

# **MAYOR'S REPORT: 2014/2015 ADJUSTMENT OPERATING AND CAPITAL BUDGET REPORT**

## **PURPOSE**

- To advise Council about the adjustment budget process for 2014/2015 MTREF (Medium Term Revenue and Expenditure Framework).
- To submit the 2014/2015 Adjustment Capital and Operating budget for Council approval.
- To advise council about items affecting adjustment budget and service delivery.
- To provide adjustment budget information to council for more discussion to achieve approved budget on time.

## **LEGAL / STATUTORY REQUIREMENTS**

- Municipal Finance Management Act 56 of 2003, Chapter 4.
- Municipal System Act 32 of 2000.
- National Treasury Regulations and Guidelines.
- Municipal Budget and Reporting Regulations (reg21, 22, 23, 24, 25, 26 and 27).
- Matatiele municipality will continue to strive for improvements on the performance for the speeding up of sustainable service delivery. For the first half of the 2014/2015 Budget implementation, small improvements as compared to last year at this time is noted and there is still more needs to be done so that by year end the acceptable performance is achieved. Last year at this time, 30% achieved on capital budget spending and that has decreased this year to 28% and this is not good enough as is 22% less than the expected target of 50%.

## **MAYOR'S FORWARD**

- The municipality is still faced with a challenge of spending 100% on capital budget by year end and to achieve that, proper planning, fast decision making, more cooperation and dedication on political leadership, management and staff in general will be critical and a priority. Municipality is continuing with strict controls on implementation and management of operating budget and measures have been put in place to ensure that expenditure is within the approved budget and always balanced with the actual revenues received. This is evident through the expenditure spending of 44% against 58% revenue received of the approved budget.
- Challenges are still notable on the debtors' reduction and the municipality is moving forward in resolving this challenge through development of Revenue Enhancement Strategy which will focus to the main areas of customer's data cleansing, tariff modelling, identification of new revenue sources, electricity smart metering and upgrading of consolidated billing systems. The enforcement of debt collection and credit control policies remain a practise for the municipality and this is evident by the 85% collections on current billings of rates and services with only the stumbling block being on arrears of more than 120 days.

- On good governance, the municipality remains improving and compliance with legislation is always enforced and encouraged to political leadership and management, as results of legislative compliances, the municipality has sustained the unqualified audit opinion for the year ended 30 June 2014.
- On this mid-term budget performance assessment by the accounting officer, council needs to take notice that, in overall only 42% has been achieved and this is 8% less achievement which requires a turnaround plan to achieve 100% by end of the budget year.
- The Accounting Officer with management is therefore tasked with a responsibility of turning things around so that the performance is improved to achieve the 100% target on Capital budget and Operating budget needs to be controlled within the required limits to avoid overspending and unbalanced income and expenditure.

I thank you,

## **2014/2015 ORIGINAL APPROVE BUDGET PROCESS**

The preparation process of the Capital and Operating Budget 2014/2015 had commenced as expected by submitting the Budget and IDP Review plan to Council for approval in August 2014. Management submitted their budget proposals timeously and advised for consolidation in one Council Budget. The consolidated budget was discussed by Management and adjustments were subsequently made.

The submissions were based on the Medium Term Revenue and Expenditure Framework for 2014/2015 and these were mainly for the operating estimates as well as Capital estimates. The IDP and Budget review process was conducted in most wards as coordinated by the office of the Mayor, Ward Councillors, IDP office, Budget and Treasury and the Municipal Managers offices.

This exercise was carried out in order to establish the Capital Budget priorities as per IDP as well as to review the IDP for consideration of the Budget preparation process.

## **ALIGNING THE BUDGET WITH THE COMMUNITY NEEDS**

The municipality is committed to redressing and addressing the needs of the people and values inputs from our communities. During the budget outreach program in April 2014, there were projects which

were identified and omitted on the final approved budget and these have been identified by management during the mid-term performance assessment processes and have necessitated that there must be adjustments to be done on the capital budget approved to cater for them as follows,
