

**CITY OF CAPE TOWN**

**DRAFT  
2013 – 2014  
SERVICE DELIVERY AND BUDGET  
IMPLEMENTATION PLAN**

( 22<sup>nd</sup> March 2013 )

CITY OF CAPE TOWN | ISIXHO SASOKAPA | STAD KAAPSTAD

## **MESSAGE FROM THE EXECUTIVE MAYOR**

A lot of organisations have grand plans, sweeping ambitions detailing how they will change the world. It's easy to make empty gestures and pretend that they are invested with meaning.

The really meaningful statements and actions, however, are not measured by the scale of the rhetoric. They are measured by the nature of committed resources, what is actually done to achieve a promise.

Our governance plans and strategies are something of a promise to Capetonians. They contain commitments of what we intend to do. But where we show our resolve and our duty to serving this great city are in the nuts and bolts of describing how we will deliver each and every day as an organisation.

That is the significance of the Service Delivery and Budget Implementation Plans (SDBIPs). They are the individual strokes with which we paint.

We start at the macro level with an overall strategy in the Integrated Development Plan (IDP). We then divide our finances to satisfy each yearly requirement to achieve long-term goals in the annual budget. And we describe how each allocation will be used on the ground to affect delivery.

This is in line with legislation and is a requirement of all municipalities. But these measures go beyond compliance for Cape Town. They are the articulation of an electoral mandate made real in an organisation serving millions of people.

The SDBIPs are the dynamic description of a democracy in action and, as such, they are the fundamental blueprints for our city.

Ald. Patricia de Lille  
Executive Mayor of Cape Town

## **MESSAGE FROM THE CITY MANAGER**

I hereby present to the Executive Mayor, Patricia De Lille the draft Service Delivery and Budget Implementation Plan 2013 – 2014.

Achmat Ebrahim  
City Manager

**Draft Service Delivery and Budget Implementation Plan  
2013 / 2014**

**DIRECTORATE EXECUTIVE SUMMARIES AND SDBIPS ARE ATTACHED AS AN ANNEXURE TO THE DRAFT 2013/2014 SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN**

## **1. INTRODUCTION**

The strategic direction that the City of Cape Town (City) will undertake is set out in its five year Integrated Development Plan (IDP).

The City aims to increase opportunities by creating the economic enabling environment in which investment could grow and jobs could be created.

It sets out to do this according to five key pillars: the opportunity city; the safe city; the caring city; the inclusive city and the well-run or efficient city.

The Service Delivery and Budget Implementation Plan (SDBIP) gives effect to the IDP and the budget of the municipality. It is an expression of the objectives of the City in quantifiable outcomes that will be implemented by the administration for the financial period from 1 July 2013 to 30 June 2014 (the City's financial year). It includes the service delivery targets and performance indicators for each quarter which is linked to the performance agreements of senior management. It therefore facilitates oversight over financial and non-financial performance of the municipality and allows the City Manager to monitor the performance of the Executive Directors, the Mayor/Council to monitor the performance of the City Manager, and the Community to monitor the performance of the City Government.

Based on the public input, the City developed five strategic focus areas (pillars). Corporate objectives were developed from these areas which were expanded on in Directorate and Departmental Business Plans. Resources were allocated firstly through a budget prioritisation model at a corporate level and pulled through to the Business plans, underpinned by programmes and projects. Objectives are measured through key performance indicators at every level, and continuously monitored throughout the year.

The purpose of this report is to provide background into the role of the SDBIP and to guide the reader through the relationship between service delivery and budget implementation. Content wise it provides the reader with the Corporate Scorecard setting out the Corporate and Directorate objectives, with indicators and targets against which the City will be held accountable over the remaining years of the five year IDP cycle. The 2013/2014 year's targets are elaborated on in the quarterly targets set in the Annual Corporate Scorecard. Definitions are provided to broaden understanding of the indicators. The capital budget for the next three years is broken down into the five pillars or strategic focus areas that are identified in the IDP, providing the first level of linkage between the IDP and the budget. This linkage is further elaborated on in the Directorate and Department Business Plans, but these are too

detailed to form part of this report. The projected monthly cash flow is broken down into revenue by source and expenditure by Directorate (vote).

The ward allocations per subcouncil and their related wards, forms an annexure to the report.

The content of this document is high-level and strategic and is intended for utilization by the general public and Councillors. The SDBIP is a layered plan, with the top layer of the plan dealing with consolidated service delivery targets and linking such targets to top management. Only the tip of the information pyramid is published as the Corporate SDBIP. This document therefore correlates with the **Published SDBIP** as required by National Treasury.

## **2. LEGISLATIVE IMPERATIVE**

In terms of Section 53 (1) (c) (ii) of the Local Government: Municipal Finance Management Act (MFMA), the SDBIP is defined as a detailed plan approved by the mayor of a municipality for implementing the municipality's delivery of municipal services and its annual budget, and which must indicate the following –

- (a) projections for each month of –
  - (i) revenue to be collected, by source; and
  - (ii) operational and capital expenditure, by vote
- (b) service delivery targets and performance indicators for each quarter, and
- (c) other matters prescribed

The draft SDBIP for 2013/2014 is based on the Draft IDP and influences the draft Budget being tabled in Council on the the 27<sup>th</sup> March 2013.

In terms of Section 69 (3) (a) the City Manager must by no later than 14 days of the approval of the annual budget submit the draft SDBIP to the Executive Mayor.

In terms of Section 53 (1) (c) (ii) of the MFMA, the Executive Mayor must approve the SDBIP within 28 days after the approval of the budget.

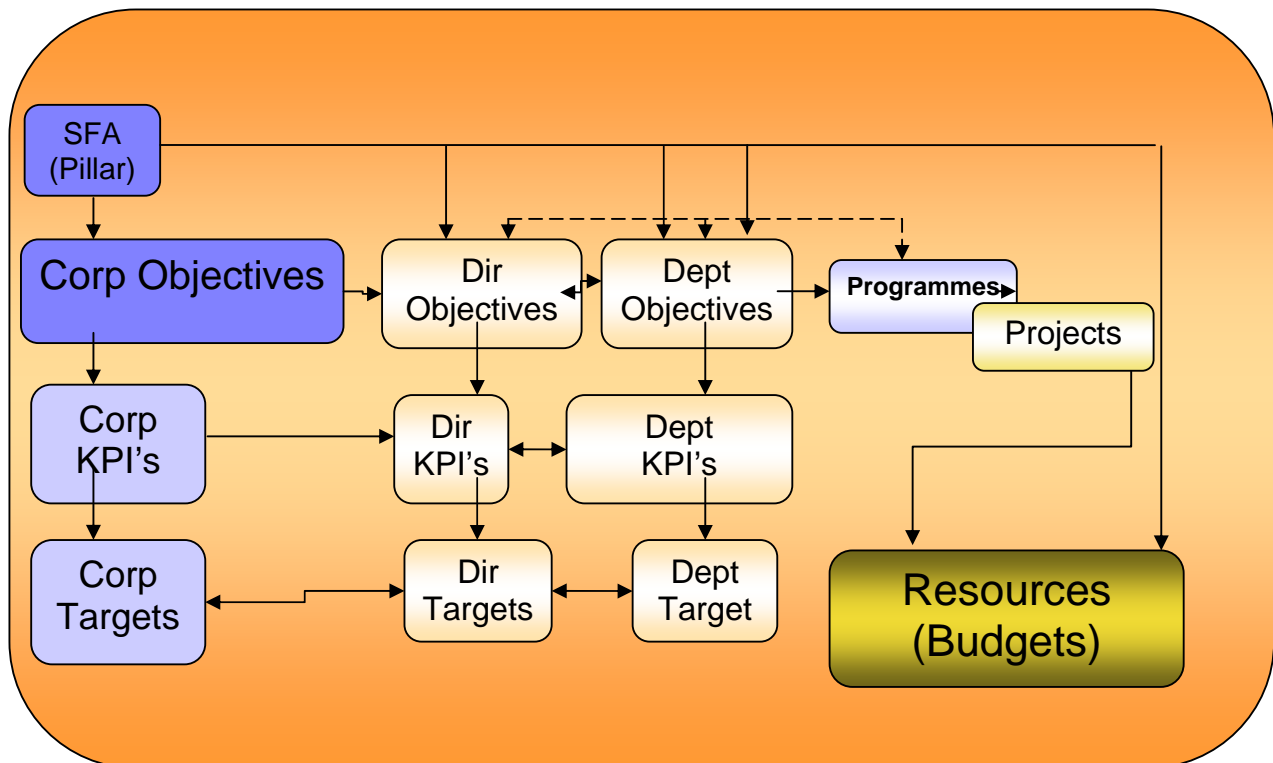

In addition, the Executive Mayor must ensure that the revenue and expenditure projections for each month as well as the service delivery targets and performance indicators as set out in the SDBIP are made public after approval.

### 3. LINK TO THE IDP AND THE BUDGET

The City identified five strategic focus areas (SFAs) based on the inputs from the community. These are:

1. The Opportunity City
2. The Safe City
3. The Caring City
4. The Inclusive City and
5. The Well-Run City

These are the SFAs in the diagram below and the budget is allocated against these strategic focus areas at a corporate level. Corporate objectives with measurable key performance indicators (KPIs) and targets are identified. The business planning processes undertaken at Directorate and Department levels yields objectives with indicators, targets and resource allocation (includes the budgets) at these various levels. The Business plans have a narrative section and an SDBIP section against which the progress of initiatives are reported on.

#### **4. Reporting on the SDBIP**

This section covers reporting on the SDBIP as a way of linking the SDBIP with the oversight and monitoring operations of the City administration.

A series of reporting requirements are outlined in the MFMA. Both the Executive Mayor and the Accounting Officer have clear roles to play in preparing and presenting these reports. The SDBIP provides an excellent basis for generating the reports for which MFMA gives very clear outlines. The reports then allow the Councillors of the City of Cape Town to monitor the implementation of service delivery programs and initiatives across the City.

##### **4.1 Monthly Reporting**

Section 71 of the MFMA stipulates that reporting on actual revenue targets and spending against the budget should occur on a monthly basis. This reporting must be conducted by the accounting officer of a municipality no later than 10 working days, after the end of each month. Reporting must include the following:

- i. actual revenue, per source;
- ii. actual borrowings;
- iii. actual expenditure, per vote;
- iv. actual capital expenditure, per vote;
- v. the amount of any allocations received

If necessary, explanation of the following must be included in the monthly reports:

- a. any material variances from the municipality's projected revenue by source, and from the municipality's expenditure projections per vote;
- b. any material variances from the service delivery and budget implementation plan and;
- c. any remedial or corrective steps taken or to be taken to ensure that the projected revenue and expenditure remain within the municipalities approved budget.

##### **4.2 Quarterly Reporting**

Section 52 (d) of the MFMA compels the mayor to submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality within 30 days of the end of each quarter. The quarterly performance projections captured in the SDBIP form the basis for the mayor's quarterly report.

### **4.3 Mid-year Reporting**

Section 72 (1) (a) of the MFMA outlines the requirements for midyear reporting. The Accounting Officer is required by the 25<sup>th</sup> January of each year to assess the performance of the municipality during the first half of the year taking into account –

- (i) the monthly statements referred to in section 71 of the first half of the year
- (ii) the municipalities service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
- (iii) the past year's annual report, and progress on resolving problems identified in the annual report; and
- (iv) the performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities.

Based on the outcomes of the mid-year budget and performance assessment report, an adjustment budget may be tabled if actual revenue or expenditure amounts are materially different from the projections contained in the budget or the SDBIP. The SDBIP is also a living document and may be modified based on the mid-year performance review. Thus the SDBIP remains a kind of contract that holds the City accountable to the community.

## 5. MEASURABLE PERFORMANCE OBJECTIVES AND INDICATORS

The Corporate Scorecard is the strategic tool used by the community and the city to monitor progress against delivery.

The City's cycle and process of performance management system can be graphically illustrated as follows:

### The cycle and process of the Performance Management System

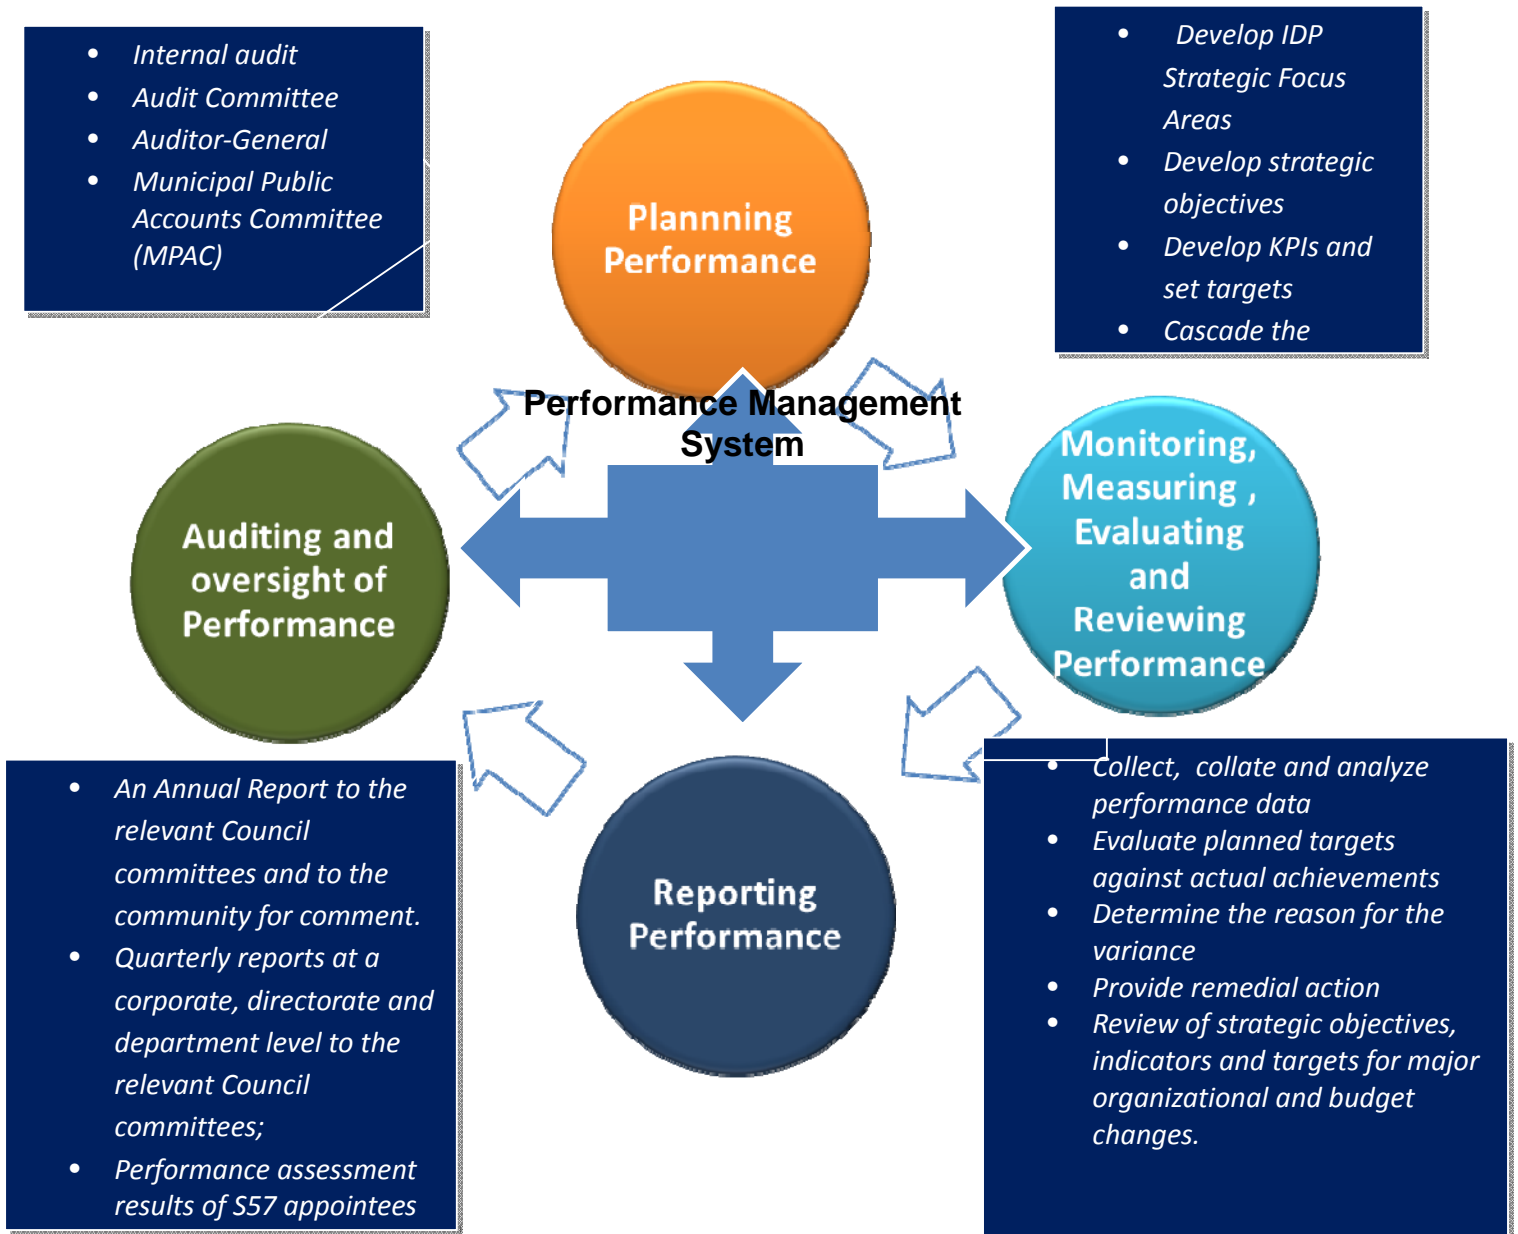

Figure: The Cycle and process of the performance objectives and indicators

## **5.1 Planning Performance**

The City must involve the community in deciding what priorities and needs it wants to achieve. Community involvement will be in line with relevant legislation and approved policy.

The planning cycle delivers a five year and annually reviewed IDP (including a Corporate Scorecard with definitions), an annual Corporate SDBIP, Directorate Executive Summaries (including SDBIPs), Departmental Business Plans and SDBIPs, Performance Indicator Measurement Sheets, S57 Performance Plans and Individual Performance Assessments.

Planning ensures that clear strategic direction is set and prioritised. Planning is informed by feedback on performance. This is the stage where Strategic Focus Areas (SFAs), objectives, performance indicators and targets are determined. Indicators measure the extent to which objectives are being achieved, indicating performance in relation to outcomes, outputs, activities and inputs. Targets set the level of performance to be achieved within a defined period of time.

Indicators must be measurable, relevant, objective and precise. They must include outcomes, output and input indicators. National general indicators must be included. Proxy indicators will be used until auditable and cost effective systems and processes are in place to measure the National general indicators.

The IDP will be set for the five year term of office of the elected council and reviewed annually. It will include the SFAs, corporate objectives (strategic objectives), corporate indicators and targets. There will be a direct relationship between the SFA, corporate objective, corporate indicator and target. The actual achievements of targets set for the objectives will be reported on quarterly bases where appropriate. They will form the platform for the quarterly and annual reports on performance.

The components will be interlinked to ensure implementation. All the corporate objectives and indicators will cascade into a Directorate and/or a Departmental SDBIP and/or the City Manager's and/or a section 57 appointees scorecards.

## **5.2 Monitoring, Measuring, Evaluating and Reviewing performance**

Monitoring and measuring are the processes and procedures to collect, collate and analyse organisational performance data on an on-going basis to determine whether planned performance targets have been met, exceeded or not met. It will take place on a quarterly and an annual basis.

The performance evaluation results are determined by regular management meetings to establish:

- Year- to- date performance progress and reasons for variances for both under- or over performance; and
- Remedial action (effective methods of correction or enhancement), if any, which need to be taken to achieve the agreed performance targets.
- A date for implementation and a responsible person will be identified.

A review of indicators and targets can take place to the extent that changing circumstances so demand and in accordance with a prescribed process. These are limited to major organisational changes and when the budget is adjusted.

Reporting performance includes an Annual Report to the relevant Council committees and to the community for comment and Quarterly reports at corporate, directorate and department level to the relevant Council committees.

### **5.3 Auditing and Oversight**

Internal Audit and Audit Committee (includes the Performance Management committee) review the OPM system for functionality, performance information and compliance. The Auditor General and Standing Committee on Public Accounts (SCOPA) reviews the Annual Report.

## **6. CITY SCORECARDS**

### **6.1 Five Year Corporate Scorecard 2012/13 TO 2016/17**

High level city wide service delivery breakdown is presented in this section. Service delivery targets and performance indicators will be cascaded into the Directorate, Departmental and Executive Director's Scorecards, which will be used for internal monitoring of the organisation.

The five Strategic Focus Areas (SFAs) are broken down into corporate objectives for the City and each corporate objective is further broken down into directorate objectives. The following corporate objectives have been identified:

- 1.1** Create an enabling environment to attract investment that generates economic growth and job creation
- 1.2** Provide and maintain economic and social infrastructure to ensure infrastructure-led growth and development
- 1.3** Promote a sustainable environment through the efficient utilisation of resources
- 1.4** Ensure mobility through the implementation of an effective public transport system
- 1.5** Leverage the city's assets to drive economic growth and sustainable development
- 1.6** Maximise the use of available funding and programmes for training and skills development
- 2.1** Expand staff and capital resources in policing departments and emergency services to provide improved services to all, especially the most vulnerable communities
- 2.2** Resource departments in pursuit of optimum operational functionality
- 2.3** Enhance intelligence -driven policing with improved information- gathering capacity and functional specialisation.
- 2.4** Improve efficiency of policing and emergency staff through effective training
- 2.5** Improve safety and security through partnerships
- 3.1** Provide access to social services
- 3.2** Ensure innovative human settlements for increased access to those that need them

- 3.3 Assess the possible sale or transfer of rental stock to identified beneficiaries, using established criteria.
- 3.4 Provide for the needs of informal settlements and backyard residences through improved services
- 3.5 Provide effective environmental health services
- 3.6 Provide effective air quality management & pollution (including noise) control programmes
- 3.7 Provide effective primary health- care services
- 3.8 Provide substance abuse outpatient treatment and rehabilitation services
- 4.1 Ensure responsiveness by creating an environment where citizens can be communicated with, and be responded to
- 4.2 Provide facilities that make citizens feel at home
- 5.1 Ensure a transparent and corruption-free government
- 5.2 Establish an efficient and productive administration that prioritises delivery
- 5.3 Ensure financial prudence, with clean audits by the Auditor General

## **6.2 2013/2014 Quarterly Corporate Scorecard**

The layout of the annual scorecard is as follows:

- I. Strategic Focus Area (SFA) or Pillar
- II. Objective
- III. Lead Directorate
- IV. Contributing Directorate
- V. Key Performance Indicator (KPI)
- VI. Baseline 2010/2011
- VII. Annual Target 2011/2012
- VIII. Quarterly Targets

The scorecard provides the quarterly corporate targets against which the City will be held accountable. Service delivery targets and performance indicators will be cascaded into the Directorate, Departmental and Executive Director's Scorecards (Section 57 employees), which will be used for internal monitoring of the organisation.

## **6.3 Scorecard Indicator Definitions for 2013/2014**

Definitions and the Standard / Norm / Benchmark of the indicators are provided to clarify the measurement. These are attached as Annexure A.

5 YEAR 2012 / 2013 CORPORATE SCORECARD 2012/13 TO 2016/17

**The City’s structure is broken down into Directorates with a further breakdown into departments. The MFMA requires that the SDBIP includes a breakdown of the monthly expenditure by vote, which equates to a Directorate in the City.**

**ANNEXURE A – CORPORATE SCORECARD INDICATOR DEFINITIONS FOR 2012/13**

INDICATOR	IDP	INDICATOR DEFINITION
1.A Percentage of Building plans approved within statutory timeframes (30-60 days)	1.1 (e)	<p>Percentage of applications approved within statutory timeframes (30 – 60 days). The objective is to improve approval time of the applications. This improvement is in the trend over the course of the five year term of the Integrated Development Plan, but targeted annually as the weighted average percentage achieved for the specific year. The approval of Building plans are measured within the statutory time frames of &lt; 500 m2 (30 days) and &gt; 500 m2 (60 days). Refer Section A7 of the National Building Regulations Act, Act 103 of 1977.</p> <p>Date and Time Stamped Data: A cut-off date of 3 days of the next month is allowed for the capturing of the previous month's production (i.e. 30th or 31st day of the month). Statistical data will be extracted on the 4th day, with a date and time stamp and reported accordingly and will be reported as a weighted average percentage for the two categories of building plans.</p>
1.B Percentage spend of capital budget	1.2 (b)	<p>Percentage reflecting year to date spend / Total budget less any contingent liabilities relating to the capital budget</p> <p>The total budget is the council approved adjusted budget at the time of the measurement.</p> <p>Contingent liabilities are only identified at the year end.</p>
1.C Rand value of capital invested in engineering infrastructure	1.2 (b)	<p>Investment into engineering infrastructure relates to growth, refurbishment and replacement of water, sanitation, electricity, solid waste (removal and disposal), roads, stormwater, transport and broadband infrastructure.</p>
1.D Percentage of operating budget allocated to repairs and maintenance	1.2 (b)	<p>Repairs and maintenance expressed as a percentage of the total operating budget.</p> <p>Maintenance is defined as the actions required for an asset to achieve its expected useful life. Planned Maintenance includes asset inspection and measures to prevent known failure modes and can be time or condition-based.</p> <p>Repairs are actions undertaken to restore an asset to its previous condition after failure or damage. Expenses on maintenance and repairs are considered operational expenditure.</p>

INDICATOR	IDP	INDICATOR DEFINITION
1.E Percentage spend on repairs and maintenance	1.2 (b)	<p>Percentage reflecting year to date spend (including secondary cost) / total repairs and maintenance budget  Note that the in-year reporting during the financial year will be indicated as a trend (year to date spend).  Maintenance is defined as the actions required for an asset to achieve its expected useful life. Planned Maintenance includes asset inspection and measures to prevent known failure modes and can be time or condition-based.</p> <p>Repairs are actions undertaken to restore an asset to its previous condition after failure or damage. Expenses on maintenance and repairs are considered operational expenditure.</p>
1.F Number of outstanding valid applications for water services expressed as a percentage of total number of billings for the service	1.2 (b)	<p>This indicator reflects the number outstanding valid applications expressed as a percentage of total number of active billings for the service_(where down payment has been received) for water services (where valid applications translate into an active account) for domestic customers as extracted from the City of Cape Town's SAP database.  Proxy measure for NKPI.</p>
1.G Number of outstanding valid applications for sewerage services expressed as a percentage of total number of billings for the service	1.2 (c)	<p>This indicator reflects the number outstanding valid applications (where down payment has been received) for sewerage services (where valid applications translate into an active account) expressed as a percentage of total number of active billings for the service. Billing equates to active contract accounts (sewerage services) for domestic customers as extracted from the City of Cape Town's SAP database.  Proxy measure for NKPI.</p>

INDICATOR	IDP	INDICATOR DEFINITION
1.H Number of outstanding valid applications for electricity services expressed as a percentage of total number of billings for the service	1.2 (c)	This indicator reflects the number outstanding valid applications (where down payment has been received) for electricity services (meter and prepaid) (where valid applications translate into an active account) expressed as a percentage of total number of active billings for the service. Proxy measure for NKPI.
1.I Number of outstanding valid applications for refuse collection service expressed as a percentage of total number of billings for the service	1.2 (c)	This indicator reflects the number outstanding valid applications (where down payment has been received) for refuse collection services (where valid applications translate into an active account) expressed as a percentage of total number of active billings for the service. Billing equates to active contract accounts kerbside refuse collection service) for domestic customers as extracted from the City of Cape Town's SAP database. Proxy measure for NKPI.
1.J Number of Expanded Public Works programmes (EPWP) opportunities created	1.2 (d)	This indicator measures the number of work opportunities created through the expanded Public Works Programme (EPWP).  An EPWP work opportunity is paid work created for an individual on an EPWP project for any period of time, within the employment conditions of the Code of Good Practice for Special Public Works Programmes.

INDICATOR	IDP	INDICATOR DEFINITION
1.K Percentage of treated potable water not billed	1.3 (b)	<p>The percentage of treated potable water not billed pertains to non-revenue water. This is the volume of potable water that is treated but is either lost or not billed for, expressed as a percentage of total potable water treated.</p> <p>It is calculated on a 12-month rolling basis in order to smooth out short-term fluctuations.</p> <p>The aim is to reduce the percentage of treated potable water not billed over the planned period and is reflected in the targets.</p>
1.L Number of passenger journeys on the MyCiti public transport system	1.4 (c)	<p>The takeup of the MyCiTi transport will be determined by the demand.</p> <p>Definition of a passenger journey is calculated from the first boarding of a bus at a feeder stop or trunk station to the last exit from a bus at a feeder stop or trunk station and includes any transfers between buses (single journey).</p>
1. M Percentage development of an immovable property asset management framework	1.5 (a)	<p>This indicator measures the percentage of the weighted average of the components below:</p> <ol style="list-style-type: none"> <li>1. Development of a comprehensive immovable property asset register</li> <li>2. Development of an immovable property asset management compliance framework</li> <li>3. Development of a centralised custodial role for immovable property asset management (communication)</li> <li>4. Identification of all strategic immovable property assets</li> <li>5. Development of a medium-term (five-ten year) strategy for the release of immovable property</li> <li>6. The strategic acquisition and holding (land banking) of new immovable property assets</li> </ol>
1.N Number of external trainee and bursary opportunities created	1.6 (a)	<p>This measures the number of learning opportunities created for the unemployed youth as a contribution to the job creation initiative and provision of real world of work exposure to graduates. This includes external bursaries awarded, in-service student training opportunities, graduate internships, learnerships and apprenticeships.</p> <p>There are two measures under this indicator.</p> <p>Measure (a) includes external bursars, in-service student trainees, graduate interns and learner (Learnership beneficiary).</p> <p>Measure (b) includes apprentices.</p>

INDICATOR	IDP	INDICATOR DEFINITION
2.A Community satisfaction survey (Score 1 - 5) - safety and security	2.4 (a)	<p>This indicator measures community perception in respect of the prevailing levels of general disorder in the City. “Anti-social behaviour and Disorder” are concepts frequently used in the law enforcement environment to describe the prevailing sense of lawlessness in a particular area and refers to minor crimes, by-law offences, nuisances and traffic offences which impacts directly on the quality of life of residents. The City’s Community Satisfaction Survey measures public perception around a number of these issues i.e. • Visible presence of traffic enforcement• Action taken against illegal land invasions• Action taken against illegal dumping• Acting on complaints relating to noise and other disturbances• By-Laws being enforced. Total score in respect of the section in the survey that relates to anti-social behaviour and general disorder. Questionnaires completed by residents as part of the City’s Community Survey which inter alia measures public perception around the following: • Traffic Enforcement • Illegal land invasion • Illegal dumping • Noise and disturbances• General enforcement of the City’s By-Laws.</p>
2.B Reduce number of accidents at five highest frequency intersections.	2.1 (a)	<p>This indicator measures the decrease of vehicle accidents in the five highest identified accident frequency locations. These locations are:</p> <ul style="list-style-type: none"> <li>• M7 x Voortrekker Rd</li> <li>• N7 x Bosmansdam Rd</li> <li>• Section Str x Koeberg Rd</li> <li>• Cannon Rd x Voortrekker Rd x Koeberg Rd (Maitland)</li> <li>• Victoria Rd x N2-West (Somerset West)</li> </ul> <p>(5% on 75 reduction from Q1 of 2008, i.e. 75) = 4 less accidents, therefore target for the Q1 = 71; (5% reduction from Q2 of 2008, i.e. 150) = 7, therefore target Q2 =143; (5% reduction from Q3 of 2008, i.e. 225) = 11, therefore target for Q3 = 214 and (5% reduction from a baseline of 300) = 15, therefore the target for Q4 =285</p>
2.C Percentage response times for fire incidents within 14 minutes from call receipt up to arrival	2.1 (a)	<p>Percentage response times for fire incidents within 14 minutes from call receipt up to arrival.</p>
2. D Number of operational specialised units	2.2 (a)	<p>This indicator will measure the number of specialised units in the three policing departments, i.e Metro Police, Traffic and Law enforcement that the Safety and Security Directorate manage to maintain as operationally active and fully capable of delivering on their specialised mandates.</p>

INDICATOR	IDP	INDICATOR DEFINITION
2.E Percentage of SmartCop system implemented	2.3 (a)	The indicator measures the percentage to which a unified information platform and call taking and dispatching system is implemented.
2.F Percentage staff successfully completing occupational specific training interventions	2.4 (a)	This indicator measures the percentage of members of the Metro Police, Traffic and Law Enforcement Departments that have undergone any legislatively prescribed training intervention that is directly relevant to the performance of their operational duties i.e. occupational specific training interventions.
2.G Percentage of Neighbourhood Watch satisfaction survey	2.5 (a)	This indicator will measure the percentage satisfaction with the City's assistance to Neighbourhood Watches.
3.A Number of social development programs implemented	3.1 (a)	<p>The indicator refers to the number of social developmental programs implemented. Seven programmes have been identified and each program will consist of a number of projects and interventions. The programs are listed below:</p> <ul style="list-style-type: none"> <li>- Youth development</li> <li>- ECD training</li> <li>- Social entrepreneurship</li> <li>- Vulnerable groups (senior citizens, gender and disability)</li> <li>- Street people</li> <li>- Substance abuse</li> <li>- Poverty alleviation and reduction</li> </ul>
3.B Number of recreation hubs where activities are held on a minimum of 5 days a week	3.1 (a)	A Recreation Hub is a community facility, which focuses on implementing a variety of sport and recreation activities for at least five days a week, for at least 3 hours per day. Activities will target all sectors of the community namely children, youth and adults. Activities will be implemented by staff, volunteers, NGO's, clubs and federations.

INDICATOR	IDP	INDICATOR DEFINITION
3.C Number of housing opportunities provided per year	3.2 (d)	<p>a. Sites are any property providing a municipal service on an individual basis to a household including the provision to households in multi storey units</p> <p>b. Top structures are any build structure providing shelter to a household by means of any National Housing Programme</p> <p>c. Others are the number of Existing rental stock units undergoing major upgrading and any number of households provided with shared services in the Backyarder and Reblocking programmes.</p> <p>A housing opportunity is access to* and or delivery of one of the following Housing products: (A) Subsidy Housing (BNG), which provides a minimum 40m<sup>2</sup> house; (B) Incremental Housing, which provides a serviced site with or without tenure; (C) Rental Housing, which is new Community Residential Units, upgrading and re-development of existing rental units and Hostels; (D) People’s Housing Process is beneficiaries who maximise their housing subsidy by building or organising the building of their homes themselves; (E) Land Restitution includes land approved by Council or Court decisions to valid claimants; (F) Social Housing is new rental units, delivered by the City’s Social Housing partners; (G) GAP Housing is a Serviced plot, a completed Unit for sale or Affordable units for sale; (H) It is the reconfiguration of an existing informal settlement to allow improved access and levels of services. - Reported figures are based on a re-configured lay-out plan per settlement.</p> <p>*Access to: is as contemplated in Section 26 (1) of the Constitution of the Republic of South-Africa 1996 i.e. “Everyone has the right to have access to adequate housing”</p>
3. D Number of Registration of Transfers in historical projects submitted	3.2	

INDICATOR	IDP	INDICATOR DEFINITION
3. D Number of Deeds of Sale Agreements signed with identified beneficiaries on transferrable rental units	3.3 (a)	This indicator refers to the registration of transferrable rental stock to qualifying tenants. The evidence for this indicator will be Signed Sales Agreements
3.E Improve basic services		
Number of water services points (taps) provided	3.4 (b)	<p>This indicator reflects the number of taps provided in informal settlements and for backyarders in City rental stock (pilot) during the period under review. Certain taps may however have been vandalised or removed after provision.</p> <p>- Backyarder provision based on one tap per backyard property which could be serving several households.</p>
Number of sanitation service points (toilets) provided	3.4 (b)	<p>This indicator reflects the number of toilets provided in informal settlements and for backyarders in City rental stock (pilot) during the period under review. Certain toilets may however have been vandalised or removed after provision.</p> <p>- Backyarder provision based on one toilet per backyard property which could be serving several households.</p>
Number of informal settlements receiving a door-to-door refuse collection and area cleaning service	3.4 (b)	<p>This indicator reflects the number of informal settlements receiving a weekly door-to-door refuse removal collection service and ongoing area cleaning (litter picking and illegal dumping removal) for the period under review.</p> <p>The cleaning and collection of domestic refuse in informal settlements is done through contract services, employing local labour. Three-year contracts are awarded to a legitimate main contractor through the procurement tender process.</p>

INDICATOR	IDP	INDICATOR DEFINITION
<p>Percentage of known informal settlements that achieve each of the four different standards of cleanliness</p> <p>Level 1; Level 2; Level 3 and Level 4.</p>	3.4 (b)	<p>The Solid Waste Management Department has developed a pictorial "Standard of Cleanliness" to be able to hold the service provider in informal settlements to a level or standard of service provision. The "Standard of Cleanliness" is a qualitative performance management tool. Level 1: Desired standard of cleanliness; Level 2: Fair / reasonable standard of cleanliness; Level 3: Unacceptable standard of cleanliness and Level 4: Totally unacceptable standard of cleanliness.</p>
3.F Number of electricity subsidised connections installed	3.4 (b)	<p>This indicator reflects the number of subsidised connections installed per annum in informal settlements, rental stock backyarders (pilot) and low cost housing.</p>
3.G Percentage compliance with drinking water quality standards	3.5 (a)	<p>Measure of potable water sample pass rate according to the SANS 241 standard.</p>
3.H Number of days when air pollution exceeds RSA Ambient Air Quality Standards	3.6 (a)	<p>Description of indicator: Any day when any one of the criteria pollutants at any one of up to a maximum of 13* air quality monitoring stations in the City exceeds RSA Ambient Air Quality Standards. Layman Description: The number of days where one of the identified air pollution particles is above the levels set by the RSA Ambient Air Quality Standards.</p>

INDICATOR	IDP	INDICATOR DEFINITION
3.I New Smear Positive TB Cure Rate	3.7 (a)	<p>The indicator measures the number of new smear positive pulmonary TB cases started on treatment on whom there is bacteriological confirmation that the patient has responded to treatment and can be considered cured:            Numerator: Number of new smear positive pulmonary TB cases started on treatment on whom there is bacteriological confirmation that the patient has responded to treatment and can be considered cured            Denominator: Number of new smear positive pulmonary TB cases</p> <p>The percentage indicates the previous financial years figures e.g.: for 2012/13 it will be financial year 2011/12 etc.</p>
3.J Number of New Clients screened at the Substance Abuse Outpatient Treatment Centres	3.8 (a)	<p>The number of new clients, seeking help for substance abuse, being screened in a first interview at the City's outpatient treatment sites.</p>
4.A Percentage adherence to Citywide service standard based on all external notifications	4.1 (a)	<p>Measure the percentage adherence to Citywide service standard based on all external notifications.</p>
4.B Customer satisfaction survey (Score 1 -5 Likert scale) - community facilities	4.2 (a)	<p>A statistically valid, scientifically defensible score from the annual survey of residents' perceptions of the overall performance of the services provided by services at community facilities, measured by calculating the average of the responses to a number of survey questions related to community facilities.</p> <p>The measure is given against the non-symmetrical Likert scale ranging from :            1 being Poor; 2 being Fair; 3 being Good; 4 being Very Good and 5 Excellent</p> <p>The objective is to improve the current customer satisfaction level measured through a community satisfaction survey (Score 1 -5) from the 3.1 baseline set for 2010/11, to a 3.2 target in 2012/13. The annual improvement is calculated by determining the difference between the average customer satisfaction scores of the different financial years.</p>

INDICATOR	IDP	INDICATOR DEFINITION
5.A Number of municipal meetings open to the public	5.1 (a)	The indicator measures the number of municipal meetings open to the public to maintain transparency in the day to day governance of the municipality.
5.B Percentage of employees who are truly motivated and will go above and beyond the call of duty, as measured in a biennial Staff Engagement Survey	5.2 (b)	<p>"Fully Engaged" staff are defined as "Employees who are truly motivated and will go above and beyond the call of duty to delight your customers. They are the best ambassadors to the marketplace!" - Ipsos -Markinor. This indicator measures the % staff who fall into this category and is based on the biennial Staff Engagement Survey. The unit of measure is the percentage as determined in a staff satisfaction survey. The frequency of measurement is two yearly.</p> <p>Formula: The formula is the proprietary copyright of the Independent Service Provider, Ipsos-Markinor. It is based on the responses to the survey which they have undertaken.</p> <p>Public Sector score = 23%; private sector score = 33%</p>
5.C Community satisfaction survey (Score 1 -5) - city wide	5.2 (c)	<p>A statistically valid, scientifically defensible score from the annual survey of residents of perceptions of the overall performance of the services provided by the City of Cape Town.</p> <p>The measure is given against the non-symmetrical Likert scale ranging from : 1 being Poor; 2 being Fair; 3 being Good; 4 being Very Good and 5 Excellent</p> <p>The objective is to improve the current customer satisfaction level measured through a community satisfaction survey (Score 1 -5) from the 2,4 baseline set for 2007/2008, to a 2,8 in 2012/13. The improvement is calculated by taking the difference between the different financial years.</p>

INDICATOR	IDP	INDICATOR DEFINITION
5.D Percentage of people from employment equity target groups employed in the three highest levels of management in compliance with the City's approved employment equity plan	5.2 (d)	The indicator measures the percentage of people from employment equity target groups employed in the three highest levels of management in compliance with the City's approved employment equity plan. Each Directorate contributes to the Corporate achievement of targets and goals by implementing its own objectives of quantitative and qualitative goal setting.
5.E Percentage budget spent on implementation of WSP for the City	5.2 (e)	<p>A Workplace Skills Plan is a document that outlines the planned education, training and development interventions for the organisation. Its purpose is to formally plan and allocate budget for appropriate training interventions which will address the needs arising out of Local Government's Skills Sector Plan, the City's strategic requirements as contained in the IDP and the individual departmental staffing strategies and individual employees' PDPs. The WSP shall also take into account the Employment Equity Plan, ensuring incorporation of relevant developmental equity interventions into the plan.</p> <p>Formula: Measured against training budget.</p>
5.F Opinion of the Auditor General	5.3 (a)	<p>This indicator measures good governance and accounting practices and will be evaluated and considered by the Auditor General in determining his opinion. An unqualified audit opinion refers to the position where the auditor having completed his audit has no reservation as to the fairness of presentation of financial statements and their conformity with General Recognised Accounting Practices. This is referred to as "clean opinion".</p> <p>Alternatively in relation to a qualified audit opinion the auditor would issue this opinion in whole, or in part, over the financial statements if these are not prepared in accordance with General Recognised Accounting Practices or could not audit one or more areas of the financial statements. Future audit opinions will cover the audit of predetermined objectives.</p>

INDICATOR	IDP	INDICATOR DEFINITION
5.G Opinion of independent rating agency	5.3 (a)	<p>A report which reflects credit worthiness of an institution to repay long-term and short-term liabilities. Credit rating is an analysis of the City's key financial data performed by an independent agency to assess its ability to meet short- and long-term financial obligations.</p> <p>Indicator standard/Norm/Benchmark The highest rating possible for local government which is also subject to the Country's sovereign rating</p>
5.H Ratio of cost coverage maintained	5.3 (a)	Total cash and investments (short-term) less restricted cash to monthly operating expenditure.
5.I Net Debtors to Annual Income [Ratio of outstanding service debtors to revenue actually received for services]	5.3 (a)	This is a calculation where we take the net current debtors divided by the total operating revenue.
5.J Debt coverage by own billed revenue	5.3 (a)	This is a calculation where we take the total debt divided by the total annual operating income

## 1. EXECUTIVE SUMMARY

### 1.1. PURPOSE AND SERVICE MANDATE OF THE DIRECTORATE

The overall purpose and service mandate of the Economic, Environment and Spatial Planning Directorate takes cognisance of the developmental duties of municipalities as derived from Section 152 and 153 of the Constitution which requires local government in its planning processes “to give priority to the basic needs of the community, and to promote the social and economic development of the community; and (b) participate in national and provincial development programmes”.

The Directorate operates within various institutional frameworks and the core functions of the Directorate are regulated by and controlled (but not limited) by the statutes and legislation, attached as ***Appendix 1***.

**In addition to a number of cross-cutting and support units, the directorate is made up of the following core departments:**

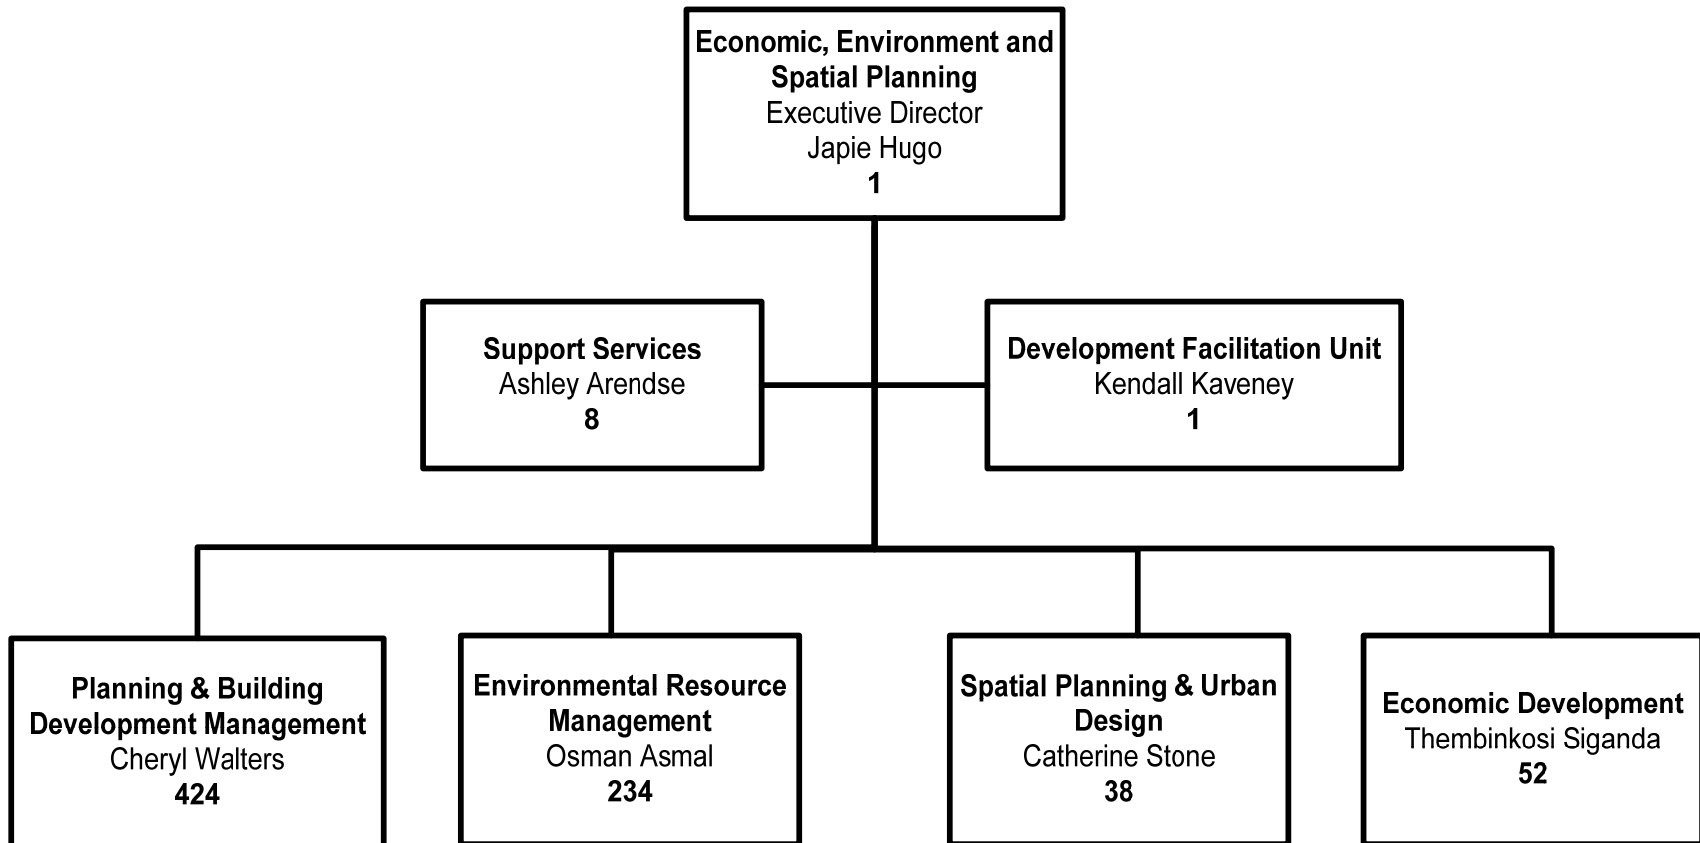

- Economic Development
- Spatial Planning and Urban design
- Planning and Building development Management
- Environment and Resource Management

**The Directorate's Strategic and Operational Service Delivery Objectives are:**

<b>Strategic</b>
To lead and be dynamic in shaping the City's sustainable environment by implementing economic growth and development strategies through the Spatial Development plans in a space that realises the requirements of the South African Constitution, Municipal Systems Act and the Integrated Development Plan in order to ensure improved quality of life for all.
To mainstream the City's Economic Growth Strategy and ensure alignment with the plans of both internal, and external economic development agents and partners.
To develop a Green Economic Policy and Framework to ensure that the City optimises economic growth and job creation.
To ensure that the City's unique economic and social asset - its natural environment - is managed, protected and integrated into the urban landscape, and optimised for maximum social and economic benefit.
To improve both the quality and affordability of life.
<b>Operational</b>
To provide a service to the developers and property owners of Cape Town which is efficient and effective and continues to reduce the turnaround time of the approval processes for both land use management applications and building development on an administrative fair basis.
To improve the enforcement aspects of the City's building development and land use regulation functions. To drive coordinated and integrated environmental enforcement across the City.
To lead the planning law reform processes by implementing and continuously reviewing the new Cape Town Zoning Scheme as well as the drafting of the planning by-law.
To ensure the City's environmental compliance with relevant environmental legislation by using best practices, environmental technologies and processes.
To formulate a City wide climate change response that addresses issues of climate change mitigation, climate adaptation and resilience, and energy efficiency through the implementation of the Energy and Climate Action Plan (ECAP), Climate Adaptation Plan of Action (CAPA) and the development of a City Climate Change Policy.
To create an environment which is conducive to growth of business in the informal economy?

A diagram of the Directorate's departments and unit of senior management structure is displayed below:

## **2. Highlights of the Directorate performance in the “ Annual Report 2011/2012”**

- The Cape Town Spatial Development Framework (CTSDF) was approved by Council on 28th May 2012 in terms of the Municipal Systems Act. This newly updated CTSDF was also adopted by the Western Cape Minister of Environmental Affairs & Development Planning in May 2012 in terms of the Land Use Planning Ordinance. It has replaced the previous CTSDF that was adopted by Council in June 2011. Integrated district-level spatial development plans (SDPs), which include environmental management frameworks (EMFs), have been prepared for Cape Town’s eight planning districts. These are in line with, and informed by, the citywide spatial development framework. In early 2012, the City also approved a Densification Policy in support of its IDP objectives and the objectives of the CTSDF. The CTSDF has replaced the out-dated Guide and Structure Plans and, in so doing, has streamlined the policy environment within which city planning decision-making takes place. The CTSDF and the SDPs will also inform the preparation of future annual IDP reviews as well as the development of future five-year IDPs.
- The City has adopted a single Cape Town Zoning Scheme (CTZS) and new converted zoning map to replace the previous scheme that was becoming increasingly less effective. The new scheme involves a move from the previous 425 zones contained in 27 schemes, to a total of 35 base zones. This conversion was undertaken according to the principle of ‘best fit’ between the old and the new zone of a property and in a way that ensures no significant loss of property rights. This unified zoning scheme will introduce new zoning tools and mechanisms to make land use control more effective and to streamline administrative procedures. Mechanisms are also included to link the policy environment (such as SDPs) with the regulatory environment. This single zoning scheme will ensure equal opportunities for all property owners and residents, and will replace the last remnants of apartheid planning legislation.
- A new Municipal Planning by-law. During the period under review, the City gave its approval for the process of drafting of a municipal planning by-law to begin. The current planning legislation regulating the use of land - the Land Use Planning Ordinance (no 15 of 1985) (LUPO) - is considered to be partially in conflict with the planning framework as set out in the Constitution. To address this, the new planning by-law will make clear provision for most of the procedural and decision-making powers as set out in the LUPO, and improve on such procedures and decision-making mechanisms. This is also considered to be the ideal opportunity to reconsider the inefficiencies in the current laws, thereby reducing much of the red tape currently encountered in this regard.
- A substantial number of policies have been reviewed, and as a result, more than 260 archaic policies have been rescinded, removing unnecessary red tape by simplifying the decision-making environment.

- Finalised 83% of land use management applications within statutory timeframes.
- Finalised 69.32% of building plans within statutory timeframes.
- The Directorate is currently in the process of developing a new electronic Development Application Management System (Workflow and Document Management) for all development applications in order to improve the efficiency within Departments.
- Approved Cape Town Activa Initiative - an entrepreneurial eco-system development project to coordinate the enterprise and employment support environment. 75 Enterprise Development and Employment Support organisations are now jointly promoting their resources and events on the online portal [www.capetownactiva.com](http://www.capetownactiva.com). This has simplified and unified the previously fragmented support environment and offers citizens and small businesses a single point of contact.
- Supporting the informal economy. Economic opportunity in any particular location is closely related to the physical state of available space and infrastructure. In order to support Cape Town's important informal economy, the Directorate runs programmes to facilitate productive open spaces for the benefit of emerging entrepreneurs. These also seek to maximise the use of public infrastructure for the purpose sustainable economic production. Through these programmes, trading bays have been made available to informal traders, emerging entrepreneurs have access to affordable trading premises, and a substantial number of permanent and temporary job opportunities have been created. Furthermore, in partnership with Soil for Life, training and/or income generating opportunities in food gardening have been created.
- Enabling the City's energy efficiency. To achieve such energy efficiency improvement, the Directorate's Energy and Climate Change Unit runs a building retrofit programme. As part of this programme, preliminary audits have been conducted on 16 large administration buildings. During the period under review, detailed audits and energy efficiency retrofits of four of these buildings in Plumstead, Ottery, Fezeka and Durbanville were undertaken. These included the installation of efficient lighting and lighting controls, power factor correction units, solar water heaters, and air conditioning thermostat controllers - all coupled with an extensive building occupant behaviour change programme. The project, which was the first municipal energy efficiency performance guaranteed contract implemented by a municipality in South Africa, was undertaken by the energy service company Shared Energy Management (SEM). 44 clinics have been retrofitted with solar water heaters and is currently undertaking a lighting retrofit of 5 000 lights in a further 14 City buildings, including libraries, clinics, workshops and administrative buildings. This has been made possible through funding from the National Department of Energy's 'Energy Efficiency and Demand Side Management' (EEDSM) programme. The savings on this project will likewise be guaranteed by the energy services company, and will see the City save a further 547MWh of lighting energy annually.
- The Directorate also remains committed to educating younger citizens on the importance of energy efficiency. During the year under review, the City hosted an energy efficiency educational programme that took the form of a theatre production named "Raiders of the Blackout School Tour". This interactive production took the City's energy efficiency message to learners and

teachers at 20 Cape Town schools. The City's Smart Living Handbook continues to deliver positive results. This publication was updated during the year under review and a Smart Buildings Handbook was also produced to promote the sustainable use of resources in the design, construction, renovation, and operation of buildings and developments. These publications were distributed to numerous private companies, government institution and residents.

- The Directorate's Energy and Climate Change Unit published two reports in the 2011/12 financial period: the Moving Mountains Report, which covers all the projects in Cape Town's Energy and Climate Action Plan, and the Cape Town State of Energy and Energy Futures Report.

### **3. The Economic Growth Strategy (EGS)**

In the initial stage (2012/2013) of the Economic Environment and Spatial Planning Directorate, cognizance was taken that it was a fairly new directorate with many challenges, in both its internal and external environment. The integration of department activities has also been a gradual process. In 2013/2014, the Directorate will be supporting the City Strategy (that consists of the Economic Growth Strategy and Social Development Strategy aligned with the 5 Strategic Focus areas of the IDP), and set goals to achieve the City Strategy. The Directorate will also take direction from the One Cape 2040 and the City Development Strategy that was developed in partnership between the Provincial Government of the Western Cape, the City of Cape Town and the Economic Development Partnership.

The EGS provides the strategic direction for the economic goals of the organisation and its partners over the short to medium term. "The principal objective of the Economic Growth Strategy (EGS) is to grow the economy and create jobs - the overarching objective of the Opportunity City.

Previously the emphasis or focus on economic activity has been on the Economic Development Department. The City has now realised that **all** its departments can contribute to unlock the potential of economic activity, and the Directorate fully support this new ideal." (City Strategy document- Strategic Policy Unit/ Mayor's office).

#### **The Economic Growth Strategy is underpinned by 5 strategic areas (strategies) namely:**

- Building a globally competitive city through institutional and regulatory changes- Competitiveness strategies
- Providing the right basic service, transport and ICT infrastructure- Infrastructure Strategies
- Utilising work and skills programmes to promote growth that is inclusive- Inclusion Strategies
- Leveraging trade and sector development functions to maximum advantage- Trade and Sector development strategies
- Ensuring that growth is environmentally sustainable in the long-term- Sustainable growth Strategies

**With this in mind, the Directorate must be able to respond or to gear its activities towards the following objectives amongst others:**

1. Review its grant allocations towards addressing Cape Town's economic needs
2. Co-ordinate local development programmes to enhance the informal sector
3. Provide a business advisory service : Activa
4. Revise service level agreements to support growth sectors
5. Investigate options for Energy diversification and promote energy efficiency
6. Protect environmental assets and sustain expanding the eco-tourism sector.

#### **4. Social Development Strategy**

The City Development Strategy document also places strong emphasis on addressing poverty, inequality and social ills while providing for the participation of people in their own development. The SDS sets out what the City is doing, plans to do to and articulates where external stakeholders, such as contracted service providers and organisations receiving Section 67 Grants, shall contribute to creating an opportunity, safe, caring, inclusive city that allows people to reach their potential.

In this light, the directorate will also play a pivotal role to be an enabler to social development by addressing the problem of "People who are poor often engage in entrepreneurial activities in order to support themselves and their families "

**It can address the problem by:**

1. Supporting the entrepreneurship activity in the formal and informal sector through programmes such as Activa which will teach new entrepreneurs the skills to aid them in business and planning procedures;
2. Enable people who are poor to utilise informal trading as a livelihood strategy;
3. Provide people who are poor with the relevant skills that they can use to access job opportunities.

## **5. LINKAGE TO THE IDP**

### **5.1 Western Cape Economic Development Partnership: Strategic focus area 1: Opportunity City: (Programme 1.1(a))**

The Directorate will continue to support the Western Cape Economic Development Partnership (WCEDP) as it moves from the establishment phase to operational phase.

“With City support and input, the EDP will play an instrumental role in facilitating the formation of the regional economic partnership so that the growth potential of the city and region can be maximised. It is envisaged that this partnership will include stakeholders from across the Cape Town city region including from Saldanha, Swartland, Drakenstein and Stellenbosch. The aim of the partnership will be to identify catalytic projects that will support and enhance economic development and job creation activities across the region, recognising that economic development does not fall neatly within administrative boundaries. Examples of such projects include investment in broadband infrastructure, area revitalisation (for example the Atlantis revitalisation scheme and the Saldanha IDZ), skills development, improvement of the business environment, and sector development”.( Draft IDP document”- 2013/2014 review).

### **5.2 Growth Management: Strategic focus area 1: Opportunity City: (Programme 1.1(e))**

“In May 2012, the Cape Town Spatial Development Framework (CTSDF) was approved as part of the IDP. The CTSDF will guide the spatial form and structure of Cape Town (the way in which the space available is used for urban growth) in the future. “The IDP needs to be supported by a 15-year growth management plan that provides a link between the CTSDF and medium-term sector plans, master plans, and strategic and asset maintenance investment priorities. This growth management plan needs to align investment locations and establish clear targets and programmes for capital expenditure.

It should be reviewed annually when the IDP is reviewed. For the growth management plan to be effective, it needs to be developed in collaboration with all spheres of government, surrounding municipalities, the private sector and communities.

**The objectives of the growth management plan will be to:**

- Identify and spatially depict sector-linked interventions and investment;
- Harmonise spatial and infrastructure forward planning;
- Determine the preferred phasing of the city's spatial development;
- Identify infrastructure hot spots, where enhancement of development rights may need to be limited in the short to medium term, and establish monitoring mechanisms to review their status;
- Prioritise and align the priority action areas spatially and sectorial;
- Identify the cross-sector programming and project-level planning and budgeting required to support the implementation of the prioritised action areas;
- Identify the policies, the economic, administrative/regulatory and financial measures and/or institutional arrangements that need to be investigated or introduced to support the implementation in the priority action areas;
- Align the City's budget spatially and cross-sectorial; and
- Align the City's capital budget with that of surrounding municipalities and spheres of government.

In the preparation of the CTSDP, a number of short to medium-term priority action areas of metropolitan significance were identified. These need to be supplemented by the priority action areas identified in the district-based Spatial Development Plans (SDPs), aligned with sector-based strategic and asset maintenance investment priorities, and prioritised through the IDP and 15-year growth management plan." ((Draft IDP document"- 2013/2014 review).

**5.3 One Cape 2040: City Development Strategy implementation: - Strategic focus area 1: Opportunity City P1.1 (g)**

The City has recognised that Cape Town's future development requires a longer-term i.e. 20 – 30 year strategic plan, underpinned by a visionary approach focused on sustainability. Cape Town needs a longer term plan in order to attract investment and provide guidance for development and change by all stakeholders. The Directorate was a key role player in the formulation and facilitation of the preparation of a City Development Strategy (CDS) for the future growth and development of Cape Town – Cape Town 2040. The City Development Strategy (CDS) and implementation plan were approved by Council on 31st October 2012 (C 63/10/12), and is seen as the overarching guiding strategy that will inform, as well as be informed by

other City strategies and frameworks including the Spatial Development Strategy, and the Economic Development Strategy (EDS).

From 2013/2014 onwards, One Cape and CDS are being taken forward by the Strategic Policy Unit in the Mayor's Office – as part of the New Way of Working. The CCT CDS implementation plan is aligned to the Economic and Social Clusters (of which the directorate is part of) within the city and has broad timeframes. The implementation of the CDS will be directed, co-ordinated and managed through the CCT cluster, transversal and governance framework.

## **6. Performance Impact: An overview of the departments functions and key projects:**

### **6.1 Department Planning & Building Development Management (PBDM):**

The City Of Cape Town as a developing city has an obligation, in terms of applicable law and through its urban planning and building development management system, to create a safe and healthy built environment that addresses the needs of its various communities. The primary purpose of the urban planning and building development management system is to create an effective, efficient and functional built environment in Cape Town, which promotes and facilitates sustainable development through equitable and effective service delivery.

Property development have for a number of years been a substantial contributor to the construction sector. The level of property investment has declined substantially since 2006 (in the order of 40%) and is currently in a consolidation and recovery phase. The City of Cape Town, through ongoing business improvement initiatives, has consistently achieved its application turn around targets for the past number of years including the phase of the recession which is being experienced globally.

A key outcome of the department will include “the streamlining of the planning process, so that the City can fully support and assist everyone who wishes to engage in development – from large scale developers to smaller entrepreneurs and individual citizens

***The 3-5 major planned projects for 2013/2014 of the department are outlined in Appendix 2. All other additional projects will be outlined in the departmental business plan of the department.***

## **6.2 Development Facilitation in the office of the Executive Director (DFU)**

### **Development Facilitation Unit Overview:**

Whilst the Development Facilitation Unit (DFU) has a number of strategies to achieve development outcomes, it has two overarching areas of key focus namely:

- a) The addressing of infrastructure incapacity which prevents or retards development, and;
- b) The facilitation of major and strategic development proposals which require the DFUs intervention mainly with regard to the removal of application bottlenecks.

## **6.3 Spatial Planning Urban Design Department**

The Cape Town Spatial Development Framework (CTSDF) and 8 District Spatial Development Plans (SDPs) are now approved. These in addition to the Urban Design Policy (once approved) lay the foundations of a coherent, policy driven decision making framework within the arena of spatial planning & urban design.

In the year ahead the Department will continue to focus on addressing information and policy gaps such as the City's understanding of the space economy of Cape Town and development opportunities, trends and infrastructure capacities and triggers that need to inform the modelling needed for the development of the City's growth management strategy. The Department will play a key facilitation role in preparing a growth management strategy for Cape Town. It will also undertake detailed planning and design work for local areas prioritized in the CTSDF, District SDPs and supportive of strategic corporate programmes, specifically preparing development opportunities for affordable housing on well-located land and investigating optimum mechanisms to promote transit-oriented development.

In terms of SPUD's traditional role in driving a capital programme the department is shifting to use this programme to leverage inter-departmental partnerships from project inception to ensure a more sustainable investment programme aligned to that of the Sports & Recreation, City Parks and City's Integrated Rapid Transit (IRT) and non-motorised transport (NMT) investment programmes. Capital programme implementation resources and support will continue to be provided to all Departments within the Directorate. The department will also track its Mayor's Special Job creation as well as EPWP targeted commitments.

***The 3-5 major planned projects for 2013/2014 of the department is outlined in Appendix 2 .All other additional projects will be outlined in the departmental business plan of the department.***

## **6.4 Environmental Resource Management Department**

It is important to note that the natural environment is one of Cape Town's most important economic assets. Specifically, in the 2013/2014 Financial Year the main focus of Environmental Resource Management Department will be, amongst others, the review and revision of the City's Integrated Metropolitan Environmental Policy.

In 2009 the Council approved the City's Integrated Metropolitan Environmental Policy (IMEP) Environmental Agenda for 2009-2014, which sets seventeen defined goals, responsibilities and performance targets in order to ensure increased environmental performance by making environmental management an integral part of all the City's operational functions. In 2013/2014, the department endeavour to finalise and meet the IMEP target of conserving 60% of the Biodiversity Network by 2014 and towards publishing the Biodiversity Network as a Bioregional Plan. The Department will also continue to manage the nature reserves in such a way that they provide benefits to the local community, including increased marketing as local and international tourist destinations.

ERM continues to strive for excellence in the management of the City's exceptional natural and heritage assets, and in so doing, will finalise negotiations with Heritage Western Cape to receive additional heritage management competencies in 2013/2014. The department will continue with the implementation of the energy efficiency programmes in Council operations and intend to roll- out a ceilings retrofit programme in existing RDP houses. In order to better streamline and mainstream environmental management in Cape Town, ERMD works with a variety of partner organisations, including other spheres of government, NGOs and the academic and private sectors. ERMD also works closely with other relevant line functions in an advisory role. The department will also track its Mayor's Special Job creation as well as EPWP targeted commitments.

***The 3-5 Major planned projects for 2013/2014 of the department is outlined in Appendix 2. All other additional projects will be outlined in the departmental business plan of the department.***

## **6.5 Economic Development Department**

The Economic Development department aims to build an economy that contributes to improving the quality of life of individuals/communities. The department has a network of 7 offices that enables it to work within districts of the metropolitan area on local economic development challenges that require smart partnerships and local input.

For 2013/ 2014 the major focus of the department will be towards the integrated public markets programme which will identify and develop new markets and other informal trading spaces and will involve the creation of viable economic hubs for the informal economy through utilising public space. Through Cape Town Activa (CTA) the department aims to facilitate entrepreneurship and business activity in the local economy through the development of an entrepreneurship and employment support ecosystem that co-ordinates a multi-stakeholder network and provides a single point of contact that will facilitate entrepreneurs and individuals looking for employment support. The department also aims to develop a green economy framework that provides a means to integrating the green economy into the traditional economy.

***The 3-5 Major planned projects for 2013/2014 of the department are outlined in Appendix 2. All other additional projects will be outlined in the departmental business plan of the department.***

## **7. FINANCIAL INFORMATION :**

**NOTE:** The draft budget is only going to Council end March 2013; therefore info can only be made available as from 1 April 2013.

### **7.1 Risks:**

Management, with the assistance of the Integrated Risk Management (IRM) Department, has applied their minds and due care taken to ensure that risks which could impact on them not achieving the Department's objectives are identified, addressed and managed on a day to day basis in accordance with the City's approved IRM Policy and IRM Framework. Risk Registers are thus utilised as a management tool in order to manage all risks of the Department. The risks identified and rated, equal or above the Council approved rating (appetite) will be reported to the EMT, as well as to the relevant MayCo member on a six monthly basis."

**7.2 The Directorate Capital programme** is split in terms of the following Key Priorities identified by the Mayor: The 2013/14 draft capital budget for the directorate amounts to R59.7 million consisting of:

<b>City's Key Priority Areas</b>						
Land Acquisition	Redress projects in previously disadvantaged wards	Planning, DFU & other incentives	Human Settlement	EPWP	Energy Retrofits	IRT
R14.9m	R15.6m	R14.5m	R2.8m	R1m	R3m	R0.7m
<b>Other Directorate Priorities</b>						
	Heritage Projects	Nature Conservation	E-Filing System	E-Permitting System	Office Equipment	
	R1.4m	R2.6m	R1.2m	R0.6m	R0.6m	

### 2013/14 Draft Operating Revenue Budget Summary: EESP

**11. APPENDICES:**

**Appendix 1** Institutional Frameworks That Affect the Operations of the Directorate

**Appendix 2** Major planned projects for 2013/2014 of the Directorate departments.

## **APPENDIX 1**

### **1.1. INSTITUTIONAL FRAMEWORKS THAT AFFECT THE OPERATIONS OF THE DIRECTORATE**

The core functions of the Directorate are regulated and controlled by the following statutes and legislation, but are not limited to that which is contained on the list below:

- **Land Use Planning Ordinance, No 15 of 1985 (LUPO) & LUPO Scheme Regulations**
- **National Environment Management Act, No 107 of 1998 and Regulations (NEMA)**
- **National Heritage Resources Act, No 25 of 1999 (NHRA)**
- **National Building Regulations and Buildings Standards Act, No 103 of 1977**
- **Scheme Regulations promulgated into Black Communities Development Act, No 4 of 1984**
- **Less Formal Townships Establishment Act, No 113 of 1991 (LEFTEA)**
- **Removal of Restrictions Act, No 84 of 1967**
- **Physical Planning Act, No 125 of 1991**
- **Outdoor Advertising and Signage By-law, No 5801 of 2001**
- **Promotion of Administrative Justice Act, No 3 of 2000 (PAJA)**
- **Municipal Systems Act, No 32 of 2000**
- **Local Government Municipal Planning & Performance Management Regulations 2001**
- **Spatial Data Infrastructure Act, No 54 of 2003 (SDI)**
- **Land Survey Act, No 8 of 1997**
- **National Environmental Management: Integrated Coastal Management Act**
- **National Environmental Management: Biodiversity Act**
- **National Environmental Management: Protected Areas Act**
- **Conservation of Agricultural Resources Act**
- **Business Act, 71 of 1991**
- **National LED framework**

## **APPENDIX 2**

The following table below will indicate the major projects (cross-cutting) in some instances that departments will prioritise in 2013/2014:

<b>Major / and or Cross-cutting Projects</b>	<b>Impact in CITY</b>	<b>Requires support from EESP depts./ and or other directorates</b>	<b>Assist or support provided to projects with key cross-cutting and partnership:</b>	<b>Lead Department</b>
Customer segmentation survey (New)	✓			PBDM ) (SFA.5 )
Draft a Planning by-law (New) <b>Programme 1.1 (e) - Planning and regulation programme</b>				PBDM (SFA 1& SFA.5 )
Assist in the development of local area development plans to stimulate economic development			✓	PBDM (SFA.1)
Internal system enhancements of the Integrated Planning Operational System (IPOS) (3 year project) <b>Programme 1.1 (e) Planning and regulation programme</b>		✓		PBDM (SFA.1& 5 )
Draft Economic Areas Management Plan: trends, roles and optimization report prepared		✓		SPUD (SFA.1 )

Major / and or Cross-cutting Projects	Impact in CITY	Requires support from EESP depts./ and or other directorates	Assist or support provided to projects with key cross-cutting and partnership:	Lead Department
Draft 1 Kapteinsklip Station precinct (contextual analysis complete by June 2013) and Mnandi Coastal Node Framework prepared <b>Programme 1.1 (e)</b> - Planning and regulation programme		✓		SPUD (SFA.1)
Salt River Market Revitalisation project		✓		SPUD (SFA.1)
Traders plan for the Nyanga Urban Node Upgrade complete		✓		SPUD (SFA.1)
Mass roll-out of Solar Water Heaters across the city, in line with strategy currently under development <b>P3.4(d)</b> Energy services programme	✓	✓	✓	ERM (SFA.3)
Working with CapeNature and other partners on the development of the Dassenberg coastal catchment nature reserve (final name is still to be determined)			✓	ERM

Development of a single Green Sustainability Brand for the City across all line functions		✓		ERM

## **DIRECTORATE: CITY HEALTH**

# **DRAFT DIRECTORATE EXECUTIVE SUMMARY OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN 2013/2014**

**Executive Director: Dr Ivan Bromfield**

**Website (for detailed SDBIP): <http://www.capetown.gov.za/en/IDP/Pages/ImplementingTheIDP.aspx>**

## 1. EXECUTIVE SUMMARY

### **Vision:**

*“A Healthy City For All”*

### **Mission:**

*“To make Cape Town a healthier City we will continue to strive to ensure adequate and equitably distributed resources delivering improved quality, comprehensive, cost-effective, primary health care services. This will be achieved through a district health system with a committed and dynamic workforce supported by strong, competent shared leadership who will develop strong teams in collaboration with and commitment from the community and other partners.”*

The City of Cape Town is committed to working with all spheres of government to meet the National, Provincial and City targets so that there is a coordinated and integrated District Health Service to the citizens of Cape Town.

The core business of City Health is Environmental Health Services or Municipal Health Services. Municipal Health Services are defined in the National Health Act (No. 61 of 2003) as including water quality monitoring; food control; waste management; health surveillance of premises; surveillance and prevention of communicable diseases; vector control; environmental pollution control; disposal of the dead and chemical safety.

Air pollution is a key factor, which affects the health of a city. Air pollution levels are frequently high in our informal areas and even inside shacks. The City has adopted an Air Quality Management plan, which outlines the strategies to be used to deal with air pollution. City Health also deals with all aspects of noise pollution.

In addition the City delivers, in partnership with Provincial Government, the Personal Primary Health Care component, (clinic services), via an infrastructure of 82 clinics, 5 Community Health Centres (CHC's), 22 satellite clinics and 4 mobile clinics. Services include Women and Child Health Services (Preventive & Promotive Services i.e.: Family Planning and Immunisation and treating sick children under 13 years); HIV/Aids/STI and TB Control and Substance Abuse. These clinic services are delivered in partnership with the Provincial Health Department Metro District Health Services (PGWC: MDHS) who run 47 Community Health Centres and 24-hour emergency services at primary level along with 6 District Hospitals.

City Health manages 4 Substance Abuse Outpatient Treatment Sites at Tafelsig, Table View, Delft South and Town 2 Clinics.

## **2. PURPOSE AND SERVICE MANDATE OF DIRECTORATE**

Municipal Health Services (Environmental Health) are a Local Government function as per schedule 4B of the Constitution.

Personal Primary Health Care (Clinic services) is the responsibility of the Provincial Health Department as stated in the National Health Act, No. 61 of 2003. However the Constitution does make provision for these services to be assigned to Local Government via mutual agreement. City Health continues to render them under a Service Level Agreement (SLA) with the Provincial Health Department and will continue to improve on cooperation to improve the SLA.

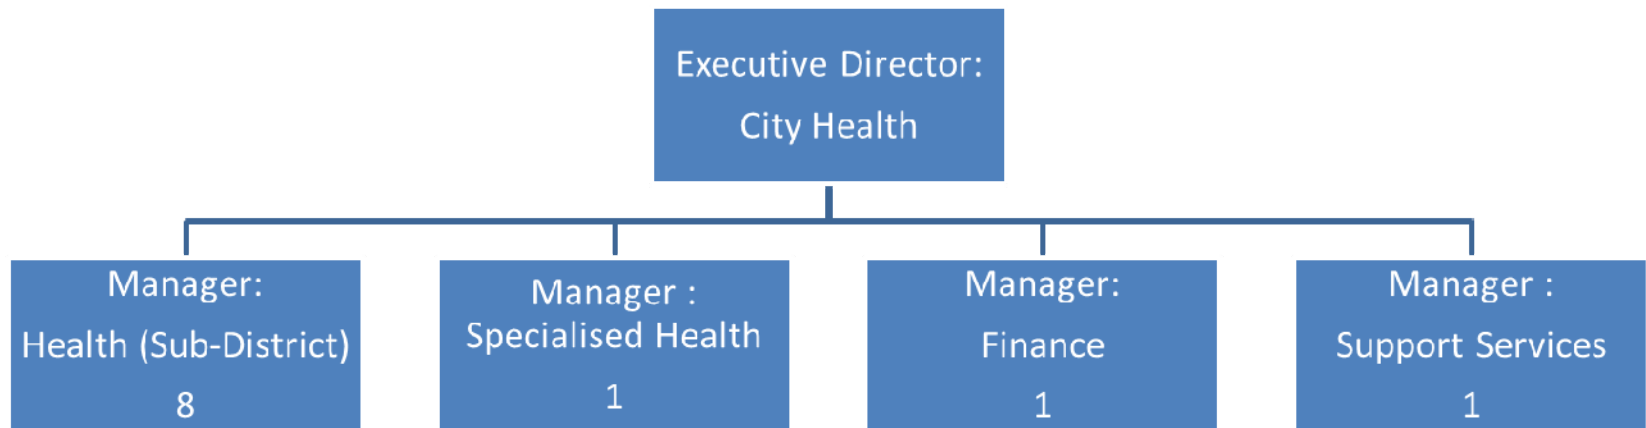

Air Pollution is a Local Government function as per schedule 4B of the Constitution. The key Act is the National Environment Management Act: Air Quality Act 39 of 2004 (which requires the City to have an air quality management plan).

Noise Pollution is a Local Government function as per schedule 5B of the Constitution.

We enforce the following By-laws:

- Air Quality Management of 2010
- Environmental Health of 2003

## **3. Senior management organogram**

**4. LINKAGE TO THE IDP and changes to the indicators and targets**

The 2012/2013 Directorate SDBIP: City Health relates to the IDP as follows:

Strategic Focus Area 3:

- The Caring City

Corporate/Directorate Objectives, Programmes and KPI:

- Objective 3.5: Provision of effective Environmental Health services
  - Programme 3.5(a): Environmental Health Care Programme
- Objective 3.6: Provision of effective Air Quality Management and Pollution (including noise) Control Programmes
  - Programme 3.6(a): Measuring the number of days when air pollution exceeds WHO guidelines
    - 3H: Number of days when air pollution exceeds RSA Ambient Air Quality Standards

- Objective 3.7: Provision of effective Primary Health Care services
  - Programme 3.7(a): Primary Health Care Programme
    - 3I: New Smear Positive TB Cure Rate
- Objective 3.8: Provision of Substance Abuse Outpatient Treatment and Rehabilitation services
  - Programme 3.8(a): Primary Health Care Programme: Number of substance abuse outpatients provided with alternative constructive behaviour
    - 3J: Number of New Clients screened at the Substance Abuse Outpatient Treatment Sites

See section 8. and Appendix 1 for detail with respect to updated indicators and targets.

## 5. **PERFORMANCE PROGRESS AND IMPACT**

The City of Cape Town has been approached by the Ministry of Health in December 2012 regarding a proposal for the phased transfer of Personal Primary Health Care Services from the City of Cape Town to the Western Cape Government Department of Health. The Executive Mayor responded to this proposal in a letter dated 11 January 2013 stating that the Cabinet withdraw the its decision and refer the matter, as a first step, to the Intergovernmental Structures for further investigation.

It must be recognised that, due to the increased Burden of Disease (BOD), the Directorate: City Health is facing an increasing number of clients accessing the health services. When comparing total headcounts in 09/10 with 10/11, an increase of 22% was experienced city-wide. In 11/10 a slight decrease of 1% were registered - thus a 21% increase over the last 3 years. The Burden of Disease (BOD) study shows the top 5 causes of death are:

- HIV/Aids
- Homicide
- Tuberculosis
- Road Traffic Accidents
- Lower Respiratory Infections

The District Health Expenditure Review (DHER) 10/11 shows that expenditure per capita (both City and Provincial services) as follows:

- R 657 total population (increased by R 161 between 09/10 & 10/11)

Our utilisation rate is 3.6 for the dependent population. There are variations across the Sub-Districts which are affected by the percentage of uninsured population due to the differing socio economic circumstances.

The latest Community Satisfaction Survey which indicates the perception of the quality of health services shows the following problem areas:

- Long waiting times
- Issues with staff attitude
- Lack of medication
- Lack of doctors
- Cleanliness of facilities

In order to alleviate this, the City would have to consider adding extra resources to the overburdened Sub-Districts.

The Directorate: City Health's current staffing establishment was based on the existing situation and does not take into account the increase in the BOD and the increase in the demand for health services.

It must also be noted that the Directorate: City Health bases its staffing levels on workload indicators for Professional Nurses, Enrolled Nurses and Enrolled Nursing Assistants using total attendances at facilities and case mix i.e.: it is tailored to meet the actual requirements. The allocation of Clerks at the clinics is based on the number of patient folders at each facility. Based on the current workload data 9 Clinics are in excess of the norm with respect to Professional Nurses and 5 Clinics are in excess of the norm with respect to Clerks. The Environment Health staffing is based on National Norms of 1 EHP per 15 000 population. We are currently at 1 EHP per 29 306 population. Senior Workers post allocation is based on the size of the facilities, and not having adequate numbers could lead to cleaning/infection control problems. It has been recognised that during the year there will have to be a review of the Staffing Strategy based on changing circumstances.

City Health Directorate overspent on its general expenses budget in the 2010/2011 financial year by R 10.1 million. This was mainly attributable to the increase in patient numbers and the above parameter increase in medicine and laboratory costs. In 2011/2012 there was a slight underspend as a result of a once off R 4.6 million subsidy for pharmaceuticals (PGWC: TB Drugs) and an additional allocation of R 6 million granted during the 2011/12 budgetary process.

The overall City Infant Mortality Rate (IMR) in 2010 was 20.12 deaths under one year per thousand live births. This is a slight decrease from 20.76 in 2009. In 2007 and 2008 projections were made for missing Death Data. In 2009 projections were made for missing Birth Data. There has been a downward trend from 2003 to 2008 (2003: 25.16; 2004: 23.74; 2005: 22.28; 2006: 21.40; 2007: 20.28 and 2008:19.78). Procedures have been put in place to ensure that all data for Births and Deaths are collected enabling the calculation of unprojected IMR's. The 2011 data is currently being verified. The IMR is a good measure of overall development and not only the state of health services. Other strategies that focus on improving informal settlements, supplying basic services and early childhood development will also improve the IMR.

The 2011 Antenatal Survey showed an HIV prevalence of 20.9% in the City, up from 19.1% in 2010. The Western Cape prevalence was 18.4% and the National prevalence 29.5%. The survey reflects a relatively stable HIV epidemic over the last number of years; the impact of antiretroviral treatment (ART) on the epidemic overall is unclear, but probably contributes at least some of the recent slow year on year increases. At the end of December 2012, there were 33,286 clients on ART at City Health clinics, out of a total of 99,306 in the Metro.

Cape Town continues to have an extremely high number of TB cases with an incidence of 690 per 100 000 population (compared with a national figure of 500 per 100 000). The incidence rate is declining; it is unclear the reason for this decline in the number of reported TB cases which could be due to numerous factors, including, amongst others, improvements in TB cure rates and increased access to ART for HIV positive clients. The City's TB new smear positive cure has improved from 67% in 2004 to 83% in 2011. The most recent result, Quarter 1 of 2012, was 85%, the best for any metropolitan area in the country.

Cape Town continues to experience rapid growth due to urbanisation. The 2011 census indicates a population growth of 29.3% over the last 10 years (37.5% additional households over the same period). Waste removal services are provided weekly in all formal and informal housing areas but are not regarded as effective where skips are provided and no door-to-door service exists. The "basic service level" for access to water is defined as dwelling units being less than 200m from a tap, and having one tap for every 25 dwellings. The Head's: Environmental Health will convene Sub-District Interdisciplinary Forums to address issues identified. Due to the fact that Environmental Health plays an oversight and

transversal role within the City, it was felt that they are best placed to establish Interdisciplinary Forums within the 8 Health Sub-Districts. The objective is to promote integrated interdepartmental planning and strategy alignment to ensure that the norms and standards for the provision of basic services (water, sanitation and refuse removal) is met and improved upon. The said forums (Urbanisation meetings) is set to further improve interdepartmental communication and the established teams jointly monitor, address needs in informal settlements for installation of new infrastructure and for the maintenance and repairs of existing infrastructure. These meetings are scheduled to take place on a monthly basis.

In 2011/2012, the air quality monitoring stations recorded 125 days of poor air quality when the levels exceeded international accepted guidelines. These episodes and levels of air pollution represent a major health risk to our citizens and portray Cape Town in a negative way to visitors, tourists and residents alike. The City has adopted the South African Ambient Air Quality Standards for its business plan reporting for 2012/2013 business plan year. These mandatory national standards have adopted a phased reduction in threshold levels for pollutants from 2015 onwards. The City is looking at its air quality monitoring network and in this financial year is upgrading the network through the addition of an Ozone analyser; a Carbon Monoxide analyser; Sulphur Dioxide analysers and two PM<sup>10</sup>/PM<sup>2.5</sup> analysers to assist with measuring the new PM<sup>2.5</sup> ambient air quality standard which was promulgated on the 29<sup>th</sup> of June 2012.

The City has identified the issue of substance abuse as a problem and that it has a role to play in conjunction with other spheres of government and the community in addressing this. Alcohol abuse is a major problem and methamphetamine (tik) abuse in the Western Cape is a big concern with regard to drug-related crime. Treatment demand for drugs like methamphetamine (tik), are higher in Cape Town than in other parts of the country. 2.3% of people using treatment services in 2003 had methamphetamine as their primary drug of abuse, in 2012 this had increased to 34%. Among patients under 20 years, 30% reported methamphetamine as their drug of choice. One in four South African men and one in ten women displayed symptoms of alcohol problems (1998). South Africa has become a key player in the drug trade, as both producing country as well as consumer country. It is of serious concern that the age of first experimentation with substances has dropped to between 7 and 8 years.

In conclusion, City Health is faced with an increasing need for health services as shown by the BOD and Customer Satisfaction Survey, but the resources available to it have not grown proportionally. The resources relate to staffing (extra staff are needed for those areas with a high BOD to reduce long waiting times), certain areas require extra security for staff and patients and adequate funding for pharmaceuticals and medical tests. If the resources are not available then we will not improve on our customer perceptions and over time the quality of service and health outcomes may decline.

Selected Highlights (2011/2012)

Objective 3.5: Provision of effective Environmental Health services

- Number of Block Baiting Stations for Vector Control of Rats: Target: 37 100; Achieved: 52 819
- Number of Monitoring visits done to Informal Settlements: Target: 13 776; Achieved: 15 293

Objective 3.6: Provision of effective Air Quality Management and Pollution (including noise) Control Programmes

- Number of days when air pollution exceeds WHO guidelines: Target: 133; Achieved: 125

Objective 3.7: Provision of effective Primary Health Care services

- New smear positive TB cure rate: Target: 80%; Achieved: 83% (2010/2011)

Objective 3.8: Provision of Substance Abuse Outpatient Treatment and Rehabilitation services

- The Substance Abuse Outpatient Treatment Site at Tafelsig Clinic was accredited by the Matrix<sup>®</sup> Institute of America

6.5 Risks:

- Management, with the assistance of the Integrated Risk Management (IRM) Department, has applied their minds and due care taken to ensure that risks which could impact on them not achieving the Directorate's objectives are identified, addressed and managed on a day to day basis in accordance with the City's approved IRM Policy and IRM Framework. Risk Registers are thus utilised as a management tool in order to manage all risks of the Department. The risks identified and rated, equal or above the Council approved rating (appetite) will be reported to the EMT, as well as to the relevant Mayco member on a six monthly basis.
- As per the legislative requirement any risks to achieving revenue projections, any expected major shifts in revenue patterns and planned alternative sources of revenue. Not applicable to City Health as funding for Personal Primary Health Care is dealt with a signed SLA with the PGWC and the risk of non-payment is low.

6.6 For 2012/2013: In relation to the City's Capital Budget of 6,2 Billion, City Health's Capital Budget is 31,9 Million (0.51%). The major Capital Project is for the Khayelitsha Environmental Health Offices amounting to 6,4 Million.

## 7 CAPITAL BUDGET LINK TO DIRECTORATE OBJECTIVES

All Capital projects were linked to Corporate Objectives 3.5; 3.6; 3.7 and 5.3. These are equivalent to the Directorate Objectives.

8

## OBJECTIVES AND INDICATORS OF THE DIRECTORATE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)

The objective, indicator and targets below are an extract of the Draft 2013/2014 Directorate: City Health SDBIP that link to the Corporate SDBIP. See Appendix 1 for the complete Draft 2013/2014 Directorate: City Health SDBIP.

Note: 3.5 Provision of effective Environmental Health services: 3.F Percentage compliance with drinking water quality standards resides with Water Services and the target is 98%.

Objective	Indicator	Target (by Sept 2013)	Target (by Dec 2013)	Target (by March 2014)	Target (by June 2014)

## ANNEXURE A

# HUMAN SETTLEMENTS

## DRAFT DIRECTORATE EXECUTIVE SUMMARY OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN 2013/2014

**Executive Director:** **SETH X. MAQETUKA**

**Website** *(for detailed SDBIP)* : **[www.capetown.gov.za/en/housing](http://www.capetown.gov.za/en/housing)**

## 1. EXECUTIVE SUMMARY

### **Vision**

*To contribute and lead towards the City's development of Integrated Sustainable Human Settlements by improving the performance of the overall living and built environment of communities within the City of Cape Town and balancing quantity with quality housing opportunities with specific focus on improving the livelihood of the poor*

### **Unpacking of Vision**

**Contribution:** *Achievement of integrated sustainable human settlements is a corporate responsibility, not just of a single Directorate*

**Leading:** *The Human Settlements Directorate will lead and be the entry point institutionally for coordinating integrated human settlements*

**Living and built environment:** *The strategic focus will be improvement and performance of both the living and built environment to achieve National Human Settlements Outcome 8 and related as prescribed by the Human Settlements Development Grant and Urban Settlements Development Grant*

**Balancing quantity and quality:** *Whilst the drive to accelerate the increase in the delivery of housing opportunities will continue to be pursued, there would also be equal drive to pursue quality objectives of improving human settlements such as reducing traveling time and cost from residential to places of economic and recreational amenities, provision of community facilities in new and existing settlements, in situ upgrading and improvement of informal settlements at scale, ensuring and promoting medium density housing in well located and appropriated areas within the urban core, along transport corridors and economic nodes; and*

**Improving the livelihood of the poor:** *The key objectives to be pursued in this regard would be a people-centred and partnership based service delivery process that will address essential issues of safety and security, tenure restoration and protection, meaningful stakeholder relations, effective provision and maintenance of basic services,*

### **Mission**

- *Facilitate and develop Sustainable Integrated Human settlements;*
- *Integrate the delivery of the basket of housing opportunities with the rest of the city to ensure compacting of the city and optimal use of facilities;*
- *Incremental improvement of Informal Settlements and backyarders and the creation of a better quality living environment and not only shelter;*
- *Management and maintenance of city rental stock*
- *Leading in the social and economic development of disadvantaged areas to ensure quality of life and the environment are improved.*

*In order to achieve the stated Vision and Mission the Directorate will be responsible for the following KPA's through the following Departments:*

- **Strategy, Support and Co-ordination Department:** *Facilitate and coordinate the compilation of the Five Year Integrated Human Settlements Plan; Develop and compile the Service Delivery Business Implementation Plan (SDBIP) in support and aligned to the five year Plan and delivery targets; Ensure policy analysis and alignment at local level with that of National and Provincial Human Settlements; Develops and maintains an Integrated housing database; Manages awareness, publication and information dissemination with regards to the directorates' strategic plan, housing projects and general information to the public; Also interfaces with stakeholders, subcouncils and Ward Councillors and representatives with regards to Human Settlements strategy and policy implementation.*
- **Housing Land and Forward Planning Department:** *Institutes strategies for the timeous identification of suitable well located land for affordable housing and where necessary the acquisition thereof; Acquiring large tracts of land for present and future development as well as 'infill' sites in existing township residential areas to address urbanisation pressures; Assists the Land Claims Commission with the processing of land claims and the identification of land to be offered to those claimants who are unable to reclaim their original site.*
- **New Settlements Department:** *Creates housing opportunities via the following categories: Subsidy houses (BNG – 'Breaking New Ground'), Incremental Housing (Serviced Sites), Social and Rental Housing, GAP Housing, and Land Restitution.*
- **Informal Settlements Department:** *Is responsible for the implementation of the informal settlements upgrade programme measured by the number of sites (housing opportunity and social amenities) developed and allocated in terms of the Upgrading Informal Settlements Programme (UISP) and the Emergency Housing Programme (EHP). Managing the prevention of land invasion; Planning the upgrading of informal settlements; Planning and developing incremental development areas (IDA's).*
- **Existing Settlements Department:** *Provides strategic management of the City's rental and saleable housing assets according to defined standards and policies. To communicate policies and procedures to all its tenants and prospective tenants.*
- **Support Services Department:** *Is responsible for General Administration, Personnel/ Human Resources and Logistics Support*
- **Urban Renewal Department:** *Ensures the roll-out and implementation of urban renewal in the identified Presidential Nodes within the metropole via structured and budgeted projects.*
- **Development Services Department:** *Ensures monitoring, tracking and delivery of essential services in line with the Informal settlement Master Plan.*

- **Urbanisation Department:** *Is responsible for developing a Framework Strategy and Policies to address the challenges of poverty and urbanization in the context of Human Settlements, manifested in unemployment, inadequate housing and lack of access to essential resources. Co-ordinate implementation of the backyard housing and Informal Settlements Programme through an interdepartmental approach.*
- **National Housing Programmes:** *is responsible to establish the City of Cape Town as a fully accredited housing authority, so as to directly implement National Housing Programmes.*

## 2

### **PURPOSE AND SERVICE MANDATE OF DIRECTORATE**

The Housing Act (No.107 of 1997), places an obligation on the City, 'as part of its process of integrated development planning, to take all reasonable and necessary steps within the framework of the national and provincial housing policy to ensure that:

- The inhabitants of its area of jurisdiction have access to adequate housing on a progressive basis;
- Conditions not conducive to the health and safety of the inhabitants of its area of jurisdiction are prevented or removed;
- Services in respect of water, sanitation, electricity, roads, storm water drainage and transport are provided in a manner which is economically efficient, in addition the City is required to:
- Set housing delivery goals in respect of its area of jurisdiction;
- Identify and designate land for housing development that is financially and socially viable;
- Promote the resolution of conflicts arising in the housing development process;
- Initiate, plan, coordinate, facilitate, promote and enable appropriate housing development in its area of jurisdiction;
- Provide bulk engineering services, and revenue generating services in so far as such services are not provided by specialist utility suppliers; and
- Plan and manage land use and development for human settlements.

### **Who are our stakeholders?**

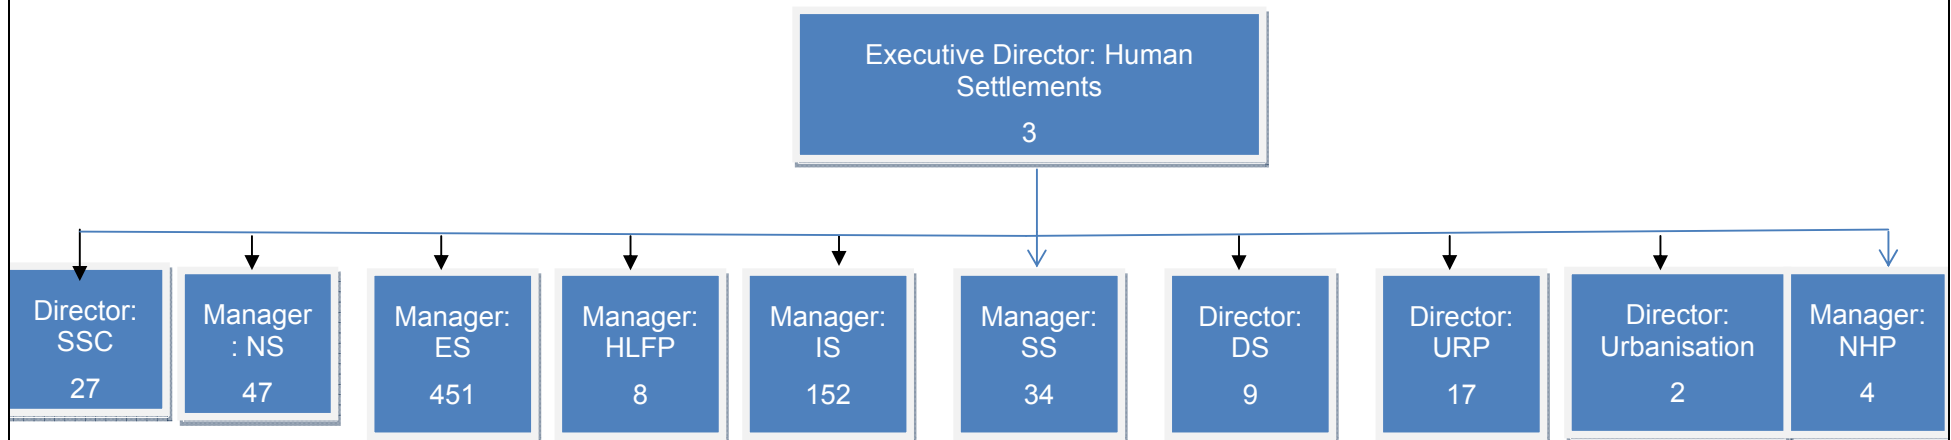

The following is a list of the Directorate's stakeholders/clients:

- National Government, Provincial Government, parastatals and other Municipalities
- Internal Directorates and/ or Departments of the City
- Subsidy – and Gap Housing applicants
- General public and Existing Tenants
- Land – and home owners

- Developers, Contractors and Banks
- Public Housing Institutions
- Non-governmental organisations

**3. Senior management organogram**

*Include the number of staff per level. See example*

**4. LINKAGE TO THE IDP and changes to the indicators and targets**

***Strategic Focus Area 3: Caring City***

***Corporate Objective 3.2: Ensure innovative human settlements for increased access to those that need them.***

*Indicator 3C – The number of housing opportunities created per year*

**Corporate Objective 3.3: Assess the possible sale/transfer/transaction of rental stock to clearly identified beneficiaries within established criteria**

Indicator # - Number of Deeds of Sale Agreements signed with identified beneficiaries on transferrable rental units.

**5. PERFORMANCE PROGRESS AND IMPACT (if applicable)**

6.4 A description of discretionary and non- discretionary expenditure.

- The capital programme of the Directorate is aligned to the City's IDP and the DORA allocation.

6.5 Risks:

- The impact of the current economic environment on the ability of poor communities to pay.

Management, with the assistance of the Integrated Risk Management (IRM) Department, has applied their minds and due care taken to ensure that risks which could impact on them not achieving the Directorate's objectives are identified, addressed and managed on a day to day basis in accordance with the City's approved IRM Policy and IRM Framework.

- 8.6 On the directorate capital programme in the context of the overall capital programme of the municipality:
- The Directorates 2012/2013 capital budget is +/- 15% of the City's overall capital budget.

*(This includes USDG funding (capital budget) lying in other Directorates)*

**7 LINK TO CORPORATE OBJECTIVES:**

**Corporate Objective 3.2:** Ensure innovative human settlements for increased access to those that need them.

**Corporate Objective 3.3:** Assess the possible sale/transfer/transaction of rental stock to clearly identified beneficiaries within established criteria

**8 OBJECTIVES AND INDICATORS OF THE DIRECTORATE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)**

# TOURISM EVENTS & MARKETING

## DRAFT DIRECTORATE EXECUTIVE SUMMARY

OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

**2013/2014**

Executive Director: AM GROENEWALD

Website *(for detailed SDBIP)* : \_\_\_\_\_

## 1. EXECUTIVE SUMMARY

### **1.1 Vision for Cape Town**

*(For purposes of this submission this vision is simply an amalgamation of the City Vision as taken from the IDP 2007-2012 (pg 20))  
(Underlined sections of the document is the author's additions).*

Cape Town envisions itself as a prosperous open opportunity city, that enables economic growth and development, which allows for equitable access, an effective and efficient well run administration that provides services inclusive of its citizens (residents).

### **1.2 Vision for Tourism, Events & Marketing Directorate (Including Strategic Assets and Arts & Culture) (draft for discussion)**

The Tourism, Events & Marketing Directorate will market and develop its tourism, events, arts and culture and visitor offering through the use of its strategic assets and internal and external partnerships to deliver economic growth, development and an open opportunity city inclusive of all its citizens (residents).

### **1.3 Tourism, Events & Marketing Directorate - Strategic Objective (from the council submission of 11 November 2011)**

The directorate's primary strategic objective is to stimulate economic growth, development and attract investment through events, tourism, arts and culture and marketing actions by;

- Increasing visitor numbers, additional iconic events, innovative and creative arts and culture activities,
- Maximising operational budgets,
- Creating and facilitating partnerships and joint ventures,
- Planning, decision-making & coordinated action between role-players (spheres of government, state owned enterprises, promotion and marketing agencies, the private sector and communities)
- Facilitating and promoting sector transformation

### **1.4 New Institutional Arrangements**

Tourism, Events & Marketing comprises of the following functional areas:

- Tourism
- Events (including Strategic Events, Logistics, Coordination and Film Permitting office)
- Arts & Culture
- Place Marketing
- Strategic Assets (Incl: Athlone Stadium; City Hall and Grand Parade; Good Hope Centre; CTICC\*)
- Cape Town Stadium and Green Point Urban Park
- World Design Capital
- Integration and Support
- Monitoring, Evaluation, Research and Information Management

### **1.5 Key Challenges**

- Key traditional industries under pressure
- Under-utilisation of certain key City of Cape Town owned facilities (e.g. Cape Town Stadium)
- Reinforcing Cape Town's mother brand (with credits for achievements and good work done by agencies and service providers on behalf of the City)
- Optimising return on investment for City from destination and promotion agencies
- Repositioning Arts & Culture as key element in events, tourism and place-marketing as well as community development
- Ensuring effective service-delivery whilst establishing and bedding in new departments

### **1.6 Key Opportunities**

- Developing a more proactive marketing strategy to focus on key cities as part of the BRICS multilateral agreement between SA and the other members
- Shift some of the strategy onto African countries to increase and promote Cape Town as a preferred business and tourist destination
- Market and develop Cape Town as a Culturally Diverse destination through creative partnerships with the sector
- Improve the performance of the city's permitting processes in order to encourage and facilitate the growth of the film and events sectors

- Cape Town already hosts or has hosted numerous iconic events. The experience gained from these events is key to creating further opportunities by leveraging events in order to:
  - assist in countering seasonality;
  - increase the utilisation and financial sustainability of key City assets;
  - raise Cape Town's profile as a tourist and investment destination;
- Potential to significantly increase the number and scale of events in the city which provide resultant positive impacts on the City.
- Opportunities created for local businesses that service the events and tourism sectors
- Increasing investment in Cape Town's key economic sectors through consistent and coherent marketing efforts

**1.7 Key Benefits**

- Increased contribution to Gross Domestic Product through increased visitors and increased events and increased expenditure
- Increase in the number of jobs both seasonal and permanent
- Managed segmentation of the marketing strategy
- Improved utilisation rates of strategic assets
- Increased income generation through the strategic assets
- Improved institutional partnerships across the five portfolios

**2 PURPOSE AND SERVICE MANDATE OF DIRECTORATE**

**2.1 Tourism's Strategic Objective:** To maximise the economic spin-offs and jobs created<sup>1</sup> from the tourism sector by positioning Cape Town as world-class and South Africa's premier tourism destination.

**2.2 Events Strategic Objective:** To establish Cape Town through improved strategic management, logistical coordination and support as the top events destination locally and regionally, and as one of the premier events destinations globally, with increased numbers of events held annually resulting in benefits to residents, the hospitality industry and the local economy at large

**2.3 Place Marketing Strategic Objective:** To promote Cape Town as a premier travel, events, cultural, trade and investment destination in order to drive economic growth, development in the city's key sectors

**2.4 Strategic Assets Strategic Objective:** To ensure the financial sustainability of key City assets and the utilisation of these assets in promoting Cape Town as a premier events destination

**2.5 Arts & Culture Strategic Objective:** To market and develop the arts & culture in a manner that celebrates the city's rich diversity to contribute to economic growth, development and an open opportunity city inclusive of all its citizens (residents)

**2.6 Integration and Support Strategic Objective:** To provide the directorate with the necessary Finance, Human Resource and general administrative support in a manner that drives compliance without hampering service delivery and the fulfilment of the primary tasks of the directorate

**2.7 Monitoring, Evaluation, Research and Information Management Strategic Objective:** To provide the directorate with research support, information management, source data and technical support to help improve the quality of data in the sector and to objectively assess the performance of the five primary sectors independently on an agreed basis

**2.8 The World Design Capital department** aims to fulfil the Host City Agreement with regard to World Design Capital 2014 and to transform processes and service delivery across all City departments through the implementation of sound design principles

*(For the purposes of this submission, purpose is read as the key functions, and mandate is read as legislative mandate)*

**2.8. Legislative Framework: (Legal Services)**

2.8.1 The Constitution of the Republic of South Africa: Act 108, 1995, section 156 (1) (a), read with Part B of Schedule 4

2.8.2 Municipal Systems Act, 32 of 2000, Chapter 2 Section 4 (1) (b)

2.8.3 Safety at Sports & Recreation Events Act

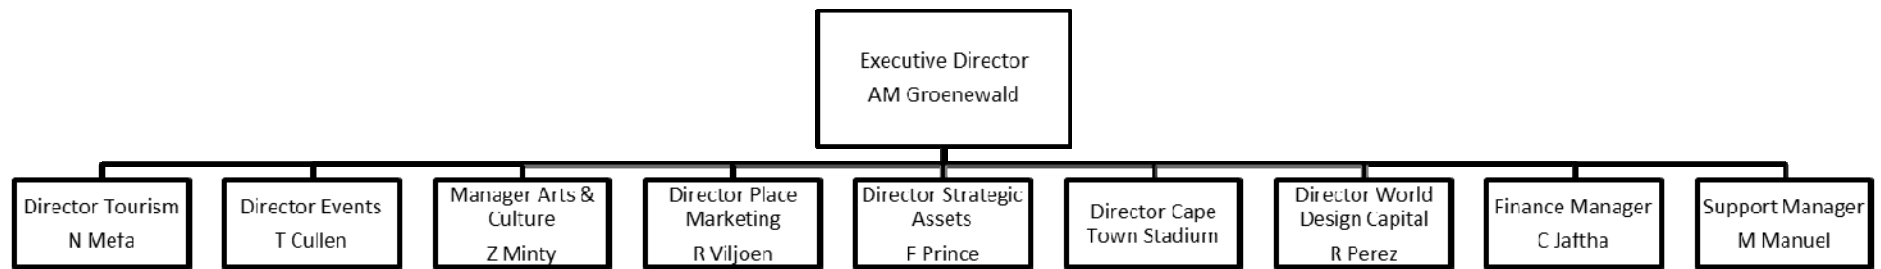

2.8.4 Disaster Management Act

2.8.5 Municipal Finance Management Act

2.8.6 Occupational Health and Safety Act

- 2.8.7 Private Security Industry Regulating Authority
- 2.8.8 National Health Act
- 2.8.9 SANS 10400 of 1990 Application of National Building Regulations
- 2.8.10 Fire Brigade Service Act

**3. Senior management organogram**

Staffing Structure

#### **4. LINKAGE TO THE IDP and changes to the indicators and targets**

##### **Tourism**

###### KEY PROGRAMMES, PROJECTS AND ACTIVITIES FOR THE 2013-14:

1. Integrated planning inputs: City wide plans incorporating tourism
2. Responsible Tourism: Responsible Tourism Programme implemented
3. Iconic experiences developed: City infrastructure projects reflect tourism needs
4. Niche market development: Culture and Heritage tourism action plan implemented, niche plans developed.
5. Improved Transportation for tourism: tourism integrated in Transport planning, aviation policies and signage.
6. Improved safety and security for tourists: Visitor safety plan reviewed and implemented
7. Interaction with industry, communities and different government entities: Participative forums and collaborative projects
8. Information provision: Research initiatives conducted and visitor services at information points (cyber and physical)
9. Inclusive tourism sector: Awareness campaigns and network interventions
10. Tourism product development: Development of product, route and experiences
11. Tourism business development: Tourism Business Development Framework; Develop capacity of local business to benefit from tourism opportunities.
12. Community based tourism development: Community based tourism development programme at local level and information provision

##### **Events**

Objective 1.1 Create an enabling environment for the economy to grow and become globally competitive

###### Programme 1.1(b) Events Programme

1. Administering an events permit process
2. Administering and facilitating the event support process
3. Development and implementation of the Events Calendar in alignment with the IDP and City Strategies
4. Organising or facilitating logistical and service support to events as outlined in the Events Calendar
5. Development of an on-line Events Portal for Permitting and Funding Applications
6. Gathering and collating event information for City supported events

Objective 5.2 Efficient and productive administration that prioritises delivery

1. Capacitate and staffing of the Events Department
2. Reviewing and Updating the CoCT Event Strategy
3. Reviewing and updating the CoCT Events Policy
4. Reviewing and Updating the CoCT Events By-Law
5. Reviewing and Updating the CoCT Film By-Law

**Arts & Culture**

Strategic Focus Area	Programme	Details

6.4 A description of discretionary and non-discretionary expenditure.

- There is no expenditure on non-core functions

6.5 Risks:

Management, with the assistance of the Integrated Risk Management (IRM) Department, has applied their minds and due care taken to ensure that risks which could impact on them not achieving the Department's objectives are identified, addressed and managed on a day to day basis in accordance with the City's approved IRM Policy and IRM Framework. Risk Registers are thus utilised as a management tool in order to manage all risks of the Department. The risks identified and rated, equal or above the Council approved rating (appetite) will be reported to the EMT, as well as to the relevant MAYCO member on a six monthly basis

8.7 On the directorate capital programme in the context of the overall capital programme of the municipality

# **COMMUNITY SERVICES**

## **DRAFT DIRECTORATE EXECUTIVE SUMMARY**

**OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN**

**2013/2014**

**Executive Director: Lokiwe Mtwazi**

## **1. INTRODUCTION**

Community Services main function is to provide community facilities, services and programmes to the citizens of the City and it's visitors. This directly contributes to two of the City's strategic focus areas contained in the IDP as highlighted in paragraph 4 of this document.

The directorate's service delivery and budget implementation plan (SDBIP) is developed to align to the IDP and is then cascaded to the three line departments;

- Sport, Recreation & Amenities
- City Parks
- Library and Information Services

to ensure effective and efficient service delivery.

## **2 PURPOSE AND SERVICE MANDATE OF DIRECTORATE**

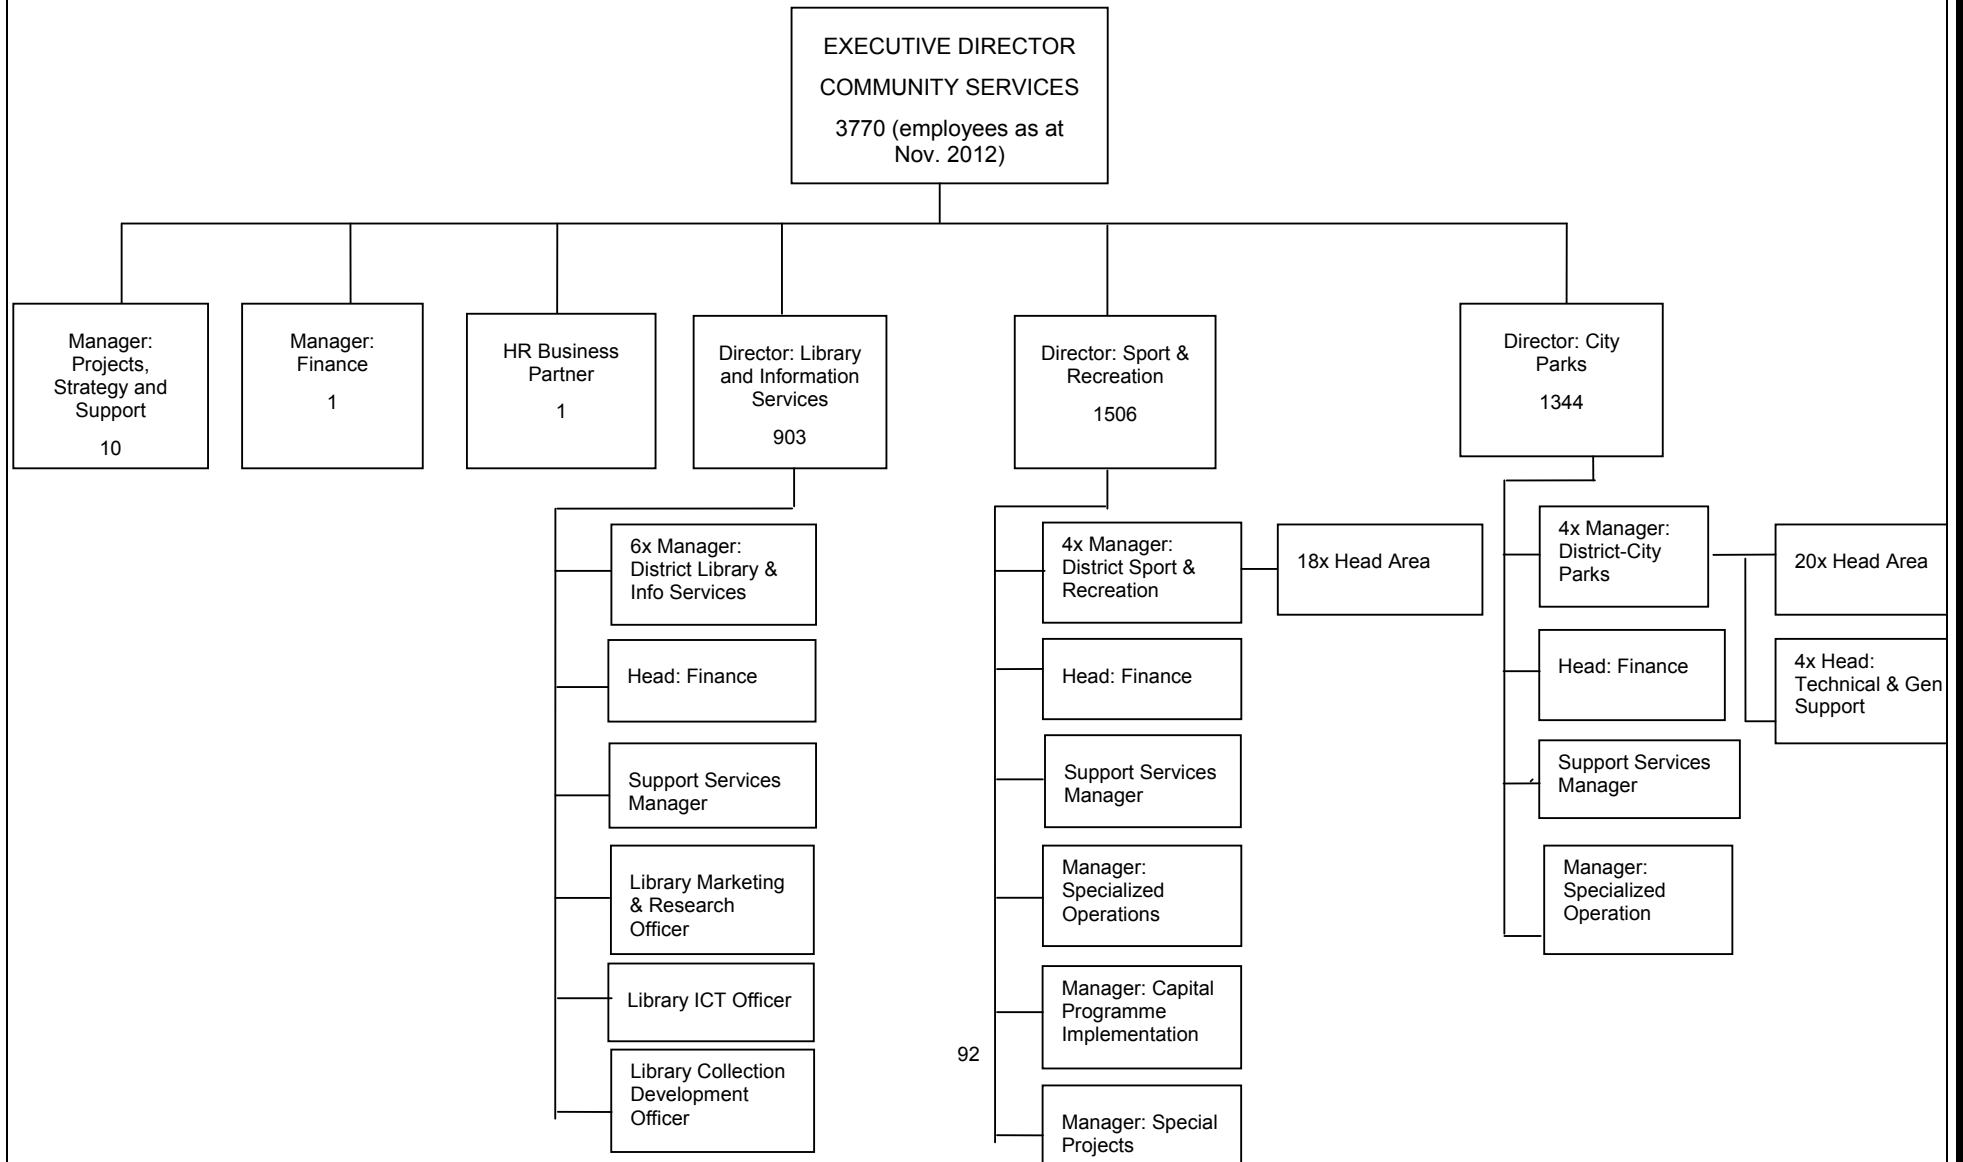

The purpose of the Directorate: Community Services is to:

Provide developmental programmes and value added services in support of meeting the community's informal and formal educational needs, cultural, recreational, basic sport development and life skills needs as well as the need for information.

Provide an equitable distribution of community facilities by continuously exploring and maximising external funding and partnership opportunities to provide community facilities aligned to the CSIR study outcomes. Internal funding will be used as co-funding and be allocated in the most productive way possible. In future Community Services will strive to plan, implement and manage new community facilities in a joint, integrated, clustered, multi-functional manner with internal and external partners. The intention is to minimise capital development and operational cost and maximise community usage, ownership and pride.

Maintain all community facilities to at least the set minimum level whilst some selected flagship facilities will be earmarked to be maintained to national and international benchmarked standards.

### 3. Senior Management Organogram

#### **4. LINKAGE TO THE IDP**

Community Services has a primary link to two of the IDP's Strategic Focus Areas (SFAs).

##### **4.1 SFA 3: A Caring City**

**IDP Objective: Providing access to social services to those that need them.**

##### **Initiative: Community Development Programmes**

Given the clear social-economic challenges, especially in previous disadvantaged areas there is a critical need for developmental services and programmes to be rendered. These services and programmes could play a significant role regarding the physical, mental, health, social development and wellbeing of communities and residents.

Community Services will ensure access and usage of community facilities manned by skilled and suitable trained staff, which provide relevant and adequate library collections in both printed and electronic format, developmental projects and programmes and value added services in support of meeting the community's informal and formal educational needs, cultural, recreational, basic sport development and life skills needs as well as the need for information.

##### **4.2 SFA 4: An Inclusive City**

**IDP Objective: Provide facilities where citizens can feel at home**

##### **Initiative: Community Facilities Provision**

To begin to address the inequitable distribution and standards of community facilities the city has initiated a project with the CSIR (Council for Scientific and Industrial Research). The studies have taken the current community facilities, standards for the provisioning, accessibility, projected population growth and the envisaged city expansion until 2016 into account in order to identify the areas of greatest need / backlog regarding the provisioning of facilities and to establish the selection of facilities that would make the most impact in these areas of greatest need. These prioritised facilities could be used to prioritise budgeting and spending but do not address the total need in the metro.

Subsequent to this study, a Recreation Study was undertaken, which identifies inter-alia resident's needs and preferences for community facilities. The CSIR study, the Recreational Study and other qualitative and quantitative commissioned research are used to determine new facility needs and best location for new facilities to be provided.

The Community Services Inter-Departmental Facility Planning Team and the Spatial Planning and Urban Design departments ensure that Community facility planning align to other planning projects in the City in a proactive and integrated manner.

The Directorate will continuously explore and maximise external funding and partnership opportunities to provide such community facilities. In future, Community Services will strive to plan, implement and manage new community facilities in a joint, integrated, clustered and multi-functional manner with internal and external partners. The intention is to minimise capital development and operational cost and maximise community usage, ownership and pride. The development of new community facilities would be determined by the availability of operational funding to ensure that these facilities will be used and effectively be managed and maintained.

All community facilities will be maintained according to pre-determined minimum maintenance standards while selected facilities would be developed and maintained at higher standards which will meet national and international benchmarks standards.

**Initiative: Minimum service and maintenance standards of community facilities**

Well managed, maintained and used community facilities are important to facilitate and enable community development and therefore enhance quality of life. Whilst all community facilities will be maintained at minimum service levels, some selected flagship facilities will be earmarked to be maintained at national and international benchmarked standards.

## 5. PERFORMANCE PROGRESS AND IMPACT

The past years performance information is available in the Annual Reports located on the site below.

<http://www.capetown.gov.za/en/IDP/Pages/ManagingPerformance.aspx>

## 6 FINANCIAL INFORMATION

R thousand									
Community Services	Various	Various	Various	Various	231 888 059	181 638 519	154 670 076	Multi	Various
<b>Total Capital expenditure</b>					231 888 059	181 638 519	154 670 076	Multi	Various

### 6.4 A description of discretionary and non-discretionary expenditure.

Community Services have a direct operating expenditure budget of R 1 301,2 million as per table 6.2 above. Of this amount 60% relates to staff expenditure, 20% to repairs and maintenance and the balance to general expenses and depreciation. The staff budget is considered to be fairly fixed and not discretionary although the utilisation and deployment of the ±4000 staff members are done in terms of community and service delivery imperatives. Expenditure on repairs and maintenance

such as the upkeep of facilities and the mowing of parks can to an extent be termed discretionary, because line managers determine the maintenance programmes and allocation of funds in terms of pro-active maintenance plans. Expenditure on general expenses is also discretionary as these funds are spent on items such as community programmes, cleaning costs, fuel, communication, etc. In addition to the direct budget of R1,3 billion Community Services will incur internal charges for the following services:

- Activity Based Costs and Support Services Recharges
- Internal utilities
- Interest
- Self-insurance premiums
- Internal repairs

The directorate includes the Library and Information Services department, the function of which is not the constitutional responsibility of local government. Expenditure on this function is estimated at R455 million for the 2013/14 financial year. In December 2010 the Council resolved to request the Provincial Government of the Western Cape to formally assign the library service to the City of Cape Town and it is expected that a service level agreement in this regard will be finalised in due course.

## 6.5 Risks

- Management, with the assistance of the Integrated Risk Management (IRM) Department, has applied their minds and due care is taken to ensure that risks which could impact on them not achieving the Directorate's objectives are identified, addressed and managed on a day to day basis in accordance with the City's approved IRM Policy and IRM Framework.
- Community Services have a very limited revenue budget since most of its direct income is related to socially required services such as entrance fees at swimming pools and other facilities, burial fees, library fees, etc. which are being subsidised to keep them at affordable levels. Revenue for the 2013/14 financial year has been based on actual income for the current and previous financial years. The risk of not achieving the revenue targets is therefore considered to be low.

8.8 The City of Cape Town has a draft capital budget of R5,6 billion for the 2013/14 financial year while the draft capital budget for Community Services amounts to R231,89 million or only 4,1% of the City Budget. This is because the directorate renders its services to the community via its staff members and the capital budget is only intended to provide the enabling infrastructure such as cemeteries, parks, libraries, halls, swimming pools, sport fields and stadiums. The draft capital budget for 2013/14 is funded as follows:

•External financing fund (EFF) –	R 41,08 million (17,7%)
•Revenue –	R 6,38 million (2.7%)
•Ward allocations (via Asset financing fund) –	R 11,20 million (4.8%)
•Capital Grants and Donations -	<u>R 173,2 million (74,8%)</u>
<b>TOTAL</b>	<b><u>R231,89 million (100,0%)</u></b>

The directorate is hugely dependent on external grants and donations for its capital programme with 75% of the budget being funded from government (mostly USDG) and private sector grants. A growing concern is however the lack of operating funding for newly completed infrastructure and the directorate will have to carefully review future projects in the light of limited resources.

7. **OBJECTIVES AND KEY INDICATORS OF THE DIRECTORATE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP) LINKED TO THE IDP's CORPORATE SCORECARD**

**ANNEXURE A**

## **UTILITY SERVICES**

# **DRAFT DIRECTORATE EXECUTIVE SUMMARY**

## **OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN**

### **2013/2014**

**Executive Director: Gisela Kaiser**

**Website** *(for detailed SDBIP)* : \_\_\_\_\_

## **1. EXECUTIVE SUMMARY**

The executive summary of the Utility Services Service Delivery and Budget Implementation Plan 2013/2014 provides a directorate overview of service delivery by the core functions of the directorate; namely Water, Sanitation, Electricity and Solid Waste Management.

The directorate's service delivery and budget implementation plan (SDBIP) is developed in alignment with the City's Integrated Development Plan (IDP) and further unpacked in the three line department SDBIPs to ensure effective and efficient service delivery.

## **2 PURPOSE AND SERVICE MANDATE OF DIRECTORATE**

### **Core purpose**

- To ensure sustainable municipal infrastructure and services (Water, Sanitation, Electricity and Solid Waste) that will enable economic development
- To provide equitable access to basic services for all the citizens of Cape Town

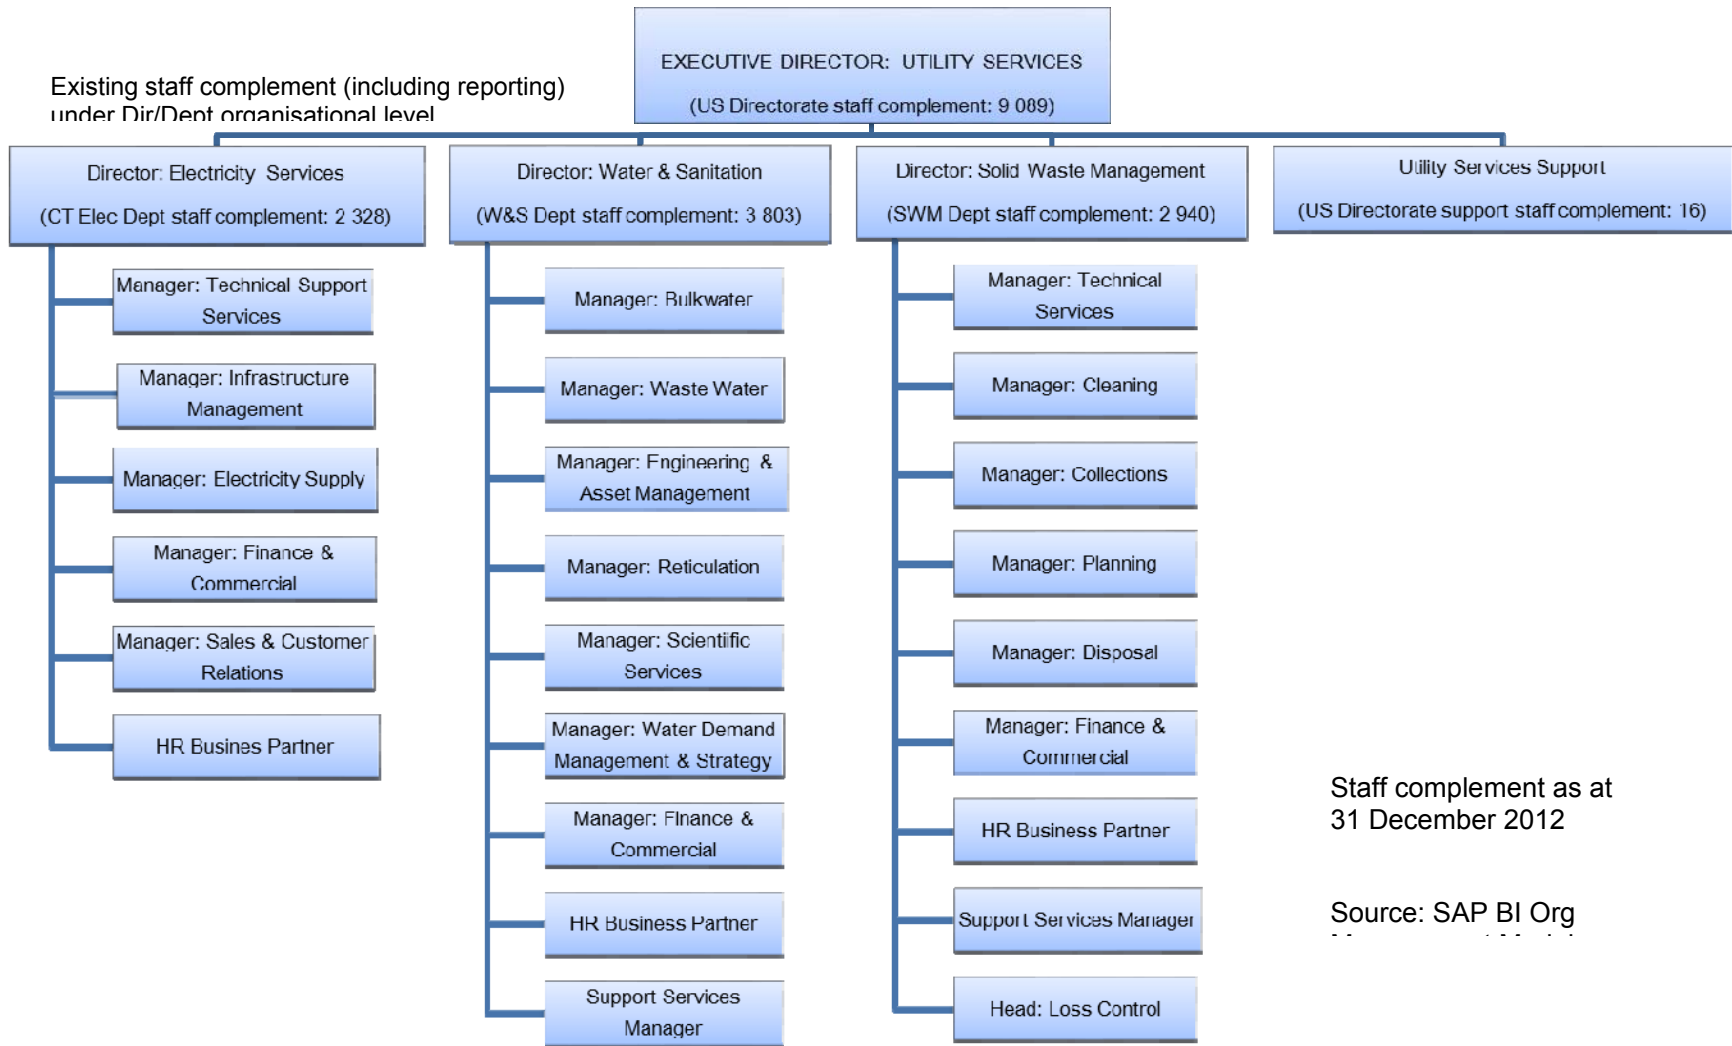

### **Service Mandate**

The City is mandated by the Constitution, to provide essential services to the citizens of Cape Town. Utility Services as the responsible directorate delivers on the provision of effective and reliable water, sanitation, electricity and solid waste services through effective management of natural resources and service delivery infrastructure.

## Partners, Stakeholders and Customers

Stakeholder	Needs
<ul style="list-style-type: none"> <li>• Customers</li> <li>• Communities</li> <li>• Business/industry</li> </ul>	<p>Service delivery; water, sanitation, electricity services and the provision of solid waste removal, uninterrupted supply; reasonable turnaround time on service requests</p>

**3. Senior management organogram**

**4. LINKAGE TO THE IDP and changes to the indicators and targets**

Utility Services has a primary link to the following Strategic Focus Areas (SFAs) of the Integrated Development Plan (IDP).

- **SFA 1: Opportunity City**

**IDP Objective 1.2 – Provide and maintain economic and social infrastructure to ensure infrastructure-led growth and development**

Investment in the maintenance and expansion of essential utility services like water, sanitation, electricity and solid waste removal and disposal is fundamental to improve services and the quality of life for all citizens, as well as encouraging investment in other economic infrastructure by local and foreign investors.

In the coming years, the City will focus on investing in bulk services delivery. Asset condition and replacement values have to be determined to enable a life-cycle approach to optimise funding. The City's objective is to develop and implement a lifecycle management system for infrastructure assets. The infrastructure Asset Management Programme is a corporate project that is aligned with the National Department of Cooperative Governance (COG) and the National Treasury requirements to establish, implement and use a Comprehensive Infrastructure Plan (CIP). Preventative maintenance and timely upgrades or replacements will save costs in the long-term, minimise outages and improve service provision.

The Utility Services directorate will support the Expanded Public Works Programme (EPWP) through implementation of its infrastructure projects as well as other work opportunities generated by operations.

**IDP Objective 1.3 – Promote a sustainable environment through the efficient utilisation of resources**

Options for electricity generation by the City itself are being pursued and incentives and regulatory measures will be developed where appropriate. The City also aims to significantly improve its own energy usage and carbon footprint through the use of greener technologies – such as energy efficient public lighting.

Steps have been taken by the Solid Waste Management (SWM) Department toward achieving waste minimisation city-wide by developing and running both waste management facilities incorporating Material Recovery Facilities (MRFs), public drop-off sites, composting and builder's rubble crushing facilities and waste minimisation enabling and awareness raising projects such as the Think Twice Campaign, IWEX and Waste Wise). The intention is to sustain current waste minimisation pilot initiatives for future learning and benchmarking.

The SWM Department will focus on waste streams that have the largest impact on airspace – namely greens/organic waste, recyclables and builder's rubble. The City will also prioritise waste minimisation options by focusing on high impact waste diversion activities through partnerships. The feasibility of Public Private Partnerships will be evaluated in the coming year.

The Water and Sanitation Department will continue to implement its Water Conservation and Water Demand Strategy which include the following initiatives:

- Pressure Management projects
- Fix It Leak Repair
- Integrated Leaks Repair project
- Meter Replacement
- Water Demand Management Devices
- Treated-effluent reuse
- Consumer education and awareness

The City will also complete the investigation of extended water resources to augment current water supply.

**IDP Objective 1.6 – Maximise the use of available funding and programmes for training and skills development**

Utility Services will continue to roll out apprenticeship programmes in the Water & Sanitation, Electricity and Solid Waste Departments to support the City programme. These apprentices will meet the demand side of the labour market, using the training the City provides to either become skilled technicians employed by the government or to move as newly qualified people into the private sector.

- **SFA 3: A Caring City**

**IDP Objective 3.4 – Provide for the needs of informal settlements and backyard residences through improved services**

The City aims to ensure that services are maintained and extended across the metro through the provision of clean and safe potable water, and efficient sanitation services for a healthy environment. To eradicate the sanitation service backlog and service the influx of people in informal settlements, the Water and Sanitation Department will implement a service provision programme that is aligned with the 10-year Housing Plan.

All known informal settlements in the City of Cape Town receive a weekly door-to-door domestic refuse service with free plastic bags provided. The filled bags are collected and taken to storage containers pending removal to landfill twice a week. There is also an on-going litter picking and illegal dumping removal in each settlement. These services are contracted out on three year tenders, which stipulate that only local labour from the given areas is employed.

The Electrification programme entails the provision of electricity to qualifying low cost housing developments, backyarders and informal settlements within the Metro. The metro electricity supply is divided between Eskom and the City of Cape Town (CoCT) and both entities have programmes for Electrification. The CoCT utilises internal funding for many of its' projects.

In addition, the Department of Energy (DoE) partially funds the electrification projects through external grant funding. The CoCT also recently started utilising the Urban Settlement Development Grant (USDG) in funding of several of its' projects. New Housing projects are normally serviced, including the provision of electricity, by the developer with these costs being recovered from the homeowner. Where housing developments consist of dwellings for which the beneficiaries are eligible for Government housing subsidies, the CoCT provides electricity supplies at a greatly subsidised rate. Eskom will only electrify housing with funding from DoE and until recently the DoE funding was only allocated to formally proclaimed townships. With a change in the DoE policy, Eskom have now embarked on the electrification of informal areas which comply in terms of the City's Electrification policy. Eskom's DoE funding is through either the so-called Schedule 7, which is money directly transferred to the entity from DoE, or schedule 6 which is DoE funds relayed through the CoCT.

The Backyarder Service programme is aimed at the improvement of living conditions of people living in backyards of Council rental stock by providing improved access to municipal services. Utility Services contributes to this programme through the provision services which include water, sanitation, refuse removal and electricity.

Water and sanitation provision entails an enclosed concrete walled flush toilet with a tap and washing trough on the outside, while the provision of Solid Waste Management services entails an additional 240 litre refuse bin per property. Electricity supply to backyard residents will enable the provision of free basic electricity.

### **Objective 3.5 – Provision of effective Environmental Health Services**

Utility Services has set targets for the percentage compliance of treated effluent in line with the Department of Water Affairs effluent standards and better control of industrial effluent quality will be actively pursued. This will contribute to improving the water quality of all receiving water bodies.

The quality of water produced at the City of Cape Town's (CoCT) water treatment plants is strictly monitored on a continual operational basis by the Bulk Water Branch to ensure compliance with the South African National Standard 241: 2006 on drinking water quality. The Scientific Services Branch also conducts routine sampling and analysis of potable water produced at all water treatment plants, as well as inspection of treatment processes.

- **SFA 4: An Inclusive City**

**IDP Objective 4.1 – Ensure responsiveness by creating an environment where citizens can be communicated with and be responded to**

Utility Services supports and is a key directorate in the development and rollout of the Service Management Programme, the purpose of which is to build on and enhance service delivery performance to ensure that resident's needs are responded to and that operations and maintenance are aligned to ensure improved service delivery.

- **SFA 5: The Well-run City**

**IDP Objective 5.2 – Annual Community Satisfaction Survey (CSS)**

The City of Cape Town undertakes an annual survey that assists Utility Services to monitor its performance and to inform operational planning and service delivery improvement.

*Source: 5 Year Plan (IDP) 1 July 2012 – 30 June 2017*

## **5. PERFORMANCE PROGRESS AND IMPACT**

The past years information is available in the Annual Reports located on the site below.

<http://www.capetown.gov.za/en/IDP/Pages/ManagingPerformance.aspx>

## **6. FINANCIAL INFORMATION**

*Sections 6.1 - 6.4 pending finalisation of the draft 2013/2014 budget.*

### **6.5 Risks:**

- Management, with the assistance of the Integrated Risk Management (IRM) Department, has applied their minds and taken due care to ensure that risks which could impact on them not achieving the Directorate’s objectives are identified, addressed and managed on a day to day basis in accordance with the City’s approved IRM Policy and IRM Framework.
- Risks to achieving Utility Services revenue projections:
  - Security and quality of supply
  - Certain aspects of the economic slowdown are still evident
  - The increase in the indigent register

8.9 On the directorate capital programme in the context of the overall capital programme of the municipality

*Pending finalisation of the draft 2013/2014 budget.*

## ANNEXURE A

CITY OF CAPE TOWN | ISIXEKO SASEKAPA | STAD KAAPSTAD

# FINANCE DIRECTORATE

**DRAFT EXECUTIVE SUMMARY**  
OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN  
**2013/2014**

**Executive Director: Kevin Jacoby**

**Website: [www.capetown.gov.za](http://www.capetown.gov.za)**

## **1. EXECUTIVE SUMMARY**

### **1.1 Vision**

To provide sound financial services which are sustained via corporate governance procedures for the City of Cape Town.

### **1.2 Mission**

To create a sound financial environment, enabling the City to provide effective, efficient and affordable services to its citizens, thereby achieving the City's strategic objectives

### **1.3 Our vision and mission will be achieved mainly through:-**

- The maintenance of accurate and complete financial records to enhance decision-making
- Compilation and Implementation of affordable balanced operating and capital budgets aligned to the IDP
- The sustaining of confidence in the financial records of the City
- Managing the City's banking, investments, borrowings and cash flow in the most effective, economical and efficient manner.
- Leveraging sustained returns from the City's immovable property assets
- Leveraging immovable property assets to promote sustained financial, social and environmental returns in support of the City's strategic objectives as embodied in the Integrated Development Plan
- Timeous and accurate collection of monies and funds due to the City
- Monitoring and controlling all expenditure in order to embed sound financial discipline and ensuring accountability for the use of public funds
- Fair property valuations in order to equitably levy rates on all properties for the provision of non-tariff funded services
- Implementation of sound supply chain management policies and procedures

- The expansion of external funding provisions and allocations for the upgrade and development of informal settlements and housing areas
- The expansion of private sector partnership funding and asset transfer arrangements for the delivery of integrated human settlements.
- Development and reviewing of financial and finance-related policies
- Ensuring compliance to relevant legislation, and the implementation and maintenance of good governance
- Modelling the impact of the Total Municipal Account (TMA) on residents to ensure a fair distribution of the burden

#### 1.4 The Directorate's Core Functions

DEPARTMENT	OBJECTIVE
Budgets	To give financial affect to the strategic focus of the City in the form of a medium term financial plan which is affordable, credible, viable and sustainable.
Expenditure	To ensure financial compliance by performing accurate and timeous payments to the City's suppliers, councillors, officials and third parties, conducting payroll reconciliation, and providing support services to the Finance Directorate
Inter-Services Liaison	Assisting departments experiencing difficulties with processes, tariffs or financial viability, especially where more than one department has a role to play, as well as the provision of financial control and administrative support for grants-in-aid and central improvement districts. Managing the rates policy development, tariff setting and impact on all residents. Modelling the TMA distribution to ensure a fair distribution of all billed municipal charges and the collectability thereof.
Housing Finance and Leases	The primary role of the Directorate: Housing Finance and Leases is the provision of a comprehensive financial service, aligned to specific Housing and Financial Legislation and National Housing Programs, to all facets of the various City suites of housing development (including all Housing Subsidy funding variations, Urban Settlement Development Grant, Statutory Funds, CRR et al), housing debtor management and operational funding programs of the City.
Property Management	Leveraging immovable property assets to promote sustained financial, social and environmental returns in support of the City's strategic objectives as embodied in the Integrated Development Plan.

Revenue	Providing accountable revenue services and informing citizens through council structures as to their responsibility in creating a solvent and prosperous City.
Shareholding Management	Managing the legislated relationship between the City and the Municipal Entities; ensuring good governance and protecting the integrity of the City's shareholding investment.
Supply Chain Management	To provide a cost effective, efficient and sustainable service, in terms of Supply Chain Management processes, to customers, adding measurable value to the City of Cape Town's strategic objectives.
Treasury	Ensure compliance to relevant legislation by reporting timeously and safeguarding assets in order to achieve the strategic and operational objectives of the Department in an efficient, effective and economic manner.
Valuations	To continuously improve processes, systems and the capacity of staff to enable the City of Cape Town to sustain a just and accurate valuation roll, thereby supporting the City's vision of a sustainable and well-governed municipality.

## **2 PURPOSE AND SERVICE MANDATE OF DIRECTORATE**

The Finance Directorate ensures sound financial management of the City's financial resources, in compliance with the Municipal Finance Management Act, together with other related legislation, policies and procedures.

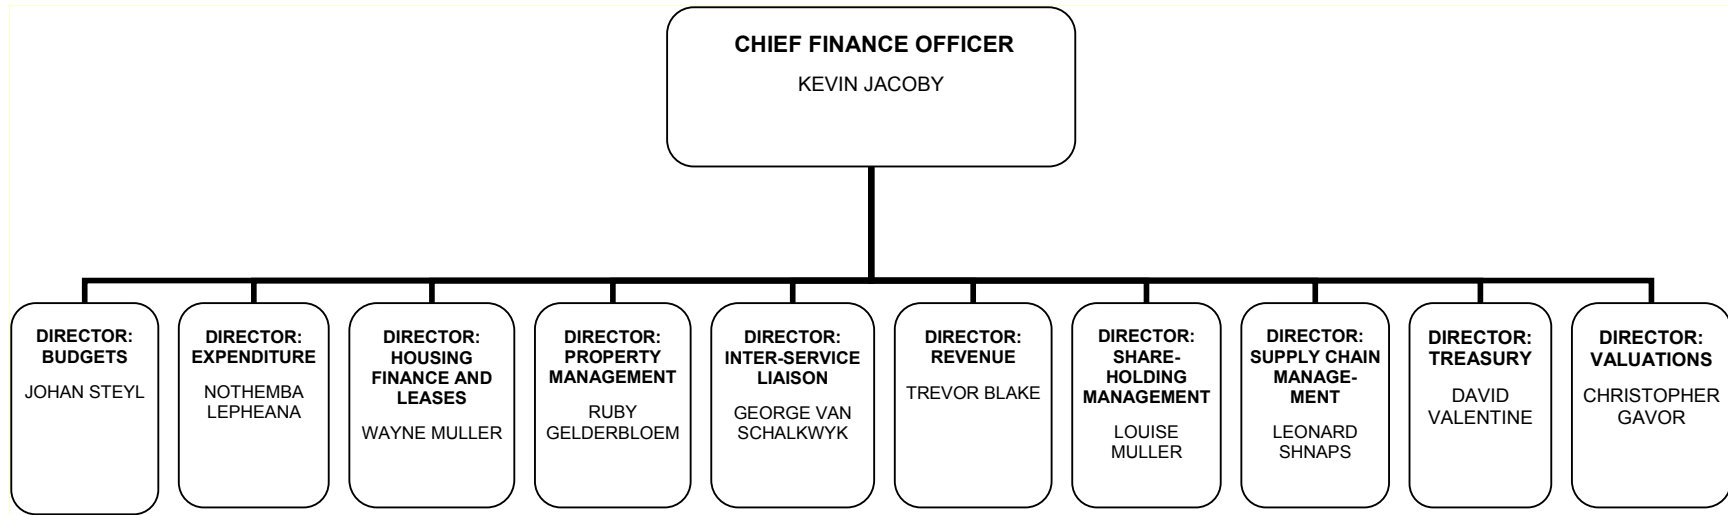

### ***STAKEHOLDERS AND CUSTOMERS***

Finance Directorate customers are both internal and external:

<b>CUSTOMERS</b>	<b>NEEDS</b>
<p><b>External Customers:</b></p> <ul style="list-style-type: none"> <li>- Citizens and Ratepayers</li> <li>- Government Departments (National/Provincial/Local)</li> <li>- Parastatals</li> <li>- Business Sector</li> <li>- Municipal Entities</li> <li>- Regulatory and ad hoc stakeholders</li> <li>- Commercial banks/Investors</li> <li>- Private Sector</li> <li>- Institutions e.g. IMFO, SALGA, NGO's, etc.</li> <li>- Development and Social Community</li> <li>- Service Providers</li> <li>- Vendors/Suppliers</li> </ul>	<p>Information, responses, service delivery, consultation, payments, legislative procedures and advice</p>
<p><b>Internal Customers:</b></p> <ul style="list-style-type: none"> <li>- Line Departments (Officials)</li> <li>- Councillors</li> <li>- Unions</li> <li>- Audit Committee</li> </ul>	<p>Service delivery, information, processes, systems, financial advice and expertise and policies</p>

### 3. SENIOR MANAGEMENT ORGANOGRAM

#### 4. LINKAGE TO THE DRAFT IDP and changes to the indicators and targets

Due to the nature of the business, the majority of the objectives are directly linked to Strategic Focus Area (SFA) 5 "A Well-Run City" while others are linked to SFA 1 "Opportunity City".

#### 5. PERFORMANCE PROGRESS AND IMPACT

**The Finance Directorate has achieved various accolades and these are summarised as follows:**

- Unqualified Audit Report from Auditor General 8 consecutive years
- Unqualified audit reports for Municipal Entities for the past 3 years
- Received a high investment grade credit rating for the 6th consecutive year
- Improved Capital Budget Spending
- Sustainable Revenue collection despite the economic recession and high electricity tariff increases
- Continued Improved Supply Chain Processes & Procedures in collaboration with line departments
- Maintaining the ISO standard for Supply Chain Management

- South African Housing Foundation Award for the City's Housing Project of the Year (2011) including the funding thereof
- International Associate to the Canadian National Executive Forum on Public Property

## **6. FINANCIAL INFORMATION – Currently being drafted**

### **6.1 Summary of revenue by source**

### **6.2 Summary of operating expenditure by type**

### **6.3 Summary of capital expenditure by Department**

### **6.4 A description of discretionary and non discretionary expenditure**

Funds are utilised for discretionary expenditure whilst also noting that fund management programmes incorporate significant quantum of targeted external funds.

### **6.5 Risks:**

- Management, with the assistance of the Integrated Risk Management (IRM) Department, has applied their minds and due care taken to ensure that risks which could impact on them not achieving the Directorate's objectives are identified, addressed and managed on a day to day basis in accordance with the City's approved IRM Policy and IRM Framework.
- As per the legislative requirement any risks to achieving revenue projections, any expected major shifts in revenue patterns and planned alternative sources of revenue.

### **8.10 On the Directorate Capital Programme in the context of the overall capital programme of the City.**

The Directorate Capital Programme is linked the Financial Management Programme 5.3(a).

**7. LINK TO DIRECTORATE OBJECTIVES *(if applicable)***

The Financial Management Programme 5.3(a) is linked to Strategic Focus Area 5 – A well-run City, and the City’s Objective 5.3 – Ensure financial prudence with clean unqualified audits by the Auditor-General.

**8. OBJECTIVES AND INDICATORS OF THE DIRECTORATE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP) – *are contained in the Finance Directorate 2013/2014 Draft SDBIP – attached as APPENDIX 1.***

**9. AUTHORIZATION:**

**10. APPENDICES:**

## **FINAL DIRECTORATE EXECUTIVE SUMMARY**

**OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN  
2013/2014**

**Executive Director: Mr Richard Bosman**

**Website: [www.capetown.gov.za](http://www.capetown.gov.za)**

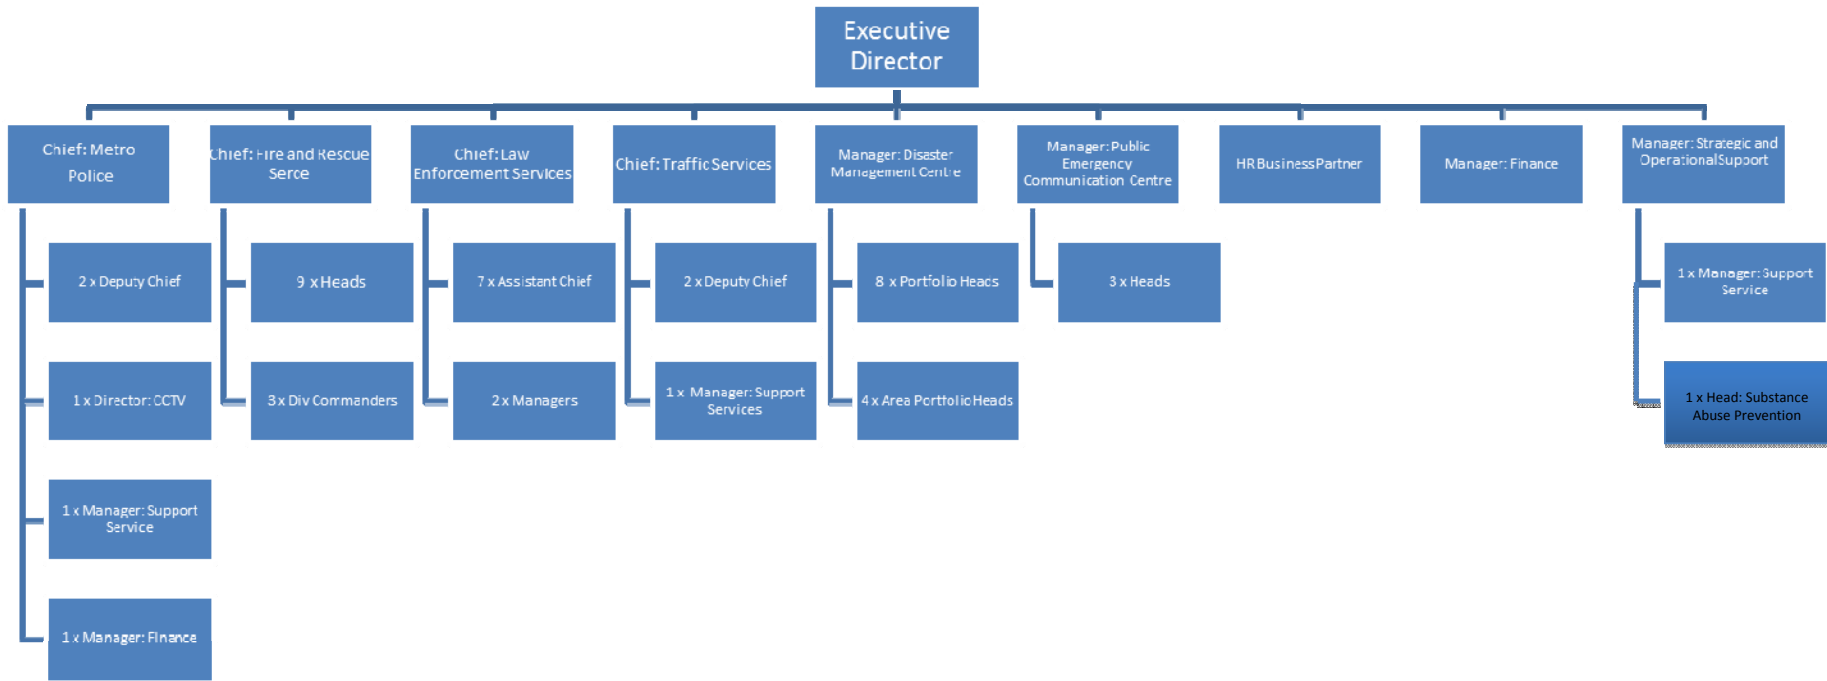

## **1. EXECUTIVE SUMMARY**

During the new financial year, the Directorate will aim to improve on its current high level of service delivery in line with IDP objectives. Particular emphasis will be placed on developing existing resources which will include the introduction of specialised training initiatives, securing specialist guidance from partner agencies in the international arena, focussing on the implementation and expansion of innovative crime and disorder prevention programmes and keeping up with innovative technological advancements in policing and emergency services fields.

## **2 PURPOSE AND SERVICE MANDATE OF DIRECTORATE**

The Safety and Security Directorate provides a wide range of services that aims to improve the general safety and therefore the quality of life of all residents and visitors to Cape Town. The Directorate's areas of responsibility include the functions of crime prevention, traffic enforcement, by-law enforcement, disaster risk management, fire fighting, emergency rescue as well as an emergency call centre function.

## **3. Senior management organogram**

#### 4. **LINKAGE TO THE IDP and changes to the indicators and targets**

Primary Key Performance Indicator: Perception of residents on the prevalence of anti-social behaviour (Survey score on five point symmetric scale). This indicator measures community perception in respect of the prevailing levels of general disorder in the City. The City's Community Satisfaction Survey measures public perception around a number of these issues i.e.

- Visible presence of traffic enforcement
- Action taken against illegal land invasions
- Action taken against illegal dumping
- Acting on complaints relating to noise and other disturbances
- By-Laws being enforced.

This Indicator will be influenced directly by the expansion of resources, improved efficiency and partnerships and therefore links directly to all four Objectives of the IDP Strategic Focus Area of a Safe City.

Key Performance Indicator 2.1(a): Number of auxiliary/volunteer staff members trained, appointed and deployed' relates directly to the IDP Objective 2.1 which calls for the expansion of staff and capital resources in the policing departments and emergency services. It will measure performance made with the implementation of main initiatives of this IDP Objective. This indicator is new and will be measured from 1 July 2013

Key Performance Indicator 2.1(b): Reduce the number of accidents at highest frequency intersections, to the IDP Objective (2.1) that calls for the expansion of staff and capital resources in the policing departments and emergency services.

Key Performance Indicator 2.1(c): Percentage response times for fire emergency incidents within 14 minutes from call receipt up to arrival. Performance in respect of this indicator is directly dependant on achievements in support of IDP Objective 2.1.

Key Performance Indicator 2.2 (a): Number of operational specialised units maintained, relates directly to the initiative under IDP Objective 2.2 which requires an investment in specialised units in line with international best practice.

Key Performance Indicator 2.2 (b): Increased number of arrests for drug related crimes (possession and dealing) relates directly to an initiative of IDP Objective 2.2, namely, Information-led Special Operations. This is the same indicator as used by the Directorate in the previous year and will continue to measure the Directorate's performance on this matter which enjoys the same level of priority as in recent years.

Key Performance Indicator 2.2 (c) The inspection of premises for compliance to liquor and business licenses relates to IDP Objective 2.2, namely , information – led Special Operations. This indicator is of significant importance as the illegal liquor trade impacts negatively on all communities.

Key Performance Indicator 2.3 (a): Percentage of SmartCop system implementation, relates directly to IDP Objective 2.3: Improved efficiency through information and technology driven policing as it will be measuring the implementation of a key initiative to this Objective.

Key Performance Indicator 2.4 (a): Percentage of staff successfully completing occupational specific legislative training interventions relates directly to IDP Objective 2.4 which calls for the improvement of efficiency of staff through effective training interventions. This Indicator was used in the Directorate SDBIP in the previous year and is relevant to all Departments of the Directorate.

Key Performance Indicator 2.4 (b): measures the percentage of staff members of the three policing departments who undergo refresher training on the enforcement of by-laws. This indicator relates to IDP Objective 2.4 which calls for the improvement of staff efficiency through effective training interventions.

Key Performance Indicator 2.5 (a): Percentage of Neighbourhood Watch satisfaction survey. This indicator relates to IDP Objective 2.5 which calls for improved safety and security through partnerships. The City's Neighbourhood Watch Support Programme is one of the main initiatives of this Objective.

Key Performance Indicator 2.5 (b): will measure the community perception on the impact of social crime prevention programmes and relates to IDP Objective 2.5.

## 5. **PERFORMANCE PROGRESS AND IMPACT (if applicable)**

Expanding its staff and capital resources to meet the ever growing demands for service delivery, is a major IDP objective of the Safety and Security Directorate. A number of initiatives that would augment the Directorate's operational staff establishment at minimal cost to the City were therefore introduced. These include the Externally Funded Member Programme for Law Enforcement and Traffic Services as well as volunteer programmes for Law Enforcement, Fire & Rescue and Disaster Risk Management officials. The Directorate accordingly managed to deploy an additional 483 staff members through these initiatives in the previous financial year.

An important operational point of focus for the Directorate during the previous financial year was the combating of anti-social behaviour, such as public drunkenness and drinking, riotous behaviour, excessive noise and disturbances and other offences that have a negative impact on the quality of life of residents. A total of 112 492 citations were issued for bylaw offences across the city. Significant results were also achieved in the combating of illegal land invasions and the Directorate continued to strengthen its Problem Building Unit which yielded a number of successes including:

- 511 problem buildings were investigated of which 199 complaints were finalised.
- 34 buildings were boarded up by owners in compliance with the instructions of the Department.

The Metro Police Department continued to clamp down on the illegal drug and alcohol trade across the City with the continuation of information-led operations aimed at flushing out dealers and disrupting their activities. Here, the Department's Substance Abuse Enforcement Unit and Gang Unit achieved significant successes. To this end, the department exceeded its arrest target for drug related crime and performed a total of 1783 such arrests. The new financial year will see a continuation of these efforts as the combating of drug related crime remains high on the operational agenda.

The Directorate will continue to strengthen its specialised policing units as available resources permit.

Specialised community policing initiatives were another focus area where the Directorate excelled. An additional eight Neighbourhood Safety Officers (NSO) were deployed as dedicated policing resources for particular communities. A specialised

training programme has also been developed for NSO's. Closely related to this initiative, is the School Resource Officer (SRO) programme which required the dedicated deployment of experienced Metro Police members in schools. To this end, an agreement has been entered into with the Western Cape Department of Education which saw the deployment of six specially trained SRO's being deployed in six selected schools at the start of the 2013 school year.

The City has set itself a target of responding to at least 80% of all fire and other emergency incidents within 14 minutes from the call receipt to arrival on the scene. During the previous financial year, fire and rescue units achieved an 82% compliance with this target. It once again needs to be mentioned that the City's Fire and Rescue Service is not operating at full strength and that continues efforts will have to be made in working towards securing the resources required to meet the standards set in the SANS Code 10090 – Community protection against Fire.

# **TRANSPORT, ROADS & STORMWATER DIRECTORATE EXECUTIVE SUMMARY**

**OF THE DRAFT SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN  
2013/2014**

**Executive Director: MELISSA WHITEHEAD**

## 1. EXECUTIVE SUMMARY

The Directorate Transport, Roads and Stormwater comprises of four Departments:

- Transport
- Roads and Stormwater
- Integrated Rapid Transit (IRT) Implementation
- Integrated Rapid Transit (IRT) Operations

These Departments are supported by Strategic Support, Finance and Human Resource Management Services.

The Directorate's performance objectives are linked to all five Strategic Focus Areas of the IDP.

The total draft expected revenue (excluding capital and operating transfers and contributions) for 2013/14 financial year is R 58,683,550 the draft total operating expenditure is R 1,211,479,267 and the draft total capital expenditure is R 1,479,619,598 (excluding grant funding). The Directorate is capital intensive, particularly with the provision of Integrated Rapid Transport, Public Transport and Road and Stormwater infrastructure. In addition, maintenance of the Infrastructure is a significant part of the business.

## 2 PURPOSE AND SERVICE MANDATE OF DIRECTORATE

A summary of the four Departments' functions can be depicted as follows:

### TRANSPORT

To lead and direct

- The implementation of an appropriate institutional framework for transport that will result in coherent, integrated and comprehensive planning, funding, extension and operation of transport functions in Cape Town with specific reference to Transport for Cape Town
- The design and implementation of the City Integrated Transport Plan; Integrated Public Transport Network, Infrastructure and Operations to meet access and mobility needs of all the citizens, visitors, goods and services and maximize use of transport infrastructure to support job creation, social and economic development and minimize environmental impacts
- The transformation and restructuring of the Public Transport system and services in order to promote Public Transport and support economic development
- The management and administration of the Cape Metropolitan Transport Fund (CMTF) and the other transport grants

In terms of a Strategic Investment Plan, the aim is to redirect capital and operating investments as follows:

- Direct improvements in services and operations to enable an efficient and safe Public Transport System i.e. promotes Public Transport passenger information and provides management and security at Public Transport Interchanges. Plan, design and maintain Public Transport infrastructure and facilities.
- Ensure improved access and mobility for all citizens, visitors, goods and services through planning, coordination and implementation of a sustainable and equitable transport system, - network and infrastructure. Establish future transport demand forecasts and projections and driving the universal access and Non-Motorized Transport agenda for the City. Responsible for the co-ordination and Approvals of Transport Impact Assessment linked to private and public sector developments.
- Co-ordinate a Transport Capital Investment Management System to enable the development of a sustainable, efficient and equitable transport system, network and infrastructure and support for economic development and social inclusion.
- Co-ordinate all the assets within Transport under a singular and sustained Asset and Risk Management Strategy and ensure that the transport system, network, and infrastructure is well maintained, enhanced and expanded to accommodate increase in demand for access and mobility.
- Enable a safe environment for communities in the provision and implementation of traffic calming measures. Ensure the optimum use of transport technology and the creation of new and maintenance of existing transport systems.

A summary of Authorities & Mandates for Municipalities in terms of the National Land Transport Act (5 of 2009) for all modes of transport, the focus being road and rail includes:

- Planning Authority Functions

- Regulatory Authority
- Contracting Authority
- Land Transport Law Enforcement
- Monitoring & Evaluation
- Asset Management

## ROADS AND STORMWATER

### **Roads Division**

To plan, design, construct, manage and maintain a sustainable road based transport network that promotes shared economic growth, improves the quality of life, reduces road user costs and provides for improved access and mobility for the people of Cape Town

- To provide formal comment in the approval process of development proposals within Cape Town
- To improve the energy efficiency of road construction and road maintenance activities

The aim is to ensure that the road network is efficiently managed at an optimum condition. This will be achieved by applying best practice principles in assessing the road network and carrying out the required road maintenance interventions timeously and within budget. In addition, there will be focussed interventions to eradicate infrastructure backlogs, optimising access to grants and promoting appropriate labour intensive activities to assist in job creation.

### **Stormwater Division**

To effectively managed stormwater drainage with safe and healthy rivers, wetlands, vleis and coastal bathing areas.

The customers of this service are the citizens of Cape Town, whose expectations are:

- Protection from flood nuisance from the minor, frequently occurring storms;
- Minimum risk of threats to life and safety, as well as of inundation of property, during flooding resulting from the more severe but less frequently occurring storms;

- Low risk to health of coastal and inland recreational waters;
- Reduced impact of urban development on aquatic ecosystems.

### INTEGRATED RAPID TRANSIT (IRT) IMPLEMENTATION

The Department: IRT Implementation is responsible for the IRT System Planning, Infrastructure design and implementation as well as the overall co-ordination and Project Management functions of the overall project. The Department's core functional areas include:

- IRT System Planning and Development
- IRT Infrastructure Planning, Design and Implementation
- IRT Project Management and Co-ordination

These are supported by financial functions. The administrative support function resides in a centralised Department under the Executive Director: transport, Roads and Stormwater.

The IRT Implementation Department (together with the IRT Operations Department) is focused on implementing the City's Integrated Rapid Transit System in a phased manner in accordance with grant funding to be received from National Government. This will include the provision of road based public transport facilities (dedicated bus ways, bus stations, stops, depots and other ancillary facilities) and non-motorized transport facilities (cycle and pedestrian facilities).

The Department together with IRT Operation will be responsible for the following projects during the 2013/14 financial year:

- |            |   |   |
|------------|---|---|
| Phase 1A   | - | West Coast  |
| Phase 1B   | - | Koeberg and Century City links                                  |
| N2 Express | - | Express service from Metro South East (MSE) to the Civic Centre |
| Phase 2    | - | Planning of Metro South East linkages to Wynberg and Claremont  |

### INTEGRATED RAPID TRANSIT (IRT) OPERATIONS

The IRT Operations Department (together with the IRT Implementation Department) is focused on rolling out the full Phase 1A project of the City's Integrated Rapid Transit System before the end of 2013.

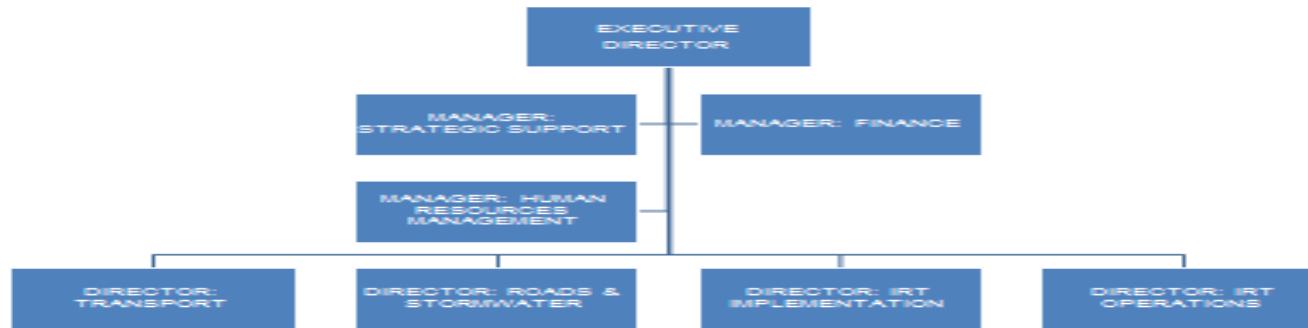

The core functions of the IRT Operations Department are:

- Business development, including service contracts, institutional arrangements
- Input into planning of future phases of IRT, including system planning and infrastructure planning
- IRT / *MyCiti* Operations
- IRT / *MyCiti* Operational customer relations, marketing and communications
- Public transport industry transition
- Supported by financial, legal and administrative functions

The Department together with IRT Implementation will be responsible for the following projects during the 2013/14 financial year:

- |            |   |   |
|------------|---|---|
| Phase 1A   | - | West Coast  |
| Phase 1B   | - | Koeberg and Century City links                                  |
| N2 Express | - | Express service from Metro South East (MSE) to the Civic Centre |
| Phase 2A   | - | Planning of Metro South East linkages to Wynberg and Claremont  |

### **3. SENIOR MANAGEMENT ORGANOGRAM**

#### 4. LINKAGE TO THE IDP AND CHANGES TO THE INDICATORS AND TARGETS

The Directorate's performance objectives are linked to all five Strategic Focus Areas of the IDP with specific reference to the Opportunity City.

The performance objectives for Transport contribute mainly to ensure mobility through the implementation of effective public transport systems. Roads and Stormwater's objective to provide and maintain economic and social infrastructure to ensure growth-led infrastructure development and the conservation of natural resources through the management of inland and coastal water quality along the bathing beaches. The primary performance objectives for the Integrated Rapid Transit Departments will contribute to the improvement of public transport systems and services. In general, the provision of transport systems and services, roads and related infrastructure and the provision of stormwater infrastructure contributes to the economic growth and development of the city and the conservation of natural resources.

## 5. PERFORMANCE PROGRESS AND IMPACT

The provision and maintenance of infrastructure is the core focus of the Transport, Roads & Stormwater Directorate and some of the measures of performance relates to the percentage of the Capital and Operating budget spent.

The improvement in public transport systems and services focuses primarily on the provision of an IRT system, providing the required transport infrastructure and institutional and operating mechanisms and arrangements for an integrated public transport system and service.

The conservation of natural resources through the management of inland and coastal water quality is influenced by various factors and is measured against compliance of the standards set by the Department Water Affairs and Environment.

## 6 FINANCIAL INFORMATION (PROVISIONAL FIGURES)

### 6.1 Summary of revenue by source:

Description (Rands)	Transport , Roads & Stormwater
<u>Revenue By Source</u>	
Service charges – other	41,788,327
Rental of facilities and equipment	
Licenses and permits	1,150,829
Other revenue	15,744,394
Transfers recognised – operational	
<b>Total Revenue (excluding capital transfers and contributions)</b>	<b>58,683,550</b>

6.2 Summary of **Controllable** Operating Expenditure (excluding grant funding) by type:

Description (Rands)	Transport , Roads & Stormwater
<u>Expenditure By Type</u>	
Employee related costs	540,941,963
General Expenses	96,236,047
Contracted services	151,946,235
Repairs and Maintenance	422,355,022
<b>Expected total operating expenditure</b>	<b>1,211,479,267</b>

6.3 Summary of capital expenditure (excluding grant funding) by Department:

Description	Budget / Amount (R)
<b>Transport , Roads &amp; Stormwater</b>	<b>1,479,619,598</b>
Roads and Stormwater	396,964,835
Transport	146,014,668
Strategic Support	81,534
Office Support	43,121
IRT Implementation	665,826,105
IRT Operations	270,689,335
Finance	0
HR Business Partner	0

6.4 A description of discretionary and non-discretionary expenditure.

- All funds are linked to projects, programmes and respective approved Departmental Business Plans and SDBIPs.
- Major maintenance backlogs regarding road maintenance and stormwater maintenance exists mainly due to insufficient budgetary provisions.

6.5 Any risks to achieving revenue projections, any expected major shifts in revenue patterns and planned alternative sources of revenue

- The Transport Department is not a revenue generating department and therefore the risks of not collecting planned revenue are not applicable.
- The Roads & Stormwater Department is in general not a revenue generating department. The revenues that are generated are mostly from rental agreements, which are concluded beforehand, and filming related fees. The revenue generated is insignificant compared to the cost of providing this function.
- IRT does not generate revenue for the City directly. The revenue generated will accrue to the operator directly or indirectly depending on the model adopted.

8.11 The Directorate capital programme in the context of the overall capital programme of the municipality

- TR&S is capital intensive, and will be so until the conclusion of all the phases of the entire IRT system.

## 7. **ASSUMPTIONS AND RISKS**

7.1 Management, with the assistance of the Integrated Risk Management (IRM) Department, has taken reasonable care to identify risks that could impact negatively on the achievement of the City's identified 5 Strategic Focus Areas. In accordance with the City's approved IRM Policy, Framework and Implementation Plan, risks are constantly updated, reviewed and managed.

Risk registers are utilised as a management tool and are discussed on a monthly basis with the Executive Director and the Mayoral Committee Member to assess current status, changing risk profiles and any new interventions required. Risks equal to or above the Council approved appetite level are reported to the Executive Management Team (EMT) as well as Mayco.

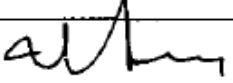

**8. OBJECTIVES AND INDICATORS OF THE DIRECTORATE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)**

The objectives and indicators of the Directorate are detailed in the attached Service Delivery and Budget Implementation Plan (SDBIP).

# ANNEXURE A

## SOCIAL DEVELOPMENT & EARLY CHILDHOOD DEVELOPMENT

# DRAFT DIRECTORATE EXECUTIVE SUMMARY

OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN

## 2013/2014

**Executive Director: Gerhard Ras (acting)**

**Website** *(for detailed SDBIP):* <http://www.capetown.gov.za/en/socialdevelop/Pages/default.aspx>

## 1. EXECUTIVE SUMMARY

It is common cause that many families in South Africa, and specifically in the jurisdiction area of the City of Cape Town, are in crisis and are faced with a number of challenges which impact negatively on their ability to sustain themselves. Factors that continue to negatively influence the social cohesion within families in Cape Town include poverty, unemployment, alcohol and drug abuse, HIV/AIDS, TB, gangsterism, increasing cost of living, materialism and lack of financial means to access socio-economic services (e.g. social welfare, municipal and housing). Needless to say that the extent of the social decay and the subsequent demand for social welfare services in Cape Town outweigh the supply of such services, which makes it imperative that the services that are indeed rendered, conform to acceptable efficiency and value for money standards, produce measurable outputs and have positive impact on social cohesion.

Against the above-mentioned background, the Directorate: Social Development and Early Childhood Development (SDECDs), in accordance with its statutory duty determined in Section 4(2)(j) of the Local Government: Municipal Systems Act, 32 of 2000, contributes with other organs of state and private sector partners incrementally (within the constraints of its financial means) provide social services to those who need it. In giving effect to its mandate, the SDECDs furthermore concluded a Protocol Agreement with the Western Cape Provincial Department of Social Services (SOCDEV), which enables the SDECDs to collaborate on a number of its programmes with the SOCDEV.

Whilst SOCDEV has statutory responsibilities that mainly focus on curative, SDECDs mainly focuses on preventative social services. The basket of services rendered by the SDECDs include the development and management of ECD facilities, assessment and referral services for street people, awareness and prevention initiatives to curb substance abuse, accessing employment opportunities through the Expanded Public Works Programme for unemployed, providing food through soup kitchens in exceptional circumstances, curbing gender violence through awareness programmes and by offering life and employment skills through training initiatives. All the afore-mentioned programmes are aimed at strengthening social cohesion by creating awareness and resilience within vulnerable communities in Cape Town.

All the social services provided by the SDECDs are aligned with Strategic Focus Area 3 in the Integrated Development Plan of the City of Cape Town, i.e. the Caring City. The SDECDs' programmes are more specifically aligned to IDP objective 3.1, i.e. to provide access to social services for those who need it. The objectives of the SDECDs are discussed in detail in paragraph 2.3 hereunder.

## 2. PURPOSE AND SERVICE MANDATE OF DIRECTORATE

- 2.1. Vision 1: An Opportunity City with an enabling environment conducive to building caring, inclusive and sustainable Communities.
- 2.2. Purpose: The purpose of Social Development and Early Childhood Development Directorate is to create opportunities and an enabling environment for communities to meet their developmental needs in order for them to become resilient and self-reliant which will enable them to participate in the global economy.

### 2.3. Core Functions:

- Planning in respect of six social development service programmes
- Collaborate with other spheres of government to establish synergy in respect of implementation of social development services
- Implement social development services in accordance with approved SDBIPs
- Implement ward allocation funded projects that are aligned with the directorate's core business

### 2.4. Programmes:

#### 2.4.1. Early Childhood Development:

- Assist with ECD centres' registrations in collaboration with Spatial Planning and Department of Social Development (PGWC)
- Train ECD practitioners, caregivers and parents in capacity building
- Conduct regular surveys/audits on registered and unregistered crèches in conjunction with PGWC
- Construct and maintain ECD centres
- Contribute towards ECD curriculum development
- Assist non-complying ECD centres and act against on-going non-compliance

#### 2.4.2. Street People:

- Compile database of street people
- Provide assessment centres (including referral services) access to other services, including physical and mental assessment, referrals for bed space, rehabilitation and reintegration to communities of origin
- Implement the Winter Readiness programme
- Deal with street people matters on a daily basis in conjunction with the Displaced People's Unit
- Create employment opportunities through EPWP programmes

#### 2.4.3. Substance Abuse:

- Establish Local Drug Action Committees and capacitate them to carry out preventative projects

- Forge partnerships with PGWC, NGOs and CBOs
- Concentrate on awareness programmes concerning the negative impact of substance abuse
- Collaborate with schools to implement substance abuse awareness sessions via MOD centres
- Manage the “Be Smart, Don’t Start” project

#### 2.4.4. Vulnerable groups:

- Initiatives in this programme are aimed at:
  - Women and Gender matters
  - Senior Citizens
  - Persons with disabilities
  - Orphans
- The focus is on awareness raising initiatives concerning gender based violence, abuse against senior citizens, assistance to persons living with disabilities regarding employment opportunities and assisting with care
- Orphans are addressed in association with the ECD programme and PGWC

#### 2.4.5. Youth Development:

- Life skills and employment skills for youth
- Career planning and referrals for further training within City of Cape Town and other institutions offering further training aimed at improving employability of youth
- Identifying youth for leadership development programmes
- Collaborating with Department of Social Development (PGWC) to render support to youth at risk

#### 2.4.6. Poverty Alleviation and Reduction:

- Establishment of Community Gardens which include, but are not limited to: Food Gardens; Soup Kitchens; Feeding Schemes; Recycling Projects.
- Receiving Food Vouchers for Jobs at these Community Gardens
- Provision of food for the destitute on an ad hoc basis
- Manage the “Give Responsibly” campaign

#### 2.5. Research and Knowledge Management:

- Identification of policy requirements to address social issues and challenges impacting on the lives of people in local communities.

- Development of policies that enhance social development initiatives within the strategic framework of local government (the City of Cape Town).
- Support and Sustain a healthy working relationship between all spheres of government.
- Initiation of collaborative partnerships between this directorate and other directorates within the City of Cape Town.
- Ensure that the development and formulation of policies and strategies within all city departments are sensitive to the social developmental and early childhood developmental needs of communities.
- Monitor and evaluate (including impact assessments) of current programmes, projects, interventions and initiatives.
- Influence planning for the following set of programmes, projects, interventions and initiatives.
- Suggest Business Improvement opportunities or new programmes, projects, interventions and initiatives for the following financial year.
- Stakeholder management.

## 2.6. Legislative Imperatives:

The Constitution of the Republic of South Africa, Act 108 of 1996, assigns responsibility for social development to the national and provincial spheres of government and determines that the objects of local government, amongst others, is to promote social and economic development. Section 4(2)(j) of the Municipal Systems Act, No 32 of 2000, states that a municipality must contribute, together with other organs of state, to the progressive realisation of the fundamental rights contained in sections 24, 25, 26, 27 and 29 of the Constitution.

Collectively, all spheres of government support development of local government through:

- **Promotion of social and economic development.**
- **Poverty addressed through municipal service provision.**
- **Job creation and boosting of the local economy through the spending and work of the Council itself.**
- **Guidelines for redressing the historic inequality and disparities in economic opportunities and asset bases.**
- **Local government facilitation in attracting, planning and maintaining local investments, including land use management.**
- **Support for the first and second economies.**
- **Interventions aimed at broadening socio-economic inclusiveness.**

Section 16(1)(b)(1) of the Municipal Systems Act, No 32 of 2000, states that a municipality must contribute to building the capacity of the local community to enable it to participate in the affairs of the local municipality. Section 51(a) of the said act obliges municipalities, amongst other things, to be responsive to the needs of the local community.

## 3. SENIOR MANAGEMENT ORGANOGRAM

## 5. PERFORMANCE PROGRESS AND IMPACT (if applicable)

The previous three years information is available in the Annual Reports located on the site: <http://www.capetown.gov.za/en/IDP/Pages/ManagingPerformance.aspx>

The programmes implemented by the Directorate during 2012/13 financial year prioritised and focused on addressing through training, skills development and capacity building social needs and challenges faced by the residents and visitors to Cape Town. They were implemented in an effective and efficient manner to benefit all communities, in particular, poor communities and vulnerable groups. All programmes were geared to contribute in improving skills levels of ordinary people, widen access of poor communities to opportunities, and contribute in addressing social ills as well as reducing poverty and vulnerability. People at community level became capacitated to play a meaningful role in the development of their communities to be cohesive and sustainable. As a consequence participated community members are vested with skills that enable them to lead productive and meaningful lives.

The Social Development and Early Childhood Development Directorate makes every effort to ensure the social benefits of its programmes reaches those in need, thus making a difference in the lives of intended beneficiaries. Progress is monitored monthly, and the results thereof reported to the Social Development and Early Childhood Development Portfolio Committee. Variances are identified, and remedial action is suggested and monitored. The Social Development and Early Childhood Development Directorate is in the process of developing and implementing a monitoring and evaluation system to measure:

- *Outcomes:* The 'products' expected from the programme as defined under its goals.
- *Impact:* Changes in the condition of beneficiaries caused directly by the programme.
- *Effect:* Other results of the programme, either social or institutional in nature, expected or unexpected.

The monitoring and evaluation process shifts attention from merely managing service delivery through departments, to one which simultaneously monitors and evaluates a comprehensive combination of programmes (as by other City departments, NGOs/CBO's and other spheres of government) that address needs from a holistic perspective. Within the City, the approach will be on the creation of effective cross departmental teams working under the leadership of the Social Development and Early Childhood Development Directorate. The process of evaluation also marks a shift in evaluation as it requires active engagement with communities in deriving detailed needs statements and preparing relevant responses.

f discretionary and non-discretionary expenditure:

The Directorate has no discretionary or non-discretionary expenditure. There is no expenditure on non-core functions.

#### 6.5. Risks:

The Directorate Management Team, with the assistance of the Integrated Risk Management Department, have applied their minds, and due care has been taken to ensure that risks which could impact on them not achieving the directorate's objectives, have been identified, addressed and managed in accordance with the City of Cape Town's approved IRM policy and IRM Framework. Risk registers are thus utilized as a management tool in order to manage all risks of the directorate. The risks identified and rated equal or above the Council approved rating (appetite), will be reported to the EMT, as well as to the relevant Mayoral Committee member on a six monthly basis. The following risks are currently in the process of being mitigated:

- Lack of capacity to manage grant funding, donations and partnerships
- Unable to meet socio-economic needs of communities
- Delays with the implementation of capital projects
- Risk of fraud
- Lack of knowledge and utilization of City's information management systems
- Ineffective performance management and reporting on objectives
- Draft formats of majority of directorate's policies

6.6. The directorate capital programme in the context of the overall capital programme of the City of Cape Town:

(Information as per 2012/2013 Budget Book: May 2012, p36)

7. CAPITAL PROGRAMME LINK TO DIRECTORATE OBJECTIVES (if applicable)

applicable)

The core function of our capital programme is to construct Early Childhood Development Centres. This programme is linked to:

- Objective 3.1.: Provide access to social services for those who need it
- Objective 4.2.: Provide facilities that make citizens feel at home
- Objective 5.2.: Establish an efficient and productive administration that prioritises service delivery

**8. OBJECTIVES AND INDICATORS OF THE DIRECTORATE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN (SDBIP)**

**ANNEXURE “A”**

## **CORPORATE SERVICES**

# **DRAFT DIRECTORATE EXECUTIVE SUMMARY**

**OF THE SERVICE DELIVERY AND BUDGET IMPLEMENTATION PLAN**

**2013/2014**

**Executive Director: Fatima Habib**

**Website** *(for detailed SDBIP)* : **[www.capetown.gov.za/idp](http://www.capetown.gov.za/idp)**

## 1. EXECUTIVE SUMMARY

Corporate Services Directorate is a multi-disciplinary, strategic partner to all directorates. It provides value adding policies, strategies, processes, systems, interventions, knowledge and expertise. Corporate Services (CS) is the central pivot around which many of the service delivery departments of the City work.

## 2. PURPOSE AND SERVICE MANDATE OF DIRECTORATE

### i. Vision and Mission

#### a) Vision

To “add value to the City by providing high quality internal support to the various Business Units, thereby significantly contributing to the efficiency and effectiveness of the CITY of CAPE TOWN”

#### b) Mission

Corporate Services will strive to deliver superior support services with the best of breed practices, procedures and systems thereby enabling the City of Cape Town to achieve its core mandate of service delivery

### ii. The Road map

To achieve the above and in order to provide high quality, cost – effective and efficient support services to the CITY OF CAPE TOWN, CS will:

- Be customer and process- focused
- Use leading-edge technologies
- Implement quality service standards and performance measures
- Attract, develop and retain functional expertise

**iii. The Core functions of the Directorate**

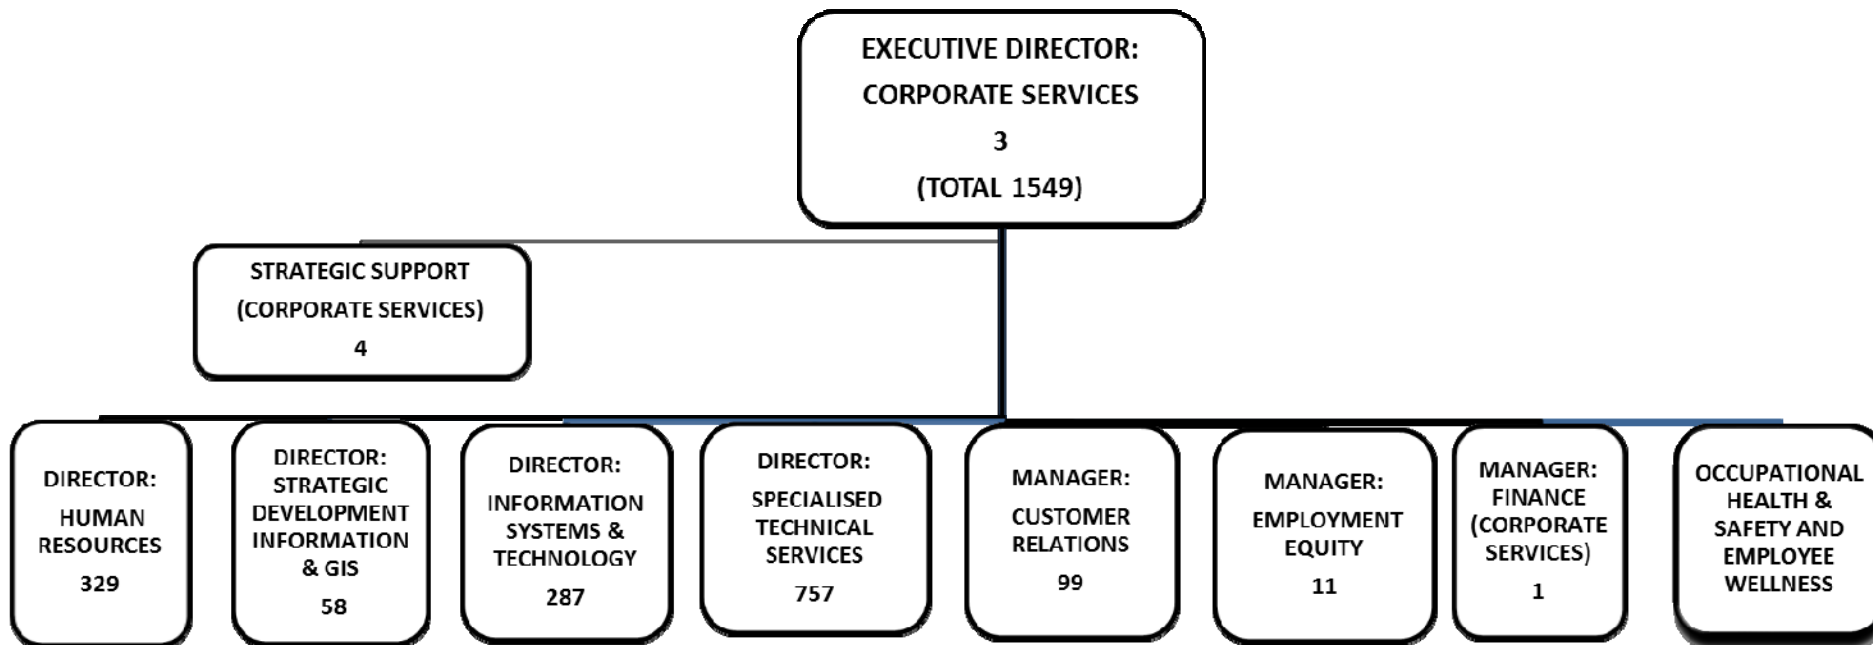

<b>Department</b>	<b>Function</b>
Customer Relations	The Customer Relations (CR) Department provides an effective and efficient customer relations service to the City's customers to address their requirements in terms of access to municipal service delivery, thereby creating a positive image of the City of Cape Town.
Occupational Health and Safety	To design, advise, facilitate and implement on strategic programmes to improve occupational health and safety management across the City of Cape Town. Employee Wellness aims to design, advise, facilitate and implement on strategic programmes to improve Employee Wellness across the City of CapeTown.
Employment Equity	Provides strategic direction and develop corporate guidelines for (to assist with) the implementation of the City's EE Policy and EE Plan that form the basis of the City's transformation agenda.
Information Systems & Technology	The Information Technology and Systems Department (IS&T) of the City Of Cape Town, deploys a three pronged strategy to maximize the use of information Technology (IT) within the City and thereby improve services to citizens. As a strategic partner to business it aims to be a catalyst for the transformation of public services and it will enable the City of Cape Town to become a more efficient and affective local authority.
Specialized Technical Services	Specialized Technical Services as a department provides a professional and specialist function, technical and administrative to its clients and employees so that available resources are effectively used, business demands are met, operating systems are maintained, and employees receive the information and resources necessary to effectively perform their work.
Strategic Development Information & GIS	The Strategic Development Information & GIS Department is, at a corporate level, responsible for the provision of strategic development information and knowledge, and related support services. The core function of the department is to facilitate and enable the integration of information and knowledge from the various departments of the City to ensure sharing and dissemination of information and knowledge across city departments and to external customers and stakeholders.
Human Resources	<p>The purpose of Human Resources is to develop, drive and implement Human Resources strategies, programmes and intervention across the City in order to ensure the alignment of staff to business needs. The strategies, programmes and interventions are delivered through partnerships with internal and external stakeholders, the primary internal stakeholders being the Employment Equity and line departments. Human Resources provides a corporate centre of excellence in relation to human resources strategies, organisational development services, HR and related policies, talent management, business improvement, quality management, organisational design, change management, collective bargaining, labour relations, general HR &amp; business consultative services and also Corporate Administrative functions, including the Employee Interaction Centre and Personnel Administration,</p> <p>Human Resources is the custodian of human resources policies.</p>

**iv. Partners, Stakeholders and Customers**

### 3. SENIOR MANAGEMENT ORGANOGRAM

4. **FINANCIAL INFORMATION** *(Note: All financial information are provisional and subject to the following: \* Consideration by Mayco and Council in March 2013; \* Final approval by Mayco and Council in May 2013)*
- i. **Summary of revenue by source:**

WC000 Cape Town - Supporting Table SA2 Matrix Financial Performance Budget (revenue source/expenditure type and dept.)	
CORPORATE SERVICES	
Description R thousand	Vote 01 - Corporate Services

Services												
Total Capital Expenditure												

**iv. A description of discretionary and non-discretionary expenditure**

- All funds are linked to projects, programmes and respective Departmental Business plans and SDBIP's

**v. Risks:**

- Any risks to achieving revenue projections, any expected major shifts in revenue patterns and planned alternative sources of revenue
  - Not applicable to Corporate Services as we are not a revenue generating Directorate
- Major risks from Directorate risk register
  - Non-compliance with OHS Act and related Statutes
  - Non-compliance with Registry & Records Management procedures - City Wide
  - Single Public Service & National Government Turnaround strategy
  - Failure to achieve NKPI EE Statistics
- Management, with the assistance of the Integrated Risk Management (IRM) Department, has applied their minds and due care taken to ensure that risks which could impact on them not achieving the Department's objectives are identified, addressed and managed on a day to day basis in accordance with the City's approved IRM Policy and IRM Framework. Risk Registers are thus utilised as a management tool in order to manage all risks of the Department. The risks identified and rated, equal or above the Council approved rating (appetite) will be reported to the EMT, as well as to the relevant MayCo member on a six monthly basis.

**vi. On the directorate capital programme in the context of the overall capital programme of the municipality**

The Corporate Services Directorate's Capital Budget is estimated to be 4% of the total Capital Budget for the City.

## 5. STRATEGIC ALIGNMENT AND LINK TO THE IDP PROGRAMMES

SFA	OBJECTIVES	PROGRAMMES	INITIATIVES (INPUTS AND OUTPUTS)

**OFFICE OF THE DEPUTY CITY MANAGER**  
**DRAFT DIRECTORATE EXECUTIVE SUMMARY**  
**OF THE SERVICE DELIVERY BUDGET IMPLEMENTATION PLAN**  
**2013/2014**

**EXECUTIVE DIRECTOR: MIKE MARSDEN**

**Website:** *(For detailed SDBIP)*

## 1. EXECUTIVE SUMMARY

The Council has established the Office of the Deputy City Manager to drive the strategic and operational programmes projects and processes for Directorate: Office of the City Manager. The newly appointed Deputy City Manager (DCM) has been tasked with a responsibility of ensuring that the organisation is operationalized, functional and compliant to all the Local Government legislation. Motivations for the establishment of the DCM included a renewed focus on service delivery integration and a reduction of the load of the City Manager in order for the City Manager to exercise a more unencumbered leadership and strategic role interfacing with the political level.

The directorate comprises of diverse but aligned departments in terms of the City's service delivery model. The Directorate seeks to align itself with the ethos of "*Service Excellence*".

The **Executive Support** provides strategic and operational administrative specialised support to Council's executive and administrative governance structures. **Governance & Interface** provides administrative support the Executive Office Bearers and Subcouncil. The **Integrated Development Planning & Organisational Performance Management (IDP&OPM)** department drives the Integrated Development Planning and Organisational Management System programmes, processes and procedures, and is responsible to ensure that the City is compliant to the legislative requirements.

The **Forensics, Internal Audit, Integrated Risk Management** and **Ombudsman** drive, lead and implement the Probity functions of the City, including Quality Assurance, Good Corporate Governance and Ombudsing services. These departments also conduct advocacy and awareness programmes to capacitate all internal and external stakeholders with the intention of reducing fraud, corruption, maladministration and improving service delivery. The **Legal Services** department provides legal services, and is responsible for guiding the administration's decision-making processes in order to eliminate or reduce exposure to litigation.

The **Expanded Public Works Programme (EPWP)** department is responsible for mainstreaming this National Government Programme within the City and ensuring the creation of maximum job opportunities as set out in the Corporate Scorecard.

The **Service Delivery Integration (SDI)** is a new department which has not yet been operationalized. Its mandate is the integration of services across the City.

Generally, the departments are responsible for providing a proactive service through advocacy sessions in order to promote their functions and to raise the service delivery awareness across the City.

## 2. PURPOSE AND SERVICE MANDATES

### 2.1. Vision

2.1.1. As this is a newly aligned directorate, it still has to define its vision and shared-goals.

### 2.2. Overarching aims, objectives and core functions of the Department

2.2.1. As it has been articulated in the Department Business Plans, it is evident that this Directorate is responsible for providing strategic and operational leadership and direction to the City in order to capacitate and enable the Service Delivery Directorate to deliver on their mandates. This directorate is still refining its overarching as underpinned by the Strategic Focus Area no 1:- An Opportunity City; 4:- an Inclusive City and no 5: -A Well-Run City.

### 2.3. Brief description of direction and intention of the Directorate

2.3.1. Its mandate includes, *inter alia*:

- Provision of service delivery integration capacity to the City Manager and EMT
- Provision of strategic and operational specialised support to the Executive and Administrative Governance structures including the Executive Mayor, the Speaker, the Chief Whip, the Mayoral Committee, the Chairperson of Council Committees and Councillors
- Leading the development and monitoring of all indicators at organisational level (Organizational Performance Management).
- Provision of organizational capacity for the incubation, implementation and “transfer” of programs and projects of organisational significance.
- Undertaking the coordination and integration of large scale capital programs.
- Driving the implementation and monitoring of the organization-wide Capital Budget spending.
- Supporting the City Manager and act as City Manager in his absence
- Supporting the Mayor with Special Projects and to interface on specifically identified corporate matters between the Mayor's Office and the Administration, including Communication.

### 2.4. Customers

2.4.1. The directorate's customers are diverse and include, *inter alia*:

- Members of Council and its committees,

- the Executive Mayor,
- the Speaker,
- the Mayoral Committee,
- the City Manager,
- the Executive Management Team
- Members of the public
- Audit Committee
- South African Police Services
- Independent Electoral Commission
- MPAC (SCOPA)
- Auditor General
- Assurance Providers
- EMT Sub-Committees
- Western Cape Risk Management Forum
- National Treasury
- RISKCO and Risk Champions & Coordinators
- Municipal Entities
- Department of Provincial Local Government
- Chapter 9 Institutions (Ombudsman)
- International Ombudsman Community
- Department of Co-operative Governance and Traditional Affairs

## 2.5. Expectations

2.5.1. All customers expect the Directorate: Office of the Deputy City Manager to be reliable and responsive to their needs by continuously providing excellent service.

## 2.6. Legal and intergovernmental imperatives impacting on the plan

2.6.1. The City Manager is appointed by Council as the Head of the Administration in terms of the Structures Act. The Deputy City Manager has been appointed by Council to drive the City's strategic programmes. It is expected for the directorate to be familiar with Council's policies, processes and procedures, its System of Delegations, Rules of Order for Council and its Committees, and a number of legislative requirements, *inter alia*, the Structures Act, Systems Act and the MFMA.

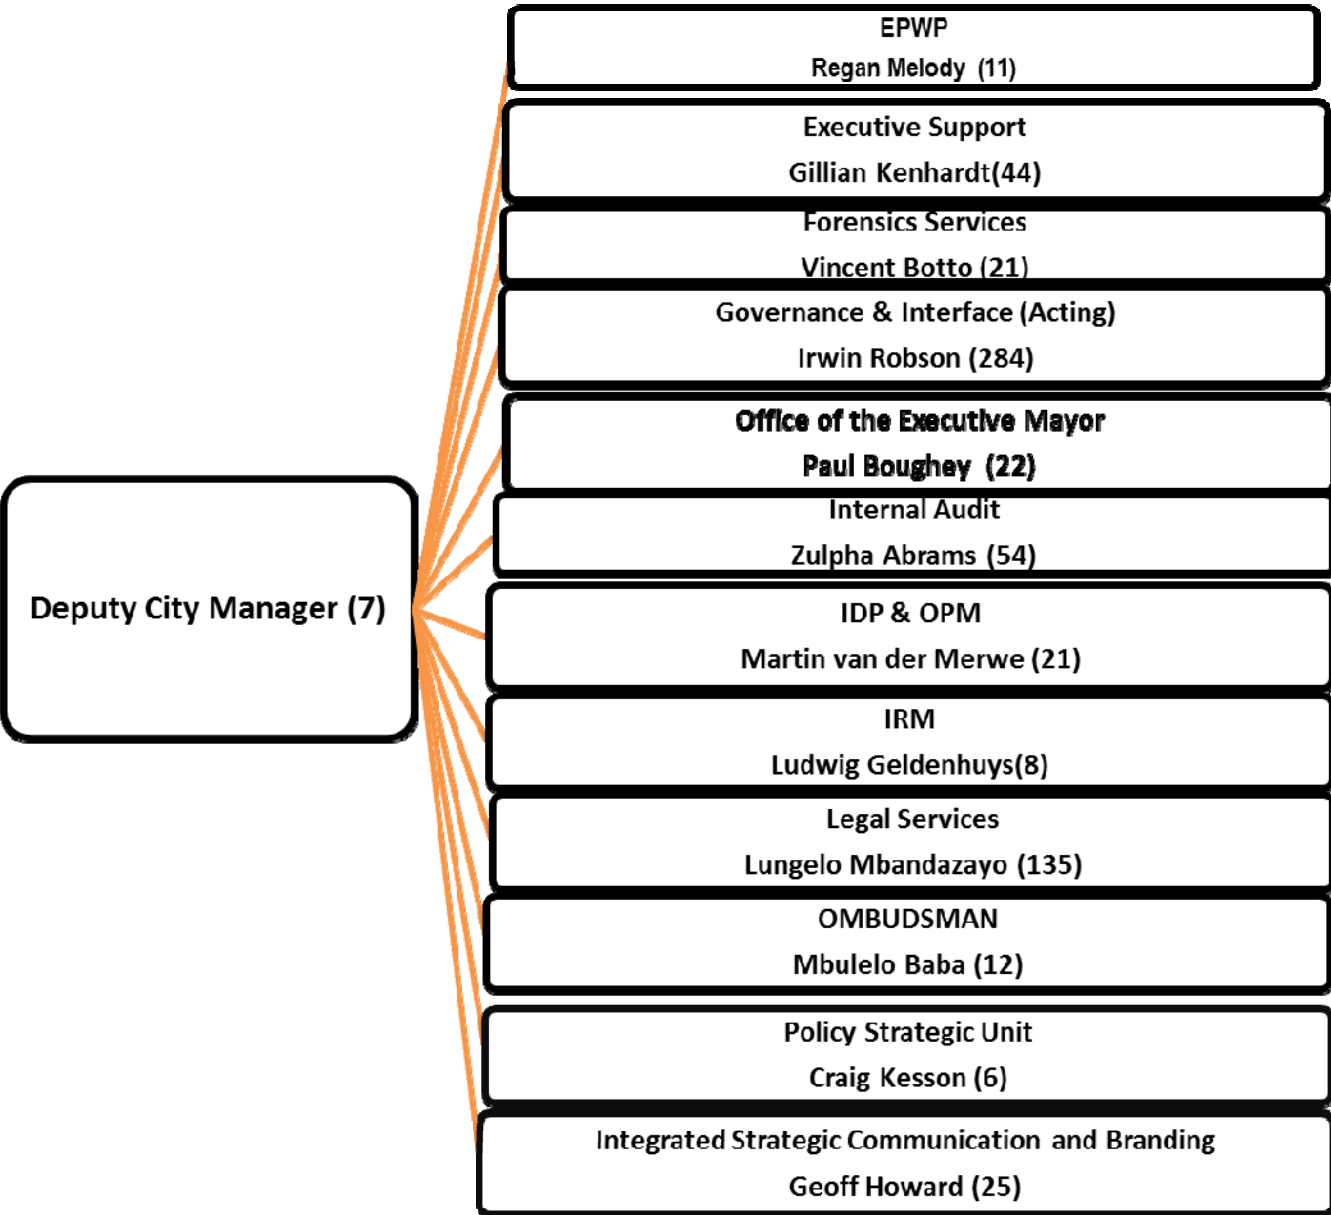

3. Partners and Stakeholders in the Strategy Plan (key stakeholders of the plan)

Partners/ Stakeholders	Departmental Roles and Responsibilities

***** Contracted Services		58 475 799.16
***** Grants and Subsidies P		2 091 120.00
***** General Expenses		173 756 251.35

6.

**RESOURCE CONSTRAINTS**

It has been established that there is no clear mandate for the Directorate as a whole as there is a diverse group of functions that have been allocated to it. This poses a resource challenge as it is difficult to maximise the resources due to clearly visible distinction in competencies and skills required for each department. The other issue that poses a resource challenge is an issue of establishment of the Corporate Programme and Project Management Incubation discipline within the Office of the Deputy City Manager.

Acquiring staff with the right skills, knowledge and competencies has posed challenges, especially within Forensics, Internal Audit and IDP departments as these fields have been labelled as scarce resources. Also, due to the global economic climate meltdown, the city has in the previous financial years embarked on budget cuts process, and that has put financial strain on the Directorate's strategic objective and implementation plans. As the space is a scarce commodity, the issue of staff accommodation has been identified as one of the key constraints due to the fact that the service delivery landscape is constantly growing, contrary to the City's facilities.

## 7. ASSUMPTIONS AND RISKS

### 7.1. Assumptions

The environment within which the Directorate operates is one of continual change. The Directors are charged with a responsibility of routinely monitoring and reviewing the risk status of risks to determine whether mitigating actions are required. The use of risk indicators assist in diagnosing the risk status.

### 7.2 Risk Assessment

Management, with the assistance of the Integrated Risk Management (IRM) Department, has taken reasonable care to identify risks that could impact negatively on the achievement of the City's identified 5 Strategic Focus Areas. In accordance with the City's approved IRM Policy, Framework and Implementation Plan, risks are constantly updated, reviewed and managed.

Risk registers are utilized as a management tool and are discussed on a six monthly basis with the Executive Director and the Mayoral Committee Member to assess current status, changing risk profiles and any new interventions required.

## 8. STRATEGIC ALIGNMENT TO THE IDP

### 8.1. Outputs

<b>SFA 1. AN OPPORTUNITY CITY</b>	<b>SFA 4. AN INCLUSIVE CITY</b>	<b>SFA 5 A WELL-RUN CITY</b>		
<b>Objective 1.1</b> Create an enabling environment to attract investment to generate economic growth and job creation	<b>Objective 4.1</b> Ensure responsiveness by creating an environment where citizens can be communicated with and be responded to	<b>Objective 5.1</b> Ensure a transparent and corruption-free government	<b>Objective 5.2</b> Establish an efficient and productive administration that prioritizes delivery	<b>Objective 5.3</b> Ensure financial prudence with clean audits by the Auditor-General

8.2. Key projects and initiatives

- Expanded Public Works Programmes project
- Sustainable Communities (Violence Prevention through Urban Upgrade) project
- Public Participation processes
- Capital Budget Implementation project

8.3. Resources linked to the project

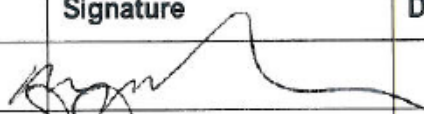

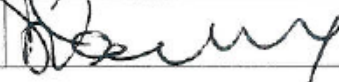

- The Department's human and financial resources as indicated in point 4&5 will be assessed to drive the identified initiatives.

9. **OBJECTIVES AND INDICATORS OF THE STRATEGY / OPERATIONAL PLAN**

**See attached SDBIP Appendix 1**

10. **AUTHORISATION**

The undersigned do hereby indicate their agreement with the contents of this document and the outcomes.
