KGALAGADI DISTRICT MUNICIPALITY

ANNUAL FINANCIAL STATEMENTS

for the year ended

30 June 2007

I am responsible for the preparation of these annual financial statements, which are set out on pages 3 to 28, in terms of Section 126(1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors as disclosed in note 17 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Mr M.K.Mmoiemang Municipal Manager

28 August 2007

Summary of significant accounting policies for the year ended 30 June 2007

The principal accounting policies applied in the preparation of these financial statements are set out below and are consistent with those applied in the previous year unless otherwise stated.

1.1 Basis of preparation

The financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) and the Standards of Generally Accepted Municipal Accounting Practices (GAMAP) prescribed by the Minister of Finance in terms of:

- General Notice 991 of 2005, issued in Government Gazette no. 28095 of 15 December 2005; and
- General Notice 992 of 2005, issued in Government Gazette no. 28095 of 7 December 2005; and

The Standard comprise of the following:

- GRAP I Presentation of Financial Statements
- GRAP 2 Cash Flow Statements
- GRAP 3 Accounting Policies, Changes in Accounting Estimates and Errors
- GAMAP 4 The Effects of Changes in Foreign Exchange Rates
- GAMAP 6 Consolidated Financial Statements and Accounting for Controlled Entities
- GAMAP 7 Accounting for Investments in Associates
- GAMAP 8 Financial Reporting of Interests in Joint Ventures
- GAMAP 9 Revenue
- GAMAP 12 Inventories
- GAMAP I7 Property, Plant and Equipment
- GAMAP 19 Provisions, Contingent Liabilities and Contingent Asset

Accounting policies for material transactions, events or conditions not covered by the above GRAP and GAMAP Standards have been developed in accordance with paragraphs 7.11 and 12 of GRAP 3. These accounting policies and the applicable disclosures have been based on the South African Statements of Generally Accepted Accounting Practices (GAAP) including any interpretations of such Statements issued by the Accounting Practices Board. A summary of the significant accounting policies are disclosed below.

Assets, liabilities, revenue and expenses have not been offset except when offsetting is permitted or required by a Standard of GAMAP or GRAP.

1.2 Presentation currency

These annual financial statements are presented in South African Rand.

1.3 Going concern assumption

These annual financial statements are prepared on the basis that the municipality will remain a going concern for the foreseeable future.

1.4 Segmental reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments. A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and returns that are different from those of segments operating in other economic environments.

1.5 Reserves

1.5.1 Capital Replacement Reserve (CRR)

In order to finance the future provision of infrastructure and other items of property, plant and equipment from internal sources amounts are transferred out of the accumulated surplus/(deficit) into the Capital Replacement Reserve (CRR) in terms of a Council resolution. The cash allocated to the CRR can only be utilised to finance items of property, plant and equipment. The following provisions are set for the creation and utilisation of the CRR:

- The cash which backs up the CRR is invested until it is utilised. The cash may only be invested in accordance with the investment policy of the municipality.
- Interest earned on the CRR investment is recorded as part of total interest earned in the Statement of Financial Performance.
- The CRR may only be utilised for the purpose of purchasing items of property, plant and equipment for the municipality and may not be used for the maintenance of these items.
- The proceeds from the disposal of property, plant and equipment must be transferred to the CRR.
- The CRR is reduced and the accumulated surplus/(deficit) credited with corresponding amounts when the funds are utilised.
- The amounts transferred to the CRR are based on the Municipality's need to finance future capital projects.
- The Council determines the annual contribution to the CRR.

The balance on the Capitalisation Reserve equals the carrying value of the items of property, plant and equipment financed from the former legislated funds. When items of property, plant and equipment are depreciated, a transfer is made from the Capitalisation Reserve to the accumulated surplus/(deficit).

When an item of property, plant and equipment is disposed, the balance in the Capitalisation Reserve relating to such item is transferred to the accumulated surplus/(deficit).

1.5.2 Government Grant Reserve

When items of property, plant and equipment are financed from government grants, a transfer is made from the accumulated surplus/(deficit) to the Government Grants Reserve equal to the Government Grant recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus/(deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the depreciation charges that will be incurred over the estimated useful life of the item of property, plant and equipment financed from Government Grants.

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus/(deficit).

The revaluation surplus is realised as revalued buildings are depreciated, through a transfer from the revaluation reserve to the accumulated surplus/(deficit). On disposal the net revaluation surplus is transferred to the accumulated surplus/(deficit) while gains or losses on disposal, based on current values, are credited or charged to the Statement of Financial Performance.

1.6 Financial Instruments

Financial instruments carried in the Statement of Financial Position include cash and cash equivalents, investments, accounts receivable, accounts payable and borrowings. The particular recognition methods adopted are disclosed in the individual policy statements associated with each item.

Financial assets are derecognized when the contractual rights to the cash flows from the financial assets expire or have been transferred and the Municipality has transferred substantially all risks and rewards of ownership. Financial liabilities are derecognized when it is extinguished, i.e. when the contractual right is discharged, cancelled or expires.

1.7 Leases

1.7.1 Lessee Accounting

Amounts held under finance leases are initially recognised as assets of the Municipality at their fair value at the inception of the lease or, if lower at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to profit or loss, unless they are directly attributable to qualifying assets, in which case they are capitalised in accordance with the Municipality's policy on borrowing costs.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

The Municipality will not incur a foreign currency lease liability other than that allowed by the MFMA.

1.7.2 Lessor Accounting

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Municipality's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return to the Municipality's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

1.8 Borrowing Costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for the intended use or sale, added to the costs of these assets, until such time as the assets are substantially ready for their intended use of sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in the statement of financial performance in the period in which they are incurred.

1.9 Borrowings

Borrowings are recognised initially at fair value net of transaction costs incurred. Borrowings are subsequently stated at amortised cost any difference between the proceeds (net of transaction costs) and the redemption value is recognised in the Statement of Financial Performance over the period of the borrowings using the effective interest method.

Borrowings are classified as current liabilities unless the Municipality has the unconditional right to defer settlement of the liability for at least 12 months after the date of the Statement of Financial Position.

1.10 Provisions

A provision is recognised when the municipality has a present obligation (legal or constructive) as a result of a past event and it is probable (i.e. more likely than not) that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The municipality has discounted provisions to their present value when the effect of the time value of money is material. The notional interest charge representing the unwinding of the provision discounting is included in the Statement of Financial Position.

Provisions are reviewed at each Statement of Financial Position date and adjusted to reflect the current best estimate.

1.11 Employee Benefits

(a) Pension obligations

The Municipality operates various pension schemes. The schemes are generally funded through payments to insurance companies or trustee-administered funds, determined by periodic actuarial calculations. The Municipality has only defined contribution plans. A defined contribution plan is a pension plan under which the Municipality pays fixed contributions into a separate entity. The Municipality has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

For defined contribution plans the Municipality pays contributions to publicly or privately administered pension insurance plans on a mandatory contractual or voluntary basis. The Municipality has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(b) Post Retirement Medical obligations

The Municipality provides post-retirement healthcare benefits to its retirees. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment using the same accounting methodology as used for defined benefit pension plans. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions in excess of the greater of 10% of the value of plan assets or 10% of the defined benefit obligation are charged or credited to the Statement of Financial Performance over the expected average remaining working lives of the related employees. These obligations are valued annually by independent qualified actuaries.

(c) Long Service awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the municipality in the form of leave.

1.12 Trade Payables (Creditors)

Trade payables and other receivables are originally carried at fair value and subsequently remeasured at amortised cost using the effective interest method.

1.13 Accrued Leave Pay

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at year end and also on the total remuneration package of the employee.

1.14 Unutilised Conditional Grants

Unutilised conditional grants are reflected on the Statement of Financial Position as a creditor -Unutilised conditional grants. They represent unspent government grants, subsidies and contributions from the public. This creditor always has to be backed by cash. The following provisions are set for the creation and utilisation of this creditor:

- The cash which backs up the creditor is invested until it is utilised.
- Interest earned on the investment is treated in accordance with grant conditions.
- If it is payable to the funder it is recorded as part of the creditor. If it is the Municipality's interest it is recognised as interest earned in the Statement of Financial Performance.
- Whenever an asset is purchased out of the unutilised conditional grant an amount equal to the cost price of the asset purchased is transferred from the Unutilised Conditional Grant into the statement of financial performance as Revenue. Thereafter an equal amount is transferred on the Statement of changes in net assets to a Government Grant

 Reserve. This reserve is equal to the remaining depreciable value (book value) of assets purchased out of the Unutilised Conditional Grants. The Government Grant Reserve is used to offset depreciation charged on assets purchased out of the Unutilised Conditional Grants.

1.15 Value Added Tax

The Council accounts for Value Added Tax on the invoice basis.

1.16 Property Plant and Equipment

Land and buildings held for use in the production or supply of goods and services or for administrative purposes are stated in the Statement of Financial Position at their revalued amounts being the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

Revaluations are performed every four years when the municipal valuation roll is Updated.

Increases in the carrying amount arising on revaluation of land and buildings are credited to a Revaluation Reserve in the Statement of Changes in Net Assets. Decreases that offset previous increases of the same asset are charged against the Revaluation Reserve directly in the Statement of Changes in Net Assets; all other decreases are charged to the Statement of Financial Performance. Each year the difference between depreciation based on the revalued carrying amount of the asset is charged to the Statement of Financial Performance and depreciation based on the asset's original cost is transferred from the Revaluation Reserve to the Accumulated Surplus! (Deficit).

Depreciation on revalued land and buildings is charged to the Statement of Financial Performance. On the subsequent sale or retirement of a revalued property, the attributable revaluation surplus remaining in the Revaluation Reserve is transferred directly to the accumulated surplus / deficit.

Incomplete construction work is stated at historic cost. Depreciation only commences when the asset is commissioned into use.

All other property, plant and equipment are stated at historical cost less depreciation and any accumulated impairment losses. Historical cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Municipality's accounting policy.

The Municipality has adopted a capitalisation threshold whereby all expenditure below the threshold is written of after capitalization. The threshold is currently R 5 000.00 per item of PPE.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits or service potential associated with the item will flow to the municipality and the cost of the item can be measured reliably. The carrying amount of a replaced part is derecognised. All other repairs and maintenance are charged to the Statement of Financial Performance during the financial period in which they are incurred.

Depreciation is charged so as to write off the cost or valuation of assets, other than land and buildings under construction over their estimated useful lives, using the straight-line method.

The estimated useful lives, residual values and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis. The depreciation rates are based on the following estimated useful lives:

	Years
Infrastructure	
Water	15
Reservoir Tanks	10
Community	
Buildings	30
Recreational Facilities	15
Sport Facilities	15
Cemeteries	20
Community Halls	20
Other	
Office Buildings	30
Specialist vehicles	7
Other vehicles	5
Office equipment	3
Furniture and fittings	7
Security measures	3
Fencing	5

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing the proceeds with the carrying amount and are recognised (net) in the Statement of Financial Performance. When revalued assets are sold, the amounts included in the Revaluation Reserve are transferred to the Accumulated Surplus/(Deficit) directly in the Statement of Changes in Net Assets.

Heritage assets, which are defined as culturally significant resources are not depreciated as they are regarded as having an infinite life. Land is also not depreciated for the same reason.

1.17 Investment Property

Investment property, which is property held to earn rentals and/or for capital appreciation, is measured initially at its cost. Subsequent to initial recognition investment properties are shown at fair value, based on periodic, but at least every four years, valuations by external independent valuers. Gains or losses arising from changes in the fair value of investment property are included in profit or loss for the period in which they arise.

1.18 Intangible Assets

Intangible assets acquired separately are reported at cost less accumulated amortisation and accumulated impairment losses. Amortisation is charged on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

1.19 Impairment of Tangible and Intangible Assets

At each Statement of Financial Position date the municipality reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets

have suffered an impairment loss. If any such indication exists the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss. Where it is not possible to estimate the recoverable amount of an individual asset the municipality estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Assets that have an indefinite useful life, for example goodwill, are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Non-financial assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the Statement of Financial Performance, unless the asset is carried at a revalued amount, in which case the reversal of the impairment is treated as a Revaluation Reserve increase.

1.20 Financial Assets

The Municipality classifies its financial assets in the following categories: available for sale through Statement of Financial Performance, held to maturity and loans and receivables. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

(a) Available-for-sale investments

Available-for-sale investments are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the date of the Statement of Financial Position Purchases and sales of available-for-sale investments are recognized on the trade date at fair value including transaction costs Investments are subsequently carried at fair value Realised and unrealized gains and losses arising from changes in the value of these investments are recognized in the Statement of Changes in Net Assets When these investments are sold or impaired the accumulated fair value adjustments are included in the Statement of Financial Performance and reversed in the Statement of Changes in net Assets.

Interest on available-for-sale securities calculated using the effective interest method is recognised in the Statement of Financial Performance Dividends on available-for-sale equity instruments are recognised in the Statement of Financial Performance when the right to receive payments is established.

(b) Held- to- maturity

Held-to-maturity financial assets are non-derivative financial assets with fixed or determinable payments and fixed maturities other than those that meet the definition of loans and receivables that the management of the Municipality has a positive intention and ability to hold to maturity.

These assets are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method less provision for impairment.

Interest on held-to-maturity securities calculated using the effective interest method is recognised in the Statement of Financial Performance. Dividends on available-for-sale equity instruments are recognised in the Statement of Financial Performance when the right to receive payments is established.

(c) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the date of the Statement of Financial Position. They arise when the Municipality provides money for goods or services directly to a debtor with no intention of trading the receivable and are initially recognized at fair value and subsequently carried at amortised cost using the effective interest method, less provision for impairment.

1.21 Cash and Cash Equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other shortterm highly liquid investments with original maturities of three months or less, and bank overdrafts.

1.22 Revenue Recognition

Service charges relating to electricity and water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. Revenue from the sale of electricity prepaid meter cards are recognised at the point of sale.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

Service charges from sewerage and sanitation are split between business and residential rates. The business tariff is based on the number of sewerage connections on each developed property using the tariffs approved from Council and are levied monthly. Residential properties are levied monthly based on a fixed tariff.

Interest and rentals are recognised on a time proportion basis.

Dividends are recognised on the date that the Municipality becomes entitled to receive the dividend.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licences and permits.

Interest earned on investments is recognised in the Statement of Financial Performance on a time proportionate basis that takes into account the effective yield on the investment. Interest earned on the following investments is not recognised in the Statement of Financial Performance:

• Interest earned on unutilised conditional grants is allocated directly to the unutilised conditional grant creditor, if the grant conditions indicate that interest is payable to the funder.

Revenue from the sale of goods is recognised when **all** the following conditions have been satisfied:

- The municipality has transferred to the buyer the significant risks and rewards of ownership of the goods.
- The municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

Finance income from the sale of housing by way of instalment sales agreements or finance leases is recognised on a time proportion basis.

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment is brought into use.

Where public contributions have been received but the municipality has not met the condition, a liability is recognised.

1.23 Revenue from non-exchange transactions

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis.

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received, together with an estimate of spot fines and summonses

that will received based on past experience of amounts collected.

Donations are recognised on a cash receipt basis or where the donation is in the form of property, plant and equipment, when such items of property, plant and equipment are brought into use.

Contributed property, plant and equipment are recognised when such items of property, plant and equipment are brought into use.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management

Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

1.24 Conditional Grants and Receipts

Revenue received from conditional grants, donations and funding are recognised as revenue to the extent that the Municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met a liability is recognised.

1.25 Borrowing costs

All borrowing costs, being interest cost incurred by the Municipality when borrowing funds, are recognised as finance costs expenses in the period in which it is incurred.

1.26 Related parties

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Key management personnel is defined as the Municipal Manager, Chief Financial Officer and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

1.27 Unauthorised Expenditure

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.28 Irregular Expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management

policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.29 Fruitless and Wasteful Expenditure

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered it is subsequently accounted for as revenue in the Statement of Financial Performance

1.30 Rounding

The amounts reflected in the financial statements of the Municipality are all in Rand and all amounts are rounded off to the nearest Rand.

Application for exemptions in terms of Government Gazette No 30013 dated 29 June 2007was approved by the National Treasury on 21 August 2007.

Increase in creditors	-1 279 057	-23 128 264
	-1219 031	-23 120 204
Cash generated by/(utilised in) operations	-13 734 756	-78 105 122
25 CASH AND CASH EQUIVALENTS		
Cash and cash equivalents included in the cash flow statement comprise the following statement of amounts indicating financial position :		
Bank balances and cash	189 132	330 066
Investment deposits	19 727 649	24 865 256
Total cash and cash equivalents	19 916 781	25 195 322
26 UTILISATION OF LONG-TERM LIABILITIES RECONCILIATION		
Long-term liabilities (see Note 1)	3 856 976	437 928
Used to finance property, plant and equipment – at cost	3 000 970	3 205 501
Total	3 856 976	3 643 429
Cash set aside for the repayment of long-term liabilities		822 116

Long-term liabilities have been utilized in accordance with the Municipal Finance Management Act. Sufficient cash has been set aside to ensure that long-term liabilities can be repaid on redemption date.

PRIOR YEAR ADJUSTMENT	2007	20
During the current year it was discovered that a number of items were incorrectly classified in the prior year's financial statements which required the municipality to restate some of the balances previously reported. This was also done to ensure a meani	R	
27.1 Funds and reserves		
Balance previously reported		
Government Grant Reserve Capitalisation Reserve		1 101 59 <u>6 267 80</u> 7 369 39
During the year ended 30 June 2007, the Government Grant Reserve prior year closing balance was restated to be inline with the book value of assets funded by Government Grants and Donations according to the Asset register at the end of the year ended 30 June		
The Capital Replacement Reserve was incorrectly stated as the Capitalisation Reserve in the Statement of Change in Net Assets and Statement of Financial Position for the year ended 30 June 2006		
Restated Balance		
Transferred to Capital Replacement Reserve Government Grant Reserve Transferred to the Accumulated Surplus		6 267 80 314 85 786 73 7 369 39
27.2 Non-Current Provisions		
Balance previously reported		
Provision for Leave Payments		1 006 50
In the financial statements for the year ended 30 June 2006 the closing balance for the provision for leave payments was incorrectly classified as a non-current provision. It should have been classified as a creditor.		
Restated Balance

ADDITIONAL DISCLOSURES IN TERMS OF MUNICIPAL FINANCE MANAGEMENT ACT (continued)		ĸ	
29.7 Non-Compliance with Chapter 11 of the Municipal Finance Management Act			
In April 2006 a disaster occurred at Bothitong village and liquifire gel stoves were bought for the affected families. The official procurement processes were not followed as no competitive bids were invited.		<u> </u>	42 750
The following deviations from the supply chain management policy and regulations occurred during the 2006/2007 financial year:			
1.Tlhapi Media/Hyper Act Promotions - District Growth and Development Summit A deviation from the SCM policy was approved on the condition that the service	F20.21/02/2007	1 482 550	
provider be appointed by means of quotations instead of formal tenders 2.Earthmoving Repairs - 17.5x25 Tyres Only 2 vendors locally can supply CAT products, therefore it's impractical to follow the National SCM processes	F19.22/08/2007	26 220	
National Sour processes 3.Idwala Industrial Holdings - Limestone Impractical to follow procurement process because acquisition of limestone is available from single supplier	F19.22/08/2007	97 455	
4.Rocktech Earthmoving - Grader Blades Only 2 vendors locally can supply CAT products,therefore it's impractical to follow the National SCM processes	F19.22/08/2007	25 410	
Skido Staalwerke- Stainless Steel Tank for Sewerage Traitor The sole supplier of a steel tank of this magnitude	F19.22/08/2007	28 279	
6.Sebata Municipal Solutions - Time and Attendence System The time and attendence system should be linked to Sebata FMS Payroll,therefore it was impractical to comply with SCM processes	F19.22/08/2007	146 141	
7. Spangenberg Laboratory - Testing of water ssamples Only qualified micro-biologist in Kuruman	F07.09/05/2007	10 380	
Shoprite - Food parcels for needy Was the only supermarket with affordable food parcels at that time	F07.09/05/2007	7 500	
9.Earthmoving Repairs - TA fittings Sole supplier	F07.09/05/2007	35 161	
10.Idwala Industrial Holdings- 224 tons of hydrated lime Sole supplier in region	F07.09/05/2007	218 333	
11.Price Watehouse Coopers- Sec 78 Assessment Hotazel Council resolution taken	F07.09/05/2007	51 000	
12.Earthmoving Repairs- Reconditioning hydraulic pump Sole supplier	F07.09/05/2007	13 949	
13.Spangenberg Laboratory- Testing of water samples Only micro-biologist in Kuruman	F07.09/05/2007	10 602	
14.La Rey Design- Printing of posters Only supplier who can provide material according to DWAFF standerds	F07.09/05/2007	22 700 11 571	
15Kgomotso Image and Sound - Drop handle zip files Only HDI company who can provide this service 16.Barloworld Kuruman - 15W40 Oil 208I	F07.09/05/2007 F07.09/05/2007	11 571	
To banowond Kuruman - 15W40 Oli 2081 Only supplier of CAT oil in the Kuruman 17.Rocktech- Grader blades	F07.09/05/2007	14 109 32 677	
17.Nocktech- Grader blades Sole provider in the region 18.Marleon - Health education material	F07.09/05/2007	32 677 9 600	
Only supplier who can provide material according to DWAFF standerds Total	101.08/00/2007	2 243 637
