

**DRAFT ANNUAL FINANCIAL STATEMENTS FOR
THE YEAR ENDED 30 JUNE 2012**

MUNICIPAL MANAGER'S DECLARATION

I am responsible for the preparation of these annual financial statements, which are set out on pages 1 to 65, in terms of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors, loans made to Councillors, if any, and payments made to Councillors for loss of office, if any, as disclosed in note 21 of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Office Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

A handwritten signature in dark ink, appearing to be 'Z Tshetlho', written in a cursive style.

Z TSHETLHO
ACTING MUNICIPAL MANAGER
31 August 2012

INDEX

1. Statement of financial position	1
2. Statement of financial performance	2
3. Statement of changes in net assets	3
4. Cash flow statement	4
5. Significant accounting policies to the financial statements	5
6. Notes to the annual financial statements	15
7. Appendix A - Schedule of external loans as at 30 June 2012	60
8. Appendix B - Analysis of property, plant and equipment as at 30 June 2012	61
9. Appendix C - Segmental analysis of property, plant and equipment for the period ended 30 June 2012	62
10. Appendix D - Segmental statement of financial performance for the period ended 30 June 2012	63
11. Appendix E(1) - Actual versus budget (Revenue and expenditure) for the period ended 30 June 2012	64
12. Appendix E(2) - Actual versus budget (Acquisition of Property Plant and Equipment) for the period ended 30 June 2012	65

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

1. BASIS OF ACCOUNTING

1.1 Basis of presentation

The annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

The annual financial statements have been prepared in accordance with the effective Standards of Generally Recognised Accounting Practice (GRAP), including any interpretations and directives issued by the Accounting Standards Board.

The principal accounting policies adopted in the preparation of these annual financial statements are set out below.

Assets, liabilities, revenues and expenses have not been offset except when offsetting is required or permitted by a Standard of GRAP.

The accounting policies applied are consistent with those used to present the previous year's financial statements, unless explicitly stated. The details of any changes in accounting policies are explained in the relevant policy.

1.2 Presentation currency

These annual financial statements are presented in South African Rand, which is the functional currency of the municipality.

1.3 Going concern assumption

These annual financial statements have been prepared on the assumption that the municipality will continue to operate as a going concern for at least the next 12 months.

1.4 Comparative information

Budget information in accordance with GRAP 1, has been provided in an annexure to these financial statements and forms part of the audited annual financial statements.

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are restated. The nature and reason for the reclassification is disclosed. Where accounting errors have been identified in the current year, the correction is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly. Where there has been a change in accounting policy in the current year, the adjustment is made retrospectively as far as is practicable, and the prior year comparatives are restated accordingly.

1.5 Standards, amendments to standards and interpretations issued but not yet effective

The following GRAP standards have been issued but are not yet effective and have not been early adopted by the municipality. The nature of the impending changes in accounting policy and the impact on the Municipality's financial statements once implemented are as follows:

- GRAP 18 Segment Reporting - issued March 2005

The minister has not yet determined the effective date of required implementation and the impact on the annual financial statements is not known at this time.

- GRAP 23 Revenue from Non-Exchange Transactions (Taxes and Transfers) - issued February 2008

The minister has not yet determined the effective date of required implementation and no material impact on the annual financial statements is expected at this time as the current accounting policy does not differ from what is required in terms of GRAP 23.

- GRAP 24 Presentation of Budget Information in Financial Statements - issued November 2007

The minister has not yet determined the effective date of required implementation and no material impact on the annual financial statements is expected other than the way that budget information is required to be disclosed in terms of GRAP 24.

- GRAP 103 Heritage Assets - issued July 2008

The minister has not yet determined the effective date of required implementation and there is no expected impact on the annual financial statements as the municipality does not control any heritage assets at this time.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

2. RESERVES

2.1 Re-valuation reserve

The surplus arising from the revaluation of land and buildings is credited to a non-distributable reserve. Land and buildings are not depreciated. Revaluations on land and buildings are performed on an annual basis. On disposal, the net revaluation surplus is transferred to the accumulated surplus/(deficit) while gains or losses on disposal, based on revalued amounts, are credited or charged to the Statement of Financial Performance.

3. PROPERTY, PLANT AND EQUIPMENT

3.1 Initial recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year. Items of property, plant and equipment are initially recognised as assets on acquisition date and are initially recorded at cost. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. Trade discounts and rebates are deducted in arriving at the cost. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an item of property, plant and equipment is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

3.2 Subsequent measurement

The revaluation model has been chosen for land and buildings.

Subsequent to initial recognition, land and buildings are carried at a revalued amount, being its fair value at the date of revaluation less any subsequent accumulated depreciation and impairment losses.

An increase in the carrying amount of an asset as a result of a revaluation is credited directly to a revaluation surplus reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in surplus or deficit.

A decrease in the carrying amount of an asset as a result of a revaluation is recognised in surplus or deficit, except to the extent of any credit balance existing in the revaluation surplus in respect of that asset.

The cost model has been chosen for all other items of property, plant and equipment.

Subsequent to initial recognition, items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses.

Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component. Subsequent expenditure incurred on an asset is capitalised when it increases the capacity or future economic benefits associated with the asset.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

3.3 Depreciation and impairment

Depreciation is calculated on the depreciable amount, using the straight-line method over the estimated useful lives of the assets. Components of assets that are significant in relation to the whole asset and that have different useful lives are depreciated separately. The annual depreciation rates are based on the following estimated average asset lives:

<u>PPE category</u>	<u>Method</u>	<u>Years</u>
Land and buildings	Revalued at fair value	Annually
Infrastructure		
Earthworks	Straight-line method over estimated useful life of assets	88
Pipes - Clay	Straight-line method over estimated useful life of assets	80
Pipes - Concrete	Straight-line method over estimated useful life of assets	80
Pipes - Steel	Straight-line method over estimated useful life of assets	80
Pipes - uPVC	Straight-line method over estimated useful life of assets	75

Borehole	Straight-line method over estimated useful life of assets	63
Meters : Bulk	Straight-line method over estimated useful life of assets	23
Meters: Consumer	Straight-line method over estimated useful life of assets	23
Valves	Straight-line method over estimated useful life of assets	50
Standpipes	Straight-line method over estimated useful life of assets	38
Fire Hydrants	Straight-line method over estimated useful life of assets	50
Telemetry	Straight-line method over estimated useful life of assets	18
Motor: Electrical	Straight-line method over estimated useful life of assets	18
Motor: Engine	Straight-line method over estimated useful life of assets	23
Pump: Submersible	Straight-line method over estimated useful life of assets	15
Pump: Centrifugal	Straight-line method over estimated useful life of assets	15
Windmill	Straight-line method over estimated useful life of assets	90
Manholes & Chambers (Bricks)	Straight-line method over estimated useful life of assets	73
Manholes & Chambers (Concrete)	Straight-line method over estimated useful life of assets	80
Storage - Steel	Straight-line method over estimated useful life of assets	70
Storage - Plastic	Straight-line method over estimated useful life of assets	48
Reservoirs - Concrete	Straight-line method over estimated useful life of assets	75
Storage - Concrete (Cattle Troughs)	Straight-line method over estimated useful life of assets	75
Support Structure - Steel	Straight-line method over estimated useful life of assets	70
Support Structure - Stone	Straight-line method over estimated useful life of assets	75
Perimeter Protection - Razor Wire	Straight-line method over estimated useful life of assets	28
Perimeter Protection - Precast	Straight-line method over estimated useful life of assets	43
Perimeter Protection - Wire Mesh	Straight-line method over estimated useful life of assets	28
Perimeter Protection - Electrical	Straight-line method over estimated useful life of assets	28
Perimeter Protection - Brick	Straight-line method over estimated useful life of assets	43
Perimeter Protection - Iron Palisade	Straight-line method over estimated useful life of assets	43
Wave Protection	Straight-line method over estimated useful life of assets	95
Switchgear	Straight-line method over estimated useful life of assets	18
Perimeter Protection - Wire	Straight-line method over estimated useful life of assets	28
Official vehicles	Straight-line method over estimated useful life of assets	5
Machinery and equipment	Straight-line method over estimated useful life of assets	7
Office equipment	Straight-line method over estimated useful life of assets	5
Office furniture	Straight-line method over estimated useful life of assets	7
Computer equipment	Straight-line method over estimated useful life of assets	5

The residual value, the useful life of an asset and the depreciation method is reviewed annually and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY

SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED

The municipality tests for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of property, plant and equipment is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

3.4 Derecognition

Items of Property, plant and equipment are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

4. INTANGIBLE ASSETS

4.1 Initial recognition

An intangible asset is an identifiable non-monetary asset without physical substance. Examples include computer software, licences, and development costs. The municipality recognises an intangible asset in its Statement of Financial Position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Internally generated intangible assets are subject to strict recognition criteria before they are capitalised. Research expenditure is never capitalised, while development expenditure is only capitalised to the extent that:

- the municipality intends to complete the intangible asset for use or sale;
- it is technically feasible to complete the intangible asset;
- the municipality has the resources to complete the project; and
- it is probable that the municipality will receive future economic benefits or service potential.

Intangible assets are initially recognised at cost.

Where an intangible asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

Where an intangible asset is acquired in exchange for a non-monetary asset or monetary assets, or a combination of monetary and non-monetary assets, the asset acquired is initially measured at fair value (the cost). If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

4.2 Subsequent measurement

The cost model has been chosen for intangible assets.

Intangible assets are subsequently carried at cost less accumulated amortisation and impairments. The cost of an intangible asset is amortised over the useful life where that useful life is finite. Where the useful life is indefinite, the asset is not amortised but is subject to an annual impairment test.

4.3 Amortisation and impairment

Amortisation is charged so as to write off the cost or valuation of intangible assets over their estimated useful lives using the straight line method.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at each reporting date and any changes are recognised as a change in accounting estimate in the Statement of Financial Performance.

The municipality tests intangible assets with finite useful lives for impairment where there is an indication that an asset may be impaired. An assessment of whether there is an indication of possible impairment is done at each reporting date. Where the carrying amount of an item of an intangible asset is greater than the estimated recoverable amount (or recoverable service amount), it is written down immediately to its recoverable amount (or recoverable service amount) and an impairment loss is charged to the Statement of Financial Performance.

4.4 Derecognition

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the sales proceeds and the carrying value and is recognised in the Statement of Financial Performance.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

5. INVESTMENT PROPERTY

5.1 Initial recognition

Investment property includes property (land or a building, or part of a building, or both land or buildings held under a finance lease) held to earn rentals and/or for capital appreciation, rather than held to meet service delivery objectives, the production or supply of goods or services, or the sale of an asset in the ordinary course of operations.

At initial recognition, the municipality measures investment property at cost including transaction costs once it meets the definition of investment property. However, where an investment property was acquired through a non-exchange transaction (i.e. where it acquired the investment property for no or a nominal value), its cost is its fair value as at the date of acquisition.

The cost of self-constructed investment property is the cost at date of completion.

5.2 Subsequent measurement

Investment property is measured using the fair value model. Under the fair value model, investment property is carried at its fair value at the reporting date. Any gain or loss arising from a change in the fair value of the property is included in surplus or deficit for the period in which it arises.

6. NON-CURRENT ASSETS HELD FOR SALE

6.1 Initial recognition

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

6.2 Subsequent measurement

Non-current assets held for sale (or disposal group) are measured at the lower of carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held for sale, or while it is part of a disposal group classified as held for sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale are recognised in surplus or deficit.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

7. INVENTORIES

7.1 Initial recognition

Inventories comprise current assets held for sale, consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

7.2 Subsequent measurement

Inventories, consisting of consumable stores, raw materials, work-in-progress and finished goods, are valued at the lower of cost and net realisable value unless they are to be distributed at no or nominal charge, in which case they are measured at the lower of cost and current replacement cost. Redundant and slow-moving inventories are identified and written down in this way. Differences arising on the valuation of inventory are recognised in the Statement of Financial Performance in the year in which they arose. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

In general, the basis of allocating cost to inventory items is the first-in, first-out method OR the weighted average method.

8. FINANCIAL INSTRUMENTS

8.1 Initial recognition

Financial instruments are initially recognized at fair value.

8.2 Subsequent measurement

Financial Assets are categorised according to their nature as either financial assets at fair value through profit or loss, held-to maturity, loans and receivables, or available for sale. Financial liabilities are categorised as either at fair value through profit or loss or financial liabilities carried at amortised cost ("other"). The subsequent measurement of financial assets and liabilities depends on this categorisation and, in the absence of an approved GRAP Standard on Financial Instruments, is in accordance with IAS 39.

8.2.1 Investments

Investments, which include listed government bonds, unlisted municipal bonds, fixed deposits and short-term deposits invested in registered commercial banks, are categorised as either held-to-maturity where the criteria for that categorisation are met, or as loans and receivables, and are measured at amortised cost. Where investments have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. Impairments are calculated as being the difference between the carrying amount and the present value of the expected future cash flows flowing from the instrument. On disposal of an investment, the difference between the net disposal proceeds and the carrying amount is charged or credited to the Statement of Financial Performance.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

8.2.2 Trade and other receivables

Trade and other receivables are categorised as financial assets: loans and receivables and are initially recognised at fair value and subsequently carried at amortised cost. Amortised cost refers to the initial carrying amount, plus interest, less repayments and impairments. An estimate is made for doubtful receivables based on a review of all outstanding amounts at year-end. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. Impairments are determined by discounting expected future cash flows to their present value. Amounts that are receivable within 12 months from the reporting date are classified as current.

An impairment of trade receivables is accounted for by reducing the carrying amount of trade receivables through the use of an allowance account, and the amount of the loss is recognised in the Statement of Financial Performance within operating expenses. When a trade receivable is uncollectible, it is written off. Subsequent recoveries of amounts previously written off are credited against operating expenses in the Statement of Financial Performance.

8.2.3 Trade payables and borrowings

Financial liabilities consist of trade payables and borrowings. They are categorised as financial liabilities held at amortised cost, are initially recognised at fair value and subsequently measured at amortised cost which is the initial carrying amount, less repayments, plus interest.

8.2.4 Cash and cash equivalents

Cash includes cash on hand (including petty cash) and cash with banks (including call deposits). Cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, that are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets: loans and receivables.

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdraft are expensed as incurred. Amounts owing in respect of bank overdrafts are categorised as financial liabilities: other financial liabilities carried at amortised cost.

9. UNAUTHORISED EXPENDITURE

Unauthorised expenditure is expenditure that has not been budgeted, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No.56 of 2003). Unauthorised expenditure is accounted for as an expense in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

10. IRREGULAR EXPENDITURE

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No.56 of 2003), the Municipal Systems Act (Act No.32 of 2000), the Public Office Bearers Act (Act No. 20 of 1998) or is in contravention of the Municipality's supply chain management policy. Irregular expenditure excludes unauthorised expenditure. Irregular expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

11. FRUITLESS AND WASTEFUL EXPENDITURE

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. Fruitless and wasteful expenditure is accounted for as expenditure in the Statement of Financial Performance and where recovered, it is subsequently accounted for as revenue in the Statement of Financial Performance.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

12. PROVISIONS

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the provision can be made. Provisions are reviewed at reporting date and adjusted to reflect the current best estimate. Where the effect is material, non-current provisions are discounted to their present value using a pre-tax discount rate that reflects the market's current assessment of the time value of money, adjusted for risks specific to the liability (for example in the case of obligations for the rehabilitation of land).

The municipality does not recognise a contingent liability or contingent asset. A contingent liability is disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is disclosed where an inflow of economic benefits is probable.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision.

A provision for restructuring costs is recognised only when the following criteria over and above the recognition criteria of a provision have been met:

(a) The municipality has a detailed formal plan for the restructuring identifying at least:

- the business or part of a business concerned;
- the principal locations affected;
- the location, function, and approximate number of employees who will be compensated for terminating their services;
- the expenditures that will be undertaken; and
- when the plan will be implemented

(b) The municipality has raised a valid expectation in those affected that it will carry out the restructuring by starting to implement that plan or announcing its main features to those affected by it.

13. LEASES

13.1 Municipality as lessee

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality. Property, plant and equipment or intangible assets subject to finance lease agreements are initially recognised at the lower of the asset's fair value and the present value of the minimum lease payments. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to derecognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

Operating leases are those leases that do not fall within the scope of the above definition. Operating lease rentals are accrued on a straight-line basis over the term of the relevant lease.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

13.2 Municipality as lessor

Under a finance lease, the municipality recognises the lease payments to be received in terms of a lease agreement as an asset (receivable). The receivable is calculated as the sum of all the minimum lease payments to be received, plus any unguaranteed residual accruing to the municipality, discounted at the interest rate implicit in the lease. The receivable is reduced by the capital portion of the lease instalments received, with the interest portion being recognised as interest revenue on a time proportionate basis. The accounting policies relating to derecognition and impairment of financial instruments are applied to lease receivables.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

14. REVENUE

14.1 Revenue from exchange transactions

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered / goods sold, the value of which approximates the consideration received or receivable.

Interest revenue is recognised on a time proportion basis.

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

Revenue from the sale of goods is recognised when substantially all the risks and rewards in those goods is passed to the consumer.

Revenue arising out of situations where the municipality acts as an agent on behalf of another entity (the principal) is limited to the amount of any fee or commission payable to the municipality as compensation for executing the agreed services.

14.2 Revenue from non-exchange transactions

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No.56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain.

Grants, transfers and donations received or receivable are recognised when the resources that have been transferred meet the criteria for recognition as an asset. A corresponding liability is raised to the extent that the grant, transfer or donation is conditional. The liability is transferred to revenue as and when the conditions attached to the grant are met. Grants without any conditions attached are recognised as revenue when received.

15. BORROWING COSTS

Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets are capitalised to the cost of that asset unless it is inappropriate to do so. The municipality ceases the capitalisation of borrowing costs when substantially all the activities to prepare the asset for its intended use or sale are complete. It is considered inappropriate to capitalise borrowing costs where the link between the funds borrowed and the capital asset acquired cannot be adequately established. Borrowing costs incurred other than on qualifying assets are recognised as an expense in surplus or deficit when incurred.

16. RETIREMENT BENEFITS

The municipality provides retirement benefits for its employees and councillors. The contributions to fund obligations for the payment of retirement benefits are charged against revenue in the year they become payable.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
SIGNIFICANT ACCOUNTING POLICIES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED
30 JUNE 2012

17. IMPAIRMENT OF ASSETS

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired. If any such indication exists, the municipality estimates the recoverable service amount of the asset.

Irrespective of whether there is any indication of impairment, the municipality also:

- tests intangible assets with an indefinite useful life or intangible assets not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount. This impairment test is performed during the annual period and at the same time every period.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the cash-generating unit to which the asset belongs is determined.

The recoverable service amount of an asset or a cash-generating unit is the higher of its fair value less costs to sell and its value in use.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any impairment loss of a revalued asset is treated as a revaluation decrease.

An impairment loss is recognised for cash-generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- to the assets of the unit, pro rata on the basis of the carrying amount of each asset in the unit.

A municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit. Any reversal of an impairment loss of a revalued asset is treated as a revaluation increase.

Trade and other receivables impaired

As of 30 June 2012, the provision for the impairment of trade and other receivables of R10,277,099 (30 June 2011 : R1,970,559) were impaired and provided for.

The amount of the contribution to the provision was R,,0 (30 June 2011 : R,,0).

The ageing of these receivables is as follows:

- 3 to 6 months	13 400	1 041 698
- Over 6 months	10 263 699	928 860

The fair value of trade and other receivables approximates their carrying amounts.

3. PREPAYMENTS

Prepaid expenses	413 845	285 226
------------------	----------------	----------------

SALGA membership and office equipment maintenance relating to the following financial year, were paid during the year. Office rental, SALGA membership fees and office equipment maintenance relating to the current financial year, were paid in the previous year.

4. VAT RECEIVABLE

VAT receivable	48 071 551	13 620 949
----------------	-------------------	-------------------

VAT is payable on the invoice basis. Payment becomes due and payable to SARS upon issuing of tax invoices.

5. PROPERTY, PLANT AND EQUIPMENT

Refer **note 45** for reconciliation of carrying value.

5.1 Details of valuation of Land and buildings

The effective date of the revaluations was 30 June 2012. Revaluations were performed by an independent valuer, Mr. Philippus Venter (Candidate Valuer - Registration number: 6653/6), of the firm Venter Booyesen and Ferreira. Mr. Philippus Venter was assisted in the valuation by his principal, Mr. HJ Swanepoel (Professional Valuer - Registration number: 3553/8) of the firm Kotze Low and Swanepoel. Venter Booyesen and Ferreira and Kotze Low and Swanepoel are not connected to the entity.

Land and buildings are re-valued independently every year.

Land and buildings were revalued to fair value by using market values. Market values were determined by the averaging of the income capitalization method and the outcomes of comparable transactions. In the case where the market market of buildings can not be reasonably determined, fair value is based on depreciated replacement value.

These assumptions are based on current market conditions and were determined as follows per asset:

Moffat street stores

This property is revalued to fair value by using market values. Market values are determined by the averaging of the income capitalization method (income capitalization producing property) and the outcomes of comparable transactions of similar properties.

Income capitalization method (Nett income / Captilization rate of 16%):

Reasonable monthly rental	64 010	61 487
- Total are of offices, store rooms and workshops for R50 x 1,204 sq m	60 200	57 792
- Pre fabricated sinc structure for R20 x 18 sq m	360	360
- Carports for R150 x 23	3 450	3 335
Gross potential annual income	768 120	737 844
Less: Estimated expenses, insurance, property rates & repairs (15%)	-115 218	-110 677
Nett annual income	652 902	627 167
Market value by captilization method	4 080 638	3 919 796
Market value by captilization method (rounded to R'000)	4 080 638	3 900 000
Comparable transactions method:		
Current replacement cost of property	4 286 324	4 286 324
Less: 40% adjustment due to market value lower than replacement	-1 714 530	-1 714 530
Market value by comparable transaction method	2 571 794	2 571 794
Market value by comparable transaction method (rounded to R'000)	2 520 000	2 520 000
Final market value (Average of Income captilization and Comparable transaction methods):	3 300 000	3 210 000

7.5 Amounts recognised

Amounts recognised in surplus or deficit for the year.

100 000

8. NON-CURRENT ASSETS HELD FOR SALE

Property, plant and equipment	361 148	361 148
Investment property	-	-
Other assets	-	-
	361 148	361 148

Land parcels registered to the Municipality

Land parcels to the value of R361,148 are held by the Municipality and will be disposed of within the next 12 months. As these individual land parcels are of no or little economic benefit to the municipality it was decided that it would be more beneficial for them to be transferred to the local municipalities and land owners adjacent to the land parcels.

Land parcels not registered to the Municipality

Land parcels to the value of R311,500 are currently in the process of being transferred to the Municipality from National Government. Once transferred to the Municipality, these land parcels will be transferred to the owners adjacent to the land parcels. It is expected that this process will be completed by 30 June 2013.

9. TRADE AND OTHER PAYABLES FROM EXCHANGE TRANSACTIONS

Trade creditors	38 782 000	36 553 774
Payments received in advance	-	-
Retentions	18 531 339	8 656 633
Staff leave accrual	2 216 760	2 091 235
Operating lease payments liability	6 794	6 794
Other creditors	1 593 948	1 759 680
Total creditors	61 130 840	49 068 116

The movement in staff leave accrual above are reconciled as follows:

Balance at beginning of year	2 091 235	2 087 597
Transfer from non-current	-	-
Contribution to provision	2 089 174	1 707 000
Expenditure incurred	-1 963 649	-1 703 362
Balance at end of year	2 216 760	2 091 235

The fair value of trade and other payables approximates their carrying amounts.

10. DEPOSITS

Construction guarantees	339 672	718 517
Total deposits	339 672	718 517

Construction guarantees are reflected at fair value as they are linked to interest bearing call accounts held by the municipality.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

	2012 R	2011 R
--	-----------	-----------

11. CURRENT PROVISIONS

Performance bonus	-	-
Current portion of long-service awards	-	99 251
Current portion of continued medical aid contributions	-	784 932
Total current provisions	-	884 183

Performance bonuses are paid one year in arrear. The assessment of eligible employees had not taken place at the reporting date and has therefore now been provided for based on the previous year's average performance bonuses paid.

12. NON-CURRENT PROVISIONS

Long-service awards	3 183 422	3 084 171
Continued medical aid contributions	11 004 975	10 220 042
Total non-current provisions	14 188 397	13 304 214

Long-service awards are initially payable after 10 years and thereafter every 5 years of continuous service. The provision is an estimate of the long-service based on the current staff complement and remuneration adjusted for fair value.

Continued medical aid contributions are paid on behalf of former officials who have retired at retirement age after at least 10 consecutive years in the service of the municipality. The provision is an estimate of the continued medical aid contributions based on the current staff complement and pensioners adjusted for fair value.

The movement in non-current provisions are reconciled as follows:

12.1 Long-service awards

Balance at beginning of year	3 183 422	2 281 413
Contributions to provision	-	992 805
Expenditure incurred	-	-90 796
	3 183 422	3 183 422
Transfer to current provision	-	-99 251
Balance at end of year	3 183 422	3 084 171

Key assumptions

In estimating the unfunded liability for Long-service awards of the Municipality a number of actuarial assumptions are required. The IAS19 Statement places the responsibility on management to set these assumptions, as guided by the principles set out in the Statement.

It should be noted that the valuation method and assumptions do not affect the ultimate cost of the Long-service awards arrangement – these are determined by actual experience and by the benefits provided. The method and assumptions influence how the past service liability and current-service costs are recognised over time.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

2012	2011
R	R

The key financial and demographic assumptions are summarised below:

Key Financial Assumptions

Discount rate	8.0%
General salary inflation (long-term)	6.5%

Key Demographic Assumptions

Average retirement age	63
------------------------	----

Sensitivity analysis

The extent to which the actual liability faced in the future by the Municipality differs from these results will depend on the extent to which actual experience differs from the assumptions made.

The assumptions which tend to have the greatest impact on the results are:

- (i) The discount rate relative to the salary inflation assumptions; and
- (ii) The average retirement age of employees;

The liability at the valuation date was recalculated to show the effect of increases and decreases on the central assumptions made:

Assumption and change	% change		
Central assumptions		3 183 422	3 183 422
General salary increase: +1%	10%	3 509 943	3 509 943
General salary increase: -1%	-9%	2 897 664	2 897 664
Discount rate: +1%	-9%	2 903 807	2 903 807
Discount rate: -1%	10%	3 508 312	3 508 312
Average retirement age: +1 year	5%	3 337 454	3 337 454
Average retirement age: -1 year	-5%	3 029 144	3 029 144

12.2 Continued medical aid contributions

Balance at beginning of year	11 004 975	8 743 500
Contributions to provision	-	2 977 935
Expenditure incurred	-	-716 460
	11 004 975	11 004 975
Transfer to current provision	-	-784 932
Balance at end of year	11 004 975	10 220 042

Key assumptions

In estimating the liability for Continued medical aid contributions of the Municipality a number of actuarial assumptions are required. The IAS19 Statement places the responsibility on management to set these assumptions, as guided by the principles set out in the Statement.

It should be noted that the valuation method and assumptions do not affect the ultimate cost of the Continued medical aid contributions arrangement – these are determined by actual experience and by the benefits provided. The method and assumptions influence how the past service liability and current-service costs are recognised over time.

R

2011
R

The key financial and demographic assumptions are summarised below:

Key Financial Assumptions

Discount rate	8.0%
Health care cost inflation rate	6.5%

Key Demographic Assumptions

Average retirement age	63
Continuation of membership at retirement	90%
Mortality during employment	Life expectancy as per the regulations to the Estate Duty Act
Withdrawal from service (Average age: 39 at 30 June 2011 and 39 at 30 June 2010)	10%

Sensitivity analysis

The extent to which the actual liability faced in the future by the Municipality differs from these results will depend on the extent to which actual experience differs from the assumptions made.

The assumption which tends to have the greatest impact on the results is the rate of health care cost inflation relative to the discount rate.

The liability at the valuation date was recalculated to show the effect of increases and decreases on the central assumptions made:

Assumption and change	% change		
Central assumptions		11 004 975	11 004 975

34.3.4 Contract appointment: BDM2007-012C

	5 863 287	5 863 287
--	------------------	------------------

The contract for the internal sewer network on the Utlwanang Bucket Eradication project was awarded to Shatsane / Above and Beyond Trading JV. The bid was however not awarded to the qualifying bidder with the highest points. This bid appointment will be investigated and presented to council for decision on recovery or write-off in the 2012/13 financial year.

34.3.5 Contract appointment: BDM2007-013C

	7 482 065	7 482 065
--	------------------	------------------

The contract for the internal sewer network on the Boitumelong Bucket Eradication project was awarded to Faiaud Transport Services / Are Berekeng JV. The bid was however not awarded to the qualifying bidder with the highest points. This bid appointment will be investigated and presented to council for decision on recovery or write-off in the 2012/13 financial year.

34.3.6 Contract appointment: BDM2007-019C

	1 567 155	1 567 155
--	------------------	------------------

The contract for the Supply and Installation of Water Connections and Pre-Cast Toilets to 150 stands in Colridge project was awarded to Tshupetso Dikiro Construction. The bid was however not awarded to the qualifying bidder with the highest points. This bid appointment will be investigated and presented to council for decision on recovery or write-off in the 2012/13 financial year.

34.3.7 Contract appointment: BDM2007-025A

	611 400	611 400
--	----------------	----------------

The contract for the supply of security services was awarded to M and DJ Security Solutions. The bid was however not awarded to the qualifying bidder with the highest points. This bid appointment will be investigated and presented to council for decision on recovery or write-off in the 2012/13 financial year.

34.3.8 Mayoral vehicle: deemed private use

	445 426	445 426
--	----------------	----------------

The municipality provided a council vehicle to the former Executive Mayor for his exclusive use. As no accurate records were maintained to distinguish between private and business use, the entire kilometers travelled for the year is deemed to be private. The deemed private portion of the use thereof is in excess of the upper limits for remuneration of councillors per the Public Office Bearers Act. This expense will be investigated and presented to council for decision on recovery or write-off in the 2012/13 financial year.

i) No further material losses or material irregular or fruitless and wasteful expenditures or material unauthorized expenditure had occurred during the financial year.

ii) No criminal or disciplinary steps were taken as a result of losses from the above.

iii) No material losses have been recovered or written-off.

37. EMPLOYEE BENEFIT INFORMATION

37.1 Pension Funds

Councillors and employees belong to 4 defined contribution retirement funds:

37.1.1 Cape Joint Retirement Fund

The last actuarial valuation of the Cape Joint Retirement Pension Fund was done at 30 June 2009. This valuation indicated that the fund is in a sound financial condition at the valuation date.

37.1.2 Municipal Councillors Pension Fund

The last actuarial valuation of the Municipal Councillors Pension Fund was done at 30 June 2008. This valuation indicated that the fund is in a sound financial condition at the valuation date.

37.1.3 National Fund for Municipal Workers

The last actuarial valuation of the National Fund for Municipal Workers was done at 30 June 2008. This valuation indicated that the fund is in a sound financial condition at the valuation date.

37.1.4 Municipal Gratuity Fund

The last actuarial valuation of the Municipal Gratuity Fund was done at 30 June 2008. This valuation indicated that the fund is in a sound financial condition at the valuation date.

Contributions

An amount of R5,894,649 (2011 : R5,489,961) was contributed by Council in respect of councillor and employees retirement funding. These contributions have been expensed and are included in employee related costs for the year.

37.2 Medical aid

An amount of R3,350,834 (2011 : R5,315,138) was provided and contributed by Council in respect of councillors and employees medical aid. These contributions have been expensed and are included in employee related costs for the year.

38. CONTINGENT LIABILITIES

38.1 DBSA loans transfer from Dr Kenneth Kaunda District Municipality

The then Southern District Municipality had prior to 2000 taken up loans from the DBSA to finance the upgrading of infrastructure assets in the Mamusa and Lekwa-Teemane Local Municipalities. On 29 September 2000, the then Bophirima District Municipality was established in accordance with the demarcation process. As a result of this process these infrastructure assets were then located within the area of jurisdiction of the Dr Ruth S Mompoti District Municipality. Certain transitional provisions relating to the transfer of assets and liabilities were proclaimed. In accordance with this clause, these matters will vest in the Dr Ruth S Mompoti District Municipality with effect from the date when such a determination is made by the MEC. On 5 December 2008, Official Notice no 18 of 2008 per Provincial Gazette 6562 was issued in terms of which the DBSA loans were transferred retrospectively to the Dr Ruth S Mompoti District Municipality. The municipality is objecting to the Official Notice based on the following main principles:

- a) Proper consultation with the Dr Ruth S Mompoti District Municipality regarding the transfer of the loans was not done prior to the issuing of the Notice as per Section 16(1)(h) of the Municipal Structures Act.

- b) The transfer of the loans will affect the Municipality's cash flow and as a consequence limit it from performing its functions or exercising the powers assigned to it. This is contrary to the requirements per Section 14(2)(b)(iii) of the Municipal Structures Act.

The Dr Ruth Segomotsi Mompoti District Municipality remains committed in resolving the matter in order to reach agreement with all parties involved for the transfer of assets and liabilities from the Dr Kenneth Kaunda District Municipality. The total outstanding balance (including arrears) of the DBSA loans as at 30 June 2010 amount to R64,856,865.84.

38.2 Various legal proceedings

38.2.1 Santam Insurance Company

The municipality received a letter of demand from Deneys Reits Attorneys who act on behalf of Santam Insurance Company who in turn are the insurers of a number of insured parties. The claim is in respect of damages suffered by the insured parties as a result of floods that took place during or about January 2010. No formal legal proceedings have been instituted. The Municipality's financial exposure, should the parties be successful in their actions, is estimated at R30,000,000.00.

R

38.2.2 Maseramule Attorneys

Messrs Maseramule Attorneys rendered legal advice to the Municipality and thereafter rendered an account in an amount of approximately R115,000.00 which the Municipality concluded to be excessive. Messrs Maseramule attorneys have been requested to present their account for taxation and we are currently awaiting such taxation. The Municipality's financial exposure, should the claim succeed, is estimated at R130,000.00.

38.2.3 Ultimate Dynamics

The legal action instituted by Ultimate Dynamic was defended and eventually settled on the basis that the Naledi Local Municipality made payment to Ultimate Dynamic and that the District Municipality made funds available so as to enable the Naledi Local Municipality to make the relevant payment. Currently the District Municipality's own Legal Bill is to be paid and the Municipality's financial exposure is estimated in an amount of R10,700.00

38.2.4 GEPF

The GEPF claims payment from the District Municipality in amount of R748,457.89 being in respect of alleged additional liability that the GEPF had at the result of the resignation of a former employee of the Municipality. The Municipality denies indebtedness, but should the claim succeed, the Municipality's financial exposure is estimated at an amount of R800,000.00.

38.2.5 M&DJ Security Solutions

M & DJ Security Solutions instituted action against the Municipality for the recovery of an amount of R27,930.00 being in respect of security services allegedly rendered to the Municipality. The claim was defended and on the 14th of October 2010 the Plaintiff's claim was dismissed with costs due to the fact that the Plaintiff was not present at Court on the date that the matter would have been heard. The Municipality's financial exposure is estimated at R8,000.00 being its own legal costs.

38.2.6 Mutual & Federal

The municipality received a letter of demand from Messrs Deneys Reits Attorneys acting on behalf of Mutual & Federal Insurance Company who in turn act as insurers for a number of claimants. The claimants' claim is in respect of damages suffered as a result of flooding that took place during or about January 2010. No formal litigation has been proceeded with, but should the claimants claims against the Municipality be successful, we estimate the municipality's financial exposure at an amount of R8,000,000.00.

38.2.7 Khasu Engineering (Pty) Ltd

Khasu Engineering [Pty] Ltd directed a letter of demand to the Municipality via its attorneys Messrs Roos Hattingh for payment of an amount of R2,000,000.00 whilst the Municipality is of the opinion no amount is due and payable to the claimant. Should the claimant be successful in its claim we estimate the Municipality's financial exposure at an amount of R2,200,000.00.

42. RISK MANAGEMENT

The activities of the municipality expose it to a variety of financial risks, including market risk (comprising Currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The municipality's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the municipality's financial performance.

42.1 Maximum credit risk exposure

Credit risk is the risk that a counter party to a financial or non-financial asset will fail to discharge an obligation and cause the Municipality to incur financial loss.

Credit risk arises mainly from cash and cash equivalents, instruments and deposits with banks and financial institutions, as well as credit exposures to consumer and grant debtors.

For banks and financial institutions, only independently rated parties with a minimum rating of 'B+' are accepted. Grants are receivable from higher order levels of government. In the case of consumer debtors the municipality effectively has the right to terminate services to customers but in practice this is difficult to apply. This increases the credit risk in respect of consumer debtors. The risk of non-payment is managed on an ongoing basis and where practical, services are terminated and procedures applied to recover outstanding amounts owing and an appropriate level of impairment provision for default is maintained.

42.2 Liquidity risk

The municipality's risk to liquidity is a result of the funds available to cover future commitments. The municipality manages liquidity risk through an ongoing review of future commitments and credit facilities.

Cash flow forecasts are prepared and adequate utilised borrowing facilities are monitored.

Liquidity risk is mitigated by the fact that sundry debtors have been adequately provided for as impaired and that the Municipality has no consumer debtors that will affect available cash balances.

42.3 Interest rate risk

The municipality's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the municipality to cash flow interest rate risk. Borrowings issued at fixed rates expose the municipality to fair value interest rate risk.

DR RUTH S MOMPATI DISTRICT MUNICIPALITY
NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2012

2012
R

2011
R

At year end, financial instruments exposed to interest rate risk were as follows:

- Call deposits

The average interest rate earned was recalculated to show the effect of increases and decreases as follows:

Assumption and change

Interest earned (Average interest rate 30 June 2012 - 4.08% and 30 June 2011 - 8.76%):	1 394 885	1 450 162
Actual interest rate: -1%	1 053 002	1 284 618
Actual interest rate: +1%	1 736 769	1 615 705

- Development Bank of South Africa loan

The average interest rate paid was recalculated to show the effect of increases and decreases as follows:

Assumption and change

Interest paid (Average interest rate 30 June 2012 - 0% and 30 June 2011 - 6.75%):	-	277 046
Actual interest rate: -1%	-	236 002
Actual interest rate: +1%	-	318 090

The interest rate risk on the Development Bank of South Africa loan is mitigated by the fact that the current loan is short-term and the interest rate is fixed for the duration of the loan.

42.4 Other price risk

Potential concentrations of credit risk and interest rate risk consist mainly of fixed deposit investments, long-term debtors, consumer debtors, other debtors, short-term investment deposits and bank and cash balances.

The municipality limits its counterparty exposures from its money market investment operations by only dealing with well-established financial institutions of high credit standing. The credit exposure to any single counterparty is managed by setting transaction / exposure limits, which are included in the municipality's Investment Policy. These limits are reviewed annually by the CFO and authorised by the Municipal Council.

The municipality does not carry any direct consumer debtors as the Water Services Authority in the District. Water and sewerage services are currently performed by appointed water service providers. The municipality is therefore not exposed to the non-payment risk that consumer debtors present.

Long-term Receivables and Other Debtors are individually evaluated annually at year-end date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment / discounting, where applicable.

43. COMPARISON WITH THE BUDGET

The comparison of the Municipality's actual financial performance with that budgeted is set out in **Annexures E(1) and E(2)**.

APPENDIX E(1)
ACTUAL VERSUS BUDGET (REVENUE AND EXPENDITURE) FOR THE YEAR ENDED 30 JUNE 2012

	2012				Explanation of significant variances greater than 10% versus budget
	Actual R	Budget R	Variance		
			R	%	
REVENUE					
Rental of facilities and equipment	571 557	541 662	29 895	6%	-
Interest earned - external investments	2 805 870	2 150 000	655 870	31%	-
Interest earned - outstanding debtors	-	-	-	0%	-
Government grants and subsidies	492 847 431	458 519 767	34 327 664	7%	Lower than anticipated conditional grants condition met due to lower than expected expenditure
Other income	514 161	308 600	205 561	67%	Mainly due to higher than expected reversal of impairment of receivables
TOTAL REVENUE	496 739 019	461 520 029	35 218 990	8%	
EXPENDITURE					
Employee related costs	62 145 620	64 952 457	2 806 836	4%	-
Remuneration of councillors	4 953 979	4 657 852	-296 127	-6%	-
Impairment of receivables	-6 166	500 000	506 166	101%	-
Collection costs	-	-	-	0%	-
Depreciation	-	4 352 500	4 352 500	100%	Mainly due to Infrastructure asset depreciation - difficult to predict at budget time
Repairs and maintenance	1 740 444	1 787 300	46 856	3%	-
Interest paid	-	5 000 000	5 000 000	100%	Lower than expected - no new loans taken up during the financial year
Bulk purchases	39 237 729	46 216 800	6 979 071	15%	-
Contracted services	51 840 623	35 551 048	-16 289 575	-46%	Slower than expected expenditure on rural sanitation and other key projects
Grants and subsidies paid	30 349 463	29 755 417	-594 047	-2%	Mainly due to faster implementation of NURP and community learnerships not expected
General expenses	25 466 398	22 003 580	-3 462 818	-16%	Mainly due to audit fees, travel and subsistence, special projects, etc.
TOTAL EXPENDITURE	215 728 090	214 776 953	-951 137	0%	
Gain / (loss) on disposal of PPE	-	-	-	-100%	Not anticipated per budget compilation
(Impairment loss) / reversal of impairment loss	-2 139 991	-	-2 139 991	100%	Not anticipated per budget compilation
Profit / (loss) on fair value adjustmen	100 000	-	100 000	100%	Not anticipated per budget compilation
NET SURPLUS / (DEFICIT) FOR THE YEAR	278 970 938	246 743 076	34 130 136	14%
