4. MAYOR'S REPORT (BUDGET SPEECH)

Honourable Speaker, Councillor Logie Naidoo
Deputy Mayor, Councillor Nomvuzo Shabalala
City Manager, Sbu Sithole
Deputy City Managers
Members of the Executive Committee
Fellow Councillors
ANC Regional Leadership
AmaKhosi aseNdlunkulu
Business leaders
Honoured guests, Ladies and gentlemen

This budget meeting is taking place when there are calls for a radical review of our country's economic policies. The reality is that the current economic policies are 'lean' towards addressing challenges of unemployment, poverty and inequality. It is within this context that debates about the "second transition" are gaining currency. It is true that we need to revisit our economic modelling to benefit the poor as well.

In coming into terms with this reality, I wish this budget to be people driven. Indeed, budget hearings wherein people have sought to influence the City's expenditure patterns represent a move towards the right direction which embraces feelings of the communities. I must add that as the leadership of this Municipality we have committed ourselves to improving the public consultation processes because we do believe that communities should be central in driving their own development.

Honourable Speaker, it is indeed a great honour and privilege for me to present the first budget of this term of office of our Council. This budget is a result of an ongoing consultation process with our communities, business and other internal and external stakeholders. The budget enables the implementation of our goals as set out in the Integrated Development Plan and translated into our 2030 vision and mission. Whilst I must apologise for the late notice for the regional hearings on the budget, we have certainly taken the input from these hearings into consideration in finalising this budget.

Across Local Government 2011 was a transition year from the old to the new Council with elections taking place and new councillors assuming office. Again we want to thank you for the support that we have received from the time we assumed office. We are now ready to meet the challenges that face our City, Province and Country.

Over the past year our City has proven beyond any doubt that we are ready to take our place among the big cities of the world, especially through our events strategy.

In that regard, I want to congratulate Durban for hosting a successful COP17 Conference and IOC conference. Following the amazing success of the 2010 Soccer World Cup, these events have served to keep Durban prominently on the world map. Reports that I have received indicate that delegates generally were of the view that it was the best organised COP yet.

I am happy to announce that Durban Tourism has signed the Three Cities Agreement with Cape Town and Johannesburg to work together in promoting the Cities in international Source Markets in traditional and emerging Markets. Through this initiative Durban will be uppermost in the minds of more than 45 million viewers in the next three years. The City has budgeted R20 million for this project over the next three years.

The City of Durban has also engaged Agents and Major Tour Operators on the African Continent. The aim is to attract tourists from the African Continent to come to our City and enjoy our life style and products that are on offer. The familiarisation trips have already started with Kenya and Zimbabwe. EThekweni together with the Province has signed an agreement to host Soccerex African Forum in our City for the next THREE years that is 2012 to 2014. Soccerex, the global leader for the business of football is returning to South Africa with a new event known as the Soccerex African Forum that will be hosted in Durban. The first forum will take place at Chief Albert Luthuli International Convention Centre in October 2012 ahead of the draw for the 2013 African Cup of Nations.

Honourable Speaker,

The New Year (2012) began with the new City Manager, Mr Sibusiso Sithole, assuming office. He is not new to this Municipality; neither is he a 'new comer' in the general field of local government administration. We wish him well in his tenure, especially as the Accounting Officer. As the Executive Committee and Council we have committed ourselves to give Mr Sithole our full support in his plans to take forward this Municipality.

We are aware that part of the City Manager's tasks is to review the organisational structure in order to ensure that we become an effective and efficient organisation. I am happy that those plans include the proposal to establish the Municipal Planning Commission and we fully support that idea.

ANC CENTENARY

This year is yet another important year in the history of South Africa, Africa and the world. This is the year when Africa's oldest liberation movement, the African National Congress (ANC) celebrates its centenary. We are honoured that this Municipality is the home of the first ANC President-General, Dr. Rev JL Dube of Inanda, as well as other Presidents, such as Pixley kalsaka kaSeme, JT Gumede and President Zuma. Numerous activities are being held across the country and as eThekweni we have been fortunate to hold some of the centenary torch celebrations, including the public lecture on JT Gumede which was delivered by President Zuma. Throughout these events we were inspired to work even harder for our people. We were encouraged to be more in-touch with the poor who suffered under oppression.

Honourable Speaker, as we are tabling this budget today we must ask ourselves this question, how would JT Gumede have reacted or behaved if he was a councillor or an official responsible for this budget? We need to honour our struggle heroes and veterans not only by speeches or scoring cheap political points but by action. We must not just speak of President Mandela and President OR Tambo, instead we must consciously work to make them proud, and uphold their legacy.

I wish to single out the presidents of the ANC who led our struggle for liberation and for creating a better life across generations. We salute John Langalibalele Dube, Sefako Makgatho, Zac Mahabane, Josiah Gumede, Pixley ka Isaka Seme, AB Xuma, JS Moroka, Chief Albert Luthuli, Oliver Tambo, Nelson Mandela, Thabo Mbeki and the incumbent President Zuma.

Let me take this opportunity and pay tribute to the fallen heroes whom we have recently lost: Former Minister Sicelo Shiceka, MP Mama Florence Nyanda, former MPL LH Zwane and Minister Roy Padayachie. We want to salute these comrades for their dedication and the contribution they made to South Africa. Their good spirit will propel us to work even harder for our people.

Fellow Councillors,

In his State of the Nation Address on 9 February 2012, President Jacob Zuma made his vision for the future abundantly clear, "As national Cabinet, we have taken the decision that we should do more to grow the country's economy, in order to get rid of the problems of unemployment, poverty and inequality in the country. Those are the three things that we will face head on, this year and in the coming years." Accordingly, amongst the local challenges that we face, this budget seeks to address with energy the three national imperatives by creating jobs, reducing poverty, building infrastructure, building a vibrant economy and improving access to facilities and the quality of life of the poor.

As one of our towering leaders, Tata Walter Sisulu, wrote from his prison cell on Robben Island, "In a certain sense, the story of our struggle is a story of problems arising and problems being overcome. It is understandable that many of the problems should generate much controversy and emotion. However cool and detached we may strive to be in our analysis, the fact remains that we are deeply involved and interested parties and the solutions we adopt are solutions we ourselves have to implement."

OVERVIEW OF THE BUDGET

- The consolidated total budget for the 2012/2013 financial year is R31.8 billion compared to R28.6 billion in 2011/2012. This is the biggest budget that the Council has had.
- This is made up of an operating budget of R26.5 billion and a capital budget of R5.3 billion.
- We continue to have the largest capital budget and the highest spend on maintenance in the country. This will help with the development of new growth areas and the rehabilitation of existing infrastructure assets that underpin our social and economic platforms.

REDUCING POVERTY

Through this budget we have attempted to respond positively to the plight of our communities who are facing tough socio-economic challenges. In this context we have increased the financial relief we provide to the poor through the following:

- We have increased the rates rebate for pensioners, disability grantees and child-headed households from R211 per month to R259 per month.
- With regards to water, the first 9kl of water will be free for all properties valued under R250 000. This will ensure that our rebates target the poor. In addition, there is now no fixed charge for residential properties.
- With regards to electricity, the first 65kWh will be free to poor residents using less than 150 kWh.
- Moreover, the first 9kl of water waste disposal will be free to all residents.
- In addition, there will be no charge for refuse for properties valued at less than R250 000.
- It must be noted that these rebates are subsidised by the Equitable Share from National Treasury.
- Finally, we are not going ahead with the R20 rates charge on properties valued at less than R185 000 due to concerns raised at the regional hearings.

CREATING JOBS / DECENT WORK

In response to the call by President Zuma to prioritise job creation the Municipality in the current financial year set itself the goal of increasing the workforce to 23 588. To date our workforce has increased to 22 644 which is a 23% increase from the previous year. In numerical terms, it means we are 944 members closer to our target. The process includes conversion of contract positions into permanent.

- 12 000 Expanded Public Works Programme (EPWP) jobs to the value of R84.6 m have been targeted. This marks an increase of R4. 6 m since the last financial year. The maximum wages payable is R100 per day of which R50 (R42.3 m) is subsidised by National Treasury through the EPWP Grant.
- Above 6 000 jobs to the value of R68.6 m have been targeted through the Zibambeke poverty alleviation programme. This year, R6. 2 m has been added.
- Furthermore, 35% of the infrastructure capital budget of R2.39 billion over 3 years is to be designed and implemented to maximise labour opportunities in line with EPWP
- Renewal of key town centres (R64m) that play an important role in the metropolitan economy, which includes major interventions in Isipingo (R12m); Pinetown (R10m); INK (R8m) and Hammarsdale /Mpumalanga (R6m)
- Township projects such as Umlazi (R10m); INK (R8m) and Clermont (R8m) have been budgeted for. Project plans are being prepared to access further funding for the township areas in terms of National Treasury's Neighbourhood Development Partnership Grant (NDPG).
- R46 million has been set aside for projects that will be undertaken to support economic sectors such as tourism and manufacturing which are key job creators in the local economy.
- In addition, strategic projects to assist in growing the economy include the Beachfront and Margaret Mncadi precinct upgrades.
- Undertaking industrial support programmes in partnership with business in sectors such as automotive; chemicals; furniture; clothing & textiles; ICT; maritime; fashion as well as film & media. R16 million has been set aside for this project.
- In 2012/13 the Municipality will also be undertaking, in partnership with the Province and Department of Trade and Industry, an investigation into possible Special Economic Zones (SEZs) in eThekweni to support key industrial sectors.

- The Municipality has also been successful in accessing funding from National and Provincial Government for various projects. In 2007 we secured over R700m for township development from National Treasury, and I am happy to report that while about 50% of that funding has been spent, impacts are already being felt in townships like Mpumalanga; Clermont and in the INK area through the KwaMashu New Town Centre and Bridge City. We aim to increase the pace of projects in the remaining areas including Umlazi and Malukazi and investigate opportunities to access funding for other townships. We have also accessed funds amounting to R12.7 million from Provincial Government through the Corridor Funding for Hazelmere Dam tourism; and Mpumalanga New Town Centre and a further R5m from National Department of Tourism for the Tourism Gateway project at Mpumalanga.
- We have provided R10m to undertake renewal projects in industrial areas where business activity is being hampered due to issues related to roads and infrastructure.
- Regarding economic development, statistics indicate that the eThekweni Municipality is currently outperforming its metropolitan counterparts in key focus areas such as:
 - Reducing unemployment;
 - Growing key sectors such as transport, chemicals and maritime;
 - Leveraging funding and support for key developments from national government;
 - And providing support to the informal sector.

We are aware that the Durban to Gauteng economic corridor is a national priority, and as the Municipality we need to ensure that we are not only involved in the roll-out of infrastructure, but ensure maximum local economic benefits through unlocking industrial land and commercial opportunities that support the eThekweni vision.

- The City will also be looking at creating a more investor friendly city. The lack of investment into the local economy was identified as one of the biggest risks to the city and we need to start by unblocking key developments, while we put in place a well-structured process to deal with this critical challenge.
- To help businesses we will be holding a new SCM conference where we will, among other things, be providing information on what goods we procure and which goods and services we cannot procure locally. We will provide them with product and business ideas. The intention is to promote the procurement of locally manufactured goods and services through our procurement policy.
- To business, I say let's work together to reduce dependency and give back the dignity to our people that was eroded by our past. With jobs comes dignity. With dignity comes participation. With participation emerges prosperity for all.
- In 2012/13 we also want to look at creating a closer dialogue with business, and we are anticipating further discussions around that in the near future.

FINANCIAL POSITION OF THE MUNICIPALITY

- We have once again achieved an unqualified audit report for 2010/2011 financial year with no issues being raised with regard to controls. The only two matters of emphasis relate to SCM issues and water & electricity non-technical losses in distribution. Action plans have been put in place to address these issues.
- National Treasury has rated us the best performing Metro based on a range of issues from capital expenditure to collection rates.
- We have improved our cash flow position to R3.7billion or 82 days cash on hand. Hence our liquidity is sound.
- We have maintained our investment grade credit rating which is the best in the sector despite the impact of the global economic recession.
- Hence, the City's financial position is certainly sound as per the independent assessments by the Auditor-General, National Treasury, the credit rating agency, and Municipal IQ (an independent rating agency).

TARIFFS

- Over the past few years we have managed to contain tariff increases to inflationary related increases. This is apart from the electricity bulk increase from Eskom which is beyond our control. The water tariff hike is higher this year because of our contribution towards the building of the Spring Grove Dam.

- The tariff increases for 2012/2013 are as follows:
 - Water - Residential 12.5%
 - Water - Business 15.5%
 - Electricity 11%
 - Sanitation 6.5%
 - Solid Waste 7%
 - Rates 6.5%
- The National Treasury benchmarking exercise, based on the budget tables, indicate that on the basket of services provided, we are the most cost effective.
- National Treasury also found that, on average, we had the lowest tariff increases.

SERVICE DELIVERY

Fast tracking service delivery is at the centre of our vision in this term of office. Some of the highlights include:

- R199 million provided in the operating budget on roads rehabilitation and maintenance to ensure optimised life cycle costs and to sustain the historic investment in this vital socio-economic infrastructure platform.
- Integrated aesthetic maintenance and cleansing of 400 km of high profile roads
- Integrated service delivery through a facilities management contract, including roads maintenance, grass cutting, canal maintenance, etc in the priority zone
- Parks, Recreation & Culture’s major projects include the upgrading of community halls, a new cemetery, Mobeni Heights cemetery upgrade, Cato Manor Museum, Inanda pool, KwaMashu cricket ground, etc.
- With regards to safety and security, provision has been made for specialist fire vehicles, CCTV cameras and new security management facilities. There are currently 20 police stations and 19 fire stations.
- As regards health care, 2.3 million people are served every year at 60 clinics and 15 mobile clinics. Additional funds are provided for the street children programme and family health care rollout.
- Regarding sanitation, we have provided for the sewerage of an additional 8 500 properties, as well as addressing backlogs in mainly rural areas.
- 15 000 new electricity customers have been budgeted for and electricity maintenance budget increased from R661 million to R748.6 million.
- R432m has been provided for water maintenance.
- The provision of 8 500 houses has been budgeted for, as well as for an additional 1 000 hostel dwellers.

INFRASTRUCTURE

- The total spend on infrastructure is R4.733 billion. Some of the key projects are:
 - Kwa Mashu Wastewater Treatment Works (R100m)
 - Ablution blocks upgrade (R100m)
 - Electron Road Transfer Station (R120m)
 - Bulk electricity rehabilitations (including substations) (R427.7m)
 - Western Aqueduct (R349m)
 - Northern Aqueduct (R84m)
 - Housing and Hostels (R1.2billion)

MAJOR PROJECTS

The Municipality also has plans which are meant to be catalytic by their magnitude. Definitely, these projects will have positive economic impact and facilitate the “second transition” mentioned earlier.

Housing

- Cornubia: I’m happy to announce that there’s been a lot of progress in the implementation of this project. The project consists of 766 hectares of land being developed in phases over 10-15 years in terms of mixed land use and will yield about 20 000 housing units and accommodate about 80 000 people.

- **Densification and nodal development:** This initiative will ensure that a large proportion of the Housing backlog will be directed at existing corridors to reduce the cost of transport together with mixed use and mixed income to enhance social cohesion.
- **Interim Services Programme-** This programme will ramp up to approximately 10 000 households per annum and will include a complementary livelihoods programme, pilot job linkage centres as well as community involvement in construction, operation and maintenance. Some of the interim services being provided include water, refuse removal, sanitation, footpaths, road access and electricity where possible and a total amount of R254 million is budgeted for this.

Zonal Programmes and Community Action Planning: A R100m per annum programme to ensure integrated ward and zone based programmes to deal with community priorities supported by a Community Action Planning programme.

The Marine Industry

The marine industry is expected to change the economic status of the City for good. For example:

Dugout Port: Undertaken by Transnet. Phase 1 will be complete by 2019 at an estimated cost of R50 billion. Construction to be done with private sector. This could result in a new economic hub in the country. It is anticipated that 64000 jobs /annum will be created in the construction phase and 28000 jobs/annum in the operational phase of this project.

Upgrades of the Existing Port: Transnet will also be undertaking R20bn worth of upgrade to the existing port over the next 7 years in a bid to improve efficiency and capacity. As the Municipality we need to ensure that we support these developments.

Dedicated Freight Corridor, Supportive Local Area Plan and Logistics Nodes: In support of the phases of port expansion the above complementary infrastructure will be rolled out by the city. These complementary projects are estimated to provide 74000 jobs in the construction phase and 55000 jobs in the operational phase. This together with the Port Expansion is one of the 17 Strategic Infrastructure Projects (SIP's) announced by the President in his State of the Nation Address.

Northern Urban Development Corridor including Infrastructure Support to Dube Trade Port: Infrastructure constraints including those to be addressed by the Western and Northern aqueduct, waste water treatment capacity and road infrastructure constraints requiring support from SANRAL and KZN Department of Transport have been identified and prioritised for implementation. Ongoing support is imperative from the other spheres of government.

Public Transport

In line with the National Public Transport Strategy and Action Plan much work has progressed in eThekweni Municipality in terms of accelerating the development of integrated rapid public transport networks.

In terms of this eThekweni is in the process of detailed planning on some of the key corridors with the aim of implementing some of these public transport improvements within the next 4 years.

The IRPTN project planning is at an advanced stage with a number of plans already in place for the next financial year.

The estimated expenditure on the project over the next five years is R5 billion. It is anticipated that this project will generate over 14 000 direct jobs, 6 000 indirect jobs and contribute around R8 billion to the GDP. This will contribute towards decent jobs creation that we have mentioned earlier.

HOW CAN YOU HELP: "Working together we can create a better life for all". We are committed to work with all stakeholders to build better communities.

- Business can help by growing their businesses and creating more jobs.
- Citizens, NGO's and faith-based organisations can help with conserving water and electricity, using alternative sources of energy such as solar heating, and recycling refuse.
- They can also enter into partnerships with the City with regard to soup kitchens, community gardens, EPWP projects such as refuse pick up, management of community halls, rainwater harvesting, poultry farming, and aqua farming.
- As former President Nelson Mandela said, "The future of our country is in your hands. It will be what you make of it today. In the competitive international market place to which we are opening our economy, success and even survival of the action will depend on you."

BUILDING BETTER COMMUNITIES

Honourable Speaker, in my inaugural speech last year I said to this house that “As councillors we must be seen working together with all of our people, with all organizations, to mobilise everyone in making our city the most caring and liveable city in Africa.”

- In our quest to build a caring city, early this year we went to KwaMashu to launch Operation Sukuma Sakhe. Operation Sukuma Sakhe focuses on the integration of delivery of services to communities.
- Operation Sukuma Sakhe Championed by MEC Nomusa Dube and the eThekweni Mayor through War Rooms based in Wards and it uses Community Caregivers and development Workers as foot soldiers.
- War Rooms are hubs of activity where all community profiles are deposited for actioning and departmental responses are coordinated. The ward Councillor and the War Room coordinator and CDW are key to achieving a successful War room.

IRREGULAR EXPENDITURE & THE MANASE REPORT

Lastly I believe that it is incumbent upon me to comment on the Manase report and irregular expenditure as it has been getting a lot of media attention.

- As regards irregular expenditure, National Treasury have confirmed that we have followed the correct processes and procedures in terms of regularizing or condoning same.
- Currently due process is being followed with regard to the appropriate action being taken.
- I wish to also re-iterate that a zero tolerance approach is being followed with regard to all compliance issues. Any transgressions will result in the appropriate action being taken against officials and councillors.
- We have successfully formed an Ethics Committee which will play a significant role and this is not a toothless body.

CONCLUSION

- The City is in a sound financial position.
- This budget certainly supports that position, addresses the national imperatives, and more especially the challenges that we face as a City.
- It has increased the relief to the poor and will help improve their quality of life.
- Accordingly, it is a well balanced budget in terms of economic development and job creation on the one hand and social expenditure in terms of the poor on the other hand.
- We have certainly met the challenge set by the Minister of Finance, Pravin Gordhan, who said in his 2012 budget speech, “Our new story, our period of transition, is about building modern infrastructure, a vibrant economy, a decent quality of life for all, reduced poverty, decent employment opportunities.”
- However, as the Honourable Minister went on to say, “It is a story that must be written by all of us. Not just by government. Not just by business. Not just by unions. By all of us, South Africans from all corners of the country.” Accordingly, we need each and every one in our great and beautiful City to help in addressing the challenges facing our City.
- In conclusion, my profound appreciation goes out to all councillors and officials involved in the budget preparation, approval and implementation processes. You have done a great job. I am proud of you.

I now table the 2012/2013 budget for adoption by the Council.

I thank you.

5. ETHEKWINI MUNICIPALITY PROFILE

Durban is a fast growing metropolitan city with many kilometres of pristine beaches, iconic buildings, vibrant cultures, exceptional creativity and famous hospitality. Durban is a world-class tourist destination offering a wide range of experiences both within the city and in the surrounding countryside.

5.1 VISION OF THE MUNICIPALITY

By 2030, eThekweni Municipality will be Africa's most caring and liveable city.

5.2 MISSION

The purpose of the eThekweni Municipality is to facilitate and ensure the provision of infrastructure, services and support, thereby creating an enabling environment for all citizens to utilise their full potential and access opportunities, which will enable them to contribute towards a vibrant and sustainable economy with full employment, therefore creating a better quality of life for all.

5.3 LOCAL ECONOMY

The eThekweni Municipal Area is home to Africa's first multi-model logistics platform and international passenger airport, Africa's busiest port and a global conferencing, sporting and tourist destination. It is the central engine of the regional economy, and plays a major role in the South African economy. It ranks as the third largest economic centre and a very promising global competitor.

5.4 CLIMATE

The eThekweni metropolitan is in the sub-tropical zone with a mild winter and a warm summer period with high levels of humidity.

5.5 LAND USE

The municipality is unique amongst major urban centres in that only 35% of the metropolitan area is predominantly urban, with over 60 000 households living in traditional rural style dwellings.

5.6 STATE OF THE ECONOMY

5.6.1 OVERVIEW

The world financial and economic crises have impacted on South Africa since 2008. The South African economy has averaged about 3 percent growth a year since 2005. Against the background of the slowdown in the global economy, real GDP growth is likely to fall to about 2.7 percent in 2012. The financial challenges in the Euro zone in 2011 is further creating economic challenges in Africa in the form of a drop in long-haul travellers from Europe, slow investment and lagging demand for key commodities. This continued disruption to world economic activity has in recent months resulted in the domestic economy losing momentum in the recovery from the financial crisis. Although unemployment has decreased slightly in the last quarter, the labour market remains sluggish. Economic data released also suggest that South Africa's manufacturing activity remains under enormous pressure. Ensuring economic growth and job creation in such an economic climate will be a major challenge for 2012. However, the National Development Plan by National Government released in 2011 consolidates most of the past initiatives and crystallizes into a set of targets to be achieved. Of note are economic and employment goals.

5.6.2 ETHEKWINI GDP PERFORMANCE

The region's estimated GDP of R 202,9 billion during 2011 represents a 3.3 % increase over the previous year, however, as in the case of positive GDP growth rates in the past, this has not translated into spectacular employed growth over the same period.

5.6.3 PORT OF DURBAN

Activity relating to containerised cargo during the first quarters of 2010 and 2011 was concentrated more in imports than for exports (9% and 6.2% increases respectively). The ports statistics for vehicle movement, however, showed a 25.9% increase for exports. This affirms Toyota SA's consistent growth in the export market and who are also expecting the new Dig-Out Port to handle an extra 9 million TEUs per year when fully developed.

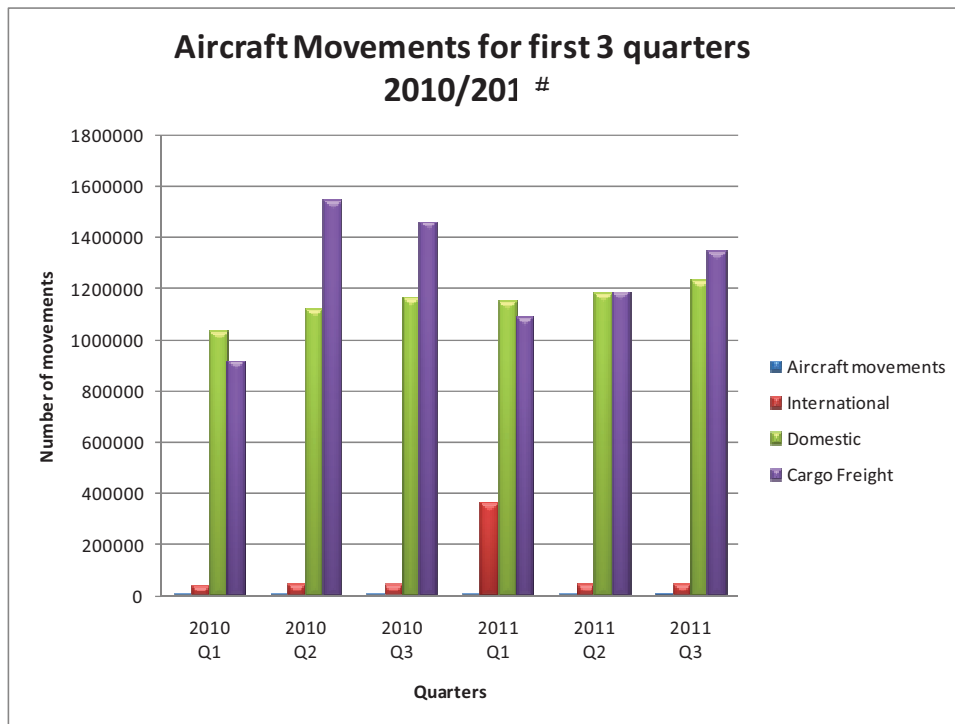

Cargo Handling Imports*

Cargo	2010	2011	Percentage Change
Containerised cargo	1,264,910	1,378,238	9
Dry bulk cargo	3,580,845.5	4,325,350.5	20.8
Liquid bulk cargo	24,371,095.5	24,172,200.5	-0.8
Break-bulk cargo	860,400.3	1,552,506.8	80.4
Vehicles	251,410	280,284	11.5

Cargo Handling Exports*

Cargo	2010	2011	Percentage Change
Containerised cargo	1,264,299	1,342,677	6.2
Dry bulk cargo	4,579,330	6,179,186.1	34.9
Liquid bulk cargo	2,907,944.1	2,675,732.1	-8
Break-bulk cargo	1,884,465.9	1,543,305.4	-18.1
Vehicles	126,471	146,545	15.9

5.6.4 AIRCRAFT MOVEMENT

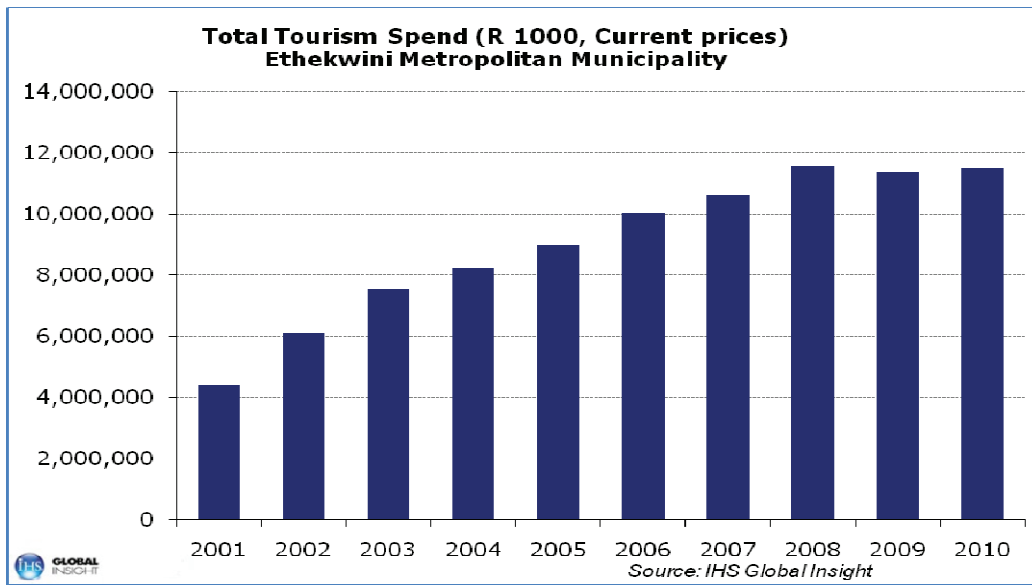

The new airport - King Shaka International is currently handling five million passengers annually. The tourism and migration statistics since May 2010 show a compound annual growth rate of approximately 1% up to September 2011. The general trend in terms of visitor numbers tends to mirror the city's tourism profile viz. more domestic than international visitors. The spike in international numbers in 2011 was due to the Conference of the Parties (COP) 17 event towards the latter part of the year.

For the 2010/11 financial year, more than 10 000 tons of cargo (combined: international and domestic) was processed through DTPC Cargo Terminal and four times this quantity is currently transported to and from Johannesburg by road and there are currently initiatives in place to channel it through DTPC Cargo Terminal.

- Source: Airports Company South Africa

5.6.5 TOURISM

Tourism spend in recent years appears to mirror the impact of the 2008-09 financial crisis. The graph shows a dip in 2009 and an increase during 2010 - also boosted by the FIFA 2010 World Cup. During the next two years the total expenditure is projected to grow to R 12.8 and R 14.2 billion respectively, in current prices.

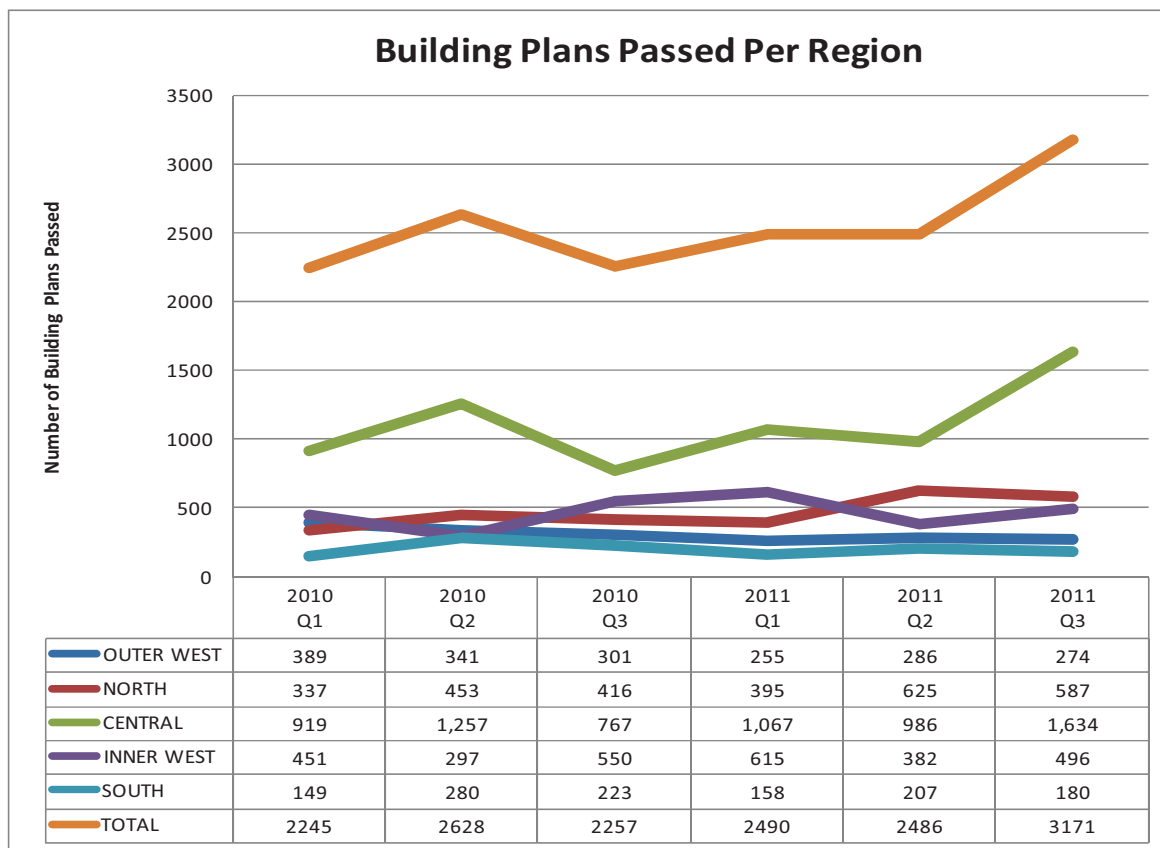

Tourist activity is still dominated by domestic visits to the City. There were slight increases in the number of trips for both international and domestic tourists between 2009 and 2010, although the number of bed nights shows a decrease between the two years probably due to austerity measures following the financial crisis that impacted on the national and local economies.

While anticipating a strong impact from the usual influx of domestic and international visitors to the region during the festive period in 2011, the COP 17 event was also a major fillip in ensuring that the tourism sector outperformed other major cities during this period. uShaka Marine World saw a 15% increase in visitor numbers with over 30,000 over the December period, while more than 2,1 million people visited the beachfront as well. The city is presently negotiating with Cape Town Tourism and Johannesburg Tourism as part of a three-cities agreement to work together in marketing the cities globally.

5.6.6 BUILDING PLANS PASSED

The central region continues to dominate construction activity, recording a 16% quarter-on-quarter increase. The north and south regions also showed increases during the same period.

5.7 ECONOMIC / SOCIAL DEVELOPMENT

Over the medium-term, the municipality will increasingly focus on infrastructure investments that catalyse new economic activity. Investment in infrastructure continues in order to meet developmental needs in the municipal area. Phase two of the massive Western Aqueduct project which is vital to significantly increase the capacity of the bulk water supply in the region is to commence later this year. In addition, several phases of new construction on the Northern Aqueduct will be carried out in order to provide the necessary capacity increase in the northern areas.

With regard to housing development, work on the first phase of the giant Cornubia development is now in progress. The project will provide a sustainable mixed-use, mixed-income settlement comprising 25 000 houses (of which 15 000 are proposed for subsidised housing) and generate approximately 60 000 permanent jobs. Cornubia is considered as the largest sustainable integrated human settlement project in the Province and one of the biggest in the country and was identified as one of three Cabinet Legotla priority projects. Strategically located, Cornubia also presents an opportunity to deal with informal settlement eradication, local economic development, job creation and poverty eradication all in a totally integrated and innovative manner.

More than just another housing project, this presents a unique opportunity to “get the basics right”. The development will be the home of the next major industrial area in the north and a key industrial development with linkages to the new international airport. With the municipality being awarded level two accreditation status by the Department of Human Settlements, this should lead to improved housing delivery as the municipality has been granted the authority to approve and manage housing construction programmes.

Regarding other development in the north of the city, Dube Tradeport recently launched the second phase of development in the multibillion rand project. Dube Aerotropolis is set to change the face of the KZN North Coast as a major metropolis development in the vicinity of the King Shaka International Airport. This area will be developed as a major air freight trade gateway, comprising a huge logistics and warehousing facility at the Trade Zone near Dube Tradeport’s cargo terminal. This will establish KZN as the first truly multi-model trade hub on the continent.

The construction of a new Central Library is being proposed for the city which will be a state-of-the-art information hub combining the traditional library service with the latest available technology. The building will be a new landmark in the City - a civic icon that embodies eThekweni's commitment to the future. The Central Library will help to build a strong urban core as a competitive and liveable location and also contribute to overall economic growth. As a major anchor in the City, the Central Library will leverage the value of other properties and private and public investment in the area. Furthermore, it will also serve to help retain public and private investment already made in the area.

Work will soon start on a three-year project to give the Hammarisdale Commercial Centre a much needed facelift and improve facilities. As part of the 'Town centre Regeneration Plan' to bring greater commercial life to Hammarisdale and nearby Mpumalanga, a R 200 million shopping mall is to be built in this heavily populated area.

In order to increase capacity and efficiency at the Durban Port, Transnet has embarked on a project of deepening seven of the fifteen berths at Maydon Wharf. This R 1.6 billion project will enable fully loaded ships to work along those areas. The city is also actively involved in driving the port expansion process jointly with Transnet which would serve to boost the local and national economy and job creation. Transnet has made provisional plans to spend R 50 billion for the Dig-Out Port on the site of the old Durban international airport site, which would include more container berths to cater for projected growth in the national economy. The new port will assist in addressing the freight demand in the country as this has been increasing spectacularly with economic growth. Freight demand is expected to double in ten years time. The Dig-Out Port will be equipped with 16 container berths constructed in four phases, and in later phases, five automotive berths with four bulk liquid berths. The first phase is estimated to cost R 50 billion and this will entail construction of the four container berths creating 2.4 million TEUs of annual capacity, aiming at a capacity at the end of the four phases projected at 9,6 million TEUs. The project will also bring enormous job creation benefits of 20 000 direct and 47 000 indirect jobs.

Mega-eventing has become a natural outcome of the huge infrastructure spend pre the 2010 FIFA World Cup, with the city hosting several national and international events since then. During December 2011 the city successfully hosted the United Nations 17th Climate Change Conference - Congress of the Parties (COP17). Hailed as one of the largest in the world, this conference certainly placed Durban in a favourable light and once again affirms the city's reputation as an international player. Furthermore, the city will host the internationally acclaimed motoring show Top Gear for the next three years (2012 - 2014).

One of the issues relevant to economic development entails the process of reviewing the status of the economy of the region and developmental proposals to improve the city's national and global competitiveness and institutional models for investment attraction and retention branding. In order to ease congestion on the province's roads, a rail Business Express Services between Durban and Pietermaritzburg is expected to be operational soon. Another focuses on developing a concept of a City Region with sister municipalities of KwaDukuza, Msunduzi and Hibiscus Coast in particular with a view to facilitating corridor development along the N2 and N3 gateways.

TOURISM

With Durban being the domestic tourism capital, the visitor industry hosts some 1.7m people per annum and contributes approximately R 5.2bn per annum to the city's economy. However, in the face of the global financial crisis and changing consumer behaviour, the city's visitor industry has been under stress having had to contend with declining visitors and reducing spends over the last four years. In an attempt to reverse this decline, Durban with the other major tourism cities in the country entered into a joint marketing agreement, as part of a Three Cities Strategy to address individual and collective demand shortfalls. The strategic package entails a multi-media campaign to ensure that Durban is set on a growth path in the tourism sector and this in turn translates into economic development and job creation for the city. In addition, government is on a mission to get more international airlines to fly directly to King Shaka International Airport with plans already afoot to have two airlines flying directly from the airport.

In continuing with investment in tourism infrastructure to upgrade and modernise the attractions on the beachfront, the city wants to improve facilities to maintain its competitive tourism edge nationally and internationally. In this regard, work on the second phase of the beachfront facelift has recently commenced.

Some of the major events planned to take place during the coming year in eThekweni area are:

Event	Visitors (Est)	Socio Economic Impact (Rm)
Durban Beach Festival Experience	410 000	1.0
Amashovashova National Classic	100 000	0.3
Hansa Dusi Canoe Marathon	12 500	3.8
Comrades Marathon	1 650 000	30.0
MTN Durban Jazz Festival	15 000	11.8
Vodacom Durban July	57 000	101.3

6. BUDGET OVERVIEW: EXECUTIVE SUMMARY

6.1 INTRODUCTION

The 2012/2013 Medium Term budget proposes a total consolidated budget of R 31.8 billion which has been developed with an overall planning framework and includes programmes and projects to achieve the city's strategic objectives. This budget has been drawn up at a challenging but hopeful time as we are still emerging from a multi-year economic downturn. We remain steadfast in addressing the challenges of creating jobs, reducing poverty, building infrastructure and expanding our economy. In 2012 the municipality hopes to put even greater emphasis in the area of job creation and creating the right partnerships with business and academia and the most conducive environment for a growing economy. Ensuring that the city has enough serviced land for economic growth and ensuring we provide support to growing businesses will be a pivotal part of our plans going forward. This budget seeks to continue addressing the backlog in bulk infrastructure and service delivery in order to deliver for all. The municipality is committed towards ensuring that the limited financial resources are maximised for service delivery. This infrastructure roll-out will allow the municipality to focus on creating the economic environment in which investment thrives and jobs can be created.

The 2012/2013 MTREF is informed by the municipality's long-term financial strategy with emphasis on affordability and long-term sustainability. The budget has also been prepared in terms of guidelines as contained in National Treasury's MFMA Circular Nos. 58 and 59. In addition, this budget format and content incorporates the requirements of the Municipal Budget and Reporting Regulations.

6.2 STRATEGIC PRIORITIES FOR THE 2012/2013 YEAR

The municipality has identified the following priority areas to be addressed during the 2012/13 financial year.

- Mitigation and adaption of the municipality for climate change;
- Human capital development;
- Service delivery backlogs;
- Financial sustainability;
- Water crisis;
- Access to public transport;
- Economic development;
- Energy crisis;
- Health of society;
- Food security;
- Sustainable spatial form;
- Rural development;
- Infrastructure degradation;
- Undermining natural capital;
- Safer city;
- Human settlements.

6.3 PAST AND CURRENT PERFORMANCE, ACHIEVEMENTS AND CHALLENGES

6.3.1 SERVICE DELIVERY

The city places a high level of importance on achieving value for money from its investments, measured in terms of its strategic priorities. Key outputs delivered show significant progress in the eradication of household backlogs by the city. Nationally, our municipality is used as a financial model for financial governance and we are making great strides environmentally.

The municipality has recently been ranked second best amongst eight major South African cities for its sound financial management and fiscal policies. We continue to maintain unqualified audits each year which strengthens the municipality's vision of receiving clean audit reports ahead of government's 2014 clean audit target. eThekweni continues to review and develop sound policies, procedures and systems.

In recognition of our service delivery progress, the municipality has received the following awards:

- Diamond Arrow - Outstanding 1st Overall for the following categories:
 - Cities/Towns doing most to attract Foreign Affairs Investments
 - Cities/Towns doing most to attract Local Investments
 - Cities doing most for Societal Upliftment

- Golden Arrow for the following categories:
 - Cities/Towns doing most for Job Creation - 1st Overall
 - Cities/Towns doing most to attract tourism - 2nd Overall
 - Cities/Towns doing most to clean the environment - Joint 2nd Overall
- Social Housing Project Award - South African Housing Foundation
- Best Green Drop Performance Award - Waste Water Management System

6.3.2 SERVICE DELIVERY STANDARDS, LEVELS OF SERVICES, OUTCOMES, TIMETABLE FOR ACHIEVEMENT AND FINANCIAL IMPLICATIONS

The city is justifiably proud of its excellence in infrastructure delivery and the exceptional expenditure performance record which averages at over 100% over the medium term. This record has been achieved through careful, dedicated management of its project pipeline. This ensures that projects are identified early, designed effectively, approved expeditiously and is ready to proceed by the time funds are approved in the annual budget.

Eradicating backlogs in basic services and housing as well as improving the provision of services by local government are government's most important goals. The city faces development pressures emanating from backlogs in access to basic services and housing, the need to rehabilitate or replace existing infrastructure, and the need to expand infrastructure services to support economic growth. The municipality has been robustly tackling service delivery backlogs and great strides have been made in recent years. In the area of water delivery, 93.4% of our households have water available within 200m of their dwelling. With respect to sanitation, 77% of the eThekweni households have access to at least the minimum level of sanitation. The figure for electricity service connections increases annually and currently 68% of households are connected. Refuse collection from the kerbside is a service offered to 100% of households, which means all homes, both within formal and informal areas, have a once-a-week collection. All businesses have a customised refuse removal service. The upgrading of unsurfaced to surfaced roads remains a huge challenge and requires a budget in the billions to address. Priority has been given to roads that serve as public transport routes or those serving development nodes.

The following table is a summary of the current backlogs of the municipality together with the timeframes for addressing same:

Basic Service	Existing Backlog (households)	Timeframe to address based on current funding levels *
Housing	410 020	82 Years
Water	74 481	37 Years
Sanitation	231 387	14 Years
Electricity	323 000	32 Years
Roads	1 136 (km's)	103 Years

Whilst the city can pride itself on a successful and large scale mass housing delivery program, not all settlements can be provided with full services and low income housing in the short term due to funding and other constraints. As informal settlements face a range of basic challenges such as access to services, a pro-active and broad-based programme aimed at providing a range of basic interim services to a number of prioritised informal settlements within the municipality has been developed with a view to addressing these basic issues. Ablution blocks, pedestrian pathways, stormwater control, and electricity are provided to dwellings piloted in six informal settlements with the intention to dramatically upscale this program in the coming years. The interim services program also looks at broader planning issues with the intention of ensuring key social facilities such as fire and police stations, clinics, sports fields and community halls are more effectively provided.

With a view to improving housing delivery, council is implementing new and innovative ways of providing housing that is better suited to the needs of inhabitants. Innovative new housing forms and urban design solutions are being implemented with the objectives of promoting densification and providing alternatives to the current rows of single dwellings on single plots. In addition, partnerships are being investigated to include private partners in delivering housing for those who can afford a modest housing loan. It is acknowledged that backlogs will take many years to eradicate. The intention is to deliver rapidly to as many settlements as possible instead of providing a high level of service to only a small number of selected settlements.

In order to address backlogs in community facilities, an innovative model, termed the Social Facilities Accessibility Model, has been developed to match the demand for facilities, based on population numbers and income and age profiles, with the supply and capacity of facilities geographically. This assessment shows the nature and extent of facility backlogs across the municipality and all requests for the construction of new facilities are currently being assessed within this context.

Modelling done using the Municipal Services Financing Model indicates that the city needs to invest in excess of approximately R 60 billion in infrastructure over the next ten years. The city faces invidious choices in attempting to finance these projected levels of investment.

6.3.3 FINANCIAL PERFORMANCE (2010/11 AND 2011/12): PARENT MUNICIPALITY

The 2010/2011 year has been challenging and demanding but due to the emphasis on fiscal prudence and the introduction of austerity measures at the beginning of the financial year, this enabled the municipality to weather the financial storm and the slow economic recovery. Revenue and cash streams are effectively managed and spending decisions are carefully evaluated. The municipality was able to deliver on key objectives set. The financial performance for 2010/2011 is recorded in greater detail in the municipality's Annual Report. The municipality achieved an unqualified audit report continuing the trend of previous years. Amidst the global economy still recovering from the economic recession, the city has achieved the highest credit rating given to any municipality in the country and has the highest spend and collection rates of all major municipalities.

The municipality's financial performance and position is sound mainly due to the following factors:

- Budgets are balanced, being financed from the current financial year's revenues.
- The municipality operates within its annual budget, as approved by council.
- The municipality maintains a positive cash and investments position.
- Consistently high revenue collection rates are being achieved.
- The municipality has maintained a favourable credit rating.

OPERATING BUDGET

In respect of the 2010/11 financial year, expenditure in the amount of R 20.7 billion was fully funded from the municipality's revenues and grants and subsidies from National and Provincial Government.

The financial performance for the year to date to February 2012 is summarised in the table below.

Summary Statement of Financial Performance				
Description	2011/12 Adjusted Budget R'000	February YTD Budget R'000	February YTD Actual R'000	Forecast R'000
Total Revenue By Source (Excluding Capital Transfers)	(21,508,394)	(14,338,929)	(13,995.885)	(20,966,315)
Total Operating Expenditure & Contributions	21,508,394	14,338,929	12,705,541	20,966,315
SURPLUS	0	0	(1,290,345)	0

Operational Expenditure and Income Performance (2011/12)

Expenditure

The year to date results indicates a spend of 59% of the adjusted budgeted operating expenditure of R 21 billion. Current spending levels indicate that there will be above a 98% spend on the operating budget by year end.

The expenditure on employee related costs is at 66.2% of the adjusted budget, which is deemed reasonable, taking cognisance of the process of filling of vacant posts and payment of bonuses in the first half of the year. Employee related cost is currently 28% of the total operating costs, which compares favourably to the previous year's percentage of 29%. Repairs and maintenance reflect a slight under-spending for the first eight months (52%), when compared to the same period last year (53%). The low percentage is mainly due to entries yet to be processed. However, it is anticipated that the full budget will be utilized by year end. The repairs and maintenance expenditure is approximately 9.3% of the total operating expenditure to date and is higher than the average spend by municipalities in the country.

The water loss in distribution has increased from 33.2% in June 2011 to 35.3% (R 285m). In view of the substantial investment in the water pipe replacement program, the water loss is still a cause for concern. However, interventions are in place to bring this percentage closer to the budgeted 30% for this financial year. The number of new water connections to date is 6 926 which is 69% of the target. The 5.5% (R 222m) electricity loss in distribution is in line with the budget. The new electricity connections to date is 10 332 (52%). It is envisaged that the target of new connections will be met by year end.

The level of outstanding traffic fines is relatively high. This is mainly due to the culture of non-payment and adverse economic conditions. However, this is expected to improve by the next quarter, with the introduction of new enforcements, such as roadblocks and the "Number Plate Recognition System" and payment incentive schemes for outstanding fines.

Income:

- The proportionate increase in Property rates income to date (R 236m) is mainly attributable to the billing of annual ratepayers in October 2011.
- Decrease in year to date penalties and collection costs on arrear rates accounts amounted to R 24m. However, there are still outstanding entries to be processed and it is expected that these charges will be fully recovered by year end.
- A R 123m year to date decrease in the Water-Service Charges is mainly attributable to the illegal connections as well as consumption by consumers who are not yet on the billing system.
- Decrease in service charges: sanitation - other (R 22m), is mainly attributable to lower water sales as sewer user charge is based on water consumption.
- Decrease in interest earned on outstanding debtors is mainly attributable to prescribed water debtors being written off (R 6m).

- The police fine income to date is lower than anticipated by R 18m. This is mainly due to the culture of non-payment and adverse economic conditions. However, this is expected to improve in the ensuing months, with the introduction of various new enforcements as indicated earlier and the Number Plate Recognition System.
- The year to date increase in Operating Grants (R 253m), is attributable to Equitable Share grant received in advance.

CAPITAL BUDGET

The capital budget totalled R 5.4 billion in 2010/11. This was funded by National and Provincial grants in the amount of R 2.1 billion and R 1.0 billion being funded from Council's internal sources, with the balance of R 2.3 billion from external funding.

Capital Budget Performance

The following chart compares the year to date capital budget to the year to date actual expenditure over the eight months ending 29 February 2012.

Summary Statement of Capital Expenditure : February 2012				
Description	2011/12 Adjusted Budget (R'000)	YTD Budget (R'000)	YTD Actual (R'000)	Forecast (R'000)
Total Capital Expenditure	5,282,170	3,521,447	1,951,635	4,959,646
Total Capital Financing	5,282,170	3,521,447	1,951,635	4,959,646

Progressive Capital Budget vs Actual

The following chart compares the year to date capital budget to the year to date actual expenditure over the eight months ending 29 February 2012.

The capital expenditure as at the end of February 2012 is approximately R 1.9 billion, which is 37% of the adjusted budget amount. This is a 10% reduction when compared to the previous year figure of 47%. Current spending levels indicate a 93.9% spend on the adjusted budget will be achieved by year end.

Spending on Conditional Grants

56% of the allocated grants and subsidies for the 2011/12 financial year have been spent as at 29 February 2012 and it is expected that all the grants received will be spent at year end.

6.4. BACKGROUND TO THE BUDGET PROCESS

The adoption of the 2011/12 Medium Term Budget for the eThekweni Municipality on 14 April 2011 laid the foundation by which strategic functions within the municipality could apply sound financial planning and management over the medium to long term. It facilitated the critical alignment of planning, budgeting and sustainable service delivery in line with eThekweni's vision of being Africa's most caring and liveable city.

The purpose of the 2012/13 Medium Term Budget is to comply with the Municipal Finance Management Act (No. 56 of 2003) and is a financial plan to enable the municipality to achieve its vision and mission through the IDP which is informed by our five year programme and community/stakeholder inputs. The draft budget was the start of a journey towards this final budget for approval. It included many processes both politically and administratively, amongst others, consultations with communities in the municipal area.

6.5 BUDGET SUMMARY

6.5.1 MID TERM OUTLOOK: 2012/13 - 2014/15

CAPITAL BUDGET

The capital budget is directly informed by the needs submitted by the community through the IDP process. In view of borrowings being maximised and the present economic climate, the high levels of capital expenditure cannot be sustained. Over the next three financial years, 2012/13 to 2014/15, capital spending is projected to increase slightly to R 5.3 billion in 2012/13 and to R 5.8 billion in 2014/15.

The capital budget continues to reflect consistent efforts to address backlogs in basic services and the renewal of the infrastructure of existing network services. The city has allocated R 9.75 billion of the proposed budget on built environment programmes across the three years of the 2012/13 MTREF. This amounts to 70% of total capital spending in this period. Over one-third of this allocation is directed to new housing developments, while 32% is allocated to asset maintenance interventions.

OPERATING BUDGET

The operating budget, which funds the continued provision of services provided by the municipality, increased from R 23.5 billion in 2011/12 to R 26.2 billion in 2012/13 and R 28.6 billion in 2013/14 and R 31.4 billion in 2014/15 respectively. The growth is mainly in the following areas:

- Cost of bulk purchases (Water and electricity)
- Cost of addressing service delivery backlogs
- Repairs and maintenance of infrastructure
- Employee related costs as a result of filling of vacancies and provision for salary increase
- Impact of capital spending on the operating expenditure

6.5.2. BUDGET ANALYSIS

Bulk purchases take up to 30% of the operating budget. Given projected increases in the bulk prices of both electricity and water, expenditure on this item is likely to grow more rapidly. Expenditure on repairs and maintenance amounts to R 2.5 billion for the 2012/13 year, representing 9.5% of the total operating budget, which is above the national average and above that of most metros in the country. The municipality acknowledges its obligation to preserve its extended asset base optimally as underspending in maintenance can shorten the life of assets, increase long-term maintenance and refurbishment costs and cause a deterioration in the reliability of services. Municipal employees and the skills they bring to the workplace are a critical input in the delivery of all services a municipality delivers.

Personnel costs account for a large component of operating expenditure, comprising 24.2% of the operating budget. Budget appropriations for depreciation amount to R 1.8 billion, comprising 6.8% of the operating budget. Finance charges consist primarily of the repayment of interest on long-term borrowings (cost of capital) and equate to 4.7% of the operating expenditure.

Some of the major items of operating expenditure are:

DETAILS	2012/2013 (R'm)	% OF TOTAL BUDGET
Bulk Purchases	7 839.7	29.9
Salaries and Allowances	6 342.4	24.2
Repairs and Maintenance	2 489.7	9.5
Depreciation	1 777.6	6.8
Interest on Loans	1 239.1	4.7

The proposed tariff increases for the medium term are as follows:

SERVICE	2012/2013	2013/2014	2014/2015
Assessment Rates	6.5% *	6.5%	6.5%
Water			
- Residential	12.5%	6.5%	6.5%
- Business	15.5%	8.5%	8.5%
Electricity	11.0%	11.7%	12.4%
Sanitation	6.5%	6.5%	6.5%
Refuse	7.0%	6.5%	6.5%

CAPITAL BUDGET HIGHLIGHTS

Investment in urban infrastructure is important for the development of the local economy, combating poverty and the provision of universal access to municipal services. Rapid inward population migration, declining household sizes and greater economic activity places pressure on existing municipal infrastructure and requires larger investments in the periods ahead. To meet the demand for infrastructure, the projected capital expenditure budget for the 2012/13 MTREF period is R 5.3 billion (2011/12 - R 5.1 billion). In line with strategic priorities, the major capital investments made by the city have been in Water services and Housing.

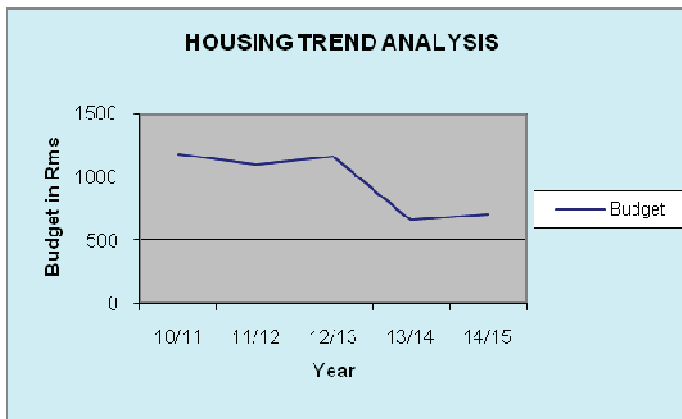

The following are some of the MAJOR Capital programmes, which have been included in the MEDIUM Term Capital budget:

PROJECT / ITEM	R' m
Water loss intervention programme	185.0
Electricity Infrastructure	1 961.5
Low cost housing and infrastructure	1 986.6
Northern Aqueduct - Water	379.2
Western Aqueduct - Water	893.0
Solid waste transfer system	120.0
Upgrade of roads and new access roads	1 850.2
New wastewater treatment works and upgrades	1 559.7
IT: Strategic Projects	303.7
King Shaka Airport : Infrastructure	100.0
Port Expansion and Freight Route	220.0
Infrastructure to meet backlogs:	
- Water and sanitation	605.3
- Roads and stormwater	298.4

*- 6.5% is the increase in year on year income based on new property valuations. The average increase in actual rate randages is 0.7%.

6.5.3 INFRASTRUCTURE EXPENDITURE TRENDS

CAPITAL

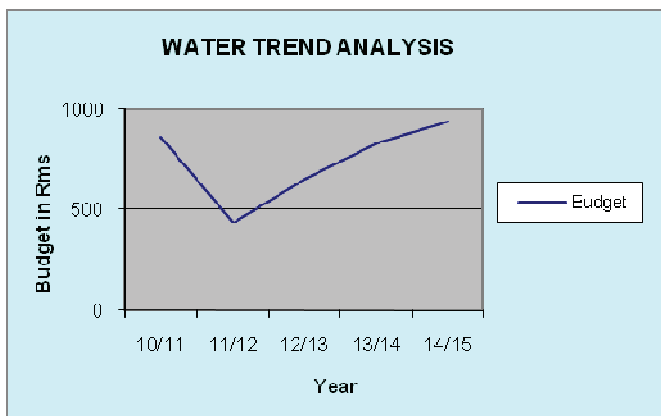

- Reduction of the housing delivery program in view of reduced subsidies and the economic climate.
- 8 500 new housing units - 2012/13 year, targeting a total of 32 000 units by 2016/17
- The construction of houses is dependent on National / Provincial subsidies.
- Approximately 164 000 homes delivered to date.
- Interim services rollout to prioritised informal settlement dwellings.

OPERATING

- New development budget increased to R 101.9m
- Upgrading of housing rental stock : R 60m
- Hostels budget: R 299m

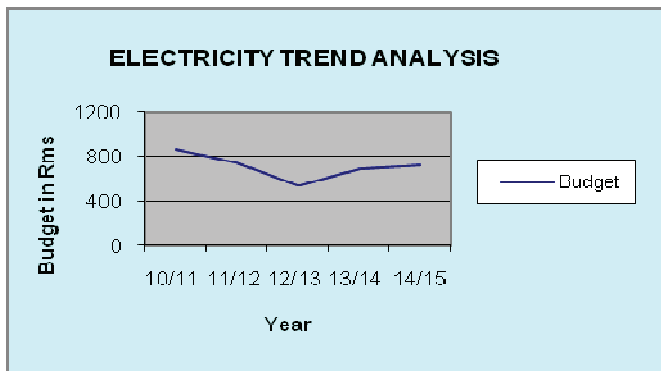

WATER TREND ANALYSIS

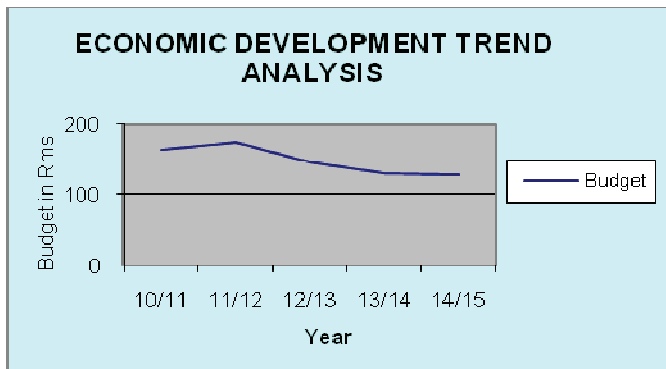

- Additional operating expenditure of: R 464.8m
- Bulk water Purchases: 17.2% increase
- Additional 7 300 water connections
- Increase in maintenance: R 37.1m
- Water loss in distribution reduction from 35% to 33%
- Collection rate of 92.2% mainly due to economic downturn

- Upward trend due to investment in infrastructure and addressing of backlogs.
- Following legal delays, the expenditure on the Western Aqueduct and the design of Northern Aqueduct projects will materialise in 2012/13
- Continuation of Water Loss Programme

CAPITAL

- Capital budget of R 2.6bn over next 3 years.
- Ongoing extension and reinforcements of existing networks
- R 150m replacement of 11kv distribution switchgear for Metro area over the next 3 years
- In excess of 15 Major new substations to be commissioned or refurbished.
- Compliance with legislation requiring Smart Metering to be implemented by 2012 - Project value in excess of R 68m

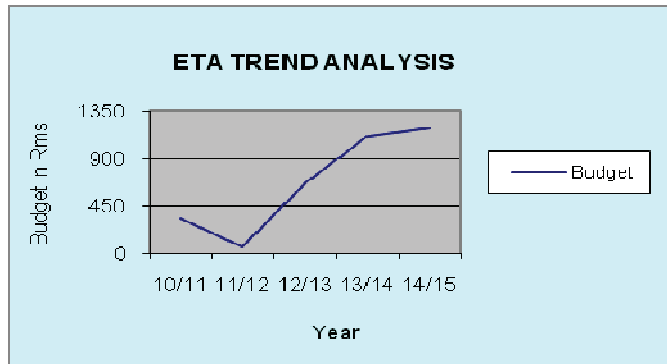

- Focus on strategic township development, town centre renewals, Industrial renewals, upgrading of tourism nodes and corridors, sector support programmes and LED projects.
- Neighbourhood Development Partnership Grant used to create economic infrastructure in undeveloped areas that attracts private sector investment.

OPERATING

- Maintenance budget increased to R 748.6m
- Provision of new staff: R 35m
- Eskom tariff increase 13.5%
- Loss in distribution: 5%
- Collection rate: 98%

- Economic Development Programmes: R 16.5m
- Durban Film Office: R 2.6m
- Three Cities International marketing strategy: R 8m
- Reforestation projects - Buffelsdraai & Inanda Dam : R 8,4m
- Business Support operational projects: R 7.5m
- Travel and Tourism Trade Show(Tourism Indaba) : R 16.5m

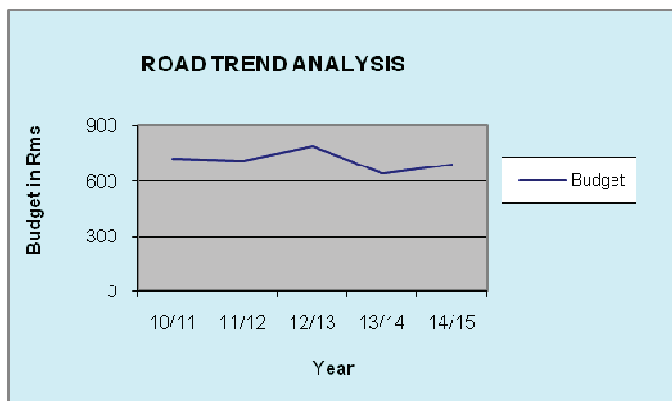

CAPITAL

OPERATING

- ACSA Bus subsidy : R 5,8m
- IRPTN Planning: R 16,6m
- People mover: R 26,5m
- Public Conveniences: R 11m
- Public Transport Ranks maintenance: R 4m
- Institutional arrangements for buses being reviewed

- Capital budget: R 667.2m
- An increase in budget is due to an increase in PTIS grant to fund Transport infrastructure for the implementation of the IRPTN.
- Major projects include:
 - Public Transport Fundamental Restructuring
 - PT holding areas
 - IRPTN
 - Traffic signs, Bayhead-Edwin Swales link

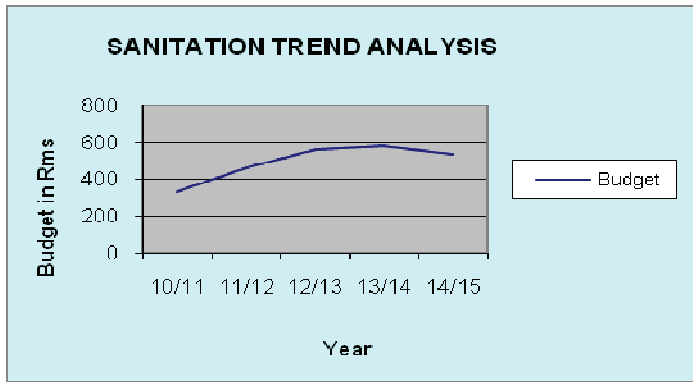

- Operating budget: R 1.3bn
- Zimbabwe Poverty Alleviation: R 68.6m
- Public realm and priority zone maintenance: R 60.6m

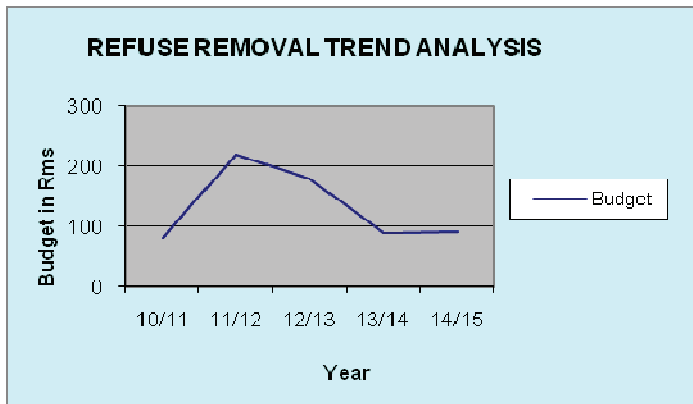

- Capital budget: R 782.9m
- Increase due to the focus on improvement of road network and infrastructure.
- Focus on refurbishment and maintenance of existing road networks.
- Constructed 295 Lane km of new roads, 493 km sidewalks, built 80 pedestrian bridges, resurfaced 1 478 lane km of existing roads and converted 297 lane km of gravel to asphalt roads.

CAPITAL

OPERATING

- Expansion of Phoenix Waste Water Treatment Works
- Kwa Mashu Waste Water Treatment Works upgrade
- Continuation of provision of Ablution Blocks in Informal settlements.

- Additional net operating expenditure: R 88.4m
- Provision for maintenance expenditure: R 254.8m
- Sludge disposal initiatives: R 48.3m
- Security costs for the protection of assets: R 33.1m
- A 5% allowance for possible bad debts: R 30.1m

- Achieving nearly 100% coverage in the municipal areas by utilising community based contractors to provide refuse removal services to all the informal areas: R 229.0m
- Waste minimisation projects : R 11.7m
- Gas to electricity - Expenditure: R 32.9m, Income: R 67.5m
- Provision of two refuse bags for all households. In addition, the unit is now providing refuse bags for township contractors

- The focus areas include new cell development to increase the life span of the existing landfill sites and the development of the new Lovu Landfill site.
- Council is establishing a new transfer station in Electron Road due to the closure of Bisasar Rd Landfill site.
- Increased allocation for the replacement of ageing Solid Waste Fleet.

6.6 MAJOR ITEMS OF EXPENDITURE

ITEM/DESCRIPTION	R' m
6.6.1 HUMAN SETTLEMENTS AND INFRASTRUCTURE	
• Point pump station upgrade	50.0
• Upgrade Ohlanga / Phoenix link sewer	40.0
• Kwa Mashu waste water treatment works upgrade	100.0
• Addressing of sanitation backlogs	40.0
• Expansion of Phoenix water treatment works	35.0
• Providing ablution facilities in informal settlement sites	100.0
• Western Aqueduct project and Northern Aqueduct improvements	433.2
• Water loss management project	40.0
• Electron Road waste transfer station	120.0
• Zibambebe poverty alleviation project: roads/verge maintenance	68.6
• Housing delivery programme: 8 500 units	995.0
• Rehabilitation and upgrading of housing rental stock	6.0
• Upgrading and conversion of hostels into family units	165.0
• Roads rehabilitation and maintenance	199.0
• Gravel roads maintenance	214.0
• Electricity network maintenance	20.0
• Strategic Roads Assets management	10.0
• Drains cleaning and maintenance	156.0
• Maintenance of priority routes	46.6
• Rivers and stream cleaning	39.0
• Stormwater Infrastructure	15.0
• Structural maintenance - bridges etc	16.8
	11.8
6.6.2 CORPORATE AND HUMAN RESOURCES	
• Continual roll out of employee wellness interventions	2.7
• A Talent Management Framework and strategy implementation	2.3
• Roll out of Sick Leave Management Strategy to reduce sick leave absenteeism	0.5
• Medical Surveillance: detection and management of occupational diseases	1.5
• HIV and AIDS counselling and testing services for employees	1.3
• Management Development Programmes: development of the municipality's leadership	5.1
• Adult Basic Education & Training (ABET): general level of education	4.8
• Learnerships/Skills/Apprenticeships Programmes: Learnerships will be implemented / continued for targeted units	6.3
• Scarce Skills interventions for maths, science and technology and other technical areas	1.3
6.6.3 SUSTAINABLE DEVELOPMENT AND CITY ENTERPRISES	
• Cato Manor ABM operational projects	2.7
• Umlazi operational projects	4.2
• Economic programmes, improve and grow the economic base of the city	16.5
• Durban Film Office programmes	2.6
• Reforestation project (Buffelsdraai and Inanda)	10.3
• Durban Tourism bid support and presentations - attraction of major national sporting events	5.0
• Three Cities international marketing strategy	8.0
• Tourism Indaba-Travel and Tourism Trade Show	16.5
• Durban Tourism brand advertising and domestic marketing	9.0
• Durban Tourism Events	5.3
• Business Support operational projects	7.5
• Durban Business Fair-Create platforms for interactions and networking amongst business	8.2
• Sector Development and Creative Industries	16.3
• Town Centre Renewal	77.0
• Neighbourhood Development Programme-KwaMashu	10.0
• Tourism Development	17.4

6.6.4 GOVERNANCE

• Food Aid Programme: 18 soup kitchens	7.5
• Senior Citizens Concert: special events recognising our senior citizens	12.2
• Community based planning & implementation	3.0
• Regeneration and upgrade of City Hall	16.4
• Printing and distribution of Municipal Gazette: Ezasegagasini	8.7
• Ward Committees training	1.6
• Renovations to regional centres/administration buildings	4.5
• Security services at all regional centres in the municipal area	13.1

6.6.5 OFFICE OF THE CITY MANAGER

• Legislative Compliance: rationalisation of the municipalities by-laws	2.5
• Sale of broadband: Income	21.5
• Maintenance, management and monitoring of the municipality's IT network	37.6
• Programming: systems software	16.5
• Special events: special and ad hoc events, conventions / international conferences	68.7
• Stadium Management	71.5

6.6.6 SAFETY & SECURITY

• Fleet maintenance for Fire & Emergency unit	6.2
• Specialised fire fighting support vehicles	8.3
• Public/Private partnership for effective policing of the parking meter system in the city	4.4
• Electronic traffic enforcement	5.4
• Disaster risk assessment	4.5
• CCTV camera repairs	5.3
• Installation and maintenance of the Emergency Services System	4.1
• Implementation of Safer Cities Plan	2.7
• ITRUMP operational projects	3.7
• External security for safeguarding of council assets	380.0

6.6.7 HEALTH AND SOCIAL SERVICES

• Water Safety Awareness: learn to swim programme - approximately 5 000 learners	0.5
• Use of cooperatives / emerging contractors for maintenance of facilities	4.5
• Grass cutting and weed control: contractors	46.5
• Provision of pool chemicals at swimming pools: Water quality	4.0
• Take-on of new facilities: stadia	2.3
• Youth sports development and football league	2.5
• Celebrate Durban Sport Programme: 100 wards	1.5
• Participation in Kwanaloga Games	2.4
• Arts and culture interventions	2.5

6.6.8 TREASURY

• Land and property rights acquisitions	5.0
• Fleet replacement	10.2
• Maintenance of vehicle and bus fleet	149.1
• Energy saving marketing projects	2.0

6.7 CHALLENGES FACING THE MUNICIPALITY

6.7.1 CLIMATE CHANGE

Climate change is likely to cause a number of challenges for eThekweni Municipality, linked to global impacts such as extreme weather events (e.g. flooding and drought), sea level rise and rainfall variability. Temperatures in Durban are likely to increase and projected annual rainfall changes are likely to include a general wetting and an increase in rainfall. There is also likely to be an increase in extreme rainfall events and stream flow across the municipal area. Sea level rise along the municipality's coastline is already occurring at 2.7 cm per decade and may accelerate into the future. These changes in temperature and rainfall may lead to numerous impacts on water availability, agricultural productivity and food security particularly in subsistence farming areas. Temperature increases will also likely cause the spread of water and vector borne diseases such as malaria and cholera to previously unaffected areas in Durban. Water availability is a key climate change related vulnerability and negative impacts on the availability of water will be felt by people, ecosystems and the economy.

Current predictions are that a number of economic and tourist areas may be affected by sea level rise; infrastructure, together with coastal vegetation, will be damaged. Damage can also be expected from an increase in the frequency of extreme events such as flooding and storm surges. It is therefore clear that climate change is a threat to sustainable development and could undermine poverty alleviation efforts and have severe implications for food security, clean water, energy supply and environmental health.

eThekweni Municipality views the issue of climate change in a serious light and is developing appropriate mitigation and adaptation plans within the context of its Municipal Climate Protection Program initiated in 2004. This is a phased programme, which has focused on climate change adaptation and enhancing the city's ability to cope with climate change impacts. To do this, the Municipal Climate Protection Programme determined the likely impacts that the municipality will face in the future, and is developing plans, programmes and projects to assist the Municipality in dealing with these impacts.

6.7.2 THEFT OF ELECTRICITY

Many outages are experienced on the electrical network during the year due to theft of electrical infrastructure, causing the majority of temporary blackouts around the city. Anti-theft campaigns and mitigation strategies continue to restrain this endemic. The Electricity Unit has established a Revenue Protection Branch that is actively involved in the removal of illegal connections and the reduction of the theft of electricity in both the formal and informal areas within the municipality. Security intelligence teams are deployed on the ground coupled with undercover investigators to help purge the city of this problem.

6.7.3 COST OF ELECTRICITY AND ENERGY SAVINGS

The scale of the country's electricity tariff increases are the biggest single threat to the country's inflation outlook. The latest electricity tariff increases although adjusted downward remains a large one and will likely still add to the liquidity pressures on municipalities. The new tariff regime will impact on municipalities directly, as expenditure for electricity purchases will increase with the higher costs passed on to consumers, thereby creating revenue collection difficulties.

In the area of conserving energy in Municipal offices and facilities, the eThekweni municipality has recently embarked on a concerted energy drive, realized through the eThekweni Energy Office. Over the last year, the Architecture Department and the Energy Office have begun implementing a program to install energy efficient lights and "occupancy sensors" in the big municipal office buildings. The purpose of the program is to reduce the electricity consumption in these buildings and to help fight climate change by reducing the municipality's carbon footprint. Ten office buildings have been included in the program so far. The energy efficient light bulbs that are being installed as part of the program are called "Electronic Ballast". These lights are specifically designed for multiple switching in short period of time. The benefits for the program overall are:

- Decreased electricity demand (Lower peak demand)
- Less electricity used (Lower consumption)
- Reduce greenhouse gasses by using less electricity
- The bulbs will last longer because they are used less and will cost less to maintenance
- Reduced fire hazard with lights burning in un-occupied areas
- Setting a good example for the public by being energy efficient.

6.7.4 UNFUNDED MANDATES AND FUNDING REALITIES

Certain non-core functions and services which in terms of the constitution fall under the responsibility of National or Provincial Authorities are being provided by the municipality. These functions include the provision of Health Services, Libraries, Museums, and Housing. The reduction or non - payment of subsidies for these services require the municipality to allocate its own resources to make up the shortfall. Although we have done much to address the development challenges of our city, meeting targets will continue to depend on financial support from Provincial and to a larger extent National Government. We believe that given adequate levels of funding, our city could meet the huge challenges we still face.

It is pleasing to note that in order to address their constitutional mandate, the Provincial Department of Arts and Culture has indicated that there will be phasing in specific funding allocations in respect of the library service (subsidy towards staffing costs) with effect from the 2012/13 financial year. Regarding the Health Service, the ongoing engagement with Province has yielded some positive results in that the level of subsidy is increasing towards this function. The transfer of these subsidies is subject to terms and conditions, with reporting requirements, which will be agreed upon by both parties under signed Service Level Agreements.

The unfunded mandates for 2012/13 are as follows:

	<u>R'm</u>
Libraries	196.2
Health	411.0
Museums and Heritage	48.3
Housing: New development and Hostels	189.1
Formal Housing	41.8
	<hr/> 886.4 <hr/>

6.7.5 SALARIES AND ALLOWANCES

In order to ensure effective utilisation of available budgetary provisions and contain personnel costs, this expenditure is continually being reviewed and the filling of all vacancies currently has to be authorised prior to the recruitment process. As a result the percentage Salaries and Allowances of the total Operating Budget has declined steadily over the years to a level of 24.2%. Whilst this percentage reflects a decreasing trend (mainly due to the bulk electricity purchases increasing at a fast rate thereby driving the relative share of all other expenditure categories down) there has been an increase in the number of posts and positions filled in the past three years together with the conversion of temporary staff to permanent.

6.7.6 UNACCOUNTED FOR WATER (LOSS IN DISTRIBUTION)

The water loss in distribution has increased from 33.2% in June 2011 to the current level of 35.3%. In view of the substantial investment in the water pipe replacement program, the water loss is still a cause for concern. Water loss management is an ongoing project aimed at reducing the real water losses in the municipal area. Initiatives to reduce the water loss are continuing and based on the intervention plan established, a system of performance monitoring and reporting for each of the identified interventions has been established. Pressure management, replacing of ageing infrastructure, leak detection and accurate metering are some of the methods being applied. In order to further address the growing trend of non-revenue water, a dedicated team of water inspectors has been created to inspect all connections and meter installations and uncover instances where the illegal use of water is occurring. The water loss program seeks to reduce the municipality's water loss to 25% in the next few years.

Every possible measure will be taken to curb the water loss as this has an impact on the setting of an affordable water tariff. It is estimated that for the 2012/13 year the targeted loss in distribution will be a reduction to 33%. The effectiveness of the measures put into place will be reviewed on an ongoing basis.

6.7.7 DURBAN TRANSPORT

The institutional arrangements of Durban Transport including the existing operator model are currently under review. Various proposals are being considered in order to determine the best way forward. In order to address the challenge of a faster, more effective public transport for eThekweni residents, the municipality will, over the next three years develop an Integrated Rapid Public Transport Network (IRPTN).

The network is designed to cover the whole city including Amanzimtoti, Ispingo, Tongaat and Umlazi and is expected to operate from nine transport corridors. This will indeed be a milestone for the city in the endeavour to be on par with other global cities in respect of public transport.

Regarding operations, grant funding from the National Department of Transport was utilised to acquire 124 new buses, comprising 80 commuter buses and 44 low entry buses. These are to replace certain existing buses that are uneconomic to continue in operation. Furthermore, grant funding is being utilised for the upgrading of the various Durban Transport Depots. The city has purchased, using grant funding, a new electronic bus ticketing system and the installation of these units onto the buses has been completed. The city is currently implementing a “smart card” ticketing system, which has multi-operator and multi-modal functionality, it is intended that this system will reduce fraud and increase passenger revenue. The rollout of this system will commence in April 2012 and the system will be fully implemented by the end of July 2012.

6.7.8 HOUSING / HOSTELS

As the construction of houses is largely dependent on grant funding (National/Provincial subsidies) the housing delivery program is reviewed depending on the level of these subsidies. The high cost of acquiring land and the acute shortage of well located suitable land is adversely impacting on the delivery of low cost housing. Limited housing subsidies and increasing development costs as well as long processes of project approval are causing the program to slow down. Full housing accreditation to the municipality and direct capital flow would help to alleviate the situation. In addition, delays in the awarding of tenders and contracts being deferred have also impacted in the housing delivery program with a significant drop in the number of units being delivered. Furthermore, the cost of servicing housing sites (infrastructure) has increased substantially with council’s contribution towards the infrastructure servicing costs having increased twofold in order to meet future delivery targets.

Necessary measures on the transfer from rental to ownership will need to be taken to ensure that those tenants that do not wish to transfer be provided with alternate accommodation. The increasing deficit anticipated for the operation of the hostels is cause for serious concern.

6.8 ALIGNMENT WITH NATIONAL AND PROVINCIAL PRIORITIES

In local government, as much as there is a specific mandate given to the municipality, we have to endeavour at all times to align our efforts with that of National and Provincial government to bring about a better life for all. In developing this budget, the 12 National Outcomes as adopted by Government, have been taken into consideration. The budget addresses those challenges from a policy perspective and implementation is at an advanced stage in all areas. The municipality is confident that this budget is structured to give effect to the strategic priorities and to support long-term sustained growth and development, in line with National and Provincial objectives and with the key objectives identified in the Draft National Development Plan. Local government has a crucial role to play in the new growth path and the realisation of many of government’s twelve outcomes. All spheres of government place a high priority on expanding the economy, infrastructure development, job creation, efficient service delivery and poverty alleviation. Local priorities were identified which are mainly in line with the national and provincial priorities.

LOCAL PRIORITIES

- Expanding and improving municipal infrastructure
- Facilitating economic growth and job creation
- Accelerated and improved service delivery to communities
- Fighting poverty, and building safe, secure and sustainable communities
- Improving skills development to raise productivity

6.9 FINANCIAL STRATEGY, ONGOING VIABILITY AND SUSTAINABILITY

The vision of the city will be achieved by growing its economy and meeting people's needs so that all citizens enjoy a high quality of life with equal opportunities in a city that they are truly proud of. The needs of the community and the high levels of poverty and unemployment places excessive demands on the municipality's existing financial resources and threatens to constrain the organization financially if these resources are not properly managed.

6.9.1 FINANCIAL STRATEGY

These challenges require the development and implementation of a financial strategy that will generate adequate cash resources, on a sustainable basis:

- To provide basic infrastructure and services to the community,
- To enable the Municipality to achieve its vision of a high quality of life for all citizens in the city,
- To create an environment for business growth and investments conducive to economic development, and
- To ensure financial sustainability of the municipality into the future.

Financial sustainability and viability remain the key principles in the financial planning process and, to ensure compliance with the Municipal Finance Management Act, a Financial Strategy for the municipality was developed and adopted by Council. The municipality's response to addressing its priorities from a financial perspective is as follows:

COMPILE A BALANCED AND REALISTIC BUDGET WITH CASH FLOW TO MATCH

The municipality's budget must set out realistically anticipated revenue from each revenue source.

The following steps will be carried out in respect of expenditure and revenue items, viz.

- All Operating Income and Expenditure increases are to be maintained in line with inflation, as far as practicable. Typically Eskom's electricity tariff increase is above inflation and out of our control. Further, annual salary increases are subject to National Bargaining Council negotiations, but every effort shall be made to keep them within the band of inflation proposed by the National Government.
- An Asset Management Plan shall be implemented that will result in programmed maintenance of the municipality's assets, to enable the optimal use of such assets and to ensure their replacement.
- Depreciation Policy
 - The Municipality's depreciation policy is in accordance with the requirements of the Standards of Generally Recognised Accounting Practice (GRAP).
 - Assets are depreciated on a straight line basis over their estimated useful lives.
 - The remaining useful lives of assets will be reviewed annually and amended in accordance with the conditional assessment of the asset.
 - The annual depreciation charge will be amended accordingly.
- A programme shall be implemented to reduce the water losses from a level of 37% to 25% over a period of five years.
- In order to contribute funds for future capital expenditure and to reduce dependence on borrowed funds, a Capital Replacement Reserve shall be established, and funded from the following sources:-
 - Any betterment achieved from budgeted Water and Electricity operating results, including savings achieved through reductions in losses in distribution
 - Any betterment in Rate and General operating results
 - Dependant on the impact of tariffs, an additional contribution will be considered

- To maximize additional revenue sources, the following will be pursued:-
 - Maximize investment rates, especially on call account
 - Development charge
 - Business Tax
 - Grant income to be maximized

- Surplus Policy
 - The surplus generated annually will be reviewed and a cash backed element will be ring-fenced to finance the provision of future infrastructure and other capital projects.
 - A capital replacement reserve will be maintained.

CAPITAL EXPENDITURE

The 10 year financial model is informed by the IDP and the current service delivery backlogs. At this stage, capital expenditure is projected for the MTREF period. The capital budget is split appropriately between economic, social and rehabilitation expenditure on a 1:2:1 basis.

FINANCIAL INDICATORS

The key indicators below form the parameters within which the municipality aims to operate in order to achieve the objectives set out in this document.

- Balance Sheet Ratios:

- Gearing Ratio:-

Calculated as Borrowings over Income. Currently the industry norm is 40% but National Treasury has indicated some years ago that 50% is acceptable for municipalities. We are currently at 42% and borrowing will be curtailed to bring the ratio closer to 40%

- Current Ratio:-

Calculated as Current Assets over Current Liabilities will be maintained at 1:2:1

- No. of Days Cash and Investment on hand:

The accepted norm is 90 days. The strategy is to build the municipality's cash reserves to meet this requirement.

- Revenue Ratios:

- Cash Collection Rate:-

Currently 96%. Aim to sustain collection rate of over 95%.

- Debtors Days:-

In respect of key services this will be closely monitored. With the municipality strictly implementing a council approved comprehensive Debt Collection and Credit Control Policy, conservative approach to collection practices, the number of debtor days outstanding is projected to be maintained at around the current average levels of approximately 130 days.

- Bad Debts Provision:

Will be prudent into consideration the actual collection rate and impairment. Any debt over 120 days will be provided for.

FREE BASIC SERVICES

The municipality is required to make available free basic services to a large component of poor households. The cost of free basic services impacts on the city's finances and therefore there is a need to ensure adequate growth in the rates base by promoting economic development as this impacts on the city's ability to cross-subsidise. This also impacts on the extent that higher-end consumers subsidise indigent consumers and hence the level of tariff increases.

The implementation of this strategy will contribute considerably towards ensuring financial viability and sustainability of the organisation into the future. The budget of the municipality is funded in accordance with the requirements set out in the MFMA, thereby ensuring the municipality remains as a going concern and is able to sustain existing services and progressively extend services.

6.9.2 THE MUNICIPAL INFRASTRUCTURE INVESTMENT FRAMEWORK

The municipality has embarked on a Municipal Infrastructure Investment Framework for the city. The municipality is committed to ensuring that all backlogs in the provision of infrastructure are removed. However, this must be done in such a way so as to ensure that the municipality, which is at the forefront of infrastructure delivery, remains financially viable and have the capacity to operate and maintain this infrastructure.

The Municipal Infrastructure Investment Framework (MIIF) thus aims to establish:

- The extent of infrastructure to be provided;
- The capital expenditure required to provide this infrastructure;
- The extent to which financing is available for this capital expenditure;
- The operating expenditure required to ensure that the infrastructure provided is properly operated and maintained;
- The extent to which revenue can be raised to cover this operating expenditure, within the provisions of the Municipal Fiscal Framework.

The framework also considers the monitoring systems required to assess progress with respect to infrastructure delivery as well as processes to ensure that systems and management capacity are in place in municipalities to manage the infrastructure, with the emphasis on a municipal infrastructure asset management strategy.

6.9.3 MUNICIPAL SERVICE FINANCIAL MODELLING FOR ETHEKWINI

In order to determine the overall sustainability of eThekweni finances, a Municipal Services Financial Model (MSFM) has been completed for the municipality. The MSFM calculates the capital expenditure required over ten years to meet service delivery targets and assesses the capital finance sources available. It also calculates the operating expenditure required to operate and maintain infrastructure adequately and determines whether operating revenue available will be sufficient to cover this expenditure.

The model has provided valuable insights into the overall functioning of the municipality. Maintaining financial viability is obviously critical to the achievement of all other objectives and hence the results of the MSFM must be used to align the capital and operating budget spend in order to achieve this long term financial sustainability.

The model has been applied to the 2013/14 and 2014/15 capital budget allowing us to prioritise more effectively.

6.10 MUNICIPAL ENTITIES

Inkosi Albert Luthuli International Convention Centre (ICC)

The ICC Durban has become a vital catalyst for economic growth for Durban and KwaZulu Natal. It has made a cumulative contribution of R 11.4 billion to GDP over the last five financial years and has put Durban on the global conferencing map. The ICC has been voted Africa's leading conference centre for the 10th time by the World Travel Awards. This shows a significant growth and reflects the success of the ICC as a municipal entity which is run as a commercial enterprise that contributes to the city's development goals.

The activities of the ICC have created 3 376 direct and 4 462 indirect jobs during the 2010/2011 financial year generating 1 432 866 delegate and visitor days in Durban. Additionally the ICC Durban was a net generator of R 467 million in foreign exchange, up from R 363 million in the previous financial year and contributed R 246 million to the national fiscus in tax revenue, up from R 234 million in the previous year. The ICC's forward calendar for international conferences over the next five years clearly highlights the competitive terrain and related challenges. Despite the international economic slowdown, the ICC team in partnership with the Durban KwaZulu Natal Convention Bureau has gone all out to win five confirmed international conferences from 2012 to 2019.

The ICC will continue to focus on growing its core business and retaining the status as Africa's Leading Meetings and Conference Centre. The ICC team has successfully hosted some of the largest conferences in the world and will continue to do so.

Durban Marine Theme Park (Ushaka Marine World)

uShaka Marine World is the largest marine theme park in Africa and consists of four divisions covering 16 hectares.

Paid footfall into the two main components of the park has shown an upward trajectory over the last three years. A number of projects were completed during the past year and the December marketing campaign revolved around "new attractions". Going forward, five anchor events have been planned with each driving footfall and revenue, and ensuring that guests have an unmatched fun experience in the park.

The introduction of initiatives to target new markets will continue. The 2012/2013 budget reflects a 6% growth in total admissions with a target of 1 511 631. Voted the "Coolest Fun Destination in KZN" for the last five years, Ushaka aims to build on current platforms and partnerships with key media, sponsors and other role-players in Durban to draw tourists. uShaka Marine World continues to play a vital role in elevating Durban to a sought after tourist destination and one that is becoming increasingly popular with local tourists. The growth in footfall has continued and anecdotal evidence points towards uShaka being very much one of the "in" destinations within KZN and Durban. The Park has entered the next phase in its life cycle, whereby footfall is expected to steadily increase, whilst ageing infrastructure will need to be maintained. In the short term (i.e. 2/3 years), a consolidation approach will be adopted with an emphasis on utilizing scarce funds for priority maintenance projects, as well as quick revenue enhancing opportunities. The medium term will move towards the re-capitalisation phase with more significant upgrades required to ensure the longevity of the park.

uShaka Marine World has always set out to entertain and delight the public - both young and old, international and local. The marketing strategy coupled with superb entertainment will drive the new tag line of "UNLIMITED FUN". Furthermore, the education and conservation aspect (with SAAMBR's contribution) also forms an integral part of the overall philosophy that makes for a successful product offering to the diverse range of guests that visit the park.

The operating company management contract is due to expire on 31 March 2013. Accordingly, a report has been submitted to Council to review the institutional model for future operations.

In compliance with the Municipal Finance Management Act, both the municipal entities have submitted their budgets and business plans for consideration by the Municipality.

INSTITUTIONAL STRUCTURE: CITY'S FLAGSHIP ASSETS

Moses Mabhida Stadium (MMS)

Council has recently recommended a review of the institutional arrangements of the flagship assets in order to assess whether or not the city's flagship assets have met or are meeting the value for money, asset management and governance imperatives expected of them. The proposal for the way forward in respect of the MMS has suggested the following options as appropriate for the future management of the operations of the MMS:

- Issue a Request for Proposals (RFP) for a permanent operator with pre-conditions specified. The preferred duration of a management contract is 10 years.
- Consider the municipal entity approach similar to the ICC where a board is appointed by the owner to run the MMS operations.

7. BUDGET PROCESS

7.1 OVERVIEW

The budget process is an effective process that every local government must undertake to ensure good governance and accountability. The process outlines the current and future direction that the city would follow in order to meet legislative stipulations. The budget process enables the city to optimally involve residents and other stakeholders in the budgeting process.

The budget preparation process is guided by the following legislative requirements:

- Municipal Budget and Reporting Regulations
- Municipal Finance Management Act
- Municipal Systems Act and
- Municipal Structures Act

The municipality's Budget/Integrated Development Plan (IDP) Review process for the 2012/13 financial year started with the development and approval in August 2011 of the "Budget Process Plan for the Budget Formulation and IDP Review". The timetable provided broad timeframes for the IDP and budget preparation process. The main aim of the timetable is to ensure integration between the Integrated Development Plan and the budget towards tabling a balanced budget.

In October 2011, a budget workshop was held as a prelude to the commencement of the budget process to review the 2011/12 budget and to enable strategic discussions pertaining to the budget process. The workshop dealt with past performance trends of operating and capital budgets, identified budget realities going forward and set the criteria and basis to be used in the appropriation of financial resources amongst city functions during the budget cycle. Thereafter budget instructions (broad expenditure parameters) were issued to departments by the Budget Office. Budget meetings were also held with various clusters. At these meetings, budget strategy, budget policies and the alignment of the operating budget with the IDP were discussed. Departments thereafter submitted inputs and a first draft was compiled during January 2012. The IDP's strategic focus areas informed the development of the budget, in addition to assessing the relative capacity to implement the budget, taking affordability considerations into account.

During February 2012, further deliberations were held on the budget with the various Cluster Heads and their teams with a view to assessing the budget and reducing the deficit in order to ensure that the increase in rates and tariffs to balance the budget was restricted to an acceptable level. Furthermore, the City Manager hosted a two day IDP and Budget workshop on 27-28 February with senior municipal officials and councillors. The workshop was an information sharing session and covered a wide range of national, provincial and local government initiatives. The following initiatives were covered at the workshop:

- The implication of the National Spatial Vision 2030 on local government, presented by the National Planning Commission
- Alignment of local government programs to the Provincial Growth and Development Strategy
- The Municipalities role in Sukuma Sakhe (War on Poverty) program.
- Series of initiatives by Ethekwini Municipality i.e. IDP, Long term Development Framework, Community Facilities and Access Modeling, Infrastructure Sector Planning, MIFF Modeling, Performance Management.

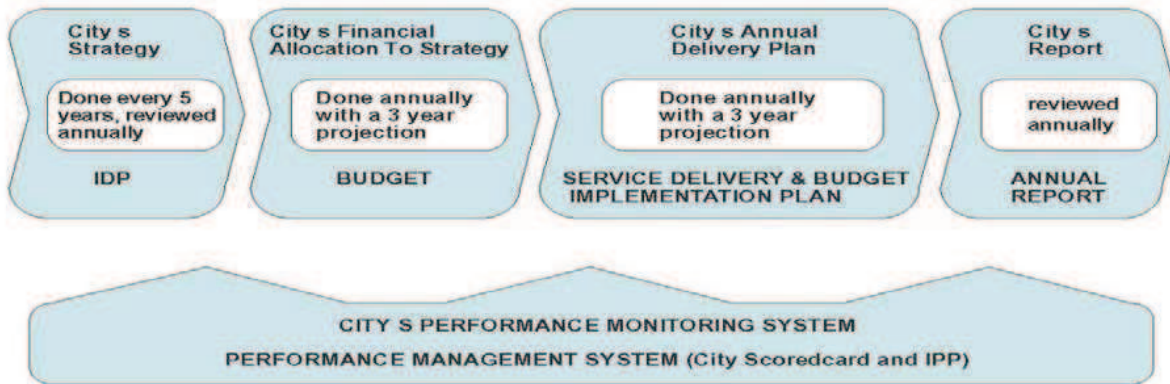

Councilors were given the opportunity to engage with the presenters. There were further presentations on the cluster budgets at the workshop. The attendees at the workshop agreed that the cluster budgets would be further deliberated at the committee level. Councillors would also discuss the need for a dedicated session on the IDP.

The mechanism through which the needs of the municipality are identified and priorities set is the Integrated Development Plan (IDP). The capital budget is then accordingly allocated to cover the higher priority projects in the IDP. The first draft of the capital budget for the MTEF commencing 2012/13 reflected an over subscription for all three years. A series of meetings were held during October and November 2011 to ensure that the budget is prioritised, balanced and aligned to councils IDP. A review of the capital borrowings and capital spending took place as the trend in borrowings is not sustainable in view of the increased financial charges and the impacts on tariffs.

The following principles were applied in formulating the medium term capital budget:

- Access modeling used when considering requests for community facilities
- The 2012/13 capital budget as approved in the previous years MTEF has been used as a base
- Budget must be aligned to the IDP
- All grant funding had to be verified

During the prioritisation process of the capital budget, the impact of capital projects on future operating budgets was assessed and considered prior to these projects being approved. Both the operating and capital budgets have been evaluated through a prioritisation mechanism that ensures alignment to the development strategy of the municipality. The draft capital budget for the 2012/13 year was approved in principle by council at its meeting on 2011-12-09. The budgets for the 2013/14 and 2014/15 years were prioritized using the recently introduced Municipal Structures Financial Model (MSFM). This allows the budget to align itself to the IDP and National Priorities with a view to sustainability.

7.2 POLITICAL OVERSIGHT OF THE BUDGET PROCESS

The key to strengthening the link between priorities and spending plans lies in enhancing political oversight of the budget process. Strengthening the link between Government's priorities and spending plans is not an end in itself, but the goal should be enhanced service delivery aimed at improving the quality of life for all people within the City. The Strategic Management Team has a significant role to play in the financial planning process.

Section 53(1)(a) of the MFMA states that the mayor of a municipality must provide political guidance over the budget process and the priorities that must guide the preparation of the budget. The Strategic Management Team and the Executive Committee advise Council accordingly. Political oversight of the budget process allows Government, and in particular, the municipality to manage the tension between competing policy priorities and fiscal realities.

7.3 SCHEDULE OF KEY DEADLINES RELATING TO BUDGET PROCESS

The budget time schedule for the compilation of the 2012/13 budget cycle was approved in August 2011, well before the start of the budget year and in compliance with the MFMA.

The table below provides an extract of the key deadlines relating to the budget process:

DETAILS	DATE
Draft Capital Budget to Council	9 December 2011
Tabling of Annual Budget: Council	29 March 2012
Regional Hearings on the Budget	19-26 May 2012
Approval of Final Budget	30 May 2012
Approval of SDBIP by the Mayor	27 June 2012
Submission of Approved budget to National Treasury/ DPLG/Provincial Treasury	13 June 2012

7.4 PROCESS FOR CONSULTATIONS WITH EACH GROUP OF STAKEHOLDERS AND OUTCOMES

Section 22 of the MFMA requires that after tabling of the annual budget in Council, the municipality must make public the annual budget and also invite the local community to submit representations thereon. The municipality prides itself of enjoying the reputation of actively engaging many of its citizens as possible in its planning, budgeting, implementation and monitoring processes.

Accordingly, the tabling of the draft Budget in council on 29 March 2012 was followed by extensive publication of the budget documentation in the council's newspaper, Metro eZasegasini in April 2012. Copies of the tabled budget in both electronic and printed formats were submitted to National Treasury as well as the Kwazulu-Natal Provincial Treasury and the Provincial Department of Co-operative Governance and Traditional Affairs. The tabled budget was also published on the council's website. In terms of the Municipal Systems Act and in conjunction with the Municipal Finance Management Act, hearings on the budgets were held during May 2012.

The following notice was published in the media inviting ratepayers, residents, business owners and other stakeholders to have their say.

BUDGET 2012/13 REGIONAL HEARINGS			
His Worship, the Mayor, Cllr James Nxumalo is calling on residents of eThekweni to participate in the 2012/13 draft budget regional public hearings to be held on 19-22 May 2012. This is your opportunity to be heard before the adoption of the budget. Residents are encouraged to come forward and have their say. Details of the hearings are as follows:			
ZONE	TARGETED WARDS	DATE AND TIME	VENUE
1	83, 84, 85, 86, 87, 88	20 May 09h00	D Section Umxenge Indoor Sport Centre
2	77, 78, 79, 80, 81, 82	20 May 10h00	V Hall
3	1, 4, 5, 6, 7, 91	19 May 10h00	Mpumulanga - Emagaba Hall
4	23, 24, 25, 29, 33, 36	19 May 09h00	City Hall (Zone 4 ad 5 to be combined)
5	26, 27, 28, 30, 32, 64, 101	19 May 09h00	City Hall
6	18, 19, 20, 21, 22, 92	20 May 13h00	Clermont Hall
7	67, 96, 97, 98, 99, 100	20 May 09h00	Illovu C Hall
8	33, 66, 68, 69, 74, 75	20 May 14h00	Lamontville Community Hall
9	51, 58, 59, 60, 61, 62	19 May 14h00	Dianthus Primary School
10	3, 38, 42, 43, 44, 55, 56	20 May 10h00	Ntuzuma F Hall
11A	11, 37, 48, 102	19 May 13h00	Newlands Community Hall
11B	34, 35	21 May 18h00	Red Hill Hall
12	17, 63, 65, 70, 71, 72, 73	20 May 12h00	Chatsworth Youth Centre
13	76, 89, 90, 93, 94, 95	19 May 10h00	Ramalinga Hall
14	39, 40, 41, 45, 46, 47	20 May 12h00	C Hall KwaMashu
15	49, 50, 52, 53, 54, 57	22 May 18h00	Bester Hall
16	12, 13, 14, 15, 16	19 May 10h00	Dassenhoek Hall
17	2, 8, 9, 10, 103	20 May 10h00	Hillcrest Library

Notwithstanding the taxi strike and non availability of buses during the weekend of the hearings, the number of people that attended to these hearings was similar to the last time that regional hearings were held. Councillors chaired the meetings and Senior Officials made presentations. All questions raised were recorded together with the responses. Feedback from these meetings is being forwarded to the appropriate departments for comment and action. Generally, issues raised by the community were in respect of service delivery, more especially around housing, refuse removal, water, electricity, sewage disposal and free basic services. A detailed report on issues raised by the community during these hearings is being prepared and will be circulated separately.

However some of the issues raised include:

Rates

During the process of public consultation the R20 per month fixed rate charge to the indigent i.e. homeowners' whose properties were valued up to R185 000 was a concern and in the context of a challenging socio-economic environment, this proposed charge has been reviewed and will no longer apply.

Housing

The reduction of the housing delivery programme from previous annual targets of 16 000 housing units to 8 500 housing units was a major cause of concern. High level liaison with the MEC-Province is continuing with the view to negotiating increased subsidies and accelerating the Housing Delivery Programme. Other issues raised included the poor quality of housing and requests for more housing in certain areas.

Water

The unaccounted for water percentage is still a cause for concern.

Health

Shortage of clinics was a concern in certain areas. There were many requests for this service and that existing clinics should have extended hours to cater for more of the community.

General issues

The following summarised common issues were raised by the communities and will be forwarded to the relevant departments and Council for appropriate action:

- Various requests for pedestrian bridges, community halls and libraries.
- Issues around youth development, learnerships, job creation and skills development.
- Springrove Dam should be funded by central government.
- Road resurfacing and repair to potholes.
- Complaints relating to water and electricity outages.

It was pleasing to note that in certain areas the communities appreciated their participation in the budget process, the addressing of the needs of the poor and the service delivery achievements to date.

8. BUDGET ASSUMPTIONS

8.1 KEY FINANCIAL INDICATORS

Budget assumptions and parameters are determined in advance of the budget process to allow budgets to be constructed to support the achievement of the longer-term financial and strategic targets. The assumptions and principles applied in the development of this budget are mainly based upon guidelines from National Treasury (expenditure growth) and other external bodies such as the National Electricity Regulator of South Africa (NERSA), Umgeni Water and other major service providers. The municipal fiscal environment is influenced by a variety of macro economic control measures. National Treasury determines the ceiling of year-on-year increases in the total operating budget, whilst the National Electricity Regulator (NER) regulates electricity tariff increases. Various government departments also affect municipal service delivery through the level of grants and subsidies.

The following key assumptions underpinned the preparation of the medium-term budget:

Description	2012/13	2013/14	2014/15
	%	%	%
Inflation Rates - CPI *	5.9	5.3	4.9
Macro utilised	5	6	6
Remuneration Increase	7	6	6
Telephones	5	6	6
Fuel and Oil	12	10	10
Postage & Revenue Stamps	6	6	6
Printing & Stationery	6	6	6

8.2 CREDIT RATING OUTLOOK

A credit rating is an independent opinion on the ability of an entity to pay its financial obligations, in full and on time. The Global Credit Rating Company (GCR) reviewed the credit ratings for eThekweni Municipality, following a detailed analysis of the municipality's 2010/11 financial statements and medium-term expenditure budgets and have accorded the following:

- Long term: The rating of AA- has been maintained in the 'double A band'. The rating is defined as having a very high credit quality.
- Short term: The rating of A1 has been maintained. The rating is defined as having a very high certainty of timely payment.

The ratings must be viewed in light of the financial and economic challenges faced globally and the resultant spate of ratings downgrades worldwide, from which the South African Local Government Sector has not been immune. The credit ratings are still considered very strong (as per the ratings definitions), and the municipality continues to exhibit a very high ability to honour debt and interest repayments.

8.3 BORROWING AND INVESTMENT OF FUNDS

BORROWINGS

The Municipal Finance Management Act No 56 of 2003 permits long term borrowing by municipalities only to finance capital expenditure on infrastructure, property, plant or equipment. The eThekweni municipality's strategy is to borrow only long term funds at the lowest possible interest rates at minimum risk, within the parameters of authorised borrowings, by estimating its borrowing requirements in three year periods coinciding with the MTREF forecast years. By calculating borrowing requirements in three year periods the municipality has the flexibility to either take out a loan facility for the full amount at the inception and draw down in tranches as and when required.

Due to its investment grade credit rating, the eThekweni municipality has been able to secure vanilla loans at very favourable interest rates which are very competitive and below the coupon rates on recently floated bonds by other metros.

The eThekweni municipality new loan profile for 2011/12 is as follows:

INSTITUTION	Fixed Interest Rate*	Duration in Years	R m	Status
RMB	10.08%	20	1 000	Draw down by 29/06/2012

* - Per National Treasury Budget Guidelines Circular

* - Indicative Rates which will be firmed up when the loan is taken

The abovementioned loan is unsecured which is an acknowledgement by lenders of the municipality's sound financial standing and reputation to meet its loan obligations.

In response to the call for financial prudence and sustainability of the budget, the City has reduced its capital programme in the MTREF period by R 1bn for 2012/13 and 2013/14 respectively. The city's capital programme will still be directed towards various infrastructural projects, specifically roads, the replacement of electricity and water assets. Also included in those amounts are funds earmarked towards reducing the service delivery backlogs.

The Gearing Ratio (Total Debt/Total Income) after budgeting for a borrowing of R 1bn in each year (reduced from R 2bn in each year) will be as follows:

2011/12	2012/13	2013/14
45.5%	39.9%	35.9%

The municipality also has to be cognisant of retaining the number of day's cash on hand at the benchmark used by Credit Rating agencies, of between 80 and 90 days, so internally generated cash resources will be under pressure as a source for financing capital expenditure. The utilisation of internal surplus funds enables the municipality to reduce its reliance on external debt financing. The Gearing Ratio thus reflects the correct trend and will fall into line with the Credit Rating Agency's norm of 40% to 45%. National Treasury has not yet pronounced on what it believes to be an acceptable norm but has promised to do so following its recent mid-term review of eThekweni Municipality's financials.

INVESTMENTS

Investments made with the various financial institutions are strictly in compliance with Municipal Finance Management Act and the Investment Regulations.

The investment returns achieved are as follows: -

	<u>30 June 2011</u>	<u>30 June 2012</u>
	<u>%</u>	<u>%</u>
Average rate of return on investments	5.7	6,0 *

Due to its prudent investment policies the municipality has been in a position to generate above market related returns on its investments, ensuring at all times the safety of capital with the lowest possible risk. It is anticipated the cash resources at 30 June 2012 will be in the region of R 3.4billion which will translate to approximately 80 days cash on hand.

8.4 PRICE MOVEMENTS ON SPECIFICS

The tariff for 2011/2012 bulk water purchases from Umgeni Water is R 3.67 per kl. Umgeni Water has advised that there will be a 17.2% increase in the tariff for the 2012/2013 financial year. The increase is above the current inflation rate to fund future infrastructure development projects. A provision of R 1.4 billion has been made in respect of bulk purchases of water.

Purchase of bulk electricity from Eskom amounts to R 6.5 billion. This budget provision includes an estimated 1% growth in energy consumption and the increase in the Eskom tariff.

* - Investment returns estimated

8.5 TIMING OF REVENUE COLLECTION

Consumers are billed monthly in respect of services in the form of a consolidated bill. All annual residential and commercial ratepayers have been converted to monthly ratepayers. However, government departments and companies with more than 150 accounts are allowed to pay annually (by October).

8.6 AVERAGE SALARY INCREASES

The budgeted salary increase is 7% for the fiscal year. This is subject to outcomes of the new Salary and Wage Collective Agreement. As a result of the annualised effect of vacancies filled during 2011/2012, the use of temporary and agency staff, the year on year increase on employee related costs is 11.5%.

8.7 CHANGING DEMAND CHARACTERISTICS (DEMAND FOR SERVICES)

Sustained economic growth over the past decade and increased migration from rural areas have contributed to significant changes in South Africa's cities. Rapid urbanisation has brought about greatly increased demands for land, housing, water and sanitation, electricity and transport in large cities. Infrastructure and service delivery functions need to interact effectively to promote efficiency, employment and integrated development. Municipalities continue to face a range of challenges arising from the higher levels of economic growth and urbanisation. Cities are seen as havens for jobs, better livelihood, access to superior infrastructure and business opportunities by rural communities. eThekweni finds itself in a difficult situation since its good track record of service delivery is attracting further in-migration.

8.8 ABILITY OF THE MUNICIPALITY TO SPEND AND DELIVER ON THE PROGRAMS

Municipalities play a critical role in creating an enabling environment for investments and other activities that lead to job creation. In this regard the 2011/12 capital project spending is estimated to progress to a rate of 93.9% of the capital budget. The achievements and rate of spending during the first half of 2011/12 provide some confidence that this level of spending can be achieved. The municipality has demonstrated over a number of years that it has the ability to spend and deliver on its programmes in its area of jurisdiction. It is anticipated that close to 98% of the operating budget will be spent in the 2011/12 financial year. Indications are that there might be a slight underspending on employee related costs due to delays in filling of vacancies.

8.9 COST OF SERVICE DELIVERY VS AFFORDABILITY

Over the past few years the functions the eThekweni Municipality has been expected to perform increased according to the needs of the community. Poverty and unemployment is also prevalent in the municipal area. In order to provide assistance to the poorest of the poor the municipality has developed a social welfare package to assist those residents who cannot afford to pay for Services (*Refer to Section 9.2 for details*).

9. MEASURABLE PERFORMANCE OBJECTIVES AND INDICATORS

9.1 KEY FINANCIAL RATIOS / INDICATORS

The benchmarks reflected in the table below are based on actual audited results in the 2010/11 financial year:

Financial Benchmarks	Basis of Calculation	2010/2011
Debt to Asset Ratio	Total Debt / Total Assets	0.45:1
Debt to Revenue	Total Debt / Annual Income	0.94:1
Average Interest Paid on Debt	Interest Paid / Total Interest Bearing Debt	0.06:1
Capital Charges to Operating Expenditure	Interest and Principal Paid / Operating Expenditure	0.07:1
Interest as a % of Operating Expenditure	Interest Paid / Operating Expenditure	3.57%
Credit Rating	Calculated by Global Credit Rating Company	Short term: A1 Long term: AA-
Current Ratio	Current Assets / Current Liabilities	1.24:1
Creditors System Efficiency	% of Creditors paid within terms	100%
Electricity Distribution Losses	Total units purchased less total units sold / Total units purchased	5.5%
Water Distribution Losses	Total units purchased less total units sold / Total units purchased	35.3%

The financial benchmarks reflected in the table above indicate that the municipality continues to maintain its financially healthy status.

9.2 FREE AND SUBSIDISED BASIC SERVICES

One of the objectives of a local authority is to ensure the provision of services to communities in a sustainable manner. The constitution stipulates that a municipality must structure and manage its administration, budgeting and planning to give priority to the basic needs of the community and to promote their social and economic development.

To cater for the indigent, the municipality as part of its welfare package provides a basket of free basic services in accordance with a defined level of service. The basic social package is an affirmation of the municipality's commitment to push back the frontiers of poverty by providing a social welfare to those residents who cannot afford to pay, because of adverse social and economic realities.

The estimated cost of the social package (i.e. income foregone) amounts to approximately R 2.4 billion for the 2012/13 budget year. Details of the initiatives proposed to be carried out by the council in this regard are detailed below.

SERVICE	SOCIAL PACKAGE	APPROX. COST R'M	EST.NO. OF HOUSEHOLDS
Assessment Rates	Properties valued up to R 185 000 will pay R 20 per month. All other properties valued above R 185 000, the first R 120 000 no rates charged		447 413
	Pensioners, child-headed households, disability grantees and the medically boarded are exempt from paying rates on the first R 460 000 of their property value (This amount is inclusive of the R 120 000 mentioned above). Rebate increases from R 211 per month to R 259 per month.		50 531
	No rates levied on first R 30 000 value of vacant land		5 789
		1 257.8	503 733
Water	The first 9kl of water is free to households with property values under R 250 000.	522	518 000
Electricity	The first 50kwh of electricity is free to residents using less than 150kwh per month in Eskom reticulated areas		
	The first 65kwh of electricity is free to residents using less than 150kwh per month in eThekweni reticulated areas	62.7	73 500
Refuse Removal	Residential property valued up to R 250 000 exempt from domestic refuse removal tariff	294	696 000
Sewerage/ Sanitation	The first 9kl of water disposal via the sewerage system is free to all residents.	250	493 800
Total		2 386.5	

The cost of this social package is partially funded from the equitable share provided by National Government.

9.3 DRINKING WATER QUALITY AND WASTE WATER MANAGEMENT

eThekweni Water Services performs the role of the water service authority whilst Umgeni Water is the water service provider for the municipal area.

BLUE DROP CERTIFICATION

The municipality continues to manage drinking water within its area of jurisdiction with distinction. This is evidenced by the municipality maintaining the Blue Drop status scoring 95.7% in 2010/11. This prestigious award is only granted if 95% compliance with certification standards is met.

GREEN DROP RATINGS

The water and sanitation unit of the municipality was awarded a Green Drop award in recognition of excellence in the management of waste water in 2010/11. The Green Drop regulation programme was established by the Department of Water Affairs to certify the waste water systems of all municipalities and water service providers. The unit was recognised for the best Green Drop performance in the province with a score of 90.6%.

Budgetary provision for the upgrades and maintenance of water reticulation and sewerage treatment works is made in the MTREF to ensure that systems are capacitated to deliver at acceptable standards.

10. BUDGET RELATED POLICIES: OVERVIEW AND AMENDMENTS

The MFMA and the Municipal Budget and Reporting Regulations require budget related policies to be reviewed, and where applicable, to be updated on an annual basis. The main purpose of budget related policies is to govern and guide the budget process and inform the projections of the medium term.

The following are budget related policies which have been approved by Council, or have been reviewed /amended and / or are currently being reviewed / amended in line with National Guidelines and other legislation.

10.1 ASSESSMENT RATES POLICY

The new rates policy was approved by Council on 2008-02-11 in compliance with Section 3(1) of the Local Government Municipal Property Rates Act, 2004 (Act 6 of 2004) and section 62 (1)(f) of the MFMA. As required in terms of section 5 of the MPRA, the Rates Policy has been reviewed for the 2012/13 financial year and the amended policy adopted by Council on 2012-03-29.

The applicable assessment rate tariffs are reflected in the Resolutions to Council on the budget.

10.2 CREDIT CONTROL AND DEBT COLLECTION POLICY

As required in terms of section 97 of the Municipal Systems Act, the new credit control and debt collection policy was approved by council on 2010-06-03. The primary objective of this policy is to ensure that all monies due and payable to the municipality in respect of services are collected efficiently and promptly. The policy has been reviewed for the 2012/13 financial year and the amended policy adopted by Council on 2012-03-29.

10.3 TARIFF POLICY

The Municipal Systems Act requires a municipality to have a tariff determination policy. Accordingly, council adopted a tariff policy on 2005-05-25. The objective of the policy which is consistently applied to all tariffs is to ensure that:

- The tariffs of the municipality comply with the legislation prevailing at the time of implementation
- The municipal services are financially sustainable, affordable, and equitable
- The needs of the indigent, aged and physically challenged are taken into consideration

The policy is drawn in line with the principles as outlined in the Municipal Systems Act. There are no changes to the policy for the 2012/13 financial year.

10.4 WATER POLICY

The current water policy was approved by council on 2005-06-22 and provides for amongst others: water tariffs, water connection charges, accounts and arrears, disconnections and illegal connections.

The Council's tariffs are affected by the following factors:

- Bulk purchase cost: Umgeni Water
- Unaccounted for water
- Debtors collection rate
- Cost of free basic water

There are no amendments to the current policy for the 2012/13 financial year.

10.5 SUPPLY CHAIN MANAGEMENT POLICY

The current policy reflects and represents the context of a specific government policy that finds expressions within the provisions of the Municipal Finance Management Act 56 of 2003. The principal objectives of the policy are to provide, promote, and implement theoretical guidelines, governing processes and procedures within the supply chain management.

The SCM Policy was adopted by council on 2005-09-22 for implementation. This policy is used in conjunction with the Targeted Procurement Policy, originally approved in July 2003, and amended in December 2011 (in keeping with the new Preferential Procurement Regulations of June 2011).

Late in 2008, the Supply Chain Management Unit began a Category Management process to ensure alignment with the creation of an SCM Centre of Excellence which the municipality is currently implementing. This SCM Centre of Excellence will usher in a New Procurement Policy Application and approach in line with International Best Practices, practices that will for the first time harness the municipality spending power and give the municipality much greater flexibility to buy locally.

10.6 INVESTMENT / CASH MANAGEMENT AND BORROWING POLICIES

As required by the Municipal Finance Management Act, and in conformity with the Municipal Cash Management Regulations an Investment Framework policy and Guidelines has been adopted by Council on 2004-11-30.

The main objectives of the policy are to:

- Maximise returns from authorised investments consistent with minimising risk
- Maintain adequate liquidity to meet cash flow needs.
- Undertake the investment of funds not immediately required for operational purposes
- Ensure diversification of permitted investments
- Ensure compliance with all legislation governing the investment of funds.

The Municipality has also prepared a borrowing policy in compliance with the Municipal Finance Management Act and the Municipal Regulations on Debt Disclosure.

10.7 VIREMENTS BUDGET POLICY

In order to give departmental heads greater flexibility in managing their budgets, virements budget procedures are in place for the revision of budgets (within votes - i.e. Output Unit) via a virements budget. These procedures provide guidance to managers of when they may shift funds within votes.

To ensure compliance with Section 28 of the MFMA, and the Municipal Budget and Reporting Regulations, procedures were formulated with regards to the transfer of funds and the adjustment budget reporting.

10.8 ASSET MANAGEMENT PLAN

The goal of infrastructure asset management is to meet a required level of service in the most cost effective manner, which is achieved through the management of assets' life cycle, for present and future generations. National Government has legislated (MFMA), the need for local government to formulate active asset management programmes. An infrastructure asset management plan technically analyses the life cycle of an asset, and predicts when maintenance needs to be done to the asset before it deteriorates to such an extent that it no longer meets the community's needs.

The goal for the eThekweni Municipality is to shift from the practice of examining infrastructure assets historically, to knowing exactly what is going on right now (the present) and having an accurate picture of what is likely to happen in the future. To do this, the city needs to develop asset management plans for each business unit to gain a clear picture of probable scenarios that will impact on their business activities. To achieve the goals outlined above the, municipality has an approved 10 year infrastructure asset management business plan.

This includes the following:

- The adoption of a city wide AM steering committee;
- A corporate asset management policy and guidelines;
- A corporate risk management policy;
- A corporate asset handover policy;
- Corporate fixed asset capitalisation guidelines.

All Business Units are in various stages of developing their AM functionality in accordance with the above policies and guidelines. The main areas for development include:

- VSmart server upgrade, linkage to JDE, and the creation of the GIS interface to the corporate GIS;
- Maintenance Management System, develop specifications for proposed new system and appoint a consultant;
- Grap 17 compliance, continue updating the JDE register;
- AMP 2012, incorporate underground assets.

The municipality is on a drive to introduce good asset management practices in all units. For example, ensuring that there is a great emphasis on proactive rather than reactive maintenance of infrastructure ensures that we are not over-committing funds to building new infrastructure which leads to insufficient funding for the maintenance, renewal, rehabilitation and replacement of existing assets.

10.9 ACCOUNTING POLICY

In order to ensure that the financial statements are compliant with GRAP and GAMAP, the accounting policies were realigned and approved by council on 2006-06-29. The latest amendments to the accounting policies were approved by council on 2011-07-27.

10.10 FUNDING AND RESERVES POLICY

A funding and reserves policy has been formulated and was approved by the Executive Committee at its meeting on 2010-04-28. The policy is aimed at ensuring that the Municipality procures sufficient and cost effective funding in order to achieve its capital expenditure objectives in an optimum manner.

10.11 BUDGET POLICY

The Budget Policy was approved by council on 23 February 2011.

11. ALIGNMENT OF BUDGET WITH INTEGRATED DEVELOPMENT PLAN

Integrated developmental planning in the South African context is (amongst others) an approach to planning aimed at involving the municipality, stakeholders and the community to jointly find the best solutions towards sustainable development. The integrated development planning further provides a strategic environment for managing and guiding all planning, development and decision making in the municipality. The IDP is the result of the planning processes and comprises of a five year period which correlates with the term of the political incumbents.

11.1 THE IDP STRATEGIC FOCUS AREAS

To ensure that the municipality is a more responsive, efficient, effective and accountable local government we will outline, precisely how we intend to translate our Long Term 2030 Municipality Vision into an effective plan that aligns the municipal budgets, monitoring and evaluating mechanisms as well as timeframes for delivery. The municipality has taken the strategic direction to achieve closer alignment between the Long Term Development objectives and the IDP (in context of International, National, Provincial and Local development policies). The development of the strategic approach for the Municipality is guided by - but not limited to - the following;

Millennium Development Goals (MDGs)

The aim of the MDGs is to encourage development by improving social and economic conditions. It provides a framework for the entire international community to work together towards a common end i.e. making sure that human development reaches everyone, everywhere.

National Development Plan (Vision 2030)

The intention of this plan is to improve service delivery for citizens of South Africa, whilst integrating national, provincial and local policies and programmes into a single, target orientated and long term based plan. In this plan a collective approach of improving the lives of the citizens is applied, and communities themselves have a role to play in this regard.

Delivery agreement: Outcome 9

The municipality responds to the Delivery Agreement: Outcome 9. This outcome intends to ensure a responsive, accountable, effective and efficient local government system with an intention of restoring the confidence of citizens in the local government sphere.

National Government Programme of Action 2009-2014

The government has identified 10 priority areas in its programme of action, with an intention to turn around the global economic slowdown, whilst at the same time ensuring that the needs of all its citizens are met.

National Priorities (State of the Nations Address 2012)

Highlights have been identified on relative progress made with regards to health, education, the fight against crime, human settlements, energy, water provision and rural development. Challenges are, however, still identified in unemployment, poverty and inequality, women and youth development. Cooperation between government departments and parastatals has seen the city engaging strongly in an effort to improve infrastructure, corridor development, industrial development, skills, education, human settlement, access to basic services, economic development, job creation, governance, social cohesion and crime prevention,

Provincial Priorities (State of the Province Address 2012)

In response to the State of the Province Address, the municipality has made a tremendous contribution towards the provision of infrastructure and infrastructure revolution, especially roads, freight and a harbour, skills enhancement, economic development, poverty alleviation, provision of housing and adequate human settlement pattern, improving health and healthy lifestyle, mitigation against climate change, supporting informal traders, and employment creation. The municipality also responds to youth development and further ensures rural development in eThekweni.

Provincial Growth and Development Strategy

In line with the National vision 2030, the Provincial Growth and developmental Strategy will ensure economic growth and improved quality of life in KwaZulu-Natal. An integrated service delivery mechanisms will be applied by various stakeholders in an effort to create employment opportunities, skills enhancement, effective and efficient governance, human and community development, improved infrastructure and adequate utilization of spatial form.

National Spatial Development Perspective (NSDP)

The NSDP represents a key instrument in the State's drive towards ensuring greater economic growth, buoyant and sustained job creation and the eradication of poverty. It provides a framework for deliberating the future development of the national space economy and recommends mechanisms to bring about optimum alignment between infrastructure investment and development programmes within localities.

Provincial Spatial Economic Development Strategy (PSEDS)

The objectives of the PGDS are: eradication of extreme poverty and hunger, achievement of universal primary education, promotion of gender equality & empowerment of women, reduction in child mortality, improvement of maternal health, combating HIV-AIDS, malaria and other diseases, developing a global partnership for development, as well as ensuring environmental sustainability.

Long Term Development Framework

Many cities around the world are competing with one another on the global open market to become economically competitive and in doing so, are inadvertently creating unsustainable environments. Against this background then, it is clear that the municipality has indeed a direct role to play in the facilitation and management of long-term planning and development processes that consider the issue of sustainability. The municipality has reviewed its Long Term Development Framework (LTDF) to ensure that sustainability in all its facets is embedded into the Municipality and influences the IDP.

11.2 DEVELOPMENT CHALLENGES

Significant strides have been made to address the key development challenges in the municipality. While significant progress has been made in all areas, there is still some distance to go towards addressing the following challenges:

- High rates of unemployment and low economic growth;
- High levels of poverty;
- Low levels of skills development and literacy;
- Limited access to basic household and community services;
- Increased incidents of HIV/AIDS and communicable diseases;
- Loss of natural capital;
- Unsustainable developmental practises;
- High levels of crime and risk;
- Ensuring adequate energy and water supply;
- Ensuring food security;
- Infrastructure degradation;
- Climate change;
- Ensuring financial sustainability;
- Ineffectiveness and inefficiency of inward-looking local government still prevalent in the municipality.

The essence of our IDP is to achieve a balance between meeting basic needs, strengthening the economy and developing people skills and a technology base for the future. In an effort to achieve our 2030 vision, these three Strategic Focus Areas of intervention for the next five years need to be balanced and integrated. Given the strategic framework that has been outlined it is clear that the city's budget must be a pro-growth budget that meets basic needs and builds on existing skills and technology.

The city's delivery plan is organised into eight separate but related plans. They are interrelated because:

- All the programmes and projects are filtered through the common set of filters described above.
- The plans, programmes and projects are supportive of each other, to ensure greater impact in delivery.
- Where contradictions or overlaps are found to exist, these will duly be brought into alignment.

The eight plans are:

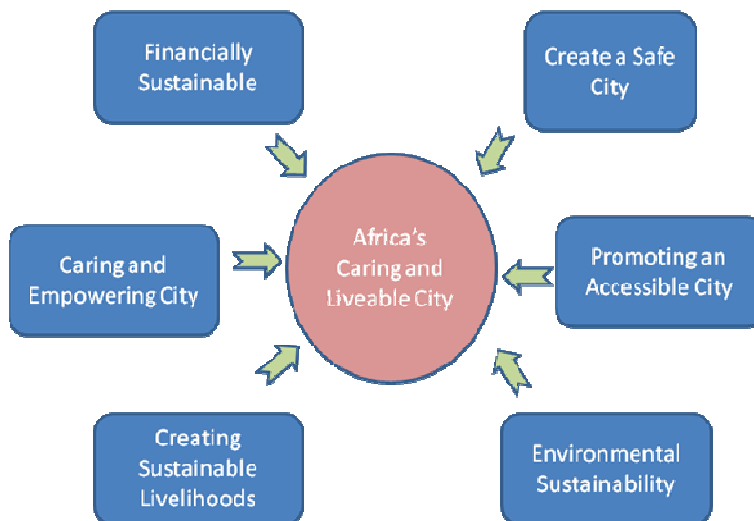

- Developing and Sustaining our Spatial, Natural and Built Environment.
- Creating a Prosperous, Diverse Economy and Generate Employment Opportunities.
- Creating a Quality Living Environment.
- Fostering a Socially Equitable Environment.
- Creating a Platform for Growth, Empowerment and Skills Development
- Embracing our cultural diversity, arts and heritage.
- Engendering a more Responsive Local Government.
- Financially Accountable and Sustainable City.

The delivery of these plans should ensure that the people of eThekweni are able to:

- Live in harmony
- Be proud of the city
- Feel protected
- Feel that the basic needs are being met

11.3 MUNICIPAL KEY DEVELOPMENT DIALOGUES

In an attempt to give life and meaning to our city's set of principles and development dialogues that were adopted as part of our IDP, we have instituted a process that systematically filters every programme, project and initiative in terms of key development dialogues that the city have chosen.

11.4 POLITICAL PRIORITIES AND LINKAGES TO THE IDP

The IDP is an all-encompassing plan which provides the framework for development within a municipality. It aims to co-ordinate the work of local and other spheres of government in coherent plans to improve the quality of life for all the people living in the area.

All operating and capital programs in the 2012/13 medium-term budget have been assessed through a prioritisation mechanism that was developed to ensure that there is alignment to the development strategy of the municipality. The IDP formed the basis of the priorities identified in the strategic plan and all resources are focused on the achievement of the priorities.

11.5 IDP OVERVIEW AND KEY AMENDMENTS

To encourage better planning, government has legislated that municipalities must produce Integrated Development Plans. The IDP is a five year plan whose principal purpose is to ensure the development of the local community in an integrated manner which involves strategic business units within the municipality, relevant strategic stakeholders and the community.

In the five year review, the Eight Point Plan of action has been retained as this will continue to guide the municipality, but has once again been refined and refocused our strategic programmes, so as to respond more effectively to key challenges.

11.6 IDP REVIEW PROCESS AND STAKEHOLDER PARTICIPATION

The IDP is reviewed yearly to inculcate a democratic approach to local governance by ensuring all stakeholders get an opportunity to voice their opinions in influencing the shape, form, direction and pace of development in their localities. The municipality is committed to addressing the needs of the people and values the inputs from communities and stakeholders.

The third generation of eThekweni's Integrated Development Plan (IDP) is now undergoing its final review and focuses on translating our City Vision into action. As set out in the Municipal Systems Act (2000), in the review of the five year IDP, a stakeholder consultation process is necessary. Of critical importance is for the municipality to ensure that there is thorough consultation with the community and strategic stakeholders. The 2012/13 Draft IDP was noted by council at the meeting of 23 March 2011 and thereafter entered a public participation phase, giving citizens and stakeholders the opportunity to submit comments.

As part of the of the municipality’s five year IDP as prescribed by the Municipal Systems Act, the council has embarked on an extensive process to engage with stakeholders and elicit comments which will feed into the 2012/2013 IDP. Following these, a final draft will be prepared for adoption by council in May/ June 2012.

The timeframes for the 2012/13 IDP Review are as follows:

ITEM	DATE
Submit 1 st Draft 2012/13 IDP to Full Council for noting	23 rd March 2012
Submit 1 st Draft 2012/13 IDP to COGTA and Regional Budget Hearings	23 rd March 2012
Public Participation - Draft IDP will be open for comment	26 th March - 30 th April 2012
Budget and IDP Hearings at a Zonal level	May 2012
Adoption of 2012/13 IDP	30 th May 2012
Final approval of the SDBIP and implementation of IDP	June 2012

As is the case every year, once the draft IDP was completed, the following mechanisms were used to ensure effective participation and consultation of the plan:

- The draft IDP was placed on the council website for perusal and comment
- Every council library, regional centre and municipal office was issued with copies for comment
- The summarised document and a dedicated supplement was published in our Metro newspaper
- Local media (including community newspapers) were informed of the IDP review and the need for civil society organisations to comment on the document

11.7 LINK BETWEEN THE IDP AND THE BUDGET

In compliance with the Municipal Structures Act (1998) and Municipal Financial Management Act (2003), our city budget is informed and aligned to the IDP objectives. The IDP determines and prioritises the needs of the community. The budgetary allocations for both the capital and operating expenditure are undertaken in a manner that will not only ensure that our IDP outcomes are achieved but also to ensure that our city’s 2030 vision is realised.

We have come a long way in capital budgeting - away from departmental budgeting. Based on such models as the Multi Criteria Dimension Model (MCDM) and Capital Investment Management System (CIMS), the city is able to link its budget with its programmes, and is able to adequately spread its capital budget geographically as well in accordance with the IDP eight-point plan. In terms of the operating budget we have made excellent progress but are now more committed than ever to ensure that critical operating budget resources are prioritised in terms of stated IDP outcomes.

More importantly, the Performance Management System (PMS) allows the municipality an opportunity to monitor and evaluate individual and organisational performance in meeting our IDP outcomes and vision. As with previous year’s, our IDP remains the strategic driver of both our budget and performance management system.

12. OVERVIEW OF BUDGET FUNDING

FISCAL OVERVIEW

The Municipality continues to display a sound financial profile and high liquidity levels, which is mainly attributable to:

- Balanced budgets being funded from current financial year’s revenue. Prior year’s surpluses have not been used to support the operating budget.
- The municipality operates within its annual budget, as approved by council.
- The municipality maintains a positive cash and investments position.

In compliance with relevant statutory requirements, the Financial Plan (Medium Term Revenue and Expenditure Framework-MTREF) is reviewed and updated annually.

12.1 LOAN DEBT AND INVESTMENTS

In terms of funding the capital budget, the municipality is in a fortunate position to undertake much needed service delivery programmes from both internally generated reserves and long term external funding. In the latter case, the municipality with its sound financial credentials has financing options available that are in line with the MFMA and the Municipal Borrowing Framework. Section 45 of the MFMA guides short term borrowing in the city. In line with the anticipated budget performance, and taking into account the National and Provincial grant allocations, the municipality will continue to fund each financial year's operating budget from current revenues.

Investments for the municipality are done in accordance and adherence with the Municipal Investment Regulation of the MFMA, Councils Investment Policy and other relevant legislation. Cash flow forecasts and cash needs by the city provide guidance for the type of investments employed. The investments are made with primary regard to the risk profile, liquidity needs of the city and the return on investments. In so far as the investment and borrowing activities are concerned, all the requirements of the MFMA have been complied with.

The ability of the Municipality (Parent) to deliver on progress depends a lot on its funding sources which are summarised as follows:

	<u>2012/2013</u>	<u>2013/2014</u>	<u>2014/2015</u>
	<u>RM</u>	<u>RM</u>	<u>RM</u>
Total Capital Budget	5, 285	5, 366	5, 767
<u>Funded as follows:</u>			
Grant Funding	2, 831	2, 966	3, 536
Internal Funding	954	1, 400	1, 231
External Funding	1, 500	1, 000	1, 000
	5, 285	5, 366	5, 767

Funding of Operating Budget

Funding is obtained from various sources, the major sources being service charges such as electricity, water, sanitation, and refuse collection, property rates, grants and subsidies received from National and Provincial governments.

The table below identifies the sources of funding for the 2012/13 financial year (parent municipality):

<u>INCOME</u>	<u>R'm</u>	<u>%</u>
Assessment Rates	*4 711.9	18.0
Service Charges	13 513.5	51.6
Fines, Licences and permits	134.1	0.5
Grant and Subsidies	4 958.0	18.9
Rental of Facilities and Equipment	349.1	1.3
Interest on Investments	234.7	0.9
Penalties and Collection Charges	132.1	0.5
Fuel Levy	1 690.6	6.5
Other Income	459.6	1.8
TOTAL	26 183.6	100.0

69.6% of the Operating Budget is funded from assessment rates and services charges (tariffs)

* - Includes income from assessment rates, rates interims and rates clearance certificates which is net of rebates.

12.2 SOURCES OF FUNDING

The revenue for the Municipality is predominantly raised through rates, tariffs and grants. This high level of independent and relative stable income sources of revenue is one of the key factors that support the sound financial position of the municipality. In addition to the obvious need to grow the city's revenue by increasing its tax base, other means for securing funding for council projects must be explored in a variety of ways.

The city faces invidious choices in attempting to finance the projected levels of investment in infrastructure. Sources of capital finance are already stretched with limited scope for further borrowing, consumer pressure to restrict tariff and tax increases, and little likelihood of a structural upward adjustment in grant allocations. Further, efficiencies in the borrowing programme will continue to be sought to lock in lower cost and longer term borrowing, plus the introduction of new revenue sources such as development charges.

In the case of eThekweni, a basket of differential tariff increases determines the most acceptable and equitable funding regime taking into consideration the actual cost of delivering services, budget priorities and national legislation, regulations and policy guidelines.

12.3 SAVINGS AND EFFICIENCIES

In order to leverage the purchasing decisions within the municipality the Category Management of goods and services will be fully explored to reduce costs and ensure added value. A 'category' is the logical grouping of similar expenditure items, such as spend on electricity cables or IT hardware. Category Management is the sourcing process used to manage these categories to satisfy business needs while maximizing the value delivered from the supply base. This ensures that commonly used goods and services are not separately purchased by the various units but are sourced through a single process to maximize leverage in the market, by focusing on the supplier base for the relevant category.

The benefits which result are:

- better value for money through aggregation of demand;
- standardizing requirements in terms of specification, quantity and purchasing authorization;
- skilled procurement personnel are actively involved in purchasing processes;
- resources can be committed cost effectively to market watching and analysis.

This will entail creating a common price listing for the municipality of frequently purchased goods onto a central database. This will be used in conjunction with the national price referencing system once implemented, as proposed by the Minister of Finance in his budget speech.

With salaries and wages being a major expenditure of the operating budget, overtime will continued to be monitored closely. Staff that work overtime on a regular basis or work excessive overtime will be closely scrutinized with departmental heads who will be held accountable, are required to give valid reasons for staff working overtime in this category and to reduce overtime. This will ensure that overtime worked is absolutely essential and that the same employees are not called on continually to work overtime where staff rotation is possible or employing additional staff would be more cost effective. Managers will also carry out monthly verification of active employees to certify that employees processed on the payroll have indeed been on duty and to ensure that terminated employees are timeously and correctly processed on the payroll.

All sections will be updating procedure manuals. Business processes are to be critically analyzed to effect process improvements, to eliminate any bottlenecks and to implement innovative ideas to improve productivity. The Quality Circles program previously introduced within all departments of the Treasury Cluster will be revitalized. The team based approach to measure at operational level its Quality, Costs, Delivery or Speed of services provided with the aim of continuously improving processes within their sections, reducing costs and delivering a more efficient service to customers both externally and internally.

SUPPLY CHAIN MANAGEMENT

e-Procurement Project

The eThekweni Municipality historically has had a decentralized Supply Chain Management (SCM) management structure and a strategic decision was taken to centralise the SCM management structure. This has resulted in a centralised SCM management structure being executed by three Supply Management Service Centres.

Although the SCM management structure is now centralised, the use of separate information systems, as well as manually executed processes/functions prevents the municipality from fully benefitting from, and leveraging off of, a centralized Supply Chain Management unit. There is also no assurance of best practice being adhered to, or whether latest technology/best of breed is implemented.

The problem manifests itself on two levels, an operational level and system level. Both of these areas are to be addressed through the e-procurement project. The high level business functions are to be addressed through the e-procurement project. The implementation of an e-procurement system aims to provide financial benefits. The financial benefits will arise primarily from:

- Effective leverage of buying power through aggregation of demand
- Increasing proportion of expenditure under contract
- Reducing the supply chain transaction costs

Successful implementation of e-procurement solution will produce the following benefits:

- Savings realised from the solution will be available for re-investment to improve and increase the services provided
- Improving, standardising and automating procurement processes will be of benefit to suppliers as more efficient communications will make it less expensive and complex to do business with the council
- Suppliers doing business with the council will benefit from the introduction of e-Procurement, as their e-commerce capabilities will be improved enabling them to compete more effectively in a modern economy

The first phase of the project involved the documentation of the business processes as identified by the Supplier Chain Management Policy. The first phase, documentation of the As-Is business process, has drawn to a close. The next phase of the project, the To-Be phase. This phase of the project will involve reviewing all of the processes and systems being used within the Supply Chain Management unit. The objective of this phase is to identify the desired state (from a business process perspective) and ensuring that there is a single integrated system to support these business processes. It has been identified that the e-procurement project falls within a greater strategic drive, this being a single integrated system across eThekwini.

Quote Management System (QMS)

The QMS (Quotation Management System) project is a sub-project within the larger e-Procurement project and provides for an automated tool to obtain quotations from vendors for goods, where the value of the goods is less than R 200 000.

The QMS system has been implemented in the Corporate Procurement and Water & Sanitation Buying offices. Where requests for goods are received by the buying offices, the quotations required for the goods are obtained using the QMS system.

The Quotation Management System is used to publish all Requests For Quotes (RFQ's) on the QMS website. All suppliers who are registered on the eThekwini Accredited Supplier Database (FPLite) are able to login to the QMS portal, and view all RFQ's. All accredited suppliers thus have equal opportunity to view the Request For Quote, and submit quotations where applicable. Once the RFQ has closed, the buying staff use the QMS system to evaluate/adjudicate the responses received. The QMS system will select the most responsive quotation based on the 80/20 evaluation principle. Once the buying staff have confirmed the award selection, the purchase order can then be raised with the supplier.

The QMS system is currently being used to obtain quotations for all stock based purchasing requests. There is a plan to expand the use of the system to service based procurement. This is the planned second phase of the project. Phase 2 of the project will entail reviewing and documenting the service procurement process within the various departments, and then aligning this service based procurement to the Quotation Management System.

12.4 INVESTMENTS - CASH BACKED

Adequate provision has been made by way of external investments to ensure that cash is available on the maturity of investments. Investment income is utilized to fund the budget. The permissible reserves are cash backed in terms of General Accepted Municipal Accounting Practice (GAMAP) and the MFMA.

12.5 GRANT ALLOCATIONS

Municipalities play a critical role in furthering government's objective of providing services to all while facilitating local economic development. Government has sought to insulate local government from the full impact of the slowdown in national revenues by growing national transfers to local government. The following projected grant allocations to the municipality in terms of the 2012 Division of Revenue Bill have been included in this medium term budget:

GRANT	2012/13 R m	2013/14 R m	2014/15 R m
Financial Management Grant	1.5	1.3	1.3
Public Transport Infrastructure and Systems Grant	598.7	778.8	995.6
Equitable Share	1 769.4	1 899.9	2 048.5
Urban Settlements Development Grant	1 287.6	1 581.0	1 836.8
General Fuel Levy	1 690.6	1 853.1	1 953.2
Infrastructure Skills Development Grant	25.9	36.0	38.0
Neighbourhood Development Partnership Grant	10.0	36.2	31.9
Integrated National Electrification Programme Grant	5.0	5.0	20.0
Expanded Public Works Programme Integrated Grant	42.4	0	0

URBAN SETTLEMENTS DEVELOPMENT GRANT

Introduced in the 2011 Division of Revenue as a new metropolitan funding framework, this grant is allocated to metropolitan municipalities to supplement the capital budget enabling better leveraging of resources to develop sustainable human settlements. The grant funds the prioritisation of basic municipal services to new housing projects.

12.6 COLLECTION RATES FOR EACH REVENUE SOURCE

The rate of revenue collection is the cash collected from consumers expressed as a percentage of the amount billed. The average monthly collection rate and projections for the year are as follows:

REVENUE SOURCE	Average 2010/11	Average 2011/12
Rates	101.3	98.9
Electricity	97.4	95.2
Water	93.8	92.2

The projected collection rates are based on realistic and sustainable trends. The total average collection rate for 2011/2012 is 95.4%.

Electricity

Due to the slowdown in the economy and the effects on both business and residential consumers, projections indicate a slightly lower collection rate. The disconnection policy is being applied for non-payment and the largest debts are being targeted in order to yield a higher collection rate.

Water

A lower collection rate is anticipated mainly due to the meltdown of the economy. However, the programme put in place to encourage customers to pay their current accounts in return for a reduction in the debt they have incurred should yield an improvement in the collection rate.

DEBTORS AGE ANALYSIS AS AT 29 FEBRUARY 2012 (PARENT MUNICIPALITY)

	0 - 30 Days		31 - 60 Days		61 - 90 Days		Over 91 Days		Total
	R'000	%	R'000	%	R'000	%	R'000	%	
Debtors at 29.02.2012	1,070,206	19,3	232,204	4,2	156,930	2,9	4,072,924	73,6	5,532.264

The total debtors figure is stated prior to adjustments in respect of Provision for Bad Debts. The total amount outstanding of R 5.53bn is inclusive of irrecoverable debt amounting to R 2.55bn for which a bad debts provision was made. This represents an increase of R 848m when compared to February 2011. The existing R 2.55bn is included in the figure of R 4.07bn which comprises of debt longer than 90 days. Therefore only R 1.53bn over 90 days is recoverable. Of the R 1.53bn, the government debt of R 203m will be recovered more especially once the ratification process on all the government properties is concluded by the end of the year. Business debt of R 110.2m is subjected to litigation and has been handed over to the Council's panel of attorneys.

Residential debt amounting to R 1.21bn is mostly in respect of individual properties in the Ingonyama Trust area. Although the Court decided that individuals with deeds of grant are liable for rates, these properties are still suspended, pending judgement.

DEBTORS AS AT 29 FEBRUARY 2012

	TOTAL (R'000)
TOTAL GROSS CONSUMER DEBTORS	5,532,264
PROVISION FOR BAD DEBTS	2,545,948
NET CONSUMER DEBTORS	2,986,316
CURRENT (0 – 90 DAYS)	1,459,341
COLLECTABLE DEBT MORE THAN 90 DAYS	1,526,975
OUTSTANDING DEBT (COLLECTABLE)	
GOVERNMENT (Refer details below)	203,193
BUSINESSES	110,152
RESIDENTIAL	1,213,630
TOTAL	1,526,975

12.7 LEVELS OF RATES, SERVICE CHARGES AND OTHER FEES AND CHARGES

To maintain an effective, efficient and well-run city, tariff increases are inevitable. Tariff-setting plays a major role in ensuring desired levels of revenue by assisting in the compilation of a credible and balanced budget to accommodate the acceleration of basic services. The setting of tariffs for the 2012/13 financial year continues to be guided by a tariff policy, which provides a framework within which the eThekweni municipality can implement fair, transparent and affordable charges for the provision of services.

The following principles and guidelines have been considered in the draft 2012/13 MTREF:

- Realistic revenue estimates through a conservative, objective and analytical process.
- Identification and pursuance of grants from national, provincial and other agencies.
- The impact of inflation and other cost drivers.
- Credible collection rates.
- The ability of the community to pay for services rendered.
- Local economic conditions.

As in the past, the above principles dictate the annual increase in the tariffs charged to the consumers and the ratepayers.

RATES

Property rates are levied in terms of the Municipal Property Rates Act based on market values indicated in the General Valuation Roll as at 1 July 2011. The levying of rates in terms of the Municipal Property Rates Act whereby properties are now valued on the land plus improvements, and according to current market values as at 1 July 2008 is being applied for this Medium Term Budget. This source of revenue is a relative stable source as it is not substantially affected by economic cycles, as is the case with other tariffs.

Valuation Roll

In compliance with the Municipal Property Rates Act, the municipality has released its second general valuation roll, GV 2012 on 2012-02-10. A valuation date of 1 July 2011 has been determined, with implementation of the valuation roll being with effect from 1 July 2012. The valuation roll was open for inspection by the public until the end of March 2012 during which time owners could lodge an objection against any entry in the valuation roll. Approximately 10 600 objections were received (compared to 50 000 in 2008 i.e. less than 1.5%) with the review of objections still underway.

Overall, the valuation base has grown from R 393 758 994 242 to R 421 670 059 000 - an overall increase of approximately 7% from the previous roll with its date of valuation of 1 July 2007. The total value of residential properties has grown some 6,7% although vacant and agricultural land has decreased. The value of vacant land has decreased due to some properties in this category being classified as Public Service Infrastructure (PSI).

ELECTRICITY AND WATER

The increase in water and electricity tariffs are consistent with National Policy on the provision of free basic services, Council's Indigent relief measures and tariff policies. The tariff increases are necessary due to the increase in the cost of bulk purchases, maintenance of existing infrastructure, new infrastructure provision and to ensure the financial sustainability of the services.

In the review of the tariffs for water and electricity, the municipality ensures that the level of tariffs are cost - reflective and that the associated structure of the tariffs encourage efficient and sustainable consumption.

REFUSE REMOVAL

The increase in the domestic refuse removal tariff for the 2012/13 year is mainly due to salary increases, conversion of agency staff to permanent and the increased cost of the purchase of refuse bags.

SEWERAGE

With effect from the 2010/11 year, a new volume based sewage disposal charge system was introduced based on the percentage of water consumption. A flat tariff is charged to Non-Domestic Consumers and a stepped tariff to Domestic Consumers in line with the consumption bands for water.

DEVELOPMENT CHARGES

The city has been actively participating in national deliberations to enhance the performance of municipal development charges. Levying some limited development charges in certain sub-regions of the municipal area have been recognised as insufficient, inefficient and a constraint to the ability of the city to roll out a more extensive infrastructure plan in support of property development. The revised approach will support the recovery of the costs of bulk infrastructure provision across all sub-regions. The implementation has been deferred in consideration of the National Framework which has not yet been finalised. However, in the interim, bulk infrastructure charges at cost effective rates will be phased in.

LOCAL BUSINESS TAX

In order to partially address the significant funding gap at Metro Government level, the possible introduction of a local business tax as a new municipal tax has been raised. Various studies have been taken in this regard. The tax will be introduced to fund economic infrastructure and services. The municipality has submitted a proposal for the development of a local business tax in terms of the Municipal Fiscal Powers and Functions Act. A response from National Treasury is still awaited and the tax will only be considered for implementation in the 2013/14 financial year.

GENERAL

The following are other general contributory factors for the increase in levels of rates and service charges:

- The cost of bulk purchases
- The impact of capital spend on the operating budget
- Salary increase with effect from 1 July 2012
- Provision for the filling of critical vacancies
- Rollout of infrastructure and the provision of basic services
- Increased maintenance of network and structures

The tariffs and charges for the 2012/13 year are reflected on a separate document for approval together with the budget.

13. DISCLOSURE ON IMPLEMENTATION OF MFMA AND OTHER LEGISLATION

Since 2008, National Treasury has taken further steps to improve the transparency, credibility, timeliness and usefulness of municipal financial information and eThekweni has been at the forefront in piloting many of the reforms. The key objective of the MFMA is to modernise municipal financial management so as to lay a sound financial base for the sustainable delivery of services.

The passing of the MFMA into law was a key milestone that had a fundamental impact on municipal financial management that required transformation in financial discipline and planning processes.

The following are some of the key MFMA areas and the relative status:

BUDGET

This annual budget has been developed taking the MFMA, Municipal Budget and Reporting Regulations, and National Treasury requirements into account. Budgets are being tabled and approved within the required legislative timeframes.

IDP

The 2012/13 review process is underway, with community consultation being undertaken as required by legislation.

ANNUAL REPORT

The 2010/11 Annual Report has been developed taking into account the MFMA and National Treasury requirements. The report was noted by council at its meeting held on 30 January 2012 and has entered the public participation phase.

IN-YEAR REPORTING

100% compliance with regards to monthly, quarterly and annual reports to Council, Provincial and National treasury.

BUDGET AND TREASURY OFFICES

A Budget and Treasury Office has been established in accordance with the MFMA and National Treasury requirements

AUDIT COMMITTEE

The Audit Committee, an independent external committee established since 1 July 2005, provides an oversight function over the financial management and performance of the municipality.

MUNICIPAL PUBLIC ACCOUNTS COMMITTEE

This committee ensures that the administration, municipal agencies and entities are held accountable for their management of municipal funds and assets, and to ensure the efficient and effective utilisation of council resources.

ETHICS COMMITTEE

Council, on 2012-02-29, approved the establishment of the Ethics Committee to ensure compliance with the Code of Conduct and to investigate and make a finding in any alleged breach.

14. SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

The SDBIP is a key management, implementation and monitoring tool, which provides operational content to the end-of-year service delivery targets, set in the budget and IDP. The Service Delivery and Budget Implementation Plan is the mechanism that ensures that the IDP and Budget are aligned. The focus of the SDBIP is both financial and non-financial measurable performance objectives in the form of service delivery targets and other performance indicators.

The SDBIP of eThekweni Municipality is developed according to the eight point plan as set out in the Municipal IDP. It contains the Strategic Focus Areas, Programmes, projects and sub-projects as well annual and quarterly targets. The project achievement is reported on the SDBIP at the end of each quarter in the quarterly actuals. The document also reflects Capital and Operational budgets.

The electronic capturing of SDBIP data commenced during the 2009/10 financial year. There have since been several enhancements on the system, to add value to the SDBIP reporting process. Some of the functions on this web based system include email reminders to stakeholders, reports reflecting projects that have under-achieved and linkages to the Organisational Scorecard and Individual Performance Management System. Further development will include uploading of evidence to support the actuals achievements, reasons for under performance, and measures to improve on targets not achieved.

15. STATISTICAL INFORMATION

HEALTH AND SOCIAL SERVICES

HEALTH

Environmental Health:

Number of air pollution monitoring stations	12
Number of industries with scheduled trade permits	897
Number of informal settlements with ablution blocks	169
Number of Environmental Impact assessments commented on	129
Number of building plans commented on	822
Number of Major Hazard installations inspected	54

Clinical Services:

Number of clinics	60
Number of mobile clinic services and health posts	40
Number of children under 1 year fully immunized	18 595
Number of patients screened and treated for chronic medical conditions	292 927
Number of women screened for cervical cancer	15 307
Number of vaccinations undertaken	353 554

Social Development:

Number of clinics with food gardens	45
Number of schools with food gardens	41
Number of TB awareness sessions	93

PARKS RECREATION AND CULTURE

Number of Swimming Pools	52
Number of Soccer Fields	328
Number of Cricket Wickets	57
Number of Hockey Fields	5
Number of Rugby Fields	8
Number of Bowling Greens	6
Number of Netball Courts	36
Number of Volley Ball Courts/Combi-Courts	51
Number of Stadia	10
Number of Community Halls	148
Number of Golf Courses	2
Number of Cemeteries	50
Number of Crematoria	2

Number of Developed Horticultural Parks	238
Number of Nurseries (ha)	9
Number of Developed Playground sites	540
Number of burials (excluding paupers)	4 500
Number of cremations	1 100
Number of graveyards maintained	6 921
Number of Public Conveniences	129
Number of Natural Resource Areas maintained	10
Number of libraries	86
Number of library membership	307 663
Number of books issued	432 196
Number of museums	10
Number of museum visitors - Durban Art Gallery	70 000
Number of museum visitors - Natural Science Museums	150 000
Number of museum visitors - Local History Museums	100 000
Area of Developed Horticultural Parks	2 142
Area of verges maintained (ha)	515

SAFETY AND SECURITY

***BUDGET RELATED
RESOLUTIONS***

16. BUDGET RELATED RESOLUTIONS

16.1

The following resolutions approving the 2012/13 - 2014/15 MTREF are submitted to the Executive Committee for consideration and adjustment where necessary.

That note be taken of the contents of the budget documentation circulated in accordance with the Municipal Finance Management Act, No.56 of 2003.

16.2 ESTIMATES OF INCOME AND EXPENDITURE

- (i) That in terms of section 24 of the Municipal Finance Management Act, 56 of 2003, the annual budget of the municipality for the financial year 2012/13; and indicative allocations for the two projected outer years 2013/14 and 2014/15; and the multi-year and single year capital appropriations are approved as set-out in the following tables of the budget document:

Budgeted Financial Performance (Revenue and Expenditure by Standard Classification) - (Table A2; Page 72)

Budgeted Financial Performance (Revenue and Expenditure by Municipal Vote) - (Table A3; Page 75)

Budgeted Financial Performance (Revenue by Source and Expenditure by Type) - (Table A4; Page 78)

Multi-year and single year capital appropriations by municipal vote and standard classification and associated funding by source (Table A5; Page 79)

- (ii) That the financial position, cash flow, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are adopted as set out in the following tables:

Budgeted Financial Position (Table A6; Page 81)

Budgeted Cash Flows (Table A7; Page 82)

Asset Management (Table A9; Page 84)

Basic Service Delivery Measurement (Table A10; Page 85)

16.3 MUNICIPAL ENTITIES

That the Municipal Entities budget as reflected on pages 186 to 207 is noted.

16.4 RECAPITULATION: VALUATION OF RATEABLE PROPERTY

That it be recorded that the recapitulation certificate summarising the valuations of rateable property, as certified by the City Valuer, are laid on the table.

The following resolutions, pertaining to property rates (items 16.5 to 16.10) and in conformity with the provisions of Section 14 of the Local Government: Municipal Property Rates Act 6 of 2004 and Sections 17 (3) (a) (ii) and 24 (2) (c) (i) of the Local Government: Municipal Finance Management Act 56 of 2003, be adopted.

16.5 DETERMINATION OF RATES

In terms of the amended Rates Policy adopted by Council on 29 March 2012, the Municipality may levy different Rates for different categories of Property.

That the rate randage for the said financial year for the eThekweni Municipality, be and is hereby assessed and levied for the following categories at:

- Residential at 0.914 cents in the Rand
- Agricultural at 0.228 cents in the Rand
- Industrial at 2.674 cents in the Rand
- Business and commercial at 2.072 cents in the Rand
- Public service infrastructure at 0.228 cents in the Rand
- Vacant land at 4.376 cents in the Rand
- Unauthorised or illegal development 4.376 cents in the Rand
- Rural Residential at 0.914 cents in the Rand

Multiple-Use Property will be dealt with in accordance with the Rates Policy.

16.6 EXEMPTIONS, REBATES AND REDUCTIONS

That the following reductions on the market value of the property and rebates on the rates payable, be and are hereby granted in accordance with the Rates Policy.

16.6.1 RESIDENTIAL PROPERTY

That in addition to the statutory reduction of R 15 000, a further reduction of R 105 000 be and is hereby approved for property values exceeding R 185 000.

16.6.2 PUBLIC BENEFIT ORGANISATIONS

That on application and approval, Public Benefit Organisations listed in clause 7.5 of the Municipality's Rates Policy 2012/2013 shall receive an exemption from rates

16.6.3 SENIOR CITIZENS, DISABILITY GRANTEES / MEDICALLY BOARDED PERSONS AND CHILD HEADED HOUSEHOLDS

- (i) That in addition to the reduction in 15.6.1 above, a rebate not exceeding R 3 108 or such lesser amount as may otherwise be payable, be and is hereby approved for qualifying pensioners, disability grantees / medically boarded persons and child headed households.
- (ii) That it be and is hereby resolved to place a maximum limit of R3 million on the value of the property, in order to qualify for the senior citizens rebate in (i) above.

16.6.4 LIFE RIGHTS SCHEMES AND RETIREMENT VILLAGES

That on application and approval, a 25% rebate be granted to Life Rights Schemes and Retirement Villages registered in terms of the Housing Development Scheme for Retired Persons Act 65 of 1988.

16.6.5 SCHOOLS NOT FOR GAIN

That a rebate of 50% be and is hereby granted to qualifying schools not for gain.

16.6.6 BED AND BREAKFAST UNDERTAKINGS

That on application and approval a rebate of 50% be granted to all Bed and Breakfast establishments, that have a valid Registration Certificate issued by eThekweni Municipality.

16.6.7 GUEST HOUSE UNDERTAKINGS

That on application and approval a rebate of 25% be granted to all Guest House undertakings, that have a valid Registration Certificate issued by eThekweni Municipality.

16.6.8 BACK-PACKER LODGES

That on application and approval, the following rebates shall apply to Back-packer establishments that have a valid Registration Certificate issued by eThekweni Municipality:

- (i) Where up to 9 beds are available to guests, a rebate not exceeding 50% will apply;
- (ii) Where up to 20 beds are available to guests, a rebate not exceeding 25% will apply.

16.6.9 NATURAL AND OTHER DISASTERS

- (i) That on application and approval a temporary rebate of 75% be granted in respect of property damaged by disaster for a period of six months or a portion thereof.
- (ii) That on application and approval, that a further temporary rebate of 75% be granted thereafter for a period not exceeding six months.
- (iii) That the rebate is granted on the category of property prior to damage.

16.6.10 VACANT LAND

That a reduction of R 30 000 on Vacant Land be and is hereby approved in accordance with the Rates Policy.

16.6.11 MUNICIPAL PROPERTIES

Except for Trading Services and Housing suspensive sale agreements, property owned by the Municipality or occupied by the Municipality for development housing, is exempt from rates.

16.6.12 NATURE RESERVES AND CONSERVATION AREAS

That on application and approval, nature reserves and conservation areas shall be excluded from rates.

16.6.13 SPECIAL RATING AREAS

- (i) That the Special Rating Areas as indicated in Annexure A be and are hereby established.
- (ii) That in respect of the Special Rating Areas additional rates, as indicated in Annexure A hereto, be approved and levied in respect of each category of property within the boundaries of the Special Rating Area.

16.7 PHASING IN OF RATES

That the following phasing in of rates be and are hereby approved subject to Section 21 of The Local Government: Municipal Property Rates Act 6 of 2004:

- (i) A rate levied on newly rateable property must be phased in over a period of three financial years.
- (iii) A rate levied on property belonging to a Land Reform Beneficiary or his or her heirs must, after ten years from the date on which such beneficiary's title was registered in the office of the Registrar of Deeds, be phased in over a period of three financial years.

The phasing in discount on properties referred to in (i) and (ii) above will apply as follows:

- (a) 75% in the first year
- (b) 50% in the second year
- (c) 25% in the third year
- (iii) A rate levied on newly rateable property owned and used by organizations conducting specified public benefit activities and registered in terms of the Income Tax Act for those activities must be phased in over a period of four financial years, with the following phasing in discounts:
 - (a) 100% in the first year
 - (b) 75% in the second year
 - (c) 50% in the third year
 - (d) 25% in the fourth year

16.8 DATE OF OPERATION OF DETERMINATION OF RATES

That this determination comes into operation on 1 July 2012.

16.9 FINAL DATE FOR PAYMENT OF RATES

- (i) Where rates are payable in monthly instalments, such payments shall be in twelve (12) equal or near equal instalments payable 21 days from the date of account.
- (ii) Where rates are payable annually the final date for payment shall be 31 October 2012, provided that where this date falls on a Sunday or public holiday payment shall occur on the last working day prior to such Sunday or public holiday.

16.10 ADMINISTRATION CHARGE ON ARREAR RATES

That the administration charge on arrear rates as referred to in Section 11.6 of the Credit Control and Debt Collection Policy is determined at 10 %.Collection of arrear rates is in accordance with the Credit Control and Debt Collection Policy.

Interest on Arrears

The CFO in conjunction with the Executive Committee shall have the delegated authority to set the interest rate on arrear accounts.

16.11 OTHER TARIFFS AND CHARGES

- (i) That other tariffs and charges as circulated with the budget document in terms of section 24(2)(c)(i) and (ii) be approved for the financial year commencing 1 July 2012.
- (ii) That the average Electricity Tariff increase of 11%, be hereby approved by the Committee, it being recorded that in view of the application approving this tariff increase is yet to processed by NERSA, a report on any future impact of this application on eThekweni's electricity tariff will need to be considered by the Committee.

16.12 DOMESTIC WATER DEBT RELIEF PROGRAM

That it be and is hereby resolved to place a maximum limit of R250 000 on the rateable value of the property in order to qualify for the Water Debt Relief Program.

16.13 ELECTRICITY DEBT RECOVERY USING THE 80/20% PREPAYMENT SYSTEM

That it be and is hereby resolved to place a maximum limit of R250 000 on the rateable value of the property in order for a private residential property to qualify for the electricity 80/20% prepayment debt recovery facility.

16.14 BUDGET RELATED POLICIES

(i) RATES POLICY

That the Rates Policy has been reviewed in terms of Section 5 of the Municipal Property Rates Act 6 of 2004 and Section 17(3)(e) of the Local Government: Municipal Finance Management Act 56 of 2003, and the amended policy was approved by Council on 29 March 2012, however, the following insertions are proposed:

- (i) The words "or valued or use" be inserted after the last sentence in clause 7.11 dealing with Municipal Properties to provide valuers with an alternative in valuing Municipal property, in line with valuation methods of other Metros.
- (ii) The insertion of clause 9.3(f) - Special Rating Areas, to read "The Municipality may, at its discretion, review and change the establishment procedures from time to time" to make provision for establishment procedures without the need for changing the Policy each time, and

that the insertions to the Rates Policy for 2012/13 be hereby approved.

(ii) CREDIT CONTROL AND DEBT COLLECTION POLICY

The Credit Control and Debt Collection Policy has been adopted on 29 March 2012.

iii) TARIFF POLICY

The Tariff Policy approved on 2 June 2009 remains unchanged.

(iv) FUNDING AND RESERVES POLICY

That the Funding and Reserves Policy approved on 3 May 2010 remains unchanged.

(v) BUDGET POLICY

That the Budget Policy approved by Council on 23 February 2011 remains unchanged.

(vi) OTHER BUDGET RELATED POLICIES

That in terms of Section 24(2)(c)(v) of the Municipal Finance Management Act, 56 of 2003, there are no proposed amendments to any other budget related policies.

16.15 CAPITAL EXPENDITURE ESTIMATE

In those instances where information has been provided in terms of Section 19(2)(b) of the Municipal Finance Management Act No. 56 of 2003, the approval of the capital budget constitutes project approval for the specific projects as reflected in the detailed capital budget.

Where information in terms of Section 19(2)(b) is not provided, specific project approval is to be sought from Council during the course of the year.

16.16 HOUSING/HOSTELS DEFICIT

That the estimated Formal Housing Deficit of R 41.8m for the 2012/2013 financial year be met from the Rate Fund.

That the estimated New Development Housing and Hostels deficit of R 189.1m be funded from the Rate Fund. Appropriate interventions need to be escalated by the Executive Committee including, inter alia, the phased introduction of economic rentals, the constructive engagement of the Provincial State Authorities to secure additional funding and strategies to reduce electricity and water consumption.

That the 8 500 housing units built per annum and currently provided for is dependent on additional funding being sourced, in negotiations with the Provincial Authorities, and that a report on any future impact of the funding sourced, will need to be considered by the Committee.

16.17 NEW FUNCTIONS/ SERVICES

That no new functions or service be introduced without specific approval thereto by the Council after full consideration of the effect thereof on the Council's Budget.

16.18 MEASURABLE PERFORMANCE OBJECTIVES

That in terms of Section 24(2)(c)(iii) of the Municipal Finance Management Act No. 56 of 2003, the measurable performance objectives for capital and operating expenditure by vote for each year of the medium term revenue and expenditure framework as set out in **Table SA7 (Page 93)** be approved.

16.19 INTEGRATED DEVELOPMENT PLAN (IDP)

That the draft reviewed Municipality's Integrated Development Plan (IDP) was tabled with the budget in terms of Section 17(3)(d) of the Municipal Finance Management Act No.56 of 2003, it being recorded that the annual review process as prescribed in terms of Section 34 of the Municipal Systems Act, is continuing and that report to the Executive Committee will be submitted on completion of the consultative process.

16.20 PARTICULARS OF INVESTMENTS

That in terms of Section 17 (3) (f) of the Municipal Finance Management Act No. 56 of 2003, particulars of the Councils investments are reflected in **Tables SA15 - SA16 (Pages 103 - 104)**.

16.21 REMUNERATION OF COUNCILLORS AND SENIOR OFFICIALS

That in terms of Section 17(3)(k) of the Municipal Finance Management Act No.56 of 2003 that the proposed cost to Council of the salary, allowances and benefits of each political office bearer, councilor and senior official, is reflected in **Tables SA22 - SA23 (Pages 110 - 111)**.

16.22 UNFUNDED MANDATES

That the Council make representation to the Provincial and National Government regarding unfunded mandates presently undertaken by the Municipality with a view to securing funding for those services. The cost of unfunded mandates is set out hereunder:

	R' m
Libraries	196.2
Health - other than municipal health services	411.0
Museums	48.3
Housing: New Development and Hostels	189.1
Formal Housing	41.8
	<hr/>
	886.4

16.23 FREE BASIC SERVICES

That the Basic Services Package as set out on **page 38** is approved for the budget year 2012/2013.

16.24 BUSINESS TAX

That it be noted that the Metros in conjunction with SALGA have made submissions to National Treasury for the levying of a business tax and a report in this regard will be submitted in due course.

16.25 OFF BALANCE SHEET FINANCING

That approval in principle be granted for alternate financing options/models to be considered, incorporating but not limited to Sect 33 (Contracts having future budgetary implications) of the MFMA type arrangements, to finance major infrastructure works requiring significant capital sums over several years where risks and rewards are equitably shared between the municipality and its chosen partner/s. Each specific project will be submitted to Council for consideration.
