CERTIFICATION OF REMUNERATION OF COUNCILLORS

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

M.A MENE
MUNICIPAL MANAGER
31 August 2012

CHRIS HANI DISTRICT MUNICIPALITY
ANNUAL FINANCIAL STATEMENTS
for the year ended 30 June 2012

FOREWORD

During the 2011/12 financial year the municipality was under severe pressure to ensure compliance to various changes in legislation and continue with implementation of Generally Recognised Accounting Practice (GRAP) standards. The municipality was however able to meet the challenges set by a changing legislative and accounting environment.

The district municipality, as part of improving service delivery to the community, implemented proper communication channels through the local municipalities that have the Ward Committee and Community Development Workers systems at their disposal.

Although capital projects were limited to those financed from external grant funding the municipality has successfully implemented the projects identified in the Service Delivery and Budget Implementation Plan for 2011/12 financial year. The municipality will continue in the 2012/13 financial year to implement uncompleted projects for the previous financial year and those projects identified in the IDP / Budget for the current year.

Service delivery and the eradication of infrastructure backlogs remain a serious concern to all in local government. All role-players must ensure that they work together to overcome the legacy of the past and ensure that we uplift the living conditions of our people.

I hereby wish to thank the members of the Mayoral Committee and Council together with staff for their commitment during the year, ensuring that we meet the set targets for the year.

I thank you.

CLR M C KOYO
EXECUTIVE MAYOR
31 August 2012

CHRIS HANI DISTRICT MUNICIPALITY
ANNUAL FINANCIAL STATEMENTS
for the year ended 30 June 2012

AUDIT REPORT

The 2011/12 Audit Report was not available when the Annual Financial Statements were approved and will be attached hereto as Annexure "A" when received after the completion of the statutory audit.

CHRIS HANI DISTRICT MUNICIPALITY
ANNUAL FINANCIAL STATEMENTS
for the year ended 30 June 2012

REPORT OF THE CHIEF FINANCIAL OFFICER

1. INTRODUCTION

It gives me great pleasure to present the financial position of Chris Hani District Municipality at 30 June 2012 and the results of its operations and cash flows for the year then ended.

These Annual Financial Statements have been prepared in accordance with Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003). The standards and pronouncements that form the GRAP Reporting Framework for the 2010/11 financial period is set out in Directive 4 and Directive 5 issued by the ASB on 11 March 2009.

The Statement of Financial Position at 30 June 2012 indicates an increase in Net Assets and in Current Liabilities, and an decrease in Non-current Liabilities.

The increase in Net Assets is ascribed primarily to the increase in Accumulated Surplus as a result of identifying, componentising and measuring immovable assets. The decrease in Non-current Liabilities is primarily as a result of the repayment of Long-term Loans. The increase in Current Liabilities is ascribed primarily to an increase in Unspent Conditional Grants

2. KEY FINANCIAL INDICATORS

The following indicators give some insight into the financial results of the year under review.

Financial Statement Ratios:

INDICATOR	2012	2011
Surplus / (Deficit) before Appropriations	241 297 563	176 395 325
Surplus / (Deficit) at the end of the Year	2 987 043 174	2 678 812 414
Expenditure Categories as a percentage of Total Expenses:		
Employee Related Costs	17.32%	23.51%
Remuneration of Councillors	1.17%	1.09%
Depreciation and Amortisation	14.33%	14.65%
Impairment Losses	-0.91%	12.87%
Repairs and Maintenance	0.24%	1.95%
Interest Paid	0.37%	0.67%
Bulk Purchases	1.04%	1.99%
Contracted Services	0.08%	6.63%
Grants and Subsidies Paid	61.84%	24.52%
General Expenses	4.40%	11.40%
Current Ratio:		
Creditors Days	17	58

3. OPERATING RESULTS

Details of the operating results per category of expenditure, together with an explanation of significant variances of more than 10% from budget, are included in Note 57 to the Annual Financial Statements.

The services offered by Chris Hani District Municipality can generally be classified as General, Economic and Trading Services and are discussed in more detail below.

The overall operating results for the year ended 30 June 2012 are as follows:

DETAILS	Actual 2011/2012 R	Actual 2010/2011 R	Percentage Variance %	Budgeted 2011/2012 R	Variance actual/ budgeted %
Income:					
Opening surplus / (deficit)	170 272 385	136 919 074	24.36%	-	-
Operating income for the year	877 558 354	784 424 610	11.87%	810 241 213	8.31%
Appropriations for the year	(175 295 369)	(149 751 414)	17.06%	-	-
	872 535 370	771 592 271	13.08%	810 241 213	7.69%
Expenditure:					
Operating expenditure for the year	636 260 791	608 029 285	4.64%	811 556 413	(21.60)%
Sundry transfers	(66 933 197)	(6 709 399)	897.60%	-	-
Closing surplus / (deficit)	303 207 776	170 272 385	78.07%	(1 315 200)	-
	872 535 370	771 592 271	13.08%	810 241 213	7.69%

3.1 General Services:

This entails the management of infrastructure and other grants, which are used primarily for infrastructure development, local economic development and tourism marketing and development.

DETAILS	Actual 2011/2012 R	Actual 2010/2011 R	Percentage Variance %	Budgeted 2011/2012 R	Variance actual/ budgeted %
Income	877 558 354	656 677 291	33.64%	531 083 490	65.24%
Expenditure	448 265 923	338 112 480	32.58%	592 723 718	(24.37)%
Surplus / (Deficit)	429 292 431	318 564 812	34.76%	(61 640 228)	-
Surplus / (Deficit) as % of total income	48.92%	48.51%		(11.61)%	

3.2 Trading Services:

This entails the operation and maintenance of all sanitation and water schemes located within the area of jurisdiction of the municipality.

DETAILS	Actual 2011/2012 R	Actual 2010/2011 R	Percentage Variance %	Budgeted 2011/2012 R	Variance actual/ budgeted %
Income	-	(19 729 736)	-	279 157 723	-
Expenditure	187 951 938	241 180 418	(22.07)%	218 832 695	(14.11)%
Surplus / (Deficit)	(187 951 938)	(260 910 153)	(27.96)%	60 325 028	-
Surplus / (Deficit) as % of total income	-	1322.42%		21.61%	

The services have been discontinued as at 30 June 2011.

4. FINANCING OF CAPITAL EXPENDITURE

The expenditure on Property, Plant and Equipment during the year amounted to R264 618 089 (2010/11: R229 433 980). Full details of Property, Plant and Equipment are disclosed in Note 9 to the Annual Financial Statements.

The capital expenditure of R264 618 089 was financed as follows:

DETAILS	Actual 2011/2012 R	Actual 2010/2011 R	Percentage Variance %	Budgeted 2011/2012 R	Variance actual/ budgeted %
Capital Replacement Reserve	3 585 704	1 350 703	165.47%	1 500 000	139.05%
Grants and Subsidies	259 932 385	228 083 277	13.96%	664 279 000	(60.87)%
Own Funds (Accumulated Surplus)	1 100 000	-	-	-	-
	264 618 089	229 433 980	15.34%	665 779 000	(60.25)%

Source of funding as a percentage of Total Capital Expenditure:

DETAILS	2012	2011
Capital Replacement Reserve	1.36%	0.59%
Grants and Subsidies	98.23%	99.41%

Property, Plant and Equipment is funded to such a great extent from grants and subsidies because the municipality does not have the financial resources to finance capital from its own funds.

5. RECONCILIATION OF BUDGET TO ACTUAL

5.1 Operating Budget:

DETAILS	2012	2011
<i>Variance per Category:</i>		
Budgeted surplus before appropriations	(1 315 200)	-
Revenue variances	67 317 141	42 382 321
Expenditure variances:		
Employee Related Costs	16 955 370	(25 085 070)
Remuneration of Councillors	(428 512)	(117 702)
Collection Costs	344 833	317 787
Depreciation and Amortisation	(88 145 143)	(88 981 302)
Impairment Losses	5 803 591	(78 234 064)
Repairs and Maintenance	1 982 893	(8 997 671)
Interest Paid	(38 692)	(3 042 829)
Bulk Purchases	755 808	10 016 690
Contracted Services	2 605 637	(39 605 944)
Grants and Subsidies Paid	197 901 972	388 692 853
General Expenses	38 301 661	(16 556 540)
Loss on disposal of Property, Plant and Equipment	(743 797)	(4 393 204)
Actual surplus before appropriations	241 297 563	176 395 325

DETAILS	2012	2011
<i>Variance per Service Segment:</i>		
Budgeted surplus before appropriations	(1 315 200)	-
Executive and Council	(8 151 715)	1 889 299
Finance and Administration	(418 831 963)	(55 392 207)
Planning and Development	(11 090 000)	99 121
Health	111 542	5 819 852
Community and Social Services	(10 698 764)	(1 279 686)
Public Safety	(2 687 005)	2 440 954
Environmental Protection	(4 941 985)	(4 569 436)
Roads and Transport	(7 662 310)	13 382 591
Water	(248 276 966)	(97 278 896)
Other	954 884 858	216 655 145
Actual surplus before appropriations	241 297 563	176 395 325

Details of the operating results per category of expenditure, together with a criptic explanation of significant variances of more than 10% from budget, are included in Note 57 to the Annual Financial Statements.

5.2 Capital Budget:

DETAILS	Actual 2011/2012 R	Actual 2010/2011 R	Variance actual 2011/12 / 2010/11 R	Budgeted 2011/2012 R	Variance actual/ budgeted R
Executive and Council	477 135	534 117	(56 982)	-	477 135
Finance and Administration	14 386 257	963 457	13 422 800	16 188 000	(1 801 743)
Planning and Development	291 540	710 011	(418 471)	-	291 540
Health	-	42 534	(42 534)	-	-

Roads and Transport	-	7 330 597	(7 330 597)	-	-
Water	233 220 901	15 567 971	217 652 929	393 604 000	(160 383 099)
Electricity	-	6 372 543	(6 372 543)	-	-
Other	-	3 596 189	(3 596 189)	-	-
	264 618 089	71 539 938	193 078 151	665 779 000	(401 160 911)

6. ACCUMULATED SURPLUS

The balance of the Accumulated Surplus as at 30 June 2012 amounted to R2 987 043 174 (30 June 2011: R2 678 812 414) and is made up as follows:

Capital Replacement Reserve	46 483 405
Government Grants Reserve	2 637 351 993
Accumulated Surplus	<u>303 207 776</u>
	<u><u>2 987 043 174</u></u>

The Capital Replacement Reserve replaces the previous statutory funds, like the Capital Development Fund, and is a cash-backed reserve established to enable the municipality to finance future capital expenditure. Cash contributions, depending on the availability of cash, is made annually to the reserve.

The Government Grants Reserves are utilised to offset the cost of depreciation of assets funded from Government Grants over the lifespan of such assets. Amounts equal to the cost of assets acquired from Government Grants are transferred to the reserve annually.

The municipality, in conjunction with its own capital requirements and external funds (external loans and grants) is able to finance its annual infrastructure capital programme.

Refer to Note 20 and the Statement of Change in Net Assets for more detail.

7. LONG-TERM LIABILITIES

The outstanding amount of Long-term Liabilities as at 30 June 2012 was R4 424 076 (30 June 2011: R5 553 707).

Refer to Note 17 to the Annual Financial Statements for more detail.

8. RETIREMENT BENEFIT LIABILITIES

The outstanding amount of Retirement Benefit Liabilities as at 30 June 2012 was R25 147 550 (30 June 2011: R21 070 779).

This liability is in respect of continued Health Care Benefits for employees of the municipality after retirement being members of schemes providing for such benefits. This liability is unfunded.

Refer to Note 18 for more detail.

9. NON-CURRENT PROVISIONS

Non-current Provisions amounted R3 326 322 as at 30 June 2012 (30 June 2011: R2 866 650) and is made up as follows:

Provision for Long-term Service	<u>3 326 322</u>
	<u><u>3 326 322</u></u>

These provisions are made in order to enable the municipality to be in a position to fulfil its known legal obligations when they become due and payable.

Refer to Note 19 for more detail.

10. CURRENT LIABILITIES

Current Liabilities amounted R137 433 406 as at 30 June 2012 (30 June 2011: R302 590 297) and is made up as follows:

Provisions	Note 13	2 755 901
Creditors	Note 14	29 876 057
Unspent Conditional Grants and Receipts	Note 15	103 607 358
Operating Lease Liabilities	Note 16	64 458
Current Portion of Long-term Liabilities	Note 17	1 129 631
		<u>137 433 406</u>

Current Liabilities are those liabilities of the municipality due and payable in the short-term (less than 12 months). There is no known reason as to why the municipality will not be able to meet its obligations.

Refer to the indicated Notes for more detail.

11. PROPERTY, PLANT AND EQUIPMENT

The net value of Property, Plant and Equipment was R2 747 354 001 as at 30 June 2012 (30 June 2011: R2 574 906 203).

Refer to Note 9 to the Annual Financial Statements for more detail.

12. INTANGIBLE ASSETS

The net value of Intangible Assets were R440 886 as at 30 June 2012 (30 June 2011: R704 764).

These are assets which cannot physically be identified and verified and are in respect of computer software obtained by the municipality in order to be able to fulfil its duties as far as service delivery is concerned.

Refer to Note 10 to the Annual Financial Statements for more detail.

13. CURRENT ASSETS

Current Assets amounted R409 579 640 as at 30 June 2012 (30 June 2011: R435 282 881) and is made up as follows:

Inventory	Note 2	3 883 855
Non-current Assets Held-for-Sale	Note 3	-
Trade Receivables from Non-exchange Transactions	Note 5	91 416 997
VAT Receivable	Note 6	16 436 009
Bank Balances and Cash	Note 7	297 842 779
		<u>409 579 640</u>

Refer to the indicated Notes for more detail.

14. INTER-GOVERNMENTAL GRANTS

The municipality is dependent on financial aid from other government spheres to finance its annual capital programme. Operating grants are utilised to finance indigent assistance and provision of free basic services.

Refer to Notes 15 and 21 to the Annual Financial Statements for more detail.

15. EVENTS AFTER THE REPORTING DATE

Full details of all known events, if any, after the reporting date are disclosed in Note 54.

16. GENERAL RECOGNISED ACCOUNTING PRACTICE (GRAP)

In order to adhere to principles and procedures prescribed by law and the directions of National Treasury, the Annual Financial Statements have been converted to the new reporting GRAP-format.

17. EXPRESSION OF APPRECIATION

We are grateful to the Executive Mayor, members of the Mayoral Committee, Councillors, the Municipal Manager and Heads of Departments for the support extended during the financial year. A special word of thanks to all staff in the Finance Department, for without their assistance these Annual Financial Statements would not have been possible.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012**

1. BASIS OF PRESENTATION

The Annual Financial Statements have been prepared on an *Accrual Basis* of accounting and are in accordance with the historical cost convention, except where indicated otherwise.

These Annual Financial Statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practices (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board and the Municipal Finance Management Act, 2003 (Act No 56 of 2003).

1.1 Changes in Accounting Policy and Comparability

Accounting Policies have been consistently applied, except where otherwise indicated below.

For the years ended 30 June 2011 and 30 June 2012 the municipality has adopted the accounting framework as set out in paragraph 1 above. The details of any resulting changes in Accounting Policy and comparative restatements are set out in the relevant Notes to the Annual Financial Statements.

The municipality changes an Accounting Policy only if the change:

- (a) Is required by a Standard of GRAP; or
- (b) Results in the Annual Financial Statements providing reliable and more relevant information about the effects of transactions, other events or conditions on the municipality's financial position, financial performance or cash flow.

1.2 Critical Judgements, Estimations and Assumptions

In the application of the municipality's accounting policies, which are described below, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

1. BASIS OF PRESENTATION (continued)

1.2 Critical Judgements, Estimations and Assumptions (continued)

The following are the critical judgements, apart from those involving estimations, that the management have made in the process of applying the municipality's Accounting Policies and that have the most significant effect on the amounts recognised in Annual Financial Statements:

1.2.1 Revenue Recognition

Accounting Policy 9.2 on *Revenue from Exchange Transactions* and Accounting Policy 9.3 on *Revenue from Non-exchange Transactions* describes the conditions under which revenue will be recorded by the management of the municipality.

In making their judgement, the management considered the detailed criteria for the recognition of revenue as set out in GRAP 9 (*Revenue from Exchange Transactions*) and GAMAP 9 (*Revenue*) as far as Revenue from Non-exchange Transactions is concerned (see Basis of Preparation above), and, in particular, whether the municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services is rendered, whether the service has been rendered. Also of importance is the estimation process involved in initially measuring revenue at the fair value thereof. The management of the municipality is satisfied that recognition of the revenue in the current year is appropriate.

1.2.2 Financial Assets and Liabilities

The classification of Financial Assets and Liabilities, into categories, is based on judgement by management. Accounting Policy 6.1 on *Financial Assets Classification* and Accounting Policy 6.2 on *Financial Liabilities Classification* describe the factors and criteria considered by the management of the municipality in the classification of Financial Assets and Liabilities.

In making the above-mentioned judgement, management considered the definition and recognition criteria for the classification of Financial Instruments as set out in IAS 32 (*Financial Instruments – Presentation*) and IAS 39 (*Financial Instruments – Recognition and Measurement*).

1.2.3 Impairment of Financial Assets

Accounting Policy 6.4 on *Impairment of Financial Assets* describes the process followed to determine the value by which Financial Assets should be impaired. In making the estimation of the impairment, the management of the municipality considered the detailed criteria of impairment of Financial Assets as set out in IAS 39 (*Financial Instruments - Recognition and Measurement*) and used its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of the reporting period. The management of the municipality is satisfied that impairment of Financial Assets recorded during the year is appropriate.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

1. BASIS OF PRESENTATION (continued)

1.2 Critical Judgements, Estimations and Assumptions (continued)

1.2.3 Impairment of Financial Assets (continued)

- ◆ Impairment of Trade Receivables:
The calculation in respect of the impairment of Debtors is based on an assessment of the extent to which Debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This is performed per service-identifiable categories across all classes of debtors.

1.2.4 Useful lives of Property, Plant and Equipment, Investment Property and Intangible Assets

As described in Accounting Policies 3.3 and 4.2 the municipality depreciates / amortises its Property, Plant and Equipment, Investment Property and Intangible Assets over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful lives, which is determined when the assets are available for use.

The useful lives of assets are based on management's estimation. Management considered the impact of technology, availability of capital funding, service requirements and required return on assets in order to determine the optimum useful life expectation, where appropriate.

The estimation of residual values of assets is based on management's judgement as to whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

1.2.5 Impairment: Write-down of Property, Plant and Equipment and Inventories

Accounting Policy 5 on *Impairment of Assets* and Accounting Policy 7.2 on *Inventory – Subsequent Measurement* describe the conditions under which non-financial assets are tested for potential impairment losses by the management of the municipality. Significant estimates and judgements are made relating to impairment testing of PPE, impairment testing of Intangible Assets and write-down of Inventories to the lowest of Cost and Net Realisable Values (NRV).

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

1. BASIS OF PRESENTATION (continued)

1.2 Critical Judgements, Estimations and Assumptions (continued)

1.2.5 Impairment: Write-down of Property, Plant and Equipment and Inventories (continued)

In making the above-mentioned estimates and judgement, management considered the subsequent measurement criteria and indicators of potential impairment losses as set out in GRAP 21 (*Impairment of Cash Generating Assets*) and GRAP 26 (*Impairment of Non-cash Generating Assets*). In particular, the calculation of the recoverable service amount for PPE and Intangible Assets and the NRV for Inventories involves significant judgment by management.

During the year no impairments were made to Property, Plant and Equipment, Intangible Assets or Inventory.

1.2.6 Water Inventory

The estimation of the Water Inventory in reservoirs is based on the measurement of water via electronic level sensors, which determines the depth of water in the reservoirs, which is then converted into volumes based on the total capacity of the reservoir. Refer to Accounting Policy, paragraph 7.2.2. The operations have been discontinued as at 30 June 2011 – please refer to the applicable Notes to the Annual Financial Statements.

1.2.7 Defined Benefit Plan Liabilities

As described in Accounting Policy 11.2, *Employee Benefits – Post-employment Benefits*, the municipality obtains actuarial valuations of its Defined Benefit Plan Liabilities. The defined benefit obligations of the municipality that were identified are Post-retirement Health Benefit Obligations and Long-service Awards. The estimated liabilities are recorded in accordance with the requirements of IAS 19. Details of the liabilities and the key assumptions made by the actuaries in estimating the liabilities are provided in Notes to the Annual Financial Statements.

1.2.8 Provisions and Contingent Liabilities

Management judgement is required when recognising and measuring Provisions and when measuring Contingent Liabilities. Provisions are discounted where the effect of discounting is material using actuarial valuations.

1.2.9 Budget Information

Deviations between budget and actual amounts are regarded as material differences, when a 5% deviation exists for Operating Transactions and a 10% deviation exists for Capital Transactions. All material differences are explained in Notes to the Annual Financial Statements.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

1. BASIS OF PRESENTATION (continued)

1.3 Presentation Currency

The Annual Financial Statements are presented in South African Rand, rounded off to the nearest Rand which is the municipality's functional currency.

1.4 Going Concern Assumption

The Annual Financial Statements have been prepared on a *Going Concern Basis*.

1.5 Offsetting

Assets, Liabilities, Revenues and Expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

1.6 Standards, Amendments to Standards and Interpretations Issued but not yet Effective

The following GRAP standard has been issued but is not yet effective and has been early adopted by the municipality:

- ◆ GRAP 104 Financial Instruments - issued October 2009

GRAP 104 will be effective for the period starting after 1 April 2012. The municipality elected to adopt the standard during the 2010/11 financial year.

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality:

- ◆ GRAP 18 Segment Reporting - issued March 2005
- ◆ GRAP 20 Related Party Disclosures - revised
- ◆ GRAP 21 Impairment of Non-cash-generating Assets - issued March 2009
- ◆ GRAP 23 Revenue from Non-Exchange Transactions (Taxes and Transfers) - issued February 2008
- ◆ GRAP 24 Presentation of Budget Information in Financial Statements - issued November 2007
- ◆ GRAP 25 Employee Benefits - issued December 2009
- ◆ GRAP 26 Impairment of Cash-generating Assets - issued March 2009
- ◆ GRAP 103 Heritage Assets - issued July 2008
- ◆ GRAP 105 Transfers between Entities under common control - issued November 2010
- ◆ GRAP 106 Transfers between Entities not under common control - issued November 2010
- ◆ GRAP 107 Mergers - issued November 2010

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

1. BASIS OF PRESENTATION (continued)

1.6 Standards, Amendments to Standards and Interpretations Issued but not yet Effective (continued)

Application of all of the aforementioned GRAP standards will be effective from a date to be announced by the Minister of Finance, who announced that the application of GRAP 21, GRAP 23, GRAP 24, GRAP 26, GRAP 103 and GRAP 104 will be effective for the period starting after 1 April 2012. All other standards as listed above will only be effective on a date to be announced by the Minister of Finance.

The ASB Directive 5, paragraph 29, sets out the principles for the application of the GRAP 3 guidelines in the determination of the GRAP Reporting Framework hierarchy as set out in the standard of GRAP 3 on *Accounting Policies, Changes in Accounting Estimates and Errors*.

Where a standard of GRAP is approved as effective, it replaces the equivalent statement of International Public Sector Accounting Standards Board, International Financial Reporting Standards or Generally Accepted Accounting Principles. Where a standard of GRAP has been issued but is not yet in effect, the municipality may select to apply the principles established in that standard in developing an appropriate Accounting Policy dealing with a particular section or event before applying paragraph 12 of the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors.

The municipality applied the principles established in the following Standards of GRAP that have been issued but are not yet effective, in developing appropriate Accounting Policies dealing with the following transactions, but have not early adopted these Standards:

- ◆ Impairment of Non-cash-generating Assets (GRAP 21 - issued March 2009)
- ◆ Revenue from Non-Exchange Transactions (GRAP 23 - issued February 2008)
- ◆ Impairment of Cash-generating Assets (GRAP 26 - issued March 2009)
- ◆ Financial Instruments (GRAP 104 - issued October 2009)

Management has considered all of the above-mentioned GRAP Standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

2. ACCUMULATED SURPLUS

Included in the Accumulated Surplus of the municipality are the following Reserves that are maintained in terms of specific requirements:

2.1 Capital Replacement Reserve (CRR)

In order to finance the provision of Infrastructure and other items of Property, Plant and Equipment from internal sources, amounts are transferred from the Accumulated Surplus/(Deficit) to the CRR in terms of delegated powers.

The following provisions are set for the creation and utilisation of the CRR:

- ◆ The cash funds that back up the CRR are invested until utilised. The cash may only be invested in accordance with the Investment Policy of the municipality.
- ◆ The CRR may only be utilised for the purpose of purchasing items of Property, Plant and Equipment and may not be used for the maintenance of these items.
- ◆ Whenever an asset is purchased out of the CRR, an amount equal to the cost price of the asset is transferred from the CRR and the Accumulated Surplus/(Deficit) is credited by a corresponding amount.
- ◆ If a profit is made on the sale of assets other than land, the profit on these assets is reflected in the Statement of Financial Performance and is then transferred, via the Statement of Changes in Net Assets, to the CRR, provided that it is cash backed. Profit on the sale of land is not transferred to the CRR as it is regarded as revenue.

2.2 Capitalisation Reserve

On the implementation of GRAP, the balance on certain funds, created in terms of the various Provincial Ordinances applicable at the time, that had historically been utilised for the acquisition of items of Property, Plant and Equipment were transferred to a Capitalisation Reserve rather than the Accumulated Surplus/(Deficit) in terms of a directive (Circular No 18) issued by National Treasury. The purpose of this Reserve is to promote consumer equity by ensuring that the future depreciation expenses that will be incurred over the useful lives of these items of Property, Plant and Equipment are offset by transfers from this Reserve to the Accumulated Surplus/(Deficit).

The balance on the Capitalisation Reserve equals the carrying value of the items of Property, Plant and Equipment financed from the former legislated funds. When items of Property, Plant and Equipment are depreciated, a transfer is made from the Capitalisation Reserve to the Accumulated Surplus/(Deficit).

When an item of Property, Plant and Equipment is disposed, the balance in the Capitalisation Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

2. ACCUMULATED SURPLUS (continued)

2.3 Donations and Public Contributions Reserve

When items of Property, Plant and Equipment are financed from public contributions and donations, a transfer is made from the Accumulated Surplus/(Deficit) to the Donations and Public Contributions Reserve equal to the donations and public contributions recorded as revenue in the Statement of Financial Performance in accordance with a directive (Circular No 18) issued by National Treasury. When such items of Property, Plant and Equipment are depreciated, a transfer is made from the Donations and Public Contributions Reserve to the Accumulated Surplus/(Deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of Property, Plant and Equipment financed from donations and public contributions.

When an item of Property, Plant and Equipment financed from donations and public contributions is disposed, the balance in the Donations and Public Contributions Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

2.4 Government Grants Reserve

When items of Property, Plant and Equipment are financed from government grants, a transfer is made from the Accumulated Surplus/(Deficit) to the Government Grants Reserve equal to the government grants recorded as revenue in the Statement of Financial Performance in accordance with a directive (Circular No 18) issued by National Treasury. When such items of Property, Plant and Equipment are depreciated, a transfer is made from the Government Grants Reserve to the Accumulated Surplus/(Deficit). The purpose of this policy is to promote community equity and facilitate budgetary control by ensuring that sufficient funds are set aside to offset the future depreciation charges that will be incurred over the estimated useful life of the item of Property, Plant and Equipment financed from government grants.

When an item of Property, Plant and Equipment financed from government grants is disposed, the balance in the Government Grants Reserve relating to such item is transferred to the Accumulated Surplus/(Deficit).

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

3. PROPERTY, PLANT AND EQUIPMENT

3.1 Initial Recognition

Property, Plant and Equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of Property, Plant and Equipment is recognised as an asset if, and only if, it is probable that future economic benefits or service potential associated with the item will flow to the municipality, and if the cost or fair value of the item can be measured reliably.

Property, Plant and Equipment are initially recognised at cost on its acquisition date or in the case of assets acquired by grants or donations, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of Property, Plant and Equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of Property, Plant and Equipment have different useful lives, they are accounted for as separate items (major components) of Property, Plant and Equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an item of Property, Plant and Equipment acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

Major spare parts and servicing equipment qualify as Property, Plant and Equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of Property, Plant and Equipment, they are accounted for as Property, Plant and Equipment.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

3. PROPERTY, PLANT AND EQUIPMENT (continued)

3.2 Subsequent Measurement

Subsequent expenditure relating to Property, Plant and Equipment is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the municipality and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all Property Plant and Equipment are measured at cost (or deemed cost), less accumulated depreciation and accumulated impairment losses.

Compensation from third parties for items of Property, Plant and Equipment that were impaired, lost or given up is included in surplus or deficit when the compensation becomes receivable.

3.3 Depreciation

Depreciation on assets other than land is calculated on cost, using the *Straight-line Method*, to allocate their cost or revalued amounts to their residual values over the estimated useful lives of the assets. The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. Each part of an item of Property, Plant and Equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

3. PROPERTY, PLANT AND EQUIPMENT (continued)

3.3 Depreciation (continued)

Depreciation only commences when the asset is available for use, unless stated otherwise. The depreciation rates are based on the following estimated useful lives:

Asset Class	Years	Asset Class	Years
Buildings		Other	
Improvements	5 - 30	Bins and Containers	5 - 15
		Computer Equipment	3 - 10
Infrastructure		Emergency Equipment	3 - 10
Roads and Paving	3 - 100	Furniture and Fittings	3 - 15
Security Measures	7 - 25	Motor Vehicles	4 - 15
Sewerage	7 - 60	Office Equipment	3 - 15
Water	5 - 100	Plant and Equipment	2 - 15
		Specialist Vehicles	10 - 15
Community			
Community Facilities	5 - 30		
Recreational Facilities	10 - 30		

The assets' residual values, estimated useful lives and depreciation method are reviewed annually and adjusted prospectively, if appropriate, at each reporting date.

3.4 Land

Land is stated at historical cost and is not depreciated as it is deemed to have an indefinite useful life.

3.5 Infrastructure Assets

Infrastructure Assets are any assets that are part of a network of similar assets. Infrastructure Assets are shown at cost less accumulated depreciation and accumulated impairment. Infrastructure Assets are treated similarly to all other assets of the municipality in terms of the Asset Management Policy.

3.6 Incomplete Construction Work

Incomplete Construction Work is stated at historical cost. Depreciation only commences when the asset is available for use.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

3. PROPERTY, PLANT AND EQUIPMENT (continued)

3.7 Derecognition of Property, Plant and Equipment

The carrying amount of an item of Property, Plant and Equipment is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of an item of Property, Plant and Equipment is included in surplus or deficit when the item is derecognised. Gains are not classified as revenue.

Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated depreciation and accumulated impairment losses) and the proceeds from disposals are included in the Statement of Financial Performance as a gain or loss on disposal of Property, Plant and Equipment.

4. INTANGIBLE ASSETS

4.1 Initial Recognition

Identifiable non-monetary assets without physical substance are classified and recognised as Intangible Assets. The municipality recognises an Intangible Asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated Intangible Assets are subject to strict recognition criteria before they are capitalised. Research expenditure is recognised as an expense as incurred. Costs incurred on development projects (relating to the design and testing of new or improved products) are recognised as Intangible Assets when the following criteria are fulfilled:

- ◆ It is technically feasible to complete the Intangible Asset so that it will be available for use;
- ◆ Management intends to complete the Intangible Asset and use or sell it;
- ◆ There is an ability to use or sell the Intangible Asset;
- ◆ It can be demonstrated how the Intangible Asset will generate probable future economic benefits;
- ◆ Adequate technical, financial and other resources to complete the development and to use or sell the Intangible Asset are available; and
- ◆ The expenditure attributable to the Intangible Asset during its development can be reliably measured.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

4. INTANGIBLE ASSETS (continued)

4.1 Initial Recognition (continued)

Other development expenditures that do not meet these criteria are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period. Capitalised development costs are recorded as Intangible Assets and amortised from the point at which the asset is ready for use on a *Straight-line Basis* over its useful life, not exceeding five years. Development assets are tested for impairment annually, in accordance with GRAP 21 / GRAP 26.

Intangible Assets are initially recognised at cost. The cost of an Intangible Asset is the purchase price and other costs attributable to bring the Intangible Asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality, or where an Intangible Asset is acquired at no cost, or for a nominal cost, the cost shall be its fair value as at the date of acquisition. Trade discounts and rebates are deducted in arriving at the cost. Intangible Assets acquired separately or internally generated are reported at cost less accumulated amortisation and accumulated impairment losses.

The cost of an Intangible Asset acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets, is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up. If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

4.2 Subsequent Measurement, Amortisation and Impairment

After initial recognition, Intangible Assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Expenditure on an intangible item that was initially recognised as an expense shall not be recognised as part of the cost of an Intangible Asset at a later date.

In terms of GRAP 102, Intangible Assets are distinguished between internally generated Intangible Assets and other Intangible Assets. It is further distinguished between indefinite or finite useful lives. Amortisation is charged on a *Straight-line Basis* over the Intangible Assets' useful lives. The residual value of Intangible Assets with finite useful lives is zero, unless an active market exists. Where Intangible Assets are deemed to have indefinite useful lives, such Intangible Assets are not amortised. However, such Intangible Assets are subject to an annual impairment test.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

4. INTANGIBLE ASSETS (continued)

4.2 Subsequent Measurement, Amortisation and Impairment (continued)

Amortisation only commences when the asset is available for use, unless stated otherwise. The amortisation rates are based on the following estimated useful lives:

Asset Class	Years	Asset Class	Years
Computer Software	2 - 5	Licences	2 - 5

Intangible Assets are annually tested for impairment, including Intangible Assets not yet available for use. Where items of Intangible Assets have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. The impairment loss is the difference between the carrying amount and the recoverable service amount.

The estimated useful life, residual values and amortisation method are reviewed annually at the end of the financial year. Any adjustments arising from the annual review are applied prospectively as a Change in Accounting Estimate in the Statement of Financial Performance.

4.3 Derecognition

Intangible Assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an Intangible Asset is determined as the difference between the proceeds of disposal and the carrying value and is recognised in the Statement of Financial Performance.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

5. IMPAIRMENT OF ASSETS

The municipality classifies all assets held with the primary objective of generating a commercial return as *Cash Generating Assets*. All other assets are classified as *Non-cash Generating Assets*.

5.1 Impairment of Cash Generating Assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash generating unit is the higher of its fair value less costs to sell and its value in use. The best evidence of fair value less cost to sell is the price in a binding sale agreement in an arm's length transaction, adjusted for the incremental cost that would be directly attributable to the disposal of the asset.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

An impairment loss is recognised for cash generating units if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- ◆ To the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

5. IMPAIRMENT OF ASSETS (continued)

5.2 Impairment of Non-cash Generating Assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the non-cash generating unit to which the asset belongs is determined.

The recoverable service amount of a non-cash generating asset is the higher of its fair value less costs to sell and its value in use. The value in use for a non-cash generating asset is the present value of the asset's remaining service potential.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

An impairment loss is recognised for non-cash generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- ◆ To the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

6. FINANCIAL INSTRUMENTS

The municipality has various types of Financial Instruments and these can be broadly categorised as either *Financial Assets*, *Financial Liabilities* or *Residual Interests* in accordance with the substance of the contractual agreement.

Initial Recognition

Financial Assets and Financial Liabilities are recognised on the municipality's Statement of Financial Position when it becomes party to the contractual provisions of the instrument.

The municipality does not offset a Financial Asset and a Financial Liability unless a legally enforceable right to set off the recognised amounts currently exist and the municipality intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Fair Value Methods and Assumptions

The fair values of Financial Instruments are determined as follows:

- ◆ The fair values of quoted investments are based on current bid prices.
- ◆ If the market for a Financial Asset is not active (and for unlisted securities), the municipality establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

The Effective Interest Rate Method

The Effective Interest Method is a method of calculating the amortised cost of a Financial Asset or a Financial Liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the Financial Instrument or, when appropriate, a shorter period to the net carrying amount of the Financial Asset or Financial Liability.

Amortised Cost

Amortised Cost is the amount at which the Financial Asset or Financial Liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation, using the *Effective Interest Rate Method* of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectability.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

6. FINANCIAL INSTRUMENTS (continued)

6.1 *Financial Assets – Classification*

A Financial Asset is any asset that is a cash or contractual right to receive cash.

In accordance with GRAP 104 the *Financial Assets* of the municipality are classified as follows into the three categories allowed by this standard:

- ◆ **Financial Assets measured at Amortised Cost** are non-derivative Financial Assets with fixed or determinable payments that are not quoted in an active market. They are included in Current Assets, except for maturities greater than 12 months, which are classified as Non-current Assets. Financial Assets at Amortised Cost are initially recognised at fair value plus transaction costs that are directly attributable to the acquisition or issue of the Financial Asset. After initial recognition, Financial Assets are measured at amortised cost, using the *Effective Interest Rate Method* less a provision for impairment.
- ◆ **Financial Assets measured at Fair Value** are financial assets that meet either of the following conditions:
 - (i) Derivatives;
 - (ii) Combined instruments that are designated at fair value;
 - (iii) Instruments held for trading;
 - (iv) Non-derivative Financial Instruments with fixed or determinable payments that are designated at fair value at initial recognition; or
 - (v) Financial Instruments that do not meet the definition of Financial Instruments at Amortised Cost or Financial Instruments at Cost.
- ◆ **Financial Assets measured at Cost** are investments in Residual Interest that do not have a quoted market price in an active market and whose fair value cannot be reliably measured.

The municipality has the following types of Financial Assets as reflected on the face of the Statement of Financial Position or in the Notes thereto:

Type of Financial Asset	Classification in terms of GRAP 104
Long-term Receivables	Financial Assets at Amortised Cost
Receivables from Exchange Transactions	Financial Assets at Amortised Cost
Receivables from Non-exchange Transactions	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Notice Deposits	Financial Assets at Amortised Cost
Bank, Cash and Cash Equivalents – Call Deposits	Financial Assets at Fair Value
Bank, Cash and Cash Equivalents	Financial Assets at Fair Value

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

6. FINANCIAL INSTRUMENTS (continued)

6.1 Financial Assets (continued)

Cash includes cash-on-hand (including petty cash) and cash with banks (including call deposits). Cash Equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, which are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the Cash Flow Statement, Cash and Cash Equivalents comprise cash-on-hand and deposits held on call with banks, net of bank overdrafts. The municipality categorises Cash and Cash Equivalents as Financial Assets at Fair Value.

6.2 Financial Liabilities – Classification

A Financial Liability is a contractual obligation to deliver cash or another Financial Asset to another entity.

There are three main categories of *Financial Liabilities*, the classification determining how they are measured. Financial Liabilities may be measured at:

- (i) Financial Liabilities measured at Fair Value;
- (ii) Financial Liabilities measured at Amortised Cost; or
- (iii) Financial Liabilities measured at Cost.

The municipality has the following types of Financial Liabilities as reflected on the face of the Statement of Financial Position or in the Notes thereto:

Type of Financial Asset	Classification in terms of GRAP 104
Long-term Liabilities, including Finance Leases	Financial Liabilities at Amortised Cost
Payables	Financial Liabilities at Amortised Cost
Current portion of Long-term Liabilities	Financial Liabilities at Amortised Cost
Bank Overdraft	Financial Liabilities at Fair Value

Financial Liabilities that are measured at Fair Value are Financial Liabilities that are essentially held for trading (i.e. purchased with the intention to sell or repurchase in the short term; derivatives other than hedging instruments or are part of a portfolio of Financial Instruments where there is recent actual evidence of short-term profiteering or are derivatives).

Bank Overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

6. FINANCIAL INSTRUMENTS (continued)

6.3 *Initial and Subsequent Measurement*

6.3.1 Financial Assets:

Financial Assets measured at Amortised Cost

Financial Assets at Amortised Cost are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of the Financial Asset. Subsequently, these assets are measured at amortised cost using the *Effective Interest Method* less any impairment, with interest recognised on an *Effective Yield Basis*.

Trade and Other Receivables (excluding Value Added Taxation, Prepayments and Operating Lease receivables), Loans to Municipal Entities and Loans that have fixed and determinable payments that are not quoted in an active market are classified as *Financial Assets at Amortised Cost*.

Financial Assets measured at Fair Value

Financial Assets at Fair Value are initially measured at fair value plus directly attributable transaction costs. They are subsequently measured at fair value with unrealised gains or losses recognised directly in equity until the investment is derecognised, at which time the cumulative gain or loss recorded in equity is recognised in the Statement of Financial Performance, or determined to be impaired, at which time the cumulative loss recorded in equity is recognised in the Statement of Financial Performance.

6.3.2 Financial Liabilities:

Financial Liabilities measured at Fair Value

Financial Liabilities at Fair Value are stated at fair value, with any resulted gain or loss recognised in the Statement of Financial Performance.

Financial Liabilities measured at Amortised Cost

Any other Financial Liabilities are classified as *Other Financial Liabilities* (All Payables, Loans and Borrowings are classified as Other Liabilities) and are initially measured at fair value, net of transaction costs. Trade and Other Payables, Interest-bearing Debt including Finance Lease Liabilities, Non-interest-bearing Debt and Bank Borrowings are subsequently measured at amortised cost using the *Effective Interest Rate Method*. Interest expense is recognised in the Statement of Financial Performance by applying the effective interest rate.

Bank Borrowings, consisting of interest-bearing short-term bank loans, repayable on demand and overdrafts are recorded at the proceeds received. Finance costs are accounted for using the *Accrual Basis* and are added to the carrying amount of the bank borrowing to the extent that they are not settled in the period that they arise.

Prepayments are carried at cost less any accumulated impairment losses.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

6. FINANCIAL INSTRUMENTS (continued)

6.4 Impairment of Financial Assets

Financial Assets, other than those at fair value, are assessed for indicators of impairment at the end of each reporting period. Financial Assets are impaired where there is objective evidence of impairment of Financial Assets (such as the probability of insolvency or significant financial difficulties of the debtor). If there is such evidence the recoverable amount is estimated and an impairment loss is recognised in accordance with GRAP 104.

6.4.1 Financial Assets at Amortised Cost:

Accounts Receivables encompass Long-term Debtors, Receivables from Exchange Transactions (Consumer Debtors) and Receivables from Non-exchange Transactions (Other Debtors).

Initially Accounts Receivable are valued at fair value and subsequently carried at amortised cost using the *Effective Interest Rate Method*. An estimate is made for doubtful debt based on past default experience of all outstanding amounts at year-end. Bad debts are written off the year in which they are identified as irrecoverable. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of Accounts Receivables is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables. The provision is made in accordance with GRAP 104 whereby the recoverability of accounts receivable is assessed individually and then collectively after grouping the assets in financial assets with similar credit risk characteristics. The amount of the provision is the difference between the Financial Asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Future cash flows in a group of Financial Assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Cash flows relating to short-term receivables are not discounted where the effect of discounting is immaterial.

Government accounts are not provided for as such accounts are regarded as receivable.

The carrying amount of the Financial Asset is reduced by the impairment loss directly for all Financial Assets carried at Amortised Cost with the exception of Consumer Debtors, where the carrying amount is reduced through the use of an allowance account. When a Consumer Debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against revenue. Changes in the carrying amount of the allowance account are recognised in the Statement of Financial Performance.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

6. FINANCIAL INSTRUMENTS (continued)

6.4 Impairment of Financial Assets (continued)

6.4.2 Financial Assets at Cost

If there is objective evidence that an impairment loss has been incurred on an investment in a Residual Interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the Financial Asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses shall not be reversed.

6.5 Derecognition of Financial Assets

The municipality derecognises Financial Assets only when the contractual rights to the cash flows from the asset expires or it transfers the Financial Asset and substantially all the risks and rewards of ownership of the asset to another entity, except when Council approves the write-off of Financial Assets due to non recoverability.

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred Financial Asset, the municipality continues to recognise the Financial Asset and also recognises a collateralised borrowing for the proceeds received.

6.6 Derecognition of Financial Liabilities

The municipality derecognises Financial Liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

The municipality recognises the difference between the carrying amount of the Financial Liability (or part of a Financial Liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

7. INVENTORIES

7.1 Initial Recognition

Inventories comprise current assets held-for-sale, current assets for consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the Inventories to their current location and condition. Where Inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where Inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

Direct costs relating to properties that will be sold as Inventory are accumulated for each separately identifiable development. Costs also include a proportion of overhead costs.

7.2 Subsequent Measurement

7.2.1 Consumable Stores, Raw Materials, Work-in-Progress and Finished Goods:

Consumable stores, raw materials, work-in-progress and finished goods are valued at the lower of cost and net realisable value (net amount that the municipality expects to realise from the sale on Inventory in the ordinary course of business). In general, the basis of determining cost is the weighted average cost of commodities. If Inventories are to be distributed at no charge or for a nominal charge, they are valued at the lower of cost and current replacement cost.

7.2.2 Water Inventory:

Water is regarded as Inventory when the municipality purchases water in bulk with the intention to resell it to the consumers or to use it internally, or where the municipality has incurred purification costs on water obtained from natural resources (rain, rivers, springs, boreholes, etc). However, water in dams, that are filled by natural resources and that has not yet been treated, that is under the control of the municipality but cannot be measured reliably as there is no cost attached to the water, is therefore not recognised in the Statement of Financial Position.

The basis of determining the cost of water purchased and not yet sold at Statement of Financial Position date comprises all costs of purchase, cost of conversion and other costs incurred in bringing the Inventory to its present location and condition, net of trade discounts and rebates.

Water and purified effluent are valued by using the *FIFO Method*, at the lowest of purified cost and net realisable value, insofar as it is stored and controlled in reservoirs at year-end. The services have been discontinued as at 30 June 2011.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

7. INVENTORIES (continued)

7.2 *Subsequent Measurement (continued)*

7.2.3 Unsold Properties:

Unsold properties are valued at the lower of cost and net realisable value on a *Weighted Average Cost Basis*. Direct costs are accumulated for each separately identifiable development. Cost also includes a portion of overhead costs, if this relates to development.

7.2.4 Other Arrangements:

Redundant and slow-moving Inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values and sold by public auction. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. Differences arising on the measurement of such Inventory at the lower of cost and net realisable value are recognised in the Statement of Financial Performance in the year in which they arise. The amount of any reversal of any write-down of Inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of Inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of Inventories is recognised as an expense in the period that the Inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

8. NON-CURRENT ASSETS HELD-FOR-SALE

8.1 *Initial Recognition*

Non-current Assets and Disposal Groups are classified as held-for-sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

8. NON-CURRENT ASSETS HELD-FOR-SALE (continued)

8.2 Subsequent Measurement

Non-current Assets and Disposal Groups classified as held-for-sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held-for-sale, or while it is part of a disposal group classified as held-for-sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held-for-sale are recognised in surplus or deficit.

The gain or loss on the eventual sale of non-current assets held-for-sale is included in the Statement of Financial Performance as gain or loss on sale of assets. The gain or loss on the eventual sale of non-current assets held-for-sale is calculated on the difference between the net disposal proceeds and the carrying amount of the individual asset or the disposal group.

9. REVENUE RECOGNITION

9.1 General

Revenue is derived from a variety of sources which include rates levied, grants from other tiers of government and revenue from trading activities and other services provided.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the municipality's activities. Revenue is shown net of value-added tax, returns, rebates and discounts.

The municipality recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits or service potential will flow to the municipality and when specific criteria have been met for each of the municipality's activities as described below, except when specifically stated otherwise. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The municipality bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. Furthermore, services rendered are recognised by reference to the stage of completion of the transaction at the reporting date.

Revenue from *Exchange Transactions* refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

9. REVENUE RECOGNITION (continued)

9.1 General (continued)

Revenue from *Non-exchange Transactions* refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

9.2 Revenue from Exchange Transactions

9.2.1 Service Charges

Service Charges are levied in terms of approved tariffs.

Service Charges relating to water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without it being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Service charges from sewerage and sanitation are based on the type of service and the number of sewer connections on all developed property, using the tariffs approved by Council and are levied monthly.

In circumstances where services cannot readily be measured and quantified, a flat rate service charge is levied monthly on such properties.

The services have been discontinued as at 30 June 2011.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

9. REVENUE RECOGNITION (continued)

9.2 Revenue from Exchange Transactions (continued)

9.2.2 Finance Income

Interest earned on investments is recognised in the Statement of Financial Performance on the *Time-proportionate Basis* that takes into account the effective yield on the investment.

Interest earned on the following investments is not recognised in the Statement of Financial Performance:

- ◆ Interest earned on Unspent Conditional Grants is allocated directly to the Creditor: Unspent Conditional Grants, if the grant conditions indicate that interest is payable to the funder.

9.2.3 Rentals Received

Revenue from the rental of facilities and equipment is recognised on a *Straight-line Basis* over the term of the lease agreement.

9.2.4 Tariff Charges

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant authorised tariff.

9.2.5 Sale of Goods

Revenue from the sale of goods is recognised when all the following conditions have been met:

- ◆ The municipality has transferred to the buyer the significant risks and rewards of ownership of the goods;
- ◆ The municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- ◆ The amount of revenue can be measured reliably;
- ◆ It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- ◆ The costs incurred or to be incurred in respect of the transaction can be measured reliably.

The services have been discontinued as at 30 June 2011.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

9. REVENUE RECOGNITION (continued)

9.2 Revenue from Exchange Transactions (continued)

9.2.6 Revenue from Agency Services

Revenue for agency services is recognised on a monthly basis once the revenue collected on behalf of agents has been quantified. The revenue recognised is in terms of the agency agreement.

The services have been discontinued as at 30 June 2011.

9.3 Revenue from Non-exchange Transactions

An inflow of resources from a *Non-exchange Transaction*, that meets the definition of an asset shall be recognised as an asset when it is probable that the future economic benefits or service potential associated with the asset will flow to the municipality and the fair value of the asset can be measured reliably. The asset shall be recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

A present obligation arising from a *Non-exchange Transaction* that meets the definition of a liability will be recognised as a liability when it is probable that an outflow of economic benefit will be required to settle the obligation and a reliable estimate of the amount can be made.

9.3.1 Fines

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when payment is received, together with the management's best estimate of the probable inflows from spot fines and summonses that will be received based on past experience of amounts collected.

9.3.2 Public Contributions

Donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

9. REVENUE RECOGNITION (continued)

9.3 Revenue from Non-exchange Transactions (continued)

9.3.2 Public Contributions (continued)

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

Assets acquired from non-exchange transactions are measured at fair value in accordance with the Standards of GRAP.

9.3.3 Government Grants and Receipts

Conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the municipality with no future related costs, are recognised in the Statement of Financial Performance in the period in which they become receivable.

Interest earned on investments is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor and if it is the municipality's interest, it is recognised as interest earned in the Statement of Financial Performance.

Revenue is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

9.3.4 Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain. Such revenue is based on legislated procedures.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

10. PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the obligation.

The best estimate of the expenditure required to settle the present obligation is the amount that the municipality would rationally pay to settle the obligation at the reporting date or to transfer it to a third party at that time and are determined by the judgment of the management of the municipality, supplemented by experience of similar transactions and, in some cases, reports from independent experts. The evidence considered includes any additional evidence provided by events after the reporting date. Uncertainties surrounding the amount to be recognised as a provision are dealt with by various means according to the circumstances. Where the provision being measured involves a large population of items, the obligation is estimated by weighting all possible outcomes by their associated probabilities.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision. An onerous contract is a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it – this unavoidable cost resulting from the contract is the amount of the provision to be recognised.

Provisions are reviewed at reporting date and the amount of a provision is the present value of the expenditure expected to be required to settle the obligation. When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the Statement of Financial Performance as a finance cost as it occurs.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

11. EMPLOYEE BENEFITS

11.1 Short-term Employee Benefits

Remuneration to employees is recognised in the Statement of Financial Performance as the services are rendered, except for non-accumulating benefits which are only recognised when the specific event occurs.

The municipality has opted to treat its provision for leave pay as an accrual.

The costs of all short-term employee benefits such as leave pay, are recognised during the period in which the employee renders the related service. The liability for leave pay is based on the total accrued leave days at year end and is shown as a creditor in the Statement of Financial Position. The municipality recognises the expected cost of performance bonuses only when the municipality has a present legal or constructive obligation to make such payment and a reliable estimate can be made.

11.2 Post-employment Benefits

The municipality provides retirement benefits for its employees and councillors, and has both defined benefit and defined contribution post-employment plans.

11.2.1 Defined Contribution Plans

A **defined contribution plan** is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods.

The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the Statement of Financial Performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

11. EMPLOYEE BENEFITS (continued)

11.2 Post-employment Benefits (continued)

11.2.2 Defined Benefit Plans

A **defined benefit plan** is a post-employment benefit plan other than a defined contribution plan.

Post-retirement Health Care Benefits:

The municipality has an obligation to provide Post-retirement Health Care Benefits to certain of its retirees. According to the rules of the Medical Aid Funds with which the municipality is associated, a member (who is on the current Conditions of Service), on retirement, is entitled to remain a continued member of the Medical Aid Fund, in which case the municipality is liable for a certain portion of the medical aid membership fee. Not all Medical Aid Funds, with which the municipality is associated, provide for continued membership.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and unrecognised actuarial gains and losses, reduced by unrecognised past service costs. The plan is unfunded. The present value of the defined benefit obligation is calculated using the *Projected Unit Credit Method*, incorporating actuarial assumptions and a discount rate based on the government bond rate. Valuations of these obligations are carried out every year by independent qualified actuaries.

Actuarial gains or losses are accounted for using the *Corridor Method*. Actuarial gains and losses are eligible for recognition in the Statement of Financial Performance to the extent that they exceed 10 per cent of the present value of the gross defined benefit obligations in the scheme at the end of the previous reporting period. Actuarial gains and losses exceeding 10 per cent are spread over the expected average remaining working lives of the employees participating in the scheme.

Past-service costs are recognised immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortised on a *Straight-line Basis* over the vesting period.

Long-service Allowance:

The municipality has an obligation to provide Long-service Allowance Benefits to all of its employees. According to the rules of the Long-service Allowance Scheme, which the municipality instituted and operates, an employee (who is on the current Conditions of Service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 10, 15, 20, 25 and 30 years of continued service. The municipality's liability is based on an actuarial valuation. *The Projected Unit Credit Method* is used to value the liabilities. Actuarial gains and losses on the long-term incentives are accounted for through the Statement of Financial Performance.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

11. EMPLOYEE BENEFITS (continued)

11.2 Post-employment Benefits (continued)

11.2.2 Defined Benefit Plans (continued)

Provincially-administered Defined Benefit Plans:

The municipality contributes to various National- and Provincial-administered Defined Benefit Plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable. These defined benefit funds are actuarially valued triennially on the *Projected Unit Credit Method* basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

Defined Benefit Pension Plans:

The municipality has an obligation to provide Post-retirement Pension Benefits to certain of its retirees. Pension contributions in respect of employees who were not members of a pension fund are recognised as an expense when incurred. Staff provident funds are maintained to accommodate personnel who, due to age, cannot join or be part of the various pension funds. The municipality contributes monthly to the funds.

The liability recognised in the Statement of Financial Position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, together with adjustments for unrecognised past-service costs. The defined benefit obligation is calculated annually by independent actuaries using the *Projected Unit Credit Method*. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains or losses are accounted for using the *Corridor Method*. Actuarial gains and losses are eligible for recognition in the Statement of Financial Performance to the extent that they exceed 10 per cent of the present value of the gross defined benefit obligations in the scheme at the end of the previous reporting period. Actuarial gains and losses exceeding 10 per cent are spread over the expected average remaining working lives of the employees participating in the scheme.

Past-service costs are recognised immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortised on a *Straight-line Basis* over the vesting period.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

12. LEASES

12.1 Classification

Leases are classified as **Finance Leases** where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality.

Leases of property, plant and equipment, in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as **Operating Leases**.

12.2 The Municipality as Lessee

12.2.1 Operating Leases

The municipality recognises operating lease rentals as an expense in the Statement of Financial Performance on a *Straight-line Basis* over the term of the relevant lease. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a *Straight-line Basis*, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

12.3 The Municipality as Lessor

Amounts due from lessees under finance leases or instalment sale agreements are recorded as receivables at the amount of the municipality's net investment in the leases. Finance lease or instalment sale revenue is allocated to accounting periods so as to reflect a constant periodic rate of return on the municipality's net investment outstanding in respect of the leases or instalment sale agreements.

Operating lease rental revenue is recognised on a *Straight-line Basis* over the term of the relevant lease.

CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)

13. GRANTS-IN-AID

The municipality transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the municipality does not:

- ◆ Receive any goods or services directly in return, as would be expected in a purchase or sale transaction;
- ◆ Expect to be repaid in future; or
- ◆ Expect a financial return, as would be expected from an investment.

These transfers are recognised in the Statement of Financial Performance as expenses in the period that the events giving rise to the transfer occurred.

14. VALUE ADDED TAX

The Municipality accounts for Value Added Tax on the *Payments Basis* in accordance with section 15(2)(a) of the Value-Added Tax Act (Act No 89 of 1991).

15. UNAUTHORISED EXPENDITURE

Unauthorised Expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state, and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No 56 of 2003). All expenditure relating to Unauthorised Expenditure is accounted for as an expense in the Statement of Financial Performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the Council, it is treated as an asset until it is recovered or written off as irrecoverable.

16. IRREGULAR EXPENDITURE

Irregular Expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No 56 of 2003), the Municipal Systems Act (Act No 32 of 2000), the Public Office Bearers Act (Act No 20 of 1998), or is in contravention of the Municipality's or Municipal Entities' Supply Chain Management Policies. Irregular Expenditure excludes Unauthorised Expenditure. Irregular Expenditure is accounted for as an expense in the Statement of Financial Performance in the period it occurred and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the Council, it is treated as an asset until it is recovered or written off as irrecoverable.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

17. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and Wasteful Expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. All expenditure relating to Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance. If the expenditure is not condoned by the Council, it is treated as an asset until it is recovered or written off as irrecoverable.

18. CHANGES IN ACCOUNTING POLICIES, ESTIMATES AND ERRORS

Changes in Accounting Policies that are affected by management have been applied retrospectively in accordance with GRAP 3 requirements, except to the extent that it is impractical to determine the period-specific effects or the cumulative effect of the change in policy. In such cases the municipality restated the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practical. Details of Changes in Accounting Policies are disclosed in the Notes to the Annual Financial Statements where applicable.

Changes in Accounting Estimates are applied prospectively in accordance with GRAP 3 requirements. Details of changes in estimates are disclosed in the Notes to the Annual Financial Statements where applicable.

Correction of Errors is applied retrospectively in the period in which the error has occurred in accordance with GRAP 3 requirements, except to the extent that it is impractical to determine the period-specific effects or the cumulative effect of the error. In such cases the municipality shall restate the opening balances of assets, liabilities and net assets for the earliest period for which retrospective restatement is practical. Details of Correction of Errors are disclosed in the Notes to the Annual Financial Statements where applicable.

19. TREATMENT OF ADMINISTRATION AND OTHER OVERHEAD EXPENSES

The costs of internal support services are transferred to the various services and departments to whom resources are made available.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

20. CONTINGENT ASSETS AND CONTINGENT LIABILITIES

Contingent Liabilities represent a possible obligation that arises from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality. A contingent liability can also arise as a result of a present obligation that arises from past events but which is not recognised as a liability either because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent Assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality.

Contingent Assets and Contingent Liabilities are not recognised. Contingencies are disclosed in Notes to the Annual Financial Statements.

21. COMMITMENTS

Commitments are future expenditure to which the municipality committed and that will result in the outflow of resources. Commitments are not recognised in the Statement of Financial Position as a liability or as expenditure in the Statement of Financial Performance, but are included in the disclosure Notes. A distinction is made between capital and current commitments.

Commitments are disclosed for:

- ◆ Approved and contracted commitments, where the expenditure has been approved and the contract has been awarded at the reporting date, where disclosure is required by a specific standard of GRAP.
- ◆ Approved but not yet contracted commitments, where the expenditure has been approved and the contract has yet to be awarded or is awaiting finalisation at the reporting date.
- ◆ Items are classified as commitments where the municipality commits itself to future transactions that will normally result in the outflow of resources.
- ◆ Contracts that are entered into before the reporting date, but goods and services have not yet been received are disclosed in the disclosure Notes to the Annual Financial Statements.
- ◆ Other commitments for contracts that are non-cancellable or only cancellable at significant cost, should relate to something other than the business of the municipality.

**CHRIS HANI DISTRICT MUNICIPALITY
ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2012 (continued)**

22. RELATED PARTIES

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Key management personnel is defined as the Municipal Manager, Chief Financial Officer and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

23. EVENTS AFTER THE REPORTING DATE

Events after the reporting date that are classified as adjusting events have been accounted for in the Annual Financial Statements. The events after the reporting date that are classified as Non-adjusting Events after the Reporting Date have been disclosed in Notes to the Annual Financial Statements.

24. COMPARATIVE INFORMATION

24.1 Current Year Comparatives:

In accordance with GRAP 1 Budgeted Amounts have been provided and forms part of the Annual Financial Statements.

24.2 Prior Year Comparatives:

When the presentation or classification of items in the Annual Financial Statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

24.3 Budget Information:

The annual budget figures have been prepared in accordance with the GRAP standard and are consistent with the Accounting Policies adopted by the Council for the preparation of these Annual Financial Statements. The amounts are scheduled as a separate additional financial statement, called the Statement of Comparison of Budget and Actual amounts. Explanatory comment is provided in the statement giving reasons for overall growth or decline in the budget and motivations for over- or under spending on line items. The annual budget figures included in the Annual Financial Statements are for the municipality and do not include budget information relating to subsidiaries or associates. These figures are those approved by the Council at the beginning and during the year following a period of consultation with the public as part of the Integrated Development Plan.

R

1. GENERAL INFORMATION

Chris Hani District Municipality (the municipality) is a local government institution in Queenstown, Eastern Cape, and has 8 local municipalities under its jurisdiction. The addresses of its registered office and principal place of business are disclosed under "General Information" included in the Annual Financial Statements and in the introduction and overview of the Annual Report. The principal activities of the municipality are disclosed in the Annual Report and are prescribed by The Constitution.

2. INVENTORY

Consumable Stores - at cost	712 479	362 387
Maintenance Materials - at cost	24 686	26 773
Spare Parts - at cost	3 146 690	3 086 552
Water - at cost	-	724 994
Total Inventory	3 883 855	4 200 705

Inventories are held for own use with the result that no write downs of Inventory to Net Realisable Value were required.

No Inventories have been pledged as collateral for Liabilities of the municipality.

3. NON-CURRENT ASSETS HELD-FOR-SALE

Property Held-for-Sale - at cost	-	398 217
Net Non-current Assets Held-for-Sale	-	398 217

4. TRADE RECEIVABLES FROM EXCHANGE TRANSACTIONS

	Gross Balances	Provision for Impairment	Net Balances
As at 30 June 2012			
Service Debtors:	-	-	-
Sewerage	-	-	-
Water	-	-	-
Total Trade Receivables from Exchange Transactions	-	-	-

Water	122 854 433	122 854 433	-
Total Trade Receivables from Exchange Transactions	209 293 714	209 293 714	-

Trade Receivables from Exchange Transactions are billed monthly, latest end of month. No interest is charged on trade receivables until the 7th of the following month. Thereafter interest is charged at a rate determined by council on the outstanding balance. The municipality strictly enforces its approved credit control policy to ensure the recovery of Trade Receivables.

The municipality receives applications that it processes. Deposits are required to be paid for all electricity and water accounts opened. There are no consumers who represent more than 5% of the total balance of Trade Receivables.

At 30 June 2012, the municipality is owed R0 (30 June 2011: R3,652) million by National and Provincial Government.

The municipality did not pledge any of its Trade Receivables as security for borrowing purposes.

The average credit period for **Government Grants and Subsidies** is dependent on the Government Department involved and the nature of the claim. No interest is charged on outstanding Government Grants and Subsidies. The subsidies are payable to the municipality due to allocations made in the DORA or based on agreements between the municipality and the relevant departments.

Short-term Loans mainly comprise temporary advances made to local municipalities which are repayable within 12 months.

Included in **Sundry Deposits** is an amount of R1 486 347 (2011: R1 112 121) in respect of cash deposits made to Eskom for the supply of electricity.

Sundry Debtors are in respect of debits outstanding at year-end on normal business transactions entered into by the municipality. Included in the total is an amount of R4 890 (2011: R3 764) in respect of uncleared bank reconciliation items.

The municipality does not hold deposits or other security for its Other Trade Receivables.

None of the Other Trade Receivables have been pledged as security for the municipality's financial liabilities.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

	2012 R	2011 R
5.2 Reconciliation of Provision for Impairment		
Balance at beginning of year	66 571 435	30 200 253
Impairment Losses recognised	(40 979 780)	61 988 538
Impairment Losses reversed	-	-
Amounts written off as uncollectable	(6 275 183)	(25 617 356)
Amounts recovered	-	-
Balance at end of year	19 316 473	66 571 435

The Provision for Impairment on Other Trade Receivables exists predominantly due to the possibility that these debts will not be recovered. Loans and receivables were assessed individually and grouped together at the Statement of Financial Position as financial assets with similar credit risk characteristics and collectively assessed for impairment.

The Provision for Impairment was calculated after grouping all the financial assets of similar nature and risk ratings and assessing the recoverability.

In determining the recoverability of a Debtor, the municipality considers any change in the credit quality of the Debtor from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to the customer base being large and unrelated. Accordingly, the management believe that there is no further credit provision required in excess of the Provision for Impairment.

The following loans and receivables are included in the total amount of the Provision for Impairment :

Government Subsidy Claims	-	2 607 390
Projects	-	60 734
Recoverable Works	-	146 486
Short-term Loans	-	2 311 539
Sundry Debtors	16 029 625	61 445 286
Total Provision for Impairment on Other Debtors	16 029 625	66 571 435
	(3 286 848.54)	

6. VAT RECEIVABLE

Vat Receivable	16 436 009	17 400 329
----------------	-------------------	-------------------

VAT Receivable has been restated to correctly disclose the assets held by the municipality, adjusting VAT Debtor for VAT claimable/payable by the Local Municipalities. The municipality does not have a contractual right to receive/deliver cash in terms of IAS 39, paragraph 9, for VAT and therefore it has been reduced to zero. Refer to Note 38.2 on "Correction of Error" for details of the restatement.

Furthermore, *VAT Receivable* has been restated to correctly disclose the assets held by the municipality, correcting misallocations pointed out by the Auditor-General. Refer to Note 38.2 on "Correction of Error" for details of the restatement.

Vat is payable on the receipts basis. Only once payment is received from debtors, VAT is paid over to SARS.

No interest is payable to SARS if the VAT is paid over timeously, but interest for late payments is charged according to SARS policies. The municipality has financial risk policies in place to ensure that payments are affected before the due date.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

	2012 R	2011 R
7. BANK, CASH AND CASH EQUIVALENTS		
Bank, Cash and Cash Equivalents	297 842 779	383 193 053
Total Bank, Cash and Cash Equivalents	<u>297 842 779</u>	<u>383 193 053</u>

For the purposes of the Statement of Financial Position and the Cash Flow Statement, Bank, Cash and Cash Equivalents include Cash-on-Hand, Cash in Banks and Investments in Money Market Instruments, net of outstanding Bank Overdrafts.

7.1 Current Investment Deposits

Call Deposits	67 729 647	115 786 209
Total Current Investment Deposits	<u>67 729 647</u>	<u>115 786 209</u>

Call Deposits are investments with a maturity period of less than 3 months and earn interest rates varying from 5,50 % to 5,80 % (2011: 4,20% to 4,50%) per annum.

Deposits of R67 729 647 (2011: R115 786 209) are attributable to Unspent Conditional Grants.

7.2 Bank Accounts

Cash in Bank	230 110 932	267 402 304
Total Bank Accounts	<u>230 110 932</u>	<u>267 402 304</u>

The Municipality has the following bank accounts:

Primary Bank Account

First National Bank - Cathcart Road Branch, Queenstown - Account Number 620 0251 0693:

Cash book balance at beginning of year	267 402 304	230 039 619
Cash book balance at end of year	<u>230 110 932</u>	<u>267 402 304</u>
Bank statement balance at beginning of year	143 160 495	224 102 453
Bank statement balance at end of year	<u>256 712 679</u>	<u>143 160 495</u>

An amount of R35 877 711 (2011: R88 985 018) is attributable to Unspent Conditional Grants.

An amount of R46 483 405 (2011: R41 249 349) is attributable to the Capital Replacement Reserve.

Interest is earned at different rates per annum on favourable balances.

7.3 Cash and Cash Equivalents

Cash Floats and Advances	2 200	4 540
Total Cash on hand in Cash Floats, Advances and Equivalents	<u>2 200</u>	<u>4 540</u>

The municipality did not pledge any of its Cash and Cash Equivalents as collateral for its financial liabilities.

No restrictions have been imposed on the municipality in terms of the utilisation of its Cash and Cash Equivalents.

8. OPERATING LEASE ASSETS / RECEIVABLES

The municipality had no long-term arrangements to be classified as operating lease agreements for the two financial years.

Other movements of Property, Plant and Equipment were in respect of assets transferred from Under Construction.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

	2012 R	2011 R
9. PROPERTY, PLANT AND EQUIPMENT (Continued)		
9.1 Gross Carrying Amount of Property, Plant and Equipment that is fully depreciated and still in use		
At Original Cost:		
Infrastructure	4 020 573	4 020 573
Gross Carrying Amount of PPE fully depreciated and still in use	4 020 573	4 020 573
9.2 Carrying Amount of Property, Plant and Equipment retired from active use and held for disposal		
Other	-	398 217
Carrying Amount of PPE retired from active use and held for disposal	-	398 217

9.3 Assets pledged as security

The municipality did not pledge any of its assets as security.

9.4 Impairment of Property, Plant and Equipment

Impairment of Immovable Property, Plant and Equipment was taken into consideration by the consultants, Aurecon, during the process of identifying, componentising and measuring Property, Plant and Equipment and included in the Depreciated Replacement Cost calculated during the exercise. The amounts for Impairment were not calculated separately and therefore no impaired values are disclosed for Immovable Assets.

The total amount of R202 757 disclosed for impairment losses on Property, Plant and Equipment is for a vehicle damaged in an accident. The total amount of R51 375 disclosed for impairment losses on Property, Plant and Equipment for 2010 does not include individually material amounts of impairment losses. Cumulative impairment losses for the following significant account balances are included therein:

Other Assets: Motor Vehicles	-	202 757
Total Impairment of Property, Plant and Equipment	-	202 757

9.5 Change in Estimate - Useful Life of Property, Plant and Equipment reviewed

The Remaining Useful Life of Immovable Property, Plant and Equipment was taken into consideration by the consultants, Aurecon, during the process of identifying, componentising and measuring Property, Plant and Equipment and included in the Depreciated Replacement Cost calculated during the exercise. The amounts for Change in Useful Life were not calculated separately and therefore no changes in values are disclosed.

There was no change (2011: no change) in the Estimated Useful Life of various assets of the municipality for the financial year.

9.6 Land and Buildings carried at Fair Value

The municipality's Land and Buildings are accounted for according to the cost model and therefore no fair value has been determined.

Accumulated Amortisation	(1 717 827)	(2 366 153)	(4 083 980)

The amortisation expense has been included in the line item "Depreciation and Amortisation" in the Statement of Financial Performance (see Note 29).

All of the municipality's Intangible Assets are held under freehold interests and no Intangible Assets had been pledged as security for any liabilities of the municipality.

No restrictions apply to any of the Intangible Assets of the municipality.

10.1 Significant Intangible Assets

Significant Intangible Assets, that did not meet the recognition criteria for Intangible Assets as stipulated in GRAP 102 and SIC 32, are the following:

- (i) Website Costs incurred during the last two financial years, if applicable, have been expensed and not recognised as Intangible Assets. The municipality cannot demonstrate how its website will generate probable future economic benefits.

R

10.2 Intangible Assets with Indefinite Useful Lives

The municipality amortises all its Intangible Assets and no of such assets are regarded as having indefinite useful lives. The useful lives of the Intangible Assets remain unchanged from the previous year and are as follows:

Computer Software	5 Years
Licences	3 Years

Amortisation is charged on a straight-line basis over the Intangible Assets' useful lives.

10.3 Impairment of Intangible Assets

No (2010: None) impairment needed to be recognised for Intangible Assets.

11. INVESTMENT PROPERTY

The municipality did not have any property to be classified as Investment Property in terms of its Accounting Policies and Asset Management Policy at year-end.

12. LONG-TERM RECEIVABLES

The municipality had no long-term arrangements to be classified as long-term receivables for the two financial years.

13. PROVISIONS

Performance Bonuses	981 598	701 844
Current Portion of Post-retirement Medical Aid Benefits Liability (See Note 18 below)	1 021 524	696 048

Other Creditors	8 049 887	10 830 439
Total Creditors	<u>29 876 057</u>	<u>96 120 414</u>

Staff Leave accrue to the staff of the municipality on an annual basis, subject to certain conditions. The provision is an estimate of the amount due at the reporting date.

The average credit period on purchases is 30 days from the receipt of the invoice, as determined by the MFMA, except when the liability is disputed. No interest is charged for the first 30 days from the date of receipt of the invoice. Thereafter interest is charged in accordance with the credit policies of the various individual creditors that the municipality deals with. The municipality has policies in place to ensure that all payables are paid within the credit timeframe.

The municipality did not default on any payment of its Creditors. No terms for payment have been re-negotiated by the municipality.

15. UNSPENT CONDITIONAL GRANTS AND RECEIPTS

15.1 Conditional Grants from Government

	2012 R	2011 R
National Government Grants	58 321 408	143 157 161

	2012 R	2011 R
16. OPERATING LEASE LIABILITIES / PAYABLES		
Operating Leases are recognised on the straight-line basis as per the requirements of GRAP 13. In respect of Non-cancellable Operating Leases the following liabilities have been recognised:		
Balance at beginning of year	28 924	4 350
Operating Lease expenses recorded	1 502 598	878 914
Operating Lease payments effected	(1 467 064)	(854 341)
Total Operating Lease Liabilities	64 458	28 924

16.1 Leasing Arrangements

The Municipality as Lessee:

Operating Leases relate to Property, Plant and Equipment with lease terms not longer than 5 years, with an option to extend for a further period. All operating lease contracts contain market review clauses in the event that the municipality exercises its option to renew. The municipality does not have an option to purchase the leased asset at the expiry of the lease period.

16.2 Amounts payable under Operating Leases

At the Reporting Date the municipality had outstanding commitments under Non-cancellable Operating Leases for Property, Plant and Equipment, which fall due as follows:

Buildings:	2 269 122	2 783 680
Up to 1 year	1 277 273	1 073 464
2 to 5 years	991 849	1 710 215
Other Equipment:	267 397	516 323
Up to 1 year	257 122	263 288
2 to 5 years	10 275	253 035
Total Operating Lease Arrangements	2 536 519	3 300 002

The following payments have been recognised as an expense in the Statement of Financial Performance:

Minimum lease payments	(1 502 598)	(878 914)
Total Operating Lease Expenses	(1 502 598)	(878 914)

The municipality has operating lease agreements for the following classes of assets, which are only significant collectively:

- Buildings
- Office Equipment

The following restrictions have been imposed on the municipality in terms of the lease agreements on Office Equipment:

- (i) The equipment shall remain the property of the lessor.
- (ii) The hirer shall not sell, sublet, cede, assign or delegate any of its rights or obligations on the equipment.
- (iii) The equipment shall be returned in good order and condition to the lessor upon termination of the agreement.
- (iii) The municipality is obliged to enter into a maintenance agreement with the lessor for the equipment rented.

Total Long-term Liabilities (Neither past due, nor impaired)	4 424 076	5 553 707

17.1 Summary of Arrangements

The Annuity Loan is repaid over a period of 5 (2011: 6) years and at an interest rate of 5,00% (2011: 5,00%) per annum. The Annuity Loans is not secured.

17.2 Breach of Loan Agreement

The municipality did not default on any payment of its Long-term Liabilities. No terms for payment have been re-negotiated by the municipality.

18. RETIREMENT BENEFIT LIABILITIES

18.1 Post-retirement Health Care Benefits Liability

Balance at beginning of Year	21 070 779	21 599 165
Contributions to Provision	5 098 295	167 663
Balance at end of Year	26 169 074	21 766 827
Transfer to Current Provisions	(1 021 524)	(696 048)
Total Post-retirement Health Care Benefits Liability	25 147 550	21 070 779

The municipality provides certain post-retirement health care benefits by funding the medical aid contributions of qualifying retired members of the municipality. According to the rules of the Medical Aid Funds, with which the municipality is associated, a member (who is on the current Conditions of Service) is entitled to remain a continued member of such medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. The municipality operates an unfunded defined benefit plan for these qualifying employees. No other post-retirement benefits are provided to these employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2012 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

The members of the Post-employment Health Care Benefit Plan are made up as follows:

In-service Members (Employees)	252	249
In-service Non-members (Employees)	126	148
Continuation Members (Retirees, widowers and orphans)	39	38
Total Members	417	435

The unfunded liability in respect of past service has been estimated as follows:

In-service Members	15 090 171	12 330 008
Continuation Members	11 078 903	9 436 819
Total Liability	26 169 074	21 766 827

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

	2012 R	2011 R
The municipality makes monthly contributions for health care arrangements to the following Medical Aid Schemes:		
- Bonitas		
- Fed Health		
- Keyhealth		
- LA Health		
- Medicovert		
- Resolution		
- Samwumed		

The Current-service Cost for the year ending 30 June 2012 is estimated to be R982 529, whereas the cost for the ensuing year is estimated to be R1 191 729 (2011: R1 052 744 and R982 529 respectively).

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Discount Rate	7.82%	8.69%
Health Care Cost Inflation Rate	7.04%	7.32%
Net Effective Discount Rate	73.00%	1.28%
Expected Retirement Age - Females	63	63
Expected Retirement Age - Males	63	63

Movements in the present value of the Defined Benefit Obligation were as follows:

Balance at the beginning of the year	21 766 827	22 273 109
Current service costs	982 529	1 052 744
Interest cost	1 861 982	2 023 255
Benefits paid	(696 048)	(673 944)

Actuarial losses / (gains)	2 253 784	(2 908 337)
Total Post-retirement Benefit included in Employee Related Costs (Note 27)	5 098 295	167 663

The history of experienced adjustments is as follows:

	2012 R	2011 R	2010 R	2009 R	2008 R
Present Value of Defined Benefit Obligation	26 169 074	21 766 827	22 273 109	18 460 067	15 762 816
Deficit	26 169 074	21 766 827	22 273 109	18 460 067	15 762 816
Experienced adjustments on Plan Liabilities	5 329 200	(1 481 847)	2 610 116	1 084 656	-

In accordance with the transitional provisions for the amendments to IAS 19 Employee Benefits in December 2004, the disclosures above are determined prospectively from the 2009 reporting period.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

	2012 R	2011 R
The effect of a 1% movement in the assumed rate of health care cost inflation is as follows:		
Increase:		
Effect on the aggregate of the current service cost and the interest cost	536 600	539 100
Effect on the defined benefit obligation	3 589 926	3 476 627
Decrease:		
Effect on the aggregate of the current service cost and the interest cost	(422 900)	(431 800)
Effect on the defined benefit obligation	(2 945 074)	(2 771 829)

The municipality expects to make a contribution of R3 199 million (2011: R2 845 million) to the Defined Benefit Plans during the next financial year.

Refer to Note 48 "Multi-employer Retirement Benefit Information" to the Annual Financial Statements for more information regarding the municipality's other retirement funds that is Provincially and Nationally administered.

19. NON-CURRENT PROVISIONS

Provision for Long Service Awards	3 326 322	2 866 650
Total Non-current Provisions	3 326 322	2 866 650

The movement in Non-current Provisions are reconciled as follows:

Long-service Awards:

Balance at beginning of year	2 866 650	2 430 228
Contributions to provision	1 212 451	988 407
	4 079 101	3 418 635
Transfer to current provisions	(752 779)	(551 985)
Balance at end of year	3 326 322	2 866 650

19.1 Long Service Awards

The municipality operates an unfunded defined benefit plan for all its employees. Under the plan, a Long-service Award is payable after 5 years (2011: 5 years) of continuous service, and every 5 years thereafter, to 25 years (2011: 25 years) of continuous service to employees. The provision is an estimate of the long-service based on historical staff turnover. No other long-service benefits are provided to employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2012 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

At year end, 378 (2011: 385) employees were eligible for Long-services Awards.

The Current-service Cost for the year ending 30 June 2012 is estimated to be R767 667, whereas the cost for the ensuing year is estimated to be R992 886 (2011: R731 117 and R767 667 respectively).

	2012 R	2011 R
The principal assumptions used for the purposes of the actuarial valuations were as follows:		
Discount Rate	6.12%	7.51%
Cost Inflation Rate	5.97%	6.20%
Net Effective Discount Rate	0.15%	1.23%
Expected Retirement Age - Females	63	63
Expected Retirement Age - Males	63	63

35.1 Material Losses	287 725	268 190
Theft	-	8 915
Vehicle Damages	287 725	259 275

36. DISCONTINUED OPERATIONS

36.1 Primary Health Services discontinued

The operations of the municipality relating to Primary Health Services, that includes functions such as Clinics and Prime Health Care, were discontinued during the year and transferred to the Provincial Administration Eastern Cape on 31 May 2011 as per agreement. All moveable assets related to the services have been transferred to the Provincial Health Administration during the current financial year. The discontinuation of the function of Primary Health Services by the municipality is consistent with the Health Act, which classifies the services as the responsibility of the Provincial Authority. The transfer of Health Services was completed on 31 May 2011 on which date control of the liabilities and services passed to the Provincial Administration Eastern Cape.

36.2 Sanitation and Water Services discontinued

The operations of the municipality relating to Sanitation and Water Services were discontinued during the year and transferred to the Local Municipalities under the jurisdiction of the Chris Hani District Municipality on 30 June 2011 as per agreement. The discontinuation of the functions of Sanitation and Water Services by the municipality is consistent with the Service Level Agreements entered into with the Local Municipalities, which classifies the services as the responsibility of the Local Municipalities. The transfer of Sanitation and Water Services was completed on 30 June 2011.

37. CHANGE IN ACCOUNTING POLICY

The municipality adopted no Accounting Standards for the first time during the financial year 2011/12 in order to comply with the basis of preparation of the Annual Financial Statements as disclosed in Accounting Policy 1.

38. CORRECTION OF ERROR

Corrections were made in the current financial year.

39. CHANGE IN ACCOUNTING ESTIMATES

The municipality did not receive any new information or notice of new developments during the financial year that need to be disclosed in terms of Grap 3.

47.2 Fair Value

The following methods and assumptions were used to estimate the Fair Value of each class of Financial Instrument for which it is practical to estimate such value:

Cash and Short-term Investments

The carrying amount approximates the Fair Value because of the short maturity of these instruments.

Long-term Investments

The Fair Value of some Investments are estimated based on quoted market prices of those or similar investments. Unlisted Equity Investments are estimated using the discounted cash flow method.

Loan Receivables/Payables

Interest-bearing Borrowings and Receivables are generally at interest rates in line with those currently available in the market on a floating-rate basis, and therefore the Fair Value of these Financial Assets and Liabilities closely approximates their carrying values. Fixed interest-rate instruments are fair valued based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

2012
R

2011
R

Trade and Other Receivables/Payables

The Fair Value of Trade and Other Payables is estimated at the present value of future cash flows.

The management of the municipality is of the opinion that the carrying value of Trade and Other Receivables recorded at amortised cost in the Annual Financial Statements approximate their fair values. The Fair Value of Trade Receivables were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the the current payment ratio's of the municipality's debtors.

Other Financial Assets and Liabilities

The Fair Value of Other Financial Assets and Financial Liabilities (excluding Derivative Instruments) is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.

Long-term Liabilities

The Fair Value of Long-term Liabilities was determined after considering the standard terms and conditions of agreements entered into between the municipality and the relevant financing institutions.

Management considers the carrying amounts of Financial Assets and Financial Liabilities recorded at amortised cost in the Annual Financial Statements to approximate their Fair Values on 30 June 2011, as a result of the short-term maturity of these assets and liabilities.

The Financial Instruments of the municipality have been reclassified as disclosed in Note 37.3, Change in Accounting Policy.

Assumptions used in determining Fair Value of Financial Assets and Financial Liabilities

The table below analyses Financial Instruments carried at Fair Value at the end of the reporting period by the level of fair-value hierarchy as required by IFRS 7. The different levels are based on the extent to which quoted prices are used in the calculation of the Fair Value of the Financial Instruments. The levels have been defined as follows:

Level 1:-

Fair Values are based on quoted market prices (unadjusted) in active markets for an identical instrument.

Level 2:-

Fair Values are calculated using valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active, or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3:-

Fair Values are based on valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. Also, this category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

47.3 Capital Risk Management

The municipality manages its capital to ensure that the municipality will be able to continue as a going concern while delivering sustainable services to consumers through the optimisation of the debt and equity balance. The municipality's overall strategy remains unchanged from 2011.

The capital structure of the municipality consists of debt, which includes Bank, Cash and Cash Equivalents and Equity, comprising Funds, Reserves and Accumulated Surplus as disclosed in Note 20 and the Statement of Changes in Net Assets.

Gearing Ratio

		2012 R		2011 R
The gearing ratio at the year-end was as follows:				
Debt		1 129 631		1 074 681
Bank, Cash and Cash Equivalents		(230 113 132)		(267 406 844)
Net Debt		<u>(228 983 501)</u>		<u>(266 332 163)</u>
Total Capital		<u>2 758 059 673</u>		<u>2 412 480 251</u>
Net debt to total capital ratio		<u>-8.30%</u>		<u>-11.04%</u>

Debt is defined as Long- and Short-term Liabilities, as detailed in Note 17.

Equity includes all Funds and Reserves of the municipality, disclosed as Net Assets in the Statement of Financial Performance and Net Debt as described above.

47.4 Financial Risk Management Objectives

The Accounting Officer has overall responsibility for the establishment and oversight of the municipality's risk management framework. The municipality's risk management policies are established to identify and analyse the risks faced by the municipality, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial Instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IAS's mainly apply. Generally, Financial Assets and Liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

2012	2011
R	R

The Directorate: Financial Services monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk, credit risk and liquidity risk. Compliance with policies and procedures is reviewed by the internal auditors on a continuous basis, and annually by external auditors. The municipality does not enter into or trade financial instruments for speculative purposes.

Internal audit, responsible for initiating a control framework and monitoring and responding to potential risk, reports periodically to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

Further quantitative disclosures are included throughout these Annual Financial Statements.

47.5 Significant Accounting Policies

It is the policy of the municipality to disclose information that enables the user of its Annual Financial Statements to evaluate the nature and extent of risks arising from Financial Instruments to which the municipality is exposed on the reporting date.

The municipality has exposure to the following risks from its operations in Financial Instruments:

- Credit Risk;
- Liquidity Risk; and
- Market Risk.

Risks and exposures are disclosed as follows:

Market Risk

Market Risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the municipality's income or the value of its holdings in Financial Instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Credit Risk

Credit Risk is the risk of financial loss to the municipality if a customer or counterparty to a Financial Instrument fails to meet its contractual obligations and arises principally from the municipality's receivables from customers and investment securities.

Liquidity Risk

Liquidity Risk is the risk that the municipality will encounter difficulty in meeting the obligations associated with its Financial Liabilities that are settled by delivering cash or another financial asset. The municipality's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the municipality's reputation.

Liquidity Risk is managed by ensuring that all assets are reinvested at maturity at competitive interest rates in relation to cash flow requirements. Liabilities are managed by ensuring that all contractual payments are met on a timeous basis and, if required, additional new arrangements are established at competitive rates to ensure that cash flow requirements are met.

A maturity analysis for Financial Liabilities (where applicable) that shows the remaining undiscounted contractual maturities is disclosed in Notes 47.8 and 47.9 to the Annual Financial Statements.

47.6 Market Risk

The municipality's activities expose it primarily to the financial risks of changes in interest rates (see Note 46.9 below). No formal policy exists to hedge volatilities in the interest rate market.

There has been no change to the municipality's exposure to market risks or the manner in which it manages and measures the risk.

47.6.1 Foreign Currency Risk Management

The municipality's activities do not expose it to the financial risks of foreign currency and therefore has no formal policy to hedge volatilities in the interest rate market.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

2012
R 2011
R

47.6.2 Interest Rate Risk Management

Interest Rate Risk is defined as the risk that the fair value or future cash flows associated with a financial instrument will fluctuate in amount as a result of market interest changes.

Potential concentrations of interest rate risk consist mainly of variable rate deposit investments, long-term receivables, other debtors, bank and cash balances.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with well-established financial institutions of high credit standing. No investment with a tenure exceeding twelve months shall be made without consultation with the investment committee.

Consumer Debtors comprise of a large number of consumers, dispersed across different industries and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Consumer debtors are presented net of a provision for impairment.

In the case of debtors whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

Long-term Receivables and Other Debtors are individually evaluated annually at balance Sheet date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

The municipality is not exposed to interest rate risk as the municipality borrows funds at fixed interest rates.

The municipality's exposures to interest rates on Financial Assets and Financial Liabilities are detailed in the Credit Risk Management section of this note.

Interest Rate Sensitivity Analysis

The sensitivity analysis below have been determined based on the exposure to interest rates at the Statement of Financial Position date. The analysis is prepared by averaging the amount of the investment at the beginning of the financial year and the amount of the investment at the end of the financial year. A 100 basis point increase or decrease was used, which represents management's assessment of the reasonably possible change in interest rates. The short and long-term financial instruments at year-end with variable interest rates are set out in Note 47.9 below:

Cash and Cash Equivalents:

If interest rates had been 100 basis points higher / lower and all other variables were held constant, the municipality's:

- Surplus for the year ended 30 June 2012 would have decreased / increased by R3 405 145 (2011: decreased / increased by R3 626 344). This is mainly attributable to the municipality's exposure to interest rates on its variable rate investments.

The municipality's sensitivity to interest rates has increased during the current period mainly due to the increase in variable rate debt instruments.

46.7 Credit Risk Management

Credit Risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality. The municipality has a sound credit control and debt collection policy and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The municipality uses other publicly available financial information and its own trading records to assess its major customers. The municipality's exposure of its counterparties are monitored regularly.

Potential concentrations of credit rate risk consist mainly of variable rate deposit investments, long-term receivables, consumer debtors, other debtors, bank and cash balances.

Investments/Bank, Cash and Cash Equivalents

The municipality limits its counterparty exposures from its money market investment operations (financial assets that are neither past due nor impaired) by only dealing with well-established financial institutions of high credit standing. The credit exposure to any single counterparty is managed by setting transaction / exposure limits, which are included in the municipality's Investment Policy. These limits are reviewed annually by the Chief Financial Officer and authorised by the Council.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

2012 2011
R R

Trade and Other Receivables

Trade and Other Receivables are amounts owed by consumers and are presented net of impairment losses. The municipality has a credit risk policy in place and the exposure to credit risk is monitored on an ongoing basis. The municipality is compelled in terms of its constitutional mandate to provide all its residents with basic minimum services without recourse to an assessment of creditworthiness. Subsequently, the municipality has no control over the approval of new customers who acquire properties in the designated municipal area and consequently incur debt for rates, water and electricity services rendered to them.

Consumer Debtors comprise of a large number of consumers, dispersed across different industries and geographical areas within the jurisdiction of the municipality. Ongoing credit evaluations are performed on the financial condition of these debtors. Consumer debtors are presented net of a provision for impairment.

In the case of debtors whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

There were no material changes in the exposure to credit risk and its objectives, policies and processes for managing and measuring the risk during the year under review. The municipality's maximum exposure to credit risk is represented by the carrying value of each financial asset in the Statement of Financial Position, without taking into account the value of any collateral obtained. The municipality has no significant concentration of credit risk, with exposure spread over a large number of consumers, and is not concentrated in any particular sector or geographical area.

The municipality establishes an allowance for impairment that represents its estimate of anticipated losses in respect of trade and other receivables.

Payment of accounts of consumer debtors, who are unable to pay, are renegotiated as an ongoing customer relationship in response to an adverse change in the circumstances of the customer.

Long-term Receivables and Other Debtors are individually evaluated annually at reporting date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

The municipality does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The municipality defines counterparties as having similar characteristics if they are related entities. The credit risk on liquid funds is limited because the counterparties are banks with high credit-ratings.

2012 2011
R R

The maximum credit and interest risk exposure in respect of the relevant financial instruments is as follows:

Trade Receivables from Exchange Transactions	-	209 293 714

Credit quality Groupings:

Group 1 - High certainty of timely payment. Liquidity factors are strong and the risk of non-payment is small.

Group 2 - Reasonable certainty of timely payment. Liquidity factors are sound, although ongoing funding needs may enlarge financing requirement. The risk of non-payment is small.

Group 3 - Satisfactory liquidity factors and other factors which qualify the entity as investment grade. However, the risk factors of non-payment are larger.

None of the financial assets that are fully performing have been renegotiated in the last year.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

47. FINANCIAL INSTRUMENTS (Continued)

47.8 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the Council, which has built an appropriate liquidity risk management framework for the management of the municipality's short, medium and long-term funding and liquidity management requirements. The municipality manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

Liquidity and Interest Risk Tables

The following tables detail the municipality's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the municipality can be required to pay. The table includes both interest and principal cash flows.

48. MULTI-EMPLOYER RETIREMENT BENEFIT INFORMATION

Chris Hani District Municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes.

All councillors belong to the Pension Fund for Municipal Councillors.

Employees belong to a variety of approved Pension and Provident Funds as described below.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

All of these afore-mentioned funds are multi-employer plans and are subject to either a tri-annual, bi-annual or annual actuarial valuation, details which are provided below.

Sufficient information is not available to use defined benefit accounting for the pension and retirement funds, due to the following reasons:-

- (i) The assets of each fund are held in one portfolio and are not notionally allocated to each of the participating employers.
- (ii) One set of financial statements are compiled for each fund and financial statements are not drafted for each participating employer.
- (iii) The same rate of contribution applies to all participating employers and no regard is paid to differences in the membership distribution of the participating employers.

It is therefore seen that each fund operates as a single entity and is not divided into sub-funds for each participating employer.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors / employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the Statement of Financial Performance of R11,567 million (2011: R11,567 million) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

The Retirement Funds have been valued by making use of the Discounted Cash Flow method of valuation.

DEFINED BENEFIT SCHEMES

Cape Joint Pension Fund:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2011.

The statutory valuation performed as at 30 June 2011 revealed that the fund had a deficit of R58,9 (30 June 2010: surplus of R0,0) million, with a funding level of 98,1% (30 June 2010: 100,0%). The balance of the Solvency Reserve was R4,9 (30 June 2010: R4,9) million. The contribution rate paid by the members (9,00%) and the municipalities (18,00%) is less than the recommended contribution rate of 32,4%.

Government Employees Pension Fund (GEPF):

The scheme is subject to an tri-annual actuarial valuation. The last statutory valuation was performed as at 31 March 2010.

The statutory valuation performed as at 31 March 2010 revealed that the fund had a surplus of R0,0 (31 March 2008: R0,0) million, with a funding level of 100,0% (31 March 2008: 100,0%). The contribution rate paid by the members (7,50%) and the municipalities (13,00%) is sufficient to fund the benefits accruing from the fund in the future.

South African Local Authorities Pension Fund (SALA):

The scheme is subject to an tri-annual actuarial valuation. The last statutory valuation was performed as at 1 July 2010.

The statutory valuation performed as at 1 July 2010 revealed that the fund had a deficit of 307,6 (1 July 2009: Deficit of R264,2) million, with a funding level of 96% (1 July 2009: 96%). The contribution rate paid by the members (7,50% to 9,00%) and the municipalities (15,00% to 20,80%) is sufficient to fund the benefits accruing from the fund in the future.

Although the fund is less than 100% funded at the valuation date, no additional action is required at this stage to rectify the situation. If the current employer contribution rate is maintained, the fund is expected to be close to 100% funded at the next tri-annual valuation, provided the assumptions are borne out in practice.

DEFINED CONTRIBUTION SCHEMES

Cape Joint Pension Fund:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2011.

The statutory valuation performed as at 30 June 2011 revealed that the investment reserve of the fund amounted to R15 285 (30 June 2010: R7 311) million, with a funding level of 104,1% (30 June 2010: 102,0%). The contribution rate paid by the members (9,00%) and the municipalities (18,00%) is sufficient to fund the benefits accruing from the fund in the future.

Cape Joint Retirement Fund:

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 30 June 2011.

The statutory valuation performed as at 30 June 2011 revealed that the assets of the fund amounted to R9 869 (30 June 2010: R8 220) million, with funding levels of 100,3% and 116,9% (30 June 2010: 99,9% and 100,3%) for the Share Account and the Pensions Account respectively. The contribution rate paid by the members (9,00%) and the municipalities (18,00%) is sufficient to fund the benefits accruing from the fund in the future.

Municipal Councillors Pension Fund:

The scheme is subject to a tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2010.

The statutory valuation performed as at 30 June 2010 revealed that the the assets of the fund amounted to R1 483,8 (30 June 2006: R1 483,8) million, with a funding ratio of 94,0% (30 June 2006: 106,5%). The contribution rate paid by the members (13,75%) and Council (15,00%) is sufficient to fund the benefits accruing from the fund in the future.

Liberty Life Pension Fund:

No details could be provided for the fund and of any valuation performed. However, the municipality does not contribute to the Fund anymore.

SAMWU (South African Municipal Workers Union) National Provident Fund:

The scheme is subject to an tri-annual actuarial valuation. The last statutory valuation was performed as at 30 June 2005.

The statutory valuation performed as at 30 June 2005 revealed that the fund had a funding ratio of 100,0% (30 June 2002: 100,0%). The contribution rate paid by the members (not less than 5,00%) and Council (not less than 12,00%) is sufficient to fund the benefits accruing from the fund in the future.

No further details could be obtained for the fund and of any subsequent valuations performed.

SANLAM Annuity Fund:

No details could be provided for the fund and of any valuation performed. However, the municipality does not contribute to the Fund anymore.

SANLAM Retirement Fund:

No details could be provided for the fund and of any valuation performed. However, the municipality does not contribute to the Fund anymore.

None of the above mentioned plans are State Plans.

- (1) Mr L Ntshinga is the spouse of an official, NJ Myataza-Ntshinga
(2) Ms L Flatela is the daughter of Councillor LE Noqha
(3) Mr B Dyasi is the spouse of an official, MP Dyasi-De Lange
(4) Ms N Silangwe is the spouse of an official, M Silangwe
(5) Ms K Mbambisa is the spouse of the Municipal Manager, MS Mbambisa
(6) Spouse of an official, V Jaxa-Dusubana
(7) Spouse of an official, N Myataza-Ntsinga

The transactions were concluded in full compliance with the municipality's Supply Chain Management Policy and the transactions are considered to be at arm's length.

50. CONTINGENT LIABILITIES

50.1 Guarantees:

20 000 **20 000**

- (i) Telkom:
The municipality issued a bank guarantee in favour of the South African Post Office Limited to cover the municipality's postal account.

20 000 20 000

50.2 Court Proceedings:

3 362 662 **3 312 662**

- (i) Arrear Pension Contributions:
The Municipal Employees Pension Fund brought an action against the municipality for outstanding payment of contributions to the Fund in respect of councillors. The particulars of the claim are still in process of being amended. A trial date is yet to be obtained and the outcome of the action is still uncertain. The municipality's attorneys advised that the municipality settles for economic reasons. Subsequently, an offer of R20 000 was made towards full and final settlement. The Fund declined and claims the whole outstanding amount with interest and costs.

322 950 322 950

- (ii) Outstanding Payments:
Reticulation Design Project Services was appointed by the municipality for the upgrading of streets and storm water drainage, and the building of VIP toilets. RDP Services has instituted action against the municipality for the recovery of payments allegedly not made. A trial date has been set for 29 August 2011, but the matter was again postponed. The claimant served notice of intention to amend the trial particulars, but has failed to date to do so. The outcome of the case is still uncertain.

CHRIS HANI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

	2012 R	2011 R
(iii) Services Rendered: Frikton CC is claiming from the municipality in respect of a cession in their favour for services rendered as sub-contractor to Ikamva Civics. A trial date has been set for 30 November 2010, but the matter was removed by agreement due to unavailability of counsel. A new trial date is awaited and the outcome of the case is still uncertain.	488 601	488 601
(iv) Dispute regarding Fire Trucks: A dispute has arisen over Fire Trucks supplied to the municipality by Masakhe Die Cast. Masakhe Die Cast did not fulfil all its obligations. A letter of demand was received and the municipality's attorneys were instructed to defend the matter. The summons is awaited and the outcome of the matter is still uncertain.	50 000	-
(v) Demand for Medical Benefits: The spouse of the Late HS Greissler, a former employee of the municipality, is demanding the payment of medical benefits for her deceased husband from the municipality. The amount claimed has not been disclosed and the outcome of the matter is still uncertain.	-	-

51. CONTINGENT ASSETS

51.1 Court Proceedings:

	510 953	-
(i) Guarantee: The municipality is claiming against Fernfin for the guaranteed amount issued to a contractor. On termination the contractor's appointment, payment of the guaranteed amount was requested from Fernfin who has not paid this amount. A letter of demand was sent to Fernfin on 24 January 2011. Fernfin has denied liability and summons was issued. Fernfin filed a plea and a counter claim. A replication to the counter claim is being prepared. A trial date has been applied for with the Registrar and the outcome of the case is still uncertain.	318 293	-
(ii) Services not Rendered: Untingo Lukhosi Trading Enterprise was appointed to provide two charcoal kilns. Despite payment of the amount, the service provider failed to deliver the charcoal kilns. Summons was issued in Queenstown Regional Court on 2 February 2011 and was served on the Defendant. Discovery Affidavit was filed and a trial date is awaited. The outcome of the matter is still uncertain.	192 660	-

52. IN-KIND DONATIONS AND ASSISTANCE

The municipality received the following in-kind donations and assistance:

- (i) Secondment of International DED Junior Expert by the German Development Service for one year until August 2011.

53. PRIVATE PUBLIC PARTNERSHIPS

The municipality was not a party to any Private Public Partnerships during the financial year 2011/12.

54. EVENTS AFTER THE REPORTING DATE

No events having financial implications requiring disclosure occurred subsequent to 30 June 2012.

54.1 Chris Hani Development Agency:

The Chris Hani Development Agency Entity, which was registered on 21 February 2012, commenced operations on 01 July 2012. No commitments were made by the entity prior to the commencement of operations. The municipality Chris Hani District Municipality holds all shares (100%) in the entity.

55. COMPARATIVE FIGURES

The comparative figures were restated as a result of the effect of Changes in Accounting Policies (Note 37) and Prior Period Errors (Note 38).

56. STANDARDS AND INTERPRETATIONS IN ISSUE NOT YET ADOPTED

At the date of authorisation of these Annual Financial Statements the municipality has not applied the following GRAP standards that have been issued, but are not yet effective:

- GRAP 18 Segment Reporting - issued March 2005
- GRAP 24 Presentation of Budget Information in Financial Statements - issued November 2007
- GRAP 25 Employee Benefits - issued December 2009
- GRAP 103 Heritage Assets - issued July 2008

Application of all of the above GRAP standards will be effective from a date to be announced by the Minister of Finance. This date is not currently available.

Management has considered all the GRAP standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

57. COMPARISON WITH THE BUDGET

Budgeted amounts for expenditure have been exceeded as indicated below:

Category of Expenditure	30 June 2012		30 June 2011	
	Budgeted	Actual	Budgeted	Actual
	Amount	Amount	Amount	Amount
	R	R	R	R
Employee Related Costs	-	-	117 855 703	142 940 773
Remuneration of Councillors	7 008 701	7 437 213	6 537 547	6 655 249

Impairment Losses	-	-	-	78 234 064
Repairs and Maintenance	-	-	2 838 908	11 836 579
Finance Costs	2 343 710	2 382 402	1 041 035	4 083 864
Bulk Purchases	-	-	-	-
Contracted Services	-	-	685 536	40 291 480
General Expenses	-	-	52 780 730	69 337 270
Loss on Disposal of Property, Plant and Equipment	-	743 797	-	4 393 204

The excess expenditure has not been authorised and is disclosed as such in Note 44.1.

The excess expenditure is to a large extent caused by the integration of the transactions incurred by the Local Municipalities for Sanitation and Water Services into the municipality's records, which transactions have not been budgeted for.

Details of the operating results per category of expenditure for the current year, together with an explanation of significant variances of more than 10% from budget, are listed below.
