Financial Statements 2009

ANNUAL FINANCIAL STATEMENTS

for the year ended

30 June 2009

APPROVAL OF FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements, as set out on pages 12 to 63 in terms of Section 126(1) of the Municipal Finance Management Act, and have accordingly signed the statements on behalf of the City.

I certify that the salaries, allowances and benefits of councillors as disclosed in Note 30 to these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

ACHMAT EBRAHIM CITY MANAGER

DATE: 3/ AUGUST 2009

City of Cape Town

1. STATEMENT OF ACCOUNTING POLICIES

The following are the principal accounting policies of the City of Cape Town, which are, in all material respects, consistent with those applied in the previous year except as stated in note 45. The historical cost convention has been used, except where indicated otherwise. Management has used assessments and estimates in preparing the annual financial statements – these are based on the best information available at the time of preparation. The financial statements have been prepared on a going concern basis.

1.1. ADOPTION OF NEW AND REVISED STANDARDS

In the current year, the City has adopted all new and revised standards and interpretations issued by the Accounting Standards Board that are relevant to its operations and effective. The adoption of these new and revised standards and interpretations has resulted in changes to the accounting policies.

A number of new standards are not yet effective for the year ended 30 June 2009, and are presented below:

- GRAP 18 Segment Reporting
- GRAP 21 Impairment of non-cash generating assets
- GRAP 23 Revenue from Non-exchange Transactions
- GRAP 24 Presentation of Budget Information in Financial Statements
- GRAP 26 Impairment of cash generating assets
- GRAP 103 Heritage Assets

All the above standards, where applicable, will be complied with in the financial statements once the effective date has been set. Preliminary investigations indicated that the impact of the standards on the financial statements will be minimal except for additional disclosures.

1.2. BASIS OF PRESENTATION

The financial statements have been prepared in accordance with the standards of Generally Recognised Accounting Practices (GRAP), issued by the Accounting Standards Board (ASB) and approved by the Minister of Finance as effective.

During the year under review, the ASB issued a directive which replaced a government gazette with the result that the GRAP Reporting Framework hierarchy as set out in the standard of GRAP 3 on Accounting Policies, *Changes in Accounting Estimates and Errors* becomes now the effective determination.

Where a Standard of GRAP is approved as effective, it replaces the equivalent Statement of IPSAS, IFRS or SA GAAP. Where a standard of GRAP has been issued, but not yet in effect, an entity may select to apply the principles established in that standard in developing an appropriate accounting policy dealing with a particular section or event before applying paragraph .12 of the Standard of GRAP on Accounting Policies, *Changes in Accounting Estimates and Errors*.

In the process of applying the City's accounting policies, management has made the following significant accounting judgments, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

• Operating lease commitments – City as lessor

City has entered into commercial property leases on its investment property portfolio. The City has determined that it retains all the significant risks and rewards of ownership of these properties, and so accounts for them as operating leases.

• Pension and other post-employment benefits

The cost of defined benefit pension plans and other employment medical benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

• Impairment of trade receivables

The calculation in respect of the impairment of debtors is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

• Property, plant and equipment

The useful lives of assets are based on management's estimation. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation where appropriate. The estimation of residual values of assets is also based on management's judgement whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

• Provisions and contingent liabilities

Management judgement is required when recognising and measuring provisions, and when measuring contingent liabilities, as set out in note 13 and 47.2 respectively. Provisions are discounted where the effect of discounting is material using actuarial valuations.

• Held-to-maturity financial assets

Management has reviewed the held-to-maturity financial assets in the light of its capital management and liquidity requirements, and has confirmed the positive intention and ability to hold those assets to maturity.

1.3. HOUSING FUNDS

The Housing Development Fund was established in terms of the Housing Act (Act No. 107 of 1997).

1.3.1 Housing development fund

Sections 15(5) and 16 of the Housing Act, (Act 107 of 1997), which came into operation on 1 April 1998, required that the City maintain a separate housing operating account. This legislated separate operating account is known as the Housing Development Fund.

The Housing Act also requires in terms of Section 14(4)(d) (ii) (aa), read with, inter alia, Section 16(2), that the net proceeds of any letting, sale or alienation of property, previously financed from government housing funds, be paid into a separate operating account, and be utilised by the City for housing development in accordance with the National Housing Policy.

The following provisions are set for the creation and utilisation of the Housing Development Fund:

- The Housing Development Fund is cash backed, and invested in accordance with the investment policy of the City.
- The proceeds in this fund are utilised for housing development in accordance with the National Housing Policy, and also for housing development projects approved by the MEC for Housing.
- Any contributions to or from the fund are shown as transfers in the Statement of Changes in Net Assets.
- Interest earned on the investments of the fund is disclosed as interest earned in the Statement of Financial Performance.

1.3.2 Unrealised housing proceeds

In order to comply with Section 14(4)(d)(i) and (ii) of the Housing Act, (Act 107 of 1997) where all net proceeds need to be paid into the Housing Development Fund, it was necessary to create a holding account which represents the unrealised funds due by long-term housing selling developments and sponsored loan debtors. This account is reduced when debtors are billed for their current loan repayments.

1.4. RESERVES

The City creates and maintains reserves in terms of specific requirements.

1.4.1 Capital replacement reserve (CRR)

In order to finance the provision of infrastructure and other property, plant and equipment from internal sources, amounts are transferred from the accumulated surplus to the CRR in terms of delegated powers.

The following provisions are set for the creation and utilisation of the CRR:

- The cash funds that back up the CRR are invested until utilised. The cash may only be invested in accordance with the investment policy of the City.
- The CRR may only be utilised for the purpose of purchasing items of property, plant and equipment, and may not be used for the maintenance of these items.
- Whenever an asset is purchased out of the CRR, an amount equal to the cost price of the asset is transferred from the CRR, and the accumulated surplus is credited by a corresponding amount.
- If a profit is made on the sale of assets other than land, the profit on these assets is reflected in the Statement of Financial Performance, and is then transferred via the Statement of Changes in Net Assets to the CRR, provided that it is cash backed. Profit on the sale of land is not transferred to the CRR, as it is regarded as revenue.

1.4.2 Insurance reserve

A general insurance reserve has been established and, subject to re-insurance where deemed necessary, it covers claims that may occur. Premiums are charged to the respective services, taking into account claims history and replacement value of the insured assets.

Reinsurance premiums paid to external re-insurers are regarded as an expense, and are shown as such in the Statement of Financial Performance. The net surplus or deficit on the insurance operating account is transferred to or from the Insurance Reserve via the Statement of Changes in Net Assets.

The balance of the Self-insurance Reserve is invested in short-term cash investments. Interest earned on the Insurance Reserve is recorded as interest earned in the Statement of Financial Performance, and is transferred to the Insurance Reserve via the Statement of Changes in Net Assets as a contribution.

An actuarial valuation is obtained each year to assess the adequacy of the Insurance Reserve at year-end.

1.4.3 Compensation for Occupational Injuries and Diseases Reserve (COID)

The City has been exempted from making contributions to the Compensation Commissioner for Occupational Injuries and Diseases in terms of Section 84 of the COID Act.

The certificate of exemption issued by the Commissioner, and as prescribed by the Compensation for Occupational Injuries and Diseases Act (No. 130 of 1993), requires that the City deposit cash and/or securities with the Commissioner, the market values of which in aggregate shall not be less than the capitalised value of the continuing liability of the City as at 31 December of each year.

The continuing liability is that of annual pensions, the capitalised value of which is determined on the basis of an actuarial determination prescribed by the Commissioner. A COID reserve has been established to equate to the value of the continuing liability. The market value of the securities is determined annually by the Commissioner, and the City is required to meet any shortfall in the aggregate value of the securities as at 31 December. Monthly pensions are funded by transferring funds out of the reserve to the expense account in the Statement of Financial Performance.

1.5. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment are stated at cost less accumulated depreciation and impairment, or at fair value where assets have been acquired by grant or donation.

Heritage assets, which are culturally significant resources and are shown at cost, are not depreciated, owing to the uncertainty regarding their estimated useful lives. Land is also not depreciated, as it is deemed to have an indefinite life.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the Statement of Financial Performance in the period that the impairment is identified.

Subsequent expenditure relating to property, plant and equipment is capitalised if it is probable that future economic benefits or potential service delivery of the assets are enhanced in excess of the originally assessed standard of performance. If expenditure only restores the originally assessed standard of performance, it is regarded as repairs and maintenance, and is expensed.

The City maintains and acquires assets to provide a social service to the community, with no intention of disposing of the assets for any economic gain, and thus no residual values are determined other than for motor vehicles.

The gain or loss arising from the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value, and is recognised in the Statement of Financial Performance.

1.5.1 Depreciation rates

Depreciation is calculated on cost, using the straight-line method, over the estimated useful lives of the assets. The residual value, depreciation method and useful life, if not insignificant, are reassessed annually. The depreciation rates are based on the following estimated useful lives:

	Years		Years
Infrastructure		Other	
Roads and paving	10-50	Buildings	20 - 50
Electricity	20-30	Specialist vehicles	10 - 20
Water	15-30	Other vehicles	8
Sewerage	15-20	Office equipment	5
Housing	30	Furniture and fittings	10
Community		Watercraft	10
Recreational facilities	20-30	Bins and containers	5
Security	5-10	Plant and equipment	5 - 10
		Landfill sites	30

Assets under construction are carried at cost. Depreciation of an asset commences when the asset is ready for its intended use. Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets, or, where appropriate, the term of the relevant lease.

1.5.2 Impairment of property, plant and equipment

Property, plant and equipment are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment charged to the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.6. INVESTMENT PROPERTIES

Investment properties are held to earn rental income, and for capital appreciation, and are stated at cost less accumulated depreciation. Investment properties are written down for impairment where considered necessary. Investment property excludes owner-occupied property that is used in the production or supply of goods or services, or for administrative purposes, or property held to provide a social service.

Investment property other than vacant land is depreciated on the straight-line basis over the useful lives of the assets estimated at 20 to 30 years.

1.7. INTANGIBLE ASSETS

An intangible asset is defined as an identifiable non-monetary asset without physical substance, held for use in the production or supply of goods or services, for rental to others, or for administrative purposes.

The City recognises computer development software costs as intangible assets if the costs are clearly associated with an identifiable and unique system controlled by the City, and have a probable benefit exceeding one year. Direct costs include software development employee costs and an appropriate portion of relevant overheads.

Direct computer software development costs recognised as assets are amortised on the straight-line basis over the useful lives of the assets estimated at three to five years.

1.8. NON-CURRENT ASSETS HELD-FOR-SALE

Non-current assets and disposal groups are classified as held-for-sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition applies only when the sale is highly probable, and the asset (or disposal group) is available for immediate sale in its present condition. Assets classified as held-for-sale are measured at the lower of the asset's carrying amount or fair value less cost to sell.

1.9. FINANCIAL INSTRUMENTS

Financial instruments are recognised when the City becomes a party to the contractual provisions of the instrument, and are initially measured at fair value plus, in the case of a financial asset or liability not at fair value through the Statement of Financial Performance, transaction costs that are directly attributable to the acquisition or issue of the financial asset or liability. The subsequent measurement of financial instruments is dealt with as follows:

Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred, and the City has transferred substantially all risks and rewards of ownership, or when the enterprise loses control of contractual rights that comprise the assets. Financial liabilities are derecognised when the obligation specified in the contract is discharged or cancelled or expires.

1.9.1 Financial assets

The City classifies its financial assets into the following categories:

- held-to-maturity.
- loans and receivables.
- available-for- sale; and
- fair value through profit and loss.

The classification depends on the purpose for which the financial asset is acquired, and is as follows:

- Held-to-maturity investments are financial assets with fixed or determinable payments and fixed maturity, where the City has the positive intent and ability to hold the investment to maturity. They are subsequently measured at amortised cost, using the effective interest rate method. Any adjustment is recorded in the Statement of Financial Performance in the period in which it arises.
- Loans and receivables are financial assets that are created by providing money, goods or services directly to a debtor. They are subsequently measured at amortised cost, using the effective interest rate method. Any adjustment is recorded in the Statement of Financial Performance in the period in which it arises.
- Available-for-sale financial assets are financial assets that are designated as available for sale, and are subsequently
 measured at fair value at Statement of Financial Position date, except for investments in equity instruments that do not
 have quoted market prices in an active market, and whose fair value cannot be reliably measured, which shall be
 measured at cost. Any adjustment is recorded in the Statement of Changes in Net Assets in the period in which it arises.
 When these investments are derecognised, the cumulative gain or loss previously recognised directly in equity is
 recognised in profit or loss. The fair value of financial instruments classified as available-for-sale is their quoted bid price
 at the Statement of Financial Position date.
- Fair value through profit and loss financial assets include derivative financial instruments used by the City to manage its exposure to fluctuations in interest rates attached to certain of its external borrowings interest swap agreements. Any fair value adjustment is recorded in the Statement of Financial Performance in the period in which it arises. To the extent that a derivative instrument has a maturity period of longer than a year, the fair value of these instruments will be reflected as a non-current asset or liability, and is subsequently measured at fair value at Statement of Financial Position date.

An assessment is performed at each Statement of Financial Position date to determine whether objective evidence exists that a financial asset is impaired. The carrying amounts of cash investments are reduced to recognise any decline, other than a temporary decline, in the value of individual investments. This reduction in carrying value is recognised in the Statement of Financial Performance.

1.9.2 Financial liabilities

The City measures all financial liabilities, including trade and other payables, at amortised cost, using the effective interest rate method. Financial liabilities include borrowings, other non-current liabilities (excluding provisions) and trade and other payables (excluding provisions). Interest-bearing external loans and bank overdrafts are recorded net of direct issue costs. Finance charges, including premiums payable, are accounted for on an accrual basis.

1.9.3 Trade payables and other

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

1.9.4. Trade and other receivables

Trade and other receivables are recognised initially at fair value, which approximates amortised cost, less provision for impairment. An estimate is made for doubtful debt based on past default experience of all outstanding amounts at yearend. Bad debts are written off in the year in which they are identified as irrecoverable, subject to the approval of the necessary delegated authority. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of trade receivables is established when there is objective evidence that the City will not be able to collect all amounts due according to the original terms of receivables. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. Interest is charged on overdue amounts.

1.10. INVENTORIES

Inventories consist of raw materials, work in progress, consumables and finished goods, which are valued at the lower of cost, determined on the weighted average basis, and net realisable value, except for plants and compost, which are valued at the tariffs charged. Where it is held for distribution or consumption at no charge or for a nominal amount, inventories are valued at the lower of cost and current replacement value.

Cost of inventories comprises all costs of purchase, cost of conversion, and other costs incurred in bringing the inventories to their present location and condition.

Redundant and slow moving inventories are identified and written down to their estimated net realisable values. Consumables are written down according to their age, condition and utility.

1.11. REVENUE RECOGNITION

Revenue is recognised net of indirect taxes, rebates and trade discounts, and consists primarily of rates, grants from National and Provincial Government, service charges, rentals, interest received and other services rendered. Revenue is recognised when it is probable that future economic benefits or services potential will flow to the City and these benefits can be measured reliably. Revenue arising from the application of the approved tariff charges is recognised when the relevant service is rendered by applying the relevant authorised tariff. This includes the issuing of licences and permits.

1.11.1 Revenue from exchange transactions

- 1.11.1.1 Service charges relating to solid waste, sanitation and sewage are levied in terms of the approved tariffs.
- 1.11.1.2 Service charges relating to electricity and water are based on consumption. Meters are read on a periodic basis, and revenue is recognised providing that the benefits can be measured reliably. Estimates of consumption are made every alternative month on the basis of consumption history. Such estimated consumption is recognised as income when invoiced and adjusted every following month that the meter is read. An accrual on the basis of a determined consumption factor is made for consumption not measured as at the end of the financial year.
- 1.11.1.3 Services provided on a prepayment basis is recognised at the point of sale. An adjustment for an unutilised portion is made at year end based on the average consumption history.
- 1.11.1.4 Income in respect of housing rental and instalment sale agreements is accrued monthly.
- 1.11.1.5 Interest earned on investments is recognised in the Statement of Financial Performance on a time proportionate basis, which takes into account the effective yield on the investment. Interest may be transferred from the accumulated surplus to the Housing Development Fund or the Insurance Reserve.

Interest earned on the following investments is not recognised in the Statement of Financial Performance:

- Interest earned on trust funds is allocated directly to the fund.
- Interest earned on unutilised conditional grants is allocated directly to the creditor: unutilised conditional grants, if the grant conditions indicate that interest is payable to the funder.
- 1.11.1.6 Dividends are recognised when the City's right to receive payment is established.
- 1.11.1.7 Income for agency services is recognised on a monthly basis once the income collected on behalf of agents is earned. The income is recognised in terms of the agency agreement.

- 1.11.1.8 Revenue from the sale of goods is recognised when all the following conditions have been satisfied:
 - The City has transferred to the buyer the significant risks and rewards of ownership of the goods.
 - The City retains neither continuing managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold.
 - The amount of revenue can be measured reliably.
 - The costs incurred or to be incurred in respect of the transaction can be measured reliably.
 - Prepaid electricity sold is only recognised as income once the related units are consumed.

1.11.2 Revenue from non-exchange transactions

1.11.2.1 Revenue from rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Interest on unpaid rates is recognised on a time proportion basis with reference to the principal amount receivable and effective interest rate applicable.

A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers, and are deducted from revenue.

- 1.11.2.2 Fines constitute both spot fines and summonses. Revenue from spot fines and summonses are recognised when payment is received, together with an estimate of spot fines and summonses that will be received based on past experience of amounts collected.
- 1.11.2.3 Donations are recognised on a cash receipt basis, or at fair value, or where the donation is in the form of property, plant and equipment, when the risks or rewards of ownership have transferred to the City.
- 1.11.2.4 Income from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No 56 of 2003), and is recognised when the recovery thereof from the responsible councillors or officials is probable.

1.12. OFFSETTING

Financial assets and liabilities are offset and the net amount reported on the Statement of Financial Position when there is a legally enforceable right to set off the recognised amount, and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously.

1.13. CONDITIONAL GRANTS AND RECEIPTS

Income received from conditional grants, donations and subsidies is recognised to the extent that the City has complied with any of the criteria, conditions or obligations embodied in the agreement. To the extent that the criteria, conditions or obligations have not been met, a liability is recognised and funds invested until it is utilised.

Interest earned on the investment is treated in accordance with grant conditions.

1.13.1 Grants and receipts of a revenue nature

Income is transferred to the Statement of Financial Performance as revenue to the extent that the criteria, conditions or obligations have been met.

1.13.2 Grants and receipts of a capital nature

Income is transferred to the Statement of Financial Performance to the extent that the criteria, conditions or obligations have been met.

1.14. PROVISIONS

A provision is recognised when the City has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the Statement of Financial Performance as a finance cost.

1.15. ENVIRONMENTAL REHABILITATION PROVISIONS

Estimated long-term environmental provisions, comprising rehabilitation and landfill site closure, are based on the City's policy, taking into account current technological, environmental and regulatory requirements.

The provision for rehabilitation is recognised as and when the environmental liability arises. To the extent that the obligations relate to the asset, they are capitalised as part of the cost of those assets. Any subsequent changes to an obligation that did not relate to the initial related asset are charged to the Statement of Financial Performance.

1.16. CASH AND CASH EQUIVALENTS

Cash includes cash on hand, cash with banks, and call deposits. Cash equivalents are short-term bank deposits with a maturity of three months or less from inception, readily convertible to cash without significant change in value.

For the purposes of the Cash-Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of any bank overdrafts.

1.17. EMPLOYEE BENEFITS

1.17.1 Retirement benefit plans

The City provides retirement benefits for its employees and councillors. Defined contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund) and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year they become payable.

Defined benefit plans are post-employment benefit plans other than defined contribution plans. The defined benefit funds, which are administered on a provincial basis, are actuarially valued tri-annually on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on a proportional basis to all participating municipalities. The contributions and lump sum payments are charged against income in the year they become payable.

1.17.2 Post-retirement pension funds

Pension contributions in respect of employees who were not members of a pension fund are recognised as an expense when incurred. Staff provident funds are maintained to accommodate personnel who, due to age, cannot join or be part of the various pension funds. The City contributes monthly to the funds.

These contributions are charged to the operating account when employees have rendered the service entitling them to the contribution. Actuarial valuation of the liability is performed on an annual basis. The projected unit credit method has been used to value the liabilities.

The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the fair value of the obligation, together with adjustments for the unrecognised actuarial gains and losses, and past service costs.

Actuarial gains or losses are accounted for using the 'corridor method'. Actuarial gains and losses are eligible for recognition in the Statement of Financial Performance to the extent that they exceed 10% of the present value of the gross defined benefit obligations in the scheme. Actuarial gains and losses exceeding 10% are spread over the expected average remaining working lives of the employees participating in the scheme. Actuarial valuations are performed annually.

1.17.3 Medical aid: continued members

The City provides post-retirement benefits by subsidising the medical aid contributions of certain retired staff. According to the rules of the medical aid funds with which the City is associated, a member (who is on the current conditions of service) on retirement, is entitled to remain a continued member of such medical aid fund, in which case the member is liable for 30% of the medical aid membership fee, and the City for the remaining 70%. Under an accrued rights position agreed to by Council, the age of internally appointed staff under the City's new conditions of service determines, on a sliding-scale basis, the post-retirement subsidy for medical aid. External appointments do not qualify for a post-retirement medical aid subsidy.

These contributions are charged to the operating account when employees have rendered the service entitling them to the contribution. In addition, the City will contribute annually for the next five years, with effect from 1 July 2003, towards funding the unrecognised transitional liability that was calculated by means of the projected unit credit actuarial valuation method.

The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the fair value of the obligation, together with adjustments for the unrecognised actuarial gains and losses, and past service costs.

Actuarial gains or losses are accounted for using the 'corridor method'. Actuarial gains and losses are eligible for recognition in the Statement of Financial Performance to the extent that they exceed 10% of the present value of the gross defined benefit obligations in the scheme. Actuarial gains and losses exceeding 10% are spread over the expected average remaining working lives of the employees participating in the scheme. Actuarial valuations are performed annually.

1.17.4 Short-term and long-term employee benefits

The cost of all short-term employee benefits, such as leave pay, is recognised during the period in which the employee renders the related service. The City recognises the expected cost of performance bonuses only when the City has a present legal or constructive obligation to make such payment, and a reliable estimate can be made.

The City provides long-term incentives to eligible employees, payable on completion of years of employment. The City's liability is based on an actuarial valuation. The projected unit credit method has been used to value the liabilities. Actuarial gains and losses on the long-term incentives are accounted for through the Statement of Financial Performance.

1.18. LEASES

1.18.1 The City as lessee

1.18.1.1 Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the City.

Assets subject to finance lease agreements are capitalised at their cash cost equivalent, and the corresponding liabilities are raised. The cost of the assets is depreciated at appropriate rates on the straight-line basis over the estimated useful lives of the assets. Lease payments are allocated between the lease finance cost and the capital repayment, using the effective interest rate method. Lease finance costs are expensed when incurred.

1.18.1.2 Operating leases are those leases that do not fall within the scope of the above definition. Payments made under operating leases are charged to the Statement of Financial Performance on a straight-line basis over the period of the lease.

1.18.2 The City as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

1.19. GRANTS-IN-AID

The City transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the City does not:

- receive any goods or services directly in return, as would be expected in a purchase or sale transaction;
- expect to be repaid in future; or
- expect a financial return, as would be expected from an investment.

These transfers are recognised in the Statement of Financial Performance as expenses in the period that the events giving rise to the transfer occurred.

1.20. VALUE-ADDED TAX

The City accounts for value-added tax on the payment basis.

1.21. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state, and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.22. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998), or is in contravention of the municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.23. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain, and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.24. FOREIGN CURRENCY TRANSACTIONS

Transactions in foreign currencies are initially accounted for at the rate of exchange ruling on the date of the transaction. Trade creditors denominated in foreign currency are reported at balance sheet date by applying the exchange rate at that date. Exchange differences arising from the settlement of creditors, or on reporting of creditors at rates different from those at which they were initially recorded during the period, are recognised as income or as expenses in the period in which they arise.

1.25. BORROWING COSTS

Borrowing costs are capitalised against qualifying assets as part of property, plant and equipment.

Such borrowing costs are capitalised over the period during which the asset is being acquired or constructed, and borrowings have been incurred. Capitalisation ceases when construction of the asset is complete. Further borrowing costs are charged to the Statement of Financial Performance.

1.26. COMPARATIVE INFORMATION

Comparative figures are re-classified or restated as necessary to afford a proper and more meaningful comparison of results, as set out in the affected notes to the financial statements.

2. PROPERTY, PLANT AND EQUIPMENT

The leased property, plant and equipment are encumbered as set out in note 12. Provision has been made for the estimated cost of rehabilitation of waste sites, included in other assets, as described in note 13.

The City is required to measure the residual value of an item of property, plant and equipment. Management has determined that all of its infrastructural assets have no active market value, and the value of the amount at the end of its life would therefore be nil or insignificant. During the current financial year, the City reviewed the estimated useful lives and residual values of property, plant and equipment where appropriate.

Fully depreciated assets at an original cost of R1.54 billion are still currently in use.

3. INVESTMENT PROPERTY

	Opening Balance R'000	Transfers/ Adjustments R'000	Additions R'000	Depreciation R'000	Carrying value R'000
As at 30 June 2009					
Vacant land	38 409	(43)	-	-	38 366
Land and buildings	56 667	148	806	(4 441)	53 180
TOTAL	95 076	105	806	(4 441)	91 546
(refer Appendix B for more detail)					
As at 30 June 2008					
Vacant land	38 388	21	-	-	38 409
Land and buildings	61 080	1	-	(4 414)	56 667
TOTAL	99 468	22	-	(4 414)	95 076

Rental income has been received on various properties during the year. Fair value is determined from property sales statistics, and is the basis for property valuations for rating purposes.

Property valuations are conducted by mandated professionally qualified valuers. These valuations were used as basis for disclosure. The fair value of the investment properties amounted to R414.00 million (2008: R321.27 million).

Notes to the financial statements for the year ended 30 June 2009

4. INTANGIBLE ASSETS

	Opening Balance R'000	Transfers/ Adjustments R'000	Additions R'000	Amortisation R'000	Carrying value R'000
As at 30 June 2009 Computer software (acquired separately)	20 083	4 060	27 661	(18 983)	32 821
(refer Appendix B for more detail)					
As at 30 June 2008 Computer software (acquired separately)	71 920		1 317	(53 154)	20 083

The capitalised computer software was estimated to have a finite life of five years at acquisition. The software is amortised using the straight-line method over a period of 5 years.

5. ASSETS HELD-FOR-SALE

	Opening Balance R'000	Transfers/ Adjustments R'000	Depreciation R'000	Carrying value R'000
As at 30 June 2009 Land held for sale	242	(242)	-	<u> </u>
(refer Appendix B for more detail)				
As at 30 June 2008 Land held for sale	385	(129)	(14)	242

Various properties have been presented as held-for-sale following a Council decision to dispose of properties no longer required for municipal purposes. These properties are identified for sale as and when the need arises. These transactions are expected to yield income of approximately R141.00 million, and should be concluded by 2012.

		2009 R'000	2008 R'000

Collateral deposits for staff housing loans

Included in other fixed deposits (unlisted investments) above are fixed deposits with a carrying value of R0.47 million (2008: R0.69 million) which were pledged as security deposits for securing staff home loans with financial institutions.

These pledges are repaid as soon as the employees' outstanding home loan balance is below 80% of the approved loan amount. The City has not issued fixed deposits as security since the year 2000. The City's exposure to risk is minimised by an assurance policy taken out by the employee, and ceded to the City to cover the guaranteed deposit.

City of Cape Town
Notes to the financial statements for the year ended 30 June 2009

		2009	2008	
		R'000	R'000	
5.2	Available-for-sale			
. 2 .1	Unlisted Investment in municipal entities at cost:			

Cape Town International Convention Centre (Pty) Ltd (Convenco)	284 000	284 000	
Provision for impairment	(245 232)	(245 232)	
Total unlisted	38 768	38 768	

The carrying amount of the City's investment in Convenco, R284.00 million, has been compared with its share of the present value of Convenco's estimated future cash flows, discounted at a market related rate of interest. As at 30 June 2009 this calculation yields an impairment loss of R230.16 million which is less than the impairment loss of R245.23 million recognised at 30 June 2007. In accordance with Section 66 of IAS39, an impairment loss previously recognised cannot be reversed; the impairment provision at 30 June 2009 is therefore maintained at R245.23 million.

Loans to employees

7.

Staff were entitled to various loans, such as car and computer loans, which attract interest at 8% to 17% per annum, and are repayable over a maximum period of six years. These loans were granted before the implementation of the MFMA and are repayable by 2010.

Public organisations

Loans to public organisations are granted in terms of the National Housing Policy. At present, these loans attract interest at 1% (buildings) and 11.25% (infrastructure), and are repayable over 30 years.

Sporting bodies

To facilitate the development of sporting facilities loans were made to provide the necessary financial assistance. These loans attract interest at a rate of 4% to 19% per annum and are repayable over a maximum period of 20 years.

Housing selling development loans

Housing loans were granted to qualifying individuals in terms of the National Housing Policy. These loans currently attract interest at 13.5% per annum, and are repayable over 20 years. The interest rate is determined as per Council policy.

Road widening

A loan was made to a ratepayer for the amount due by him in respect of the construction of a road. This loan attracts interest at a rate of 15% per annum, and is repayable over a maximum period of 10 years.

8. INVENTORY		
Consumable stores	159 628	175 683
Medical supplies	1 014	1 210
Spare parts and meters	15 749	15 543
Water	5 780	5 802
Other goods held for resale	11 180	17 781
Green electricity rights	-	321
TOTAL	193 351	216 340

Inventory to the value of R0.61 million (2008: R1.62 million) was written off during the year - refer note 37. Inventories (excluding bulk water) which were recognised as expenses during the year amounted to R569.8 million of which a portion was capitalised. Green electricity rights are rights to sell green units at green tariffs to consumers upon their request for green electricity. Due to the absence of an active market the value was written off.

Consumer debtors to the net amount of R856.27 million (2008: R546.56 million) are only due after 30 days. Included in the outstanding balances are consumer debtors to the value of R391.61 million (2008: R698.10 million), who have made arrangements to repay their outstanding debt over a re-negotiated period. At 30 June 2009, the City classified an outstanding debt of approximately R312.20 million owed by National and Provincial Governments.

City of Cape Town

Reconciliation of impairment provision

In determining the recoverability of a trade receivable, the City considers any change in the credit quality of the trade receivable from the date the credit was initially granted, up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, management believes no further credit provisions are required in excess of the present allowance for doubtful debts.

Final

	2009 R'000	2008 R'000
Long-term borrowings detailed as follows:		
LOCAL REGISTERED STOCK	2 208 602	1 009 264
ABSA Investor Services Unsecured bond paying fixed interest semi-annually, redeemable on 30 June 2010.	4 600	4 600
Standard Bank Nominees Secured bond paying fixed interest semi-annually. As security a sinking fund was established which together with interest capitalized will be used to settle the original loan liability on 31 March 2014.	6 800	6 800
Listed Bonds Unsecured bonds totalling R2.20 billion listed on the Bond Exchange of South Africa. Interest is payable semi-annually while capital will be redeemed by way of a bullet repayment on the final redemption date. Subsequently sinking funds have been established for the purpose of providing for the capital repayment at the date of redemption.	2 197 202	997 864
ANNUITY LOANS	14 229	26 994
ABSA Bank Unsecured fixed interest loans repayable semi-annually in equal instalments of interest and capital, final redemption on 30 June 2010.	14 229	26 994
OTHER LOANS	1 907 654	2 251 781
DBSA Bank Unsecured fixed interest loan, repayable semi-annually in equal instalments of capital with interest payable on the reducing balance. Various final redemptions.	967 778	1 067 671
ABSA Bank Structured unsecured loan of R50.00 million plus capitalised interest. Deposits are made semi-annually into two sinking funds with ABSA Bank which, together with fixed interest capitalized over ten years, will settle the loan liability on 30 June 2010.	264 243	223 148
Future Syndications Structured R200.00 million 10-year loan funded by various financial institutions was repaid on 17 September 2008. Interest (fixed on R190.00 million, variable R10.00 million, in terms of interest rate swap agreements) was payable semi- annually.	-	200 000
Nedcor Bank Unsecured fixed rate loan, interest payable annually and loan capital repayable on 31 August 2019.	50	50
FirstRand Bank Structured 15-year loans repayable annually in reducing instalments of capital and fixed-rate interest, now repaid.	-	12 445
As part of the loan structure, the City lent funds to FirstRand Bank at a fixed rate of interest, repayable together with capitalized interest. In addition, the City issued a 15-year bond to FirstRand Bank, at the same fixed rate of interest as the City's loan to FirstRand Bank, redeemable together with compounded interest.		
FirstRand Bank Structured R125.00 million 15-year loan repayable semi-annually in equal instalments of capital and fixed-rate interest.	36 889	51 318
As part of the loan structure, the City sold moveable assets with a market value of R125.00 million to FirstRand Bank. FirstRand Bank leased the assets back to the City over 15 years, with rentals payable during the years 2009-2011. At the same time the City lent R125.00 million to FirstRand Bank, repayable together with interest on the same dates, and in the same amounts, as the rental payable by the City under the lease agreement. The City has ceded its rights under its loan to FirstRand Bank as security for its obligations to FirstRand Bank under the original loan and any other indebtedness.		

THIS CITY WORKS FOR YOU

	2009 R'000	2008 R'000
FirstRand Bank Structured R220.00 million 15-year loan, R200.00 million of which is repayable semi- annually in equal instalments of capital and fixed-rate interest over 15 years, and the balance of R20.00 million payable in one instalment, together with fixed-rate interest, on 30 June 2017. The bullet repayment of the R20.00 million capital and interest will be made out of the guaranteed investment portfolios of two 15-year sinking fund investment policies purchased from Momentum Group.	194 484	200 300
As part of the loan structure, the City purchased two 15-year sinking fund policies from Momentum Group for an upfront premium of R220.00 million. R20.00 million of the premium was invested in the guaranteed investment portfolio referred to above. The balance of the premium, R200.00, was invested in a linked investment (unguaranteed) portfolio. The maturity proceeds of this unguaranteed portfolio were sold in advance to FirstRand Bank for R200.00 million on day one of the policies. The City has ceded and pledged the sinking fund policies to FirstRand Bank as security for the City's obligations to FirstRand Bank under the policies and any other debt liability.		
FirstRand Bank Structured R150.00 million 15-year loan repayable semi-annually in equal instalments of capital and fixed interest.	74 210	86 849
As part of the loan structure, the City leased moveable electricity assets with a market value of R150.00 million to FirstRand Bank for 20 years. Rental is payable in three instalments during 1998 – 2000, with a nominal annual rental thereafter. The rentals are payable into a deposit account with FirstRand Bank, which attracts a fixed rate of interest. FirstRand Bank leased the assets back to the City over 15 years, with rentals payable during the years 2003 – 2013, out of the deposit account, which will reduce to zero on 30 June 2013. The City has ceded its rights to repayment of the deposit to FirstRand Bank as security for its obligations to FirstRand Bank under the original loan and any other indebtedness.		
	180 000	200 000
ABSA Bank Unsecured fixed interest loan, repayable semi-annually in equal instalments of capital with interest payable on the reducing balance, final redemption on 30 June 2018.		
FirstRand Bank	190 000	210 000
Structured R300.00 million 15-year loan, R74.30 million of which is repayable semi- annually in equal instalments of capital and fixed-rate interest over 15 years, and the balance of R225.70 million payable in one instalment, together with capitalized fixed-rate interest, on 30 June 2018. The bullet repayment of the R225.70 million capital and interest will be made out of a 15-year sinking fund investment policy purchased from Momentum Group.		
As part of the loan structure, the City purchased a 15-year sinking fund policy from Momentum Group for a premium of R228.40 million which was invested in an unguaranteed investment portfolio. The premium is payable semi-annually over 15 years through a series of promissory notes issued by the City to Momentum, later sold on to FirstRand Bank and FutureGrowth. In terms of a put option agreement, the maturity proceeds of this unguaranteed portfolio was sold in advance to FirstRand Bank for a fixed option price of R894.60 million, payable on 30 June 2018. The City has ceded and pledged the sinking fund policy to FirstRand Bank as security for the City's obligations to FirstRand Bank under the put option agreement and any other debt liability.		

	2009 R'000	2008 R'000
FINANCE LEASES	156 962	169 012
Nedbank Sale and leaseback structured R55.30 million 15 year loan funded by Nedbank through an Infrastructure Trust. Lease rentals equating to fixed rate interest are bayable semi-annually over 15 years; a bullet rental amount of R55.30 million is bayable on 02/01/2012 out of the proceeds of a sinking fund. The City deposits semi-annually with Nedbank equal amounts which, together with compounded interest over 15 years, will equate to the original loan capital. The City has ceded ts rights under the deposit agreement to Nedbank as security for repayment of the loan capital.	61 242	62 744
An additional floating rate liability of R5.99 million (2008: R7.44 million) arising from a restructuring of the loan is repayable over the remaining life of the loan.	18 744	24 604
nvestec Sale and leaseback structured R54.80 million 15-year loan funded by Investec Bank. Lease rentals equating to loan fixed-rate interest plus capital are payable semi-annually over 15 years. Investec has granted the City the right to acquire the assets at the expiry of the lease at an agreed option price of R47.60 million. The City has deposited with Investec an amount, which together with compound interest, will equate to the option price payable on 31 December 2011.		
The City has ceded its rights under the deposit agreement to Investec as security for repayment of the lease and the option price.		
Standard Corporate and Investment Bank (SCMB) Gale and leaseback structured R59.30 million 15-year loan. The City sold moveable electricity assets to Standard Bank at the market value of R59.30 million. The City invested R5.80 million of the proceeds in a sinking fund deposit, which when compounded over 15 years at a fixed rate of interest, grows to the original loan capital amount. Standard Bank leased the assets back to the City with rentals, equating to the loan fixed-rate interest, payable annually over 15 years. A bullet ental amount of R59.30 million is payable on 24 June 2011 out of the sinking fund deposit.	76 976	81 664
TOTAL - refer to Appendix A for more details	4 287 447	3 457 051
The rates of interest payable on the above-mentioned structured loans and finance ases are based on certain underlying assumptions relating to the lenders' statutory posts, and the allowability of deductions by the lenders for income tax purposes in princetion with these loans. In the event of changes to, or interpretation of, the come Tax Act or any other relevant legislation that impact on the loan structure posts, the lenders have the right to increase or decrease the future rates of interest availe on the loans over their remaining lives in order to about the increase or		

payable on the loans over their remaining lives, in order to absorb the increase or

decrease in costs.

TOTAL	246 984	363 280	1 988 205	12 706	2 611 175

Long-service leave benefits

An actuarial valuation has been performed of the City's liability for long-service leave benefits relating to vested leave benefits to which employees may become entitled upon completion of ten years' service and every five years thereafter. The provision is utilised when eligible employees receive the value of the vested benefits.

	2009	2008
Key financial assumptions		
Discount rate	10.7%	8.7%
General inflation rate (CPI)	7.5%	5.5%
Salary increase	8.5%	6.5%

Environmental rehabilitation

Provision is made in terms of the City's licensing stipulations on the landfill waste sites, for the estimated cost of rehabilitating waste sites. The provision has been determined on the basis of a recent independent study. The cost factors derived from the study by a firm of consulting engineers have been applied and projected at an annual inflation rate of 5.1% (2008: 7.9%) and discounted to present value at the average borrowing cost of 11.0% (2008: 11.7%); hence the difference. The payment dates of total closure and rehabilitation are uncertain, but are currently expected to be between 2009 and 2020.

Post-retirement medical aid and pension benefits

An actuarial valuation has been performed of the City's liability in respect of benefits to eligible retirees and retrenched employees. The provision is utilised when eligible employees receive the value of the vested benefits – refer to note 46 for more detail.

Guarantees held in lieu of electricity and water deposits were R29.30 million (2008: R28.50 million). Deposits are released when the owner/occupant of a property terminates the contract with the City to supply water and electricity to a property, or when certain contractual services are delivered.

Leave benefits	309 123	19 287	(14 847)	36 530	350 093
TOTAL	556 019	27 821	(258 600)	215 549	540 789

Insurance and COID claims

Provision has been made for outstanding insurance claims as at 30 June 2009, funded out of the General Insurance (Reserve) Fund. The assessment of claims is based on the assessed quantum of claims received.

Legal fees

Legal costs relating to the process of defending City of Cape Town in Labour Appeal Court and Labour Court cases, for which court dates have already been set. The calculations of these amounts are based on assessments by attorneys.

Staff leave

Annual leave accrues to employees on a monthly basis, subject to certain conditions. The provision is an estimate of the amount due to staff as at the financial year-end, based on the value of statutory and non-statutory leave.

		2009	2008

Guarantees held in lieu of retentions were R16.39 million (2008: R108.40 million).

17. UNSPENT CONDITIONAL GRANTS AND RECEIPTS

Conditional grants from other spheres of government	790 158	1 466 446
Municipal infrastructure grant (MIG)	-	60 913
National Government	540 307	1 079 034
Provincial Government Western Cape (PGWC) - other	249 851	326 499
Other conditional receipts	99 663	96 438
Public contributions	99 663	96 438

TOTAL

These amounts are separately invested in terms of Section 12 of the MFMA. Refer note 26 and 28 for more detail of grants from National and Provincial Government.

The unspent portion of the conditional grant will be spent over the next two or three years to the conclusion of the projects for which they were intended. Substantial portions of the grants were provided in advance for the 2010 projects, and will be fully spent by the advent of the 2010 Soccer World Cup™ event.

The launching of projects in many instances is a protracted process due to interest groups' participation. No amounts are due for repayment to the donors for the reasons set out above.

Xenophobia costs written-off

Expenditure of R106.10 million was incurred and approved in terms of section 32 of the MFMA during the year to alleviate the plight of xenophobia victims. An additional amount of R47.20 million was written-off relating to 2007/8 expenditure. Council resolved that the expenditure of R153.30 million must be financed from corporate budget savings.

	58 387	120 028
Future minimum sub-lease recoveries under non-cancellable operating leases	-	(132)
	58 387	119 896

Minimum lease payments recognised as an expense during the period amount to R53.40 million (2008: R65.98 million). Leased premises are contracted for remaining periods of between one and four years, with renewal options available in certain instances.

Rental relating to full-maintenance lease agreements for 65 refuse compactors is subject to adjustment, and linked to prime rates of interest. Contingent rentals do not need to be included in lease payments to be recognised on a straight-line basis over the lease term. The decision has been taken to purchase new compactors on completion of the five-year term of the lease.

The City has significant current lease arrangements for photocopy and fax machines over a period of three years, without being subject to escalation. In terms of a recent Council policy decision, such leased equipment shall be purchased on termination of the relevant contract. In keeping with this policy, it has been decided to terminate lease agreements in respect of older equipment, where the initial period has expired and the lease is continuing on a month-to-month basis.

City of Cape Town
Notes to the financial statements for the year ended 30 June 2009

	2009	2008
	R'000	R'000
The City as lessor		
At Statement of Financial Performance date, the City has contracted with		

	100 861	111 310
	100 861	111 516
Payable after five years	59 983	66 212
Payable within two to five years	30 131	34 649
Payable within one year	10 747	10 655
rendris for the following follore minimum lease payments.		

The City lets its investment properties under operating leases. Property rental income earned during the year was R10.67 million (2008: R10.40 million). The properties are maintained by the tenants, at their cost. No investment properties have been disposed of since the Statement of Financial Performance date.

The impact of charging the escalations in operating leases on a straight-line basis over the term of the lease has been an decrease in current-year income of R8 029.

44. FINANCIAL RISK MANAGEMENT

Exposure to currency, interest rate, liquidity and credit risk arises in the normal course of the City's operations. The note presents information about the City's exposure to each of the above risks, policies and processes for measuring and managing risk, and the City's management of capital. Further quantitative disclosures are included throughout these financial statements.

Council has established a risk management committee, which is responsible for developing and monitoring the City's risk management policies. A member of the committee, representing the audit committee reports quarterly to the audit committee. The risk management committee policies are established to identify and analyse the risks faced by the City, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in the City's activities.

The accounting policy for financial instruments was applied to the following balance sheet items.

	Fair value through profit and loss	Held to maturity investment	Loans and receivables	Available for sale	Net assets and non financial assets	Total carrying amount	Fair value

	2 677	5 561 474	522 802	6 086 953	5 892 705

Fair values

The following methods and assumptions were used to estimate the fair value of each class of financial instruments for which it is practical to estimate that value:

Cash and short-term investments

The carrying amount approximates fair value because of the short maturity of those instruments.

Available-for-sale investments

The fair values of some investments are estimated based on quoted market prices of those or similar investments. Unlisted equity investments are estimated using the discounted cash flow method.

Loan receivables / payables

Interest-bearing borrowings and receivables are generally at interest rates in line with those currently available in the market on a floating rate basis, and therefore the fair value of these financial assets and liabilities closely approximates their carrying values.

Fixed interest rate instruments are fair valued based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

Trade and other receivables/payables/deposits

The fair value of trade and other receivables/ payables/deposits is estimated as the present value of future cash flows except for retentions which are payables discounted at the market rate of interest at the reporting date.

44.1 Credit risk

Credit risk is the risk of financial loss to the City if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the City's investments, loans, trade receivables and cash and cash equivalents.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at 30 June was:

	2009	2008	
	R'000	R'000	
stments – refer note 6	1 393 951	3 573 353	
able –refer note 7	179 210	214 917	
her receivable – refer note 9 and 10	3 1 5 1 206	2 638 564	
sh equivalents – refer note 11	2 631 951	1 1 58 827	
	7 356 318	7 585 661	

Investments

The City limits its exposure to credit risk by only investing with reputable financial institutions that have a sound credit rating and within specific guidelines set out in accordance with Council's approved investment policy. Consequently, the City does not consider there to be any significant exposure to credit risk.

Loans receivable

Loans are granted and managed in accordance with policies and regulations as set out in note 7. The associated interest rates and repayments are clearly defined and where appropriate, the City obtains certain suitable forms of security when granting loans. Allowances for impairment are made in certain instances.

Trade and other receivable

Trade and other receivables are amounts owing by consumers and are presented net of impairment losses. The City has a credit risk policy in place and the exposure to credit risk is monitored on an ongoing basis. The City is compelled in terms of its constitutional mandate to provide all its residents with basic minimum services without recourse to an assessment of creditworthiness. There were no material changes in the exposure to credit risk and its objectives, policies and processes for managing and measuring the risk during the year under review. The City's strategy on managing its risk includes encouraging residents to install water management devices which control water flow to households and pre-paid electricity meters. In certain instances a deposit is required for new service connections serving as a guarantee.

The City's maximum exposure to credit risk is represented by the carrying value of each financial asset in the statement of financial performance. The City has no significant concentration of credit risk, with exposure spread over a large number of consumers, and is not concentrated in any particular sector or geographical area. The City establishes an allowance for impairment that represents its estimate of anticipated losses in respect of trade and other receivables. The outstanding amounts of the 10 largest debtors represent 1.7% of the total outstanding balance. The average credit period on services rendered is 30 days from date of invoice. Interest is raised at prime plus 1% on any unpaid accounts after due date. The City of Cape Town has provided fully for all receivables outstanding over 365 days. Trade receivables up to 365 days are provided for based on estimated irrecoverable amounts, determined by reference to past default experience. Additional information relating to the analysis of trade receivable and other is given in note 9 and 10.

Payment of accounts of consumer debtors unable to pay, are re-negotiated as an ongoing customer relationship in response to an adverse change in the circumstances of the customer.

Cash and cash equivalents

The City limits its exposure to credit risk by only investing with reputable financial institutions that have a sound credit rating and within specific guidelines set out in accordance with Council's approved investment policy. Consequently, the City does not consider there to be any significant exposure to credit risk.

44.2 Liquidity risk

Liquidity risk is the risk that the City will not be able to meet its obligations as they fall due. The City's approach to managing liquidity risk is to ensure that sufficient liquidity is available to meets its liabilities when due, without incurring unacceptable losses or risking damage to the City's reputation.

The City ensures that it has sufficient cash on demand or access to facilities to meet expected operational expenses through the use of cash flow forecasts. A credit line overdraft facility of R10.00 million is available and is unsecured. Interest payable is linked to the prime interest rate.

On average, 91.08% of trade and other receivables (own billed) income are realised within 30 days after due date and trade payables are settled within 30 days of invoice. National and Provincial Grant funding is received in terms of the Division of Revenue Act (DORA).

The following are contractual liabilities of which interest is included in borrowings:

	Up to 1 year R'000	1 - 5 years R'000	> 5 years R'000	Total R'000
2009 Liabilities

Interest	466 315	1 629 060	2 848 702	4 9 4 4 0 7 7
Trade and other payables	2 259 034	-	-	2 259 034
Trade payables	1 883 216	-	-	1 883 216
Sundry creditors	375 818	-	-	375 818
Derivatives	4 378			4 378
	3 195 335	2 453 816	5 845 785	11 494 936

44.3 Market risk

Market risks is the risks that changes in market prices, such as foreign exchange rates and interest rates will affect the City's income or value of its holdings of financial instruments. The objective of market risks management is to manage and control market risk exposures within acceptable parameters, while optimising the return on the risk.

Currency risk

The City is exposed to foreign currency risk through the importation of goods and services either directly or indirectly through the award of contracts to local importers. The City manages any material direct exposure to foreign currency risk by entering into forward exchange contracts. The City manages its indirect exposure by requiring the local importer to take out a forward exchange contract at the time of procurement in order to pre-determine the rand value of the contracted goods of services. The City was not a direct party to any outstanding forward exchange contract at reporting date.

The movement in the currency was not material to the City's procurement and consequently not elaborated on any further.

Derivative financial instruments

Interest rate swap agreements, based on notional amounts totalling R250 million, have been entered into as part of two structured external loans to the City over the life of the loans 1998 – 2010. These derivatives are classified as held for trading financial instruments, and fair valued through profit or loss. Fair value was determined by discounting remaining net cash flows under the swap agreements at ABSA Bank swap curve rates equal to the prevailing rates of return for financial instruments having substantially the same terms and characteristics.

Interest rate risk

Financial assets and liabilities that are sensitive to interest rate risk are cash and cash equivalents, investments and loan payables. The City is not exposed to interest rate risk on these financial instruments as the rates applicable are fixed interest rates except for one loan payable of R6.29 million.

Interest rate swap agreements, based on notional amounts totalling R50.00 million, have been entered into in order to maximise economic benefits, while limiting exposure to fluctuating interest rates on its loan payables over the life of the loans, i.e. 1998 to 2010. The fair value of interest rate swaps is based on discounted estimated future cash flows based on the terms and maturity of the contract and using market interest rates for a similar instrument at reporting date.

The effective rates on financial instruments at 30 June 2009 are:

	Maturity of interest bearing assets/liabilities					
	Weighted interest rate %	1 years or less R'000	1 - 5 years R'000	> 5 years R'000	Total R'000	
Financial assets Investments	8.23%	1 196 576	79 236	156 907	1 432 719	
Cash and cash equivalents Total financial assets	8.40%	2 631 951 3 828 527	79 236	156 907	2 631 951 4 064 670	
Financial liabilities Loans Finance leases	11.67% 14.85%	449 871 15 738	683 532 141 224	2 997 082	4 1 30 485 1 56 962	
Total financial liabilities		465 609	824 756	2 997 082	4 287 447	

Fair value sensitivity analysis

At 30 June 2009, if interest rate at that date had been 100 basis points higher, with all other variables held constant, the fair value liability would have no significant impact. A 100 basis points lower would have had an equal but opposite effect of an amount of R66 816.

44.4 Capital management

The primary objective of managing the City's capital is to ensure that there is sufficient cash available to support the funding requirement of the City, including capital expenditure and ensures that the City remains financially in a sound position.

The City monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. In a capital intensive industry, a gearing ratio of 50% or less can be considered reasonable. Included within net debt is interest bearing loans and borrowings, trade and other payables, less cash and cash equivalents.

45. PRIOR YEAR ADJUSTMENTS

45.1 Changes in accounting policy

During the year, the City has reviewed and changed its accounting policy with respect to the treatment of government and other grants for capital in the light of the approved GRAP 23 standard issued but not yet effective. In order to conform to the benchmark treatment in the standard of GRAP on non-exchange transactions, the City recognised capital income, to the extent that the conditions have been met, as revenue rather than as deferred income.

Previously, the City applied IAS 20 where capital income was disclosed in the Statement of Financial Position, to the extent that the conditions have been met, as deferred income and only recognised as revenue on a systematic basis over the useful life of assets in the Statement of Financial Performance. The change in accounting policy has been accounted for retrospectively.

45.2 Reclassification

RSC levy income has been reallocated to other income due to the abolishment and material nature of the current transactions.

Recharged expenditure related to employee costs and general expenses have been reallocated from repair and maintenance costs.

Provision contributions for landfill sites, post-retirement benefits and long-service awards have been re-allocated respectively from finance costs to general expenses to employee-related costs.

The income forgone relating to housing rentals have been reclassified from service charges to rental of letting stock and facilities.

45.3 Correction of errors

Revenue from service charges and fines were incorrect during the year. Service charges and fines that should have been recognised in 2006/7 and 2007/8 were incorrectly omitted. The 2007/8 figures have therefore been restated.

Presented below are only those Statement of Financial Performance and Position items which have been impacted by the prior year adjustments.

46. RETIREMENT BENEFIT INFORMATION

The City makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes. These funds are governed by the Pension Funds Act, and include both defined benefit and defined contribution schemes. Contributions of R448.41 million (2008: R319.20 million) to the defined benefit and defined contribution structures are expensed as incurred during the year under review.

These schemes are subject to a tri-annual, bi-annual or annual actuarial valuation, as set out below.

46.1 DEFINED BENEFIT SCHEMES

Cape Joint Pension Fund (multi-employer fund)

The DB section is a multi-employer plan, and the contribution rate payable is 27%, 9% by the members, and 18% by their councils. The fund was certified as being in a sound financial condition as at 30 June 2008 by the actuary. The valuation disclosed an actuarial surplus of R182.73 million, and was funded 106.5%.

SALA Pension Fund (multi-employer fund)

The fund is a defined benefit plan, is financially sound, and was 110% funded as at 30 June 2007. The next tri-annual valuation is due 1 July 2009 and will be available in June 2010.

46.2 DEFINED CONTRIBUTION SCHEMES

Cape Joint Pension Fund (multi-employer fund)

This scheme was established to accommodate the unique characteristics of contract employees and cost to company' employees. All existing members were given the option to transfer to the defined contribution plan before 1 July 2003. The actuary report certified that the structure of the assets is appropriate relative to the nature of the liabilities, assuming a smoothed bonus philosophy, and given normal circumstances. The report was certified as being in a sound financial condition as at 30 June 2008 by the actuary. The valuation disclosed funding of 103.3%

Cape Joint Retirement Fund (multi-employer fund)

The contribution rate paid by the members (9%) and their councils (18%) is sufficient to fund the benefits accruing from the fund in future. The actuary certified the fund, a defined contribution plan, as being in a sound financial position as at 30 June 2008.

Municipal Councillors' Pension Fund (multi-employer fund)

The Municipal Councillors' Pension Fund operates as a defined contribution scheme. The contribution rate paid by the members (13.75%) and their councils (15%) is sufficient to fund the benefits accruing from the fund in the future.

The last actuarial valuation of the fund was undertaken at 30 June 2006, and the actuary reported that the fund was as a whole in a sound financial position.

National Fund for Municipal Workers (multi-employer fund)

The retirement and pension funds are both defined contribution schemes. The last voluntary actuarial valuation of the fund was performed on 30 June 2007. As at 30 June 2007, the results state that the way the benefits are structured in the rules, the fund is limited to an amount equal to the accumulation of all the contributions, plus investment returns, less administration costs.

South African Municipal Workers Union National Provident Fund (multi-employer fund)

The SAMWU National Provident Fund is a defined contribution scheme. The last actuarial valuation of the fund was performed at 30 June 2005, and certified as being in a financially sound position. The next statutory valuation is due no later than 30 June 2008.

46.3 DEFINED BENEFIT AND CONTRIBUTION SCHEME

Cape Municipal Pension Fund

The Cape Municipal Pension Fund operates both as a defined benefit and defined contribution scheme. The last actuarial valuation of the fund was performed at 30 June 2008, and certified as being in a financially sound position. The next statutory valuation is due by 30 June 2009.

	Total	DB section	DC section

Net discount rate: pre-retirement	1.50%	2.00%
post-retirement	3.00%	3.00%

46.4 POST-EMPLOYMENT BENEFITS

For past service of in-service and retired employees, the City recognises and provides for the actuarially determined present value of post-retirement medical aid employer contributions on an accrual basis, using the projected unit credit method.

The members of medical aid schemes entitled to a post-employment medical scheme subsidy at 30 June 2009, were 12 309 (2008: 13 445) in-service members, and 6 484 (2008: 6 450) pensioners.

46.4.1 Health care arrangement assumptions

It was assumed that the employer's health care arrangements and subsidy policy would remain as outlined in the accounting policy, and that the level of benefits and contributions would remain unchanged, with exception for inflationary adjustments. Implicit in this approach is the assumption that current levels of cross-subsidy from in-service members to retiree members within the medical scheme are sustainable and will continue.

It is further assumed that the subsidy will continue until the last survivor's death for eligible members and their spouses, and to age 21, if earlier, for dependent children.

Continuation of membership

It is assumed that 100% of in-service members entitled to a post-retirement subsidy retiring from the City of Cape Town will remain on the employer's health care arrangements.

Family profile

Family profile was based on actual data and therefore no assumptions had to be made.

Plan assets

There are currently no long-term assets set aside off-balance sheet in respect of the employer's post-employment health care liability.

City of Cape Town	
Notes to the financial statements for the year ended 30 June 2009	

46.4.2 **Retirement pension benefits**

For past service of employees and retired employees, the City recognises and provides for the actuarially determined present value of post-retirement revenue pensions on an accrual basis, using the projected unit credit method.

The number of employees who were eligible for a post-retirement pension at 30 June 2009 was 46 (2008: 52) employees, and 149 (2008: 191) pensioners.

Plan assets

There are currently no long-term assets set aside off-balance sheet in respect of the employer's post-employment retirement pension liability. Post retirement scheme defined-benefit obligations

47. GUARANTEES AND CONTINGENT LIABILITY

47.1 Guarantees

The City issued the following guarantees:

- To Development Bank of South Africa (DBSA) for a loan to the Gugulethu Central Market Place (the Company) for the sum of R250 000. As at 30 June 2009, the Company was in arrears with its repayment of capital and interest to the DBSA to the sum of R472 708 (2008: R371 706).
- A bank guarantee of R346 727 as security for the lease of property.

47.2 Other contingent liabilities

Contractual disputes

Various contractual claims by contractors/suppliers and staff are currently in dispute, and are being addressed through mediation. The maximum potential liability is estimated at R49.95 million (2008: R72.87 million).

Outstanding insurance claims

The estimated liability for insurance claims amounts to R72.82 million (2008: R56.79 million). The estimated amount was based on quotations, medical reports and letters of demand received. The merits must still be determined and could result in a lessor amount or more.

Loan agreements

The rates of interest payable on certain structured loans and finance leases are based on certain underlying assumptions relating to the lenders' statutory costs, and the allowability of deductions for income tax purposes in connection with the loans. In the event of changes to the Income Tax Act or any other relevant legislation that impact on the loan structure costs, the lenders are required to increase or decrease the future rates of interest payable on the loans or their remaining lives, in order to absorb the increase or decrease in costs.

Performance bonuses

The estimated liability for performance bonuses amounts to R12.67 million (2008: R23.00 million) and is only payable after the Annual Report has been tabled, and finally approved by Council.

48. RELATED PARTY DISCLOSURES

During the year, in the ordinary course of business, transactions between the City and the under-mentioned entities have occurred under terms and conditions that are no more favourable than those entered into with third parties in arm's length transactions.

	2009	2008
	R'000	R'000
Cape Town International Convention Centre (Pty) Ltd		
The Convention Centre was established for Cape Town to become host to international conferences, with the objectives of promoting Cape Town as a tourism city. At year-end, the amount owing by Convenco to the City amounted to R0.86 million (2008: R3.91 million).

	ACTUAL	BUDGET	VARIANCE	VARIANCE	EXPLANATION OF VARIANCES
	R'000	R'000	R'000	%	GREATER THAN 10%
REVENUE					
Property rates	3 240 604	3 381 612	141 008	4.17%	
Service charges	6 943 215	7 049 733	106 518	1.51%	
Rental of letting stock and facilities	219 609	212 340	(7 269)	(3.42%)	
Finance income	656 733	483 289	(173 444)	(35.89%)	Actual interest earned on cash investments, mainly due to higher-than- budgeted cash holdings during the year.
Fines	183 283	170 998	(12 284)	(7.18%)	
Licences and permits	31 337	33 212	1 875	5.65%	
Agency services	109 222	115 993	6 771	5.84%	
Government grants and subsidies: Operating	2 273 951	2 253 222	(20 728)	(0.92%)	
Government grants and subsidies: Capital	2 900 886	2 981 458	80 571	2.70%	
Otherincome	195 685	215 729	20 044	9.29%	
Public contributions, donated/contributed PPE	69 424	96 357	26 933	27.95%	The income from connection fees is lower than the amount originally budgeted due to the down swing in the economy and the consequent fall in demand by developers for the installation of water/electricity connections.
Gains on disposal of property, plant and equipment	183 491	41 794	(141 698)	(339.04%)	Gains on the disposal of property, plant and equipment due to higher proceeds from assets sold.
Total revenue	17 007 440	17 035 737	28 297	0.17%	
EXPENDITURE					
Employee-related costs	4 537 568	4 854 663	(317 095)	(6.53%)	
Remuneration of councillors	77 629	79 279	(1 650)	(2.08%)	
Impairment costs	902 900	786 668	116 232	14.78%	Mainly due to the tact that the Provincial Government only paid a portion of the claim regarding the expenses incurred to take care of xenophobia refuges and the unbudgeted balance of R47.00 million had to be written-off and the unbudgeted increase for water bad debt
Collection costs	159 579	167 847	(8 268)	(4.93%)	
Depreciation and amortisation expense	733 726	945 418	(211 692)	(22.39%)	Due to adjustments ot usetul lives ot intrastructure assets and the tact that assets under construction are being depreciated.
Repairs and maintenance	908 297	839 450	68 847	8.20%	
Finance costs	406 570	390 586	15 984	4.09%	
Bulk purchases	2 880 965	2 899 316	(18 351)	(0.63%)	
Contracted services	674 675	646 609	28 066	4.34%	
Grants and subsidies paid	125 142	126 703	(1 561)	(1.23%)	
General expenses - other (including abnormal expenses)	2 460 710	2 612 190	(151 480)	(5.80%)	
Loss on disposal of property, plant and equipment	3 492	31	3 461	11337.41%	Losses on housing land sold.
Total expenditure	13 871 253	14 348 760	(477 508)	(3.33%)	
NET SURPLUS FOR THE YEAR	3 136 187	2 686 977	(449 210)	(16.72%)	

	ACTUAL EXPENDITURE	BUDGET	VARIANCE	VARIANCE	EXPLANATION OF SIGNIFICANT VARIANCES
	R'000	R'000	R'000	%	GREATER THAN 5% VERSUS BUDGET
Executive and Council	10 562	11 307	745	6.59%	Sub-Council 18 Tender/Contract 191/2008/09 in respect of new offices and parking facilities has resulted in savings identified by the contractor.
Budget and Treasury Office	8 749	9 740	991	10.17%	Building of Warehouse phase 1 was completed, savings arose due to the decrease in the price of steel. Delays in the ERM Software and Asset Verification projects are to due the projects no longer being externally implemented, internally resources will be used to complete these projects. Projects will be completed in 2009\10.
Corporate Services	137 474	143 203	5 729	4.00%	
Planning and Development	74 752	76 359	1 607	2.10%
