9/4 Umar Banda (X8100) SPECIAL MEETING OF THE ADMINISTRATOR: 30 June 2020

1.1.1 GROUP FINANCIAL SERVICES DEPARTMENT (BUDGET OFFICE) 2020/21 MEDIUM-TERM REVENUE AND EXPENDITURE FRAMEWORK FOR THE CITY OF TSHWANE (From the Special Executive Committee: 29 June 2020)

1. PURPOSE

The purpose of the report is to obtain approval for the 2020/21 Medium-term Revenue and Expenditure Framework (MTREF) in terms of Section 24 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003).

2. STRATEGIC PILLAR ADDRESSED

A city that is open, honest and responsive.

3. BACKGROUND

Section 16(1) of the Municipal Finance Management Act (MFMA) stipulates that the council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year.

The City of Tshwane Council is currently dissolved in terms of section 139(1)(c) of the Constitution of the Republic of South Africa, 1996 and the Municipality was placed under administration in terms of the said section.

The Administrator was appointed and it is within his powers to consider and approve the 2020/21 Medium-term Revenue and Expenditure Framework (MTREF).

Section 22 of the MFMA also stipulates that immediately after an annual budget is tabled in a municipal council the accounting officer must make public the annual budget and documents in terms of Section 17; invite the local community to submit representations in connection with the budget; and submit the annual budget to the National Treasury and the relevant provincial treasury in printed and electronic formats. All budget related documents (electronic and printed) were provided to National Treasury, and other national and provincial departments, in accordance with Section 22(b) of the MFMA.

The Local Government: Municipal Systems Act (MSA), Chapter 4 deals with Community participation Section 16(1) (a) and (iv) stipulate that a municipality must encourage, and create conditions for, the local community to participate in the affairs of the municipality, including in the preparation, implementation and review of its Integrated Development Plan and the preparation of its Budget.

Section 23(2) of the MFMA stipulates that "after considering all budget submissions, the Council must give the Executive Mayor an opportunity –

- (a) To respond to the submissions; and
- (b) If necessary, to revise the budget and table amendments for consideration by the council".

The City of Tshwane Council was dissolved in terms of Section 139(1) (c) of the Constitution and an Administration Team was appointed by the Provincial Executive Committee during March 2020.

The Administrator approved the Draft reviewed IDP and Budget on 14 May 2020 to be published for public comments. The commenting period started on 19 May 2020 and ended on 19 June 2020.

Owing to the national lockdown, no contact meetings were held with communities, however the City utilized media platforms to communicate the Draft Budget and Tariffs.

In terms of Section 24 of the MFMA;

"(1) The municipal council must at least 30 days before the start of the budget year consider approval of the annual budget.

As per the attached Annexure N, an approval was granted by the MEC for Gauteng Provincial Treasury for extension of time to approve the budget by 30 June 2020

- (2) An annual budget -
 - (a) must be approved before the start of the budget year;
 - (b) is approved by the adoption by the council of a resolution referred to in section 17(3)(a)(i); and
 - (c) must be approved together with the adoption of resolutions as may be necessary
 - (i) imposing any municipal tax for the budget year;
 - (ii) setting any municipal tariffs for the budget year;
 - (iii) approving measurable performance objectives for revenue from each source and for each vote in the budget;
 - (iv) approving any changes to the municipality's integrated development plan; and
 - (v) approving any changes to the municipality's budget-related policies.
- (3) The accounting officer of a municipality must submit the approved annual budget to the National Treasury and the relevant provincial treasury."

4. COMMUNITY CONSULTATION PROCESS ON THE 2020/21 MTREF AND TSHWANE INTEGRATED DEVELOPMENT PLAN

In line with the lockdown Regulations, municipalities were directed to develop electronic and alternative methods of consultation. The Draft Budget and IDP were placed on the municipal website and the City used various media platforms such as Radio, Social media and local newspapers to solicit inputs from the community.

A number of written submissions to the tabled 2020/21 MTREF and the proposed amendments to the approved Property Rates Policy and By-Law were received and summarised below.

Submissions on service delivery issues and capital projects are addressed in the IDP report.

4.1 Submission:

A submission was received from Afriforum. The part on the IDP will be addressed in a separate report.

Afriforum raised the following:

Owing to the uncertainty created by two court judgements and two appeals it is unlikely that the budget will be approved by 30 June 2020 as the Administrator does not have the powers to do so.

Response:

The matter of the City being under administration is still sub judice. The Administrator legally assumes the Constitutional mandate of Council and is within his powers to do what the Council was competent to do which includes the approval of the annual budget.

Afriforum also raised that there is no indication as to what type of exemptions, reductions and rebates are applicable in the case of owners temporarily without income.

Response:

Owners, temporarily without income, are catered for in Section C 12.1 of the property rates policy. They can apply for temporal indigent status and enjoy the benefits and incentives for such period.

4.2 Submission:

Various submissions were received on the increase in property values and the consequent increase in property rates payable.

Response:

The General Valuation (GV) is done every three years, culminating in higher property values on average. The increase in the total values of property categories includes a three year value increase. The values will differ from one property to another. However the tariff is fixed within a category of properties and may not vary between those valued higher and those valued lower on a new GV. Some property owners will enjoy the effect of a lower value and a lower tariff and others will pay more. For this reason, tariffs for all categories of properties are proposed to decrease from July 2020.

4.3 Submission:

Several submissions were received on the increase in all tariffs, stating that no tariff increases should be implemented this year, owing to the economic slowdown because of the national lockdown.

Response:

It is important to note that the determination of tariffs takes into account the increased costs for the municipality towards water and electricity purchases and all other cost of rendering services. However the City understands the impact of the national lockdown to all its resident and business and has therefore approved a COVID-19 Customer Relief and Rewards Programme which is aimed at providing some relief to customers. This includes suspension on interest and various discount options.

4.4 Submission:

Several submissions were received upon the salary increases of municipal workers, stating that no increases should be approved owing to the national lockdown, making this unaffordable.

Response:

The salary increases of municipal workers for the 2020/21 financial year were determined by a three year bargaining agreement between the South African Local Government Association and the applicable local government unions and will require negotiations at this level.

4.5 Submission:

A suggestion was received that the payment of incentive scheme should be included in the property rates policy, as it pertains to reductions in property rates payable.

Response:

The incentive scheme is not a reduction in property rates tariffs, nor an individual based reduction in property rates charges. It is a settlement discount towards upfront payments and doesn't affect the policy.

4.6 Submission:

A substantial submission was received from Rates Watch on the Draft Property Rates Policy and By-law.

Response:

Rates Watch submitted that non-profit organizations should be granted a substantial rebate or be exempted from payment of rates. These property categories are already accommodated in the Public Benefit Organization category. All non-profit organizations must, in terms of the Income Tax legislation, register with SARS (Exemption Unit), in order to be granted a 75% property rates rebate by the City.

Other submissions indicate that some of the property categories, are in the valuation roll and the Tariff Policy, but not in the Property Rates Policy. The property categories in the valuation roll and the Tariff Policy will be aligned to those in Property Rates Policy.

The recommended changes by Rates Watch are cosmetic in nature and do not change the policy definitions materially. The Property Rates Policy has therefore not be amended.

4.7 Submission:

Questions were asked on the declining instead of increasing of the equitable share of the City and that "The City be ready to deal with a possible increase in debt impairment given the prevailing situation caused by Covid-19 pandemic".

Response:

The city budgets for all grants including the equitable share, in line with gazetted allocations, as per Division of Revenue. The Covid-19 pandemic will indeed increase debt impairment. Residents are however encouraged to continue paying their municipal accounts to ensure sustainability of services.

4.8 Submission:

A few submissions were received with regard to the proposed new set of tariffs including a request for reducing the tariffs for bulk contributions to roads and storm water.

Response:

The rates published in respect of Roads and Storm water are in accordance with the methodology contained in TMH15: South African Engineering Service Contribution Manual for Municipal Road Infrastructure and TMH17, South African Trip Data Manual that had been approved by the Committee of Transport Officials of South Africa.

The TMH15 methodology has been adopted by many municipalities and has proven to be an effective method for the collection of developer charges / engineering service contributions. On the other hand, the amounts of engineering service contributions that were previously collected by the City of Tshwane have proven to be insufficient to keep up with the traffic demand on the metropolitan road network, resulting in an increase in the backlog in the expansion of the road network and increased congestion. Historic tariffs therefore resulted in an under-recovery of the engineering service contribution for roads.

The principles, methodology and criteria for the calculation of engineering service contribution for municipal road infrastructure are documented in TMH15 and TMH17. It is acknowledged that the sharp increase in the tariffs for roads and storm-water drainage may have an impact on land development cost and competitiveness in the market. A phased approach will be implemented and the City has amended the tariffs.

4.9 Submission:

A submission was received from Link Africa, Ellipsis Consulting and Adriaan Venter Attorneys with regard to the proposed tariffs for Way leave fees for work done on public roads.

Response:

Given the new normal that COVID-19 introduced to the country, the CoT considered the objections towards the Wayleave tariffs and decided in line with National ICT Policy to put the relationship with holders of electronic communications network service (ECNS) licenses and the residents of the CoT first. This can however not be done at the cost of the City's road reserve and infrastructure. The team interrogated the costs in order to reduce it to the absolute minimum and trust this will benefit all stakeholders in the value chain. The City reserves the right to revisit these tariffs once the economy post COVID-19 shows recovery.

4.10 Submission:

Objections were received with regard to the proposed new water and sanitation structure.

Response:

To enable a sustainable service, not only the costs for purification of water need to be taken into account, but also the water network installation and maintenance costs that delivers the water to the customer. The cost of this does not change if a customer uses less water, but rather increases per ke water delivered. Therefore the implementation of a fixed network change allows for this cost to be fairly recovered from all households, ensuring a more equitable water charge to all consumers. Consumption above 9ke will be charged at a rising block tariff.

The 9k& is a sustainable amount of water to be used for the average households within the city, with full water borne sewer systems. To ensure that all can afford the costs, registered indigent and households on properties valued less than R150 000, will be exempted from paying the network availability charge for both water and sanitation.

5. National Treasury Benchmark Engagement

The 2020/21 Budget and IDP Benchmark engagement with National Treasury, was held on 17 June 2020. The purpose of the engagement amongst other was to assess the alignment between planning, budgeting and reporting, to evaluate how municipalities are using the budget as an enabler for improved service delivery and and to determine if the City is financially sustainable.

Credibility

- The budget assumptions are credible
- The Capital and Operating budgets are multi-year.
- Budget is funded as per Section 18 of the MFMA

Relevance

- The budget and SDBIP are aligned to the IDP.
- The budget is aligned to the NDP, provincial and the city's objectives.
- Evidence is provided of alignment to the operational and capital budget.
- The Capital budget is declining owing to limited funds.

Sustainability

- The Cash coverage ratio is less than a month (Norm 1 3 months)
- The Current ratio is 1.0 (norm 1.5 2.1)
- Operating surpluses exists.
- A collection rate of 90% is assumed.

The budget is therefore funded, credible and sustainable over the MTREF.

National Treasury recommendations:

- Collaborate with other sector departments and SOE's to ensure proper alignment and development to the priority spatially targeted areas (Integration Zones, Economic nodes, Marginalised Residential Areas).
- The work on climate and resilience must be institutionalise in infrastructure projects standardise in procurement/tender documents.
- Ensure compliance with mSCOA
- Relook at provision for debt impairment on the statement of financial performance.
- Further engagement with National Treasury Team regarding provision of water tankers in the informal settlement.

6. BUDGET GUIDELINES AND PRINCIPLES

The 2020/21 MTREF is prepared amidst the Covid-19 pandemic and the impact of lockdown on the economy with some business shutting down and increase in unemployment. This in return has had an impact on the ability of businesses and residents to pay their municipal accounts.

The City had to adjust its spending levels downwards taking into account the projected decline in revenue collections.

Some of the guiding principles for the budget are as follows;

- Projects and programmes must be within affordability limits.
- Ensuring that current projects are completed before starting with new projects.
- The operating expenditure baseline was reduced and the focus must be on efficiency gains and the principle of value for money (doing more with less, while prioritising service delivery).
- Some programmes will be deferred to the outer years in order to ensure that the City approves a funded budget.

The following cost containment measures were implemented during the finalisation of the budget and will be strictly enforced:

- Employee related cost
 - No filling of vacancies, except for compliance.

- No overtime will be processed unless for essential services.
- No encashment of leave will be permitted.
- Bulk purchases for water and electricity
 - Measures will be put in place to manage the cost of bulk purchases downwards.
- Review of contracts
 - Departments are required to review all contracts for value for money.
 - All leases and rental of buildings must be renegotiated.
 - Fleet contracts must be reviewed for better rates and value for money.
- Procurement of Goods
 - Market analysis should be conducted before a tender is issued or a quote is requested.
- Other expenditure items
 - No catering will be provided in meetings.
 - Reduce printing across the city including printing of pay slips.
 - No travelling and attending of conferences and workshops will be allowed.
 - No consultant appointments, unless for revenue enhancement initiatives, will be allowed.
 - Review of the service delivery model / structure.

7. DISCUSSION OF THE 2020/21 MTREF

Section 17(1) of the MFMA requires that the annual budget of the municipality must be in the prescribed format as follows:

- Setting out realistically anticipated revenue for the budget year from each revenue source.
- Appropriating expenditure for the budget year under the different votes of the municipality.
- Setting out indicative revenue per revenue source and projected expenditure by vote for the two financial years following the budget year.
- Setting out the estimated revenue and expenditure by vote for the current year and actual revenue and expenditure by vote for the financial year.

7.1 OPERATING BUDGET

The City is tabling an operating revenue (excluding capital grants and contributions) of R37 billion and escalates to R41 billion in 2022/23. The revenue represents an increase of 3,7% against the 2019/20 special adjustment Budget.

The operating expenditure amounts to R37 billion, an increase of 3,7% against the 2019/20 special adjustment Budget, resulting in a surplus of R7,8 million for the 2020/20 financial year.

The table below indicates the high-level consolidated 2020/21 Medium-term Revenue and Expenditure Framework.

Property rates

A new General Valuation (GV) will be implemented on 1 July 2020 and a new tariff structure will apply for the 2020/21 financial year. The new GV increased, on rateable properties, with 37,5%, compared to the previous GV, implemented on 1 July 2017.

Owing to a significant change in the ratio of values between different categories of properties, the property rates tariffs decreased with different percentages to those for the 2019/20 financial year. This means that not all current rate ratios apply going forward. The ratio for Residential Properties to State Owned, Business & Commercial, Industrial and Mining categories, changed from 1:3 to 1:2,5.

The first R15 000 value of all Residential properties, is legislatively impermissible for the charging of property rates, and a further valuation reduction of R135 000 is granted by Council for charging of property rates. All residential properties are thus not charged any property rates on the first R150 000 of the value and registered indigents pay no property rates. Furthermore, the social package will be extended to all properties valued at R150 000 and below.

Rebates to pensioners and the disabled remain unchanged.

Electricity Services

The City has applied a tariff increase of 6,23% based on the municipal tariff guideline increase and benchmarks consultation paper published on 20 March 2020.

Registered indigents are granted 100 kWh free of charge. However all properties below threshold will automatically qualify for free basic services.

Water Services

The budgeted revenue for water services increased by 9% and the bulk purchases for water increased by 6,6% in line with the Rand Water tariff increment.

Registered indigents are granted 12 kl water free of charge.

Sanitation revenue

Sanitation charges are calculated according to the percentage water discharged and 7,6% revenue increase has been applied.

Refuse removal revenue

A tariff increase of 6% is proposed.

Details of the proposed tariff schedules are set out in Annexures C to G

GRANT FUNDING

The total grants allocated for the 2020/21 financial year, amounts to R7 billion.

OPERATING GRANTS

The total allocated for the 2020/21 financial year on the operating grants amounts to R4,9 billion. The City share of the general fuel levy amounts to R1,5 billion, and the equitable share allocation is R2,9 billion. The Public Transport Network Grant operating budget is R297 million.

INFRASTRUCTURE GRANTS

The total allocated for the 2020/21 financial year on the capital grants amounts to R2,1 billion. The USDG funding amounts to R1,6 billion, and 3% is allocated for capacity building and R320 million for the upgrading of informal settlement. The capital allocation on the Public Transport Network Grant amounts to R475 million.

OTHER GRANTS

Other grants to be received are from the Development Bank of Southern Africa (DBSA) for feasibility study amounting to R10 million for the reduction of water losses. The budget includes an allocation of the discretionary grant on training from the LG SETA amounting to R16 million.

Detail Grant Allocations

The National and Provincial allocations in terms of the Division of Revenue Bill no. 3 of 2020 and the Provincial Gazette no. 78 of 2020, have been factored into the 2020/21 MTREF as follows:

Table 4: Operating Expenditure by Category

The operating expenditure equates to R37 billion in the 2020/21 financial year and escalates to R40,9 billion in the 2022/23 financial year. Total operating expenditure increased by 3,7% against the 2019/20 special adjustments budget.

The following graph illustrates the percentage each expenditure group constitutes to the total expenditure for the 2020/21 financial year:

Figure 2: Operating Expenditure by Category

The expenditure categories are discussed as follows:

Employee Related Costs

A provision of 6% for salary increases was made in line with the Salary and Wage Collective Agreement of CPI + 1,25%. The 9% increase includes partial allocations for the establishment of the asset protection unit and the new Task scales

Remuneration of Councillors

The cost associated with the remuneration of councillors is determined and informed directly by the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The determined upper limits of salaries, allowances and benefits of members of Council are gazetted annually in December/January.

Debt Impairment

A provision of R2,1 billion was made for Debt Impairment and based on an anticipated annual collection rate of 90% including arrears accounts.

Depreciation and Asset Impairment

Depreciation and asset impairment amounts to R2,4 billion for the 2020/21 financial year which equates to an increase of 11,21% when compared to the 2019/20 special adjustments budget.

Finance charges

Finance charges amount to R1,4 billion in the 2020/21 financial year, R1,5 billion and R1,6 billion respectively for the outer years and are based on the loans schedule.

Bulk Purchases

Compared to the 2019/20 adjusted budget, the bulk purchases group of expenditure has increased by 4,27% to R12,6 billion and aligned to the electricity and water bulk purchases tariff increases. It is important that distribution losses are managed down to reduce the cost of bulk purchases

Other Materials

Other materials were adjusted downwards by 15,24% in line with realistic anticipated revenue.

Contracted Services

Contracted services decreased by 10% when compared to the 2019/20 adjusted Budget in line with realistic anticipated revenue.

Other Expenditure

This group of expenditure comprises of general related expenditure and includes repairs and maintenance. When compared to the 2019/20 adjusted budget this group has been decreased by 15,47% in line with realistic anticipated revenue.

Repairs and Maintenance

An amount of R1,5 billion has been provided for repairs and maintenance in the 2020/21 MTREF.

The table below represents the repairs and maintenance by asset class:

9. COMMENTS OF THE STAKEHOLDER DEPARTMENTS

9.1 COMMENTS OF THE GROUP LEGAL COUNSEL

The aim of the report is to solicit approval for the 2020/21 Medium-Term Revenue and Expenditure Framework (MTREF) before Council in terms of section 24 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003).

The report aims to make recommendations to "*Council*." We should mention that the Council is currently dissolved in terms of section 139(1)(c) of the *Constitution of the Republic of South Africa, 1996* and the *Municipality* was placed under administration in terms of the said section. Certain litigation is currently pending before Court but the final outcome is yet to be determined. There currently exist **no** *Council* to report to. The appointment of the *Administrator*, i.e. *Mr. Mpho Kebitsamang Nawa* in terms of section 139(1)(c) of the Constitution of the Republic of South Africa, 1996 was published in the *Gauteng Provincial Gazette Extraordinary No* 88, Vol. 26 under *Provincial Government Notice No.* 424 dated 21 May 2020, which appointment was set to be retrospectively effective as from **23 March 2020**.

A debate has recently come to the fore as to what the powers of the Administrator is to approve of the budget. In this regard it should be mentioned that there are some role players who dispute the Administrators' competence in this respect.

This *Group Legal Services and Secretariat Department* investigated the alleged claims raised and came to the conclusion that indeed the *Administrator* by virtue of his current appointment is within his powers to consider and approve the same. Moreover, since him, together the important Departmental Heads and eight supporting Administrators have crafted a detailed administrative process for proper report flow. We do not deem it necessary to repeat the whole of our argument herein but would like to mention that the same is readily available.

We would like to emphasise though that the matter to be considered relates to the **annual budget** as opposed to a **temporary budget**. We humbly submit that the aspect of a *temporary budget* becomes material only once the Municipality has missed the date for approval, i.e. only after 1 July 2020. We are currently dealing with the *MTREF* for purpose of the *annual budget* which has undergone its' normal course and legal process.

The purpose of the report is to obtain approval for the **2020/21 Medium-term Revenue and Expenditure Framework (MTREF)** before Council in terms of Section 24 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003). The ultimate aim is to ensure good corporate governance and financial sustainability.

The report is aligned with the said **Five (5) Pillars** as strategic yardsticks to ensure financial sustainability.

It transpires from the report and the recommendations that the proposed tabling of the *MTREF* report before Council complies with the requirements of section 16(1) and 16(2) of the *Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003, hereinafter referred to as 'the MFMA, 2003').*

In accordance with section 22 of the MFMA, 2003, a municipality must immediately after an annual budget is tabled in a council make public the annual budget and the documents referred to in section 17(3) of the Act and invite the local community to submit representations in connection with the budget. Section 17 of the MFMA, 2003 provides also for the minimum contents of what a municipal budget should comprise of. The section stipulates the following as minimum requirements: -

17 <u>Contents of annual budgets and supporting documents</u>

- (1) An annual budget of a municipality must be a schedule in the prescribed format-
 - (a) Setting out realistically anticipated revenue for the budget year from each revenue source;
 - (b) Appropriating expenditure for the budget year under the different votes of the municipality;
 - (c) Setting out indicative revenue per revenue source and projected expenditure by vote for the two financial years following the budget year;
 - (d) Setting out-
 - (i) estimated revenue and expenditure by vote for the current year; and
 - (ii) actual revenue and expenditure by vote for the financial year preceding the current year; and
 - (e) A statement containing any other information required by section 215
 (3) of the Constitution or as may be prescribed.
- (2) An annual budget must generally be divided into a capital and an operating budget in accordance with international best practice, as may be prescribed.

- (3) When an annual budget is tabled in terms of section 16 (2), it must be accompanied by the following documents:
 - (a) Draft resolutions-
 - (i) approving the budget of the municipality;
 - (ii) imposing any municipal tax and setting any municipal tariffs as may be required for the budget year; and
 - (iii) approving any other matter that may be prescribed;
 - (b) measurable performance objectives for revenue from each source and for each vote in the budget, taking into account the municipality's integrated development plan;
 - (c) a projection of cash flow for the budget year by revenue source, broken down per month;
 - (d) any proposed amendments to the municipality's integrated development plan following the annual review of the integrated development plan in terms of section 34 of the Municipal Systems Act;
 - (e) any proposed amendments to the budget-related policies of the municipality;
 - (f) particulars of the municipality's investments;
 - (g) any prescribed budget information on municipal entities under the sole or shared control of the municipality;
 - (h) particulars of all proposed new municipal entities which the municipality intends to establish or in which the municipality intends to participate;
 - (i) particulars of any proposed service delivery agreements, including material amendments to existing service delivery agreements;
 - (j) particulars of any proposed allocations or grants by the municipality to-
 - (i) other municipalities;
 - (ii) any municipal entities and other external mechanisms assisting the municipality in the exercise of its functions or powers;
 - (iii) any other organs of state;
 - (iv) any organisations or bodies referred to in section 67 (1);
 - (k) the proposed cost to the municipality for the budget year of the salary, allowances and benefits of-
 - (i) each political office-bearer of the municipality;
 - (ii) councillors of the municipality; and
 - (iii) the municipal manager, the chief financial officer, each senior manager of the municipality and any other official of the municipality having a remuneration package greater than or equal to that of a senior manager;

- (I) the proposed cost for the budget year to a municipal entity under the sole or shared control of the municipality of the salary, allowances and benefits of:-
 - (i) each member of the entity's board of directors; and
 - (ii) the chief executive officer and each senior manager of the entity; and
- (m) any other supporting documentation as may be prescribed.

(Unaltered)

It must also submit the annual budget:

- a) in both printed and electronic formats to the National Treasury and the relevant provincial treasury and
- b) in either format to any prescribed national or provincial organs of state and to other municipalities affected by the budget.

The purpose of the report and the recommendations comply with the applicable provisions, National Treasury Guidelines, directives and Policies in terms of the MFMA, 2003, and are supported. These *inter alia* include the following guiding principles:-

- The budget must be based on realistic anticipated revenue.
- The levels of spending 2020/21 MTREF must be within the prescribed key financial measures / ratios as per MFMA Circular 71.
- The budget must be funded as per MFMA Circular 42.
- Projects and programmes must be within affordability limits.
- Ensuring that current projects are completed before starting with new projects.
- Ensure optimal use of resources. This means reviewing current activities for operational efficiency.
- Invest in repairs and maintenance and capital infrastructure.
- Tariffs must be affordable to poorer households and other customers while ensuring the financial sustainability of the municipality.

We submit that the report complies with the compelling legislative provisions required in terms of both the abovementioned *Municipal Finance Management Act, 2003 and the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000):*

The public participation process and the response on the various concerns raised during the process are captured in the report. We propose that the inputs submitted be *readily available* should any one or more *Councillors* need to peruse the same.

We consequently conclude that the report is legally in order.

9.2 COMMENTS OF THE CHIEF FINANCIAL OFFICER

Cognizance is taken of the contents of the report.

The purpose of the report is to obtain approval for the 2020/21 Medium-term Revenue and Expenditure Framework (MTREF) from Council in terms of Section 24 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003).

Note be taken that the 2020/21 MTREF has been compiled in line with the provision of the Municipal Finance Management Act, 2003 (Act 56 of 2003), and other legislative requirements.

Part 1 – Annual Budget

1.1 Mayor Report

The City is tabling a total budget of R41,1 billion consisting of the Operating budget of R37 billion and the Capital Infrastructure investment of R4,1 billion.

The 2020/21 MTREF is prepared amidst the Covid-19 pandemic and the impact of lockdown on the economy with some business shutting down and increase in unemployment. This in return has had an impact on the ability of businesses and residents to pay their municipal accounts. The City had to adjust its spending levels downwards taking into account the projected decline in revenue collections.

The 2020/21 Budget seeks to deliver services to the resident of Tshwane within the available resources.

The details of the activities and projects to be implemented are included in the Budget Document.

Resolutions

That it be recommended to the Administrator:

- 1. That in terms of section 24 of the Municipal Finance Management Act, 2003 (Act 56 of 2003), the annual budget of the municipality for the financial year 2020/21, and the multi-year and single-year capital appropriations are approved as set out in the following tables as contained in Annexure B be approved:
- 1.1 Budgeted Financial Performance (revenue and expenditure by standard classification).
- 1.2 Budgeted Financial Performance (revenue and expenditure by municipal vote).
- 1.3 Budgeted Financial Performance (revenue by source and expenditure by type).
- 1.4 Multi-year and single year capital appropriations by municipal vote, programme, standard classification and associated funding by source.
- 1.5 Budgeted financial position.
- 1.6 Budgeted cash flow budget.
- 1.7 Cash-backed reserve and accumulated surplus reconciliation.
- 2. That the consolidated budget that includes the parent and municipal entities as set out in Annexure B be approved.
- That in terms of section 75A of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), the tariffs for property rates, electricity PARTS I and II (Diverse fees), the supply of water, sanitation services as well as refuse removal services as set out in Annexures C, D, E, F and G respectively, be approved with effect from 1 July 2020.
- 4. That it be noted that the implementation of the proposed increase in electricity tariffs is subject to the approval of the National Electricity Regulator of South Africa (NERSA).
- 5. That in terms of section 75A of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), the tariffs for other services, as set out in Annexures H1 to H24 respectively, be approved with effect from 1 July 2020.
- 6. That approval be granted for the City of Tshwane to enter the capital market for the funding of the capital programme for 2020/21 financial year limited to an amount not exceeding R1,5 billion (Long Term debt for the 2020/21 financial year) in terms Section 46 of the MFMA.
- 7. That approval be granted to the Group Chief Financial Officer to incur short term debt as and when required according to the cash flow position of the City of Tshwane for the total amount not exceeding R1,5 billion at any time.
- 8. That the City Manager be authorized to sign all necessary agreements or documents to give effect to the decision as in recommendations no 6 and 7 above.
- 9. That the Tariff Policy, attached as Annexure I be approved.
- 10. That the Budget Policy, attached as Annexure J be approved.
- 11. That the Property Rates Policy and By-laws, attached as Annexure K be approved.
- 12. That the Cost Containment Policy, attached as Annexure L be approved.
- 13. That the operating subsidies granted to the respective entities be approved.

1.3 <u>Executive Summary</u>

Section 16(1) of the Municipal Finance Management Act (MFMA) stipulates that the council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year.

The City of Tshwane Council is currently dissolved in terms of section 139(1)(c) of the Constitution of the Republic of South Africa, 1996 and the Municipality was placed under administration in terms of the said section. The Administrator was appointed and it is within his powers to consider and approve the 2020/21 Medium-term Revenue and Expenditure Framework (MTREF).

National Treasury issued MFMA Circular No 98 on 6 December 2019 and No 99 on 9 March 2020, to guide the compilation of the 2020/21 MTREF. The global growth forecast for 2019 is the lowest since the 2008 financial crisis.

Stabilizing the City's finances remains a focus for the 2020/21 MTREF. The 2020/21 Draft Budget ensures that the City is financially sustainable and is able to render services in a sustainable manner.

Some of the guiding principles for the budget are as follows;

- Projects and programmes must be within affordability limits.
- Ensuring that current projects are completed before starting with new projects.
- The operating expenditure baseline was reduced and the focus must be on efficiency gains and the principle of value for money (doing more with less, while prioritising service delivery).
- Some programmes will be deferred to the outer years in order to ensure that the City approves a funded budget.

The following cost containment measures were implemented during the finalisation of the budget and will be strictly enforced:

- Employee related cost
 - No filling of vacancies, except for compliance.
 - No overtime will be processed unless for essential services.
 - No encashment of leave will be permitted.
- Bulk purchases for water and electricity
 - Measures will be put in place to manage the cost of bulk purchases downwards.
- Review of contracts
 - Departments are required to review all contracts for value for money.
 - All leases and rental of buildings must be renegotiated.
 - Fleet contracts must be reviewed for better rates and value for money.
- Procurement of Goods
 - Market analysis should be conducted before a tender is issued or a quote is requested to ensure value for money.
- Other expenditure items
 - No catering will be provided in meetings.
 - Reduce printing across the city including printing of pay slips.
 - No travelling and attending of conferences and workshops will be allowed.

- No consultant appointments, unless for revenue enhancement initiatives, will be allowed.
- Review of the service delivery model / structure.

Overview of the 2020/21 Draft Medium Term Revenue and Expenditure Framework

Section 17(1) of the MFMA requires that the annual budget of the municipality must be in the prescribed format as follows:

- Setting out realistically anticipated revenue for the budget year from each revenue source.
- Appropriating expenditure for the budget year under the different votes of the municipality.
- Setting out indicative revenue per revenue source and projected expenditure by vote for the two financial years following the budget year.
- Setting out the estimated revenue and expenditure by vote for the current year and actual revenue and expenditure by vote for the financial year.

| Description | Adjusted Budget 2019/20 | Budget 2020/21 | % | Estimate 2021/22 | Estimate 2022/23 |

Table 1: Consolidated overview of the 2020/21 MTREF

The total operating revenue increased by 3,7% for the 2020/21 financial year when compared to the 2019/20 Adjusted Budget. Total operating expenditure for the 2020/21 financial year amounts to R37, billion, which is an increase of 3,8% from the 2019/20 Adjusted Budget, resulting in a budgeted surplus of R7,8 million.

The operating surplus over the MTREF will ensure that the City build cash reserves to increase the capital expenditure and reduce reliance on grant funding and loans.

1.4 **Operating Revenue Framework**

Maintaining financial viability of the City of Tshwane is critical to the achievement of service delivery and economic objectives. Revenue generation is fundamental in strengthening the institutional environment for the delivery of municipal basic services and infrastructure. The capacity of generating revenue is challenged by the levels of unemployment thereby impacting on the ability of the household to pay their accounts.

In terms of the MFMA, a credible and funded budget must be tabled based on realistic estimates of revenue that are consistent with budgetary resources and collection history.

The following table is a summary of the 2020/21 MTREF (classified by main revenue source):

 Table 2: Summary of revenue classified by main revenue source

In line with the formats prescribed by the Municipal Budget and Reporting Regulations, capital transfers and contributions are excluded from the operating statement. Including these revenue sources would distort the actual operating surplus or deficit.

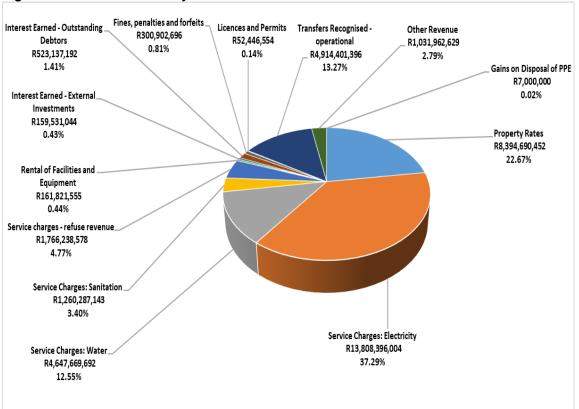

Figure 1: 2020/21 Revenue by Source

Revenue generated from rates and service charges contributes 80,7% of the revenue basket of the City of Tshwane.

Electricity is the main revenue source, contributing R14 billion or 37,3% of the total revenue, and escalates to R15,3 billion in 2022/23.

Property rates contributes the second largest revenue source, totalling 22,7% of the total and will increase to R9,3 billion by 2022/23.

Water services contributes 12,6% to the total revenue. Bulk purchases for water increased by 6,6% in line with the Rand Water tariff increment.

Sanitation charges are calculated according to the percentage water discharged and an 6,6% tariff increase is proposed.

A 6% tariff increase has been applied for refuse removal.

The National allocations in terms of the Division of Revenue Bill for 2020 are set out as follows:

The following table provides a breakdown of the operating grants and subsidies allocated to the Municipality over the medium term.

Tariff-setting

In terms of S74 (2) of the Municipal Systems Act the following principles should at least be taken into account when formulating a Tariff Policy,

- The users of municipal services should be treated equitably in the application of tariffs.
- As far as practically possible, consumers should pay in proportion to the amount of services consumed.
- All households, with the exception of the poor (indigent), should pay the full costs of services consumed.
- Poor households must have access to at least a minimum level of basic services through:
 - Tariffs that cover the operating and maintenance costs,
 - Special lifeline tariffs for low levels of use or consumption of services or for basis levels of service, or
 - Any other direct or indirect method of subsidization of tariff for poor households.
- Tariffs must include the cost reasonably associated with rendering the service, including capital, operating, maintenance, administration, replacement and interest charges.
- Tariffs must be set at a level to facilitate financial sustainability of the service, taking into account subsidisation from sources other than the service concerned.
- Provision may be made for the promotion of local economic development through a tariff for categories of the commercial and industrial users.
- The economical, efficient and effective use of resources, the recycling of wastes and other appropriate environmental objectives must be encouraged.
- The extent of subsidisation of the poor households and other categories of users should be fully disclosed.
- In terms of S74 (3) of the MSA a tariff policy may differentiate between different categories of users, debtors, service providers, services and geographical areas as long as the differentiation does not amount to unfair discrimination. In order to give full effect to this section, Section 75 (1) of the MSA provides for the municipal council to adopt by-laws.

Revenue generation is fundamental to the financial sustainability of every municipality. Tariffsetting process plays a major role in ensuring desired levels of revenue. When rates, tariffs and other charges are revised, local economic conditions, input costs and the affordability of services are taken into account to ensure continuous service delivery.

The table below highlights the proposed percentage increase in tariffs per main service category.

| Revenue category | 2020/21 proposed | |
|------------------|--------------------|--|
| | tariff increase | |
| | (%) | |
| Sanitation | 6,6 | |
| Refuse removal | 6 | |
| Water | 6,6 | |
| Electricity | 6,22 | |
| Property Rates | New valuation roll | |

Table 4: Proposed tariff increases for 2020/21 financial year

The various tariff proposals are discussed per revenue stream below.

1.3.1 Property rates

A municipality levies rates on all rateable property in its area to fund the non-revenue generating services. The determination of tariffs takes into account the affordability as well as fairness the rate ratios between categories of properties.

A new General Valuation (GV) will be implemented on 1 July 2020 and a new tariff structure will apply for the 2020/21 financial year. The new GV increased, on rate-able properties, with 37,5%, compared to the previous GV, implemented on 1 July 2017. Property Rates tariffs are therefore amended downwards.

Owing to a significant change in the ratio of values between different categories of properties, the property rates tariffs decreased with different percentages to those for the 2019/20 financial year. This means that not all current rate ratios apply anymore. The approximate ratio for Residential Properties to State Owned, Business & Commercial, Industrial and Mining categories, changed from 1:3 to 1:2,5.

The first R15 000 value of all Residential properties, is legislatively impermissible for the charging of property rates, and a further valuation reduction of R135 000 is granted by Council for charging of property rates. All residential properties are thus not charged any property rates on the first R150 000 of the value and registered indigents pay no property rates. Furthermore, the social package will be extended to all properties valued at R150 000 and below.

Rebates to pensioners and the disabled remain unchanged.

The residential tariff is the baseline tariff, which determines the ratios towards some of the other tariffs. The rate ratio of residential to agricultural and public benefit organisations is legislatively determined to be 1:0,25.

The proposed tariffs from 1 July 2020 are:

| Table | 5: | Property | v rates | tariffs |
|-------|-----|----------|---------|---------|
| | ••• | | , | |

| Category | Rate c in R | Exemptions, Reductions & Rebates |
|--|--|---|
| Residential properties | 1,024 | A total rebate of R150 000 will be granted on the value of the property (R15 000 impermissible according to the Municipal Property Rates Act plus a further R135 000 according to the municipality's Property Rates Policy). |
| Business and commercial | 2,560 | |
| Industrial | 2,560 | |
| Municipal property | According to category of use | Exemptions, reductions and Rebates according to category of use. |
| State-owned property | 2,560 | |
| Agricultural | 0,256 | |
| Multiple use | Rate according to apportionment of category of use | Exemptions, reductions and Rebates according to apportionment of category of use. |
| Vacant land | 3,610 | |

| State Trust Land | - | |
| Townships | 2,560 | |

The first impermissible value of R15 000 plus the following R135 000 value on all residential properties granted by the City, are not taxable.

Pensioners may receive a rebate as determined by the Council, subject to the following conditions:

The applicant\s must be:

- (a) Be registered owners of the property;
- (b) Must be 60 years or more of age upon application;
- (c) The property concerned must consist of one dwelling and no part thereof is sub-let, be occupied only by the applicant and his/her spouse, if any, and dependants without income;
- (d) Must submit proof of his/her age and a valid identity document;
- (e) Must submit proof of monthly income from all sources (including the income of the spouse of the owner) and collectively should not exceed an amount of R12 500.00 as determined by Council (not exceeding R150 000.00 per annum);
- (f) The applicant's account must be paid in full, or if not, an arrangement to pay the debt should be in place; and
- (g) The property must be categorised as "residential".
- (h) Not be in receipt of an indigent assessment rate rebate;

Disability grantees and/or Medical boarded persons may receive a rebate as determined by the Council, subject to the following conditions:

- (a) Be registered owners of the property;
- (b) Provide medical proof of disability and/or certification by a medical Officer of Health;
- (c) The property concerned must consist of one dwelling and no part thereof is sub-let, be occupied only by the applicant and his/her spouse, if any, and dependants without income;
- (d) Must submit proof of his/her age and a valid identity document;
- (e) Must submit proof of monthly income from all sources (including the income of the spouse of the owner) and collectively should not exceed an amount of R12 500.00 as determined by Council (not exceeding R150 000.00 per annum);
- (f) The applicant's account must be paid in full, or if not, an arrangement to pay the debt should be in place; and
- (g) The property must be categorised as "residential".
- (h) Not be in receipt of an indigent assessment rate rebate;

These rebates will lapse:

- (i) On death of applicant;
- (ii) On alienation of the property;
- (iii) When applicant ceases to reside permanently on the property;
- (iv) On 30 June of each year;

The percentage rebates granted to different gross monthly household income levels will be determined according to the schedule below:

| Table 0. I ciccillage rebales grantee | A | |
|---------------------------------------|-----------------------|----------|
| Minimum Gross Monthly Household | Maximum Gross Monthly | % Rebate |

| 12,101.00 | 13,750.00 | 10 |

Table 6: Percentage rebates granted

Furthermore, registered indigents pay no property rates, irrespective of their property value.

The approved Property Rates Policy was amended.

1.3.2 Sale of water and impact of tariff increases

The proposed tariff restructuring will assist in ensuring that the City's revenue is secured by imposing a network availability charge for all properties irrespective of usage. The network availability charge is equal to the first 9 ke charge for residential properties, which will cover the bulk cost and part of the operating costs.

Registered indigents and residents with property value of R150 000 or less are exempted from the network availability charge.

Rand Water proposed a 6,6% increase for bulk water as from 1 July 2020. The consumptive charges will increase by 6,6% on average.

12 kl water per 30-day period will again be granted free of charge to registered indigent households. It should further be noted that free water is also supplied to informal areas by water tankers and standpipes.

The proposed tariff increases with effect from 1 July 2020 for residential and non-residential consumers for the 2020/21 financial year are summarised as follows:

| Category | Current tariffs 2019/20 | Proposed tariffs (6,6% increase) 2020/21 |
|--|-------------------------|--|
| | Per kℓ (R) | Per kℓ (R) |
| RESIDENTIAL | | |

| 25 to 30 kℓ per 30 days' period | 28,75 |
| 31 to 42 kℓ per 30 days' period | 31,08 |
| 43 to 72 kℓ per 30 days' period | 33,25 |
| More than 72 kł per 30 days' period | 35,61 |

1.3.3 Sanitation and impact of tariff increases

Sanitation charges are calculated according to the percentage water discharged as indicated in the table below:

| Category | | Proposed tariffs (6,6% increase) 2020/21 |
|-----------------------------------|--------------|---|
| | % Discharged | Per kℓ (R) |
| 0 – 9 kł per 30-day period | 98 | 0.00 |
| 10 – 12 kł per 30-day period | 90 | 15,21 |
| 13 – 18 kł per 30-day period | 75 | 15,21 |
| 19 – 24 kł per 30-day period | 60 | 15,21 |
| 25 – 30 kℓ per 30-day period | 52 | 15,21 |
| 31 – 42 kł per 30-day period | 10 | 15,21 |
| More than 42 kł per 30-day period | 1 | 15,21 |
| Network availability charge | | 70,00 |

 Table 8: Comparison between current sanitation charges and increases

| Category | | Current tariffs 2019/20 |
|-----------------------------------|--------------|-------------------------|
| | % Discharged | Per kℓ (R) |
| 0 – 6 kł per 30-day period | | |
| | 98 | 8,21 |
| 7 – 12 kℓ per 30-day period | 90 | 11,08 |
| 13 – 18 kℓ per 30-day period | 75 | 14,27 |
| 19 – 24 kł per 30-day period | 60 | 14,27 |
| 25 – 30 kl per 30-day period | 52 | 14,27 |
| 31 – 42 kℓ per 30-day period | 10 | 14,27 |
| More than 42 kl per 30-day period | 1 | 14,27 |

Registered indigents and residents with property value of R150 000 or less are exempted from the network availability charge.

1.3.4 Sale of electricity and impact of tariff increases

Electricity revenue increased by 2,7% compared to the 2019/20 Original Budget. The tariff increase for domestic, commercial and industrial customers is 6,23% in line with the National Energy Regulator of South Africa's guideline to municipalities.

The tariff structure with regard to households provides for inclining block tariffs. Registered indigents are granted 100 kWh free of charge.

The proposed sliding scale tariffs for the 2020/21 financial year that applies to households are as follows:

Table 9: Sliding scale tariffs

| | 2019/20 | 2020/21 |
|-------------------------|-------------------------|--------------------------|
| Tariff blocks | Current tariff c/kWh | Proposed tariff c/kWh |
| Block 1 (0 – 100 kWh) | 160,31 | 170,30 |
| Block 2 (101 – 400 kWh) | 187,61 | 199,30 |
| Block 3 (401 – 650 kWh) | 204,40 | 217,13 |
| Block 4 (> 650 kWh) | 220,35 | 234,08 |

1.3.5 Refuse removal and impact of tariff increases

A tariff increase of 6% for 2020/21 is proposed to render a stable refuse removal service to all areas.

Table 10: Refuse removal

| | Current tariffs 2019/20 Refuse removal | Proposed tariffs 2020/21 (6% increase) Refuse removal |
|------------------------------------|--|--|
| | R | R |
| 85 ℓ x 1 day per week (black bin) | 101,12 | 107,19 |
| 85 ℓ x 2 days per week (black bin) | 202,25 | 214,39 |
| 140 ℓ (2 bags) x 1 day per week | 166,50 | 176,50 |
| 240 ℓ x 1 day per week (black bin) | 285,48 | 302,61 |
| 1 100 ℓ x 1 day per week | 1 308,63 | 1387,15 |

Refuse removal charges are based on the volume of refuse removed (container size) per week.

The City of Tshwane reserves the right to determine the type of service, the minimum number of containers and the frequency of services per area.

1.3.6 Other tariffs

Factors such as inflation, economic variations and trends coupled with sustainability usually affect other tariffs (such as bus services, rental of community and cultural facilities, building plans, cemeteries, etc.). Tariff increases are inflation related, approximately in the order of 5,5% on average. Some of the charges are above inflation whereas the others remained the same.

1.3.7 Overall impact of tariff increases on households

The following table indicates the overall expected impact of the tariff increases on a large and small household, as well as on a registered indigent household receiving free basic services (no charges applicable):

 Table 12: Summary of operating expenditure by category

The operating expenditure equates to R37 billion in the 2020/21 financial year and escalates to R40,9 billion in the 2022/23 financial year. Total operating expenditure increased by 3,8% against the 2019/20 special adjustments budget.

The following graph illustrates the percentage each expenditure group constitutes of the total expenditure for the 2020/21 financial year:

The following graph illustrates the major expenditure items per type.

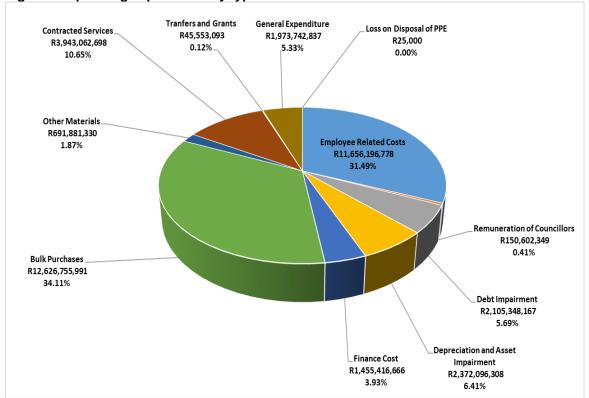

Figure 2: Operating expenditure by type

Employee Related Costs

A provision of 6% for salary increases was made in line with the Salary and Wage Collective Agreement of CPI + 1,25%. The 9% increase includes partial allocations for the establishment of the asset protection unit and the new Task scales

Remuneration of Councillors

The cost associated with the remuneration of councillors is determined and informed directly by the Remuneration of Public Office Bearers Act, 1998 (Act 20 of 1998). The determined upper limits of salaries, allowances and benefits of members of Council are gazetted annually in December/January.

Debt Impairment

A provision of R2,1 billion was made for Debt Impairment and based on an anticipated annual collection rate of 90% including arrears accounts.

Depreciation and Asset Impairment

Depreciation and asset impairment amounts to R2,4 billion for the 2020/21 financial year which equates to an increase of 11,21% when compared to the 2019/20 special adjustments budget.

Finance charges

Finance charges amount to R1,4 billion in the 2020/21 financial year, R1,5 billion and R1,6 billion respectively for the outer years and are based on the loans schedule.

Bulk Purchases

Compared to the 2019/20 adjusted budget, the bulk purchases group of expenditure has increased by 4,27% to R12,6 billion and aligned to the electricity and water bulk purchases tariff increases. It is important that distribution losses are managed down to reduce the cost of bulk purchases

Other Materials

Other materials were adjusted downwards by 15,24% in line with realistic anticipated revenue.

Contracted Services

Contracted services decreased by 10% when compared to the 2019/20 adjusted Budget in line with realistic anticipated revenue.

Other Expenditure

This group of expenditure comprises of general related expenditure and includes repairs and maintenance. When compared to the 2019/20 adjusted budget this group has been decreased by 15,47% in line with realistic anticipated revenue.

Repairs and Maintenance

An amount of R1,5 billion has been provided for repairs and maintenance in the 2020/21 MTREF.

The table below breaks down repairs and maintenance per asset class:

1.6 Capital expenditure

The level of capital spending is determined within prudential limits taking into account debt to revenue ratio, the capital cost to total expenditure and the ability of the City to meet its obligations. The total capital budget amounts to R4,1 billion for 2020/21, R3,5 billion for 2021/22 and R3,7 billion for 2020/23.

The Capital Budget is funded from the following sources:

- Internally generated revenue (including Public Contributions and Donations and Capital Replacement Reserve) R467,6 million.
- Borrowings R1,5 billion.
- Grant funding R2,1 billion.

Capital Budget per funding source

The following table indicates the 2020/21 Medium-term Capital Budget per funding source:

Table 16: MBRR A1 – Consolidated budget summary

Explanatory notes on MBRR A1 – Consolidated budget summary

- 1. MBRR A1 is a budget summary and provides a concise overview of the City's budget from all of the major financial perspectives (operating, capital expenditure, financial position, cash flow, and MFMA funding compliance).
- 2. The table provides an overview of the amounts for operating performance, resources deployed to capital expenditure, financial position, cash and funding compliance.
- 3. Financial management reforms emphasise the importance of the municipal budget being funded. This requires the simultaneous assessment of the financial performance, financial position and cash flow budgets, along with the capital budget. The budget summary provides key information in this regard.
- 4. The 2020/21 financial year indicates an operating surplus excluding capital transfers of R7,8 million, R89,4 million and R143,3 million for the outer years.
- 5. Capital expenditure is balanced by capital funding sources of which
 - transfers recognised are reflected on the statement of financial performance;
 - borrowing is incorporated in the net cash from financing on the cash flow statement; and
 - Internally-generated funds are financed from the accumulated surpluses. The amount is incorporated in the net cash from investing activities on the cash flow budget.

Table 17: MBRR A2 – Consolidated budgeted financial performance (revenue and expenditure by standard classification)

Explanatory notes on MBRR A2 – Consolidated budgeted financial performance (revenue and expenditure by standard classification)

- 1. MBRR A2 provides an overview of the budgeted financial performance in relation to revenue and expenditure per standard classification. The modified Government Financial Statistics standard classification divides municipal services into 15 functional areas. Municipal revenue, operating expenditure and capital expenditure are then classified in terms of each of these functional areas.
- 2. The total revenue in this table includes capital revenue (transfers recognised capital) and therefore does not balance with the operating revenue shown in Table 20: MBRR A4.
- 3. As a general principle, the revenues for the trading services should exceed their expenditures.
- 4. Other functions that show a deficit between revenue and expenditure are being financed from property rates revenue and other revenue sources.

Table 20: MBRR A5 – Consolidated budgeted capital expenditure by vote, standard classification and funding source

Explanatory notes on MBRR A5 – Consolidated budgeted capital expenditure by vote, standard classification and funding source

- 1. MBRR A5 is a breakdown of the capital programme in relation to capital expenditure by municipal vote (multi-year and single-year appropriations), capital expenditure by standard classification and the funding sources necessary to fund the capital budget, including information on capital transfers from national and provincial departments.
- 2. The MFMA states that a municipality may approve multi-year or single-year capital budget appropriations. In relation to multi-year appropriations, R3,9 billion has been allocated for the 2020/21 financial year.
- 3. Single-year capital expenditure has been appropriated at R197,9 million for the 2020/21 financial year and relates to expenditure that will be incurred during the specific budget year.
- 4. The capital programme is funded from national and provincial grants and transfers, public contributions and donations, borrowing and internally-generated funds. For 2020/21 financial year, capital transfers total R2,1 billion and decrease to R1,5 billion by 2021/22. Borrowing has been provided at R1,5 billion for the 2020/21 MTREF. Internally-generated funding amounts to R467,6 million, for the 2020/21 financial year (public contributions included).

Table 21: MBRR A6 – Consolidated budgeted financial position

Explanatory notes on MBRR A6 – Consolidated budgeted financial position

- 1. MBRR A6 is consistent with international standards of good financial management practice.
- 2. This format of presenting the statement of financial position is aligned to GRAP1, which is generally aligned to the international version which presents assets less liabilities as "accounting" community wealth. The order of items within each group illustrates items in order of liquidity, ie assets readily converted to cash or liabilities immediately required to be met from cash appear first.
- 3. This table is supported by an extensive table of notes (MBRR SA3) which provides a detailed analysis of the major components of a number of items, including
 - call investment deposits;
 - consumer debtors;
 - property, plant and equipment;
 - trade and other payables;
 - non-current provisions;
 - changes in net assets; and
 - reserves.
- 4. The municipal equivalent of equity is community wealth or equity. The justification is that ownership and the net assets of the Municipality belong to the community.
- 5. Any movement on the budgeted financial performance or the capital budget will inevitably impact on the budgeted financial position. As an example, the collection rate assumption will impact on the cash position of the Municipality and subsequently inform the level of cash and cash equivalents at year end. Similarly, the collection rate assumption (90%) should inform the budget appropriation for debt impairment which in turn would impact on the provision for bad debt. These budget and planning assumptions form a critical link in determining the applicability and relevance of the budget as well as the determination of ratios and financial indicators. In addition, the funding compliance assessment is informed directly by forecasting the statement of financial position.

Explanatory notes on MBRR A7 – Budgeted cash flow statement

- 1. The budgeted cash flow statement is the first measurement to determine if the budget is funded.
- 2. The cash flow statement shows the expected level of cash inflow versus cash outflow that is likely to result from the implementation of the budget.
- 3. The 2020/21 MTREF provides for a net increase in cash of R432 million, resulting in an overall projected positive cash position of R1,5 billion at year end.
- 4. Cash and cash equivalents (including investments > 90 days) total R1,5 billion at the end of the 2020/21 financial year and R2 billion by 2022/23.
- 5. Provision has been made for the repayment of borrowing to the amount of R836,2 million, for the 2020/21 financial year, based on the capital repayment in terms of the loan agreement.

Table 23: MBRR A8 – Consolidated cash-backed reserves or accumulated surplus reconciliation

Explanatory notes on MBRR A8 – Cash-backed reserves or accumulated surplus reconciliation

- 1. The cash-backed reserves or accumulated surplus reconciliation are aligned to the requirements of MFMA Circular 42 Funding a Municipal Budget.
- 2. In essence, the table evaluates the funding levels of the budget by firstly forecasting the cash and investments at year end and secondly reconciling the available funding to the liabilities or commitments that exist.
- 3. The funding compliance reflects a positive amount of R160,7 million for the 2020/21 financial year.

Table 25: MBRR A10 – Consolidated basic service delivery measurement

Explanatory notes on MBRR A10 – Basic service delivery measurement

- 1. MBRR A10 provides an overview of service delivery levels, including backlogs (below minimum service level), for each of the main services.
- 2. The budget provides for a total of 576 718 indigent households (formal and informal households) in 2020/21. Households with a property value of R150 000 or below will be automatically registered as indigents. The impact of the Covid-19 pandemic on the cost of Free Basic Services will be closely monitored due to the economic uncertainty over the medium-term.
- 3. It is anticipated that these free basic services will cost (revenue cost) the Municipality R4 billion in 2020/21, increasing to R4,7 billion by 2022/23. A large portion of this revenue loss should be covered by the Municipality's equitable share allocation from national government.
- 4. The number of households (formal and informal) in Tshwane increased from 911 536 (census 2011) to 1 136 877 (2016 General Household Survey). This indicates a household growth rate of 4,1% per annum. The total number of households is adjusted by 0,5% over the medium-term. The estimated number of households for the 2020/21 financial year is 1 148 274.

Part 2 – Supporting Documentation

2.1 <u>Overview of the annual budget process</u>

Section 16(1) of the Municipal Finance Management Act (MFMA) stipulates that the council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year. Section 16(2) stipulates that in order to comply with subsection (1), the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year.

The City of Tshwane Council is currently dissolved in terms of section 139(1)(c) of the Constitution of the Republic of South Africa, 1996 and the Municipality was placed under administration in terms of the said section.

The Administrator was appointed and it is within his powers to consider and approve the 2020/21 Medium-term Revenue and Expenditure Framework (MTREF).

The 2021 Draft MTREF was tabled to the Administrator on 14th May 2020 to allow public consultation process.

The Technical Budget Steering Committee (TBSC) sessions were held from 3 to 5 March 2020. The purpose of the TBSC amongst other was as follows:

- To ensure that the City's resource allocation respond to the City's priorities of the current Administration;
- To ensure that the operational budget respond to the critical operations and maintenance of basic infrastructure;
- To ensure that the proposed capital projects are feasible and ready for implementation; and
- To ensure that departmental business plans address the service delivery priorities.

A further sessions were held with the Administration team to access the budget taking into account the impact of Covid 19.

2.1.1 Budget process overview

In terms of section 21 of the MFMA, the Executive Mayor is required to table in Council, ten months before the start of the new financial year (August), a time schedule that sets out the process to revise the IDP and prepare the budget.

The Executive Mayor tabled the required IDP and budget time schedule in Council on 29 August 2019.

Key dates that apply to the planning and budgeting process are as follows:

| Action | Description | Timeframe 2020/21 | Actual Timeframe |
|--|---|----------------------|--|
| Tabling of the 2020/21 IDP and Budget Process Plan for approval | The IDP and Budget Process Plan which outlines the key deadlines for the review of the 2020/21 IDP and annual budget is tabled to council for approval at least 10 months before the start of the new financial year. | August 2019 | 29 August 2019 |

Table 26: Summary of budget time schedule

2.1.2 Community consultation

The tabling of the draft budget in Council was followed by the publication of the budget documentation and a consultative process was conducted through the media. Owing to the national lockdown, alternative communication methods were followed.

In order to ensure effective participation and consultation:

- The draft IDP and budget documents were placed on the council website for perusal and comments.
- The 2020/21 draft IDP and budget were published in local newspapers for consultation purposes.

All documents in electronic format were provided to the National Treasury and other national and provincial departments in accordance with the MFMA.

2.2 Overview of alignment of annual budget with IDP

In terms of the Municipal Systems Act (MSA) and Municipal Finance Management Act (MFMA), the City has in line with legislation developed a five year IDP. The IDP is supported by the Service Delivery Budget and Implementation Plan, the Medium Term Budget and Revenue Framework for the 2020/21 to 2022/23 financial years, as well as departmental business plans which captures the core operations for each department.

The 2020/21 MTREF is underpinned by the 5 strategic pillars and IDP priorities.

Strategic Pillar 1: A city that facilitates economic growth and job creation

The focus of this pillar is to create an environment which enables economic growth, creation of new employment opportunities, making it easier to do business within the city, supporting entrepreneurship, empowering individuals, and investing in infrastructure.

Strategic Pillar 2: A City that cares for residents and promotes inclusivity

The main focus for this pillar is upgrading of informal settlements, supporting vulnerable residents, building integrated communities, promoting safe, reliable and affordable public transportation and improving access to public health care services.

Strategic Pillar 3: A City that delivers excellent services and protects the environment

The City is working towards providing quality services to all residents, adopting innovative solutions to service delivery challenges and channelling resources to where they are needed the most. The provision of services also includes the delivery of housing opportunities. The focus for this pillar is delivering high quality services, safeguarding water and energy security and protection of natural environment, Agriculture and rural development

Strategic Pillar 4: A City that keeps residents safe

Ensuring the safety and well-being of residents is one of the key priorities of the City. The City will focus on utilising the metro police and law enforcement to increase visible policing in strategic areas, addressing the metro police's ability to respond to a variety of challenges, prioritising initiatives to deal with drug abuse and protecting residents effectively from disasters. The focus for this pillar is creating safe communities, addressing drug abuse and protecting communities from disaster.

Strategic Pillar 5: A City that is open, honest and responsive

The City is committed to transparent and accountable governance with zero tolerance for corruption. City processes and systems will be run in an open and effective way and only the best people will be retained and attracted to improve the City's performance. The focus for this pillar is building a capable city government, fighting corruption and communicating regularly and effectively with residents.

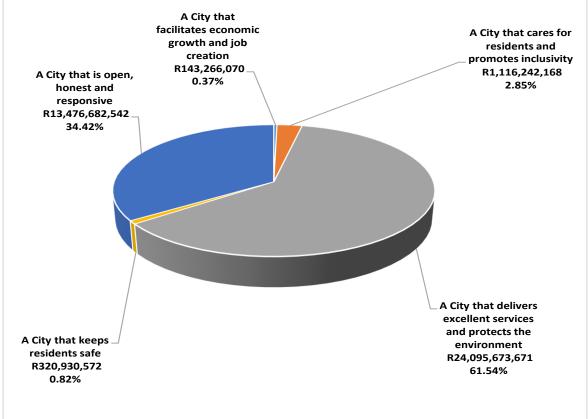

The draft 2020/21 MTREF is aligned to the IDP strategic pillars. The following tables provide a reconciliation of the IDP strategic pillars and budgeted revenue, operating expenditure and capital expenditure.

The draft 2020/21 MTREF is aligned to the IDP strategic pillars.

2.3 Measurable performance objectives and indicators

The Performance Management System is one of the mechanisms through which the City aims to improve organisational and individual performance to enhance service delivery.

The performance management system of the City is covered in detailed under chapter nine of the IDP.

The chapter addresses the following areas:

- Legislative environment governing performance management
- Principles for management of organisational performance and performance information
- Performance monitoring
- Performance reporting
- Roles and responsibilities in the organisational performance management process

The model of performance management

The Council-approved City of Tshwane Performance Management Framework (November 2014) focuses on the implementation of an outcomes-based approach to performance management in the City of Tshwane.

The 'Outcomes Performance Management System' as aligned with national governments approach to planning and performance management ensures that the City's plans are driven by strategic outcomes, and that resources will be allocated accordingly. In other words, the outcomes approach forces alignment between inputs, outputs, outcomes and impacts, and enables measurement of efficiency, effectiveness, economy and equity.

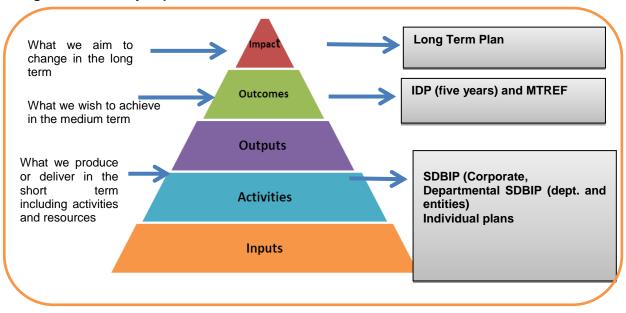

Plans and the alignment of targets and indicators

The key underlying principles of the approved Performance Management Framework include -

- linking strategy to operations;
- linking individual and organisational performance processes;
- linking and integrating risk management and audit with performance management processes;
- aligning levels of indicators and plans; and
- linking municipal entities to the performance management system of the City of Tshwane.

This requires that all levels of plans in the City be aligned. The diagram below illustrates the alignment between the key plans of the City in relation to outcomes performance management.

Figure 8: Hierarchy of plans

The planning aspect of performance management processes in the City is focused on ensuring alignment between the hierarchy of plans listed above, through the planned outcomes, outputs, targets and indicators, and ensuring that indicators are reliable, well-defined, verifiable, cost-effective, appropriate and relevant, and that targets are specific, measurable, achievable, relevant and time-bound.

Roles and responsibilities for performance management

The City of Tshwane has established the necessary structures to manage and operationalise performance management in line with legislative requirements and good practice. The roles and responsibilities of the different structures are defined as follows:

- Section 79 oversight committees
- Audit and performance committee
- Council and Section 79 Committees
- Group Audit, Risk and Compliance (internal audit)

2.3.1 **Performance indicators and benchmarks**

2.3.1.1 Borrowing management

The City of Tshwane's borrowing strategy is to have access to long term liquidity, to partially fund long term capital projects, at competitive pricing at the longest term available, to ensure that the liability taken up matches the useful lives of the assets financed through those liabilities.

The 2020/21 MTREF makes provision for a borrowing capacity of R1,5 billion over the 2020/21 MTREF.

Provision has been made in the MTREF for the sinking fund investment aimed at ensuring that the City is able to repay its long term investment (bonds) on their maturity.

2.3.1.2 Liquidity

Current ratio is a measure of current assets divided by current liabilities. The current ratio is expected to improve over the MTREF.

The 2020/21 MTREF provides for a net increase in cash of R432 million, resulting in an overall projected positive cash position of R1,4 billion at year end.

2.3.1.3 Creditors' management

The City has ensured that creditors with completed and approved documents are paid within the legislated 30 days of statement, while SMMEs are paid within 15 days. Although the liquidity ratio is of concern, the Municipality has ensured 100% compliance with this legislative obligation by applying daily cash flow management.

2.3.1.4 Other indicators

- Electricity distribution losses remain a challenge, although management has established various forums to address this. Initiatives to ensure that these losses are managed down include, among others, pre-paid metering, managing illegal connections and electricity theft.
- The City has embarked on a strategy to manage water distribution losses. This plan introduced monthly water loss meetings that deal with matters related to the rehabilitation of obsolete distribution networks, water leakage detection, and water pressure management. An amount of R49 million has been included in the 2020/21 financial year for the water losses pilot project.
- Employee costs as a percentage of total expenditure amounts to 31% in the 2020/21 financial year.
- Repairs and maintenance as a percentage of operating expenditure amounts to 4% in the 2020/21 financial year.

2.3.2 Free basic services: Basic social services package (applicable to registered indigent households)

The social package assists residents who have difficulty paying for services and are registered as indigent households in terms of the City's Indigent Policy.

The budget provides for a total of 110 000 indigent households (formal households) in 2020/21 MTREF for the greater Tshwane area. The basic social package available to registered indigent households, in terms of the Indigent Policy, includes a 100% rebate on property rates, 12 kl of water, 100 kWh of electricity, 6 kl of sanitation and 85 l of waste removed once a week.

The number of households (formal and informal) in Tshwane increased from 911 536 (census 2011) to 1 136 877 (2016 General Household Survey). This indicates a household growth rate of 4,1% per annum.

MBRR A10 (Basic Service Delivery Measurement) contains further detail related to the number of households receiving free basic services, the cost and highest level of these services, and the revenue cost associated with them.

2.4 Overview of budget-related-policies

The City's budgeting process is guided and governed by relevant legislation, frameworks, strategies and related policies.

2.4.1 Review of credit control and indigent-related procedures or policies

The Credit Control and Debt Collection Policy is reviewed annually.

The approved policy is in line with section 97(1) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) which requires that a credit control and debt collection policy must provide credit control procedures and instructions as well as debt control procedures and mechanisms. It must also make provision for indigent debt that is consistent with its rates and tariff policies and any national indigent policy.

2.4.2 Municipal Property Rates Policy

The property rates policy is reviewed annually during the tabling of the budget.

Amendments to the policy were effected on multiple use properties:

| Table 30: Amendments to the Mu | nicipal Property Rates Policy |

2.4.3 Asset Management, Infrastructure Investment and Funding Policy

Long-term financial planning recognises the effect of long-lived assets (through proper maintenance and timely replacement) on financial sustainability. Section 78(1) of the MFMA requires that the assets and liabilities of the municipality must be managed effectively and that assets must be safeguarded and maintained to the extent necessary. The National Treasury's MFMA Circular 58 of 14 December 2011 draws particular attention to underspending on repairs and maintenance, which can shorten the life of assets and increase long-term maintenance and refurbishment costs, resulting in the deterioration of service reliability. Provision for depreciation and asset impairment has been informed by the Municipality's Asset Management Strategy.

2.4.5 Supply Chain Management Policy

The Supply Chain Management Policy is reviewed annually.

2.4.6 Budget Policy

The Budget Policy, which includes the Fund Transfer Policy, aims to empower senior managers with an efficient financial and budgetary amendment and control system to ensure optimum service delivery within the legislative framework of the MFMA.

The Budget policy covers the following areas

- Legislative environment governing the budget process
- Overall objectives, principles and roles and responsibilities
- Steps in the budget process
- Operating budget compilation
- Capital budget compilation
- Budget monitoring
- Fund transfers on the operating budget and capital budget and
- Adjustments budget

The Budget Policy is reviewed on an annual basis and amendments will be considered by Council for approval in June 2020.

2.4.7 Cash Management and Investment Policy

The fundamental aim of the City's strategy of cash backing its capital liabilities is to ensure the City's financial sustainability over the medium to long term. The strategy is informed, amongst others, by the relevant GRAP accounting standards, sections 18 and 19 of the MFMA, and National Treasury Circular 48.

2.4.7.1 Cash back strategy

The following cash flow management processes and systems are in place:

- Monthly cash flow statements based on daily cash revenue and payments projections, as well as the actual cash revenue and payments on SAP system.
- Quarterly and annually projected cash flow statements.
- Monthly cash flow status of the City, including status on certain critical dates of the following calendar month.
- Corporate financial report that is submitted monthly to the Mayoral Committee and quarterly to Council.

2.4.8 Tariff policies

The Local Government: Municipal Systems Act, 2000 (Act 32 of 2000) requires municipalities to adopt and implement a tariff policy.

The City's tariff policies provide a broad framework within which the Council can determine fair, transparent and affordable charges that also promote sustainable service delivery, and it allows for cross-subsidisation between consumer categories.

2.4.9 Long-term Financial Model

The city has developed the Long-term Financial Model which will be used as a tool to inform the compilation of the budget with emphasis on affordability, forecasting and long-term financial sustainability.

2.4.10 Asset Management Policy

In order to comply with the Treasury Regulations on *municipal* Standard Charts of Accounts (*m*SCOA) and Generally Recognised Accounting Practice (GRAP) standards, the City of Tshwane appointed a service provider, amongst other tasks, to recompile the fixed asset registers, comprehensive municipal infrastructure plans and draft asset management plans over a 3 year period from 29 March 2018.

The progress to date includes achievement of the following key milestones; project inception, establishing project governance structures, data collection and cleansing, mobilisation of fieldwork and progress of verification across various infrastructure assets categories, significant progress on properties verifications and valuations, completion of verification and valuation of biological assets as far back as 30 June 2018 followed by the completion of verification and valuations of heritage assets. However, more work is still underway to ensure completeness of heritage assets.

The classification and capitalisation of AUC's across the various infrastructure assets categories is advanced. To ensure institutionalisation of asset management with the City of Tshwane, skills transfer becomes a critical component of this project. Training materials have been completed, submitted for review and the first training session for finance management officials took place with more sessions scheduled to take place in the various departments. At the end of the 3 year period, the City will have complete, accurate and GRAP complaint fixed asset registers that can be sustainably maintained utilising the skills acquired during the training sessions provided by the service provider.

2.4.11 The following budget-related policies are available on the City's website:

- Budget Policy
- Credit Control and Debt Collection Policy
- Indigent Policy
- Property Rates Policy
- Indigent Exit Programme
- Supply Chain Management Policy

2.5 <u>Overview of budget assumptions</u>

2.5.1 External factors

- As per MFMA Circular 99 the National State of Disaster and subsequent lockdown comes amidst already dire macro-economic conditions which have seen South Africa slump into a technical recessions and downgraded to sub-investment grade.
- The high unemployment and slow growth will continue to exert pressure on municipal revenue generation and collection levels hence a conservative approach is advised for municipal revenue projections. In this context, municipalities will have to improve their efforts to limit non-priority spending and implement stringent cost-containment measures.
- Local government faces tough fiscal choices; growth in transfers will slow while the cost of providing the services increases.
- Municipalities are therefore urged to improve own revenue collection, increase efficiency and obtain greater value for money.
- Nearly 50% of the population live below the minimum Poverty level. This places a burden on the social support that need to be provided to these families.

2.5.2 General inflation outlook and its impact on the municipal activities

• The Consumer price inflation, for the next three financial years, are estimated at 4,5% 4,6% & 4,6% respectively.

2.5.3 Credit rating

In November 2019, following an annual rating action by Moody's Investors Service, the City's longterm issuer credit rating (an independent evaluation of the City's credit risk) was affirmed at Aa2.za on the national scale rating for South Africa, with a stable outlook and at the same time, the shortterm issuer rating of P-1.za was also affirmed.

This stable rating outlook reflects our expectation that the City of Tshwane will be able to sustain its liquidity improvement and strong operating performance over the next three years. The City of Tshwane's rating could be upgraded if its liquidity improves further and its strong operating performance continues. However, given that Tshwane's rating was recently upgraded and has a stable outlook, a downgrade is currently unlikely. On the other hand, we would consider downgrading the rating if the recent improvement in its liquidity were to reverse and its debt were to unexpectedly increase. Tshwane's rating could also be downgraded in the event of a sovereign rating downgrade.

Detailed credit considerations

On 7 November 2019, the long-term global scale rating of Ba1 stable outlook for the City of Tshwane was affirmed. The affirmation of the City of Tshwane's Ba1-NP and short-term global scale ratings with a stable outlook reflects our view that the City will continue to record a further decline in debt levels, while maintaining a moderate operating performance over the next three years. We also affirmed its long-term and short-term national scale issuer ratings of Aa2.za/P-1.za.

The credit profile of the City of Tshwane, as expressed in the Ba1/Aa2.za ratings, combines (1) the City's Baseline Credit Assessment (BCA) of ba1, and (2) a moderate likelihood of extraordinary support from the national government in the event of acute liquidity stress.

Baseline Credit Assessment

Strong operating surpluses, supporting higher cash flow and liquidity:

According to the unaudited financial statements for the fiscal year ended 30 June 2019, the City of Tshwane's cash and cash equivalents further increased to ZAR4.8 billion from ZAR3.4 billion in fiscal 2018. As a result, the City's liquidity ratio rose to 1.1x in fiscal 2018 from 1.0x in the previous year. Tshwane's strategy of tightening credit control policies is also helping it meet its goal of improving cash flow. According to the City's fiscal 2020-22 Medium Term Revenue Expenditure Framework, it expects its liquidity ratio to remain range bound at 1.1x between fiscal 2020 and fiscal 2022.

In 2019, Tshwane contributed ZAR149 million to the sinking funds invested for the redemption of its bullet bonds totaling ZAR2.2 billion (as of 30 June 2019) that mature between 2023 and 2028. The improved liquidity enabled the city to establish a sinking fund portfolio with a fair value of ZAR581 million as of 30 June 2019. The sinking fund will help reduce the strain on cash flow by ensuring that the City has sufficient funds to repay its maturing debt. Tshwane plans to contribute ZAR140 million to the sinking funds annually, until the bullet bonds mature.

Based on its fiscal 2019 unaudited financial statements, the City generated total revenue of ZAR38.4 billion (\$2.7 billion) and 18% growth compared with 2018, making it the fourth-largest South African city that we rate. In fiscal 2019, the City generated 86% of its operating revenue from its own sources, such as property rates and service charges, indicating a strong revenue generating capacity, supported by a very large and diversified economic base. During the fiscal year, operating revenue grew by 8%, driven by growth in property rates (up 14%), service charges (5%) and operating transfers from the national government (11%).

Operating expenditure grew at a lower rate of 9% over the period, resulting in an operating surplus of 8% of operating revenue. This was Tshwane's third surplus in four years, indicating the improvement in its operations. The City expects the proposed cost-cutting measures to further reduce its general expenses and capital spending.

The credit rating opinions issued in November 2019 on a national scale rating for South Africa are therefore as follows:

Table 31: National Scale Ratings

| Rating | type | Long term | Short term | Category | Rating outlook | Rating action |
|--------|------|-----------|------------|------------------|----------------|---------------|
| Issu | er | Aa2.za | P-1.za | Investment grade | Stable | Affirmation |

A stable outlook indicates a low likelihood of a rating change in the medium term. A long-term rating of Aa2.za demonstrates a very strong creditworthiness relative to other domestic issuers of debt and on the other hand, a short-term rating of P-1.za signifies the strongest ability to repay short-term unsecured debt obligations relative to other domestic issuers.

The City raises both its short- and long-term borrowings in the domestic capital markets and therefore, the national scale ratings are more applicable for its uses, as opposed to the global scale ratings. The Aa2.za rating represents a strong long-term credit profile and, with the support of the most superior short-term credit profile, the City's ability to raise long- and short-term funding in the debt capital markets at the lowest of pricing, is significantly enhanced.

The City improved its long term credit rating in December 2018 following a rating assessment by Moody's, from the previous A1.za to the current Aa2.za, which remains affirmed at November 2019. The City has maintained its improved liquidity levels and shown vast improvement in its financial management. This rating affirmation by Moody's illustrates our commitment to a financially healthy City. A rating of this level also yields positive long-term results, as the City continues to attract more favourable capital borrowing terms from the capital markets.

The benefits of this position are that -

- 1. The City has access to a greater number of infrastructure funding sources and there is a greater ability to secure funding at the lowest available cost;
- 2. The City has the ability to roll out more infrastructure projects from savings realised in lowcost funding; and
- 3. The City has the ability to offer consumers affordable service tariffs through reduced funding costs.

2.5.4 Interest rates for borrowing and investment of funds

The City's borrowing strategy is to have access to long term liquidity, to partially fund long term capital projects, at competitive pricing at the longest term available, to ensure that the liability taken up matches the useful lives of the assets financed through those liabilities. After a professional advice and some researches undertaken by the City of Tshwane's Group Financial Services on the diversification of long term borrowings' vehicles, the City of Tshwane took a decision to return to the banking market to partly finance its capital programme. The City's investments are guided by its Investment Policy and the National Treasury's Investment Regulations.

2.5.5 Collection rate for revenue services

The rate of revenue collection is currently expressed as a percentage of annual billings. Cash flow is assumed to be 90% of billings, and arrear debt collected.

2.5.6 Growth or decline in the tax base of the Municipality

Debtors' revenue is assumed to increase at a rate that is influenced by the consumer debtors' collection rate, tariff or rate pricing, real growth rate of the City, household formation growth rate and the poor household change rate.

Household formation is the key factor in measuring municipal revenue and expenditure growth, as servicing "households" is a greater municipal service factor than servicing individuals. Household formation rates are assumed to convert to household dwellings. In addition, the change in the number of poor households influences the net revenue benefit derived from household formation growth.

2.5.7 Salary increases

The 2020/21 MTREF has made a provision of 6,25% for salary increase in line with the Salary and Wage Collective Agreement of CPI + 1,25%.

2.5.8 Impact of national, provincial and local policies

Integration of service delivery between national, provincial and local government is critical to ensure focused service delivery, therefore various measures have been implemented to align IDPs as well as provincial and national strategies around priority spatial interventions.

2.6 Overview of budget funding

2.6.1 Medium-term outlook: Operating revenue

Tariff setting plays a major role in ensuring desired revenue levels. The City derives most of its operational revenue from providing goods and services such as water, electricity, sanitation and refuse removal. Property rates, operating and capital grants from organs of state and other minor charges (such as building plan fees, rentals, outdoor advertising, etc.) also contribute to the City of Tshwane's coffers.

The revenue strategy is a function of key components such as the following:

- Growth and economic development in the city.
- Revenue management and enhancement.
- Annual collection rate for consumer revenue.
- National Treasury guidelines.
- Approval of electricity tariff increases by the National Electricity Regulator of South Africa.
- Achievement of full cost recovery of specific user charges.
- Determining the tariff escalation rate by establishing or calculating revenue requirements.
- The Property Rates Policy in terms of the Municipal Property Rates Act, 2004 (Act 6 of 2004).
- The ability to extend new services and obtain cost recovery levels.

The above principles guide the annual increase in the tariffs charged to consumers and ratepayers, aligned to the economic forecasts.

The following table is a breakdown of the operating revenue over the medium term.

The following graph is a breakdown of the operational revenue per main category for the 2020/21 financial year.

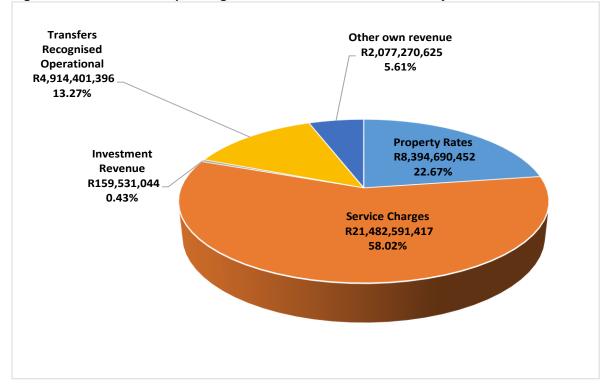

Figure 9: Breakdown of operating revenue for the 2020/21 financial year

Revenue to be generated from property rates is R8,4 billion in the 2020/21 financial year, which represents 22,7% of the operating revenue base of the city, and increases to R9,3 billion by 2020/21.

Service charges related to electricity, water, sanitation, and refuse removal in total constitute the biggest component of the City's revenue basket, totalling R21,5 billion for the 2020/21 financial year.

Operational grants and subsidies amount to R4,9 billion, R5,3 billion and R5,7 billion for each of the respective financial years of the MTREF.

The MTREF provides for a budgeted surplus of R2,1 billion, R1,6 billion and R1,7 billion respectively in each of the three financial years (including capital transfers).

The actual performance against the budget will be carefully monitored. Any variances in this regard will be addressed as part of the mid-year review and adjustment budget.

Capital grants and receipts equate to 51,9% or R2,1 billion of the total funding source for the 2020/21 financial year.

Borrowing as a funding source for the capital programme amounts to R1,5 billion over the MTREF.

Table 35: MBRR SA18 – Capital transfers and grant receipts

2.6.3 Cash flow management

Cash flow management and forecasting is a critical step in determining if the budget is funded over the medium term. Cash received from operating activities is used to provide working capital and to temporarily fund capital expenditure in advance of external borrowing. Operational cash flow deficits and surpluses are forecasted and managed on a daily basis within available cash resources and banking facilities. The table below is consistent with international standards of good financial management practice reporting.

Some specific features include the following:

- Clear separation of receipts and payments within each cash flow category.
- Clear separation of capital and operating receipts from government, which also enables cash from "ratepayers and others" to be provided for as cash inflow based on actual performance in other words, the *actual collection rate* of billed revenue.
- Separation of borrowing and loan repayments (no set-off) assists with assessing compliance with the MFMA regarding the use of long-term borrowing (debt).

Table 36: MBRR A7 – Budgeted cash flow statement

The table above indicates an increase in cash held for the period under review. Various cost efficiencies and savings were implemented to ensure that the City could meet its operational expenditure commitments. It is projected that cash and cash equivalents at year end will be R1,5 billion, R2 billion and R2 billion by the end of 2020/21, 2021/22 and 2022/23 respectively.

| Table 37: MBRR A8 – Cash | backed reserves or accumulated | surplus reconciliation |
|--------------------------|--------------------------------|------------------------|
|--------------------------|--------------------------------|------------------------|

The above table indicates available cash and investments of R1,5 billion for the 2020/21 financial year.

• The main purpose of other working capital is to ensure that sufficient funds are available to meet obligations as they fall due. A key challenge is the mismatch in timing between receiving funds from debtors and payments due to employees and creditors. High levels of debtor non-payment and receipt delays will require more working capital, which could result in cash flow challenges.

2.6.5.1 Cash or cash-equivalent position (including all short term investments)

The City's forecasted cash position was discussed as part of the budgeted cash flow statement. A "positive" cash position for each year of the MTREF would generally be a minimum requirement, subject to the planned application of these funds, such as cash backing of reserves and working capital requirements. The forecasted cash and cash equivalents at year end for the 2020/21 MTREF indicate R1,5 billion, R2 billion and R2 billion for each respective financial year. The City's cash coverage ratio is currently below the norm and there is a need to ensure improvement over the medium term period

2.6.5.2 Cash plus investments less application of funds

This measure indicates how the Municipality has applied the available cash and investments identified in the budgeted cash flow statement. The detailed reconciliation of the cash backed reserves or surpluses is contained in MBRR A8 above.

2.6.5.3 Cash receipts as a percentage of ratepayers and other revenue

This factor is a macro-measure of the rate at which funds are "collected". This measure analyses the underlying assumed collection rate for the MTREF to determine the relevance and credibility of

the assumptions contained in the budget. The projected collection rate is assumed 90% for the medium-term.

2.6.5.4 Debt impairment expense as a percentage of billable revenue

This factor measures whether the provision for debt impairment is being adequately funded. It is based on the underlying assumption that the provision for debt impairment (doubtful and bad debts) has to be increased to offset under collection of billed revenues. The provision has been appropriated at 10%.

2.6.5.5 Capital payments as a percentage of capital expenditure

This measure determines whether the timing of payments has been considered when forecasting the cash position. The Municipality aims to keep this at an achievable level (based on historic performance trends) through strict compliance with the legislative requirement that debtors should be paid within 30 days.

2.6.5.6 Borrowing as a percentage of capital expenditure (excluding transfers, grants and contributions)

This measurement determines the proportion of a municipality's "own-funded" capital expenditure budget that is being funded from borrowed funds to confirm MFMA compliance. Externally funded expenditure (by transfers, grants and contributions) has been excluded. It can be seen that borrowing equates to 36,6%, 42,2% and 40,5% of the total funding of the capital budget for each of the respective financial years of the MTREF.

2.6.5.7 Transfers or grants revenue as a percentage of government transfers or grants available

This measurement mainly ensures that all available transfers from the national and provincial government have been budgeted for. A percentage of less than 100% could indicate that not all grants as contained in the Division of Revenue Act (DoRA) have been budgeted for. The City has budgeted for all transfers. The provincial allocations have not yet been gazetted and will be included in the final budget.

2.6.5.8 Consumer debtors change (Current and non-current)

These measures ascertain whether budgeted reductions of outstanding debtors are realistic. There are two measures shown for this factor: the change in current debtors and the change in long-term receivables, both from the budgeted financial position.

2.6.5.9 Repairs and maintenance expenditure level

This measure is important within the context of funding measures criteria. This is because a trend indicating that insufficient funds are being committed to asset repair could also indicate that the overall budget is not credible and/or sustainable in the medium to long term because the revenue budget is not being protected. Details of the City's strategy pertaining to asset management and repairs and maintenance are contained in MBRR SA34c.

2.9 <u>Contracts with future budgetary implications</u>

In terms of the City's Supply Chain Management Policy, no contracts are awarded beyond the medium-term revenue and expenditure framework (three years). To ensure adherence to this contractual limitation, all reports submitted to either the Bid Evaluation or the Adjudication Committee must obtain formal financial comments from the Budget Office of the Financial Services Department.

2.10 Capital expenditure details

The following three tables present details of the City's capital expenditure programme, firstly on new assets, then on the renewal of assets, and finally on the repair and maintenance of assets.

2.11 <u>Status of compliance with legislation</u>

Compliance with the MFMA implementation requirements has been adhered to through the following activities:

In-year reporting

Reporting to the National Treasury in electronic format is fully complied with on a monthly basis. Section 71 reporting to the Executive Mayor (within ten working days) includes monthly publishing on the City of Tshwane's website. Furthermore, in compliance with the National Treasury regulation published in Government Gazette 32141, the monthly in-year financial reports are submitted to the Executive Mayor and on a quarterly basis to the Council.

Budget and Treasury Office

The Budget and Treasury Office has been established in accordance with the MFMA.

Audit Committee

An audit committee has been established.

MFMA Regulations on municipal minimum competency levels

The City of Tshwane took a structured approach through which the targeted group completed the required unit standards training through an external service provider. All subsequent appointments as required to complete the minimum competency requirements were within a specified timeframe as part of their performance agreements.

The Tshwane Leadership and Training Academy regularly reports to the National Treasury concerning this process and progress made in this regard.

MFMA Regulations on a Standard Chart of Accounts for Local Government (mSCOA)

The City of Tshwane has to comply with the Municipal Finance Management Act, 2003 (MFMA) Regulations on a Standard Chart of Accounts for Local Government. The regulations were published in April 2014 and municipalities had to comply by 1 July 2017.

The regulations provide a standardized and uniform classification framework for municipalities and their entities to record and classify all financial transactions. mSCOA is a business reform rather than a mere financial reform and requires multi-dimensional recording and reporting of every transaction.

The City planned to have a system that can transact in the mSCOA segments from 1 July 2018, however, due to project challenges with the system configurations, the go-live has been postponed.

A new mSCOA roadmap has been developed for full compliance by July 2021. The configuration of the reference system is continuing, notwithstanding the challenges posed by COVID affecting the design workshops

Despite the fact that the City has not gone live with the mSCOA SAP system, the City is still required to compile the annual Medium-Term Revenue and Expenditure Framework (MTREF),

adjustments budget, monthly, quarterly and annual financial reports to National Treasury in terms of the regulated mSCOA classification framework.

Table 58: MBRR SA31 – Aggregated entity budget

2.13 Annual budgets and service delivery agreements – Municipal entities

In terms of Section 17(3)(g) of the MFMA, when an annual budget is tabled in terms of Section 16(2), it must be accompanied by any prescribed budget information on municipal entities under the sole or shared control of the municipality. The format in which the municipal entities' budget information should be compiled and included in the annual budget is prescribed by National Treasury circulars and regulations.

The subsidy to Housing Company Tshwane for the 2020/21 financial year amounts to R33,5 million.

The subsidy to TEDA (Tshwane Economic Development Agency) for the 2020/21 financial year amounts to R69,9 million. The increase on the subsidy is due to the transfer of the Tourism Function from Office of the City Manager.

EXCLUSION FROM RATES

The City of Tshwane Metropolitan Municipality will not levy rates on the following:

- (a) Public service infrastructure
- (b) Public worship
- (c) Protected areas
- (d) State trust land
- (e) Those parts of a special nature reserve, national park or nature reserve that fall within the National Environmental Management: Protected Areas Act, 2003 (Act 57 of 2003) or those parts of a national botanical garden that fall within the National Environmental Management: Biodiversity Act, 2004 (Act 10 of 2004) which are not developed or used for commercial, business, agricultural or residential purposes

- (f) Mineral rights that fall within Paragraph (ii) of the definition of "property" in Section 1 of this rates policy
- (g) A property belonging to a land reform beneficiary or his/her heirs, provided that this exclusion lapses ten years from the date on which such beneficiary's title was registered in the Office of the Registrar of Deeds
- (h) The first R15 000 of the market value of a property assigned in the valuation roll or supplementary valuation roll of the City of Tshwane to a category determined by the City
 - for residential properties; and
 - for properties used for multiple purposes, but only on the component of the property that is used for residential purposes
- (i) A property registered in the name of and used primarily as a place of public worship by a religious community, including an official residence registered in the name of that community which is occupied by an office-bearer of that community who officiates at services at that place of worship
- (j) The property exclusively used and/or occupied by the City of Tshwane

In the event of any change in use, ownership and/or status of any nature that may affect the exclusion of rates hereof during a financial year, the beneficiary, upon receipt of such exclusion from rates, must notify the City and immediately become liable for any rates payable on the property, effective from the date such change may have occurred.

EXEMPTIONS, REDUCTIONS AND REBATES

Exemptions, reductions and rebates will be given to the different categories of properties and owners as follows:

Different categories of properties

Residential properties

In addition to the impermissible rates, a further R135 000 reduction on the market value of a property will be granted.

Agricultural properties

The rate applicable to agricultural property, as prescribed by the Municipal Property Rates Regulations on the rate ratio between residential and non-residential properties which took effect on 1 July 2009, may not exceed the rate ratio on residential properties where the ratio in relation to residential property is as follows:

Residential property 1:1

Agricultural property 1:0.25

Public benefit organisation properties

The rate applicable to public benefit organisation (PBO) property, as prescribed by the Municipal Property Rates Regulations published in Government Notice No R 195 of 12 March 2010 which took effect on 1 July 2010, may not exceed the rate ratio on residential properties where the ratio in relation to residential property is as follows:

Residential property 1:1 Public benefit organisation property 1:0.25

This rate ratio will be applicable to a property only on the basis of an approved application in the prescribed format to Group Financial Services.

No exemptions, reductions or rebates may be granted on the following categories of property:

- Business and commercial property
- Industrial property
- Non-permitted use
- · Vacant land irrespective of zoning, excluding agricultural property
- State-owned property, excluding government residential property

Municipal property (rateable)

Property in this category will be granted a reduction, rebate and/or exemption applicable only in accordance with the category of such a property.

Multiple use properties

Property in this category will be granted a reduction, rebate and/or exemption applicable in accordance with the apportionment of the value in use in respect of such a property.

A property used for multiple purposes will, for rates purposes, be assigned to a category determined by the City for the purpose used as follows:

- A property used for residential purposes will be categorised as a residential property
- A property used for business purposes will be categorised as a non-residential (commercial or business) property

A market value of property used for multiple purposes will be apportioned as follows:

- The large portion of the market value of such property will be apportioned to dominant use
- The remaining market value will be apportioned to non-dominant use

The levying of rates on property used for multiple purposes will be levied to respective property as follows:

- A property categorised as residential will pay property rates such that the residential rate is applied to the market value as apportioned for residential and will receive reduction and rebates
- A property categorised as non-residential (commercial or business) will pay property rates such that the non-residential rate is applied to the market value as apportioned for portion and will not receive residential reduction and rebates

Municipal property

Properties in this category will be granted a reduction, rebate and/or exemption applicable only in accordance with the category of such a property.

Different categories of owners

The following owners of rateable property may be granted further rebates on rates, as stipulated below.

Indigent households

A 100% rebate will be granted to registered indigent households in terms of the City's Indigent Policy.

Pensioners

Pensioners may receive a rebate as determined by Council, subject to the following conditions:

- a) The property concerned must consist of one dwelling and no part thereof may be sublet. The property must be occupied only by the applicant and his/her spouse, if any, and dependants without income
- b) The property must be categorised as a residential property
- c) The applicant must be the registered owner of the property
- d) The applicant must be 60 years or older upon application
- e) The applicant must submit proof of his/her age and a valid identity document
- f) The applicant must submit proof of monthly income from all sources (including the income of the spouse of the owner) and the income collectively should not exceed R13 750 per month as determined by Council (not exceeding R165 000 per annum)
- g) The applicant's account must be paid in full or an arrangement to pay the debt should be in place
- h) The applicant must not receive an indigent assessment rate rebate

Disability grantees and/or medically boarded persons

Disability grantees and/or medically boarded persons may receive a rebate as determined by Council subject to the following conditions:

- (a) The property concerned must consist of one dwelling and no part thereof may be sublet, and may be occupied only by the applicant and his/her spouse, if any, and dependants without income
- (b) The property must be categorised as a residential property
- (c) The applicant must be the registered owner of the property
- (d) The applicant must provide medical proof of disability and/or certification by a medical officer of health
- (e) The applicant must submit proof of his/her age and a valid identity document

- (b) Property that has been damaged by a natural disaster, as defined in terms of the Disaster Management Act, 2002 (Act 27 of 2002), may be revalued on application
- (c) Property which was damaged by causes other than that defined by the Disaster Management Act, 2002 and is, therefore, uninhabitable may be granted temporarily relief form payment to the City upon application, from the date of damage to the property

No exemptions, reductions or rebates may be granted on the following categories of property:

Business and commercial property Industrial property Vacant land, irrespective of zoning State-owned property, excluding government residential property Non-permitted use

LEVYING OF RATES

Period for which rates may be levied

When levying rates, a municipality must levy the rate for a financial year and this rate lapses at the end of the financial year for which it was levied.

The levying of rates must form part of a municipality's annual budget process and at the time of its budget process, the municipality must review the amount in rand of its current rates in line with its annual budget for the next financial year.

A rate levied for a financial year may be increased during a financial year only when required in terms of a financial recovery plan (Section 28(6) of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA)).

A rate becomes payable from the start of a financial year.

Amount due for rates

The City of Tshwane will, as part of each annual operating budget, determine a rate in rand for every category.

Rates are levied in accordance with the Local Government: Municipal Property Rates Act, 2004 as an amount in rand based on the market value of all rateable property as reflected in the valuation roll and any supplementary valuation roll.

Liability for rates

A rate levied by the City on a property must be paid by the owner of the property.

Rates will be levied monthly.

If an amount due for rates levied is unpaid by the owner of the property, the City may recover the amount from the tenant or occupier of the property.

The amount due for rates may be recovered from the agent of the owner.

Where the rates levied on a particular property have been a result of a supplementary valuation made in terms of Section 78(1) of the Local Government: Municipal Property Rates Act, 2004, these rates will be payable with effect from either of the dates as contemplated in Section 78(4) (a), (b), (c) or (d) of the Local Government: Municipal Property Rates Act, 2004.

Recovery of rates due will be in accordance with the City's Debt Collection Policy (credit and debt control).

SUPPLY OF ELECTRICITY TARIFF

- 1. That the determination of fees payable to the City of Tshwane Metropolitan Municipality for supplying electricity approved by Council resolutions on 30 May 2019, 27 June 2019, 25 July 2019 and 29 August 2019 be withdrawn with effect from 1 July 2020.
- 2. That the determination of fees as set out in Annexure D.1 be determined in terms of the provisions of Section 75A (1) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), as amended.
- 3. That the determination contemplated in Paragraph 2 takes effect on 1 July 2020.
- 4. That notice of the withdrawal and determination be given in terms of the provisions of Sections 75A(3)(a), (b) and (c) of the Local Government: Municipal Systems Act, 2000.
- 5. That notice in terms of Paragraph 4 above be published in the relevant newspapers.

CITY OF TSHWANE METROPOLITAN MUNICIPALITY

NOTICE OF WITHDRAWAL AND DETERMINATION OF CHARGES PAYABLE TO THE CITY OF TSHWANE METROPOLITAN MUNICIPALITY FOR THE SUPPLY OF ELECTRICITY

The City of Tshwane Metropolitan Municipality hereby gives notice in terms of Section 75A(3) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), as amended, that a resolution was passed by Council on ... 2020 that the charges payable to the Municipality for the supply of electricity Part I and II approved by Council resolutions on 30 May 2019, 27 June 2019, 25 July 2019 and 29 August 2019 be withdrawn, and that the charges set out in the schedule below, determined in accordance with Section 75A(1) of the Local Government: Municipal Systems Act, 2000, take effect from 1 July 2020.

NOTICE ... of 2020 DATE MAVELA DLAMINI ACTING CITY MANAGER

| | | | ANNEXURE D.1 |
|---|--------|--|-------------------|
| | | SCHEDULE 1 | |
| | D | SUPPLY OF ELECTRICITY | ~ VAT) |
| PART I: ENERGY, DEMAND AND FIXED DEMAND CHARGES (EXCLUDING VAT) | | | |
| | | With effect from | |
| | | | 1 July 2020 until |
| | | | 30 June 2021 |
| Α. | DOMES. | TIC TARIFF SCALES | |
| | 1. | DOMESTIC SINGLE AND THREE PHASE: CONVENTIONAL AND PREPAID | |
| | | Subject to any additional charges contained in Part II of the tariff and to the exceptions set out in Group (x), this scale will apply to premises that are situated within legally established townships where electrical power is supplied at low voltage to groups of consumers with a main circuit breaker size of 80 amperes or less per phase in the case of single-phase, two-phase or three-phase connections. This will happen where a three- phase connection is supplied to the premises and the rating of the consumer's main circuit breaker is more than 80 amperes per phase, excluding bulk domestic complexes. The Divisional Head: Energy Business may determine if the low voltage three-phase demand scale will apply. (Two-phase connections are not available for new connections and the tariff is only applicable to existing two-phase connections.) The scale will apply to the premises of the following groups of consumers: | |
| | | (i) A residential unit (ii) A boarding house (iii) A flat (iv) A non-profitable nursing home | |
| | | (v) A charitable institution or home (vi) A hostel | |
| | | (vii) A school, crèche or an early childhood development facility (viii) A building used exclusively for public worship (ix) A club, other than a club licenced under any liquor act (x) A pumping plant where the water pumped is used exclusively for domestic purposes on premises receiving a supply under this | |
| | | scale of the tariff A building or separate section of a building comprising a number of the foregoing groups or other units used exclusively for residential purposes; the consumption of which is separately metered by the City of Tshwane to determine the charges due | |
| | | under this scale (xii) Classes (iv), (v), (vii) and (viii) situated outside legally established townships | |
| | | (xiii) Premises for which a written request was submitted to and approved by the Divisional Head: Energy Business | |
| | 1.1 | DOMESTIC STANDARD SUPPLY: SINGLE AND THREE PHASE: CONVENTIONAL AND PREPAID | |
| | | For a connection with a conventional meter, the energy consumed per 30- day period since the previous meter reading is charged per month or part of a month. Prepaid energy purchases are charged per calendar month. | |
| | | For all kWh purchased per calendar month, per kWh | c/kWh |
| 1 | 1.1.1 | Block 1 (0 to 100 kWh) | 170.28 |
| 1 | 1.1.2 | Block 2 (101 to 400 kWh) | 199.28 |
| 1 | 1.1.3 | Block 3 (401 to 650 kWh) | 217.11 |
| 1 | 1.1.4 | Block 4 (more than 650 kWh) | 234.06 |
| | 1.1.5 | A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | |

| | | With effect from 1 July 2020 until 30 June 2021 |
|---|---|---|
| 1.2 | INDIGENT: CONVENTIONAL AND PREPAID For indigent consumers officially registered with the City of Tshwane, the first 100 kWh consumed per calender month period per residential unit since the previous meter reading will be issued free of charge. | |
| | For all kWh purchased per calendar month, per kWh | c/kWh |
| 1.2.1 1.2.2 1.2.3 1.2.4 1.2.5 | Block 1 (0 to 100 kWh) Block 2 (101 to 400 kWh) Block 3 (401 to 650 kWh) Block 4 (more than 650 kWh) A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | 169.89 195.43 214.42 228.79 |
| 1.3 | LIFELINE: PREPAID Subject to any additional charges contained in all of Part II of the tariff, this scale will apply to premises situated within legally established townships where electricial power is supplied at low voltage to groups of consumers with a main circuit breaker size of 20 amperes or less in the case of a single-phase connection where a lifeline subsidised connection has been taken that is metered by a prepaid meter. The scale will apply to the premises of the following groups of consumers: (i) A residential unit (ii) A flat | |
| | For all kWh purchased per calendar month, per kWh | c/kWh |
| 1.3.1 1.3.2 1.3.3 1.3.4 1.3.5 | Block 1 (0 to 100 kWh) Block 2 (101 to 400 kWh) Block 3 (401 to 650 kWh) Block 4 (more than 650 kWh) A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | 169.89 195.43 214.42 228.79 |
| 1.4 | DOMESTIC THREE-PHASE DEMAND SUPPLY: CONVENTIONAL AND PREPAID For residences where a three-phase connection is supplied to the premises and the rating of the consumer's main circuit breaker is more than 80 amperes per phase (excluding bulk domestic complexes), the following applies: | |
| 1.4.1 | A fixed monthly charge, whether or not electricity is consumed, per metering point | R/month 644.89 |
| 1.4.2 | A demand charge per KVA of half-hourly maximum demand, provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of the following: | R/kVA 120.29 |
| | Where the actual metered period is within the normal one-month period (approximately 30 days), demand will be charged per 30-day period on the actual metered demand. Where the actual readings are below 30 kVA, the minimum demand charged will be 30 kVA. | |
| | Where the actual readings are not available, the customer will be charged 60% of the highest demand recorded during the preceding three months. Where the recorded readings are below 30 kVA, the minimum demand charged will be 30 kVA. | |
| 1.4.3 1.4.4 | Energy charge per kWh consumed A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | |

| | | With effect from |
|---|---|-------------------|
| | | 1 July 2020 until |
| | | 30 June 2021 |
| 2. | DOMESTIC BULK SUPPLY Subject to any additional charges contained in Part II of the tariff, this scale will apply to domestic complexes and gated domestic communities situated within legally established townships (unless explicitly otherwise determined by the Divisional Head: Energy Business) within and outside the municipal boundaries where electricitly is supplied in bulk via a single connection of at least 80 amperes at low voltage or medium voltage, to the following aroups of consumers: | |
| | A body corporate or the authorised reselling agent of a bulk residential complex that purchases electricity only for resale to residential dwelling units on the same premises at the prescribed domestic reselling tariffs of the City, and where such consumption is determined by means of conventional or prepaid submeters. | |
| | Residential complexes including blocks of flats with separate units in terms of the Sectional Titles Act, 1971 (Act 66 of 1971), and the Sectional Titles Act, 1986 (Act 95 of 1986), but excluding premises with only a second dwelling unit. | |
| 2.1 | DOMESTIC BULK STANDARD SUPPLY The following charges will be payable per month or part of a month: | R/month |
| 2.1.1 | A fixed monthly charge, whether or not electricity is consumed per metering point | 645.21 |
| 2.1.2 2.1.3 | Energy charge per kWh A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | |
| 2.2 | DOMESTIC BULK TIME-OF-USE SUPPLY The following charges will be payable per month or part of a month: | |
| 2.2.1 | A fixed monthly charge, whether or not electricity is consumed per metering point | R/month 645.21 |
| 2.2.2 2.2.2.1 2.2.2.2 2.2.2.3 2.2.3 | Energy charge consumed Active energy charge per kWh consumed in peak periods Active energy charge per kWh consumed in standard periods Active energy charge per kWh consumed in off-peak periods A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | |
| a) b) | NOTES The defined daily time-of-use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the City (Paragraph G), excluding the application of public holidays. Meters will be set up according to the actual day of the week. The defined daily time-of-use periods throughout the year will be as per | |
| c) | the current Eskom Megaflex tariff that may be applicable to the City (Paragraph G). The Divisional Head: Energy Business may impose a specific minimum load requirement to qualify for this scale. | |

| | | | With effect from 1 July 2020 until |
|----|------------|---|---------------------------------------|
| | | | 30 June 2021 |
| | d) | The Divisional Head: Energy Business has the authority to reverse the tariff of a complex without notice to standard supply where the resellers fail to accommodate clients in the complex requesting the approved domestic time-use tariffs. | |
| | e) | Due to legislation requiring time-of-use tariff scales for all bulk consumers, all standard bulk domestic demand connections will be phased out and be replaced with time-of-use metering and tariff scales, subject to the City of Tshwane's capability to comply. | |
| | 2.3 | RESELLING TO END USERS IN DOMESTIC COMPLEXES REFER TO PARAGRAPH F BELOW | |
| | 3. | AGRICULTURAL HOLDINGS AND FARM LAND: CONVENTIONAL OR PREPAID Subject to any additional charges contained in Part II of the tariff and excluding premises that fall under Group (x) of the domestic single- and three-phase conventional or prepaid lifeline: prepaid or under the low- voltage, three-phase demand scale, this scale will apply to premises situated outside legally established townships within or outside the municipal boundaries and to which electricity is supplied or made available at low voltage, with a main circuit breaker size of 80 amperes or less per phase in the case of a single-phase or three-phase connection. | |
| | | The following charges will be payable per month or part of a month: | c/kWh |
| | 3.1 3.2 | An energy charge per kWh A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | 211.21 10.60 |
| в. | NON-DOI | MESTIC OR BUSINESS TARIFFS SCALES | |
| | | domestic or business customers where a single or three-phase connection d to the premises, excluding electricity resellers. | |
| | 4. | NON-DOMESTIC SINGLE PHASE: CONVENTIONAL Subject to any additional charges contained in Part II of the tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the following groups of consumers, with a main circuit breaker size of 80 amperes or less in the case of a single-phase connection: | |
| | | (i) A shop, store or business (ii) An office block (iii) A hotel licenced under the Liquor Act, 2003 (Act 59 of 2003) (iv) A bar (v) A café, tearoom or restaurant (vi) A combined shop and tearoom (vii) A public hall (viii) A club licenced under the Liquor Act, 2003 (ix) An industrial, manufacturing concern or service industry (x) An educational institution, excluding a hostel, if metered separately (xi) A building or section of a building comprising a number of the above classes (xii) All consumers not defined under other scales of the tariff | |
| | 4.1 | A fixed monthly charge per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale: | |

| | | With effect from 1 July 2020 until 30 June 2021 |
|------------|---|---|
| | Where the rating of the circuit breaker is as follows: | 30 Julie 202 I |
| | | R/month |
| 4.1.1 | 60 amperes or less | 1,099.73 |
| 4.1.2 | More than 60 amperes but less than 81 amperes | 1,441.08 |
| | | c/kWh |
| 4.2 4.3 | Energy charge per kWh consumed | 181.95 |
| 4.5 | A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | |
| | NOTES | |
| a) | For the purpose of this item, "circuit breaker" means a double-pole circuit breaker or a neutral switch or circuit breaker combination. | |
| b) | Due to the legislation requiring that all customers who consume more | |
| | than 1 000 kWh per month be on smart meter time-of-use tariffs, | |
| | conventional meters are being phased out and replaced with prepaid smart meters, subject to the City of Tshwane's capacility to comply. | |
| 5. | NON-DOMESTIC SINGLE PHASE: PREPAID | |
| | Subject to any additional charges contained in Part II of the tariff, this | |
| | scale will apply to premises situated within legally established townships | |
| | where electrical power is supplied at low voltage, with a main circuit breaker size of 80 amperes or less in the case of a single-phase | |
| | connection, to the groups of consumers listed in Item (i) up to and | |
| | including (xii) in the preamble to the non-domestic, single-phase | |
| | conventional scale. | |
| 5.1 | A fixed monthly charge per metering point payable, whether or not | |
| | electricity is consumed, according to the rating of the consumer's | |
| | incoming circuit breaker in accordance with the following scale: | |
| | Where the rating of the circuit breaker is as follows: | R/month |
| 5.1.1 | 60 amperes or less | 1,047.12 |
| 5.1.2 | More than 60 amperes but less than 81 amperes | 1,309.18 |
| 5.0 | | c/kWh 181.19 |
| 5.2 5.3 | Energy charge per kWh consumed A credit (reverse) tariff for excess energy generated and transferred to | |
| 0.0 | the City of Tshwane grid, per kWh. (Note: It can only be applied after | |
| | approval by the City of Tshwane.) | |
| | NOTES | |
| a) | For the purpose of this item, "circuit breaker" means a double-pole circuit | |
| | breaker or a neutral switch or circuit breaker combination. | |
| b) | Due to the legislation requiring that all customers who consume more | |
| | than 1 000 kWh per month be on smart meter time-of-use tariffs, conventional meters are being phased out and replaced with prepaid | |
| | smart meters, subject to the City of Tshwane's capability to comply. | |
| 6. | NON-DOMESTIC THREE PHASE: CONVENTIONAL | |
| | Subject to any additional charges contained in Part II of the tariff, this | |
| | scale will apply to premises situated within legally established townships | |
| | where electrical power is supplied at low voltage, with a main circuit | |
| | breaker size of 150 amperes or less per phase in the case of an existing three-phase connection (for new connections, see the notes below) to the | |
| | groups of consumers listed in Item (i) up to and including (xii) in the | |
| | preamble to the non-domestic, single-phase tariff scale. | |
| | | |

| | | With effect from 1 July 2020 until 30 June 2021 |
|---|--|---|
| 6.1 | A fixed charge per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale: | 50 June 2021 |
| | Where the rating of the circuit breaker is as follows: | |
| 6.1.1 6.1.2 6.1.3 6.1.4 6.1.5 | 60 amperes or less More than 60 amperes but less than 81 amperes More than 80 amperes but less than 101 amperes More than 100 amperes but less than 126 amperes More than 125 amperes but less than 151 amperes | R/month 3,346.69 5,113.70 7,154.05 8,985.25 10,925.02 c/kWh |
| 6.2 6.3 | Energy charge per kWh consumed A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | 181.95 10.60 |
| a) | NOTES For the purpose of this item, "circuit breaker" means a triple-pole circuit breaker. | |
| b) | Since 1 July 2008, no new non-domestic, three-phase straight connections above 100 amperes are available. These connections are treated as low-voltage demand connections. | |
| c) | Due to the legislation requiring that all customers consuming more than 1 000 kWh per month must be on smart meter time-of-use tariffs, conventional meters are being phased out and replaced with prepaid smart meters, subject to the availability of smart prepaid meters. | |
| 7. | NON-DOMESTIC THREE PHASE: PREPAID Subject to any additional charges contained in Part II of the tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit breaker size of 150 amperes or less per phase in the case of an existing three-phase connection (for new connections, see the notes below) to the groups of consumers listed in Item (i) up to and including (xii) in the preamble to the non-domestic, single-phase tariff scale. | |
| 7.1 | A fixed charge per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale: | |
| | Where the rating of the circuit breaker is as follows: | |
| 7.1.1 7.1.2 | 60 amperes or less More than 60 amperes but less than 81 amperes | R/month 3,174.73 4,804.34 c/kWh |
| 7.2 7.3 | Energy charge per kWh consumed A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | 181.19 10.60 |
| a) | NOTES For the purpose of this item, "circuit breaker" means a triple-pole circuit breaker. | |
| b) | Since 1 July 2008, no new non-domestic three-phase straight connections above 100 amperes are available. These connections are treated as low-voltage demand connections. | |

| | | | With effect from 1 July 2020 until |
|----|---------------------------------------|--|---------------------------------------|
| | c) | Due to the legislation requiring that all customers consuming more than 1 000 kWh per month must be on smart meter time-of-use tariffs, conventional meters are being phased out and replaced with prepaid smart meters, subject to the availability of smart prepaid meters. | |
| c. | Subject to apply to electricity | SINESS OR NON-DOMESTIC DEMAND SCALES o any additional charges contained in Part II of the tariffs, this scale will the premises situated within and outside the municipal boundaries for supplied or made available at low voltage, with an annual average metered ore than 50 kVA. | |
| | 8. | LOW-VOLTAGE THREE-PHASE DEMAND SCALE (CONVENTIONAL AND PREPAID) Subject to any additional charges contained in Part II of the tariff, this scale will apply to the premises situated within and outside the municipal boundaries for electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA (implying installed breaker of greater than 70 amperes three-phase, but limited to a maximum of 800 amperes) to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the non-domestic, single-phase conventional scale and the groups of domestic consumers with a main circuit breaker size of more than 80 amperes per phase listed in Item (i) up to and including (xii). This excludes bulk domestic complexes and gated domestic communities with a single bulk connection in the preamble to the domestic scale: single phase and three phase. | |
| | 8.1 | The following charges will be payable per month or part of a month: A fixed charge per month, per metering point, whether or not electricity is | R/month |
| | | consumed | 2,865.48 R/kVA |
| | 8.2 | A demand charge per kVA of half-hourly maximum demand Where the actual metered period is within the normal one-month period (approximately 30 days), demand will be charged per 30-day period on the actual metered demand. Where the actual readings are below 30 kVA, the minimum demand charged will be 30 kVA. | |
| | | Where the actual readings are not available, the customer will be charged 60% of the highest demand recorded during the preceding three months. Where the recorded readings are below 30 kVA, the minimum demand charged will be 30 kVA. | |
| | 8.3 8.4 | Energy charge per kWh consumed A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | |
| | a) | NOTES This tariff category is no longer available for new connections. In order to comply with the Electricity Regulation Act, 2006 (Act 4 of 2006), all new connections in this category will be metered via a time-of-use smart meter based on the approved tariffs in Paragraph 10 below, subject to the City of Tshwane's capability to comply. | |
| | b) | In the event where the actual average annual demand is below 50 kVA, the Divisional Head: Energy Business has the authority to convert the consumer to the applicable tariff upon downgrading to the applicable breaker. | |

| | | With effect from 1 July 2020 unt |
|-------|---|-------------------------------------|
| | | 30 June 2021 |
| 9. | LOW-VOLTAGE THREE-PHASE DEMAND SCALE: TIME OF USE (CONVENTIONAL AND PREPAID) | |
| | Subject to any additional charges contained in Part II of the tariff, this scale will apply to premises situated within and outside the municipal | |
| | boundaries for electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA, to the groups of consumers listed in Item (i) up to and including (xii), excluding bulk domestic complexes and gated domestic communities with a single bulk connection in the preamble to the non-domestic, single-phase conventional scale. | |
| | The following charges will be payable per month or part of a month: | R/month |
| 9.1 | A fixed monthly charge, whether or not electricity is consumed, per metering point | |
| 9.2 | A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays | |
| | Where the actual metered period is within the normal one-month period (approximately 30 days), demand will be charged per 30-day period on the actual metered demand. Where the actual readings are below 30 kVA, the minimum demand charged will be 30 kVA. | |
| | Where the actual readings are not available, the customer will be charged 60% of the highest demand recorded during the preceding three months. Where the recorded readings are below 30 kVA, the minimum demand charged will be 30 kVA. | |
| 9.3 | Energy charge | c/kWh |
| 9.3.1 | Active energy charge per kWh consumed during peak periods from June to August, per kWh | |
| 9.3.2 | Active energy charge per kWh consumed during peak periods from September to May, per kWh | 168.6 |
| 9.3.3 | Active energy charge per kWh consumed during standard periods from June to August, per kWh | 157.3 |
| 9.3.4 | Active energy charge per kWh consumed during standard periods from September to May, per kWh | 106.1 |
| 9.3.5 | Active energy charge per kWh consumed during off-peak periods from June to August, per kWh | 90.0 |
| 9.3.6 | Active energy charge per kWh consumed during off-peak periods from September to May, per kWh | 75.1 |
| 9.4 | A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | |
| a) | NOTES The defined daily time-of-use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the City (Paragraph G), excluding the application of public holidays. Meters will be set up according to the actual day of the week. | |
| b) | The Divisional Head: Energy Business may impose a specific minimum load requirement to qualify for this tariff scale. | |
| c) | In the event where the actual average annual demand is below 50 kVA, the Divisional Head: Energy and Electricity has the authority to convert the consumer to the applicable tariff. | |

| | | With effect from 1 July 2020 until 30 June 2021 |
|----------|---|---|
| d) | Due to legislation requiring time-of-use tariff scales for all bulk consumers, all standard low-voltage demand connections will be phased out and replaced with time-of-use metering and tariff scales, subject to the City of Tshwane's capability to comply. | |
| 10. | 11 kV SUPPLY SCALE (CONVENTIONAL OR PREPAID) Subject to any additional charges contained in Part II of the tariff, this scale will apply to premises, excluding bulk domestic complexes, situated within or outside the municipal boundaries where electrical power is supplied at 11 kV. | |
| | Unless the Divisional Head: Energy Business determines otherwise, this scale will only be available for premises with an average metered load of more than 200 kVA. | |
| | The following charges will be payable per month or part of a month: | R/month |
| 10.1 | A fixed monthly charge, whether or not electricity is consumed, per metering point | 2,450.98 |
| 10.2 | A demand charge per kVA of half-hourly maximum demand | R/kVA 200.17 |
| | Where the actual metered period is within the normal one-month period (approximately 30 days), demand will be charged per 30-day period on the actual metered demand. Where the actual readings are below 140 kVA, the minimum demand charged will be 140 kVA. | |
| | Where the actual readings are not available, the customer will be charged 70% of the highest demand recorded during the preceding three months. Where the recorded readings are below 140 kVA, the minimum demand charged will be 140 kVA. | |
| 10.3 | Energy charge per kWh consumed A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | c/kWh 125.23 10.60 |
| a) b) | NOTES This tariff category is no longer available for new connections. In the event where the actual average annual demand is below 1 200 | |
| | kVA, the Divisional Head: Energy Business has the authority to convert the consumer to the applicable tariff. | |
| c) | Due to legislation requiring time-of-use tariff scales for all bulk consumers, all standard 11 kV connections will be phased out and replaced with time- of-use metering and tariff scales, subject to the City of Tshwane's capability to comply. | |
| 11. | 11 kV SUPPLY SCALE: TIME OF USE (CONVENTIONAL OR PREPAID) Subject to any additional charges contained in Part II of the tariff, this scale will apply to premises, excluding bulk domestic complexes, situated within or outside the municipal boundaries where electrical power is supplied at 11 kV. | |
| | The following charges will be payable per month or part of a month: | |
| 11.1 | A fixed monthly charge, whether or not electricity is consumed, per metering point | R/month 2,470.24 |
| 11.2 | A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays | R/kVA 204.66 |

| | | | With effect from 1 July 2020 until 30 June 2021 |
|----|--------|---|---|
| | | Where the actual metered period is within the normal one-month period (approximately 30 days), demand will be charged per 30-day period on the actual metered demand. Where the actual readings are below 140 kVA, the minimum demand charged will be 140 kVA. | |
| | | Where the actual readings are not available, the customer will be charged 70% of the highest demand recorded during the preceding three months. Where the recorded readings are below 140 kVA, the minimum demand charged will be 140 kVA. | |

| 15. | 132 kV SUPPLY SCALE: MEGA (CONVENTIONAL OR PREPAID) | 30 Julie 202 I |
| | The following charges will be payable per month or part of a month: | |
| (a) | The current Eskom Megaflex tariff applicable to the City of Tshwane (Ekangala Substation), excluding the monthly rental that may be applicable to the City. | |
| (b) | A surcharge of 10% on the sum of the net amount calculated in terms of Subitem (a) | |
| | As from 1 July 2021, the applicable Tariff 13: 132 kV supply scale: time of use (conventional or prepaid) will be applied. | |
| 16. | 275 kV SUPPLY SCALE: TIME OF USE (CONVENTIONAL OR PREPAID) | |
| | Subject to any additional charges contained in Part II of the tariff, this scale will apply to premises within or outside the municipal boundaries where electrical power is supplied at 275 kV. | |
| | Unless the Divisional Head: Energy Business determines otherwise, this scale will only be available for premises with an average metered load of 30 000 kVA or more. In the event where the actual average annual demand is below 30 000 kVA, the Divisional Head: Energy Business has the authority to convert the consumer to the applicable tariff. | |
| | The following charges will be payable per month or part of a month: | |
| 16.1 16.2 | The current Eskom Megaflex tariff, excluding the monthly rental that may be applicable to the City. A surcharge of 3% on the sum of the net amount calculated in terms of the Subitem (16.1) | |
| | A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | 10.60 |
| 17. | OFF-PEAK SUPPLY SCALE Subject to any additional charges contained in Part II of the tariff, this scale will apply to premises situated within and outside the municipal boundaries. | |
| | The following provisions will be applicable to electricity supplied or made available during the off-peak periods of the periods as determined by the Divisional Head: Energy Business, to premises receiving a standard supply under either the 132 kV supply scale or the 11 kV supply scale or the low-voltage three-phase demand scale, provided that the consumer applies in writing for such off-peak supply which will be subject to the following restrictions: | |
| 17.1 | The consumer's electrical installation will be arranged in such a way that the off-peak supply can only be used during the times set out in this preamble. | |
| 17.2 | The consumer will accept the limitation of such a supply to the capacity of the existing mains and equipment or, in the case of a new or increased supply, to the capacity of the mains and equipment provided by the City, by mutual agreement between the City and the consumer, and any other limitations with regard to the maximum demand or nature of the load which the Divisional Head: Energy Business may impose. | |

| | | With effect from 1 July 2020 until |
|------------------|--|---------------------------------------|
| | | 30 June 2021 |
| 17.3 | The consumer will compensate the City for the provision and installation of the necessary measuring equipment. | |
| 17.4 | Should the application be approved by the Divisional Head: Energy Business, and the off-peak supply be provided or made available, the following charges will be payable: | |
| 17.4.1 | A demand charge at 0% per month of the tariff per kVA determined in terms of the tariff scale under which the standard supply is provided to the premises, applied to the value by which the half-hourly maximum demand during the off-peak period exceeds the half-hourly maximum demand applicable to the standard supply. | |
| 17.4.2 | An energy charge for all kWh consumed during the off-peak period since the previous meter reading at the tariff per kWh, determined in terms of the tariff scale under which the standard supply is made available to the premises. | |
| | A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | c/kWh 10.60 |
| | Defined on- and off-peak periods (as determined by the Divisional Head: Energy Business) | |
| | Peak Weekdays (06:00 to 22:00) Off-peak Monday to Thursday (22:00 to 06:00) Friday and weekends (Friday at 20:00 to Monday at 06:00) | |
| | NOTE In the event of abnormal circumstances, load demand and combinations of premises, the City may provide one supply point at a specific voltage to the premises, and the appropriate scale of the tariff relating to specific voltage will then be applicable to such premise. | |
| 18. | RENEWABLE OR EMBEDDED ENERGY CHARGES In terms of the provisions of the Electricity Regulation Act, 2006 the generation of electricity is a licenced activity. Therefore, the tariffs are subjected to the provisions of the act and are currently interim or pilot. | |
| | The tariffs will apply to customers that are net consumers of the City of Tshwane and who have invested in embedded generation capacity, are grid-tied and comply with all regulations regarding grid connection. | |
| | All embedded generators are required to register with the City of Tshwane and the equipment used must comply with the technical standards required by the City of Tshwane. | |
| | The tariffs applicable for the type and size of the installation which include a fixed monthly availability charge will apply for the net consumption via the City of Tshwane network. | |
| | The following monthly charge will apply, whether or not electricity is consumed, per metering point: | |
| 18.1 18.2 | DOMESTIC SINGLE OR THREE PHASE DOMESTIC THREE-PHASE DEMAND SUPPLY: CONVENTIONAL AND PREPAID | R/month 170.22 2,865.35 |

| 22.6 | LOW-VOLTAGE THREE-PHASE DEMAND SCALE: TIME OF USE | 30 June 2021 |
| 22.0 | Subject to any additional charges contained softents in the order softent is scale will apply to premises situated within and outside the municipal boundaries for electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA, to the groups of consumers listed in Item (i) up to and including (xii), excluding bulk domestic complexes and gated domestic communities with a single bulk connection in the preamble to the non-domestic, single-phase conventional scale. | |
| | The following charges will be payable per month or part of a month: | R/month |
| 22.6.1 | A fixed monthly charge, whether or not electricity is consumed, per metering point | |
| 22.6.2 | A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays | |
| | Where the actual metered period is within the normal one-month period (approximately 30 days), demand will be charged per 30-day period on the actual metered demand. Where the actual readings are below 30 kVA, the minimum demand charged will be 30 kVA. | |
| | Where the actual readings are not available, the customer will be charged 60% of the highest demand recorded during the preceding three months. Where the recorded readings are below 30 kVA, the minimum demand charged will be 30 kVA. | |
| 22.6.3 | Energy charge | c/kWh |
| 22.6.3.1 | Active energy charge per kWh consumed during peak periods from June to August, per kWh | |
| 22.6.3.2 | Active energy charge per kWh consumed during peak periods from September to May, per kWh | 150.6 |
| 22.6.3.3 | Active energy charge per kWh consumed during standard periods from June to August, per kWh | 144.1 |
| 22.6.3.4 | Active energy charge per kWh consumed during standard periods from September to May, per kWh | 97.3 |
| 22.6.3.5 | Active energy charge per kWh consumed during off-peak periods from June to August, per kWh | 82.5 |
| 22.6.3.6 | Active energy charge per kWh consumed during off-peak periods from September to May, per kWh | 68.7 |
| 22.6.4 | A credit (reverse) tariff for excess energy generated and transferred to the City of Tshwane grid, per kWh. (Note: It can only be applied after approval by the City of Tshwane.) | |
| | NOTE The defined daily time-of-use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the City (Paragraph G), excluding the application of public holidays. Meters will be set up according to the actual day of the week. | |
| 22.7 | 11 kV SUPPLY SCALE Subject to any additional charges contained in Part II of the tariff, this scale will apply to premises, excluding bulk domestic complexes, situated within or outside the municipal boundaries where electrical power is supplied at 11 kV. SCHEDULE SUPPLY OF ELECTRICITY PART II: DEMAND AND FIXED DEMAND CHARGES

| | | With effect from 1 July 2020 until 30 June 2021 |
|-----------|---|---|
| ADDITIONA | L CHARGES | |
| 1. | Erf quota Where: AMD = authorised maximum demand ADMD = after-diversity maximum demand ZMD = zoned maximum demand kVA = kilo (1 000) volt amp N = potential number of dwelling unit Erf quota is defined as the AMD of each individual erf. The ADMD of the erf used for the design of the internal network is calculated as follows: | |
| | $A = Z \times C$ Where $A = ADMD$ of the erf measured in kVA Z = ZMD or AMD (whichever is the higher) equals the kVA value of the erf C = area factor according to table in A1.2 below(Note: The ADMD values are used for the design of the internalnetwork.) | |
| 1.1 | ZMD per erf The ZMD is determined by the Spatial Planning and Land Use Management Act, 2013 (Act 16 of 2013) (SPLUMA) and is as follows: | |
| 1.1.1 | Residential 1: Special and undetermined, for a specific use which, in the opinion of the Divisional Head: Electricity Planning and Development, is in accordance with residential, on which only one or, at the most, two dwelling units per erf may be erected | potential dwelling |
| 1.1.2 | Residential 2: Group housing or special and undetermined, for a specific use which, in the opinion of the Divisional Head: Electricity Planning and Development, is in accordance with group housing | |
| | The number of potential dwelling units is calculated in accordance with the permissible floor space ratio as determined in the SPLUMA, 2013 and where the amount of dwelling units is specified in either the approved site development plan (SDP) or the approved building plan, or the number of dwelling units as determined by the act. Where there are 12 dwelling units (including the service connection) or a density of 20 dwelling units or more per hectare, and where the City of Tshwane does not take over the internal electrical network, the premises will be provided with a single connection point. These dwelling units will be rated at one ADMD rating lower than Residential 1 for the specific area up to a minimum ADMD rating of 3,5 kVA. | |
| | The final rating and the provision of a single connection point will be at the discretion of the Divisional Head: Electricity Planning and Development. | |
| 1.1.3 | Residential 3 and 4: Multiple residential or special and undetermined, for a specific use which, in the opinion of the Divisional Head: Electricity Planning and Development, is in accordance with multiple residential. | |
| | The number of potential dwelling units is calculated in accordance with the permissible floor space ratio as determined in the town- planning scheme and where each dwelling unit has an area of 100 m ² , or the number of dwelling units as determined by the scheme. | |
| | The final rating and the provision of a single connection point will be at the discretion of the Divisional Head: Electricity Planning and Development. | |
| 1.1.3.1 | Blocks or groups of housing units with 20 or less units – these dwelling units will be rated at one ADMD rating lower than Residential 1 for the specific area up to a minimum ADMD rating of 3.5 kVA | potential dwelling |
| 1.1.3.2 | Blocks or groups of housing and student housing with 21 or more units where $N = N$ umber of units | |

| 2. 2.1 | Quota charges General The scales of the tariff for the supply of electricity, as detailed in Part I of this tariff document, are based on the costs associated with the provision of the supply to various groups of consumers in the legally connected developed areas within the City of Tshwane | |
| | electricity supply area. Where the supply needs to be provided to new premises or groups of premises or where an existing consumer applies for an increased supply, the cost of extending the distribution and reticulation networks within the municipal area that is not recovered from the tariff for the supply of electricity, as set out in Part I of this tariff document, must be paid by the developer or consumer as external engineering services. | |
| | The developer of a township must provide for and install the full quota allocated per erf for which an application has been made in respect of the distribution and reticulation systems. If the distribution and reticulation systems are not fully installed, the developer must compensate the City for the difference between the allocated quota and the set quota at the prevailing quota charge. This is deemed to be a contribution for external engineering services. | |
| | The existing quota of the property prior to the latest application for development is used as a credit in the calculation. This quota is calculated in the same way as mentioned above. | |
| | The developer is refunded a pro rata portion of the low-voltage or medium-voltage system installed by him/her. | |
| 2.2 | Determining charges The quota charge is finally determined by the actual level at which the development connects to the supply system. The charge is calculated as follows: Q = [(Dn - De) C] X | |
| | Where Q = quota charge payable in rand Dn = sum of new development property ADMDs in kVA De = sum of existing development property ADMDs in kVA C = area factor as indicated in 1.2 above X = contribution per kVA at connection level as indicated in 2.3 below | |
| 2.3 | Contributions The quota charges must cover the capital liabilities incurred or to be incurred by the City of Tshwane in supplying the distribution and/or reticulation network to increase the quota to the premises or group of premises. The contributions per kVA at the different connection levels are as follows: | |
| 2.3.1 | Low-voltage connections | |
| 2.3.1.1 2.3.1.2 | For connections made at an existing metering cubicle, per kVA For connections made to the low-voltage distribution network, per kVA | R/kVA 4,152.04 3,804.36 |
| 2.3.1.3 | For connections made to the low-voltage bus bars within miniature and communal substations, as well as to the outgoing terminals of the 11 000/415 V transformer on rural lines, per kVA | 3,718.3 |
| 2.3.2 | Medium-voltage connections For connections made at the 11 kV distribution network, per kVA: | |
| 2.3.2.1 2.3.2.2 | Taken from the 11 kV distribution network, per kVA Taken directly from the 11 kV switchgear of a satellite or 132 kV | 3,112.55 |
| | substation, per kVA | 2,939.3 |

| | | With effect from 1 July 2020 until 30 June 2021 |
|------------------|--|---|
| 2.3.3 2.3.3.1 | High-voltage connections Taken directly from the 11 kV switchgear of a primary 132 kV substation where the developer adds a full bay including transformer(s) (Transformer B or C) on the existing primary substation | 346.49 |
| 2.3.3.2 | Taken directly from the 11 kV switchgear of a primary 132 kV substation where the developer reconfigures the existing primary substation from a 100% back-up to an ARBC system | 259.63 |
| 2.3.3.3 | Taken directly from the 11 kV switchgear of a primary 132 kV substation where the developer provides a new non-firm primary substation including transformer(s) with no primary line, with the City of Tshwane paying for back-up TRF | 120.92 |
| 2.3.3.4 | Taken directly from the 11 kV switchgear of a primary 132 kV substation where the developer provides a non-firm primary substation including transformer(s) and 4 km primary overhead line, with the City of Tshwane paying for back-up transformer Conditions will apply for a high-voltage connection. Note: | 29.23 |
| | In instances where township owners or developers have already paid a quota charge during township establishment, or where a quota charge was paid at the time of scheme amendments, subdivision or consent use, a quota charge is payable for every kVA by which the notified maximum demand indicated by the end consumer or his or her authorised representative exceeds the allocated quota that has already been paid for. The notified maximum demand will then become the AMD of the erf, after payment (calculated at the applicable connection level) has been received. | |
| 3. 3.1 | Fixed charges Premises with improvements The scales of the tariff for the supply of electricity, as detailed in Schedule: Supply of Electricity Part I, are based on the costs associated with the provision of the supply to the various groups of consumers in the normal electricity development areas within the municipal boundaries. | |
| | Should the calculated fixed-demand charge or the average of the demand charge during the preceding 12 months for premises with improvements be less than the fixed charge applicable to those specific premises without improvements, the fixed charge as applicable to the premises without improvements will be charged, provided that the Divisional Head: Electricity Planning and Development, at his/her own discretion, may allow a deduction on the charge. Should a consumer, where a minimum demand charge is applicable as detailed in Schedule: Supply of Electricity Part I, install the necessary power factor correction equipment to improve the power factor of the premises, the Divisional Head: Electricity | |
| | Planning and Development may, at his/her own discretion, waive the enforcement of the previous minimum demand charge for a period of time to enable the consumer to prove that the equipment is able to maintain the new, more efficient demand charge. | |
| 3.2 | Premises without improvements A charge of basic cost for each registered erf, which in the opinion of the Divisional Head: Electricity Planning and Development, can be connected to the City's supply mains, but has not yet been connected, is payable by the owner, provided that premises that have been provided with only a builder's connection are deemed to be not connected. | |
| 3.2.1 3.2.2 | The fixed charges are calculated as shown below: For all residential premises, per month For erven zoned multiple residential or special and undetermined (used for a specific use that, in the opinion of the Group Head: Utility Services, is in accordance with multiple residential) where | No charge |
| | not all of the approved dwellings have been developed, the developer and/or the owner who has the right to develop the township area is liable for the fixed charges of the dwellings that have not been erected, per dwelling unit per month. | No charge |

| | | | With effect from 1 July 2020 until 30 June 2021 |
|----|--------------|---|---|
| | 3.2.3 | For all other uses, except those specifically mentioned below, based on the ZMD, provided that the floor space ratio used for calculation purposes does not exceed 0,6, an amount per month per kVA | No charge |
| | 3.2.4 | For erven that are municipal property | No charge |
| | 3.2.5 | For agricultural or special and undetermined, for a specific use which, in the opinion of the Divisional Head: Electricity Planning and Development, is in accordance with agricultural, including premises situated in Klerksoord, an amount per month | No charge |
| | 3.2.6 | For any other use not referred to in 3.2.1, 3.2.2, 3.2.3, 3.2.4 or 3.2.5 above per erf per month | No charge |
| | 3.3 | Premises outside the municipal boundaries Unless otherwise agreed on between the City and a developer and/or owner of a township area, fixed charges are also payable in respect of premises situated outside the municipal boundaries, but inside the City's electricity supply area. The authorised maximum demand for such premises will be as shown above. | |
| В. | GENERAL C | | |
| | 1. 1.1 | Metered connection fees The City will provide the following standard connections between its mains and the electrical installation of proclaimed premises, provided that non-split prepaid metering will only be installed with the approval of the Divisional Head: Electricity Planning and Development. Only one such connection would normally be provided to any single premises, provided that, in the case of second dwelling units within legally established townships or farms and agricultural holdings receiving an electricity supply at low voltage and in cases where consideration of distance or voltage drop is such that, in the opinion of the Divisional Head: Electricity Planning and Development, additional connections are justified. Such additional connections may be provided to the following: | |
| | 1.1.1 | To a private house receiving a supply at low voltage: a single- phase or three-phase underground cable connection with conventional metering or prepaid metering. (Traditional overhead roof connections with service conductors are no longer available as standard new connections.) | |
| | 1.1.2 | To an informal residential structure receiving a supply at low voltage: a single-phase overhead bundle or concentric conductor connection with prepaid metering | |
| | 1.1.3 1.2 | To any other premises receiving a supply at low voltage: a single- phase or three-phase underground cable connection Where the nearest connecting point for the proclaimed premises is further than 100 m from the City of Tshwane network, the connecting point for the consumer is, in respect of costing for it, deemed to be no further than 100 m. | |
| | 1.3 1.4 | Fees regarding connections are payable strictly in advance. In the case of an amendment to Schedule: Supply of Electricity Part I, a consumer may request the City to alter the applicable tariff to his/her premises once a year. | 24.4 |
| | 1.5 | Where the owner or developer of premises makes provision for a substation building for the City, which is needed to provide the premises and adjacent premises with a supply, the owner or developer of the premises must pay the full connection fees, provided that the owner or developer is reimbursed in the next financial year at a cost (rand per m ²). | R/m² 3,855.08 |
| | 1.6 | In the case of a standard low-voltage cable connection to the premises, the owner or consumer must provide an approved conduit or trench and an approved underground electrical cable with communication cores, as specified in the City's Electricity By- laws and/or by the Divisional Head: Electricity Planning and Development, over the entire route across his/her property. | |

| | | With effect from 1 July 2020 until 30 June 2021 |
|--------------------|--|---|
| 1.7 | For all connections, excluding those referred to in Item B1.8 below, the actual cost of material, labour, supervision, transport and the use of plant and equipment will be calculated, plus 13% overhead cost and administration. That will be the connection cost, provided that the cost for peri-urban consumers is calculated for a connection from a low-voltage supply point. | |
| 1.8 | For all connections and services, indicated below as Items B1.9.1 to B1.9.8, the average cost of material, labour, supervision, transport and the use of plant and equipment will be calculated, plus 13% overhead cost and administration. That will be the connection fee. | |
| 1.9 | Subject to the terms as set out in Schedule: Supply of Electricity Part I, the following standard connections will be provided by the City: | |
| 1.9.1 | Cable-reticulated single-phase connections to premises where the required cable has already been laid up to the boundary of the premises, specifically to provide the premises with such a supply. (The consumer's contractor provides the SANS-approved cable joint, except where existing pratley-type boxes are installed.) | |
| 1.9.1.1 | Credit metering | R 1,730.11 |
| 1.9.1.2 1.9.2 | Prepaid metering Cable-reticulated three-phase connections to premises where the required cable has already been laid up to the boundary of the premises, specifically to provide the premises with such a supply. (The consumer's contractor provides the SANS-approved cable joint, except where existing pratley-type boxes are installed.) | 2,441.96 |
| 1.9.2.1 | Credit metering – energy only | 2,507.49 |
| 1.9.2.2 1.9.3 | Prepaid metering All three-phase, maximum-demand (low-voltage and medium- voltage) connections that require only placement of a meter (credit metering) | 5,361.23 9,859.41 |
| 1.9.4 | Cable connection to premises where the required cable must be laid from the existing network to provide the premises with a supply, provided that where the cable length exceeds 40 m, the complete connection will be estimated and be payable. Furthermore, if the required meter box serves more than three consumers, the case will be referred to the Electrical Town Development Functional Unit. (The City provides the meter box as required by the Divisional Head: Electricity Planning and Development, in the street reserve.) | |
| 1.9.4.1 1.9.4.2 | Single phase, credit or prepaid metering Three phase, up to and including 80 amperes per phase: | 17,470.85 |
| 1.9.5 | Credit metering and prepaid metering Single-phase overhead bundle/concentric conductor connection (maximum 60 amperes with prepaid metering). The connection will in all cases be made from the City's connection point to the nearest corner of the dwelling, provided that this connection will only be available for informal and low-cost housing where approved by the Divisional Head: Electricity Planning and Development. | 32,083.30 |
| 1.9.5.1 | Metering device with bidirectional energy metering capabilities (low voltage, single phase) up to 80 amperes | 8,839.14 |
| 1.9.5.2 | Metering device with bidirectional energy metering capabilities (low voltage, three phase) up to 100 amperes | 10,017.69 |
| 1.9.5.3 | Metering device with bidirectional capabilities for medium voltage (MV) | 10,842.67 |

| 1.9.6 1.9.6.1 | Temporary connections for builders: If the final connection point is used or, alternatively, where the builder provides all connection material needed for connection to the closest supply point | Applicable amount set out in Item B1.7 or B1.8. |
| 1.9.6.2 | Temporary overhead connections for builders in overhead reticulated areas where these are not to be used for permanent supply: | |
| 1.9.6.2.1 1.9.6.2.2 1.9.7 | Single-phase connection (maximum 80 amperes) Three-phase connection (maximum 80 amperes per phase) Connections to illuminated street name signs, hoardings and telephone booths (maximum 5 amperes). The contractor provides | 6,746.03 10,895.47 1,902.89 |
| 1.9.8 | cabling and trenching as per City of Tshwane specifications. Lifeline connections to premises (maximum 60 amperes). Restricted to informal and Reconstruction and Development Programme (RDP) houses only. | |
| | The meter is preprogrammed with the following units: | 5 kWh R |
| 1.9.8.1 | First connection to premises without ready board supplied by the City of Tshwane | 0.00 |
| | Should the ready board of the City of Tshwane not be used, the City must be in possession of a certificate of compliance issued by a registered contractor (as referred to in Regulation 3(1) of the Electrical Installation Regulations of the Occupational Health and Safety Act, 1993 (Act 85 of 1993)) for the specific premises before the connection will be made. | |
| 1.9.8.2 | First connection to premises with ready board supplied by the City | 0.00 |
| 1.9.8.3 | Second connection to premises where metering devices have been removed and cannot be accounted for | 0.00 |
| 1.9.8.4 | Second connection to premises where metering devices were burned and/or stolen | 0.00 |
| 1.10 | General services rendered at the request of a consumer within and outside the municipal boundary. Fees to be paid in advance. | |
| 1.10.1 | Replacement of an existing single- or three-phase overhead connection with a single- or three-phase cable connection from overhead mains up to the erf boundary, at the request of the consumer: | |
| 1.10.1.1 1.10.1.2 1.10.1.3 | If existing metering is retained, provided it is a credit meter If existing metering is replaced with a split-type prepaid meter Where a new application for a new electrical connection is received after a building has been demolished and the previous | |
| | connection has been completely removed. (The City provides the meter box and meter in the street reserve, a cable to every associated erf boundary and the connections in the meter box as required by the Divisional Head: Electricity Planning and Development.) | |
| 1.10.2 | Moving of an existing cable connection from a meter box affixed to the dwelling unit, or from a meter box on the erf, which box is considered to be dangerous in terms of the Occupational Health and Safety Act, 1993 to a boundary meter box. (The City provides only the meter box in the street reserve and moves the existing meters and the meter connections to the new meter box.) | 3,459.52 |
| 1.10.3 | Replacement of an existing credit meter with a prepaid meter (retrofit) provided there is an existing boundary meter box. If not, a pole-mounted meter box will be installed. | |
| 1.10.3.1 | Split-type single-phase prepaid meter | 2,334.36 |
| 1.10.3.2 | If a boundary meter box must be placed, the cost as per 1.10.2 will be applicable plus the subsidised cost as per 1.10.3.1. | 5,793.99 |
| 1.10.3.3 | Replacement of an existing three-phase credit meter with a three- phase prepaid meter (retrofit) | 6,746.03 |
| 1.10.4 | Relocation of the City's bulk metering point provided that the owner/consumer supplies communication to the metering equipment, where necessary, and supplies and places the meter box | |

| 2. 2.1 | Temporary connections Where the City, at the discretion of the Divisional Head: Electricity Planning and Development, makes temporary non-metered connection points available to consumers, the following connection fee applies (plus an additional amount for electricity consumption as set out in Item 2.1.1 below): Temporary metered connections will be made available for a maximum of 12 months from the date of installation. | |
| 2.1.1 2.1.1.1 2.1.1.2 2.1.1.3 | All connections will only be done on prepaid meters. Single-phase connection (maximum 80 amperes) Single-phase connection to polling premises, per connection Where a consumer requires a temporary connection of a type not referred to in this tariff and the provision of the connection is approved by the Divisional Head: Electricity Planning and Development, the full cost of such a temporary connection will be payable and a prepaid meter will be installed. | 8,820.7 2,247.8 |
| 2.1.1.3.1 2.1.1.3.2 | The connections referred to in 2.1 are made available free of charge for official municipal and departmental functions. In instances where electricity is temporarily supplied at low voltage and where permanent non-metered connections are revealed by means of investigation, and it proves impractical to meter the consumption, the consumption will be estimated according to the rating of the installed apparatus and the hours of use, and the following charges are payable: | Free of char |
| 2.1.1.3.2.1 | A prepayable amount consisting of an energy charge per kWh, subject to a minimum charge | 1.7 |
| 2.1.1.3.2.2 | The prepayable amount is subject to a minimum charge in terms of the following: For all the temporary metered connections mentioned above, the charges mentioned in Tariff 6 or 8 of Part I of this tariff document will be applicable. For any unauthorised temporary or non-metered connection or a direct unlawful connection found, a fine of R1 000 000 will be issued against the premises associated with it or the director or agent of the company. | 380.5 |

| 10. Deposits | |
| 10.1 The minimum amount to be deposited by a consumer with the City | |
| in respect of electricity consumption in terms of its Electricity By- | |
| laws and Regulations, which amount in cases where a water | |
| deposit is also payable will include such water deposit. | |
| | |
| 10.1.1 For single-phase residential consumers, the amount comprises an | |
| electricity deposit of R895,85 plus a water deposit of R520,30. | 1,416.15 |
| 10.1.2 For all other consumers, the deposit will be calculated on the | |
| estimated consumption for two months. | |
| 10.2 The deposit stated in Item 10.1 above will initially be used for any | |
| new connection, including a connection for temporary occupation. | |
| Once the three-month registered consumption figures are | |
| available, the deposit will be adjusted to twice the value of the | |
| average monthly electricity and water consumption. | |
| 10.3 Where any deposit amounts to more than R28 060,75 the Chief | |
| Financial Officer may, at his/her own discretion, accept an 2 approved guarantee for the deposit amount. | 8,060.75 |
| 10.4 The status quo with regard to existing deposits will be maintained | |
| and deposits will only be recalculated if the electricity supply has | |
| to be disconnected due to non-payment. If such recalculations | |
| should take place it would be done in accordance with Items 10.1 | |
| to 10.3 above. | |
| 10.5 No deposits for electrical power consumption are payable by | |
| consumers who are supplied by means of prepaid metering. | |

D. GLOSSARY AND INTERPRETATIONS

1 Glossary

- (i) "after-diversity maximum demand" (ADMD) means the calculated kVA value, allowing for the time difference between the individual maximum demands of all the consumers fed from the same supply point
- (ii) "authorised maximum demand" (AMD) means the kVA value allocated to the premises upon either township establishment, any scheme amendment and/or increase in the supply
- (iii) "area factor" means the factor determined by the social standing and/or capability of the group of consumers to consume more or less power than the average, depending on the amount of funds available to pay for the purchase of electricity This depicts the probability of higher- or lower-than-average electricity consumption and has absolutely nothing to do with the diversity factor.
- (iv) "diversity factor" means the probability that all connected consumers will draw maximum current at the same time and is a figure between zero and one Zero means that there is no such chance and one means that the chances are 100% that it will happen.
- (v) "fixed charge" means any monthly amount calculated to cover the annual costs in respect of capital expenditure and the maintenance of equipment installed on the premises by the City

- (vi) "lifeline" means a largely subsidised single-phase first connection with prepaid metering up to a maximum of 20 amperes and is available for informal and low-cost housing only, provided that the current energy tariff set out in the Schedule: Supply of Electricity Part I is applicable
- (vii) "low voltage", in terms of Government Notice 2665 of 16 November 1990, means 230 V nominal in the case of a single-phase supply or 230 V ÷ 400 V nominal in the case of a three-phase supply
- (viii) "medium voltage" means more than 400 V but not more than 11 kV
- (ix) "metering point" means the point at which the consumer's consumption of electricity is metered and which may be at the point of supply or at any other point on the distribution system of the service authority or the electrical installation of the consumer, as specified by the engineer, provided that it meters all of and only the consumer's consumption of electricity
- (x) "per month" means per month or part of a month
- (xi) "potential dwelling units" means the maximum permissible number of dwelling units that may be erected on premises according to the town-planning scheme
- (xii) "set of metering equipment" means the minimum number of meters necessary for measuring the supply under any one scale of the tariff and on the basis of one connection to the premises
- (xiii) "zoned maximum demand" (ZMD) means the kVA value allocated to the premises on township establishment
- (xiv) "proclaimed premises" means premises acknowledged as town erf by the Registrar of Deeds or the City of Tshwane and excludes agricultural holdings and farmland

2. Interpretations

- (i) Any premises outside a township in respect of which the City is, by reason of the location and extent of such premises and the purpose for which the premises is used, of the opinion that the premises should be deemed to be part of such township, is deemed to be part of such township.
- (ii) Any piece of land divided into or laid out or developed as sited for residential or business purposes in respect of which the City is, by reason of such division, layout or development, of the opinion that it should be deemed to be an approved township, is deemed as such.
- (iii) The electricity consumption for a temporary builder's connection, single- or three-phase, except in cases where the size of the connection requires a low-voltage demand connection or 11 kV connection, is charged according to the applicable non-domestic tariff scales.
- (iv) After the consumer's contractor has completed the SANS-approved cable joint between the City's cable and the consumer's cable, in cable-reticulated areas, the cable joint becomes the responsibility of the consumer.
- (v) Consumption measured by service metering under domestic bulk supply, as set out in terms of Part I of the tariff, does not qualify for free electricity.

(vi) Guidelines for connection sizes, subject to availability of network capacity and network configuration:

| Tariff scale | | Credit metering | | Prepaid metering | |

| (ix) | 275 kV supply | 30 000 | - | | |

Notes

The Schedule: Supply of Electricity Part I and Part II must be read in conjunction with and forms part of the City of Tshwane's Electricity By-laws and conditions of supply and statutory regulations.

Tax payable in terms of the Value-added Tax Act, 1991 (Act 89 of 1991), is excluded on the above charges.

All above charges are applicable to the current financial year.

| 1. | Normal conveyance and treatment cost | R/kℓ | |
| | This cost covers the normal conveyance and treatment of waste water, of quality equal to domestic waste water, via a municipal sewer pipe system to a waste water treatment plant where it is treated. | | 9.74 |
| | This cost is calculated by multiplying the combined unit conveyance and treatment cost by the volume of waste water discharged into the sewer system. Industrial consumers will pay for all waste water discharged into the system. The unit cost is | | |
| | the tariff for industrial consumers with a rebate. | | 10% |

| | | With effect from 1 July 2020 until 30 June 2021 |
|----|---|---|
| 2. | Extraordinary treatment cost | |
| | Where the pollution loading (quality) of waste water discharged into the sewer system exceeds the pollution loading of normal waste water, the specific consumer or industrialist will have to accept responsibility for the additional treatment cost. | |
| | The extraordinary treatment cost is calculated as follows: | |
| | $T_{c} = Q_{c}t \left(0.6 \frac{(COD_{c} - COD_{d})}{COD_{d}} + 0.25 \frac{(P_{c} - P_{d})}{P_{d}} + 0.15 \frac{(N_{c} - N_{d})}{N_{d}}\right)$ | |
| | T_c = Extraordinary treatment cost to consumer Q_c = Waste water volume discharged by consumer in kl t = Unit treatment cost of waste water in R/kl | |
| | COD_c = Total COD of waste water discharged by consumer in milligrams/litre and COD_d = Total COD of domestic waste water in milligrams/litre | |
| | P_c = Ortho-phosphate concentration of waste water discharged by consumer in milligrams of phosphorus/litre | |
| | P _d = Ortho-phosphate concentration of domestic waste water in milligrams of phosphorus/litre | |
| | N_c = Ammonia concentration of waste water discharged by consumer in milligrams of nitrogen/litre N_d = Ammonia concentration of domestic waste water in milligrams of | |
| | nitrogen/litre | |
| | The following are applicable: | |
| | t = R0,94/kℓ COD _d = 700 mg/ℓ | |
| | $P_d = 8 mg/\ell$ $N_d = 31 mg/\ell$ | |
| 3. | Non-compliance with by-law limits | |
