Financial Statements for the year ended 30 June, 2014

Accounting Officer's Responsibilities and Approval

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are responsible for reporting on the fair presentation of the annual financial statements.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practices (GRAP).

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or loss in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavors to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behavior are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or loss.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2014 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

The financial statements set out on pages 5 to 44, which have been prepared on the going concern basis, were approved by the accounting officer on 29 August, 2014 and were signed on its behalf by:

Mr. Yunus Chamda Municipal Manager

Financial Statements for the year ended 30 June, 2014

Accounting Officer's Report

The accounting officer submits his report for the year ended 30 June, 2014.

1. Incorporation

The municipality was incorporated on 1 January 1988 and obtained its certificate to commence business on the same day.

2. Going concern

We draw attention to the fact that at 30 June, 2014, the municipality had accumulated surplus of R 107,334,021 and that the municipality's total assets exceed its liabilities by R 107,334,021.

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

3. Accounting policies

The annual financial statements are prepared in accordance with the prescribed Standards of Generally Recognised Accounting Practices (GRAP) issued by the Accounting Standards Board as the prescribed framework by National Treasury.

4. Accounting Officer

| : Name | Nationality |
|------------------|-------------|
| Mr. Yunus Chamda | RSA |

5. Bankers

Council has appointed Standard Bank as the new bankers during the year. While we are currently busy with the transition process ABSA bank was still used as the Primary banker.

6. Auditors

The Auditor General will continue in office for the next financial period.

7. Cost cutting measures

Following the global economic crisis of 2009 and in line with MFMA Circular 48, the executive management of Sedibeng District Municipality had taken the decision to make conscientious efforts to increase revenue and decrease operating expenses by:

| Increasing revenue through | Cost containment measures |
|--|--|
| Optimizing all revenue streams; | Educating staff to be more conscientious |
| Reviewing billing processes; | Better cash management |
| Rigorously applying credit control; | Claiming discounts from creditors/ suppliers |
| Tightening internal control measures and SCM processes | Institutionalising discussion on under-provision of equitable share |
| | Value-for-money spending and application of economies-of-scale procurement |
| | Closer monitoring of repairs & maintenance will lead to reduction in productivity losses |
| | Reducing & reviewing discretionary spending |
| | |

Financial Statements for the year ended 30 June, 2014

Accounting Policies

Accounting Policies

1. SIGNIFICANT ACCOUNTING POLICIES TO THE ANNUAL FINANCIAL STATEMENTS

1.1 BASIS OF PRESENTATION

The Annual Financial Statements have been prepared on an accrual basis of accounting and are in accordance with the historical cost basis unless otherwise stated. Under this basis the effects of transactions and other events are recognised when they occur and are recorded in the financial statements within the period to which they relate.

The annual financial statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practices (GRAP) prescribed by the Minister of Finance in terms of General Notices 991 of 2005 and General Notice 516 of 2008, including any interpretations and directives issued by the Accounting Standards Board

Accounting policies for material transactions, events or conditions not covered by the above GRAP have been developed in accordance with paragraphs 7, 11 and 12 of GRAP 3. These accounting policies and the applicable disclosures have been based on the South African Statements of Generally Accepted Municipal Accounting Practices (SA GAMAP) including any interpretations of such statements issued by the Accounting Practices Board.

The Minister of Finance has, in terms of General Notice 1290 of 2008 exempted compliance with certain of the abovementioned standards and aspects or parts of these standards. Details of the exemptions applicable to the municipality have been provided in the notes to the annual statements.

These accounting policies are consistent with those of the previous financial year.

The following GRAP standards have been approved and are effective:

GRAP 1 -Presentation of financial statements GRAP 2 -Cash flow statements GRAP 3 -Accounting policies, changes in accounting estimates and errors GRAP 4 -The effects of changes in foreign exchange rates GRAP 5 -Borrowing costs Consolidated and separate financial statements GRAP 6 -GRAP 7 -Investments in associates GRAP 8 -Interest in joint ventures GRAP 9 -Revenue from exchange transactions GRAP 10 -Financial reporting in hyperinflationary economies Construction contracts GRAP 11 -GRAP 12 -Inventories GRAP 13 -Leases GRAP 14 -Events after the reporting date GRAP 16 -Investment property GRAP 17 -Property, plant and equipment GRAP 19 -Provisions, contingent liabilities and contingent assets GRAP 21 -Impairment of non-cash generating assets

Revenue from non-exchange transactions

GRAP 24 -Presentation of budget information GRAP 25 -**Employee Benefits** GRAP 26 -Impairment of cash generating assets

GRAP 31 -Intangible assets GRAP 103 -Heritage assets

GRAP 23 -

Financial Statements for the year ended 30 June, 2014

Accounting Policies

GRAP 104 - Financial instruments

GRAP 100 - Non-current assets held for sale

GRAP 101 - Agriculture

The following GRAP statements have been approved but are not yet effective:

GRAP 18 - Segment reporting

GRAP 105 - Transfer of functions between entities under common control
GRAP 106 - Transfer of functions between entities not under common control

GRAP 107 - Mergers

Offsets

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

The principal accounting policies adopted in the preparation of these annual financial statements are set out below.

1.2 PRESENTATION CURRENCY

These annual financial statements are presented in South African Rand and are rounded to the nearest Rand.

1.3 SIGNIFICANT ESTIMATES, JUDGMENTS AND ASSUMPTIONS

1.3.1 Going Concern

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

1.3.2 Significant Estimates, Judgments and Assumptions

In preparing the annual financial statements to conform with the Standards of GRAP, management is required to make estimates, judgments and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgment are inherent in the formation of estimates. Actual results in the future may differ from these estimates.

All significant estimates, judgments and underlying assumptions are reviewed on constant basis. All necessary revisions of significant estimates are recognised in the period during such revisions as well as in any future affected periods.

Specific areas where these significant estimation uncertainties as well as critical judgments and assumptions were made in the application of accounting policies with the most significant effect in the annual financial statements are included in the following notes:

Note 2 & 3: PPE and Intangible assets useful lives estimates

Note 11: Provisions
Note 28: Contingencies
Note 27: Lease classification
Note 20: Debt Impairment

1.4 GOVERNMENT GRANT

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when the asset is recognised.

Financial Statements for the year ended 30 June, 2014

Accounting Policies

1.5 PROPERTY, PLANT & EQUIPMENT

1.5.1 Recognition and Subsequent Measurement

An item of property, plant and equipment which qualifies for recognition as an asset has been initially be measured at cost less subsequent depreciation.

The cost of an item of property, plant and equipment comprises of its purchase price, including import duties and non-refundable purchase taxes and any directly attributable costs of bringing the asset to working condition for its intended use. Where an item of property, plant and equipment was donated, is initially recognised at its fair value as at the date of acquisition

Where an asset is acquired through a non-exchange transaction, its cost shall be measured at its fair value as at date of acquisition.

The cost of an item of property, plant and equipment acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets was measured at its fair value. If the acquired item could not be measured at its fair value, its cost was measured at the carrying amount of the asset given up.

Subsequent expenditure is capitalised when the recognition and measurement criteria of an asset are met. If expenditure only restores the originally best estimate of the expected useful life of the asset, then it is regarded as repairs and maintenance and is expensed.

Incomplete construction work is stated at historical cost. Depreciation only commences when the assets is ready to be used.

Properties in the course of construction for production, rental or administrative purposes, or for purposes not yet determined, are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Municipality's accounting policy, refer to note 2. Depreciation of these assets, on the same basis as other property assets, commences when the assets are available for their intended use.

Subsequently property, plant and equipment, are stated at cost, less accumulated depreciation and accumulated impairment losses.

Land is not depreciated as it is regarded as having an infinite life.

1.5.2 De-recognition, Sale & Disposal

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the proceeds of disposal and the carrying value and is recognised in the Statement of Financial Performance.

1.5.3 Depreciation

Depreciation is calculated on the asset's depreciable amount, using the straight-line method over the useful life of the asset. The depreciable amount is determined after deducting the residual value of the asset from its cost. The depreciation charge is recognised as an expense unless it is included in the carrying amount of another asset under construction. Assets will be depreciated according to their annual depreciation rates based on the following estimated useful life:

| Infrastructure Assets | Years |
|--|---------|
| Street names, signs and parking meters | 5 |
| Water reservoirs and reticulation | 15 – 20 |

| Community Assets | Years |
|-----------------------|---------|
| Parks and gardens | 10 -30 |
| Sport fields | 20 – 30 |
| Community halls | 30 |
| Recreation facilities | 20 – 30 |

| Other Assets | Years |
|---------------------|--------|
| Motor vehicles | 5 |
| Plant and equipment | 2 – 15 |

Financial Statements for the year ended 30 June, 2014

Accounting Policies

| Security measures | 3 – 10 |
|----------------------|--------|
| Buildings | 30 |
| IT equipment | 3 – 5 |
| Office equipment | 3 – 7 |
| Specialised vehicles | 10 |

The residual value and the useful life and depreciation method of each asset are reviewed at the end of each reporting date. If the expectations differ from previous estimates, the change is accounted for as a change in accounting estimate. Reviewing the useful life of an asset on an annual basis does not require the entity to amend the previous estimates unless expectations differ from the previous estimate.

1.6 INTANGIBLE ASSETS

Intangible assets acquired separately or internally generated are reported at cost less accumulated amortisation and accumulated impairment losses. Refer to impairment of assets accounting policy 1.7

Where an intangible asset has been acquired at no or for a nominal cost, its cost is its fair value on the date of acquisition.

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands are recognised in the Statement of Financial Performance as incurred.

Costs associated with developing or maintaining computer software programmes are recognised as an expense as incurred. Costs that are directly associated with the development of identifiable and unique software products controlled by the Municipality and that will probably generate economic benefits exceeding costs beyond one year are recognised as intangible assets. Costs include the employee costs incurred as a result of developing software and an appropriate portion of relevant overheads.

1.6.1 Research and Development

Expenditure on research activities, undertaken with the prospect of gaining new scientific or technical knowledge and understanding, is recognised in the Statement of Financial Performance when incurred.

Development activities involve a plan or design for the production of new or substantially new improved products and processes.

Development expenditure is capitalised only if development costs can be measured reliably, the product or process is technically and commercially feasible, future economic benefits are probable, and the municipality intends to and has sufficient resources to complete development and to use or sell the asset.

The expenditure capitalised includes the cost of materials, direct labour and overhead costs that are directly attributable to preparing the asset for its intended use.

Other development expenditure is recognised in the statement of financial performance as incurred.

1.6.2 Amortisation

Amortisation is recognised in the statement of financial performance on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use. The estimated useful lives for the current and comparative periods are as follows:

| Item | Useful Life |
|-------------------|-------------|
| Computer software | 3 Years |

Each item of intangible asset is amortised separately.

Intangible assets that have an indefinite useful life are tested for impairment annually.

Financial Statements for the year ended 30 June, 2014

Accounting Policies

The estimated useful life, the amortisation method and the residual values are reviewed annually at the end of the financial year. Any adjustments arising from the annual review are applied prospectively.

1.7 IMPAIRMENT OF FINANCIAL ASSETS

Impairment of Non-financial assets

Non-Financial assets, excluding investment property and inventories, are assessed at each reporting date to determine whether there is an indication that the carrying amount of the asset may be impaired. If such an indication exists, the recoverable amount of the asset is determined. Irrespective of whether an indication of impairment exists, the recoverable amount of goodwill, indefinite-life intangible assets and intangible assets not available for use are determined annually.

The recoverable amount of an asset is the higher of its fair value less costs to sale and its value in use. In determining the value in use, the estimated future cash flows of the asset is discounted to their present value based on pre-tax discount rates that reflects current market assessments of the time value of money and the risks that are specific to the asset. If the value in use of an asset for which there is an indication of impairment cannot be determined, the recoverable amount of the cash-generating unit to which the asset belongs is determined. An asset's cash generating unit is the smallest group of identifiable assets that includes the asset and that generates cash inflows from continuing use that are largely independent from cash inflows from other assets.

An impairment loss is recognised in the statement of financial performance when the carrying amount of an individual asset or of a cash-generating unit exceeds its recoverable amount. If the loss relates to the reversal of a previous revaluation surplus, it is recognised in equity. Impairment losses recognised on cash-generating units are allocated on a pro rata basis, to the assets in the cash-generating unit.

Impairment losses are reversed if there has been a change in the estimates used to determine the recoverable amount of the asset or cash-generating unit. Reversals of impairment losses on cash-generating units are allocated on a pro rata basis to the assets in the unit. Impairment losses are reversed only to the extent that the carrying amount of the asset does not exceed the carrying amount that would have been recognised in the past. Reversals of impairment losses are recognised directly in the statement of financial performance.

Impairment of Monetary assets

A provision for impairment is created when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of the receivables. The carrying value is reduced through the use of a provision and is recognised as a charge to the statement of financial performance. When a receivable is uncollectible, it is written off against the provision. Any subsequent recoveries of amounts previously written off are credited directly in the statement of financial performance.

An available for sale financial asset is impaired when there is a significant or prolonged decline in the fair value of the asset below its cost price or amortised cost. At such a point, a cumulative gains or losses that have been accumulated in net assets are removed from net assets as a reclassification adjustment and are recognised in the statement of financial performance. Any subsequent impairment losses are recognised directly in the statement of financial performance.

Where Held-to-maturity investments have been impaired, the carrying value is adjusted by the impairment loss and this is recognised as an expense in the period that the impairment is identified.

1.8 LEASES

Leases that transfer substantially all the risks and rewards of ownership are classified as finance leases. All other leases are classified as operating leases.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease payments are recognised as an expense on a straight-line basis over the lease period.

Financial Statements for the year ended 30 June, 2014

Accounting Policies

The Municipality as Lessee

Assets leased in terms of finance lease agreements are capitalised at amounts equal at the inception of the lease to the fair value of the leased property, or lower, at the present value of the minimum lease payments. Capitalised leased assets are depreciated in accordance with the accounting policy applicable to property, plant and equipment; refer to property, plant and equipment policy 1.5. The corresponding rental obligations, net of finance charges, are included in long-term borrowings. Lease finance charges are amortised to the statement of financial performance (unless they are directly attributable to qualifying assets) over the duration of the leases so as to achieve a constant rate of interest on their remaining balance of the liability.

Obligations incurred under operating leases are charged to the statement of financial performance in equal installments over the period of the lease, except when an alternative method is more representative of the time pattern from which benefits are derived.

1.9 FINANCIAL INSTRUMENTS

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

The amortised cost of a financial asset or financial liability is the amount at which the financial asset or financial liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, and minus any reduction (directly or through the use of an allowance account) for impairment or uncollectibility.

A concessionary loan is a loan granted to or received by an entity on terms that are not market related.

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

Derecognition is the removal of a previously recognised financial asset or financial liability from an entity's statement of financial position.

A derivative is a financial instrument or other contract with all three of the following characteristics:

- Its value changes in response to the change in a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided in the case of a non financial variable that the variable is not specific to a party to the contract (sometimes called the 'underlying').
- It requires no initial net investment or an initial net investment that is smaller than would be required for other types of contracts that would be expected to have a similar response to changes in market factors.
- It is settled at a future date.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability (or group of financial assets or financial liabilities) and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, an entity shall estimate cash flows considering all contractual terms of the financial instrument (for example, prepayment, call and similar options) but shall not consider future credit losses. The calculation includes all fees and points paid or received between parties to the contract that are an integral part of the effective interest rate (see the Standard of GRAP on Revenue from Exchange Transactions), transaction costs, and all other premiums or discounts. There is a presumption that the cash flows and the expected life of a group of similar financial instruments can be estimated reliably. However, in those rare cases when it is not possible to reliably estimate the cash flows or the expected life of a financial instrument (or group of financial instruments), the entity shall use the contractual cash flows over the full contractual term of the financial instrument (or group of financial instruments).

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable willing parties in an arm's length transaction.

A financial asset is:

cash;

Financial Statements for the year ended 30 June, 2014

Accounting Policies

- a residual interest of another entity; or
- a contractual right to:
 - o receive cash or another financial asset from another entity; or
 - exchange financial assets or financial liabilities with another entity under conditions that are potentially favorable to the entity.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

A financial liability is any liability that is a contractual obligation to:

- deliver cash or another financial asset to another entity: or
- exchange financial assets or financial liabilities under conditions that are potentially unfavourable to the entity.

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Loan commitment is a firm commitment to provide credit under pre specified terms and conditions.

Loans payable are financial liabilities, other than short term payables on normal credit terms.

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk.

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

A financial asset is past due when a counterparty has failed to make a payment when contractually due.

A residual interest is any contract that manifests an interest in the assets of an entity after deducting all of its liabilities. A residual interest includes contributions from owners, which may be shown as:

- · equity instruments or similar forms of unitised capital;
- a formal designation of a transfer of resources (or a class of such transfers) by the parties to the transaction as forming part of an entity's net assets, either before the contribution occurs or at the time of the contribution; or
- a formal agreement, in relation to the contribution, establishing or increasing an existing financial interest in the net assets of an entity.

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Financial instruments at amortised cost are non derivative financial assets or non derivative financial liabilities that have fixed or determinable payments, excluding those instruments that:

- · the entity designates at fair value at initial recognition; or
- are held for trading.

Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.

Financial instruments at fair value comprise financial assets or financial liabilities that are:

- derivatives:
- · combined instruments that are designated at fair value;
- instruments held for trading. A financial instrument is held for trading if:
 - o it is acquired or incurred principally for the purpose of selling or repurchasing it in the near term; or
 - on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit taking;
 - o non derivative financial assets or financial liabilities with fixed or determinable payments that are designated at

Financial Statements for the year ended 30 June, 2014

Accounting Policies

- fair value at initial recognition; and
- financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

1.10 INVENTORIES

Inventories are initially measured at cost where cost of inventories comprises of all costs of purchase, costs of development, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Unsold aviation fuel are valued at the lower of cost and net realisable value on a specific identification cost basis. Fuel are recognized as inventory when purchased, and then charged to expense when sold. Aviation fuel are sold in line with the applicable tariff as promulgated.

1.11 CASH AND CASH EQUIVALENTS

Cash includes cash on hand and cash with banks.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand and cash with banks. Short term investments are included. Bank overdrafts are recorded on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

1.12 PROVISIONS AND CONTINGENCIES

Provisions are recognised when the municipality has a present or constructive obligation, as a result of past events, that is probable to cause an outflow of resources embodying economic benefits required to settle the obligation and a reliable estimate of the provision can be made.

Where the effect of the time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation. The discount rate used in calculating the present value is the interest rate implicit in the transaction. Where this is impractical to determine the average interest rate cost of borrowing rate of the Municipality is used.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is reversed.

The municipality on initial adoption of the Standard of GRAP on Provisions, Contingent Liabilities and Contingent Assets has done so retrospectively according to the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors.

The necessary disclosures have been made for non-recognition of provisions that form part of the cost of an asset.

1.13 EMPLOYEE BENEFITS

1.13.1 Short-term employee benefits

The cost of short-term employee benefits, which include salaries and wages, short-term compensated absences, profit sharing and bonus plans, are expensed in the Statement of Financial Performance in the financial year during which the payment is made.

Liabilities for short-term employee benefits that are unpaid at year-end are measured at the undiscounted amount that the municipality expected to pay in exchange for that service that had accumulated at the reporting date.

1.13.2 Termination Benefits

Termination benefits are recognised when actions have been taken that indicate that the municipality is demonstrably committed to either terminate the employment of an employee or group of employees before the normal retirement date; or provide termination benefits as a result of an offer made in order to encourage voluntary redundancy.

Financial Statements for the year ended 30 June, 2014

Accounting Policies

1.13.3 Retirement benefits

The municipality provides retirement benefits for its employees and councilors.

Contributions to defined contribution retirement benefit plans are recognised as an expense when employees and councilors have rendered the employment service or served office entitling them to the contributions.

1.13.4 Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which the municipality pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts. Obligations for contributions to defined contribution pension plans are recognised as an employee benefit expense in the statement of financial performance when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

1.13.5 Post employment medical care benefits

The municipality provides post-employment medical care benefits to its employees and their legitimate spouses. The entitlement to post-retirement medical benefits is based on employees remaining in service up to retirement age and the completion of a minimum service period.

The municipal post-employment medical care is also on the defined contribution plan is a post-employment benefit plan under which the municipality pays fixed contributions into a separate entity and will have no legal or constructive obligation to pay further amounts.

1.14 REVENUE RECOGNITION

Revenue shall be measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates, VAT and other similar allowances.

1.14.1 Revenue from exchange transactions

Rendering of services

Flat rate service charges relating to rental of facilities and the reporting date shall be recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- The amount of the revenue can be measured reliably.

Agency Services

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified.

The income recognised is in terms of the agency agreement.

Collection charges are recognised when such amounts are incurred.

The municipality complied with Directive 4 of February 2008, on initial adoption of the Standard of on Revenue from Exchange Transaction, GRAP 9, and has done so retrospectively according to the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors.

Sale of Goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

The municipality has transferred to the purchaser the significant risks and rewards of ownership of goods;

Financial Statements for the year ended 30 June, 2014

Accounting Policies

- The municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits or service potential associated with the transaction will flow to the municipality; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliable.

1.14.2 Revenue from non-exchange transactions

Grants and donations received

Government Grants can be in the form of grants to acquire or construct fixed assets (capital grants), grants for the furtherance of national and provincial government policy objectives and general grants to subsidise the cost incurred by municipalities rendering services.

Capital grants and general grants for the furtherance of government policy objectives are usually restricted revenue in that stipulations are imposed in their use.

Conditional grants, donations and funding were recognised as revenue in the Statement of Financial Performance to the extent that the Municipality has complied with any criteria, conditions or obligations embodied in the agreement/arrangement. To the extent that the criteria, conditions and obligations have not been met a liability is raised in the Statement of Financial Position. Unconditional grants, donations and funding are recognised as revenue in the Statement of Financial Performance at the earlier of the date of receipt or when the amount is receivable.

Contributed assets are recognised at fair value when the risks and rewards associated with such assets are transferred to the Municipality.

1.14.3 Transfer revenue

Assets and revenue recognised as a consequence of a transfer at no or nominal cost is measured at the fair value of the assets recognised as at the date of recognition. Non-monetary assets are measured at their fair value, which is determined by reference to observable market values or by independent appraisal by a member of the valuation profession.

1.14.4 Other

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councilors or officials is virtually certain.

Revenue from the recovery of unauthorised irregular, fruitless and wasteful expenditure is based on legislated procedures.

1.15 VALUE ADDED TAX

The municipality accounts for Value Added Tax on the cash basis.

1.16 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act 56 of 2003).

Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

Financial Statements for the year ended 30 June, 2014

Accounting Policies

1.17 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Act (Act 56 of 2003), the Municipal Systems Act (Act 32 of 2000), and the Public Office Bearers Act (Act 20 of 1998) or is in contravention of the municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.18 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.19 COMPARATIVE INFORMATION

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

1.20 CONSTRUCTION OF ASSETS IN PROGRESS

Construction of assets in progress is capital projects done on behalf of the Local Municipalities from the proceeds of conditional grants received and internal contributions. These projects are only handed over after full completion of the project and therefore all those uncompleted capital projects will be shown as Construction of assets in progress until date of transfer.

1.21 RELATED PARTIES

Related parties are identified and disclosed in terms of GRAP 20. Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions or if the related party and another entity are subject to common control. Related parties include:

- Entities that directly, or indirectly through one or more intermediaries, control, or are controlled by the reporting entity:
- Associates (as per GRAP 7 Investments in Associates);
- Joint ventures (as per GRAP 8 Interests in Joint Ventures)
- Individuals owning, directly or indirectly, an interest in the reporting entity that gives them significant influence over the entity, and close members of the family of any such individual;
- Management, and close members of the family of management; and
- Entities in which a substantial ownership interest is held, directly or indirectly, by any person described in the two bullets above, or over which such a person is able to exercise significant influence.

Each municipality and its own municipal entities are related parties. A municipality is not related to another municipality as they are not under common control, except where there exist a service level agreement to perform a specific function on behalf of the other municipality.

The national government does not control provinces or municipalities for accounting purposes, although funding may be received from the national government.

Emfuleni Local Municipality, Midvaal Local Municipality and Lesedi Local Municipality are category B municipalities which in terms of the Constitution of South Africa, section 155 (1) (b) means, "A Municipality that shares executive and legislative authority in its area with a category C municipality within whose area it falls." Sedibeng District Municipality is performing agency services on behalf of the Local Municipalities.

The Municipality does not have and associates nor any joint ventures or any other form of association that may be defined as related party relation.

Financial Statements for the year ended 30 June, 2014

Accounting Policies

1.22 HERITAGE ASSETS

The Municipality has opted to phase in Heritage Assets over the extension period allowed based on the transitional provision for GRAP 103 as indicated in Directive 4. The Municipality will adjust the Heritage asset figures retrospectively with full implementation at 30 June 2015.

1.23 BUDGET INFORMATION

The municipality are typically subject to budgetary limits in the form of appropriations or budget authorisations (or equivalent), which is given effect through authorising legislation, appropriation or similar.

General purpose financial reporting by the municipality shall provide information on whether resources were obtained and used in accordance with the legally adopted budget.

The approved budget is prepared on a accrual basis and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 01 Jul 2013 to 30 Jun 2014.

The budget for the economic entity includes all the entities approved budgets under its control.

The financial statements and the budget are on the same basis of accounting therefore a comparison with the budgeted amounts for the reporting period have been included in the Statement of comparison of budget and actual amounts (see note 38)

Heritage assets

Transitional provisions

Due to initial adoption of GRAP 103

Steps taken to establish the values of heritage asset recognised at provisional amounts due to the initial adoption of GRAP 103, is as follows:

The Municipality meets with the Provincial Treasury Department in order to address the Heritage assets currently at the Vaal Technorama Museum in order to determine the methodology to be used for valuation.

The date at which full compliance with GRAP 103 is expected, is Tuesday, 30 June, 2015.

| Provincial Grants | 1,197,243 | 7,416,439 |
| Unspent conditional grants and receipts | | |

The current unspent conditional grants are all committed funds which still need to be utilized in order to meet the conditions as stipulated in the various government gazettes.

Capital commitments arising as a result of contractual obligation:

Fibre Optic Project 962,030 15,088,260

27.2 Operating leases - as lessee (expense)

Minimum lease payments due

- within one year 4,722,826 5,465,248

Operating lease payments represent rentals payable by the municipality for certain of its office properties. No contingent rent is payable.

28. Contingencies

The Municipality may be liable for claims instituted against the Municipality by employees who have disputes against the Municipality. The amount is uncertain as an arbitration award has not yet being issued against those claims.

There is currently a dispute between Sedibeng District Municipality and the Gauteng Department of Transport relating to the treatment of VAT on agency services. Council may be liable for an amount of R 49,539,502 however two legal opinions were obtained and a SARS ruling is still awaited.

Financial Statements for the year ended 30 June, 2014

Notes to the Financial Statements

Figures in Rand 2014 2013 as restated

Contingencies arising from pending litigation on wage curve agreement - On 21 April 2010 SALGA signed the "Categorisation and job evaluation wage curves collective agreement" (wage curve agreement) with IMATU and SAMWU on behalf of municipalities. The agreement established the wage curves and wage scales to be used by municipalities in determining the wages of municipal employees, based on an evaluation of employees' jobs per the TASK job evaluation system. Subsequent to the signing of the agreement, the unions declared a dispute with the agreement. The dispute was referred to the Labour Court and the court delivered a ruling on 22 June 2012 that employees receive a salary increase backdated with effect from 1 July 2010 instead of 1 July 2011. SALGA, on behalf of municipalities, applied for leave to appeal this ruling and was granted the right to appeal against the judgement on 29 August 2012. To date this Labour Court of Appeal case has not been finalised. As a result of the uncertainties arising from the dispute declared by the unions and the pending litigation regarding the wage curve agreement, the municipality may have an additional receivable/ payable for employee wages, depending on the outcome of the pending litigation. It is not practicable to reliably estimate the amount of this receivable/ payable prior to the outcome of the pending litigation. The wage curve agreement have not yet been implemented at the Sedibeng District Municipality as job evaluations have not yet been done and therefore it is consequently impracticable to reliably measure the obligation that might exist as a result of the wage curve agreement.

Contingent assets

Emergency Medical Services has been transferred to the Department of Health whereby unfunded expenditure related to the previous year's might be recoverable which amounts to R 38,5Million.

A change in legislation regarding the treatment of UIF payments relating to Councilors resulted in a possible refund to Council which amounts to R 83,823 for the period. SARS is currently busy in finalizing the claim.

29. Prior period errors

SALA Pension fund has been awarded a judgment.in their favor relating to a claim on the increase of pension rates payable by Municipalities. Sedibeng District Municipality must pay an amount of R 2,667,995.58. No creditor has been created in the prior year. The amount is split between the 2012/13 (R 392,185) financial year and the prior periods (R 1,817,907). This has an impact on the pension contribution which was re-stated in the statement of financial performance.

Creditors under provided consist of training fees payable for the previous year which amounts to R 15,054 and the SALA pension fees payable of R 392,185.

Creditors over provided consist of retention money not payable to the amount of R 183,461 (grants and subsidies paid)

Debtors over provided consist of insurance claim which did not realized to the amount of R 383,483 (contracted services) and Midvaal Local Municipality at an amount of R 27,407 (subsistence & travel)

A financial lease liability was previously shown as a operating lease and the correction resulted in an additional amount of R18,683. The lease vehicle has been added as an asset to the value of R497,414 as at 30 June 2013 with a lease obligation of R516,098.

The correction of the error(s) results in adjustments are as follow:

Statement of changes in net assets

| Opening Balance 1 July 2012 | 145,575,494 |
|--|-------------|
| SALA creditor not provided | -1,817,907 |

| Debtor over provided | -410,890 |
| Financial Lease Liability | -18,683 |
| Restated Surplus (deficit) for the year 2013 | -13,773,949 |

Financial Statements for the year ended 30 June, 2014

Notes to the Financial Statements

Figures in Rand 2014 2013 as restated

30. Risk management

Financial risk management

Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Interest rate risk

Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade receivables. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party. Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards. Credit guarantee insurance is purchased when deemed appropriate

Categories of Financial Instruments

| Financial | Assets |
|------------------|---------------|
|------------------|---------------|

| Cash and cash equivalents | 14,975,752 | 6,915,829 |
|--|------------|------------|
| Inventories | 382,653 | 220,090 |
| Trade and other receivables from exchange transactions | 8,178,596 | 9,349,885 |
| VAT Receivable | - | 18,016 |
| Construction of Assets in progress | 10,206,208 | 1,701,721 |
| | 33,743,209 | 18,205,541 |
| Financial Liabilities | | |
| Unspent conditional grants and receipts | 14,667,519 | 9,824,678 |
| Provisions | 1,245,029 | 1,926,700 |
| VAT Payable | 900,504 | |
| Trade and other payables from exchange transactions | 76,538,757 | 49,136,832 |
| Total Liabilities | 93,351,809 | 60,888,210 |

If the interest rates received on investments increase or decrease by 100 basis points, the effect on the Statement of Financial performance would be as follows:

| | | 2014 | | 2013 |
|---|--------|----------------------|------------|----------------------|
| Floating Rate Financial Assets | Rate % | Effect on Surplus | Rat e % | Effect on Surplus |
| Cash and cash equivalents | 1% | 149,757 | 1% | 6,915 |
| Construction of Assets in progress | 1% | 102,062 | 1% | 170,17 |
| Inventories | 1% | 3,826 | 1% | 2,200 |
| Trade and other receivables from exchange transactions Floating Rate Financial Liabilities | 1% | 81,785 | 1% | 93,498 |
| Unspent conditional grants and receipts | 1% | (102,062) | 1% | (98,246) |
| Provisions | 1% | (12,450) | 1% | (19,267) |
| Trade and other payables from exchange transactions | 1% | (765,387) | 1% | (491,368) |

31. Going concern

We draw attention to the fact that at 30 June, 2014, the municipality had accumulated surplus of R 107,334,021 and that the municipality's total assets exceed its liabilities by R 107,334,021.

Financial Statements for the year ended 30 June, 2014

Notes to the Financial Statements

Figures in Rand 2014 2013 as restated

The financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

As a District Municipality based on our powers and functions we are completely grant dependent. No other main revenue source is obtainable. Over the last 5 years, as a result of the global financial economy constraints, National Treasury downscaled and implemented austerity measures which resulted in the reduction of our main source of revenue, the Equitable share. It is as a result of the global financial constraint that the equitable share over the last 5 years were reduced far lessor than the CPI for each financial period. In addition salary increases for the South African Local Bargaining Council was implementing salary increases more than the equitable share growth allocated to municipalities over the last 5 years – UNCONTROLABLE to municipalities. The reduction has been reported to National Treasury as our revenue source diminished. It was based on this reason that the District Municipality implemented austerity measures over the last 4 years which is still in place (HR dashboard- attrition, leave management, etc and Financial snapshot position of municipality performed monthly. The municipality performs daily, weekly and monthly cash flow reconciliations with projections to ensure that we are able to meet our obligations based on the grants received. The grants has been ring-fenced and are adequately apportioned for its main purpose. The municipality adopted a pro-poor budgeting approach and followed National Treasury budget guide as a principle for provision on depreciation and employee cost.

We draw further attention to the fact that at 30 June, 2014, the municipality's current liabilities exceed its current assets with R59,855,797. In addition the anticipated unfunded mandate of R38,5 million for Emergency Medical services rendered to the Provincial Department of Health is still owed to Sedibeng District Municipality which is currently been shown as a contingent asset. Negotiations which ensued was to settle the amount of R25million in good faith to ensure that 19,25 million would be paid during the audit period under review and the balance payable in the 2014/15 financial year.

35.4 Deviation from supply chain management regulations

VAT payable

In terms of section 36 of the Municipal Supply Chain Management Regulations any deviation from the Supply Chain Management Policy needs to be approved/condoned by the Municipal Manager and noted by Council. The expenses incurred as listed hereunder have been condoned.

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the accounting officer and includes a note to the financial statements.

35.7 Related party transactions

The Council is rendering information technology services to both Emfuleni and Midvaal local municipalities. Claims towards actual salary expenses have been lodged on a monthly basis whereby the cost incurred for the year was as follow:

Emfuleni Local Municipality R 5,571,506 Midvaal Local Municipality R 981,710

The Local Municipalities is rendering Municipal Health services on behalf of the Sedibeng District Municipality. The expenses incurred amounts to R 15,945,521 as shown in note 24 (specialist services).

Councillors and specifically the Executive Mayor and Speaker remuneration in terms of the government gazette are shown separately in note 19.

Section 57 employees' (Key Management) remuneration packages are shown separately in note 18. Section 57 employees are required to enter into an annual performance contract where pre-determined objectives are linked to the integrated development Plan. Councillors and all officials must annually declare their interests and the interest of close family members to Council.

Audit Committee members have received an allowance of R 171,000 for the year under review.

The Council is in the process of establishing a State Owned Company (SOC), "The Vaal River City Tourism Promotion Company SOC" which will operate as a municipal entity to render the local tourism function. The CIPC Commissioner has registered the entity taking effect as from 30 August 2013, however, the establishment of the entity as per section 84(2) MFMA have as yet not been concluded and operations were not undertaken in terms of sections 85 through to 104 MFMA and hence there are no further disclosures to be made in terms of section 92 MFMA for the year ended 30 June 2014.
