#### APPROVAL OF THE ANNUAL FINANCIAL STATEMENTS

I am responsible for the preparation of these annual financial statements year ended 30 June 2014, which are set out on pages 1 to 73 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality. The annual financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Municipality's cash flow forecast for the year to 30 June 2015 and am satisfied that the Municipality can continue in operational existence for the foreseeable future.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the annual determinations of the Minister of Cooperative Governance and Traditional Affairs in accordance with this Act.

#### 3.3 Retirement Funds

Both the Cape Joint Pension Fund and the Cape Retirement Fund are multi-employer plans. This means that there are multiple local authorities that participate in this fund. In terms of GRAP 25, these multi-employer plans are defined as defined benefit plans. GRAP 25 also state that when sufficient information is not available to use defined benefit accounting for a multi-employer plan, an entity will account for the plan as if it were a defined contribution plan.

The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the funds' assets from the fund administrator. The fund administrator confirmed that assets of the funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP 25.

As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrators. The fund administrators claim that the pensioner data to be confidential and were not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.

Therefore, although the Cape Joint Retirement Fund and Cape Retirement Fund are defined as a defined benefit plan, it will be accounted for as defined contribution plan.

The calculation for the rehabilitation of the landfill site provision was compiled by an external specialist who was used to perform a valuation of the estimated annual cost of closure and rehabilitation (recurring costs) for the following landfill sites:		

A retrospective calculation of time value of money, based on an average weighted investment rate of prime less 4%, was used. This rate used is also within the inflation target range of the South African Reserve Bank of between 3% to 6%.

No landfill sites are scheduled for closure in the year that would require closure by capping. All sites are to remain operational. Allowance has been made for survey, environmental and community issues in providing cover to the existing waste to a suitable standard.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

The quantity of waste deposited on the Elundini sites has been given as 785 tonnes per year (i.e. 3 tonnes a day) for Mt Fletcher and 1350 tonnes per year (i.e. 5 tonnes as day) for Maclear. This will classify the two sites as Communal in size. It is assumed the Ugie site has been classified as Communal. No leachate problems have been reported from the Mt Fletcher and Ugie sites, but the classification indicates Maclear has a leachate issue.

In calculating the provision for rehabilitation, the following four items have been included, viz.

- 1 Direct Contract Cost
- Indirect Professional Fees
- 3 Indirect Disbursements 4 Escalation

2014 2013

There are currently three landfill sites in Elundini which service Mount Fletcher, Maclear and Ugie, hence they are named after the town which they service.

43.02	Payables from Exchange Transactions Included in Payables from Exchange Transactions was an amount of R387 151 which relates to the TASK backpay accrual. This accrual was raised on 30 June 2012, and was paid during 2012/13. Also included	
	in the accrual was TASK backpay relating to the water and sanitation staff. The water and sanitation staff was transferred to Joe Gqabi District Municipality on 1 July 2012. Joe Gqabi District Municipality of and implement the TASK backpay and therefor, the accrual relating to the water and sanitation staff should never have been raised. Accordingly, Payables from Exchange Transactions was overstated, while Accumulated Surplus was understated.	
	Payables amounting to R239 440 were not raised for the prior years. Accordingly, Payables from Exchange Transactions, General Expenses and Taxes were understated while Accumulated Surplus was overstated.

43.03	Unspent Conditional Government Grants and Receipts	
	In the prior year, Input VAT was claimed on a housing project. As no Input VAT is claimable on a housing project, the Operating Grant Expenditure was understated and Taxes was overstated with an amount of R143 150. Accordingly, Unspent Conditional Grants and Receipts was overstated and Government Grants was understated with the same amount.	
	Refer to Unspent Conditional Grants and Receipts - note 8	143 150

43.04	Property, Plant and Equipment	
	Included in the fixed asset register were assets with a book value of R6 830 211 which are the property of Escom. These transformers were removed from the asset register. Accordingly, Property, Plant and Equipment, Depreciation and Amortisation and Accountained Surplus were overstated.	
	In the current year it was noted that a bill of quantity (BOQ) relating to an internal Municipal project was incorrect. The BOQ indicated that 700 cubic metre of concrete was used for a project, where in fact insignificant amount of concrete was used. In addition, it was also noted that wearing courses on several gravel roads were replaced, but the old wearing courses were never removed from the asset register. The total book value that was removed amounted to R1 027 182. Accordingly, Property, Plant and Equipment, Depreciation and Amortisation and Accumulated Surplus were overstated.	

During the current year it was noted that Repairs and Maintence amounting to R1 999 366 was incorrectly capitalised. Property, Plant and Equipment was overstated by the previously mentioned amount while Repairs and Maintenance was understated by R1 236 713 and Accumulated Surplus was overstated by R762 653.

Included in work in progress was tempory power supply to residence, until the Municipality could supply electricity. Theis expenditure which amount to R631 450 does not meet the definision of an asset. Accordingly, Property, Plant and Equipment was overstated, while Accumulated Surplus was understated.

Included in last year's Property, Plant and Equipment register, was Investment Property with a book value of R9 121 500. Accordingly, Property, Plant and Equipment was overstated while Investment Property was understated.

Included in Inventory were properties amounting to R142 000 that met the definition of Property, Plant and Equipment. Accordingly, Inventory was overstated, while Property, Plant and Equipment was understated.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

#### 43.05 Investment Property

In the current year it was noted that investment Property with a book value of K/40 452 was not included in the asset register. The reason for not being included in the asset register is due to the fact that the property is not registered at the Deeds Office in the name of the Municipality. The reason for not being registered is due to the fact that the previous owner passed away prior to the registration and that the Municipality is awaiting for the estate to be finalised. It was also noted that another property was also not registered at the Deeds Office. The reason being was that this property was a sub-division which has not been registered in time. Accordingly, Investment Property, Depreciation and Amortisation and Accumulated Surplus was understated.

Refer to Investment Property (Cost - Opening Balance) - note 11	766 000
Refer to Investment Property (Accumulated Depreciation - Opening Balance) - note 11	(20 441)
Refer to Investment Property (Accumulated Depreciation - Depreciation Charge) - note 11	(5 107)
Refer to Depreciation and Amortisation - note 31	5 107
Refer to Accumulated Surplus - 1 July 2012 - note 43.01	(745 559)

#### 43.06 Inventory

Included in the inventory register were property amounting to R171 000 that appeared on the Deeds Register. Upon further inspection, it was noted that that these properties were subsequently sub-divided and transferred to new owners. Accordingly both Inventory and Accumulated Surplus were overstated.

 Refer to Accumulated Surplus - 1 July 2012 - note 43.01

 Refer to Inventory - note 13
 (171 000)

#### 43.07 Capital Commitments

It was noted that Capital Commitments were understated by R10 847 309. The understatement was due to contracts already awarded during 2012/13, but the capital expenditure was only incurred during 2013/14.

#### 52 FINANCIAL RISK MANAGEMENT

The activities of the Municipality expose it to a variety of financial risks, including market risk (comprising fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The Municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Municipality's financial performance.

#### (a) Foreign Exchange Currency Risk

The Municipality does not engage in foreign currency transactions.

#### (b) Price risk

The Municipality is not exposed to price risk.

#### (c) Interest Rate Risk

As the Municipality has significant interest-bearing liabilities, the Municipality's income and operating cash flows are substantially dependent on changes in market interest rates.

The Municipality analyses its potential exposure to interest rate changes on a continuous basis. Different scenarios are simulated which include refinancing, renewal of current positions, alternative financing and hedging. Based on these scenarios, the Municipality calculates the impact that a change in interest rates will have on the surplus/deficit for the year. These scenarios are only simulated for liabilities which constitute the majority of interest bearing liabilities.

The Municipality did not hedge against any interest rate risks during the current year.

The potential impact on the Municipality's surplus/deficit for the year due to changes in interest rates were as follow:

 0.5% (2013 - 0.5%) Increase in interest rates
 184 348
 167 295

 0.5% (2013 - 0.5%) Decrease in interest rates
 (184 348)
 (167 295)

#### (d) Credit Risk

Credit risk is the risk that a counter party to a financial or non-financial asset will fall to discharge an obligation and cause the Municipality to incur a financial loss. Credit risk consist mainly of cash deposits, cash equivalents, trade and other receivables and unpaid conditional grants and subsidies.

Receivables are disclosed net after provisions are made for impairment and bad debts. Receivables comprise of a large number of ratepayers, dispersed across different sectors and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Credit risk pertaining to trade and other debtors is considered to be moderate due the diversified nature of debtors and immaterial nature of individual balances. In the case of consumer debtors the Municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

All rates and services are payable within 30 days from invoice date. Refer to note 14 for all balances outstanding longer than 30 days. These balances represent all debtors at year end which defaulted on their credit terms. Also refer to note 14 for balances included in receivables that were re-negotiated for the period under review.

No trade and other receivables are pledged as security for financial liabilities.

Due to the short term nature of trade and other receivables the carrying value disclosed in note 14 of the financial statements is an approximation of its fair value. Interest on overdue balances are included at prime lending rate where applicable.

#### NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2014

2014 2013 The Municipality only deposits cash with major banks with high quality credit standing. No cash and cash equivalents were pledged as security for financial liabilities and no restrictions were placed on the use of any cash and cash equivalents for the period under review. Although the credit risk pertaining to cash and cash equivalents are considered to be low, the maximum exposure are disclosed below. The banks utilised by the Municipality for current and non-current investments are all listed on the JSE (First National Bank and Standard Bank). The credit quality of these institutions are evaluated based on their required SENS releases as well as other media reports. Based on all public communications, the financial sustainability is evaluated to be of high quality and the credit risk pertaining to these institutions are considered to be low. The risk pertaining to unpaid conditional grants and subsidies are considered to be very low. Amounts are receivable from national and provincial government and there are no expectation of counter party default. Receivables are individually evaluated annually at Statement of Financial Position date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable. Financial assets exposed to credit risk at year end are as follows: Receivables from Exchange Transactions Receivables from Non-Exchange Transactions Cash and Cash Equivalents Unpaid conditional grants and subsidies 11 737 198 3 171 853 21 960 547 1 165 685 4 210 823 5 015 622 24 232 607 607 666 34 066 718 38 035 284 (e) Liquidity Risk Prudent liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying business, the treasury maintains flexibility in funding by maintaining availability under credit The Municipality's risk to liquidity is a result of the funds available to cover future commitments. The Municipality manages liquidity risk through an ongoing review of future commitments and credit The table below analyses the Municipality's financial liabilities into relevant maturity groupings based on the remaining period at the financial year end to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant. 2022/23	7 207 122

Refer to note 36 for expenditure incurred during the current financial year.

In terms of the PPP, the Private Company is required to provide their own movable assets in order to fulfill their function. The PPP does make provision for the transfer of the movable assets to the Municipality at the end of the contract. The Private Company is not required to build any new assets, but only to maintain the current assets belonging to the Municipality.

The performance of the Private Company is reviewed on an annual basis. The contract may be terminated based on non-performance. There is also no renewal clause after the 10 years.

# CONTINGENT LIABILITIES

Council do have the following contingent liabilities at the end of the financial year 2013/2014:

There is an employee benefits dispute relating to housing allowances and benefits payable under these terms. The amount in question R40 000. This matter is still on arbitration level. Legal fees are estimated at R50 000 if this matter were to go to court.

A labour related dispute was declared. The SALGBC has found in favour of the applicant and as such has instructed the Council to appoint the applicant to the position of Community Services Manager, effective June 2013. The salary backpay in owed to the applicant is R644 628. The Municipality has solicited legal advise in the matter and has now considered appealing the outcome. The estimated legal costs for appealing this matter is estimated at R350 000.

A labour dispute was declared relating to unpaid employee benefits amounting to R663 417. This matter is currently pending litigation and legal costs are estimated at R200 000.

A labour related dispute was declared regarding a 2.5% notch increase not effected. The dispute is currently pending at SALGBC. Legal costs are estimated at R50 000.

Employees were dismissed for various counts of gross misconduct and fruitless and wasteful expenditure. A dispute has been lodged in terms of unfair dismissal and therefore reinstatement. The employees backpay claim is estimated at R560 000. This matter is still on arbitration level. Legal fees are estimated at R250 000 if this matter were to go to court.

A company was contracted to do road repairs in Maclear, but failed to do work to satisfaction of Municipality. The Municipality rightfully retained a certain percentage of the retention fee amounting to an estimate of R950 000. The plaintiff is suing the Municipality for the retention fees. The Municipality has defended the action. The Municipality is now awaiting the attorneys of the Municipality to give a response to the claim (Plea). Legal fees are estimated at R100 000.

The Municipality has been sued by two separate plaintiffs for fire that allegedly originated from communal property registered in the name of the Municipality, which spread to the plaintiffs properties causing damages of R100 000 respectively. Estimated legal fees to defend this case is estimated at R40 000.
