Part 1 – Adjustments Budget

1.1 Mayor's Report

During January 2015 the implementation of the budget and financial performance of the municipality was assessed for the first half of the financial year taking into consideration the monthly budget statements. According to this assessment it was recommended to Council that the 2014/15 annual budget be amended in February 2015 to revise projections for revenue and expenditures amongst the different votes. The main reasons for the revision can be summarised as follows:-

1. Additional grant allocations to uMngeni Municipality in respect of the Massification and Corridor Development amounts to R583 thousand and R15 million respectively.
2. Additional Traffic Fines Income due to the expansion of the hours worked by the law enforcement team and implementation of IGRAP 1 accounting standard.
3. Additional operating grants allocation in respect of roll-overs from previous financial year.
4. Roll-overs of capital grants due to the non-completion of these projects in the 2013/14 financial years. This was funded through the Provincial funds.
5. Increase in the bulk purchase of electricity expenditure due to the electricity losses experienced throughout the year.
6. Transfer of amounts between votes which could not be covered by the Virement Policy of the Municipality.

Although all of the above affected the original budget to the extent that the total operating expenditure increased from R 259.3 million to R 285.9 million, the revenue also increased from R 264.1 million to R 286 million leaving a surplus of R 79 000. This will have no effect on the rate randage or any other tariffs and charges of the municipality. I therefore recommend that the Adjusted Budget as set out in the Tables B1 to B10 be approved by Council for the 2014/15 financial year.

1.2 Council Resolutions

On 26 February 2015 the Council of uMngeni Local Municipality met in the Council Chambers of uMngeni Municipality to consider the adjustments budget of the municipality for the financial year 2014/15. The Council approved and adopted the following resolutions:

1. That Council adopts the Adjustments Budget for the 2014/2015 financial year in terms of section 28 of the Municipal Finance Management Act, No. 56 of 2003 as set out in the following adjustments budget tables:
 - 1.1 Table B1: Adjustments Budget Summary
 - 1.2 Table B2: Adjustments Budget Financial Performance (Standard Classification)
 - 1.3 Table B3: Adjustments Budget Financial Performance (Revenue & Expenditure by Vote)
 - 1.3.1 Table B4: Adjustments Budget Financial Performance (Revenue by Source and Expenditure by Type)
 - 1.4 Table B5: Adjustments Capital Expenditure Budget by Vote & Funding
 - 1.5 Table B6: Adjustments Budget on Financial Position
 - 1.6 Table B7: Adjustments Budget on Cash Flow
 - 1.7 Table B8: Cash Backed Reserves / Accumulated Surplus Reconciliation
 - 1.8 Table B9: Asset Management
 - 1.8.1 Table B10: Basic Service Delivery Measurement
2. That the Adjustments Budget as per section 21 of the Municipal Budget & Reporting Regulations be submitted to Provincial and National Treasuries within 10 days after approval by Council.

1.3 Executive Summary

The format and contents of the adjustments budget and supporting documentation must be in the format as specified in schedule B of the Municipal Budget and Reporting Regulations. The adjustments budget as submitted herewith contains the applicable adjustments budget tables B1 to B10 and supporting tables SB1 to SB20.

It should be noted that municipal taxes and tariffs may not be increased during a financial year, and any amendments to the annual budget must remain funded in accordance with section 18 of the Municipal Finance Management Act, No. 56 of 2003 (MFMA).

Table B1 provides high level summary on the adjusted budgeted financial performance, capital expenditure and funds sources, financial position, cash flows, cash backing/surplus reconciliation, asset management and free services whilst table B2-B10 and supporting table SB1-SB19 provides more details on the adjusted budgetary information.

The adjustments budget herewith presented provides for a net increase in the total operating revenue of R 21.9 million to the amount of R 286 million (original budget : R264.1 million). When analysing this, the following factors become apparent.

- (a) Property rates and electricity reflect an increase of R 0.5 million and R 4.4 million respectively. This is mainly due to the amnesty project that has been taken by the municipality which starts to yield positive results.
- (b) Transfers recognised-operational increased by R 1.1 million due to the roller overs approved by National Treasury.
- (c) Other own revenue was increased by R 15.7 million due to the expansion of the hours worked by the law enforcement team and implementation of IGRAP 1 accounting standard.

The adjusted operating expenditure amounts to R 285.9 million (original budget: R 259.3 million) which reflects an increase of R 26.6 million. The main contributing factors for this increase are as follows:

- (a) Employee related costs increased by R 6.8 million in order to fill vacant posts mostly for general workers and reduce overtime expenditure.
- (b) Remuneration of councillors increased by R 0.2 million. This is a provision for the Speaker, EXCO members and MPAC chair to become full time councillors.
- (c) Debt impairment increased by R 12.4 million due to increase in traffic fines.
- (d) Bulk purchases increased by R 9.1 million due to electricity losses.

- (e) Other expenditure decreased by R 3.6 million in order for the municipality to implement strict control measures on nice-to-have items.

The adjusted capital expenditure for 2014/2015 amount to R 68 million which is R 45 million more than the original budget of R 23 million. This is attributed to the roll-overs and increased allocation in terms of Division of Revenue (DORA).

1.4 Adjustments Budget Tables

The following eighteen pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2014/2015 budget and MTREF as approved by the Council. Each table is accompanied by explanatory notes on the facing page.

Explanatory notes to MBRR Table B1 – Adjustments Budget Summary

1. Table B1 is a budget summary and provides a concise overview of the Municipality's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasises the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
 - (a) The operating surplus / deficit (after Total Expenditure) is positive over the MTREF
 - (b) Capital expenditure is balanced by capital funding sources, of which
 - (i) Transfers recognised is reflected on the Financial Performance Budget;
 - (ii) Borrowing is incorporated in the net cash from financing on the Cash Flow Budget
 - (iii) Internally generated funds are financed from a combination of the current operating surplus and accumulated cash-backed surpluses from previous years. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive, and is improving indicates that the necessary cash resources are available to fund the Capital Budget.
4. The Cash backing / surplus reconciliation shows that in previous financial years the municipality was not paying much attention to managing this aspect of its finances, and consequently many of its obligations are not cash-backed. This placed the municipality in a very vulnerable financial position, as the recent slow-down in revenue collections was highlighted. Consequently Council has taken a deliberate decision to ensure adequate cash-backing for all material obligations in accordance with the recently adopted Funding and Reserves Policy. This cannot be achieved in one financial year. But over the MTREF there is progressive improvement in the level of cash-backing of obligations.
5. Even though the Council is placing great emphasis on securing the financial sustainability of the municipality, this is not being done at the expense of services to the poor. The section of Free Services shows that the amount spent on Free Basic Services and the revenue cost of free services provided by the municipality continues to increase. In addition, the municipality continues to make progress in addressing service delivery backlogs.

Table 2 MBRR Table B2 – Adjustments Budgeted Financial Performance (revenue and expenditure by standard classification)

1. Table B2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 9 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports.
2. Note the Total Revenue on this table includes capital revenues (Transfers recognised – capital) and so does not balance to the operating revenue shown on Table B4.
3. Note that as a general principle the revenues for the Trading Services should exceed their expenditures.
4. Other functions that show a deficit between revenue and expenditure are being financed from rates revenues and other revenue sources reflected under Executive and Council.

Explanatory notes to MBRR Table B3 – Adjustments Budgeted Financial Performance (revenue and expenditure by municipal vote)

1. Table B3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the Municipality. This means it is possible to present the operating surplus or deficit of a vote.
2. The electricity trading deficit is huge in the 2014/2015 MTREF. This is primarily as a result of the high increases in Eskom bulk purchases, distribution losses and the tariff setting policy of the municipality to buffer the impact of these increases on individual consumers.
3. Note that the deficit on the electricity account is cross-subsidised by rates and other municipal services.

**EXPLANATORY NOTES TO TABLE B4 – Adjustments Budgeted Financial Performance
(revenue and expenditure)**

1. Total revenue is R 286 million in 2014/15 and decreases to R 284 million by 2015/16.
2. Revenue to be generated from property rates is R 127.4 million in the 2014/15 financial year and increases to R 135.3 million by 2015/16 which represents 44.5 per cent of the operating revenue base of the Municipality and therefore remains a significant funding source for the municipality.
3. Service charges relating to electricity and refuse removal contributes to the revenue basket of the Municipality totalling R 65.4 million for the 2014 / 2015 financial year and increasing to R 65.6 million by 2015/16. For the 2014/15 financial year service charges amount to 22.7
4. Transfers recognised – operating includes the local government equitable share and other operating grants from national and provincial government. Additional grants in the amount of R1.1 million were roll-overs approved by National treasury for 2013/2014 financial year.
5. Bulk purchases have significantly increased over the 2014/15 period escalating from R65.7 million to R74.8 million. These increases can be attributed to the substantial electricity losses due to theft and illegal connections.
6. Employee related costs and bulk purchases are the main cost drivers within the municipality and alternative operational gains and efficiencies will have to be identified to lessen the impact of wage and bulk tariff increases in future years.

Explanatory notes to Table A6 – Adjustments Budgeted Financial Position

1. Table B6 is consistent with international standards of good financial management practice, and improves understandability for councilors and management of the impact of the budget on the statement of financial position (balance sheet).
2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as "accounting" Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
3. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
4. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash

and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes to Table B7 – Adjustments Budgeted Cash Flow Statement

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
2. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

Explanatory notes to Table B8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.

Explanatory notes to Table B10 - Basic Service Delivery Measurement

1. Table B10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
2. The budget provides for + 1500 households to be registered as indigent in 2014/15, and therefore entitled to receiving Free Basic Services. The number is set to increase households given the rapid rate of in-migration to the Municipality, especially by poor people seeking economic opportunities.
3. It is anticipated that these Free Basic Services will cost the municipality R 4.9 million in 2014/15. This is covered by the municipality's equitable share allocation from national government.

Part 2 – Supporting Documentation
