## Reporting entity's mandate

The City of Cape Town is a high-capacity, category A, local authority established in terms of section 151 of the Constitution of the Republic of South Africa, Act 108 of 1996.

The principal activities of the City are to:

- provide democratic and accountable government to the local communities;
- ensure sustainable service delivery to communities;
- promote social and economic development;
- promote a safe and healthy environment; and
- encourage the involvement of communities and community organisations in the matters of local government.

The City's operations are governed by the Municipal Structures Act, Act 117 of 1998, the Local Government: Municipal Systems Act, Act 32 of 2000, the Local Government: Municipal Finance Management Act, Act 56 of 2003, and various other acts and regulations.

**Approval of the annual financial statements**

I am responsible for the preparation of these annual financial statements for the year ended 30 June 2016, as set out on pages 11 to 72 in terms of section 126(1) of the Municipal Finance Management Act, Act 56 of 2003, and have accordingly signed the statements on behalf of the City.

I certify that the salaries, allowances and benefits of councillors as disclosed in note 31 to these annual financial statements are within the upper limits of the framework envisaged in section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act, Act 20 of 1998, and the Minister of Provincial and Local Government's determination in accordance with this Act.

**Achmat Ebrahim***City Manager***31** August 2016

# Report of the auditor-general to the Western Cape Provincial Parliament and the council on the City of Cape Town

## Report on the financial statements

### Introduction

1. I have audited the financial statements of the City of Cape Town set out on pages 8 to 57, which comprise the statement of financial position as at 30 June 2016, the statement of financial performance, statement of changes in net assets, cash flow statement and statement of comparison of budget and actual amounts for the year then ended, as well as the notes, comprising a summary of significant accounting policies and other explanatory information.

### Accounting officer's responsibility for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Division of Revenue Act of South Africa, 2015 (Act No. 1 of 2015) (DoRA), and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor-general's responsibility

3. My responsibility is to express an opinion on these financial statements based on my audit. I conducted my audit in accordance with International Standards on Auditing. Those standards require that I comply with ethical requirements, and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.
4. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the municipality's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the municipality's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
5. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

## Opinion

6. In my opinion, the financial statements present fairly, in all material respects, the financial position of the City of Cape Town as at 30 June 2016 and its financial performance and cash flows for the year then ended, in accordance with SA Standards of GRAP and the requirements of the MFMA and DoRA.

## Emphasis of matters

7. I draw attention to the matters below. My opinion is not modified in respect of these matters.

## Material losses/impairments

8. As disclosed in note 10 to the financial statements, material losses of R690,7 million were incurred as a result of a write-off of irrecoverable receivables.
9. As disclosed in note 10 to the financial statements, receivables have significantly been impaired. The impairment allowance amounts to R4,7 billion, of which R3,2 billion relates to service debtors.
10. As disclosed in note 11 to the financial statements, other receivables have also significantly been impaired. The impairment allowance amounts to R2,0 billion.
11. As disclosed in note 44.1.2.3 to the financial statements, electricity losses of R370,6 million (11,4%) were incurred as a result of normal system operations, theft and vandalism.

## Material underspending of the budget

12. As disclosed in the statement of comparison of budget and actual amounts, the municipality has materially underspent the capital budget by R639,3 million (10,4%).

## Additional matters

13. I draw attention to the matters below. My opinion is not modified in respect of these matters.

## Unaudited supplementary schedules

14. The supplementary information set out on pages 58 to 71 does not form part of the financial statements and is presented as additional information. I have not audited these schedules and, accordingly, I do not express an opinion thereon.

## Unaudited disclosure notes

15. In terms of section 125(2)(e) of the MFMA, the municipality is required to disclose particulars of non-compliance with the MFMA. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion thereon.

## Report on other legal and regulatory requirements

16. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report findings on the reported performance information against predetermined objectives for selected strategic focus areas presented in the annual performance report, compliance with legislation and internal control. The objective of my tests was to identify reportable findings as described under each subheading, but not to gather evidence to express assurance on these matters. Accordingly, I do not express an opinion or conclusion on these matters.

### **Predetermined objectives**

17. I performed procedures to obtain evidence about the usefulness and reliability of the reported performance information for the following selected strategic focus areas presented in the annual performance report of the municipality for the year ended 30 June 2016:

- Strategic focus area 1: the opportunity city on pages 30 to 79
- Strategic focus area 3: the caring city on pages 89 to 107

18. I evaluated the usefulness of the reported performance information to determine whether it was consistent with the planned strategic focus areas. I further performed tests to determine whether indicators and targets were well defined, verifiable, specific, measurable, time bound and relevant, as required by the National Treasury's Framework for Managing Programme Performance Information.

19. I assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

20. I did not identify material findings on the usefulness and reliability of the reported performance information for the selected strategic focus areas:

- Strategic focus area 1: the opportunity city
- Strategic focus area 3: the caring city

### **Additional matter**

21. Although I identified no material findings on the usefulness and reliability of the reported performance information for the selected strategic focus areas, I draw attention to the following matter:

#### Achievement of planned targets

22. Refer to the annual performance report on pages 30 to 79 and 89 to 107 for information on the achievement of planned targets for the year.

### **Compliance with legislation**

23. I performed procedures to obtain evidence that the municipality had complied with applicable legislation regarding financial matters, financial management and other

related matters. I did not identify any instances of material non-compliance with specific matters in key legislation, as set out in the general notice issued in terms of the PAA.

## **Internal control**

24. I considered internal control relevant to my audit of the financial statements, annual performance report and compliance with legislation. I did not identify any significant deficiencies in internal control.

## **Other reports**

25. I draw attention to the following engagements that could potentially impact on the municipality's financial, performance and compliance related matters. My opinion is not modified in respect of these engagements that are either in progress or have been completed.

## **Investigations**

26. A total of 168 open cases (2014-15: 129) relevant to the municipality appeared in the forensics, ethics and integrity department's register at the end of the financial year under review. The movement in the cases is as follows:

- A total of 152 new cases relating to alleged fraud, corruption, other criminal activity, maladministration and negligence were investigated by the forensics, ethics and integrity department during the year under review.
- In total, 270 cases were concluded during the year, of which 40 related to the current year and 230 to prior years.

<sup>1</sup> The format and classification schemes adopted for presentation of the approved budget for the 2015/16 financial year differ from the format and classification adopted for the financial statements. The classification differences are mainly due to the budget phasing in the Municipal Standard Chart of Accounts (mSCOA) classification in preparation of the mSCOA that will take effect on 1 July 2017. A reconciliation has been provided to explain these differences in classification between the final budget and Statement of Financial Performance.

<sup>2</sup> There was an organisational structure change during the 2015/16 financial year. The Compliance and Auxiliary Services and Corporate Services directorates merged to become Corporate Services and Compliance.

<sup>3</sup> The actual capital expenditure amount does not include the contributed assets amount of R64,21 million. See annexure B.

## ACCOUNTING POLICIES

### GENERAL INFORMATION

The address of the City of Cape Town's (hereafter referred to as 'City') registered office and principal place of business is disclosed under 'General information' while the City's principal activities are described under 'Reporting entity's mandate' on page 2 of these annual financial statements.

### SIGNIFICANT ACCOUNTING POLICIES

The City's principal accounting policies, which are in all material respects consistent with those applied in the previous year, except as stated in note 42, are set out below. The historical cost convention has been used, except where indicated otherwise. Management has used assessments and estimates in preparing the annual financial statements – these are based on the best information available at the time of preparation. The financial statements have been prepared on a going-concern basis.

#### Basis of presentation

The financial statements have been prepared in accordance with the Generally Recognised Accounting Practices (GRAP), standards issued by the Accounting Standards Board (ASB) and approved by the Minister of Finance as effective.

The ASB has issued a directive that outlines the principles for the application of the GRAP 3 guidelines in determining the GRAP Reporting Framework hierarchy, as set out in the 'Standard of GRAP 3 on Accounting Policies, Changes in Accounting Estimates and Errors'.

In the process of applying the City's accounting policies, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

- **Operating lease commitments – City as lessor**

Leases where risks and rewards of ownership are not transferred to the lessee are classified as operating leases. Payments received under operating leases are recognised in the statement of financial performance on a straight-line basis over the period of the lease.

- **Pension and other post-employment benefits**

The cost of defined-benefit pension plans and other employment medical benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

- **Impairment of receivables**

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments. This was performed per service-identifiable categories across all debtor classes. The concentration of credit risk is limited, as the customer base is large and unrelated. Accordingly, management believes no further credit provisions are required in excess of the present allowance for doubtful debts.

- **Impairment of property, plant and equipment**

The calculation in respect of the impairment of property, plant and equipment (PPE) is based on an assessment of the extent to which the recoverable amount of the asset has declined below the carrying amount. This was performed across all classes of property, plant and equipment.

- **Provisions and contingent liabilities**

Management's judgement is required when recognising and measuring provisions, as well as when measuring contingent liabilities, as set out in notes 15 and 41 respectively. Provisions are discounted where the effect of discounting is material, using actuarial valuations.

- **Useful lives of property, plant and equipment**

The useful lives of assets are based on management's estimates. Management considers the impact of technology, service requirements and required return on assets to determine the optimum useful-life expectation, where appropriate. The estimated residual values of assets are also based on management's judgement on whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

- **Budget information**

Variances between budget and actual amounts are regarded as material when a variance exist of:

- 10% in the statement of financial position, financial performance and cash flow statement;
- 5% in the capital expenditure.

All material differences are explained in the note 43 to the annual financial statements.

- **Cash-generating assets**

The City is not a profit-oriented entity as its primary objective is service delivery. Tariffs and charges are cost-reflective to ensure continued financial sustainability. No profit element is included in the determination of a tariff.

As such, management has determined that the City does not control assets that meet the definition of cash-generating assets, and that the GRAP standard for the impairment of non-cash-generating assets will apply to all assets of the City.

**Adoption of new and revised standards**

In the current year, the City has adopted all new and revised standards and interpretations issued by the ASB that are relevant to its operations and are effective.

The City has not adopted any GRAP standard that is not yet effective, but has based its accounting policies on such standards, except for GRAP 18. Effective dates have been given for some of the standards, while for others, no effective dates have yet been determined. At the date of submission of these financial statements for the year ended 30 June 2016, the following approved Standards of GRAP for which no effective dates have been determined yet:

- GRAP 18 - Segment reporting
- GRAP 20 - Related-party disclosures (revised)
- GRAP 32 - Service concession arrangements: Grantor
- GRAP 108 - Statutory receivables
- GRAP 109 - Accounting by principals and agents
- IGRAP 17 - Service concession arrangements where a grantor controls a significant residual interest in an asset

All the above standards, where applicable, will be complied with in the financial statements once the standards take effect. Preliminary investigations indicated that, other than additional disclosure, the impact of the standards on the financial statements will be minimal.

**HOUSING FUNDS**

The housing development fund was established in terms of the Housing Act, Act 107 of 1997.

**Housing development fund**

Sections 15(5) and 16 of the Housing Act, which came into effect on 1 April 1998, required the City to maintain a separate housing operating account. This legislated separate operating account is known as the housing development fund and is fully cash-backed.

The Housing Act also requires in terms of section 14(4)(d)(iii)(aa), read with, inter alia, section 16(2), that the net proceeds of any letting, sale or alienation of property previously financed from government housing funds, be paid into a separate operating account, and be utilised by the City for housing development in accordance with the National Housing Policy.

**Unrealised housing proceeds**

In order to comply with sections 14(4)(d)(i) and (iii) of the Housing Act, in terms of which all net proceeds need to be paid into the housing development fund, it was necessary to create a holding account that represents the unrealised funds due by long-term housing selling developments and sponsored loan debtors. This account is reduced when debtors are billed for their current loan repayments.

**RESERVES**

The City creates and maintains reserves in terms of specific requirements.

**Capital replacement reserve (CRR)**

In order to finance the acquisition of property, plant and equipment and other from internal sources, cash amounts are transferred from the accumulated surplus to the CRR.

The following provisions are set for the creation and utilisation of the CRR:

- The cash funds that back up the CRR are invested until utilised.
- The CRR may only be utilised for purchasing items of property, plant and equipment, and not for their maintenance unless otherwise directed by Council.
- Whenever an asset is purchased out of the CRR, an amount equal to the cost price of the asset is transferred from the CRR, and the accumulated surplus is credited by a corresponding amount.

**Insurance reserve****• Self-insurance reserve**

A general insurance reserve has been established and covers claims that may occur, subject to reinsurance where deemed necessary. Premiums are charged to the respective services, taking into account the claims history and replacement value of the insured assets.

Reinsurance premiums paid to external reinsurers are regarded as an expense, and are shown as such in the statement of financial performance. The net surplus/deficit on the insurance operating account is transferred to or from the insurance reserve via the statement of changes in net assets.

A viability valuation report is obtained each year to assess the adequacy of the insurance reserve at year-end.

• **Compensation for occupational injuries and diseases (COID) reserve**

The City has been exempted from making contributions to the Compensation Commissioner for occupational injuries and diseases in terms of section 84 of the COID Act, Act 130 of 1993.

The certificate of exemption issued by the Commissioner and prescribed by the COID Act requires the City to deposit cash and/or securities with the Commissioner, the market values of which in aggregate shall not be less than the capitalised value of the continuing liability of the City as at 31 December of each year.

The continuing liability is that of annual pensions, the capitalised value of which is determined on the basis of an actuarial determination prescribed by the Commissioner. A COID reserve has been established to equate to the value of the continuing liability. The market value of the securities is determined annually by the Commissioner, and the City is required to meet any shortfall in the aggregate value of the securities as at 31 December. Monthly pensions are funded by transferring funds from the reserve to the expense account in the statement of financial performance.

**PROPERTY, PLANT AND EQUIPMENT**

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Where property, plant and equipment are acquired through non-exchange transactions, the cost is deemed to be the item's fair value on the date of acquisition.

Subsequent expenditure relating to property, plant and equipment is capitalised if it is probable that future economic benefits or potential service delivery of the assets are enhanced in excess of the originally assessed standard of performance. If expenditure only restores the originally assessed standard of performance, it is regarded as repairs and maintenance, and is expensed.

The City maintains and acquires assets to provide a social service to the community, with no intention of disposing of the assets for any economic gain.

The gain or loss arising from the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value, and is recognised in the statement of financial performance.

**Depreciation rates**

Depreciation is calculated at cost, using the straight-line method, over the estimated useful lives of the assets. The residual value, depreciation method and useful life, if not insignificant, are reassessed annually, with the effect of any changes in estimate accounted for on a prospective basis. The depreciation rates are based on the following estimated useful lives:

	Years		Years
<b>Infrastructure</b>		<b>Other</b>	
Roads and paving	10-50	Buildings	3-50
Electricity	15-50	Other vehicles	6-15
Water	15-30	Office equipment	5-7
Sewerage	15-20	Watercraft	5
Telecommunications	10-30	Bins and containers	5
		Landfill sites	30
<b>Housing</b>	30	Specialised vehicles	10-20
		Library books	1
<b>Community</b>		Furniture and fittings	10
Community and recreational facilities	20-50	Computer equipment	3-5
Security	5-10	Plant and equipment	5-12
		Service concession	10-30

Assets under construction are carried at cost. Depreciation of an asset commences when the asset is ready for its use as intended by management. Freehold land is not depreciable, as it has an indefinite useful life.

**INVESTMENT PROPERTIES**

Investment properties are immovable land and/or buildings that are held to earn rental income and/or for capital appreciation. Investment property excludes owner-occupied property that is used in the production or supply of goods or services or for administrative purposes, or property held to provide a social service.

Investment properties are stated at cost less accumulated depreciation and accumulated impairment losses. Where investment properties are acquired through non-exchange transactions, the cost is deemed to be the item's fair value on the date of acquisition.

Investment property other than vacant land is depreciated on the straight-line basis over the useful lives of the assets, estimated at 20 to 50 years.

An investment property is derecognised upon disposal or when it is permanently withdrawn from use, and when no future economic benefits or service potential are expected from its disposal. Any gain or loss arising from the retirement or disposal of investment property is included in the surplus or deficit in the period of the retirement or disposal.

Direct income and expenses arising from investment property are disclosed as part of general income and expenses, and are thus not disclosed separately, as they are not material.

**HERITAGE ASSETS**

A heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance and is held and preserved indefinitely for the benefit of present and future generations.

Heritage assets are stated at cost less accumulated impairment losses. Where a heritage asset is acquired through a non-exchange transaction, its cost is deemed to be its fair value as at the date of acquisition.

Transfers to heritage assets are made only when the asset meets the definition of a heritage asset, and transfers from heritage assets are only made when the asset no longer meets the definition of a heritage asset. Transfers to and from heritage assets are done at the carrying amount of the assets transferred at the date of transfer.

The gain or loss arising from the disposal or retirement of a heritage asset is determined as the difference between the net disposal proceeds, if any, and the carrying value, and is recognised in the statement of financial performance. Heritage assets are not depreciated, since their long economic life and high residual value mean that any depreciation would be immaterial.

**INTANGIBLE ASSETS**

An intangible asset is defined as an identifiable non-monetary asset without physical substance, held for use in the production or supply of goods or services, for rental to others or for administrative purposes.

Intangible assets are stated at cost less accumulated depreciation and accumulated impairment losses. Where intangible assets are acquired through non-exchange transactions, the cost is deemed to be the item's fair value on the date of acquisition.

The City recognises computer development software costs as intangible assets if the costs are clearly associated with an identifiable and unique system controlled by the City, and have a probable benefit exceeding one year. Direct costs include software development employee costs and an appropriate portion of relevant overheads.

**Amortisation rates**

Intangible assets are amortised on the straight-line basis over the useful lives of the assets. The residual value, amortisation method and useful life, if not insignificant, are reassessed annually, with the effect of any changes in estimate accounted for on a prospective basis.

The amortised rates are based on the following estimated useful lives:

	Years
Acquisition of rights	8
Computer software	5-10

**IMPAIRMENT OF NON-CASH-GENERATING ASSETS**

All assets are classified as non-cash-generating assets.

At the end of each reporting period, carrying amounts of non-cash-generating assets are reviewed to determine whether there is any indication of impairment. If any such indication exists, the recoverable service amount of the asset is estimated in order to determine the extent of the impairment loss (if any).

Intangible assets with indefinite useful lives as well as intangible assets not yet available for use are tested for impairment annually at the same time every year, as well as whenever there is an indication that the asset may be impaired.

The recoverable service amount of a non-cash-generating asset is the higher of fair value less costs to sell and the value-in-use. The value-in-use is the present value of the remaining service potential of the asset, and is determined using the most appropriate of the depreciated replacement cost, restoration cost or service units approach.

The discount rate used reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable service amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. An impairment loss is recognised immediately in surplus or deficit.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable service amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

**CASH AND CASH EQUIVALENTS**

Cash includes cash on hand, cash with banks, and call deposits. Cash equivalents are short-term bank deposits with a maturity of three months or less from inception, readily convertible to cash without significant change in value.

For the purposes of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of any bank overdrafts.

**INVENTORIES**

Inventories consist of raw materials, work in progress, consumables and finished goods and are valued at the lower of cost (determined on the weighted-average basis) and net realisable value, except for plants and compost, which are valued at the tariffs charged. Where they are held for distribution or consumption at no charge or for a nominal amount, inventories are valued at the lower of cost and current replacement value.

Cost of inventories comprises all costs of purchase, costs of conversion, and other costs incurred in bringing the inventories to their present location and condition.

Redundant and slow-moving inventories are identified and written down to their estimated net realisable values, and are recognised as an expense in the period in which the write-down or loss occurs. Consumables are written down according to their age, condition and utility.

**VALUE-ADDED TAX**

The City accounts for value-added tax (VAT) on the payment basis.

**GRANTS AND RECEIPTS**

Grants, transfers and donations received or receivable are recognised as assets when the resources that have been transferred to the City meet the definition and criteria for recognition of an asset.

A corresponding liability is recognised to the extent that the grant, transfer or donation recognised as an asset, is subject to conditions which require that the entity either consumes the future economic benefits or service potential of the asset as specified or that in the event that the conditions are breached the entity returns such future economic benefits or service potential to the transferor. The liability is transferred to revenue when the conditions attached to the grants, transfers or donations are met. Grants, transfers or donations that are not subject to any conditions are recognised as revenue when the assets are initially recognised.

Interest earned on the investment of grants, transfers and donations received is treated in accordance with the stipulations set out in the agreement for the receipt of the grant, transfer or donation invested, or where management has decided that interest must be capitalised. Where interest applies it is included in the opening and closing balances.

**PROVISIONS**

A provision is recognised when the City has a present legal or constructive obligation as a result of a past event, and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, and the amount of the obligation can be reliably estimated.

When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the statement of financial performance as a finance cost.

**ENVIRONMENTAL REHABILITATION PROVISIONS**

Estimated long-term environmental provisions, comprising rehabilitation and landfill site closure, are based on the City's policy, taking into account current technological, environmental and regulatory requirements.

The provision for rehabilitation is recognised as and when the environmental liability arises. In so far as the obligations relate to the asset, they are capitalised as part of the cost of those assets. Any unwinding of discount is charged to the statement of financial performance.

**EMPLOYEE BENEFITS****Retirement benefit plans**

The City provides retirement benefits for its employees and councillors. Retirement benefits consist of defined-contribution plans and defined-benefit plans.

Defined-contribution plans are post-employment benefit plans under which an entity pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are charged against income in the year during which they become payable.

Defined-benefit plans are post-employment benefit plans other than defined-contribution plans. The defined-benefit funds are actuarially valued triennially on the projected unit credit method basis. Deficits identified are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities. The contributions and lump sum payments are charged against income in the year during which they become payable.

**Post-retirement pension funds**

Pensions paid to employees who had not been members of any of the official pension funds, but who are entitled to a revenue pension, are recognised as an expense when incurred. Such pension payments are funded from a staff provident fund maintained for this purpose. Entitlement to these ex-gratia pension payments is subject to compliance with an acceptable pre-condition for non-membership of any of the pension funds associated with the City.

The City makes the fund contributions on a monthly basis, which are charged to the operating account when employees have rendered the service entitling them to the contributions. Actuarial valuation of the liability is performed on an annual basis. The projected unit credit method has been used to value the obligations.

The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the fair value of the obligation, together with adjustments for the actuarial gains and losses, and past service costs.

Actuarial gains or losses are fully accounted for in the statement of financial performance in the year that they occur.

**Medical aid: Continued members**

The City provides post-retirement benefits by subsidising the medical aid contributions of certain retired staff. According to the rules of the medical aid funds with which the City is associated, a member on retirement is entitled to remain a continued member of such medical aid fund, and the City will continue to subsidise medical contributions in accordance with the provisions of the employee's employment contract and the City's decision on protected rights. Post-retirement medical contributions paid by the City, depending on the employee's contract, could be 70% or a subsidy indicated on a sliding scale. In each case the employee is responsible for the balance of post-retirement medical contributions. External appointments after 15 December 2000 do not qualify for a post-retirement medical aid subsidy.

These contributions are charged to the operating account when employees have rendered the service entitling them to the contribution.

The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the fair value of the obligation, together with adjustments for the actuarial gains and losses, and past service costs.

Actuarial gains or losses are fully accounted for in the statement of financial performance in full in the year that they occur. The projected unit credit method has been used to value the obligation.

**Short-term and long-term employee benefits**

The cost of all short-term employee benefits is recognised in the period during which the employee renders the related service. The City recognises the expected cost of performance bonuses only when the City has a present legal or constructive obligation to make such payment, and if a reliable estimate can be made.

The City provides long-service leave to eligible employees, payable on completion of years of employment. The City's liability is based on an actuarial valuation. The projected unit credit method has been used to value the obligation. Actuarial gains and losses on the long-term incentives are fully accounted for in the statement of financial performance.

**REVENUE RECOGNITION**

Revenue is recognised net of indirect taxes, rebates and trade discounts, and consists primarily of rates, grants from National Government and Western Cape Provincial Government ('Province'), service charges, rentals, interest received and other services rendered. Revenue is recognised when it is probable that future economic benefits or services potential will flow to the City, and when these benefits can be reliably measured. Revenue arising from the application of the approved tariff charges is recognised when the relevant service is rendered, by applying the relevant authorised tariff. This includes the issuing of licences and permits.

**Revenue from exchange transactions**

Exchange transactions are transactions in which the City receives assets or services, or has liabilities extinguished and directly gives approximately equal value to another entity in exchange.

Service charges relating to solid waste, sanitation and sewerage are levied in terms of the approved tariffs.

Service charges relating to electricity and water are based on consumption. Meters are read on a periodic basis, and revenue is recognised providing that the benefits can be measured reliably. Estimates of consumption are made every other month based on consumption history. Such estimated consumption is recognised as income when invoiced, and adjusted every following month that the meter is read. An accrual on the basis of a determined consumption factor is made for consumption not measured as at the end of the financial year.

Services provided on a prepayment basis are recognised at the point of sale. An adjustment for an unutilised portion is made at year-end, based on the average consumption history.

Income in respect of housing rental and instalment sale agreements is accrued monthly.

Interest earned on investments is recognised in the statement of financial performance on a time-proportionate basis, which takes into account the effective yield on the investment. Interest may be transferred from the accumulated surplus to the housing development fund or the insurance reserve.

Interest earned on the following investments is not recognised in the statement of financial performance:

- Interest earned on trust funds is allocated directly to the fund.
- Interest earned on unutilised conditional grants is allocated directly to the creditor 'Unutilised conditional grants' if the grant conditions indicate, or where management has determined that interest is payable to the funder.

Dividends are recognised when the City's right to receive payment is established.

Income for agency services is recognised on a monthly basis once the income collected on behalf of agents is earned. The income is recognised in terms of the agency agreement.

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- The City has transferred to the buyer the significant risks and rewards of ownership of the goods.
- The City retains neither continuing managerial involvement to the degree usually associated with ownership, nor effective control over the goods sold.
- The amount of revenue can be reliably measured.
- The costs incurred or to be incurred in respect of the transaction can be reliably measured.
- Prepaid electricity sold is only recognised as income once the related units are consumed.

#### Revenue from non-exchange transactions

Non-exchange transactions are transactions where the City received revenue from another entity without giving approximately equal value in exchange.

Revenue from rates is recognised when the legal entitlement to this revenue arises and ratepayers have been duly notified. Collection charges are recognised when such amounts are legally enforceable. Interest on unpaid rates is recognised on a time-proportionate basis with reference to the principal amount receivable and effective interest rate applicable.

A composite rating system, charging different rate tariffs, is used. Rebates are granted to certain categories of ratepayers, and are deducted from revenue.

Fines constitute both spot fines and summonses. Revenue from spot fines and summonses is recognised when the fine is issued.

Donations are recognised on a cash receipt basis, or, where the donation is in the form of property, plant and equipment, when the risks or rewards of ownership have transferred to the City. Donations are measured at fair value.

Income from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act, Act 56 of 2003, and is recognised when recovered from the responsible party.

#### LEASES

##### The City as lessee

Assets subject to finance lease agreements are capitalised at their cash cost equivalent, and the corresponding liabilities are raised. The cost of the assets is depreciated at appropriate rates on the straight-line basis over the estimated useful lives of the assets. Lease payments are allocated between the lease finance cost and the capital repayment, using the effective interest rate method. Lease finance costs are expensed when incurred.

Operating leases are those leases that do not fall within the scope of the above definition. Payments made under operating leases are charged to the statement of financial performance on a straight-line basis over the period of the lease.

Currently the City has no finance lease agreements.

##### The City as lessor

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

#### GRANTS-IN-AID

The City transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the City does not:

- receive any goods or services directly in return as would be expected in a purchase or sale transaction;
- expect to be repaid in future; or
- expect a financial return, as would be expected from an investment.

These transfers are recognised in the statement of financial performance as expenses in the period in which the events giving rise to the transfer occurred.

**FINANCIAL INSTRUMENTS**

Financial instruments are recognised when the City becomes a party to the contractual provisions of the instrument, and are initially measured at fair value. In the case of a financial instrument not subsequently measured at fair value through the statement of financial performance, transaction costs that are directly attributable to the acquisition or issue of the instrument are added to or deducted from the fair value as appropriate on initial recognition.

**Non-derivative financial assets**

The classification of financial assets depends on their nature and purpose, and is determined at the time of initial recognition.

- **Investments at fair value**

Non-derivative investments held without the positive intent or ability to hold to maturity. Subsequent to initial recognition, all changes to fair value are recognised through the statement of financial performance.

- **Investments at amortised cost**

Non-derivative investments with fixed or determinable payments and fixed maturity dates, which the City has the positive intent and ability to hold to maturity. Subsequent to initial recognition, such investments are measured at amortised cost using the effective interest method less any impairment.

- **Investments at cost**

Residual interests that do not have a quoted market price in an active market, and the fair value of which cannot be reliably measured. Subsequent to initial recognition, such investments are measured at cost less any impairment.

Financial assets other than those at fair value are assessed for indicators of impairment at the end of each reporting period. Impairment is considered when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been affected.

Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred and the City has transferred substantially all risks and rewards of ownership, or when the enterprise loses control of contractual rights that comprise the assets.

**Non-derivative financial liabilities**

After initial recognition, the City measures all financial liabilities, including payables, at amortised cost, using the effective interest rate method. Financial liabilities include borrowings, other non-current liabilities (excluding provisions) and payables (excluding provisions). Interest-bearing external loans and bank overdrafts are recorded net of direct issue costs. Finance charges, including premiums payable, are accounted for on an accrual basis.

Financial liabilities are derecognised when the obligation specified in the contract is discharged or cancelled or when it expires.

**Derivative financial instruments**

The City holds derivative financial instruments to hedge its foreign currency risk exposures. Derivatives are initially measured at fair value; any directly attributable transaction costs are recognised in profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognised in profit or loss.

**PAYABLES**

Payables are initially measured at fair value plus transactional cost, and are subsequently measured at amortised cost, using the effective interest rate method.

**RECEIVABLES**

Receivables are recognised initially at fair value plus transactional cost, which approximates amortised cost, less provision for impairment. Bad debts are written off in the year during which they are identified as irrecoverable, subject to the approval by the appropriate delegated authority. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of receivables is established when there is objective evidence that the City will not be able to collect all amounts due according to the original terms of receivables.

The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the effective interest rate. Interest is charged on overdue amounts. An estimate is made for doubtful debt based on past default experience of all outstanding amounts at year end.

**UNAUTHORISED EXPENDITURE**

Unauthorised expenditure is expenditure that has not been budgeted-for; expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state, or expenditure in the form of a grant that is not permitted in terms of the MFMA, Act 56 of 2003. Unauthorised expenditure is accounted for in the financial statements and, where recovered, is subsequently accounted for as revenue.

**IRREGULAR EXPENDITURE**

Irregular expenditure is expenditure that is contrary to the MFMA, Act 56 of 2003, Municipal Systems Act, (MSA), Act 32 of 2000, and Remuneration of Public Office Bearers Act, Act 20 of 1998 or that is in contravention of the municipality's supply chain management (SCM) policy.

Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for in the financial statements and, where recovered, is subsequently accounted for as revenue.

**FRUITLESS AND WASTEFUL EXPENDITURE**

Fruitless and wasteful expenditure is expenditure that was made in vain, and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for in the financial statements and, where recovered, is subsequently accounted for as revenue.

**FOREIGN-CURRENCY TRANSACTIONS**

Transactions in foreign currencies are initially accounted for at the ruling exchange rate on the date of the transaction. Trade creditors denominated in foreign currency are reported at the statement of financial position date by applying the exchange rate on that date. Exchange differences arising from the settlement of creditors, or from reporting of creditors at rates different from those at which they were initially recorded during the period, are recognised as income or expenses in the period in which they arise.

**BUDGET INFORMATION**

The annual budget figures have been prepared in accordance with the GRAP standards on an accrual basis, and are consistent with the accounting policies adopted by the Council for the preparation of these financial statements.

The approved budget covers the fiscal period from 1 July 2015 to 30 June 2016. The amounts are scheduled as a separate additional financial statement, called the statement of comparison of budget and actual amounts. Explanatory comments to material differences are provided in the notes to the annual financial statements.

These figures are those approved by Council both at the beginning and during the year following a period of consultation with the public as part of the Integrated Development Plan (IDP) process.

Comparative information is not required for the statement of comparison of budget and actual amounts.

**OFFSETTING**

Financial assets and liabilities are off-set and the net amount reported in the statement of financial position when there is a legally enforceable right to off-set the recognised amount, and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

**BORROWING COSTS**

Borrowing costs that are incurred by the City are expensed in the statement of financial performance in the period during which they are incurred, regardless of how the borrowings are applied.

**SERVICES IN-KIND**

The City does not recognise services in kind as revenue or as an asset, but included in note 26 the nature and type of major classes of services in kind.

**COMPARATIVE INFORMATION**

Comparative figures are reclassified or restated as necessary to afford a proper and more meaningful comparison of results, as set out in the affected notes to the financial statements.

**RELATED PARTIES**

The City regards a related party as a person or an entity with the ability to control the Entity either individually or jointly, or the ability to exercise significant influence over the City, or vice versa.

Management is regarded as a related party, and comprises the councillors, Executive Mayor, Mayoral Committee (Mayco) members, City Manager and executive directors.

**1. FINANCIAL RISK MANAGEMENT**

Exposure to currency, interest rate, liquidity and credit risk arises in the normal course of the City's operations. This note presents information about the City's exposure to each of the above risks, policies and processes for measuring and managing risk, and the City's management of capital. Further quantitative disclosures are included throughout these financial statements.

The City's Risk Management Committee, is responsible for oversight over the City's integrated risk management (IRM) policies and the risk management activities. The IRM's policies were established to ensure a structured approach to the identifying and mitigating of risks across the City, to an acceptable level. The IRM policies and systems are reviewed regularly to ensure it keeps abreast with best practises and regulatory requirements. To enable the Audit Committee to comply with their role and responsibilities with regards to risk management, all documentation and reports of Risk Management Committee meetings are supplied to the Audit Committee and Speaker on a quarterly basis.

The accounting policy for financial instruments was applied to the following statement of financial position items:

	Amortised cost R'000	Fair value R'000	Cost R'000	Total carrying amount R'000	Fair value R'000
<b>Financial assets</b>					
<b>2016</b>

**1.1 Fair values**

The table below analyses financial instruments carried at fair value at the end of the reporting period, by level of fair-value hierarchy. The different levels are based on the extent to which quoted prices are used in the calculation of the fair value of the financial instruments, and have been defined as follows:

Level 1: Fair values are based on quoted market prices (unadjusted) in active markets for an identical instrument.

Level 2: Fair values are calculated using valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

Level 3: Fair values are based on valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data, and the unobservable inputs have a significant effect on the instrument's valuation. Also, this category includes instruments that are valued based on quoted prices for similar instruments, where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

	Level 1 R'000	Level 2 R'000	Level 3 R'000	Total R'000
<b>2016</b>				
<b>Financial assets</b>				
Investments	2 179 527	1 473 128	-	3 652 655
Cash and cash equivalents	-	828 242	-	828 242

	<b>2 832 054</b>	<b>1 659 317</b>	-	<b>4 491 371</b>
<b>Derivative financial liabilities</b>				
Forward exchange contracts	-	-	-	-

**1.2 Liquidity risk**

Liquidity risk is the risk of the City not being able to meet its obligations as they fall due. The City's approach to managing liquidity risk is to ensure that sufficient liquidity is available to meet its liabilities when due, without incurring unacceptable losses or risking damage to the City's reputation.

The City ensures that it has sufficient cash on demand to meet expected operating expenses through the use of cash flow forecasts.

The following are contractual liabilities of which interest is included in borrowings:

	Up to 1 year R'000	1-5 years R'000	>5 years R'000	Total R'000
<b>2016</b>				
<b>Non-derivative financial liabilities</b>				
Borrowings	5 658 728	3 267 333	7 186 298	16 112 359
Capital repayments	1 173 432	3 267 333	7 186 298	11 627 063
Interest	469 936	765 789	5 271 117	6 506 842
Interest	703 496	2 501 544	1 915 181	5 120 221
Payables	4 485 296	-	-	4 485 296
Trade payables	3 685 512	-	-	3 685 512
Sundry creditors	799 784	-	-	799 784
<b>Derivative financial liabilities</b>	<b>152</b>	-	-	<b>152</b>
Forward exchange contracts	152	-	-	152
	<b>5 658 880</b>	<b>3 267 333</b>	<b>7 186 298</b>	<b>16 112 511</b>

**1.3 Credit risk**

Credit risk is the risk of financial loss to the City if customers or counterparties to financial instruments fail to meet their contractual obligations, and arises principally from the City's investments, receivables, and cash and cash equivalents.

The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk as at 30 June was as follows:

	2016 R'000	2015 R'000
Investments	5 695 599	5 141 198
Long-term receivables – see note 8	68 788	95 162
Receivables and other receivables – see note 10 and 11	5 932 436	5 377 465
Cash and cash equivalents – see note 12	3 332 469	3 199 148
<b>TOTAL</b>	<b>15 029 292</b>	<b>13 812 973</b>

The 'Receivables and other receivables' 2015 comparative amount of R5,38 billion has been restated from R4,72 billion (see note 42).

**Investments and cash and cash equivalents**

The City limits its exposure to credit risk by investing with only reputable financial institutions that have a sound credit rating, and within specific guidelines set in accordance with Council's approved investment policy. Consequently, the City does not consider there to be any significant exposure to credit risk.

**Long-term receivables**

Loans are granted and are managed in accordance with policies and regulations. The associated interest rates and repayments are clearly defined and, where appropriate, the City obtains certain suitable forms of security when granting loans. Allowances for impairment are made in certain instances. No further loans have been awarded.

**Receivables**

Receivables are amounts owing by consumers, and are presented net of impairment losses. The City has a credit risk policy in place, and the exposure to credit risk is monitored on an ongoing basis. The City is compelled in terms of its constitutional mandate to provide all its residents with basic minimum services, without recourse to an assessment of creditworthiness. There were no material changes in the exposure to credit risk and its objectives, policies and processes for managing and measuring the risk during the year under review. The City's strategy for managing its risk includes encouraging residents to install water demand management devices that control water flow to households, as well as prepaid electricity meters. In certain instances, a deposit is required for new service connections, serving as a guarantee.

The City's maximum exposure to credit risk is represented by the carrying value of each financial asset in the statement of financial performance. The City has no significant concentration of credit risk, with exposure spread over a large number of consumers, and is not concentrated in any particular sector or geographic area. The City establishes an allowance for impairment that represents its estimate of anticipated losses in respect of receivables. The outstanding amounts of the 10 largest debtors represent 1,23% (2015: 1,00%) of the total outstanding balance. The average credit period on services rendered is 30 days from date of invoice. Interest is raised at prime plus 1% on any unpaid accounts after the due date. The City has provided fully for all receivables outstanding over 365 days. Receivables up to 365 days are provided for based on estimated irrecoverable amounts, determined by reference to past default experience. Additional information relating to the analysis of receivables is given in note 10 and 11.

Payment of accounts of consumer debtors who are unable to pay, are renegotiated as an ongoing customer relationship in response to an adverse change in the circumstances of the customer. Traffic fines can be contested in writing and can lead to a renegotiated fine.

**1.4 Capital management**

The primary objective of managing the City's capital is to ensure that there is sufficient cash available to support the City's funding requirements, including capital expenditure, to ensure that the City remains financially sound.

The City monitors capital using a gearing ratio, which is net debt, divided by total capital, plus net debt. In a capital-intensive industry, a gearing ratio of 50% or less can be considered reasonable. Included in net debt are interest-bearing loans and borrowings, payables, less investments.

**1.5 Price risk**

The City is exposed to equity-securities price risk because of investments held by the City and classified as financial instruments carried at fair value. The City is not exposed to commodity price risk. To manage its price risk arising from investments in equity securities, the City diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the City. The exposure to price risk is not material to the City and, consequently, is not elaborated on any further.

**1.6 Market risk**

Market risk is the risk that changes in market prices such as interest rates (see note 1.6.1) and foreign-exchange rates (see note 1.6.2) affecting the City's income or the value of its financial instrument holdings. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return on the risk.

**1.6.1 Interest rate risk**

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The City's exposure to the risk of changes in market rates relates primarily to the City's investments with floating interest rates.

The effective rates on financial instruments as at 30 June 2016 were as follows:

	Weighted interest rate %	Maturity of interest-bearing assets/liabilities			Total R'000
		1 year or less R'000	1-5 years R'000	>5 years R'000	
<b>Financial assets</b>					
Investments	7,48	2 983 419	1 588 408	1 952 014	6 523 841
Cash and cash equivalents	7,06	2 504 227	-	-	2 504 227
<b>Total financial assets</b>		<b>5 487 646</b>	<b>1 588 408</b>	<b>1 952 014</b>	<b>9 028 068</b>
<b>Financial liabilities</b>					
Borrowings	9,91	469 936	765 789	5 271 117	6 506 842
<b>Total financial liabilities</b>		<b>469 936</b>	<b>765 789</b>	<b>5 271 117</b>	<b>6 506 842</b>

**Interest rate sensitivity analysis****Financial assets**

As at 30 June 2016, if the weighted interest rate at that date had been 100 basis points higher, with all other variables held constant, the fair-value impact on the statement of financial performance would have been R94,54 million with the opposite effect if the interest rate had been 100 basis points lower.

The sensitivity analysis is performed by dividing the total investment interest earned for the year by the average interest rate earned to give the effect of a one percent movement in interest rates.

**Financial liabilities**

Changes in the interest rate as at 30 June 2016 would have no impact on the statement of financial performance as all borrowings are at a fixed interest rate.

**1.6.2 Currency risk**

The City is exposed to foreign-currency risk through the importation of goods and services, either directly or indirectly, through the award of contracts to local importers. The City manages any material direct exposure to foreign-currency risk by entering into forward exchange contracts. The City manages its indirect exposure by requiring the local importer to take out a forward exchange contract at the time of procurement, in order to predetermine the rand value of the contracted goods or services.

**Currency risk sensitivity analysis**

As at 30 June 2016, if the foreign exchange rate at that date had been 5% higher, with all other variables held constant, the surplus for the year would have increased with R242 236 due to the changes in the carrying value of the monetary liability at the reporting date, with the opposite effect if the foreign exchange rate had been 5% lower.

Provision has been made for the estimated cost of rehabilitation of waste landfill sites, included in other assets, as described in note 15.2.

The City is required to measure the residual value of all items of property, plant and equipment. Management has determined that none of its infrastructural assets have any active market value, and the value of the amount at the end of their lives would therefore be nil or insignificant. During the current financial year, the City reviewed the estimated useful lives and residual values of property, plant and equipment, where appropriate (see note 42.3).

Fully depreciated assets at an original cost of R539,79 million (2015: R581,50 million) are still in use.

The recoverable amount of impaired assets is R0,15 million (2015: R7,12 million). Impairment losses arise mainly from land purchased that is earmarked for low cost housing where the cost of land will not be recovered. The value in use of impaired land is based on an estimation of the percentage of that land that will generate future cash flows or value in use.

The City entered into long-term agreements with three operators to run a high-quality bus-based urban transit or IRT system known as MyCiti. In terms of these agreements, the City has made available to the operators buses (and related depots) purchased by the City for the purposes of rendering the MyCiti services. The agreements are for an initial period of 12 years, after which a new tender process will be followed. In terms of the agreements, the City has full control over the nature, timing and extent of the services that the operators have to perform, and the fees for the services rendered are determined as per the operator-specific schedules and annexes that form part of the signed agreements.

## 3. HERITAGE ASSETS

**Collateral deposits for staff housing loans**

Included in other fixed deposits are fixed deposits with a carrying value of R0,04 million (2015: R0,04 million), which were pledged as security deposits for securing staff home loans with financial institutions.

These pledges are repaid as soon as the employees' outstanding home loan balance is below 80% of the approved loan amount. The City has not issued fixed deposits as security since 2000, however, interest earned on certain deposits are still being capitalised. The City's exposure to risk is minimised by an insurance policy taken out by the employee and ceded to the City to cover the guaranteed deposit.

**Cape Town International Convention Centre (Pty) Ltd (CTICC)**

The cost of the City's investment in CTICC at 30 June 2016 is R670,99 million (2015: R604,00 million) and the impairment loss provision is R245,23 million (2015: R245,23 million). At year end no objective evidence exists to indicate that this investment should be further impaired.

**Compensation for occupational injuries and diseases (COID investments)**

The RSA Government stock (bonds) was purchased at the request of the Department of Labour in terms of the Occupational Injuries and Diseases Act, 1993. The Compensation Commissioner is required to hold the physical scrip as security for the City's liabilities under the Act.

**8. LONG-TERM RECEIVABLES**

	2016 R'000	2015 R'000

Contribution (from)/to provisions	(116)	4 607
<b>Balance as at 30 June</b>	<b>20 175</b>	<b>20 291</b>

**8.1 Sporting bodies**

To facilitate the development of sporting facilities, loans were historically made to provide the necessary financial assistance. These loans attract interest at a rate of 3,63% to 19% per annum, and are repayable over a maximum period of 20-40 years.

**8.2 Housing land sale**

The long-term loan to the Khayelitsha Community Trust (KCT) (sale of portion 1 to 3, erf 58856) is repayable over 18 years. Annual payments are received, with the final payment due in 2024.

**8.3 Public organisations**

Loans to public organisations were granted in terms of the National Housing Policy. At present, these loans attract interest at 1%, and are repayable over 30 years. With the implementation of new legislation (the MFMA and the Housing Act), no further loans have been awarded, and the final loan repayments are scheduled for 2032. Examples of public organisations that were granted loans are the Salvation Army and the Alta du Toit School.

**8.4 Housing selling development loans**

Housing loans were historically granted to qualifying individuals in terms of the National Housing Policy. These loans currently attract interest at 9,75% (2015: 9,25%) per annum, and are repayable over 20 years. The interest rate is determined by Council policy.

**9. INVENTORY**

Consumable stock  
Spare parts and meters

Transferred to current liabilities	(469 936)	(345 682)
<b>TOTAL</b>	<b>6 036 906</b>	<b>6 415 499</b>

A total of R1,97 billion (2015: R1,79 billion) has been ring-fenced for the repayment of the long-term liabilities – see note 7 for more details.

MARKETABLE BONDS	4 275 489	4 275 489
<b>Marketable bonds</b>	4 275 489	4 275 489
In terms of the City's domestic medium-term note (DMTN) programme registered on the Johannesburg Stock Exchange (JSE) Limited, unsecured bonds totalling R4,20 billion are listed on the JSE. Each of the municipal bonds bears interest at fixed rates ranging between 11,16% and 12,57% per annum. Interest is payable semi-annually, while capital will be redeemed by way of a bullet repayment on the final redemption date. The municipal bonds are repayable on 23 June 2023 (CCT01), 12 June 2024 (CCT02) and 15 March 2025 (CCT03). Guaranteed sinking funds have been established for the repayment of the bonds by once-off lump sum payments with various financial institutions, namely Nedbank (CCT01), Rand Merchant Bank (CCT02) and Liberty Group Limited (CCT03).		
<b>CONCESSIONARY LOANS</b>	<b>1 693 550</b>	<b>1 820 337</b>
<b>Agence Française de Développement (AFD)</b>	1 678 888	1 802 341
An unsecured loan of R2,38 billion, bearing interest at an average fixed rate of 5,76% per annum. The sum is repayable semi-annually in equal instalments of capital, with interest payable on the reducing balance. This loan will be fully paid on 31 March 2028. Nominal value as at 30 June 2016 is R1,91 billion (2015: R2,07 billion).		
<b>Nedcor Bank</b>	29	25
An unsecured loan, bearing interest at a fixed rate of 1% per annum, payable annually, and loan capital repayable on 31 August 2019. Nominal value as at 30 June 2016 is R50 000 (2015: R50 000).		
<b>Development Bank of Southern Africa (DBSA)</b>	14 633	17 971
An unsecured fixed-term concessionary loan, bearing interest at a fixed rate of 5% per annum, repayable semi-annually in equal instalments of capital, with interest payable on the reducing balance. This loan will be fully paid on 30 June 2020. Nominal value as at 30 June 2016 is R16 million (2015: R20 million).		

	2016 R'000	2015 R'000
<b>OTHER LOANS</b>	<b>537 803</b>	<b>665 355</b>
<b>FirstRand Bank</b>	135 005	147 725
A structured 15-year loan to the value of R220 million, of which R200 million is repayable semi-annually in equal instalments of capital and fixed-rate interest over 15 years, and the balance of R20 million is payable in one instalment together with fixed interest on 30 June 2017. The loan bears interest at a fixed rate of 12,63% per annum. The bullet repayment of the R20 million capital and interest will be made out of the guaranteed investment portfolio of two 15-year sinking-fund investment policies purchased from Momentum Group.		
As part of the loan structure, the City purchased two 15-year sinking-fund policies from Momentum Group for an upfront premium of R220 million. R20 million of the premium was invested in the guaranteed investment portfolio referred to above. The balance of the premium, i.e. R200 million, was invested in a linked investment (unguaranteed) portfolio. The maturity proceeds of this unguaranteed portfolio were sold in advance to FirstRand Bank for R200 million on the acceptance of the policies. The City has ceded and pledged the sinking-fund policies to FirstRand Bank as security for its obligations to FirstRand Bank under the policies and any other debt liability.		
<b>Development Bank of Southern Africa</b>	278 499	348 415
Unsecured loans, bearing interest at fixed rates ranging between 9,42% and 10,59% per annum, repayable semi-annually in equal instalments of capital, with interest payable on the reducing balance. These loans have various final redemption dates, ranging from 30 June 2018 to 31 December 2022.		
<b>ABSA Bank</b>	40 000	60 000
An unsecured loan, bearing interest at a fixed rate of 10,90% per annum, repayable semi-annually in equal instalments of capital, with interest payable on the reducing balance. Final redemption on 30 June 2018.		
<b>FirstRand Bank</b>	84 299	109 215
A structured 15-year loan to the value of R300 million, bearing interest at a fixed rate of 12,05% per annum, of which R74,30 million is repayable semi-annually in equal instalments of capital and fixed interest over 15 years, and the balance of R225,70 million is payable in one instalment together with capitalised fixed-rate interest on 30 June 2018. The bullet repayment of the R225,70 million capital and interest will be made out of a 15-year sinking-fund investment policy purchased from Momentum Group.		
As part of the loan structure, the City purchased a 15-year sinking-fund policy from Momentum Group for a premium of R228,40 million, which was invested in an unguaranteed investment portfolio. The premium is payable semi-annually over 15 years through a series of promissory notes issued by the City to Momentum, later sold on to FirstRand Bank and Future Growth. In terms of a put-option agreement, the maturity proceeds of this unguaranteed portfolio were sold in advance to FirstRand Bank for a fixed-option price of R894,60 million, payable on 30 June 2018. The City has ceded and pledged the sinking-fund policy to FirstRand Bank as security for its obligations to FirstRand Bank under the put-option agreement and any other debt liability.		
<b>TOTAL</b> - see annexure A for more details	<b>6 506 842</b>	<b>6 761 181</b>

The rates of interest payable on the abovementioned structured loans are based on certain underlying assumptions relating to the lenders' statutory costs, and the admissibility of deductions by the lenders for income tax purposes in connection with these loans. In the event of amendments to, or interpretations of, the Income Tax Act, Act 58 of 1962 or any other relevant legislation that affect the loan structure costs, the lenders have the right to increase or decrease the future rates of interest payable on the loans over their remaining lives, in order to absorb the increase or decrease in costs.

**SHORT-TERM DEBT FACILITIES**

The Municipality of Cape Town had the following short-term debt facilities with the City's main banker:

	2016 R'000	2015 R'000
Performance guarantee	25 000	15 000
Letter of credit	10 500	500
Business travel card	2 000	2 000
Daylight limit	2 000 000	2 000 000

The short-term debt facilities are reviewed annually and can be explained as follows:

**Performance guarantee**

A bank-issued guarantee is an undertaking that should the City fail to fulfil its obligations in terms of a contract or an agreement, the bank will pay specific amounts as stated on the guarantee. The monies are due and payable on written demand from the beneficiary.

**Letter of credit**

A letter of credit is a document issued by the bank, assuring payment to a seller of goods or services, provided that certain documents have been presented to the bank. The documents should prove that the seller has performed the duties specified by an underlying contract, and that the goods/services have been supplied as agreed. In return for these documents, the beneficiary receives payment from the bank that issued the letter.

**Business travel card**

A card issued by the bank that enables the City to obtain goods and services on credit. It entails moneys lent and advanced.

**Daylight limit**

A daylight limit is a facility that enables the City to transact even if there are insufficient funds during that particular day. It entails moneys lent and advanced during that day, provided it is settled by the end of that business day.

**14. RETIREMENT BENEFIT INFORMATION**

The City makes provision for post-retirement benefits to eligible councillors and employees who belong to different pension schemes. These funds are governed by the Pension Funds Act, Act 24 of 1956, and include both defined-benefit (DB) and defined-contribution (DC) schemes. Contributions of R952,54 million (2015: R874,92 million) to the DB and DC structures are expensed as incurred during the year under review.

These schemes are subject to a triennial, biennial or annual actuarial valuation, as set out below.

**14.1 Defined-benefit schemes****Cape Joint Pension Fund (multi-employer fund)**

The DB section is a multi-employer plan, and the contribution rate payable is 27%, i.e. 9% by the members and 18% by their councils. The last actuarial valuation of the fund was performed at 30 June 2015, at which stage the fund was certified by the actuary as being in a sound financial condition. Since the previous valuation date, the valuation indicates a R28 million surplus and was 101,4% funded and a R21,9 million surplus and was 153,1% funded for the pensioners account and defined benefit active members respectively at the financial year-end. The City of Cape Town is included among the local authorities that contribute to the Cape Joint Pension Fund. Included in the rules of the fund is a proviso that the assets provide a minimum return of 5,5% per annum, failing which the local authorities associated with the fund are required to fund the shortfall in direct proportion to the level of contributions made. There have been significant amendments to the pension fund regulations, notably rule 17(5), in terms of which the fund is managing its sustainability risk. The same applies to the DC schemes.

**South African Local Authorities (SALA) Pension Fund (multi-employer fund)**

The fund is a DB plan and is financially sound. It was 100% funded as at 1 July 2015, and had remained stable since the previous valuation date.

**14.2 Defined-contribution schemes****Cape Joint Pension Fund (multi-employer fund)**

This scheme was established to accommodate the unique characteristics of contract employees and cost-to-company employees. All existing members were given the option to transfer to the DC plan before 1 July 2003. The last actuarial valuation of the fund was performed at 30 June 2015 at which stage the actuary certified the fund as being in a sound financial condition. The valuation disclosed funding of 100%.

**Cape Retirement Fund for Local Authorities (multi-employer fund)**

The contribution rate paid by the members (9%) and their councils (18%) is sufficient to fund the benefits accruing from the fund in future. The actuary certified the fund, a DC plan, as being in a sound financial position as at 30 June 2015.

**Municipal Councillors' Pension Fund (multi-employer fund)**

The Municipal Councillors' Pension Fund operates as a DC scheme. The contribution rate paid by the members (13,75%) and their councils (15%) is divided between the costs of risk benefits deriving from the administration of the fund, and members' retirement benefits.

The last actuarial valuation of the fund was performed at 30 June 2015, at which stage when the fund was certified by the actuary as being financially sound, in that the assets of the fund were sufficient to cover the accrued service liabilities including the recommended contingency reserves in full, with a funding level of 100%.

**National Fund for Municipal Workers (multi-employer fund)**

The retirement and pension funds are both DC schemes. According to the actuary's certification, the assets of the fund are sufficient to cover its liabilities. As at 30 June 2015, the valuation disclosed a funding level fluctuating around 100% due to timing differences, a slight mismatch of assets and liabilities, and processing errors.

**South African Municipal Workers Union (SAMWU) National Provident Fund (multi-employer fund)**

The SAMWU National Provident Fund is a DC scheme. The last actuarial valuation of the fund was performed at 30 June 2014, at which stage the fund was certified as being in a financial sound position.

**14.3 Defined-benefit and defined-contribution scheme****Cape Municipal Pension Fund**

The Cape Municipal Pension Fund operates as both a DB and DC scheme. The fund has been awarded an unqualified audit opinion for the audit of finances for the year ended 30 June 2013. An actuarial valuation of the fund was performed at 30 June 2015, which certified it as being in a financially sound position.

<b>TOTAL</b>	<b>510 085</b>	<b>336 787</b>	<b>5 247 547</b>	<b>21 934</b>	<b>6 116 353</b>

**15.1 Long-service leave benefits**

An actuarial valuation has been performed of the City's liability for long-service leave benefits relating to vested leave benefits, to which employees may become entitled upon completion of 10 years' service and every five years thereafter. The provision is utilised when eligible employees receive the value of the vested benefits.

**Discount rate**

The fund benefit liability as at 30 June 2016 has been discounted at the market yields on government bonds consistent with the estimated term of the liability. The nominal and zero curves as at 30 June 2016 supplied by the JSE were used to determine the discount rates and consumer price index (CPI) assumptions at each relevant time period (2015: nominal and zero curves).

**Key financial assumptions**

Discount rate  
General inflation rate (consumer price index)

Salary increase

	2016	2015
Yield curve	Yield curve	Yield curve
Difference between nominal and real yield curve	Difference between nominal and real yield curve	Difference between nominal and real yield curve
Equal to CPI + 1%	Equal to CPI + 1%	Equal to CPI + 1%

**15.2 Environmental rehabilitation**

Provision is made in terms of the City's licensing stipulations on the waste landfill sites, for the estimated cost of rehabilitating waste sites. The provision has been determined on the basis of a recent independent valuation performed by a firm of consulting engineers.

The key cost parameters upon which the valuation is based for the present and previous financial years are briefly as follows:

- Annual inflation rate of 5,70% (2015: 5,85%).
- Discount rate at the average borrowing cost of 11,01% (2015: 10,26%).
- Scheduled dates of total closure and rehabilitation are anticipated to be between 2018 and 2033.

**15.3 Post-retirement health-care and retirement pension defined benefits**

An actuarial valuation has been performed of the City's liability in respect of benefits to its eligible retirees and retrenched employees. The provision is utilised when eligible employees receive the value of the vested benefits.

The contributions paid are actual contributions paid by the City, and the unrecognised actuarial gains and losses have been adjusted accordingly to take into account the difference between the estimated contribution payments determined by the actuary, and actual contributions paid to members by the City.

**15.3.1 Health-care benefits**

For past service of in-service and retired employees, the City recognises and provides for the actuarially determined present value of post-retirement medical-aid employer contributions on an accrual basis, using the projected unit credit method.

The members of medical aid schemes entitled to a post-employment medical scheme subsidy as at 30 June 2016 constituted 8 312 (2015: 8 976) in-service members and 6 750 (2015: 6 678) pensioners.

It was assumed that the employer's health-care arrangements and subsidy policy would remain as outlined in the accounting policy, and that the level of benefits and contributions would remain unchanged, with the exception of inflationary adjustments. Implicit in this approach is the assumption that current levels of cross-subsidisation from in-service members to retiree members within the medical scheme are sustainable and will continue.

It is further assumed that the subsidy will continue until the last survivor's death for eligible members and their spouses.

**Continuation of membership**

It is assumed that 100% of in-service members entitled to a post-retirement subsidy retiring from the City of Cape Town will remain on the employer's health-care arrangements.

**Family profile**

Family profile was based on actual data and, therefore, no assumptions had to be made.

**Plan assets**

Currently, no long-term assets are set aside off-balance sheet in respect of the employer's post-employment health-care liability.

**Discount rate**

The fund benefit liability to the City of Cape Town as at 30 June 2016 has been discounted at a rate determined on the basis of the yield curve (2015: yield curve) per annum on government bonds.

	2016	2015
<b>Key financial assumptions</b>		
Discount rate	Yield curve	Yield curve
General inflation rate	Difference between nominal and yield curves	Difference between nominal and yield curves
	CPI + 1%	CPI + 1%
Health-care cost inflation rate	Yield curve-based	Yield curve-based
Net effective discount rate		

<b>Sensitivity analysis</b>	<b>Change in assumption</b>	<b>Liability R'000</b>	<b>Service costs R'000</b>	<b>Interest costs R'000</b>
Assumptions used		<b>5 453 044</b>	<b>96 600</b>	<b>536 439</b>
Health-care inflation	1% decrease	4 768 171	79 805	467 587
	1% increase	6 285 775	117 736	620 190
Post-retirement mortality	20% decrease	6 020 949	107 380	593 376
	20% increase	5 004 464	87 953	491 460

**15.3.2 Retirement pension defined benefits**

For past service of employees and retired employees, the City recognises and provides for the actuarially determined present value of post-retirement revenue pensions on an accrual basis, using the projected unit credit method.

The number of employees who were eligible for a post-retirement pension as at 30 June 2016 was 22 (2015: 23) in-service employees and 89 (2015: 94) pensioners.

**Plan assets**

Currently, no long-term assets are set aside off-balance sheet in respect of the employer's post-employment retirement pension liability.

**Discount rate**

The fund benefit liability to the City as at 30 June 2016 has been discounted at the yield curve (2015: yield curve) per annum rate determined on the basis of the market yields on government bonds.

	2016	2015
<b>Key financial assumptions</b>		
Discount rate	Yield curve	Yield curve
General inflation rate (consumer price index)	Difference between real and yield curve	Difference between real and yield curve
	CPI + 2%	CPI + 2%
General salary inflation rate	Curve-dependent	Curve-dependent
Net effective discount rate		

	2016 R'000	2015 R'000
<b>16. DEPOSITS</b>		
Electricity and water	313 996	263 128
Other deposits	10 637	9 130
	<b>324 633</b>	<b>272 258</b>

Guarantees held in lieu of electricity and water deposits were R88,81 million (2015: R33,31 million). Deposits are released when the owner/occupant of a property terminates the contract with the City to supply water and electricity to the property, or when certain contractual services are delivered.

**17. PROVISIONS (CURRENT)**

	Opening balance 2016 R'000	Raised R'000	Utilised/ reversed R'000	Transfers from non-current R'000	Closing balance 2016 R'000
Long-service awards	58 800	-	(58 800)	51 078	51 078

<b>TOTAL</b>	<b>1 127 282</b>	<b>246 775</b>	<b>(567 994)</b>	<b>263 214</b>	<b>1 069 277</b>

**Insurance and COID claims**

Provision has been made for outstanding insurance claims as at 30 June 2016, funded out of the insurance reserve. The assessment of claims is based on the assessed quantum of claims received.

**Staff leave**

Annual leave accrues to employees on a monthly basis, subject to certain conditions. The provision is an estimate of the amount due to staff as at the financial year-end, based on the value of statutory and non-statutory leave.

**Other provisions**

Included in 'Other provisions' is R119,02 million for backpay in terms of the tuned assessment of skills and knowledge (TASK) project. The balance consists of various other provisions.

<b>Total property valuations at commencement of financial year</b>	<b>921 287 021</b>	<b>903 674 412</b>
The applicable General Valuation (GV2012) came into effect on 1 July 2013 and remains valid until 30 June 2016. It is based on market-related values. Property valuation adjustments, such as supplementary valuations, objection valuations and Valuation Appeal Board decisions are processed continuously. Municipal rates are levied on a daily basis in terms of the provisions of the Rates policy, which makes provision for rebates and exemptions.		
The 2015 comparative amount for the 'Valuations per category' of R903,67 billion has been restated from R912,16 billion due to the categories alignment with the rates policy. The correction of the disclosure amounts had no effect on the statement of financial position and statement of financial performance.		

\*Income forgone can be defined as any income that the City is entitled by law to levy, but which has subsequently been forgone by way of remission.

#### 40. OPERATING LEASE COMMITMENTS

##### 40.1 The City as lessee

Future minimum lease payments under non-cancellable operating leases

##### Land and buildings

Payable within one year	106 726	155 460
Payable within two to five years	54 262	50 188
	52 464	105 272

##### Radio masts

Payable within one year	324	514
Payable within two to five years	324	245
	-	269

##### TOTAL

	<b>107 050</b>	<b>155 974</b>
--	----------------	----------------

Minimum lease payments recognised as an expense during the period amount to R50,18 million (2015: R38,24 million). Leased premises are contracted for remaining periods of between one and four years, with renewal options available in certain instances.

	2016 R'000	2015 R'000
<b>40.2 The City as lessor</b>		
Future minimum lease income under non-cancellable operating leases		
<b>Buildings</b>		
Receivable within one year	33 676	27 071
Receivable within two to five years	127 192	96 670
Receivable after five years	178 530	204 434
<b>TOTAL</b>	<b>339 398</b>	<b>328 175</b>

The City lets properties under operating leases. Property rental income earned during the year was R33,68 million (2015: R26,09 million). The tenants maintain the properties at their cost. No investment properties have been disposed of since the date of the statement of financial performance.

The impact of charging the escalations in operating leases on a straight-line basis over the term of the lease has been a decrease of R4,76 million in current-year income.

#### 41. CONTINGENT LIABILITIES

##### 41.1 Contractual disputes

Various contractual claims by contractors/suppliers and staff are currently in dispute, and are subject to mediation. The potential extent of the liability cannot be determined, since it is subject to litigation, but a provisional estimate based on management assessment is R141,00 million (2015: R104,16 million).

##### 41.2 Outstanding insurance claims

The estimated liability for insurance claims amounts to R148,82 million (2015: R73,86 million). The estimated amount was based on quotations, medical reports and letters of demand received. The merits must still be determined and could result in a lesser or greater amount.

**42. PRIOR-YEAR ADJUSTMENTS****42.1 Correction of error**

An enquiry made with National Treasury brought to the City's attention that the City's historical transactions with regards to the Urban Settlements Development Grant (USDG) payments to Province had been incorrectly treated. In the past these payments for the construction of USDG funded assets were recognised as contracted services when the payments were made. Once the assets were completed and Province transferred such assets to the City the asset was treated as a donation. This practice was incorrect as the payment to Province should have been recognised as a payment made in advance and transferred to assets once the assets were completed.

**42.2 Reclassification**

The 'fair value adjustment' amount was reclassified from finance costs to general expenses as indicated below.

Presented below are those items contained in the statement of financial position, statement of financial performance and cash flow statement that have been affected by the prior-year adjustment and reclassification.

**42.3 Changes in accounting estimates**

The annual review of the useful lives of assets resulted in a decrease of R0,57 million (2015: R53,54 million) in the depreciation charge to the statement of financial performance. It is impracticable to estimate the effect of these changes in estimate on future periods.

The annual review of management's assessment of materiality resulted in an increase in the variance between budget and actual amounts that are regarded as material from 5% to 10% variance. This change in estimate had no financial impact on the financial statements.

**43. BUDGET INFORMATION****43.1 Explanation of variances between original and final budget amounts**

The reasons for the variances between the original and final budget are due to virements and three adjustment budgets approved on 19 August 2015, 28 January 2016 and 31 March 2016. The increase in the capital budget is due to the reprioritising of capital projects, with the corresponding changes to funding sources.

**43.2 Explanation of variances greater than 10%: final budget and actual amounts****43.2.1 Statement of financial position****Total assets**

## i) Current assets

The variance is due to higher than expected receivables, investments and cash and cash equivalents due to higher service charges than budgeted for as well as under spending on operating costs.

**43.2.2 Statement of financial performance****Revenue**

## i) Investment revenue

The variance (over-recovery) is due to the higher-than-expected interest received on higher-than-planned cash and investments balances.

## ii) Transfers recognised – operational

The variance is the result of performance related to the Operational Grant Funded projects. The spending on these projects were influenced by a number of factors; such as delays in planned start-up; community dynamics and influences; changes in contract scope; contract award objection processes; environmental issues; delays in delivery of materials/goods and contractor performance; thus resulting in an underspending for the year and the rollover of funding and continuation of projects in the new financial year.

## v) Transfers recognised – capital

The variance is the result of performance related to the Capital Grant Funded projects. The spending on these projects were influenced by a number of factors; such as delays in planned start-up; community dynamics and influences; changes in contract scope; contract award objection processes; environmental issues; delays in delivery of materials/goods and contractor performance; thus resulting in an underspending for the year and the rollover of funding and continuation of projects in the new financial year.

## vi) Contributions recognised – capital and contributed assets

The variance is the result of performance related to the Capital Projects that were funded through Public Contributions and Donations. The spending on these projects were influenced by a number of factors; such as delays in planned start-up; community dynamics and influences; changes in contract scope; contract award objection processes; environmental issues; delays in delivery of materials/goods and contractor performance; thus resulting in an underspending for the year and the rollover of funding and continuation of projects in new financial year.

**Expenditure**

## iii) Transfers and grants

The variance is due to a reversal of the payment to Western Cape Provincial Government for construction of USDG funded assets which were not completed at financial year end.

## iv) Other expenditure

The variance is largely attributable to lower-than-planned rate of expenditure on grant-funded housing development projects (including Peoples Housing Process (PHP) payments ) as many factors influence the rate of house construction by communities. These include community protests, vandalism, robberies experienced by contractors and termination of contracts as a result of poor performance by contractors. Lower-than-anticipated expenditure on Home Owners Subsidy (rebates), which is linked to the number of successful applicants who qualified for the rebate.

**43.2.3 Cash flow statement**

## i) Net cash from (used) operating

The variance is due to a combination of higher service charges income than budgeted for as well as the under spending on operating costs.

**43.3 Explanation of variances greater than 5%: Final budget and actual amounts****43.3.1 Capital expenditure**

## i) City Health

The variance in the implementation of the projects is as a result of appeals against the award of tenders and also protracted negotiations in the acquisition of land.

## ii) Community Services

The variance in the implementation of the projects is as a result of poor contractor performance, gang related disruptions on site and delay due to an incident of fire on site.

## iii) Transport for Cape Town

The variance in the implementation of the projects is as a result of appeals against the award of tenders, environmental impact assessment processes, poor contractor performance and labor related disruptions, delays in the supply of equipment and changes made during the roll out process for design enhancements of the IRT.

- iv) Human Settlements  
The variance in the implementation of the projects is as a result of poor contractor performance, community dynamics and delays due to amendments in the Supply Chain Management Regulations.
- v) Solid Waste Management  
The variance in the implementation of the projects is as a result of delays in the supply of equipment due to the inability of the vendor to put adequate guarantees in place to secure payment arrangements with foreign vendor and a lower actuarial determination of rehabilitation costs than what was initially budgeted for.
- vi) Water and Sanitation  
The variance in the implementation of the projects is as a result of appeals against the award of tenders, protracted negotiations in the acquisition of land due to declining offers and the time taken to expedite expropriations.
- vii) Cape Town Electricity  
The variance in the implementation of the projects is as a result of delays due to amendments in the Supply Chain Management Regulations, protracted negotiations in the acquisition of land delays and delay due to changes in the tender specifications.

**44. ADDITIONAL DISCLOSURES**

**44.1 Municipal Finance Management Act**

**44.1.1 Section 124**

**Disclosure concerning councillors', directors and officials**

**Councillors' municipal accounts in arrears**

As at **30 June 2016**, the below councillor was more than 90 days in arrears for rates or services.

Hassiem, W

During the **reporting period**, the below councillor was more than 90 days in arrears for rates or services.

August, S

As at **30 June 2015**, no councillors were more than 90 days in arrears for rates or services.

During the **reporting period**, the following councillors' were in arrears for more than 90 days.

Honono, T	Nikelo, M
Madikane, B	Nyakatya, N
Makeleni, K	Purchase, F
Moolman, G

**44.1.2.3 Material losses****Water losses**

In the current year, the material losses were 12,81%. These are made up of 9,72% reticulation losses and 3,09% abnormal production losses (2015: 9,98% reticulation losses and 4,13% abnormal production losses). These losses are predominantly due to metering inefficiencies, which constitutes an apparent loss. The production losses amounted to R98,86 million (2015: R91,11 million).

**Electricity losses**

In the current year the energy losses were 11,42% (2015: 11,25%). These losses are the result of normal system operation, theft and vandalism. The production losses amounted to R496,20 million (2015: R436,70 million).

**44.2 Supply Chain Management Regulations****44.2.1 Deviations**

In terms of section 36 of the municipal SCM regulations, any deviation from SCM policy needs to be approved by the Accounting Officer and noted by Council. The awards listed below, have been approved by the Accounting Officer and noted by Council.

**Incidents**

Appointment of consultants	16 725	52 232
Information technology upgrade	92 924	59 850
Upgrading of electricity services	69 001	30 263
Extension of contract period/sums	96 282	426 058
Upgrading of road infrastructure	20 410	45 031
Supply and delivery of plant and equipment	33 317	66 313
Other	154 902	68 602
Deviations less than R200 000	345 124	316 688
<b>Total amount approved by the Accounting Officer and noted by Council</b>	<b>828 685</b>	<b>1 065 037</b>

All deviations considered by the Accounting Officer are processed in terms of the SCM regulations and the SCM policy. This process entails being assessed by the SCM Bid Adjudication Committee in terms of the stipulated criteria of emergency procurements, availability from only one provider, art-historical objects, circumstances where it is impractical or impossible to follow the official procedure, or correction of minor technical breaches.

The 2015 comparative amount of R1,06 billion has been restated from R1,05 billion.

**44.2.2 Bids awarded to family of employees in service of the state**

In terms of section 45 of the municipal SCM regulation, any award above R2 000 to family of employees in the service of the state must be disclosed in the annual financial statements. The following is a list as recorded in the declaration-of-interest form.

		<b>2016 R'000</b>
<b>Connected person</b>	<b>Position held in State</b>

	<b>122 127</b>	<b>150</b>	<b>5 051</b>	<b>127 328</b>

**2015**

Mayoral committee members  
Councillors

Mayoral committee members	10 808	64	467	11 339
Councillors	104 948	120	4 225	109 293
	<b>115 756</b>	<b>184</b>	<b>4 692</b>	<b>120 632</b>

Councillors are remunerated according to the Remuneration of Public Office Bearers Act, Act 20 of 1998 and are not disclosed individually but in aggregate, and only have collective executive powers for planning, directing and controlling the activities of the City of Cape Town. There are 221 Council members, whose aggregated remuneration amounted to R127,33 million for the period under review. The average remuneration per councillor is R0,576 million per annum. The Mayco members have such individual executive powers as granted by their delegation, and are therefore disclosed in the below table. A full list of the councillors is disclosed on pages 6 and 7 as part of the 'General information'.
