The Municipality has taken advantage of the transitional provisions set out in GAMAP 17. The Municipality is in the process of itemizing all infrastructure and community assets and will recalculate accumulated depreciation once this exercise has been completed by 30 June 2007. At present depreciation on these assets is calculated on an averaging basis whereby an average useful life has been estimated for each category of infrastructure and community assets, using global historical costs recorded in the accounting records. Furthermore, the Municipality has not assessed whether items of property, plant and equipment are impaired. It is expected that an assessment of impairments will be done by 30 June 2007.
