K. GASHI **MUNICIPAL MANAGER**

FOREWORD TO THE ANNUAL FINANCIAL STATEMENTS

FOR THE YEAR ENDED 30 JUNE 2009

produce annual financial statements on the conventions set by the Institute of Municipal Finance Officers. From the 2009/2010 financial year, the preparation of the annual financial statements must follow Generally Recognized Accounting Practices and fully comply to the prescripts of the Municipal Finance Management Act, 56 of 2003. This requirement comes along together with the Auditor General's stated desire to express an opinion on the attainment of service delivery targets by municipalities with effect from the 2009/2010 financial year.

This scenario has induced the Elundini Municipality to make all efforts and create the necessary conditions for the attainment of an unqualified opinion in respect of the 2008/2009 financial year. The final arbiter, of course, as to whether such efforts and conditions were adequate is the Auditor General.

In terms of our service delivery plans as articulated in the service delivery and budget implementation plan of the municipality for the 2008/2009 financial year, a lot has been achieved, whilst various other targets could not be met. In the majority of cases where the targets could not be met, the functions to which the targets relate are not assigned nor delegated to the municipality. In the area of housing development, for instance, which is a function of the Provincial Department of Housing, basic things like the approval of business plans to kick start housing development and the allocation of funds could not be attended to by the department, despite a myriad of letters to the department. With regard to rural electrification, approximately 80% of households within the Elundini Municipality remain un-electrified since 1994, with ESKOM not having a clear plan to address this. Our letters to the Department of Minerals and Energy, including our requests for an audience with the Minister of Minerals and Energy as the Executive Authority

The apparent lack of stability in the financial services department, exacerbated by an uncommon high turnover of Chief Financial Officers is a cause for concern which might impede our long term plans towards good financial governance in the municipality. The Executive Committee will look into this aspect and, working with the Accounting Officer, respond to this matter urgently.

needs to evaluate its performance towards the attainment of "a better quality of life for all" as the municipality's vision proudly proclaims. The Executive Committee has therefore agreed to hold a session before the end of the financial year, where it can appraise the service delivery road traversed so far, and identify those critical matters that must be resolved before the end of the term of the municipal council. This might of necessity include a reconfiguration of the municipality such that it ably responds to the current challenges facing our people.

fight poverty and under development. As a municipal Council, we have been led by a Speaker who is a unifying figure and has ensured that the prevailing stability in the municipal council is sustained. As the Executive Committee, we have worked with councillors who have understood the challenges that we have encountered in our quest to accelerate service delivery, and have positively appraised us whenever we have attained our set milestones. I express my sincere gratitude to all councillors and to the administration for all the support during the past financial year.

ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009

REPORT OF THE CHIEF FINANCIAL OFFICER

1. OPERATING RESULTS

Details of the operating results according to service classification and object of expenditure are included in Appendices D and E. The operating results for the year ended 30 June 2009 are as follows:

	VARIANCE %	BUDGET 2009	ACTUAL 2009	ACTUAL 2008
INCOME		R	R	R
Rates and general services	-0.3%	71 421 839	71 228 220	75 365 489

(Deficit)/Surplus for the year	_	66 801	2 727 982	(23 158 599)

Revenue

Rates and General Services

Current year actual revenue to prior year depicts a 5% decrease. Current year receipts compares fairly to the budgeted.

Trading Services

Current year actual revenue to prior year depicts a 15% increase. Current year income does not compare fairly to the budget This is due to the fact that, with effect from the year under review, the municipality is not showing water and sanitation revenue as the Ukhahlamba District Municipality is the water services authority

Expenditure

Rates and General Services

Current year actual expenditure to prior year depicts a 30% decrease. Current year expenses compares fairly to the budgeted. Much of last year's expenditure was due to the provision for bad debts raised from approximately R20 million to R16 million, which was unprecedented. A bad debts write off of R9,4 million, and a reduction in the provision for bad debts is responsible for the difference.

Trading Services

Current year actual expenditure to prior year depicts a 1% increase. Current year expenses do not compare fairly to the budgeted. The difference between the budget and the annual financial statements is due to the fact that there has been a different accounting treatment for water services in the annual financial statements, which recognises that any revenue earned and expenditure in respect of water and sanitation services is for the account of the Ukhahlamba District Municipality.

The changes in the accounting treatment of water and sanitation will only affect financial reporting, and the municipality will continue to budget for water and sanitation as it has been doing so far.
