Annual Financial Statements for the year ended 30 June 2018

## **Accounting Officer's Responsibilities and Approval**

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the City as at 30 June 2018 and the results of its operations and cash flows for the year then ended.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that she is ultimately responsible for the system of internal financial control established by the City and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the City and all employees are required to maintain the highest ethical standards in ensuring the City's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the City is on identifying, assessing, managing and monitoring all known forms of risk across the City. While operating risk cannot be fully eliminated, the City endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute assurance against material misstatement or deficit.

The accounting officer has reviewed the City's cash flow forecast for the year to 30 June 2019 and, in the light of this review and the current financial position, she is satisfied that the City has, or has access to, adequate resources to continue in operational existence for the foreseeable future.

Although the accounting officer is primarily responsible for the financial affairs of the City, she is supported by the City's internal auditors.

The annual financial statements set out on pages 4 to 90 which have been prepared on the going concern basis, were approved and signed by the accounting officer on 31 August 2018.

Annual Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

#### 1. Presentation of Annual Financial Statements

#### **Basis of Preparation**

The annual financial statements were prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

The annual financial statements were prepared on the accrual basis of accounting and incorporate the historical cost conventions as the basis of measurement, except where otherwise specified.

In the absence of an issued and effective Standard of GRAP, accounting policies for material transactions, events or conditions were developed in accordance with paragraphs 8, 10 and 11 of GRAP 3 as read with Directive 5.

Assets, liabilities, revenues and expenses were not offset, except where offsetting is either required or permitted by a Standard of GRAP.

The principal accounting policies, applied in the preparation of the annual financial statements, are set out below. These accounting policies are consistent with those applied in the preparation of the prior year annual financial statements, unless, otherwise specified. Details of any changes in the accounting policies are provided in the note "Changes in accounting policy."

#### 1.1 Significant judgements and sources of estimation uncertainty

In the process of applying the City's accounting policies, management has made the following significant accounting judgements, estimates and assumptions, which have the most significant effect on the amounts recognised in the annual financial statements:

#### · Pension and other post - employment benefits

The cost of defined-benefit pension plans and other employment medical benefits is determined using actuarial valuations. The actuarial valuation involves making assumptions about discount rates, expected rates of return on assets, future salary increases, mortality rates and future pension increases. Due to the long-term nature of these plans, such estimates are subject to significant uncertainty.

#### · Impairment of receivables

The calculation in respect of the impairment of receivables is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments. The City first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, and individually or collectively for financial assets that are not individually significant.

#### · Impairment of property, plant and equipment

The calculation in respect of the impairment of property, plant and equipment is based on an assessment of the extent to which the recoverable amount of the asset has declined below the carrying amount. This was performed across all classes of property, plant and equipment.

#### • Provisions, contingent liabilities and contingent assets

Management's judgement is required when recognising and measuring provisions, as well as when measuring contingent liabilities and contingent assets. Provisions are discounted where the effect of discounting is material, the using cost of capital.

#### • Useful lives of property, plant and equipment and investment property held at cost

The useful lives of assets are based on management's estimates. Management considers the impact of technology, service requirements and required return on assets to determine the optimum useful-life expectation, where appropriate. This was performed on an individual basis as well as per service-identifiable categories across all debtor classes.

### Traffic Fines

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset. Assets arising from fines are measured at the best estimate of the inflow of resources to the City.

#### Budget information

A difference of 5% or more between budget and actual amounts is regarded as material. All material differences are explained in the notes to the annual financial statements.

The accounting policies applied are consistent with those used to present the previous year's annual financial statements, unless explicitly stated otherwise.

#### 1.2 Presentation currency

This annual financial statements are presented in South African Rand, which is the functional currency of the City.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.3 Investment property

Investment property includes property (land or a building, or part of a building, or both land and buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

Investment property is recognised as an asset when, and only when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the enterprise, and the cost or fair value of the investment property can be measured reliably.

At initial recognition, the City measures investment property at cost including transaction costs, once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition.

#### Cost model

Investment property is subsequently measured using the cost model. Under the cost model, investment property is carried at cost less any accumulated depreciation and any accumulated impairment losses.

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The annual depreciation rates are based on the following estimated average asset lives:

Depreciation is provided to write down the cost by equal instalments over the useful life of the property, which is as follows:

ItemUseful lifeProperty - landIndefiniteProperty - buildings50 - 60 years

Investment property is derecognised on disposal or when the investment property is permanently withdrawn from use and no future economic benefits or service potential are expected from its disposal.

Gains or losses arising from the retirement or disposal of investment property is the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in the statement of financial performance in the period of retirement or disposal.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in the statement of financial performance when the compensation becomes receivable.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.4 Property, plant and equipment

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one period.

The cost of an item of property, plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the City; and
- the cost or the fair value of the item can be measured reliably.

Property, plant and equipment is initially measured at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Trade discounts and rebates are deducted in arriving at the cost. Cost also includes initial estimate of the costs of dismantling and removing the asset and restoring the site on which it is located. Recognition of costs in the carrying amount of an item of property, plant and equipment ceases when the item is in the location and condition necessary for it to be capable of operating in the manner intended by management. Servitudes that are acquired with the relevant infrastructure items are capitalised with the relating infrastructure asset when it is an integral part of the asset.

Assets under construction represents capital expenditure incurred on projects not yet completed nor ready for use at period end.

Property, plant and equipment are subsequently measured at cost, less accumulated depreciation and accumulated impairment losses. Where property, plant and equipment are acquired through non-exchange transactions, the cost is deemed to be the item's fair value on the date of acquisition. The cost of an item of property, plant and equipment acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets is measured at its fair value. If the acquired item could not be measured at its fair value, its cost was measured at the carrying amount of the asset given up.

Subsequent cost is capitalised when the recognition and measurement criteria of an asset are met.

Items such as spare parts, standby equipment and servicing equipment are recognised when they meet the definition of property, plant and equipment.

The City maintains and acquires assets to provide a social service to the community. The useful lives and economic lives of these assets are equal and consequently no residual values are determined.

The City depreciates separately each part of an item of property, plant and equipment that has a cost that is significant in relation to the total cost of the item. Costs of replacing parts are capitalised and the existing parts being replaced are derecognised. Depreciation is calculated at cost, using the straight-line method, over the estimated useful lives of the assets. Depreciation starts when the asset is available for use. Assets under construction are not depreciated.

The depreciation rates are based on the following estimated useful lives:

| Item Land Buildings                 | <b>Useful life</b><br>Indefinite<br>14 - 80 years |
|-------------------------------------|---|
| Infrastructure                      |   |
| Roads and stormwater                | 2 - 100 years                                     |
| Pedestrian malls                    | 10 - 60 years                                     |
| Electricity                         | 3 - 100 years                                     |
| Water                               | 3 - 100 years                                     |
| Sewer                               | 3 - 100 years                                     |

| Buildings                           | 14 - 80 years                                     |
| Recreational facilities             | 10 - 80 years                                     |
| Security                            | 5 - 15 years                                      |
| Landfill sites                      | 10 - 80 years                                     |
| Other property, plant and equipment |   |
| Furniture and fittings              | 3 - 33 years                                      |
| Water craft                         | 15 years  |
| Office equipment                    | 3 - 35 years                                      |
| Specialised plant and equipment     | 10 - 26 years                                     |
| Other items of plant and equipment  | 2 - 29 years                                      |
| Buildings                           | 20 - 80 years                                     |
| Specialised vehicles                | 3 - 20 years                                      |
| Other vehicles                      | 3 - 28 years                                      |

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.4 Property, plant and equipment (continued)

The asset management policy contains the details of the components and their specific useful life estimates.

The residual value, the useful life and the depreciation method of property, plant and equipment are reviewed at least at every reporting date.

At each reporting date all items of property, plant and equipment are reviewed for any indication that they may be impaired. An impairment exists when an asset's carrying amount is greater than its recoverable amount. The recoverable amount of an asset or cash generating unit is the higher of its fair value less costs to sell and its value in use. If there is an indication of impairment, the asset's recoverable amount is calculated. An impairment loss is recognised in the statement of financial performance and the depreciation charge relating to the asset is adjusted for future periods.

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the statement of financial performance.

The City assesses at each reporting date whether there is any indication that the City expectations about the residual value and the useful life of an asset have changed since the preceding reporting date. If any such indication exists, the City revises the expected useful life and/or residual value accordingly. The change is accounted for as a change in an accounting estimate.

The depreciation charge for each period is recognised in the statement of financial performance unless it is included in the carrying amount of another asset

Items of property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in the statement of financial performance when the item is derecognised. The gain or loss arising from the derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the item.

#### 1.5 Intangible assets

An asset is identified as an intangible asset when it is capable of being separated or divided from the City and sold, transferred, licensed, rented or exchanged, either individually or together with a related contract, assets or liability; or arises from contractual rights or other legal rights, regardless whether those rights are transferable or separate from the City or from other rights and obligations.

An intangible asset is recognised when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the City; and the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost. An intangible asset acquired through a non-exchange transaction, the cost shall be its fair value as at the date of acquisition. Expenditure on research (or on the research phase of an internal project) is recognised as an expense when it is incurred

Intangible assets are subsequently measured at cost less any accumulated amortisation and any impairment losses.

An intangible asset is regarded as having an indefinite useful life when, based on all relevant factors, there is no foreseeable limit to the period over which the asset is expected to generate net cash inflows or service potential. Amortisation is not provided for these intangible assets, but they are tested for impairment annually and whenever there is an indication that the asset may be impaired. For all other intangible assets amortisation is provided on a straight line basis over their useful life.

The amortisation period and the amortisation method for intangible assets are reviewed at each reporting date.

Intangible assets are derecognised on disposal, or when no future economic benefits are expected from its use or disposal. Internally generated brands, mastheads, publishing titles, customer lists and items similar in substance are not recognised as intangible assets.

Amortisation to intangible assets is provided on a straight line basis as follows:

ItemUseful lifeComputer software1 - 23 years

The gain or loss arising from the derecognition of an intangible asset is recognised in the statement of financial performance when the asset is derecognised.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.5 Intangible assets (continued)

An intangible asset arising from development (or from the development phase of an internal project) is recognised when:

- it is technically feasible to complete the asset so that it will be available for use or sale.
- there is an intention to complete and use or sell it.
- there is an ability to use or sell it.
- it will generate probable future economic benefits or service potential.
  - there are available technical, financial and other resources to complete the development and to use or sell the asset.
- there are available technical, financial and other resources to complete the development and to use or sell the asset.
- the expenditure attributable to the asset during its development can be measured reliably.

#### 1.6 Heritage assets

A heritage asset is as an asset that has a cultural, environmental, historical, natural, scientific, technological or artistic significance, and is held indefinitely for the benefit of present and future generations.

The City recognises a heritage asset as an asset if it is probable that future economic benefits or service potential associated with the asset will flow to the City, and the cost or fair value of the asset can be measured reliably.

Heritage assets are measured at cost. Where a heritage asset is acquired through a non-exchange transaction, its cost is measured at its fair value as at the date of acquisition. The cost of a purchased heritage asset comprises:

- its purchase price, including import duties and non-refundable purchase taxes, after deducting trade discounts and rebates; and
- any costs directly attributable to bringing the heritage asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Heritage assets are subsequently measured at cost, less accumulated impairment losses. Where a heritage asset is acquired through a non-exchange transaction, its cost is deemed to be its fair value as at the date of acquisition.

Transfers to heritage assets are made only when the asset meets the definition of a heritage asset and transfers from heritage assets are made only when the asset no longer meets the definition of a heritage asset. Transfers to and from heritage assets are done at the carrying amount of the assets transferred at the date of transfer.

The City assess at each reporting date whether there is an indication that it may be impaired. If any such indication exists, the City estimates the recoverable amount or the recoverable service amount of the heritage asset.

Most heritage assets have an indefinite useful life as they are to be preserved for current and future generations and might appreciate in value over time due to their cultural, environmental, historical, natural, scientific, technological and/or artistic significance. Based on this analysis, there is no definite limit to the period over which a heritage asset is expected to be held by the City. The useful life of the heritage asset is therefore likely to be indefinite or the annual depreciation is likely to be immaterial.

The City derecognises heritage asset on disposal, or when no future economic benefits or service potential are expected from its use or disposal. The gain or loss arising from the derecognition of a heritage asset is recognised in the statement of financial performance when the asset is derecognised.

#### 1.7 Investments in controlled entities

Municipal controlled entities are those entities which the City owns or over whose financial and operating policies it has the power to exercise beneficial control.

In the City's annual financial statements, investments in controlled entities are carried at cost less any accumulated impairment.

Annual Financial Statements for the year ended 30 June 2018

## Accounting Policies

#### 1.8 Financial instruments

- a) Financial instruments at amortised cost are non-derivative financial assets or non-derivative financial liabilities that have fixed or determinable payments, excluding those instruments that:
  - (i) the City designates at fair value at initial recognition; or
  - (ii) are held for trading.
- b) Financial instruments at cost are investments in residual interests that do not have a quoted market price in an active market, and whose fair value cannot be reliably measured.
- c) Financial instruments at fair value comprise financial assets or financial liabilities that are:
  - (i) derivatives;
  - (ii) combined instruments that are designated at fair value;
  - (iii) instruments held for trading. A financial instrument is held for trading if:
    - (1) it is acquired or incurred principally for the purpose of selling or repurchasing it in the near-term; or
    - (2) on initial recognition it is part of a portfolio of identified financial instruments that are managed together and for which there is evidence of a recent actual pattern of short term profit-taking;
  - (iv) non-derivative financial assets or financial liabilities with fixed or determinable payments that are designated at fair value at initial recognition; and
  - (v) financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.

The City has the following types of financial assets (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class Category

Other investments
Receivables from exchange transactions
Cash and cash equivalents
Long-term receivables
Other investments (unlisted shares)

Financial asset measured at amortised cost Financial asset measured at cost

The City has the following types of financial liabilities (classes and category) as reflected on the face of the statement of financial position or in the notes thereto:

Class Category

Long-term liabilities

Trade and other-payables from exchange transactions

Consumer deposits

Financial liability measured at amortised cost
Financial liability measured at amortised cost
Financial liability measured at amortised cost

### Initial recognition

The City recognises a financial asset or a financial liability in its statement of financial position when the City becomes a party to the contractual provisions of the instrument.

The City recognises financial assets using trade date accounting.

#### Initial measurement of financial assets and financial liabilities

The City measures a financial asset and financial liability initially at its fair value plus, in the case of a financial asset or a liability not subsequently measured at fair value, transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability.

The City first assesses whether the substance of a concessionary loan is in fact a loan. On initial recognition, the City analysis a concessionary loan into its component parts and accounts for each component separately. The City accounts for that part of a concessionary loan that is:

- a social benefit in accordance with the Framework for the Preparation and Presentation of Financial Statements, where it is the issuer of the loan; or
- non-exchange revenue, in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers), where it is the recipient of the loan.

#### Subsequent measurement of financial assets and financial liabilities

The City measures all financial assets and financial liabilities after initial recognition using the following categories:

- Financial instruments at fair value;
- Financial instruments at amortised cost: and
- Financial instruments at cost.

All financial assets measured at amortised cost, or cost, are subject to an impairment review at each reporting period.

### Fair value measurement considerations

The best evidence of fair value is quoted prices in an active market. If the market for a financial instrument is not active, the City establishes fair value by using a valuation technique.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.8 Financial instruments (continued)

#### Gains and losses

A gain or loss arising from a change in the fair value of a financial asset measured at fair value is recognised in the statement of financial performance.

For financial assets and financial liabilities measured at amortised cost or cost, a gain or loss is recognised in the statement of financial performance when the financial asset or financial liability is derecognised or impaired, or through the amortisation process.

#### Impairment and uncollectibility of financial assets

The City assess at the end of each reporting period whether there is any objective evidence that a financial asset or of financial assets is impaired.

#### a) Financial assets measured at amortised cost:

If there is objective evidence that an impairment loss on financial assets measured at amortised cost has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred) discounted at the financial asset's original effective interest rate. The carrying amount of the asset is reduced directly through the use of an allowance account. The amount of the loss is recognised in the statement of financial performance.

If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed directly by adjusting an allowance account. The reversal does not result in a carrying amount of the financial asset that exceeds what the amortised cost would have been had the impairment not been recognised at the date the impairment is reversed. The amount of the reversal is recognised in the statement of financial performance.

#### b) Financial assets measured at cost:

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses are not reversed.

### Derecognition

#### a)Financial assets

The City derecognises financial assets (or part of a financial assets) when the contractual rights to the cash flows from the financial asset expire, are settled or waived or when the City has transferred all of the significant risks and rewards of ownership using trade date accounting.

On derecognition of a financial asset (or part of a financial asset), the difference between the carrying amount and the sum of the consideration received is recognised in the statement of financial performance.

### b) Financial liabilities

The City removes a financial liability (or a part of a financial liability) from its statement of financial position when it is extinguished (when the obligation specified in the contract is discharged, cancelled, expires or waived).

The difference between the carrying amount of a financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in the statement of financial performance. Any liabilities that are waived, forgiven or assumed by another entity by way of a non-exchange transaction are accounted for in accordance with the Standard of GRAP on Revenue from Non-exchange Transactions (Taxes and Transfers).

#### Presentation

Interest relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in the statement of financial performance.

Dividends or similar distributions relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in the statement of financial performance.

Gains and losses relating to a financial instrument or a component that is a financial liability is recognised as revenue or expense in the statement of financial performance.

A financial asset and a financial liability are only offset and the net amount presented in the statement of financial position when the City currently has a legally enforceable right to set off the recognised amounts and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

In accounting for a transfer of a financial asset that does not qualify for derecognition, the City does not offset the transferred asset and the associated liability.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.9 Inventories

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of business.

Inventories shall be recognised as an asset if, and only if:

- it is probable that future economic benefits or service potential associated with the item will flow to the City; and
- the cost of the inventories can be measured reliably.

Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their present location and condition.

Where inventory is acquired by the City for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

Inventories held for sale in the ordinary course of business are valued at the lower of cost and net realisable value, or where unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost.

Inventories held for consumption, distribution, consumables stores, raw materials, finished goods and unsold properties, are valued at lower of cost or net replacement cost.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset. The first-in-first-out method is the basis of allocating costs to inventories, except for water balance which is determined at weighted average cost at the reporting date based on the water volume in the network on hand.

Redundant and slow-moving inventories are identified and written down to the estimated net realisable value, and are recognised as an expense in the period in which the write-down or loss occurs. Inventories identified for write-down/write-off, but for which a council resolution, to authorise the write-down/write-off, has not yet been obtained, is provided for as a provision for obsolete stock. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.10 Employee benefits

### Short-term employee benefits

The cost of short-term employee benefits, (those payable within 12 months after the service is rendered, such as paid vacation leave and sick leave, bonuses, and non-monetary benefits such as medical care), are recognised in the period in which the service is rendered and are not discounted.

The expected cost of compensated absences is recognised as an expense as the employees render services that increase their entitlement or in the case of non-accumulating absences, when the absence occurs.

The expected cost of surplus sharing and bonus payments is recognised as an expense when there is a legal or constructive obligation to make such payments as a result of past performance.

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total accrued leave days at year end, any unused leave days are forfeited six months after the end of lease cycle.

### Long services awards

The City offers various types of long service awards to its employees. The provision is to recognise the present value of the obligation as at the reporting date.

#### Retirement funds

The City contributes to defined contribution and defined benefit funds. These funds are multi-employer funds.

#### **Defined contribution plans**

Payments to defined contribution retirement benefit plans are charged as an expense as they fall due.

Payments made to industry-managed (or state plans) retirement benefit schemes are dealt with as defined contribution plans where the City's obligation under the schemes is equivalent to those arising in a defined contribution retirement benefit plan.

#### Defined benefit plans

For defined benefit plans the cost of providing the benefits is determined using the projected credit method.

Actuarial valuations are conducted on an annual basis by an independent actuary for each separate plans.

Past service costs are recognised immediately to the extent that the benefits are already vested, and are otherwise amortised on a straight line basis over the average period until the amended benefits become vested.

The amount recognised in the statement of financial position represents the present value of the defined benefit obligation, reduced by the fair value of plan assets (if any). Any asset is limited to the present value of available refunds and reduction in future contributions to the plan.

The City does not apply "defined benefit accounting" to the defined benefit funds to which it is a member, where these funds as classified in terms of GRAP 25 as multi-employer plans, as sufficient information is not available to apply the principles involved.

To the extent that a surplus or deficit in the place, based on available information, may affect the amount of future contributions, these are assessed. In the case of surpluses, no change is made in the rate of contributions. In the case of deficits, the City will increase contributions on a phased basis. To the extent that the full discounted value of obligations to the funds is not fully accounted for at year end, a contingent liability arises and is reported on accordingly.

#### Medical aid: continued members

The City provides post-retirement benefits by subsidising the medical aid contributions of certain retired staff. According to the rules of the medical aid funds, with which the City is associated, a member (subject to the applicable conditions of service), on retirement, is entitled to remain a continued member of such medical aid fund, in which case the member is liable for the portion as determined by Council from time to time, of the medical aid membership fee, and the City for the remaining portion.

Annual Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

#### 1.11 Provisions and contingencies

A provision is recognised when the City has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The City does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable.

The amount of a provision is the best estimate of the expenditure expected to be required to settle the present obligation at the reporting date. Where the effect of time value of money is material, the amount of a provision is the present value of the expenditures expected to be required to settle the obligation. The discount rate is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the carrying amount of a provision increases in each period to reflect the passage of time. This increase is recognised as an interest expense.

Provisions are reviewed at each reporting date and adjusted to reflect the current best estimate. Provisions are reversed if it is no longer probable that an outflow of resources embodying economic benefits or service potential will be required, to settle the obligation.

A provision is used only for expenditures to which the provision was originally recognised.

#### a) COID provision

The provision for COID pensions and medical aid liability is based on eligible members, their current age and their future life expectancy. Cash flows are projected on the basis of current pension payments escalated at 7% (2017: 7.36%) per annum over members`expected lives. Resulting cash flows have been discounted to Net Present Value applying a discount rate of 10.52% (2017: 10.46%).

#### b) Landfill rehabilitation provision

The landfill rehabilitation provision is created for the rehabilitation of the current operational sites at the future estimated time of closure. The value of the provision is based on the expected future cost to rehabilitate the various sites discounted back to the statement of financial position date at the cost of capital (time value of money), which is currently 10.52% (2017: 10.46%).

The City has an obligation to rehabilitate these landfill sites. The cost of such property includes the initial estimate of the costs of rehabilitating the land and restoring the site on which it is located, the obligation for which the City incurs as a consequence of having used the property during a particular period for landfill purposes. The City estimates the useful lives and make assumptions as to the useful lives of these assets, which influence the provision for future costs.

Changes in the measurement of the provision that result from changes in the estimated timing or amount of the outflow of resources embodying economic benefits or service potential required to settle the obligation, or a change in the discount rate, is accounted for as follows:

- a) subject to (b), changes in the liability are added to, or deducted from, the cost of the related asset in the current period;
- b) if a decrease in the liability exceeds the carrying amount of the asset, the excess is recognised immediately in the statement of financial performance; and
- c) if the adjustment results in an addition to the cost of an asset, the City considers whether this is an indication that the new carrying amount of the asset may not be fully recoverable. If such an indication exists, the asset is tested for impairment by estimating its recoverable amount, and any impairment loss is recognised in the statement of financial performance.

The adjusted depreciable amount of the asset is depreciated over its useful life. Therefore, once the related asset has reached the end of its useful life, all subsequent changes in the liability is recognised in the statement of financial performance as they occur.

The periodic unwinding of the discount is recognised in the statement of financial performance as a finance cost as it occurs.

### c) Workmen's compensation provision

The provision is for the unpaid periods, estimated in the latest return submitted to the compensation commissioner.

#### d) GMRF provision

The provision is for the City's obligation to the Germiston Municipal Retirement Fund due to the City failing to meet its obligation to contribute to the fund due to the required investment yield not being achieved.

### 1.12 Impairment of cash-generating assets

Cash-generating assets are those assets held by the City with the primary objective of generating a commercial return. When an asset is deployed in a manner consistent with that adopted by a profit-orientated entity, it generates a commercial return.

Impairment is a loss in the future economic benefits or service potential of an asset, over and above the systematic recognition of the loss of the asset's future economic benefits or service potential through depreciation (amortisation).

Carrying amount is the amount at which an asset is recognised in the statement of financial position after deducting any accumulated depreciation and accumulated impairment losses thereon.

A cash-generating unit is the smallest identifiable group of assets held with the primary objective of generating a commercial return that generates cash inflows from continuing use that are largely independent of the cash inflows from other assets or groups of assets.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.12 Impairment of cash-generating assets (continued)

Costs of disposal are incremental costs directly attributable to the disposal of an asset, excluding finance costs and income tax expense.

Depreciation (amortisation) is the systematic allocation of the depreciable amount of an asset over its useful life.

Fair value less costs to sell is the amount obtainable from the sale of an asset in an arm's length transaction between knowledgeable, willing parties, less the costs of disposal.

Recoverable amount of an asset or a cash-generating unit is the higher its fair value less costs to sell and its value in use.

Useful life is either:

- (a) the period of time over which an asset is expected to be used by the City; or
- (b) the number of production or similar units expected to be obtained from the asset by the City.

#### Identification

When the carrying amount of a cash-generating asset exceeds its recoverable amount, it is impaired.

The City assesses at each reporting date whether there is any indication that a cash-generating asset may be impaired. If any such indication exists, the City estimates the recoverable amount of the asset.

Irrespective of whether there is any indication of impairment, the City also test a cash-generating intangible asset with an indefinite useful life or a cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

#### Value in use

Value in use of a cash-generating asset is the present value of the estimated future cash flows expected to be derived from the continuing use of an asset and from its disposal at the end of its useful life.

When estimating the value in use of an asset, the City estimates the future cash inflows and outflows to be derived from continuing use of the asset and from its ultimate disposal and the City applies the appropriate discount rate to those future cash flows.

#### Basis for estimates of future cash flows

In measuring value in use the City:

- base cash flow projections on reasonable and supportable assumptions that represent management's best estimate of the range of economic conditions that will exist over the remaining useful life of the asset. Greater weight is given to external evidence;
- base cash flow projections on the most recent approved financial budgets/forecasts, but excludes any estimated future cash
  inflows or outflows expected to arise from future restructuring's or from improving or enhancing the asset's performance.
   Projections based on these budgets/forecasts covers a maximum period of five years, unless a longer period can be justified; and
- estimate cash flow projections beyond the period covered by the most recent budgets/forecasts by extrapolating the projections based on the budgets/forecasts using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. This growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used, unless a higher rate can be justified.

### Composition of estimates of future cash flows

Estimates of future cash flows include:

- projections of cash inflows from the continuing use of the asset;
- projections of cash outflows that are necessarily incurred to generate the cash inflows from continuing use of the asset (including
  cash outflows to prepare the asset for use) and can be directly attributed, or allocated on a reasonable and consistent basis, to the
  asset; and
- net cash flows, if any, to be received (or paid) for the disposal of the asset at the end of its useful life.

Estimates of future cash flows exclude:

- cash inflows or outflows from financing activities; and
- income tax receipts or payments.

The estimate of net cash flows to be received (or paid) for the disposal of an asset at the end of its useful life is the amount that the City expects to obtain from the disposal of the asset in an arm's length transaction between knowledgeable, willing parties, after deducting the estimated costs of disposal.

Annual Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

#### 1.12 Impairment of cash-generating assets (continued)

#### **Discount rate**

The discount rate is a pre-tax rate that reflects current market assessments of the time value of money, represented by the current risk-free rate of interest and the risks specific to the asset for which the future cash flow estimates have not been adjusted. The City considers the weighted average cost of capital as their discount rate (time value of money).

#### Recognition and measurement (individual asset)

If the recoverable amount of a cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in the statement of financial performance.

Any impairment loss of a revalued cash-generating asset is treated as a revaluation decrease.

When the amount estimated for an impairment loss is greater than the carrying amount of the cash-generating asset to which it relates, the City recognises a liability only to the extent that is a requirement in the Standard of GRAP.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### Reversal of impairment loss

The City assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a cash-generating asset may no longer exist or may have decreased. If any such indication exists, the entity estimates the recoverable amount of that asset.

An impairment loss recognised in prior periods for a cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a cash-generating asset is recognised immediately in the statement of financial performance.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the cash-generating asset is adjusted in future periods to allocate the cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

A reversal of an impairment loss for a cash-generating unit is allocated to the cash-generating assets of the unit pro rata with the carrying amounts of those assets. These increases in carrying amounts are treated as reversals of impairment losses for individual assets. No part of the amount of such a reversal is allocated to a non-cash-generating asset contributing service potential to a cash-generating unit.

In allocating a reversal of an impairment loss for a cash-generating unit, the carrying amount of an asset is not increased above the lower of:

- its recoverable amount (if determinable); and
- the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognised for the asset in prior periods.

The amount of the reversal of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit.

#### 1.13 Impairment of non-cash-generating assets

Non-cash-generating assets are assets other than cash-generating assets.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.13 Impairment of non-cash-generating assets (continued)

#### Identification

When the carrying amount of a non-cash-generating asset exceeds its recoverable service amount, it is impaired.

The City assesses at each reporting date whether there is any indication that a non-cash-generating asset may be impaired. If any such indication exists, the City estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the City also test a non-cash-generating intangible asset with an indefinite useful life or a non-cash-generating intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable service amount. This impairment test is performed at the same time every year. If an intangible asset was initially recognised during the current reporting period, that intangible asset was tested for impairment before the end of the current reporting period.

#### Recognition and measurement

If the recoverable service amount of a non-cash-generating asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. This reduction is an impairment loss.

An impairment loss is recognised immediately in the statement of financial performance.

After the recognition of an impairment loss, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

#### Reversal of an impairment loss

The City assess at each reporting date whether there is any indication that an impairment loss recognised in prior periods for a non-cash-generating asset may no longer exist or may have decreased. If any such indication exists, the City estimates the recoverable service amount of that asset.

An impairment loss recognised in prior periods for a non-cash-generating asset is reversed if there has been a change in the estimates used to determine the asset's recoverable service amount since the last impairment loss was recognised. The carrying amount of the asset is increased to its recoverable service amount. The increase is a reversal of an impairment loss. The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss for a non-cash-generating asset is recognised immediately in the statement of financial performance.

After a reversal of an impairment loss is recognised, the depreciation (amortisation) charge for the non-cash-generating asset is adjusted in future periods to allocate the non-cash-generating asset's revised carrying amount, less its residual value (if any), on a systematic basis over its remaining useful life.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.14 Revenue from exchange transactions

Revenue is the gross inflows of economic benefits or service potential during the reporting period when those inflows result in increases in net assets, other than increases relating to contributions from owners.

Revenue from exchange transactions refers to revenue that accrued to the City directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Revenue is recognised when it is probable that future economic benefits or service potential will flow to the City and these benefits can be measured reliably.

Revenue is measured at the fair value of the consideration received or receivable.

When the inflow of cash or cash equivalents is deferred and the fair value of the consideration is less than the nominal amount of cash received or receivable, the arrangement effectively constitutes a financing transaction. The fair value of the consideration is determined by discounting all future receipts using an imputed rate of interest. The imputed rate of interest is the more clearly determinable of either:

- The prevailing rate for a similar instrument of an issuer with a similar credit rating; or
- A rate of interest that discounts the nominal amount of the instrument to the current cash sales price of the goods or services.

The difference between the fair value and the nominal amount of the consideration is recognised as interest revenue.

Service charges relating to electricity and water are based on consumption. Meters are read on a periodic basis and revenue is recognised when invoiced. Provisional estimates of consumption are made monthly when meter readings have not been performed and are based on the consumption history. The provisional estimates of consumption are recognised as revenue when invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period when meters have been read. These adjustments are recognised as revenue in the invoicing period. There are areas within the City were an un-metered water tariff is applied based on estimated consumption as per promulgated tariffs. Revenue for these is recognised when invoiced.

Service charges relating to refuse removal are recognised on a monthly basis in arrears by applying the approved tariff to each property. Tariffs are determined per category of property size, and are levied monthly.

Service charges from sewerage and sanitation are based on the number of sewerage connections on each developed property using the tariffs approved from Council and are levied monthly.

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant gazetted tariff. This includes the issuing of licences and permits.

Income earned on agency services is recognised on a monthly basis once the income collected on behalf of agents has been quantified. The income recognised is in terms of the agency agreement.

Dividends are recognised when the City's right to receive payment is established.

Revenue from the sale of goods is recognised when the following conditions have been satisfied:

- The City has transferred to the buyer the significant risks and rewards of ownership;
- The City retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits or service potential associated with the transaction will flow to the City; and
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

#### 1.15 Revenue from non-exchange transactions

Non-exchange transactions are defined as transactions where the City receives value from another entity without directly giving approximately equal value in exchange.

An inflow of resources from a non-exchange transaction recognised as an asset is recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow. As the City satisfies a present obligation recognised as a liability in respect of an inflow of resources from a non-exchange transaction recognised as an asset, it reduces the carrying amount of the liability recognised and recognises an amount of revenue equal to the reduction.

Revenue from a non-exchange transaction is measured at the amount of the increase in net assets recognised by the City. When, as a result of a non-exchange transaction, the City recognises an asset, it also recognises revenue equivalent to the amount of the asset measured at its fair value as at the date of acquistion, unless it is also required to recognise as a liability. Where a liability is required to be recognised it will be measured as the best estimates of the amount required to settle the obligation at the reporting date, and the amount of the increase in net assets, if any, recognised as revenue. When a liability is subsequently reduced, because the taxable event occurs or a condition is satisfied, the amount of the reduction in the liability is recognised as revenue.

Annual Financial Statements for the year ended 30 June 2018

### **Accounting Policies**

#### 1.15 Revenue from non-exchange transactions (continued)

#### Taxes (property rates)

The City recognises an asset in respect of taxes when the taxable event occurs and the asset recognition criteria are met. Resources arising from taxes satisfy the definition of an asset when the City controls the resources as a result of a past event (the taxable event) and expects to receive future economic benefits or service potential from those resources. Resources arising from taxes satisfy the criteria for recognition as an asset when it is probable that the inflow of resources will occur and their fair value can be reliably measured. The degree of probability attached to the inflow of resources is determined on the basis of evidence available at the time of initial recognition, which includes, but is not limited to, disclosure of the taxable event by the taxpayer.

The City analysis the taxation laws to determine what the taxable events are for the various taxes levied.

The taxable event for property tax is the passing of the date on which the tax is levied, or the period for which the tax is levied, if the tax is levied on a periodic basis. Taxation revenue is determined at a gross amount. It is not reduced for expenses paid through the tax system.

#### Transfers, including grants and receipts

The City recognises an asset in respect of transfers when the transferred resources meet the definition of an asset and satisfy the criteria for recognition as an asset. Transferred assets are measured at their fair value as at the date of acquisition.

#### Fines

Fines are recognised as revenue when the receivable meets the definition of an asset and satisfies the criteria for recognition as an asset. Assets arising from fines are measured at the best estimate of the inflow of resources to the City.

#### **Beauests**

Bequests that satisfy the definition of an asset are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the City, and the fair value of the assets can be measured reliably.

#### Gifts and donations, including goods in-kind

Gifts and donations, including goods in kind, are recognised as assets and revenue when it is probable that the future economic benefits or service potential will flow to the City and the fair value of the assets can be measured reliably.

#### Services in-kind

Except for financial guarantee contracts, the City recognises services in-kind that are significant to its operations and/or service delivery objective as assets and recognise the related revenue when it is probable that the future economic benefits or service potential will flow to the City and the fair value of the assets can be measured reliably. If the services in-kind are not significant to the City's operations and/or service delivery objectives and/or do not satisfy the criteria for recognition, the City discloses the nature and type of services in-kind received during the reporting period.

#### Grants, donations and receipts

Revenue received from conditional grants, donations and funding is recognised as revenue to the extent that the City has complied with any of the criteria, conditions or obligations embodied in the agreement. A liability is recognised when the criteria, conditions or obligations have not been met.

#### Unspent conditional grants and receipts

Amounts received before the related work is performed are included in the statement of financial position as a liability, as unspent conditional grants and receipts.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.16 Leases

A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership. A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership.

When a lease includes both land and buildings elements, the City assesses the classification of each element separately.

#### Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

The aggregate benefit of incentives is recognised as a reduction of rental expense over the lease term on a straight-line basis.

Income for leases is disclosed under revenue in statement of financial performance.

#### Operating leases - lessee

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

#### 1.17 Borrowing costs

Borrowing costs are interest and other expenses incurred by the City in connection with the borrowing of funds.

Borrowing costs are recognised as an expense in the period in which they are incurred.

#### 1.18 Value Added Tax

The City accounts for value-added tax (VAT) on the payment basis.

#### 1.19 Unauthorised expenditure

Unauthorised expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, City or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the statement of financial performance and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

### 1.20 Fruitless and wasteful expenditure

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the statement of financial performance and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

#### 1.21 Irregular expenditure

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), and the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the City's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the statement of financial performance and where recovered, it is subsequently accounted for as revenue in the statement of financial performance.

Annual Financial Statements for the year ended 30 June 2018

## **Accounting Policies**

#### 1.22 Internal reserves

Included in the accumulated surplus are internal reserves, no separate line items are presented, in accordance with the GRAP reporting framework, but provision is made in the budget process for funding of these reserve. The amounts set aside for these reserves are invested in accordance with the investment policy of the City. The following internal reserves are maintained:

#### Capital replacement reserve (CRR)

The reserve is created for the replacement of service delivery assets when they reach the end of their economic lives to ensure continue of provision of such services, and to minimise the impact of raising external funding or over reliance on grant funds.

#### Self-insurance reserve

A self insurance reserve was established for a self-insurance purpose and to minimize the external insurance costs. The reserve is based on recognised insurance industry principles to complement the external cover provided by insurance companies.

#### Sinking funds reserve

The reserve is created for the provision of repayments of long-term borrowing raised to funds capital projects, and to meet repayment conditions on such borrowings.

#### 1.23 Budget information

The approved budget is prepared in accordance with GRAP standards on an accrual basis, and are consistent with accounting policies as adopted by the Council for the preparation of this annual financial statements, and presented by economic classification linked to performance outcome objectives.

The approved budget covers the fiscal period from 2017/07/01 to 2018/06/30. These figures are those approved by Council both at the beginning and during the year, following a period of consultation with the public as part of the Integrated Development Plan (IDP). The amounts are scheduled as a separate additional financial statement, called the statement of comparison of budget and actual amounts. Explanatory comments to material differences are provided in the notes to the annual financial statements.

#### 1.24 Related parties

A related party is a person or City with the ability to control or jointly control the other party, or exercise significant influence over the other party, or vice versa, or the City that is subject to common control, or joint control.

Management are those persons responsible for planning, directing and controlling the activities of the City, including those charged with the governance of the City in accordance with legislation, in instances where they are required to perform such functions.

Close members of the family of a person are considered to be those family members who may be expected to influence, or be influenced by, that person in their dealings with the City.

Control is the power to govern the financial and operating policies of the City so as to obtain benefits from its activities. Joint control is the agreed sharing of control over an activity by a binding arrangement, and exists only when the strategic financial and operating decisions relating to the activity require the unanimous consent of the parties sharing control (the venturers).

Only transactions with related parties not at arm's length or not in the ordinary course of business are disclosed, except for transactions with controlled entities, which are disclosed in full.

### 1.25 Events after reporting date

Events after the reporting date are those events, both favourable and unfavourable, that occur between the reporting date and the date when the financial statements are authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the reporting date (adjusting events after the reporting date); and
- those that are indicative of conditions that arose after the reporting date (non-adjusting events after the reporting date).

Reporting date means the date of the last day of the reporting period to which the annual financial statements relate. The City adjusts the amounts recognised in its interim financial statements to reflect adjusting events after the reporting date. The City does not adjust the amounts recognised in its interim financial statements to reflect non-adjusting events after the reporting date.

#### 1.26 Commitments

The City discloses each class of capital assets (PPE, investment properties, intangible assets and heritage assets) recognised in the annual financial statements as well as future minimum lease payments under non-cancellable operating leases for each of the following periods:

- Not later than one year;
- Later than one year and not later than five years; and
- Later than five years.

## **Accounting Policies**

### 1.27 Going concern

The annual financial statements have been prepared on a going concern basis.

### 1.28 Comparative figures

When the presentation or classification of items in the annual financial statements is amended due to better presentation and/or better understandability and/or comparability and/or due to the implementation of a new or amended standard, prior period comparative amounts are restated. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

## **Notes to the Annual Financial Statements**

#### 2. New standards and interpretations

#### 2.1 Standards and interpretations not yet effective or relevant

The following standards and interpretations have been published and are mandatory for the City's accounting periods beginning on or after 01 July 2018 or later periods but are not relevant to its operations:

#### Standard and Interpretation: Effective date:

#### Years beginning on or after

| >GRAP 12 (as amended 2016): Inventories   | 01 April 2018 |
|---|---------------|
| >GRAP 27 (as amended 2016): Agriculture   | 01 April 2018 |
| >GRAP 31 (as amended 2016): Intangible Assets   | 01 April 2018 |
| >GRAP 20: Related parties   | 01 April 2017 |
| >GRAP 26 (as amended 2016): Impairment of cash-generating assets                              | 01 April 2018 |
| >GRAP 21 (as amended 2016): Impairment of non-cash-generating assets                          | 01 April 2018 |
| >GRAP 106 (as amended 2016): Transfers of functions between entities not under common control | 01 April 2018 |
| >GRAP 103 (as amended 2016): Heritage Assets  | 01 April 2018 |
| >IGRAP 18: Interpretation of the Standard of GRAP on Recognition and Derecogntion of Land     | 01 April 2019 |

No material impact are expected from these changes.

#### The following standards were approved, but their effective dates were not yet determined by the Minister of Finance.

>GRAP 20: Related Party Disclosures >GRAP 32: Service Concession Arrangements: Grantor >GRAP 34: Separate Financial Statements >GRAP 35: Consolidated Financial Statements >GRAP 36: Investments in Associates and Joint

>GRAP 37: Joint Arrangements

>GRAP 38: Disclosure of Interests in Other Entities

>GRAP 108: Statutory Receivables

>GRAP 109: Accounting by Principals and Agents

>GRAP 110: Living and Non-living Resources

>Directive 12: The Selection of an Appropriate Reporting Framework

GRAP 110: Living and Non-living Resources

No material impact are expected from these changes.

 2 105 176
 1 600 130

The other movement relates to transfers out of property, plant and equipment, which were effected as follows, an amount of R234,321,871 (2017: R145,769,741) was transferred to inventory. Capital spares were bought as part of the project capital expenditure, which were transferred to inventory R45,045,033 (2017: R27,098,131), this relates to the net movement of capital spares for the year between the inventory account and the WIP account, refer to note 10.

#### **Deemed cost**

Included in the additions for the year is public contributed assets with deemed cost amounts of R289,325,277 (2017: R103,657,550). Deemed cost was determined using fair value or depreciated replacement cost, depending on the most appropriate measurement for the specific asset/scenario.

#### 5. Intangible assets

### Residual interest at cost

Fair value information has not been provided for equity instruments that do not have a quoted market price and for which a fair value cannot be measured reliably.

The carrying amount of these financial instruments is as follows:

Rand Airport (awaiting information) 20% interest in ordinary shares

4 000 000

4 000 000

The company's draft financial statements used were for the period ended 29 February 2016 and no audited financial information was received for financial years ending 2016 and 2017.

The company's equity amounted to R605,743,120 represented by share capital of R5,201,000, reserves of R147,090,563 as well as retained income of R453,451,557 as at 28 February 2016.

The City has not reclassified any financial assets from cost or amortised cost to fair value during the current or prior year.

There were no gains or losses realised on the disposal of held to maturity financial assets for the year ended 2018, as all the financial assets will disposed of at their redemption date.

Investments with a carrying value of R1,617,372,812 (2017: R1,454,100,491) are held with the top five banks in South Africa for the repayment of long term liabilities with a carrying value of R2,415,000,000 (2017: R2,415,000,000) as disclosed in the long-term liabilities note (note 15). The amount of R2,415,000,000 consist of three bonds for which structured deposit sinking funds were established.

None of the investments at amortised cost are past due or impaired.

### Credit quality of other financial assets

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to external credit ratings (as determined by rating agencies) available, or to historical information about counterparty default rates. Investments are only made with South African top five banks.

## 9. Long term receivables

Annual Financial Statements for the year ended 30 June 2018

## **Notes to the Annual Financial Statements**

| Figures in Rand | 2018 | 2017 |
|-----------------|------|------|
|-----------------|------|------|

### 13. Consumer debtors (continued)

## Credit quality of consumer debtors

In determining the recoverability of a receivable, the City considers any change in the credit quality of the receivable from the date on which the credit was initially granted, up to the reporting date. The concentration of credit risk is limited but take into consideration the repayments trends and collections rate, as the customer base is large and unrelated. Accordingly, management believes no further credit provisions are required in excess of the present allowance for doubtful debts.

## Consumer debtors past due but not impaired

At 30 June 2018, consumer debtors of R5,486,430,787 (2017:R4,778,588,110) were past due but not impaired.

| 30 Days  | 3 078 661 888 | 3 409 523 753 |
|----------|---------------|---------------|
| 60 Days  | 257 742 835   | 338 902 031   |
| 90 Days  | 169 500 883   | 175 101 853   |
| 90+ Days | 1 980 525 181 | 855 060 473   |

## Consumer debtors impaired

As at 30 June 2018, consumer debtors of R11,347,187,332 (2017:R10,456,750,395) were impaired and provided for.

The ageing of these consumer debtors is as follows:

| 30 Days  | 564 293 921    | 247 487 411   |
|----------|----------------|---------------|
| 60 Days  | 279 901 296    | 124 541 060   |
| 90 Days  | 240 397 679    | 212 768 399   |
| 90+ Days | 10 262 594 436 | 9 871 953 525 |

### Cash and cash equivalents

Cash and cash equivalents consist of:

|               | 3 534 467 662 | 5 809 953 546 |
|---------------|---------------|---------------|
| Bank balances | 3 533 898 935 | 5 809 419 162 |
| Cash on hand  | 568 727       | 534 384       |

The City has provided bank guarantees to the amount of R26,074,874 (2017: R26,074,874) with regard to special clauses in contracts concluded with various third parties. Most of these conditions have been met, and the guarantees will be cancelled in due course.

### Credit quality of cash at bank and short term deposits, excluding cash on hand

The credit quality of cash at bank and short term deposits, excluding cash on hand that are neither past due nor impaired can be assessed by reference to external credit ratings (if available) or historical information about counterparty default rates.

### **Encumbered investments**

Investments with a carrying value of R1,617,372,812 (2017:R1,454,100,491) are encumbered in respect of long term liabilities above with a carrying value of R2,415,000,000 (2017: R2,415,000,000) as disclosed in the other investments note (note 8). The amount of R2,415,000,000 consist of three bonds for which structured deposit sinking funds were established.

Annual Financial Statements for the year ended 30 June 2018

## **Notes to the Annual Financial Statements**

Figures in Rand 2018 2017

### 16. Employee benefit obligations

### 1. Retirement Funds

The City provides retirement benefits for its employees and councillors. The contributions to fund obligations for the payment of retirement benefits are expensed in the year in which they become payable. The City contributes to defined contribution and defined benefit funds. These funds are multi-employer funds.

The council took a resolution in terms of an ageement with SALGA that the contribution rate to pension funds will be capped at 18% of salaries for new members joining pension funds after 1 July 2012 and also that the deducted contribution will only be transferred to defined contribution pension funds.

### **Defined Contribution Funds**

Where an employee has rendered services to the City during the year, the City recognises the contribution payable to a defined contribution plan in exchange for that service immediately as an expense.

### **Defined Benefit Plans**

The City does not apply "defined benefit accounting" to the defined benefit funds to which it is a member where these funds are classified in terms of GRAP 25 as multi-employer plans, as sufficient information is not available to apply the principles involved. The City contributes to the following defined benefit plans, which are governed by the Pension Fund Act of 1956 due to the nature of these funds and the fact that there is no consistent and reliable basis for allocating the obligation. Plan assets and cost to individual entities participating in the plan, these funds are accounted for as defined contribution funds in terms of paragraph 31 of GRAP 25, the total contributions are included in employee related costs, Note 29. As a result, GRAP 25 is applied and such funds are accounted for as defined contribution funds. The City's participation in these plans is limited to the obligation of its own employees. Due to the nature of the funds, the obligation for each fund cannot be reasonably determined.

The following funds have been treated as definded contribution plans although they are defined benefit funds:

### 1. Joint Municipal Pension Fund

The average contribution rate payable is 7.5% by the members and on average 22% by the City of Ekurhuleni. The last actuarial valuation on this fund was performed in March 2018 certified that the fund is in a sound financial state. The City of Ekurhuleni has 100 employees in this plan.

### 2. Municipal Employees Pension Fund

The average contribution rate payable is 7.5% by the members. The City of Ekurhuleni contributes 22% and 18% of members who existed as at 30 June 2012 and 01 July 2012, respectively. The last actuarial valuation on this fund was performed in February 2014 and it was certified that the fund is in a sound financial state. The City of Ekurhuleni has 1415 employees in this plan.

### 3. South African Local Authorities Pension Fund

The average contribution rate payable is 9% by the members and on average 20.78% by the City of Ekurhuleni. The last actuarial valuation on this fund was performed as at 1 July 2015 and it was certified that the fund is in a sound financial state. The City of Ekurhuleni has 94 employees in this plan.

Germiston Municipal Retirement Fund (GMRF) is a defined contribution fund for active contributing members but a defined benefit fund for certain pensioners under the old rules taken in the rules of the fund. During 2005 GMRF outsourced the full administration of the pensioners component which relates to the old rules of the defined benefit fund.

To the extent that a surplus or deficit is in place, based on available information, this may affect the amount of future contributions once these are assessed. In the case of surpluses, no change is made in the rate of contributions. In the case of deficits, the City will increase contributions on a phased basis. To the extent that the full discounted value of obligations to the funds is not fully accounted for at year end, a contingent liability arises and is reported on accordingly.

## 2. Accrued Leave Pay

Liabilities for annual leave are recognised as they accrue to employees. The liability is based on the total accrued leave days at year end. Refer to provisions note (note 17) for leave pay provision.

## Retirement benefit obligation (medical aid plan)

The City provides post-retirement benefits by subsidising the medical aid contributions of certain retired staff. According to the rules of the medical aid funds, with which the City is associated, a member (subject to the applicable conditions of service), on retirement, is entitled to remain a continued member of such medical aid fund, in which case the member is liable for the portion as determined by Council from time to time, of the medical aid membership fee, and the City for the remaining portion.

The number of employees who are eligible for post-retirement benefits as at 30 June 2018 are 12,056 (2017: 11,019) in-service employees and 1,859 (2017: 1,861) pensioners. The actuarial valuation was performed by Zaqen Actuaries (Pty) Ltd in the 2018 financial year and in the 2017 financial year, the actuarial valuation was performed by ARCH Actuarial Consulting CC, by applying the Projected Unit Funding method.

## **GMRF** provision

Annual Financial Statements for the year ended 30 June 2018

## **Notes to the Annual Financial Statements**

| Figures in Rand | 2018 | 2017 |
|-----------------|------|------|
|-----------------|------|------|

### 17. Provisions (continued)

The provision relates to claims against the City, instituted by the Germiston Municipal Retirement Fund in terms of the rules of the pension fund where the required investment yield was not being achieved. The timing of the outflow is uncertain, as well as the relating amount due to interest charges.

## **COID** provision

This provision is made for future expected outflows as a result of the City's obligation to contribute towards occupational injuries with various employees in the old Benoni and Germiston local municipalities. The discount rate used in determining the present value of the obligation is 10.52% (2017: 10.46%) and the inflation assumption used for the increase in expenses/contributions is 7.00% (2017: 7.36%).

### Leave and bonus provision

The liability is based on the total accrued leave days at year end. A section 57 bonus provision is also provided for. The bonus is performance based, and is dependant on a performance assessment. The timing of both the leave and bonus is uncertain.

### Landfill rehabilitation provision

In terms of GRAP 19, provisions should be evaluated at each year-end to reflect the best estimate at that date of the provision. The discounting rate is 10.52% (2017: 10.46%). The timing of outflow is uncertain, as well as relating amounts due to discounting and charges in inflation rates.

The net result of the re-estimation had the following effect on the current year amounts:

Decrease in the cost of property, plant and equipment R18,508,148 (2017: decrease of R9,090,694)

Amount recognised in profit and loss due to re-estimation where the adjustment exceeded the carrying amount of the asset by R18,508,148 (2017: R9,090,694)

### Workman's compensation provision

The provision is for the period March to June, which has been estimated in the latest return submitted to the compensation commissioner. The current year was prepaid.

## Long service awards provision

An actuarial valuation for 2018 was performend by Zaqen Actuaries (Pty) Ltd and for 2017 it was performed br ARCH Actuarial Consulting CC.

Discount rate used: 9.35% (2017: 8.52%)

CPI used: 6.17% (2017: 6.32%)

Salary increase rate used: 7.00% (2017: 7.36%)

## 18. Trade and other-payables from exchange transactions

Valuations on land and buildings are performed every 4 years. The last general valuation came into effect on 1 July 2017. Interim valuations are processed on an annual basis to take into account changes in individual property values due to alterations and subdivisions.

Rates are levied on a monthly basis, interest is levied on oustanding account if paid after due date.

## 24. Service charges

| Sale of electricity             | 12 808 617 903 | 12 906 310 651 |

## \*NOTES

- (A) Plaintiff issued summons against CoE for failure to issue sec.82 certificate. The plaintiff took CoE to court and lost the case and is in the process of appeal.
- (B) Plaintiff was unsuccessful in a bid for security services and now challenge the award to the successful bidder and they are claiming damages of R123,872,435.28.
- (C) Plaintiff alleges that it has been appointed by CoE through the tender process on an as and when basis. Plaintiff's application was dismissed with cost. We are awaiting court date to go to trail.

#### Guarantee and debtors ceded

CoE guaranteed the Nedbank loan to ERWAT, with a carrying value of R490,305,536 (2017: R533,281,072). The guarantee shall expire at 15h00,10 calendar days after the full repayment or settlement of all amounts owed by ERWAT to Nedbank Ltd in terms of the contract. ERWAT has agreed to cede to CoE claims against its book debtors, in the event of ERWAT defaulting on its obligation in terms of the loan. ERWAT thereby cedes, assigns and transfers unto and in favour of CoE all of ERWAT's rights, title and interest in and to all book debts, present and future, due and to become due to ERWAT, in the event that ERWAT defaults on its obligation in terms of the loan of R550 million advanced by Nedbank Ltd. This cession shall endure for so long as ERWAT is indebted to Nedbank Ltd, and the guarantee provided by CoE in favour of Nedbank Ltd as guarantee for the loan remains in effect.

Refer to employee related costs note (note 29) for remuneration paid to key management.

#### 43. Prior period errors

#### <u>201</u>7

Property plant and equipment, investment property, projects completed prior years were only capitalised in the current year as projects close out reports were provided the current year, and certain projects were derecognised as they did not meet the subsequent capitalisation requirements

Other assets were reclassified between the asset categories as they either categorised incorrectly between the various types, were found or removed from the relating registers.

Other property, plant and equipment and other property, plant and equipment: buildings, were previously shown as one line item, due to significant amounts in other property, plant and equipment, management deemed it fit to separate the line items.

Other investments - There was an error on the investment shedule used for the accrual of interest income'.

The correction of the errors results in adjustments as follows (identified in 2018):

#### 44. Comparative figures

Certain comparative figures have been reclassified as a result of the Municipal Standard Chart Of Accounts (mSCOA).

### 45. Risk management

Capital Risk Management

The City's objectives, when managing capital, are to safeguard the City's ability to continue as a going concern in order to maintain an optimal capital structure to reduce the cost of capital.

The capital structure of the City consists of debt, which includes the borrowings disclosed in note 15 and cash and cash equivalent disclosed in note 14.

Consistent with others in the industry, the City monitors capital on the basis of the gearing ratio.

There are no externally imposed capital requirements.

There have been no changes to what the City manages as capital, the strategy for capital maintenance or externally imposed capital requirements from the previous year.

The gearing ratio 2018 and 2017 respectively are as follow:

| Total capital                  | 46 832 690 523 48 268 341 815             |
|--------------------------------|---|
| Total equity                   | 49 298 300 676 47 530 446 408             |
| Net Debt                       | (2 465 610 153) 737 895 407               |
| Less: Cash and cash equivalent | <u>3 534 467 662</u> <u>5 809 953 546</u> |
| Other financial liabilities    | (6 000 077 815) (5 072 058 139)           |

Annual Financial Statements for the year ended 30 June 2018

# **Notes to the Annual Financial Statements**

Figures in Rand

#### 45. Risk management (continued)

#### Financial risk management

The City's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk.

The City's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the City's financial performance.

Risk management is carried out by the risk managemnt department under policies approved by the accounting officer. The City's treasury identifies, evaluates and hedges financial risks in close co-operation with the City's operating units. The accounting officer provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative financial instruments and non-derivative financial instruments, and investment of excess liquidity.

#### Liquidity risk

The City's risk to liquidity is a result of the funds available to cover future commitments. The City manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

The table below analysis the City's financial liabilities and net-settled derivative financial liabilities into relevant maturity groupings based on the remaining period at the statement of financial position to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

#### Interest rate risk

The City's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the City to cash flow interest rate risk. Borrowings issued at fixed rates expose the City to fair value interest rate risk. The City's policy is to maintain approximately 100% of its borrowings in fixed rate instruments.

At year end, financial instruments exposed to interest rate risk is as follows:

#### Cash flow interest rate risk

| Financial instrument  | Current interest rate | Due in less than a year | Due in one to two years | Due in two to five years |
|-----------------------|-----------------------|-------------------------|-------------------------|--------------------------|
| Consumer debtors      | 10,5 %                | 5 486 430 78            | 37                      | 1 128 056                |
| Long term receivables | variable %            | 1 128 056               | 1 128 056               |                          |

Annual Financial Statements for the year ended 30 June 2018

# **Notes to the Annual Financial Statements**

Figures in Rand

#### 45. Risk management (continued)

#### Credit risk

Credit risk consists mainly of cash deposits, cash & cash equivalents, derivative financial instruments and trade debtors. The City only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

Trade receivables comprise a widespread customer base. Management evaluated credit risk relating to customers on an ongoing basis.

If customers are independently rated, these ratings are used. Otherwise, if there is no independent rating, risk control assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal or external ratings in accordance with limits set by the board. The utilisation of credit limits is regularly monitored. Sales to retail customers are settled in cash or using major credit cards.

| Financial instrument       | Controlling    | Controlling    |
|----------------------------|----------------|----------------|
|                            | entity - 2018  | entity - 2017  |
| Other Investments          | 2 164 417 345  | 1 567 017 137  |
| Long-term receivables      | 3 317 824      | 3 124 380      |
| Consumer debtors           | 5 486 430 787  | 4 778 588 110  |
| Other receivables          | 304 652 114    | 395 452 927    |
| Cash and cash equivalents  | 3 534 467 662  | 5 809 953 546  |
| Listed and Unlisted shares | 4 000 000      | 4 000 000      |
|                            | 11 497 285 732 | 12 558 136 100 |

The City has a R4,000,000 investment in unlisted shares, which is the exposure to price risk. The price risk on this investment cannot be determined due to the fact that the shares are not listed and therefore unknown.

#### 46. Going concern

This annual financial statements have been prepared on a going concern basis.

Management has reviewed the City's cash flow forecast for the period ended 30 June 2018 and the next financial year budget is fully funded, in the light of this review and the current financial position, management is satisfied that the City has, or has access to, adequate resources to continue in operational existence for the foreseeable future.

#### 47. Events after the reporting date

There were no subsequent events affecting this annual financial statements at the reporting date.

#### 50. Utilisation of long-term liabilities reconciliation

| Outstanding long-term liabilities beginning of the year<br>Redemption of loans<br>New loans               | 5 072 058 139 5 411 930 2<br>(433 174 086) (361 074 7<br>1 300 000 000                                       |             |
|---|--|-------------|
| Interest accrued  | 61 193 762 21 202 6  | 371         |
| Used to finance property, plant and equipment: Opening balance<br>Redemption of loans<br>Interest accrued | 6 000 077 815 5 072 058 1<br>(5 072 058 139) (5 411 930 2<br>433 174 086 361 074 7<br>(61 193 762) (21 202 6 | 237)<br>769 |
| Unspend long term liabilities   | 1 300 000 000  |             |

Cash was invested for the repayment of long-term liabilities for the year

Long-term liabilities have been utilized in accordance with the Municipal Finance Management Act. Sinking funds (investments) were established to ensure that long-term liabilities can be repaid on redemption date.

The new loan raised relates to capital expenditure re-financed in the previous financial year

#### 51. Deviation from supply chain management regulations

Paragraph 12(1)(d)(i) of Government gazette No. 27636 issued on 30 May 2005 states that a supply chain management policy must provide for the procurement of goods and services by way of a competitive bidding process.

Paragraph 36 of the same gazette states that the accounting officer may dispense with the official procurement process in certain circumstances, provided that he records the reasons for any deviations and reports them to the next meeting of the accounting officer and includes a note to the annual financial statements.

#### The expenses incurred, as listed hereunder, have been approved/condoned

#### In-kind benefits

The Executive Mayor, Speaker and Mayoral Committee Members are full-time. Each is provided with an office and secretarial support at the cost of the Council.

The Executive Mayor has use of a Council owned vehicle for official duties.

The Executive Mayor has full-time bodyguards.

The salaries, allowances and benefits of councillors are within the upper limits of the framework envisaged in section 219 of the Constitution of South Africa.

Annual Financial Statements for the year ended 30 June 2018

# **Notes to the Annual Financial Statements**

Figures in Rand

#### 53. Commitments

#### Authorised capital expenditure

### Already contracted for but not provided for

| Property, plant and equipment   | 3 835 348 858 | 4 793 248 912 |
|---|---------------|---------------|
| Not yet contracted for and authorised by accounting officer  Other financial assets | 2 933 359 863 | 1 606 107 800 |
| Total capital commitments Already contracted for but not provided for               | 3 835 348 858 | 4 793 248 912 |
| Not vet contracted for and authorised by accounting officer                         | 2 933 359 863 | 1 606 107 800 |

This committed expenditure relates to the acquisition of property, plant and equipment for the 2018/2019 financial year (Approved Capital Expenditure Programme) based on the projects values as approved by Council for the City's Capital Budget programme for the following year for which suppliers contracts are in place. These commitments will be financed by appropriated grants, internally generated funds (revenue or accumulated surplus), and other borrowings options where applicable.

6 768 708 721

6 399 356 712

Commitments not yet contracted for and authorised, relate to capital projects as approved by Council on the City Capital Budget which there is no contracts in place at the end of the financial year.

#### Operating leases - as lessee (expense)

#### Minimum lease payments due

|                                     | 83 462 | 25 752 707 |
|-------------------------------------|--------|------------|
| - in second to fifth year inclusive | -      | 6 998      |
| - within one year                   | 83 462 | 25 745 709 |

Operating lease payments represent rentals payable by the City for certain of its office buildings and photocopier machines. Leases are negotiated for periods ranging from one year to five years, for office buildings, and the expired photocopier machine leases are incurred on a month to month basis. The rentals escalate on average at 7.00% (2017: 8.00%) for office buildings.

The actual lease contract amounts range between R6,000 and R561,912 (2017: R49,220 and R539,999) per month on the office buildings.

**REVENUE** 

Annual Financial Statements for the year ended 30 June 2018

# **Notes to the Annual Financial Statements**

Figures in Rand

#### 55. Budget differences (continued)

The total revenue for the year is 2.1% less than the budgeted revenue. The actual revenue is R31.5 billion while the budgeted revenue amounts to R32.3 billion, the variance amount is R661 million.

The contributing factors to the positive deviation is as follows:

#### i) Investment revenue

The budget provision on the investment revenue was a conservative allocation and the positive deviation (over-recovery) was as a result of the interest yielded from investments made by the City and the higher-than-anticipated bank balance.

The negative movements were as follows:

### ii) Transfers recognised - operational

Transfer recognised-operational relates to the Government grant and subsidies income which is reflecting a deviation of -1.2%. The budget was for R 3,9 billion while the actual receipts amounted to R 3,8 billion with a balance of R 61,7 million to be requested as a roll-over. This income reflects all the grants received from National and Provincial Government. The negative deviation is attributable to the following factors:

#### 1. Public Transport and Systems Opex

Contractor's poor performance

Delays in the issuing of works permits as per OHS legislation

Community unrests has resulted in project stoppage

Transgressions on the conditions of water use license-causing stoppage to construction works.

Transformation route has shacks on the servitude of the roads

Illegal occupants in the Grey building encroaching the BRT busway.

Long lead-time on procurement.

#### 2. Urban Settlements Development Grant

Contractor's poor performance on some projects

Design changes.

Delay in procurement

Withdrawal of appointed contractors which negatively affected the implementation of projects for walk-in containers (Waste Management).

#### 3. Human Settlements Development Grant

Refurbishment of Hostels

The contractor had cashflow challenges thus expenditure of the grant was slow however the pace of work and expenditure picked up late in the project.

Local leaderships did not agree on a number of issues. Numerous engagement meetings were held before the project could start and during the commencement of the project.

Housing Construction

Funds were initially allocated to a project (Mayfield Ext 32 & 34) which was not ready for implementation as a result the following challenges were experienced:

Geo-Tech Phase 2 Investigations Raft Foundations Designs Project was not enrolled with NHBRC House plans were not compiled Project was not allocated a G-Number

#### 4. Township Initiatives (Libraries)

Procurement processes which took longer than expected.

Responses from Province on request for re-directions were delayed, which negatively affected the performance of the grant. Challenges with imported equipment

#### iii) Services Charges

The largest income source on municipal revenue is Service Charges. The negative deviation is as a result of reduction in consumption is due to the lower water consumption levels experienced during the Dec/Jan industry shut-down periods including the Easter week. The City also conducted zero-pressure drop tests to confirm that all supply points are metered and illegal connections identified in at least 700

#### 55. Budget differences (continued)

industrial properties which are high water users since March 2018.

#### **EXPENDITURE**

The total expenditure for the year is R210 million less than the budgeted expenditure. The actual expenditure amounts to R32.182 billion while the budgeted expenditure was R32.258 billion.

#### i) Employee related costs

The variance of less than 6% is an indication that most of the critical positions identified and funded during the institutional review were filled during 2017/18 financial year. Other departments identified most critical positions which were unfunded and redirected the funding to fill the previously unfunded vacant positions.

#### ii) Debt impairment

Final calculation for debt impairment was based on the actual consumer debt and determined as per provision for Bad debt policy

#### iii) Finance cost

Finance cost is budgeted according to all the existing loans of City plus the interest payable on any new loans to be obtained the particular financial year

#### iv) Depreciation and assets impairment

The deviation on depreciation and assets impairment relates to accelerated impairment as part of the year end assessment of the conditions of the assets.

#### v) Other expenditure

Negative deviation on other expenditure is as a result of underspending of repair and maintenance and cost containment measures implemented on general expenses.

#### ADJUSTMENT BUDGET CHANGES AS INDICATED ON THE APPROPRIATION STATEMENT

The reasons for variances between the original and final adjustments budget are due to virements and adjustment budget approved on 25 January 2018 and 26 April 2018.

The following reasons are for virements processed post the final adjustment budget.

### **REVENUE BUDGET**

#### i) Transfers recognised - operational

The increase in grant revenue is as a result of grant funding which was rolled over from 2016/17, amounting to R 14,7 million .

An additional R 10,4 million for HIV/AIDS and Human Settlements Development Grant respectively was allocated as per the extraordinary gazette no 330 dated 11 December 2017.

The adjustment of the income budget for Transfers recognised - operational also affected the expenditure budget for the Transfers and grants in the Operating Expenses.

#### **EXPENDITURE BUDGET**

#### ii) Employee Costs

The budget for employee costs was reduced due to the following reasons:

Savings were identified from the Clean City contracted workers which did not materialize in during the 2017/18 financial year. The funding was used to address the budget shortfall on refuse removal, illegal dumping and mini dumping sites contracts.

Savings were further identified from overtime in order to fund the budget shortfall on meter management, postage costs, connections and reconnection contracts.

#### iii) Finance Charges

Annual Financial Statements for the year ended 30 June 2018

# **Notes to the Annual Financial Statements**

Figures in Rand

#### 55. Budget differences (continued)

Increase in the budget was for the settlement of interest on overdue invoices for the Valuation contractors.

#### iv) Bulk Purchases

The 2017/18 budget for electricity bulk purchases was increased post the adjustment budget process in order to address the insufficient budget resulting from the following factors:

Impact of numerous external factors impacting electricity consumption, for example weather conditions, economic conditions Increase in electricity losses. Losses are mainly caused by:

Illegal connections

Bypassed meters in all areas

Reduction in the water consumption has resulted in unspent budget which was used to supplement the insufficient budget on the ablution facilities to informal settlement.

#### v) Transfers and grants

The transfer and grants expenditure budget was increased as a result of the following:

Additional budget was required in order to provide ablution facilities to informal settlements around the City.

Provision for bursaries was also increased to address the shortfall resulting from misalignment of academic year in relation to the City's financial year.

#### vi) Other Expenditure

Other expenditure decreased with a net amount of R25.3 million attributable to the following major items:

Refuse removal, illegal dumping and mini dumping sites contracts were increased with saving from Clean City contracted workers which did not materialize in during the 2017/18 financial year

Meter management, postage costs, connections and reconnection contracts were increased with savings identified from overtime to enhance the revenue collection and billing processes.
