## 1. PART 1 – ADJUSTMENTS BUDGET

### 1. Mayor's Report

The first quarter of this financial year passed so quickly and yet it was one of the busiest. Taking the quarter under review the thing that stands out the most is the IDP Izimbizo that took place in all our zones. Council through its Izimbizo programme had a fruitful consultation with the communities. The issues that came out of these meetings transcend to all three spheres of government and make the need for intense intergovernmental relations more acute. With the term of office of the current council drawing to a close it goes without saying that we are now operating like a well-oiled machine and we push the administrators of the municipality to perform at their peak to ensure we achieve our goals.

What we are doing has impact on the lives of the community and as a result the planning and thinking that went into the strategic planning process was very important as it will ensure that our IDP remains credible and achievable. The local government turn around strategies and Delivery Outcome Nine which deals with the creation of a “responsive, effective and efficient Local Government Systems “are positive interventions that will enable a focused and meaningful attempt to transform the operations of local government. The recent adjustments in the Division of Revenue Act bear fruit to this testimony as has been seen by an increase in grants from the National Government Departments. The additional R19, 1million to the R10, 3million originally budgeted Neighbourhood Development Partnership Grant is just but one example confirming this fact.

As we know Honourable Speaker and fellow Councillors that there are uncertainties that exist at the time of the preparation of the annual budget, the MFMA through the Midyear Budget and Performance assessment affords Council the opportunity to review and make adjustments to the original budget within the legislative framework. Allow me to highlight the major changes that will result have resulted in the adjustments budget.

- ✓ A net increase in total revenue of R10, 7million arising from various movements in the Provincial and National operational and capital grant allocation (R12, 7million) and other downward adjustments (R2million).
- ✓ An increase in Operational Budget of R56, 9million being largely attributable to the increase in Bulk Purchases budget by R65million and downwards adjustments from Provincial Grant allocations.
- ✓ A net increase of R107, 2million in the Capital budget arising budget shifts from the operational to the capital budget, approved roll over funding (R86million) and adjustments in the national & provincial grant allocations (R20, 6million).

These adjustments will see the total adjusted revenue increase to R3, 8billion, the operational budget increase to R3, 5billion and the capital budget to R704, 9million.

Honourable Speaker and Councillors, I hereby table the 2014/15 Adjustments budget as contained in the budget schedules that follow for adoption.

## 2. Resolutions

It is recommended that Council;

- 2.1 Approves the 2014/15 adjustments budget
- 2.2 Approves the 2014/15 adjustments permitted in terms of s28 MFMA.
  - ✓ Authorise the utilisation of projected savings in one vote towards spending under another vote,
  - ✓ Authorise the spending of funds that were unspent at the end of the past financial year where the under-spending could not reasonably have been foreseen at the time to include projected roll-overs when the annual budget for the current year was approved by the council,
  - ✓ Corrects any errors in the annual budget
- 2.3 Authorises the 2013/14 Unauthorised Expenditure of R12 379 824 as disclosed in the Audited AFS in terms of s32(2)(a). (Separate report attached)

### 3. Executive Summary

#### **Financial Implications of the Adjustments Budget**

The main financial implications of this adjustments budget, except for the minor reduction in revenue, will be the reduction in the operating surplus mainly due to the increase in the operational budget for bulk purchases. The capital budget will also see an increase of 14% mainly due to the rollover of the approved conditional grants by the National Treasury and the increase in DORA and Provincial adjusted budget allocations.

#### **Effect of the Adjustments Budget on Service Delivery Provision**

Except for the increase in the bulk water purchases budget which will ensure that the municipality is able to pay its bulk suppliers to ensure uninterrupted provision of services, no other adjustments have been made that will affect service delivery provision.

#### **Effect of the Adjustments Budget on Service Delivery Budget & Implementation Plan**

The small percentage of targets not achieved will be shifted to the 3<sup>rd</sup> quarter of this financial year.

#### **Adjustments budget Highlights**

The main highlights of the adjustments budget can be summarised as follows;

##### REVENUE

- ✓ R1.6 m reduction in training levy recoveries.
- ✓ Downward adjustment of R7, 8million in operational grants and a net upward adjustment of R20, 6million in capital grant funding.

##### OPERATIONS BUDGET

- ✓ Increase in Bulk Purchases Budget by R65million
- ✓ Reallocation of R34million from the Repairs & Maintenance Budget due to low expenditure performance to the Capital budget.
- ✓ Increase in operational budget related by R15million of Council activities related to food for waste.

##### CAPITAL BUDGET

- ✓ Roll Over of 2013/14 unspent conditional grants approved by National Treasury increasing the capital budget by a further R51, 5million.
- ✓ Increase in Neighbourhood development partnership grant by R19, 1million.

## PART 2 – SUPPORTING DOCUMENTATION

### 2.1 Adjustments to Budget Assumptions

Except for the minor changes noted below, there have not been vast changes in the original budget assumptions.

**External factors:** The effects of high unemployment rates and slow economic growth continues to negatively affect the municipality's plans to reduce rising consumer debt levels.

**Collection rate for revenue services:** While the average YTD collection rate at mid year for major revenue sources was 94%, a projected collection rate of 85% of billed services was initially planned during the annual budget preparation and has been conservatively left unadjusted.

Due to the historical trends of Capital Expenditure performance peaking in the 3<sup>rd</sup> and 4<sup>th</sup> quarters of the financial year, the current year's projections are assumed to reflect this trend. This year has seen extensive measures being implemented to ensure an accelerated capital budget implementation. The results of these interventions are expected to be realised in the next financial years.

## 2.2 Adjustments to Budget funding

The major adjustments to Capital Budget funding relates to the increase in internally generated funds, the roll over grants and additional funding from National & Provincial Departments as detailed in the table below.
