(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

### Directors' Responsibilities and Approval

The directors are required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and are responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the directors to ensure that the annual financial statements fairly present the state of affairs of the entity as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgments and estimates.

The directors acknowledge that they are ultimately responsible for the system of internal control established by the entity and place considerable importance on maintaining a strong control environment. To enable the directors to meet these responsibilities, the directors sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the entity and all employees are required to maintain the highest ethical standards in ensuring the entity's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the entity is on identifying, assessing, managing and monitoring all known forms of risk across the entity. While operating risk cannot be fully eliminated, the entity endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour is applied and managed within predetermined procedures and constraints.

The directors are of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The directors have reviewed the entity's cash flow forecast for the year to 30 June 2019 and, in the light of this review and the current financial position, they are satisfied that the entity has or has access to adequate resources to continue in operational existence for the foreseeable future.

The annual financial statements are prepared on the basis that the entity is a going concern and that the The City of Johannesburg Metropolitan Municipality has neither the intention nor the need to liquidate or curtail materially the scale of the entity

Approval of annual financial statements:

The financial statements set out on pages 7 to 64, which have been prepared on the going concern basis, were approved by the directors on 29 November 2018 and were signed on its behalf by:

Mr A Manana Chief Executive Officer

D P Naidoo

Gfairperson of the Board (Acting)

Johannesburg

### Audit and Risk Committee Responsibility

The Committee reports that it has complied with its responsibilities arising from legislation and Treasury Regulations. The Committee also reports that it has adopted formal terms of reference as its Audit and Risk Committee Terms of

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

### **Audit and Risk Committee Report**

Reference, regulated the affairs in compliance with the charter and discharged all the responsibilities contained therein.

### The Effectiveness of Internal Control

Based on the assessment of the work done for the year under review the committee believes that the internal audit function has provided professional, independent and objective assurance to the operations of the Joburg Market and has added value to the operations of the Joburg Market.

Internal audit reports were concluded and discussed with management and action plans were monitored for implementation on a continuing basis.

It is of concern that the Senior Manager: Internal Audit resigned on 01 April 2018 and no replacement has been made due to the pending integration of the internal audit function within the City of Joburg which timelines have not been finalised.

### Combined assurance

The company has adopted a combined assurance model to enable an effective control environment and support the integrity of information used for decision making by management, the board and its committees.

### **Quarterly Reports**

The Audit and Risk Committee has had sight of the quarterly reports submitted to the shareholder during the year under review.

### General

The Committee is responsible for, and fulfilled, the following responsibilities:

- · Reviewed the accounting practices adopted by the company;
- Reviewed the accounting policies adopted by the company and recommended any changes considered appropriate;
- Reviewed and recommended disclosed financial information;
- Considered the programmes introduced to improve the overall ethics of the company and reviewed reports from management and the internal auditors relating to material issues;
- Considered ethical conduct by the company and its senior management;
- Monitored the Company's compliance with all applicable legislation and regulations;
- Reported in terms of any unauthorised, fruitless and wasteful and irregular expenditure in terms of the MFMA.
- Ensured cooperation between the External Auditor and Internal Audit by clarifying and co-ordinating their roles
  and functions and that the combined assurance received is appropriate to address all significant Joburg Market
  risks;
- · Considered the King Code of Governance recommendations and their applicability to the company;
- · Assisted Management in carrying out its risk management responsibilities; and
- · Received and dealt appropriately with any complaints and/or allegations of wrongdoing, including fraud.

The Internal Auditors and External Auditors had and have direct access to the Chairman of the Committee and its members. The Committee's agendas provided for confidential one-on-one in-committee meetings with the members.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

### **Audit and Risk Committee Report**

### Risk Management

Internal Audit adopts a risk-based approach and the Audit and Risk Committee approved the internal audit plan for the year under review as well as a three year plan.

It is of concern that the Senior Manager: Compliance and Enforcement was seconded to the City of Joburg on 01 June 2018 and is still on secondment without any replacement having been made. This is obviously impeding risk management processes within the company.

### Chief Financial Officer

On 01 January 2018, Mr Sifiso Dlamini was appointed as the CFO of the company and as an executive director. The Committee is satisfied with his qualifications and experience and with the direction he has given to the finance function.

### Independence of the external auditor

The Committee is satisfied with the Auditor-General SA's independence in performing the audit of the company.

### **Evaluation of Financial Statements**

The Audit and Risk Committee has reviewed the annual financial statements prepared by the company.

### Auditor's Report

The company's implementation plan for audit issues raised in the prior year has been reviewed by the Committee who is satisfied that the matters are being adequately resolved.

The Audit and Risk Committee concurs and accepts the conclusions of the Auditor-General South Africa on the Annual Financial Statements and is of the opinion that the audited Annual Financial Statements be accepted and read together with the report of the Auditor-General South Africa.

Robin Neill Theunissen

Chairperson of the Audit and Risk Committee

Joburg Market (SOC) Ltd

27 November 2018

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

### **Directors' Report**

The directors hereby submit their report for the year ended 30 June 2018.

### 1. INCORPORATION

The entity was incorporated on 08 September 2000 and obtained its certificate to commence business on the same day.

### 2. REVIEW OF ACTIVITIES

### Main business and operations

The entity is a municipal owned entity, engaged in providing of infrastructure to distribute fresh produce and operates principally in the City of Johannesburg.

During the year there were no major changes in the activities of the business.

The operating results and state of affairs of the entity are fully set out in the annual financial statements. Revenue comprising mainly commission income increased by 9%.

Net surplus of the entity was R 95 838 404 (2017: surplus R 56 394 189), after taxation of R 59 622 032 (2017: R 41 995 793).

### 3. GOING CONCERN

The annual financial statements have been prepared on the basis of accounting policies applicable to a going concern. This basis presumes that funds will be available to finance future operations and that the realisation of assets and settlement of liabilities, contingent obligations and commitments will occur in the ordinary course of business.

The current assets of the entity exceeds its current liabilities at year end by R223,525,737 (2017: R 126,909,110). The net liquidity position of the entity has strengthened by R96,616,627 over the last year. Included in current liabilities is an amount of R 10,408,637 (2017: R15,146,780) relating to current portion of loans from the shareholder which is payable in the coming year. The directors are confident that the entity will meet all its obligations in the coming financial year.

### 4. SUBSEQUENT EVENTS

The directors are not aware of any matter or circumstance arising since the end of the financial year to date of this report, not otherwise dealt with in the annual financial statements and the directors report, which significantly affect the financial position of the entity or the results of its operations that would require adjustments to or disclosure in the financial statements.

The chairperson of the board Ms Doris Dondur has resigned as of 29 October 2018.

### 5. DIRECTORS' PERSONAL FINANCIAL INTERESTS

All of the directors have declared that they do not have any personal financial interests in any contracts entered into by the entity.

### 6. ACCOUNTING POLICIES

The annual financial statements have been prepared in accordance with the effective standards of Generally Recognised Accounting Practice (GRAP), including any interpretations, guidelines and directives issued by the Accounting Practices Board, and in accordance with the prescribed standards of GRAP issued by the Accounting Standards Board as the prescribed framework by National Treasury.

There were no changes in accounting policies during the year.

### 7. SHARE CAPITAL / CONTRIBUTED CAPITAL

There were no changes in the authorised or issued share capital of the entity during the year under review.

The entire shareholding of the entity is held by The City of Johannesburg Metropolitan municipality.

Unissued ordinary shares are under the control of The City of Johannesburg Metropolitan Municipality.

### Report of the auditor-general to the Gauteng Provincial Legislature and council of the City of Johannesburg Metropolitan Municipality on Joburg Market (SOC) Limited

Report on the audit of the financial statements

### **Opinion**

- 1. I have audited the financial statements of the Joburg Market (SOC) Limited set out on pages ... to ..., which comprise the statement of financial position as at 30 June 2018, the statement of financial performance, statement of changes in net assets, cash flow statement and the statement of comparison of budget and actual amounts for the year then ended, as well as the notes to the financial statements, including a summary of significant accounting policies.
- 2. In my opinion, the financial statements present fairly, in all material respects, the financial position of the Joburg Market (SOC) Limited as at 30 June 2018, and its financial performance and cash flows for the year then ended in accordance with the South African Standards of Generally Recognised Accounting Practice (SA Standards of GRAP) and the requirements of the Municipal Finance Management Act of South Africa, 2003 (Act No. 56 of 2003) (MFMA) and the Companies Act of South Africa, 2008 (Act No. 71 of 2008) (the Companies Act).

### **Basis for opinion**

- I conducted my audit in accordance with the International Standards on Auditing (ISAs). My
  responsibilities under those standards are further described in the auditor-general's
  responsibilities for the audit of the financial statements section of this auditor's report.
- 4. I am independent of the municipal entity in accordance with the International Ethics Standards Board for Accountants' Code of ethics for professional accountants (IESBA code) and the ethical requirements that are relevant to my audit in South Africa. I have fulfilled my other ethical responsibilities in accordance with these requirements and the IESBA code.
- I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### **Emphasis of matters**

6. I draw attention to the matters below. My opinion is not modified in respect of these matters.

### Restatement of corresponding figures

7. As disclosed in note 32 the financial statements, the corresponding figures for 30 June 2017 have been restated as a result of errors in the financial statements of the municipal entity for the year ended, 30 June 2018.

### Material uncertainties

8. As disclosed in note 28 to the financial statements, the municipal entity is the defendant in various lawsuits. The ultimate outcome of these matters cannot presently be determined and/or reliably measured; therefore, no provision for any liabilities that may result has been made in the financial statements.

### Material impairments

 As disclosed in note 8 to the financial statements, the receivables for exchange transactions balance has been significantly impaired. The provision for impairment was R11 483 073 (2017: R11 430 636), which represents 23% (2017: 25%) of the total receivables from exchange transactions balance.

### Other matters

 I draw attention to the matters below. My opinion is not modified in respect of these matters.

### Unaudited disclosure notes

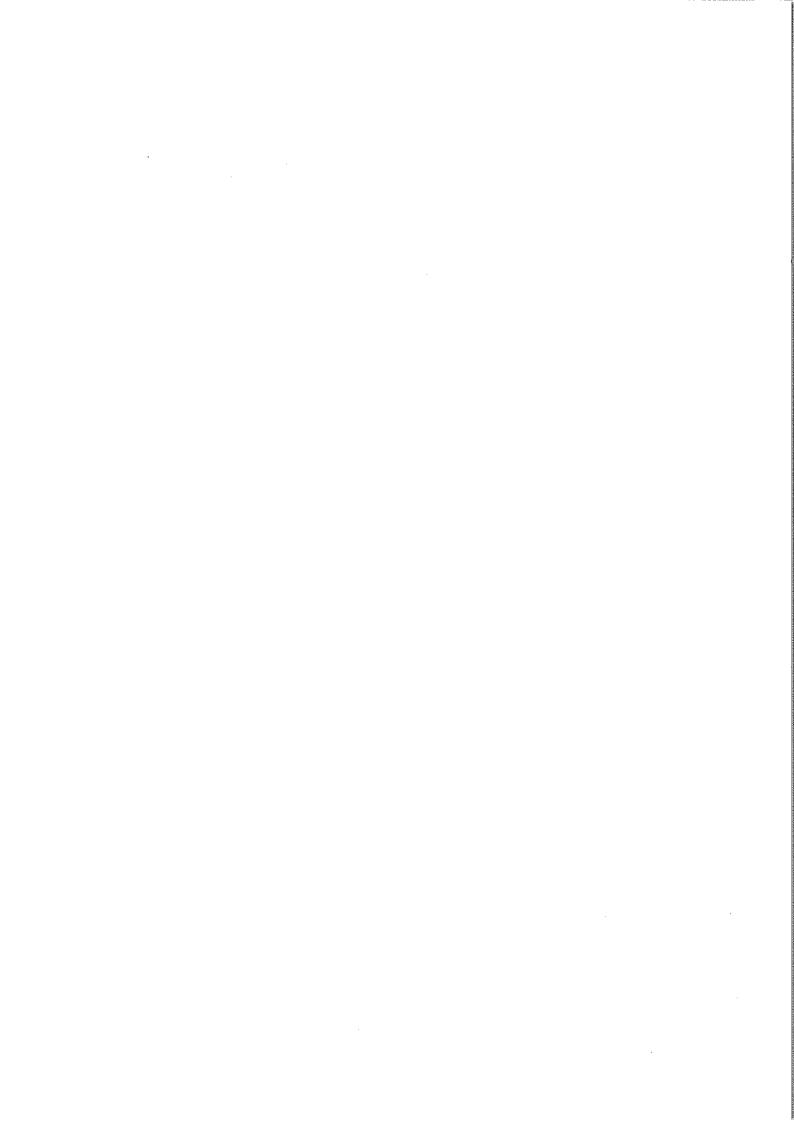

11. In terms of section 125(2)(e) of the MFMA, the municipal entity is required to disclose particulars of non-compliance with the MFMA in the financial statements. This disclosure requirement did not form part of the audit of the financial statements and, accordingly, I do not express an opinion on it.

### Responsibilities of the accounting officer for the financial statements

- 12. The accounting officer is responsible for the preparation and fair presentation of the financial statements in accordance with the SA Standards of GRAP and the requirements of the MFMA and the Companies Act, and for such internal control as the accounting officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.
- 13. In preparing the financial statements, the accounting officer is responsible for assessing the Joburg Market (SOC) Limited's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the appropriate governance structure either intends to liquidate the municipal entity or to cease operations, or has no realistic alternative but to do so.

### Auditor-general's responsibilities for the audit of the financial statements

14. My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue

an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

15. A further description of my responsibilities for the audit of the financial statements is included in the annexure to this auditor's report.

Report on the audit of the annual performance report

### Introduction and scope

- 16. In accordance with the Public Audit Act of South Africa, 2004 (Act No. 25 of 2004) (PAA) and the general notice issued in terms thereof, I have a responsibility to report material findings on the reported performance information against predetermined objectives for selected strategic objectives presented in the annual performance report. I performed procedures to identify findings but not to gather evidence to express assurance.
- 17. My procedures address the reported performance information, which must be based on the approved performance planning documents of the municipal entity. I have not evaluated the completeness and appropriateness of the performance indicators included in the planning documents. My procedures also did not extend to any disclosures or assertions relating to planned performance strategies and information in respect of future periods that may be included as part of the reported performance information. Accordingly, my findings do not extend to these matters.
- 18. I evaluated the usefulness and reliability of the reported performance information in accordance with the criteria developed from the performance management and reporting framework, as defined in the general notice, for the following selected strategic objectives presented in the annual performance report of the municipal entity for the year ended 30 June 2018:

| Strategic objectives   | Pages in the annual performance report |
|--|--|
| Strategic objective 1 – Operate a sustainable resilient world class marketing & trading facility | x – x                                  |
| Strategic objective 4 – Ensure financial sustainability and growth of the entity                 | x – x                                  |

19. I performed procedures to determine whether the reported performance information was consistent with the approved performance planning documents. I performed further procedures to determine whether the indicators and related targets were measurable and relevant, and assessed the reliability of the reported performance information to determine whether it was valid, accurate and complete.

- 20. I did not raise any material findings on the usefulness and reliability of the reported performance information for these strategic objectives:
  - Strategic objective 1 operate a sustainable resilient world-class marketing & trading facility
  - Strategic objective 4 ensure financial sustainability and growth of the entity

### Other matter

21. I draw attention to the matter below.

Achievement of planned targets

Refer to the annual performance report on pages ... to ... for information on the achievement of planned targets for the year

Report on the audit of compliance with legislation

### Introduction and scope

- 22. In accordance with the PAA and the general notice issued in terms thereof, I have a responsibility to report material findings on the compliance of the municipal entity with specific matters in key legislation. I performed procedures to identify findings but not to gather evidence to express assurance.
- 23. The material findings on compliance with specific matters in key legislations are as follows:

Procurement and contract management

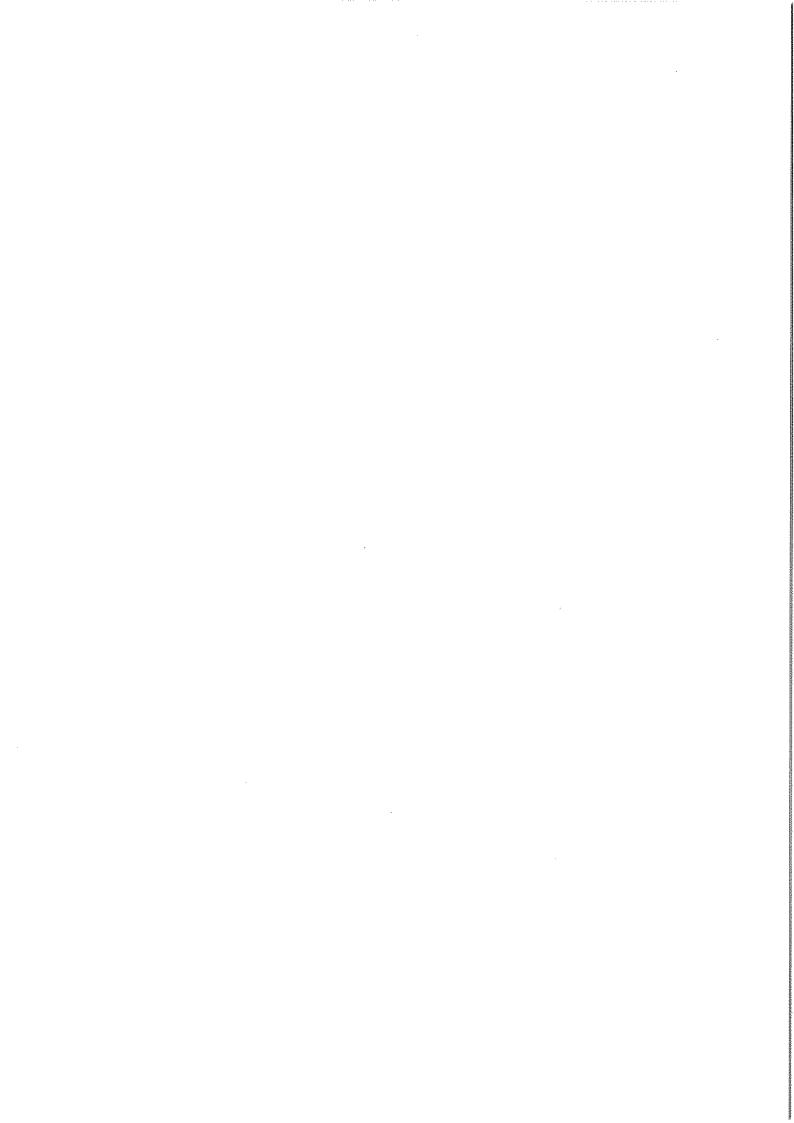

24. Some goods and services with a transaction value above R200 000 were procured without inviting competitive bids, as required by Municipal Supply Chain Management (SCM) regulation 19(a).

Expenditure management

25. Reasonable steps were not taken to prevent irregular expenditure of R674 144, disclosed in note 35 to the annual financial statements, as required by section 95(d) of the MFMA. The irregular expenditure was caused by not following the competitive bidding process.

### Other information

26. The accounting officer is responsible for the other information. The other information comprises the information included in the annual report, which includes the directors' report, the audit committee's report and the company secretary's certificate as required by the Companies Act. The other information does not include the financial statements, the auditor's report and those selected strategic objectives presented in the annual performance report that have been specifically reported in this auditor's report.

- 27. My opinion on the financial statements and findings on the reported performance information and compliance with legislation do not cover the other information and I do not express an audit opinion or any form of assurance conclusion thereon.
- 28. In connection with my audit, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements and the selected strategic objectives presented in the annual performance report, or my knowledge obtained in the audit, or otherwise appears to be materially misstated.
- 29. If based on the work I have performed, I conclude that there is a material misstatement in this other information, I am required to report that fact. I have nothing to report in this regard.

### Internal control deficiencies

- 30. I considered internal control relevant to my audit of the financial statements, reported performance information and compliance with applicable legislation; however, my objective was not to express any form of assurance on it. The matters reported below are limited to the significant internal control deficiencies that resulted in the findings on compliance with legislation included in this report.
- 31. Adequate measures were not implemented to prevent non-compliance with SCM prescripts. The non-compliance and irregular ecpenditure incurred could have been avoided had management put measures in place to prevent it.
- 32. The risk assessment conducted by the entity did not result in adequate controls being implemented or maintained to prevent in the findings on compliance with laws and regulations.

### Other reports

- 33. I draw attention to the following engagements conducted by various parties that had, or could have, an impact on the matters reported in the municipal entity's financial statements, reported performance information, compliance with applicable legislation and other related matters. These reports did not form part of my opinion on the financial statements or my findings on the reported performance information or compliance with legislation.
- 34. Investigations into alleged financial irregularities, financial misconduct and fraud were completed during the year under review. Various measures were recommended, including taking action against the identified officials, and these were in the process of being implemented. The recommendations were at various stages of implementation.

Auditor-General.

Johannesburg

30 November 2018

Auditing to build public confidence

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

### **Directors' Report**

### 8. BORROWING LIMITATIONS

In terms of the sale of business agreement, The Joburg Market SOC Limited does not have the authority to borrow on its own behalf. All external funding is managed under the auspices of The City of Johannesburg Metropolitan Municipality's Assets and Liabilities Committee.

### 9. NON-CURRENT ASSETS

There were no major changes in the nature of non-current assets of the entity during the year.

Property plant and equipment (including finance lease assets from the CoJ) to the value of R 9,524,147 (2017: R 28,893,900) and intangible assets to the value of R 4,702,046 (2017: R980,613) were acquired during the year under review.

### 10. DIVIDENDS

No dividends were declared or paid to the shareholder during the year.

### 11. DIRECTORS

The directors of the entity during the year and to the date of this report are as follows:

| Name                                   | Nationality   | Changes                     |
|--|---------------|-----------------------------|
| Ms D Dondur (Chairperson)              | South African | -                           |
| Mr M Makopo                            | South African | Resigned 10 May 2018        |
| Mr J Mocke                             | South African | -                           |
| Dr P Naidoo                            | South African |                             |
| Mr S Ndlovu                            | South African |                             |
| Mr L. Nengovhela                       | South African |                             |
| Mr H Raborifi                          | South African | Resigned 10 July 2017       |

### 13. CORPORATE GOVERNANCE

### General

The directors are committed to business integrity, transparency and professionalism in all its activities. As part of this commitment, the directors support the highest standards of corporate governance and the ongoing development of best practice.

The Board of directors have endeavoured to comply with the requirements of the King Code including integrated and sustainability reporting, which has been adopted using the City of Johannesburg Municipality's recommended template.

### **Board of directors**

The Board of directors:

- retains full control over the entity, its plans and strategy;
- acknowledges its responsibilities as to strategy, compliance with internal policies, external laws and regulations,
  effective risk management and performance measurement, transparency and effective communication both
  internally and externally by the entity;
- · is of a unitary structure comprising:
  - 7 non-executive directors, all of whom are independent directors as defined in the King Code of Corporate Governance.
  - 2 executive directors; Chief Executive Officer and Chief Financial Officer.

### **Chairperson and Chief Executive Officer**

The Chairperson is an independent non-executive director (as defined in the King Code of Good Corporate Governance).

The roles of Chairperson and Chief Executive Officer are separate, so that no individual has unfettered powers of discretion.

### Remuneration

The remuneration of the Chief Executive Officer and the executive committee, is determined by the Board of directors in accordance with Section 89 of the Municipal Finance Management Act and the upper limits set by the City of Johannesburg Metropolitan Municipality.

### Joburg Market (SOC) Limited (Registration number 2000/023383/07)

Financial Statements for the year ended 30 June 2018

### **Directors' Report**

### Board and committee meetings

The directors have met on 10 separate occasions during the financial year. The directors were scheduled to meet 6 times within the year. Ongoing investigations and the appointment of the Chief Executive Officer and Chief Financial Officer necessitated 4 additional special meetings.

Non-executive directors have access to all members of management of the entity. The board is also expected to meet with the shareholder on a quarterly basis.

The members did not all serve for the full year:

<sup>\*</sup> Mr H Raborifi resigned 10 July 2017

<sup>\*\*</sup> CEO appointed 1 September 2017
\*\*\* CFO appointed 1 January 2018

<sup>\*\*\*\*</sup> Resigned 10 May 2018

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

### **Directors' Report**

### Audit and Risk Committee

The Audit and Risk Committee (ARC) comprises of 5 members, 2 of whom are non-executive directors and 3 independent members. The committee is constituted in accordance with Section 166 of the Municipal Finance Management Act and was chaired by Mr R Theunissen, who is an independent audit committee member. The ARC had 4 ordinary and 5 special meetings during the 2017/18 financial year to review matters necessary to fulfil its role

### Internal audit

The internal audit function was performed internally. Certain internal audit activities were outsourced. This ensured that the internal audit function was effective throughout the period of review.

### 14. CONTROLLING ENTITY

The entity's shareholder is The City of Johannesburg Metropolitan Municipality.

### 15. SPECIAL RESOLUTIONS

There were no special resolutions taken for the year under review.

### 16. BANKERS

Standard Bank Limited.

The management of the treasury function is managed under the auspices of The City of Johannesburg Metropolitan Municipality's Assets and Liabilities Committee and Treasury Directorate.

### 17. AUDITORS

The Auditor-General: South Africa will continue in office in accordance with the Public Audit Act No 25, section 90 of the Municipal Finance Management Act No 56 of 2003 and section 90 of the Companies Act of 2008.

### 18. CONTINGENCIES

Joburg Market has in previous financial years reported long outstanding legacy litigation matters. For the year under review the exposure on litigation has increased compared to the previous year. Disputes with employees have decreased. Refer to note 28.

### 19. CURRENT INVESTIGATIONS

Procurement irregularities that necessitated investigations in the prior years, have been finalised. Disciplinary action was taken and appropriate internal processes were concluded. In the current year new investigations have commenced. These matters are being dealt with as expeditiously as possible and appropriate action will be taken once the investigations have been finalised.

Financial Statements for the year ended 30 June 2018 (Registration number 2000/023383/07)

# Statement of Comparison of Budget and Actual Amounts

Figures in Rand

### 2018

Management considers a variance of 10% or more as material. A detailed description of variances is provided below :

### Revenue

Investment revenue - Higher revenue has generated additional cash and interest for the entity. Good collection levels have ensured positive bank balances and additional interest income.

Other own revenue - no material difference to report. Turnover increased marginally by 0.9% (excluding the amount of R7311 related to gain on disposal of assets) to adjustment budget mainly as a result of a decline in tonnage. Volume decreased by 9.81% on budget.

Expenditure Employee costs - under budget by 12% due to unfilled vacancies.

Debt impairment - the Rand value of the debt impairment is not material. Collection levels remain high at 100,3% for the year.

Depreciation and asset Impairment - above budget and within the 10% variance range.

Finance charges -below budget due to reducing finance cost and self funding of capital projects.

Other expenditure - within acceptable 10% variance. The amount includes the Lease rentals on operating lease of R590 678

### Capital expenditure

The budget for the year under review for capital expenditure was R15,4 million and the actual capital expenditure incurred by 30 June 2018 amounted to R13.4 million (excluding finance lease assets from the CoJ) which represents 88% of actual spend. The entity continued to experience delays mainly in its Bid committee processes. During the latter part of the year a CAPEX monitoring and support forum was introduced to enhance CAPEX spending and create early warning systems.

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

### 1. Presentation of Financial Statements

The annual financial statements have been prepared in accordance with the Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act (Act 56 of 2003).

These annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention as the basis of measurement, unless specified otherwise.

Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

A summary of the significant accounting policies, which have been consistently applied in the preparation of these annual financial statements, are disclosed below.

These accounting policies are consistent with the previous period.

### 1.1 Presentation currency

These financial statements are presented in South African Rand, which is the functional currency of the entity.

### 1.2 Significant judgements and sources of estimation uncertainty

In preparing the annual financial statements, management is required to make estimates and assumptions that affect the amounts represented in the annual financial statements and related disclosures. Use of available information and the application of judgements is inherent in the formation of estimates. Actual results in the future could differ from these estimates which may be material to the annual financial statements. Significant judgements include:

### Receivables

The entity assesses its trade receivables and loans and receivables for impairment at the end of each reporting period. In determining whether an impairment loss should be recorded in surplus or deficit, the entity makes judgements as to whether there is observable data indicating a measurable decrease in the estimated future cash flows from a financial asset.

The impairment for receivables and loans and receivables is calculated on a portfolio basis, based on historical loss ratios, adjusted for national and industry-specific economic conditions and other indicators present at the reporting date that correlate with defaults on the portfolio. These annual loss ratios are applied to loan balances in the portfolio and scaled to the estimated loss emergence period.

### Fair value estimation

The fair value of financial instruments traded in active markets (such as trading and available-for-sale securities) is based on quoted market prices at the end of the reporting period. The quoted market price used for financial assets held by the entity is the current bid price.

The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. The entity uses a variety of methods and makes assumptions that are based on market conditions existing at the end of each reporting period. Quoted market prices or dealer quotes for similar instruments are used for long-term debt. Other techniques, such as estimated discounted cash flows, are used to determine fair value for the remaining financial instruments.

The carrying value less impairment provision of trade receivables and payables are assumed to approximate their fair values. The fair value of financial liabilities for disclosure purposes is estimated by discounting the future contractual cash flows at the current market interest rate that is available to the entity for similar financial instruments.

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

### 1.2 Significant judgements and sources of estimation uncertainty (continued)

### Impairment testing

The recoverable amounts of cash-generating units and individual assets have been determined based on the higher of value-in-use calculations and fair values less costs to sell. These calculations require the use of estimates and assumptions. It is reasonably possible that the assumptions may change which may then impact our estimations and may then require a material adjustment to the carrying value of goodwill and tangible assets.

The entity reviews and tests the carrying value of assets when events or changes in circumstances suggest that the carrying amount may not be recoverable. Assets are grouped at the lowest level for which identifiable cash flows are largely independent of cash flows of other assets and liabilities. If there are indications that impairment may have occurred, estimates are prepared of expected future cash flows for each group of assets. Expected future cash flows used to determine the value in use of tangible assets are inherently uncertain and could materially change over time. They are significantly affected by a number of factors together with economic factors such as exchange rates, inflation and interest rates.

### **Provisions**

Provisions were raised and management determined an estimate based on the information available. Additional disclosure of these estimates of provisions are included in note 13 - Provisions.

### Employee benefit obligation

The present value of the post retirement obligation depends on a number of factors that are determined on an actuarial basis using a number of assumptions. The assumptions used in determining the net cost (income) include the discount rate. Any changes in these assumptions will impact on the carrying amount of post retirement obligations.

The entity determines the appropriate discount rate at the end of each year. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the entity considers market yields at the terms to maturity approximating the terms of the related pension or other long-term liability. Where there is no market in government bonds with a sufficiently long maturity to match the estimated maturity of all the benefit payments, the entity uses current market rates of the appropriate term to discount shorter term payments, and estimates the discount rate for longer maturities by extrapolating current market rates along the yield curve.

Other key assumptions for pension obligations are based on current market conditions. Additional information is disclosed in Note 7.

### Effective interest rate

The entity uses an appropriate interest rate taking into account guidance provided in the accounting standards and applying professional judgements, to the specific circumstances to discount future cash flows.

### Impairment of financial assets

On receivables an impairment loss is recognised in surplus and deficit when there is objective evidence that it is impaired. The impairment is measured as the difference between the receivable's carrying amount and the present value of estimated future cash flows discounted at the effective interest rate, computed at initial recognition.

### Useful lives and residual value

The entity's management determines the estimated useful lives and related depreciation charges for the property, plant and equipment and other tangible assets. This estimate is based on industry norms and on the pattern in which an asset's future economic benefit or service potential is expected to be consumed by the entity. Management will increase the depreciation charge where useful lives are less than the previously estimated useful lives and decrease the depreciation charge where the useful lives are more than the previously estimated useful lives.

The carrying amounts of the assets are disclosed under notes 3 and 4.

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

### 1.3 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- · use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the entity, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost, Transaction costs are included in the initial measurement,

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

Investment property is depreciated on the straight line basis over their expected useful lives to their estimated residual value.

The useful lives of investment property have been assessed as follows:

Item Investment property

Average useful life

30 years

Investment property is carried at cost less accumulated depreciation and any accumulated impairment losses.

Investment property is derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of investment property is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of investment property is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

The entity separately discloses expenditure to repair and maintain investment property in the notes to the financial statements (see note).

### 1.4 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- · it is probable that future economic benefits or service potential associated with the item will flow to the entity; and
- the cost of the item can be measured reliably.

Property, plant and equipment is initially measured at cost.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

### 1.4 Property, plant and equipment (continued)

The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost.

Where an asset is acquired through a non-exchange transaction, its cost is its fair value as at date of acquisition.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, it's deemed cost is the carrying amount of the asset(s) given up.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Costs include costs incurred initially to acquire or construct an item of property, plant and equipment and costs incurred subsequently to add to, replace part of, or service it. If a replacement cost is recognised in the carrying amount of an item of property, plant and equipment, the carrying amount of the replaced part is derecognised.

Property, plant and equipment are depreciated on the straight line basis over their expected useful lives to their estimated residual value.

Property, plant and equipment is carried at cost less accumulated depreciation and any impairment losses.

The useful lives of items of property, plant and equipment have been assessed as follows:

| Item                   | Depreciation method | Average useful life |
|------------------------|---------------------|---------------------|
| Buildings              | Straight line       | 30 years            |
| Plant and machinery    | Straight line       | 10 - 17 years       |
| Furniture and fixtures | Straight line       | 7 - 15 years        |
| Motor vehicles         | Straight line       | 8 - 10 years        |
| Office equipment       | Straight line       | 7 - 13 vears        |
| IT equipment           | Straight line       | 5 - 12 years        |
| Finance leased assets  | Straight line       | 3 - 5 yéars         |

The depreciable amount of an asset is allocated on a systematic basis over its useful life.

Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the entity. The depreciation method applied to an asset is reviewed at least at each reporting date and, if there has been a significant change in the expected pattern of consumption of the future economic benefits or service potential embodied in the asset, the method is changed to reflect the changed pattern. Such a change is accounted for as a change in an accounting estimate.

The entity assesses at each reporting date whether there is any indication that the entity expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the entity revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in surplus or deficit unless it is included in the carrying amount of another asset.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

### 1.4 Property, plant and equipment (continued)

Assets which the entity holds for rentals to others and subsequently routinely sell as part of the ordinary course of activities, are transferred to inventories when the rentals end and the assets are available-for-sale. Proceeds from sales of these assets are recognised as revenue. All cash flows on these assets are included in cash flows from operating activities in the cash flow statement.

The entity separately discloses expenditure to repair and maintain property, plant and equipment in the notes to the financial statements (see note 21).

The entity discloses relevant information relating to capital work in progress in the notes to the financial statements (see note 3).

### 1.5 Intangible assets

An asset is identifiable if it either:

- is separable, i.e. is capable of being separated or divided from an entity and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, identifiable assets or liability, regardless of whether the entity intends to do so; or
- arises from binding arrangements (including rights from contracts), regardless of whether those rights are transferable or separable from the entity or from other rights and obligations.

An intangible asset is recognised when:

- it is probable that the expected future economic benefits or service potential that are attributable to the asset will
  flow to the entity; and
- the cost or fair value of the asset can be measured reliably.

Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred.

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
- there are available technical, financial and other resources to complete the development and to use or sell the
  asset.
- the expenditure attributable to the asset during its development can be measured reliably.

Intangible assets are carried at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Reassessing the useful life of an intangible asset with a finite useful life after it was classified as indefinite is an indicator that the asset may be impaired. As a result the asset is tested for impairment and the remaining carrying amount is amortised over its useful life.

Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Internally generated goodwill is not recognised as an intangible asset.

Amortisation is provided to write down the intangible assets, on a straight line basis, to their residual values as follows:

Item Depreciation method Average useful life

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.5 Intangible assets (continued)

Computer software, other

Straight line

3 - 7 years

The amortisation charge for each period is recognised in surplus or deficit.

Intangible assets are derecognised:

- on disposal; or
- · when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of intangible assets is included in surplus or deficit when the asset is derecognised (unless the Standard of GRAP on leases requires otherwise on a sale and leaseback).

# 1.6 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or a residual interest of another entity.

# Classification

The entity classifies financial assets and financial liabilities into the following categories:

- · Loans and receivables measured at amortised cost
- Financial liabilities measured at amortised cost

# Class

Cash and cash equivalents
Receivables from exchange transactions
Loans to shareholder

# Category

Financial asset measured at amortised cost Financial asset measured at amortised cost Financial asset measured at amortised cost

The entity has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

# Class

Payables from exchange transactions Finance lease Loans from shareholder

# Category

Financial liability measured at amortised cost loans from shareholder Financial liability measured at amortised cost

# Initial recognition

The entity recognises a financial instrument when the entity becomes a party to the contractual provisions of the instrument.

The entity classifies financial instruments, or their component parts, on initial recognition as a financial asset, a financial liability or an equity instrument in accordance with the substance of the contractual arrangement.

# Initial and subsequent measurement

Financial instruments are initially measured at fair value, except for equity investments for which a fair value is not determinable, which are measured at cost and are classified as available-for-sale financial assets.

Loans and receivables are subsequently measured at amortised cost, using the effective interest rate method less any accumulated impairment losses.

Financial liabilities at amortised cost are subsequently measured at amortised cost using the effective interest rate method

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.6 Financial instruments (continued)

# Financial assets and financial liabilities

Loans to (from) economic entity

These include loans to (from) shareholders, fellow controlled entities, joint ventures and associates and are recognised at fair value plus direct transaction costs.

Loans to economic entity are classified as part of loans and receivables.

Loans from economic entity are classified as part of financial liabilities measured at amortised cost.

Receivables from exchange transactions

Trade receivables are initially measured at fair value, subsequently measured at amortised cost using the effective interest rate method. Appropriate allowance for estimated recoverable amounts are recognised in surplus or deficit when there is objective evidence that the asset is impaired. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payment (more than 30 days past due) are considered indicators that the trade receivable is impaired. The allowance recognised is measured as the difference between the assets carrying amount and the present value of estimated future cashflows discounted at the effective interest rate computed at initial recognition.

The carrying amount of the asset is reduced through the use of an allowance asset, and the amount of the deficit is recognised in surplus or deficit within operating expenses. When a trade receivable is uncollectable, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against operating expenses in surplus or deficit.

Trade and other receivables are classified as loans and receivables.

Payables from exchange transactions

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and demand deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value. These are initially recorded at fair value and subsequently recorded at amortised cost.

# Fair value measurement considerations

The fair values of quoted investments are based on current bid prices. If the market for a financial asset is not active (and for unlisted securities), the entity establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

# Impairment and uncollectibility of financial assets

The entity assesses at the end of each reporting period whether there is any objective evidence that a financial asset or group of financial assets is impaired.

For amounts due to the entity, significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy and default of payments are all considered indicators of impairment.

Where financial assets are impaired through use of an allowance account, the amount of loss is recognised in surplus or deficit within operating expenses. When such assets are written off, the write off is made against the relevant allowance account. Subsequent recoveries of amounts previously written off are credited against operating expenses.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.6 Financial instruments (continued)

# Derecognition

# Financial assets

The entity derecognises a financial asset (or where applicable a part of a financial asset or part of a group of similar financial assets) where:

- the contractual rights to the cash flows from the financial asset expire, are settled or waived;
- · the entity transfers to another party substantially all of the risks and rewards of ownership of the financial asset; or
- the entity, despite having retained some significant risks and rewards of ownership of the financial asset, has transferred control of the asset to another party.

Where the entity has transferred its rights to receive cash flows from an asset and has neither transferred nor retained substantially all the the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the entity's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the entity could be required to pay. Where continuing involvement takes the form of a written and/or purchased option (including cash-settled option or similar provision) on an asset, the extent of the entity's continuing involvement is the amount of the transferred asset that entity may repurchase, except that in the case of a written put option (including a cash-settled option or similar provision) on an asset measured at fair value, the extent of the entity's continuing involvement is limited to the lower of the fair value of the transferred asset and the option exercise price.

# Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and recognition of a new liability, and the difference in the respective carrying amounts is recognised in surplus or deficit

# 1.7 Tax

# Current tax assets and liabilities

Current tax for current and prior periods is, to the extent unpaid, recognised as a liability. If the amount already paid in respect of current and prior periods exceeds the amount due for those periods, the excess is recognised as an asset.

Current tax liabilities (assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the tax authorities, using the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

# Deferred tax assets and liabilities

A deferred tax liability is recognised for all taxable temporary differences, except to the extent that the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the transaction, affects neither accounting surplus nor taxable profit (tax loss).

A deferred tax asset is recognised for all deductible temporary differences to the extent that it is probable that taxable surplus will be available against which the deductible temporary difference can be utilised. A deferred tax asset is not recognised when it arises from the initial recognition of an asset or liability in a transaction at the time of the transaction, affects neither accounting surplus nor taxable profit (tax loss).

A deferred tax asset is recognised for the carry forward of unused tax losses and unused STC credits to the extent that it is probable that future taxable surplus will be available against which the unused tax losses and unused STC credits can be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.7 Tax (continued)

# Tax expenses

Current and deferred taxes are recognised as income or an expense and included in surplus or deficit for the period, except to the extent that the tax arises from:

- a transaction or event which is recognised, in the same or a different period, to net assets; or
- a business combination.

Current tax and deferred taxes are charged or credited to net assets if the tax relates to items that are credited or charged, in the same or a different period, to net assets.

# 1.8 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the entity assesses the classification of each element separately.

# Finance leases - lessee

Finance leases are recognised as assets and liabilities in the statement of financial position at amounts equal to the fair value of the leased property or, if lower, the present value of the minimum lease payments. The corresponding liability to the lessor is included in the statement of financial position as a finance lease obligation.

The discount rate used in calculating the present value of the minimum lease payments is the interest rate implicit in the lease.

Minimum lease payments are apportioned between the finance charge and reduction of the outstanding liability. The finance charge is allocated to each period during the lease term so as to produce a constant periodic rate of on the remaining balance of the liability.

Any contingent rents are expensed in the period in which they are incurred.

# Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

The aggregate benefit of incentives is recognised as a reduction of rental expense over the lease term on a straight-line basis.

Income for leases is disclosed under revenue in statement of financial performance.

# Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

The aggregate benefit of incentives is recognised as a reduction of rental expense over the lease term on a straight-line basis over the lease term.

Any contingent rent is expensed in the period in which it is incurred.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.9 Impairment of cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

A cash-generating unit is the smallest identifiable group of assets used with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

## Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The entity assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the entity estimates the recoverable amount of the asset.

The recoverable amount of a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

Irrespective of whether there is any indication of impairment, the entity also tests a cash-generating intangible asset with an indefinite useful life or a cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

# Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the entity estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the entity applies the appropriate discount rate to those future cash flows.

# Discount rate

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk-free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted.

# Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

When the amount estimated for an impairment loss is greater than the carrying amount of the cash-generating asset to which it relates, the entity recognises a liability only to the extent that is a requirement in the Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.9 Impairment of cash-generating assets (continued)

# Reversal of impairment loss

The entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in surplus or deficit.

Any reversal of an impairment loss of a revalued cash-generating asset is treated as a revaluation increase.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

# Redesignation

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur. when there is clear evidence that such a redesignation is appropriate.

# 1.10 Impairment of non-cash-generating assets

Cash-generating assets are assets used with the objective of generating a commercial return. Commercial return means that positive cash flows are expected to be significantly higher than the cost of the asset.

Non-cash-generating assets are assets other than cash-generating assets.

A cash-generating unit is the smallest identifiable group of assets managed with the objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable service amount is the higher of a non-cash-generating asset's fair value less costs to sell and its value in use.

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.10 Impairment of non-cash-generating assets (continued)

Useful life is either:

- the period of time over which an asset is expected to be used by the entity; or
- · the number of production or similar units expected to be obtained from the asset by the entity.

Judgements made by management in applying the criteria to designate assets as non-cash-generating assets or cash-generating assets, are as follows:

# Identification

When the carrying amount of a non-cash-generating asset exceeds its recoverable service amount, it is impaired.

The entity assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the entity estimates the recoverable service amount of the asset.

Recoverable service amount is the higher of a non-cash generating assets fair value less cost to sell and its value in use.

Irrespective of whether there is any indication of impairment, the entity also tests a non-cash-generating intangible asset with an indefinite useful life or a non-cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable service amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

# Value in use

Value in use of non-cash-generating assets is the present value of the non-cash-generating assets remaining service potential.

The present value of the remaining service potential of a non-cash-generating assets is determined using the following approach:

# Depreciated replacement cost approach

The present value of the remaining service potential of a non-cash-generating asset is determined as the depreciated replacement cost of the asset. The replacement cost of an asset is the cost to replace the asset's gross service potential. This cost is depreciated to reflect the asset in its used condition. An asset may be replaced either through reproduction (replication) of the existing asset or through replacement of its gross service potential. The depreciated replacement cost is measured as the current reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

The replacement cost and reproduction cost of an asset is determined on an "optimised" basis. The rationale is that the entity would not replace or reproduce the asset with a like asset if the asset to be replaced or reproduced is an overdesigned or overcapacity asset. Overdesigned assets contain features which are unnecessary for the goods or services the asset provides. Overcapacity assets are assets that have a greater capacity than is necessary to meet the demand for goods or services the asset provides. The determination of the replacement cost or reproduction cost of an asset on an optimised basis thus reflects the service potential required of the asset.

# Recognition and measurement

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in surplus or deficit.

When the amount estimated for an impairment loss is greater than the carrying amount of the non-cash-generating asset to which it relates, the entity recognises a liability only to the extent that is a requirement in the Standards of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.10 Impairment of non-cash-generating assets (continued)

# Reversal of an impairment loss

The entity assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in surplus or deficit.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

# Redesignation

The redesignation of assets from a cash-generating asset to a non-cash-generating asset or from a non-cash-generating asset to a cash-generating asset only occur when there is clear evidence that such a redesignation is appropriate.

(Registration number 2000/023385/07) Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.11 Share capital / contributed capital

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the entity are classified according to the substance of the contractual arrangements entered into.

Equity instruments issued by the entity are recorded at the proceeds received, net of direct issue costs.

Equity instruments issued by the entity are recorded at the proceeds received, net of direct issue costs.

# 1.12 Employee benefits

# Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or, in the case of non-accumulating absences, when the absence occurs.

The expected cost of surplus sharing and bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

# Defined contribution plans

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

Payments made to industry-managed (or state plans) retirement benefit schemes are dealt with as defined contribution plans where the entity's obligation under the schemes is equivalent to those arising in a defined contribution retirement benefit plan.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.12 Employee benefits (continued)

# Defined benefit plans

For defined benefit plans the cost of providing the benefits is determined using the projected credit method.

Actuarial valuations are conducted on an annual basis by independent actuaries separately for each plan.

Consideration is given to any event that could impact the funds up to end of the reporting period where the interim valuation is performed at an earlier date.

Past service costs are recognised immediately to the extent that the benefits are already vested, and are otherwise amortised on a straight line basis over the average period until the amended benefits become vested.

To the extent that, at the beginning of the financial period, any cumulative unrecognised actuarial gain or loss exceeds ten percent of the greater of the present value of the projected benefit obligation and the fair value of the plan assets (the corridor), that portion is recognised in surplus or deficit over the expected average remaining service lives of participating employees. Actuarial gains or losses within the corridor are not recognised.

Gains or losses on the curtailment or settlement of a defined benefit plan is recognised when the entity is demonstrably committed to curtailment or settlement.

When it is virtually certain that another party will reimburse some or all of the expenditure required to settle a defined benefit obligation, the right to reimbursement is recognised as a separate asset. The asset is measured at fair value. In all other respects, the asset is treated in the same way as plan assets. In surplus or deficit, the expense relating to a defined benefit plan is presented as the net of the amount recognised for a reimbursement.

The amount recognised in the statement of financial position represents the present value of the defined benefit obligation as adjusted for unrecognised actuarial gains and losses and unrecognised past service costs, and reduces by the fair value of plan assets.

Any asset is limited to unrecognised actuarial losses and past service costs, plus the present value of available refunds and reduction in future contributions to the plan.

# Other post retirement obligations

The entity provides post-retirement health care benefits, housing subsidies and gratuities upon retirement to some retirees.

The entitlement to post-retirement health care benefits is based on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment. Independent qualified actuaries carry out valuations of these obligations. The entity also provides a gratuity and housing subsidy on retirement to certain employees. An annual charge to income is made to cover both these liabilities.

# 1.13 Provisions and contingencies

Provisions are recognised when:

- the entity has a present obligation as a result of a past event;
- it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; and
- a reliable estimate can be made of the obligation.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date.

Where some or all of the expenditure required to settle a provision is expected to be reimbursed by another party, the reimbursement is recognised when, and only when, it is virtually certain that reimbursement will be received if the entity settles the obligation. The reimbursement is treated as a separate asset. The amount recognised for the reimbursement does not exceed the amount of the provision.

A provision is used only for expenditures for which the provision was originally recognised.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.13 Provisions and contingencies (continued)

Provisions are not recognised for future operating deficits.

If an entity has a contract that is onerous, the present obligation (net of recoveries) under the contract is recognised and measured as a provision.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in note 28.

# 1.14 Commitments

Items are classified as commitments when an entity has committed itself to future transactions that will normally result in the outflow of cash.

Disclosures are required in respect of unrecognised contractual commitments.

Commitments for which disclosure is necessary to achieve a fair presentation should be disclosed in a note to the financial statements, if both the following criteria are met:

- Contracts should be non-cancellable or only cancellable at significant cost (for example, contracts for computer or building maintenance services), and
- Contracts should relate to something other than the routine, steady, state business of the entity therefore salary
  commitments relating to employment contracts or social security benefit commitments are excluded.

# 1.15 Revenue from exchange transactions

Revenue is the gross inflow of economic benefits or service potential during the reporting period when those inflows result in an increase in net assets, other than increases relating to contributions from owners.

An exchange transaction is one in which the municipality receives assets or services, or has liabilities extinguished, and directly gives approximately equal value (primarily in the form of goods, services or use of assets) to the other party in exchange.

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

# Measurement

Revenue is measured at the fair value of the consideration received or receivable, net of trade discounts and volume rebates.

# Sale of goods

Revenue from the sale of goods is recognised when all the following conditions have been satisfied:

- the entity has transferred to the purchaser the significant risks and rewards of ownership of the goods;
- the entity retains neither continuing managerial involvement to the degree usually associated with ownership nor
  effective control over the goods sold;
- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the entity;
   and
- the costs incurred or to be incurred in respect of the transaction can be measured reliably.

(Registration number 2000)/023383/07)
Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.15 Revenue from exchange transactions (continued)

# Rendering of services

When the outcome of a transaction involving the rendering of services can be estimated reliably, revenue associated with the transaction is recognised by reference to the stage of completion of the transaction at the reporting date. The outcome of a transaction can be estimated reliably when all the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the economic benefits or service potential associated with the transaction will flow to the entity;
- the stage of completion of the transaction at the reporting date can be measured reliably; and
- the costs incurred for the transaction and the costs to complete the transaction can be measured reliably.

When the outcome of the transaction involving the rendering of services cannot be estimated reliably, revenue is recognised only to the extent of the expenses recognised that are recoverable.

Service revenue is recognised by reference to the stage of completion of the transaction at the reporting date. Stage of completion is determined by surveys of work performed.

# Interest, royalties and dividends

Revenue arising from the use by others of entity assets yielding interest, royalties and dividends or similar distributions is recognised when:

- It is probable that the economic benefits or service potential associated with the transaction will flow to the entity,
- The amount of the revenue can be measured reliably.

Interest is recognised, in surplus or deficit, using the effective interest rate method.

Royalties are recognised as they are earned in accordance with the substance of the relevant agreements.

Dividends or similar distributions are recognised, in surplus or deficit, when the entity's right to receive payment has been established.

Service fees included in the price of the product are recognised as revenue over the period during which the service is performed.

# 1.16 Revenue from non-exchange transactions

Non-exchange transactions are transactions that are not exchange transactions. In a non-exchange transaction, an entity either receives value from another entity without directly giving approximately equal value in exchange, or gives value to another entity without directly receiving approximately equal value in exchange.

# Recognition

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

As the entity satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to that reduction.

# Measurement

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the entity.

When, as a result of a non-exchange transaction, the entity recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquisition, unless it is also required to recognise a liability. Where a liability is required to be recognised it will be measured as the best estimate of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

# 1.16 Revenue from non-exchange transactions (continued)

## Taxes

The entity recognises an asset in respect of taxes when the taxable event occurs and the asset recognition criteria are met.

Resources arising from taxes satisfy the definition of an asset when the entity controls the resources as a result of a past event (the taxable event) and expects to receive future economic benefits or service potential from those resources. Resources arising from taxes satisfy the criteria for recognition as an asset when it is probable that the inflow of resources will occur and their fair value can be reliably measured. The degree of probability attached to the inflow of resources is determined on the basis of evidence available at the time of initial recognition, which includes, but is not limited to, disclosure of the taxable event by the taxpayer.

The entity analyses the taxation laws to determine what the taxable events are for the various taxes levied.

The taxable event for income tax is the earning of assessable income during the taxation period by the taxpayer.

The taxable event for value added tax is the undertaking of taxable activity during the taxation period by the taxpayer.

The taxable event for customs duty is the movement of dutiable goods or services across the customs boundary.

The taxable event for estate duty is the death of a person owning taxable property.

The taxable event for property tax is the passing of the date on which the tax is levied, or the period for which the tax is levied, if the tax is levied on a periodic basis.

Taxation revenue is determined at a gross amount. It is not reduced for expenses paid through the tax system,

# 1.17 Accumulated surplus

# 1.18 Investment income

Investment income is recognised on a time-proportion basis using the effective interest method.

# 1.19 Borrowing costs

Borrowing costs are interest and other expenses incurred by an entity in connection with the borrowing of funds,

All other borrowing costs are recognised as an expense in the period in which they are incurred.

# 1.20 Comparative figures

Where necessary, comparative figures have been reclassified to conform to changes in presentation in the current year.

# 1.21 Unauthorised expenditure

Unauthorised expenditure means:

- · overspending of a vote or a main division within a vote; and
- expenditure not in accordance with the purpose of a vote or, in the case of a main division, not in accordance with the purpose of the main division.

All expenditure relating to unauthorised expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

# 1.22 Fruitless and wasteful expenditure

Fruittess expenditure means expenditure which was made in vain and would have been avoided had reasonable care been exercised.

(Registration number 2000/023383/07)
Financial Statements for the year ended 30 June 2018

# **Accounting Policies**

# 1.22 Fruitless and wasteful expenditure (continued)

All expenditure relating to fruitless and wasteful expenditure is recognised as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

# 1.23 Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the economic entity's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

# 1.24 Value-added tax (VAT)

The entity is registered with the South African Revenue Services (SARS) for VAT on the invoice basis, in accordance with section 15(2) of the VAT Act No.89 of 1991,

# 1.25 Budget information

The Statement of comparative and actual information has been included in the financial statements as the recommended disclosure when the financial statements and the budget are on the same basis of accounting as determined by National Treasury.

# 1.26 Related parties

A related party is a person or an entity with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or an entity that is subject to common control, or joint control.

The entity operates in an economic sector currently dominated by entities directly or indirectly owned by the South African Government. As a consequence of the constitutional independence of the three spheres of government in South Africa, only entities within the local sphere of government are considered to be related parties.

# 1.27 Events after reporting date

Events after reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date);
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

The entity will adjust the amount recognised in the financial statements to reflect adjusting events after the reporting date.

The entity will disclose the nature of the event and an estimate of its financial effect or a statement that such estimate cannot be made in respect of all material non-adjusting events, where non-disclosure could influence the economic decisions of users taken on the basis of the financial statements.

# 1.28 Statements on GRAP issued but not yet effective

At the date of authorisation of these Annual Financial Statements, the following standards of GRAP were in issue but not yet effective or adopted during the period under review:

GRAP 20 - Related Parties

GRAP 32 - Service concession arrangements: Grantor.

GRAP 34 - Separate financial statements

GRAP 35 - Consolidated financial statements

GRAP 36 - Investments in associates and joint ventures

GRAP 37 - Joint arrangements

GRAP 38 - Disclosure of interest in other entities

GRAP 108 - Statutory Receivables

GRAP 109 - Accounting by Principles and Agents

GRAP 110 - Living and non-living resources

IGRAP 18 - Interpretation of the standard of GRAP on recognition and derecognition of land

The effect as a result of the adoption of the above GRAP standards will have no impact on the financial statements.

# 2. INVESTMENT PROPERTY (continued)

# **Details of property**

Investment property that was purchased from The City of Johannesburg Metropolitan Municipality, in terms of the sale of business agreement, dated 03 July 2000, has not yet been transferred into the name of the entity due to the absence of a framework provided by Section 14(6) of the Municipal Finance Management Act 2003. National Treasury has been engaged by The City of Johannesburg Metropolitan Municipality with the aim of resolving the matter.

# Investment property consists of the following properties:

Stand 118 City Deep Extension 2, Johannesburg, Gauteng - comprising of retail shops.

The market value of the property as determined by an independent valuator as at 21 October 2015 is R22,524,000.

An external, independent valuation entity, having appropriate recognised professional qualifications and recent experience in the location and category of property being valued, values the entity's investment property portfolio every two years. The fair values are based on market values, being the estimated amount for which a property could be exchanged on the date of the valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

In the absence of current prices in an active market, the valuations are prepared by considering the aggregate of the estimated cash flows expected to be received from renting out the property. A yield that reflects the specific risks inherent in the net cash flows then is applied to the net annual cash flows to arrive at the property valuation.

Valuations reflect, when appropriate, the type of tenants actually in occupation or responsible for meeting lease commitments or likely to be in occupation after letting vacant accommodation and the market's general perception of their creditworthiness; the allocation of maintenance and insurance responsibilities between the entity and the lessee and the remaining economic life of the property. When rent reviews or lease renewals are pending with anticipated reversionary increases, it is assumed that all notices, and when appropriate counter-notices, have been served validly and within the appropriate time.

The gross property rental income earned by the entity from its investment property, all of which are leased out under gross operating leases, amounted to R1,451,429 (2017: R1,351,166).

Expenditure relating to repairs and maintenance incurred during the year on investment property amounted to RNil (2017:RNil).

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the entity.

During the year no assets were pledged for security.

# 3. PROPERTY, PLANT AND EQUIPMENT (continued)

# **Details of properties**

Freehold land and buildings to the value of R 77,582,957 were purchased from The City of Johannesburg Metropolitan Municipality in terms of the sale of business agreement dated 03 July 2000, but has not yet been transferred into the name of the entity due to the absence of a framework provided by Section 14(6) of the Municipal Finance Management Act 2003. National Treasury has been engaged by The City of Johannesburg Metropolitan Municipality with the aim of resolving the matter.

Land and buildings comprise of the following properties:

Stand 117 City Deep Extension 2, Johannesburg, Gauteng - Market floors, retail outlets and an office block.

A register containing the information required by section 63 of the Municipal Finance Management Act is available for inspection at the registered office of the municipality.

# 7. EMPLOYEE BENEFIT OBLIGATIONS

# 7.1 Defined benefit plan

The actuarial valuations were done by ZAQ Consultants and Actuaries, an independent post retirement plan administrator, and they determined that the retirement plans were in a sound financial position, taking into account the notional loan account receivable from The City of Johannesburg Metropolitan Municipality.

# 7. EMPLOYEE BENEFIT OBLIGATIONS (continued)

# 7.1.2 Post retirement gratuity plan

The Joburg Market SOC Limited provides gratuities on retirement or prior death in respect of certain qualifying staff members who have service with The City of Johannesburg Metropolitan Municipality or The Joburg Market SOC Limited when they were not members of one of the retirement funds and who meet certain service requirements in terms of The City of Johannesburg Metropolitan Municipality's conditions of employment. The gratuity amount is based on 1 month's salary per year of non-retirement funding service. There are currently 9 qualifying staff members.

The above liability is unfunded. However, The City of Johannesburg Metropolitan Municipality has undertaken to cover such portion of the liability for the staff of The Joburg Market SOC Limited who are entitled to benefits that relate to their service with The City of Johannesburg Metropolitan Municipality from the time that the entity was established. This amount was determined at 1 July 2003 and has been crystallised in the form of a notional loan account and against which the entity may claim benefit payments, made. This loan does not constitute a plan asset and in terms of GRAP 25 cannot be offset against the liability. It has however been included in the assets of The Joburg Market SOC Limited.

The plan is a post-employment gratuity benefit plan.

# 7. EMPLOYEE BENEFIT OBLIGATIONS (continued)

# 7.2 Defined contribution plan

All employees transferred from The City of Johannesburg Metropolitan Municipality belong to various defined benefit plans established by The City of Johannesburg Metropolitan Municipality. New employees belong to the entity's retirement fund, a defined contribution plan established subsequent to the date of acquisition.

The total amount recognised as an expense for defined contribution plans for the year amounts to R10,121,454 (2017: R12,699,633).

During 2005 the City entered into an agreement with the Johannesburg Municipal Pension Fund and the City of Johannesburg Pension Fund to the effect that, in return for payment of an amount of R400 million plus interest from 1 January 2006:

- Except as set out below, the assets and liabilities of the City of Johannesburg Pension Fund will be merged into the Johannesburg Municipal Pension Fund and the City will sever all financial ties with the latter Fund.
- The City of Johannesburg Pension Fund will be converted into a defined contribution fund. Members will be given the option of remaining as members of the Fund and accruing future benefits on a defined contribution basis or of joining the The Joburg Market Retirement Fund in respect of the accrual of future service benefits. Pensioners will be given the opportunity to transfer to an insurer instead of remaining pensioners of the Johannesburg Municipal Pension Fund.
- The settlement amount is to be adjusted to allow for any excess contributions paid until the effective date and for the cost of bonus service in respect of exited members.

The necessary provisions have been made in The City of Johannesburg Metropolitan Municipality financial statements.

It is entity policy to lease certain [property]motor vehicles and equipment under finance leases.

The average lease term was 3-5 years and the average effective borrowing rate was 11% (2017: 11%).

Interest rates are linked to prime at the contract date. All leases have fixed repayments and no arrangements have been entered into for contingent rent. The entity has not defaulted on any of its interest or capital repayments during the year, and none of the terms and conditions of the finance leases were re-negotiated.

The entity's obligations under finance leases are secured by the lessor's charge over the leased assets. Refer note 3.

|    |  | 447 171    | 2 676 60   |  |  |  |

# 28. CONTINGENCIES

Other contingencies

The total estimated claims amount to R30,917,732, excluding legal costs, which is in respect of disputes with suppliers, the entity is of the view that this represents the maximum exposure. Details of the three (3) disputes are as follows:

Dispute with service provider - R7 717 732

Dispute with service provider - R200 000

Dispute with service provider - R23 000 000

The directors are of the opinion that the cases can be successfully defended by the entity.

Disputes with employees

The entity is involved in nine (9) litigious matters with employees and former employees. Five (5) of the matters are currently lodged with the CCMA and four (4) of the matters are currently lodged with the labour court. The directors are of the opinion that the cases can be successfully defended by the entity.

# **Contingent assets**

Subsequent to the disciplinary hearing in respect of the irregular expenditure referred to in Note 35, civil proceedings will commence against the employee concerned to recover an amount of R 1 870 107. According to Council's legal advisors, it is probable that the proceedings will result in the recovery of the full amount.

# 31. CHANGE IN ESTIMATE

# Property, plant and equipment

The useful lives of the following assets were revised during the year:

Furniture and fitting - 16 years (2017: 14 years)

Computer equipment - 12 years (2017: 11 years)

Plant and machinery - 17 years (2017: 15 years)

Office equipment - 13 years (2017: 12 years)

Software - 7 years (2017: 5 years)

The cumulative effect of the increase in useful lives has resulted in a decrease of the depreciation charges for the current and future periods by R75 128

# 32. PRIOR-YEAR ADJUSTMENTS

Presented below are those items contained in the statement of financial position, statement of financial performance and cash flow statement that have been affected by prior-year adjustments:

# **Errors**

Refuse invoice was paid in the current that related to a prior year service.

Insurance costs paid in the current year was for the period ending June 2017 and required prior period adjustment.

Overseas travel expense which was incorrectly accrued for during the 2016 financial year was discovered in the current year.

An error in the calculation of deferred tax in the prior years was identified and corrected during the current year. The error was as a result of not claiming the wear and tear allowances on non-current assets as per the income tax.

# **Joburg Market (SOC) Limited** (Registration number 2000/023383/07)

Financial Statements for the year ended 30 June 2018

# **Notes to the Financial Statements**

Figures in Rand 2018 2017

# 32. PRIOR-YEAR ADJUSTMENTS (continued)

A deviation related to South African International Trade Exhibition services was inadvertently not disclosed during the prior period. The deviations note has since been ammended to include the deviation under exceptional cases in the peior period. The disclosure amount does not affect the statement of financial performance or the statement of financial position.

# Error 1

In the prior period the entity had awarded certain contracts to persons who are spouses of members in the service of the state. These declarations should have been disclosed in line with regulation 45 of the Municipal Supply Chain Regulations but were not:

Name: Klaas Skosana

Capacity: Deputy Director - The department of Trade and Industry

Award amount: R45 000

Name: Zirk Joubert

Capacity: Chief Director - The department of Higher Education

Award amount: R200 000

(Registration number 2000/023383/07) Financial Statements for the year ended 30 June 2018

# 33. RISK MANAGEMENT

# Financial risk management

The entity's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The entity's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the entity's financial performance. The entity uses derivative financial instruments to hedge certain risk exposures. Risk management is carried out by a central treasury department (entity treasury) under policies approved by the directors. Entity treasury identifies, evaluates and hedges financial risks in close co-operation with the entity's operating units. The directors provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

# Liquidity risk

The entity's risk to liquidity is a result of the funds available to cover future commitments. The entity manages liquidity risk through an ongoing review of future commitments and credit facilities.

# Credit risk

Credit risk consists mainly of cash deposits, cash equivalents, derivative financial instruments and trade debtors. The entity only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis. If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards. Credit guarantee insurance is purchased when deemed appropriate.

Financial assets exposed to credit risk at year end were as follows:

| Financial instrument                   | 2018        | 2017        |
|--|-------------|-------------|
| Cash and cash equivalents              | 201 206 750 | 124 022 152 |
| Receivables from exchange transactions | 37 036 491  | 34 260 623  |
| Loans to shareholder                   | 153 606 150 | 81 618 304  |
|  |             |             |

| Avis car rental   | The contract expired, however there was a need to use the vehicles. The extension of the contract was done by CoJ which allowed the entities to continue to rent the Avis cars for transportation purposes.   |           | 045                     |
| Eqstra equipments rental  | The contract expired, however there was a need to use the vehicles. The extension of the contract was done by CoJ which allowed the entities to continue to rent the Eqstra forklifts.  |           | 010                     |
| Strauss Daly Attorneys  | The deviation was caused by the variation on the appointment which went above the threshold of R 200 000.00. This is because the service provider was charging on an hourly basis and the process was not completed whe the budget was depleted. Therefore it would have been impractical to source another service provider. | e         | : 576                   |

# 37. DEVIATION FROM SUPPLY CHAIN MANAGEMENT REGULATIONS

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the directors and includes a note to the financial statements.
