REPORT OF THE AUDITOR-GENERAL

30 JUNE 2009

The report of the Auditor-General will be inserted after the audit.

STATEMENT OF THE MUNICIPAL MANAGERS RESPONSIBILITY

UMZINYATHI DISTRICT MUNICIPALITY ANNUAL FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009

The Umzinyathi District Municipality is situated 41 Victoria Street, Dundee is a category C Municipality established in terms of section 12 (1) of the Municipal Structures Act, No.117 and published in terms of Provincial Government Notice 346 on the 19 September 2000. The Local Government Operations of the Municipality are assigned by section 156 and 229 of the South African Constitution and defined specifically in terms of section 83 of the Municipal Structures Act.

I am responsible for the preparation of these financial statements, which are set out on page 1 to 55 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors as disclosed on note 13 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the remunaration of the Public Office Beares and the Minister of Provincial and Local Government's dertemination in accordance with this this act.

	27 August 2009
Mr S.N. Dubazana	Date
Municipal Manager	

ACCOUNTING POLICIES

for the year ended 30 June 2009

1 BASIS OF ACCOUNTING

1.1 BASIS OF PRESENTATION

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise. These annual financial statements have been prepared in accordance with the Generally Recognised Accounting Practice (GRAP) issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

These standards are summarised as follows:

GRAP 1	Presentation of Financial Statements
GRAP 2	Cash Flow Statement
GRAP 3	Accounting Policies , Changes in Accounting Estimates and Errors
GRAP 4	The Effects of Changes in Foreign Exchange Rates
GRAP 5	Borrowing Costs
GRAP 6	Consolidated and Separate Financial Statements
GRAP 7	Investments in Associates
GRAP 8	Investments in Joint Ventures
GRAP 9	Revenue from Exchange Transactions
GRAP 10	Financial Reporting in Hyperinflationary Economies
GRAP 11	Construction Contracts
GRAP 12	Inventories
GRAP 13	Leases
GRAP 14	Events After the Reporting Date
GRAP 16	Investment Properties
GRAP 17	Property, Plant and Equipment
GRAP 19	Provisions, Contingent Liabilities and Contingent Assets
GRAP 100	Non-current Assets Held for Sale and Discontinued Operations
GRAP 101	Agriculture
GRAP 102	Intangible Assets

Accounting policies for material transaction, events or conditions not covered by the above GRAP Standards have been developed in accordance with paragraph 7,11 and 12 of GRAP 3. These accounting policies and the applicable disclosures have been based on the South African Statements of Generally Accepted Accounting Practices (SA GAAP) including any interpretations of such Statements issued by the Accounting Practices Board.

The Accounting Standards Board has set transitional provisions for individual standards of GRAP as set out in Directive 4 issued in March 2009. Details of the transitional provisions applicable to the municipality have been provided in the notes to the annual financial statements.

A summary of the significant accounting policies which have been consistently applied except where transitional provisions has been granted are disclosed below.

Page 5

1.2 PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.3 GOING CONCERN ASSUMPTION

These annual financial statements have been prepared on a going concern basis.

1.4 EFFECTIVE

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

GRAP 18	Segment Reporting - issued March 2005
GRAP 21	Impairment of Non-Cash-generating-assets - issued March 2009
GRAP 23	Revenue from Non-Exchange Transactions - issued February 2008
GRAP 24	Presentation of Budget Information - issued November 2007
GRAP 26	Impairment of Cash-generating-assets - issued March 2009
GRAP 103	Heritage Assets - issued July 2008
IAS 19	Employee Benefits - effective 1 January 2009
IFRIC 17	Distribution of Non-cash Assets to Owners - effective 1 July 2009

2 PROPERTY, PLANT AND EQUIPMENT

2.1 INITIAL RECOGNITION

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset's) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

Page 6

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

2.2 SUBSEQUENT MEASUREMENT - REVALUATION MODEL (LAND AND BUILDINGS)

Subsequent to initial recognition, land and buildings are carried at a revalued amount, being its fair value at the date of revalutaion less any subsequent accumulated depreciation and impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation is credited directly to a revaluation surplus reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

A decrease in the carrying amount of an asset as a result of a revaluation is recognised in surplus or deficit, except to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

2.3 SUBSEQUENT MEASUREMENT - COST MODEL

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

2.4 DEPRECIATION AND IMPAIRMENT

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The annual depreciation rates are based on the following estimated average asset lives:

	<u>Years</u>	Other	<u>Years</u>
Infrastructure			
Roads and Paving	30	Buildings	30
Pedestrian Malls	30	Specialist vehicles	10
Electricity	20-80	Other vehicles	5
Water	15-100	Office equipment	3-7
Sewerage	15-60	Furniture and fittings	7-10
		Watercraft	15
Community		Bins and containers	5
Buildings	30	Specialised plant and equipment	10-15
Recreational Facilities	20-30	Other items of plant and equipment	2-5
Security	5	Landfill sites	15

The residual value, the useful life of an asset and the depreciation method is reviewed annually and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

The Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Boards, in terms of Directive 4 issued in March 2009, with respect to the measurement of property, plant and equipment as set out in paragraph 73 to 83.

2.5 DERECOGNITION

Items of Property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

Page 7

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

3 INTANGIBLE ASSETS

3.1 INITIAL RECOGNITION

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licenses, and development costs. The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitlised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the municipality has the resources to complete the project; and
- it is probable that the municipality will receive future economic benefits or service potential.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset's) given up.

3.2 SUBSEQUENT MEASUREMENT - COST MODEL

Intangible assets are subsequently carried at cost less accumulated amoritisation and impairments. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

3.3 AMORTISATION AND IMPAIRMENT

Amortisation is charged so as to write off the cost or valuation of intangible assets over their estimated useful lives using the straight line method. The annual amortisation rates are based on the following estimated average asset lives:

Computer software 5 years

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipality tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

The Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Boards, in terms of Directive 4 issued in March 2009, with respect to the measurement of Intangible Assets as set out in paragraph 110 to 118..

Page 8

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

3.4 DERECOGNITION

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

4 INVESTMENT PROPERTY

4.1 INITIAL RECOGNITION

Investment property includes property (land or a building, or part of a building, or both land or buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

At initial recognition, the municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition. The cost of self-constructed investment property is the cost at date of completion.

4.2 SUBSEQUENT MEASUREMENT - FAIR VALUE MODEL

Investment property is measured using the fair value model. Under the fair value model, investment property is carried at its fair value at the reporting date. Any gain or loss arising from a change in the fair value of the property is included in surplus or deficit for the period in which it arises.

5 NON-CURRENT ASSETS HELD FOR SALE

5.1 INITIAL RECOGNITION

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

5.2 SUBSEQUENT MEASUREMENT

Non-current assets held for sale (or disposal group) are measured at the lower of carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held for sale, or while it is part of a disposal group classified as held for sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale are recognised in surplus or deficit.

Page 9

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

6 FINANCIAL INSTRUMENTS

6.1. INITIAL RECOGNITION

Financial instruments are initially recognised at fair value.

6.2. SUBSEQUENT MEASUREMENT

Financial Assets are categorised according to their nature as either financial assets at fair value through profit or loss, held-to maturity, loans and receivables, or available for sale. Financial liabilities are categorised as either at fair value through profit or loss or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities depends on this categorisation and, in the absence of an approved GRAP Standard on Financial Instruments, is in accordance with IAS 39.

6.3. INVESTMENTS

Investments, which include listed, fixed deposits and short-term deposits invested in registered commercial banks, are categorised as either held-to-maturity where the criteria for that categorisation are met, or as loans and receivables, and are measured at amortised cost. Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. Impairments are calculated as being the difference between the carrying amount and the present value of the expected future cash flows flowing from the instrument. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

6.4. UTHUKELA WATER INVESTMENT

Investment at Uthukela Water Pty Ltd has been raised using the historical cost price value of the water services assets purchased and transfered to Uthukela Water from I July 2004 to 30 June 2009 by Umzinyathi District Municipality. The value of Investment will be evaluated using the Audited annual financial statements of Uthukela Water Pty Ltd. A Provision for Uthukela Water Investment write off has been raised due to the fact that the value of the investment could not be determined as a result of unavalability of up to date audited financial statements of

6.5. TRADE AND OTHER RECEIVABLES

Trade and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

6.6. FINANCIAL LIABILITIES: ACCOUNTS PAYABLE

Financial liabilities consist of trade payables and borrowings. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost which is the initial carrying amount, less repayments, plus interest.

Page 10

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES

for the year ended 30 June 2009

6.7. CASH AND CASH EQUIVALENTS

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

6.8. INVENTORIES

Initial Recognition

Inventories are initially recognised at costs. Costs generally referes to the purchase price, plus tax, transport and any other costs of bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced the costs include the costs of labour, material and overheads during the manufacturing process.

Subsequent Measurement

Consumer stores, maintenance materials and water stock are valued at the lower of costs and net realisable value. In general, the basis of determining cost is the weighted average method.

Unsold properties are valued at the lower of costs and net realisable value on a weighted average costs basis. Direct costs are accumulated for each separate development. Costs also include a proportion of overhead costs.

Redunded slow moving inventories are identified and written down from costs to net realisable value with regard to their estimated economic or realisable values.

6.9. INVESTMENT IN JOINT VENTURE

An investment in a joint venture is carried at costs less any accumulated impairment.

The municipality's share of profit or loss, resulting from operatins of the joint venture, is recognised on accrual basis and is capitilised to the costs of investment.

7 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

Page 11

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

8 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

9 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

10 PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Where the effect is material, non-current provisions are discounted to their present value using a pre-tax discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability (for example in the case of obligations for the rehabilitation of land)

The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

(a)

The municipality has a detailed formal plan for the restructuring identifying at least: - the business or part of a business concerned;- the principal locations affected - the location, function, and approximate number of employees who will be compensated for terminating their services;

- the expenditures that will be undertaken; and when the plan will be implemented; and
- (b) The municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

11 TRANSLATION OF FOREIGN CURRENCY

The transaction in the foreign currency are initially recorded at the prevailing exchange rate on the dates of the transaction. Monetary assets and liabilities in such foregn transaction are translated at the rates prevailing at the reporting date.

Page 12

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

12 COMPARATIVE INFORMATION

Current Year Comparatives

Budgeted amount have been included in an annexure to these financial statements for current financial year only.

Prior Year Comparatives

When presentation or classification of iterms in the annual financial statements is amended, prior period comparatives amounts are restated. The nature and reason for the reclasification is disclosed. When there has been a change in the accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparative is restated accordingly.

13 LONG SERVICE AWARD

Provision for the long service awards represents the present value of the estimated future cash outflows to be made by the municipality resulting from employee service providing up to Statement of Financial Position date. The provision comprise amounts that the municipality has present obligation to pay resulting from employees services provided up to Statetement of Finanincial Position date.

14 LEASES

14.1. MUNICIPALITY AS LESSEE

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to derecognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are accrued on a straight-line basis over the term of the relevant lease.

14.2. MUNICIPALITY AS LESSOR

Under a finance lease, the municipality recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the municipality, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease installments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to derecognition and impairment of financial instruments are applied to lease receivables. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

Page 13

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

15 REVENUE

15.1. REVENUE FROM EXCHANGE TRANSACTIONS

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the recorded number of refuse containers per property.

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licenses and permits.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods is passed to the consumer.

REVENUE FROM NON-EXCHANGE TRANSACTIONS

15.2.

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportionate basis.

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received, together with an estimate of spot fines and summonses that will be received based on past experience of amounts collected.

Revenue from public contributions and donations is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment qualifies for recognition and first becomes available for use by the municipality. Where public contributions have been received but the municipality has not met the related conditions, a deferred income (liability) is recognised.

Contributed property, plant and equipment is recognised when such items of property, plant and equipment qualifies for recognition and become available for use by the municipality.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible Councilors or officials is virtually certain.

Page 14

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

15.3. GRANTS, TRANSFERS AND DONATIONS

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

16 BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised to the cost of that asset unless it is inappropriate to do so. The municipality ceases the capitalisation of borrowing costs when substantially all the activities to prepare the asset for its intended use or sale are complete. It is considered inappropriate to capitalise borrowing costs where the link between the funds borrowed and the capital asset acquired cannot be adequately established. Borrowing costs incurred other than on qualifying assets are recognised as an expense in surplus or deficit when incurred.

17 RETIREMENT BENEFITS

The municipality provides retirement benefits for its employees and Councillors. Contributions are made to the Natal Joint Municipal Pension Fund to fund the obligations for the payment of retirement benefits in accordance with the rules of the defined benefit funds it administers. Contributions are recognised as an expense in the statement of Financial Performance.

The funds are actuarially valued every three years using the discounted cash flow method. Any deficits identified by the actuary are recovered from participating municipalities in the form of surcharges added to the contributions which are recognised as an expense in the statement of Financial Performance in the year that they become payable.

18 OTHER POST RETIREMENT BENEFITS

The municipality provides post-retirement health care benefits to their retirees. The entitlement of these benefits is usually conditional on the employees remaining in service up to retirement age and the completion of the minimum service period. The expected costs of these benefits are acrued over the period of employment using an accounting methodiology similar to that used for defined pension benefit plans. Acrurial gains and losses arising from experiance adjustment, and changes in actuarial assumption, are charched or credited to revenue over the expected average remaining lives of the relevent employees to the extent which they exceed the 10% corridor.

Page 15

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

19 IMPAIRMENT OF ASSETS

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any impairment loss of a revalued asset is treated as a revaluation decrease.

An impairment loss is recognised for cash-generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

A municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

Page 16

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

20 RESERVES

20.1. Capital Replacement Reserve (CRR)

In order to Finance the provision of infrastructure and other iterms of property, plant and equipment from internal sources, amounts are transferred from accumulated surplus to the CRR. A corresponding amount is transferred to a disagnated CRR bank account or investment account. The cash in the designated CRR bank account can only be utilised to finance iterms iterms of property, plant and equipment. The CRR is reduced and the accumulated surplus/(deficit) is credited by a corresponding amount when the amount in the CRR are utilised.

The amount transfered to CRR is based on the municipality's needs to finance future capital projects included in the Intergrated Development Plan.

CRR is included in Accumulated Surplus in the Statement of Financial Position . In the Prior year it was separately disclosed.

20.2. Government Grant Reserve

When items of property, plant and equipment are financed from government grants, a transfer is be made from the accumulated surplus/(deficit) to the Government Grants Reserve equal to the Government Grant recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and

equipment are depreciated, a transfer is made from the Government Grant Reserve to the accumulated surplus/(deficit). The purpose of this policy is to promote community equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of government grant funded items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus/(deficit)

When an item of property, plant and equipment financed from government grants is disposed, the balance in the Government Grant Reserve relating to such item is transferred to the accumulated surplus/(deficit).

20.3. Capitalisation Reserve

On the implementation of GAMAP/GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of property, plant and equipment have been transferred to a Capitalisation Reserve instead of the accumulated surplus/(deficit) in terms of a directive (budget circular) issued by National Treasury. The purpose of this Reserve is to promote consumer equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of property, plant and equipment are offset by transfers from this reserve to the accumulated surplus/(deficit).

20.4. Donations and Public Contributions Reserve

When items of property, plant and equipment are financed from public contributions and donations, a transfer is made from the accumulated surplus/(deficit) to the Donations and Public Contributions Reserve equal to the donations and public contributions recorded as revenue in the Statement of Financial Performance in accordance with a directive (budget circular) issued by National Treasury. When such items of property, plant and equipment are depreciated, a transfer is made from the Donations and Public Contributions Reserve to the accumulated surplus/(deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of property, plant and equipment financed from donations and public contributions.

Page 17

UMZINYATHI DISTRICT MUNICIPALITY ACCOUNTING POLICIES for the year ended 30 June 2009

21 CONSTRUCTION CONTRACTS AND RECEIVABLES

Where the outcome of a construction contract can be estimated reliably, contract revenue and costs are recognised by reference to the stage of completion of the contract activity at the reporting date, as measured by completion of a physical proportion of the contract work

Variations in contract work, claims and incentive payments are included to the extent that they have been agreed with the customer.

When the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised to the extent that contract costs incurred are recoverable. Contract costs are recognised as an expense in the period in which they are incurred.

When it is probable that total contract costs will exceed total contract revenue, the expected loss is recognised as an expense immediately.

22 TRANSITIONAL PROVISIONS

The Municipality has taken advantage of the transitional provisions permitted by the Accounting Standards Board,

GRAP 1	Presentation of Financial Statements - paragraphs 7-8A
GRAP 9	Revenue from Exchange Transactions - paragraphs 37-38
GRAP 12	Inventories - paragraphs 45-52
GRAP 13	Leases - paragraphs 55-60
GRAP 17	Property, Plant and Equipment - paragraphs 73-83
GRAP 19	Provisions, Contingent Liabilities and Contingent Assets - paragraph 93-94E
GRAP 102	Intangible Assets - paragraph 110-118

		0	0

Investment at Uthukela Water Pty Ltd has been raised using the historical costs price value of the water services assets purchased and transfered to Uthukela Water from 1 July 2004 to 30 June 2009 by Umzinyathi District Municipality . The investment value will be evaluated using the audited Annual Financial statetments of Uthukela Water Pty Ltd. A provision for Uthukela Investment write off has been raised due to the fact that the actual value of investment could not be determined as a result of unavailability of up to date audited financials statements of Uthukela Water Pty Ltd.

REVALUATIONS RESERVE

3 Revaluation Reserve 5 800 000 -

Revaluation of property were performed using Endumeni Municipality Valuation Roll which was prepared by an independent person. The original cost price was R8 000 000.00 plus revaluation of R5 800 000 resulting to R13 800 000.00

Key assumptions used

The principal actuarial assumptions used will be as follows

Discount rates used	9.5%	9.5%
General increase to medical aid contributions	8.0%	8.5%
Salary Inflation	8.0%	8.0%
Expected retirement age	63	63
Proportion continuing membership at retirement	100%	100%
Proportion of retiring members who are married	90%	90%

Other assumption :

Age of spouse - Husbands 5 years older than wives

Mortality of in-service members - In accordance with the SA 85 - 90 (Light) ultimate table (rated down 3 years

for females).

Mortality of pensioners - In accordance with the PA (90) ultimate male and female tables

(No explicit assumption was made about additional mortality or health care costs due to AIDS) $\,$

Percentage of in-service members withdrawing before retirement :

age 20	7.85%	7.85%
age 25	5.67%	5.67%
age 30	4.20%	4.20%
age 35	3.31%	3.31%
age 40	2.23%	2.23%
age 45	1.21%	1.21%
age 50	0.55%	0.55%
age 55+	0.00%	0.00%

26.1.2. Pension benefis

The amount recognised in Statement of Financial Position $% \left(\mathbf{r}\right) =\mathbf{r}^{\prime }$ were determined as follows :

Surplus in the Statement of Financial Position	0	-
Asset not recognised due to future surplus policy not yet established	0	-
Present value of the defined benefit obligation - partially or wholly funded	0	-
Present value of funded obligations	0	-

NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDING 30 JUNE 2009 (continued)

26 RETIREMENT BENEFITS OBLIGATION (continued)

All Councillors and Employees belong to the following funds within the Natal Joint Municipal Pension fund which provides retirement benefits to such employees.

The retirement plan is subject to the Pension Funds Act, 1956

In accordance with the regulations governing the Fund and in compliance with Section 16 of the Pension Funds Act, 1956 (Act No. 24 of 196) the financial position of the Fund is examined and reported upon but the Valuator at intervals not exceeding three years.

In practice the Valuator conducts a statutory valuation on a triennial basis and an interim on an annual basis.

Interim Valuations of the Fund as at 31 March 2006 and Report on the Operations of the Memorandum Account for the Year Ended 31 March 2006.

In respect of Service to 31 March 2006 the actuarial value of the total assets was R121,7 million more than the actuarial value of the liabilities for the service of members to that date and for pensioners, made up as follows:

- surplus of R210,0 million in respect of pensioners (funding level 119,4%)
- deficit of R88,3 million in respect of members (funding level 95,0%) of which deficit
- about R49,0 million was attributable to salary increases being higher than expected (the average salary increased by 9,7% over the three years which is substantially in excess of inflation).

The Fund was thus 104,3% funded. The Fund did not hold an investment reserve.

Statutory Valuations of the Fund as at 31 March 2006 and Report on the Operations of the Memorandum Account for the Year Ended 31 March 2006.

In respect of Service to 31 March 2006 the actuarial value of the total assets was R140,9 million less than the actuarial value of the liabilities for the service of members to that date and for pensioners, made up as follows:

- surplus of R63,4 million in respect of pensioners (funding level 116,2%)
- deficit of R204,3 million in respect of members (funding level 73,0%) attributed to salary increases being higher than expected (the average salary increased by 11,1% over the three year period which is substantially in in excess of inflation).

The Fund was thus 87,7% funded. The Fund did not hold an investment reserve.

32 MUNICIPAL ENTITIES

During the 2004/05 financial year the water and sanitation services assets were transferred to uThukela Water (Pty) Ltd in terms of a thirty year WSP agreement entered into by uThukela Water (Pty) Ltd and the three WSA's being uMzinyathi District Municipality, Amajuba District Municipality and Newcastle Local Municipality.

Since Uthukela Water has not submitted annual financial statements since inception, no audit was conducted on the figures used.

uMzinyathi District Municipality holds 33% shares in uThukela Water (Pty) Ltd.

The overall operating results for the year ended 30 June 2007 are as follows:

uThukela Water (Pty) Ltd	(44 211 142)	-26 561 325
Income generated by water sales	15 425 077	15 800 784
Sundry Income	o	1 678 775
Expenditure by uThukela Water (Pty) Ltd	(59 636 219)	-44 040 884
uMzinyathi District Municipality	37 547 451	34 647 000
Funding from Equitable Shares	36 697 151	33 500 000
Operational Subsidy	850 300	1 147 000
Direct Expenditure	0	-
Provision for Bad Debt	0	-
Surplus / (Deficit) for the year	(6 663 691)	8 085 675

Transfer of powers and functions in respect of the water and sanitation services transferred from uMzinyathi District Municipality to uThukela Water (Pty) Ltd.
