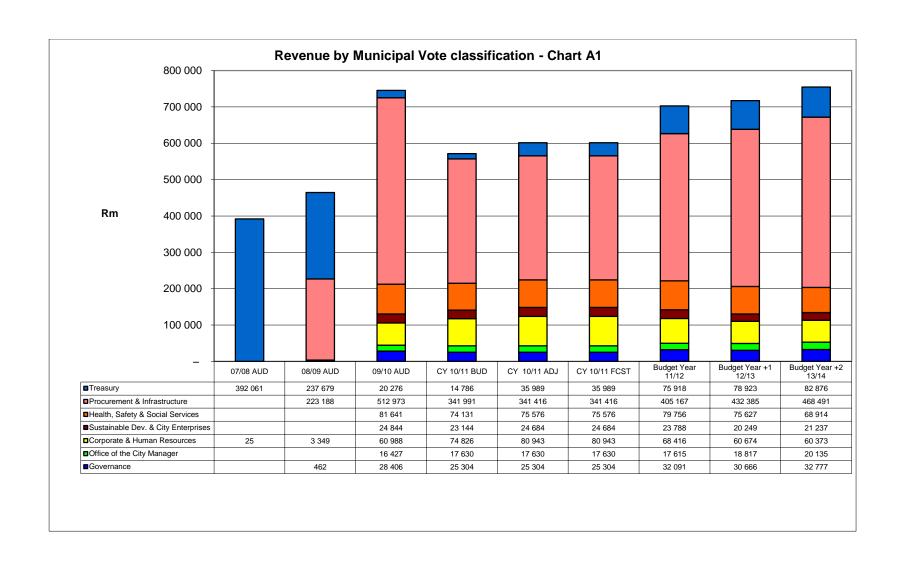

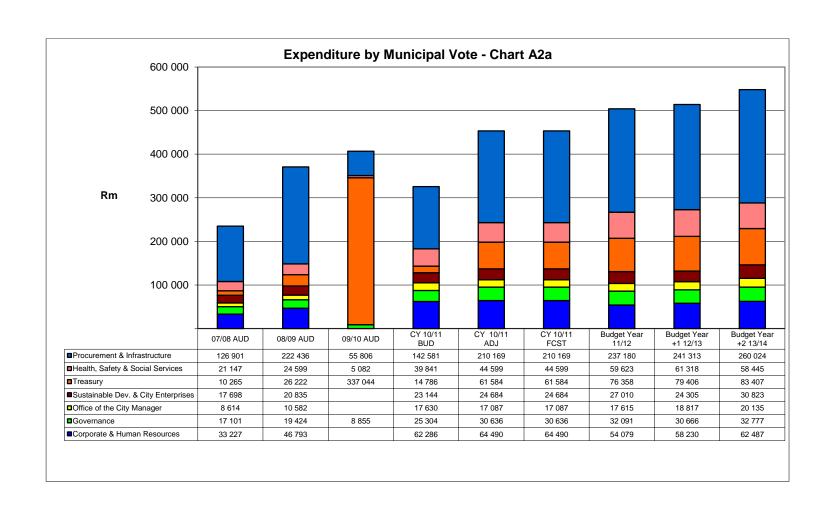

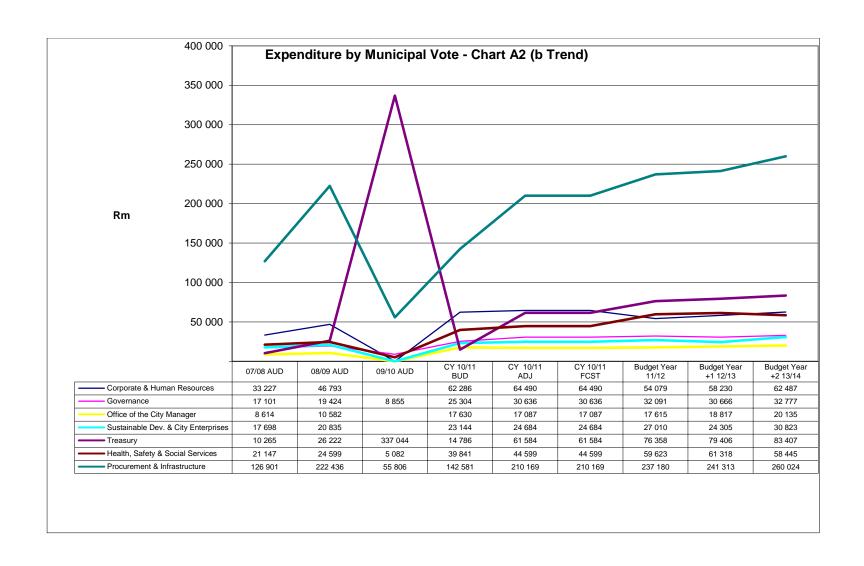

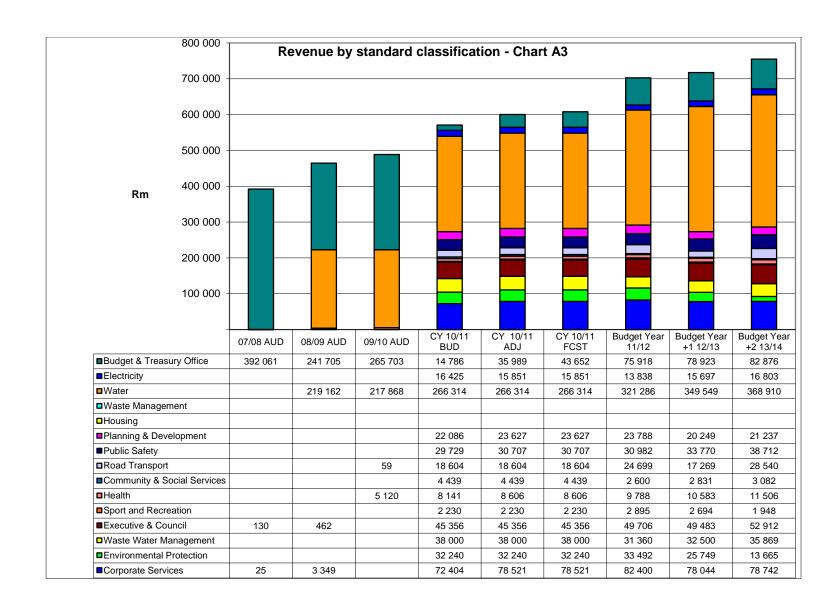

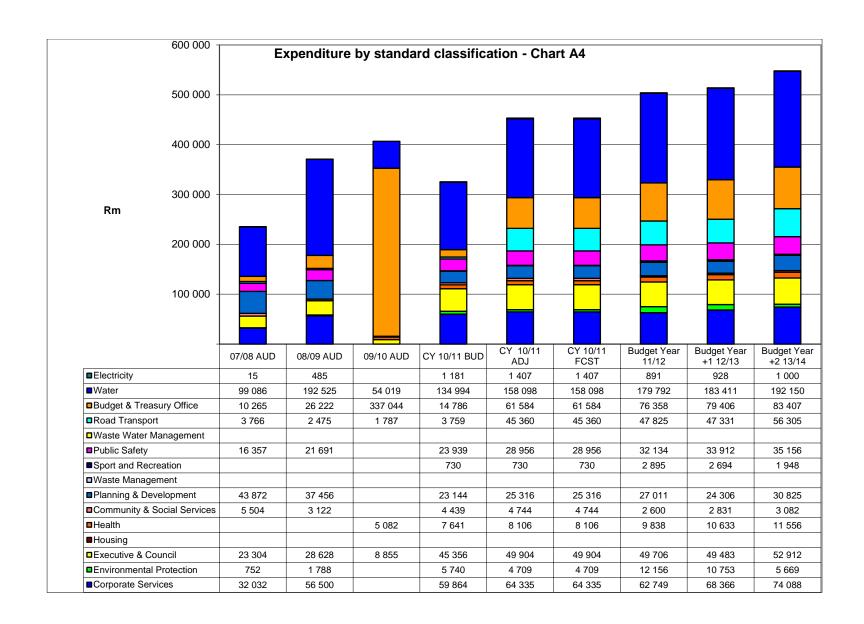

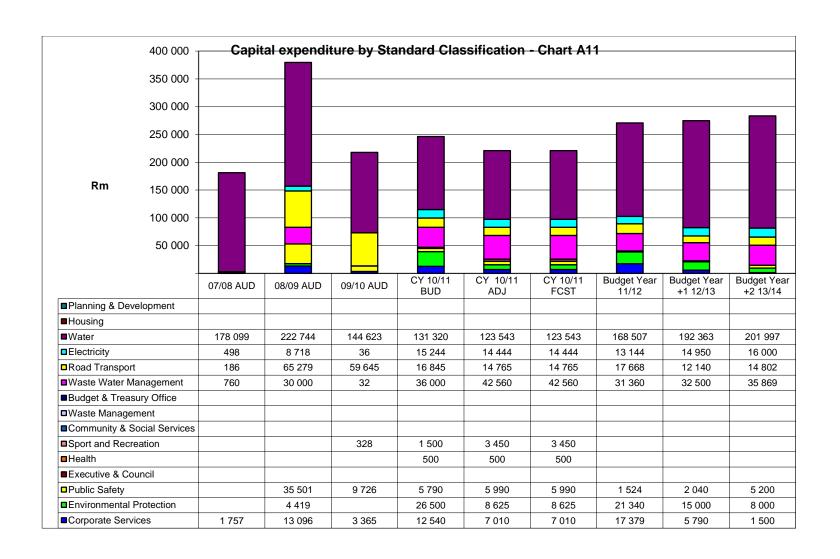

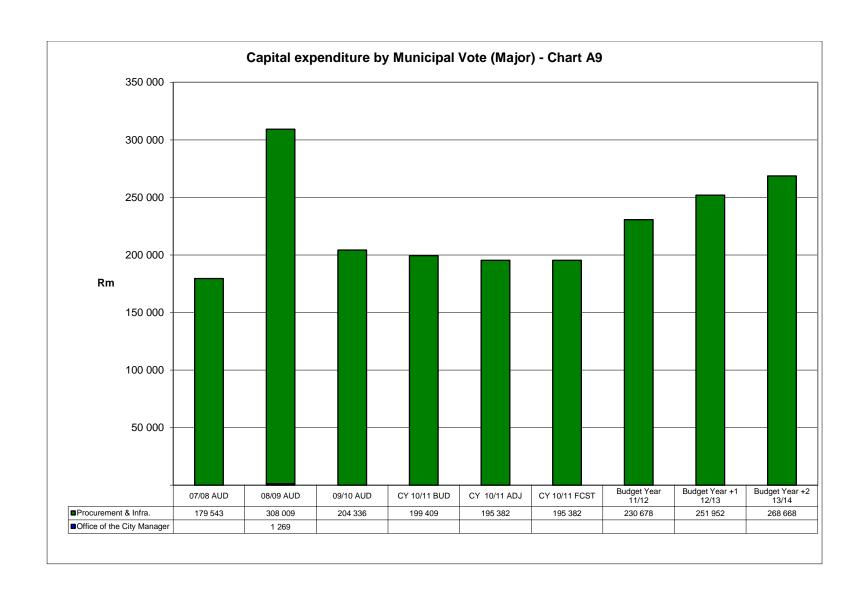

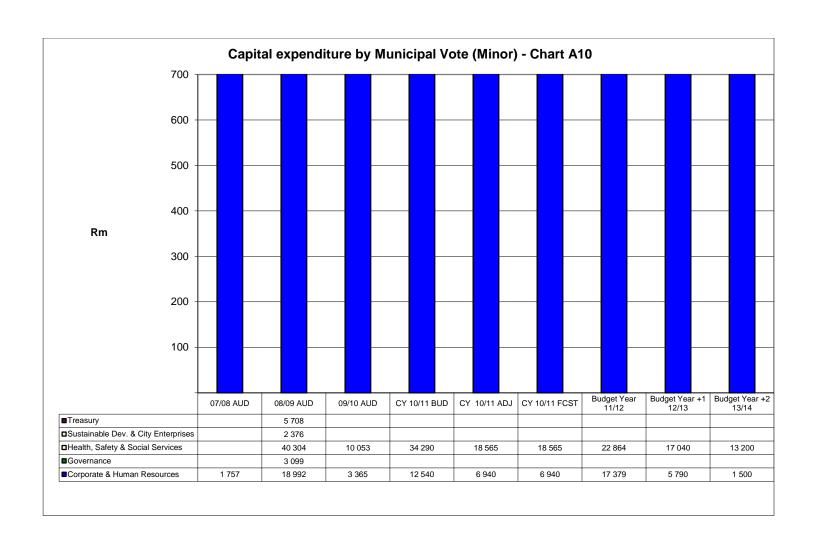

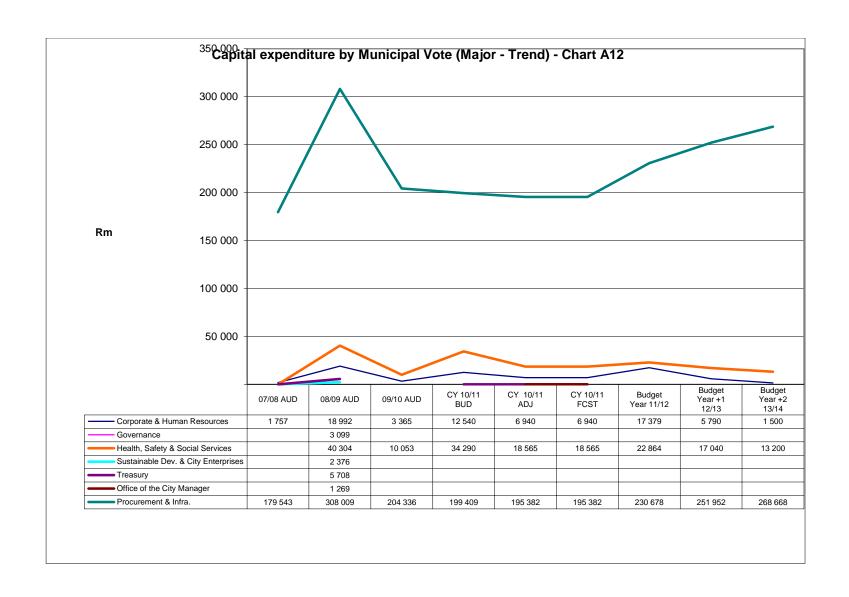

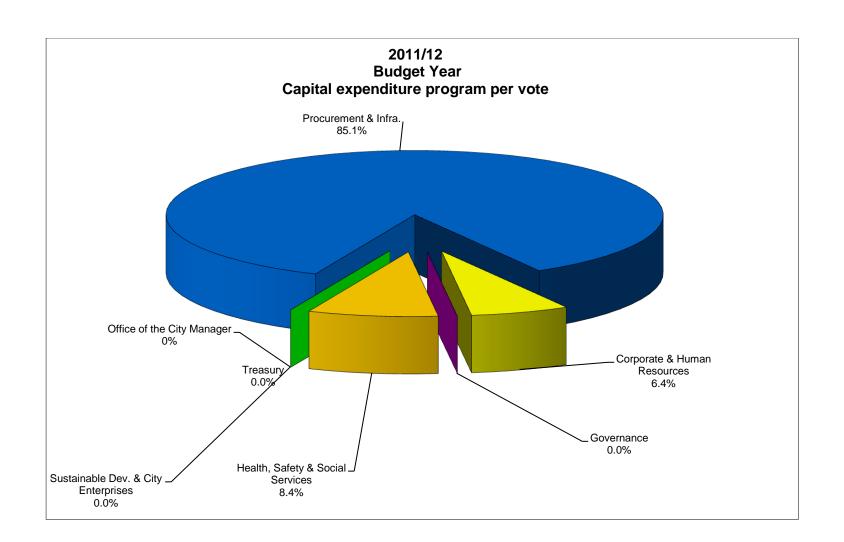

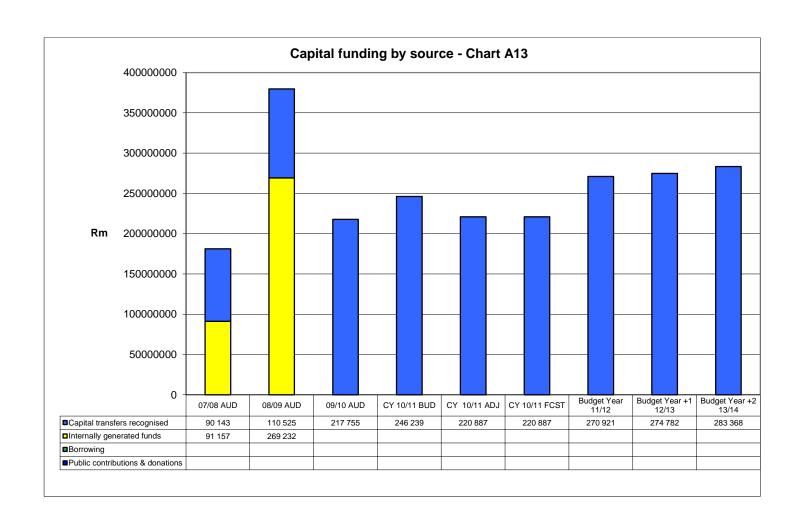

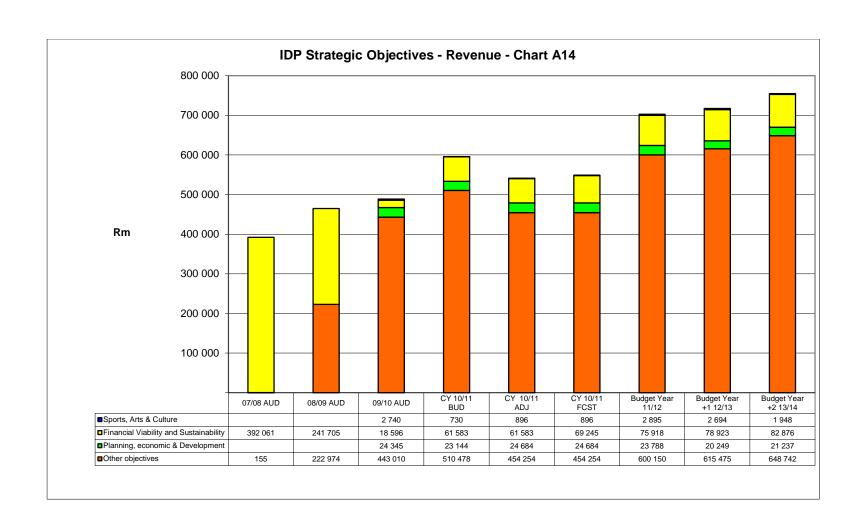

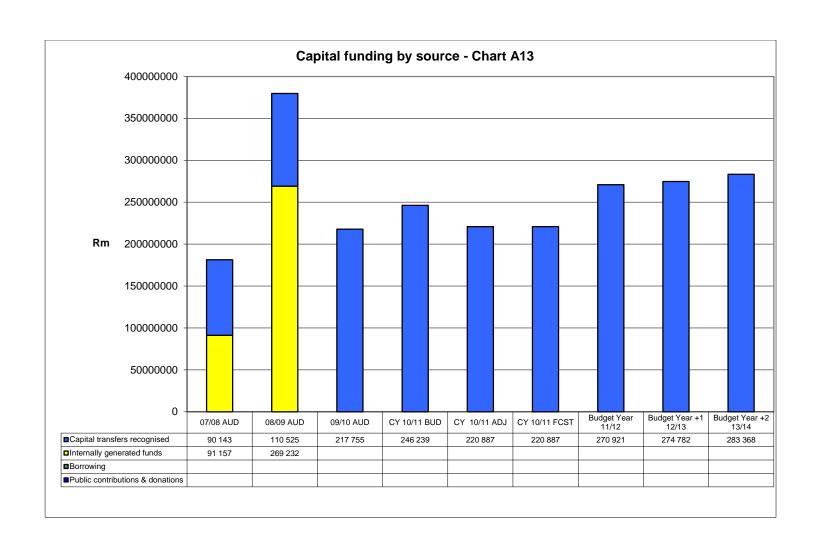

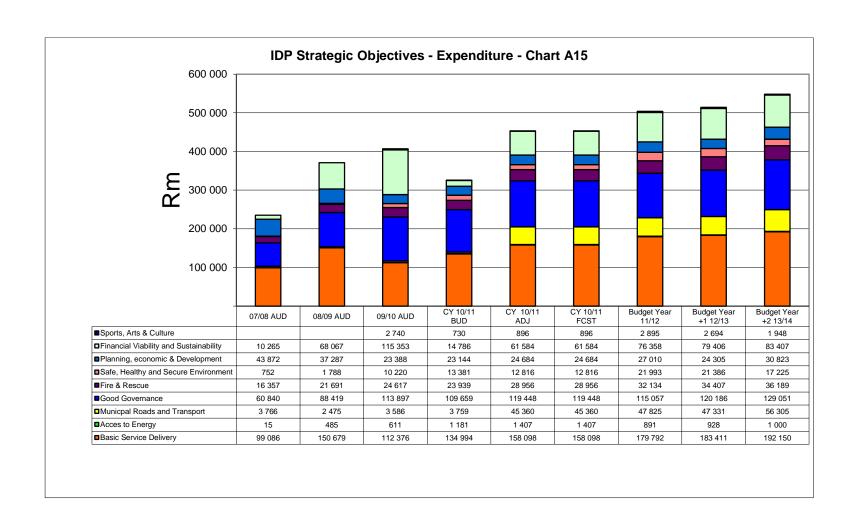

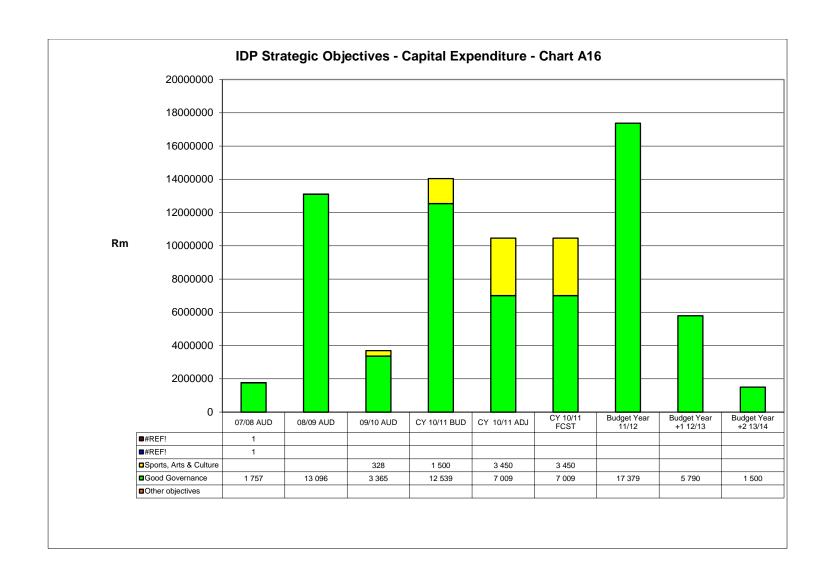

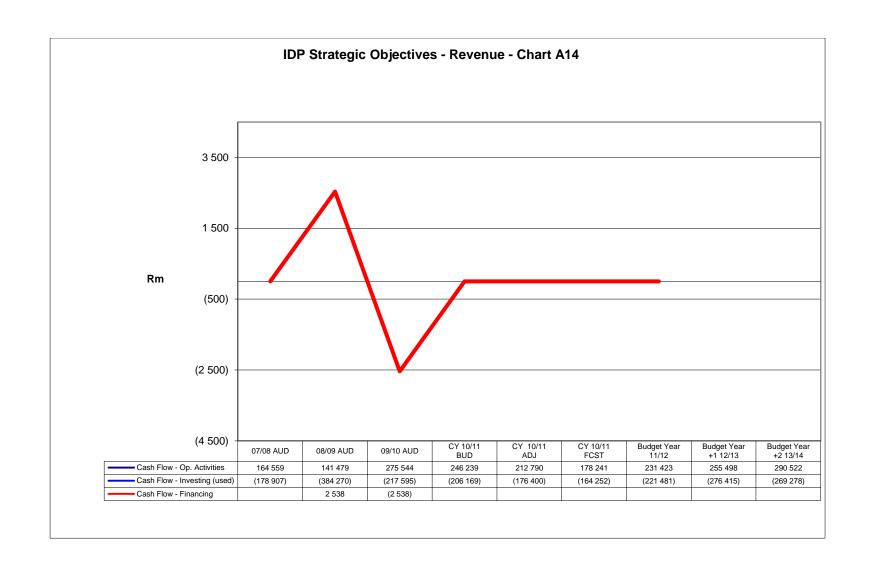

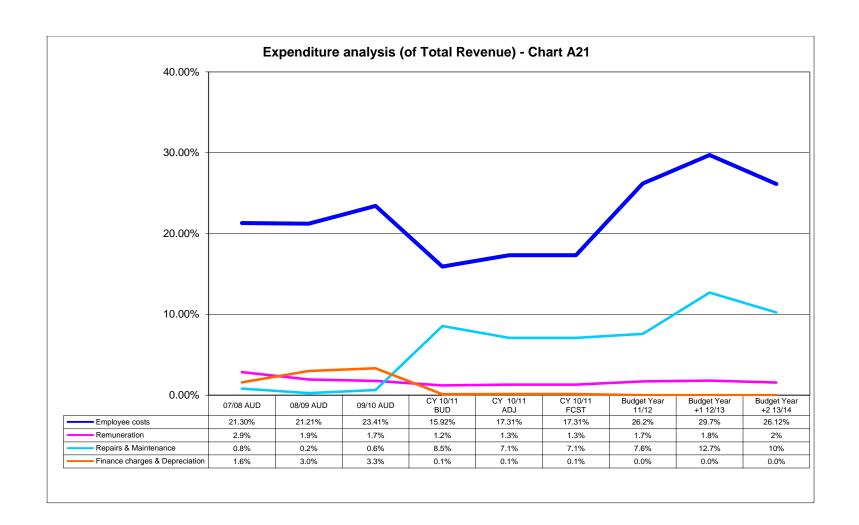

7. BUDGET PROCESS

7.1 OVERVIEW

The budget process as stipulated in MFMA is an effective process that every municipality must undertake to ensure good governance, planning and accountability. The process outlines the direction that the municipality should take in order to meet the legislative time-lines for approval of budget.

It further enables the municipality to fully consult all its stakeholders.

The budget process plan has incorporated with the IDP process plan and the steering committee was appointed to oversee the process.

The budget process has commenced 10 months before the budget year by 31 august by the Council.

Other processes followed are as follows:

STRATEGY PHASE

ACTIVITY	PERIOD
Review of previous year organizational performance on IDP and Budget	September 2010
Finalize analysis, project phase and priority areas	October 2010

PREPARATION PHASE

ACTIVITY	PERIOD
Budget submissions, both operating and capital	January
Preparation of the draft budget and IDP working	February
documents	

TABLING, CONSULTATION AND ADOPTION PHASES

ACTIVITY	PERIOD
Draft budget and IDP approved by council	March
Public-participation on draft budget and IDP	April
Approval of 2011/12 MTREF	April

7.2 CONSULTATIONS WITH STAKEHOLDERS

Consultation	Date	Venue	Time
Business and Academic Institutions	23 March 2011	Fusion Botique Hotel	07h00
Traditional Leaders	24 March 2011	Cosmo Leisure	09h00
NGO/CBOs	25 March 2011	St Marco Hall	09h00
Sector Departments and Parastatals	28 March 2011	M.J Gateway	09h00
IDP Representative Forum	30 March 2011	Protea Hotel Landmark	09h00

8. BUDGET ASSUMPTIONS

The following budget assumptions were considered when preparing the budget:

8.1 General Inflation Outlook

Inflation percentage of 7% was used on general expenses.

8.2 Average Salary Increases

8% for salary costs were estimated for the average increase.

8.3 Price Movements

The increase on bulk water purchases was need also to be determined and budgeted accordingly.

8.4 Interest rates

An assumption on the amount to be invested, the period of investment and interest rates was be determined in order to realistically budget for interest income from investments. The assumption also further took into account the economic factors for realistic projection.

8.5 Ability of the municipality to spend and multi-year budgeting.

The municipality has further assessed the spending percentage that is targeted up to June 2011 and cash flow prediction for payments in order to allow proper budgeting. We should further take into account programmes that are designed to be implemented over a number of financial years in order to curb roll-over and encourage good planning

8.6 Policy formulation and Review

Policy review process was aligned to the budget and IDP. Budget related policies were formulated and some reviewed. The following policies submitted for tabling.

✓ Virement policy - Formulated
 ✓ Tariff policy - Reviewed
 ✓ Credit Control and Debt Collection - Reviewed
 ✓ Indigent policy - Reviewed

References

- 1. Positive cash balances indicative of minimum compliance subject to 2
- 2. Deduct cash and investment applications (defined) from cash balances
- 3. Indicative of sufficient liquidity to meet average monthly operating payments
- 4. Indicative of funded operational requirements
- 5. Indicative of adherence to macro-economic targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
- 6. Realistic average cash collection forecasts as % of annual billed revenue
- 7. Realistic average increase in debt impairment (doubtful debt) provision
- 8. Indicative of planned capital expenditure level & cash payment timing
- 9. Indicative of compliance with borrowing 'only' for the capital budget should not exceed 100% unless refinancing
- 10. Substantiation of National/Province allocations included in budget
- 11. Indicative of realistic current arrear debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
- 12. Indicative of realistic long term arrear debtor collection targets (prior to 2003/04 revenue not available for high capacity municipalities and later for other capacity classifications)
- 13. Indicative of a credible allowance for repairs & maintenance of assets functioning assets revenue protection

14. Indicative of a credible allowance for asset renewal (requires analysis of asset renewal projects as % of total capital projects - detailed capital plan) - functioning assets revenue protection
