APPROVAL OF FINANCIAL STATEMENTS

APPROVAL OF ACCOUNTING OFFICER

I am responsible for the preparation of these annual financial statements year ended 30 June 2016, which are set out on pages 1 to 125 in terms of Section 126 (1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality. The annual financial statements have been prepared in accordance with GRAP.

I acknowledge that I am ultimately responsible for the system of internal financial control and that the system of internal control provides reasonable assurance that the financial records can be relied on.

I have reviewed the Municipality's cash flow forecast for the year up to merger date as well as the period beyond merger up to 30 June 2017 and is satisfied that the Municipality's going concern status are still applicable on 30 June 2016.

The external auditors are responsible for independently reviewing and reporting on the Municipality's financial statements.

I certify that the remuneration of Councillors and in-kind benefits are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Mr L Menze
Acting Municipal Manager

31/08/2016

NKONKOBE LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1 ACCOUNTING POLICIES

1.01 BASIS OF PREPARATION

The financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention, unless specified otherwise.

The financial statements have been prepared in accordance with the Municipal Finance Management Act (MFMA) and effective standards of Generally Recognised Accounting Practices (GRAP), including any interpretations and directives issued by the Accounting Standards Board (ASB) in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

Accounting policies for material transactions, events or conditions not covered by the GRAP reporting framework, have been developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 (Revised – November 2013) and the hierarchy approved in Directive 5 issued by the Accounting Standards Board.

Assets, liabilities, revenue and expenses have not been offset, except when offsetting is permitted or required by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated otherwise. The details of any changes in accounting policies are explained in the relevant notes to the financial statements.

A summary of the significant accounting policies, which have been consistently applied except where an exemption has been granted, are disclosed below.

1.02 TRANSITIONAL PROVISIONS

The Municipality resolved to take advantage of the following transitional provisions:

In term of Directive 7 - "The Application of Deemed Cost on the Adoption of Standards of GRAP", the Municipality applied deemed cost to Investment Property, Property, Plant and Equipment, Intangible Asset and Heritage Assets where the acquisition cost of an asset could not be determined.

1.03 PRESENTATION CURRENCY

The financial statements are presented in South African Rand, rounded off to the nearest Rand, which is the Municipality's functional currency.

1.04 GOING CONCERN ASSUMPTION

These financial statements have been prepared on a going concern basis.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.05 COMPARATIVE INFORMATION

1.05.1 Prior year comparatives

When the presentation or classification of items in the financial statements are amended, prior period comparative amounts are restated, unless a standard of GRAP does not require the restatements of comparative information. The nature and reason for the reclassification is disclosed.

Where material accounting errors, which relate to prior periods, have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.05.2 Amended Accounting Policies

Amendments to accounting policies are reported as and when deemed necessary based on the relevance of any such amendment to the format and presentation of the financial statements.

1.06 MATERIALITY

Material omissions or misstatements of items are material if they could, individually or collectively, influence the decision or assessments of users made on the basis of the financial statements. Materiality depends on the nature or size of the omission or misstatements judged in the surrounding circumstances. The nature or size of the information item, or a combination of both, could be the determining factor. Materiality is determined as 1% of total operating expenditure. This materiality is from management's perspective and does not correlate with the auditor's materiality.

1.07 BUDGET INFORMATION

Budget information is presented on the accrual basis and is based on the same fiscal period as the actual amounts.

The Statement of Comparison of Budget and Actual Amounts includes the comparison between the approved and final budget amounts, as well as a comparison between the actual amounts and final budget amounts.

The disclosure of comparative information in respect of the previous period is not required by the Standards of GRAP.

1.08 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE

1.08.1 Effective dates determined

Where a Standard of GRAP has been issued but is not yet effective, the Municipality may resolve to early adopt such a Standard of GRAP if an effective date has been determined by the Minister of Finance.

NKONKOBE LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.08 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE (CONTINUED)

The Municipality resolved to early adopt the following amended Standards of GRAP which were issued but are not yet effective:

Standard	Description	Effective Date
GRAP 1 (May 2015)	Presentation of Financial Statements	1 April 2016
GRAP 16 (May 2015)	Investment Property	1 April 2016
GRAP 17 (May 2015)	Property, Plant and Equipment	1 April 2016
GRAP 31 (May 2015)	Intangible Assets	1 April 2016
GRAP 103 (May 2015)	Heritage Assets	1 April 2016

The effect of the above-mentioned amended Standards of GRAP which were early adopted is considered insignificant. The amendments to the Standards of GRAP mainly relate to additional disclosure requirements, the removal of encouraged disclosures and the clarification of accounting principles.

The effect of the above-mentioned amended Standards of GRAP which were early adopted is considered insignificant. The amendments to the Standards of GRAP mainly relate to additional disclosure requirements, the removal of encouraged disclosures and the clarification of accounting principles.

1.08.2 Effective dates not yet determined

Where a Standard of GRAP has been issued but not yet effective and the Minister of Finance has not yet determined an effective date, the Municipality may select to apply the principles established in that standard in developing an appropriate accounting policy dealing with a particular section or event.

The following Standards of GRAP have been issued but are not yet effective as the Minister of Finance has not yet determined the effective date for application:

1.08.2.1 GRAP 18 - Segment Reporting (Original - February 2011)

The objective of this Standard is to establish principles for reporting financial information by segments.

This Standard will be implemented as part of the Municipal Standard Chart of Accounts Regulation (mSCOA). The estimated date of implementation is 1 July 2017.

Preliminary investigations indicated that, other than additional disclosure, the impact of the Standards on the financial statements will be not be significant.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.08 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE (CONTINUED)

1.08.2.2 GRAP 20 - Related Party Disclosure (Original - June 2011)

The objective of this Standard is to ensure that a Municipality's financial statements contains the disclosures necessary to draw attention to the possibility that its financial position and surplus or deficit may have been affected by the existence of related parties and by transactions and outstanding balances with such parties.

The Municipality resolved to develop an accounting policy as set out in note 1.34 and also adopt the disclosure requirements of this Standard.

The impact of this Standard on the financial statements will be minimal.

1.08.2.3 GRAP 32 - Service Concession Arrangements: Grantor (Original - August 2013)

The objective of this Standard is to prescribe the accounting for service concession arrangements by the grantor and a public sector entity.

Preliminary investigations indicated that, other than possibly additional disclosure, the impact of the Standards on the financial statements will be not be significant.

1.08.2.4 GRAP 108 - Statutory Receivables (Original - September 2013)

The objective of this Standard is to prescribe accounting requirements for the recognition, measurement, presentation and disclosure of statutory receivables.

The Municipality resolved to develop an accounting policy as set out in note 1.19.

The impact of this Standard on the financial statements will be minimal.

1.08.2.5 GRAP 109 - Accounting by Principles and Agents (Original - July 2015)

The objective of this Standard is to outline principles to be used by an entity to assess whether it is party to a principal-agent arrangement, and whether it is a principal or an agent in undertaking transactions in terms of such an arrangement.

No significant impact is expected as the Municipality's current treatment is already in line with the Standard's requirements.

1.08.2.6 IGRAP 17 - Service Concession Arrangements Where a Grantor Controls a Significant Residual Interest in an Asset

This Interpretation of the Standards provides guidance to the grantor where it has entered into a service concession arrangement, but only controls a significant residual interest in a service concession asset at the end of the arrangement, where the arrangement does not constitute a lease.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.08 NEW STANDARDS, AMENDMENTS TO STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE (CONTINUED)

Preliminary investigations indicated that, other than possibly additional disclosure, the impact of the Standards on the financial statements will be not be significant.

1.09 INVESTMENT PROPERTY

1.09.1 Initial Recognition

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, for administration purposes, or the sale of an asset in the ordinary course of operations. Property with a currently undetermined use, is also classified as investment property.

Investment property is recognised as an asset when it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the Municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially measured at cost on its acquisition date. The cost of investment property is the purchase price and other costs attributable to bring the asset to a condition necessary for it to be capable of operating in the manner intended by the Municipality.

Where an investment property is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition. The cost of self-constructed investment property is the cost at date of completion. Transfers are made to or from investment property only when there is a change in use.

Where investment property is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

1.09.2 Subsequent Measurement – Fair Value Model

Investment property is measured using the fair value model. Under the fair value model, investment property is carried at its fair value at the reporting date. Any gain or loss arising from a change in the fair value of the property is recognised in the Statement of Financial Performance for the period in which it arises.

For a transfer from investment property carried at fair value to owner-occupied property or inventories, the property's deemed cost is its fair value at the date of change in use.

If an owner-occupied property becomes an investment property that will be carried at fair value, any differences between the carrying amount of the property and its fair value is treated in the same way as a revaluation in accordance with the Standard of GRAP on Property, Plant and Equipment.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.09 INVESTMENT PROPERTY

For a transfer from inventories to investment property that will be carried at fair value, any difference between the fair value of the property and its previous carrying amount is recognised in the Statement of Financial Performance.

1.09.3 Impairment

Investment property is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.09.5 Derecognition

An investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the Statement of Financial Performance in the period of the retirement or disposal.

Compensation from third parties for items of investment property that were impaired, lost or given up is recognised in the Statement of Financial Performance when the compensation becomes receivable.

1.10 PROPERTY, PLANT AND EQUIPMENT

1.10.1 Initial Recognition

Property, plant and equipment are tangible non-current assets that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of property, plant and equipment is recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost or fair value of the item can be measured reliably.

Items of property, plant and equipment are initially recognised at cost on its acquisition date. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.10 PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Where an asset is acquired through a non-exchange transaction, the cost is deemed to be equal to the fair value of that asset as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Spare parts and stand by equipment which are expected to be used for more than one period are included in property, plant and equipment.

1.10.2 Subsequent Measurement - Cost Model

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Land is not depreciated as it is deemed to have an indefinite useful life.

Where the Municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits or service potential associated with the asset.

1.10.3 Depreciation

Depreciation of an asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Depreciation of an asset ceases at the date that the asset is derecognised.

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. The depreciation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The depreciation method is reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

At each reporting date the Municipality assesses whether there is any indication that expectations about the residual value and the useful life of an asset may have changed since the preceding reporting date. If any such indication exists, the expected residual value and useful life are revised and the effect of any changes in estimate accounted for on the a prospective basis.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.10 PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

The annual depreciation rates are based on the following estimated useful lives:

	YEARS
Land and Buildings	
Land	Indefinite
Buildings	100
Infrastructure	
Roads and Stormwater	30
Electricity	30
Solid Waste	30
Community Assets	
Park Facilities	30
Lease Assets	
Office Equipment	3
Plant and Machinery	5
Other Assets	
Plant and Machinery	5 - 30
Motor Vehicles	5 - 16
IT Equipment	3 - 14
Furniture and Fixtures	3 - 15
Capitalised Restoration Cost	
Landfill sites	20 - 92

1.10.4 Impairment

Property, plant and equipment is reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.10.5 Derecognition

Items of property, plant and equipment are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.10 PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is recognised in the Statement of Financial Performance when the compensation becomes receivable.

1.11 INTANGIBLE ASSETS

1.11.1 Initial Recognition

An intangible asset is an identifiable non-monetary asset without physical substance.

The Municipality recognises an intangible asset only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the Municipality and the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost on its acquisition date. The cost of an intangible asset is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost.

Where an intangible asset is acquired through a non-exchange transaction, its initial cost is measured at its fair value at the date of acquisition.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, its deemed cost is the carrying amount of the asset(s) given up.

Internally generated intangible assets are subject to a strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- (a) the technical feasibility of completing the intangible asset so that it will be available for use or sale;
- (b) its intention to complete the intangible asset and use or sell it;
- (c) its ability to use or sell the intangible asset;
- (d) how the intangible asset will generate probable future economic benefits or service potential;
- (e) the availability of adequate technical, financial and other resources to complete the development and to use or sell the intangible asset; and
- (f) its ability to measure reliably the expenditure attributable to the intangible asset during its development.

1.11.2 Subsequent Measurement - Cost Model

Intangible assets are subsequently carried at cost less accumulated amortisation and any accumulated impairments losses.

NKONKOBE LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.11 INTANGIBLE ASSETS (CONTINUED)

1.11.3 Amortisation

The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is still subject to an annual impairment test.

Amortisation of an intangible with a finite life asset begins when it is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Amortisation ceases at the date that the asset is derecognised.

Amortisation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the intangible assets. The amortisation charge for each period is recognised in Statement of Financial Performance, unless it is included in the carrying amount of another asset.

The residual value of an intangible asset with a finite useful life is considered to be zero.

The amortisation period and amortisation method are reviewed at each reporting date, with the effect of any changes in estimate accounted for on a prospective basis.

The annual amortisation rates are based on the following estimated useful lives:

	Years
Computer Software	5

1.11.4 Impairment

Intangible assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.11.5 Derecognition

Intangible assets are derecognised when the asset is disposed or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

NKONKOBE LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.12 HERITAGE ASSETS

1.12.1 Initial Recognition

A heritage asset is defined as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance and is held and preserved indefinitely for the benefit of present and future generations.

A heritage asset is recognised as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the Municipality, and the cost or fair value of the asset can be measured reliably.

Heritage assets are initially recognised at cost on its acquisition date. The cost of heritage assets is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the Municipality. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, the cost is deemed to be equal to the fair value of that asset as at date of acquisition.

Where a heritage asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value is not determinable, its deemed cost is the carrying amount of the asset(s) given up.

1.12.2 Subsequent Measurement – Cost Model

Heritage assets are carried at its cost less any accumulated impairment losses.

1.12.3 Depreciation

Heritage assets are not depreciated.

1.12.4 Impairment

Heritage assets are reviewed at each reporting date for any indication of impairment. If any such indication exists, the asset's recoverable amount is estimated. The impairment recognised in the Statement of Financial Performance is the excess of the carrying value over the recoverable amount.

An impairment is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined had no impairment been recognised. A reversal of an impairment is recognised in the Statement of Financial Performance.

1.12.5 Derecognition

Heritage assets are derecognised when it is disposed or when there are no further economic benefits expected from the use of the heritage asset.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.12 HERITAGE ASSETS (CONTINUED)

The gain or loss arising on the disposal or retirement of a heritage asset is determined as the difference between the sales proceeds and the carrying value of the heritage asset and is recognised in the Statement of Financial Performance.

Compensation from third parties for heritage assets that were impaired, lost or given up is recognised in the Statement of Financial Performance when the compensation becomes receivable.

1.13 IMPAIRMENT OF NON-MONETARY ASSETS

An impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation.

Cash-generating assets are assets held with the primary objective of generating a commercial return. Non-cash-generating assets are assets other than cash-generating assets.

The Municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the Municipality estimates the recoverable amount of the asset.

1.13.1 Recoverable amount of Cash-generating assets

The recoverable amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

The best evidence of fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

1.13.2 Recoverable amount of Non-cash-generating assets

The recoverable service amount is the higher of a non-cash generating asset's fair value less costs to sell and its value in use.

The value in use for a non-cash generating asset is the present value of the asset's remaining service potential. Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

1.13.3 Impairment loss

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.13 IMPAIRMENT OF NON-MONETARY ASSETS (CONTINUED)

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

An impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation decrease in accordance with that Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.13.4 Reversal of an impairment loss

The Municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in the Statement of Financial Performance.

A reversal of an impairment loss of assets carried at a revalued amount in accordance with another Standard of GRAP is treated as a revaluation increase in accordance with that Standard of GRAP.

After the reversal of an impairment loss, the depreciation (amortisation) charge for the asset is adjusted in future periods to allocate the asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

1.14 INVENTORIES

1.14.1 Initial Recognition

Inventories are assets:

- (a) in the form of materials or supplies to be consumed in the production process;
- (b) in the form of materials or supplies to be consumed or distributed in the rendering of services;
- (c) held for sale or distribution in the ordinary course of operations; or
- (d) in the process of production for sale or distribution.

Inventories are recognised as an asset if it is probable that future economic benefits or service potential associated with the item will flow to the Municipality, and the cost of the inventories can be measured reliably.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.14 INVENTORIES (CONTINUED)

Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus non-recoverable taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Trade discounts, rebates and other similar items are deducted in determining the costs of purchase.

Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventories are acquired through a non-exchange transaction, the cost is measured at the fair value as at the date of acquisition.

1.14.2 Subsequent Measurement

When inventories are sold, exchanged or distributed the carrying amount of those inventories are recognised as an expense in the period in which the related revenue is recognised. If there is no related revenue, the expense is recognised when the goods are distributed, or related service is rendered.

Inventories are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost.

Net realisable value is the estimated selling price in the ordinary course of operations less the estimated costs of completion and the estimated costs necessary to make the sale, exchange or distribution. Current replacement cost is the cost the Municipality would incur to acquire the asset on the reporting date.

The amount of any write-down of inventories to net realisable value or current replacement cost and all losses of inventories is recognised as an expense in the period the write-down or loss occurs.

The amount of any reversal of any write-down of inventories, arising from an increase in net realisable value or current replacement cost, is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The basis of allocating cost to inventory items is the weighted average method.

At reporting date, the water volume is determined by way of dip readings and the calculated volume in the distribution network. Water inventory is then measured by multiplying the cost per kilo litre of purified water by the amount of water in storage.

Cost of land held for sale is assigned by using specific identification of their individual costs.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.15 EMPLOYEE BENEFITS

Defined-contribution plans are post-employment benefit plans under which the Municipality pays fixed contributions into a separate entity (a fund), and will have no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits relating to employee service in the current and prior periods. The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year during which they become payable.

Defined-benefit plans are post-employment benefit plans other than defined-contribution plans.

1.15.1 Post-Retirement Benefits

The Municipality provides retirement benefits for its employees and councillors. Retirement benefits consist of defined-contribution plans and defined-benefit plans.

1.15.1.1 *Multi-employer defined benefit plans*

The municipality contributes to various National- and Provincial-administered defined benefit plans on behalf of its qualifying employees. These funds are multi-employer funds. The contributions to fund obligations for the payment of retirement benefits are recognised in the Statement of Financial Performance in the year they become payable. These defined benefit funds are actuarially valued on the projected unit credit method basis. Deficits are recovered through lump sum payments or increased future contributions on a proportional basis from all participating municipalities.

1.15.1.2 *Post Retirement Medical Obligations*

The Municipality provides post-retirement medical benefits by subsidizing the medical aid contributions of certain retired staff according to the rules of the medical aid funds. Council pays 60% as contribution and the remaining 40% is paid by the members. The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The present value of the defined benefit liability is actuarially determined. The plan is unfunded.

Contributions are recognised in the Statement of Financial Performance when employees have rendered the service entitling them to the contribution. The liability is calculated by means of the projected unit credit actuarial valuation method. The liability in respect of current pensioners is regarded as fully accrued, and is therefore not split between a past (or accrued) and future in-service element. The liability is recognised at the present value of the defined benefit obligation at the reporting date, minus the fair value at the reporting date of plan assets (if any) out of which the obligations are to be settled directly, plus any liability that may arise as a result of a minimum funding requirements. Payments made by the Municipality are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, are recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.15 EMPLOYEE BENEFITS (CONTINUED)

1.15.2 Long-term Benefits

1.15.2.1 Long Service Awards

Long service awards are provided to employees who achieve certain pre-determined milestones of service within the Municipality. The Municipality's obligation under these plans is valued by independent qualified actuaries annually and the corresponding liability is raised. Payments are set-off against the liability, including notional interest, resulting from the valuation by the actuaries and are recognised in the Statement of Financial Performance as employee benefits upon valuation.

Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions, is recognised in the Statement of Financial Performance in the period that it occurs. These obligations are valued annually by independent qualified actuaries.

1.15.3 Short-term Benefits

1.15.3.1 Provision for Staff Leave

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total amount of leave days due to employees at reporting date and also on the total remuneration package of the employee.

Accumulating leave is carried forward and can be used in future periods if the current period's entitlement is not used in full. All unused leave will be paid out to the specific employee at the end of that employee's employment term. Accumulated leave is vesting.

1.15.3.2 Staff Bonuses Accrued

The liability for staff bonuses is based on the accrued bonus for each employee at reporting date.

1.16 PROVISIONS

A provision is a liability of uncertain timing or amount. Provisions are recognised when the Municipality has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resource embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate of the provision can be made.

Provisions are reviewed at reporting date and adjusted to reflect the current best estimate of future outflows of resources. Where the effect is material, non-current provisions are discounted to their present value using a discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.16 EMPLOYEE BENEFITS (CONTINUED)

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when it is virtually certain that reimbursement will be received if the Municipality settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement will not exceed the amount of the provision. In the Statement of Financial Performance, the expense relating to a provision may be presented net of the amount recognised for a reimbursement.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

- (a) The Municipality has a detailed formal plan for the restructuring identifying at least:
- the business or part of a business concerned;
 - the principal locations affected;
 - the location, function and approximate number of employees who will be compensated for terminating their services;
 - the expenditures that will be undertaken; and
 - when the plan will be implemented.
- (b) The Municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

If it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation, the provision is derecognised.

1.17 LEASES

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

1.17.1 Municipality as Lessee

1.17.1.1 Finance Leases

At the commencement of the lease term, the Municipality recognises assets acquired under finance leases as assets and the associated lease obligations as liabilities in the Statement of Financial Position.

At the inception of the lease, the assets and liabilities are recognised at the lower of the fair value of the leased property and the present value of the minimum lease payments. The discount rate to be used in calculating the present value of the minimum lease payment is the interest rate implicit in the lease. If the rate implicit to the lease is not available the Municipality's incremental borrowing rate is used. Any initial direct costs of the Municipality are added to the amount recognised as an asset.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.17 LEASES (CONTINUED)

Subsequent to initial recognition, the minimum lease payments are apportioned between the finance charge and the reduction of the outstanding liability. The finance charge are allocated to each period during the lease term so as to produce a constant periodic rate of interest on the remaining balance of the liability. Contingent rents, if any, are charged as expenses to the Statement of Financial Performance in the periods in which they are incurred. The leased assets are accounted for in accordance with the stated accounting policies applicable to the assets.

1.17.1.2 Operating leases

Lease payment under an operating lease is recognised as an expense in the Statement of Financial Performance on a straight-line basis over lease term, unless another systematic basis is more representative of the time pattern of the user's benefit. The difference between the straight-lined expenses and actual payments made will give rise to a liability.

1.17.2 Municipality as Lessor

1.17.2.1 Finance Leases

The Municipality recognises lease payments receivable under a finance lease as assets (receivable) in the Statement of Financial Position. The asset (receivable) is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the Municipality, discounted at the interest rate implicit in the lease.

The asset (receivable) is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis in the Statement of Financial Performance.

1.17.2.2 Operating Leases

Operating lease revenue is recognised in the Statement of Financial Performance on a straight-line basis over the term of the relevant lease, unless another systematic basis is more representative of the time pattern in which benefit derived from the leased asset is diminished. The difference between the straight-lined revenue and actual payments received will give rise to an asset.

1.18 FINANCIAL INSTRUMENTS

1.18.1 Initial Recognition

Financial instruments (financial assets and financial liabilities) are recognised on the Municipality's Statement of Financial Position when it becomes party to the contractual provisions of the instrument.

Financial instruments are initially recognised at fair value plus, in the case of a financial asset or financial liability not at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability. If finance charges in respect of financial assets and financial liabilities are significantly different from similar charges usually obtained in an open market transaction, adjusted for the specific risks of the Municipality, such differences are immediately recognised in the period it occurs, and the unamortised portion adjusted over the period of the loan transactions.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.18 FINANCIAL INSTRUMENTS (CONTINUED)

1.18.2 Subsequent Measurement

Financial instruments are categorised as follow:

- (a) **Financial instruments at amortised cost** are non-derivative financial instruments with fixed or determinable payments that are not quoted in an active market. They are included in current assets or current liabilities, except for maturities greater than 12 months, which are classified as non-current. After initial recognition, both financial assets and financial liabilities are measured at amortised cost, using the effective interest rate method. Financial assets are also subject to an impairment review.
- (b) **Financial instruments at cost** are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured. Both financial assets and financial liabilities are subsequently measured at cost. Financial assets are subject to an impairment review.
- (c) **Financial instruments at fair value** comprise of financial assets or financial liabilities that are:
 - (i) derivatives;
 - (ii) combined instruments that are designated at fair value;
 - (iii) instruments held for trading;
 - (iv) non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; or
 - (v) financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

Both, financial assets and financial liabilities are subsequently measured at fair value with unrealised gains or losses recognised directly in the Statement of Financial Performance.

1.18.3 Impairment and uncollectability of financial assets

Financial assets, other than those at fair value, are assessed for indicators of impairment at each reporting date. Financial assets are impaired where there is objective evidence of impairment of financial assets.

1.18.3.1 *Financial assets measured at amortised cost*

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate (i.e. the effective interest rate computed at initial recognition). Cash flows relating to short-term financial assets are not discounted where the effect of discounting is immaterial. The carrying amount of the asset is reduced through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.18 FINANCIAL INSTRUMENTS (CONTINUED)

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment is reversed by adjusting an allowance account. The amount of the reversal is recognised in Statement of Financial Performance.

1.18.3.2 *Financial assets measured at cost*

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses is not be reversed.

1.18.4 **Derecognition of financial instruments**

1.18.4.1 *Financial assets*

The Municipality derecognises financial assets only when the contractual rights to the cash flows from the asset expire or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. Financial assets (receivables) are also derecognised when Council approves the write-off of financial assets due to non-recoverability.

If the Municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Municipality retains substantially all the risks and rewards of ownership of a transferred financial asset, the Municipality continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

1.18.4.2 *Financial liabilities*

The Municipality derecognises financial liabilities when the Municipality's obligations are discharged, cancelled or they expire.

The Municipality recognises the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, in the Statement of Financial Performance.

1.18.5 **Offsetting of financial instruments**

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.19 STATUTORY RECEIVABLES

Statutory receivables arise from legislation, supporting regulations, or similar means and require settlement by another entity in cash or another financial asset. Statutory receivables can arise from both exchange and non-exchange transactions.

1.19.1 Initial Recognition

Statutory receivables are recognised when the related revenue (exchange or non-exchange revenue) is recognised or when the receivable meets the definition of an asset. The Municipality initially measure statutory receivables at their transaction amount.

1.19.2 Subsequent Measurement

The Municipality measures statutory receivables after initial recognition using the cost method. Under the cost method, the initial measurement of the receivable is subsequently changed to reflect any interest or other charges that may have accrued on the receivable, less any impairment losses and amounts derecognised.

1.19.3 Impairment and uncollectability of statutory receivables

The Municipality assesses at each reporting date whether there is any indication that a statutory receivable may be impaired.

If there is an indication that a statutory receivable may be impaired, the Municipality measures the impairment loss as the difference between the estimated future cash flows and the carrying amount. Where the carrying amount is higher than the estimated future cash flows, the carrying amount of the statutory receivable is reduced, through the use of an allowance account. The amount of the loss is recognised in the Statement of Financial Performance. In estimating the future cash flows, the Municipality considers both the amount and timing of the cash flows that it will receive in future. Consequently, where the effect of the time value of money is material, the Municipality discounts the estimated future cash flows using a rate that reflects the current risk free rate and any risks specific to the statutory receivable for which the future cash flow estimates have not been adjusted.

An impairment loss recognised in prior periods for a statutory receivable is revised if there has been a change in the estimates used since the last impairment loss was recognised, or to reflect the effect of discounting the estimated cash flows. Any previously recognised impairment loss is adjusted by adjusting the allowance account. The amount of any adjustment is recognised in the Statement of Financial Performance.

1.19.3 Derecognition

The Municipality derecognises a statutory receivable when the rights to the cash flows from the receivable are settled, expire or are waived or the Municipality transfers the receivable and substantially all the risks and rewards of ownership of the receivable to another entity.

When the Municipality, despite having retained some significant risks and rewards of ownership of the receivable, has transferred control of receivable to another entity, the Municipality derecognises the receivable and recognises separately any rights and obligations created or retained in the transfer.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.20 CASH AND CASH EQUIVALENTS

Cash includes cash on hand, cash held with banks, and call deposits. Cash equivalents are short-term highly liquid investments with registered banking institutions with maturities of three months or less from inception, readily convertible to cash without significant change in value.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred in the Statement of Financial Performance.

For the purposes of the cash flow statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of any bank overdrafts.

1.21 RECEIVABLES

Receivables are recognised initially at fair value, which approximates amortised cost less provision for impairment. Amounts receivable within 12 months from the date of reporting are classified as current.

A provision for impairment of receivables is established when there is objective evidence that the Municipality will not be able to collect all amounts due according to the original terms of receivables. An estimate is made for impairment of receivables, based on past default experience of all outstanding amounts at reporting date.

Bad debts are written off in the year during which they are identified as irrecoverable, subject to the approval by the appropriate delegated authority. When a receivable is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the Statement of Financial Performance.

1.22 TAXES (VALUE ADDED TAX)

Revenue, expenses and assets are recognised net of the amounts of value added tax. The net amount of Value Added Tax recoverable from, or payable to, the taxation authority is included in the Statement of Financial Position. The Municipality accounts for value-added tax (VAT) on the payment basis.

1.23 PAYABLES AND ANNUITY LOANS

Payables and annuity loans are initially recognised at fair value and subsequently measured at amortised cost using an effective interest rate, which is the initial carrying amount, less repayments, plus interest.

1.24 CONSUMER DEPOSITS

Consumer deposits are disclosed as a current liability. Consumer deposits are levied in line with council's policy to consumers when services are initially connected. When services are disconnected or terminated, the outstanding deposit is utilised against any arrear accounts the consumer might be liable for on that date. Any excess deposit after all debt is settled is refunded to the specific consumer.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.25 **CONDITIONAL GOVERNMENT GRANTS AND PUBLIC CONTRIBUTIONS**

Grants, transfers and donations received or receivable are recognised as assets when the resources that have been transferred to the Municipality meet the definition and criteria for recognition as assets.

Conditional grants, transfers and donations are recognised as revenue to the extent that the Municipality has complied with the conditions embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the conditions have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

The liability recognised to the extent that the conditions associated with the grant, transfer or donation have not been met, always has to be cash-backed. The cash which backs up the liability is invested as a individual investment or part of the general investments of the Municipality until it is utilised.

Interest earned on investments of grants, transfers and donations are treated in accordance with conditions as stipulated in the agreement. If it is payable to the grantor it is recorded as part of the creditor and if it is the Municipality's interest it is recognised as interest earned in the Statement of Financial Performance.

1.26 **REVENUE**

At the time of initial recognition, the full amount of revenue is recognised where the Municipality has an enforceable legal obligation to collect, unless the Municipality has no intention of collecting this revenue. Where the Municipality has no intention of collecting the revenue, rebates and discounts are offset against the related revenue. If the Municipality does not successfully enforce its obligation to collect the revenue this would be considered a subsequent event.

1.26.1 **Revenue from Non-Exchange Transactions**

Revenue from non-exchange transactions refers to transactions where the Municipality received revenue from another entity without directly giving approximately equal value in exchange.

Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

1.26.1.1 *Taxation Revenue*

Taxation revenue comprises of property rates. Revenue from property rates is recognised when the legal entitlement to this revenue arises. Collection charges are recognised when such amounts are legally enforceable. Penalty interest on unpaid rates is recognised on a time proportion basis with reference to the principal amount receivable and effective interest rate applicable. A composite rating system charging different rate tariffs is employed. Rebates are granted to certain categories of ratepayers and are deducted from revenue.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.26 REVENUE (CONTINUED)

1.26.1.2 *Transfer Revenue*

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred, meet the criteria for recognition as an asset. A corresponding liability is recognised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met.

Grants, transfers and donations without any conditions attached are recognised as revenue when the asset is recognised.

1.26.1.3 *Fines*

Fine Revenue constitutes both spot fines and summonses. Fine revenue is recognised when the spot fine or summons is issued. In cases where fines and summonses are issued and collected by another government institute, revenue will only be recognised when monies are received, as the Municipality does not have any control over fines issued or collected by other government institutes.

1.26.1.4 *Insurance Receipts*

Revenue from third parties i.e. insurance payments for assets impaired, are recognised when it can be measured reliably and is not being offset against the related expenses of repairs or renewals of the impaired assets.

1.26.1.5 *Unclaimed deposits*

All unclaimed deposits are initially recognised as a liability until 36 months expires, when all unclaimed deposits into the Municipality's bank account will be treated as revenue. This policy is in line with prescribed debt principle as enforced by law.

1.26.1.6 *Revenue from Recovery of Unauthorised, Irregular, Fruitless and Wasteful Expenditure*

Income from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the MFMA (Act 56 of 2003), and is recognised upon the recovery thereof from the responsible party.

1.26.1.7 *Services in-kind*

Services in-kind include services provided by individuals to the Municipality at no charge or where the Municipality has the right to use assets at no charge.

The Municipality's recognises services in-kind that are significant to its operations as assets and recognises the related revenue when it is probable that the future economic benefits or service potential will flow to the Municipality and the fair value of the assets can be measured reliably.

When the criteria for recognition is satisfied, services in-kind are recognised at their fair value as at the date of acquisition.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.26 REVENUE (CONTINUED)

If the services in-kind are not significant to the Municipality's operations or does not satisfy the criteria for recognition, the Municipality only disclose the nature and type of services in-kind received during the reporting period.

1.26.1.8 Contributed Assets

Contributed assets are recognised at fair value when such items of property, plant and equipment qualifies for recognition and become available for use by the Municipality.

1.26.2 Revenue from Exchange Transactions

Revenue from exchange transactions refers to revenue that accrued to the Municipality directly in return for services rendered or goods sold, the value of which approximates the consideration received or receivable.

1.26.2.1 Service Charges

Service Charges are levied in terms of approved tariffs.

Service charges relating to electricity are based on consumption and a basic charge as per the approved tariffs. Meters are read on a monthly basis and are recognised as revenue when invoiced. Where the Municipality was unable to take the actual month's reading of certain consumers, a provisional estimate of consumption for that month will be created, based on consumption history. The provisional estimates of consumption are recognised as revenue when invoiced, except at reporting date when estimates of consumption up to the reporting date are recorded as revenue without being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property that has improvements. Tariffs are determined per category of property usage, and are levied monthly based on the number of refuse containers on each property, regardless of whether or not all containers are emptied during the month.

1.26.2.2 Investment income

Interest earned on investments is recognised in the Statement of Financial Performance on the time proportionate basis that takes into account the effective yield on the investment.

1.26.2.3 Rental income

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.26 REVENUE (CONTINUED)

1.26.2.5 *Other Tariffs*

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant tariff. This includes the issuing of licences and permits.

1.26.2.6 *Sale of goods*

Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- (a) The Municipality has transferred to the purchaser the significant risks and rewards of ownership of the goods.
- (b) The Municipality retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- (c) The amount of revenue can be measured reliably.
- (d) It is probable that the economic benefits or service potential associated with the transaction will flow to the Municipality.
- (e) The costs incurred or to be incurred in respect of the transaction can be measured reliably.

1.26.2.7 *Deferred payment*

In most cases, the consideration is in the form of cash or cash equivalents and the amount of revenue is the amount of cash or cash equivalents received or receivable. However, when the inflow of cash or cash equivalents is deferred, the fair value of the consideration may be less than the nominal amount of cash received or receivable. When the arrangement effectively constitutes a financing transaction, the fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

1.27 BORROWING COSTS

Borrowing costs that are incurred by the Municipality are expensed in the Statement of Financial Performance in the period during which they are incurred, regardless of how the borrowings are applied.

1.28 UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in a form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No. 56 of 2003). Unauthorised expenditure is accounted for as an expense (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.29 IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No. 56 of 2003), the Municipal Systems Act (Act No. 32 of 2000), the Public Office Bearers Act, and (Act. No. 20 of 1998) or is in contravention of the Municipality's Supply Chain Management Policy. Irregular expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.30 FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and could have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure (measured at actual cost incurred) in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

1.31 CONTINGENT LIABILITIES AND CONTINGENT ASSETS

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Municipality. A contingent liability could also be a present obligation that arises from past events, but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Municipality.

The Municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the probability of an outflow of resources embodying economic benefits or service potential is remote. A contingent asset is disclosed where the inflow of economic benefits or service potential is probable.

1.32 CAPITAL COMMITMENTS

Capital commitments disclosed in the financial statements represents the contractual balance committed to capital projects on reporting date that will be incurred in the period subsequent to the specific reporting date.

1.33 EVENTS AFTER REPORTING DATE

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- (a) those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- (b) those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.33 EVENTS AFTER REPORTING DATE (CONTINUED)

If non-adjusting events after the reporting date are material, the Municipality discloses the nature and an estimate of the financial effect.

1.34 RELATED PARTIES

The Municipality regards a related party as a person or an entity with the ability to control the Municipality either individually or jointly, or the ability to exercise significant influence over the Municipality, or vice versa.

Management is regarded as a related party and comprises the Councillors, Executive Mayor, Deputy Mayor, Speaker, Mayoral Committee members, Municipal Manager, executive directors and all other managers reporting directly to the Municipal Manager or as designated by the Municipal Manager.

A close family member of management is also considered to be related party. A person is considered to be a close member of the family of another person if they are married or live together in a relationship similar to a marriage or are separated by no more than two degrees of natural or legal consanguinity or affinity.

Remuneration of management includes remuneration derived for services provided to the Municipality in their capacity as members of the management team or employees. Benefits derived directly or indirectly from the Municipality for services in any capacity other than as an employee or a member of management do not meet the definition of remuneration. Remuneration of management excludes any consideration provided solely as a reimbursement for expenditure incurred by those persons for the benefit of the Municipality.

The Municipality operates in an economic environment currently dominated by entities directly or indirectly owned by the South African government. As a result of the Constitutional independence of all three spheres of government in South Africa, only parties within the same sphere of government will be considered to be related parties. Only transactions with such parties which are not at arm's length and not on normal commercial terms, are disclosed.

1.35 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In the process of applying the Municipality's accounting policy, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the financial statements:

1.35.1 Application of Directive 7

For deemed cost applied to Property, Plant and Equipment as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

For deemed cost applied to land and buildings as per adoption of Directive 7, management made use of an independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.35 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (CONTINUED)

For deemed cost applied to intangible assets as per adoption of Directive 7, management used the depreciation cost method which was based on assumptions about the remaining duration of the assets.

For deemed cost applied to Investment Property as per adoption of Directive 7, management made use of an independent valuator. The valuator's valuation was based on assumptions about the market's buying and selling trends and the remaining duration of the assets.

1.35.2 Impairment of Receivables

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This was performed per service-identifiable categories across all classes of debtors.

1.35.3 Useful lives and residual values

The useful lives of assets are based on management's estimates. Management considers the impact of technology, availability of capital funding, service requirements and required return on assets to determine the optimum useful life expectation, where appropriate.

The estimated residual values of assets are also based on management's judgement on whether the assets will be sold or used to the end of their useful lives, and what their condition will be at that time.

1.35.4 Impairment of non-monetary assets

Non-monetary assets can include, but is not limited to, Property, Plant and Equipment, Investment Property, Intangible assets and Heritage assets.

The Municipality is not a profit-oriented entity, as its primary objective is service delivery. Tariffs and charges are cost-reflective to ensure continued financial sustainability. No profit element is included in the determination of a tariff. As such, management has determined that the Municipality does not control assets that meet the definition of cash-generating assets and that the Standard of GRAP on Impairment of Non-cash-generating Assets will apply to all assets of the Municipality.

The calculation in respect of the impairment of non-monetary assets is based on an assessment of the extent to which the recoverable amount of the asset has declined below the carrying amount. This calculation will only be performed if there is an indication of an impairment.

1.35.5 Post-Retirement and Long-term Benefits

The cost of post retirement medical obligations and long-service awards are determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

1.35 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (CONTINUED)

1.35.6 Provisions and Contingent Liabilities

Management's judgement is required when recognising and measuring provisions, as well as when measuring contingent liabilities. Provisions are discounted where the time value effect is material.

The provision for rehabilitation of the landfill site is recognised as and when the environmental liability arises. The provision is calculated by a qualified environmental engineer. The provision represents the net present value at the reporting date of the expected future cash flows to rehabilitate the landfill site. The discount rate used to calculate the effect of time value of money is linked to the index for earthwork as published by Statistics South Africa.

1.35.7 Financial assets and liabilities

The classification of financial assets and liabilities, into categories, is based on judgement by management. In making the judgement, management considered the definition and recognition criteria for the classification of financial instruments as set out in the Standard of GRAP on Financial Instruments.

1.35.8 Revenue Recognition

Accounting Policy on Revenue from Non-Exchange Transactions and Accounting Policy on Revenue from Exchange Transactions describes the conditions under which revenue will be recognised by management of the Municipality.

In making their judgement, management considered the detailed criteria for the recognition of revenue as prescribed in the Standard of GRAP on Revenue from Exchange Transactions and Standard of GRAP on Revenue from Non-Exchange Transactions. Specifically, when goods are sold, whether the significant risks and rewards of ownership of the goods have been transferred to the buyer and when services are rendered, whether the service has been performed.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

3	2016 R	2015 R
RECEIVABLES FROM EXCHANGE TRANSACTIONS (CONTINUED)		

The Allowance for impairment of Receivables has been made for all consumer balances outstanding based on the payment ratio over 12 months. Based on these payment trends, management is satisfied that no further credit provision is required in excess of the current allowance. The risk of non-payment is further mitigated due to the large customer base over which the outstanding receivable balance is spread.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

10

PROPERTY, PLANT AND EQUIPMENT - CAPITALISED RESTORATION COST

	2016 R	2015 R
Capitalised Restoration Cost - Carrying Value	12 050 752	10 111 993
Balance Previously Reported	-	-
Prior Period Adjustment - Refer to note 41.08	10 111 993	10 111 993
Total	12 050 752	10 111 993

The movement in capitalised restoration cost is reconciled as follows:

	2016	2015
Opening Carrying Value	10 111 993	18 369 473
Cost	20 194 076	21 362 499
Accumulated Depreciation	(3 482 005)	(2 993 025)
Accumulated Impairments	(6 600 078)	-
Additions	2 593 996	-
Disposals	(343 979)	(1 168 422)
Depreciation for the year	(311 258)	(488 980)
Impairments for the year	-	(6 600 078)
Closing Carrying Value	12 050 752	10 111 993
Cost	22 444 094	20 194 076
Accumulated Depreciation	(3 793 264)	(3 482 005)
Accumulated Impairments	(6 600 078)	(6 600 078)

The municipality is required by relevant Environmental Legislation to rehabilitate landfill sites at the closure date of each respective site. The "Capitalised Restoration Cost" asset, which is capitalised in line with the requirements of GRAP 17 and iGRAP 2, relates to the initial estimate of costs involved to restore landfill sites under control of the Nkonkobe Local Municipality.

Although this item is accounted for under the Property Plant and Equipment Standard (GRAP 17), the characteristics and nature of this item does not resemble that of normal PPE (such as the tangible nature of assets normally associated with PPE). Based on the aforementioned and in line with the requirements of GRAP 1, Capitalised Restoration Cost is disclosed as a separate item on the face of the Statement of Financial Position.

HERITAGE ASSETS

Heritage Assets - Carrying Value

2016
R

2015
R

-

-

The municipality holds heritage assets, but was unable to obtain fair values of such assets. These assets are disclosed herein in terms of GRAP 103.17 which states that if an entity holds an asset that might be regarded as a heritage asset but which, on initial recognition, does not meet the recognition criteria of a heritage asset because it cannot be reliably measured, relevant and useful information about it shall be disclosed in the notes to the financial statements.

The following Heritage Assets were identified:

Dr John Knox Bokwe Graves	Alice
Fort Woburn	Alice
Nkonkobe Garden of Remembrance	Alice
Fort Armstrong	Balfour
Maqoma Great Place	Balfour
Ntsikana Grave	Balfour
Oliver Shreiner House	Balfour
Fort Beaufort Historical Museum	Fort Beaufort
Fort Fordyce Fallen Site	Fort Beaufort
Infantry Barracks	Fort Beaufort
Lake's Man Fort	Fort Beaufort
Lord Charles Somerset House	Fort Beaufort
Mansonic Lodge	Fort Beaufort
Martello Tower	Fort Beaufort
Mater Hill	Fort Beaufort
Military Museum	Fort Beaufort
Military Hospital	Fort Beaufort
Officers Quarters	Fort Beaufort
The Fort	Fort Beaufort
The Officers Mess	Fort Beaufort
Ecology Shrine	Hogsback
Fort Michel	Seymour
Eland Post	Seymour
Christmas Day Massacre Memorial	Woburn Village
Tyali's Great Place	Woburn Village
The Presidency Sundial	Woburn Village
Nontetha's Grave	Middledrift

LONG-TERM LIABILITIES

	2016 R	2015 R
Finance Lease Liabilities	8 649 040	16 362 835
Balance previously reported	18 713 987	18 713 987
Prior Period Adjustment - Refer to note 41.16	(1 342 669)	(1 342 669)
Sub-Total	8 649 040	16 362 835
Less: Current portion of Long-term Liabilities	7 654 997	8 541 188
Finance Lease Liabilities	7 654 997	8 541 188
Balance previously reported	9 768 886	9 768 886
Prior Period Adjustment - Refer to note 41.1	(1 227 698)	(1 227 698)
Total	994 043	7 821 647

Long Term Liabilities were fully utilised to purchase property plant and equipment. No loans were unspent and no cash were set aside to finance future instalments.

Finance Lease Liabilities

Finance Lease Liabilities, disclosed at amortised cost, consist out of the following agreements:

Nr	Institution	Interest Rate	Redemption Date
1	Laman Financial Services - Grader 140K	11.48%	31-Jan-17
2	Laman Financial Services - Backhoe Loader 428 F	11.48%	31-Jan-17
3	Laman Financial Services - Dozer D6R	11.48%	31-Jan-17
4	Laman Financial Services - Excavator 320D	11.48%	31-Jan-17
5	Laman Financial Services - Tipper Truck CLA 26 280	11.48%	30-Jul-17
6	Laman Financial Services - Water Tanker 18000L	11.48%	30-Jul-17
7	Laman Financial Services - Tow tractor	11.48%	30-Jul-17
8	Laman Financial Services - Tectron Grid Roller	11.48%	30-Jul-17
9	Laman Financial Services - Refuse Truck 19m 3 Isuzu	11.48%	30-Jul-17
10	Aloe XEROX - 37 different Copier Machines	17.72%	14-Jun-17
11	Aloe XEROX - 14 different Copier Machines	17.72%	30-Jun-18
12	Aloe XEROX - 2 different Copier Machines	17.72%	23-Mar-19

All lease agreements have no escalation clause over the respective periods. After the lease agreement expires, lease payments will continue on a month to month basis until the contract is renewed or cancelled. Equipment will be returned to the supplier at the end of the lease term when the contract is cancelled.

Total	59 327 034	56 538 977

Payables are being recognised net of any discounts received

As prescribed by the MFMA, all payables are payable within 30 days. This credit period granted is considered to be in line with industry norms. The carrying value of payables are in line with its fair value.

Payables are not secured.

16

UNSPENT CONDITIONAL GOVERNMENT GRANTS

National Government	2 916 291	6 175 270
Provincial Government	1 184 412	861 557
Total	4 100 703	7 036 827

Detail reconciliations of all grants received and grant conditions met are included in note 23. Unspent grant balances are recognised to the extent that conditions are not yet met.

Due to the short term nature of unspent grant balances, the carrying value approximates the fair value of the unspent conditional grants at year-end.

19 EMPLOYEE BENEFITS (CONTINUED)

The discount rate used is a composite of all government bonds and is calculated using a technique known as "bootstrapping"

Mortality Rates

The PA 90 ultimate table, rated down by 2 year of age was used by the actuaries.

Normal Retirement Age

It has been assumed that in-service members will retire at age 63, which then implicitly allows for expected rates of early and ill-health retirement.

Last Valuation

The last valuation was performed on 22 July 2016.

Actuarial Valuation Method

The Projected Unit Credit Method has been used to value the liabilities.

Sensitivity Analysis - Liability at year-end

19.3 Other Pension Benefits

Defined Benefit Plans	2016 R	2015 R
Council contributes to the following defined benefit plans:		
Cape Joint Pension Fund	7 443 185	7 099 035
The contribution rate payable is 9% by members and 18% by Council. The last actuarial valuation performed for the year ended 30 June 2015 revealed that the fund is in a sound financial position with a funding level of 101.4% (30 June 2014 - 106.2%).		
Total	7 443 185	7 099 035

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

19 EMPLOYEE BENEFITS (CONTINUED)

The Municipality requested detailed employee and pensioner information as well as information on the Municipality's share of the Pension and Retirement Funds' assets from the fund administrator. The fund administrator confirmed that assets of the Pension and Retirement Funds are not split per participating employer. Therefore, the Municipality is unable to determine the value of the plan assets as defined in GRAP 25.

As part of the Municipality's process to value the defined benefit liabilities, the Municipality requested pensioner data from the fund administrator. The fund administrator claim that the pensioner data to be confidential and were not willing to share the information with the Municipality. Without detailed pensioner data the Municipality was unable to calculate a reliable estimate of the accrued liability in respect of pensioners who qualify for a defined benefit pension.

Therefore, although the Cape Joint Retirement Fund and Cape Joint Pension Fund are Multi Employer funds defined as defined benefit plan, it will be accounted for as defined contribution plan. All the required disclosure has been made as defined in GRAP 25.31.

Defined Benefit Plans	2016 R	2015 R
Council contributes to the following defined benefit plans:		
Government Employees Pension Fund	36 531	40 708
SALA Pension Fund	495 865	495 070
SAMWU National Provident Fund	1 172 712	1 138 103
Total	1 705 107	1 673 880

The retirement benefit fund is subject to the Pension Fund Act, 1956, with pension being calculated on the pensionable remuneration paid. Current contributions by Council are charged against expenditure on the basis of current service costs.

44 BUDGET COMPARISONS

44.1 COMPARABLE BASIS

Differences were identified between the disclosure requirements in terms of GRAP and the reporting requirements in terms of National Treasury budget formats

The following items are affected by these classification differences:

Statement of financial position

Consumer Debtors consist out of both Receivables from Exchange Transactions as well as the Rates Receivable.

Other Receivables incorporate all other current receivable balances not specifically provided for in the National Treasury formats.

Trade and Other Payables incorporates Payable from exchange transactions, Unspent grants, Unspent public contributions, Taxes and Operating lease liabilities.

Employee Benefits and Provisions (Current and Non-Current) are included under the provisions line item in the budget statements.

Statement of financial performance

The statement of financial performance is comparable on a line by line basis except for the following items:

The budget statements does not provide for all the different revenue classifications per statement of financial performance. For this reason, all line items not specifically catered for is incorporated under the line item Other Revenue in the budget statement. Other revenue per budget statement consist out of the following line items - Actuarial Gains, Assistance in-kind and Other Income.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

44 BUDGET COMPARISONS (CONTINUED)

Depreciation and Amortisation and Impairments are aggregated on the budget statements while it is shown separately on the Statement of Financial Performance

The budget statements does not provide for all the different expenditure classifications per statement of financial performance. For this reason, all line items not specifically catered for is incorporated under the line item Other Expenditure in the budget statement. Other Expenditure per budget statement consist out of the following line items - Other Expenditure, Repairs and Maintenance and Actuarial Losses.

Cash Flow Statement

The Cash Flow Statement is presented on a comparable basis.

44.2 MATERIAL VARIANCES

Budget Adjustments

The Section 72 report was submitted to Council with recommendation relating to any proposed adjustments, taking into account the actual results for the half year under review and prior year actual figures. These proposed adjustments were approved by Council.

Actual Variances

Variances can mainly be attributed to large number of prior year errors. Prior year actual results were used as basis for current year budget.

Infrastructure	-	7 040 200
Community	-	2 499 771
Other	1 960 284	24 682 303
Total	1 960 284	34 222 274

This expenditure will be financed from:

Own Revenue	1 960 284	24 697 810
Government Grants	-	9 524 464
Total	1 960 284	34 222 274

The decrease in Commitments can mainly be attributed to the merger taking place subsequent to year-end

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

48 FINANCIAL RISK MANAGEMENT

The municipality is potentially exposed to the following risks:

48.1 Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The following financial assets are exposed to credit risk:

	2016 R	2015 R
Cash and Cash Equivalents	3 480 710	3 046 037
Receivables from exchange transactions	9 973 956	5 534 924
Total	13 454 666	8 580 962

Cash and Cash Equivalents

Deposits of the municipality is only held at reputable banks that are listed on the JSE. The credit quality is regularly monitored through required SENS releases by the various banks. The risk pertaining to these deposits are considered to be very low.

There are no restrictions on the cash deposits held and no cash were pledged as security. No collateral is held for any cash and cash equivalents.

Receivables from Exchange Transactions

Receivables comprise of a large number of users, dispersed across different sectors and geographical areas. On-going credit evaluations are performed on the financial condition of these receivables. Credit risk pertaining to receivables are considered to be moderate due the diversified nature of receivables and immaterial nature of individual balances. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. In the case of debtors whose accounts become in arrears, Council endeavours to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of Council's Credit Control and Debt Collection Policy.

Receivables are disclosed after taking into account the provision for impairment raised against each class of receivable.

Receivables are payable within 30 days. All receivables outstanding for more than 30 days are considered to be passed due.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

48 FINANCIAL RISK MANAGEMENT (CONTINUED)

Refer to note 3 for more information regarding the provision for impairment raised against each service type as well as receivables considered to be passed due.

No receivables were pledged as security for liabilities and no collateral is held from any consumers (other than consumer deposits).

48.2 Currency risk (Market Risk)

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of

The financial instruments of the municipality is not directly exposed to any currency risk.

48.3 Interest rate risk (Market Risk)

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

	2016 R	2015 R
The following balances are exposed to interest rate fluctuations:		
Cash and Cash Equivalents (Excluding Cash on Hand)	3 480 710	3 046 037
Long-term Liabilities (Including Current Portion)	(8 649 040)	(16 362 835)
Non-Current Provisions (Including Current Portion)	(19 930 483)	(23 448 155)
Net balance exposed	(25 098 812)	(36 764 953)

Although the non-current provision is not defined as a financial instrument, the potential effect of changes in interest rates used to discount this balance over time, is included for the benefit of the user of the financial statements.

Potential effect of changes in interest rates on surplus and deficit for the year:

1% (2015 - 1%) increase in interest rates	(250 988)	(367 650)
0% (2015 - 0%) decrease in interest rates	-	-

South Africa is currently in an upward interest rate cycle and management does not foresee a decrease in the next 12 months.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

48 FINANCIAL RISK MANAGEMENT (CONTINUED)

48.4 Liquidity risk

Liquidity risk is the risk encountered by an entity in the event of difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset.

Liquidity risk is mitigated by approving cash funded budgets at all times to ensure commitments can be settled once due over the long term. The municipality also monitors its cash balances on a daily basis to ensure cash resources are available to settle short term obligations.

The following balances are exposed to liquidity risk:

30 JUNE 2016	PAYABLE		
	Within 1 Year	Two to five years	After five years
Finance Lease Liabilities	8 260 858	1 092 488	-
Payables from exchange transactions	42 493 730	-	-
Total	50 754 588	1 092 488	-
30 JUNE 2015	PAYABLE		
	Within 1 Year	Two to five years	After five years
Finance Lease Liabilities	10 058 132	8 297 495	-
Payables from exchange transactions	42 728 071	-	-
Total	52 786 203	8 297 495	-

48.5 Other price risk (Market Risk)

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

NKONKOBE LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

48 FINANCIAL RISK MANAGEMENT (CONTINUED)

The municipality recognised the following financial instruments (All balances are recognised at amortised cost.)

Financial Assets

	2016 R	2015 R
Cash and Cash Equivalents	3 480 710	3 046 037
Receivables from exchange transactions	9 973 956	5 534 924
Total	13 454 666	8 580 962

Financial Liabilities

Current Portion of Long-term Liabilities	7 654 997	8 541 188
Payables from exchange transactions	42 493 730	42 728 071
Long-term Liabilities	994 043	7 821 647
Total	51 142 770	59 090 906

49 STATUTORY RECEIVABLES

In accordance with the principles of GRAP 108, Statutory Receivables of the municipality are classified as follows:

Receivables from Non-Exchange Transactions

Rates	143 446 135	99 335 060
Government Grants	151 995	1 104 981
Taxes	3 779 187	3 102 437
Total	147 377 317	103 542 479

Refer to note 4 for more detail relating to the Government Grants and Rates Receivables, including any provision for impairment raised against the gross amounts as disclosed above

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

50 EVENTS AFTER REPORTING DATE

Amalgamation - Nkonkobe - and Nxuba Local Municipality

The Minister of Co-operative Governance and Traditional Affairs has requested the Municipal Demarcation Board to re-determine the boundaries of Nkonkobe and Nxuba Municipalities as per section 122 of the Local Government Municipal Demarcation Board.

The Raymond Mhlaba Local Municipality was subsequently established by the amalgamation of Nkonkobe Local Municipality and Nxuba Local Municipality on 3 August 2016, being the date of the Local Government Elections.

Operations in the Raymond Mhlaba Local Municipality commenced on 4 August 2016 and the new Council was sworn in on 18 August 2016. The following significant positions were elected during the inaugural Council Meeting:

Mayor	Councillor Bandile Khethelo
Speaker	Councillor Thozama Njobe
Chief Whip	Councillor Anele Ntsangani

The amalgamation does not affect the going concern status, nor the presentation of the Annual Financial Statements on the going concern basis on 30 June 2016.

51 IN-KIND DONATIONS AND ASSISTANCE

Refer to note 26 for detail relating to Assistance In-kind received by the municipality during the period under review.

52 PRIVATE PUBLIC PARTNERSHIPS (PPP's)

The municipality did not enter into any PPP's in the current and prior year.

NKONKOBÉ LOCAL MUNICIPALITY

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDING 30 JUNE 2016

54 RELATED PARTIES

Related parties are defined in note 1.34

All rates, service charges and other charges in respect of related parties are in accordance with approved tariffs that were advertised to the public. No impairment charge have been recognised in respect of amounts owed by related parties.

There are no loans outstanding to any related party. Since 1 July 2004 loans to councillors and senior management employees are not permitted.

Remuneration of related parties are disclosed in notes 30 and 31

The municipality owns a 100% stake in the Nkonkobe Economic Development Agency. The Municipality provides a grant to the agency to assist with the operations of the entity as well as to settle the audit fees payable to the Auditor General.

Refer to note 39 for grants paid during the period under review

55 FINANCIAL SUSTAINABILITY

The indicators or conditions that may, individually or collectively, cast significant doubt about the going concern assumption are as follows:

Financial Indicators

The current liabilities at year end exceeded the current assets and this could result in the municipality being unable to settle all of its liabilities.

Management will continue to put measures in place to ensure that municipal current assets are in excess of the current liabilities. Expenditure patterns and budget control measures will be enforced to reduce the expenditure that lead to an increase in current liabilities.

The municipality is experiencing low very low payment percentages from consumers which is very indicative of the economic environment in the municipal area.

The municipality experienced material losses in electricity usage to the value of R 3 727 120 (2015 - R 3 966 332). This represents a loss of 21.08% (2015 - 16.27%).

Operating Indicators	2016	2015
	R	R
Grant funding were utilised for operating purposes	619 993	3 990 790

Other Indicators

The municipality has incurred unauthorised, irregular and fruitless & wasteful expenditure as shown in note 45 above.

There are material Contingent Liabilities on each respective reporting period. Refer to note 53 above.
