Author: EXECUTIVE MAYOR (ZN)/cm/vp

2013/2014 - 4TH ADJUSTMENT BUDGET

1. PURPOSE

The purpose of the report is for Council to consider and approve the 2013/14 4th Adjustment Budget.

2. AUTHORITY

Buffalo City Council.

3. LEGAL/STATUTORY REQUIREMENTS

- 3.1 The Constitution of the Republic of South Africa, 1996
- 3.2 Municipal Finance Management Act No. 56 of 2003
- 3.3 Municipal Budget and Reporting Regulations, 2009

4. BACKGROUND

The 2013/14 MTREF Budget was approved by Council on 29 May 2013 in accordance with Section 24(1) of the MFMA.

In terms of Chapter 4 Sections 28(1) to (7) of the Municipal Finance Management Act No. 56 of 2003,

“(1) A municipality may adjust an approved budget through an adjustment budget.

(2) An adjustments budget –

- (a) must adjust the revenue and expenditure estimates downwards if there is material under-collection of revenue during the current year;*
- (b) may appropriate additional revenues that have become available over and above those anticipated in the annual budget, but only to revise or accelerate spending programmes already budgeted for;*
- (c) may, within a prescribed framework, authorize unforeseeable and unavoidable expenditure recommended by the mayor of the municipality;*
- (d) may authorize the utilization of projected savings in one vote towards spending under another vote;*
- (e) may authorize the spending of funds that were unspent at the end of the past financial year where the under-spending could not reasonably have been foreseen at the time to include projected roll-overs when the annual budget for the current year was approved by council.*

- (f) may correct any errors in the annual budget; and
- (g) may provide for any other expenditure within a prescribed framework.”

In terms of MFMA Municipal Budget and Reporting Regulations, Regulation 23

“(1) an adjustments budget referred to in Section 28(2)(b), (d) and (f) of the Act may be tabled in the municipal council at any time after the mid-year budget and performance assessment has been tabled in the council, but not later than 28 February of the current year.”

In terms of Section 54(1) on receipt of a statement or report submitted by the Accounting Officer of the municipality and in terms of Section 71 or 72, the Mayor must –

“(c) consider and, if necessary, make any revisions to the Service Delivery And Budget Implementation Plan, provided that the revision to the service delivery targets and performance indicators in the plan may only be made with the approval of the Council following approval of an adjustment.”

5. EXPOSITION OF FACTS

The 4th adjustment budget is being prepared as informed by the Third Quarter Performance Assessment Report and certain adjustments have been identified in terms of Section 28(2) of the MFMA. The main reason for this adjustment budget is the shifting of Conditional Grant Funding to projects that are being expedited. These projects are approved by Council in the 2013/14 Budget and are contained in the Integrated Development Plan (IDP).

This is to ensure that the Conditional Grant does not revert back to the National Revenue Fund for non-expenditure.

The following table provides a high-level summary of the Operating and Capital Budget Adjustments:

6. CHALLENGES

6.1 There are projects that have been awarded over the last two financial years that are still facing legal and appeal challenges.

7. STAFF IMPLICATIONS

7.1 The adjustment budget is linked to the Performance Plans of Head of Departments and are therefore responsible to spend the revised budget.

8. FINANCIAL IMPLICATIONS

8.2 An adjustment of the 2013/14 Operating Budget to R4,5 billion. The major contributing factor to the adjustment on the Operating Budget of R1,6m is the additional own funds for the Duncan Village Caretakers ablution facilities and the R266,814 from Amalinda Fairlands projects which has been transferred to Bulk Electrification.

8.3 An adjustment of the 2013/14 Capital Budget to R1,004,4 million. The major contributing factors are listed below:

- The R1m of **Own Funds** allocated for busses which has been relinquished by the Directorate of Planning & Economic Development.
- R2m funding from the **Department of Land Affairs** (DLA) relinquished by the Directorate of Planning & Economic Development.
- **USDG** funding relinquished by the Directorate of Planning & Economic Development and transferred to Bulk Electrification.

8.4 The effects of the adjustments to the 2013/14 Capital and Operating Budget are outlined below:

1.3 EXECUTIVE SUMMARY

Although Buffalo City remains a financial and viable city, with a credit rating moving from A1- to A1 in the long term, service delivery has room for improvement in ensuring all our citizens receive the required services.

The National directive is for municipalities to create jobs via enabling economic zones. It is imperative that we as a city start concentrating on implementing infrastructure in these economic zones of Wilsonia, Fort Jackson, Dimbaza to mention but a few so as to attract large business and industries.

To avoid grant funding from being reverted to the National Revenue Fund this adjustment budget allows for the shifting of funds between projects so as to expedite those projects that are meeting the needs of the community.

PART 2 – SUPPORTING DOCUMENTATION

2.1 ADJUSTMENTS TO BUDGET ASSUMPTIONS

The Budget Assumptions have not been adjusted as the forecasted revenue from primary services will be realised. As a result the Adjustment Budget does not have an impact on tariffs as these are mainly funded from 2012/13 rolled-over conditional grants.

2.2 ADJUSTMENTS TO BUDGET FUNDING

2013/2014 MTREF OPERATING REVENUE

NOTES TO THE ADJUSTED 2013/14 REVENUE PER SOURCE

In terms of service revenue, Electricity Tariffs continue to be the main contributor to the revenue of the Municipality by generating 31% of the total revenue. This is followed by water tariffs at 7%, sewerage and refuse tariffs at 5%.

The implementation of Supplementary Valuations continue to have a positive impact on the Property Rates revenue which totals 16% of the total Municipal revenue.

The Municipality continues to receive grants and subsidies totalling 20% of the total revenue. These funds are utilised to provide basic services to the residents who are less fortunate as well as contributing to the providing of capital infrastructure service delivery to areas where there is limited or no infrastructure in place.

2013/2014 OPERATING EXPENDITURE

NOTES TO THE ADJUSTED 2013/14 EXPENDITURE PER CATEGORY

Employee costs represent the largest cost of the Municipality and totals 25% of the total operating expenditure. Bulk Electricity at 21% represents the purchase of Electricity from Eskom. The Bulk Water purchases of 4% comprise the water purchases from Amatola Water. There has been focus on reducing purchases from Amatola Water in that there is a premium paid for purchased water and the institution has been able to adequately manage its own internal water reserves.

General Expenses contribute 18% of total operating expenditure. This will be a focus area by the institution in an attempt to comply with the request made by National Treasury and to reduce the impact on the cost base of the institution in an attempt to provide funding availability for the deficit.

Depreciation totals 12% of the total cost base for the institution. This represents the proportional funding requirements for the replacement of existing infrastructure assets.

The main contributor for Operating projects at 7% of the total cost base is the housing project top structure funded from the Human Settlement Development Grant.
