#### 1.1 MHLONTLO LOCAL MUNICIPALITY: MAYORS BUDGET SPEECH

Honourable Speaker Executive members Councillors Traditional Leaders Council of Churches Community at Large Officials

I greet you all in the name of service delivery. The functions of the Council centres around promoting the interests of its ratepayers, employees, residents and customers by striving to render the highest quality of services, advancing the interests of its employees by providing safe, secure and satisfying working environments.

A further important challenge facing Council is to improve the financial position of Mhlontlo Local Municipality. In particular, an improvement in the collection of long outstanding debtor's balances is critical, if the Council is to achieve its goals. The unfortunate part is that the unemployment rate in the area has worsened causing many residents not to be able to pay for services. Our ability to render services will be threatened by our financial status and we hope that workable solutions will be found soon.

As we strive towards impacting on rural livelihood for the better in the local Municipality of Mhlontlo, amongst the compliance issues is the submission of the Medium Term Revenue and Expenditure Framework (MTREF) budget as prescribed in section 22 (b) of the Local Government: Municipal Finance Management Act (MFMA) 56 of 2003.

I therefore submit the 2013/14 Budget. The Council remains committed in improving its service delivery even though our budget is limited as the municipality is solely depending on grants and hoping to meeting the challenges it faces and hopefully in future, I will be able to report positively on the progress we have made in this regard.

Following are the major activities that the municipality will be engaged in, in the 2013/2014 financial year.

- Electrification of the households without electricity;
- Ensuring the construction of roads;
- Construction of Municipality Town Hall (it has been committed but will be finished in the next coming year);
- Alleviation of poverty through: Free Basic Services to the Indigent communities;
- LED projects and Co-operative Development Centres; and
- EPWP projects.

As much as some of other services are under the OR Tambo District Municipality, Mhlontlo will ensure that working relations are improved so as to improve service delivery for water services and sanitation.

In conclusion I would like to assure our community that though the budget is limited, Mhlontlo municipality remains committed to improving its service delivery. I also would like to express my appreciation to my fellow Council members, the management, and all other staff for their support, co-operation and hard work during the preparation of the budget as well as the IDP.

'1AYOR

Cllr T.N. Sabisa

#### 1.2 COUNCIL RESOLUTIONS

On 7 June 2013 the Council of Mhlontlo Local Municipality met in the Council Chambers to consider the annual budget of the municipality for the financial year 2013/14. The Council approved and adopted the following resolutions:

- 1. The Council of Mhlontlo Local Municipality, acting in terms of section 16 and 24 of the Municipal Finance Management Act, (Act 56 of 2003) approves and adopts:
  - 1.1. The annual budget of the municipality for the financial year 2013/14 and the multiyear and single-year capital appropriations as set out in the following tables:
    - 1.1.1. Budgeted Financial Performance (revenue and expenditure by standard classification) as contained in Table 11 on page 17;
    - 1.1.2. Budgeted Financial Performance (revenue and expenditure by municipal vote) as contained in Table 12 on page 19;
    - 1.1.3. Budgeted Financial Performance (revenue by source and expenditure by type) as contained in Table 13 on page 20; and
    - 1.1.4. Multi-year and single-year capital appropriations by municipal vote and standard classification and associated funding by source as contained in Table 14 on page 21.
  - 1.2. The financial position, cash flow budget, cash-backed reserve/accumulated surplus, asset management and basic service delivery targets are approved as set out in the following tables:
    - 1.2.1. Budgeted Financial Position as contained in Table 15 on page 22;
    - 1.2.2. Budgeted Cash Flows as contained in Table 16 on page 23;
    - 1.2.3. Cash backed reserves and accumulated surplus reconciliation as contained in Table 17 on page 24;
    - 1.2.4. Asset management as contained in Table 18 on page 25; and
    - 1.2.5. Basic service delivery measurement as contained in Table 19 on page 27.
- The Council of Mhlontlo Local Municipality, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) approves and adopts with effect from 1 July 2013
  - 2.1. the tariffs for property rates as set out in

#### 2.2. the tariffs for refuse removal - as set out in

- 3. To give proper effect to the municipality's annual budget, that the Council of Mhlontlo Local Municipality approves:
  - 3.1.Cash backing is implemented through the utilisation of a portion of the revenue generated from property rates to ensure that all capital reserves and provisions, unspent long-term loans and unspent conditional grants are cash backed as required in terms of the municipality's funding and reserves policy as prescribed by section 8 of the Municipal Budget and Reporting Regulations.

#### 1.3 EXECUTIVE SUMMARY

The application of sound financial management principles for the compilation of the Municipality's financial plan is essential and critical to ensure that the Municipality remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The Municipality, as required by section 23, 24 and 25 of Municipal Systems act (act 32 of 2000) undertook a strategic planning session with a sole mandate of developmental oriented planning so as to have an Integrated Developmental plan with implementable strategies and prioritisation of projects in compliance with section 29 of Municipal Systems act (34 of 2000). Alignment of strategic objectives, priorities and budget was undertaken. The draft IDP has been tabled to the council and further consultations with community, IGR structures and other stakeholders will be undertaken.

National Treasury's MFMA Circulars 66 and 67 were used to guide the compilation of the 2013/14 MTREF. The main challenges experienced during the compilation of the 2013/14 MTREF can be summarised as follows:

- The continuing poor performance of both the local and national economy.
- The ever increasing number of indigents within our communities
- The need to re-prioritise projects and expenditure within the existing within the existing resource envelope and the worsening cashflows
- Increasing debtors' book resulting in reduced generation of own revenue

In view of the aforementioned, the following table is a consolidated overview of the proposed 2013/14 Medium-Term Revenue and Expenditure Framework:

<u>Table 1</u> EC 156 Mhlontlo Consolidated Overview of the 2013/14 MTREF

Description	Adjusted Budget	2013/14 Medium Term Revenue & Expenditure Framework						
Description	Adjusted Daugut	Budget Year 2013/14	Budget Year +1 2014/15	Budget Year 2015/16				
High Level Outcome of Funding Compliance								
Total Operating Revenue	138 865	158 388	170 126	213 538				
Total Operating Expenditure	128 736	181 750	190183	200 755				
Surplus/(Deficit) Budgeted Operating Statement	10 129	(23 187)	(20 057)	12 95				
Total Capital Funding	42 217	37 221	40 703	43 528				

**Total operating revenue** has increased by 14 % or R19.5 million for the 2013/14 financial year when compared to the 2012/13 Budget.

This was a result of the non-cash items that we have budgeted for in the current financial year and they were not included in our budget in the previous years, these being, Debtors impairment, and depreciation on assets.

Total operating expenditure for the 2013/14 financial year has been appropriated at R182 million and translates into a budgeted deficit of R23 million.

Total Capital Budget for 2013/14 totals R37 million. The Capital Program is funded through National Government grants in the form of Municipal Infrastructure Grant (MIG). No external borrowings were deemed necessary to fund the capital program.

#### 1.4 OPERATING REVENUE FRAMEWORK

For Mhlontlo Municipality to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is underpinned by the following key

#### components:

- National Treasury's guidelines and macro-economic policy;
- · Economic growth within the municipality
- Efficient revenue management, which aims to ensure a 95% collection rate for property rates and other key service charges;
- Determining a correct tariff escalation rate;
- The municipality's Indigent Policy and rendering of fre basic services; and
- Tariff policies of the municipality

The following table indicates the proposed tariff increase for the 2013/14 budget year.

TABLE 2
EC 156 Mhlontlo Rates and Tariff increases

	2013-14	2014-15	2015-16
Rates	4%	4%	4%
Refuse	0%	0%	0%

in the 2011/12 financial year the municipality achieved a collection rate of 80% on the revenue billed in the year. This has to been maintained in the 2012/13 financial period, with still some challenges from household revenue collections. The projected collection rate is at 95%, as measures are currently being implemented to collect old household debt and all currently billed revenue.

The rate for refuse removal has not been increased in the 2013/14 budget year. This is due to the challenges that we are experiencing as the Municipality in implementing strategies around refuse collection. These are expected to have an impact in future years.

The following table is a summary of the 2013/14 MTREF (classified by main revenue source):

Total Revenue from rates							
and services	13,093	13,093	23,725	24,133	25,114		

Source: Municipal Budget 2013/14

In line with the formats prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculation of the operating surplus/deficit.

Revenue generated from rates and services represents a minor percentage (15%) of the revenue basket of the municipality. This revenue increases to R 24m and R 25m respectively in the outer years of the MTREF. Other revenue represents the second largest revenue source made up largely by vat refunds. Property rates is the third largest revenue source totalling 5% or R 7.9m and increases to R 8.3m by 2013/14.

Operating grants and transfers totals R 134 million in the 2013/14 financial year and steadily increases to R 188 million by 2015/16. The following table gives a breakdown of the various operating grants that are allocated to the municipality, both nationally and provincially, over the medium term.

#### 1.5 OPERATING EXPENDITURE FRAMEWORK

The Municipality's expenditure framework for the 2013/14 budget and MTREF is informed by the following:

- The asset renewal and the repairs and maintenance
- Balanced budget constraint (operating expenditure exceed operating revenue)
   This is due to non cash items that are included in the operating Expenditure budget.
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA:
- Operational gains and efficiencies will be directed to funding the capital budget and other core services.

The following table is a high level summary of the 2013/14 budget and MTREF (classified per main type of operating expenditure):

TABLE 6
EC 156 Mhlontlo: Summary of operating expenditure by standard classification

One of the major expenditure items are employee related costs at R 73 m, which equals 40% of the total operating expenditure. This represents an increase of 14% from the 2012/13 figure of R 64 m. In keeping with good budget and accounting practices non-cash items such as the debt and depreciation/asset impairment have been provided for in the 2013/14 budget at a total amount R 28.6m. This figure gradually increases for the 2014/15 and 2015/16 outer years to R 30m and R 31.5m respectively.

#### Other expenses

#### 1.5.1 Repairs and maintenance

The table below highlights the budget allocation toward repairs and maintenance.

TABLE 7

EC 156 Mhlontlo: Operational repairs and maintenance

Description	2009/10	2010/11	2011/12	c	urrent Ye	ear 2012/13	3		2013/14 Medium Term Ro Expenditure Frame			
R thousands	Audited Outcom e	Audited Outcome	Audited Outcom e	i i irininai	Adjuste d Budget	Full fear	Pre- audit outcom e	Budget Year 2013/14	Budget Year +1 2014/15	Budget Year +2 2015/16		
Repairs and Maintenance by Expenditure Item												
Employee related costs												
Other materials												
Contracted Services				1,050		1,050						
Other Expenditure		1,893		2,115	:	2,115		5,063	5,321	5,582		
Total Repairs and Maintenance Expenditure	-	1,893		3,165		3,165	_	5,063	5,321	5.582		

During the compilation of the budget operational repairs and maintenance was identified as a strategic imperative owing to the increased plant that the municipality has recently acquired. An allocation of R 5,063m for the 2013/14 budget is made, thereafter increased to R 5,321m and R 5,582m for the two outer years respectively.

#### 1.5.2 Free Basic Services: Basic Social Services Package

The social; package assists households that are poor or face other circumstances that limit their ability to pay for services. In terms of the municipality's Indent Policy, ALL these households should be registered and reviewed annually.

The cost of the social package of these registered household is mainly funded by national government through local government equitable share received in terms of the Annual Division of Revenue Act.

The municipality currently provides and has budgeted for the following benefits to registered indigent households:

- Electricity: A subsidy of fifty (50) units of electricity per property per month to registered households will apply.
- Alternative energy (paraffin) which is 20L per house hold will be applied for the duration of 2013/2014 financial year.
- Refuse Removal: A subsidy, not more than the applicable tariff for the 2013/14 financial year, will be applied for the duration of the financial year.

#### 1.6 CAPITAL EXPENDITURE

The following table reflects the capital budget of the municipality over the 2013/14 MTREF

For the 2013/14 budget period capital expenditure is projected at R 68 m, funded from government grants to the tune of R37m and R25m from own funds/equitable share.

#### ONGOING ISSUES REQUIRING MONITORING AND EVALUATION

The municipality is closely monitoring certain issues that could have a significant financial impact on future budgets. If one or more of them require substantial resources beyond what is included in the mid -term budget, the municipality will have to adjust its spending plans to maintain its financial position. Many of the

items listed below could have major and permanent impacts on the operating budget, and would therefore require permanent increases in revenue, or reductions in other services. Consequently, they should be carefully monitored and evaluated:

- Maintenance backlogs in roads and municipal properties
- Staffing requirements and the impact on the personnel expenditure targets;
- Acceptance and implementation of unfunded mandates; e.g. Disaster management and Library Services;
- Improving on current collection rates especially on household debt

#### 1.7 Annual Budget Tables

The 13 following pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2013/14 budget and MTREF as approved by the Council. Each table is accompanied by explanatory notes on the facing page.

Explanatory notes to MBRR Table A1 - Budget Summary

- 1. Table A1 is a budget summary and provides a concise overview of the municipality's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
- The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
- 3. Financial management reforms emphasises the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
  - a. The operating surplus/deficit (after Total Expenditure) is negative in the first two years, and becomes positive in the 2015/16 budget year. Capital expenditure in the 2013/14 year is funded by grant transfers of which
    - (i) R 37 m is MIG
    - (ii) R 25 m is internally generated funds

## Explanatory notes to MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)

- Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 12 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms if each of these functional areas which enables the National Treasury to compile 'whole of government' reports.
- 2. Note the Total Revenue on this table includes capital revenues (Transfers recognised capital) and so does not balance to the operating revenue shown on Table A4.

Explanatory notes to MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)

Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the municipality. This means it is possible to present the operating surplus or deficit of a vote.

## Explanatory notes to Table A5 - Budgeted Capital Expenditure by vote, standard classification and funding source

- Table A5 is a breakdown of the capital program in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
- Single-year capital expenditure has been appropriated at R68 million for the 2013/14 financial year and then decreases over the MTREF to levels of R38 million in the 2014/15 and then increases to R40 million in the 2015/16 budget year.

#### Explanatory notes to Table A6 - Budgeted Financial Position

- 1. Table A6 is consistent with international standards of good financial management practice, and improves understandability for councillors and management of the impact of the budget on the statement of financial position (balance sheet).
- 2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as "accounting" Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
- 3. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
- 4. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

#### Explanatory notes to Table A7 - Budgeted Cash Flow Statement

- 1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
- 2. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

The tabled 2013/14 MTREF indicates a cash surplus at the end of the 2013/14 budget year, and increases to a cash surplus of R16m in the 2014/15, and further grows to around R 64m in the 2015/16 outer year.

## Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

- 1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 Funding a Municipal Budget.
- 2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
- 3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
- 4. Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.

5. From the table it can be seen that for the period 2012/13 to 2013/14 the position worsened from a surplus of R19 m to a deficit of R10m. This situation further deteriorates to R 6.7m in the 2015/16 financial year.

Explanatory notes to Table A9 - Asset Management

- 1. Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.
- 2. National Treasury has recommended that municipalities should allocate at least 40 per cent of their capital budget to the renewal of existing assets, and allocations to repairs and maintenance should be 8 per cent of PPE. The municipality does not meet these recommendations as the municipality is still having a huge backlog in construction of infrastructure in the rural communities. Bulk of the budget is for construction of new infrastructure (Roads).

#### Explanatory notes to Table 18

- 1. Table 18 provides an overview of the service levels, including backlogs (below minimum service level), for each of the main services
- 2. The municipality continues to make progress in the eradication of backlogs:

#### Part 2 - Supporting Documentation

#### 2.1 OVERVIEW OF THE ANNUAL BUDGET PROCESS

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the Mayor

The primary aim of the Budget Steering Committee is to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the Municipality's IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

#### 2.1.1 Budget Process Overview (Plan)

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2012) a time schedule that sets out the budget process to revise the IDP and prepare the budget.

The Mayor tabled in Council the required IDP and the following budget time schedule

#### **Budget Time Schedule for 2013/14**

PROCESS	ACTIVITY	TIME FRAME	RESPONSIBILITY

### 2.1.2 IDP and SDBIP

This the Second review of the IDP as adopted by Council in 2010/11. It started in September 2012 after the tabling of the IDP Process Plan and the Budget Time Schedule for the 2013/2014 MTREF. The IDP review process is in progress and a draft 2013/14 IDP has been developed. The IDP includes specific deliverables that forms the basis for the Budget and SDBIP.

The process followed during the review included these key IDP processes:-

- Registration of community needs;
- Compilation of departmental business plans including key performance indicators and targets;
- Financial planning and budgeting;
- Public participation process; and
- · Compilation of the SDBIP

### 2.2 OVERVIEW OF ALIGNMENT OF ANNUAL BUDGET WITH IDP

The Integrated Development Plan (IDP) determines and prioritises the needs of the community. All the plans for Mhlontlo Local Municipality forms the basis of the 5 year IDP and is particularly strong on integration, consultation and public participation. The plan provides a comprehensive Spatial Development Framework, which sets a basis for integrated implementation in a system approach

The 2013/14 to 2015/16 Operating and Capital Budgets were prepared in accordance with the IDP. The key strategic focus areas of the IDP are as follows:

- Service delivery under conditions of good governance
- · Financial planning and Viability
- Institutional Development and Transformation
- Local Economic Development
- Good governance and public participation

The above-mentioned strategic focus areas have informed the preparation of the Budget.

After the tabling of the budget, a series of meetings will be held throughout the municipal area to consult with the elected public representatives. The feedback flowing from these meetings will be referred to the relevant departments for their attention.

The 2013/14 MTREF has therefore been directly informed by the IDP revision process and the following tables provide a reconciliation between the IDP strategic objectives and operating revenue, operating expenditure and capital expenditure.

### 2.3 MEASURABLE PERFORMANCE OBJECTIVES AND INDICATORS

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information and in terms of the Municipal Systems Act, municipalities are required to prepare organisational performance management system (OPMS) that is linked to the IDP. Mhlontlo Municipality is currently in the process of finalising the OPMS and this has been incorporated into this IDP Process Plan. The PMS process will address the following issues:

- Alignment of the PMS, Budget and IDP processes;
- Implementation of individual performance management system at managerial level.

•

 The IDP, OPMS and budget are all components of one overall development planning and management system. The IDP sets out what the municipality aims to accomplish, and how it will do this. The PMS enables the municipality to check the extent to which it is achieving its aims. The budget provides the resources that the municipality will use to achieve its aims.

The following table provides the main measurable performance objectives the municipality undertakes to achieve this financial year.

Borrowing Management: Capital expenditure in local government can be funded by capital grants, own-source revenue and long term borrowing. Mhlontlo has limited the funding of its capital program to capital grants receivable and use of own revenue in the 2013/2014 MTREF, hence no external borrowings.

#### 2.4 OVERVIEW OF BUDGET RELATED POLICIES

The Municipality's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

The following budget related policies exist :-

- (a) Credit control and debt collection policy
- (b) Property rates policy
- (c) Tariff policy
- (d) Supply Chain Management policy
- (e) Asset Management Policy
- (f) Revenue Management Policy.
- (g) Cash Management Policy
- (h) Fleet Policy

These were reviewed and proposed changes for the 2013/2014 budget year were tabled and adopted by council.

### 2.5 OVERVIEW OF BUDGET ASSUMPTIONS

Budget assumptions/parameters are determined in advance of the budget process to allow budgets to be constructed to support the achievement of the longer-term financial and strategic targets.

The following principles and guidelines directly informed the compilation of the Budget:

- The priorities and targets in relation to the key strategic focus areas as determined in the IDP.
- The level of property rates and tariff increases to take into account the need to address maintenance and infrastructural backlogs, including the expansion of services.
- An assessment of the relative capacity to implement the Budget.
- No budget allocation has been made to programmes and projects, unless the respective programme and project plans have been submitted by the relevant Directors.
- The need to enhance the municipality's revenue base.

The assumptions and principles applied in the development of this Budget are based upon guidelines received from National and Provincial Treasury, regulatory institutions such as the National Electricity Regulator of South Africa (NERSA), the South African Local Government Bargaining Council SALGA and National Treasury's

MFMA Circular No 66 and 67. The IDP's strategic focus areas informed the development of the Budget, in addition to assessing the relative capacity to implement the Budget, taking affordability considerations into account. The aforementioned guidelines were considered appropriate to inform the development of the Budget.

### 2.6 OVERVIEW OF BUDGET FUNDING

The budget is funded from two major sources:

- Realistic expected revenue from operations (Property rates and service charges)
- Grants and subsidies (cash backed allocations from government)

The following table is a breakdown of the operating revenue over the medium term: TABLE 24

EC156 Mhlontlo		Table A1	Budget	Summary
----------------	--	----------	--------	---------

Description	2009/10	2010/11	2011/12		Current Yo	ear 2012/13			Medium Term Revenue & enditure Framework

Other own revenue	3,370	10, 113	3,776	5 474	-	3 474	-	14 500	14 438	15 029	
tal Revenue (excluding capital transfers	146 633	144 281	140 042	139 5€5	-	138 865		158 563	170 126	2*3 /13	
and contributions)											

The municipality's own revenue base is very limited. The growth in the property market is stunted as a large proportion of the municipal area is rural, with very limited infrastructure that is ageing and dilapidating. Our current operating budget cannot handle the need to address infrastructure maintenance and backlogs. This requires substantial cash resources. The presidential intervention is the current solution at this point. In relation to staffing requirements, budget provisions are set aside on an annual basis, in order to fill vacant positions critical to service delivery. The 2013/14 Budget has provisions for repairing plant and machinery; this fleet will be operational and will assist in improving infrastructure maintenance levels

### 2.10 CONTRACTS HAVING FUTURE BUDGETARY IMPLICATIONS

In terms of the Municipality's Supply Chain Management Policy, no contracts are awarded beyond the medium-term revenue and expenditure framework (three years). In ensuring adherence to this contractual time frame limitation, all reports submitted to either the Bid Evaluation and Adjudication Committees must obtain formal financial comments from the Budget & Treasury Office.

The following is the list of contracts:-

TABLE 36

#### 2.12 LEGISLATION COMPLIANCE STATUS

### 1. Implementation of the MFMA

The municipality has been implementing the provisions of the MFMA in accordance with a documented Implementation Plan. The municipality monitors its implementation status on an on-going basis through reporting via its Committees, including the following:

- The Municipal Manager's Management Team includes all section 57 managers, which meets monthly and attends to MFMA issues requiring attention.
- The Finance and asset management committee a standing committee of the Council, which meets monthly. The committee considers specific MFMA implementation issues and reports via the Mayoral Committee to Council.
- Meetings between the Municipal Manager, CFO and section 57 managers to discuss MFMA implementation issues, as and when necessary, Issues requiring attention are monitored so that actions are taken to ensure compliance.

### 2. Internship programme

The municipality is participating in the Municipal Financial Management Internship Programme and has employed five(5) interns undergoing training in various sections within the Budget and Treasury Office.

### 3. In-Year Reporting

The municipality submits the various reports required in accordance with the MFMA to the Executive Mayor, Council, and National Treasury on an on-going basis

### 4. Budget and Treasury

A Budget and Treasury Office has been established in accordance with the MFMA and NT requirements, consisting of a CFO and municipal officials reporting to the CFO.

### 5. Annual Report

Annual report is compiled in terms of the MFMA and National Treasury requirements.

## 6. Oversight Report

The MPAC lead the oversight process for the 2011/12 financial year, which complies with the MFMA and NT guidance. Due to challenges that were experienced by the MPAC, the Oversight Report was only adopted on the 7<sup>th</sup> August 2013 even though it was ready for tabling in May 2013.
