#### NON-CURRENT PROVISIONS (Continued) 4

### EMPLOYEE BENEFIT PROVISIONS

The municipality has elected to recognise the full increase in this defined benefit liability immediately as per IAS 19, Employee Benefits, paragraph 155 (a). Due to this allowed transitional arrangement, no comparative figures for these liabilities are therefore required and disclosed, however also refer to Accounting Policy 26.3 in this regard.

### 4.1 Provision for Post Employment Health Care Benefits

The Municipality provides certain post retirement medical benefits by funding the medical aid contributions of certain retired members of the Municipality. According to the rules of the medical aid funds, with which the municipality is associated, a member (who is on the current condition of service), on retirement, is entitled to remain a continuation member of such medical aid fund, in which case the Municipality is liable for a certain portion of the medical aid membership fee.

Roads -

Provision for

Dehabilitation of

2008

According to the Alien Vegegation Eradication plan developed for the district municipality, it is estimated that an amount of R1,087,687 is required assuming that a strategy is followed where all properties were treated in the first year. The total budget required for the first follow-up would be R392,015 in the second year, R274,086 in the third year and R98,154 in the fourth year, when maintenance levels should be reached.

The provision for the rehabilitation of the Landfil Site is calculated based on rehabiliation measures of 500 mm of impervious clay with 500 mm of erosion protection with earth fill suited to the establishment of indigenous flora.

The fair value of trade and other payables approximates their carrying amounts. Trade and other payables are normally settled on 30 day terms in accordance with the MFMA. No interest is charged for the first 30 days from the date of receipt of the invoice. Thereafter interest is charged in accordance with the credit policies of the various individual creditors.

#### UNSPENT CONDITIONAL GRANTS AND RECEIPTS 8

#### 8.1 Conditional Grants from other spheres of Government

- Operating Grants

- Capital Grants

See appendix "F" for reconciliation of grants from other spheres of government. These amounts are invested in a ring-fenced investment until utilised and approximate its carrying value. The municipality complied with the conditions attached to all grants received to the extent of revenue recognised (Note 22). No grants were withheld.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009 14 LONG-TERM RECEIVABLES (Continued)

#### LOANS TO OTHER LOCAL AUTHORITIES

The loans to other local authorities are interest free, except for the following loan:

#### Mosselbay Municipality:

Great Brakriver: Sewerage, loan is payable ovr 15 years interest free, installment is R 162 933.33 per year. (August 1993)

#### Knysna Municipality:

Hornlee - Water and sewerage loan is payable over 20 years interest free, installment is R 25 200 per year (October 1993)

#### Mosselbay Municipality:

Electricity D'Almeida loan is payable over 30 years interest free, installment is R 77, 039 per year. (March 1994)

#### CAR LOANS

Senior staff are entitled to car loans which attract interest at 8% per annum and which are repayable over a maximum period of 5 years. As from 1 July 2005 no new car loans or computer loans to staff are permitted.

#### DEPARTMENT OF TRANSPORT: ROADS

In terms of the agreement between the Western Cape Provincial Government and past experience, Provincial Government funds will be made available to maintain the approved organogram of the Roads department, including all employee post retirement benefits. The future claim for the provision for retirement benefits has therefore been raised as a long term debtor.

The carrying value of the Long-Term Recivables approximate their fair value and are shown at amortised cost using the effective interest rate method. As these loans are all recoverable the Municipality was not required to make any provision for any possible impairments.

Concentrations of credit risk with respect to trade receivables are limited due to the municipality's large number of customers. The municipality's historical experience in collection of trade receivables falls within recorded allowances. Due to these factors, management believes that no additional risk beyond amounts provided for collection losses is inherent in the municipality's trade receivables.

The fair value of other receivables approximate their carrying value.

The provision for doubtful debts on other debtors (loans and receivables) exists due to the possibility that not all debts will be recovered. Loans and receivables were assessed individually and grouped together at the Statement of Financial Position date as financial assets with similar credit risk characteristics and collectively assessed for impairment.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2009 RISK EXPOSURES

The activities of the municipality expose it to a variety of financial risks, including market risk (comprising fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

The municipality is at risk in the following areas:

### Foreign Exchange Currency Risk

The municipality does not engage in foreign currency transactions. Interest Rate Risk

As the municipality has significant interest-bearing liabilities, the entity's income and operating cash flows are substantially dependent on changes in market interest rates.

The municipality analyse its potential exposure to interest rate changes on a continious basis. Different scenarious are simulated which include refinancing, renewal of current positions, alternative financing and hedging. Based on these scenarious, the entity calculates the impact that a change in interest rates will have on the surplus/defecit for the year. These scenarious are only simulated for liabitities which constitute the majority of interest bearing liabilities.

The municipality did not hedge against any interest rate risks during the current year.

#### Credit Risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the Municipality to incur financial loss.

Credit risk arises mainly from cash and cash equivalents, instruments and deposits with banks and financial institutions, as well as credit exposures to consumer and grant debtors.

For banks and financial institutions, only independently rated parties with a minimum rating of 'B+' are accepted. Grants are receivable from higher order levels of government. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. This increases the credit risk in respect of consumer debtors. The risk of non- payment is managed on an ongoing basis and where practical, services are terminated and procedures applied to recover outstanding amounts owing and an appropriate level of impairment provision for default is maintained.

#### Liquidity Risk

Liquidity risk is the risk that the municipality will encounter difficulty in raising funds to meet commitments associated with financial liabilities.

Prudent liquidity risk management includes maintaining sufficient cash and marketable securities, the availability of funding from an adequate amount of committed credit facilities.

The financial liabilities of the municipality are backed by appropriate assets and it has adequate liquid resources. The Council monitors the cash projections and by ensuring that borrowing facilities are available to meet its cash requirements.

#### Other Risks

Potential concentrations of credit risk and interest rate risk consist mainly of fixed deposit investments, long-term debtors, consumer debtors, other debtors, short-term investment deposits and bank and cash balances.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with well-established financial institutions of high credit standing. The credit exposure to any single counterparty is managed by setting transaction / exposure limits, which are included in the municipality's Investment Policy. These limits are reviewed annually by the CFO and authorised by the Municipal Council.

Consumer debtors comprise of a large number of ratepayers, dispersed across different sectors and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Consumer debtors are presented net of an allowance for doubtful debt.

In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment",

Long-term Receivables and Other Debtors are individually evaluated annually at Balance Sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

#### Interest rate sensitivity analysis

The sensitivity analysis below has been determined based on financial instruments exposure to interest rates at reporting date. For floating rate instruments, the analysis is prepared assuming the amount of the instrument outstanding at the reporting date was outstanding for the whole year.

A positive number below indicates an increase in surplus. A negative number below indicates a decrease in surplus.

The basis points increases or decreases, as detailed in the table below, were determined by management and represent management's assessment of the reasonably possible change in interest rates.

The sensitivity analysis shows reasonable expected change in the interest rate, either an increase or decrease in the interest percentage. The equal but opposite % adjustment to the interest rate would result in an equal but opposite effect on surplus and therefore has not been separately disclosed below.

As the entity does not have any instruments that effect net assets directly, the disclosure only indicates the effect of the change in interest rates on surplus. There were no changes in the methods and assumptions used in preparing the sensitivity analysis from one year to the next.

The potential impact on the entity's surplus/defecit for the year due to changes in interest rates were as follow:

| 0.5% (2008 - 2%) Increase in interest rates | 245 286   |
|---|-----------|
| 1% (2008 - 0.5%) Decrease in interest rates | (490 572) |

The leased property, plant and equipment is secured as set out in Note 3.

The Municipality identified other properties, plant and equipment, with opening balances and adjustments during the year.

Refer to Appendix B for more detail on property, plant and equipment, including those in the course of construction.

Exemptions taken for leases according to Directive 4 - Transitional Provisions for Medium and Low Capacity Municipalities - Note 48

The Municipality has taken advantage of the transitional provisions set out in Directive 4. The Municipality is in the process of identifying and itemizing all infrastructure and community assets and other property, plant and equipment and will recalculate accumulated depreciation once this exercise has been completed by 30 June 2011. At present depreciation on these assets is calculated on an averaging basis whereby an average useful life has been estimated for each category of infrastructure and community assets and other property plant and equipment using global or other historical costs recorded in the accounting records.

Review of useful life of item of PPE recognised in the annual financial statements. [Paragraphs 59-61 and 77]

Review of the depreciation method applied to PPE recognised in the annual financial statements. [Paragraphs 62 and 77]

 Impairment of non-cash generating assets. [Paragraphs 64-69 and 75(e)(v) – (vi)] Impairment of cash generating assets. [Paragraphs 63 and 75(e)(v) – (vi)]
