## **Part 1 – Annual Budget**

### **Mayor's Report**

After great thought and time, I present to you the Amajuba District Municipality's draft 2015/16 Financial Year. I thank the Finance Department and all our Directors for the many hours spent in developing this budget for the upcoming Financial Year. The bigger chunk of our budget goes towards water and sanitation projects.

Given the present economic situation in our country we must balance the cost and services that Amajuba District Municipality provides to the citizens of our district.

We acknowledge the capacity challenges within the Chief Finance Officer's office which resulted in the municipality releasing the former Chief Financial Officer. We further note regression in our previous Financial Year. Plans and processes have already resumed ensuring that we do not repeat the same mistakes. Part of that is that we have already started the process of recruiting the qualified and experienced Chief Financial Officer. We will further invest our efforts in enhancing capacity within our staff members.

The operational revenue budget has been estimated at R 143,652,770 with the expenditure budget at R138, 459,101.

The current economic conditions demand that all municipalities or government institutions need to start at looking at means of generating the required revenue. This obviously might not be received well by the residents but if we have the intentions to continue providing the improved services we will need to look at increasing our tariffs.

Increasing tariffs will not only assist in continuing with providing services but will also enable us to maintain the existing infrastructure or develop new infrastructure.

In closing, I look forward to meeting and speaking with the citizens of Amajuba District with regards to the tabled draft budget. These meetings will enable us to gather more information and inputs from the people we serve. This is the budget for our people; the views of the citizens are of great importance in the finalisation of this plan. My office stands ready to assist with your questions on any topic related to how we spend money allocated to provide services to the people we serve.

### **Integrated Development Plan**

The Integrated Development Planning is a process through which a Municipality, its constituencies, various service providers, interested and affected parties come together to identify development needs, outline clear objectives and strategies which serve to guide the allocation and management of resources within the Municipality's jurisdictional area. From this planning process emanates the

Municipal Integrated Development Plan (IDP), whose main objective is the improvement of coordination and integration of planning, budgeting and development within a Municipal area.

As a five (5) Year budgeting, decision-making, strategic planning and development tool, the IDP is used by the Municipality to fulfil its role of 'developmental local governance'.

Central to this are the overarching objectives and strategies encapsulated in the plan, which guides the Municipality in the realm of:

- Municipal Budgeting;
- Institutional restructuring in order to realize the strategic intent of the plan;
- Integrating various Sectors in the form of Infrastructure, Land Use, Agriculture with Socioeconomic and Ecological dimensions; and
- Performance Management System

#### ***What is an IDP and why do we need an IDP?***

The Integrated Development Planning is a process through which a Municipality, its constituencies, various service providers, interested and affected parties come together to identify development needs, outline clear objectives and strategies which serve to guide the allocation and management of resources within the Municipality's jurisdictional area. From this planning process emanates the Municipal Integrated Development Plan (IDP), whose main objective is the improvement of coordination and integration of planning, budgeting and development within a Municipal area. As a five (5) Year budgeting, decision-making, strategic planning and development tool, the IDP is used by the Municipality to fulfil its role of 'developmental local governance'.

Central to this are the overarching objectives and strategies encapsulated in the plan, which guides the Municipality in the realm of:

- Municipal Budgeting;
- Institutional restructuring in order to realize the strategic intent of the plan;
- Integrating various Sectors in the form of Infrastructure, Land Use, Agriculture with Socio-economic and Ecological dimensions; and
- Performance Management System

#### **Operating and Capital Budget**

The draft budget is prepared and presented to Council in line with the MFMA requirements. The MFMA requires that the Mayor must table the draft budget 90 days before the start of the financial year. After the draft budget has been tabled in Council, the Mayor must conduct a public participation process where by the public is afforded the opportunity to comment on the budget and make any recommendations to be considered during the budget process.

The draft budget as tabled, confirms the heavy dependence of Amajuba DM on grant funding to fund service delivery.

#### ***What is a budget?***

A budget is a spending plan that indicates how available funds will be used to cater for community needs. It is also a financial planning tool used to project future income and expenditure which the municipality is expected to engage in.

**Why do we need a Budget?**

- To provide a forecast of revenues and expenditure;
- To enable the actual financial operations of the municipality to be measured against the forecast; and
- To promote access to information by informing the residents how the municipality will utilize the resources available;

**Budget Highlights**

In view of the aforementioned, the following table is a consolidated overview of the proposed 2015/16 Medium-term Revenue and Expenditure Framework

Table 1 and Table 2 provides executive summary on both revenue budget and expenditure budget.

Description	CURRENT YEAR		MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK		
	2014/2015	2014/2015	2015/2016	2016/2017	2017/2018
	Original Budget	ADJUSTMENT BUDGET	Budget Year +1	Budget Year +2	Budget Year +3
<b>OPERATING AND CAPITAL BUDGET</b>					
OPERATING REVENUE BUDGET	143,652,770	145,458,721	166,291,242	173,093,903	183,072,944
CAPITAL BUDGET	54,383,500	74,855,873	70,515,211	61,176,000	64,391,000
<b>TOTAL REVENUE BUDGET</b>	<b>198,036,270</b>	<b>220,314,594</b>	<b>236,806,454</b>	<b>234,269,903</b>	<b>247,463,944</b>

The total revenue budget including operating and capital transfers amount to R236 806 454 million for 2015/16, R234 269 903 million for 2016/17 and R247 463 944 million for 2017/18. The total revenue budget has increased by R11 000 million from the 2013/14 Approved budget and increased by R16 491 860 million from the 2014/15 Adjustment budget.

**Table 2**

Description	CURRENT YEAR		MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK		
	2014/2015	2014/2015	2015/2016	2016/2017	2017/2018
	Original Budget	ADJUSTMENT BUDGET	Budget Year +1	Budget Year +2	Budget Year +3
<b>OPERATING AND CAPITAL BUDGET</b>					
OPERATING EXPENDITURE BUDGET	139,959,101	144,156,464	164,774,907	171,996,463	181,095,504
CAPITAL EXPENDITURE BUDGET	54,383,500	74,855,873	70,515,211	61,176,000	64,391,000

<b>TOTAL EXPENDITURE BUDGET</b>	<b>194,342,601</b>	<b>219,012,337</b>	<b>235,290,118</b>	<b>233,172,463</b>	<b>245,486,504</b>

The total Expenditure budget amount to R 235 290 118 million for 2015/16 MTREF and R 233 172 463 million for 2016/17 and R 245 486 504 million for 2017/18. The total expenditure budget has increased by R40 947 517 million from the 2014/15 approved budget and R16 277 781 from adjustment budget 2014/2015

The Operating surplus of R1 516 665 million is prioritized to be re-invested in cash –backing of conditional grants that was utilized due to cashflow deficits experienced during the prior financial year.

### **Operational Budget**

The operational revenue budget has been estimated at R 143,652,770 with the expenditure budget at R138, 459,101.

For The Amajuba District Municipality to continue improving the quality of services provided to its citizens it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to tariff increases and balancing expenditures against realistically anticipated revenues.

**Table 3 Consolidated Overview of the 2015/16 MTREF-OPERATING REVENUE**

Description	CURRENT YEAR		MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK

**Sale of Water and Impact of Tariff Increases**

South Africa faces similar challenges with regard to water supply as it did with electricity, since demand growth outstrips supply. Consequently, National Treasury is encouraging all municipalities to carefully review the level and structure of their water tariffs to ensure:

- Water tariffs are fully cost-reflective – including the cost of maintenance and renewal of purification plants, water networks and the cost associated with reticulation expansion;
- Water tariffs are structured to protect basic levels of service and ensure the provision of free water to the poorest of the poor (indigent households); and
- Water tariffs are designed to encourage efficient and sustainable consumption.

In addition National Treasury has urged all municipalities to ensure that water tariff structures are cost reflective by 2014. Better maintenance of infrastructure and cost-reflective tariffs will ensure that the supply challenges are managed in future to ensure sustainability.

### **A summary of the proposed tariffs for households (residential) and non-residential are as follows**

Service / Category	2015 Excl vat	Proposed 2016 Excl vat	R increased	% increased
<b><u>Water supply</u></b>				
-

#### OPERATING EXPENDITURE BY TYPE

The municipality's expenditure framework for the 2015/2016 budget and MTREF is informed by the following:

- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;

- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- The capital programme is aligned to the asset renewal strategy and backlog eradication plan;
- Operational gains and efficiencies will be directed to funding the capital budget and other core services; and
- Strict adherence to the principle of *no project plans no budget*. If there is no business plan no funding allocation can be made.

The following table is a high level summary of the 2015/2016 budget and MTREF (classified per main type of operating expenditure).

Description	CURRENT YEAR		MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK		
	2014/2015	2014/2015	2015/2016	2016/2017	2017/2018
	Original Budget	ADJUSTMENT BUDGET	Budget Year +1	Budget Year +2	Budget Year +3
<b>EXPENDITURE PER CATERGORY</b>

<b>TOTAL OPERATING EXPENDITURE</b>	<b>139,959,101</b>	<b>144,156,464</b>	<b>164,774,907</b>	<b>171,996,463</b>	<b>181,095,504</b>

#### CAPITAL BUDGET

The capital budget is estimated at R 70 515 211 for the 2015/16 financial year and R 61,176,000 and R 64,371,000 respectively for the 2016/17 and 2017/18 financial years. The capital budget is funded from grants – mainly the Municipal Infrastructure Grant (MIG) and Municipal Water Infrastructure Grant(MWIG). The municipality does not have any funding of its own to fund capital projects. Consequently, the municipality is not in a position to transfer any funding to the local municipalities to fund projects. The Municipality intends to take a Loan for the Purchase of Fleet for this financial Year, repayments are calculated over a 60 month(5year) period.

The following table provides a breakdown of budgeted single- and multi-year capital expenditure by vote and the following projects have been provided for:

Description		CURRENT YEAR		MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK

## Employee related costs

### Employee related costs

The Salary and Wage Collective Agreement for the period 01 July 2012 to 30 June 2015 has come to an end. The South African Local Government Association issued a press release on 03 March 2015 indicating that it tabled the following offer for salaries and wages increase:

- 2015/16 Financial Year – 4.4 per cent (inflation linked)
- 2016/17 and 2017/18 Financial Years – inflation related increase plus additional 0.25 per cent

As the negotiations are still underway, municipalities are advised to use the above proposed guidelines in preparing their 2015/16 budgets.

## 5.2 Remuneration of councillors

Municipalities are advised to budget for the actual costs approved in line with the gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published by the Department of Cooperative

## Council Resolutions

<b>COUNCIL MEETING</b>	:	<b>C/ 07/2015-2015</b>
<b>MEETING DATE</b>	:	<b>27 MARCH 2015</b>
<b>COMPILED BY</b>	:	<b>ACTING CFO</b>
<b>FILE NO.</b>	:	<b>5/1/1</b>

### DRAFT CAPITAL AND OPERATING BUDGET FOR THE 2015/2016 MTREF PERIOD

#### 1. PURPOSE

To table to Council the proposed draft Capital and Operating Budget for the 2015/2018 MTREF period.

#### 2. BACKGROUND

In accordance with Section 16 of the Municipal Finance Management Act (MFMA), Act 56 of 2003, the Mayor must table a proposed Capital and Operating Budget for consideration at least 90 days before the start of the financial year.

#### 3. DISCUSSION

- The proposed draft budget has been prepared and is brought before Council for consideration.
- The draft budget is being tabled to Council by the Mayor 90 days before the start of the financial year in accordance with Section 16(2) of the MFMA
- The draft budget will be publicized and submitted to both Provincial Treasury and National Treasury for their comments and/or inputs.
- A series of public consultation meetings to solicit public comments on the draft budget will be held during April 2015
- The table below reflects proposed budget per expenditure type:

	Current Year		MEDIUM TERM REVENUE AND EXPENDITURE FRAMEWORK

The detailed draft operating and capital budget is attached as annexure.

In order to facilitate wider consultation on the budget, the following arrangements will be put in place:

1. All political parties represented in Council are encouraged to make 2015/2016 Draft Budget and Medium Term Revenue Expenditure Framework submissions by not later than the end of business day on Tuesday the 24<sup>th</sup> March 2015.
2. The submissions will be considered in the workshop that will be held on the 27<sup>th</sup> March 2015 at 09h00 before Council draft budget seating.

#### 4. LEGAL AND CONSTITUTIONAL IMPLICATIONS

The MFMA under Section 16(2) requires that the draft budget be tabled for consideration by Council 90 days before the beginning of the financial year. After tabling, the budget must then be subjected to a public consultation process and the views and/or comments of the National Treasury and the Provincial Treasury be solicited.

## 5. FINANCIAL IMPLICATIONS

The Operating Expenditure Budget is mainly funded from the equitable share and the levy replacement grant allocations. The Capital Expenditure Budget is funded mainly by the municipal infrastructure grant as well as the municipal water infrastructure grant allocations.

## 6. RECOMMENDATIONS

It is recommended to RESOLVE THAT:

3. Council, acting in terms of section 24 of the Municipal Finance Management Act, (Act 56 of 2003) :

1.1.1 The Draft Operating Expenditure Budget for the 2015/16 financial year amounting to R164 774 907 as well as the appropriations for the outer years of the MTREF period of R171 996 463 for the 2016/17 and R181 095 544 for the 2017/18 financial years be approved;

1.1.2 Loan Fleet acquisition process is in progress with the estimated loan amount of R7 637 211 and the estimated interest amount of R986 247 for 12 vehicles. Annexure A attached lists the vehicle description. The estimated annual redemption inclusive of interest is R3 164 966.

1.1.3 The Draft Operating Revenue Budget for the 2015/2016 financial year amounting to R166 291 242 as well as the appropriations for the outer years of the MTREF period of R173 093 903 for the 2016/17 and R183 072 944 for the 2017/2018 financial years be approved;

1.1.4 The Draft Capital Budget allocation of R41 623 000 to be funded mainly from Municipal Infrastructure Grant (MIG) allocation, the Municipal Water Infrastructure Grant (MWIG) allocation as well as internal funding be approved;

1.1.5 The Council, acting in terms of section 75A of the Local Government: Municipal Systems Act (Act 32 of 2000) approves the following amendments to the water tariff structure:

### A. WATER

Service / Category	Approved 2015	Proposed 2016	R increased	% increased

2. The first 6 kl of water be made available for free to all indigent households as well as the monthly sanitation charge as an indigent support package in line with Council policy;
3. All amendments to the tariff structure be effective from 01 July 2015 or the first billing cycle after the 01 July 2015;
4. The proposed budget be submitted to National Treasury, the Provincial Treasury and the provincial Department of Cooperative Governance and Traditional Affairs in the prescribed format as well be publicised for public comment.

## Executive Summary

The draft budget is prepared and presented to Council in line with the MFMA requirements. The MFMA requires that the Mayor must table the draft budget 90 days before the start of the financial year. After the draft budget has been tabled in Council, the Mayor must conduct a public participation process where by the public is afforded the opportunity to comment on the budget and make any recommendations to be considered during the budget process.

The draft budget as tabled, confirms the heavy dependence of Amajuba DM on grant funding to fund service delivery.

## Budget Parameters

### Headline Inflation Forecasts

#### Budget Parameters

### Headline Inflation Forecasts

Municipalities must take the following macro-economic forecasts into consideration when preparing their 2015/16 budgets and MTREF –

### Headline inflation forecasts

Fiscal year	2014	2015	2016	2017	2018
<b>Actual</b>		<b>Estimate</b>		<b>Forecast</b>	
<b>Real GDP growth</b>	2.2	1.4	2.0	2.6	3.0
<b>CPI Inflation</b>	5.8	5.6	4.8	5.9	5.6

Source: MFMA Circular No.75

## Budget Funding

While the proposed budget is balanced and funded in terms of funding sources, there is still however a deficit of about R22,4 million which is yet to be recovered. This deficit arose when conditional grants were utilised in contravention of the conditions of those grants. In other words, conditional grants are not cash-backed. This matter needs to be given serious consideration as we need to save in the region of R10 million to R15 million per annum in order to recover these grants within the MTREF period. This is not possible at the current expenditure levels and therefore has not been provided for in this proposed budget.

## Annual Budget Tables

The following eighteen pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2015/2016 budget and MTREF as approved by the Council. Each table is accompanied by *explanatory notes*

### Explanatory notes to MBRR Table A1 – Budget Summary

1. Table A1 is a budget summary and provides a concise overview of the municipality's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).

2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.

3. Financial management reforms emphasises the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:

a. The operating surplus/deficit (after Total Expenditure) is positive over the MTREF.

b. Capital expenditure is balanced by capital funding sources, of which:

- Transfers recognised is reflected on the Financial Performance Budget;
- Borrowing is incorporated in the net cash from financing on the Cash Flow Budget; and
- Internally generated funds are financed from a combination of the current operating surplus and accumulated cash-backed surpluses from previous years. The amount is incorporated in the net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive, and is improving indicates that the necessary cash resources are available to fund the Capital Budget.

4. The Cash backing / surplus reconciliation shows that in previous financial years the municipality was not paying much attention to managing this aspect of its finances, and consequently many of its obligations are not cash-backed. This places the municipality in a very vulnerable financial position, as the recent slow-down in revenue collections highlighted. Consequently Council has taken a deliberate decision to ensure adequate cash-backing for all material obligations in accordance with the recently adopted Funding and Reserves Policy. This cannot be achieved in one financial year. But over the MTREF there is progressive improvement in the level of cash-backing of obligations.

**Explanatory notes to MBRR Table A2 – Budgeted Financial Performance (revenue and expenditure by standard classification)**

1. Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile „whole of government“ reports.

2. Note the Total Revenue on this table includes capital revenues (Transfers recognised – capital) and so does not balance to the operating revenue shown on Table A4.

**Table 19 MBRR Table A3 – Budgeted Financial Performance  
(Revenue and expenditure by municipal vote)**

### Explanatory notes to MBRR Table A3 – Budgeted Financial Performance (revenue and expenditure by municipal vote)

- Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the municipality. This means it is possible to present the operating surplus or deficit of a vote.

### MBRR Table A4 – Budgeted Financial Performance (revenue and expenditure)

**Explanatory notes to Table A4 – Budgeted Financial Performance (revenue and expenditure)**

- The total revenue budget including operating and capital transfers amount to R236 806 454 million for 2015/16, R234 269 903 million for 2016/17 and R247 463 944 million for 2017/18. The total revenue budget has increased by R11 000 million from the 2013/14 Approved budget and increased by R16 491 860 million from the 2014/15 Adjustment budget.
- Transfers recognised – operating includes the local government equitable share and other operating grants from national and provincial government. It needs to be noted that in real terms the grants receipts from national government are decreasing
- Employee related costs and bulk purchases are the main cost drivers within the municipality and alternative operational gains and efficiencies will have to be identified to lessen the impact of wage and bulk tariff increases in future years.
- Off-setting depreciation, due to the implementation of the GRAP Accounting Standards on the municipality's assets that has to be recorded directly into the Statement of Financial Performance instead of the Statement of Changes in Net Assets is skewing the picture with regard to depreciation and finance charges

**Explanatory notes to Table A5 – Budgeted Capital Expenditure by vote, standard classification and funding source**

- Table A5 below is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments
- Unlike multi-year capital appropriations, single-year appropriations relate to expenditure that will be incurred in the specific budget year such as the procurement of vehicles and specialised tools and equipment. The budget appropriations for the two outer years are indicative allocations based on the departmental business plans as informed by the IDP and will be reviewed on an annual basis to assess the relevance of the expenditure in relation to the strategic objectives and service delivery imperatives of the municipality. For the purpose of funding assessment of the MTREF, these appropriations have been included but no commitments will be incurred against single-year appropriations for the two outer-years
- The capital programme is funded from capital and provincial grants and transfers, public contributions and donations, borrowing and internally generated funds from current year surpluses. For 2015/2016, capital transfers totals R 61,179 million and increases to R 64,379 million by 2017/2018. Borrowing has been provided at R 7.637 million over the MTREF with internally generated funding totaling R 1.080 million,. These funding sources are further discussed in detail in 2.6 (Overview of Budget Funding).

### **Explanatory notes to Table A6 – Budgeted Financial Position**

1. Table A6 is consistent with international standards of good financial management practice, and improves understandability for councilors, management and other users of budget documentation of the impact of the budget on the statement of financial position (balance sheet).

2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as “accounting” Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.

3. Table A6 is supported by an extensive table of notes (SA3 which can be found on page XX) providing a detailed analysis of the major components of a number of items, including:

- Call investments deposits;
- Consumer debtors;
- Property, plant and equipment;
- Trade and other payables;
- Provisions non-current;
- Changes in net assets; and
- Reserves

4. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.

5. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the Statement of Financial Position.

### **Table A7 – Budgeted Cash Flow Statement**

DC25 Amajuba - Table A7 Budgeted Cash Flows

**Explanatory notes to Table A7 – Budgeted Cash Flow Statement**

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.

2. It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

3. It can be seen that the cash levels of the municipality fell significantly over the 2011/2012 to 2013/2014 period owing directly to a net decrease / increase in cash for the 2012/2013 and 2013/2014 financial years .

4. The 2015/2016 MTREF provide for a net increase in cash of R 1.5 million for the 2015/2016 financial year resulting in an overall projected positive cash position of R 1.8 million at year end.

5. As part of the 2014/2015 mid-year review and Adjustments Budget this unsustainable cash position had to be addressed as a matter of urgency and various interventions were implemented such as the reduction of expenditure allocations, rationalisation of spending priorities and implementation of a turnaround strategy.

6. In addition the municipality should undertake an extensive debt collection drive resulting in cash receipts on arrear debtors.

7. The 2015/2016 MTREF has been informed by the planning principle of ensuring adequate cash reserves over the medium-term.

8. Cash and cash equivalents totals project R 1.8 million as at the end of the 2015/2016 financial year and escalate to a projected R 4.9 million by 2017/2018.

**Explanatory notes to Table A8 – Cash Backed Reserves/Accumulated Surplus Reconciliation**

1. The cash backed reserves / accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.

2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.

3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".

4. Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.

5. From the table it can be seen that for the period 2011/2012 to 2013/2014 the cash deficit of R54.7 million deteriorated to a further cash deficit of R 77.0 million The main reason for these "unfunded" projections were a lack of cash due to government not honouring their service charges, outstanding debt, moratorium on handover of consumer debtors, unspent grants not being cash backed for previous financial years, the roll-over of capital projects that is ongoing for more than a year.

6. For the MTREF 2015/2016 to 2017/2018 the Municipality is striving to maintain a positive cashflow and funded budget.

7. As part of the budgeting and planning guidelines that informed the compilation of the 2015/2016 MTREF the end objective of the medium-term framework was to ensure the budget is funded aligned to section 18 of the MFMA.

**Explanatory notes to Table A9 – Asset Management**

1. Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.

<i>R&amp;M as a % of PPE</i>		1.4%	1.7%	1.3%	2.5%	4.2%	4.2%	2.2%	2.5%	2.6%
<i>Renewal and R&amp;M as a % of PPE</i>		1.0%	2.0%	1.0%	2.0%	4.0%	4.0%	2.0%	2.0%	3.0%

2. National Treasury has recommended that municipalities should allocate at least 40 per cent of their capital budget to the renewal of existing assets, and allocations to repairs and maintenance should be 8 per cent of PPE. The municipality cannot meet these recommendations due to a lack of financial resources and the implementation GRAP 17
3. Depreciation and asset impairment costs (off-setting depreciation included) due to the implementation of the GRAP Accounting Standards on the carrying values of componentised assets makes it virtually unaffordable to maintain the municipality's assets at depreciated replacement cost.

**Explanatory notes to Table A10 – Basic Service Delivery Measurement**

1. Table A10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
2. The municipality continues to make good progress with the eradication of backlogs:
  - a. The minimum level of water services is available to all households – formal as well as informal areas
  - b. Sanitation services backlogs steadily increases for the 2016/l. These numbers will only reduce when the municipality receives funds from the housing programme for basic service infrastructure. Provincial government is slow in approving funds through the housing programme to build houses with toilets and sewerage networks.
3. The changes in the Indigent Subsidy Policy will result in less households to be registered as indigent in 2015/2016 and therefore result in less households entitled to receive Free Basic Services

DC25 Amajuba - Table A10 Basic service delivery measurement

## 2 Part 2 – Supporting Documentation

### 2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the Executive Committee members, the Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the Mayor.

The primary aims of the Budget Steering Committee are to ensure:

- That the process followed to compile the budget complies with legislation and good budget practices;
- That there is proper alignment between the policy and service delivery priorities set out in the municipality's IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- That the municipality's revenue and tariff setting strategies ensure that the cash resources needed to deliver services are available; and
- That the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources

#### 2.1.1 Budget Process Overview

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year (i.e. in August 2014) a time schedule that sets out the process to revise the IDP and prepare the budget.

With the compilation of the 2015/2016 MTREF, each department / function had to review the business planning process, including the setting of priorities and targets after reviewing the mid-year and third quarter performance against the 2014/2015 Departmental Service Delivery and Budget Implementation Plan. Business planning links back to priority needs and master planning, and essentially informed the detail operating budget appropriations and three-year capital programme.

**2.1.3 Financial Modeling and Key Planning Drivers**

As part of the compilation of the 2015/2016 MTREF; extensive financial modelling were undertaken to ensure affordable tariffs and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2015/2016 MTREF:

- Municipality’s growth;
- Policy priorities and strategic objectives;
- Asset maintenance;
- Economic climate and trends (i.e. inflation, Eskom increases, household debt, migration patterns);
- Performance trends;
- The approved 2014/2015 adjustments budget and performance against the SDBIP;

- Cash Flow Management Strategy;
- Debtor payment levels;
- Loan and investment possibilities;
- The need for tariff increases versus the ability of the community to pay for services; and
- Improved and sustainable service delivery.

In addition to the above, the strategic guidance given in National Treasury's MFMA Circulars 70 - 75 has been taken into consideration in the planning and prioritisation process.

#### **2.1.4 Community Consultation**

The draft 2015/2016 MTREF to be tabled before Council on 31 March 2014; and, for community consultation was published on the municipality's website and hard copies were made available at customer care offices, municipal notice boards and various libraries.

All documents in the appropriate format (electronic and printed) were provided to National Treasury, and other national and provincial departments in accordance with section 23 of the MFMA, to provide an opportunity for them to make inputs.

Submissions received during the community consultation process and additional information regarding revenue and expenditure and individual capital projects be addressed, and where relevant be considered as part of the finalisation of the 2015/2016 MTREF

## **2.2 Overview of alignment of annual budget with IDP**

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realised through a credible integrated developmental planning process.

Municipalities in South Africa need to utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sound long-term development goals. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the political incumbents. The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables municipalities to make the best use of scarce resources and speed up service delivery

The 2015/2016 MTREF has therefore been directly informed by the IDP revision process and tables SA4 – SA6 provide a reconciliation between the IDP strategic objectives and operating revenue, operating expenditure and capital expenditure.

2015/2016 MTREF

## **2.4 Overview of budget related-policies**

The municipality's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies

### **2.4.1 Review of credit control and debt collection procedures/policies**

### **2.4.2 Asset Management, Infrastructure Investment and Funding Policy**

### **2.4.3 Budget Adjustment Policy**

### **2.4.4 Supply Chain Management Policy**

### **2.4.5 Budget and Virement Policy**

### **2.4.6 Cash Management and Investment Policy**

### **2.4.7 Tariff Policies**

All the above policies are available on the municipality's website

## **2.5 Overview of budget assumptions**

The 2015 Budget Review notes that the global economic outlook has weakened and the pattern of slow growth is likely to persist, with consequences for all developing economies. South Africa's gross domestic product (GDP) forecast for 2015 has also been revised down. The National Treasury projects GDP growth of 2 per cent in 2015, rising to 3 per cent by 2017. Average growth over the forecast period is 0.4 percentage points lower than at the time of the 2014 *Medium Term Budget Policy Statement*. Inadequate electricity supply, however, will impose a serious constraint on output and exports over the short term.

The slowdown in economic growth since 2012 has highlighted structural constraints in the domestic economy. Achieving faster sustainable growth and large-scale job creation will require structural shifts in the economy, stronger supply-side value chains, higher exports, moderation in wage increases and, crucially, growing private-sector investment based on confidence in the long-term business environment.

The 2015 Budget allocates resources to core social and economic priorities while containing aggregate expenditure growth. Spending plans give effect to the priorities of the NDP and the MTSF. Initiatives under way include: large public-sector infrastructure investments in electricity and transport; expanded partnerships to encourage private investment; better cooperation between government, the private sector, trade unions and civil society; incentives to attract new entrants in the economy; special economic zones to boost exports; programmes to reshape the urban spatial landscape; and programmes to improve the quality of education and skills development.

Fiscal constraints mean that transfers to municipalities will grow more slowly in the period ahead than they have in the past. Accordingly, municipalities must renew their focus on core service delivery functions and reduce costs without adversely affecting basic services. Furthermore they must ensure that efficiency gains, eradication of non-priority spending (cost containment measures) and the reprioritisation of expenditure relating to core infrastructure continue to inform the planning framework.

The state of the economy has an adverse effect on the consumers. As a result municipalities' revenues and cash flows are expected to remain under pressure. Furthermore municipalities should carefully consider affordability of tariff increases, especially as it relates to domestic consumers while considering the level of services versus the associated cost.

## Headline inflation forecasts

Municipalities must take the following macro-economic forecasts into consideration when preparing their 2015/16 budgets and MTREF.

<b>Fiscal year</b>	<b>2014</b>	<b>2015</b>	<b>2016</b>	<b>2017</b>	<b>2018</b>
<b>Actual</b>		<b>Estimate</b>		<b>Forecast</b>	
<b>Real GDP growth</b>	2.2	1.4	2.0	2.6	3.0
<b>CPI Inflation</b>	5.8	5.6	4.8	5.9	5.6

### 2.6 Employee related costs

The *Salary and Wage Collective Agreement* for the period 01 July 2012 to 30 June 2015 has come to an end. The South African Local Government Association issued a press release on 03 March 2015 indicating that it tabled the following offer for salaries and wages increase:

- *2015/16 Financial Year – 4.4 per cent (inflation linked)*
- *2016/17 and 2017/18 Financial Years – inflation related increase plus additional 0.25 per cent*

As the negotiations are still underway, municipalities are advised to use the above proposed guidelines in preparing their 2015/16 budgets.

### 2.7 Remuneration of councillors

Municipalities are advised to budget for the actual costs approved in line with the gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published by the Department of Cooperative Governance and Traditional Affairs. The gazette for 2015 will be released in due course. Municipalities are advised to refer to the circular issued on 23 January 2015 by the Department of Cooperative Governance and Traditional Affairs.
