DRAFT

## 1. INTRODUCTION

### **OBJECTIVE**

The primary objective of the Service Delivery and Budget implementation Plan is to develop a 12 month plan with quarterly targets within which the Municipality has to achieve the following:

- Deliver the services represented by the expenditure in the budget
- To collect revenue to fund service delivery.

Circular 13 from National Treasury attempts to commit all stakeholders to the agreement to work towards specific objectives. This is done within the framework of consultation as outlined in Chapter 4 of the Systems Act.

The secondary objective is to reduce to writing the objectives of the organization so that it may be subjected to assessment and benchmarking at regular intervals.

It serves as supplementary support document to the approved budget represented as a policy document. It further serves as a record of the Key Performance Areas (KPA) with their corresponding Key Performance Indicators (KPI) or Critical Success Factors (CSF).

### DEFINITION

#### **S = SERVICE**

THAT TANGIBLE AND INTANGIBLE GOODS AND/OR SERVICES THAT A PRODUCT IS OF EXISTENCE BY OUR MANDATE

#### **D = DELIVERY**

THE "VEHICLE USED TO ACHIEVE THE RIGHT SERVICE AT THE RIGHT TIME, THE RIGHT PLACE, OF THE RIGHT QUANTITY AND OF THE RIGHT QUALITY

#### **B = BUDGET**

A POLICY DOCUMENT, THAT RECORDS REALISTIC INCOME AND EXPENDITURE AS WELL AS THE INTENDED ACTIVITIES

#### **I = IMPLEMENTATION**

THIS REFERS TO THE SEQUENCE AND REALIZATION OF DELIVERY AND REFLECTS ACTION AND EFFORT

#### **P = PLAN**

THIS REFLECTS THAT ANNUAL PLAN FOR A PARTICULAR YEAR TOWARDS THE ACHIEVEMENT OF OBJECTIVES AS SET OUT IN THE INTEGRATED DEVELOPMENT PLAN AS AGREED WITH BY STAKEHOLDERS

Once the budget has been approved, at least one week before the commencement of the new financial year the SD&BIP must be presented to the Mayor by the Accounting Officer after consultations with Senior Managers and other Heads of Departments.

It is required that a Draft SDBIP be prepared during March of each year.

Even though it is not a policy document like the IDP and the Budget it is a vital tool for planning and strategy development. The monitoring capability of the PMS system is vitally important towards reporting and achieving service delivery. It is a vital tool for decision-making and contracting mandates from communities.

The layers of this document will see the objectives reported by the following listed components as well as the comparisons to the Organizational Performance and in turn linked to the individual Directors and their activities within their votes.

The major components of the SDBIP are:

1. Quarterly projections of budgeted income and actual income per vote and per activity
2. Quarterly projections of budgeted expenditure, both operating and capital, against actual per vote and per activity
3. Quarterly projections of the service levels (KPA) achieved against budget spending and comment.

These will be illustrated both tabular and graphically with comments

#### The procedure

The SDBIP was fundamentally divided in two sections namely:

- a. *The Service Delivery Component (SD)*  
*This is derived from the Performance Management System from which the KPA and its score are extracted. Here we analysed the purpose for the existence of the budget into the KPA and the corresponding KPI together with its delivery mechanism.*
- b. *The Budget Implementation Plan (BIP)*  
*Hereto we made use of controlled stationers to provide the detail associated with every line on the budget. This was to determine the justification for the budget as well as ascertain it's directive in support of a KPA*

The Concept

It is that spending will be indicative of service delivery as a major consideration of whether the KPA was achieved. It is supplemented by an overview report by the Director and endorsed by the Municipal Manager.

## **LEGISLATION**

The Municipal Finance Management Act 2004, Chapter 7, Section 53 (c) (ii), which states:

“Take reasonable steps to ensure the Municipalities SD&BIP is approved by the Mayor within 28 Days after the approval of the budget and made public no later than 14 days after that”

Circular 13, from National Treasury provides the departure point for the SDBIP.

Chapter 8 of the MFMA provides that the Accounting Officer must submit a draft of the SDBIP to the Mayor within 14 days of the budget being approved as well as a draft of the annual performance agreements required by the Municipal Systems Act

Section 72 (1), (a), (ii) states “the accounting officer of the municipality must by 25 January of each year-assess the performance of the municipality during the first half of financial year, taking into account-the municipality’s service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan”

These sections leads us to the budget monitoring requirements of section 71 and the rest of section 72 of the MFMA where it is stipulated that the Mayor must monitor whether the budget is being implemented in accordance with SDBIP.

It should be noted that service delivery and its related expenditure is based on the ability to fund the budget. Should a shortage income realize an Adjustment Budgets, in terms of the MFMA, will be considered by Council.

The effect is that expenditure will be reduced in line with realistic income. This in turn means that service as contained in the SDBIP will then be reduced proportionately.

## **ROLE-PLAYERS**

The Roles of the respective role players are:

1. The Executive Mayor  
As head of the Mayoral Committee and Council provides political leadership and directive and is overall responsible for the performance of the Municipality.
2. The Ward Councillor

As representative of a certain sector of the population and as promoter of the Ward Committee structure.

3. The Municipal Manager  
As Accounting Officer and administratively charged with the performance of the Institution.
4. The Chief Financial Officer  
As advisor to the Accounting Officer and responsible for the administration of the budget. (Section 84, (1).

Senior accountants for reporting and assistance. Delegation- MFMA

5. Senior Managers  
As appointed as head of department for the respective services. Section 78, (1).
6. Senior officials and Section Heads  
Reporting to Senior Managers and acting under delegation of their superiors.
7. Unions  
As recognized body for organized labour being SAMWU and IMATU.
8. External Parties
  - National Treasury- MFMA
  - Provincial Officers and Departments.-MFMA
9. Internal Documents
  - Integrated Development Plan
  - Spatial Development Plans
  - Local Economic Development Plan

## **ORGANOGRAM AND INSTITUTIONAL ARRANGEMENTS**

The Organogram that depicts the structure of employees that supports and deliver the objectives of the organization. The budget is divided into activities together with the employees associated with it.

## a) Monitoring Process and Operational.

The quality of water produced at Kouga Mun Waste Water treatment works is monitored on a continual basis to ensure compliance with the National Water Act. Microbiological and Chemical samples are taken at the following waste water treatment works operated by Kouga Municipality.

- 1) Thornhill
- 2) Loerie
- 3) Hankey
- 4) Humansdorp- Kruisfontein
- 5) Humansdorp – Kwanomzamo
- 6) St Francis Bay
- 7) Jeffreys Bay

Compliance monitoring	Determents	No of samples per month	Frequency
-----------------------	------------	-------------------------	-----------

Microbiological of Final Effluent	E.coli	7	Monthly (1 <sup>st</sup> week of each month)
	Faecal Coliforms	7	
Chemical determents of Inflow	Ph	7	Monthly (1 <sup>st</sup> week of each month)
	Conductivity	7

## 6.2 Departmental Performance

### 6.2.1. Departmental Performance Table

Department	Score
Administration Monitoring and Evaluation	Quarterly Assessment
Finance	Quarterly Assessment
Infrastructure Planning and Development	Quarterly Assessment
LED, Tourism and Creative Industries	Quarterly Assessment
Social Services	Quarterly Assessment

## 7. Measuring performance

In order to ensure that actual performance results are interpreted consistently it is essential that documentation and means of measurement be clearly defined so as to ensure that progress and/or results achieved can be verified and reported on in a consistent manner.

### 7.2 Defining the term “Indicator”

Indicators are the quantitative or qualitative variables that provide a simple and reliable means to measure achievement, to reflect the changes connected to an intervention, or to help assess the performance of an organization against the stated outcome.

For reason that qualitative indicators is often more difficult to measure objectively at the internal level, are qualitative not used to measure performance at this stage.

In order to keep the means of measurement simple and accurate are the following indicators generally used to measure performance in the implementation of this SDBIP:

- **Cost indicators** in determining the economy and efficiency of service delivery and compliance with budget restrictions.
- **Quantity indicators** relate to the number of inputs, activities or outputs. Quantity indicators is generally be time-bound; e.g. the number of inputs available at a specific point in time, or the number of outputs produced over a specific time period. The quarterly target provides the time bound indicators in respect of the quantity indicators used to track performance.

- **Date and time frame indicators** reflect timeliness of service delivery. They include service frequency measures, waiting times, response time, turnaround times, time frames for service delivery and timeliness of service delivery. Targets at institutional level are generally always set at quarterly level thus also providing for a time related indicator over and above other indicators that may be used.

DRAFT

## 7.2 KEY PERFORMANCE INDICATORS, SUPPORTING DOCUMENTATION AND MEANS OF MEASUREMENT

The following schedule reflects each Key Performance Indicator applied in this Service Delivery and Budget Implementation Plan, the supporting documentation required to substantiate performance claims and the means of applying the supporting documentation in the measurement of performance:

Key Performance Indicator	Supporting Documentation required	Means of measurement
% of revenue collected against revenue raised	Monthly financial report on revenue raised in respect of service and rates accounts in respect of the period of measurement and the financial report on revenue collected in respect of service and rates accounts in respect of the period of measurement	Calculating actual revenue raised on service and rates accounts over the reporting period expressed as a percentage of revenue collected.
Number of days for the collection of debt	Monthly financial report on revenue raised in respect of service and rates accounts in respect of the period of measurement and the financial report on revenue collected in respect of service and rates accounts in respect of the period of measurement	Calculating the actual number of days for the collection of debt from the service and rates over the reporting period inclusive of outstanding debt from date of issue of account
% of creditors paid within 30 days	Reconciled creditors account and payment schedules with average dates of payment of all creditors for the reporting period from date of invoice	Calculating the actual number of days for the payment of creditors accounts over the reporting period, exclusive of fixed term repayment arrangements from date of invoice
% of total operational expenditure attributable to personnel costs	Operational budget for the reporting period and total personnel expenditure for the reporting period.	Calculating the total personnel expenditure, exclusive of traveling and subsistence and staff development costs as a percentage of the total operational budget for the reporting period expressed as a percentage.
% capital budget expenditure	Capital budget and capital budget expenditure for the reporting period	Calculating capital budget expenditure expressed as a percentage of the projected capital expenditure for the reporting period.
% external interest against operating expenditure	Financial report on interest charged in respect of loans and operational budget for the reporting period	Calculating the percentage of interest charged on loans, exclusive of interest on overdue accounts expressed as a percentage of the operational budget for the reporting period.
% of total operating budget allocated to repairs and	Operational budget for the reporting period and operational budget for repairs and maintenance	Calculating the allocated operational budget for repairs and maintenance expressed as a percentage of the total operational budget for the reporting period
% variance in comparison of actual and budgeted	Financial report on property plant and equipment acquisitions	Calculating the actual value of acquisitions of property

Key Performance Indicator	Supporting Documentation required	Means of measurement
PPE acquisitions	with a report on planned budgeted acquisitions over the reporting period	plant and equipment expressed as a percentage of the planned acquisitions budgeted for over the reporting period.
% by which Current assets less inventory exceed liabilities	Financial report in respect of liabilities and value of current assets over the reporting period	Calculating the percentage by which the value of current assets exceed the liabilities over the reporting period
% of indigent register has access to free basic services	Indigent register and report on service provided to indigent residents over the reporting period	Calculating the percentage of indigent residents with access to basic services as per the indigent register over the reporting period
Number of temporary Jobs created through private public partnerships	Report on temporary jobs created for the reporting period through private public partnerships	Documentary proof of private public partnerships (report) add number of temporary jobs created for the reporting period
Number of SMME's exposed to SMME development initiatives	Attendance register for SMME development initiatives for the reporting period	Calculating the number of SMME's attending development initiatives for the reporting period
Number of Indigent farmer/rural residents exposed to agrarian/rura/development programmes	Attendance registers for indigent farmers/rural residents attending agrarian/rural development programmes for the reporting period	Calculating the number of indigent farmers/rural residents attending agrarian/rural development programmes for the reporting period
Number of Tourism bed nights	Reports from the tourism offices on bed nights sold for the reporting period	Calculating the number of tourism bed nights sold for the reporting period from reports by tourism offices
% of LED operational project budget spent on led projects	LED operational budget and expenditure report for the reporting period	Calculating the percentage of operational budget spent against planned budget expenditure on LED implementation for the reporting period
Number of Community members participated in Arts/Sports/Heritage training programs	Attendance register of community members participating in Arts/Sports and Heritage training program initiated by the Municipality	Calculating the number of community members that participated in Arts/Sports and Heritage training programs initiated by the municipality
Number of / Events Festivals approved and hosted	Council/Events Committee resolutions for the approval of festivals and events in Kouga and proof of festivals held (Photos and other) for the reporting period	Calculating the number of festivals and events approved and hosted for the reporting period
% Compliance with the implementation of the employment equity plan in respect of the 3 highest levels of employment	Employment Equity Plan and targets and proof of appointments made for the reporting period	Calculating the percentage compliance with the Employment Equity plan based on current staff and new appointments made for the reporting period
% Expenditure of seta funding for staff development	Proof of SETA grant funding and expenditure for the reporting period	Calculating the percentage expenditure of SETA funding against planned expenditure for the reporting period
% Compliance with the work place skills plan	Work Place Skills Plan and proof of training interventions implemented from the Work Place Skills Plan for the reporting period	Calculating the percentage compliance with the implementation of the Work Place Skills Plan for the reporting period based on planned skills development initiatives
% of total staff salary budget spent on skills	SETA Skills fund payments made by Kouga Municipality	Calculating the percentage of staff salary budget provided

Key Performance Indicator	Supporting Documentation required	Means of measurement
development initiatives through SETA contributions		for skills development for the reporting period against actual paid over to SETA
% compliance with the implementation of the Audit Corrective Action Plan	Audit Corrective Action implementation plans	Calculating the % of corrective actions implemented against the planned number of corrective actions
% of staff between TASK Grade 17 to 11 held accountable for performance	Screen shot of performance management system	Calculating the number of management staff held accountable for performance through participation in the PMS System against the total number of staff between TASK Grades 17 to 11
% of properties in formal residential areas provided with access to potable water	Service accounts	Calculating the percentage of formally registered erven against the number of formally registered erven with access to potable water
% Water Losses	Report on water produced or purchased and report on water sold for the reporting period	Calculating the percentage water kilolitres purchased or produced against water sold for the reporting period
% of properties in formal residential areas provided with sanitation services	Consolidated report on billing of the number of residential properties which is levied for sewerage for the reporting period	Calculating the number of residential properties billed with sewerage levies expressed as a percentage of properties serviced with sewerage and sanitation services for the reporting period
% of properties in formal residential areas provided with electricity	Consolidated report on the number of residential properties which is levied and electricity availability for the reporting period	Calculating the percentage of properties serviced with electricity against the billing records for electricity availability for the reporting period
% of properties in formal residential areas provided with street/area lighting	Consolidated report on the number of properties billed for municipal services	Calculating the percentage of properties served with street and area lighting against billed properties for the reporting period
% Electricity Losses	Consolidated report on electricity purchased from Eskom against electricity sold as per the municipal billing and pre-paid for the reporting period	Calculating the percentage of electricity that cannot be accounted for through electricity sales against electricity purchased from Eskom for the reporting period
% of properties in formal residential areas serviced by maintained roads	Consolidated report on the number of residential properties billed for municipal services for the reporting period	Calculating the percentage of residential properties serviced with roads against number of properties billed for the reporting period
% of properties in formal residential areas serviced with refuse removal services	Consolidated report on the number of residential properties billed for municipal services for the reporting period	Calculating the percentage of properties against the total number of billed properties where refuse removal services has been rendered for the reporting period.
% of MIG grants spent	Financial report on MIG grant funding and proof of expenditure for the reporting period	Calculating the percentage of MIG grant funding spent against planned MIG expenditure for the reporting period
% of DME grants spent	Financial report on DME grant funding and proof of expenditure for the reporting period	Calculating the percentage of DME grant funding spent against planned DME grant funding expenditure for the reporting period

<b>Key Performance Indicator</b>	<b>Supporting Documentation required</b>	<b>Means of measurement</b>
% of development complies with the spatial development framework	Council resolutions approving deviations from compliance with Spatial Development Framework and proof of actions instituted against transgressors for the reporting period	Calculating the number of deviations approved by Council and transgressors against the requirements of the Spatial Development Framework for the reporting period

DRAFT

## SUPPLEMENTARY INFORMATION

### A. WARD INFORMATION

No.	Ward
1	Oyster Bay; Umzamuwethu; Leebos Farm and rural areas past Kruisfontein
2	Pellsrus; And a portion of Jeffreys Bay up to Woltemade street
3	Lower Wave Crest between A D Keet, Poplar, Tecoma and Noorsekloof Streets,
4	Kruisfontein; Vaaldam; Jeugkamp; Die Berg; Gill Marcus; Johnson's Ridge and; A Section of Humansdorp Town
5	Arcadia and; The area bordering Humansdorp Country Club; A section of the Old Golf Course Settlement
6	The new part of KwaNomzamo; Vergenoeg, Polla Park, Lungiso High School area
7	Loerie, Thornhill, Kleinfontein, Longmore and surrounds
8	Upper Wavecrest, Ferreira Town, Kabeljouws and; Farm areas towards Mondplaas
9	Phillipsville , Centerton, Hankey town, Rosedale, Extension 4.
10	Ramaphosa Village, Quagga, Andrieskraal, Cambria
11	Jeffreys Bay CBD, C-Place
12	St Francis Bay; Kromme River, Sea Vista, Cape St Francis
13	Patensie Town, Correctional Services, Weston, Rooidraai, Chickwell Farm Area
14	Aston Bay, Marina Martenique, Paradise Beach, Tokyo Sexwale
15	Ocean View towards Humansdorp, Boskloof, Panorama, Humansdorp CBD, Old KwaNomzamo

## **B. SPENDING CLASSIFICATIONS**

Spending protocol is vitally important if the budget, especially within a 12 month period is to be achieved. It has to conform to the internal and external policies and legislation. E.g. Supply Chain Management Policy.

### Type of spending

#### 1. Deliberate spending (priority 4)

Here expenditure is incurred as a result of a directive to be achieved e.g. purchasing of later model computers. This spending need necessarily not have taken place but may be as a result of a future plan for spreading expenses or a maintenances plan.

#### 2. Compulsory spending (priority 1)

Here no choice is possible and if not incurred will result in a break down in service delivery E.g. salaries and wages, loan repayments.

#### 3. Voluntary spending (priority 3)

This spending type refers to expenses that add to an existing service that part that could be done without or restrict but is seen as contributions to matters other than basic service delivery or indirectly we do not know its full extent e.g. Donation, provisions, telephone, stationery.

#### 4. Involuntary spending (priority 2)

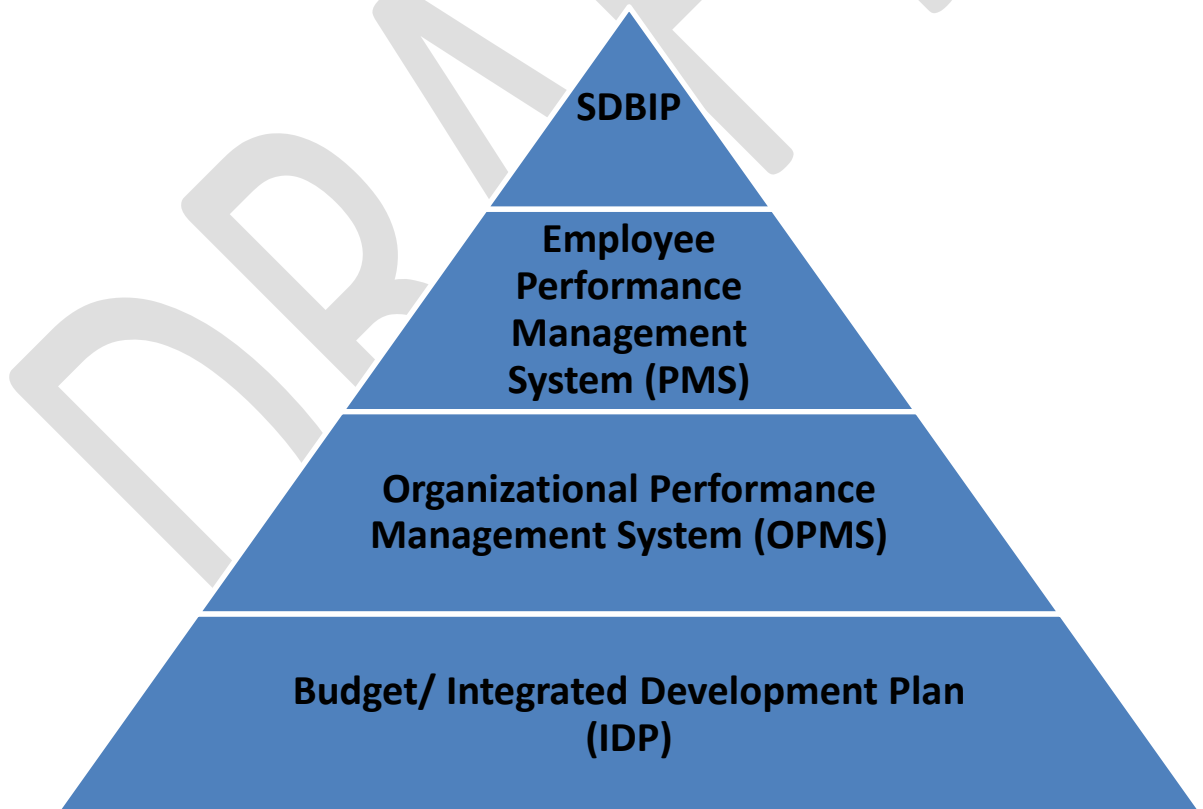

These expenses we have no control over and will include bank charges, delivery fees, P.A.Y.E, vat

The priority of spending may necessarily not be directly related to the timing of when the expenses take place. What is intended is that when cash flow become a problem one should be able to prioritize spending so as not to halt service delivery. Every head of department should indicate next to the spending line the priority and so for e.g. a compulsory spending budget may be achieved. This will facilitate emergency reform action on a minutes' notice.

**C. PERFORMANCE MANAGEMENT**

The SDBIP forms and integral part of the Organizational Performance Management System in that it provides the Institutional Scorecard and Departmental Scorecards through the service delivery targets which is cascaded into the performance management contracts of senior managers.

*The pyramid illustrate the span between the SDBIP and the Policy Document*

#### **D. SDBIP REVISION**

As budget administrator the CFO will forward to the Accounting Officer the reports in terms of section 71 and 72 of the Local Government Municipal Finance Management Act, 56 of 2003. The results of trading between realistic income and expenditure will prompt the need to revise the SDBIP.

As Departmental Administrators Heads of Departments shall at quarterly intervals report to the Municipal Manager on the implementation of SDBIP targets per their respective Directorates for purpose of monitoring and review where required.

- The areas of concern will be highlighted
- The Adjustment Budget will be made available.
- The corresponding KPA will be identified
- The Director in charge will be requested to provide written comment as the need to adjust the SDBIP, considering the priority status.
- The choice of alternatives will be tabled in an effort to avert downwards adjustment.
- Consultation will be held with the Executive Mayor and management
- A report will be compiled and tabled at Council.
- Performance measurements will be adjusted.
- Roll over for capital projects will be noted and the funds set aside at the yearend should financial resources permit.

SDBIP review shall coincide with any budget adjustment as may be permissible by law.
