## **1. Introduction**

The purpose of the Service Delivery and Budget Implementation Plan (SDBIP) is to assist municipal management to achieve service delivery targets, as well as spending the capital budget within the given time frames. The IDP and Budget are key documents informing the SDBIP. The Sundays River Valley Municipality's reviewed IDP and budget documents were then considered in drawing up our SDBIP. This document is now brought before Council for adoption for the 2017/18 financial year.

A Service Delivery and Budget Implementation Plan is defined in chapter 1 of the Act as a detailed plan approved by the Executive Mayor for implementing the municipality's delivery of municipal services and its annual budget. Essentially a business plan, the SDBIP is an integral part of the financial planning process. Although its approval is required after the budget its preparation has occurred in tandem with the budget process. The SDBIP is the connection between the budget and management performance agreements, and it includes detailed information on how the budget will be implemented – by means of forecast cash flows – and service delivery targets and performance indicators.

## **2. Executive Summary**

The Municipality is required to produce a Service Delivery and Budget Implementation Plan to show the following;

- Monthly projections of revenue and expenditure for the operating and capital budgets
- Quarterly service delivery targets and performance indicators.

Each month the Municipal Manager must present the Mayor with a report showing how income and spending is progressing against these projections. Every quarter the Mayor must report to Council on the progress of the budget.

### 3. Legislative Framework for SDBIP and PMS

The need for a monitoring tool within municipalities comes from a number of legislative pieces, giving guidance and direction on the path to be followed when developing these systems. All this is done in order to ensure effective and efficient service delivery to our communities. The different pieces of legislation are discussed below.

#### 3.1 *The White Paper on Local Government (1998)*:

The White Paper on Local Government (1998) suggested that local government should introduce the idea of using monitoring tools to measure impact and performance. Therefore the white paper further notes that Performance management is critical to ensure that plans are being implemented, that they are having the desired development impact, and that resources are being used efficiently.

#### 3.2 *The Municipal Systems Act (2000)*:

Government has taken this idea of measuring performance forward in chapter six of the Municipal Systems Act (32 of 2000) which requires all municipalities to:

- o Develop a performance management system
- o Set targets, monitor and review performance based on indicators linked to their IDP
- o Publish an annual report on performance for the councillors, staff, the public and other spheres of government.
- o Incorporate and report on a set of general indicators prescribed nationally by the minister responsible for local government
- o Conduct an internal audit on performance before tabling the report.
- o Have their annual performance report audited by the Auditor-General.
- o Involve the community in setting indicators and targets and reviewing municipal performance

The SDBIP gives effect to the Integrated Development Plan (IDP) and budget of the municipality and will be possible if the IDP and the budget are fully aligned with each other as required by the MFMA (Act 56 of 2003)

### 3.3 *Municipal Finance Management Act*

Section 1 of the MFMA defines the SDBIP as a detailed plan approved by the mayor of a municipality in terms of section 53(1)(c)(ii) for implementing the municipality's delivery of services and the execution of its annual budget and which must include (as part of the top layer) the following:

- a) projections for each month of
- (i) revenue to be collected, by source; and
- (ii) operational and capital expenditure, by vote
- b) service delivery targets and performance indicators for each quarter.

According to Section 53(1)(c)ii of the MFMA (Act 56 of 2003) the mayor of the municipality must take all reasonable steps to ensure that the municipality's service delivery and budget implementation plan is approved by the mayor within 28 days after the approval of the budget.

Section 69 of the MFMA determines that the draft SDBIP and performance agreements must be submitted to the Executive Mayor within 14 days after the approval of an annual budget.

The mayor is to receive the draft SDBIP 14 days after approval of budget and therefore the final SDBIP approved 14 days after receiving the first draft. Sundays River Valley Municipality Budget for 2017/18 was approved on the 30th May 2017, accordingly the draft SDBIP was received by the mayor and final draft adopted on the 22<sup>nd</sup> June 2017.

#### 4. The Components of a SDBIP

The five necessary components of a SDBIP are

1. Monthly projections of revenue to be collected for each source
2. Monthly projections of expenditure (operating and capital) and revenue for each vote
3. Quarterly projections of service delivery targets and performance indicators for each vote
4. Ward information for expenditure and service delivery
5. Capital works plans

#### 5. The SDBIP Concept

National Treasury, in MFMA circular 13, outlined the concept of the SDBIP. It is seen as a contract between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration over the next twelve months.

It is a management, implementation and monitoring tool that will assist the Executive Mayor, councillors, Municipal Manager, senior managers and community. It is also a performance monitoring tool that enables the Municipal Manager to monitor the performance of senior managers. The MFMA requires that the performance agreements of senior managers be linked to the measurable performance objectives in the SDBIP.

As a vital monitoring tool, the SDBIP should help enable the Executive Mayor and Municipal Manager to be pro-active and take remedial steps in the event of poor performance. The SDBIP is considered as a layered plan. Whilst only the top layer is made public at council, the budget and performance targets should be broken down into smaller targets and cascaded to middle-level and junior managers. Directorates should be producing their own SDBIP's which roll up into the municipality's SDBIP.

## **6. MFMA requirement**

### *6.1 Approval of the SDBIP*

Under the MFMA the process for approval of the SDBIP is covered under Chapter 7 - Responsibilities of Mayors and Chapter 8 - Responsibilities of municipal officials. Under chapter 8 the Accounting Officer must submit a draft of the SDBIP to the Executive Mayor within 14 days of the budget being approved as well as drafts of the annual performance agreements required in the Municipal Systems Act.

Chapter 7 of the MFMA requires the Executive Mayor to “take all reasonable steps” to ensure that the SDBIP is approved by the mayor within 28 days after the approval of the budget and that the SDBIP is made public no later than 14 days after that.

### *6.2 Implementation & monitoring*

Section 54 sets out the responsibilities of the Executive Mayor with regard to budgetary control and the early identification of financial problems. When a budget monitoring report is received under section 71 or 72 of the MFMA, the Executive Mayor must check whether the budget is being implemented in accordance with the SDBIP.

If it is decided to amend the SDBIP, any revisions to the service delivery targets and performance indicators must be made with the approval of council following an adjustments budget. The Executive Mayor must issue instructions to the accounting officer to ensure that the budget is implemented in terms of the SDBIP.

## **7. SDBIP in Sundays River Valley Municipality**

The production of the SDBIP in Sundays River is conducted primarily by the Finance Department through the Chief Financial Officer and the Municipal Managers’ Office where it is championed by the IDP manager in consultation with the Directorates of the Municipality.
