## **Ugu District Municipality**

Annual Financial Statements for the year ended 30 June 2014

### **Accounting Officer's Responsibilities and Approval**

---

The accounting officer is required by the Municipal Finance Management Act (Act 56 of 2003), to maintain adequate accounting records and is responsible for the content and integrity of the annual financial statements and related financial information included in this report. It is the responsibility of the accounting officer to ensure that the annual financial statements fairly present the state of affairs of the municipality as at the end of the financial year and the results of its operations and cash flows for the period then ended. The external auditors are engaged to express an independent opinion on the annual financial statements and was given unrestricted access to all financial records and related data.

The annual financial statements have been prepared in accordance with Standards of Generally Recognised Accounting Practice (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board.

The annual financial statements are based upon appropriate accounting policies consistently applied and supported by reasonable and prudent judgements and estimates.

The accounting officer acknowledges that he is ultimately responsible for the system of internal financial control established by the municipality and place considerable importance on maintaining a strong control environment. To enable the accounting officer to meet these responsibilities, the accounting officer sets standards for internal control aimed at reducing the risk of error or deficit in a cost effective manner. The standards include the proper delegation of responsibilities within a clearly defined framework, effective accounting procedures and adequate segregation of duties to ensure an acceptable level of risk. These controls are monitored throughout the municipality and all employees are required to maintain the highest ethical standards in ensuring the municipality's business is conducted in a manner that in all reasonable circumstances is above reproach. The focus of risk management in the municipality is on identifying, assessing, managing and monitoring all known forms of risk across the municipality. While operating risk cannot be fully eliminated, the municipality endeavours to minimise it by ensuring that appropriate infrastructure, controls, systems and ethical behaviour are applied and managed within predetermined procedures and constraints.

The accounting officer is of the opinion, based on the information and explanations given by management, that the system of internal control provides reasonable assurance that the financial records may be relied on for the preparation of the annual financial statements. However, any system of internal financial control can provide only reasonable, and not absolute, assurance against material misstatement or deficit.

The accounting officer has reviewed the municipality's cash flow forecast for the year to 30 June 2015 and, in the light of this review and the current financial position, he is satisfied that the municipality has or has access to adequate resources to continue in operational existence for the foreseeable future.

Although the accounting officer are primarily responsible for the financial affairs of the municipality, they are supported by the municipality's external auditors.

The external auditors are responsible for expressing an audit opinion and reporting on the municipality's annual financial statements. The annual financial statements have been examined by the municipality's external auditors and their report is presented on page 4.

The annual financial statements set out on pages 4 to 92, which have been prepared on the going concern basis, were approved by the accounting officer on 31 August 2014 and were signed on its behalf by:

## **Ugu District Municipality**

Annual Financial Statements for the year ended 30 June 2014

### **Accounting Policies**

---

#### **1. Basis of presentation**

The annual financial statements have been prepared on the accrual basis of accounting and are in accordance with the historical cost convention, except where indicated otherwise. The annual financial statements are presented in South African rand, rounded off to the nearest rand which is the municipality's functional currency.

These annual financial statements have been prepared in accordance with the effective standards of Generally Recognised Accounting Principles (GRAP) including any interpretations, guidelines and directives issued by the Accounting Standards Board and the Municipal Finance Management Act, 2003 (Act No 56 of 2003).

##### **1.1 Changes in accounting policy and comparability**

Accounting policies have been consistently applied, except where otherwise indicated below:

For the years ended 30 June 2013 and 30 June 2014 the municipality has adopted the accounting framework as set out in paragraph 1 above. The details of any resulting changes in accounting policy and comparative restatements are set out in the relevant Notes to the annual financial statements.

The municipality changes an accounting policy only if the change:

- Is required by a Standard of GRAP; or
- Results in the annual financial statements providing reliable and more relevant information about the effects of transactions, other events or conditions, on the municipality's financial position, financial performance or cash flow.

##### **1.2 Critical judgements, estimations and assumptions**

In the application of the municipality's accounting policies, which are described below, management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

These estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the critical judgements, apart from those involving estimations, that the management have made in the process of applying the municipality's accounting policies and that have the most significant effect on the amounts recognised in annual financial statements:

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Accounting Policies

---

### 1.2 Critical judgements, estimations and assumptions (continued)

#### Revenue recognition

Accounting policy 9.2 on revenue from exchange transactions and accounting policy 9.3 on revenue from non-exchange transactions describes the conditions under which revenue will be recorded by the management of the municipality.

In making their judgement, the management considered the detailed criteria for the recognition of revenue as set out in GRAP 9 (Revenue from exchange transactions) and GAMAP 9 (Revenue) as far as revenue from non-exchange transactions is concerned (see basis of preparation above), and, in particular, whether the municipality, when goods are sold, had transferred to the buyer the significant risks and rewards of ownership of the goods and when services is rendered, whether the service has been rendered. Also of importance is the estimation process involved in initially measuring revenue at the fair value thereof. The management of the municipality is satisfied that recognition of the revenue in the current year is appropriate.

#### Financial assets and liabilities

The classification of financial assets and liabilities, into categories, is based on judgement. Accounting policy 6.1 on financial assets classification and accounting policy 6.2 on financial liabilities classification describe the factors and criteria considered by the management of the municipality in the classification of financial assets and liabilities.

In making the above-mentioned judgement, management considered the definition and recognition criteria for the classification of financial instruments as set out in GRAP 104 (Financial Instruments – Presentation) and GRAP 104 (Financial Instruments – Recognition and Measurement).

#### Impairment of financial assets

Accounting policy 6.4 on impairment of financial assets describes the process followed to determine the value with which financial assets should be impaired. In making the estimation of the impairment, the management of the municipality considered the detailed criteria of impairment of financial assets as set out in GRAP 104 (Financial Instruments – Recognition and Measurement) and used its judgement to select a variety of methods and make assumptions that are mainly based on market conditions existing at the end of the reporting period.

The management of the municipality is satisfied that impairment of financial assets recorded during the year is appropriate.

- **Impairment of trade receivables:**  
The calculation in respect of the impairment of debtors is based on an assessment of the extent to which debtors have defaulted on payments already due, and an assessment of their ability to make payments based on their creditworthiness. This is performed per service-identifiable categories across all classes of debtors.

#### Useful lives of property, plant and equipment and intangible assets

As described in accounting policies 3.3 and 4.2, the municipality depreciates/amortises its property, plant and equipment and intangible assets over the estimated useful lives of the assets, taking into account the residual values of the assets at the end of their useful lives, which is determined when the assets are available for use.

The useful lives of assets are based on management's estimation. Management considered the impact of technology, availability of capital funding, service requirements and required return on assets in order to determine the optimum useful life expectation, where appropriate.

The estimation of residual values of assets is based on management's judgement as to whether the assets will be sold or used to the end of their useful lives, and in what condition they will be at that time.

#### Water inventory

The estimation of the water inventory in reservoirs is based on the measurement of water via electronic level sensors, which determines the depth of water in the reservoirs, which is then converted into volumes based on the total capacity of the reservoir. Refer to accounting policy, paragraph 7.2.2.

#### Defined benefit plan liabilities

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Accounting Policies

---

### 1.2 Critical judgements, estimations and assumptions (continued)

As described in accounting policy 11.2, employee benefits –post-employment benefits, the municipality obtains actuarial valuations of its defined benefit plan liabilities. The defined benefit obligations of the municipality that were identified are post-retirement health benefit obligations and long-service awards. Details of the liabilities and the key assumptions made by the actuaries in estimating the liabilities are provided in notes to the annual financial statements.

#### Provisions and contingent liabilities

Management judgement is required when recognising and measuring provisions and when measuring contingent liabilities. provisions are discounted where the effect of discounting is material using actuarial valuations.

### 1.3 Controlled entities

Controlled entities are entities, including special purpose entities, over which the municipality has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the municipality controls another entity. Subsidiaries are fully consolidated from the date on which control is transferred to the municipality. They are de-consolidated from the date on which control ceases. Controlled entities are identified after evaluation of power and benefit indicators as described in GRAP 6.

Inter-entity transactions, balances and unrealised gains on transactions between the municipality and the subsidiaries are eliminated.

Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

Subsidiaries' accounting policies have been changed where necessary to ensure consistency with the policies adopted by the municipality.

### 1.4 Property plant and equipment

#### Initial recognition

Property, plant and equipment are tangible non-current assets (including infrastructure assets) that are held for use in the production or supply of goods or services, rental to others, or for administrative purposes, and are expected to be used during more than one year.

The cost of an item of property plant and equipment is recognised as an asset when:

- it is probable that future economic benefits or service potential associated with the item will flow to the municipality; and
- the cost or fair value of the item can be measured reliably.

Property, plant and equipment is initially recognised at cost on its acquisition date or in the case of assets acquired by grants or donations, deemed cost, being the fair value of the asset on initial recognition. The cost of an item of property, plant and equipment is the purchase price and other costs attributable to bring the asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality. The cost also includes the necessary costs of dismantling and removing the asset and restoring the site on which it is located.

When significant components of an item of property, plant and equipment have different useful lives, they are accounted for as separate items of property, plant and equipment.

Where an asset is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of that asset on the date acquired.

The cost of an item of property, plant and equipment acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up.

Major spare parts and servicing equipment qualify as property, plant and equipment when the municipality expects to use them during more than one period. Similarly, if the major spare parts and servicing equipment can be used only in connection with an item of property, plant and equipment, they are accounted for as property, plant and equipment.

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Accounting Policies

---

### 1.4 Property plant and equipment (continued)

#### Subsequent measurement

Subsequent expenditure relating to property, plant and equipment is capitalised if it is probable that future economic benefits or potential service delivery associated with the subsequent expenditure will flow to the municipality and the cost or fair value of the subsequent expenditure can be reliably measured. Subsequent expenditure incurred on an asset is only capitalised when it increases the capacity or future economic benefits associated with the asset. Where the municipality replaces parts of an asset, it derecognises the part of the asset being replaced and capitalises the new component.

Subsequently all property plant and equipment is measured at cost (or deemed cost), less accumulated depreciation and accumulated impairment losses.

Compensation from third parties for items of property, plant and equipment that were impaired, lost or given up is included in surplus or deficit when the compensation becomes receivable.

#### Depreciation

Depreciation on assets other than land is calculated on cost, using the straight-line method, to allocate the cost over the estimated useful lives of the assets. The depreciation method used reflects the pattern in which the asset's future economic benefits or service potential are expected to be consumed by the municipality. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately.

Depreciation only commences when the asset is available for use, unless stated otherwise. The depreciation rates are based on the following estimated useful lives:

Item	Average useful life
Buildings	
• Improvements	5 to 30 years
Infrastructure	
• Security measures	7 to 25 Years
• Sewerage	7 to 60 Years
• Water	5 to 100 Years
Community	
• Sports facilities	5 to 30 years
• Other facilities	5 to 30 years
Other	
• Computer equipment	3 to 10 years
• Furniture and Fittings	3 to 15 years
• Motor vehicles	4 to 15 years
• Office equipment	3 to 15 years
• Plant and equipment	2 to 15 years
• Specialist vehicles	10 to 15 years
• Other assets	5 to 30 years

The assets' residual values, estimated useful lives and depreciation method are reviewed annually, and adjusted prospectively if appropriate, at each reporting date.

#### Land

Land is stated at historical cost and is not depreciated as it is deemed to have an indefinite useful life.

#### Infrastructure assets.

Infrastructure assets are any assets that are part of a network of similar assets. Infrastructure assets are shown at cost less accumulated depreciation and accumulated impairment. Infrastructure assets are treated similarly to all other assets of the municipality in terms of the asset management policy.

#### Finance leases

Assets capitalised under finance leases are depreciated over their expected useful lives on the same basis as property, plant and equipment controlled by the municipality or where shorter, the term of the relevant lease if there is no reasonable certainty that the municipality will obtain ownership by the end of the lease term.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Accounting Policies

---

#### 1.4 Property plant and equipment (continued)

##### Derecognition of property, plant and equipment.

The carrying amount of an item of property, plant and equipment is derecognised on disposal, or when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from the derecognition of an item of property, plant and equipment is included in surplus or deficit when the item is derecognised.

Gains or losses are calculated as the difference between the carrying value of assets (cost less accumulated depreciation and accumulated impairment losses) and the proceeds from disposals and are included in the statement of financial performance as a gain or loss on disposal of property, plant and equipment.

#### 1.5 Intangible assets

##### Initial recognition

Identifiable non-monetary assets without physical substance are classified and recognised as intangible assets. The municipality recognises an intangible asset in its statement of financial position only when it is probable that the expected future economic benefits or service potential that are attributable to the asset will flow to the municipality and the cost or fair value of the asset can be measured reliably.

Intangible assets are initially recognised at cost. The cost of an intangible asset is the purchase price and other costs attributable to bring the intangible asset to the location and condition necessary for it to be capable of operating in the manner intended by the municipality, or where an Intangible Asset is acquired at no cost, or for a nominal cost, the cost shall be its fair value as at the date of acquisition. Trade discounts and rebates are deducted in arriving at the cost. Intangible assets acquired separately or internally generated are reported at cost less accumulated amortisation and accumulated impairment losses.

The cost of an intangible asset acquired in exchange for non-monetary assets or monetary assets, or a combination of monetary and non-monetary assets, is measured at the fair value of the asset given up, unless the fair value of the asset received is more clearly evident. If the acquired item could not be measured at its fair value, its cost is measured at the carrying amount of the asset given up. If the acquired item's fair value was not determinable, its deemed cost is the carrying amount of the asset(s) given up.

##### Subsequent measurement, amortisation and impairment

After initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Expenditure on an intangible item that was initially recognised as an expense shall not be recognised as part of the cost of an intangible asset at a later date.

Where intangible assets are deemed to have indefinite useful lives, such intangible assets are not amortised. However, such intangible assets are subject to an annual impairment test.

Amortisation only commences when the asset is available for use, unless stated otherwise. The amortisation rates are based on the following estimated useful lives:

Where items of intangible assets have been impaired, the carrying value is adjusted by the impairment loss, which is recognised as an expense in the period that the impairment is identified. The impairment loss is the difference between the carrying amount and the recoverable service amount.

The estimated useful life, residual values and amortisation method are reviewed annually at the end of the financial year. Any adjustments arising from the annual review are applied prospectively as a change in accounting estimate in the statement of financial performance.

Item	Useful life
Computer software	2 to 5 years
Rights and servitudes	Indefinite

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Accounting Policies

---

#### 1.5 Intangible assets (continued)

##### Derecognition

Intangible assets are derecognised when the asset is disposed of or when there are no further economic benefits or service potential expected from the use of the asset. The gain or loss arising on the disposal or retirement of an intangible asset is determined as the difference between the proceeds of disposal and the carrying value and is recognised in the statement of financial performance.

#### 1.6 Impairment of assets

The municipality classifies all assets held with the primary objective of generating a commercial return as cash generating assets. All other assets are classified as non-cash generating assets.

##### Impairment of cash-generating assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable amount is estimated for the individual asset. If it is not possible to estimate the recoverable amount of the individual asset, the recoverable amount of the cash generating unit to which the asset belongs is determined.

The recoverable amount of an asset or a cash generating unit is the higher of its fair value less costs to sell and its value in use. The best evidence of fair value less cost to sell is the price in a binding sale agreement in an arm's length transaction, adjusted for the incremental cost that would be directly attributable to the disposal of the asset.

If the recoverable amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. That reduction is an impairment loss.

An impairment loss of assets carried at cost less any accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

An impairment loss is recognised for cash generating units if the recoverable amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

- On a pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

##### Impairment of non-cash-generating assets

The municipality assesses at each reporting date whether there is any indication that an asset may be impaired.

If there is any indication that an asset may be impaired, the recoverable service amount is estimated for the individual asset. If it is not possible to estimate the recoverable service amount of the individual asset, the recoverable service amount of the non-cash generating unit to which the asset belongs is determined.

The recoverable service amount of a non-cash generating asset is the higher of its fair value less costs to sell and its value in use. The value in use for a non-cash generating asset is the present value of the asset's remaining service potential.

If the recoverable service amount of an asset is less than its carrying amount, the carrying amount of the asset is reduced to its recoverable service amount. That reduction is an impairment loss.

An impairment loss is recognised for non-cash generating units if the recoverable service amount of the unit is less than the carrying amount of the unit. The impairment loss is allocated to reduce the carrying amount of the assets of the unit as follows:

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Accounting Policies

---

### 1.6 Impairment of assets (continued)

- On a pro rata on the basis of the carrying amount of each asset in the unit.

The municipality assesses at each reporting date whether there is any indication that an impairment loss recognised in prior periods for assets may no longer exist or may have decreased. If any such indication exists, the recoverable service amounts of those assets are estimated.

The increased carrying amount of an asset attributable to a reversal of an impairment loss does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior periods.

A reversal of an impairment loss of assets carried at cost less accumulated depreciation or amortisation is recognised immediately in surplus or deficit.

### 1.7 Financial Instruments

The municipality has various types of financial instruments and these can be broadly categorised as either financial assets or financial liabilities or residual interests in accordance with the substance of the contractual agreement.

#### Initial recognition

Financial assets and Financial Liabilities are recognised on the municipality's statement of financial position when it becomes party to the contractual provisions of the instrument.

The municipality does not offset a financial asset and a financial liability unless a legally enforceable right to set off the recognised amounts currently exist and the municipality intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### Fair value methods and assumptions

The fair values of Financial Instruments are determined as follows:

- The fair values of quoted investments are based on current bid prices.
- If the market for a Financial Asset is not active (and for unlisted securities), the municipality establishes fair value by using valuation techniques. These include the use of recent arm's length transactions, reference to other instruments that are substantially the same, discounted cash flow analysis, and option pricing models making maximum use of market inputs and relying as little as possible on entity-specific inputs.

#### The effective interest rate method

The effective interest rate method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the Financial Instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

#### Amortised cost

Amortised cost is the amount at which the financial asset or Financial Liability is measured at initial recognition minus principal repayments, plus or minus the cumulative amortisation, using the effective interest rate method of any difference between that initial amount and the maturity amount, and minus any reduction for impairment or uncollectability.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Accounting Policies

---

#### 1.7 Financial Instruments (continued)

##### 1.12.1 Financial assets – Classification

A financial asset is any asset that is a cash or contractual right to receive cash.

The financial assets of the municipality are classified as follows:

- **Financial assets at amortised cost** are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months, which are classified as non-current assets. Financial assets at amortised cost are initially recognised at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. After initial recognition, financial assets are measured at amortised cost, using the effective interest rate method less a provision for impairment.
- **Financial assets at fair value** are financial assets that meet either of the following conditions:
  - (i) Derivatives;
  - (ii) Combined instruments that are designated at fair value;
  - (iii) Instruments held for trading;
  - (iv) Non-derivative financial instruments with fixed or determinable payments that are designated at fair value at initial recognition; or
  - (v) Financial instruments that do not meet the definition of financial instruments at amortised cost or financial instruments at cost.
- **Financial assets at cost** are investments in residual interest that do not have a quoted market price in an active market and whose fair value cannot be reliably measured.

Cash includes cash-on-hand (including petty cash) and cash with banks (including call deposits). Cash and cash equivalents are short-term highly liquid investments, readily convertible into known amounts of cash, which are held with registered banking institutions with maturities of three months or less and are subject to an insignificant risk of change in value. For the purposes of the cash flow statement, cash and cash equivalents comprise cash-on-hand and deposits held on call with banks, net of bank overdrafts. The municipality categorises cash and cash equivalents as financial assets at fair value.

##### 1.12.2 Financial liabilities - classification.

A financial liability is a contractual obligation to deliver cash or another financial assets to another entity.

There are three main categories of financial liabilities, the classification determining how they are measured.

Financial liabilities may be measured at:

- (i) Financial liabilities measured at fair value;
- (ii) Financial liabilities measured at amortised cost; or
- (iii) Financial liabilities measured at cost

## **Ugu District Municipality**

Annual Financial Statements for the year ended 30 June 2014

### **Accounting Policies**

---

#### **1.7 Financial Instruments (continued)**

Financial liabilities that are measured at fair value are financial liabilities that are essentially held for trading (i.e. purchased with the intention to sell or repurchase in the short term; derivatives other than hedging instruments or are part of a portfolio of financial instruments where there is recent actual evidence of short term profiteering or are derivatives).

Bank overdrafts are recorded based on the facility utilised. Finance charges on bank overdrafts are expensed as incurred.

#### **1.12.3 Initial and subsequent measurement**

##### **Financial assets:**

##### **Financial assets measured at amortised cost**

Financial assets at amortised cost are initially measured at fair value plus transaction costs that are directly attributable to the acquisition or issue of the financial asset. Subsequently, these assets are measured at amortised cost using the effective interest method less any impairment, with interest recognised on an effective yield basis.

Trade and other receivables (excluding value added taxation, prepayments and operating lease receivables), loans to municipal entities and loans that have fixed and determinable payments that are not quoted in an active market are classified as financial assets at amortised cost.

##### **Financial assets measured at fair value**

Financial assets at fair value are initially measured at fair value plus directly attributable transaction costs. They are subsequently measured at fair value with unrealised gains or losses recognised directly in equity until the investment is derecognised, at which time the cumulative gain or loss recorded in equity is recognised in the statement of financial performance, or determined to be impaired, at which time the cumulative loss recorded in equity is recognised in the statement of financial performance.

##### **Financial liabilities:**

##### **Financial liabilities measured at fair value**

Financial liabilities at fair value are stated at fair value, with any resulted gain or loss recognised in the statement of financial performance.

##### **Financial liabilities held at amortised cost**

Any other financial liabilities are classified as other financial liabilities (All payables, loans and borrowings are classified as other liabilities) and are initially measured at fair value, net of transaction costs. Trade and other payables, interest-bearing debt including finance lease liabilities, non-interest-bearing debt and bank borrowings are subsequently measured at amortised cost using the effective interest rate method. Interest expense is recognised in the statement of financial performance by applying the effective interest rate.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Accounting Policies

---

#### 1.7 Financial instruments (continued)

##### 1.12.4 Impairment of financial assets

Financial assets, other than those at fair value, are assessed for indicators of impairment at the end of each reporting period. Financial assets are impaired where there is objective evidence of impairment of Financial Assets (such as the probability of insolvency or significant financial difficulties of the debtor). If there is such evidence the recoverable amount is estimated and an impairment loss is recognised in accordance with GRAP 104.

A provision for impairment of trade receivables is established when there is objective evidence that the municipality will not be able to collect all amounts due according to the original terms of receivables. The provision is made in accordance with GRAP 104 whereby the recoverability of accounts receivable is assessed individually and then collectively after grouping the assets in financial assets with similar credit risk characteristics. The amount of the provision is the difference between the trade receivables' carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Future cash flows in a group of Financial Assets that are collectively evaluated for impairment are estimated on the basis of historical loss experience for assets with credit risk characteristics similar to those in the group. Cash flows relating to short-term trade receivables are not discounted where the effect of discounting is immaterial.

Government accounts are not provided for as such accounts are regarded as recoverable.

The carrying amount of the Financial asset is reduced by the impairment loss directly for all Financial assets carried at amortised cost with the exception of consumer debtors, where the carrying amount is reduced through the use of an provision for doubtful debtors account. When a consumer debtor is considered uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against revenue. Changes in the carrying amount of the allowance account are recognised in the statement of financial performance.

If there is objective evidence that an impairment loss has been incurred on an investment in a residual interest that is not measured at fair value because its fair value cannot be measured reliably, the amount of the impairment loss is measured as the difference between the carrying amount of the financial asset and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset. Such impairment losses shall not be reversed.

##### 1.12.5 Derecognition

###### Financial assets

The municipality derecognises financial assets only when the contractual rights to the cash flows from the asset expires or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity, except when council approves the write-off of financial assets due to non-recoverability.

If the municipality neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the municipality recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the municipality retains substantially all the risks and rewards of ownership of a transferred financial asset, the municipality continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

###### Financial liabilities

The municipality derecognises financial liabilities when, and only when, the municipality's obligations are discharged, cancelled or they expire.

The municipality recognises the difference between the carrying amount of the financial liability (or part of a financial liability) extinguished or transferred to another party and the consideration paid, including any noncash assets transferred or liabilities assumed, in the statement of financial performance.

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Accounting Policies

---

### 1.8 Inventories

#### Initial recognition

Inventories comprise current assets held-for-sale, current assets for consumption or distribution during the ordinary course of business. Inventories are initially recognised at cost. Cost generally refers to the purchase price, plus taxes, transport costs and any other costs in bringing the Inventories to their current location and condition. Where inventory is manufactured, constructed or produced, the cost includes the cost of labour, materials and overheads used during the manufacturing process.

Where inventory is acquired by the municipality for no or nominal consideration (i.e. a non-exchange transaction), the cost is deemed to be equal to the fair value of the item on the date acquired.

Direct costs relating to properties that will be sold as inventory are accumulated for each separately identifiable development. costs also include a proportion of overhead costs.

#### Subsequent measurement.

Consumable stores, maintenance stores, and water:

Consumable stores, raw materials, work-in-progress and finished goods are valued at the lower of cost and net realisable value (net amount that the municipality expects to realise from the sale on inventory in the ordinary course of business). In general, the basis of determining cost is the weighted average cost of commodities. If inventories are to be distributed at no charge or for a nominal charge, they are valued at the lower of cost and current replacement cost.

#### Water inventory:

Water is regarded as inventory when the municipality purchases water in bulk with the intention to resell it to the consumers or to use it internally, or where the municipality has incurred purification costs on water obtained from natural resources (rain, rivers, springs, boreholes, etc.). However, water in dams, that are filled by natural resources and that has not yet been treated, that is under the control of the municipality but cannot be measured reliably as there is no cost attached to the water, is therefore not recognised in the statement of financial position.

The basis of determining the cost of water purchased and not yet sold at statement of financial position date comprises all costs of purchase, cost of conversion and other costs incurred in bringing the inventory to its present location and condition, net of trade discounts and rebates.

Water and purified effluent are valued by using the First In First Out Method, at the lowest of purified cost and net realisable value, insofar as it is stored and controlled in reservoirs at year-end.

Redundant and slow-moving inventories are identified and written down from cost to net realisable value with regard to their estimated economic or realisable values and sold by public auction. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling expenses. Differences arising on the measurement of such inventory at the lower of cost and net realisable value are recognised in the statement of financial performance in the year in which they arise. The amount of any reversal of any write-down of inventories arising from an increase in net realisable value or current replacement cost is recognised as a reduction in the amount of inventories recognised as an expense in the period in which the reversal occurs.

The carrying amount of inventories is recognised as an expense in the period that the inventory was sold, distributed, written off or consumed, unless that cost qualifies for capitalisation to the cost of another asset.

### 1.9 Non-current assets held for sale and disposal groups

#### Initial recognition

Non-current assets and disposal groups are classified as held-for-sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the sale is highly probable and the asset (or disposal group) is available for immediate sale in its present condition. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Accounting Policies

---

### 1.9 Non-current assets held for sale and disposal groups (continued)

#### Subsequent measurement

Non-current assets and disposal groups classified as held-for-sale are measured at the lower of their previous carrying amount and fair value less costs to sell.

A non-current asset is not depreciated (or amortised) while it is classified as held-for-sale, or while it is part of a disposal group classified as held-for-sale.

Interest and other expenses attributable to the liabilities of a disposal group classified as held-for-sale are recognised in surplus or deficit.

The gain or loss on the eventual sale of non-current assets held-for-sale is included in the statement of financial performance as gain or loss on sale of assets. The gain or loss on the eventual sale of non-current assets held-for-sale is calculated on the difference between the net disposal proceeds and the carrying amount of the individual asset or the disposal group.

### 1.10 Revenue recognition

Revenue is derived from a variety of sources which include rates levied, grants from other spheres of government and revenue from trading activities and other services provided.

Revenue comprises the fair value of the consideration received or receivable for the sale of goods and services in the ordinary course of the municipality's activities. Revenue is shown net of value-added tax, returns, rebates and discounts.

The municipality recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits or service potential will flow to the municipality and when specific criteria have been met for each of the municipality's activities as described below, except when specifically stated otherwise. The amount of revenue is not considered to be reliably measurable until all contingencies relating to the sale have been resolved. The municipality bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. Furthermore, services rendered are recognised by reference to the stage of completion of the transaction at the reporting date.

Revenue from exchange transactions refers to revenue that accrued to the municipality directly in return for services rendered/goods sold, the value of which approximates the consideration received or receivable.

Revenue from non-exchange transactions refers to transactions where the municipality received revenue from another entity without directly giving approximately equal value in exchange. Revenue from non-exchange transactions is generally recognised to the extent that the related receipt or receivable qualifies for recognition as an asset and there is no liability to repay the amount.

#### 1.14.2 Revenue from exchange transactions

##### Services charges

Service charges are levied in terms of approved tariffs.

Service charges from water are based on consumption. Meters are read on a monthly basis and are recognised as revenue when invoiced. Provisional estimates of consumption, based on the consumption history, are made monthly when meter readings have not been performed. The provisional estimates of consumption are recognised as revenue when invoiced, except at year-end when estimates of consumption up to year-end are recorded as revenue without it being invoiced. Adjustments to provisional estimates of consumption are made in the invoicing period in which meters have been read. These adjustments are recognised as revenue in the invoicing period. In respect of estimates of consumption between the last reading date and the reporting date, an accrual is made based on the average monthly consumption of consumers.

Service charges from sewerage and sanitation are based on the type of service and the number of sewer connections on all developed property and water consumption, using the tariffs approved by the Council, and are levied monthly.

In circumstances where services cannot readily be measured and quantified, a flat rate service charge is levied monthly on such properties.

# **Ugu District Municipality**

Annual Financial Statements for the year ended 30 June 2014

## **Accounting Policies**

---

### **1.10 Revenue recognition (continued)**

#### **Finance Income**

Interest earned on investments is recognised in the statement of financial performance on the time proportionate basis that takes into account the effective yield on the investment.

Interest earned on the following investments is not recognised in the statement of financial performance:

- Interest earned on unspent conditional grants is allocated directly to the creditor. Unspent conditional grants, if the grant conditions indicate that interest is payable to the funder.

#### **Rentals received**

Revenue from the rental of facilities and equipment is recognised on a straight-line basis over the term of the lease agreement.

#### **Tariff charges**

Revenue arising from the application of the approved tariff of charges is recognised when the relevant service is rendered by applying the relevant advertised tariff. This includes the issuing of licences and permits.

### **1.14.3 Revenue from non-exchange transactions**

An inflow of resources from a non-exchange transaction, that meets the definition of an asset shall be recognised as an asset when it is probable that the future economic benefits or service potential associated with the asset will flow to the municipality and the fair value of the asset can be measured reliably. The asset shall be recognised as revenue, except to the extent that a liability is also recognised in respect of the same inflow.

A present obligation arising from a non-exchange transaction that meets the definition of a liability will be recognised as a liability when it is probable that an outflow of economic benefit will be required to settle the obligation and a reliable estimate of the amount can be made.

#### **Government grants and receipts**

Conditional grants, donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Government grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the municipality with no future related costs, are recognised in the statement of financial performance in the period in which they become receivable.

Interest earned on investments is treated in accordance with grant conditions. If it is payable to the funder it is recorded as part of the creditor and if it is the municipality's interest, it is recognised as interest earned in the Statement of Financial Performance.

Revenue is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Accounting Policies

---

### Revenue from non-exchange transactions (continued)

#### Public contributions

Donations and funding are recognised as revenue to the extent that the municipality has complied with any of the criteria, conditions or obligations embodied in the agreement. Where the agreement contains a stipulation to return the asset, other future economic benefits or service potential, in the event of non-compliance to these stipulations and would be enforced by the transferor, a liability is recognised to the extent that the criteria, conditions or obligations have not been met. Where such requirements are not enforceable, or where past experience has indicated that the transferor has never enforced the requirement to return the transferred asset, other future economic benefits or service potential when breaches have occurred, the stipulation will be considered a restriction and is recognised as revenue.

Revenue from public contributions is recognised when all conditions associated with the contribution have been met or where the contribution is to finance property, plant and equipment, when such items of property, plant and equipment are brought into use.

Assets acquired from non-exchange transactions are measured at fair value in accordance with the Standards of GRAP.

#### Revenue from recovery of unauthorised, irregular, fruitless and wasteful expenditure

Revenue from the recovery of unauthorised, irregular, fruitless and wasteful expenditure is based on legislated procedures, including those set out in the Municipal Finance Management Act (Act No 56 of 2003) and is recognised when the recovery thereof from the responsible councillors or officials is virtually certain. Such revenue is based on legislated procedures.

#### 1.11 Provisions

Provisions are recognised when the municipality has a present or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the obligation.

The best estimate of the expenditure required to settle the present obligation is the amount that the municipality would rationally pay to settle the obligation at the reporting date or to transfer it to a third party at that time and are determined by the judgment of the management of the municipality, supplemented by experience of similar transactions and, in some cases, reports from independent experts. The evidence considered includes any additional evidence provided by events after the reporting date. Uncertainties surrounding the amount to be recognised as a provision are dealt with by various means according to the circumstances. Where the provision being measured involves a large population of items, the obligation is estimated by weighting all possible outcomes by their associated probabilities.

Future events that may affect the amount required to settle an obligation are reflected in the amount of a provision where there is sufficient objective evidence that they will occur. Gains from the expected disposal of assets are not taken into account in measuring a provision. Provisions are not recognised for future operating losses. The present obligation under an onerous contract is recognised and measured as a provision. An onerous contract is a contract in which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it – this unavoidable cost resulting from the contract is the amount of the provision to be recognised.

Provisions are reviewed at reporting date and the amount of a provision is the present value of the expenditure expected to be required to settle the obligation. When the effect of discounting is material, provisions are determined by discounting the expected future cash flows that reflect current market assessments of the time value of money. The impact of the periodic unwinding of the discount is recognised in the Statement of Financial Performance as a finance cost as it occurs.

## **Ugu District Municipality**

Annual Financial Statements for the year ended 30 June 2014

### **Accounting Policies**

---

#### **1.12 Employee benefits**

##### **1.17.1 Short-term employee benefits**

Remuneration to employees is recognised in the statement of financial performance as the services are rendered, except for non-accumulating benefits which are only recognised when the specific event occurs.

The costs of all short-term employee benefits such as leave pay, are recognised during the period in which the employee renders the related service. The liability for leave pay is based on the total accrued leave days at year end and is shown as an accrual in the statement of financial position. The municipality recognises the expected cost of performance bonuses only when the municipality has a present legal or constructive obligation to make such payment and a reliable estimate can be made.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Accounting Policies

---

#### 1.12 Employee benefits (continued)

##### 1.17.2 Post-employment benefits

The municipality provides retirement benefits for its employees and councillors, and has both defined benefit and defined contribution post-employment plans.

##### Defined contribution plans

A defined contribution plan is a plan under which the municipality pays fixed contributions into a separate entity. The municipality has no legal or constructive obligation to pay further contributions if the fund does not hold sufficient assets to pay all employees the benefits relating to service in the current or prior periods. The municipality's contributions to the defined contribution funds are established in terms of the rules governing those plans. Contributions are recognised in the statement of financial performance in the period in which the service is rendered by the relevant employees. The municipality has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

##### Defined benefit plans

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan.

##### Post-retirement health care benefits:

The municipality has an obligation to provide post-retirement health care benefits to certain of its retirees. According to the rules of the medical aid funds with which the municipality is associated, a member (who is on the current conditions of service), on retirement, is entitled to remain a continued member of the medical aid fund, in which case the municipality is liable for a certain portion of the medical aid membership fee. Not all medical aid funds, with which the municipality is associated, provide for continued membership.

The defined benefit liability is the aggregate of the present value of the defined benefit obligation and unrecognised actuarial gains and losses, reduced by unrecognised past service costs. The plan is unfunded. The present value of the defined benefit obligation is calculated using the projected unit credit method, incorporating actuarial assumptions and a discount rate based on the government bond rate. Valuations of these obligations are carried out every year by independent qualified actuaries.

Actuarial gains or losses are accounted for using the corridor Method. Actuarial gains and losses are eligible for recognition in the statement of financial performance to the extent that they exceed 10 per cent of the present value of the gross defined benefit obligations in the scheme at the end of the previous reporting period. Actuarial gains and losses exceeding 10 per cent are spread over the expected average remaining working lives of the employees participating in the scheme.

Past-service costs are recognised immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortised on a straight-line basis over the vesting period.

##### Long-service allowance:

The municipality has an obligation to provide long-service allowance benefits to all of its employees. According to the rules of the long-service allowance scheme, which the municipality instituted and operates, an employee (who is on the current conditions of Service), is entitled to a cash allowance, calculated in terms of the rules of the scheme, after 10, 15, 20, 25 and 30 years of continued service. The municipality's liability is based on an actuarial valuation. The projected unit credit method is used to value the liabilities. Actuarial gains and losses on the long-term incentives are accounted for through the statement of financial performance.

##### Defined benefit pension plans

The municipality has an obligation to provide post-retirement pension benefits to certain of its retirees. Pension contributions in respect of employees who were not members of a pension fund are recognised as an expense when incurred. Staff provident funds are maintained to accommodate personnel who, due to age, cannot join or be part of the various pension funds. The municipality contributes monthly to the funds.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Accounting Policies

---

#### 1.12 Employee benefits (continued)

The liability recognised in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets, together with adjustments for unrecognised past-service costs. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability.

Actuarial gains or losses are accounted for using the corridor method. Actuarial gains and losses are eligible for recognition in the statement of financial performance to the extent that they exceed 10 per cent of the present value of the gross defined benefit obligations in the scheme at the end of the previous reporting period. Actuarial gains and losses exceeding 10 per cent are spread over the expected average remaining working lives of the employees participating in the scheme.

Past-service costs are recognised immediately in income, unless the changes to the pension plan are conditional on the employees remaining in service for a specified period of time (the vesting period). In this case, the past-service costs are amortised on a straight-line basis over the vesting period.

#### 1.13 Leases

##### Classification

Leases are classified as finance leases where substantially all the risks and rewards associated with ownership of an asset are transferred to the municipality.

Leases of property, plant and equipment, in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases.

##### 1.13.1 The municipality as lessee

###### Finance leases

Where the municipality enters into a finance lease, property, plant and equipment or intangible assets subject to finance lease agreements are capitalised at amounts equal to the fair value of the leased asset or, if lower, the present value of the minimum lease payments, each determined at the inception of the lease. Corresponding liabilities are included in the statement of financial position as finance lease liabilities. The corresponding liabilities are initially recognised at the inception of the lease and are measured as the sum of the minimum lease payments due in terms of the lease agreement, discounted for the effect of interest. In discounting the lease payments, the municipality uses the interest rate that exactly discounts the lease payments and unguaranteed residual value to the fair value of the asset plus any direct costs incurred. Lease payments are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred.

Subsequent to initial recognition, the leased assets are accounted for in accordance with the stated accounting policies applicable to property, plant, equipment or intangibles. The lease liability is reduced by the lease payments, which are allocated between the lease finance cost and the capital repayment using the effective interest rate method. Lease finance costs are expensed when incurred. The accounting policies relating to derecognition of financial instruments are applied to lease payables. The lease asset is depreciated over the shorter of the asset's useful life or the lease term.

###### Operating leases - lessor

Operating lease revenue is recognised as revenue on a straight-line basis over the lease term.

Initial direct costs incurred in negotiating and arranging operating leases are added to the carrying amount of the leased asset and recognised as an expense over the lease term on the same basis as the lease revenue.

The aggregate cost of incentives is recognised as a reduction of rental revenue over the lease term on a straight-line basis.

The aggregate benefit of incentives is recognised as a reduction of rental expense over the lease term on a straight-line basis.

Income for leases is disclosed under revenue in statement of financial performance.

# **Ugu District Municipality**

Annual Financial Statements for the year ended 30 June 2014

## **Accounting Policies**

---

### **1.13 Leases (continued)**

#### **Operating leases**

The municipality recognises operating lease rentals as an expense in the Statement of Financial Performance on a straight-line basis over the term of the relevant lease. The difference between the amounts recognised as an expense and the contractual payments are recognised as an operating lease asset or liability.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a Straight-line Basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

### **1.14 Grants In aid**

The municipality transfers money to individuals, organisations and other sectors of government from time to time. When making these transfers, the municipality does not:

- Receive any goods or services directly in return, as would be expected in a purchase or sale transaction;
- Expect to be repaid in future; or
- Expect a financial return, as would be expected from an investment.

These transfers are recognised in the statement of financial performance as expenses in the period that the events giving rise to the transfer occurred.

### **1.15 Value added tax**

The Municipality accounts for value added tax on the payments basis in accordance with section 15(2)(a) of the value-added tax act (Act No 89 of 1991).

The entity accounts for value added tax on the invoice basis in accordance with section 15(1) of the value-added tax act (Act No 89 of 1991).

### **1.16 Unauthorised expenditure**

Unauthorised expenditure is expenditure that has not been budgeted for, expenditure that is not in terms of the conditions of an allocation received from another sphere of government, municipality or organ of state, and expenditure in the form of a grant that is not permitted in terms of the Municipal Finance Management Act (Act No 56 of 2003). All expenditure relating to Unauthorised expenditure is accounted for as an expense in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance. If the expenditure is not condoned by the council, it is treated as an asset until it is recovered or written off as irrecoverable.

### **1.17 Irregular expenditure**

Irregular expenditure is expenditure that is contrary to the Municipal Finance Management Act (Act No 56 of 2003), the Municipal Systems Act (Act No 32 of 2000), the Public Office Bearers Act (Act No 20 of 1998), or is in contravention of the Municipality's or Municipal Entities' Supply Chain Management Policies. Irregular expenditure excludes Unauthorised Expenditure. Irregular expenditure is accounted for as an expense in the statement of financial performance in the period it occurred and where recovered, it is subsequently accounted for as revenue in the statement of financial performance. If the expenditure is not condoned by the council, it is treated as an asset until it is recovered or written off as irrecoverable.

### **1.18 Fruitless and wasteful expenditure**

Fruitless and wasteful expenditure is expenditure that was made in vain and would have been avoided had reasonable care been exercised. All expenditure relating to Fruitless and wasteful expenditure is accounted for as expenditure in the statement of financial performance in the year that the expenditure was incurred. The expenditure is classified in accordance with the nature of the expense, and where recovered, it is subsequently accounted for as revenue in the statement of financial performance. If the expenditure is not condoned by the council, it is treated as an asset until it is recovered or written off as irrecoverable.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Accounting Policies

---

#### 1.19 Contingent assets and contingent liabilities

Contingent liabilities represent a possible obligation that arises from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality. A contingent liability can also arise as a result of a present obligation that arises from past events but which is not recognised as a liability either because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

Contingent assets represent possible assets that arise from past events and whose existence will be confirmed only by an occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the municipality.

Contingent assets and contingent liabilities are not recognised. Contingencies are disclosed in notes to the annual financial statements.

#### 1.20 Commitments

Commitments are future expenditure to which the municipality committed and that will result in the outflow of resources. Commitments are not recognised in the statement of financial position as a liability or as expenditure in the statement of financial performance, but are included in the disclosure Notes. A distinction is made between capital and current commitments.

#### 1.21 Related parties

Individuals as well as their close family members, and/or entities are related parties if one party has the ability, directly or indirectly, to control or jointly control the other party or exercise significant influence over the other party in making financial and/or operating decisions. Key management personnel is defined as the municipal manager, chief financial officer and all other managers reporting directly to the municipal manager or as designated by the municipal manager.

#### 1.22 Events after the reporting period

Events after the reporting date that are classified as adjusting events have been accounted for in the annual financial statements. The events after the reporting date that are classified as non-adjusting events after the reporting period have been disclosed in notes to the annual financial statements.

#### 1.23 Comparative figures

##### Current year comparatives

In accordance with GRAP 1 Budgeted Amounts have been provided and forms part of the annual financial statements.

##### Prior year comparatives

When the presentation or classification of items in the annual financial statements is amended, prior period comparative amounts are reclassified. The nature and reason for the reclassification is disclosed.

##### Budget information

The annual budget figures have been prepared in accordance with the GRAP standard and are consistent with the accounting policies adopted by the council for the preparation of these annual financial statements. Explanatory comment is provided in the statement giving reasons for overall growth or decline in the budget and motivations for over- or under spending on line items. The annual budget figures included in the annual financial statements are for the municipality and do not include budget information relating to subsidiaries or associates. These figures are those approved by the council at the beginning and during the year following a period of consultation with the public as part of the integrated development plan.

#### 1.24 Investment property

Investment property is property (land or a building - or part of a building - or both) held to earn rentals or for capital appreciation or both, rather than for:

- use in the production or supply of goods or services or for
- administrative purposes, or
- sale in the ordinary course of operations.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Accounting Policies

---

#### 1.24 Investment property (continued)

Owner-occupied property is property held for use in the production or supply of goods or services or for administrative purposes.

Investment property is recognised as an asset when, it is probable that the future economic benefits or service potential that are associated with the investment property will flow to the municipality, and the cost or fair value of the investment property can be measured reliably.

Investment property is initially recognised at cost. Transaction costs are included in the initial measurement.

Where investment property is acquired through a non-exchange transaction, its cost is its fair value as at the date of acquisition.

Costs include costs incurred initially and costs incurred subsequently to add to, or to replace a part of, or service a property. If a replacement part is recognised in the carrying amount of the investment property, the carrying amount of the replaced part is derecognised.

Compensation from third parties for investment property that was impaired, lost or given up is recognised in surplus or deficit when the compensation becomes receivable.

Property interests held under operating leases are classified and accounted for as investment property in the following circumstances:

When classification is difficult, the criteria used to distinguish investment property from owner-occupied property and from property held for sale in the ordinary course of operations, are as follows:

#### 1.25 Investments

#### 1.26 Standards, amendments to standards and Interpretations issued

The following GRAP standard has been issued but is not yet effective and has been early adopted by the municipality:

- GRAP 104 Financial Instruments – issued October 2009

GRAP 104 will be effective for the period starting after 1 April 2012. The municipality elected to adopt the standard during the 2010/11 financial year.

The following GRAP Standards have been issued but are not yet effective and have not been early adopted by the municipality:

- Segment Reporting – issued March 2005
- Related Party Disclosures – revised
- Impairment of Non-cash-generating Assets – issued March 2009
- Revenue from Non-Exchange Transactions (Taxes and Transfers) – issued February 2008
- Presentation of Budget Information in Financial Statements – issued November 2007
- Employee Benefits – issued December 2009
- Impairment of Cash-generating Assets – issued March 2009
- Heritage Assets – issued July 2008
- Transfers between Entities under common control – issued November 2010
- Transfers between Entities not under common control – issued November 2010
- Mergers – issued November 2010

Application of all of the above GRAP standards will be effective from a date to be announced by the Minister of Finance, who announced that the application of GRAP 21, GRAP 23, GRAP 24, GRAP 26 and GRAP 103 will be effective for the period starting after 1 April 2012. All other standards as listed above will only be effective when a date is announced by the Minister of Finance. This date is not currently available.

The ASB Directive 5, paragraph 29, sets out the principles for the application of the GRAP 3 guidelines in the determination of the GRAP Reporting Framework hierarchy as set out in the standard of GRAP 3 on Accounting Policies, Changes in Accounting Estimates and Errors.

## **Ugu District Municipality**

Annual Financial Statements for the year ended 30 June 2014

### **Accounting Policies**

---

#### **1.26 Standards, amendments to standards and interpretations issued (continued)**

Where a standard of GRAP is approved as effective, it replaces the equivalent statement of International Public Sector Accounting Standards Board, International Financial Reporting Standards or Generally Accepted Accounting Principles. Where a standard of GRAP has been issued but is not yet in effect, the municipality may select to apply the principles established in that standard in developing an appropriate Accounting Policy dealing with a particular section or event before applying paragraph 12 of the Standard of GRAP on Accounting Policies, Changes in Accounting Estimates and Errors.

The Municipality applied the principles established in the following Standards of GRAP that have been issued but not yet effective, in developing appropriate Accounting Policies dealing with the following transactions, but have not early adopted these Standards:

- Impairment of Non-cash-generating Assets (GRAP 21 – issued March 2009)
- Revenue from Non-exchange Transactions (GRAP 23 – issued February 2008)
- Impairment of Cash-generating Assets (GRAP 26 – issued March 2009)
- Financial Instruments (GRAP 104 – issued October 2009)

Management has considered all of the above-mentioned GRAP standards issued but not yet effective and anticipates that the adoption of these standards will not have a significant impact on the financial position, financial performance or cash flows of the municipality.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
<b>2. Inventories</b>		
Inventories comprise:		
Consumable stores	1 332 919	915 390
Maintenance materials	6 287 305	4 248 259
Water	438 535	1 733 675
Other goods held for resale	10 657	41 465
	<b>8 069 416</b>	<b>6 938 789</b>

The municipality has identified and measured all Inventory in terms of GRAP 12 for the financial year ended 30 June 2014. The balances of the Inventories have accordingly been restated retrospectively.

Inventories are held for own use with the result that no write downs of Inventory to net realisable value are required.

The cost of water production for the year amounted to R1,78 per kilolitre (2013: R1,43 per kilolitre).

No inventories have been pledged as collateral for liabilities of the municipality.

### 3. Operating lease receivables and payables

#### Operating lease receivables

Operating leases are recognised on the straight-line basis as per the requirement of GRAP 13. In respect of non-cancellable Operating leases the following assets have been recognised:

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
<b>3. Operating lease receivables and payables (continued)</b>		
Balance at beginning of year	43 785	-
Operating lease revenue recorded	889 586	674 217
Operating lease revenue from smoothing	(875 921)	(630 433)
<b>Total Operating Lease Assets</b>	<b>57 450</b>	<b>43 784</b>

#### Leasing Arrangements

##### The Municipality as Lessor:

Operating leases relate to property owned by the municipality with lease terms of between 1 to 3 years, with an option to extend. All operating lease contracts contain market review clauses in the event that the lessee exercises its option to renew. The lessee does not have an option to purchase the property at the expiry of the lease period.

##### Amounts receivable under operating leases

At the reporting date the following minimum lease payments were receivable under non-cancellable operating leases for property, plant and equipment, which are receivable as follows:

Up to 1 year	934 117	875 921
2 to 5 years	228 287	1 162 405
<b>Total</b>	<b>1 162 404</b>	<b>2 038 326</b>

The impact of charging the escalations in operating leases on a straight-line basis over the term of the lease has been a decrease in current year income of R57 450 (2013: R43 785).

The following restrictions (if any) have been imposed by the municipality in terms of the (specify) lease agreements:

- (i) The lessee shall not have the right to sublet, cede or assign the whole or any portion of the premises let.
- (ii) The lessor or its duly authorised agent, representative or servant shall have the right at all reasonable times to inspect the premises let.
- (iii) The lessee shall use the premises let for the sole purpose prescribed in the agreement.

##### Operating lease liabilities

Operating Leases are recognised on the straight-line basis as per the requirement of GRAP 13.

## Ugu District Municipality

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
<b>3. Operating lease receivables and payables (continued)</b>		
Balance at beginning of year	34 011	-
Operating lease expenses recorded	686 812	363 151
Operating lease payments from smoothing	(661 421)	(329 140)
<b>Total Operating Lease Liabilities</b>	<b>59 402</b>	<b>34 011</b>

#### Leasing arrangements

##### The municipality as lessee

Operating leases relate to property, plant and equipment with lease terms not longer than 5 years, with an option to extend for a further period. All operating lease contracts contain market review clauses in the event that the municipality exercises its option to renew. The municipality does not have an option to purchase the leased asset at the expiry of the lease period.

##### Amounts payable under Operating Leases

At the reporting date the municipality had outstanding commitments under non-cancellable operating leases for property, plant and equipment, which fall due as follows:

Property Plant and Equipment:	1 455 476	1 538 494
Within one year	849 670	597 154
In the second to third years, inclusive	477 272	941 340
Over three years	128 534	-

<b>Total operating lease arrangements</b>	<b>1 455 476</b>	<b>1 538 494</b>
---	------------------	------------------

The following payments have been recognised as an expense in the Statement of Financial Performance:

Minimum lease payments	686 812	363 151
<b>Total operating lease expenses</b>	<b>686 812</b>	<b>363 151</b>

The municipality has operating lease agreements for the following classes of assets, which are only significant collectively:

- Office equipment

The following restrictions have been imposed on the municipality in terms of the lease agreements on office equipment:

- (i) The equipment shall remain the property of the lessor.
- (ii) The hirer shall not sell, sublet, cede, assign or delegate any of its rights or obligations on the equipment
- (iii) The equipment shall be returned in good order and condition to the lessor upon termination of the agreement.
- (iv) The municipality is obliged to enter into a maintenance agreement with the lessor for the equipment rented.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
<b>4. Receivables from non-exchange transactions</b>		
Payments made in advance	1 920 995	63 406
Government subsidy claims	236 950	150 503
Insurance claims	122 367	122 367
Municipal entities	66 846	50 979
Sundry deposits	893 075	1 003 908
Sundry debtors	6 528 961	7 166 331
	<b>9 769 194</b>	<b>8 557 494</b>

The average credit period for government grants and subsidies is dependent on the government department involved and the nature of the claim. No interest is charged on outstanding government grants and subsidies. The subsidies are payable to the municipality due to allocations made in the DORA or based on agreements between the municipality and the relevant departments.

Insurance claims are amounts which are claimable in terms of the insurance contract entered into by the municipality. The average waiting period depends on the nature of the claim. No interest is charged on outstanding insurance claims.

Sundry receivables are in respect of debits outstanding at year-end on normal business transactions entered into by the municipality.

The average credit period for receivables is 30 days. No interest is charged for the first 30 days from the date of the invoice. Thereafter interest is charged at the prime rate, charged by the municipality's banker, plus one percent per annum on the outstanding balance. The municipality strictly enforces its approved credit control policy to ensure the recovery of receivables.

The municipality does not hold deposits or other security for its receivables.

None of the receivables have been pledged as security for the municipality's financial liabilities.

The management of the municipality is of the opinion that the carrying value of receivables approximate their fair values.

#### Receivables from non-exchange transactions past due but not impaired

As at 30 June receivables of R19 772 929 (2013: R8 580 535) were past due but not impaired. The age analysis of these receivables are as follows:

+ 90 days	19 772 929	8 580 535
-----------	------------	-----------

#### Reconciliation of provision for impairment of receivables from non-exchange transactions

Opening balance	4 478 749	3 575 783
-----------------	-----------	-----------

The Provision for Impairment on receivables exists predominantly due to the possibility that these amounts may not be recovered. The receivables were assessed individually and grouped together at the Statement of Financial Position as financial assets with similar credit risk characteristics and collectively assessed for impairment.

The provision for impairment was calculated after grouping all the financial assets of similar nature and risk ratings and assessing the recoverability.

In determining the recoverability of a receivable, the municipality considers any change in the credit quality of the receivable from the date credit was initially granted up to the reporting date. The concentration of credit risk is limited due to most of these being sundry in nature.

The following Loans and Receivables are included in the total amount of the provision for impairment:

Government Subsidy Claims	1 613 200	1 613 200
Sundry Debtors	2 865 549	1 962 583
<b>Total provision for impairment on receivables from non-exchange transactions</b>	<b>4 478 749</b>	<b>3 575 783</b>

2014 2013

#### 5. VAT receivable

VAT receivable	15 020 053	23 240 458
----------------	------------	------------

VAT is payable on the payments basis. Once payment is received from customers/receivables, VAT is paid over to SARS.

No interest is payable to SARS if the VAT is paid over timeously, but interest for late payments is charged according to SARS policies. The municipality has financial risk policies in place to ensure that payments are effected before the due date.

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
-----------------	------	------

#### 9. Investment property

The Municipality has classified the Ugu Fresh Produce Market as investment property in terms of its asset management policy. The property is situated at Bhobhoyi – in the Port Shepstone Town Planning Scheme, lot no 3249 and measures approximately 85 000 square metres. The property was valued in February 2012 by Elliot Properties, a qualified Industrialist property specialist (DIPICIS) CCIS, using the income method of valuation. The market offers 18 vendor stalls for retailers, refrigerated storage, a wholesale/agents sales hall, a state-of-the-art multi-purpose ripening facility, an office block, ample parking space, a taxi rank and plenty ablution facilities. The whole facility is secured with 24-hour security guards.

The municipality uses the fair value model to value its investment properties. For the year ending 30 June 2013, Management did not deem it necessary to revalue the market at fair value. This was due to market conditions remaining the same as at the original valuation done in February 2012 and no other material factors that could impact on the value of the property, and the work in progress of the pack house at year end.

	2014			2013

#### Gross Carrying Amount of Property, Plant and Equipment that is Fully Depreciated and Still in Use

There are 1620 items of property, plant and equipment that are fully depreciated at year-end and still in use by the municipality;

##### At original cost:

Land and buildings	3 219 387	3 219 387
Other	54 288 062	54 288 062

<b>Gross carrying amount of PPE fully depreciated and still in use</b>	<b>57 507 449</b>	<b>57 507 449</b>
--	-------------------	-------------------

#### Carrying Amount of property, plant and equipment retired from active use and held for disposal

The municipality's obligations under Finance Leases (see Note 18) are secured by the lessors' title to the leased assets. No other assets of the municipality have been pledged as security.

#### Change in estimate – useful life of property, plant and equipment reviewed

There was no change in the estimated useful life in the current and prior year.

#### Owner-occupied property transferred to investment property

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand

2014 2013

#### 10. Property plant and equipment (continued)

The municipality had taken a decision in the 2012/2013 financial year that the buildings of the Ugu Fresh Produce Market, previously owner occupied and carried under the cost model, will from the beginning of the 2012/2013 year be held to earn rentals and should therefore be transferred to investment property carried under the fair value model. Please note that no depreciation was recognised in the prior year as the transfer was done at the beginning of the financial year.

	Opening balance	Additions	Amortisation	Total
Computer software	9 934 448	384 400	(2 643 467)	7 655 381
Servitudes	2 559 642	19 730	-	2 579 372
	<b>12 494 090</b>	<b>384 130</b>	<b>(2 643 467)</b>	<b>10 234 753</b>

The amortisation expense has been included in the line item "Depreciation and amortisation" in the Statement of Financial Performance (see note 30).

No intangible assets have been pledged as security for any liabilities of the municipality.

The following restrictions apply to Intangible Assets:

- Financial Software:

(i) The system is non-assignable, non-transferable, and the municipality has no exclusive rights to use the system

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand

2014

2013

#### 11. Intangible assets (continued)

(ii) The system may be used on only one database at any one time.

(iii) The municipality, as the licensee, shall not grant usage of, or distribute, the system in its original or modified form, to a third party for the third party's benefit.

(iv) The municipality has no intellectual property rights to the system.

Refer to Appendix "B" for more detail on Intangible Assets.

#### Significant Intangible Assets

Significant Intangible Assets, that did not meet the recognition criteria for Intangible Assets as stipulated in IAS 38 and SIC 32, are the following:

(i) Website Costs incurred during the last two financial years have been expensed and not recognised as

Intangible Assets. The municipality cannot demonstrate how its website will generate probable future economic benefits.

#### Intangible assets with indefinite useful lives

The following classes of Intangible Assets are not amortised as they are regarded as having indefinite useful lives:

Carrying value of servitudes: sewerage distribution	1 486 723	1 486 723
Carrying value of servitudes: water reticulation	1 172 435	1 093 079
<b>Total carrying amount of intangible assets with indefinite useful lives</b>	<b>2 659 158</b>	<b>2 579 802</b>

Servitudes are regarded as having indefinite useful lives as they are registered permanently, the agreements not having a maturing date.

#### 12. Investments

##### Unlisted

	Holding 2014	Holding 2013		
Investment in municipal entities - at cost	100.00 %	100.00 %	100	100
<b>Total Non-current Investments</b>			<b>100</b>	<b>100</b>
Council's valuation of unlisted investments				
Investment in municipal entities			100	100
			<b>100</b>	<b>100</b>

The municipality exercises control in the following company, located and commencing its operations on 1 July 2009 in the Ugu District Municipal area, where the value of the investment is considered to be R100, being the issued share capital:

##### Ugu South Coast Tourism (Pty) Ltd:

Issued share capital (R)	100	100
Percentage shareholding	100 %	100 %
Grant allocated to municipal Entity (R)	10 517 850	10 017 000
Management's valuation of the investment in the municipal entity (R)	100	100

All thirteen members serving on the board of directors of the municipal entity are nominated by the municipality's executive committee (13/13 = 100.00%).

<b>Total</b>	<b>165 364 259</b>	<b>186 446 535</b>

Annuity loans are repaid over periods varying from 1 to 16 (2013: 1 to 17) years and at interest rates varying from 2,65% to 11,51% (2013: 11,51% to 11,00%) per annum. Annuity loans are not secured.

Finance lease liabilities relates to vehicles with lease term periods of 2 (2013: 3) years. The effective interest rate on finance leases is 6,6% (2013: 6,6%). Capitalised lease liabilities are secured over the items of vehicles leased.

Refer to Appendix "A" for more detail on external loans.

### Obligations under Finance lease liabilities

#### The municipality as lessee

Finance leases relate to property, plant and equipment with lease terms not more than 2 years (2013: 3 years).

The effective interest rate on finance leases is 6,6% (2013: 6,6%).

The obligations under finance leases are as follows:

Amounts payable under finance leases:	Minimum lease payments		Present value of minimum lease payments	
	2014	2013	2014	2013
Within one year	3 685 138	2 690 721	3 685 138	2 690 721
In the second to third years, inclusive	3 161 125	4 940 297	3 161 125	4 940 297
	6 846 263	7 631 018	6 846 263	7 631 018
Less: Future finance charges	(421 061)	(692 079)	(421 061)	(692 079)

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
-----------------	------	------

#### 18. Retirement benefit liabilities (continued)

The municipality provides certain post-retirement health care benefits by funding the medical aid contributions of qualifying retired members of the municipality. According to the rules of the medical aid funds, with which the municipality is associated, a member is entitled to continue as a member of such medical aid fund on retirement, in which case the municipality is liable for a certain portion of the medical aid membership fee. The municipality operates an unfunded defined benefit plan for these qualifying employees. No other post-retirement benefits are provided to these employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2014 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

The members of the post-employment health care benefit plan are made up as follows:

In-service members (employees)	494	494
In-service non-members (employees)	-	-
Continuation members	49	48
<b>Total</b>	<b>543</b>	<b>542</b>

The unfunded liability in respect of past service has been estimated as follows:

In-service members	11 201 206	9 061 962
Continuation members	13 280 414	13 167 888
<b>Total Liability</b>	<b>24 481 620</b>	<b>22 229 850</b>

The current-service cost for the year ending 30 June 2014 is estimated to be R881 832, whereas the cost for the ensuing year is estimated to be R952 255 (30 June 2013: R952 255 and R1 131 824 respectively).

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand

2014 2013

#### 18. Retirement benefit liabilities (continued)

##### Key assumptions used

The principal assumptions used for the purposes of the actuarial valuations was as follows:

Discount rates	8.79 %	8.33 %
Health care cost inflation rate	8.06 %	7.49 %
Net effective discount rate	0.67 %	78.00 %
Expected retirement age – females	63	63
Expected retirement age – males	63	63

Movements in the present value of the defined benefit obligation were as follows:

Balance at the beginning of the year	22 229 850	19 731 792
Current service costs	959 255	840 086
Interest cost	1 815 935	1 488 763
Benefits paid	(854 208)	(771 816)
Actuarial losses/(gains)	330 788	941 025
Balance at the end of the year	24 481 620	22 229 850

The amounts recognised in the Statement of Financial Performance are as follows:

Current service cost	959 255	840 086
Interest cost	1 815 935	1 488 763
Actuarial losses/(gains)	330 788	941 025
Total (note 28)	3 105 978	3 269 874

The history of experienced adjustments is as follows:

	2014	2013	2012	2011	2010
Present value of defined benefit obligation	24 481 620	22 229 849	19 731 792	22 877 435	20 526 171
Deficit	24 481 620	22 229 849	19 731 792	22 877 435	20 526 171
Experienced adjustments on plan liabilities	292 739	(488 790)	(6 769 737)	1 949 195	(214 812)

##### Other assumptions

The effect of a 1% movement in the assumed rate of health care cost inflation is as follows:

#### 2014

	One percentage point increase	One percentage point decrease
Effect on the aggregate of the current service cost and the interest cost	378 233	(314 286)
Effect on defined benefit obligation	3 119 451	(2 612 048)

#### 2013

	One percentage point increase	One percentage point decrease
Effect on the aggregate of the current service cost and the interest cost	318 700	(264 800)
Effect on defined benefit obligation	2 935 287	(2 446 080)

The municipality expects to make a contribution of R3,224 million (2013: R2,775 million) to the defined benefit plans during the next financial year.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
<b>19. Non-current provisions</b>		
Provision for long service awards	11 076 109	8 440 747
<b>Total</b>	<b>11 076 109</b>	<b>8 440 747</b>
The movement in non-current provisions are reconciled as follows:		
Long-term service		
Balance at beginning of year	8 440 747	9 055 346
Contributions to provision	3 229 906	317 081
	11 670 653	9 372 427
Transfer to current provisions	(594 544)	(931 680)
<b>Balance at end of year</b>	<b>11 076 109</b>	<b>8 440 747</b>

A long-service Award is payable after 10 years of continuous service and every 5 years thereafter to employees. The provision is an estimate of the long-service based on historical staff turnover. No other long-service benefits are provided to employees.

The most recent actuarial valuations of plan assets and the present value of the defined benefit obligation were carried out at 30 June 2014 by Mr C Weiss, Fellow of the Actuarial Society of South Africa. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

At year-end, 835 (2013: 832) employees were eligible for long-service awards.

The current-service cost for the year ending 30 June 2014 is estimated to be R1 107 699, whereas the cost for the ensuing year is estimated to be R1 244 950 (30 June 2013: R1 357 080 and R1 107 699 respectively).

The principal assumptions used for the purposes of the actuarial valuations were as follows:

Other grants	3 380 578	-
	<b>379 663 511</b>	<b>340 035 768</b>
	<b>664 584 167</b>	<b>590 984 388</b>

### Operational grants

#### National: equitable share

Current year receipts	284 316 000	202 522 000
Conditions met – transferred to revenue: operating expenses	(284 316 000)	(202 522 000)
Conditions still to be met – transferred to liabilities	-	-

In terms of the constitution, this unconditional grant is used primarily to subsidise the provision of basic services to the community. All registered indigents receive a monthly subsidy towards the cost of basic services, which is funded from this grant.

### Conditional grants

#### National: finance management grant (FMG)

Balance unspent at beginning of year	44 678	-
Current year receipts	1 250 000	1 250 000
Conditions met – transferred to revenue: operating expenses	(1 268 762)	(1 031 238)
Conditions met – transferred to Revenue: capital expenses	(24 448)	(174 084)
Conditions still to be met – transferred to liabilities	<b>1 468</b>	<b>44 678</b>

The financial management grant is paid by National Treasury to municipalities to help implement the financial reforms required by the Municipal Finance Management Act, 2003. The FMG Grant also pays for the cost of the financial management internship programme (e.g. salary costs of the financial management interns).

#### National: Economic Affairs and Tourism Grant (DEAT)

Balance unspent at beginning of year	595 098	2 666 491
Conditions met – transferred to revenue: operating expenses	(164 702)	(1 078 727)
Conditions met – transferred to revenue: capital expenses	-	(992 666)
Conditions still to be met – transferred to liabilities	<b>430 396</b>	<b>595 098</b>

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand

2014 2013

#### 25. Government grants and subsidies (continued)

The European Community represented by the Department of Economic Development (Gijima KZN) awarded the grant for the implementation of the action entitled "Strengthening the LED Enabling Environment".

##### National: Municipal Infrastructure Grant (MIG)

Current year receipts	275 304 000	289 979 000
Conditions met – transferred to revenue: operating expenses	(115 107 659)	(130 883 724)
Conditions met – transferred to revenue: capital expenses	(160 196 341)	(159 095 277)
<b>Conditions still to be met – transferred to Liabilities</b>	<b>-</b>	<b>(1)</b>

The MIG grant is aimed at supplementing municipal budgets to eradicate backlogs in municipal infrastructure utilised in providing basic services for the benefit of poor households and for the provision, rehabilitation and renewal of municipal infrastructure.

##### National: Dept of Water Affairs and Forestry Grant (DWAF)

Balance unspent at beginning of year	7 609 474	8 988 043
Current year receipts	50 104 303	28 585 335
Conditions met – transferred to revenue: operating expenses	-	(3 764 605)
Conditions met – transferred to revenue: capital expenses	(53 711 564)	(26 199 299)
<b>Conditions still to be met – transferred to liabilities</b>	<b>4 002 213</b>	<b>7 609 474</b>

DWAF grants are aimed at supplementing municipal budgets to assist with the construction of water delivery infrastructure, execution of water service delivery and the development of an asset management plan.

##### National: Local Government grants

Balance unspent at beginning of year	404 487	311 379
Current year receipts	890 000	1 000 000
Interest allocated	(864 487)	-
Conditions met – transferred to revenue: operating expenses	-	(906 892)
Transfers withheld during the year	(430 000)	-
<b>Conditions still to be met – transferred to liabilities</b>	<b>-</b>	<b>404 487</b>

Various grants are paid by National Local Government to help implement the IDP, PMS, Sports Stadium and financial reform initiatives as required by the Municipal Finance Management Act (MFMA), 2003 and the Municipal Systems Act (MSA), 2000.

##### Provincial: Department of Cooperative Governance and Traditional Affairs Grant

Balance unspent at beginning of year	26 271 318	34 094 979
Current year receipts	6 000 000	13 752 004
Conditions met – transferred to revenue: operating expenses	(2 934 605)	(12 402 921)
Conditions met – transferred to revenue: capital expenses	(14 342 706)	(9 172 744)
Correction of prior period error - conditions met -transferred to revenue: operational expenses	(732 465)	-
<b>Conditions still to be met – transferred to liabilities</b>	<b>14 261 542</b>	<b>26 271 318</b>

Grants received from CoGTA are utilised to assist municipalities in building in-house capacity to perform their functions and stabilise institutional and governance systems as required by the Municipal Structures Act. They are aimed at supplementing municipal budgets to assist with the assessment of water service delivery mechanisms, water delivery planning and water services technical support. Funding was also received to assist with the construction of the Ugu sports and leisure centre.

##### Provincial: Department of Public Works Grant

Balance unspent at beginning of year	431 565	-
--------------------------------------	---------	---

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
<b>25. Government grants and subsidies (continued)</b>		
Current year receipts	1 000 000	1 000 000
Interest allocated	(431 565)	-
Conditions met – transferred to revenue: operating expenses	(883 495)	(568 435)
<b>Conditions still to be met – transferred to liabilities</b>	<b>116 505</b>	<b>431 565</b>

This is an incentive grant from public works for the promotion of labour intensive projects within the district.

#### Provincial: Department of Sport and Recreation Grant

The purpose of the grant received from the Department of Sport and Recreation was to promote mass participation of a number of selected sport codes and related activities within disadvantaged communities in conjunction with other recreation federations, as well as to assist with the construction of the Ugu Sports and Leisure Centre.

#### Provincial: Department of Transport Grant

Balance unspent at beginning of year	513 375	482 934
Current year receipts	2 089 000	1 776 000
Conditions met – transferred to revenue: operating expenses	(1 765 019)	-
Conditions met – transferred to revenue: capital expenses	-	(1 745 559)
<b>Conditions still to be met – transferred to liabilities</b>	<b>837 356</b>	<b>513 375</b>

This funding was furnished by the KZN Department of Transport to assist with the preparation of a public transport plan as required by the National Land Transport Transition Act, 2000. No funds were transferred to the municipality for the year under review.

#### Development Bank of Southern Africa

Balance unspent at beginning of year	1 068 179	1 743 662
Current year receipts	-	204 073
Conditions met – transferred to revenue: operating expenses	(709 256)	(879 556)
Conditions met – transferred to revenue: capital expenses	(119 700)	-
<b>Conditions still to be met – transferred to liabilities</b>	<b>239 223</b>	<b>1 068 179</b>

The purpose of this grant was to assist with the development of business plans for the seven flagship projects in the municipal area. The objectives of the projects are to enhance rural economic development and broad based community information dissemination and empowerment.

#### Other Government: Industrial Development Corporation

Balance unspent at beginning of year	45 020	137 444
Interest allocated	-	(92 424)
<b>Conditions still to be met – transferred to liabilities</b>	<b>45 020</b>	<b>45 020</b>

The purpose of this grant was to assist with the development of business plans for the seven flagship projects in the municipal area. The objectives of the projects are to enhance rural economic development and broad based community information dissemination and empowerment.

#### 26. Public contributions and donations

<b>Reconciliation of conditional contributions</b>		
Balance unspent at beginning of year	5 474 052	5 474 052
<b>Conditions still to be met – transferred to liabilities</b>	<b>5 474 052</b>	<b>5 474 052</b>

The District Municipality receives funds from public donors to provide humanitarian aid in various instances. These contributions were utilised for these purposes.

<b>Restated Closing balance</b>	<b>2012/13</b>	<b>482 877 547</b>	<b>40 881 556</b>	<b>105 418 537</b>	<b>1 392 157 543</b>	<b>2 021 938 620</b>

The prior year errors relate to the Property plant and equipment omitted from the fixed asset register in their respective periods. These items were identified through detail reconciliation of fixed asset registers in the current year. The municipality is confident that it has performed enough and sufficient procedures to account for all assets of the municipality.

Intangibles	Year	Software	Servitudes	Total
Reported Closing	2012/13	8 052 181	2 533 242	10 786 636
Correction of prior year error	2011/12	(289 007)	26 400	(61 495)
Correction of prior year error	2012/13	(107 792)	19 730	113 151
<b>Restated Closing balance</b>	<b>2012/13</b>	<b>7 655 382</b>	<b>2 579 372</b>	<b>10 838 292</b>

The prior year errors relates to the recalculation of depreciation and the missallocation of transactions.

VAT	2012/13
Reported Closing	21 358 960
Correction of error	1 881 498
<b>Restated Closing Balance</b>	<b>23 240 458</b>

This correction of prior year error relates to overstatement of VAT receivable. The error include output vat that was under declared in the previous year, Interest and penalties levied against late payments. This error has been resolved and communicated to SARS.

Inventory	2012/13
Amount reported	8 348 334
Correction of error	(1 499 545)
<b>Restated Amount</b>	<b>6 848 789</b>

The correction of error relates to the incorrect rate used to calculate the stock on hand. Stock was not measured at lower of cost and net reliable value.

Inter Company	2012/2013
Amount reported	8 643 941
Correction of error	(86 447)
<b>Restated Amount</b>	<b>8 557 494</b>

This correction of error relates to the inter company balance that was not cleared in the prior year.

	<b>19 628</b>	<b>14 043</b>	<b>33 671</b>

30 June 2014 Unaccounted water losses	Value 20 333 005
30 June 2013 Unaccounted water losses	24 584 019

Water losses occur due to inter alia, leakages, the tampering of meters, the incorrect ratios used on bulk meters, faulty meters and illegal water connections. The problem with tampered meters and illegal connections is an ongoing process, with regular action being taken against defaulters. Faulty meters and leakages are replaced/ repaired as soon as they are reported.

A five-year strategic non-revenue water reduction plan was adopted and implemented by the Executive Committee in May 2008. The below-mentioned technical information was derived at as part of the implementation plan:

<b>Volumes in Ml/year:</b>		
System input volume	40 458	38 621
Billed authorised consumption	31 464	26 716
Unbilled authorised consumption	838	492
Apparent losses	1 679	2 348
Real losses	6 477	9 065
Estimated non-revenue water	8 994	11 905

	-	95 211 842	67 558 332

### Xxx Deviation from, and ratification of minor breaches of, the Procurement Processes

In terms of section 36(2) of the Supply Chain Management Policy approved by Council it is stipulated that bids where the formal procurement processes could not be followed, must be noted in the financial statements.

The majority of the items mentioned resulted from flood damage that had to be addressed at short notice and the response times did not allow for the complete procurement process to be followed. The balance of items was due to emergency circumstances and economic benefits for the municipality.

Deviations from the tender stipulations in terms of the municipality's Supply Chain Management Policy were presented to the Executive Committee, which condoned the various cases.

Department	Date	Successful tenderer	Reason	Amount
Water services Supply of toilets at Umzinto informal settlements	September 2013	Sanitech	Impractical to follow SCM process	264 413
Water services Supply of chemicals for water purification	September 2013	Sud-Chemie	Extension of contract	693 000

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand

2014

2013

#### 47. Financial Instruments

##### Fair value

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practical to estimate such value:

##### Cash and short-term investments:

The carrying amount approximates the fair value because of the short maturity of these instruments.

##### Long-term investments

The fair value of some investments are estimated based on quoted market prices of those or similar investments. Unlisted equity investments are estimated using the discounted cash flow method.

##### Loan receivables/payables

Interest-bearing borrowings and receivables are generally at interest rates in line with those currently available in the market on a floating-rate basis, and therefore the fair value of these financial assets and liabilities closely approximates their carrying values. Fixed interest-rate instruments are fair valued based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date.

##### Trade and other receivables/payables

The management of the municipality is of the opinion that the carrying value of trade and other receivables recorded at amortised cost in the annual financial statements approximate their fair values. The fair value of trade receivables were determined after considering the standard terms and conditions of agreements entered into between the municipality and other parties as well as the current payment ratio's of the municipality's debtors.

##### Other financial assets and liabilities

The fair value of other financial assets and financial liabilities (excluding Derivative Instruments) is determined in accordance with generally accepted pricing models based on discounted cash flow analysis using prices from observable current market transactions and dealer quotes for similar instruments.

##### Long-term liabilities

Management considers the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the annual financial statements to approximate their fair values on 30 June 2013, as a result of the short-term maturity of these assets and liabilities.

No financial instruments of the municipality were reclassified during the year.

##### Assumptions used in determining fair value of financial assets and financial liabilities

The table below analyses financial instruments carried at fair value at the end of the reporting period by the level of fair-value hierarchy as required by IFRS 7. The different levels are based on the extent to which quoted prices are used in the calculation of the fair value of the financial instruments. The levels have been defined as follows:

**Level 1:** Fair values are based on quoted market prices (unadjusted) in active markets for an identical instrument.

**Level 2:** Fair values are calculated using valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using quoted market prices in active markets for similar instruments, quoted prices for identical or similar instruments in markets that are considered less than active, or other valuation techniques where all significant inputs are directly or indirectly observable from market data.

**Level 3:** Fair values are based on valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. Also, this category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

2014

2013

#### 47. Financial Instruments (continued)

##### Capital risk management

The municipality manages its capital to ensure that the municipality will be able to continue as a going concern while delivering sustainable services to consumers through the optimisation of the debt and equity balance. The municipality's overall strategy remains unchanged from 2011.

The capital structure of the municipality consists of debt, which includes the Long-term Liabilities disclosed in note 7, bank, cash and cash equivalents and equity, comprising accumulated Surplus as disclosed in Note 3 and the statement of changes in net assets.

##### Gearing ratio

In terms of the municipality's five year financial plan, financial benchmarks, year-on-year in respect of the debt-to-equity ratio, is reflected at 100%, decreasing to 90%. This ratio is as a result of the developmental challenges faced by the municipality. Some of the borrowings are below market related rates.

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Notes to the Annual Financial Statements

Figures in Rand	2014	2013
<b>47. Financial Instruments (continued)</b>		
The gearing ratio at the year-end was as follows:	2014 R	2013 R
Debt	184 071 569	203 356 314
Cash and cash equivalents	(152 369 325)	(59 021 320)
Net Debt	31 702 244	144 334 994
Equity	2 212 030 578	1 872 034 085
Net debt to equity ratio	1.43 %	7.71 %

Debt is defined as long- and short-term Liabilities, as detailed in Note 18.

Equity includes all funds and reserves of the municipality, disclosed as net assets in the statement of financial performance and net debt as described above.

### Financial risk management objectives

The accounting officer has overall responsibility for the establishment and oversight of the municipality's risk management framework. The municipality's risk management policies are established to identify and analyse the risks faced by the municipality, to set appropriate risk limits and controls and to monitor risks and adherence to limits.

Due to the largely non-trading nature of activities and the way in which they are financed, municipalities are not exposed to the degree of financial risk faced by business entities. Financial instruments play a much more limited role in creating or changing risks that would be typical of listed companies to which the IASs mainly apply. Generally, financial assets and liabilities are generated by day-to-day operational activities and are not held to manage the risks facing the municipality in undertaking its activities.

The directorate: Treasury monitors and manages the financial risks relating to the operations through internal policies and procedures. These risks include interest rate risk, credit risk and liquidity. Compliance with policies and procedures is reviewed by the internal auditors on a continuous basis, and annually by external auditors. The municipality does not enter into or trade financial instruments for speculative purposes.

Internal audit, responsible for initiating a control framework and monitoring and responding to potential risk, reports quarterly to the municipality's audit committee, an independent body that monitors the effectiveness of the internal audit function.

Further quantitative disclosures are included throughout these annual financial statements.

### Significant risks

It is the policy of the municipality to disclose information that enables the user of its annual financial statements to evaluate the nature and extent of risks arising from financial instruments to which the municipality is exposed on the reporting date.

The municipality has exposure to the following risks from its operations in financial instruments:

- Credit risk;
- Liquidity risk; and
- Market risk.

Risks and exposures are disclosed as follows:

### Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the municipality's income or the value of its holdings in Financial Instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

## Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

### Notes to the Annual Financial Statements

Figures in Rand	2014	2013
-----------------	------	------

#### 47. Financial Instruments (continued)

##### Credit risk

Credit risk is the risk of financial loss to the municipality if a customer or counterparty to a financial instrument fails to meet its contractual obligations and arises principally from the municipality's receivables from customers and investment securities.

##### Liquidity risk

Liquidity risk is the risk that the municipality will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The municipality's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the municipality's reputation.

Liquidity risk is managed by ensuring that all assets are reinvested at maturity at competitive interest rates in relation to cash flow requirements. Liabilities are managed by ensuring that all contractual payments are met on a timeous basis and, if required, additional new arrangements are established at competitive rates to ensure that cash flow requirements are met.

A maturity analysis for financial liabilities (where applicable) that shows the remaining undiscounted contractual maturities is disclosed in Notes 49.8 and 49.9 to the annual financial statements.

2014

2013

### 47. Financial Instruments (continued)

#### Liquidity risk

Ultimate responsibility for liquidity risk management rests with the council, which has built an appropriate liquidity risk management framework for the management of the municipality's short, medium and long term funding and liquidity management requirements. The municipality manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Included in Note 42 is a listing of additional undrawn facilities that the municipality has at its disposal to further reduce liquidity risk.

#### Liquidity and interest risk tables

The municipality ensures that it has sufficient cash on demand or access to facilities to meet expected operational expenses through the use of cash flow forecasts. The following tables detail the municipality's remaining contractual maturity for its non-derivative financial liabilities. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the municipality can be required to pay. The table includes both interest and principal cash flows.

30 June 2014	6 Months or less R	6 – 12 Months R	1 – 2 Years R	2 – 5 Years R	More than 5 Years R	Total
Non-interest bearing	140 377 050	-	-	-	-	140 377 050

Fixed Interest Rate Instruments	751 194	-	-	-	-	751 194

The municipality has access to financing facilities, the total unused amount which is R9,268 million at the balance sheet date. The municipality expects to meet its other obligations from operating cash flows and proceeds of maturing financial assets. The municipality expects to maintain current debt to equity ratio, within 20-25% limits increasing it to 25%. This will be achieved through the issue of new debt and the increased use of secured bank loan facilities.

### Effective interest rates and repricing analysis

In accordance with IAS 32.67(a) and (b) the following tables indicate the average effective interest rates of Income earning Financial Assets and Interest-bearing Financial Liabilities at the reporting date and the periods in which they mature or, if earlier, reprice:

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Notes to the Annual Financial Statements

Figures in Rand

2014

2013

### 47. Financial instruments (continued)

#### Credit risk

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the municipality. The municipality has a sound credit control and debt collection policy and obtains collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. The municipality uses other publicly available financial information and its own trading records to assess its major customers. The municipality's exposure of its counterparties are monitored regularly.

Potential concentrations of credit risk consist mainly of fixed deposit investments, long-term debtors, consumer debtors, other debtors, short-term investment deposits and bank and cash balances.

#### Investments/bank, cash and cash equivalents

The municipality limits its counterparty exposures from its short-term investments (financial assets that are neither past due nor impaired) by only dealing with well-established financial institutions short term credit rating of BBB and long-term credit rating of AA- and higher at an International accredited credit rating agency. The municipality's exposure is continuously monitored and the aggregate value of transactions concluded is spread amongst different types of approved investments and institutions, in accordance with its investment policy. Consequently, the municipality is not exposed to any significant credit risk.

#### Trade and other receivables

Trade and other receivables are amounts owed by consumers and are presented net of impairment losses. The municipality has a credit risk policy in place and the exposure to credit risk is monitored on an ongoing basis. The municipality is compelled in terms of its constitutional mandate to provide all its residents with basic minimum services without recourse to an assessment of creditworthiness. Subsequently, the municipality has no control over the approval of new customers who acquire properties in the designated municipal area and consequently incur debt for rates, water and sanitation services rendered to them.

Trade receivables consist of a large number of customers, spread across diverse industries in the geographical area of the municipality. Periodic credit evaluation is performed on the financial condition of accounts receivable and, where appropriate, credit guarantee is increased accordingly.

Consumer receivables comprise of a large number of ratepayers, dispersed across different industries and geographical areas. Ongoing credit evaluations are performed on the financial condition of these debtors. Consumer debtors are presented net of a provision for impairment.

In the case of receivables whose accounts become in arrears, it is endeavoured to collect such accounts by "levying of penalty charges", "demand for payment", "restriction of services" and, as a last resort, "handed over for collection", whichever procedure is applicable in terms of council's credit control and debt collection policy.

The municipality limits this risk exposure in the following ways, in addition to its normal credit control and debt management procedures:

- The application of section 118(3) of the Municipal Systems Act (MSA), which permits the municipality to refuse connection of services whilst any amount remains outstanding from a previous debtor on the same property;
- A new owner is advised, prior to the issue of a rates clearance certificate, that any debt remaining from the previous owner will be transferred to the new owner, if the previous owner does not settle the outstanding amount;
- The consolidation of rates and service accounts, enabling the disconnecting services for the non-payment of any of the individual debts, in terms of section 102 of the MSA;
- The requirement of a deposit for new service connections, serving as guarantee;
- Encouraging residents to install water management devices that control water flow to households, and/or prepaid meters.

There were no material changes in the exposure to credit risk and its objectives, policies and processes for managing and measuring the risk during the year under review. The municipality's maximum exposure to credit risk is represented by the carrying value of each financial asset in the statement of financial position, without taking into account the value of any collateral obtained. The municipality has no significant concentration of credit risk, with exposure spread over a large number of consumers, and is not concentrated in any particular sector or geographical area.

The municipality establishes an allowance for impairment that represents its estimate of anticipated losses in respect of trade and other receivables.

# Ugu District Municipality

Annual Financial Statements for the year ended 30 June 2014

## Notes to the Annual Financial Statements

Figures in Rand	2014	2013
-----------------	------	------

### 47. Financial instruments (continued)

Payment of accounts of consumer debtors, who are unable to pay, are renegotiated as an ongoing customer relationship in response to an adverse change in the circumstances of the customer.

Long-term receivables and other debtors are individually evaluated annually at statement of financial position date for impairment or discounting. A report on the various categories of debtors is drafted to substantiate such evaluation and subsequent impairment/discounting, where applicable.

The municipality does not have any significant credit risk exposure to any single counterparty or any group of counterparties having similar characteristics. The municipality defines counterparties as having similar characteristics if they are related entities.

The table below shows the balance of the 5 major counterparties at the balance sheet date. Management is of the opinion that, although these parties are the 5 counterparties with highest outstanding balances, no significant credit risk exposure exists, based on the payment history of the parties.

Counterparty and Location	2014	2013
Ukusa River Estate Development	656 512	656 512
GJ Crookes Hospital	582 323	582 323
Ithala Developments Finance Corporation	563 852	563 852
San Lameer Estate Management	498 633	498 633
SA Botlink (Pty) Ltd	436 951	436 951

Except as detailed in the following table, the carrying amount of financial assets recorded in the annual financial statements, which is net of impairment losses, represents the municipality's maximum exposure to credit risk without taking account of the value of any collateral obtained:

Fixed deposit investments	100	100
Long-term receivables	39 446	121 716
Consumer debtors	224 041 094	192 964 409
Other debtors	15 856 227	12 219 724
Bank, cash and cash equivalents	160 671 371	71 752 397
<b>Maximum credit and interest risk exposure</b>	<b>400 608 238</b>	<b>277 058 346</b>

The major concentrations of credit risk that arise from the municipality's receivables in relation to customer classification are as follows:

<b>Consumer debtors:</b>		
Household	75.00 %	70.30 %
Industrial/commercial	17.00 %	15.98 %
National and Provincial Government	5 %	3.84 %
Other classes	- %	3.93 %
<b>Other debtors:</b>

2014

2013

#### 48. Multi-employer retirement benefit information

The municipality makes provision for post-retirement benefits to eligible councillors and employees, who belong to different pension schemes.

Councillors have the option to belong to the Pension Fund for Municipal Councillors.

All full-time employees belong to the KwaZulu-Natal Joint Municipal Pension Fund, which are made up of the Retirement, Superannuation and Provident Funds.

These funds are governed by the Pension Funds Act and include both defined benefit and defined contribution schemes.

The only obligation of the municipality with respect to the retirement benefit plans is to make the specified contributions. Where councillors/employees leave the plans prior to full vesting of the contributions, the contributions payable by the municipality are reduced by the amount of forfeited contributions.

The total expense recognised in the statement of financial performance of R??? (2013: R24 633 195) represents contributions payable to these plans by the municipality at rates specified in the rules of the plans. These contributions have been expensed.

##### Defined benefit schemes

###### Retirement fund

The scheme is subject to a tri-annual actuarial valuation. The last statutory actuarial valuation was performed as at 31 March 2012 by Arthur Els & Associates.

The statutory actuarial valuation performed as at 31 March 2012 revealed that the fund had a shortfall of R251,5 (31 March 2011: shortfall of R382,3) million, with a funding level of 82,0%(31 March 2011: 84,1%). The contribution rate, including the surcharges below, paid by the members (8,65%) and municipalities (34,22%) was expected to eradicate the shortfall in the fund by 31 March 2015. However, the basic contribution payable is 4,72% less than the required contribution rate.

The actuarial shortfall is taken into account by determining surcharges, to be met by increased contributions. These surcharges amount to 17% of pensionable emoluments, of which 1,65% is payable by members and 15,35% is payable by the local authority.

This surcharge is payable until 31 March 2015. It is necessary that the basic employer contribution be increased by 4,72% to 18,37% and the surcharge be increased to 15,85% (Total employer contribution of 34,22%) and extended by a further 3 years to 31 March 2018. This position will be monitored on an annual basis. Subsequently, notice has been served that the surcharge will be increased to 15,85% with effect from 1 July 2012 for an indefinite period of time. The fund has effectively been closed to new members, and it is therefore assumed for the valuation, that no new members will join the fund. However, at present, members of the three Natal Joint Funds are permitted to transfer between the funds and this flow of members may affect the rate of contribution required to be paid to the Fund. It is intended that the Fund merge with the Superannuation Fund in the near future.

###### Superannuation fund

The scheme is subject to a tri-annual actuarial valuation. The last interim actuarial valuation was performed as at 31 March 2012 by Arthur Els & Associates.

The interim actuarial valuation performed as at 31 March 2012 revealed that the fund had a shortfall of R270,0 (31 March 2011: R549,5) million, with a funding level of 96,0% (31 March 2011: 90,9%). The contribution rate paid by the members (9,25%) and municipalities (18,00%) is 3,63% (31 March 2011: 3,63%) less than the required contribution rate for future service and will be reviewed at the next interim valuation. The deficit in respect of active members is being met by a surcharge of 9,5% of pensionable salaries to meet the shortfall within the 8 year period provided for in the scheme. It was expected that the deficit will be fully funded by 2020.

This surcharge is payable until 31 March 2020. It is necessary that the basic employer contribution be increased by 3,63% to 21,63% and the surcharge be increased to 9,5% and extended by a further 8 years to 31 March 2020. This position will be monitored on an annual basis. Subsequently, notice has been served that the surcharge will be increased to 31,13% with effect from 1 July 2012 for an indefinite period of time.

2014

2013

#### 48. Multi-employer retirement benefit information (continued)

It is intended that the fund merge with the retirement fund in the near future.

##### Defined contribution schemes

###### Municipal councillors pension fund

The scheme is subject to an annual actuarial valuation. The last statutory valuation was performed as at 31 March 2012.

The statutory valuation performed as at 30 June 2011 revealed that the market value of the fund was R1 446,8 (30 June 2010: R1 446,8) million. The contribution rate paid by the members (13,75%) and Council (15,00%) is sufficient to fund the benefits accruing from the fund in the future.

As reported by the actuaries, the fund was in a sound financial condition as at 30 June 2014.

##### Provident fund

The scheme is subject to a tri-annual actuarial valuation. The last statutory actuarial valuation was performed as at 31 March 2012 by Arthur Els & Associates.

The statutory actuarial valuation performed as at 31 March 2012 revealed that the market value of the fund was R1 293,4 (31 March 2011: R1 056,2) million. The contribution rate payable (either 5,00%, 7,00% or 9,25% by the member and 1,95 times the member's contributions by the employer), is sufficient to cover the cost of benefits and expenses and the fund was certified to be in sound financial condition as at 31 March 2012.

##### Related party transactions

During the year the municipality rendered services to the following related parties that are related to the municipality as indicated:

<b>Guarantees:</b>	<b>3 062 000</b>	<b>2 862 000</b>
i) Hibiscus Coast Municipality: The Municipality issued a bank guarantee in favour of Hibiscus Coast Municipality in lieu of a deposit on the electricity accounts of the Municipality.	10 000	10 000
(ii) Eskom: The Municipality issued a bank guarantee in favour of Eskom to cover deposits on the electricity accounts of the Municipality.	2 852 000	2 852 000
	200 000	-
(iii) South African Post office: The municipality issued a bank guarantee in favour of South African Post office.		
<b>Powers and functions:</b>	<b>12 947 266</b>	<b>12 947 266</b>
(i) Environmental Health: It has come to the attention of management that a local municipality has indicated its intention of raising a claim against the district to recover expenses incurred in respect of the Environmental Health Powers and Functions. Negotiations have been entered into in this regard between the municipalities. Currently management is of the opinion that there are no legal grounds to entertain a possible claim.	5 075 295	5 075 295
ii) Water and Sanitation: With the takeover of Water and Sanitation Schemes from the local municipalities in 2004, certain assets were funded through internal funding which these local municipalities are claiming from the district. Currently management is of the opinion that there are no legal grounds to entertain the possible claims.	7 871 971	7 871 971
<b>Court proceedings:</b>	<b>8 384 129</b>	<b>2 178 012</b>
(i) Dispute on Expenditure Claimed: Council is involved in a dispute with Sublime Marketing (the applicant), where the applicant is claiming an amount of R227 142, with interest estimated at R192 432, in respect of functions performed on behalf of Ezinqoleni Municipality/ Horseshoe Farm. The municipality is currently defending the estimated claim and is awaiting the enrolment of the matter for trial. The outcome of the legal processes is unknown at this stage. The Municipality denies any agreement with Sublime, and therefore will not be settling on this matter. We await court action from Sublime.	419 574	419 574
(ii) Alleged Fraud: Council has been involved in a court case with ABCON/PILCON Projects into alleged fraud and/or fronting in terms of its supply chain management Policy. Although judgement has been passed, an appeal has been lodged and is still pending in the High Court. The outcome is not known at this stage.	-	-
(iii) Cession Agreement: JZZ Engineering is claiming from the municipality as per a prescribed claim against a cession agreement entered into. The possible liability amounts to R153 900, plus costs. The outcome of the matter is still unknown. The Municipality has drafted and entered its plea in the matter.	153 900	153 900
(iv) Alleged Breach of Contract: The municipality is been involved in a court case with Thumbprint events Management, where it is alleged that the municipality has unilaterally repudiated a contract. Applicant is claiming unpaid invoices and damages in terms of what would have been due to them had the contract not been repudiated by the municipality. The municipality is defending this action and awaits a court date. The claim is valued at R875 258 plus 30% of envisaged gate takings for two events and 25% of sale of floor space for two events.	875 248	875 248
	100 000	-

#### Contingencies arising from pending litigation on wage curve agreement

On 21 April 2010 SALGA signed the "Categorisation and job evaluation wage curves collective agreement" (wage curve agreement) with IMATU and SAMWU on behalf of municipalities. The agreement established the wage curves and wage scales to be used by municipalities in determining the wages of municipal employees, based on an evaluation of employees' jobs per the TASK job evaluation system.

Subsequent to the signing of the agreement, the unions declared a dispute with the agreement. The dispute was referred to the Labour Court and the court delivered a ruling on 22 June 2012 that employees receive a salary increase backdated with effect from 1 July 2010 instead of 1 July 2011. SALGA, on behalf of municipalities, applied for leave to appeal this ruling and was granted the right to appeal against the judgement on 29 August 2012. To date this Labour Court of Appeal case has not been finalised.

The municipality has not implemented the TASK job evaluation system nor the wage curve agreement as yet. The costs involved towards the implementation of the TASK job evaluation system and the wage curve agreement and the settlement of this matter are unknown at this stage.

As a result of the uncertainties arising from the dispute declared by the unions and the pending litigation regarding the wage curve agreement, the municipality may have an additional payable for employee wages, depending on the outcome of the pending litigation. It is not practicable to reliably estimate the amount of this payable prior to the outcome of the pending litigation.

#### 50. Contingent Assets

i) Legal claim against Ingqondo and Nzwakele Construction for alleged fraud and undue enrichment from contracts awarded by the municipality.	4 714 038	-
