## Part 1 – Annual Budget

### 1.1 Mayor's Report

#### **FOREWORD TO THE BUDGET 2018/19 BY THE EXECUTIVE MAYOR, CLR L M MALATJIE**

The Executive and the Officials of Nkangala District Municipality met at Olifants River Lodge on the 24<sup>th</sup> November 2017 to review the strategy, projects and the performance of the Municipality and I have no doubt in my mind that the exercise greatly enhance the general performance of the Municipality and introduced a much needed sense of urgency in order to strengthen our efforts to create a better life for all our people in the district.

Furthermore, we had fruitful meetings with communities through our outreach programme. People from our towns and villages have acknowledge the work we are doing and many also made it clear to us that impact-making and decisive change is needed to address the service delivery challenges that they are facing.

Budgeting is primarily about the choices that the Municipality has to make between competing priorities and fiscal realities. The challenge is to do more with the available limited resources. We need to remain focused on the effective service delivery mechanisms.

Once more, we are proud to receive yet another clean audit for the 2016/2017 financial year. It is now three years in a row obtaining clean Audit outcomes from the Auditor General (AG). Undoubtedly this is a great achievement which needs to be emulated by the six constituent Local Municipalities of Nkangala District. We are determined, to use our shared services committees such as the Audit Committee to assist the local Municipalities to improve their audit outcomes. This Annual Draft Budget 2018/19 – 2020/21 carries the hopes and aspirations of the masses of our communities and we believe it will guide our operations over the next financial years in the midterm.

Our vision as a Municipality says “**IMPROVED QUALITY OF LIFE FOR ALL**”. This is our focus as our mission is encapsulated in the inclusive growth path of NDM. We are ready to confront the triple challenges of inequality, unemployment and poverty to attain Radical-Socio-Economic Freedom in our life time. We are determined to ensure that this budget will see to it that our people will experience significant improvement in the delivery of municipal services. In our IDP, we have set clear targets for the predetermined outcomes. Our cordial objective of this budget inter alia, is to create conditions for an inclusive economy that will reduce unemployment, poverty and inequality and produce decent job opportunities as well as sustainable livelihoods.

As a District we are encouraged by the prospect of the New Dawn, and the Renewal of our society under the President of the Republic, President Cyril Matamela Ramaphosa who inspires all of us to choose to serve our people with vigour and verve.

**CLLR LINAH M MALATJIE**

**EXECUTIVE MAYOR**

## 1.2 Council Resolutions

On 28 March 2018 the Council of Nkangala District Municipality met in the Council Chambers of Nkangala District Municipality to consider the tabling of the draft annual budget of the municipality for the financial year 2018/19. The following resolutions were tabled with the draft budget under item **DM --/03/2018**:

  - 1.7. The draft Budget, through the consultation processes to follow, be considered and reduced in the second and third outer years to remain within sustainable measures.

### 1.3 Executive Summary

The application of sound financial management principles for the compilation of the District's financial plan is essential and critical to ensure that the District remains financially viable and that municipal services are provided sustainably, economically and equitably to all communities.

The District's business and service delivery priorities were reviewed as part of this year's planning and budget process. Where appropriate, funds were transferred from low- to high-priority programmes so as to maintain sound financial stewardship. A critical review was also undertaken of expenditures on non-core and 'nice to have' items. Key areas where savings were realized were on operational administrative expenditure.

The District has undertaken various customer care initiatives to ensure the municipality truly involves all citizens in the process of ensuring a people lead government.

National Treasury's MFMA Circular No. 51, 54, 55, 58, 70, 72, 74, 75, 78, 85, 86, 88, 89 & 91 were used to guide the compilation of the 2018/19 MTREF.

The main challenges experienced during the compilation of the 2018/19 MTREF can be summarised as follows:

- The ongoing difficulties in the national and local economy;
- Aging and poorly maintained water, roads and electricity infrastructure;
- The need to reprioritise projects and expenditure within the existing resource envelope given the cash flow realities;
- Wage increases for municipal staff that continue to exceed consumer inflation, as well as the need to fill critical vacancies;

The following budget principles and guidelines directly informed the compilation of the 2018/19 MTREF:

- The 2017/18 Adjustments Budget priorities and targets, as well as the base line allocations contained in that Adjustments Budget were adopted as the upper limits for the new baselines for the 2018/19 annual budget;
- Intermediate service level standards were used to inform the measurable objectives, targets and backlog eradication goals;
- There will be no budget allocated to national and provincial funded projects unless the necessary grants to the municipality are reflected in the national and provincial budget and have been gazetted as required by the annual Division of Revenue Act;
- The following items and allocations to these items had to be supported by a list and/or motivation setting out the intention and cost of the expenditure which was used to prioritise expenditures:
  - Special Projects;
  - Consultant Fees;
  - Furniture and office equipment;
  - Special Events;
  - Refreshments and entertainment;
  - Ad-hoc travelling; and
  - Subsistence, Travelling & Conference fees (national & international).

In view of the aforementioned, the following table is a consolidated overview of the proposed 2018/19 Medium-term Revenue and Expenditure Framework:

Total operating revenue has increased with 0.28 per cent or R1,044 million to R373,393 million for the 2018/19 financial year when compared to the 2017/18 Adjustments Budget. For the two outer years, operational revenue will increase by 1.7 and 2.96 per cent respectively, equating to a total revenue growth of R18,604 million over the MTREF when compared to the 2017/18 financial year.

Total operating expenditure for the 2018/19 financial year has been appropriated at R445,223 million and translates into a budgeted deficit of R69,650 million, which will be funded from the accumulated operating surpluses. When compared to the 2017/18 Adjustments Budget, operational expenditure has increased by 6.3 per cent in the 2018/19 budget and decreased by 71.05 per cent for the 2019/20 budget and increase with 0.65 per cent for the 2020/21 budget year of the MTREF.

The capital budget of R33,248 million for 2018/19 increased with 30.39 per cent compared to the 2017/18 Adjustment Budget. The capital programme decreases to R18,126 million in the 2019/20 financial year and to R14,010 in 2020/21. The capital budget will be funded from internally generated funds and accumulated surplus.

## 1.4 Operating Revenue Framework

For Nkangala District Municipality to continue improving the quality of services provided to its citizens and local municipalities it needs to generate the required revenue. In these tough economic times strong revenue management is fundamental to the financial sustainability of every municipality. The reality is that we are faced with development backlogs and poverty. The expenditure required to address these challenges will inevitably always exceed available funding; hence difficult choices have to be made in relation to balancing expenditures against realistically anticipated revenues.

The municipality's revenue strategy is built around the following key components:

- National Treasury's guidelines and macroeconomic policy;
- Growth in the District and continued economic development;
- Efficient revenue management,;

In line with the formats prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement, as inclusion of these revenue sources would distort the calculation of the operating surplus/deficit.

Operating Grants form a significant percentage of the revenue basket for the District. In the 2018/19 financial year, the operating grants total R348,588 million and constitute 92.83 per cent. This increases to R356,755 million and R367,881 million in the respective financial years of the MTREF. The main portion of the operating grants is the RSC Levy Replacement grant, which can be classified as own revenue as well because it replaced the RSC Levies that were abolished in 2006.

Investment revenue is the second largest revenue source totalling 6.86 per cent or R22,459 million and decreases to R20,480 million by 2020/21. The third largest source is 'other revenue' which consists of various items such as income received from discounts, sale of tender documents and sundry income.

It must also be appreciated that the consumer price index, as measured by CPI, is not a good measure of the cost increases of goods and services relevant to municipalities. The basket of goods and services utilised for the calculation of the CPI consist of items such as food, petrol and medical services, whereas the cost drivers of a municipality are informed by items such as the cost of remuneration, petrol, diesel, contracted services etc. The current challenge facing the District is managing the gap between cost drivers and revenue income, as any shortfall must be made up by either operational efficiency gains or service level reductions.

## 1.5 Operating Expenditure Framework

The District's expenditure framework for the 2018/19 budget and MTREF is informed by the following:

- Balanced budget constraint (operating expenditure should not exceed operating revenue) unless there are existing uncommitted cash-backed reserves to fund any deficit;
- Funding of the budget over the medium-term as informed by Section 18 and 19 of the MFMA;
- The contribution to local municipalities is aligned to the asset, IDP and backlog eradication plan;
- Operational gains and efficiencies will be directed to funding the contribution to local municipalities and other core services; and
- Project lists submitted by local municipalities.

The following table is a high level summary of the 2018/19 budget and MTREF (classified per main type of operating expenditure):

The budgeted allocation for employee related costs for the 2018/19 financial year totals R144,287 million, which equals 32.41 per cent of the total operating expenditure. Based on circulars 74, 75, 78, 85 & 86, 88 & 89 salary increases have been factored into this budget at a percentage increase based on CPI per cent over the full MTREF, awaiting the final agreement on salary increases to be adjusted in the final budget.

Provision has been made in the budget to include positions in the organogram to ensure that the priorities set out in the IDP and matters raised by the Auditor General are adequately attended to. An organogram was approved for a period of five years, but this include both funded and unfunded positions. Only funded positions have been budgeted for over the MTREF.

The cost associated with the remuneration of councillors is determined by the Minister of Co-operative Governance and Traditional Affairs in accordance with the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The most recent proclamation in this regard has been taken into account in compiling the District's budget. Increases are allowed for in accordance with the projected CPI rate over the MTREF.

The provision of debt impairment was determined based on an annual collection rate of 99 per cent and the Credit Control and Debt Collection Policy of the District. For the 2018/19 financial year this amount is immaterial. While this expenditure is considered to be a non-cash flow item,

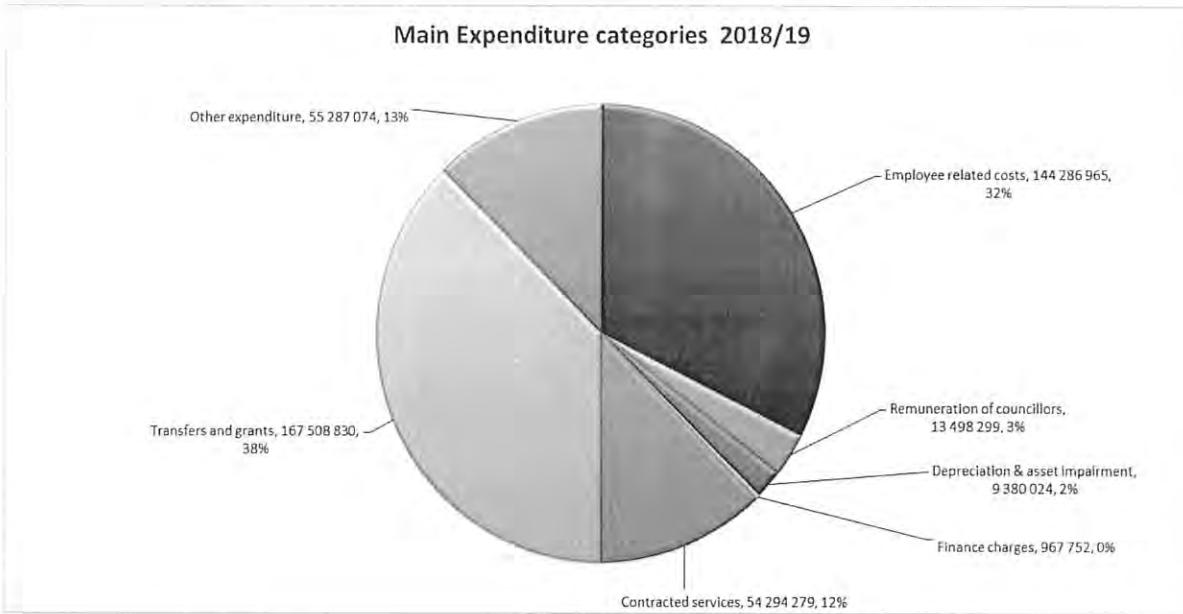

it informed the total cost associated with rendering the services of the municipality, as well as the municipality's realistically anticipated revenues.

Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Policy. Depreciation is widely considered a proxy for the measurement of the rate of asset consumption. Budget appropriations in this regard total R9,380 million for the 2018/19 financial year and equates to 2.11 per cent of the total operating expenditure.

Finance charges consist primarily of the repayment of interest on long-term borrowing (cost of capital). Finance charges make up 0.22 per cent (R0,968 million) of operating expenditure excluding annual redemption for 2018/19 and decreases to R0,542 million by 2020/21.

Other expenditure comprises of various line items relating to the daily operations of the municipality. Other expenditure increased with 14.79 per cent for 2018/19 and increase at 5.47 and 6.82 per cent for the two outer years. Further details relating to contracted services can be seen in table 49 MBRR SA2 (see page 83)

### **1.5.1 Priority given to Contribution to Local Municipalities**

The prioritised projects submitted by Local Municipalities as contained in the approved 2018/19 IDP of the District to improve service delivery and eradicate backlogs was the main focus for this expenditure category.

The following table gives a breakdown of the main expenditure categories per Local Municipality for the 2018/19 financial year.

### 1.5.2 Priority given to repairs and maintenance

Aligned to the priority being given to preserving and maintaining the District's current infrastructure, which amongst others include the main office building of the District, the 2018/19 budget and MTREF provide for extensive growth in the area of asset maintenance, as informed by the repairs and maintenance plan of the District. In terms of the Municipal Budget and Reporting Regulations, operational repairs and maintenance is not considered a direct expenditure driver but an outcome of certain other expenditures, such as remuneration, purchases of materials and contracted services. Considering that the only cost driver for the District is contracted services, the following table is a consolidation of all the expenditures associated with repairs and maintenance. The repairs and maintenance is 4.84% of the total operating expenditure and 10.79% of the total carrying value of property, Plant & equipment.

The table below provides a breakdown of the repairs and maintenance:

Total assets represent R33,248 million of the total budget. Further detail relating to asset classes and proposed capital expenditure is contained in Table 18 MBRR A9 (Asset Management) on

page 30. In addition to the MBRR Table A9, MBRR Tables SA34a and SA34c provides a detailed breakdown of the capital programme relating to new asset construction, capital asset renewal as well as operational repairs and maintenance by asset class (refer to pages 78 and 79). Some of the salient projects to be undertaken over the medium-term includes, amongst others:

#### **1.6.1 Future operational cost of new infrastructure**

The future operational costs and revenues associated with the capital programme have been included in Table 47 MBRR SA35 on page 81. This table shows that future operational costs associated with the capital programme totals R1,770 million in 2018/19 and decreases to R1,566 million by 2020/21. The concomitant operational expenditure is expected to further decrease to R1,300 million by 2020/21, and follow the same declining trend of the capital expenditure. It needs to be noted that as part of the 2018/19 MTREF, this expenditure has been factored into the two outer years of the operational budget.

### **1.7 Annual Budget Tables**

The following pages present the ten main budget tables as required in terms of section 8 of the Municipal Budget and Reporting Regulations. These tables set out the municipality's 2018/19 budget and MTREF as approved by the Council. Each table is accompanied by *explanatory notes* on the facing page.

**Explanatory notes to MBRR Table A1 - Budget Summary**

1. Table A1 is a budget summary and provides a concise overview of the District's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
2. The table provides an overview of the amounts approved by Council for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance, as well as the municipality's commitment to eliminating basic service delivery backlogs.
3. Financial management reforms emphasise the importance of the municipal budget being funded. This requires the simultaneous assessment of the Financial Performance, Financial Position and Cash Flow Budgets, along with the Capital Budget. The Budget Summary provides the key information in this regard:
  - a. The operating surplus/deficit (after Total Expenditure) is positive over the MTREF
  - b. Capital expenditure is balanced by capital funding sources, of which
    - i. Internally generated funds are financed from a combination of the current operating surplus and accumulated cash-backed surpluses from previous years. The amount is incorporated in the Net cash from investing on the Cash Flow Budget. The fact that the municipality's cash flow remains positive, and is improving indicates that the necessary cash resources are available to fund the Capital Budget.
4. The Cash backing/surplus reconciliation shows that in previous financial years the municipality was paying much attention to managing this aspect of its finances, and consequently all of its obligations are cash-backed. This places the municipality in a very positive financial position. Cash-backed surplus will decreased to R379,553 million in 2018/19, which is an indication that the NDM operational expenditure needs to be carefully scrutinized and either administrative operational expenditure or contributions to Local Municipalities needs to be decreased.

**Explanatory notes to MBRR Table A2 - Budgeted Financial Performance (revenue and expenditure by standard classification)**

1. Table A2 is a view of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified GFS standard classification divides the municipal services into 15 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas which enables the National Treasury to compile 'whole of government' reports.

**Explanatory notes to MBRR Table A3 - Budgeted Financial Performance (revenue and expenditure by municipal vote)**

1. Table A3 is a view of the budgeted financial performance in relation to the revenue and expenditure per municipal vote. This table facilitates the view of the budgeted operating performance in relation to the organisational structure of the District. This means it is possible to present the operating surplus or deficit of a vote.

**Explanatory notes to Table A5 - Budgeted Capital Expenditure by vote, standard classification and funding source**

1. Table A5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations); capital expenditure by standard classification; and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
2. The MFMA provides that a municipality may approve multi-year or single-year capital budget appropriations. In relation to single-year appropriations, for 2018/19 R33,248 million has been allocated of the total budget for capital expenditure and R18,126 million and R14,010 million for the 2019/20 and 2020/21 financial years respectively. The budget appropriations for the two outer years are indicative allocations based on the departmental business plans as informed by the IDP and will be reviewed on an annual basis to assess the relevance of the expenditure in relation to the strategic objectives and service delivery imperatives of the District. For the purpose of funding assessment of the MTREF.
3. The capital programme is funded from internally generated funds from current year surpluses and accumulated surpluses.

**Explanatory notes to Table A6 - Budgeted Financial Position**

1. Table A6 is consistent with international standards of good financial management practice, and improves understandability for councillors and management of the impact of the budget on the statement of financial position (balance sheet).
2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents Assets less Liabilities as "accounting" Community Wealth. The order of items within each group illustrates items in order of liquidity; i.e. assets readily converted to cash, or liabilities immediately required to be met from cash, appear first.
3. Table A6 is supported by an extensive table of notes (SA3 which can be found on page 102) providing a detailed analysis of the major components of a number of items, including:
  - Call investments deposits;
  - Property, plant and equipment;
  - Trade and other payables;
  - Provisions non-current;
  - Changes in net assets; and
4. The municipal equivalent of equity is Community Wealth/Equity. The justification is that ownership and the net assets of the municipality belong to the community.
5. Any movement on the Budgeted Financial Performance or the Capital Budget will inevitably impact on the Budgeted Financial Position. As an example, the collection rate assumption will impact on the cash position of the municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition the funding compliance assessment is informed directly by forecasting the statement of financial position.

1. The budgeted cash flow statement is the first measurement in determining if the budget is funded.
2. It shows the expected level of cash-in flows versus cash-outflow that is likely to result from the implementation of the budget.
3. It can be seen that the cash levels of the District decreases from R377,706 million over the MTREF 2018/19 to R372,359 million and to R344,257 million in 2019/20 period and to R285,896 million in 2020/21 financial years.
4. The approved 2018/19 MTREF provide for a further net decrease in cash of R91,809 million for the 2020/21 financial year resulting in an overall projected positive cash position of R285,896 million at year end.
5. Cash and cash equivalents totals R372,359 million as at the end of the 2018/19 financial year and decreases to R285,896 million by 2020/21.

### Explanatory notes to Table A8 - Cash Backed Reserves/Accumulated Surplus Reconciliation

1. The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
2. In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
3. The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
4. Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
5. From the table it can be seen that for the period 2018/19 to 2020/21 the surplus stabilises to R297,839 million.
6. Considering the requirements of section 18 of the MFMA, it can be concluded that the adopted 2018/19 MTREF was sufficiently funded.
7. As part of the budgeting and planning guidelines that informed the compilation of the 2018/19 MTREF the end objective of the medium-term framework was to ensure the budget is funded aligned to section 18 of the MFMA.

**Explanatory notes to Table A9 - Asset Management**

1. Table A9 provides an overview of municipal capital allocations to building new assets and the renewal of existing assets, as well as spending on repairs and maintenance by asset class.
2. National Treasury has recommended that municipalities should allocate at least 40 per cent of their capital budget to the renewal of existing assets, and allocations to repairs and maintenance should be 4 - 8 per cent of PPE. The District does not meet the renewal benchmark, as the District moved into new office buildings in 2006. However for the 2018/2019 budget year, the repairs and maintenance amounts to 4.84 per cent of total operating expenditure which is within the required range.

## Part 2 – Supporting Documentation

### 2.1 Overview of the annual budget process

Section 53 of the MFMA requires the Mayor of the municipality to provide general political guidance in the budget process and the setting of priorities that must guide the preparation of the budget. In addition Chapter 2 of the Municipal Budget and Reporting Regulations states that the Mayor of the municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the Act.

The Budget Steering Committee consists of the MMC for Finance, MMC for Technical Services, Municipal Manager and senior officials of the municipality meeting under the chairpersonship of the Executive Mayor.

The primary aims of the Budget Steering Committee are to ensure:

- that the process followed to compile the budget complies with legislation and good budget practices;
- that there is proper alignment between the policy and service delivery priorities set out in the District's IDP and the budget, taking into account the need to protect the financial sustainability of municipality;
- that the municipality's revenue strategies ensure that the cash resources needed to deliver services are available; and
- that the various spending priorities of the different municipal departments are properly evaluated and prioritised in the allocation of resources.

#### 2.1.1 Budget Process Overview

In terms of section 21 of the MFMA the Mayor is required to table in Council ten months before the start of the new financial year a time schedule that sets out the process to revise the IDP and prepare the budget.

The Mayor tabled in Council the required the IDP and budget time schedule on 31 May 2017. Key dates applicable to the process were:

- **23 August 2017** – Council adopted a roll-over budget for 2017/18.
- **22-24 November 2017**–Joint strategic planning session of the Mayoral Committee and Executive Management. Aim: to review past performance trends of the capital and operating budgets, the economic realities and to set the prioritisation criteria for the compilation of the 2018/19 MTREF;
- **January and February 2018**–Detail departmental budget proposals (capital and operating) submitted to the Budget and Treasury Office for consolidation and assessment against the financial planning guidelines;
- **February 2018** - Review of the financial strategy and key economic and financial planning assumptions by the Budget Steering Committee. This included financial forecasting and scenario considerations;
- **24 January 2018**- Council considered the 2017/18 Mid-year Review;
- **28 February 2018** - Council considers the 2017/18 Adjustments Budget;

- **13 March 2018** - Recommendations of the Mayoral Committee are communicated to the Budget Steering Committee, and on to the respective departments. The draft 2017/18 MTREF is revised accordingly;
- **28 March 2018** - Tabling in Council of the draft 2018/19 IDP and 2018/19 MTREF to Mayoral committee;
- **4-5 Apr 2018** – IDP and Budget Indaba;
- **20 April 2018** - Closing date for written comments;
- **14 to 22 April 2017**–finalisation of the 2018/19 IDP and 2018/19 MTREF, taking into consideration comments received from the public, comments from National Treasury, and updated information from the most recent Division of Revenue Bill and financial framework; and
- **26 April 2018** – Budget stakeholder report back meeting
- **23 May 2018** – Submission of final 2017/18 MTREF to Mayoral Committee for adoption
- **30 May 2018** - Submission of the final 2017/18 MTREF before Council for consideration and approval.

### 2.1.2 IDP and Service Delivery and Budget Implementation Plan

The review of the IDP for the MTREF 2018/19 – 2020/21 was submitted to Council.

The District's IDP is its principal strategic planning instrument, which directly guides and informs its planning, budget, management and development actions. This framework is rolled out into objectives, key performance indicators and targets for implementation which directly inform the Service Delivery and Budget Implementation Plan. The Process Plan applicable to the fourth revision cycle included the following key IDP processes and deliverables:

- Registration of community needs;
- Compilation of departmental business plans including key performance indicators and targets;
- Financial planning and budgeting process;
- Public participation process;
- Compilation of the SDBIP, and
- The review of the performance management and monitoring processes.

The IDP has been taken into a business and financial planning process leading up to the 2018/19 MTREF, based on the approved 2017/18 MTREF, Mid-year Review and adjustments budget as well as the annual report for 2016/17. The business planning process has subsequently been refined in the light of current economic circumstances and the resulting revenue projections.

With the compilation of the 2018/19 MTREF, each department/function had to review the business planning process, including the setting of priorities and targets after reviewing the mid-year and third quarter performance against the 2017/18 Departmental Service Delivery and Budget Implementation Plan. Business planning links back to priority needs and master planning, and essentially informed the detail operating budget appropriations and three-year capital programme.

### 2.1.3 Financial Modelling and Key Planning Drivers

As part of the compilation of the 2018/19 MTREF, extensive financial modelling was undertaken to ensure affordability and long-term financial sustainability. The following key factors and planning strategies have informed the compilation of the 2018/19 MTREF:

- District growth
- Policy priorities and strategic objectives
- Asset maintenance
- Economic climate and trends (i.e. inflation, household debt, migration patterns)
- Performance trends
- Any challenges identified in the 2016/17 annual report
- The approved 2017/18 adjustments budget and performance against the SDBIP
- Cash Flow Management Strategy
- Debtor payment levels
- Investment possibilities
- Improved and sustainable service delivery

In addition to the above, the strategic guidance given in National Treasury's MFMA Circulars 51, 54, 55, 58, 66, 67, 70, 72, 74, 75, 78, 85, 86, 88, 89 & 91 has been taken into consideration in the planning and prioritisation process.

### 2.1.4 Community Consultation

The draft 2018/19 MTREF as tabled before Council on 28 March 2018 for community consultation will be published on the municipality's website, and hard copies will be made available at customer care offices, municipal notice boards and various libraries.

All documents in the appropriate format (electronic and printed) will be provided to National Treasury, and other national and provincial departments in accordance with section 23 of the MFMA, to provide an opportunity for them to make inputs.

Local Municipalities were utilised to facilitate the community consultation process from January to March 2018, and included six public briefing sessions and the IDP and Budget Indaba on the 4-5 April 2018. The applicable dates and venues were published in all the local newspapers and on average attendance amounted 50 to 100 per meeting. This is up on the previous year's process. This can be attributed to the additional initiatives that were launched during the consultation process, including the specific targeting of ratepayer associations. Individual sessions were scheduled with organised business and Imbizo's were held to further ensure transparency and interaction. Other stakeholders involved in the consultation included churches, non-governmental institutions and community-based organisations.

Submissions received during the community consultation process and additional information regarding revenue and expenditure and individual capital projects will be addressed, and where relevant considered as part of the finalisation of the 2018/19 MTREF. Feedback and responses to the submissions received are available on request. The following are some of the issues and concerns raised as well as comments received during the consultation process:

- Capital expenditure is not allocated to the areas in the same ratio as the income derived from those areas. This is a normal practice in a collective taxation environment. The District is responsible for managing the equitable use of resources to ensure that constitutional imperative to progressively improve basic services in undeveloped areas is realized in a sustainable manner over a reasonable period of time;
- Several complaints were received regarding poor service delivery, especially the state of road infrastructure and slow implementation of projects in local municipalities;
- Poor performance of contractors relating to infrastructure development and maintenance especially in the areas of road construction and maintenance were raised;
- Environmental problems of the mines and climate change;
- High levels of poverty and unemployment, which indicate there is a need for skills training.
- The district needs to promote the cargo project in Victor Khanye.
- High percentage of rollovers

## 2.2 Overview of alignment of annual budget with IDP

The Constitution mandates local government with the responsibility to exercise local developmental and cooperative governance. The eradication of imbalances in South African society can only be realized through a credible integrated developmental planning process.

Municipalities in South Africa need to utilise integrated development planning as a method to plan future development in their areas and so find the best solutions to achieve sound long-term development goals. A municipal IDP provides a five year strategic programme of action aimed at setting short, medium and long term strategic and budget priorities to create a development platform, which correlates with the term of office of the political incumbents. The plan aligns the resources and the capacity of a municipality to its overall development aims and guides the municipal budget. An IDP is therefore a key instrument which municipalities use to provide vision, leadership and direction to all those that have a role to play in the development of a municipal area. The IDP enables municipalities to make the best use of scarce resources and speed up service delivery.

Integrated developmental planning in the South African context is amongst others, an approach to planning aimed at involving the municipality and the community to jointly find the best solutions towards sustainable development. Furthermore, integrated development planning provides a strategic environment for managing and guiding all planning, development and decision making in the municipality.

It is important that the IDP developed by municipalities correlate with National and Provincial intent. It must aim to co-ordinate the work of local and other spheres of government in a coherent plan to improve the quality of life for all the people living in that area. Applied to the District, issues of national and provincial importance should be reflected in the IDP of the municipality. A clear understanding of such intent is therefore imperative to ensure that the District strategically complies with the key national and provincial priorities.

The aim of this revision cycle was to develop and coordinate a coherent plan to improve the quality of life for all the people living in the area, also reflecting issues of national and provincial importance. One of the key objectives is therefore to ensure that there exists alignment between national and provincial priorities, policies and strategies and the District's response to these requirements.

The national and provincial priorities, policies and strategies of importance include amongst others:

- Green Paper on National Strategic Planning of 2009;
- Government Programme of Action;
- Development Facilitation Act of 1995;
- Provincial Growth and Development Strategy (GGDS);
- National and Provincial spatial development perspectives;
- Relevant sector plans such as transportation, legislation and policy;
- National Key Performance Indicators (NKPIs);
- Accelerated and Shared Growth Initiative (ASGISA);
- National 2014 Vision;
- National Spatial Development Perspective (NSDP);
- The National Priority Outcomes and
- The National Development Plan.

The Constitution requires local government to relate its management, budgeting and planning functions to its objectives. This gives a clear indication of the intended purposes of municipal integrated development planning. Legislation stipulates clearly that a municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP. The following table highlights the IDP's six strategic objectives for the 2018/19 MTREF and further planning refinements that have directly informed the compilation of the budget:

### **IDP Strategic Objectives**

- Local Economic Development
- Infrastructure Development and Service Delivery
- Institutional Development and Municipal Transformation
- Good Governance and Public Participation
- Build more united, non-racial, integrated and safer communities;
- Financial Viability
- Ensure more effective, accountable and clean Local Government that works together with National and Provincial Spheres of Government.

In order to ensure integrated and focused service delivery between all spheres of government it was important for the District to align its budget priorities with that of national and provincial government. All spheres of government place a high priority on infrastructure development, economic development and job creation, efficient service delivery, poverty alleviation and building sound institutional arrangements.

Local priorities were identified as part of the IDP review process which is directly aligned to that of the national and provincial priorities. The key performance areas can be summarised as follows against the five strategic objectives:

1. Provision of quality basic services and infrastructure which includes, amongst others:
  - Provide electricity;
  - Provide water;
  - Provide sanitation;
  - Provide waste removal;
  - Provide housing;
  - Provide roads and storm water;

- Provide public transport;
  - Provide district planning services; and
  - Maintaining the infrastructure of the District.
2. Economic growth and development that leads to sustainable job creation by:
- Ensuring there is a clear structural plan for the District;
  - Ensuring planning processes function in accordance with set timeframes;
  - Facilitating the use of labour intensive approaches in the delivery of services and the building of infrastructure.
- 3.1 Fight poverty and build clean, healthy, safe and sustainable communities:
- Working with strategic partners such as SAPS to address crime;
  - Ensuring safe working environments
  - Promote viable, sustainable communities through proper zoning; and
  - Promote environmental sustainability by protecting wetlands and key open spaces.
  - Implementing initiatives to reduce the effect of climate change.
- 3.2 Integrated Social Services for empowered and sustainable communities
- Work with provincial departments to ensure the development of community infrastructure such as schools and clinics is properly coordinated with the informal settlements upgrade programme
4. Foster participatory democracy and Batho Pele principles through a caring, accessible and accountable service by:
- Optimising effective community participation in the ward committee system; and
  - Implementing Batho Pele in the revenue management strategy.
- 5.1 Promote sound governance through:
- Publishing the outcomes of all tender processes on the municipal website
- 5.2 Ensure financial sustainability through:
- Reviewing the use of contracted services
  - Continuing to implement the infrastructure renewal strategy and the repairs and maintenance plan
- 5.3 Optimal institutional transformation to ensure capacity to achieve set objectives
- Review of the organizational structure to optimize the use of personnel;

In line with the MSA, the IDP constitutes a single, inclusive strategic plan for the District. The five-year programme responds to the development challenges and opportunities faced by the District by identifying the key performance areas to achieve the five strategic objectives mentioned above.

Lessons learned with previous IDP revision and planning cycles as well as changing environments were taken into consideration in the compilation of the IDP, including:

- Strengthening the analysis and strategic planning processes of the District;
- Ensuring better coordination through a programmatic approach and attempting to focus the budgeting process through planning interventions; and
- Strengthening performance management and monitoring systems in ensuring the objectives and deliverables are achieved.

- Multi-year budgeting remains a priority

The 2018/19 MTREF has therefore been directly informed by the IDP revision process and the following tables provide a reconciliation between the IDP strategic objectives and operating revenue, operating expenditure and capital expenditure.

The District received a clean audit opinion with no matters on the Annual Financial Statements and annual performance report for the year ending 30 June 2017. This was also the second set of financial statements which was compiled in compliance with the mSCOA regulations. It is this a major achievement to have retained the clean audit opinion of 2014/2015 with the accompanying difficulties of implementation of a new chart of accounts (and different versions thereof)!

However in order to maintain the clean audit status for the coming financial years, management needs to attend to all the matters raised by Auditor General in the final management letter following the audit outcome, an action plan had been compiled to address the issues raised by the Auditor-General during the 2016/17 audit.

An Audit Action Plan was developed from the final management letter received from Auditor General. The action plan addresses not only the findings raised but also possible future findings which might come out of the same population going forward looking into and fixing the root causes of the findings.

The management letter has 11 matters of which some are referring to the same incidents, however management has decided to keep to action plan properly aligned to the management letter in order not to lose track of the issues raised. Matters raised relates to the following:

- Predetermined objectives
  - Incomplete information reported on performance information
  - Actual reported target does not agree to the recalculated target
  - Supporting documents not provided
  - Inconsistency between planned target in SDBIP and the APR
- Procurement and Contract Management
  - Deviation not disclosed
  - Awards made to persons in the service of the state
- Annual Financial Statements
  - Contingent asset disclosed inappropriately
  - Payables not recorded in correct period.

The Audit Action plan was approved by Council as per item DM-N 97/12/2017 and progress is reported on a monthly basis to Council.

During the compilation of the Mid-year Budget and Performance Assessment report the issues arising from the previous year's annual report was taken into consideration and was hence taken up as part of the Audit Action Plan, referred to previously, in an attempt to put more controls in place and to resolve the problems identified. Subsequently such issues had been considered during the compilation of the 2018/2019 MTREF.

## 2.3 Measurable performance objectives and indicators

Performance Management is a system intended to manage and monitor service delivery progress against the identified strategic objectives and priorities. In accordance with legislative requirements and good business practices as informed by the National Framework for Managing Programme Performance Information, the District has developed and implemented a performance management system of which system is constantly refined as the integrated planning process unfolds. The Municipality targets, monitors, assesses and reviews organisational performance which in turn is directly linked to individual employee's performance.

At any given time within government, information from multiple years is being considered; plans and budgets for next year; implementation for the current year; and reporting on last year's performance. Although performance information is reported publicly during the last stage, the performance information process begins when policies are being developed, and continues through each of the planning, budgeting, implementation and reporting stages. The planning, budgeting and reporting cycle can be graphically illustrated as follows:

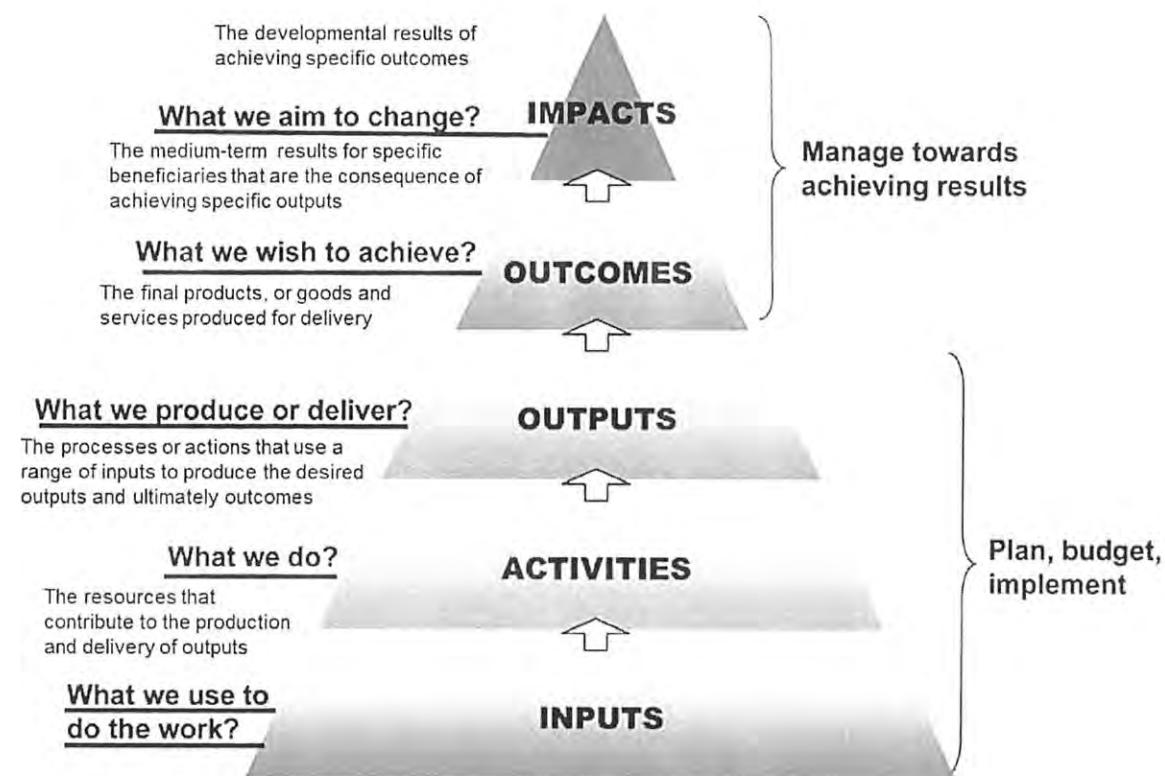

**Figure 3 Planning, budgeting and reporting cycle**

The performance of the District relates directly to the extent to which it has achieved success in realising its goals and objectives, complied with legislative requirements and meeting stakeholder expectations. The District therefore has adopted one integrated performance management system which encompasses:

- Planning (setting goals, objectives, targets and benchmarks);
- Monitoring (regular monitoring and checking on the progress against plan);
- Measurement (indicators of success);
- Review (identifying areas requiring change and improvement);
- Reporting (what information, to whom, from whom, how often and for what purpose); and
- Improvement (making changes where necessary).

The performance information concepts used by the District in its integrated performance management system are aligned to the ***Framework of Managing Programme Performance Information*** issued by the National Treasury:

**Figure 4 Definition of performance information concepts**

The following table provides the main measurable performance objectives the municipality undertakes to achieve this financial year.

### 2.3.1 Performance indicators and benchmarks

#### 2.3.1.1 Borrowing Management

Capital expenditure in local government can be funded by capital grants, own-source revenue and long term borrowing. The ability of a municipality to raise long term borrowing is largely dependent on its creditworthiness and financial position. As with all other municipalities, Nkangala District Municipality's borrowing strategy is primarily informed by the affordability of debt repayments. The structure of the District's debt portfolio is dominated by annuity loans. The following financial performance indicators have formed part of the compilation of the 2018/19 MTREF:

- *Capital charges to operating expenditure* is a measure of the cost of borrowing in relation to the operating expenditure. It can be seen that the cost of borrowing has stabilised at 0.9 for 2018/19 to 0.1 for 2020/21 over the MTREF.

- *Borrowing funding of own capital expenditure* measures the degree to which own capital expenditure (excluding grants and contributions) has been funded by way of borrowing. The average over MTREF is zero per cent. Capital expenditure is financed from cash backed accumulated surpluses.

The District's debt profile provides some interesting insights on the District's future borrowing capacity. Firstly, the use of amortising loans leads to high debt service costs at the beginning of the loan, which declines steadily towards the end of the loan's term.

In summary, various financial risks could have a negative impact on the future borrowing capacity of the municipality. In particular, the continued ability of the District to meet its revenue targets and ensure its forecasted cash flow targets are achieved will be critical in meeting the repayments of the debt service costs.

#### 2.3.1.2 Safety of Capital

- *The debt-to-equity ratio* is a financial ratio indicating the relative proportion of equity and debt used in financing the municipality's assets. The indicator is based on the total of borrowing, creditors and provisions as a percentage of funds and reserves. In the 2018/19 financial year the ratio is at a level 0 per cent and remains relatively stable at 0 per cent in the 2020/21 financial year.

#### 2.3.1.3 Liquidity

- *Current ratio* is a measure of the current assets divided by the current liabilities and as a benchmark the District has set a limit of 1, hence at no point in time should this ratio be less than 1. The 2016/17 current ratio of the District is 9.8 per cent. The current ratio for 2017/18 is 18.9 per cent, whilst the projected current ratio is 9.7 per cent for 2018/19. The 2019/20 financial year is 8.1 and 6.9 per cent for the outer year of the MTREF respectively.
- *The liquidity ratio* is a measure of the ability of the municipality to utilize cash and cash equivalents to extinguish or retire its current liabilities immediately. Ideally the municipality should have the equivalent cash and cash equivalents on hand to meet at least the current liabilities, which should translate into a liquidity ratio of 1. Anything below 1 indicates a shortage in cash to meet creditor obligations. The 2016/17 liquidity ratio of the District is 7.8 per cent, whilst the projected current ratio is 12.3 per cent for 2017/18. The 2018/19 financial year is 7.0 and 6.2 and 5.0 for the two outer years of the MTREF respectively.

#### 2.3.1.4 Revenue Management

- With the abolition of the RSC Levies the outstanding debtors has declined to a point where the total outstanding debtors to annual revenue is very positive. The estimated ratio for 2018/19 is 2.0 per cent and remains stable at 2.3 and 1.9 per cent for the two outer years.

#### 2.3.1.5 Creditors Management

- The District has managed to ensure that creditors are settled within the legislated 30 days of invoice. By applying daily cash flow management the municipality has managed to

ensure a 100 per cent compliance rate to this legislative obligation. This has had a favourable impact on suppliers' perceptions of risk of doing business with the District, which is expected to benefit the District in the form of more competitive pricing of tenders, as suppliers compete for the District's business.

#### 2.3.1.6 *Other Indicators*

- The total employee costs and Councillor remuneration as a percentage of operating revenue are continues increasing to 38.60 for the 2018/19 budget year, 40.1 and 41.3 for the 2020/21 budget year, which will be above the norm or 25-40 per cent.
- Repairs and maintenance as percentage of operating revenue is very low as the District has only the office building.
- The filling of vacancies has commenced.
- Measures have been put in place to ensure that relevant officials comply with the extension of the minimum competency requirements;

### 2.4 Overview of budget related-policies

The District's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

#### 2.4.1 Review of credit control and debt collection procedures/policies

The Credit Control and Debt Collection Policy as approved by Council in October 2003 and was reviewed during the 2016/17 budget process. While the adopted policy is credible, sustainable, manageable and informed by affordability and value for money there has been a need to review certain components to achieve a higher collection rate. Some of the possible revisions will include the lowering of the credit periods for the down payment of debt.

The 2018/19 MTREF has been prepared on the basis of achieving an average debtors' collection rate of 99 per cent on debtors. In addition the collection of debt in excess of 90 days has been prioritised as a pertinent strategy in increasing the District's cash levels.

#### 2.4.2 Asset Management Policy

The reviewed asset management policy was adopted by Council in 2017/18. The policy prescribes the accounting and administrative policies and procedures relating to property, plant and equipment. The depreciation and capitalization of assets are dealt with in terms of this policy. The Asset Management policy was reviewed during the 2017/18 budget preparation process.

#### 2.4.3 Supply Chain Management Policy

The Supply Chain Management Policy was adopted by Council in October 2006. An amended policy was adopted by Council in May 2013. The policy was reviewed during the 2017/18 budget process.

The policy provides for processes to be followed in the procurement of goods and services. The principles of this policy is to give effect to a fair, equitable, transparent, competitive and cost effective system for the procurement of goods and services, disposing of goods and selection of contractors in the provision of municipal services.

#### **2.4.4 Budget and Virement Policy**

The Budget and Virement Policy aims to empower senior managers with an efficient financial and budgetary amendment and control system to ensure optimum service delivery within the legislative framework of the MFMA and the District's system of delegations. The Budget and Virement Policy was reviewed during the budget process in 2017/18.

#### **2.4.5 Cash Management and creditor payment Policy**

The policy provides for the management of cash and creditor payment. The aim of the policy is to ensure that surplus cash and investments are adequately managed especially the funds set aside for the cash banking of certain reserves. The policy details the minimum cash and cash equivalents required at any point in time and introduce time frames to achieve certain benchmarks. This policy was reviewed by Council during the 2017/18 budget process.

#### **2.4.6 Donation Policy**

The policy provides for the conditions and procedures for which donations can be made and accounted for. This policy was reviewed by Council during the 2017/18 budget process.

#### **2.4.7 Fraud and Corruption Prevention Policy**

The policy provides for the mitigating, preventing, and reporting any corrupt or fraudulent activities. The policy was reviewed by Council during the 2017/18 budget process.

#### **2.4.8 Travel and Subsistence Policy**

The objective of this policy is to enforce the promulgated legislation in terms of ad-hoc travel and subsistence allowances, in order to set uniform guidelines for Councillors and officials from Nkangala District Municipality. Furthermore, this policy sets out the basis for the payment of a subsistence and travel allowance for the purposes of such official travelling. The policy was reviewed during the 2017/18 budget process.

#### **2.4.9 Rental of municipal facilities Policy**

The objectives of this policy are to:

- Ensure that the rental of council facilities are dealt with in accordance with authorized processes only
- Ensure that the municipality has and maintains an effective system of internal control.

This policy was reviewed by Council during the 2017/18 budget process.

#### **2.4.10 Budget policy**

The objective of the budget policy is to set out:

- The principles which the municipality will follow in preparing each medium term revenue and expenditure framework budget,
- The responsibilities of the executive mayor, the accounting officer, the chief financial officer and other senior managers in compiling the budget
- To establish and maintain procedures to ensure adherence to the Nkangala District Municipality's 2017/18 IDP review and budget processes.

#### **2.4.11 Borrowing policy**

The purpose of the policy is to:

Enable the municipality to exercise their obligation to ensure sufficient cash resources to implement their capital programme in the most cost effective manner.

Ensure compliance with the relevant legal and statutory requirements relating to municipal borrowing.

This policy was reviewed by Council during the 2017/18 budget process

#### **2.4.12 Funds and reserves policy**

The purpose of the policy is to:

The funding and reserves policy is aimed to ensure that the municipality has sufficient and cost-effective funding in order to achieve its objectives through the implementation of its operating and capital budgets.

This policy aims to set guidelines towards ensuring financial viability over both the short- and long-term which includes reserves requirements.

This policy was reviewed by Council during the 2017/18 budget process

#### **2.4.13 Investment and surplus funds policy**

The purpose of the policy is to:

The preservation and safety of investments as a primary aim;

The need of investment diversification;

To specify minimum acceptable credit rating for investments including:

- a list of approved investment types; o a list of approved institutions;
- guidelines for the invitation and selection of competitive bids or offers in accordance with part 1 of chapter 11 of the Act for investments in excess of six (6) months or the appointment of an investments manager;

To put measures in place to ensuring implementation of the policy and internal controls over investments made;

This policy was reviewed by Council during the 2017/18 budget process

#### **2.4.14 Black listing policy**

The purpose of the policy is to:

To prevent the municipality from doing business with persons, business, organizations or entities who abuse the supply chain management system by committing a corrupt, fraudulent, unfair or irregular practice/s.

To prevent the municipality from doing business with individual persons, business, organizations or entities who default on any contract, performance will fully or negligently.

To develop a uniform criteria and a fair process for barring such persons, tenderers and business entities who engage in the above

This policy was reviewed by Council during the 2017/18 budget process

#### **2.4.15 Catering Policy**

Objectives of the policy

To regulate and control expenditure in relation to catering;

To regulate instances and events where catering should be provided;

To indicate what meetings are allowed to have catering;

To indicate what other gatherings are allowed to have catering;

To indicate what type of catering is allowed; and

To indicate the processes to be followed for catering.

This policy was reviewed by Council during the 2017/18 budget process

#### 2.4.16 Management of foreign exchange policy

The purpose of this policy is to provide an agreed framework within which:

Foreign currency exchange risks are identified and managed in an efficient and cost effective manner;

Foreign exchange conversion differences are properly quantified, accounted for and fairly apportioned between the foreign supplier, any local agent and the Municipality;

The policy was developed during the 2017/18 budget process

### 2.5 Overview of budget assumptions

#### 2.5.1 External factors

Further guidance for the preparation of the 2018/19 Budget is provided by the National Treasury MFMA Circulars 88, 89 and 91.

##### Highlights from circular 88, 89 and 91 as follows:

MFMA Circular No.88 Municipal Circular on Rationalisation Planning and Reporting Requirements for the 2018/2019 MTREF:

*"The circular aims to support the alignment of planning and reporting instruments for a prescribed set of municipal performance indicators. The Municipal Systems Act (MSA) and the MFMA require alignment between planning and reporting instruments such as the Integrated Development Plan (IDP), the Service Delivery and Budget Implementation Plan (SDBIP) and the Annual Report. However, there has been some confusion as to the results level that indicators in the SDBIP occupy, particularly in component 3. Quarterly projections of service delivery targets and performance indicators for each vote. This is particularly in relation to the goals and objectives set out over the medium term in the IDP, and how they are measured. This circular aims to clarify this matter by prescribing municipal performance indicators for metropolitan municipalities. In providing guidance and conceptual clarity and alignment between the IDP, SDBIP and the performance part of the Annual Report, this MFMA Circular has conceptual benefit for all municipalities. However, the prescribed performance indicators will be applicable to only metropolitan municipalities from the 2018/19 financial year onwards."*

MFMA Circular No.89 Municipal Budget Circular for 2018/2019 MTREF:

This circular gives guidance to municipalities on preparation of the 2018/2019 Medium Term Revenue and Expenditure Framework (MTREF).

GDP growth forecasted of 1.3 per cent in 2017/2018 was revised down to 0.7 per cent. Recovery rate is expected to be slow and is estimated that growth may reach 1.9 per cent by 2020.

Due to tax collection target which have not been met, there is less funds available to allocate across the different spheres of government.

Economic challenges will continue to pressurise municipal revenue generation and collection levels hence a conservative approach is advised for projecting revenue. Municipalities will have to improve their efforts to limit non-priority spending and to implement stringent cost-containment measures. To this effect, the MFMA Circular 82 which introduced cost containment measures for implementation by municipalities and municipal entities was published on 30 March 2016 (updated November 2016).

The urgency expressed in the SONA and announcements by the Minister of Finance, after consulting SALGA and Minister of Cooperative Government and Traditional Affairs, is articulated in this regulations on cost containment measures. In this regard, the Draft Municipal Cost Containment Regulations, as published in Part 2 of *Government Gazette* No. 41445, was published and is currently open for comments and consideration.

The following macro-economic forecasts must be considered when preparing the 2017/18 MTREF municipal budgets.

**Table 1: Macroeconomic performance and projections, 2016 - 2020**

| Fiscal year   | 2016/17<br>Actual | 2017/18<br>Estimate | 2018/19 | 2019/20<br>Forecast | 2020/21 |

Source: Medium Term Budget Policy Statement 2017.

Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.

#### Local government conditional grants and additional allocations

The 2017 Medium Term Budget Policy Statement (MTBPS) indicates transfers to local government for the 2018 MTREF are R397 billion, of which 62.2 per cent comprise unconditional allocations while the remainder is conditional grant funding. The allocations for local government over the medium term represent 9.2 per cent of non-interest expenditure and an increase of 8.3 per cent.

The equitable share and the allocation of the general fuel levy to local government constitute unconditional funding. Municipalities are reminded that this funding allocation is formula driven and designed to fund the provision of free basic services to disadvantaged communities. Conditional grant funding must be utilised for the intended purpose within the timeframes, as specified in the annual Division of Revenue Bill. Monies not spent must be returned to the fiscus and requests for roll-overs will only be considered in extenuating circumstances.

#### Municipal Standard Chart of Accounts (mSCOA)

The mSCOA Regulations apply to all municipalities and municipal entities with effect from 1 July 2017."

Some challenges with version 6.1 of the chart had to be addressed and therefore version 6.2 was issued with this circular and will be effective 2018/2019 which means that the MTREF must be drawn up using the latest version.

The NDM is one of the identified pilot municipalities for the mSCOA and has implemented the mSCOA on the 1<sup>st</sup> of July 2015. The 2018/19 budget year will be the third budget on mSCOA.

### **Revenue budgets**

As municipalities also face a difficult fiscal environment, they must ensure that expenditure is limited to the maximum revenue collected. It is also advised that municipalities maintain tariff increases on levels that reflect an appropriate balance between poorer and other households.

Municipalities are required to justify all increases in excess of the projected inflation target for 2018/2019 (forecast to be between 3 and 6 per cent) for 2018/2019 in the budget narratives.

### **Funding choices and management issues**

In light of the current economic conditions, municipalities must consider the following with the compilation of the 2018/2019 MTREF :

- improving the effectiveness of revenue management processes and procedures;
- paying special attention to cost containment measures by, amongst other things, controlling unnecessary spending on nice-to-have items and non-essential activities as was highlighted in MFMA Circular No. 82;
- ensuring value for money through the procurement process;
- the affordability of providing free basic services to all households; and
- curbing consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

Accounting officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently and economically. Failure to do this will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

### **Employee related costs**

The multi-year Salary and Wage Collective Agreement for the period 1 July 2015 to 30 June 2018 has come to an end and is currently under consultation .

### **Remuneration of Councillors**

Municipalities are advised to budget for the actual costs approved in accordance with the gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries,

Allowances and Benefits of different members of municipal councils published annually by the Department of Cooperative Governance.

Any overpayment to councilors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of section 167 of the MFMA and must be recovered from the councilor(s) concerned.

#### MFMA Circular No.91 Municipal Budget Circular for 2018/2019 MTREF:

This circular follows up on Circular number 89 issued in December 2017 and discussed above:

The local economy is beginning to recover after a short recession in early 2017 however the improvement is insufficient. Growth has remained stagnant at less than 2 per cent and unemployment remains high at 26.7 per cent. The prerequisites for increased revenue and expanded service delivery are more rapid growth, investment and job creation.

The GDP growth rate is forecasted at 1.5 per cent in 2018, 1.8 per cent in 2019 and 2.1 per cent in 2020. Statistics South Africa's December 2017 economic statistics showed an unexpected improvement in the economic outlook, largely as a result of growth in agriculture and mining.

#### **Local government grants and additional allocations**

Since the 2017 Medium Term Budget Policy Statement (MTBPS) reprioritisation and reductions undertaken have affected planned spending for 2018/19. Local government direct and indirect transfers absorb 18.8 per cent of the reductions. A total of R13.9 billion has been cut from direct local government conditional grant allocations for the Medium Term Expenditure Framework (MTEF) period ahead since the 2017 MTBPS was tabled. Indirect grants to local government have been reduced by an additional R2.2 billion.

#### **Participation in RT15-2016 Vodacom transversal contract- for the supply and delivery of mobile communication services to the state**

When municipalities make an application to the Office of the Chief Procurement Officer (OCPO) to participate in the RT15-2016 transversal contract's account management service offering in respect of smart meters, they must comply with the process that will be communicated in an MFMA Circular that will soon be issued. In terms of the application process municipalities are expected to provide evidence of adequate operating budget provision over the MTREF. The Circular will include pre-conditions for eligibility to participate, such as adequate resourcing and technology platform to fulfil their obligation as envisaged by the Smart Utility Management Solution; and capability to sustain the implementation effort in the longer term.

#### **Rollover of conditional grant funds**

Section 22 of the 2017 Division of Revenue Act (DORA) requires that any conditional grants which are not spent at the end of the municipal financial year must revert to the National Revenue Fund, unless the receiving officer, provincial treasury and transferring national officer proves to the satisfaction of National Treasury that the unspent allocation is committed

to identifiable projects, in which case the funds may be rolled over.

There is specific information which must accompany a request for roll over of grant funding and is listed in detail in the attached circular.

#### Credit rating outlook

Global Credit Rating Co. performed a credit rating analysis during October 2017 and is summarized as follows:

#### CONCLUSION

NDM has made great strides in ensuring that sound financial management practices are maintained which has seen sustainable service delivery achievements in the past. However due to high dependency on Grant funding which is closely dependent on the South Africa growth rate, there is a high risk of curtailment and non-delivering of services at the same rate as in the past financial years.

Development and exploring of other sources of revenue remains a key critical programme to ensure sustainability of service delivery to the constituency of NDM in the long term.

#### 2.5.2 Interest rates for borrowing and investment of funds

The MFMA specifies that borrowing can only be utilised to fund capital or refinancing of borrowing in certain conditions. The District engaged in a number of financing arrangements to minimise its interest rate costs and risk. However, in 2018/19 MTREF is based on the assumption that no additional borrowings are undertaken.

#### 2.5.3 Collection rate for revenue services

The rate of revenue collection is currently expressed as a percentage (99 per cent) of budgeted income. Cash flow is assumed to be 99 per cent of budgeted income.

#### 2.5.4 Salary increases

##### Employee related costs

The multi-year Salary and Wage Collective Agreement was entered into for the period 1 July 2015 to 30 June 2018 and has come to an end. A new agreement is currently being negotiated and the outcome thereof will be taken into consideration during the open window consultation period of the MTREF.

Currently provision for salary increases had been aligned to the proposed CPI forecast contained in the relevant budget circulars.

##### Remuneration of Councillors

Municipalities are advised to budget for the actual costs approved in accordance with the gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually by the Department of Cooperative Governance.

##### Impact of national, provincial and local policies

Integration of service delivery between national, provincial and local government is critical to ensure focussed service delivery and in this regard various measures were implemented to align IDPs, provincial and national strategies around priority spatial interventions. In this regard, the following national priorities form the basis of all integration initiatives:

- Creating jobs;
- Enhancing education and skill development;
- Improving Health services;
- Rural development and agriculture; and
- Fighting crime and corruption.

To achieve these priorities integration mechanisms are in place to ensure integrated planning and execution of various development programs. The focus will be to strengthen the link between policy priorities and expenditure thereby ensuring the achievement of the national, provincial and local objectives.

#### 2.5.5 Ability of the municipality to spend and deliver on the programmes

It is estimated that a spending rate of at least 60 per cent is achieved on operating expenditure and 60 per cent on the capital programme for the 2018/19 MTREF of which performance has been factored into the cash flow budget.

The following graph is a breakdown of the operational revenue per main category for the 2018/19 financial year.

**Figure 5 Breakdown operating revenue over the 2018/19 MTREF**

Operating Grants form a significant percentage of the revenue basket for the District. In the 2018/19 financial year, the operating grants totals R348,588 million or 92.83 per cent. This increases to R356,755 million and R367,881 million in the respective financial years of the MTREF and includes the RSC Levy Replacement, local government equitable share and other operating grants from national government.

Investment revenue is the second largest revenue source totalling 6.86 per cent or R25,450 million and decreases to R20,480 million by 2020/21. The third largest sources is 'other revenue' which consists of various items such as income received from discounts, sale of tender documents and sundry income.

For the medium-term, the funding strategy has been informed directly by ensuring financial sustainability and continuity. The MTREF therefore provides for a budgeted surpluses be invested. This surplus is intended to partly fund contribution to local municipalities from own sources as well as ensure adequate cash backing of reserves and funds.

The following table is a detailed analysis of the District's borrowing liability.

## 2.6.2 Cash Flow Management

Cash flow management and forecasting is a critical step in determining if the budget is funded over the medium-term. The table below is consistent with international standards of good financial management practice and also improves understand ability for councillors and management. Some specific features include:

- Clear separation of receipts and payments within each cash flow category;
- Clear separation of capital and operating receipts from government, which also enables cash from 'Ratepayers and other' to be provide for as cash inflow based on actual performance. In other words the *actual collection rate* of billed revenue., and
- Separation of borrowing and loan repayments (no set-off), to assist with MFMA compliance assessment regarding the use of long term borrowing (debt).

The budgeted cash flow statement is the first measurement in determining if the budget is funded.

It shows the expected level of cash in-flow versus cash out-flow that is likely to result from the implementation of the budget.

It can be seen that the cash levels of the District decreased from R432,380 million over the 2014/15 to R377,706 million in 2017/18 period.

The current approved 2018/19 MTREF provide for a further net decrease in cash of R372,359 million for the 2018/19 financial year resulting in an overall projected positive cash position of R285,896 million at year end.

### 2.6.3 Cash Backed Reserves/Accumulated Surplus Reconciliation

This following table meets the requirements of MFMA Circular 42 which deals with the funding of a municipal budget in accordance with sections 18 and 19 of the MFMA. The table seeks to answer three key questions regarding the use and availability of cash:

- What are the predicted cash and investments that are available at the end of the budget year?
- How are those funds used?
- What is the net funds available or funding shortfall?

A surplus would indicate the cash-backed accumulated surplus that was/is available. A shortfall (applications > cash and investments) is indicative of non-compliance with section 18 of the MFMA requirement that the municipality's budget must be 'funded'. Non-compliance with section 18 is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded (budgeted spending is greater than funds available or to be collected). It is also important to analyse trends to understand the consequences, e.g. the budget year might indicate a small surplus situation, which in itself is an appropriate outcome, but if in prior years there were much larger surpluses then this negative trend may be a concern that requires closer examination.

From the above table it can be seen that the cash and investments available total R421,325 million in the 2018/19 financial year and progressively decrease to R346,403 million by 2020/21, including the projected cash and cash equivalents as determined in the cash flow forecast. The following is a breakdown of the application of this funding:

- The cash backed reserves/accumulated surplus reconciliation is aligned to the requirements of MFMA Circular 42 – Funding a Municipal Budget.
- In essence the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities/commitments that exist.
- The outcome of this exercise would either be a surplus or deficit. A deficit would indicate that the applications exceed the cash and investments available and would be indicative of non-compliance with the MFMA requirements that the municipality's budget must be "funded".
- Non-compliance with section 18 of the MFMA is assumed because a shortfall would indirectly indicate that the annual budget is not appropriately funded.
- From the table it can be seen that for the period 2014/15 to 2016/17 the surplus decreased from R754,631 million to R514,072 million.
- From the table it can be seen that over the MTREF the surplus is estimated to further decrease from R398,483 million in 2017/18, to R379,553 in 2018/19 and decrease to R297,839 in 2020/21
- Considering the requirements of section 18 of the MFMA, it can be concluded that the adopted 2017/18 MTREF was sufficiently funded.
- As part of the budgeting and planning guidelines that informed the compilation of the 2018/19 MTREF the end objective of the medium-term framework was to ensure the budget is funded aligned to section 18 of the MFMA.

The following graph supplies an analysis of the trends relating cash and cash equivalents and the cash backed reserves/accumulated funds reconciliation over a seven year perspective.

## 2.6.4 Funding compliance measurement

National Treasury requires that the municipality assess its financial sustainability against fourteen different measures that look at various aspects of the financial health of the municipality. These measures are contained in the following table. All the information comes directly from the annual budgeted statements of financial performance, financial position and cash flows. The funding compliance measurement table essentially measures the degree to which the proposed budget complies with the funding requirements of the MFMA. Each of the measures is discussed below.

### 2.6.4.1 Cash/cash equivalent position

The District's forecast cash position was discussed as part of the budgeted cash flow statement. A 'positive' cash position, for each year of the MTREF would generally be a minimum requirement, subject to the planned application of these funds such as cash-backing of reserves and working capital requirements.

If the municipality's forecast cash position is negative, for any year of the medium term budget, the budget is very unlikely to meet MFMA requirements or be sustainable and could indicate a risk of non-compliance with section 45 of the MFMA which deals with the repayment of short term debt at the end of the financial year. The forecasted cash and cash equivalents for the 2018/19 MTREF shows R372,359 million, R344,257 million and R285,896 million for each respective financial year.

### 2.6.4.2 Cash plus investments less application of funds

The purpose of this measure is to understand how the municipality has applied the available cash and investments as identified in the budgeted cash flow statement. The detail reconciliation of the cash backed reserves/surpluses is contained in Table 18. The reconciliation is intended to be a relatively simple methodology for understanding the budgeted amount of cash and investments available with any planned or required applications to be made. This has been extensively discussed above.

#### 2.6.4.3 *Monthly average payments covered by cash or cash equivalents*

The purpose of this measure is to understand the level of financial risk should the municipality be under stress from a collection and cash in-flow perspective. Regardless of the annual cash position an evaluation should be made of the ability of the District to meet monthly payments as and when they fall due. It is especially important to consider the position should the municipality be faced with an unexpected disaster that threatens revenue collection. The ratio has been decreasing for the period 2014/15 to 2016/17, moving from 52.2 to 32.7. With the adopted 2017/18 MTREF the ratio stabilised at 21.4. As part of the 2018/19 MTREF the municipalities improving Project expenditure, thus the cash position causes the ratio to down to 19.3 for 2018/19 and then decreases to 17.2 for the 2019/20 and to 13.3 in the 2020/21 year. It can be concluded that the District maintains a stable cash position.

#### 2.6.4.4 *Surplus/deficit excluding depreciation offsets*

The main purpose of this measure is to understand if the revenue levels are sufficient to conclude that the community is making a sufficient contribution for the municipal resources consumed each year. An 'adjusted' surplus/deficit is achieved by offsetting the amount of depreciation related to externally funded assets. Municipalities need to assess the result of this calculation taking into consideration its own circumstances and levels of backlogs.

The surplus excluding depreciation offsets declined from R27,832 million in 2014/15 to a surplus of R23,832 million in 2016/17. It should be noted that the deficit of (R44,291) million is estimated in 2017/18. The deficit of (R69,650) million is budgeted for 2018/19, (R58,514) million for 2019/20 and (R50,027) million for 2020/21 is mainly due to the current commitments and future demands on contributions to local municipalities, which is funded from accumulated surpluses.

It needs to be noted that a surplus does not necessarily mean that the budget is funded from a cash flow perspective and the first two measures in the table are therefore critical.

#### 2.6.4.5 *Property Rates/service charge revenue as a percentage increase less macro inflation target*

This ratio does not apply to the District as no property rates /service charges is collected by the District.

#### 2.6.4.6 *Cash receipts as a percentage of other revenue*

This factor is a macro measure of the rate at which funds are 'collected'. This measure is intended to analyse the underlying assumed collection rate for the MTREF to determine the relevance and credibility of the budget assumptions contained in the budget. It can be seen that the outcome is at 100 per cent for each of the respective financial years. Given that the assumed collection rate was based on a 99 per cent performance target, the cash flow statement has been conservatively determined. In addition the risks associated with objections to the valuation roll need to be clarified and hence the conservative approach, also taking into consideration the cash flow challenges experienced in the current financial year. This measure and performance objective will have to be meticulously managed. Should performance with the mid-year review and adjustments be positive in relation to actual collections of billed revenue, the adjustments budget will be amended.

#### *2.6.4.7 Debt impairment expense as a percentage of billable revenue*

With effect from 1 July 2006 RSC levies were abolished and replaced with a transitional replacement grant and the District has limited billable revenue.

#### *2.6.4.8 Capital payments percentage of capital expenditure*

The purpose of this measure is to determine whether the timing of payments has been taken into consideration when forecasting the cash position. The municipality aims to keep this as low as possible through strict compliance with the legislative requirement that creditors be paid within 30 days.

#### *2.6.4.9 Borrowing as a percentage of capital expenditure (excluding transfers, grants and contributions)*

The purpose of this measurement is to determine the proportion of a municipality's 'own-funded' capital expenditure budget that is being funded from borrowed funds to confirm MFMA compliance. Externally funded expenditure (by transfers/grants and contributions) has been excluded. No additional borrowings are undertaken.

#### *2.6.4.10 Transfers/grants revenue as a percentage of Government transfers/grants available*

The purpose of this measurement is mainly to ensure that all available transfers from national and provincial government have been budgeted for. A percentage less than 100 per cent could indicate that not all grants as contained in the Division of Revenue Act (DoRA) have been budgeted for. The District has budgeted for all transfers.

#### *2.6.4.11 Consumer debtors change (Current and Non-current)*

The purpose of these measures are to ascertain whether budgeted reductions in outstanding consumer debtors are realistic. With effect from 1 July 2006 RSC levies were abolished and replaced with a transitional replacement grant and the District has only a few sundry debtors, mostly relating to the renting out of office space.

#### *2.6.4.12 Repairs and maintenance expenditure level*

This measure must be considered important within the context of the funding measures criteria because a trend that indicates insufficient funds are being committed to asset repair could also indicate that the overall budget is not credible and/or sustainable in the medium to long term because the revenue budget is not being protected. Details of the District's strategy pertaining to asset management and repairs and maintenance is contained in Table 47 MBRR SA34C.

#### 2.6.4.13 Asset renewal/rehabilitation expenditure level

The District's only infrastructure assets are the office building, Thembisile Fire Station and the Dr JS Moroka Fire Station. This measure has a similar objective to aforementioned objective relating to repairs and maintenance. A requirement of the detailed capital budget (since MFMA Circular 28 which was issued in December 2005) is to categorise each capital project as a new asset or a renewal/rehabilitation project. The objective is to summarise and understand the proportion of budgets being provided for new assets and also asset sustainability. A declining or low level of renewal funding may indicate that a budget is not credible and/or sustainable and future revenue is not being protected, similar to the justification for 'repairs and maintenance' budgets.

1. Government Finance Statistics Functions and Sub-functions are standardised to assist the compilation of national and international accounts for comparison purposes

2. Total Revenue by functional classification must reconcile to Total Operating Revenue shown in Budgeted Financial Performance (revenue and expenditure)

3. Total Expenditure by Functional Classification must reconcile to Total Operating Expenditure shown in Budgeted Financial Performance (revenue and expenditure)

4. All amounts must be classified under a functional classification. The GFS function 'Other' is only for Abattoirs, Air Transport, Forestry, Licensing and Regulation, Markets and Tourism - and if used must be supported by footnotes. Nothing else may be placed under 'Other'. Assign associate share to relevant classification.
