

## ANNUAL FINANCIAL STATEMENTS (AUDITED)

**2013/2014**

**NKANGALA DISTRICT MUNICIPALITY**

**NKANGALA DISTRICT  
MUNICIPALITY**

**ANNUAL FINANCIAL  
STATEMENTS**

For the year ended  
30 June 2014

I am responsible for the preparation of these annual financial statements, which are set out on pages 10 to 84, in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councilors as disclosed in note 22 of these Annual Financial Statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of the Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act for the year ended 30 June 2014.

# **Auditor's report**

Nkangala District Municipality

30 June 2014

# **Report of the auditor-general to the Mpumalanga Provincial Legislature and the council on the Nkangala District Municipality**

## **Report on the financial statements**

### **Introduction**

1. I have audited the financial statements of the Nkangala District Municipality set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2014, the statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget information with actual information for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

### **Accounting officer's responsibility for the financial statements**

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2013 (Act No. 2 of 2013) (DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor-general's responsibility**

3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA), the general notice issued in terms thereof and International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

## **Opinion**

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Nkangala District Municipality as at 30 June 2014 and its financial performance and cash flows for the year then ended, in accordance with SA Standards of GRAP and the requirements of the MFMA and DoRA.

## **Emphasis of matters**

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

## **Restatement of corresponding figures**

8. As disclosed in note 40 to the financial statements, the corresponding figures for 30 June 2013 have been restated as a result of an error discovered during 2014 in the financial statements of the municipality at, and for the year ended, 30 June 2013.

## **Material underspending of the vote**

9. As disclosed in the financial statements, the municipality materially underspent the budget on road transport, budget and treasury, community and social services as well as environmental protection by R74 719 971. As a consequence, the municipality did not achieve all of its objectives.

## **Additional matter**

10. I draw attention to the matter below. My opinion is not modified in respect of this matter.

## **Unaudited disclosure notes**

11. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion thereon.

## **Report on other legal and regulatory requirements**

12. In accordance with the PAA and the general notice issued in terms thereof, I report the following findings on the reported performance information against predetermined objectives for selected development objectives presented in the annual performance report, non-compliance with legislation as well as internal control. The objective of my tests was to identify reportable findings as described under each subheading but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

## **Predetermined objectives**

13. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the following selected development objectives presented in the annual performance report of the municipality for the year ended 30 June 2014:
  1. Development objective (KPA) 3: local economic development on pages ... to ...
  2. Development objective (KPA) 5: service delivery and infrastructure development on pages ... to ...
14. I evaluated the reported performance information against the overall criteria of usefulness and reliability.
15. I evaluated the usefulness of the reported performance information to determine whether it was presented in accordance with the National Treasury's annual reporting principles and whether the reported performance was consistent with the planned development objectives. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's *Framework for managing programme performance information* (FMPPI).
16. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.
17. The material findings in respect of the selected development objectives are as follows:

## **Local economic development**

### **Usefulness of reported performance information**

#### **Indicators not well defined**

18. Performance indicators must be well defined by having clear data definitions so that data can be collected consistently and is easy to understand and use. A total of 55% of the indicators were not well defined. This was because management did not adhere to the requirements of the FMPPI, due to a lack of proper systems, processes and technical indicator descriptions.

#### **Performance targets not measurable**

19. The FMPPI requires that performance targets must be measurable. I could not measure the required performance for 55% of the targets, because the indicators were not well defined.

## **Reliability of reported performance information**

20. The FMPPI requires auditees to have appropriate systems to collect, collate, verify and store performance information to ensure valid, accurate and complete reporting of actual achievements against planned objectives, indicators and targets. Significantly important targets were not reliable when compared to the source information or evidence provided. This was due to a lack of standard operating procedures or documented system descriptions for the accurate recording of actual achievements, and technical indicator descriptions for the accurate measurement, recording and monitoring of performance.

## **Additional matters**

21. I draw attention to the following matters:

## **Achievement of planned targets**

22. Refer to the annual performance report on pages ... to ... and ... to ... for information on the achievement of the planned targets for the year. This information should be considered in the context of the material findings on the usefulness and reliability of the reported performance information for the selected development objectives reported in paragraphs 18 to 20 of this report.

## **Adjustment of material misstatements**

23. I identified material misstatements in the annual performance report submitted for auditing on the reported performance information for local economic development as well as service delivery and infrastructure development. As management subsequently corrected only some of the misstatements, I raised material findings on the usefulness and reliability of the reported performance information.

## **Compliance with legislation**

24. I performed procedures to obtain evidence that the municipality had complied with applicable legislation regarding financial matters, financial management and other related matters. My findings on material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA, are as follows:

## **Annual financial statements, performance report and annual report**

25. The financial statements submitted for auditing were not prepared in all material respects in accordance with the requirements of section 122 of the MFMA. Material misstatements of revenue, expenditure and disclosure items identified by the auditors in the submitted financial statements were subsequently corrected, resulting in the financial statements receiving an unqualified audit opinion.

## **Procurement and contract management**

26. Goods and services with a transaction value below R200 000 were procured without obtaining the required price quotations, contrary to supply chain management (SCM) regulation 17(a) and (c).
27. Awards were made to providers and principal shareholders who are in the service of the municipality, in contravention of section 112(j) of the MFMA and SCM regulation 44. Furthermore, providers failed to declare that they were in the service of the municipality, as required by SCM regulation 13(c).
28. Persons in the service of the municipality who had a private or business interest in contracts awarded by the municipality failed to disclose such interest, as required by the code of conduct for councillors issued in terms of the Municipal Systems Act of South Africa, 2000 (Act No. 32 of 2000) (MSA).

## **Human resource management and compensation**

29. Sufficient appropriate audit evidence could not be obtained to determine if senior managers who had been dismissed for financial misconduct in a previous position may have been re-appointed within 10 years, in contravention of section 57A of the MSA.

## **Internal control**

30. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with legislation. The matters reported below under the fundamentals of internal control are limited to the significant deficiencies that resulted in the findings on the annual performance report and the findings on compliance with legislation included in this report.

## **Leadership**

31. The municipality did not develop and implement proper performance planning and management practices to provide for the development of performance indicators and targets.
32. Human resource management policies were not adequately implemented.

## **Financial and performance management**

33. The municipality did not have a proper record management system to maintain information that supported the reported performance in the annual performance report. This included information that related to the collection, collation, verification, storing and reporting of actual performance information.
34. Non-compliance with laws and regulations could have been prevented had compliance been properly reviewed and monitored.

## Governance

35. The audit committee operated effectively during the current period as per their legislated mandate. Recommendations were made to management to improve internal controls and ensure reliable reporting of financial and performance information as well as compliance with legislation. However, this did not result in the desired audit outcomes, mainly because management did not adequately implement the recommendations.

## Other reports

## Investigations

36. An independent legal firm performed an investigation at the request of the municipality, which covered the period 6 May 2013 to September 2013. The investigation was initiated based on an allegation of possible irregularities and that proper SCM procedures had not been followed by officials. The investigation concluded on 17 June 2014. Recommendations were made to the accounting officer as detailed in the report, which included disciplinary action against the officials involved and criminal charges laid against them with the South African Police Service. The municipality indicated that the implementation of these recommendations is currently in progress and that the officials concerned have been officially suspended.

# **REPORT OF THE MANAGER:** **FINANCE**

## 1. INTRODUCTION

The financial objective of the municipality is to secure sound and sustainable management of the financial affairs of the municipality and to assist the six local municipalities to be financially viable.

Critical functional areas for the district municipality and local municipalities include the payment for services, revenue collection, capacity for municipal infrastructure expenditure and compliance with legislation.

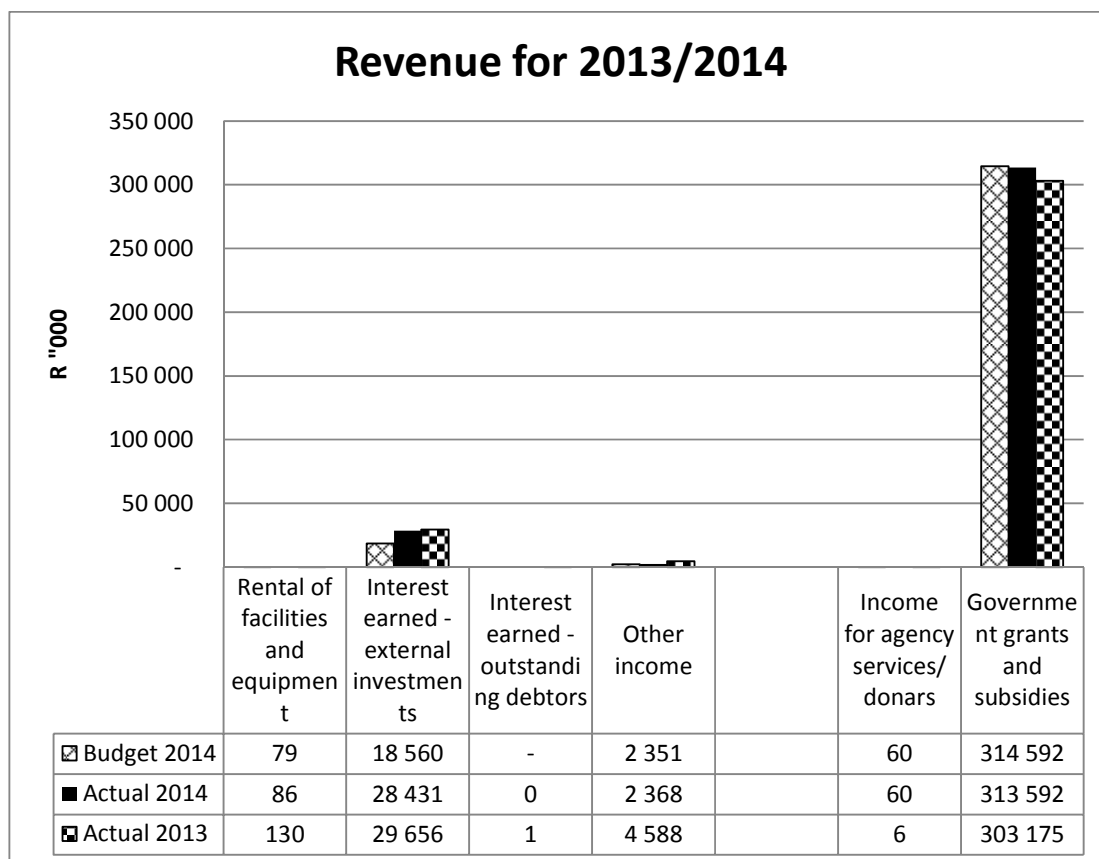

Issue 3 of the IDP relates to financial viability and includes projects that contributed to the financial viability of the district and local municipalities.

## 2. REVIEW OF OPERATING RESULTS

The 2013/2014 budget of the Nkangala District Municipality was approved by Council on the 29<sup>th</sup> of May 2013. An adjustment budget was approved on the 26<sup>th</sup> of February 2014. Herewith is commentary on the financial results.

### 2.1 REVENUE

2014 Budget	Note	2014 R 30-Jun-14	2013 R 30-Jun-13 AUDITED AFS
<b>20 990 104</b>		<b>29 036 221</b>	<b>30 404 041</b>
			<b>REVENUE</b>
78 620		86 454	129 828
18 560 000	18	28 430 598	29 655 700
-		174	1 025
2 351 484	20	518 995	617 488
<b>314 652 000</b>		<b>315 501 341</b>	<b>307 152 348</b>
			<b>REVENUE FROM NON-EXCHANGE TRANSACTIONS</b>
60 000		60 000	6 428
314 592 000	19	313 592 000	303 175 000
-	20	1 849 341	3 970 920
<b>335 642 104</b>		<b>344 537 561</b>	<b>337 556 388</b>
			<b>Total revenue</b>

## INTEREST EARNED

Interest earned on external investments decreased by 4.13% from R29,655,700 (2012/2013) to R28,430,598 (2013/2014). This decrease is attributed to a decrease in interest rates on call deposits.

Interest earned on outstanding debtors decreased by 83.00% from R1,025 (2012/2013) to R0.174 (2013/2014) due to better credit control measures.

## GOVERNMENT GRANTS AND SUBSIDIES

Government Grants and subsidies increased by 3.44 % from R303,175,000 (2012/13) to R313,592,000 (2013/14). Government Grants and Subsidies include the RSC Levy Replacement grant, the Equitable Share, Municipal System Improvement Grant, Finance Management Grant and the Expanded Public Works Programme Incentive Grant .

According to the accounting policies only the portion that has been expensed and meets the conditions of the grant are recognized as revenue.

## OTHER INCOME

Other income from exchange transactions decreased by 15.95% from R617,488 (2012/13) to R518,995 (2013/14), which include discount received.

Other income from non-exchange transactions decreased by 53.43% from R3,970,920 (2012/13) to R1,849,341 (2013/14), which include discount received and the reversal of provision for performance bonuses

Total revenue increased by 2.07% from R337,556,388 (2012/13) to R344,537,561 2013/2014 financial year. This amount exceeded the budget amount with R8,895,457.

Indicative allocations published in Division of Revenue Act (DORA) point to an increase in the RSC Levy Replacement Grant, although the growth rate in the grant increase is declining year on year.

The outlook for the next financial year is that the total revenue will increase compared to the year under review.

## 2.2 EXPENDITURE

Budget	EXPENDITURE		30-Jun-14	30-Jun-13
100 674 783	Employee related costs	21	56 978 863	59 753 425
11 825 284	Remuneration of councillors	22	11 598 147	10 884 898
20 000	Bad debts		-	-
10 344 507	Depreciation/ amortisation	23	8 315 362	8 220 174
8 476 593	Repairs and maintenance	24	4 094 422	4 169 471
5 778 000	Interest paid	25	4 557 206	5 295 199
316 622 756	Grants and subsidies paid	26	238 778 699	213 449 843
138 971 485	General expenses	27	86 641 928	65 829 077
6 953 700	Loss on disposal of property, plant and equipment		6 928 416	-
<b>599 667 107</b>	<b>Total expenditure</b>		<b>417 893 042</b>	<b>367 602 087</b>

## EMPLOYEE RELATED COST

Actual employee related costs decreased by 4.64 % from R59,753,425 (2012/13) to R56,978,963 (2013/14). Actual employee related costs are 56.52 % of the budgeted employee related cost, which is due to vacancies which have not been filled in the year under review, and the provision that was made for the implementation of the wage curve and the rationalisation of salaries, which did not materialise in the year under review. There was a major drive to fill vacant positions and combat unemployment, but the reversal of the provision for performance bonuses lead to an ultimate decrease in employee related cost.

## REMUNERATION OF COUNCILLORS

Payments made to councillors are in terms of the legislation on remuneration of public office bearers.

Actual councillor allowance costs increased by 6.55 % from R10,884,898 (2012/13) to R11,598,147 (2013/14). Actual councillor allowance costs are 99.22% of the budgeted remuneration of councillors.

## DEPRECIATION/ AMORTISATION

Depreciation/amortisation is charged on Property, Plant & Equipment/intangibles at rates determined in the accounting policies and asset useful lives are reviewed annually.

Actual depreciation/amortisation costs increased by 1.16 % from R8,220,174 (2012/13) to R8,315,363 (2013/14). Actual depreciation/amortisation costs are 80.38% of the budgeted depreciation/amortisation cost.

## REPAIRS & MAINTENANCE

This expenditure relates to maintenance on the office building which was used for the full duration of the year under review.

Actual repair and maintenance costs decreased by 1.80 % from R4,169,471 (2012/13) to R4,094,422 (2013/14). Actual repair and maintenance costs are 51.98% of the budgeted repairs and maintenance cost.

## INTEREST PAID

This interest relates to interest on long term loans with INCA, DBSA and financial leases for office equipment.

Actual interest costs decreased by 13.94 % from R5,295,199 (2012/13) to R4,557,206 (2013/14). Actual interest costs are 57.38% of the budgeted finance charges.

## GRANTS & SUBSIDIES

This expenditure relates to expenditure on infrastructure for local municipalities and regional functions for which the District Municipality is the primary authority.

Actual grants and subsidies paid represent 57.14% (58.07% 2012/13) of the total expenditure and increased by 11.87% from R213,449,842 (2012/13) to R238,778,699 (2013/14).

## GENERAL EXPENDITURE

General Expenditure comprises of operating expenditure not disclosed elsewhere on the statement of financial performance. Detail of general expenditure is disclosed under note 27 to the financial statements.

Actual general expenditure costs increased by 31.62 % from R65,829,077 (2012/13) to R86,641,928 (2013/14). Actual general expenditure costs are 66.77% of the budgeted general expenditure.

## DEFICIT

The municipality realised a deficit of R30,045,699 for 2012/13 and R73,355,481 for 2013/14, which is an indication that the municipality is eradicating the backlog of project implementation. These deficits are funded by the accumulated surplus of the municipality.

### 3. FINANCIAL POSITION

The Statement of Financial position represents the financial strength of the municipality by a comparison of assets over liabilities.

The total assets of the municipality decreased by 9.31% from R798,671,355 (2012/13) to R724,350,426 (2013/14). The contributing factors of this decrease can mainly be attributed to declining inventory and call investments.

Liabilities decreased by 0.88% from R109,450,259 (2012/13) to R108,484,810 (2013/14), which is mainly due to the redemption of liabilities for 2014.

### 4. KEY RATIOS

#### CURRENT RATIO

This ratio represents the ability of the municipality to pay short term obligations within the next 12 months.

	<b>Current assets</b>	<b>Current Liabilities</b>	
	<b>R</b>	<b>R</b>	<b>Ratio</b>
<b>2012/13</b>	675,107,679	64,830,127	10.41:1
<b>2013/14</b>	591,136,925	66,761,537	8.85:1

#### ACID TEST

A stringent indicator that determines whether a company/institution has enough short-term assets to cover its immediate liabilities without considering inventory. Institutions with ratios of less than 1 cannot pay their current liabilities and should be looked at with extreme caution.

	<b>Current assets - Inventory</b>	<b>Current Liabilities</b>	
	<b>R</b>	<b>R</b>	<b>Ratio</b>
<b>2012/13</b>	488,425,632	64,830,127	7.53:1
<b>2013/14</b>	425,379,801	66,761.537	6.37:1

### **SOLVENCY RATIO**

This represents the ability of the municipality to pay both its long term and short term obligations.

	<b>Total Assets</b>	<b>Total Liabilities</b>	
	<b>R</b>	<b>R</b>	<b>Ratio</b>
<b>2012/13</b>	798,671,355	109,450,259	7.30:1
<b>2013/14</b>	724,350,426	108,484,810	6.68:1

### **OTHER RATIOS**

	<b>30-Jun-14</b>	<b>30-Jun-13</b>
Employee related cost/Total Expenditure	13.63	16.25
Actual Grants and subsidies paid/Total Expenditure	57.14	58.07
Actual Grants and subsidies paid/Total Revenue	69.30	63.23
Actual Grants and subsidies paid/Budget	73.17	63.39

## 5. CREDIT RATING

Global Credit rating committee has in August 2013 rated the Nkangala District Municipality's as follows:

Security class	Rating scale	Rating	Rating outlook	Review date
Long term	National	A <sub>(ZA)</sub>	Stable	08/2014
High credit quality relative to other issuers or obligations in the same country. Protection factors are good. However, risk factors are more variable and greater in periods of economic stress.				
Short term	National	A1 <sub>(ZA)</sub>	Stable	08/2014
Very high certainty of timely payment relative to other issuers or obligations in the same country. Liquidity factors are excellent and supported by good fundamental protection factors. Risk factors are minor.				
Long term	International	BBB-	Stable	08/2014
Adequate protection factors and considered sufficient for prudent investment. However there is considerable variability in risk during economic cycles.				

## 6. GENERALLY RECOGNISED ACCOUNTING PRACTICES

The financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The following standards were applicable during the year under review.

Reference	Topic
GRAP 1	Presentation of Financial Statements
GRAP 2	Cash Flow Statements
GRAP 3	Accounting Policies, Changes in Accounting Estimates and Errors
GRAP 4	The Effects of Changes in Foreign Exchange Rates
GRAP 5	Borrowing Costs
GRAP 6	Consolidated and Separate Financial Statements
GRAP 7	Investments in Associates
GRAP 8	Interests in Joint Ventures
GRAP 9	Revenue from Exchange Transactions
GRAP 10	Financial Reporting in Hyperinflationary Economies
GRAP 11	Construction Contracts
GRAP 12	Inventories
GRAP 13	Leases
GRAP 14	Events After the Reporting Date
GRAP 16	Investment Property
GRAP 17	Property, Plant and Equipment
GRAP 19	Provisions, Contingent Liabilities and Contingent Assets
GRAP 21	Impairment of non-cash generating assets
GRAP 23	Revenue from non-exchange transactions
GRAP 24	Presentation of budget
GRAP 25	Employee Benefits
GRAP 26	Impairment of cash generating assets
GRAP 27	Agriculture
GRAP 31	Intangible Assets
GRAP 100	Non-current Assets Held for Sale and Discontinued Operations
GRAP 103	Heritage Assets
GRAP 104	Financial Instruments

## **1. ACCOUNTING POLICIES**

### **1.1. BASIS OF PREPARATION**

The municipality's annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

The financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practices (GRAP) including any interpretations, guidelines and directives issued by the accounting Standards Board:

A summary of the significant accounting policies are disclosed below.

These accounting policies are consistent with the previous year.

### **1.2. SIGNIFICANT JUDGEMENTS AND SOURCES OF ESTIMATION UNCERTAINTY**

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgement is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

#### **Trade receivables**

The municipality assesses its trade receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the municipality makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for trade receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to balances in the portfolio and scaled to the estimated loss emergence period.

#### **Impairment testing**

The recoverable amounts or recoverable service amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions.

The municipality reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of tangible assets are inherently uncertain and could materially change over time. They are significantly affected by a number of factors, including supply demand, together with economic factors such as interest.

#### **Provisions**

Provisions were raised and management determined an estimate based on the information available. Additional disclosures of these estimates of provisions are included in note 7 Provisions.

### **Useful lives of property, plant and equipment, investment property and intangible assets**

The municipality's management determines the estimated useful lives and related depreciation/amortisation charges for property, plant and equipment, investment property and intangible assets. This estimate is based on the pattern in which an asset's future economic benefits or service potential are expected to be consumed by the municipality.

### **Effective interest rate**

The municipality used the government bond rate to discount future cash flows.

### **Allowance for impairment**

On receivables an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired. The impairment is measured as the difference between the receivables' carrying amount and the present value of estimated future cash flows discounted at the effective interest rate, computed at initial recognition.

### **Defined benefit plan and other long-term employee benefits**

The municipality obtains actuarial valuations of its defined benefit plan and other long term employee benefits.

The defined benefit plan and other long-term employee benefits identified are post-retirement health benefit obligations. The estimated liabilities are recorded in accordance with GRAP 25. Additional information is disclosed in notes 4 and 6.

## **1.3. PRESENTATION CURRENCY**

These annual financial statements are presented in South African Rand, rounded to the nearest rand.

## **1.4. GOING CONCERN ASSUMPTION**

These annual financial statements have been prepared on a going concern basis.

## **1.5. COMPARATIVES INFORMATION**

Budgeted amounts have been included in the annual financial statements for the current financial year only.

### ***1.5.1. Prior year comparatives***

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

## **1.6. OFFSETTING**

Assets, liabilities, revenue and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

## **1.7. PROPERTY, PLANT AND EQUIPMENT**

The cost or fair value of an item of property, plant and equipment is recognised as an asset when it is probable that the future economic benefits or service potential associated with the item will flow to the municipality and the cost or fair value of the item can be measured reliably.

Major spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment. In addition, spare parts and stand by equipment which can only be used in connection with an item of property, plant and equipment are accounted for as property plant and equipment.

An item of property plant and equipment which qualifies for recognition as an asset are initially be measured at cost.

Where an asset is acquired at no cost, or for a nominal cost, its cost is its fair value as at the date of acquisition.

The cost of an item of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset to working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Directly attributable costs include the following:

- Cost of site preparation.
- Initial delivery and handling costs.
- Installation cost.
- Professional fees.
- Estimate cost of dismantling the asset and restoring the site to the extent that it is recognised as a provision.

Subsequently, property, plant and equipment are stated at cost less accumulated depreciation and any impairment losses. Land is not depreciated as it is deemed to have an indefinite life.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met.

Depreciation is calculated on cost, using the straight-line method over the estimated useful lives of the assets. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. The annual depreciation rates are based on the following estimated asset lives:-

<u>DETAILS</u>	<u>YEARS</u>	<u>DETAILS</u>	<u>YEARS</u>

Office Machines	3 - 10		

The residual value, and the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimates.

Where items of property, plant and equipment have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified.

Items of property, plant and equipment are derecognised when the asset is disposed of or when no further economic benefits or service potential is expected from the use of the asset.

The gain or loss from derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item. Such difference is recognised in surplus or deficit when the item of property, plant and equipment is derecognised.

### **1.7.1. Impairment of assets**

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable amount of the asset.

#### **Impairment of cash generating assets**

Assets that are subject to impairment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recovered.

An impairment loss is recognised if the recoverable amount of an asset is less than its carrying amount. The impairment loss is recognised as an expense in the statement of financial performance immediately. The recoverable amount of the asset is the higher of the asset's fair value less cost to sell and its value in use.

The fair value represents the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties.

The value in use of an asset represents the expected future cash flows, from continuing use and disposal that are discounted to their present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate cash inflows largely independent of those from other assets, the recoverable amount is determined for the cash-generating unit to which the assets belongs. A cash-generating unit is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash flows from other assets or group of assets. An impairment loss is recognised whenever the recoverable amount of a cash-generating unit is less than its carrying amount.

The impairment loss is allocated to reduce the carrying amount of the asset. The carrying amount of individual assets are not reduced below the higher of its value in use, R1.00 or fair value less cost to sell.

An impairment loss is recognised immediately in surplus or deficit.

A previously recognised impairment loss related to assets is reversed if there has been a change in the estimates used to determine the recoverable amount, however not to an amount higher than the carrying amount that would have been determined had no impairment loss been recognised in prior periods.

After the recognition of an impairment loss, any depreciation charge for the asset is adjusted for future periods to allocate the assets' revised carrying amount on a systematic basis over its remaining useful life.

#### **Impairment of non-cash generating assets**

Cash-generating assets are those assets held by the municipality with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit orientated entity, it generates a commercial return.

Non-cash-generating assets are assets other than cash-generating assets.

When the carrying amount of a non-cash-generating asset exceeds its recoverable service amount, it is impaired.

The municipality assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

Irrespective of whether there is any indication of impairment, the municipality also tests a non-cash-generating intangible asset with an indefinite useful life or a non-cash-generating intangible asset not yet available for use, for impairment annually by comparing its carrying amount with its recoverable service amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset should be tested for impairment before the end of the current reporting period.

The present value of the remaining service potential of an asset is determined using the depreciated replacement cost approach: The present value of the remaining service potential of a non-cash-generating asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimised" basis. The rationale is that the municipality would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an overdesigned or overcapacity asset. Overdesigned assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimised basis thus reflects the service potential required of the asset.

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating may no longer exist or may have decreased. If any such indication exists, the municipality estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have

been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss is recognised immediately in surplus or deficit.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

## **1.8. INTANGIBLE ASSETS**

The cost or fair value of an item of intangibles is recognised as an intangible asset when it is probable that the future economic benefits or service potential associated with the item will flow to the municipality and the cost of the item of the item can be measured reliably.

An item of intangible assets which qualifies for recognition as an asset is initially be measured at cost.

Where an asset is acquired at no cost, or for a nominal cost, its cost is its fair value as at the date of acquisition.

The cost of an item of intangible assets comprises its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset to working condition for its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

Subsequently, intangible assets are stated at cost less accumulated amortisation and any impairment losses.

Amortisation is calculated on cost, using the straight-line method over the estimated useful lives of the assets. The annual amortisation rates are based on the following estimated asset lives:-

<b>Details</b>	<b>Years</b>
Computer soft ware	3-15 years

Intangible assets are derecognised when the asset is disposed of or when no further economic benefit or service potential expected from the use of the asset.

The gain or loss from derecognition of an intangible asset is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item. Such difference is recognised in surplus or deficit.

## **1.9. FINANCIAL INSTRUMENTS**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

### **Classification**

The municipality has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

<b>Class</b>	<b>Category</b>
Other receivables	Financial asset measured at amortised cost.
Investments	
Call investment deposits	
Bank balances	
Cash	

The municipality has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

<b>Class</b>	<b>Category</b>
Other payables	Financial liability measured at amortised cost
Long term liabilities	
Financial lease liabilities	

### **Initial recognition**

The municipality recognises a financial asset or a financial liability in its statement of financial position when the municipality becomes a party to the contractual provisions of the instrument.

The municipality recognises financial assets using trade date accounting.

Initial measurement of financial assets and financial liabilities

The municipality measures a financial asset and financial liability, other than those subsequently measured at fair value, initially at its fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

The municipality measures all other financial assets and financial liabilities initially at its fair value.

The municipality first assesses whether the substance of a concessionary loan is in fact a loan. On initial recognition, the municipality analyses a concessionary loan into its component parts and accounts for each component separately. The municipality accounts for that part of a concessionary loan that is:

- a social benefit in accordance with the Framework for the Preparation and Presentation of Financial Statements, where it is the issuer of the loan; or
- non-exchange revenue, in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers), where it is the recipient of the loan.

### **Subsequent measurement of financial assets and financial liabilities**

The municipality measures all financial assets and financial liabilities after initial recognition using the following categories:

<b>Class</b>	<b>Category</b>
Other receivables	Financial asset measured at amortised cost.
Investments	
Call investment deposits	
Bank balances	
Cash	

The municipality has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

<b>Class</b>	<b>Category</b>
Other payables	Financial liability measured at amortised cost
Long term liabilities	
Financial lease liabilities	

All financial assets measured at amortised cost, or cost, are subject to an impairment review.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortisation using the effective interest rate method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectability in the case of a financial asset.

### **Fair value measurement considerations**

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, the municipality establishes fair value by using a valuation technique. The objective of using a valuation technique is to establish what the transaction price would have been on the measurement date in an arm's length exchange motivated by normal operating considerations. Valuation techniques include using recent arm's length market transactions between knowledgeable, willing parties, if available, reference to the current fair value of another instrument that is substantially the same, discounted cash flow analysis and option pricing models. If there is a valuation technique commonly used by market participants to price the instrument and that technique has been demonstrated to provide reliable estimates of prices obtained in actual market transactions, the entity uses that technique. The chosen valuation technique makes maximum use of market inputs and relies as little as possible on entity-specific inputs. It incorporates all factors that market participants would consider in setting a price and is consistent with accepted economic methodologies for pricing financial instruments. Periodically, the municipality calibrates the valuation technique and tests it for validity using prices from any observable current market transactions in the same instrument (i.e. without modification or repackaging) or based on any available observable market data.

Short-term receivables and payables are not discounted where the initial credit period granted or received is consistent with terms used in the public sector, either through established practices or legislation.

### **Gains and losses**

A gain or loss arising from a change in the fair value of a financial asset or financial liability measured at fair value is recognised in surplus or deficit.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in surplus or deficit when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

### **Impairment and un-collectability of financial assets**

The municipality assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

For amounts due to the municipality, significant financial difficulties of the receivable, probability that the receivable will enter bankruptcy and default of payments are all considered indicators of impairment.

### **Financial assets measured at amortised cost:**

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in surplus or deficit.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in surplus or deficit.

Where financial assets are impaired through use of an allowance account, the amount of the loss is recognised in surplus or deficit within operating expenses. When such financial assets are written off, the write off is made against the relevant allowance account. Subsequent recoveries of amounts previously written off are credited against operating expenses.

### **Financial assets measured at cost:**

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

## **Derecognition**

### **Financial assets**

The municipality derecognises financial assets using trade date accounting.

The municipality derecognises a financial asset only when:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- the municipality transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the municipality, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party and the other party has the practical ability to sell the asset in its entirety to an unrelated third party, and is able to exercise that ability unilaterally and without needing to impose additional restrictions on the transfer. In this case, the municipality:
  - derecognises the asset; and
  - recognises separately any rights and obligations created or retained in the transfer.

The carrying amount of the transferred asset is allocated between the rights or obligations retained and those transferred on the basis of their relative fair values at the transfer date. Newly created rights and obligations are measured at their fair values at that date. Any difference between the consideration received and the amounts recognised and derecognised is recognized in surplus or deficit in the period of the transfer.

On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received is recognised in surplus or deficit.

## **Financial liabilities**

The municipality removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished - i.e. when the obligation specified in the contract is discharged, cancelled, expires or waived.

An exchange between an existing borrower and lender of debt instruments with substantially different terms is accounted for as having extinguished the original financial liability and a new financial liability is recognised. Similarly, a substantial modification of the terms of an existing financial liability or a part of it is accounted for as having extinguished the original financial liability and having recognised a new financial liability.

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in surplus or deficit. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

### **1.10. REVENUE RECOGNITION**

Revenue are measured at the fair value of the consideration received or receivable. No settlement discount is applicable.

#### **1.10.1. Revenue from exchange transactions**

##### **1.10.1.1. Rental of facilities:**

Rental of facilities are recognised as revenue when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably

##### **1.10.1.2. Interest:**

Revenue arising from the use of assets by others of the municipal assets yielding interest are recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably

Interest are recognised on a time proportionate basis that takes into account the effective yield on the asset.

##### **1.10.1.3. Other revenue:**

Revenue arising from the selling of tender documents are recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably

All other revenue is recognised at fair value as an when they occur.

## **1.10.2. Revenue from non-exchange transactions**

### **1.10.2.1. Government Grants:**

Government Grants can be in the form of grants to acquire or construct fixed assets (capital grants), grants for the furtherance of national and provincial government policy objectives and general grants to subsidise the cost incurred by municipalities rendering services. Capital grants and general grants for the furtherance of government policy objectives are usually restricted revenue in that stipulations are imposed in their use.

Government grants are recognised as revenue when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably, and
- To the extent that there has been compliance with any conditions associated with the grant

### **1.10.2.2. Other grants and donations received:**

Other grants and donations are recognised as revenue when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality, and
- The amount of the revenue can be measured reliably, and
- To the extent that there has been compliance with any restrictions associated with the grant

### **1.10.2.3. Other Revenue:**

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

All other revenue is recognised at fair value as an when they occur.

## **1.11. PROVISIONS**

Provisions are recognised when the Municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Non-current provisions

are discounted to the present value using a discount rate based on the average cost of borrowing to the Municipality.

### **1.12. CASH AND CASH EQUIVALENTS**

Cash includes cash on hand and cash with banks. Cash equivalents are short-term highly liquid investments that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value.

### **1.13. EMPLOYEE BENEFITS**

Short-term employee benefits are employee benefits (other than termination benefits) that are due to be settled within 12 months after the end of the period in which the employees render the related service.

Short-term employee benefits include items such as:

- wages, salaries and social security contributions;
- short-term compensated absences (such as paid annual leave and paid sick leave) where the compensation for the absences is due to be settled within twelve months after the end of the reporting period in which the employees
- render the related employee service;
- period in which the employees render the related service; and
- non-monetary benefits (for example, medical care, and free or subsidised goods or services such as housing, cars
- and cellphones) for current employees.

When an employee has rendered services to the municipality during a reporting period, the municipality recognises the undiscounted amount of short-term employee benefits expected to be paid in exchange for that service:

- as a liability (accrued expense), after deducting any amount already paid. If the amount already paid exceeds the
- undiscounted amount of the benefits, the municipality recognises that excess as an asset (prepaid expense) to the
- extent that the prepayment will lead to, for example, a reduction in future payments or a cash refund; and
- as an expense, unless another Standard requires or permits the inclusion of the benefits in the cost of an asset.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs. The municipality measures the expected cost of accumulating compensated absences as the additional amount that the municipality expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The municipality recognises the expected cost of bonus, incentive and performance related payments when the municipality has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the municipality has no realistic alternative but to make the payments.

#### **1.13.1. Defined contribution plans:**

Obligations for contributions to defined contribution plans are recognised as an expense in the statement of financial performance as incurred.

Contributions to the defined contribution pension plan in respect of service in a particular period are included in the employees' total cost of employment and are charged to the statement of financial performance in the year to which they relate as part of cost of employment.

The municipality contributes towards retirement benefits of its employees and councillors to the under-mentioned pension funds:

- Joint Municipal pension Fund
- Municipal employees Pension Fund
- Municipal Gratuity Fund

Councillors are members of the Municipal Councillor's Pension Fund that was established in terms of the Remuneration of Public Office Bearers Act 1998 (Act 20 of 1998).

### **1.13.2. Defined benefit plans:**

#### **1.13.2.1. *Post employment medical care benefits:***

The municipality provides post employment medical care benefits to its employees and their legitimate spouses. The entitlement to post –retirement medical benefits is based on employee remaining in service up to retirement age and the completion of a minimum service period. The expected cost, of these benefits is accrued over the period of employment.

Defined benefit plans are post-employment benefit plans other than defined contribution plans. Actuarial gains and losses comprise experience adjustments (the effects of differences between the previous actuarial assumptions and what has actually occurred) and the effects of changes in actuarial assumptions. In measuring its defined benefit liability the municipality recognises actuarial gains and losses in surplus or deficit in the reporting period in which they occur.

Current service cost is the increase in the present value of the defined benefit obligation resulting from employee service in the current period.

Interest cost is the increase during a period in the present value of a defined benefit obligation which arises because the benefits are one period closer to settlement.  
Past service cost is the change in the present value of the defined benefit obligation for employee service in prior periods, resulting in the current period from the introduction of, or changes to, post-employment benefits or other long-term employee benefits. Past service cost may be either positive (when benefits are introduced or changed so that the present value of the defined benefit obligation increases) or negative (when existing benefits are changed so that the present value of the defined benefit obligation decreases). In measuring its defined benefit liability the municipality recognises past service cost as an expense in the reporting period in which the plan is amended.  
Plan assets comprise assets held by a long-term employee benefit fund and qualifying insurance policies.

The present value of a defined benefit obligation is the present value, without deducting any plan assets, of expected future payments required to settle the obligation resulting from employee service in the current and prior periods.

The return on plan assets is interest, dividends or similar distributions and other revenue derived from the plan assets, together with realised and unrealised gains or losses on the plan assets, less any costs of administering the plan (other than those included in the actuarial assumptions used to measure the defined benefit obligation) and less any tax payable by the plan itself.

The amount recognised as a defined benefit liability is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;

- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly;
- plus any liability that may arise as a result of a minimum funding requirement.

The amount determined as a defined benefit liability may be negative (an asset). The municipality measures the resulting asset at the lower of:

- the amount determined above; and
- the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan. The present value of these economic benefits is determined using a discount rate which reflects the time value of money.

Any adjustments arising from the limit above is recognised in surplus or deficit.

The municipality determines the present value of defined benefit obligations and the fair value of any plan assets with sufficient regularity such that the amounts recognised in the annual financial statements do not differ materially from the amounts that would be determined at the reporting date.

The municipality recognises the net total of the following amounts in surplus or deficit, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement rights;
- actuarial gains and losses, which is recognised immediately;
- past service cost, which is recognised immediately;
- the effect of any curtailments or settlements; and
- the effect of applying the limit on a defined benefit asset (negative defined benefit liability).

The municipality uses the Projected Unit Credit Method to determine the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost. The Projected Unit Credit Method (sometimes known as the accrued benefit method pro-rated on service or as the benefit/years of service method) sees each period of service as giving rise to an additional unit of benefit entitlement and measures each unit separately to build up the final obligation.

In determining the present value of its defined benefit obligations and the related current service cost and, where applicable, past service cost, the municipality attributes benefit to periods of service under the plan's benefit formula. However, if an employee's service in later years will lead to a materially higher level of benefit than in earlier years, the municipality attributes benefit on a straight-line basis from:

- the date when service by the employee first leads to benefits under the plan (whether or not the benefits are conditional on further service); until
- the date when further service by the employee will lead to no material amount of further benefits under the plan, other than from further salary increases.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan. The results of the valuation are updated for any material transactions and other material changes in circumstances (including changes in market prices and interest rates) up to the reporting date.

The municipality recognises gains or losses on the curtailment or settlement of a defined benefit plan when the curtailment or settlement occurs. The gain or loss on a curtailment or settlement comprises:

- any resulting change in the present value of the defined benefit obligation; and
- any resulting change in the fair value of the plan assets.

Before determining the effect of a curtailment or settlement, the municipality re-measures the obligation (and the related plan assets, if any) using current actuarial assumptions (including current market interest rates and other current market prices).

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is presented as the net of the amount recognised for a reimbursement.

The municipality offsets an asset relating to one plan against a liability relating to another plan when the municipality has a legally enforceable right to use a surplus in one plan to settle obligations under the other plan and intends either to settle the obligations on a net basis, or to realise the surplus in one plan and settle its obligation under the other plan simultaneously.

### **Actuarial assumptions**

Actuarial assumptions are unbiased and mutually compatible.

Financial assumptions are based on market expectations, at the reporting date, for the period over which the obligations are to be settled.

The rate used to discount post-employment benefit obligations (both funded and unfunded) reflects the time value of money.

The currency and term of the financial instrument selected to reflect the time value of money are consistent with the currency and estimated term of the post-employment benefit obligations.

Post-employment benefit obligations are measured on a basis that reflects:

- estimated future salary increases;
- the benefits set out in the terms of the plan (or resulting from any constructive obligation that goes beyond those terms) at the reporting date; and
- estimated future changes in the level of any state benefits that affect the benefits payable under a defined benefit plan, if, and only if, either:
  - those changes were enacted before the reporting date; or
  - past history, or other reliable evidence, indicates that those state benefits will change in some predictable manner, for example, in line with future changes in general price levels or general salary levels.

Assumptions about medical costs take account of estimated future changes in the cost of medical services, resulting from both inflation and specific changes in medical costs.

#### **1.13.3. Long service awards:**

The municipality has an obligation to provide long-term service allowance benefits to all of its employees. According to the rules of the long-term service allowance scheme, which the municipality instituted and operates, an employee (who is on the current conditions of service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 5, 10, 15, 20, 25 and 30 years of continued service.

The municipality's liability is based on an actuarial valuation. The Projected Unit Credit Method is used to value the liabilities.

Actuarial gains and losses on the long-term service awards are recognised in the statement of financial performance.

The amount recognised as a liability for long-term service awards is the net total of the following amounts:

- the present value of the defined benefit obligation at the reporting date;

- minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly.

The municipality recognises the net total of the following amounts as expense or revenue, except to the extent that another Standard requires or permits their inclusion in the cost of an asset:

- current service cost;
- interest cost;
- the expected return on any plan assets and on any reimbursement right recognised as an asset;
- actuarial gains and losses, which is recognised immediately;
- past service cost, which is recognised immediately; and
- the effect of any curtailments or settlements.

#### **1.13.4. Accrued leave pay**

The liability is based on the total accrued leave days at year end and it is recognised as it accrue for employees, regardless how the obligation will be settled at the future date.

#### **1.14. BORROWING COSTS**

Borrowing costs are recognised as an expense in the Statement of Financial Performance. Borrowing costs that relate to the acquisition/purchase of Property, Plant and Equipment that meet the definition of a qualifying asset, is capitalised to the cost of the item of Property, Plant and Equipment.

#### **1.15. EVENTS AFTER REPORTING DATE**

Recognised amounts in the financial statements are adjusted to reflect events arising after the reporting date that provide evidence of conditions that existed at the reporting date. Events after the reporting date that are indicative of conditions that arose after the reporting date are dealt with by way of a note to the financial statements

#### **1.16. LEASES:**

Leases are classified as finance leases whenever the terms of the lease transfer substantially all of the risk and rewards of ownership to the lessee.

##### **1.16.1. Finance leases – lessee**

Assets held under finance leases are initially recognised as assets of the Municipality at their fair value at the inception of the lease or, if lower, at the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly to surplus or deficit. Contingent rentals are recognised as expenses in the periods in which they are incurred.

##### **1.16.2. Operating leases – lessee**

Operating lease payments are recognised as an expense on a straight-line basis over the lease term, except where another systematic basis is more representative of the time pattern in which economic

benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

**1.17. INVENTORY:**

The municipality constructs infrastructure projects, which will subsequently be transferred to local municipalities in its area of jurisdiction at no cost when the project is completed. Projects still in progress and not yet completed is disclosed as inventory. Inventory is measured at actual cost.

**1.18. VALUE ADDED TAX:**

The Municipality accounts for Value-Added-Tax on the payment basis

**1.19. UNAUTHORISED EXPENDITURE**

Unauthorised expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government or organ of state.

Unauthorised expenditure is accounted for as an expense in the statement of Financial Performance, and where recovered it is subsequently accounted for as revenue in the statement of financial performance.

**1.20. IRREGULAR EXPENDITURE**

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act no. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), and the public Office Bearers Act, Act No. 20 of 1988), or is in contravention of the municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of the Financial Performance, and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

**1.21. FRUITLESS AND WASTEFUL EXPENDITURE**

Fruitless and wasteful expenditure is expenditure that was made in vain, and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance, and where recovered; it is subsequently accounted for as revenue in the Statement of Financial Performance.

## **1.22. CONTINGENCIES**

### **1.22.1. CONTINGENT ASSETS**

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality.

Contingent assets are not recognised as assets but are disclosed in note to the financial statements.

### **1.22.2. CONTINGENT LIABILITIES**

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are not recognised as liabilities but are disclosed in the notes to the financial statements.

## **1.23. COMMITMENTS**

Items are classified as commitments where the municipality commits itself to future transactions that will normally result in the outflow of resources. Commitments are not recognised in the statement of financial position as a liability, but are included in the disclosure notes in the following cases:

- approved and contracted commitments;
- where the expenditure has been approved and the contract has been awarded at the reporting date;
- where disclosure is required by a specific standard of GRAP.

## **1.24. RELATED PARTIES**

The municipality operates in an economic sector currently dominated by entities directly or indirectly owned by the South African Government. As a consequence of the constitutional independence of the three spheres of government in South Africa, which is considered to be related parties.

Management are those persons responsible for planning, directing and controlling the activities of the municipality, including those charged with the governance of the municipality in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that management in their dealings with the municipality.

Transactions with related parties are disclosed as required by the Municipal Finance Management Act (Act . 56 of 2003)

### **1.25. BUDGET INFORMATION**

The comparison of budget and actual amounts presents separately for each level of legislative oversight:

- the approved and final budget amounts;
- the actual amounts on a comparable basis; and
- by way of note disclosure, an explanation of material differences between the budget for which the municipality is held publicly accountable and actual amounts, unless such explanation is included in other public documents issued in conjunction with the financial statements, and a cross reference to those documents is made in the notes.

Where the municipality prepares its budget and annual financial statements on a comparable basis, it includes the comparison as an additional column in the primary annual financial statements. Where the budget and annual financial statements are not prepared on a comparable basis, a separate statement is prepared called the 'Statement of Comparison of Budget and Actual Amounts'. This statement compares the budget amounts with the amounts in the annual financial statements adjusted to be comparable to the budget.

A comparable basis means that the budget and annual financial statements:

- are prepared using the same basis of accounting i.e. either cash or accrual;
- include the same activities and entities;
- use the same classification system; and
- are prepared for the same period.

The post employment medical aid benefit are provided for ex retired employees and their legitimate spouses and is paid monthly. The entitlement to post-retirement medical benefits is based on employees remaining in service up to retirement age and the completion of a minimum service period. The provision is an estimate of the liability based on historical staff turnover and life expectancy of the relevant people and is discounted by using the inflation rate at the reporting date. There was substantial additional staff appointed during the year under review, which is the reason for the huge increase from 2013 to 2014

Actuarial valuation done in 2013/14

Actuarial valuation done in 2012/13

**Valuation method**

The method used is called the "Projected unit credit method". Under this method the accrued service liabilities are determined by projecting all future payments which will be made by the employer in respect of benefits accrued up to the Valuation Date. Assumptions are made in respect of, inter-alia, medical scheme contribution increases, withdrawals, deaths and ill-health, early and normal retirements. These payments are discounted at the valuation rate of discount to determine the present value of the liabilities at the Valuation Date.

	Changes in assumptions	Liability R'000s	Percentage change	Service cost R'000s	Interest cost R'000s	Total cost R'000s	Percentage
Central assumption used		12 684	0	1 690	778	2 468

Opening balance	67 590	-
Fruitless and wasteful expenditure current year	1 027	67 590
Resolved to be written off by Council	(68 617)	-
To be recovered – contingent asset (see note 35)	-	-
Fruitless and wasteful expenditure awaiting resolution for writing off	-	67 590

Incident	Disciplinary steps/criminal proceedings
On 19 September 2012 a service provider called The Energy Room was paid R47,880 for the Executive Mayor to appear on SABC 3 Morning live show. The R47,880 include the cost for plane tickets and accommodation. When the manager in the Mayor office wanted to collect the plane tickets the service provider was nowhere to be found, the case was reported to the South African Police and the case number is 560/9/2012.	The case was reported to the South African Police and the case number is 560/9/2012. Council resolved to write off the amount as it is not recoverable
In January 2013 payments to third parties for salary deductions were paid one day late due to a system error and interest was charged of R1,354.	The matter was investigated. Council subsequently resolved to write off the expenditure
In April 2013 the payment to the Development Bank of South Africa was paid late and an amount of R18,357 was charged as additional interest.	The matter was investigated. Council subsequently resolved to write off the expenditure
Accommodation was booked for a Councillor to attend the post graduate programme in Development and Management of Local Government at WITS, the training was postponed without informing the Councillor timeously to the amount of R1027	The matter was investigated. Council subsequently resolved to write off the expenditure

<b>31.3 Irregular expenditure</b>	<b>2014</b>	<b>2013</b>
Opening balance	56 000	12 800 904
Irregular expenditure current year	2 769 539	34 000
Correction		(105 000)
Resolved to be written off by Council	(2 770 839)	(12 673 904)
Irregular expenditure awaiting resolution for writing off	54 700	56 000

Incident	Disciplinary steps/criminal proceedings
In January 2012 a payment was made to Magezekusni Trading, who was in service of the state to the amount of R22,000	The matter was investigated. Council subsequently resolved to write off the expenditure
Services were acquired from a service provider for R25,800 (2012/2013) and R28 900 (2013/2014) and one of the directors is a councillor at the municipality	The matter is under investigation.
Goods were acquired from a service provider for R11,200, only two quotations were obtained	The matter was investigated. Council subsequently resolved to write off the expenditure
Two contracts were awarded to Tsepo Legodi Trading for project 4911/14 and 5911/14, one of the directors is in service of the state and did not declare his status. Total payment made to Tsepo Trading amounts to R454,020	The matter was investigated.
Two contracts were awarded to Key Spirit Trading for project 5905/13 and 1905/13, one of the directors is in service of the state and did not declare his status. Payments to Key Spirit amounts to R1,686,147 and R629,372 for the two contracts	The matter was investigated.
Two contracts were awarded to Kwinana Equifin Incorporated for project 5911/14 and 2912/14, one of the directors is in service of the state and did not declare his status. No payments has been made to Kwinana Equifin Incorporate thus far	The matter was investigated.

**NKANGALA DISTRICT MUNICIPALITY**  
**NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2014**

**39 RISK MANAGEMENT**

The municipality's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk including cash flow interest rate risk and price risk.

The municipality's risk management policies are established to identify and analyse the risks faced by the municipality, to set up limits and controls to monitor risks and adherence to limits. The risk management policy is reviewed annually and a risk assessment is performed annually and monitored regularly to reflect changes in the municipality's activities and risk profile.

**Liquidity risk**

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

The table below analyses the municipality's financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

**At 30 June 2014**

	<b>39 091 394</b>	<b>6 511 104</b>	<b>19 850 195</b>	<b>1 542 534</b>

**At 30 June 2013**

	Less than 1 year	Between 1 to 2 years	Between 2 to 5 years	Over 5 years
Payables from exchange transactions	25 740 481	-	-	-
Long term liabilities	5 787 798	6 129 882	20 897 938	7 005 895
Finance lease liabilities	372 843	29 044	-	-
	<b>31 901 122</b>	<b>6 158 926</b>	<b>20 897 938</b>	<b>7 005 895</b>

**Credit risk**

Credit risk consists mainly of cash deposits, cash equivalents and receivables. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Receivables comprise mostly of government departments, who rents offices from the municipality, as a customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors.

Individual risk limits are set based on internal or external ratings in accordance with limits set by the Council

Nkangala District Municipality manages its credit risk in its borrowing and investing activities by dealing with A+ rated financial institutions and by spreading its exposure over a wide range of financial institutions in accordance with the approved cash and investment policy of Council

Financial assets exposed to credit risk at year end were as follows

Financial instrument	2014	2013
Receivables from exchange transactions	42 306	99 902
Call investment deposits	395 570 244	457 510 506
Bank balances and cash	6 212 592	8 541 721
Long term investments	33 756 425	31 085 334
	<b>435 581 567</b>	<b>497 237 463</b>

**Market risk**

**Interest rate risk**

Nkangala District Municipality is exposed to interest rate risk on one of its long term borrowing, namely the Development Bank of South Africa loan conditions set on 6 months JIBAR +2%. There is no risk on the long term borrowing with INCA as it is at a fixed rate.

Nkangala District Municipality has a long term investment in the form of a promisory note with Investec, which poses not interest rate risk as the value is guaranteed at the end of the maturity of the investment.

Nkangala District invests its surplus funds not immediately required for operating activities in short term deposits with the A+ financial institutions in terms of the approved cash and investment policy at the best interest rate at the day of the investment.

Refer to note 2, 3, 12 and 16

NKANGALA DISTRICT MUNICIPALITY  
NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2014

**40 RECLASSIFICATION OF ITEMS ON THE ANNUAL FINANCIAL STATEMENTS**

Amount reclassified from grants and subsidies	14 094 653
New balance reported	65 829 077

**NKANGALA DISTRICT MUNICIPALITY**  
**NOTES TO THE FINANCIAL STATEMENTS FOR THE PERIOD ENDED 30 JUNE 2014**

**41 GOING CONCERN**

The Annual Financial Statements have been prepared on the basis of accounting policies applicable to a going concern. The basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

**42 COMPARISON WITH THE BUDGET**

The budget is compiled on an accrual basis for the same period as the annual financial year - 1 July 2013 to 30 June 2014

The comparison of the municipality's actual financial performance with that budgeted is set out in the Appropriation Statement

## **43 New standards and interpretations**

### **43.1 Standards and interpretations effective and adopted in the current year**

In the current year, the municipality has adopted the following standards and interpretations that are effective for the current financial year and that are relevant to its operations:

#### **IGRAP 1 (as revised 2012): Applying the Probability Test on Initial Recognition of Revenue**

This interpretation of the Standards of GRAP now addresses the manner in which the municipality applies the probability test on initial recognition of both:

- (a) exchange revenue in accordance with the Standard of GRAP on Revenue from Exchange Transactions; and
- (b) non-exchange revenue in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

This interpretation supersedes the interpretation of the Standards of GRAP: Applying the Probability Test on Initial Recognition of Exchange Revenue issued in 2009.

The effective date of the interpretation is for years beginning on or after 01 April 2013.

The municipality has adopted the interpretation for the first time in the 2014 annual financial statements.

#### **GRAP 1 (as revised 2012): Presentation of Financial Statements**

Minor amendments were made to the statement of financial performance as well as the statement of changes in net assets.

All amendments are to be applied retrospectively.

The effective date of the amendment is for years beginning on or after 01 April 2013

The municipality has early adopted the amendment for the first time in the 2013 annual financial statements.

The impact of the amendment is not material.

#### **GRAP 3 (as revised 2012): Accounting Policies, Change in Accounting Estimates and Errors**

Amendments were made to changes in accounting policies. A change to the cost model when a reliable measure of fair value is no longer available (or vice versa) for an asset that a Standard of GRAP would otherwise require or permit to be measured at fair value are no longer considered to be a change in an accounting policy in terms of the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors (as revised in 2010).

The effective date of the amendment is for years beginning on or after 01 April 2013

The municipality has early adopted the amendment for the first time in the 2013 annual financial statements.

The impact of the amendment is not material.

#### **GRAP 7 (as revised 2012): Investments in Associates**

Amendments were made to definitions. A requirement to include transaction costs on initial recognition of an investment in an associate under the equity method, has been included in the Standard of GRAP Investments in Associates

All amendments are to be applied prospectively.

The effective date of the amendment is for years beginning on or after 01 April 2013.

The municipality has early adopted the amendment for the first time in the 2013 annual financial statements.

The impact of the amendment is not material.

#### **GRAP 9 (as revised 2012): Revenue from Exchange Transactions**

Amendments were made to the scope and definitions.

All amendments are to be applied retrospectively.

The effective date of the amendment is for years beginning on or after 01 April 2013.

The municipality has early adopted the amendment for the first time in the 2013 annual financial statements.

The impact of the amendment is not material.

**GRAP 12 (as revised 2012): Inventories**

Amendments were made to measurement after recognition.

All amendments are to be applied retrospectively.

The effective date of the amendment is for years beginning on or after 01 April 2013.

The municipality has early adopted the amendment for the first time in the 2013 annual financial statements.

The impact of the amendment is not material.

**GRAP 13 (as revised 2012): Leases**

Amendments were made to disclosures.

All amendments are to be applied retrospectively.

The effective date of the amendment is for years beginning on or after 01 April 2013.

The municipality has early adopted the amendment for the first time in the 2013 annual financial statements.

The impact of the amendment is not material.

**GRAP 16 (as revised 2012): Investment Property**

Amendments were made to definitions, measurement at recognition, disposals and disclosure. Changes were made to the Standard of GRAP on Investment Property (as revised in 2010) to ensure the consistent application of the principle where assets are acquired in exchange for non-monetary assets when the exchange transaction lacks commercial substance. Furthermore the assessment of significant use of an investment property has been clarified.

All amendments are to be applied prospectively.

The effective date of the amendment is for years beginning on or after 01 April 2013.

The municipality has early adopted the amendment for the first time in the 2013 annual financial statements.

The impact of the amendment is not material.

**GRAP 17 (as revised 2012): Property, Plant and Equipment**

Amendments were made to definitions, measurement at recognition, disposals and disclosure. Changes were made to the Standard of GRAP on Property, Plant and Equipment (as revised in 2010) to ensure the consistent application of the principle where assets are acquired in exchange for non-monetary assets when the exchange transaction lacks commercial substance. Furthermore the requirement to disclose property, plant and equipment that were temporarily idle, has been clarified.

All amendments are to be applied prospectively.

The effective date of the amendment is for years beginning on or after 01 April 2013.

The municipality has early adopted the amendment for the first time in the 2013 annual financial statements.

The impact of the amendment is not material.

**GRAP 27 (as revised 2012): Agriculture (replaces GRAP 101)**

This Standard of GRAP replaces the previous Standard of GRAP on Agriculture (GRAP 101) due to the International Public Sector Accounting Standards Board (IPSASB) that has issued an IPSAS on Agriculture (IPSAS 27).

The effective date of the standard is for years beginning on or after 01 April 2013.

The municipality has early adopted the standard for the first time in the 2013 annual financial statements.

The impact of the standard is not material.

**GRAP 31 (as revised 2012): Intangible Assets (replaces GRAP 102)**

This Standard of GRAP replaces the previous Standard of GRAP on Intangible Assets (GRAP 102) due to the IPSASB that has issued an IPSAS on Intangible Assets (IPSAS 31).

Changes made comprise three areas that can be summarised as follows:

- consequential amendments arising from the alignment of the accounting treatment and text of GRAP 102 with that in IPSAS 31;
- the deletion of guidance and examples from interpretations issued by the International Accounting Standards Board (IASB) previously included in GRAP 102; and
- changes to ensure consistency between the Standards of GRAP, or to clarify existing principles.

All amendments are to be applied retrospectively.

The effective date of the standard is for years beginning on or after 01 April 2013.

The municipality has early adopted the standard for the first time in the 2013 annual financial statements.

The impact of the standard is not material.

#### **IGRAP 16: Intangible Assets - Website Costs**

The interpretation deals with the treatment of the municipality's own website. It concludes that the municipality's own website that arises from development and is for internal or external access is an internally generated intangible asset that is subject to the requirements of the Standard of GRAP on Intangible Assets.

A website arising from development will be recognised as an intangible asset if, and only if, in addition to complying with the general requirements described in the Standard of GRAP on Intangible Assets for recognition and initial measurement, the municipality can satisfy the requirements in paragraph .54 in the Standard of GRAP on Intangible Assets, which in particular requires the municipality to be able to demonstrate how its website will generate probable future economic benefits or service potential.

If the municipality is not able to demonstrate how a website developed solely or primarily for providing information about its own products and services will generate probable future economic benefits or service potential, all expenditure on developing such a website will be recognised as an expense when incurred.

A website that is recognised as an intangible asset under this interpretation will be measured after initial recognition by applying the requirements in the Standard of GRAP on Intangible Assets.

The effective date of the interpretation is for years beginning on or after 01 April 2013.

The municipality has early adopted the interpretation for the first time in the 2013 annual financial statements.

The impact of the interpretation is not material

#### **43.2 Standards and interpretations issued, but not yet effective**

The municipality has not applied the following standards and interpretations, which have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2013 or later periods:

##### **GRAP 5 (revised 2013): Borrowing Costs**

Benchmark treatment is to recognise borrowing costs as an expense.

Allowed alternative is to capitalise borrowing costs if it is attributable to the acquisition, construction or production of a qualifying asset. All other instances, expense borrowing costs.

All amendments to be applied prospectively.

The effective date of the amendment is for years beginning on or after 01 April 2014.

The municipality expects to adopt the amendment for the first time in the 2015 annual financial statements.

It is unlikely that the amendment will have a material impact on the municipality's annual financial statements.

##### **GRAP 100 (revised 2013): Discontinued Operations**

All accounting, presentation and disclosure requirements with regards to non-current assets held for sale (or disposal groups) have been deleted. The impact of the amendments is:

Will no longer be required to reclassify assets as held for sale. GRAP 100 now only deals with discontinued operations.

Certain disclosure must be made if, at the reporting date, management has taken a decision to dispose of a significant asset or a group of assets and liabilities. Will fall under the Standard of GRAP on Presentation of Financial Statements.

Measurement requirements are to be applied prospectively and presentation and disclosure requirements are to be applied retrospectively.

The effective date of the amendment is for years beginning on or after 01 April 2014.

The municipality expects to adopt the amendment for the first time in the 2015 annual financial statements.

It is unlikely that the amendment will have a material impact on the municipality's annual financial statements.

#### **GRAP 32: Service Concession Arrangements: Grantor**

The standard applies to a contractual arrangement between a grantor and an operator in which the operator uses the service concession asset to provide a mandated function on behalf of the grantor for a specified period of time. The operator providing the mandated function on behalf of the grantor can either be a private party or another public sector entity. The standard applies to the grantor only.

PPP agreements that are governed and regulated in terms of the PFMA and MFMA, are some of the arrangements that fall within the scope of GRAP 32. For any other arrangements that meet the control criteria as set out in paragraph .07 of GRAP 32 the principles in the standard on accounting for such arrangements will apply.

An asset provided by the operator, or an upgrade to an existing asset, is recognised as a service concession asset with a corresponding liability, being the performance obligation, if certain criteria and conditions are met.

The standard has been approved by the Accounting Standards Board but its effective date has not yet been determined by the Minister of Finance.

The municipality expects to adopt the standard for the first time once it becomes effective.

It is unlikely that the standard will have a material impact on the municipality's annual financial statements.

#### **GRAP 108: Statutory Receivables**

GRAP 108 only deals with those receivables that arise from legislation or an equivalent means, such as regulations, bylaws or other documents issued in terms of legislation, such as ministerial orders and cabinet or municipal council decisions. Therefore in order to be statutory in nature specific legislation should require the municipality to undertake the transactions, such as outlining who should be taxed and at what rates and amounts.

Statutory receivables are not contractual receivables, the latter of which would normally meet the definition of a financial asset and will be within the scope of the Standard of GRAP on Financial Instruments. Statutory receivables are not voluntarily entered into as with contractual receivables because they arise as a result of specific legislative requirements.

Statutory receivables are initially measured at their transaction amount and subsequently using the cost method.

- Under the cost method, the initial measurement of the receivable is changed subsequent to initial recognition to reflect any:
- interest or other charges that may have accrued on the receivable (where applicable);
- impairment losses; and
- amounts derecognised.

The standard has been approved by the Accounting Standards Board but its effective date has not yet been determined by the Minister of Finance.

The municipality expects to adopt the standard for the first time once it becomes effective.

It is unlikely that the standard will have a material impact on the municipality's annual financial statements.

#### **IGRAP 17: Service Concession Arrangements where a Grantor Controls a Significant Residual Interest in an Asset**

This interpretation provides guidance to the grantor where it has entered into a service concession arrangement, but only controls, through ownership, beneficial entitlement or otherwise, a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease.

A service concession arrangement is a contractual arrangement between a grantor and an operator in which the operator uses the service concession asset to provide a mandated function on behalf of the grantor for a specified period of time.

The operator is compensated for its services over the period of the service concession arrangement, either through payments, or through receiving a right to earn revenue from third party users of the service concession asset, or the operator is given access to another revenue-generating asset of the grantor for its use.

Before the grantor can recognise a service concession asset in accordance with the Standard of GRAP on Service Concession Arrangements: Grantor, both the criteria as noted in paragraph .01 of this interpretation need to be met. In some service concession arrangements, the grantor only controls the residual interest in the service concession asset at the end of the arrangement, and can therefore not recognise the service concession asset in terms of the Standard of GRAP on Service Concession Arrangements: Grantor.

This interpretation concludes on the recognition of the performance obligation and the right to receive a significant interest in a service concession asset.

The interpretation has been approved by the Accounting Standards Board but its effective date has not yet been determined by the Minister of Finance.

The municipality expects to adopt the interpretation for the first time once it becomes effective.

It is unlikely that the interpretation will have a material impact on the municipality's annual financial statements

### **43.3 Standards and interpretations not yet effective or relevant**

The following standards and interpretations have been published and are mandatory for the municipality's accounting periods beginning on or after 01 July 2013 or later periods but are not relevant to its operations:

#### **GRAP 18: Segment Reporting**

Segments are identified by the way in which information is reported to management, both for purposes of assessing performance and making decisions about how future resources will be allocated to the various activities undertaken by the municipality. The major classifications of activities identified in budget documentation will usually reflect the segments for which a municipality reports information to management.

Segment information is either presented based on service or geographical segments. Service segments relate to a distinguishable component of a municipality that provides specific outputs or achieves particular operating objectives that are in line with the municipality's overall mission. Geographical segments relate to specific outputs generated, or particular objectives achieved, by a municipality within a particular region.

No effective date has not yet been determined by the Minister of Finance.

The municipality expects to adopt the standard once it becomes effective.

The adoption of this standard is not expected to impact on the results of the municipality, but may result in more disclosure than is currently provided in the financial statements.

**Explanatory Notes**

Revenue

Other own revenue

In the Statement of Financial Performance of 2013/14 AFS, the revenue relating to rental of facilities and equipment, interest on outstanding debtors and income from agency services/donors are separately disclosed, whilst it is combined into Other own revenue on the budget schedule A1

Rental of facilities and equipment	86 454
Interest earned - outstanding debtors	174
Other income from exchange transactions	518 995
Other income from non-exchange transactions	1 849 341
	<b>2 454 964</b>

Transfers recognised - operational

In the Statement of Financial Performance of 2013/14 AFS, the income for agency services/donors is indicated separately as part of revenue, whilst it is included in the transfers recognised-operational section on the budget schedule A1

Government Grants	313 592 000
Income from agency services/donors	60 000
	<b>313 652 000</b>

Expenditure

Materials and bulk purchases

In the Statement of Financial Performance of 2013/14 AFS, the expenditure for materials and bulk purchases is included in general expenditure, whilst it is separate on the budget schedule A1

Other expenditure

In the Statement of Financial Performance of 2013/14 AFS, the expenditure for repair and maintenance is indicated separately whilst it forms part of other expenditure on the budget schedule A1

Repairs and maintenance	4 094 422
General expenditure	86 641 928
Materials and bulk purchases	(299 119)
	<b>90 437 231</b>

Unaudited schedule: 1
