2. Mayor's Report

An assessment was made of the income and expenditure patterns over the first half of the financial year. Cash flow projections were also done for the remainder of the financial year.

- There was a decline in the average collection rate in the first six months, compared to the budgeted forecasts.
- The liquidity of the municipality as at the beginning of the financial year was precarious.
- Large amounts of accruals emanating from the previous financial year needed to be settled in the current financial year, which had a significant impact on the cash flow of the council.
- Unforeseen expenditure was incurred due to the strike by SAMWU members.

The circumstances outlined above requires a review of the budget forecasts for the remainder of the financial year, which necessitated an Adjustments Budget being tabled to Council

The adjustments budget does not require any amendments to budget-related policies, nor is there any need to transfer funds to a separate bank account for the purposes contemplated in Section 12 of the MFMA.

It is recommended that Council approves the adjustments budget

It is also a recommendation of the Executive Mayor that council approves a revision to the service delivery targets and performance indicators in the service delivery and budget implementation

3. RECOMMENDED

- | FOR | ATTENTION |
|---|-------------------|
| 1. That Council approve the budget for the 2014/15 financial year | Council |
| . | |
| 2. That a revision to the service delivery targets and performance indicators in the Service Delivery and Budget Implementation Plans be revised accordingly. | Municipal Manager |
| . | |
| 3. That upon approval of the adjustments budget by Council, the Chief Financial Officer must ensure that, in terms of section 22(b) of the MFMA, the adjustments budget is submitted in both printed and electronic formats to the National Treasury and Provincial Treasury. | CFO |

4. Executive Summary

The 2014/15 MTREF was approved by Council on 30 May 2014 in accordance with section 24(1) of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) and applicable National Treasury guidelines.

In terms of section 72 of the MFMA '*the accounting officer of a municipality must assess the performance of the municipality during the first half of the financial year*', taking into account the monthly budgeted statements, the municipality's service delivery performance in terms of the Service Delivery and Budget Implementation Plan (SDBIP), the past year's annual report and progress on resolving problems identified in the annual report.

It is further stated in section 72 of the MFMA that "*the accounting officer must as part of the review make recommendations as to whether an adjustments budget is necessary and recommend revised projections for revenue and expenditure to the extent that this may be necessary*".

Section 69(2) of the MFMA further stipulates that "*when necessary, the accounting officer must prepare an adjustment budget and submit it to the Executive Mayor for consideration and tabling in the municipal council*".

Section 28(2) of the MFMA provides guidelines on when and how an adjustments budget can be prepared. The guidelines are the following:

- A municipality may revise an approved annual budget through an adjustments budget.
- An adjustments budget—
 - (a) must adjust the revenue and expenditure estimates downwards if there is material under-collection of revenue during the current year;

- (b) may appropriate additional revenues that have become available over and above those anticipated in the annual budget, but only to revise or accelerate spending programmes already budgeted for;
- (c) may, within a prescribed framework, authorise unforeseeable and unavoidable expenditure recommended by the Executive Mayor of the municipality;
- (d) may authorise the utilisation of projected savings in one vote towards spending under another vote;
- (e) may authorise the spending of funds that were unspent at the end of the past financial year where the under-spending could not reasonably have been foreseen at the time to include projected roll-overs when the annual budget for the current year was approved by the council;
- (f) may correct any errors in the annual budget; and
- (g) may provide for any other expenditure within a prescribed framework.

Section 29(3) of the MFMA provides that the executive mayor may in emergency or exceptional circumstance authorise unforeseen and unavoidable expenditure. This expenditure must be passed in an adjustments budget within 60 days after the expenditure was incurred.

The assessment of the performance and budget of the municipality for the first six months of the year was undertaken in line with above legislative requirements and as part of the municipality's internal performance management processes. The Mid-year Budget and Performance Assessment report was submitted to the Executive Mayor on 23 January 2015.

The effect of the Adjustment Budget in which revenue and expenditure estimates had to be adjusted downwards, was done where possible, in a manner so as to minimize the impact on the service delivery. Service delivery will invariably be affected negatively.

Due to the unforeseen expenditure of R66 million, as a result of the strike action the operating budget was reflecting a deficit, which required further reallocations in order to balance the budget.

Operating revenue was adjusted downwards by R7 714 000 and operating expenditure was adjusted upwards R8 264 000.

The service delivery and budget implement plans will be adjusted accordingly.

Capital Budget

6. The Capital Budget denotes significant under spending on capital projects during the first six months to December 2014. Actual expenditure for the 6 months up to December 2014 amounted to R12.5 million. This must be reviewed in line with planned projects that could still be implemented within this financial year.
7. Capital funding from own funds was revised downwards from R15.7 million to R5.2million
8. The DBSA facility was reduced by R38 million as the facility lapsed. The funding from DBSA was in the form of an interest bearing loan. The projects to be completed with the DBSA loans were factored into the funding from Sasol – which would be in the form of a grant or donation, as opposed to an interest bearing loan.

The interest in the Operating Budget was adjusted accordingly in respect of the DBSA loans

9. The lease for the vehicle of the Speaker's car changed to own funding. A deposit of R200k was originally envisaged, with a finance lease over a three years (interest bearing). The vehicle was acquired from own funds, with no additional interest or borrowings.
10. An additional amount of R1 million was allocated by Department of Energy on electricity.
11. An amount of R1 300 was transferred from operating grants: MIG to capital projects.
12. An amount of R310 000 was transferred from operating grants: DWA to capital projects.
13. All MIG funds had to be reallocated allocated to the in Gortin Sanitation Project due to the cost of the project.
14. The detail the adjusted capital budget and changes to the capital budget is attached as Annexure B.

6. Adjustment to budget assumptions

6.1 Collection rate for revenue services

The rate of revenue collection is currently expressed as a percentage (72 per cent) of annual billings. Cash flow is assumed to be 72 per cent of billings, plus an increased collection of arrear debt from the revised collection and credit control policy. The performance of arrear collections will however only be considered a source of additional cash in-flow once the performance has been carefully monitored.

6.2 Ability of the municipality to spend and deliver on the programmes

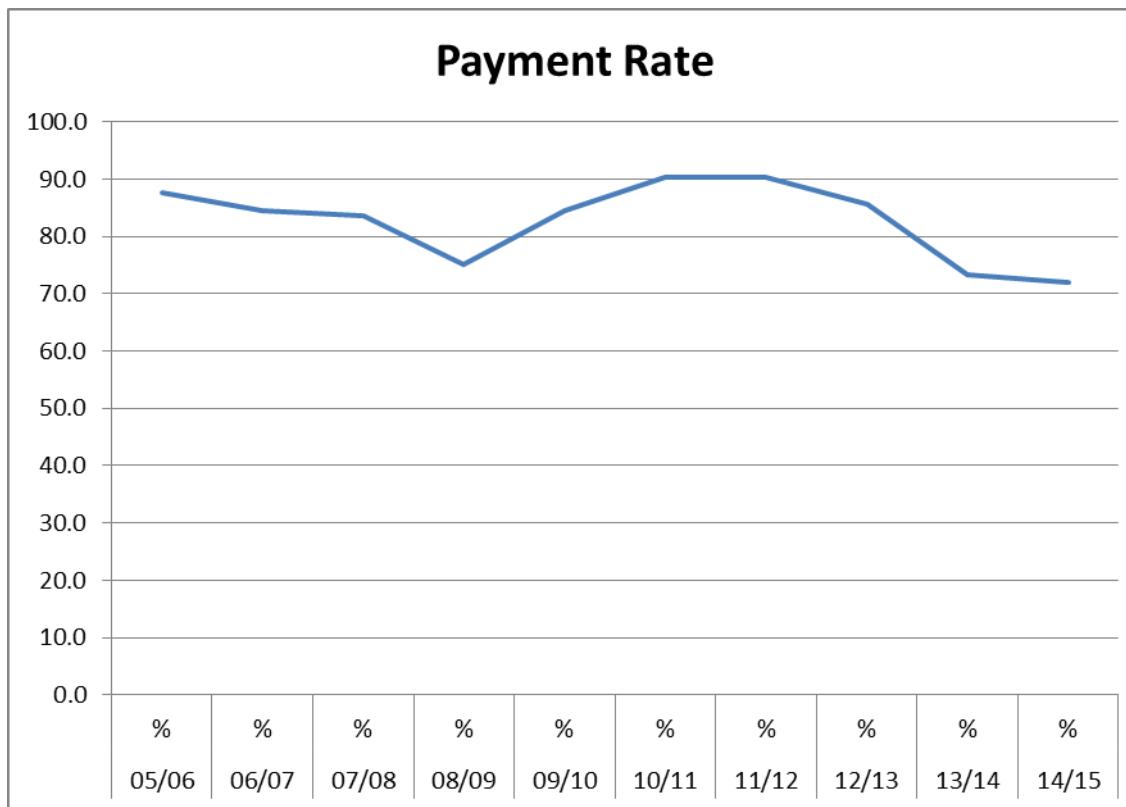

It was estimated that a spending rate of between 80 and 100 per cent will be achieved on operating expenditure and 60 per cent on the capital programme for the 2014/15 MTREF of which performance has been factored into the cash flow budget. However, due to various problems experienced on the strict implementation of the Credit Control Policy, cash is not available to accommodate operating expenditure at 80% and capital expenditure at 60%.

The cash flow of the Municipality is of great concern.
