1. BACKGROUND

Buffalo City Municipality is located in the Eastern Cape Province, bounded to the south-east by a long coastline along the Indian Ocean. The municipality includes the urban areas of East London, Mdantsane and King William's Town with about 280 rural villages.

East London is South Africa's only river port and is the dominant economic centre of Buffalo City. Bhisho, the capital of the former Ciskei, is now the provincial capital of the Eastern Cape.

2. ECONOMY

2.1 Demography

The municipal boundary of Buffalo City extends over a vast 2 900 km². It has a population of around 800 000 residents that includes 191 046 households, with an average household size of four people. Approximately 20% of the population reside in rural areas.

Table 1

Population of Buffalo City		
Area	2001	1996
King William's Town and surroundings	184 246	183 934
East London area	204 862	187 120
Mdantsane area	168 284	176 483
Rural areas	144 503	139 411
Total	701 895	686 948

Source: Statistics South Africa

Buffalo City experienced a low population growth rate of 2,8% between 1996 and 2001. A growth rate of 1% is estimated over the medium term, lower than the 3% growth rate of the country.

2.2 Economic structure

Buffalo City and Nelson Mandela are the two major economic centres in the Eastern Cape. The province is generally seen as one of the poorer provinces in South Africa, with an 8,1% contribution to the gross domestic product (GDP) of the country in 2004.

Table 2

Gross domestic product per province – Current prices			
Province	2003 R billion	2004 R billion	%

Source: Statistics South Africa

The most dominant economic sector in Buffalo City is the industrial or manufacturing sector that includes the automotive, textile, pharmaceutical, electronics and food processing industries. Forming the basis of industrial activity, the automotive industry is the largest contributor to the economy of the city and is the third largest sector in the South African economy, accounting for 33% of the country's manufacturing output.

3. FINANCIAL STATUS

3.1 Revenue and expenditure overview

In terms of its revenue base Buffalo City is currently the largest category B municipality in the country. It recorded an income of R1,546,3 million in 2005 and R1 605,1 million in 2006, an increase of 3.8% from the previous year. The following table indicates the relative size of some of the larger municipalities based on revenue.

Table 3

Municipality	Revenue Rm	Population
Buffalo City	1 546,3	701 890
Emfuleni	1 466,6	658 421
Mangaung	1 405,6	645 441
Rustenburg	792,4	395 540
Matjhabeng	776,3	408 170
Klerksdorp	670,6	359 202
uMhlathuze	643,6	289 190
Polokwane	597,8	508 277
Mbombela	521,5	474 806
Drakenstein	498,6	194 419

Revenue sources of Buffalo City are similar to most local municipalities and comprise primarily income from property taxes, service charges and from the sale of water and electricity. A breakdown of the gross revenue sources of Buffalo City is as follows:

Table 4

Buffalo City's Revenue Sources				
	2005		2006	
	Rm	%	Rm	%
Property rates	255,4	16,5	271,4	16,9
Grants	417,2	27,0	405,3	25,3
Electricity	387,0	25,0	409,8	25,5
Water	146,4	9,5	144,3	9,0
Other service charges	188,1	12,2	202,3	12,6
Other income	152,2	9,8	172,0	10,7
TOTAL	1 546,3	100,0	1 605,1	100,0

Prior to the 2005 and 2006 financial periods, grants and subsidies from government comprised a smaller portion of Buffalo City's income. In 2006 the city received 25,3% of its revenue in the form of grants, compared to 12,3% in 2003, 17,2% in 2004 and 27,0% in 2005. Total grants of R405,3 million include the equitable share and provincial grants of various natures. Future grants appear to be on the increase, based on central government's policy to improve service delivery at municipal level.

The primary future revenue source is property rates levied on the value of the land, including the value of improvements. In 2006, this revenue source of R271,4 million contributed 16,9% of the revenue. Buffalo City's property valuation demonstrates a well-diversified and stable tax base. Table 5 reflects the property valuation:

Table 5

Property Valuation		
	2005	2006
	Rbn	Rbn
Residential	6,0	6,2
Commercial	3,8	3,9
State	1,2	1,2
Municipal	0,3	0,3
Total	11,2	11,6
Average rate earned (cent)	2,28	2,33

Trading services such as water and electricity sales jointly comprise 34,5% of total revenue. Water distribution losses remain high at 40,18% compared to the national standard of around 20%. The city has set a target to reduce the distribution losses to 30% over the medium term.

The sale of electricity contributed 25,5% of the city's income. Buffalo City provides electricity to the urban and semi-urban areas in its jurisdiction whereas Eskom provides to the rural areas. Distribution losses at 10,7% of units bought are acceptable when compared with the industry average and reflect a well-managed electricity distribution network.

The operating expenditure for 2006 of Buffalo City is largely inflexible and requires sound budgeting and discipline to keep costs within budget. Most of the expenditure items were slightly below budget except bad debt charges, interest paid and general expenses.

Overall the actual costs were slightly below budget. The growth in expenses of 2,5% was below the revenue growth of 3,8% which resulted in the strong operating surplus.

The following table reflects a breakdown of the operating expenses of the municipality:

Table 6

Operating Expenditure				
	2005		2006	
	Rm	%	Rm	%
Bad debts	80,6	5,9	52,4	3,7
Electricity purchases	221,7	16,2	227,0	16,2
Water purchases	57,1	4,2	62,6	4,5
Depreciation	59,4	4,3	70,8	5,1
Employee costs	449,6	32,9	475,4	33,9
Interest paid	57,4	4,2	56,2	4,0
Other expenses	368,6	27,0	385,4	27,5
Repairs and maintenance	72,0	5,3	71,5	5,1
	1 366,4	100,0	1 401,3	100,0

Municipal services are labour intensive and staff remuneration normally constitutes a large proportion of the municipality's expense budget. The staff-to-income ratio of Buffalo City at 29,6% reflects a slight increase from the 29,1% in 2005, but is still currently below the norm of 30%.

Councillors' costs comprise a minor portion of total expenditure.

Electricity purchases comprise 16,2% of total expenses. This cost item might be transferred to a Regional Electricity Distribution (RED) over the following year or two.

The purchase of water comprises only 4,5% of expenses as Buffalo City controls most of its water resources. The city purchases below 20% of its water supply from the Amatola Water Board.

Maintenance expenditure on existing infrastructure is a very crucial expense item and is sometimes given less priority than other items. The deferment of maintenance is common practice among municipalities. While the deferment of maintenance expenditure has short-term cash flow benefits, it has adverse long-term effects on operating costs and the sustainability of quality service delivery. Buffalo City's external maintenance costs comprise 5,1% of total expenses (5,3% - 2005) and 6,8% of the carrying value of its fixed assets (8,3% - 2005). Both these ratios have decreased slightly from the previous year and Council remains concerned that the maintenance is not at the optimum level. Water and electricity infrastructure require refurbishment to bring it to acceptable service levels.

Buffalo City recorded an operating surplus in 2006. The operating budget indicates moderate increases for the next three years.

3.2 Debt management

Buffalo City's credit rating is supported by a stable balance sheet in spite of the pressure on infrastructure spending that will remain high in order to eradicate backlogs in basic services and to support and facilitate economic development.

The city's financial strategy is considered conservative and borrowing was kept at modest levels during 2006. Interest bearing liabilities increased in 2006. Long-term loans consist of local stock and other loans that bear interest at rates between 9,05% and 17,9% per annum.

The slightly lower debt level combined with the growth in revenue resulted in the debt-to-revenue ratio improving from 27,5% in 2005 to 26,1% in 2006. Debt-to-own source revenue (excluding grants) also improved from 37,6% in 2005 to 34,9% in 2006 and reflects a modest debt level for the city. The current debt burden is already within the financial goals approved by Council who set the interest bearing debt-to-income target at 35% of revenues by 2007.

The pressures on capital expenditure are expected to remain high over the long-term. Cash outlay on capital expenditure for the 2006 financial year at R257,5 million was higher than in 2005 and below budget. This was primarily as a result of the lengthy process of implementation of capital projects and to obtain funds in the form of grants and subsidies from other spheres of government.

Buffalo City plans to spend some R1,5 billion on capital projects over the next five years. The spending in 2007 is ambitious at R475 million. Over the next three years borrowing is expected to reach roughly R583 million in 2008 with the additional R250 million that is expected to be financed from external sources and repayment of liabilities maturing within this period.

The following table illustrates future capital expenditure plans for the next three years:

Table 7

Capital projects				
Year	Capex Rm	Own funds Rm	Borrowing Rm	Grants Rm
2006	456,2	23,7	151,4	281,1
2007	279,0	22,2	55,9	200,8
2008	245,4	19,0	46,1	180,3
Total	980,6	64,9	253,4	662,2

The ratio of interest bearing debt-to-revenue should reach 35% which is somewhat higher than the 26,6% in 2006. This is considered manageable compared with that of other metros and in line with the city's strategy to synchronise future borrowings with revenue growth. It is therefore unlikely that the debt burden of the city will increase above these levels over the medium-term.

Buffalo City's interest charges at 3,8% of revenue is relatively low. The additional borrowings are going to increase the finance charges to approximately 4,9% of total revenue in 2008, but it is still considered to be within the affordability measures of a municipality. Additional payments should be in the region of R16 million per annum, with an average loan life of 14,5 years.

The net increase in cash and cash equivalents increased from R109,68 million to R264,06 million. Approximately R70 million of this movement is attributable to re-classification of short-term investments, which was allocated under current assets. A net cash flow of R264,06 million was recorded in 2006, also strongly up from 2005, that translates into a payback period of its interest-bearing debt of less than four years. Future cash flows are expected to remain sound underpinned by good own source revenues and acceptable debt levels.

3.3 Liquidity management

Buffalo City's liquidity position is considered sound given the net cash resources and monthly cash flows. The city has an active cash management system in operation to control this crucial aspect of its finance. Over the last decade municipalities have been burdened by a culture of non-payment for services resulting in generally low collection rates and increasing outstanding debtor's balances.

During 2006 Buffalo City's gross debtors grew by 8,9% to R398,7 million before bad debt write-offs of R36,2 million. However, net debtors after provisions for bad debts decreased to R147,3 million from R227,4 million. The debtors' collection period as a percentage of billings is 96,05%. Although this ratio is less than ideal it compares well with that of the other large cities in South Africa.

The age analysis of Buffalo City's outstanding debtors indicates balances older than 180 days of R262,4 million but provisions of only R171,2 million were raised against them.

Table 9

Debtors Age Analysis			
Days	2004 Rm	2005 Rm	2006 Rm
Current	86,7	91,5	87,9
60 Days	21,8	21,0	20,4
90 Days	19,0	15,7	15,3
180 Days	14,0	12,8	12,7
180+ Days	247,9	226,4	262,4
Gross debtors	389,5	367,4	398,7
Provisions	175,1	139,9	171,2
Net debtors	214,4	227,4	147,3

Source: CA Ratings

Maintaining and improving the current collection rate is crucial for the financial sustainability of the city, and it remains a key rating consideration. The city's current ratio of 2,25 will also be adversely affected should the additional write-off occur.

Investment balances have grown handsomely during the year to R454,9 million as a result of sound operational cash flows and grants received. However the cash investments reflect the cash backing of certain reserves, in aggregate R44,4 million, as well as unspent conditional grants of R193,1 million. Some R10,2 million are sinking fund investments linked to the redemption of long-term loans and the remaining R204,5 million are available as the city's own discretionary funds which is considered adequate relative to monthly operational cash requirements. Subsequent to the year end Buffalo City obtained a guarantee from the IFC to replace the sinking fund investments. Accordingly these investments are available to utilise for operational and capital expenditure.

The improvement in the cash flows from operations in 2006 contributed to an improved coverage ratio and working capital. Cash from operations cover interest payments with 5,13 times in 2006. Operating cash flow cover short-term liabilities compared with 0,88 times in 2006. These coverage ratios should remain strong if the city maintains its current level of collections.

4. CONCLUSION

The City's overall financial profile is encouraging and is well placed to deal with the demands for improved service delivery.

BCM's Consolidated Annual Financial Statements

FOR THE YEAR ENDED – 30 JUNE 2006

- 1 Consolidated Statement of Financial Position
- 2 Consolidated Statement of Financial Performance

- 3a Consolidated Statement of Changes in Net Assets – Municipality
- 3b Consolidated Statement of Changes in Net Assets – Economic Entity

- 4 Consolidated Cash Flow Statement
- 5 Accounting Policies
- 6 Notes to the Consolidated Annual Financial Statements

- 7 Appendices:
 - A Schedule of External Loans
 - B (i) Analysis of Property, Plant and Equipment – Municipal
 - B (ii) Analysis of Property, Plant and Equipment – Economic Entity
 - C Segmental Analysis of Property, Plant and Equipment
 - D Segmental Statement of Financial Performance
 - E Actual vs. Budget (Revenue and Expenditure)
 - F Actual vs. Budget (Acquisition of Property, Plant and Equipment)
 - G Consolidated Conditional Grants and Receipts
 - H Disclosure of Consolidated Conditional Grants and Receipts

I am responsible for the preparation of these Consolidated Annual Financial Statements, which are set out on pages 90 to 154, in terms of Section 126(1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors as disclosed in Note 23 of these Consolidated Annual Financial Statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Mr. G. G. Sharpley
Municipal Manager

Accounting Policies

1. BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, except for the revaluation of land and buildings, which are carried at fair value.

These annual financial statements have been prepared in accordance with Generally Accepted Municipal Accounting Practices (GAMAP) and Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No.56 of 2003). These accounting policies are consistent with those of the previous financial year.

The economic entity may have transactions, events or balances that are outside the ambit of the accounting standards referred to above but which are included in Standards of International Public Sector Accounting Standards (IPSAS) issued by the International Federation of Accountants – Public Sector Committee, International Accounting Standards (IAS) issued by the International Accounting Standards Board or Generally Accepted Accounting Practice issued by the South African Accounting Practices Board and the South African Institute of Chartered Accountants' Accounting Practices Committee. The economic entity has not complied with the measurement, recognition and disclosure requirements of those accounting standards.

The principal accounting policies adopted in the preparation of these annual financial statements are set out below.

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a standard of GAMAP or GRAP.

2. BASIS OF CONSOLIDATION

The consolidated annual financial statements incorporate the financial statements of Buffalo City Municipality and municipal entities controlled by Buffalo City Municipality.

On acquisition, the assets and liabilities of a municipal entity are measured at their fair values at the date of commission. Where necessary, adjustments are made to the annual financial statements of municipal entities to bring the accounting policies used into line with those used by Buffalo City Municipality.

All significant transactions and balances between members of the economic entity are eliminated on consolidation.

3. PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand.

4. GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

5. COMPENSATION FOR OCCUPATIONAL INJURIES AND DISEASES (COID)

This fund has been established in accordance with the Compensation for Occupational Injuries and Diseases Act No 130 of 1993. Buffalo City Municipality has been issued a certificate of exemption from the Compensation Commissioner and has been given permission to administer its own internal COID fund.

Buffalo City Municipality is still bound by the Act and claims are still approved by the Compensation Commissioner. The employee may not be awarded lesser benefits than provided for in the Act.

Buffalo City Municipality has entered into self insurance for COID for the following reasons:

- Reduction of costs
- To expedite claims and payments to Medical Practitioners
- More favorable compensation to employees.

Monthly contributions are transferred to the fund and claims are submitted to the Compensation Commissioner within 14 days after the accident becomes known.

Once confirmation has been received from the Compensation Commissioner the claim is settled by paying employees a full salary for the period not at work and settling all medical accounts as soon as received. External insurance cover has been taken out to recoup any differences in payment to employees and amounts paid by the Compensation Commissioner.

6. RESERVES

The economic entity creates and maintains reserves in terms of specific requirements.

6.1 Capital Replacement Reserve (CRR)

In order to finance the purchase of items of property, plant and equipment from internal sources, amounts are transferred from accumulated surplus to the Capital Replacement Reserve (CRR) in terms of a Council resolution. A corresponding amount is transferred to a designated CRR investment account. The following conditions are set for the creation and utilisation of the CRR:

- The cash which backs the CRR is invested until utilised. The cash may only be invested in accordance with the investment policy of Buffalo City Municipality
- Interest earned on the CRR investment is recorded as interest earned in the Statement of Financial Performance and may be appropriated to the CRR
- The CRR may only be utilised for the purpose of purchasing items of property, plant and equipment for Buffalo City Municipality and may not be used for the maintenance of these items
- The CRR is reduced and the accumulated surplus is credited by a corresponding amount when the amounts in the CRR are utilised

6.2 Capitalisation Reserve

The carrying value of property, plant and equipment financed by the former Consolidated Capital Development and Loans Fund (CCDLF) that was not balanced to external loans was transferred to the capitalisation reserve instead of the accumulated surplus. This transfer is in terms of a directive issued by National Treasury (MFMA circular No. 18 dated 23 June 2005). The purpose of this reserve is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus.

The balance on this reserve equals the carrying value of the items of property, plant and equipment financed from the former legislative funds. When these items of property, plant and equipment are depreciated, an equivalent amount is transferred from the capitalisation reserve to the accumulated surplus.

When an item of property, plant and equipment is disposed of, the balance in the capitalisation reserve relating to such item is transferred to the accumulated surplus.

6.3 Government Grant Reserve

When items of property, plant and equipment are financed from government grants, a transfer is made from the accumulated surplus to the Government Grant Reserve equal to the value of the government grant recorded as revenue in the Statement of Financial Performance. This transfer is in terms of a directive issued by National Treasury (MFMA circular No. 18 dated 23 June 2005). When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus. The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus.

When an item of property, plant and equipment financed from government grants is disposed of, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus.

6.4 Donations and Public Contributions Reserve

When items of property, plant and equipment are financed from public contributions and donations, a transfer is made from the accumulated surplus to the Donations and Public Contributions Reserve equal to the value of the donations and public contributions recorded as revenue in the Statement of Financial Performance. This transfer is in terms of a directive issued by National Treasury (MFMA circular No. 18 dated 23 June 2005). When such items of property, plant and equipment are depreciated, a transfer is made from the Donations and Public Contributions Reserve to the accumulated surplus. The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the useful lives of items of property, plant and equipment financed from donations and public contributions.

When an item of property, plant and equipment financed from donations and public contributions is disposed of, the balance in the Donations and Public Contributions Reserve relating to such item is transferred to the accumulated surplus.

6.5 Self Insurance Reserve

A Self Insurance Reserve has been established to cover claims that may occur, subject to external insurance policy terms and conditions. Premiums are charged to the respective services taking into account claims history, the insured value of property, plant and equipment and number of fleet vehicles.

- Insurance premiums are paid from the reserve
- Contributions to the reserve by departments are transferred via expenditure accounts to the reserve according to amounts budgeted for in the operating budget
- Claims received from external insurers are utilised in the calculation of a gain or loss on the scrapping of damaged assets and are recorded in the Statement of Financial Performance
- Claims received in respect of repairs and/or damages to assets are reflected as income in the reserve
- Repair and replacement costs not fully covered by external insurance are financed from the insurance reserve. The repair and replacement cost is regarded as an expense and is reflected in the insurance reserve

6.6 Revaluation Reserve

The surplus arising from the revaluation of land and buildings is credited to the Revaluation Reserve. The revaluation surplus is realised as revalued buildings are depreciated, through a transfer of an equivalent amount from the revaluation reserve to the accumulated surplus. On disposal, the net revaluation surplus is transferred to the accumulated surplus while gains or losses on disposal, based on revalued amounts, are credited or charged to the Statement of Financial Performance.

7. PROPERTY, PLANT AND EQUIPMENT (PPE)

Property, plant and equipment is stated at cost, less accumulated depreciation and accumulated impairment losses, except land and buildings, which are revalued as indicated below. Heritage assets, which are culturally significant resources and which are shown at cost, are not depreciated owing to the uncertainty regarding their estimated useful lives. Similarly, land is not depreciated as it is deemed to have an indefinite life.

Where items of property, plant and equipment are acquired in exchange for non- monetary or monetary property, plant and equipment or a combination of both, property, plant and equipment are measured at their fair value.

Subsequent expenditure relating to property, plant and equipment is capitalised if it is probable that future economic benefits or potential service delivery of the asset are enhanced in excess of the originally assessed standard of performance. If expenditure only restores the originally assessed standard of performance, then it is regarded as repairs and maintenance and is expensed. The enhancement of an existing asset so that its use is expanded, or the further development of an asset so that its original life is extended, are examples of subsequent expenditure which should be capitalised.

Buffalo City Municipality has adopted a capitalisation threshold whereby all expenditure below the threshold is expensed when incurred. The threshold is currently R 10 000.

7.1 Depreciation of Property, Plant and Equipment

Depreciation is calculated on cost, using the straight line method, over the estimated useful lives of the assets. The depreciation rates are based on the following estimated useful lives:

Infrastructure	Years	Other	Years
Electricity	10 – 30	Buildings	30
Roads	10 – 30	Office equipment	3 – 5
Water	15 – 20	Furniture and fittings	7 – 10
Sewerage	15 – 20	Bins and containers	5 – 10
Pedestrian malls	20	Emergency equipment	5 – 15
Security	3 – 5	Motor vehicles	3 – 20
		Plant and equipment	2 – 15
		Other	15
		Investment properties	30
Community	Years		
Buildings	30		
Recreational facilities	20		

The economic entity has taken advantage of the transitional provisions set out in GAMAP 17. The economic entity is in the process of itemising all infrastructure and community assets and will recalculate accumulated depreciation once this exercise has been completed by 30 June 2009. At present, depreciation on these assets is calculated on an averaging basis whereby an average useful life has been estimated for each category of infrastructure and community assets using global historical costs recorded in the accounting records. Furthermore, the economic entity has not assessed whether items of property, plant and equipment are impaired. It is expected that an assessment of impairments will be done by 30 June 2009.

7.2 Disposal of Property, Plant and Equipment

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

7.3 Incomplete Construction Work

Incomplete construction work is stated at historic cost. Depreciation only commences when the asset is commissioned into use.

7.4 Impairment Losses

Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount, it will be written down to its recoverable amount and an impairment loss charged to the Statement of Financial Performance.

8. REVALUATION OF LAND AND BUILDINGS

Land and buildings are stated at cost or revalued amounts, being the fair value at the date of revaluation less subsequent accumulated depreciation and impairment losses on the buildings.

9. INVESTMENTS

9.1 Financial Instruments

Financial instruments, which may include listed government bonds, unlisted municipal bonds, fixed deposits and short-term deposits invested in registered commercial banks, are stated as at cost.

9.2 Investment in Associate

An associate is an entity over which Buffalo City Municipality is in a position to exercise significant influence, through participation in the financial and operating policy decisions of the investee.

The results and assets and liabilities of associates are incorporated in these financial statements using the equity method of accounting.

The carrying value of the investment in associates is adjusted for Buffalo City Municipality's share of operating surpluses/(deficits) less any dividends received.

Where Buffalo City Municipality or its entities transact with an associate, unrealised gains and losses are eliminated to the

extent of the municipality's or its municipal entities' interest in the relevant associate, except where unrealised losses provide evidence of an impairment of the asset transferred.

Where Buffalo City Municipality is no longer able to exercise significant influence over the associate, the equity method of accounting is discontinued.

9.3 Investment in Municipal Entities

Investments in municipal entities under the ownership control of Buffalo City Municipality are carried at cost in Buffalo City Municipality's separate annual financial statements.

10. INVENTORIES

Inventories consist of consumables, raw materials, work in progress and finished goods which are valued at the lower cost or net realisable value.

Unsold properties for the purpose of resale are valued at the lower of cost or net realisable value. Direct costs are accumulated for each separately identifiable development. Cost also includes a portion of overhead costs if the costs occur frequently and are separately identifiable.

Cost of inventories comprise all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition. Redundant and slow moving inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values. Consumables are written down with regard to their age, condition and utility.

The basis of determining cost is the first-in-first-out method.

11. ACCOUNTS RECEIVABLE

Accounts receivable are carried at anticipated realisable value. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year end. Bad debts are written off during the year in which they are identified.

12. TRADE CREDITORS

Trade creditors are stated at their nominal value.

13. REVENUE RECOGNITION

Revenue is derived from a variety of sources which include rates levied, grants from other tiers of government and revenue from trading activities and other services provided.

Revenue is recognised when it is probable that future economic benefits or service potential will flow to the economic entity and these benefits can be measured reliably.

13.1 Revenue from Rates

Revenue from rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Interest on unpaid rates is recognised on a time proportionate basis.

A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers.

13.2 Service Charges

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and revenue is recognised when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period when meters have been read. These adjustments are recognised as revenue in the invoicing period. Revenue from the sale of electricity prepaid meter cards is recognised at the point of sale.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property. The domestic charge is a fixed service charge and the business charge is based on the type of refuse bin and frequency of removal.

Service charges relating to sewerage and sanitation are recognised on a monthly basis by applying the approved tariff to each property. For East London the domestic charge is based on the land size of the property and the business charge is based on the square root of the land size and the number of toilets on the property. For King William's Town both the domestic and business charges are based on the number of toilets on the property.

13.3 Fines

Income in respect of spot fines and summonses is recognised when received.

13.4 Rentals

Rentals are recognised on a time proportion basis.

13.5 Approved Tariff of Charges

Revenue arising from the approved tariff of charges is recognised when the relative service is rendered by applying the relevant gazetted tariff. This includes the issuing of licenses and permits.

13.6 Interest on Investments

Interest earned on investments is recognised in the Statement of Financial Performance on a time proportionate basis that takes into account the effective yield on the investment. Interest may be transferred from the accumulated surplus to the CRR or the Insurance Reserve.

Interest earned on unutilised conditional grants is allocated directly to the Creditor: Unutilised Conditional Grants if the grant conditions indicate that interest is payable to the funder.

13.7 Sale of Goods

Revenue from the sale of goods is recognised when the risk is passed to the consumer.

13.8 Interest on Outstanding Debtors

Interest on outstanding debtors is recognised on a time proportionate basis and is charged on all outstanding debtors older than 30 days.

13.9 Donations and Contributions

Donations are recognised on a cash receipt basis or where the donation or contribution is in the form of property, plant and equipment, when such items of property, plant and equipment are brought into use.

13.10 Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

14. CONDITIONAL GRANTS AND RECEIPTS

Revenue received from conditional grants, donations and funding is recognised as revenue to the extent that Buffalo City Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

15. PROVISIONS

A provision is recognised when the economic entity has a present obligation (legal or constructive) as a result of a past event and it is probable (i.e. more likely than not) that an outflow of resources will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are reviewed at each Statement of Financial Position date and adjusted to reflect the current best estimate. Contributions are made to or from the provisions to reflect the current best estimate.

Expenditure relating to provisions is charged to the operating account when incurred.

The economic entity makes provision for performance bonuses unpaid at year end.

16. CASH AND CASH EQUIVALENTS

Cash includes cash on hand and cash with registered banking institutions. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

17. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

18. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers' Act (Act No. 20 of 1998) or is in contravention of the municipality's or municipal entities' supply chain management policies. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

19. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

20. FOREIGN CURRENCY TRANSACTIONS

Transactions in foreign currencies are initially accounted for at the rate of exchange ruling on the date of the transaction. Trade creditors denominated in foreign currency are reported at Statement of Financial Position date by using the exchange rate at that date. Exchange differences arising on the settlement of creditors or on reporting of creditors at rates different from those at which they were initially recorded during the period are recognised as revenue or as expenses in the period in which they arise.

Where the transaction is covered by a forward exchange contract, the rate specified in the contract is used.

21. COMPARATIVE INFORMATION

21.1 Current Year Comparatives

Budgeted amounts have been included in the annual financial statements for the current financial year only.

21.2 Prior Year Comparatives

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

22. LEASES

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the economic entity.

Property, plant and equipment subject to finance lease agreements are capitalised at their cash cost equivalent and the corresponding liabilities are raised. The cost of the item of property, plant and equipment is depreciated at appropriate rates on the straight line basis over the estimated useful life.

Lease finance costs are expensed when incurred.

Operating leases are those leases which do not fall within the scope of the above definition. Operating lease rentals are expensed as they become due.

23. VALUE ADDED TAX

Buffalo City Municipality accounts for Value Added Tax on the payment basis.

24. GRANTS-IN-AID

Buffalo City Municipality transfers money to individuals, institutions and organisations. When making these transfers, Buffalo City Municipality does not:

- Receive any goods or services directly in return, as would be expected in a purchase or sale transaction
- Expect to be repaid in future or
- Expect a financial return, as would be expected from an investment

These transfers are recognised in the Financial Statements as expenses in the period that the events giving rise to the transfer occurred. If these contracts are onerous and extend over more than one financial year they are then treated in accordance with the accounting policy on provisions outlined under 15 above.

25. UNUTILISED CONDITIONAL GRANTS

Unutilised conditional grants are reflected on the Statement of Financial Position as a Creditor - Unutilised Conditional Grants. They represent unspent government grants, subsidies and contributions from the public. The following conditions are set for the creation and utilisation of these creditors:

- The cash which backs the creditor is invested until utilised.
- Interest earned on the investment is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor. If it is Buffalo City Municipality's interest it is recognised as interest earned in the Statement of Financial Performance.
- Whenever an item of property, plant and equipment is purchased from a Creditor – Unutilised Conditional Grant, an amount equal to the purchase price is transferred from the Creditor - Unutilised Conditional Grant to the operating account on the Statement of Financial Performance as revenue.
- Whenever an item of property, plant and equipment is purchased from a Creditor - Unutilised Conditional Grant, an amount equal to the purchase price is transferred from the accumulated surplus to the Government Grant Reserve or the Donations and Public Contributions Reserve. These reserves are used to offset depreciation charged on property, plant and equipment financed from unutilised capital receipts. These reserves equal the remaining depreciable value (carrying value) of property, plant and equipment financed from unutilised capital receipts.
- Whenever a non-asset is purchased from a Creditor - Unutilised Conditional Grant an amount equal to the purchase price is transferred from the Creditor - Unutilised Conditional Grant to the operating account on the Statement of Financial Performance to offset the expenditure which was expensed through the operating account.

26. INTANGIBLE ASSETS

Intangible assets are initially recorded at their cost price and are subsequently amortised over their expected useful lives. An intangible asset is defined as an identifiable non – monetary asset without physical substance held for use in the production or supply of goods or services, for rental to others, or for administrative purposes. The intangible assets under the control of Buffalo City Municipality are amortised according to the straight line method as follows:

- General Valuation Roll 3 years

Refer to Appendix A for more detail on long-term liabilities

The capitalised lease liability is secured over the item of plant leased.

R 8 922 725 (2005: R 108 208 926) has been invested specifically in ring-fenced accounts for the repayment of long-term liabilities. These are ceded investments (collateral to service a bullet payment at the end of specific loans) Refer Note 30 for more detail. The reason for the decrease from the prior year (R 108 208 926), is that certain large collateral investments were redeemed and sold in the open market. These collateral securities were replaced with guarantees from the International Finance Corporation. This unlocked potential ceded cash thereby reducing the need for new loans.

Notes to the Consolidated Annual Financial Statements

FOR THE YEAR ENDED 30 JUNE 2006

The Opening Balance differs from the Closing Balance at 30 June 2005 due to a restatement - refer note 36.

:- Depreciation on land adjusted: BCM	(112,192)	
:- Net change in Capitalisation: BCDA statements 04/05	1,556	Adjusted on BCDA transactions below
	(110,636)	
Depreciation charged to Statement of Financial Performance	70,867,534	
Depreciation charged directly on the Statement of Changes to Net assets	13,902,814	
Total Depreciation Charged	84,770,348	

Buffalo City Municipality has taken advantage of the transitional provisions set out in GAMAP 17 as well as adhering to National Treasury's Guidelines as per MFMA Circular No. 18 dated 23 June 2005, which states that it is paramount to prepare a process map to obtain infrastructure asset information over a number of years. Buffalo City Municipality appointed a service provider to develop a detailed roadmap to enable the successful implementation of processes to identify, record, value and manage infrastructure assets during the next three years.

At present, depreciation on these assets is calculated on an averaging basis whereby an average useful life has been estimated for each category of infrastructure and community assets, using global historical costs recorded in the accounting records. Furthermore, Buffalo City Municipality has not assessed whether items of property, plant and equipment are impaired. It is expected that an assessment of impairments will be done by 30 June 2009.

Notes to the Consolidated Annual Financial Statements

FOR THE YEAR ENDED 30 JUNE 2006

	2006	2005
	R	R

Land and buildings were revalued to fair value by using depreciated replacement cost values. The effective date of the revaluation was 01 May 2003. The revaluation was done by Fenwick & Associates, registered and independent valuers.

The revaluation surplus is reconciled as follows: -

Balance at beginning of year	192,063,916	199,731,371
Surplus realised	46,703,275	(7,667,455)
Balance at end of year	238,767,191	192,063,916

Refer to Appendix B for more detail on property, plant and equipment, including those in the course of construction.

An amount of R 109 724 895 ceded investments were redeemed during the 2005/2006 financial year.

The market value of Sanlam shares acquired upon demutualisation was R1,165,238 as at 30 June 2006 and R1,043,089 as at 30 June 2005.

A zero coupon bond of R 8,957,450 as at 30 June 2005 maturing on 30 June 2014 for a guaranteed redemption of R 25 million has been ceded to Standard Merchant Bank.

The primary reason for the increase in the investment portfolio is due to the fact that zero coupon bonds were liquidated nor cash realised. These are reflected under cash investments. The open market sale value was R115,008,945. These were sold to Sanlam Capital Markets via a bid process on the 05 May 2006. They were the highest bidders.

Loans to Sporting Bodies				
Council granted loans to Sporting bodies within its jurisdiction. This policy has since been abolished and no new loans are issued. The remaining loans are being phased out with the last loan being redeemable in 2016.				
Other Loans				
Council granted loans to other organisations and bodies within its jurisdiction. The remaining loans are being phased out with the last loan redeemable in 2009. The loans attract interest between 6 and 10%.				
Motor Vehicle Loans				
Senior staff obtain loans at 8% interest per annum repayable over a maximum period of 6 years. Essential users obtained loans at 10% repayable over a maximum period of 5 years. All loans are being phased out with the last loan being fully redeemed in 2008.

General valuations on land and buildings should be conducted every 10 years in terms of Ordinance No. 26 of 1944. Interim valuations are processed once a year to take into account changes in individual property values due to alterations and subdivisions. Rebates of 20% and 40% are granted to state properties and pensioners respectively. Rates are levied on an annual basis on property owners pensioners respectively. Rates are levied on an annual basis on property owners with the final date of payment being 30 September 2005. Ratepayers are also given an option of paying their rates monthly on application. Interest at a standard rate as amended from time to time, is paid on any rate which remains unpaid after 30 September 2005, except in cases where the owner has applied to pay by installment, in terms of Section 90(1) of Ordinance 20 of 1974.

Equitable Share				
In terms of the Constitution, this grant is used to subsidise the provision of basic and administrative services to indigent community members and to subsidise income.				
Other Grants and Subsidies				
All other funds received in the income account were reimbursements for expenditure incurred and no balances were carried forward. All conditions were met and no funds were withheld.				
National/Provincial Government Grant & Other Funding (Expenditure Reimbursement)				
Conditional Grants and subsidies are receipted to the Conditional Grant Creditor accounts and all capital and non-capital expenditure is expensed through the income and expenditure account. Reimbursements to the income account are journalised against the Conditional Grant Creditor accounts.				
Refer Note 8, Appendix G and Appendix H for more detail on the Conditional Grant and Subsidy balances and transaction movements for 2005/06.				
Conditions on the funding were complied with and no funds were withheld.

During the 2005/2006 financial year, the total redemption of local stock and annuity loans amounted to R 51 242 000 and R 96 553 115 respectively.

A loan of R 122 014 000 has been raised from INCA at 13.95% with a term period up to 31 December 2020. This loan is not new debt, but is a consolidation of smaller loans. This was conducted to lower the weighted average cost of capital of higher interest rate loans.

A loan of R 21 109 491 is not a new loan taken (i.e. it's a withdrawal from the loan facility), but it's a claim repayment from DBSA for all the assets bought during the 2004/05 financial year.

All loans that are raised will finance assets only. No operating expenditure is financed from loan funding. All purchases against the capital budget are analysed and reconciled to individual asset values. This eliminates any contravention of the MFMA, which stipulates that loan funding cannot finance operating activities.

A failed water pipe line in Mdantsane led to the removal of the contractor (Magwa and Selane cc) from the site which has resulted in a claim in the sum of approximately R650 000.

Flood damage to Vincent Park Centre has resulted in a possible claim of approximately R31 million. Although no court action has commenced Council's attorney's have been briefed and Council would defend the matter. Council's attorney's have also been instructed to investigate the possibility of recourse through it's insurers.

The Department of Water Affairs and Forestry (DWAF) - Eastern Cape has requested payment of approximately R22 million for outstanding water accounts in respect of Noodlyn, Zwelitsha and Phakamisa townships. Council through it's attorney's, have advised DWAF that the payment of accounts prior to the take over of responsibilities by Buffalo City Municipality, vested with Provincial Government.

A claim by Transnet LTD i.r.o. overpayment of rates on erf 15889. A summons was served on Buffalo City Municipality (defendant) by Transnet Limited (plaintiff) i.r.o. of Transnet that was not surveyed, subdivided and registered in the lawful owner's name resulting in overpayment of rates by Transnet. If the court rules in favour of Transnet Limited it could result in a claim of approximately R 2 million.

34 RETIREMENT BENEFIT INFORMATION

The employees of the Council as well as the Council as employer, contribute to Municipal Pension, Retirement and various Provident Funds as listed below:

- Cape Joint Pension Fund
- Cape Joint Retirement Fund
- Eastern Cape Local Authorities Provident Fund
- Government Employees Pension Fund
- SAMWU National Provident Fund
- SALA Pension Fund
- East London Municipal A Band Provident Fund
- Old Mutual Orion Provident Fund
- Aftredevoorsieningsfonds vir Kaapse Plaaslike Owerhede

- The Cape Joint Pension Fund: The last actuarial valuation was performed as at 30 June 2005 by D. Klug of Metropolitan Employees Benefits. The fund was in a sound financial position and that the surplus could be attributed to the reduction of pension increase targets.
- The Cape Joint Retirement Fund was in a sound financial condition as at the last actuarial valuation on 30 June 2005 which was conducted by D. Klug of Metropolitan Employees Benefits.
- The Eastern Cape Local Authorities Provident Fund's last valuation was done as at 30 June 2005 by M. Hayler from Alexander Forbes and certifies that the fund was in a sound financial condition in terms of the Pension Fund Act.
- The Government Employees Pension Fund's last valuation was at 31 March 2004 and performed by J. Slawski, J. Geldenhuys and R. Maxwell from Alexander Forbes. The fund was 96,5% funded at this date.
- SAMWU National Provident Fund's last actuarial valuation was at 30 June 2005 and conducted by E. Potgieter from Fifth Quadrant. The report stated that the fund was in a sound financial position.
- The SALA Pension Fund's last valuation was at 30 June 2003 conducted by S. Feldman of Old Mutual Actuaries and Consultants. The fund was 93.2% funded as at valuation date.
- The East London Municipal A Band and Old Mutual Orion Provident Funds as well as the Aftredevoorsieningsfonds vir Kaapse Plaaslike Owerhede are fixed/defined contribution funds and are therefore not required to perform actuarial valuations.
- It is Council's policy to fund 70% of Pensioner's medical aid expenses. The current costs amount to approximately R 8.5 million.
- An amount of R 75.7 million (2005: R 70,1 million) was contributed by Council in respect of Councillor and employees retirement funding. These contributions have been expensed.

35 IN-KIND DONATIONS AND ASSISTANCE

- The municipality received the following in-kind donations and assistance
- Secondment of International Finance Advisor by National Treasury for a period of two years ending June 2005.

Buffalo City Municipality holds 26% of the issued share capital in East London Industrial Development Zone (Pty) Ltd.

38 MUNICIPAL ENTITIES

Buffalo City Development Agency (BCDA)

The BCDA was incorporated on 18 June 2004 as a Municipal entity of BCM. BCDA is 100% controlled by BCM. BCM Council resolved to report all agency related pre-incorporation financial transactions for the first time at 30 June 2005.

One of the envisaged corner-stones of the agency's business model is the asset base of unutilised or underutilised public land and infrastructure that falls within the agency's demarcated area, namely the extended waterfront and CBD area of East London.

In Buffalo City, this asset-base constitutes a resource of significant value that could be used as leverage to unlock beneficial synergies with other significant prospective investors, private and public.

The agency commissioned a Pre-Feasibility Study intended to further clarify its local strategic opportunities and to finalise a business plan that will enable Buffalo City Municipality to extend a clear mandate to the agency as it launches into its operational phase.

The annual financial statements of BCDA, at 30 June 2006, were consolidated in terms of GAMAP 6, the Municipal Systems Act, as amended, and the Municipal Finance Management Act.

39 RELATED PARTY TRANSACTIONS

Buffalo City Municipality has issued grants of R1,429,825 to the development agency during the current financial year (2005: R200,000)

BCDA has paid consumer accounts of R6,250 during the current financial year.

Report of the Auditor-general

TO THE COUNCIL OF THE BUFFALO CITY MUNICIPALITY
ON THE CONSOLIDATED ANNUAL FINANCIAL STATEMENTS OF BUFFALO CITY MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2006

1. AUDIT ASSIGNMENT

The consolidated financial statements as set out on pages 50 to 119, for the year ended 30 June 2006, have been audited in terms of section 188 of the Constitution of the Republic of South Africa, 1996, read with sections 4 and 20 of the Public Audit Act, 2004 (Act No. 25 of 2004) and section 126(3) of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) (MFMA). These consolidated financial statements are the responsibility of the accounting officer. My responsibility is to express an opinion on these consolidated financial statements, based on the audit.

2. SCOPE

The audit was conducted in accordance with the International Standards on Auditing read with General Notice 1512 of 2006, issued in Government Gazette no. 29326 of 27 October 2006. Those standards require that I plan and perform the audit to obtain reasonable assurance that the consolidated financial statements are free of material misstatement.

An audit includes:

- examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements
- assessing the accounting principles used and significant estimates made by management
- evaluating the overall consolidated financial statement presentation.

I believe that the audit provides a reasonable basis for my opinion.

3. BASIS OF ACCOUNTING

The municipality is required to prepare consolidated financial statements on the basis of accounting determined by the National Treasury, as described in the addendum to this report.

4. QUALIFICATION

My concerns below are primarily as a result of the municipality's state of readiness, which was not at the desired level to implement and comply with the new accounting framework partly due to the municipality's initial position that these frameworks, as prescribed by National Treasury, was not applicable for the year under review.

Management has an obligation to put in place controls to help it identify and implement the appropriate accounting frameworks and policies to structure and govern its financial management responsibilities, as required by the MFMA. Management is also required to properly analyse financial risk at account balance level and implement appropriate controls to minimise these risks. During my audit I noted instances where management was not able to implement adequate controls, leading to material misstatement of the financial position of the municipality or where my scope was limited, despite my attempts to undertake alternative audit procedures. These instances of inadequate controls have been included in the paragraphs below.

4.1 Lack of supporting documentation

The non-submission of requested information is in contravention of section 74(1) of the MFMA, which states that the accounting officer must submit to the Auditor-General such information, returns, documents, explanations and motivations as may be prescribed or as may be required. The following are instances of non-submission:

a) General journals

General journals to the value of R96 284 008 submitted for audit purposes did not have adequate and appropriate documentation to support the transactions that they represented. This is as a result of ineffective reviewing, checking and reconciling of source documentation.

Consequently, it was not possible to obtain all the information and explanations that were considered necessary to gain assurance as to the validity, accuracy and completeness of account balances and classes of transactions as contained in the annual financial statements.

b) Capital commitments

Capital commitments to the amount of R473 905 507 are disclosed in note 32 to the annual financial statements. However, a complete list of signed contracts in support of this amount could not be provided as the municipality does not maintain a centralised register to manage the contracts. Furthermore, contract documents to the value of R2 370 243 could not be provided for audit purposes. Consequently, the completeness, validity and accuracy of capital commitments and related expenditure incurred in respect of these contracts cannot be verified.

4.2 Fixed assets

In terms of section 95(b) of the MFMA, the accounting officer should ensure that full and proper records of the financial affairs of the entity are kept. However, adequate control was not exercised over assets during the year under review. This is a result of asset records not being continuously and effectively monitored by management. The asset register is therefore not adequately maintained and supporting documentation relating to assets was found to be inaccurate and incomplete. In addition, no impairment tests have been conducted on fixed assets as required by GAMAP 17: Property, plant and equipment.

In the absence of adequate fixed asset records, it was not possible to verify the valuation, accuracy and completeness of assets of the municipality to the value of R1 044 898 347, as disclosed in the statement of financial position. This includes R610 579 892 in respect of infrastructure assets and R251 300 385 for land and buildings, the existence of which I could also not verify.

Management has addressed these concerns by adopting a three year plan to prepare and fully implement adequate records for infrastructure assets as disclosed in note 10 to the annual financial statements.

4.3 Accounts payable

Accounts payable are reflected in the statement of financial position at an amount of R77 761 159. In terms of GRAP 1: Presentation of financial statements, the municipality should prepare its financial statements on an accrual basis of accounting. Invoices pertaining to the 2006 year-end were only processed after year-end and, due to inadequate suppliers' reconciliations and monitoring, this was not detected by management. The total amount by which the above balance is understated could not be determined.

4.4 Employee costs

- a) The leave records on the personnel system were used as the basis for calculating the R35 059 919 leave accrual disclosed in note 7 to the consolidated annual financial statements. However, leave records for Buffalo City Municipality were found to be inadequate, since these records had not been regularly updated or do not exist and leave forms were not timeously filed. The municipality have implemented controls to ensure that adequate records are maintained, however these controls were only operational for the last 3 months of the year. In the absence of reliable leave records for the entire year under review, it was not possible to verify the accuracy, validity and completeness of the leave accrual.
- b) The leave pay accrual had not been discounted to its present value as required by IAS 19: Employee benefits. The financial misstatement in this regard is unknown as the municipality would have to determine an adequate discount rate in accordance with their risk profile, and the discounting period, if not known, would have to be estimated.
- c) There is no accounting policy to recognise the municipality's liability for the defined benefit plan in respect of post-employment benefits as required by IAS 19: Employee benefits. Accordingly, neither the liability for post-employment benefits nor the resulting actuarial gain/loss has been recognised in the consolidated annual financial statements. The total misstatement could not be determined in the absence of a policy and related information. The total amount of R75 700 000 in contributions' paid, as disclosed in note 34 to the financial statements, was expensed during the year in the statement of financial performance.

4.5 Government grants

In terms of IAS 20: Accounting for government grants and disclosure of government assistance, conditional government grants must be recognised as income only to the extent that there has been compliance with any conditions/restrictions attached to the grant. To the extent that the conditions/restrictions attached to a grant have not been met, the grant amount received must be deferred and presented as a liability in the statement of financial position and not as a reserve. A government grant reserve to the amount of R350 379 392 is disclosed in the statement of financial position. This should have been classified as a liability in the statement of financial position. Reserves are therefore overstated by R350 379 392 and liabilities is understated by the same amount.

4.6 Reserves

In terms of GRAP 1 Presentation of financial statements, paragraph 144, a municipality is not allowed to account for a reserve if it is not represented by cash or if there is no legislative requirement to account for the reserve. Included in the statement of financial position are reserves to the value of R142 251 984 which do not meet these requirements. In terms of GRAP 1: Presentation of financial statements the opening balance (R148 526 515) of these reserves should have been transferred to the opening balance of the accumulated surplus/(deficit), and the current year movement (R6 274 531) should have been expensed in the statement of financial performance. Reserves are therefore overstated by R142 251 984 and expenses are understated by R6 274 531.

4.7 Revenue and accounts receivable

In terms of paragraph 37 of GAMAP 9: Revenue, service charges revenue should be recognised when it is probable that the economic benefits would flow to the entity and the revenue can be measured reliably. This was not complied with as service charges for June 2006 in the amount of R37 681 128 were not recognised. However June 2005 service charges in the amount of R35 324 294 were recognised. As a result revenue is understated by R2 356 834 and accounts receivable is understated by R37681 128. Furthermore, accounts receivable has not been disclosed in terms of IAS 32: Financial instruments - disclosure and presentation.

4.8 Provisions

The carrying value of landfill sites as at 30 June 2006 is recorded in the fixed asset register at R47 244 281. No liability in respect of the obligation for restoring/rehabilitating these landfill sites has been raised as required by GAMAP 19: Provisions, contingent liabilities and contingent assets. The understatement of the liability could not be determined in the absence of management's assessment in this regard.

4.9 Inventory

The definition of inventory in terms of GAMAP 12: Inventory, paragraph 4, includes goods that are to be transferred at no charge or at a nominal charge. Paragraph 8 further states that such inventory must be valued at the lower of cost and current replacement cost. The inventory of housing stock meets this definition and management have estimated that the value of such stock is R4 948 995 for 30 June, 2006 and R6 603 000 for 30 June 2005. However, there is no policy in place to account for this inventory as management is of the view that these specific requirements of GAMAP 12 are not applicable to the municipality. As a result, inventory as disclosed in note 13 to the annual financial statements does not include inventories relating to housing stock. Consequently, inventory as disclosed in the statement of financial position is understated by an undetermined amount.

5. ADVERSE AUDIT OPINION

In my opinion, because of the significance of the matters described in the preceding paragraphs and their effect on the consolidated financial statements, the consolidated financial statements of the municipality do not present fairly, in all material respects, the financial position of the entity at 30 June 2006 and the results of its operations and cash flows for the year then ended, in accordance with the basis of accounting determined by the National Treasury of South Africa, as described in paragraph 3, and in the manner required by the MFMA.

6. EMPHASIS OF MATTER

Without further qualifying the audit opinion, attention is drawn to the following matters:

6.1 Basis of accounting

The municipality must prepare 'consolidated financial statements in accordance with the basis of accounting determined by the National Treasury, as described in paragraph 3. GRAP 1: Presentation of financial statements requires the basis of preparation of the consolidated financial statements to be disclosed in the consolidated financial statements. The entity has not complied with this disclosure requirement.

6.2 Material financial statement adjustments

Material changes had to be made to the consolidated financial statements as a result of audit findings and these statements were subsequently re-signed on 4 December 2006. Although I thereafter provided a further opportunity to the municipality to make additional changes to the financial statements based on my audit findings, to the extent possible and practical, the municipality opted not to do so due to a lack of available resources at the time.

7. APPRECIATION

The assistance rendered by the staff of Buffalo City Municipality and Buffalo City Development Agency during the audit is sincerely appreciated.

P. Bhana
for Auditor-General
East London • 20 December 2006

AUDITOR-GENERAL

Addendum to the Report of the Auditor-General on the Consolidated Financial Statements

TO THE COUNCIL OF THE BUFFALO CITY MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2006

BASIS OF PREPARATION

The consolidated financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) and the Standards of Generally Accepted Municipal Accounting Practices (GAMAP) prescribed by the Minister of Finance in terms of:

- General Notice 991 of 2005, issued in Government Gazette no. 28095 of 7 December 2005; and
- General Notice 992 of 2005, issued in Government Gazette no. 28095 of 15 December 2005.

The standards comprise of the following:

GRAP 1	Presentation of Financial Statements
GRAP 2	Cash Flow Statements
GRAP 3	Accounting Policies, Changes in Accounting Estimates and Errors
GAMAP 4	The Effects of Changes in Foreign Exchange Rates
GAMAP 6	Consolidated Financial Statements and Accounting for Controlled Entities
GAMAP 7	Accounting for Investments in Associates
GAMAP 8	Financial Reporting of Interests in Joint Ventures
GAMAP 9	Revenue
GAMAP 12	Inventories
GAMAP 17	Property, Plant and Equipment
GAMAP 19	Provisions, Contingent Liabilities and Contingent Asset

Accounting policies for material transactions, events or conditions not covered by the above GRAP and GAMAP Standards have been developed in accordance with paragraphs 7, 11 and 12 of GRAP 3. These accounting policies and the applicable disclosures are based on the South African Statements of Generally Accepted Accounting Practices (GAAP) including any interpretations of such Statements issued by the Accounting Practices Board.

Consideration of the Report of the Auditor-general

ON THE FINANCIAL STATEMENTS OF THE BUFFALO CITY MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2006

The Speaker invited the Chairperson of the Audit Committee, Mr. C. Guest, to elaborate on the report, which he duly did.

The Municipal Manager proposed the inclusion of two additional recommendations as set out in paragraphs (4) and (5) hereunder and the Council agreed thereto.

Councillor Rens made reference to a workshop held towards the end of the previous year by consultants, on how to read and interpret the Financial Statements. She expressed the opinion that some of the qualifications were “unfair” to the Council as it appeared that the goal posts were moved in approximately October 2006.

Continuing, Councillor Rens proposed that the Audit Committee submits a report to the Council by the end of March 2007, outlining the progress being made in implementing the steps required to rectify the qualifications on the audit.

Councillor Matika, in concurring with Councillor Rens, proposed that the report be submitted quarterly. He also proposed that the Municipal Manager investigates ways of capacitating the staff complement in the Internal Audit Unit to enable them to anticipate/foresee problems and not to wait for the presentation of financial statements to identify problem areas, as it was his understanding that their set-up was such that they are supposed to be “watchdogs” for the Council.

Councillor Matika further proposed that the Executive Mayor, in consultation and liaison with the Municipal Manager, investigates the possibility of setting up an Oversight Committee of the Council to deal with issues revolving around Terms of Reference of Committees, the outcome of which is to be submitted in the form of a report to the next meeting of the Council.

Councillors Dikimolo and Fritz seconded Councillor Matika’s proposals.

Councillor Mdyolo, in concurring with the proposal for quarterly reports from the Audit Committee, stated that an Audit Committee was not a crisis committee, but rather a monitoring or advisory committee and also seconded Councillor Matika’s proposals.

RESOLVED:

1. That the Council NOTES the comments of Management on the report of the Auditor-General on the Consolidated Financial Statements of Buffalo City Municipality for the period ended 30 June 2006, as set out in the report of the Municipal Manager attached as an Annexure to Report No. 3 of the Audit Committee to the Council meeting held on 30 January 2007, and ADOPTS them as the Council’s official comments.
2. That the Council gives consideration to adopting a structured communication strategy intervention to manage the content and impact of the report of the Auditor-General in order to ensure that investor, community and stakeholder confidence in the overall financial management of the city is maintained.
3. That management, the Office of the Auditor-General and the Audit Committee interact via a formal ongoing working group whose sole terms of reference will be to prevent a repeat of the adverse audit opinion received.
4. That the comments as contained in Report No. 3 of the Audit Committee under the above heading to the Council meeting held on 30 January 2007 and the report of the Municipal Manager to the Audit Committee meeting held on 18 January 2007, attached as an annexure to the abovementioned report, be conveyed to the Auditor-General, the MEC for Finance, the MEC for Local Government, Housing and Traditional Affairs and National Treasury.
5. That Report No. 3 of the Audit Committee under the above heading to the Council meeting held on 30 January 2007, together with the report of the Municipal Manager to the Audit Committee meeting held on 18 January 2007, attached as an Annexure to the aforementioned report, be incorporated into the Annual Report of the Council for the financial year ended 30 June 2006.
6. That the Audit Committee submits quarterly reports to the Council detailing progress made in respect of the implementation of steps to correct the adverse audit opinion received.

Report of the Audit Committee

CONSIDERATION OF THE REPORT OF THE AUDITOR - GENERAL ON THE FINANCIAL STATEMENTS OF THE BUFFALO CITY MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2006.

INTRODUCTION

The Auditor - General has completed his audit of the financial position of the Municipality for the financial year ended 30 June 2006.

The Audit Committee considered the report of the Auditor – General read together with the comments of Management on the Report of the Auditor - General. Copies of the reports considered by the Audit Committee are attached hereto as Annexures A and B.

Following consideration of both reports the committee submits its report as follows:

The Committee takes cognizance of the fact that the conversion to new accounting standards is a process and believes that the actions of the Chief Financial Officer to ensure compliance should be noted. The content and impact of the circular of the Accountant General dated 4 October 2006 is noted and the committee encourages management to examine closely the accounting standards with a view to ensuring compliance therewith as a matter of urgency.

The committee recognises that the implementation of the fixed assets register is a complex issue being dealt with in terms of a three year “road map” but urges management to further engage with the Auditor – General and to obtain clarity from the Accountant – General’s office regarding the differences of opinion on the content and format of the register.

With regard to the omission of certain accounts payable in the financial statement the Committee takes note of the importance of setting of cut off dates, but nevertheless believes that the current policy should be aligned with the accounting standard and urges that all efforts be made to comply therewith.

Incremental steps were undertaken to improve the accuracy of the leave records during the financial year. However, the committee urges that management interact with the Auditor -General regarding the implications of IAS 19 [Employee benefits including post retirement benefits] and that thereafter the required accounting policy be prepared and implemented in compiling the 2007 financial year statements.

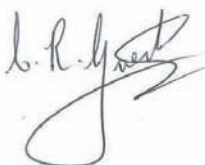

Urgent clarity also requires to be sought from National Treasury regarding the technical accounting treatment of Government Grants and Reserves as well as inventory and the committee urges management to obtain such clarity without delay in order that these matters can be cleared well ahead of the end of the 2006/7 financial year.

The issue of the basis of recognition of income (accounts receivable) is set out in the relevant accounting standard and should be duly complied with by management in future.

Given the foregoing, and taking note of the serious nature of the adverse audit opinion, arising from both substantive and technical issues, management is urged to implement every possible effort to and to undertake those actions that will avoid a repetition.

The Audit Committee accordingly **RECOMMENDS**:

1. That the Council notes the comments of management on the Report of the Auditor - General on the Consolidated Financial Statements of the Buffalo City Municipality for the period ended 30 June 2006 and adopts them as the Council’s official comments.
2. That Council considers adopting a structured communication strategy intervention to manage the content and impact of the report of the Auditor - General in order to ensure that investor, community and stakeholder confidence in the overall financial management of the city is maintained.
3. That management, the Office of the Auditor – General and the Audit Committee interact via a formal ongoing working group whose sole terms of reference will be to prevent a repeat of the adverse audit opinion received

Report of the Municipal Manager

REPORT OF THE AUDITOR - GENERAL ON THE FINANCIAL STATEMENTS OF THE BUFFALO CITY MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2006.

AUDIT COMMITTEE: 18 JANUARY 2007.

INTRODUCTION

The Auditor - General has completed the audit of the financial position of the Municipality for the financial year ended 30 June 2006. The report of the Auditor General is attached hereto as Annexure A.

THE REPORT

The report was referred to the Directors for comment. Their comments are set out hereunder.

(The numbering in this report corresponds with the numbering used in the report of the Auditor - General.)

4. QUALIFICATION

The qualifications relating to fixed assets, government grants, reserves, revenue and accounts receivable, provisions, inventory and basis of accounting are related to GRAP and post-GRAP implementation. The changes in the accounting standards require considerable work and a plan has been devised to implement these changes over the next two to three years. Most of the matters raised relate to technical issues required by these newly applicable accounting standards and it must be recognised that they will require an implementation time frame.

Buffalo City Municipality has reviewed the specific comments raised by the Auditor-General and believes that they can be divided into two categories as follows:-

- Non-compliance with financial statement preparation framework prior to 09 October 2006, and
- Non-compliance with financial statement preparation framework post 09 October 2006.

With regard to non-compliance prior to 09 October 2006, Buffalo City Municipality have noted the items of non-compliance when measured against the mandatory standards of GRAP 1,2 & 3 and GAMAP 4,6,7,8,9,12 &19 and believe that these issues can be rectified in the new reporting period.

Buffalo City Municipality will also address the non-compliance issues identified after the Accountant General communication dated 04 October 2006 and assess to what extent the Municipality complies with SA GAAP.

It should be noted that compliance with SA GAAP is an onerous undertaking that will require technical expertise and process / accounting changes. Establishing a structured plan that identifies specific action, accountability, timeframes and impact would need to be developed and implemented. Management could then make informed decisions and prioritise action in this regard, taking into account available resources.

4.1 Lack of Supporting Documentation

a) General Journals

Procedures have been put in place to ensure that all general journals contain adequate supporting documentation, or a reference to where the supporting documentation can be found where it is too large to attach to the actual journal, in order to comply with financial accounting procedures.

b) Capital Commitments

A service provider has been appointed to investigate the implementation of a Consolidated Contracts Register, alternatively to recommend interim measures to ensure that all contractual commitments are adequately recorded. Supply Chain Management will put controls in place to ensure that control registers are kept and reviewed regularly. The investigation will also cover control over the movement of contract documentation.

It must however be noted that contract management is currently decentralised and implementing a centralised system will entail considerable time being spent on such a project.

4.2 Fixed Assets

A conscious decision was taken by Management and Council to introduce a GRAP compliant asset register into the Municipality on a phased approach, owing to resource constraints. The Municipality decided to identify, record and value all assets in the following order:-

- Movable assets e.g. furniture and fittings, computers, vehicles etc.
- Land and buildings
- Infrastructure assets e.g. water, electricity and roads

Management and Council acknowledged that a practical approach would need to be adopted in the compilation of this register as information, in some cases dating back more than twenty years, would not be available.

National Treasury has acknowledged that addressing infrastructure assets issues will take several years. National Treasury expects municipalities to prepare an accurate Infrastructure Asset Register within three years of adopting GAMAP/GRAP.

As Buffalo City Municipality is a high capacity municipality, it must therefore have an Infrastructure Asset Register prepared by 30 June 2009 as acknowledged by the Auditor General.

An Infrastructural Asset Management Roadmap was completed in October 2006:

The roadmap has identified:-

- The information to be included in the Asset Register (based on GRAP, the MFMA, and good infrastructure asset management practice, and the opinions of leading experts, practitioners and consultations with the Accountant-General)
- Current information held by various departments in BCM and
- Projects, linked to budget estimates that will supply the outstanding information

In the meantime an Asset Register has been compiled which complies with GRAP.

4.3 Accounts Payable

The timetable for year-end processes which incorporates cut-off dates for payments and accruals was approved by management and circulated to all directorates. To further ensure that all material payments were made, supplier reconciliations were initiated.

The requirements of the accounting standards are noted and the current procedures will be examined to ensure closer alignment therewith. Departments will be urged to adhere to the cut-off dates in order to account for goods and services in the correct accounting period.

In addition, the Supply Chain Management Department will institute further reconciliation procedures in an effort to better align the management practice with the accounting standards. It is envisaged that the centralised contracts register may also assist with this process.

4.4 Employee Costs

Ongoing improvements are being implemented to improve the accuracy of the leave records including more intensive monitoring of the capturing and filing of leave forms. A full review of all leave transactions for the financial year ending 30 June 2007 is being considered, subject to availability of funds, to ensure that the accuracy of the leave records can be fully relied upon.

The provisions of IAS 19 will be discussed with relevant parties, including National Treasury and the Accounting Standards Board to gain a full understanding of the requirements which, after a Financial Policy, will be prepared but it must be noted that progress with this matter will largely be determined by the response of the Accounting Standards Board.

4.5 Government Grants

The treatment of non-distributable and distributable reserves, together with compliance with the compulsory disclosure of the National Treasury contained in the specimen Annual Financial Statements, needs to be clarified further with National Treasury, the Accounting Standards Board and the Auditor-General. National Treasury has issued specific guidance in this regard and Buffalo City Municipality has complied with this guidance.

Buffalo City Municipality will also address the non-compliance issues identified after the Accountant-General communication dated 4 October 2006 and assess to what extent the Municipality complies with SA GAAP.

4.6 Reserves

The treatment of non-distributable and distributable reserves, together with compliance with the compulsory disclosure of the National Treasury issued specimen annual financial statements, needs to be clarified further with National Treasury, the Accounting Standards Board and the Auditor General. National Treasury has issued specific guidance in this regard and Buffalo City Municipality has complied with this guidance.

Buffalo City Municipality will also address the non-compliance issues identified after the Accountant General communication dated 04 October 2006 and assess to what extent the municipality complies with SA GAAP.

4.7 Revenue and Accounts Receivable

Revenue from service charges was previously recorded and recognised in the month following that in which the consumption took place. In future revenue will be recognised and disclosed as an accrual at year end, in order to comply with GRAP requirements.

4.8 Provisions

The comments of the Auditor-General are noted.

This will be dealt with as part of the post-GRAP implementation process during the current 2006/2007 Financial Year.

4.9 Inventory

A factual disagreement exists with regard to the accounting treatment of RDP houses.

The view of management is that taking into consideration that RDP houses are not held for resale, the expenditure relating thereto cannot be included as inventory.

This is the interpretation placed on paragraph 1 of GAMAP 12 which states that an entity shall apply this standard in accounting for inventories other than work-in-progress of services to be provided for no, or nominal, consideration directly in return from the recipients.

It should also be noted that as BCM is essentially acting as an agent on behalf of those organisations financing the construction and hand-over of these RDP houses, and as such these houses cannot be classified as inventory.

At a meeting held on 02 November 2006 between the Accountant-General and the Chief Financial Officers of high capacity municipalities, the accounting treatment relating to RDP houses and the disclosure thereof within the AFS was discussed. It was unanimously agreed that RDP expenditure should be debited to expenses and the income relating to the financing of the houses should be credited to grants and subsidies, both within the operating accounts. Accordingly, BCM has adopted this approach to account for RDP houses. It was agreed that RDP houses should not be classified as inventory and included on the Statement of Financial Position.

This matter will be further discussed at meetings during the financial year 2006/2007 in an effort to resolve the matter of RDP houses and their classification and accounting treatment but it must be noted that progress with this matter will largely be determined by the response of the Accountant-General and the Accounting Standards Board.

5 ADVERSE AUDIT OPINION

Noted.

6 EMPHASIS OF MATTER

6.1 Basis of Accounting

The disclosure requirement is noted and will be complied with.

6.2 Material Financial Statement Adjustments

The comments from the Auditor General are noted.

RECOMMENDATION

IT IS RECOMMENDED

that the comments of management as set out in the report of the Municipal Manager to the Audit Committee meeting held on 18 January 2007 be noted and accepted by the Audit Committee.

G.G. SHARPLEY
MUNICIPAL MANAGER

gw/ Audit Committee 18 January 2007.

Report of the Auditor-General to the Council on Factual Findings on Performance Measurement

AT BUFFALO CITY MUNICIPALITY FOR THE YEAR ENDED 30 JUNE 2006

1. ASSIGNMENT

The compilation presentation and publishing of performance measurements [as included on pages 152 to 170 of this annual report] and the implementation, management and internal control of supporting systems are the responsibility of the Accounting Officer as required by section 45(b) of the Local Government Municipal System's Act, 2000 (Act No. 32 of 2000) my responsibility is to provide an assessment of the controls implemented by the accounting officer to develop and manage the Municipality's performance management system. My role is not to assess or comment on the Municipality's actual performance.

2. NATURE AND SCOPE

I have performed the procedures agreed upon and described below regarding the performance measurement system of Buffalo City Municipality. The assignment was undertaken in accordance with the International Standard on Related Services (ISRS 4400) applicable to agreed upon procedures engagements.

The procedures were performed solely to evaluate the controls implemented and managed by the accounting officer regarding the Municipality's performance measurement system against the criteria set out in.

- chapter 6 of the Municipal Systems Act, 2000:
- the Local Government, Municipal Planning and Performance Management Regulations, 2001 (No. R. 796)

The procedures performed during our assignment were based on the high-level overview checklist completed by the Accounting Officer and included a review of the following aspects

1. Development of an integrated development plan
2. Development of a performance management system
3. Development and implementation of key performance indicators
4. Setting of targets for key performance indicators
5. Actual service delivery process
6. Internal monitoring or performance measurements
7. Internal control of the performance management system
8. Performance measurement and reporting
9. Revision of strategies and objectives

3. FACTUAL FINDINGS

I report my findings below.

3.1 Development of an Integrated Development Plan

An integrated development plan has been developed which includes all the essential characteristics as required by the relevant laws and regulations.

3.2 Development and implementation of a Performance Management System

The Municipality adopted a Performance Management System framework in order to guide the Municipality with the preparation and the implementation of an institutional and individual performance management system on 25 November 2003. During the performance of our review it was found that the performance management system framework has not been reviewed since its adoption.

3.3 Development and Implementation of key performance indicators and setting targets for key performance indicators The Municipality has set targets for each of the key performance indicators, However, there are no set targets for Municipal entities and service providers with whom the Municipality has entered into a service delivery agreement.

It is noted that there is limited local community involvement in the setting of appropriate key performance indicators and performance targets for the Municipality.

3.4 Actual service delivery

The Municipality has not promoted a culture of performance management among its political structures, political office bearers, councillors and in its administration, as only the performance of Section 57 employees was measured and monitored during the year under review.

3.5 Internal monitoring

The Municipality has not monitored its actual progress in terms of a formally documented process.

3.6 Internal control

Internal audit function performed one audit that covered the scorecard proposed by management as scorecard for 2005/2006 financial year which was not adopted by the council. The second review was undertaken by a service provider and was intended to cover every facet and other shortcomings of the performance management system.

Therefore the performance management system was not audited on a continuous basis during the current year under review.

3.7 Performance measurement and reporting

The Municipality has not followed the process prescribed in its performance management system to measure and report on their performance for 2005/06 financial year.

3.8 Revision of strategies and objectives

The Municipality followed the process prescribed in the performance management system to revise their strategies and objectives for the 2006/07 financial year.

4. STATEMENT

Because the above procedures do not constitute either an audit or a review made in accordance with International Standards on Auditing or International Standards on Review Engagements, I do not express any assurance on the performance measurements as at 30 June 2006.

Had I performed additional procedures or had I performed an audit or review of the performance measurement in accordance with International Standards on Auditing or International Standards on Review Engagements other matters might have come to my attention that would have been reported to you.

This report relates only to the purpose set forth in the first paragraph of this report and does not extend to the financial statements of Buffalo City Municipality taken as a whole.

5. APPRECIATION

The assistance rendered by the staff of Buffalo City Municipality during the assignment is sincerely appreciated.

AUDITOR - GENERAL

S. Ngqwala for Auditor-General
East London • 30 November 2006

Consideration of the Report of the Auditor-General on Performance Measurement

FOR THE YEAR ENDED 30 JUNE 2006

The Chairperson of the Audit Committee (Mr. C. Guest) elaborated on the report.

The Municipal Manager proposed the inclusion of two additional recommendations as set out in paragraph 2 and 3 hereunder and the Council agreed thereto.

RESOLVED:

1. That the Council NOTES the comments of the Audit Committee on the report of the Auditor-General on the Performance Measurements for the period ended 30 June 2006, as set out in Report No. 4 under the above heading to the Council meeting held on 30 January 2007, as well as that of Management set out in the report of the Municipal Manager in the Annexure attached to Report No. 4, and ADOPTS them as the Council's official comments.
2. That the comments as set out in Report No. 4 of the Audit Committee under the above heading to the Council meeting held on 30 January 2007, and the report of the Municipal Manager, be conveyed to the Auditor-General, the MEC for Finance, the MEC for Local Government, Housing and Traditional Affairs and National Treasury.
3. That Report No. 4 of the Audit Committee under the above heading to the Council meeting held on 30 January 2007, together with the report of the Municipal Manager be incorporated into the Annual Report of the Council for the financial year ended 30 June 2006.

Consideration of the Report of the Auditor-General on Performance Measurement

FOR THE YEAR ENDED 30 JUNE 2006.

COUNCIL: 30 JANUARY 2007.
REPORT OF THE AUDIT COMMITTEE.

INTRODUCTION

The Auditor - General has completed the audit of the performance measurement of the Municipality for the financial year ended 30 June 2006. The Audit Committee considered the attached report of the Auditor -General together with the comments of Buffalo City Management and presents its report as follows:

The Committee records its concern at the dysfunctional nature of the Performance Management System during the year under review, but takes cognizance of the fact that Management has made a concerted effort during the subsequent financial year to ensure that a functional Performance Management System is put into place including the revision of the framework.

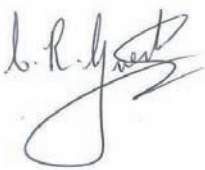

The Committee urges Management to ensure that performance targets are set for those areas where they have not been set including entities and service providers and that improved community consultation processes be established to further foster the culture of performance.

The measurement against targets and indicators is a critical aspect of the system and the Committee therefore urges Management to complete the required performance measurements in the current year as required by legislation and to report thereon to Council in terms of the underlying legislation. Since performance measurements were not performed during the year 2005/2006 only a limited scope of work by the Internal Audit Unit was possible.

Timeframes for the implementation of the activities set out in items 3.3 and 3.5 of the Report of the Auditor-General should be set and strictly monitored on a monthly basis.

The Audit Committee accordingly RECOMMENDS

that the Council notes the comments of Management and the Audit Committee on the Report of the Auditor-General on the Performance Measurements for the period ended 30 June 2006 and adopts them as the Council's official comments.

C.R. GUEST
CHAIRPERSON: BUFFALO CITY AUDIT COMMITTEE

(Scanned signature inserted with approval)

Report of the Municipal Manager

REPORT OF THE AUDITOR-GENERAL ON PERFORMANCE MEASUREMENT FOR THE YEAR ENDED 30 JUNE 2006.

AUDIT COMMITTEE: 18 JANUARY 2007.

INTRODUCTION

The Auditor-General has completed the audit of the Performance Management System of the Municipality for the financial year ended 30 June 2006. The report of the Auditor General is attached hereto as Annexure B.

THE REPORT

The report was referred to the Directors for comment. Their comments are set out hereunder.

(The numbering in this report corresponds with the numbering used in the report of the Auditor-General.)

3.1 Development of an Integrated Development Plan

Noted and no comment required.

3.2 Development and Implementation of a Performance Management System

The Performance Management System Framework is currently being reviewed and will incorporate these comments.

3.3 Development and Implementation of Key Performance Indicators and Setting of Targets for Key Performance Indicators

In terms of the reviewed Performance Management System Framework, targets will be set for municipal entities and service providers. Further, the reviewed Performance Management System Framework will make explicit the community involvement in target setting.

3.4 Actual Service Delivery

It is Buffalo City Municipality's intention that during the 2006/2007 Financial Year that the Performance Management System will be cascaded to all General Managers and to relevant junior managers.

3.5 Internal Monitoring

The reviewed Performance Management System Framework will document the process to be followed.

3.6 Internal Control

As management assessments were not performed during the year no further work by the Internal Audit Unit was possible.-

3.7 Performance Measurement and Reporting

Noted.

3.8 Revision of Strategies and Objectives

Noted and no comment required.

RECOMMENDATION

IT IS RECOMMENDED

That the comments of Management as set out in the report of the Municipal Manager to the Audit Committee meeting held on 18 January 2007 be noted and accepted by the Audit Committee.

G. G. SHARPLEY
MUNICIPAL MANAGER

gw/ Audit Committee 18 January 2007.

Annual Report of the Audit Committee for the Financial Year

ENDED 30 JUNE 2006

BCC 13/07

The Chairperson of the Audit Committee (Mr Guest) elaborated on the report.

The Municipal Manager proposed the acceptance of the additional recommendation as set out in paragraph (2) hereunder and the Council agreed thereto.

At this stage, the Speaker thanked Mr Guest for his contribution, as well as the Office of the Auditor-General. She also invited the Business Executive in the Provincial Office of the Auditor-General, Mr Ngqwala, to comment on the three reports dealt with under Minute No's. BCC 11/07, 12/07 and 13/07, which he duly did.

Mr Ngqwala also conveyed greetings from the newly appointed Auditor-General to the Council.

RESOLVED:

1. That, for the purpose of the requirements of Section 166(2) (b) of the Local Government: Municipal Finance Management Act, No. 56 of 2003, the Council NOTES Report No. 5 of the Audit Committee under the above heading to the Council meeting held on 30 January 2007; and further, that the Council ACCEPTS the audited Annual Financial Statements.
2. That the Annual Report of the Audit Committee for the financial year ended 30 June 2006 presented at the Council meeting held on 30 January 2007 as Report No. 5, be incorporated into Buffalo City Municipality's Annual Report for the 2005/2006 financial year.

Annual Report of the Audit Committee for the Financial Year

ENDED 30 JUNE 2006.

COUNCIL: 30 JANUARY 2007.

REPORT OF THE AUDIT COMMITTEE.

INTRODUCTION

In terms of Section 166 (2)(b) of the Local Government: Municipal Finance Management Act, No. 56 of 2003 the Audit Committee is required to report in the Annual Report of the Municipality on their perception of the overall control environment and whether or not they consider that the Annual Financial Statements should be accepted by the Council.

TERMS OF REFERENCE

The Audit Committee has adopted appropriate terms of reference which are encapsulated in the Audit Committee Charter, as approved by Council. The Committee has approved an Internal Audit Charter which regulates the operation of the Internal Audit Unit.

The Audit Committee has contributed to the maintenance of effective corporate governance within Buffalo City Municipality during the financial year under review. The Manager: Internal Audit reports operationally to the Audit Committee.

The members of the Committee are:

Member	Position
C R Guest	Chair person
R Bendle	Member
Z Fanana	Member
C Ramoo	Member [Appointed February 2006.]

The Audit Committee convened regularly during the financial year as is set out in the following table.

EFFECTIVENESS OF INTERNAL CONTROL

The Audit Committee reviewed reports from the Internal Audit Unit in terms of the approved audit plan. Based on our evaluation of the work of the Internal Audit Unit as well as feedback received from the Office of the Auditor-General, the Committee is of the opinion that, despite the fact that a generally sound internal control system existed during the year under review, certain significant control weaknesses identified by Internal Audit and the Auditor-General still require to be addressed by management, specifically in the areas of monitoring, review and reconciliations.

RISK MANAGEMENT AND LOSS CONTROL

A risk assessment exercise was performed during the year under review which provides a sound platform for the management of risk within the Municipality. It is, however, considered that this process needs to be further developed, and to this end, the committee reports that principles of effective risk management require to be actively championed by management and embedded within the organisation culture.

PERFORMANCE MANAGEMENT

The Audit Committee reports that a Performance Management System has been approved by council but implementation during the period under review was lacking. This failure to implement the system has resulted in the council and stakeholders not being in a position to measure the performance of the Municipality against predetermined and agreed targets as required by legislation. The committee is therefore of the opinion that the Performance Management System was not fully functional during the period under review.

The Committee is also of the view that additional performance management expertise is urgently required on the committee in order to provide the required level of oversight and has accordingly made this request to the Municipal Manager.

EVALUATION OF FINANCIAL STATEMENTS

The Audit Committee has:

- reviewed the audited Annual Financial Statements; and
- reviewed the Auditor-General's Report and management's responses thereto.

The detailed findings of the committee in this regard were tabled in a separate report to council dated 30 January 2007.

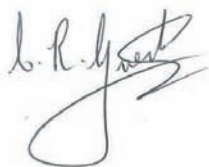

Taking cognisance of the fact that the adverse opinion contained in the Report of the Auditor-General on the Financial Statements resulted from both substantive and technical issues, management is urged to actively engage with both the Auditor-General and the Accountant-General's offices in avoiding a repetition of such opinion. The committee accepts the conclusions of the Auditor-General on the Annual Financial Statements and is of the opinion that the audited Annual Financial Statements should be accepted and read together with the report of the Auditor-General as well as the report of the Audit Committee to the council meeting held on 30 January 2007.

The Audit Committee had no input on the Audit Steering Committee during the Audit process and considers that the Audit Committee should participate in all Audit Steering Committee meetings in future.

APPRECIATION

The committee expresses its sincere appreciation to the Executive Mayor, Council, Municipal Manager, management and officials for their unwavering support and interest in the activities of the committee during the year under review. The support and advice of the Business Executive of the Provincial Office of the Auditor-General, Mr Singa Ngqwala and his staff is also acknowledged.

A special word of appreciation is extended to Mr Geoff Walton and his staff in the Internal Audit Unit for their steadfast efforts during the year under review.

CR Guest
Chairperson of the Audit Committee

(Scanned signature inserted with approval)

Internal Audit Unit

The Internal Audit, Compliance and Governance Department was established in September 2003. The department was not fully staffed during the period under review and consequently the work of the Department has been limited.

The mission of the department is to contribute to the effectiveness of the operations of Buffalo City Municipality by providing inter-alia an independent appraisal of the municipality's internal controls. The department's aim is to contribute to the council's overall management quality and the achievement of its strategic objectives by:

- providing an independent, objective assurance and consulting service, evaluation of the control environment, including risk assessment and risk management (including control self-assessment processes), compliance, performance management, loss control, corruption mitigation, forensic investigations and good corporate governance
- providing support to Council and management in the discharge of their responsibilities by providing recommendations for improvements to the risk management and control framework

The activities include:

- determining opportunities for improving management practices and internal controls
- determining the level of compliance with policies, procedures and regulations including statutes
- liaison with the Office of the Auditor General

The department is committed to support for line departments through:

- support and teamwork
- openness, courtesy, respect, tolerance, tact, diplomacy, confidentiality, and discretion
- striving for continuous improvement

The General Manager: Internal Audit, Compliance and Governance reported administratively to the Municipal Manager during the period 1 July 2005 to 31 December 2005. With effect from 1 January 2006 the department reported to the Director in the Office of the Executive Mayor and the functions of compliance and governance were removed. During the entire period under review the department reported functionally to the Audit Committee, a statutory committee established in terms of the Local Government: Municipal Finance Management Act.

Work undertaken during the period was aimed at improving the control environment. Internal audits undertaken include:

- a compliance review of the Performance Management System including an assessment of the institutional scorecard, [No measurements were performed in terms of the scorecard the work was limited in scope to compliance and functionality only]
- a compliance review of the Supply Chain Management System. This report serves as a status report to enable management to more fully implement the system
- an audit of compliance with the conditions relating to the Division of Revenue Act
- an audit of the policy and procedures relating to staff transport claims
- an audit of the internal control systems in operation at the Gonubie Resort
- an audit of the pay office
- an audit of the salary procedures
- an audit of inventory procedures
- an audit of the swimming pools and
- an audit of selected operations at the Traffic Department

In addition, the General Manager attended Bid Adjudication Committee meetings for the purpose of giving advice and ensuring compliance with policy and legislative provisions. With effect from 1 January 2006 the General Manager no longer attends Bid Adjudication Committee meetings.

The following challenges face the department:

- the number of staff is insufficient to adequately cover all areas that should be audited
- the general lack of procedure development makes internal audit work difficult
- an appreciation of the need to work in an internal control environment needs to be developed
