

# Service Delivery & Budget Implementation Plan

# Year: 2016/2017

Period: 1 July 2016 - 30 June 2017

#### Page 2 of 36 FOREWORD BY THE MAYOR

In terms of section 53 of the Municipal Finance Management Act, Act 56 of 2003, the Mayor of a Municipality must within 28 days after the Council has approved the IDP and Budget, approve the Service Delivery and Budget Implementation plan (SDBIP) of the Municipality as a performance contract between the Administration, the Council and the Community, expressing the goals and Objectives of the Council. The SDBIP enables the Administration to account to the Mayor and Council, and Council to the entire Municipal community.

The SDBIP gives operational expression to the developmental local government and the IDP. It also assists the Municipality to be rebuild in a way that the livelihoods of our community will improve and therefore contribute meaningfully in our open and transparent planning and implementation systems. It gives me great pleasure to present to you the 2016/17 SDBIP as a Performance Agreement between the Council and Community to improve the lives of our people. Our goals and targets are geared to towards improving the circumstances of all our communities and to redress the ills of the past. The monitoring of our objectives through this SDBIP and PMS, is the responsibility of all concerned, but will be the focus of council' structures to facilitate the progress towards a better life for all

Over the past year, our country experienced waves of unrest, some of which relate to service delivery protests. We are in the twenty first year of the democratic rule and are expected to provide solutions to the challenges faced by our communities. These solutions will have to be innovative, since we are hamstrung by limited resources.

#### Page 3 of 36

As the Camdeboo Municipality, we have very specific challenges, most serious of which are Unemployment, Poverty and Inequality. This situation is faced by most of our country, but in particular our youth. Government's attempts to address this via tax exemptions for industry are welcomed, but may not have the desired effect in our municipality where very few industries settled. We will therefore have to create a conducive environment for private sector investment in our area to create jobs.

The amalgamation of Ikwezi, Baviaans with Camdeboo Municipality to become the Dr. Beyers Naude Local Municipality after the Local Government elections on 3 August 2016, is underway and we have done all in our power to ensure that the transition is as smooth as possible. Our term as the Municipal Council is drawing to a close. Our collective actions throughout this five year term have placed us in a position where we can say that a solid foundation was built for a better life for all to be realized. Acting together we have succeeded in creating an enabling environment for our people to enjoy the gains for our hard-fought democracy. I trust that the new council will have renewed courage and work together to build on our successes. I hope we can learn from past experiences and build on the solid foundation the current Council has laid.

Mayor Hanna Makoba

- 6. Capital Expenditure by Project and Ward
- **7. Service Delivery Targets and Performance Indicators**

Page 5 of 36

### **1. INTRODUCTION**

### **OBJECTIVE**

The primary objective is to develop a 12 month plan within which the Municipality has to achieve the following:

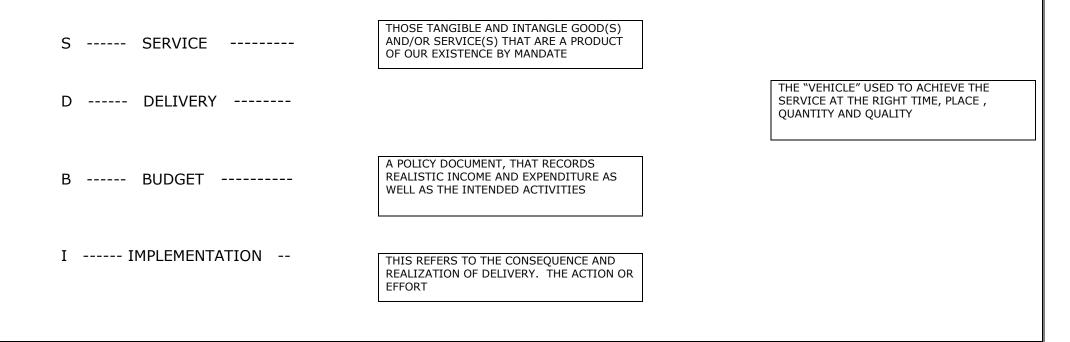

- The services represented by the expenditure in the budget
- The income to fund the service delivery.

Circular 13 from National Treasury attempts to commit all stakeholders to the agreement to work towards specific objectives. This is done within the framework of consultation as outlined in Chapter 4 of the Systems Act.

The secondary objective is to reduce to writing the activities of the organization so that it may be subjected to assessment and benchmarking.

It serves as a supplementary support document to the approved budget represented as a policy document. It further serves as a record of the Key Performance Areas (KPA) with their corresponding Key Performance Indicators (KPI) or Critical Success Factors (CSF).

Page 6 of 36

P ----- PLAN -----

THIS IS THE SDBIP STRATEGY DOCUMENT SO AGREED BY THE STAKEHOLDERS.

Once the budget has been approved, the SD&BIP must be presented to the Mayor by the Accounting Officer, after consultations with Senior Managers and other Head of Departments, at least one week before the commencement of the new financial year.

Even though it is not a policy document like the IDP and the Budget, it is a vital tool for planning and strategy development. The monitoring capability of the PMS system is vitally important towards reporting and achieving service delivery. It is a vital tool for decision-making and contracting mandates from communities.

The layers of this document will see the objectives reported by the following listed components as well as by comparisons to the Organizational Performance and, in turn, linked to the individual directors and their activities within their votes.

The major components of the SDBIP are:

- 1. Projections of budgeted income and actual income per vote and per activity
- 2. Projections of budgeted expenditure against actual per vote and per activity
- 3. Projections of the service (KPA) achieved against budget spending and comment.

These will be illustrated in both tabular and graphic format.

### The procedure

The SDBIP is fundamentally divided into two sections namely:

The Service Delivery Component(SD)

This is derived from the Performance Management System from which the KPA and its score are extracted. Here we analyse the purpose for the existence of the budget into the KPA and the corresponding KPI together with its delivery mechanism.

### The Budget Implementation Plan (BIP)

Hereto we made use of controlled stationers to provide the detail associated with every line on the budget. This was to determine the justification for the budget as well as ascertain it's directive in support of a KPA.

The following Departments exist:

Main Vote/Department
EXECUTIVE & COUNCIL
CORPORATE SERVICES - ADMINISTRATION
CORPORATE SERVICES - COMMUNITY SERVICES
CORPORATE SERVICES - PROTECTION
FINANCIAL SERVICES
TECHNICAL SERVICES - ENGINEERING
TECHNICAL SERVICES - ELECTRICAL

#### The Concept

The concept is based on the idea that spending will be indicative of service delivery as a major consideration of whether the KPA was achieved. It is supplemented by an overview report by the Director and endorsed by the Municipal Manager.

#### **LEGISLATION**

The following legislation applies:

The Municipal Finance Management Act 2004, Chapter 7, Section 53 (c)(ii), which states:

"take reasonable steps to ensure the Municipality's SD&BIP is approved by the Mayor within 28 Days after the approval of the budget and made public no later than 14 days after that"

Circular 13, from National Treasury provides the departure point for the SDBIP.

Chapter 8 of the MFMA stipulates that the Accounting Officer must submit a draft of the SDBIP to the Mayor within 14 days of the budget being approved as well as a draft of the annual performance agreements required by the Municipal Systems Act.

Section 72 (1), (a), (ii) states "the accounting officer of the municipality must by 25 January of each year assess the performance of the municipality during the first half of the financial year, taking into account the municipality's service delivery performance during the first

#### Page 7 of 36

#### Page 8 of 36

half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan"

These sections leads us to the budget monitoring requirements of section 71 and the rest of section 72 of the MFMA where it is stipulated that the Mayor must check whether the budget is being implemented in accordance with the SDBIP.

It should be noted that service delivery and its related expenditure is based on the ability to fund the budget. Should a shortage of income be realized, an Adjustment Budget, in terms of the MFMA, will be tabled.

The effect is that expenditure will be reduced in line with realistic income. This in turn means that service as contained in the SDBIP will then be reduced as well.

### **ROLEPLAYERS**

The roleplayers and their respective roles include:

1. The Mayor

As head of the Plenary Council and to provide political leadership and direction. Section 21(a), (b)

2. The Ward Councillor/PR Councillor

As promoter of the Ward Committee structure or as representative of a certain sector of the population.

3. The Municipal Manager

As Accounting Officer and administratively charged

4. The Chief Financial Officer

As advisor to the AO and responsible for the administration of the budget. (Section 84, (1).

Senior accountants for reporting and assistance. Delegation: MFMA

5. Senior Managers

As appointed as head of departments for the respective services, Section 78, (1).

6.	Senior	officials	and	Section	Heads

Reporting to Senior Managers and acting under delegation from their supervisors.

### 7. Unions

As the recognized body for organized labour being SAMWU and IMATU.

### 8. External Parties

- National Treasury: MFMA
- Provincial Officers and Departments: MFMA
- 9. Internal Documents
  - Integrated Development Plan
  - Spatial Development Plans
  - Local Economic Development Plan
- 10. Other

### **ORGANOGRAM AND INISTITUIONAL ARRANGEMENTS**

The organogram depicts the structure of employees that support and deliver the objectives of the organization. The budget is divided into activities together with the employees associated with it.
