## 1. INTRODUCTION

The strategic direction of Blue Crane Route Municipality (BCRM) is clearly identified in its Draft Reviewed Integrated Development Plan (IDP) 2016/17. The five year IDP was prepared for the period of 2012 - 2017 during the 2011/12 financial year in consultation with various stakeholders as required by section 34 of the Municipal Systems Act and has been reviewed annually informing operational planning at BCRM.

The development of the Service Delivery and Budget Implementation Plan (SDBIP) is required by section 53 (1) (c) of the Municipal Finance Management Act. The SDBIP gives expression to the developmental and service objectives of the municipality, in quantifiable terms, for the financial period from 1 July 2016 to 30 June 2017. The SDBIP includes key service delivery targets and performance indicators for each quarter. Each target is aligned to a Priority Area identified in the IDP and the responsibility is placed directly to a municipal department and/or senior manager, enhancing accountability and transparency of local government towards effective service delivery. Monitoring of these targets is central to the entrenchment of a performance management system and contributes towards the monitoring of municipal finances.

The SDBIP is an operational tool that enables key stakeholders in local government to monitor municipal performance. The Municipal Manager may use the SDBIP to monitor the performance of senior managers, while the Mayor may use the SDBIP as a basis for monitoring the Municipal Manager. Ultimately, the top layer of the SDBIP should be a published document available to the community to enable broader monitoring of the municipal performance towards service delivery outputs and outcomes identified in the SDBIP.

The annual creation and publication of SDBIPs represent progress towards the realization of Section 152(a) of the Constitution of the Republic of South Africa, increasing democratic and accountable local government. The SDBIP is essentially a “contract” between administration, council and the community expressing the developmental goals and objectives in terms of quarterly output and outcome targets to be met by the municipal administration over the next financial year. It provides the basis for measuring municipal performance and ensuring that municipal budget expenditure is clearly linked to service delivery achievement.

### ***1.1 Legislative requirements***

The Municipal Finance Management Act of 2003 (MFMA) and National Treasury MFMA Circular No. 13 requires municipalities to prepare a SDBIP indicating how the strategic objectives of the IDP and Council will be implemented with the approved budget. The SDBIP does not require Council approval, but should be approved by the Mayor within 28 days of the approval of the annual budget according to Section 53. (1)(c)(ii) of the MFMA. The municipality is then expected to publish the top layer of the SDBIP within 14 days after its approval by the mayor. Performance agreements of the municipal

manager, senior managers, and any other category of designated official cascaded from the SDBIP are also expected to be made public within 14 days.

According to National Treasury MFMA Circular No. 13, the top layer of the SDBIP, required for publishing, is expected to include the **following five necessary components**:

1. Monthly projects of revenue to be collected for each source. **(Annexure A)**
2. Monthly projects of expenditure (operating and capital) and revenue for each vote. **(Annexure B)**
3. Quarterly projections of service delivery targets and performance indicators. **(Annexure C)**
4. Ward information for expenditure and service delivery, incorporated with components 3 and 4. **(Annexure C)**
5. Detailed capital works plan broken down by ward over three years. **(Annexure D)**

## **2. BCRM PRIORITY AREAS AND OBJECTIVES**

The BCRM IDP identifies five priority areas: Municipal Transformation & Institutional Development; Basic Service Delivery & Infrastructure Development; Local Economic Development; Municipal Financial Viability; Good Governance and Public Participation. These priorities are cascaded down to, and across, four BCRM line departments: Technical Services; Community Services; Financial Services; Corporate Services; and coordinated by the Municipal Manager's Office. Operational responsibility for the achievement of service delivery targets under these development objectives falls within these departments with individuals or responsible positions identified clearly in the SDBIP.

BCRM Priority Areas and Strategic / Measurable Objectives are as follows:

### **Priority Area 1: Municipal Transformation and Institutional Development**

1. Strengthening of oversight responsibilities by 2017.
2. To improve levels of staff discipline and compliance by 2017
3. To ensure creation and maintenance of a harmonious and conducive work environment by 2017.
4. To ensure efficient, effective and compliant safeguarding of municipal records by 2017.
5. Facilitate provision of decent, sustainable and equitable human settlement through effective and efficient housing management processes by 2017.
6. Ensure effectiveness of ward committee structures by 2017.

**Priority Area 2: Basic Service Delivery and  
Infrastructure Development**

1. To ensure efficient, economical and quality provision of water and sewer Services by 2017 and beyond
2. To strive for reduction on household poverty by 2017 and beyond
3. To ensure uninterrupted electricity supply by 2017 and beyond
4. To ensure that communities have access to well established social amenities by 2017 and beyond
5. To ensure improved drinking water quality and sustainable water resources by 2017 and beyond.
6. To ensure efficient, economical and quality and sustainable roads and storm water infrastructure by 2017 and beyond
7. To ensure a well maintained clean and healthy environment by 2017 and beyond
8. To Ensure well maintained social amenities in BCRM 2017 and beyond
9. To Ensure a healthy environment to improve human health by 2017 and beyond
10. To ensure a well-managed environment in compliance with environmental laws by 2017
11. To ensure that all road users comply with the roads and traffic laws by 2017 and beyond
12. To ensure that animals are kept away from the public roads and private properties to ensure safety of road users and private properties by 2017 and beyond
13. To promote a culture of learning amongst the communities of BCRM by 2017 and beyond

**Priority Area 3: Local Economic Development (LED)**

**Priority Area 4: Municipal Financial Viability**

1. To ensure compliant and effective Asset and Fleet Management by 2017
2. To improve the municipality's revenue base to 80% by 2017
3. To Implement a mSCOA compliant Financial System by 01 July 2017
4. To ensure effective, efficient, economical and compliant WITH SCM processes by 2017
5. To achieve un qualified Audit Opinion without matters By 2017
6. To ensure improved provision of free basic services to communities by 2017

---

***Priority Area 5: Good Governance & Public Participation***

1. To ensure efficient, effective and compliant safeguarding of municipal records by 2017 and beyond.
2. To ensure effective Audit function and an improved compliance and clean administration by 2017
3. To ensure effective implementation of the Fraud and Anti-corruption Policy by 2017
4. To ensure development of a credible Integrated Development Planning (IDP), implementation, monitoring, reporting and evaluation in order to inculcate and maintain an institutional performance driven culture by 2017
5. To ensure well-co-ordinated communication within and across the municipality by 2017
6. Ensure effective, efficient and compliant public participation by 2017 and beyond
7. To ensure a reliable, efficient and effective ICT governance by 2017 and beyond
8. To ensure a reliable, efficient and effective ICT systems for communication by 2017 and beyond
9. To ensure a functional and effective Customer Care Management by 2017 and beyond
10. To ensure a functional and effective Customer Care Management by 2017 and beyond

### **3. SDBIP UTILITY AND SERVICE DELIVERY TARGETS**

Whereas the IDP is the product of consultation to identify community needs and formulate municipal development objectives, the SDBIP provides a tangible municipal response to the broader BCRM community that clearly identifies what the municipality measurably seeks to achieve and how much money it plans to spend in order to do so. Reported progress on the SDBIP should also inform the annual review of the IDP. The SDBIP and IDP are therefore complimentary documents, and their credibility is determined by the extent to which they reflect the realities and issues faced by citizens of BCRM on the ground. If one document is not effectively utilized or representative of the interests of all BCRM citizens, it will impair the annual revision of the other.

The SDBIP is required to include quarterly and annual targets for key service delivery areas identified in the IDP, as well as financial allocations towards the achievement of these targets. Measurable service delivery targets derived from the IDP are expressed in terms of clear performance indicators in

the BCRM SDBIP. In some instances, singular outputs are identified as annual targets, making quarterly measurements challenged. In these instances, tangible milestones reflecting process outcomes that contribute towards a broader service delivery output are included to enhance the utility of the document for all stakeholders, even if not technically ideal. In all other instances, quantifiable quarterly targets towards the achievement of annual service delivery targets are provided.

It is envisioned that the community and various municipal stakeholders will become familiar with the SDBIP, monitor the achievement of these targets and support municipal performance. Municipal stakeholders will find the SDBIP useful when reviewing quarterly reports and comparing actual progress made on the reported indicators. Communities are encouraged to become informed as well as make use of the SDBIP during the annual IDP consultative process. The SDBIP serves as a key mechanism by which the citizens of BCRM can monitor the progress made in service delivery. The SDBIP is most useful as an implementation and monitoring tool when it is reported on and utilized for evidence-based decision-making towards the formulation of new development objectives in the future.
