CHAPTER1. INTRODUCTION AND OVERVIEW

1.1 EXECUTIVE MAYOR'S FOREWORD

I have great pleasure to introduce the 2008/2009 Annual Report of the O R Tambo District Municipality. The Report presents the progress made by this Municipality with the provision and expansion of basic services to its communities, as well as how the institution addressed and overcame the challenges encountered along the way. We have executed our mandate mindful of the fact that the national , provincial and local spheres of government functions as an integrated state and a number of our key programmes and projects cut across the all three spheres of government.

Achievements

The Municipality's progress in achieving its objectives in all five key performance areas will be outlined in this Annual Report. The key performance areas are as follows:

- Basic service delivery and infrastructure development
- Municipal financial viability and management
- Municipal transformation and development
- Local economic development
- Good governance and public participation

Key achievements over the review period include the following:

- (a) A people-driven ward-based planning process was introduced, which informed the 2009/10 Integrated Development Plan and Budget.
- (b) The municpality's audit outcome has improved from a disclaimer audit opinion for the three preceding years to a qualified opinion in this year. The basis for the opinion has further been limited to just two areas.
- (c) In terms of support rendered to local municipalities, we have further been able to extend internal audit support to 3 of the seven local municipalities, legal services support to 4 of our municipalities as well as the provision of firefighting equipment to 5 of the 7 municipalities.
- (d) The capital expenditure rate has improved.

The year ahead

Despite the notable progress made during the 2008/09 financial year, the Municipality is acutely aware of the many challenges that await, as listed below.

(a) Further strengthening people involvement in planning and decision-making

processes so that together with our people, we can do more. This includes the finalization of the groundbreaking and innovative ward based planning and information system that will further enhance informed decision making and budgeting.

- (b) The district made a significant intervention in responding to the continued challenge of girl children abuse and abduction and established the Palmerton Child Care Centre, which currently house 92 children and orphans.
- (c) Accelerating and expanding quality and sustainable service delivery and infrastructure.
- (d) In line with the governing party's key focus area of education and skills development, we will focus on working with the education department and schools in our district, in an attempt to contribute to the poor matric results of the 2008 academic year.
- (e) 55 Students (tertiary) benefited from the district's financial assistance programme.
- (f) We will take further our partnership with the City of Lusaka as part of our ongoing honouring and celebrating of the life our icon OR Tambo.
- (g) Focusing on revenue collection and customer care measures within the framework of Batho Pele.
- Prioritising issues concerning special groups (youth, women, children, aged and people with disabilities).
- Mitigating the impact of the global economic meltdown and finalising key economic growth and development strategies and policies.
- (j) Continued focus to support the marginalized and rural poor through food security programmes and in this regard three pilot sites have been identified and supported.
- (k) Five women's co-operatives and one co-operative for ex-combatants have been established focusing on sewing, agriculture and brickmaking,
- (I) Sharpening our focus on TB, HIV and AIDS.
- (m) Continuously building a performance-driven institution and status of an unqualified audit opinion.

I would like to express my sincere gratitude to my predecessors, all councillors, officials, the communities of the O R Tambo district and stakeholders for their contribution to the progress made for the year under review.

COUNCILLOR RZ CAPA EXECUTIVE MAYOR

1.2 YEARLY PROGRAMME PRIORITIES' STATEMENT BY THE MUNICIPAL MANAGER

As the Accounting Officer of the Municipality, I confirm that this 2008/09 Annual Report has been compiled in line with the Local Government: Municipal Systems Act (MSA) 32 of 2000, the Local Government: Municipal Finance Management Act (MFMA) 56 of 2003, the National Treasury Circular No. 11, as well as the customized template and guidelines for municipal annual reports provided by the Provincial Department of Local Government and Traditional Affairs.

The key priority areas of the institution during the year under review find their expression in the Integrated Development Plan, Budget and Service Delivery and Budget Implementation Plan and include the following:

- (a) Ensuring a performance-driven, integrated and co-ordinated institution.
- (b) Enhancing good corporate governance through achieving an improvement in the audit opinion from the Office of the Auditor-General.
- (c) Improving the provision of basic services and infrastructure.
- (d) Continued focus on the provision of quality housing.
- (e) Improving financial management and financial sustainability.
- (f) Contributing to grow the economy by the development of an investment attraction framework and the staging of investment conference.

In the 2009/10 financial year, the following areas will receive priority:

- (a) Continuous improvement in good corporate governance; performance and integration; and achieving an unqualified audit opinion.
- (b) Prioritising the provision of sustainable, quality basic services.
- (c) Becoming a customer focused and more responsive institution, in adherence to Batho Pele principles.
- (d) Prioritising human capital development and labour relations.
- (e) Ensuring sound and sustainable financial management *inter alia*, through the maximisation of revenue collection.
- (f) Focusing on major infrastructure investment, operations and maintenance.
- (g) Focus on the improvement of our community engagement framework through the strengthening of our public participation unit.

I would like to extend my warmest appreciation to the political leadership, the management team and staff of the O R Tambo District Municipality for their contribution to the progress made during the 2008/09 financial year.

BW KANNEMEYER MUNICIPAL MANAGER

1.3 EXECUTIVE SUMMARY

1.3.1 FINANCIAL VIABILITY AND MANAGEMENT

- Annual financial statements was submitted to the Office of the Auditor-General by the end of 31 August 2009 in terns of section 126(1)(a) of MFMA;
- All the qualifications items raised in the 2007/08 audit report were cleared in the 2008/09 audit report;
- The District Municipality has received a qualified opinion which is a significant improvement from Disclaimer opinion in 2007/08.

Challenges Experienced

The key challenges in financial management are the high vacancy rate particularly the Supply Chain Management, Budget and Reporting as well as Treasury and Reporting. O.R. Tambo District Municipality is classified as a high capacity municipality. This requires the municipality to be fully compliant with Generally Recognized Accounting Practice, MFMA compliance issues and all its related circulars and regulations. The financial management system is also a major limiting factor in terms of financial and management accounting procedures and information flow.

1.3.2 WATER, SANITATION AND ROADS

The OR Tambo district municipality is the Water Services Authority and Water Services Provider responsible for planning and implementation, operation and maintenance of water and sanitation services within the seven local municipalities in the district. The District Municipality (DM) is therefore responsible for the development and the implementation of its water services by-laws, District Wide Water Master plans, Water Conservation & Water Demand Management and Water Services Master Plan.

Much of the existing water and sanitation infrastructure district wide is in a state of decay and in many cases, is not functioning; hence ongoing refurbishment and maintenance are key to the provisioning of water and sanitation. The DM has continued in the provision of and granting access to basic level of service to all the deserving cases, however, the persistent drought spell ravaging the region contributed

to increasing the demand. As such programmes like spring protection, water carting and refurbishment of pump stations are still continuing to meet this need while more permanent and sustainable resolutions to the challenges are planned and implemented.

Major Challenges in water and sanitation services and remedial actions

Backlog eradication is not the only substantial challenge facing the OR Tambo District Municipality. Those deemed to be "served" are not necessarily benefiting from a fully functional and operational water service, though they do live in the area covered by some sort of formal scheme. Much of the existing water and sanitation infrastructure is not adequately maintained and, in many cases, is not functioning. Efforts to eradicate the backlogs in the district have been affected by funding problems during the period under review.

The DM is challenged with having to balance extending services to areas not served and refurbishing, maintaining and increasing the capacity of existing infrastructure to support economic growth and development. The focus of the district was to extend services to those with no access who are largely the poor in rural areas. This resulted to little resources made available for refurbishing, maintaining and increasing the capacity of existing infrastructure especially in urban areas and other historical development nodes. As a result the state and capacity of existing infrastructure has become a constraint to growth and development and as such additional resources are required for ongoing operations and maintenance.

1.3.3 HUMAN SETTLEMENT

The DM is an implementing agent for 18 Housing Projects and 17 of these are rural. All the projects are implemented through the People's Housing Process (PHP) and are labour intensive. Beneficiaries are involved in decision making and in the construction of their houses, whilst local and emerging builders are involved in construction process. There is also participation of local service providers (bakkies, tractors, trucks, etc) for cartage of material from Support centre to various sites. Local emerging suppliers are also given opportunities to supply building material to projects but due

to shortages of some building material items that are not available locally are then sourced from outside the region.

Partnership is formed between beneficiaries, Local Government, Community leaders, Sector Departments and other stakeholders for monitoring of projects. The housing development and implementation strategy is derived from PHP principles and also from National Housing Code. Support Committee is elected by beneficiaries. Support Centre staff is appointed from the community where projects are situated. The teams involved in the construction of the housing units are sourced from villages and nearby villages. Contrary to ORTDM's eagerness to build more houses every year we are constrained by the limited financial resource. All the houses that are constructed are 40 sqm in size and they have a rain water tank and a VIP toilet.

1.3.4 SOCIAL TRANSFORMATION

YOUTH

Academic financial assistance: 55 tertiary students were financially supported in the following fields : Information Technology , Law , Tourism, Civil Engineering , BSC , Social Work , Public Affairs , Education , Environmental studies , Computer Science , Social Science , Administration and Medicine . These students were identified from distresses families within the O.R. Tambo District Municipality and are enrolled with the following universities; Walter Sisulu University, KwaZulu Natal institutions , Fort hare and Nelson Mandela Metro university . The DM youth development programme also supporting those in the manufacturing business, for example: the Ilitha metal manufactures and suppliers, Mzamba life saving as well as Young woman poultry project.

WOMEN DEVELOPMENT PROGRAMME

• Five cooperatives fully owned by women in the district were registered : Sewing cooperative in Zalu Hill -Lusikisiki and Gxulu village -Nyandeni , Agriculture cooperative in Jali and Mpunzi drift -Mbizana , Art -Bambisana village -Port St Johns

• Four rural women development offices established in Mbizana, Nyandeni, Ingquza Hill and KSD municipality.

SUPPORT FOR THE ELDERLY included the establishment of O.R. Tambo District Organization for Elderly person, which mainly focuses on supporting issues of interest to the elderly as well as protecting their rights.

SUPPORT TO EX-COMBATANTS includes amongst others the establishment and support of cooperatives owned by ex-combatants e.g. Young Lions, a brick manufacturing cooperative.

CHILDREN: A home and support centre was established in Palmerton at Ingquza Hill Municipality, which mainly supports abused and vulnerable children. The Centre also offers 92 children an opportunity to learn in a homely, friendly and healthy environment.

HIV/AIDS: The DM HIV/AIDS Unit received a Provincial award for an outstanding support on People Living With HIV/AIDS.

19 established non medical VCT sites throughout the district, 5 High transmission area sites established in Mthatha Shell Ultra City, Ngqeleni village, Port St Johns second beach, Bizana taxi rank and Tsolo junction. Not less than 27 000 young girls in the district are participating in inkciyo abstinence program. The program is popular in contributing to curbing the spread of HIV/AIDS, sexual transmitted infections and reduction of teenage pregnancy.

POVERTY RELIEF: Approximately 900 families in distressed benefited from one household one food garden program in three identified pilot sites Flagstaff, Mbizana and K.S. D municipality. 1300 identified distressed families were supported with food parcels.

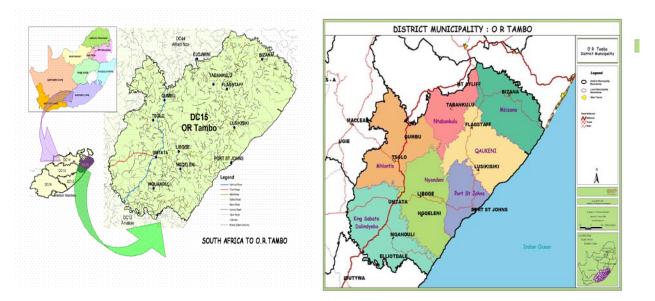

CHAPTER2.OVERVIEW OF THE CURRENT SITUATION

O.R. Tambo District Municipality (ORTDM) is one of the six district municipalities and one of the four ISRDP nodes of the Eastern Cape Province. It covers about 80% of what used to be marginalised homeland of Transkei and is formed by seven Local Municipalities, namely:-

- King Sabatha Dalindyebo LM (Mthatha & Mqanduli)
- Nyandeni LM (Libode & Ngqeleni)
- Mhlontlo LM (Qumbu & Tsolo)
- Port St. Johns LM
- Ngquza Hill LM (Flagstaff & Lusikisiki)
- Ntabankulu LM
- Mbizana LM (Bizana)

2.1 Locality

The O.R. Tambo District is located to the east of the Eastern Cape Province, on the Indian Ocean coastline of South Africa. It is bordered by the Alfred Nzo District Municipality to the north, the Ukhahlamba District Municipality to the northwest, the Chris Hani District Municipality to the west and the Amathole District Municipality to the southwest. From the east to the west the district measures 170,143km, north to south 121,725km and it measures 12857 km² in extent.

2.2 DEMOGRAPHICS AND SOCIO-ECONOMIC INDICATORS

The total population of O.R Tambo district amounted to 1,843,135million in 2007, (growing at an average of 0.5% per annum) which is approximately 26, 6% of the total for the Eastern Cape province, which is approximately as depicted in the chart below.

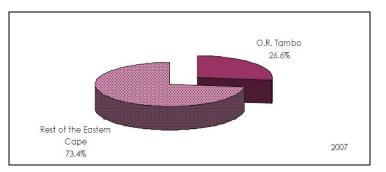

Chart 1: Total population in O.R Tambo relative to the Eastern Cape (1997, Numbers)

- In 2007, the district had a Gross Value Added (GVA) of R 11.9 billion, which is 15.2% of the Eastern Cape.
- Community services constitute 46.8% of O.R. Tambo's GVA, with trade and finance trailing at 19.9% and 19.1% respectively.
- o It is estimated that 95,049 people were employed by formal and informal sectors in the District which is 15% of the provincial total.
- o Unemployment was measured at 204,650 in 2007 which amounts to 68.1% of the total economically active population of 300,376.
- The total number of individuals with an education level of less than a matric certificate or no schooling was 847,016 in 2007, those with tertiary education was 4,789 and those with matric are 21,719.
- The Gini Coefficient in O.R. Tambo for 2007 was 0.64, compared to that of the Eastern Cape which was 0.67. The population group with the highest Gini Coefficient for 2007 was the Coloureds with a coefficient of 0.59.
- The Human Development Index of O.R. Tambo in 2007 was 0.42 which is significantly lower than the Province's 0.53 and the country's 0.60.

- o It is estimated that 72.2% of the population of O.R. Tambo live in poverty, compared to 62.2% in the Eastern Cape and 42.9% in South Africa as a whole.
- GDP is a measure of the total economic activity occurring in O.R. Tambo. In 2007, O.R. Tambo's GDP-R was R 13.2 billion (current prices) which accounted for approximately 8.5% of the Eastern Cape's GDP.
- Since 2001, the GDP-R of O.R. Tambo has grown at an annual average of approximately 3.1% (slightly below the provincial average of 3.9% per annum; measured in constant 2000 prices) while observing 3.7% between 2005 and 2006, and 3.9% between 2006 and 2007.

Since 2001, the following annual average economic growth rates (in terms of GDP) have been measured in each of O.R. Tambo's local municipalities (2001 to 2007 at constant 2000 prices):

- Mbizana 2.4%
- Ntabankulu 1.6%
- Ingquza Hill 2.2%
- Port St Johns 3.1%
- Nyandeni 2.1%
- Mhlontlo 1.5%
- King Sabata Dalindyebo 3.7%

Gross value added (GVA) is the difference between output and intermediate consumption for any given sector/industry. In 2007, the GVA of O.R. Tambo was R 11.9 billion (in current prices). This amounted to approximately 8.6% of the Eastern Cape's provincial GVA. The economic sectors that dominate the economy of the district are community services, financial and business services, and wholesale and retail trade. Between 2006 and 2007, the following growth rates were observed in O.R. Tambo per broad economic sector (based on GVA at constant 2000 prices):

• Agriculture 1.0%

- Mining -7.8%
- Manufacturing 0.7%
- Electricity -1.4%
- Construction 25.2%
- Trade 6.8%
- Transport 5.7%
- Finance 12.9%
- Community services 3.2%

2.3 ECONOMIC DEVELOPMENT

The O.R. Tambo DM's vision is that of a Municipality responsive to social aspirations for an economically vibrant, healthy, sustainable community. The District faces a declining economy, high levels of poverty, underdevelopment and infrastructure backlogs as well as reliance on the government sector. The economy of the O.R Tambo district hinges around the following four key economic drivers, namely:- Agriculture, Tourism, Forestry, as well as Mariculture and Aquaculture.

2.3.1 LED strategy and Implementation

An LED Strategy exists which was developed in 2003 and therefore requires urgent review. The LED unit started a process of reviewing the strategy in September 2008 and consultants with expertise in the field were contracted to assist the municipality. A stakeholder briefing session was held on 17 September 2008 subsequent to which an LED Strategy Review Project Steering Committee was elected and mandated by the stakeholders to take the process forward. The processes for the review have been dragging as there had to be processes for reviving the LED Sub-Forums and hence subsequent establishment of the District LED Forum. The sub-forums have since been established and fully operational.

LED unit

An LED unit exists and is functional within the municipality and is one of the sections under the Planning and Development Department. This unit mainly focuses on Agricultural Development and SMME & Co-operatives Development. The LED Unit was staffed with only 3 personnel at the start of 2008/2009 but with the LED Manager resigning in December 2008 and was not replaced within the reporting period due to the review processes of the organizational structure this has drastically affected the successful implementation of LED projects.

The availability of a LED expertise;

LED expertise solely lies with Ntinga O.R Tambo Development Agency which is the implementing arm of the District for its LED and Rural Development initiatives. The Department of Planning and Development Department with personnel responsible for Planning, Monitoring, Evaluation and Policy Development for LED implementation.

The following is the personnel in the LED unit:

Tourism

- Tourism Manager
- Tourism Research Officer
- Arts & Craft Development Officer

LED Programmes & Policy formulation

- Senior Practitioner: LED Programmes Policy Development, Monitoring & Evaluation.
- SMME Officer
- Manager Agriculture

LED stakeholder forum functionality;

The District LED Forum was revived in September 2008 and one meeting was held with all stakeholders to present the objectives of the Forum and the Terms of Reference for the operation of the Forum. The stakeholders represented in the meeting agreed that sub-sector forums in Agriculture and Tourism should be first established before the broader forum can be functional.

Funding opportunities of LED activities

Funding Institution	Projects/Programme funded	Amount funded
---------------------	---------------------------	---------------

Department of Local Government &	District LED Strategy	R 366 000.00
Traditional Affairs (DLGTA)		
DLGTA	Economic Researcher	R 400 000.00
Department of Economic Development &	LED community based Projects	R5 000 000.00
Environmental Affairs		
ASGISA EC	SDF	R 400 000.00

2.3.1.1 Exploiting comparative and competitive advantage for industrial activities

The municipality has got the following sectors that give it a competitive advantage:-

a) Tourism

The OR Tambo District has identified tourism as one of its economic drivers and growth sector. The untapped natural resources, culture and historic heritage that put the district in the international map are some of the strategic assets that the district possesses. Initiatives pursued under tourism development include:

- Tourism product development facilitation.
- Tourism promotion and marketing.
- Tourism infrastructure deployment facilitation.
- Special focus period local tourism facilitation and co-ordination.
- Facilitation of a district tourism development and promotion plan.

One of the focus areas is the capacity building for Crafters throughout the district. Not less than 50 Arts and Crafters received training on Craft Development & Design. 145 performing artists were trained on Art business Administration and performing artistry. Tourism marketing for the district has taken place in the form of tourism month and tourism campaigns and brochure distribution within the entire province. Councillor support has been conducted through training of 07 LED councillors on responsible tourism planning. The SA Host Program and Customer Care training was conducted for accommodation providers and /or owners funded by ECTB.

b) Agriculture

The agricultural potential in the district remains largely untapped. Although subsistence farming - essentially maize and stock - is fairly general throughout the

area, practices remain less than effective in relation to the potential. With plans for new dams and associated water supply systems, there may be opportunities for commercial scale irrigated agriculture projects. The communal tenure system results in issues that require creative management approaches and in this respect fencing of arable land may represent improvement.

Research trials have been conducted for High Value Crops like Cotton, Sunflower and Cassava. The Kei Fresh Produce Market which is owned by the municipality has developed business plans for increase in commodity production of potatoes and bananas around the district. A business plan was developed for KPFM and was funded to the value of R300,000.00. A farmer support unit has been established to market the produce from local farmers, it is gaining popularity and the support is growing.

Livestock Improvement

While agriculture makes up only 50% of the Eastern Cape GDP, it provides 12% of the Province's formal sector employment. Within the Eastern Cape agricultural economy, the livestock and livestock products group is the single biggest sub-sector with an estimated gross income value of R2.4 billion per annum. This represents 70% of the Eastern Cape's gross agricultural income. Livestock farming within the OR Tambo District Municipality is by far the biggest livestock farming practice in communal farming in the whole country, 631 674 cattle, 732 478 goats and 1 225 244 sheep. The objective of the livestock improvement programme or O.R Tambo DM is to increase the income of communal cattle farmers by assisting them to realise higher prices for their cattle through:-

- i) Increasing their participation in the formal marketing channels and
- ii) Improving the quality of the animals marketed by increasing farmer's access to veterinary and feed input markets.

This programme seeks to address the fact that livestock in the district is of poor quality as well as the reluctance of farmers to market their livestock. Sires (bulls, rams and bucks) are supplied to the farmers to improve their stock. This in turn improves the quality of beef, mutton, wool and chevon in the district.

In this programme 30 Bulls and 25 Rams and Bucks of various breeds have been purchased as part of the livestock development programme. Farmers also get assistance in training in animal husbandry, animal health and livestock marketing. Wool growers are also assisted in transporting their wool to the market in Port Elizabeth. There is also "Heifer Exchange" programme, whereby farmers exchange their older stock for young heifers. The District Municipality has purchased more than 68 heifers and through breeding has produced an additional 50 heifers as part of the heifer exchange programme.

The DM through Ntinga development agency is also implementing a livestock branding programme in partnership with the stock theft unit of SAPS and the Department of Agriculture, which serves to combat stock theft, as well as making livestock marketable.

Sub-district	Cattle	Goat	Sheep
Libode	45 096	54 272	103 307
Ngqeleni	69 675	79 989	108 894
Port St Johns	26 007	25 618	1 894
Mqanduli	58 713	87 258	251 761
Umtata	71 748	94 601	394 863
Tsolo	34 117	40 145	93 871
Qumbu	49 480	69 360	89 249
Tabankulu	49 352	98 405	41 388
Bizana	72 501	56 096	42 673
Flagstaff	42 119	51 950	35 427
Lusikisiki	102 867	74 789	61 863
Total	631 674	732 478	1 225 244

Table 1: The O. R. Tambo livestock population

Grain Crop Production

This has been an effective method to revive farming activity through Primary Agriculture Resuscitation Programme (PARP) .The programme succeeded through assisting rural communities with the provision of production inputs and soil preparation. There has been a considerable success to the extent that maize was marketed outside the district. The programme has now improved to a situation where the farmers contribute 50% towards production costs.

Vegetable Production

In this programme we have what is termed "Green Valleys" whose aim is to ensure use of natural resources along the rivers of OR Tambo District. At present, 11 irrigation schemes are operating, ranging between 10 and 50 hectares. The projects have been assisted with the installation of irrigation equipment, fencing and provision of inputs, soil preparation and technical support.

High Value Crops

There has been an initiative by the Department of Agriculture to produce canola in the district. The District Municipality through Ntinga has made an agreement to be part of the programme. There has been an initiative by the District Municipality to pilot cotton production on two sites (Mqhume and Maliwa) in the Ingquza Hill Local Municipality. The trials were very successful. It is estimated that the 40 Hactares planted for the trial will yield more than 85 tons of cotton. As a result cotton production will be on a large scale in the next season, and will be in partnership with Da Gama, Cotton SA and Monsanto.

c) Forestry and Timber Production

Existing forestry plantations in the Eastern Cape cover 176 000 ha, a large proportion of which is located in the ORTDM. Of the 100 000 ha considered possible for new Afforestation in the Province, around half of this is within the ORTDM area. With Department of Water Affairs and Forestry (DWAF) withdrawing from operational forestry, the Municipalities have some responsibility to support certain forestry development initiatives. This role would include creating awareness and acceptability of forestry as a legitimate land use, facilitating and supporting downstream participation by local SMMEs, facilitating collaboration of key stakeholders for mutual benefit and for the benefit of the sector and economy as a whole. In this regard, the private sector is well established and is seeking opportunities to grow and will require support from all spheres of government.

The District Municipality, together with DTI, the provincial government, ECSECC and ECDC is currently implementing the Furniture Incubator project in Mthatha to take

advantage of the abundant timber and forests that is there in the district. More than 100 young people have been trained in woodwork and upholstery.

The Timber processing industry has a potential of providing more that 1000 jobs during new afforestation and saw milling. The eLangeni Development node programme is seriously engaged in processes that are aimed at exploiting the potential that afforestation has in the district.

Initiatives pursued under forestry development include:

- Facilitation of community afforestation.
- Facilitation of a district strategy for forestry development.
- Undertaking of community awareness campaigns on value of forestry.
- Facilitation of deployment of critical infrastructure.
- Playing of a leading advocacy role to secure public sector investment in forestry in the district.

d) Marine and Aquaculture

With the Wild Coast presenting extensive opportunities for people to participate in marine harvesting activities, it is the challenge of all spheres of government to ensure that local people are able to participate equitably and to ensure that harvesting is carried out at levels that are sustainable. In this respect there is a need for improved data, greater awareness amongst stakeholders and roleplayers, and improved controls. Again, these activities require collaboration of all spheres of government and a coordinated approach.

e) Trade, Manufacturing and Investment Promotion

Trade is the second largest contributor to the district's Gross Value Added (GVA) and has over the past 10 years experienced positive growth rates which have been accompanied by positive net job gains. Informal trade has also played a very significant role over the same period, growing by more than 100% in size. Manufacturing on the other hand has experienced significant declines and stagnation and has contributed to the general decline in the ability of the district to create and absorb jobs. Both sectors are of strategic importance to the district and will be supported in a manner that ensures sustainable jobs are created. To achieve this, the district commits to facilitating efforts aimed at mobilising investments with a particular focus on value adding investment opportunities. To this end the district will ensure that constraints to investments such as infrastructure, land availability and incentives are addressed by amongst others, ensuring strong alignment and integration with the emerging Regional Industrial Development Strategy.

2.3.1.2 Enterprise Support and Business Development

Building viable and sustainable communities requires a holistic and integrated approach that involves all aspects of community life, including but not limited to, leadership development, social capital, poverty alleviation, and institutional development. The district is committed to addressing these issues in a manner that ensures communities are able to engage in activities that create jobs and have access to basic services. Small medium and micro enterprises continuously face the challenge of access to markets, finance, information and quality support services. These are issues that the district commits to facilitating and ensuring they are addressed. Creating awareness and providing assistance to co-operatives is one of the institutional support mechanisms that the district commits to support and facilitate.

A district wide skills development programme has been identified as a foundation objective for the achievement and sustainability of the identified drivers. Small medium and micro enterprises continuously face the challenge of access to markets, finance, information and quality support services. These are issues that the district commits to facilitating and ensuring they are addressed. Creating awareness and providing assistance to co-operatives is one of the institutional support mechanisms that the district commits to support and facilitate. The success of the district in growing and sustaining the local economy depends on the extent to which it builds partnerships and collaboration with all relevant stakeholders. The district recognises the need to develop functional and effective collaborative efforts with business by amongst others ensuring that there is a united vision and drive to address challenges confronting business and the district in general

Enterprise / Cooperative	Permanent Jobs	Youth	Women	Temporary Jobs
Brick & Fence	53	47	33	5
Emfundisweni Bakery	23	13	19	33
Kei Fresh Produce Market	16	6	6	15
Ikhwezi Farm	3	0	2	8
Umzikantu Abbattoir	11	4	5	5
Young Lion Cooperative	52	6	3	9
Zalu Sewing Project	13	0	13	1
TOTAL JOBS CREATED	171	76	81	76

The following table reflects the extent of permanent jobs created in some of the District LED projects:

14 Co-operatives have benefited from Ntinga O.R. Tambo Dev. Agency in the form of Business plans and Constitutions outsourced to service providers for development. Baziya sustainable village was established and has co-operatives formed that have a variety of core functions (Bakery, Sewing, Poultry and Agriculture). The total number of beneficiaries is 200 and all are community members.

2.3.1.3 Challenges regarding LED strategy implementation

- Insufficient personnel within the LED Unit The Unit needs to have a Manager and all positions filled so as to be able to deliver on the LED KPAs.
- Limited budget/funding in most cases LED is regarded as unfunded mandate within the district and as such very little allocations are made for LED which therefore results to inability to deliver on the LED KPAs. A proper budget allocation needs to be made by the municipality.
- Poor integration of co-ordination between LED stakeholders Intergovernmental Relations Unit within the municipality needs to assist the LED unit in ensuring that cooperative governance is achieved so that some of the municipalities planned LED KPAs can be delivered within other LED stakeholders budgets.
- The LED Forum needs to be operational so as to provide a platform for stakeholder engagement, discussion and dialogue amongst stakeholders on how all stakeholders can integrate their efforts to develop the economy of the district.

2.4 GOOD GOVERNANCE

2.4.1 Executive and Council Functions

Structurally, the O.R Tambo District Municipality is an executive mayoral type, consisted of the Political and administrative structure. In terms of Section 12 Notice, O.R. Tambo is a category C municipality which consists of 59 Councilors. The council is headed by the Madam Speaker, Councillor N. Madalane the Chief Whip being CIIr Z. Mzamane.

The district municipality has 57 Councilors which are composed as follows:

Full time	10
Part time	47
Directly elected	23
Indirectly elected	34
Females	27
Males	30
Resigned	1
Deceased	1

Composition of members of council in the O.R Tambo District Municipality

	TOTAL NO. OF CLLRS	PARTIME CLLRS	FULL TIME CLLRS	NUMBER OF FEMALE CLLRS	No. of indirectly elected Cllrs
	59	49	11	22	KSD 9
ANC members	51	47	11	22	Nyandeni 5
UDM members	5	0	-	0	Port St Johns 3
APC members	1	-	-	-	Ingquza Hill 6
ID member	1	-	-	-	Mbizana 5 Ntabankulu 3 Mhlontlo 4

As an executive mayoral type the mayoral committee is structured as follows:-

Composition of Mayoral Committee

PORTFOLIO	MMC Member Responsible
1. Executive Mayor	CIIr RZ Capa
2. Planning Infrastructure and Services	CIIr. LS Nduku
3. Finance Budgeting and Auditing	CIIr. Z. Ndlumbini
4. Roads and Transport	CIIr. Makhedama
5. Human Resources and Corporate Services	CIIr. E. Diko
6. Health and Community Services	CIIr. N. Meth
7. Economic Development, Tourism and Agriculture	CIIr. N. Tobo
8. Policy Development, Research, IGR and Community Liaison	CIIr. P. Mdingi
9. Land, Housing and Human Settlement	CIIr. P. Ndamase
10. Sports, Arts, Recreation, Culture, Heritage and Amenities	CIIr N. Malunga

SECTION 80 COMMITTEES

There are also Section 80 committees (standing committees) which are constituted as follows:-

- Finance and Economic Development Committee
- Human Settlement and Infrastructure
- Human Resources and Social Development
- Community Liaison, Research and Heritage

Section 80 Committee	Finance and Economic Development	Human Settlement and Infrastructure	Human Resources and Social Development	Community Liaison, Research and Heritage

2.4.2 Relationship Between the Council and Communities

The district municipality has three Section 79 Committees which are managed and coordinated by the Office of the Speaker. These committees are fully functional and are meeting quarterly unless there are urgent issues that warrant their attention. These committees assist the Speaker in execution of her duties in line with relevant pieces of legislation and municipal delegation authority. All deliberations and recommendations of these committees are presented to Council for consideration. They have managed to assist Council in taking informed decisions ranging from welfare of Councillors to effective governance and enhancement of public participation. Both Sec 79 and 80 Council committees do meet and process council report to other structures of council till adoption and resolution by Council meeting. There is a good working relationship between these committees and sometime they organize combine capacity workshops and information sharing as well as joint sitting of various committees.

Communities as important stakeholders in our governance are continuously consulted and allowed to participate in Council activities as per constitutional requirement. There are various structures of council to accommodate general community participation via Ward Committees, Community Development Workers and IDP Representative Forums. General Community also participate in the IDP and Budget Road-show, Oversight Road-shows, Mayoral Imbizos etc. All Council meetings, annual reports, draft Budget and IDP, rates and other relevant information are publicized for public consumption inviting them to comments and submit their inputs.

POLITICAL COMMITTEE

The Office of the Council Chief Whip has just established a political committee called Trioco which consists of the Executive Mayor, Speaker and Council Chief Whip. This committee is coordinated and Chaired by the Council Chief Whip and can when needs be invite the Municipal Manager to the meeting. This committee provides strategic leadership for the district municipality to be able to effectively utilize the limited resources to achieve its objectives

2.4.3 COUNCILLOR CAPACITY BUILDING PROGRAMS

The Office of the Speaker together with the Human Resources Department has in the year under review, working with different training institutions, trained Councillors on the following courses:

- Executive Leadership
- Leadership Skills
- Presentation Skills
- Project Management
- Finance for Non Financial Managers
- Local Government Law and Administration

OVERSIGHT COMMITTEE

Oversight reports of two financial years (2006/07 and 2007/08) were presented and adopted by the Council without reservations.

OFFICE OF THE CHIEF WHIP

Council took a resolution to have a full time Chief Whip and institutionalization of the Office of the Chief Whip. Council Chief Whip performs duties as stated in the Council's delegated authority. During the year under review the Office of the Chief Whip has had two Caucus Workshops which were held at Dan's Place and Mzamba respectively. All Councillors from the district were invited to deliberate on how best can they improve service delivery within the district.

The Council Chief Whip meets quarterly with Chief Whips from all seven local municipalities to conduct audit of service delivery. In doing this all whips are expected to present a written report on service delivery challenges, programs / projects taking place, achievements and any other things that may hinder service delivery.

2.4.4 PUBLIC PARTICIPATION AND CONSULTATION

The Office of the Speaker working with the Office of the Executive Mayor annually coordinates IDP and Budget Road shows and the same was done in year under review. This program is held in different venues in all local municipalities around the district to ensure that all members of the community are afforded an opportunity to participate in municipal activities and decision making processes.

Chapter 7 of the 1996 Constitution dictates that municipalities should involve and encourage communities and their organisations to participate in the affairs of their municipalities.

IDP and Budget are very important documents that have programs and funding for all municipal projects. Municipalities are by law expected to create platforms for members of the public to participate in drafting IDP and Budget. This is done through a process called IDP Representative Forum where members of the public are represented by their representatives with a clear mandate for their constituencies and other relevant stakeholders. This is a continuous process that culminates to the IDP and Budget roadshows, where the municipality takes the draft IDP and Budget to the community members to get their views.

In light of the above, a public notice was issued out notifying the community about the schedule of visits. Seven local municipalities were visited and approximately seven to ten thousand people attended the IDP & Budget road shows The attendance in all the venues was good even though in some areas numbers picked up after the set staring time. Some of the contributing factors were distances that are traveled by communities. In some areas the number of community members were dominated by CDWs and Ward Committees who also wanted to ask questions instead of responding with answers.

The methodology followed this time was to allow communities to voice their views on service delivery under general and not to be specific on the presented draft IDP and budget. A booklet containing a summarized version of the presentation in Xhosa made it very easy for communities to follow the presentation and this was highly appreciated. After the IDP and Budget Roadshows the municipality then amends the draft documents to reflect the needs of the public where necessary. They are then

taken to the open council meeting for adoption where members of the public are invited to attend.

2.4.5 WARD COMMITTEES ESTABLISHMENT AND FUNCTIONALITY

The District Municipality conducted a district wide Ward Committee audit to determine existence and functionality of these committees. This was done mainly to determine whether all wards do have fully functional ward committees as they are an extension of Council in ensuring participatory democracy at grassroots level.

Ward Committees are a competency of local municipalities and staff in the office of the Speaker did this exercise with the offices of Speakers of our local municipalities by visiting all 162 wards. All wards indeed do have ward committees though in some wards not all members are still active due to various reasons and that was raised with local municipalities. Ward Committees are only receiving out of the pocket expenses whenever they attend Council activities and their meetings.

There are challenges in the operations due to non-existence of infrastructure / office space to do their daily operations. Majority of ward are using public schools or dilapidated buildings for their meetings. Only Nyandeni Local Municipality which has fully functional committees with informal office space and an office administrator which is paid a stipend of R650.00 per month. Capacity was also identified as another challenge which hampers effectiveness of the operations. All these challenges were raised with both Provincial and National Department Cooperative Governance for assistance to enhance public participation.

A commission on good governance and public participation in the District Lekgotla held on the 19-20 May 2008 identified some serious challenges affecting effective operations of ward committees in our local municipalities and recommended intervention from the district municipality. Council then allocated budget in the Office of the Speaker for auditing existence of Ward Committees, availability of amenities for their operations and any kind of support that may be required to improve their operations.

WARD COMMITTEES

LM	No. of Wards	No. of active ward committees	Males	Females	Status of ward offices
King Sabatha Dalindyebo	32	302 out of the possible 320	165	137	There is one Ward Office and ward committees were last trained during their induction 2006
Mhlontlo LM	21	206 out of possible 210 Some have either resigned, diseased or relocate	107	99	There is one Ward Office and ward committees were last trained during their induction 2006.
Ntabankulu LM	15	131 out possible 150, Some have either resigned, deceased and relocated	56	75	There is one Ward Office and ward committees were last trained during their induction 2006
Port St Johns LM	16	138 out of possible 160 Some have either resigned, deceased and relocated	65	73	This ward committee audit was done between August to September 2008.
Mbizana LM	25	211 out of possible 250 Some have either resigned, diseased and relocated	112	99	This ward committee audit was done between August to September 2008.
Ingquza Hill LM	27	261 out of possible 270 Some have either resigned, deceased and relocated	131	80	This ward committee audit was done between August to September 2008.
Nyandeni LM	26	252 out of possible 260 Some have either resigned, deceased and relocated	117	135	This ward committee audit was done between August to September 2008.

•

2.4.6 COMMUNITY DEVELOPMENT WORKERS

All seven local municipalities under O.R. Tambo district municipality have Community Development Workers who are working with other community structures in ensuring that services are delivered to the people. The intention was to ensure that each and every ward has a Community Development Worker but due to limited resources and other logistics there are wards that still have no CDWs but are being serviced by other CDWs with the coordination of a local coordinator. The district municipality works closely with the seven local coordinators who represent all CDWs per municipality in terms of implementation of CDW programs. The district municipality provides support to CDWs in implementation of their programs.

There has been meetings between local coordinators and the office of the Speaker with regard to programs and activities of Community Development Workers through the provincial office. Generally there has been some challenges on how CDWs operate on their daily activities and their reporting lines still poses a challenge to municipalities

2.4.7 COMMUNICATION STRATEGY

A communication strategy to communicate with the public is in place and is in the process of being reviewed as it is the norm to renew it on an annual basis. The strategy focuses on communicating IDP priorities and municipality events and as such has contributed to fast tracking service delivery. The ISRDP communication action plan forms part of our communication strategy. Communication to the communities is done regularly through the Imbizo's and IDP road shows.

2.4.8 SUPPORT TO LOCAL MUNICIPALITIES

All Local Municipalities were encouraged to establish oversight committees and were provided with terms of reference for such committee. This was discussed and agreed upon at the level of District Speakers Forum which is the platform coordinated by the Speaker of the District Municipality for all Speakers from different local municipalities within the district.

2.4.9 LEGAL MATTERS

2.4.9.1 Functioning of Legal Unit

Municipal Legal Services is a support department within Corporate Affairs Directorate. It is responsible, inter alia, for the management of litigation matters for and against the municipality, provision of quality legal advice and opinions to both the political and administration structures of the municipality. It further drafts, peruses and settles contracts, agreements and other legal documents. Before any policy or by-law is taken to Council for adoption it must have been certified as legally and constitutionally compliant by the Municipal Legal Service. The unit is composed of the Director Legal Services and the three Legal advisors for litigation, advisory services and compliance.

2.4.9.2 Management of Legal Risks

During the year under review, Municipal Legal Services has been able to provide the above services to the municipality. It has ensured that the exposure of the municipality to adverse litigation is reduced to the minimum. It has further ensured that the municipality complies with applicable legislation by providing the necessary interpretation and advice on such legislation. One of the core responsibilities of a district municipality is to ensure that it provides support to local municipalities within its area of jurisdiction. This has been done on an ad hoc basis as and when it is requested. Such support has either been in the form of providing legal advice or assisting in disciplinary hearings. We have assisted Ntabankulu Local Municipality and Mhlontlo Local Municipality. We have also assisted neighboring municipalities like Elundini Local Municipality in disciplinary hearings.

During the financial year, there have been about seven new claims against the municipality amounting to about R1 129 45

2.4.10 AUDIT AND INTERNAL AUDIT ENVIRONMENT

For the year under review the district municipality received a qualified audit report. This is a significant improvement from the previous years since it has been receiving disclaimers of opinion.

2.4.10.1 The Audit committee functionality

For part of the 2008/2009 financial year there was no functional audit committee at the municipality. The existing committee was appointed by council in January 2009. This gap was caused by the scarcity of suitably qualified and experienced people to serve in audit committees. This has resulted in the committee not fully carrying out its responsibilities. The existing committee has been operational since January 2009 and is now fully operational. During the 2008/2009 financial year the committee reviewed and made recommendations on the following areas:

- Management should make the management action plan a living document. This could be achieved by preparing monthly formal progress reports on the implementation of the plan. In addition to this, the internal audit unit would conduct regular follow up audits on the implementation of the plan.
- When addressing audit findings management should address route causes which may be due to one or two of the following factors:
 - Staffing shortages and capacity of existing personnel in the finance department;
 - Gaps with existing policies and procedures;
 - Inadequate legal compliance monitoring mechanisms;
 - Staff training on municipal policies as well as legislation such as MFMA;
 - Lack of decisive action taken against people that flout municipal policies and systems.
 - With regards to distribution losses that were not calculated we recommended that in addition to what is planned for KSD municipality, the action plan should indicate how and when this finding will be resolved with respect to other local municipalities.
 - The subsidy of R21.60 per month should be reviewed since figures that were used when it was first calculated are likely to have changed now. The accuracy of this figure should be checked at-least annually.

- Response plans that are prepared by management should not be limited to the audit report but be extended to include all issues contained in the management letter.
- The Committee considered the reports from the internal audit without management responses. The reports had identified the inadequacy and ineffective internal controls on the following areas:
 - The billing process;
 - Usage of vehicle fuel and oil;
 - Safeguarding of assets (laptops and cameras); and
 - Processes of paying suppliers.
 - Review of the 2008/2009 annual financial statements;

2.4.10.2 Anti corruption strategy

The municipality adopted the anti fraud and anti corruption policy in October 2008. This has been achieved with the assistance from the Department of Local Government and Traditional Affairs. Awareness workshop on the policy is scheduled for the 2009/2010 financial year.

Number	Description of items	Assigned to	Action item	Timeframe
AUDIT REP	ORT QUALIFICATION ITEMS	0		
Revenue, t	rade receivables and water dist	ribution losses		
	Regular water meter readings to be done for each customer. Billing estimates to be made for customers whose water meters were not read. Water meters to be read every month	Director Water Services Director Water Services Director Water Services	Finance department is engaged in a project of database cleansing which will result in having all customers being part of the billing systems. A plumber will be assigned to follow on meter reading reports with exceptions of meters that could not be read. Monthly reports of meters that were not read will be forwarded to the office of the director water services for remedial action. Billing averages will be used where meters could not	01 February 2010
	Debtors listing should not contain "Unknown" debtors.	Chief Finance Officer	be read. Use of billing averages will be limited to 60 days. Data base cleansing will be vigorously conducted with the assistance of the Siyenza Manje who are revenue specialist through their action plan which includes eliminating all the "Unknown" debtors obtaining the databases of all the valuation rolls of the local municipality's in our region from the 2009/10 financial year. As per the work plan the team will first start with Mhlontlo and KSD by 31 March 2010. A total of 1500 debtors accounts will have been rectified by then.	30 June 2010
	Credit control policy to be implemented in full	Chief Finance Officer	The credit control policy is an ongoing process in terms of implementation. Debtors will be handed	30 June 2010

2.4.10.3 2008/09 MANAGEMENT AUDIT ACTION PLAN

Number	Description of items	Assigned to	Action item	Timeframe
	including handing over of non paying debtors to collection agents.		over to our legal departments in 2009/2010 financial year. All debtors whose accounts are over 90 days would be handed over for collection by the end of March 2010.	
	The municipality should pass a transaction on a yearly basis to write off bad debts that are deemed to be uncollectable and are older than the 90 day limit.	Chief Finance Officer	As the municipality we are fairly reluctant to permanently write off consumer debtors accounts as positionally (theoretically) the municipality will always have leverage in enforcing the recoverability of debtors. This phenomenon is not unique to our municipality but is part of a dilemma that confronts all municipalities especially those that provide essential services such as water and / or electricity. The credit control policy will be reviewed by 28 February through the assitance of the Siyenza Manje Team.	
	Reticulation losses to be calculated and calculated accurate.	Director Water Services	The process of installing zone and bulk meters is underway. It has been completed in Mthatha. These meters will be read monthly. In other towns meters will be installed by the end of March 2010. Water loss statistics will be kept. These will be used as a basis for leakages detection. Remedial action will then be taken.	30 April 2010
	The Debtors Ageing Analysis should be reconciled to the AFS	Chief Finance Officer	With the assistance of the revenue management specialist under the Siyenza Manje project, this finding will be sufficiently addressed through the reconciliation on a monthly basis.	30 June 2010
Leave pay				
	Clear supporting documentation to be maintained for leave balances of all employees	Director Human Resources	Leave will be audited manually and reconciliations with the PayDay system will be done	April 2010
	Leave taken per the payroll system should reconcile with authorised leave application forms.	Director Human Resources	There has been a problem with the PayDay system which shows incorrect leave balances and leave has been audited and captured during the year. Quarterly leave reconciliations will be done continuously.	March 2010
	Leave should not be taken by an employee before it is fully authorised and the leave application forms submitted to human resources department	All Directors	Leave not authorised by the Head of Department will be sent back to the department before capturing on the PayDay system and before filing. The requirements of the HR policy will be adhered to and all leave forms will be processed within the required time frames and submitted to the HR department before the employee is released for leave. With effect from February 2010 all directors would review attendance registers for accuracy. Copies of reviewed and signed attendance registers would be submitted to the HR department by the 15th of the following month. HR department would perform a reconciliation between leave forms and the payroll register quarterly.	Continuous
	Employees to take compulsory leave	Director Human Resources	Whilst caution is taken to ensure that officials do take leave, in some areas it is not always possible for officials to go on leave due to the high rate of vacancies. However, it should be noted that in terms of the collective agreement, officials can only be paid up to a maximum of 48 days even if their credit exceed 48 days at the time at which their services are terminated. Quarterly heads of department will be given a report of leave credits of	March 2010

			officials to encourage them to take leave.	
OTHER MA			<u> </u>	
	Draft annual performance report to be consolidated before audit is completed.	Chief Operations Officer	Legislation requires that annual report be tabled to Council within one month after receiving an audit report. Draft annual report to be finalised by end of first quarter as resolved by management	30 September 2010
	Items are not being placed	Chief	All items as prescribed in S75 of the MFMA will be	On-going
	on website as required per S75 of the MFMA	Operation Officer	posted in the websites of the DM and that of Ntinga Development Agency in the event of malfunction in the DM website as has been the case	process as and when required
	Expenditure to be paid within 30 days from receipt of invoice	Chief Finance Officer	All invoices submitted for payment will be stamped the date of receipt. Where there are queries with the invoice, processes followed to address them will be documented.	01 March 2010
	Procurement - Rotation Basis when calling quotations not applied	Chief Finance Officer	The district municipality has procured a system that ensures that all procurements by the municipality are done in a fair and equitable way as it rotates service providers automatically. It is envisaged that the system would be fully functional by 31 March 2010.	30 June 2010
	Procurement - Bid specifications committee not active	Chief Finance Officer	An ad hoc committee will be formed as and when there is a need for procurement of goods as specifications for anything to be procured are known by the requisitioning department.	On going
	Credit control policy and debt collection policy must provide for provision for indigent debtors that is consistent with its rates and tariff policies and any national policy on indigents. (MSA section 97(1)(c). Indigent consumers should not be charged interest on their arrear accounts.	Director Water Services	A policy review will be done to address this matter. Billing parameters on the system will be corrected to be in line with the policy.	30 April 2010
	Report to the accounting officer or CFO on a monthly basis in writing, all written quotations and formal written price quotations accepted by an official acting in terms of a sub delegation.	Head of procurement section	As the supply chain management unit will be fully populated and the system implemented, these reports will be produced and submitted to the accounting officer and CFO. The reports will be submitted from 28 February 2010.	30 June 2010
	National Treasury's code of conduct for supply chain management practitioners and other role players involved in supply chain management to be made available to officials and other role players in the supply chain management system of the municipality.	Chief Finance Officer	A manager has been appointed to head the SCM unit and will ensure that the code will be made available to officials and role players in the SCM system.	31 March 2010
	The accounting officer must within 30 days of the end of each financial year, submit a report on the implementation of the supply chain management	Chief Finance Officer	A report will be developed and as per the requirement of the act and submitted to the accounting officer on the implementation of the policy.	31 July 2010

Number	Description of items	Assigned to	Action item	Timeframe
	policy of the municipality and of any municipal entity under the sole or shared control of the municipality, to the council of the municipality.			
	Develop, maintain and update at-least quarterly a list of accredited prospective providers of goods and services that must be used for the procurement requirements of the municipality.	Chief Finance Officer	With the implementation of the system, these reports will be produced and kept on file for scrutiny by the auditors. Adverts will be issued for service providers to resubmit their details for the continuous update of the data base. The current application form will be reviewed and changes made to ensure that complies in full with the SCM regulations.	30 June 2010
	Submit to the provincial legislature the annual report and oversight report with seven days of their adoption by council.	Chief Operation Officer	Final Annual Report will be submitted to the Provincial Legislature, and provincial officials will be made to sign whenever documents are handed to them by hand as proof of submission	Within 7 days after the approval of annual report
	Report within four months after the end of the financial year the implementation of the water services development plan during the financial year. Section 18(1) and (2) of the Water Services Act.	Director Water Services	The 2009/2010 report will be prepared and submitted to council and DWA.	31 October 2010
	Bid adjudication committee must within five days of the end of each month submit to the accounting officer a written report containing the particulars of each final award made by such committee during that month.	Chief Finance Officer	The SCM manager will keep custody of all the reports of the committees including the BAC and will ensure that these are submitted to the accounting officer after having been signed by the chairperson.	28 February 2010
LEGAL AND	REGULATORY REQUIREMENTS			
	The Integrated Development Plan to be submitted to the Member of the Executive Committee (MEC) for Local Government within 10 days of approval as per the requirements of MSA.	Chief Operation Officer	IDP submitted to the MEC for Local Government with the prescribed time frame and when Provincial officials collect the reports by hand they will be made to sign as proof	Within 10 days after the approval of IDP
	Key performance indicators and targets are not reflected on the Integrated Development Plan	Chief Operation Officer	The reviewed IDP will have measurable indicators and targets	31 March 2010
	Notice to be made to the public regarding the adoption of the Integrated Development Plan	Chief Operations Officer	Public to be notified of the adoption of IDP within 14 days	June 2010
	The service level agreement with Ntinga Development Agency does to include annual performance objectives and indicators to measure the performance of the municipal entity. There	Director planning and economic development	The envisaged alignment has already been achieved in the 2009/2010 financial year.	Already addressed.

2.5.3.6 MAJOR CHALLENGES AND REMEDIAL ACTIONS

Major Challenges	Remedial Actions
Delays in the population of the organogram	Finalisation of the placement process and
	advertisement of posts
Little or minimum budget for the HR department	Accessing other sources of funding
Non-compliance with the HR legislation or policy guidelines	Workshop of managers and section heads on HR policy
Job Evaluation Maintenance phase not yet started by the Local	Workshop for Local municipalities on mainstreaming
Municipalities - possibility of inability to implement the wages curves	
High number of drop outs in the learnership programmes	Working hand in glove with the local municipalities for
	continuous mentoring and motivation
Poor retention of staff at all levels	Finalisation of the retention strategy
Absence of the Employee Assistance Programmes and structured	Appointment of the EAP practitioner
Employee Wellness programmes	
Delays in finalisation of the Disciplinary cases	Training a pool of officials to deal with disciplinary
	processes.

2.5.4 IMPLEMENTATION OF PERFORMANCE MANAGEMENT SYSTEM

O.R. Tambo District Municipality has an approved Performance Management System Framework and Policy. During the 2008/09 financial year PMS was fully implemented for all senior managers and those employed on a fixed term contract.

2.6 BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

2.6.1 Water Services

The OR Tambo District Municipality is the Water Services Authority and Water Services Provider responsible for planning, implementation, and operation and maintenance of water and sanitation services within the 7 Local Municipalities. In terms of the law the District Municipality is therefore responsible for the development and the implementation of its water services by-laws, District Wide Water Master plans, Water Conservation & Water Demand Management and Water Services Master Plan.

2.6.1.1 Water services delivery strategy and main role players

O.R. Tambo District Municipality is a grant dependant municipality and most of its water capital projects are funded through the Municipal Infrastructural Grant (MIG) which the Department of Cooperative Government and Traditional Affairs (COGTA), the Department Local Government and Traditional Affairs (DLGTA), National Treasury and Provincial Treasury have micro control. The bulk water supply is funded through the Bulk Infrastructure Grant Funding funded by the Department of Water Affairs (DWA). In terms of the law DWA is the regulator. The Operation and maintenance is funded through the equitable share from the Division of Revenue (DORA) and through own funding

2.6.1.2 Levels and standards in water services

Backlog eradication is not the only substantial challenge facing the OR Tambo District Municipality. Much of the existing water and sanitation infrastructure is not adequately maintained and, in many cases, is not functioning. Ongoing refurbishment and maintenance is therefore a priority for sustainable water services delivery. The backlog figures should therefore be considered in the light of this situation as they represent the population that is unserved by water or sanitation schemes. Those deemed to be "served" are not necessarily benefiting from a fully functional and operational water service, though they do live in the area covered by some sort of formal scheme. In estimating these water backlogs, the following assumptions have been applied:

- 1. People with piped and borehole water within 200m are deemed to be served
- 2. People sourcing water from springs, rainwater tanks, streams, rivers, dams or water vendors are deemed to be unserved
- 3. People sourcing water from communal taps, yard taps or any other more basic source are deemed to be not served to a higher level.

Population served or unserved in 2007 has been escalated from the 2004 figures in line with the projected overall population change from 2004 to 2007.

	TOTAL			WATER	
	POPULATION	RDP STANDARD		HIGHER LEVEL	
		Served	not served	served	Not served
KSD	444 830	74%	26%	40%	60%
Mbizana	279 739	55%	45%	8%	92%
Mhlontlo	237 138	67%	33%	23%	77%
Ngquza Hill	279 795	74%	26%	16%	84%
Ntabankulu	141 358	53%	47%	17%	83%
Nyandeni	314 273	57%	43%	15%	85%
Port St Johns	165 084	54%	46%	21%	79%
TOTAL	1 862 218	64%	36%	22%	78%

RDP Water Services Backlogs in OR Tambo DM

Source: DWAF Reference Framework (2004) escalated to 2007

	Indicator name	Total number of household/custo mer expected to benefit	Estimated backlogs (actual numbers)	Target set for the FY under review (actual numbers)	Number of HH/customer reached during the FY	Percentage of achievement during the year
1	Percentage of households with access to potable water	355 479	70 781	23 000	20 597	90%
2	Percentage of indigent households with access to free basic potable water	266 612	64 736	10 000	5 875	58%
4	Percentage of clinics with access to potable water					
5	Percentage of schools with access to potable water					
6	Percentage of households using buckets	0	0	0	0	0

2.6.1.4 Major Challenges in water services and remedial actions

Backlog eradication is not the only substantial challenge facing the OR Tambo District Municipality. Much of the existing water and sanitation infrastructure is not adequately maintained and, in many cases, is not functioning. Ongoing refurbishment and maintenance is therefore a priority for sustainable water services delivery. The backlog figures should therefore be considered in the light of this situation as they represent the population that is unserved by water or sanitation schemes. Those deemed to be "served" are not necessarily benefiting from a fully functional and operational water service, though they do live in the area covered by some sort of formal scheme.

The focus of the district as an authority of this function has been at extending services to those with no access to the service which largely are the poor. This has meant that little resources were available for refurbishing, maintaining and increasing the capacity of existing infrastructure especially in urban areas and other historical nodes of development. This has led to a situation where the state and capacity of existing

infrastructure has become a constraint to growth and development. The DM now faces a challenge of having to balance extending services to unserved areas and refurbishing, maintaining and increasing the capacity of existing infrastructure to support economic growth and development.

2.6.2 Access to Basic Sanitation

Approximately 62% of the population does not have an adequate level of sanitation (at least a VIP or equivalent). Of the 62% mentioned above, 172,582 households (approximately 914,000 people) are located in the rural areas of the district.

		SANITATION				
		RDP STANDARD		HIGHER LEV	'EL	
Population		Served	Not served	Served	Not served	
KSD	444 830	56%	44%	30%	70%	
Mbizana	279 739	23%	77%	9%	91%	
Mhlontlo	237 138	21%	79%	9%	91%	
Ingquza Hill	279 795	25%	75%	11%	89%	
Ntabankulu	141 358	23%	77%	10%	90%	
Nyandeni	314 273	42%	58%	14%	86%	
Port St Johns	165 084	55%	45%	14%	86%	
TOTAL	1 862 218	37%	63%	16%	84%	

- Only 4 of the 10 urban areas within the seven municipalities are either fully or partially served by waterborne sanitation systems.
- The rural areas generally depend on informal pit latrine toilets where at least
 91.4% of the population has no formal sanitation services
- People with flush toilets and septic tanks are deemed to be served to a higher level
- People using pit latrines, buckets, any other or no infrastructure are deemed to be not served to a higher level
- R 1 billion is required to eradicate the water supply backlogs and R700m to eradicate the sanitation backlog.
- This will mean an annual expenditure of R500m to achieve the 2008 water supply target and an additional R175m per year to achieve the 2010 sanitation

Population served or unserved in 2007 has been escalated from the 2004 figures in line with the projected overall population change from 2004 to 2007.

2.6.2.1 Sanitation services delivery strategy and main role players

The OR Tambo District Municipality is the Water Services Authority and Water Services Provider responsible for planning, implementation, and operation and maintenance of water and sanitation services within the 7 Local Municipalities. In terms of the law the District Municipality is therefore responsible for the development and the implementation of its water services by-laws, sanitation strategy, and the District wide Sanitation Master Plans. O.R. Tambo District Municipality is a grant dependant municipality and most of its sanitation capital projects are funded through the Municipal Infrastructural Grant (MIG) which the Department of Cooperative Government and Traditional Affairs (COGTA), the Department Local Government and Traditional Affairs (DLGTA), National Treasury and Provincial Treasury have micro control.

In terms of the law Department of Water Affairs (DWA) is the regulator. The Operation and maintenance is funded through the equitable share from the Division of Revenue (DORA) and own funding

2.6.2.2 Levels and standards in sanitation services

In estimating the sanitation backlogs, the following assumptions have been applied:

- 1. People with flushed toilets with waterborne, septic tanks and digesters are regarded as served to higher level
- 2. People with Ventilated Improved Pits (VIP) are regarded as served to lower level or basic level (RDP standard).
- People with no toilet infrastructure or a toilet with no ventilated improved pit (pit latrines) or bucket system are regarded as not served.

Population served or unserved in 2007 has been escalated from the 2004 figures in line with the projected overall population change from 2004 to 2007.

	Indicator name	Total number of household/custo mer expected to benefit	Estimated backlogs (actual numbers)	Target set for the f. year under review	Number of HH/customer reached	Percentage of achievement during the year
1	Percentage of households with access to sanitation services	355 479	160 360	44 000	43 208	98%
2	Percentage of indigent households with access to free basic sanitation services	204 533	81 657	25 000	23 897	96%
4	Percentage of clinics with access to sanitation services					
5	Percentage of schools with access to sanitation services					

Major Challenges in Sanitation services and remedial actions

Approximately 62% of the population does not have an adequate level of sanitation (at least a VIP or equivalent). Of the 62%, 172,582 households (approximately 914,000 people) are located in the rural areas of the district. Only 4 of the 10 urban areas within the seven municipalities are either fully or partially served by waterborne sanitation systems. The rural areas generally depend on informal pit latrine toilets where at least 91.4% of the population has no formal sanitation services. Refurbishment and upgrading of existing sewer plant eminent together with the replacement of existing old sewer lines. The implementation of waterborne sewer system in other towns is underway in four towns but more funding is required to upgrade waterborne sewer system in other five towns in the district.

2.6.3 Electricity Services

2.6.3.1 Electricity services delivery strategy and main role players

Electricity is not the competency of O.R. Tambo District Municipality in terms of powers and functions. Only KSD and Mbizana Local Municipality are licensed to supply electricity in their towns. The surrounding rural areas of KSD and Mbizana and other

five local municipalities are supplied by Eskom. O.R. Tambo District Municipality is only playing a support and the coordinating role in terms of electricity services.

Regarding free basic energy, consultations with the stakeholders are underway in municipalities towards the development of policies thereof. Various sources of electricity have been identified to be the grid, solar energy and gel. So far the public participation processes conducted in this regard indicated that communities are not interested in the alternative sources of energy, they are only interested in the Eskom grid. The electricity function lies with Eskom, however there are two local municipalities, King Sabata Dalindyebo and Mbizana, who are responsible for the supply of electricity in their towns. Free basic energy policies are being developed by Local Municipalities as indigent policies are being developed.

2.6.3.2 Level and Standards in Electricity services

- 1. People who are connected to Eskom grid are regarded as fully served.
- People who are connected to solar energy and gel are regarded as being served to basic level.
- 3. People who use candles and paraffin or any other source of energy are regarded as being unserved.

2.6.3.3 Major Challenges in electricity services and remedial actions

Only 9% of the district's households receive electricity from their local authorities, for example 21% in KSD. More than 60% of the population use candles, and more so in Ntabankulu (90%), Ingquza (82%), Mbizana (79%), Mhlontlo (74%), and Port St Johns (62%). Some 27% of people in the district use paraffin. Current electricity load far exceed the supply and Eskom needs to be engaged in order to strengthening of substations. The rolling out of the REDS programme is eminent in order for the local municipality to benefit in terms of revenue collection.

2.6.4 Road Maintenance

2.6.4.1 Road maintenance services delivery strategy and main role players

The road function is a shared function among different stakeholders. South African Nation Road Agent (SANRAL) is responsible for the national road, N2 while the provincial road is the competency of Department of Roads and Transport. The District Municipality share the function of access roads and roads leading to economic development nodes and social amenities with the local municipalities. In addition to this the local municipalities are also responsible for operational and maintenance of internal roads.

Previously 23% of CMIP was allocated to roads construction, but after the DM becomes s water services authority (WSA), only 10% of MIG was allocated to this function. All MIG funds for roads are now directed to the local municipalities. Roads capital projects and operation & maintenance are funded through the equitable share. Road maintenance includes re-gravelling, storm water drainage, bridges, pothole patching, paving, road signs, and road markings. O.R. Tambo DM is now completing the pavement management system for the maintenance of roads.

2.6.4.2 level and standards in road maintenance services

- 1. Households without access to gravel or graded roads are regarded as unserved.
- 2. Households with access to gravel or graded roads are regarded as served to basic level.
- 3. Households with access to paved roads are regarded as served to higher level

.0.4	5.4.5 Annual performance as per key performance indicator in road maintenance services					
	Indicator name	Total number of household/custo mer expected to benefit	Estimated backlogs (actual numbers)	Target set for the f. year under review (Actual numbers)	Number of HH/customer reached during the FY	Percentage of achievement during the year
1	Percentage of households without access to gravel or graded roads					
2	Percentage of road infrastructure	1425.82	1283.24	120	114.46	95%

2.6.4.3 Annual performance as per key performance indicator in road maintenance services

	Indicator name	Total number of household/custo mer expected to benefit	Estimated backlogs (actual numbers)	Target set for the f. year under review (Actual numbers)	Number of HH/customer reached during the FY	Percentage of achievement during the year
	requiring upgrade					
4	Percentage of planned new road infrastructure actually constructed	2190.46				
5	Percentage of capital budget reserved for road upgrading and maintenance effectively used.	49 100 000				

2.6.4.4 Major challenges in road maintenance services and remedial actions

A total of 1425.82 km length of roads was inspected last year. These roads are access roads and roads leading to economic nodes and social amenities. 90% of these roads are in a poor condition and they require urgent maintenance and upgrades. The biggest challenge is the funding and the fact that only re-gravelling is being done with few paved roads. The capital cost for the re-gravelling is low but it has short design life. The first rain after the maintenance normally washes away the recently done road. The O.R. Tambo DM has completed the investigation on the alternative road surfacing and it is recommended that it should be considered during the maintenance of roads.

The extent and the state of the road network in the district is a constraint to growth and development. Major investment is required in new roads, upgrades of certain existing roads and in maintenance and refurbishment. The quality of roads maintenance and refurbishment is an issue of particular concern. Given the scale of the challenges which are mainly attributed to year of poor planning, neglect, lack of maintenance and poor budgeting there is a need to focus and target road networks that will unlock both the economic potential of the district whilst at the same time improving the mobility of people. This will also be achieved through partnerships with other state agencies and government department

Indigent policy Implementation

2.6.5 Preparation and preparation process of indigent policy

The Indigent policy for O.R Tambo district Municipality is in place and is now in a process of developing a database for registering indigent household's district wide and as such the provision of free basic services will also be in line with the approved policy.

2.6.5.1 Implementation of the policy

Since the indigent register is not yet complete, we are providing free basic water to all communities that have access. The situations in ten towns differ from one town to another, where there are meters communities are getting 6kl per month for free and in towns that do not have meters communities are paying for the services not consumption. In the rural areas, communities are now getting free water. Currently, of the 175 195 household are receiving potable water and 23 799 are billed for water consumption, meaning that 151 396 households are receiving free water.

2.6.6 ENVIRONMENTAL MANAGEMENT & WASTE MANAGEMENT

The department of Planning and Development also co-odinates sound environmental practices throughout the district. As mandated by the National Environmental Management Act, the section seeks to achieve the principles of NEMA which state that decisions made by municipalities must comply with NEMA principles as outlined in Chapter 1 section 2 of NEMA. The core principles include sec 2 (2) That Environmental management must put people and their needs at the fore front of its concern such that development is socially, environmentally and economically sustainable

The municipal systems Act also says that there must be balance between service delivery and sustainable principles. Section 4 (2) d states that services should be provided in an environmental sustainable manner. Provision of services should minimize the risk to human health and safety, maximize benefit to human and environment and to a reasonable extent comply with the legislation and environmental principles and should not compromise the rights of present and future generations.

2.6.6.1 Challenges facing Waste Management, Environmental Management and Coordination.

- Waste Management has traditionally not been seen or perceived as a priority concern and hence it has not enjoyed much support from the top structures of the municipalities. This root cause has resulted into a number of ramifications which manifest in a complete system failure or lack thereof.
- The current regulatory framework, financing mechanisms, planning tools, and resources to support waste management has been very weak and this has led to a stagnation of the system and collapse of any previous attempt to develop waste management sector.
- Silence in the waste management sector within OR Tambo DM, due to very limited or no involvement of the public, private, political, traditional, industry interest and Lobby groups in this region as whole.

As a remedial action has been the establishment of the environmental management forum that is serving as a mobilizing body on waste management programs. In addition an Integrated Waste Management plan that with help in decision making in the district is being developed.

2.6.7 HUMAN SETTLEMENT

The provision of houses is the mandate of the provincial department of housing and our municipality does it on agency bases. Capital budget for this program thus resides with province and is only transferred on value created on the ground. Out of the 780 units and 3000 toilets planned this financial year the department managed to deliver 804 and 3303 toilets. The DM has also implemented emergency housing aimed at reconstructing houses that are destroyed by disasters as well as providing adequate shelter for special cases that include elderly, child headed households

2.6.7.1 Level and Standards in Housing

The housing units are 40 square meter and are partitioned inside with two bedrooms. The v.i.p. toilets are fully lined and the top structure is made up of concrete panels. We also provide gutters and a 200 litre rain water tank. 2.6.7.2 Major challenges in housing and remedial actions

- Budget shortfall: Most of the projects are slow moving due to budget shortfall caused amongst other reasons price increases and material suppliers can no longer deliver material at current prices, therefore additional funding applications were submitted but the actual transfer of funds to the DM took a while.
- VAT Recovery: Housing is zero rated for VAT. This means that vat funds paid to suppliers can be claimed back from SARS and be used in the projects. A new legislation from Treasury say all vat funds claimed from SARS lose their conditional nature and thus they became income of the DM. This meant that most of the vat fund that we anticipated receiving from SARS to finish off the projects, will not be coming back to the projects. This leaves a huge gap in the overall delivery targets. Applications have been forwarded to province for additional funding in order to close this financial gap.
- No MTEF Budgeting: In all other programs, like Municipal Infrastructure Grant, the municipality is furnished with MTEF budget that stretches over 3 years but it is not the case with housing. It is this difficult to make forward planning and also to inform communities what we shall be doing for them in future. This issue has been brought to the attention of the Provincial department of housing.
- Inaccessible Building Sites: In some cases building sites are not accessible with a vehicle and sometimes scattered all over the place. This makes it difficult to monitor the site and transport building material. For instance in some cases you have to cross a river to access building sites in the same village. Housing units, which may take three (3) months and more before actual construction.

Registration with NHBRC: The Rural Housing Policy and the People's Housing Process Policy (PHP) do not require that projects should be enrolled with NHBRC. The new Rural Housing Policy and the PHP requires that all projects and developers should be registered with NHBRC. This is cause a huge delay and has extra cost because most of the time there are more complex design specifications that we need to adhere to. The DM is still in the process of registering with NHBRC. Furthermore this issue has been brought to the attention of the provincial department of housing and the response was that they are still putting together a rural housing policy.

	Indicator name	Total number of household/customer expected to benefit	Estimated backlogs (Actual numbers)	Target set for the f. year under review	Number of HH/customer reached	Percentage of achievement during the year
1	Percentage of households living in informal settlements	2%	6301		Nil	0%
2	Percentage of informal settlements that have been provided with basic services	None	6301		NII	0%
3	Percentage of households in formal housing that conforms to the minimum building standards for residential houses	60%	213 397	780	804	103,08%

2.7 MUNICIPAL FINANCIAL VIABILITY AND MANAGEMENT

For the year under review the district municipality received a qualified audit report. This is a significant improvement from the previous years since it has been receiving disclaimers of opinion.

2.7.1 Audited Financial Statements

O.R. TAMBO DISTRICT MUNICIPALITY ANNUAL FINANCIAL STATEMENTS for the year ended 30 June 2009

Approval of annual financial statements

I am responsible for the preparation of these annual financial statements, which are set out below in terms of Section 126(1) of the Municipal Finance Management Act and which I have signed on behalf of the Municipality.

I certify that the salaries, allowances and benefits of Councillors, loans made to Councillors, if any, and payments made to Councillors for loss of office, if any, as disclosed in the Statement of Financial Position of these annual financial statements are within the upper limits of the framework envisaged in Section 219 of the Constitution, read with the Remuneration of Public Officer Bearers Act and the Minister of Provincial and Local Government's determination in accordance with this Act.

Municipal Manager: DATE: 30 September 2009

7.5 Details of valuation

The effective date of the revaluations was 30 June 2009. Revaluations were performed by independent professional valuers, Mr Charl Kruger (National Diploma in Property Valuers), Gesina de Sousa independent candidate valuer, Letlaka Ndamase an Valuers), mase an independent professional associated valuer (Valuation Network Property Valuers and Consultants). Valuation Network Property Valuers and Consultants is not connected to the entity.

Land and buildings are re-valued independently every 5 years. The valuation was performed using the market value method and the following assumptions were used: The income capitalisation approach used to value income producing properties and it is based on the assumption that the purchaser will pay no more for a property with a certain income flow with similar risks and benefits than for an investment elsewhere. The net income stream is converted into a present value through the capitalisation process. The capitalisatin rate of return which will be required by the owner form an investment if that investment were fully let to tenants paying maket related rentals with market escalation rates.

7.4 Deemed cost used to measure items of Property, Plant and Equipment

In accordance with the allowed alternative measurement criteria as allowed by Directive 7, the Group and the Municipality used the Depreciated Replacement Cost method to determine the fair value of Infrastructure a first time recognition in the Group and the Municipality's accounting records, this in accordance with the GRAP Implementation Programme. In accordance with Directive 7 the aggregate of the items of Property, Plant and Equipment valued using deemed cost are disclosed below:

		Group			Municipality				
Infrastructure recorded at Deemed Cost as at 30 June 2009	Deemed Cost	Accumulated Depreciation	Carrying Value		Deemed Cost	Accumulated Depreciation	Carrying Value

8.5 Operations and Principal Activities

The Adam Kok farms are utilised both for livestock production and for the production of fruit. At 30 June 2009, the farm held 415 Cows, 19 Bulls, 223 Calves being raised to be Steers and Heifers being respectively 295 Heifers and 184 Steers. The livestock is valued at fair market value (valued by Sworn Appraiser) less point of sale costs. The Ntinga O.R. Tambo Development Agency (the agency) through its decentrailised operations holds livestock for experimental and educational purposes with the intent of assisting the respective communities with sustainable livestock farming. The Ikhwezi Farm is used for milk production. At 30 June 2009, the agency operations held 74 sheep, 51 goats and 251 cattle. A mass plantation of peach and apple fruit trees are held for the production of fruit, covering a total area of 18 hectares.

8.6 Biological assets pledged as security

No biological assets were pledged as security.

Assets carried at cost and accumulated depreciation and

8.7 impairment losses

Biological assets are carried at fair value.

Methods and assumptions used in

8.8 determining the fair value

Cattle are valued at the prevailing market rates, as determined by breed, genetic merit and age less point of sale costs. Fruit trees are valued by way of on arms lenght transaction that would have been apllied / prevailing in replacing the existing fruit trees with fruit trees

Grant in aid income	62,014,438		62,014,438	
and Subsidies	92,925,704	32,252,654	92,925,704	32,252,654
MIG Grant Other Government Grants	436,169,320	467,109,595	436,169,320	467,109,59 5

18.1 Equitable Share

In terms of the Constitution, amongst other things this grant is used to subsidise the provision of basic services to the district's communities. In this regard, the district's service beneficiaries (water supply customers) receive an allocation of 6 kilolitres of free water a day. This translates to a subsidy of R21.60 per month (2008: R21,60), which is funded from this grant. Furthermore as part of service delivery, the District Municipality carts water to the urban and rural areas throughout the district.

18.2 MIG Grant

Balance unspent at beginning of year	34,604,039	98,017,142	34,604,039	98,017,142
Current year receipts	430,178,000	403,696,492	430,178,000	403,696,49 2
Conditions met - transferred to revenue Conditions still to be met -	(436,169,320)	(467,109,595)	(436,169,32 0)	(467,109,5 95)
remain liabilities	28,612,719	34,604,039	28,612,719	34,604,039

In terms of MFMA Circular No. 48, all conditional allocations (excluding interest earned thereon) that at year-end are not utilised must revert back to the National Revenue Fund unless the relevant receiving officer can prove to the satisfaction of the National Treasury that the unspent allocation is committed to identifiable projects. The municipality reports that at year end, all unspent conditional grants were committed to identifiable projects. Refer to note 35.

Property, plant and equipment

In the current year, land and buildings and plant and equipment were revalued to determine the fair value and the recoverable value, this in compliance with the statement on Property, Plant and Equipment. Some assets subject to this revaluation, returned assets that had the fair values substantially less than the carrying value, thus indicating that such assets had been impaired. Accordingly, such impairment was recognised immediately to bring the previously reported carrying values to the fair value / recoverable amount.

PROFIT / LOSS ON FAIR 29 VALUE ADJUSTMENT

Biological assets carried at fair value

EVENTS AFTER THE

39 REPORTING DATE

No material fact or circumstance has occurred between the accounting date and the date of this report.

KEY	SOURCES	OF
ESTIM/	ATION	
UNCER	RTAINTY	AND
JUDGE	MENTS	

The following areas involve a significant degree of estimation uncertainty:

- Useful lives and residual values of property, plant, and equipment.
- Recoverable amounts of property, plant and equipment
- Provision for doubtful debts
- Impairment of assets
- The following areas involved judgements, apart from those involving estimations disclosed above, that management
 has made in the process of applying the municipality's accounting policies and that have the most significant effect on
 the amounts recognised in the financial statements:
- Impairment of assets
- Provisions

41 RISK MANAGEMENT

Maximum credit risk

41.1 exposure

40

Credit risk consists mainly of cash deposits, cash equivalents and consumer debtors. The municipality only deposits cash with major banks with high quality credit standing and limits exposure to any one counter-party.

OR TAMBO DISTRICT MUNICIPALITY AND ITS ENTITY NOTES TO THE ANNUAL FINANCIAL STATEMENTS

for the year ended 30 June 2009

Consumer debtors comprise a widespread customer base. Management evaluates credit risk relating to consumer debtors on an ongoing basis. While there are well documented challenges in this regard, credit risk management takes of the form of the monitoring of credit limits.

Financial assets exposed to credit risk at year end were as follows:

First National Bank - current and investment accounts Standard Bank Limited - Investment accounts Meeg Bank - Investment accounts Nedbank - Investment accounts Consumer debtors - Trade and other receivables

These balances represent the maximum exposure to credit risk.

41.2 Interest rate risk

As the municipality has no significant interest-bearing assets, the municipality's income and operating cash flows are substantially independent of changes in market interest rates.

At year end, financial instruments exposed to interest rate risk were as follows:

- Call deposits

OR TAMBO DISTRICT MUNICIPALITY AND ITS ENTITY NOTES TO THE ANNUAL FINANCIAL STATEMENTS

for the year ended 30 June 2009

DISCLOSURE OF 45 MATERIAL LOSSES

As a water supplying authority, the municipality will inevitably incur customary water distribution losses, which occur in any water distributing municipality. These losses are due to burst water pipes, faulty water reticulation infrastructure and water evaporation. Further to these standard water losses, the municipality also suffered a further loss as a result of supplied water that was however not billed. Lastly as part of the developmental objectives of the municipality in line with prescriptions by National Government, the municipality also provided free basic water to urban based residents and free water to rural based communities in the form of public tapwater services and water cartage services.

Total value of material losses in respect of water supply

27,842,313

CHAPTER 3 ACHIEVEMENTS PER ANNUAL SERVICE DELIVERY TARGETS

3.1 BUDGET AND TREASURY OFFICE

Area of focus: SOUND FI	INANCIAL MANAGEMENT AND REPO	ORTING SYSTEMS		
OBJECTIVES	Key Performance Indicator	ANNUAL TARGETS (2008/2009)	ACTUAL PERFORMANCE	REASON FOR VARIATION
Ensure Appropriate Tinancial reporting per egislation	Reports submitted to N.T. on time.	All DORA reports submitted by the 10 th of every month.	All DORA reports for the year have been submitted timely to the National Treasury and Provincial Treasury departments and other relevant departments	None
	Submission of Annual Financial Statements on time.	Submission of AFS by 30 August 2009.	The Annual financial Statements for the year ended 30 June 2009 were also submitted to the Office of the Auditor General by the end of 30 August 2009. The consolidated annual financial statements were also submitted by the end of 30 September 2009.	None
	Timely submission of reports per section 71 of the MFMA.	Submission of section 71 reports to the accounting officer by not later than 10 working days.	Section 71 reports have been submitted to the accounting officer's office.	None
	Timely submission of reports per section 52 of the MFMA	Submit section 52 reports to Executive Mayor for tabling in the council meeting 30 days after the end of each quarter.	All section 52 reports have been submitted for tabling by the Executive Mayor.	

BUDGET AND TREASURY				
	CIAL VIABILITY AND MANAGEMEN IANCIAL MANAGEMENT AND REPO			
OBJECTIVES	Key Performance Indicator	ANNUAL TARGETS (2008/2009)	ACTUAL PERFORMANCE	REASON FOR VARIATION
Ensure development and implementation of financial management policies	Financial management system in place.	Fundraising for the acquisition of alternative financial management system.	Not achieved - No funds raised for alternative financial management system	Service provider for raising funds only appointed after year end.
	Unqualified audit reports.	Receive unqualified audit report.	Issues raised in the 07/08 audit addressed substantially. As a result a qualified audit opinion has been received for 08/09 financial year.	Incomplete billing and leave management reports.
	Complete reconciliation of the General ledger	Monthly reconciliation of the general ledger and clearing of suspense accounts.	All suspense accounts have been cleared and general ledger reconciled.	None
	Approved and implemented fraud prevention policy.	Implementation of the fraud prevention policy.		
Development of appropriate procedures and controls	Continuous review and implementation of procedures and controls.	Development of the customer service charter by 30 November 2008.	Customer Service charter developed	
Management, security and control of council assets	Existence and completeness of fixed assets register.	Assets register updated monthly.	Asset register updated monthly with the new acquisitions and assets bar-coded.	None
	Approved assets mgt and fleet mgt policies.	Periodic reviewed and approved assets mgt and fleet mgt policies.	Asset mgt and fleet mgt Policies have been reviewed but not yet approved.	These were not reviewed to the full extent of compliance with Generally Recognized Accounting Practice and the relevant directives issued by Accounting Standard Board.
	Reconciled assets register.	Compile infrastructure fixed assets register.	Infrastructure asset register was compiled for the year ended 30	None

BUDGET AND TREASURY				
District Priority 4: FINANC	CIAL VIABILITY AND MANAGEMEN			
	ANCIAL MANAGEMENT AND REPO			
OBJECTIVES	Key Performance Indicator	ANNUAL TARGETS (2008/2009)	ACTUAL PERFORMANCE	REASON FOR VARIATION
			June 2009.	
Ensure municipal support and capacity building	Municipal support programme fully implemented.	Local Municipalities fully supported.	Municipalities have been supported both financially and administratively but in full.	Municipal support personnel have been utilized internally due to shortages in staff.
Improve service efficiency and reduce downtime on system.	Reduced downtime. Improved system usage. Improved access controls.	Acquisition of sufficient uninterrupted power suppliers. All system users trained on usage of the system. Passwords continuously changed during the year.		
Area of focus: REVENUE EN	- VIABILITY AND MANAGEMENT		Conference facility not yet	The lend is not ust identified
Ensure appropriate revenue and expenditure planning	Acquisition of assets for revenue enhancement. Implement Credit Control policy	Mega conference facility Debt collection of outstanding levies.	Conference facility not yet constructed. Service provider was appointed and has assisted in collections	The land is not yet identified. None
	Proper budgeting and implementation.	Submit to departmental heads budget pockets.	Monthly budget statements and expenditure patterns submitted to departmental heads.	None
	Tabling of the budget time table by 30 August 2008.	Adhere to the adopted dates per the budget timetable.	Budget process was adhered to and dates adhered to.	None
Ensure appropriate billing, collection and customer relations.	Credit control policy implemented. Customers billed accurately and timeously.	Collect 86% of 46.7million (of collectable revenue) through implementation of credit control policy by 30 June 2009	97,26 %of R46.7 million collectable revenue was collected by 30 June 2009. The actual collection in monetary terms was R45,42 million.	Credit control policy not fully implemented.

BUDGET AND TREASUR

	Customer queries attended to timeously.Regular meetings with consumers.			

OVERVIEW OF TARGETS FOR THE NEXT YEAR

DISTRICT PRIORITY		
AREA OF FOCUS: Sound financial mana	gement and reporting systems	
OBJECTIVE	KPI	ANNUAL TARGETS (2009/2010)
Management, security and control of council assets	Reconciled assets register.	Compile infrastructure fixed assets register in line with directive 7. Maintain the non infrastructure fixed asset register and ensure that is fully GRAP 17 compliant.
Ensure development and implementation of financial management policies	Unqualified audit reports.	Receive unqualified audit report
Ensure appropriate billing, collection and customer relations	Credit control policy implemented. Customers billed accurately and timeously.	Increased revenue collection by ?%
	Customer queries attended to timeously. Regular meetings with consumers.	Complete data base of customers
		Improved customer relations

3.2 OFFICE OF THE MUNICIPAL MANAGER

OBJECTIVES	PERFOMANCE INDICATORS	ANNUAL TARGET	ACTUAL PERFORMANCE	REASONS FOR VARIATION	CORRECTIVE MEASURES	
	GOOD GOVERNANCE AND P		I			
1.2 INTERGOVERNMEN	ITAL RELATIONS (IGR), AND	Organs of state power				
1.2.1 Ensure functional IGR environment, oversight and coordination	All IGR structures in place as per IGR ACT, 90% complience with the IGR Act	Technical IGR structures in place and functional CIP stakeholders meetings each quarter	Municipal manager's forum in place and functional CIP meetings held	No variation	N/A	
1.3 IMPLEMENTATION	OF BATHO PELE & ANTI COF	RUPTION				
1.3.1 Ensure application of Batho Pele Principles	Functional District Batho Pele Forums, Customer satisfaction index	Customer service charter developed	Not achieved	Insufficient capacity for the department	Recruit qualified staff and fill vacant positions in the unit to undertake the function	
1.3.2 Ensure and maintain fraud and corruption free environment	Clean governance achieved.	Annual risk assessment conducted.	The risk assessment was done. Approach followed was to review and update the one performed in the previous financial year.	N/A	N/A	
		Quarterly reports on risk management	Not fully achieved	There are departments that do not report on the management of risks when preparing quarterly performance reports.	Reports on management of risks are part of the standing agenda items in audit committee meetings.	
		Roll-out and training on fraud prevention and detection strategy.	The policy has been adopted by council. It has been circulated to senior management.	The policy is still to be circulated to all staff.	The policy will be workshopped to all councillors and circulated to all staff members.	
1.4 FUNCTIONALITY C	1.4 FUNCTIONALITY OF Audit committees and Internal Audit Units					
1.4.1 Ensure compliance with relevant legislation	Percentage reduction in audit findings that relate to compliance matters.	All management issues raised on audit report attended to	Achieved	N/A	N/A	

OBJECTIVES	PERFOMANCE INDICATORS	ANNUAL TARGET	ACTUAL PERFORMANCE	REASONS FOR VARIATION	CORRECTIVE MEASURES
1.4.2 Ensure Improved, effective and efficient district wide audit environment	Fully functional and effective internal audit units and audit committees in place in all LMs, DM and the development agency.	All local municipalities to have audit committees - link to municipal support program	The district municipality and the three local municipalities that are part of the shared function have functional audit committees. The committee of the district was appointed in January 2009.	The district municipality experienced difficulties in attracting suitably qualified people to serve in the audit committee hence the committee became functional with effect from January 2009.	
		Shared internal audit function implemented.	Three municipalities, that is, Mhlontlo, Port St Johns and Ingquza Hill are supported by the district municipality's internal audit function. They have their own audit committees.	None	N/A
	ANSFORMATION AND DEVEL	OPMENT			
	d Development planning				
2.1.1Ensure IDP & CBP development &	Credible IDP and Sector Plans in place,	Council approved IDP 08/09 Review,	IDP 08/09 Review was approved	No variation	N/A
monitoring capacity	Functional institutional arrangements.	IDP& DGDS Rep Forum and engagement	IDP & DGDS Representative forum meetings held	No variation	N/A
		Support to LMs and CBP	Support of LMs occurred on an adhoc basis, not coordinated as planned	No institutional capacity to coordinate support LMs	Recruit competent staff in next financial year
		Cabinet lekgotla reports submitted -	Report submitted	No variation	N/A
2.2 Statutory sound a	nd accountable public instit	ution			
2.2.3Effective performance management, monitoring & evaluation	Signed performance contracts &SDBIP full complience legislation and national guidelines	Approval of the reviewed PMS policy,	PMS policy not reviewed	Only managed to appoint a service provider to develop PMS guidelines that would inform the policy review	To Finalise the guidelines and review policy
		cascading PMS to all staff members.	PMS not cascaded to lower levels	Pending approval of guidelines and policy	To be implemented in the next financial year

OBJECTIVES	PERFOMANCE INDICATORS	ANNUAL TARGET	ACTUAL PERFORMANCE	REASONS FOR VARIATION	CORRECTIVE MEASURES
2,4 Sound labor relation	ions, HR management & dev	elopment			
2.4.1Ensure sound labour & bargaining environment, employee 		Not achieved	Delay in the recruitment processes in the whole organisation	N/A	
3. FINANCIAL VIABILIT	Y AND MANAGEMENT				
3.1 SOUND FINANCIAL	. MANAGEMENT AND REPORT	ING SYSTEMS			
3.1.5 Ensure municipal support & capacity building	1. Municipal support programme fully implemented.	Municipal support programme	Not implemented	No capacity to implement	Recruit competent staff in next financial year
3.2 REVENUE AND EXE	3.2 REVENUE AND EXPENDITURE PLANNING AND MANAGEMENT				
4. LOCAL ECONOMIC DEVELOPMENT					
4.1 BUSINESS DEVELO	PMENT AND INVESTMENT PRO	DMOTION			

3.3 OFFICE OF THE SPEAKER

OBJECTIVES	Key Performance Indicator	ANNUAL TARGETS (2008/2009)	ACTUAL PERFORMANCE	REASON FOR VARIATION
1.1.1 Ensure councillor support, commitment & accountability for stable	1. Effective Oversight Responsibilities	1. Oversight Report for 2006/2007 and 2007/2008 adopted	1 Achieved for both financial years.	1.None
governance and delivery of services		2. Hire Equipment and machinery	2. Achieved	2. None
		3.Space acquisition for Council Hansard	3. Space acquired	3. None
		4. Recording Equipment for Council proceedings	4. Achieved CCTV audio visual cameras have been installed in the Council Chamber on the 6 th September 2008.	4. None
		5. Alterations to the Council Chamber	5. Pigeon Holes for councilors have been installed and alterations have been made in the Council Chamber gallery	5. None
1.1.2 Enhance Public Participation and Strengthen Governance at	1. Functional Ward Committees	1. 162 Ward Committees Audited for functionality	162 Wards have been audited and are functional in terms of holding meetings	1. None
ward level		2. Training of ward Committees	2. Skills Audit has been done, but no training	2. Not enough budget. DPLG promised to intervene.
	Council and Council committees accessible to the public	Establishment of Section 79 Committees	Achieved.	None
1.2.1 Ensure functional IGR environment, oversight and co- ordination	Fully Functional District Speaker's Forum	Quarterly meetings of the District Speakers' Forum	Achieved	None
	Whippery Support	Functional Whippery Forums	-Whippery forums were held quarterly -Councillor workshop on service delivery	None

SPEAKER'S OFFICE District Priority 1: G	GOOD GOVERNANCE AND PUBL	IC PARTICIPATION

ANNEXTURES

ANNEXURE1. AUDITOR GENERAL'S REPORT

ANNEXURE2. REPORT OF THE AUDIT COMMITTEE

This report is prepared in terms of section 121(4)(g) of the Municipal Finance Management Act no. 56 of 2003.

The audit committee has the responsibility to report that it has regulated its affairs in compliance with the audit committee charter, and has discharged its responsibilities set out therein.

Scope and main activities of the audit committee

For part of the 2008/2009 financial year there was no functional audit committee at the municipality. The existing committee was appointed by council in January 2009. This has resulted in the committee not fully carrying out its responsibilities. During the 2008/2009 financial year the committee reviewed and made recommendations on the following areas:

Management should make the management action plan a living document. This could be achieved by preparing monthly formal progress reports on the implementation of the plan. In addition to this, the internal audit unit would conduct regular follow up audits on the implementation of the plan.

When addressing audit findings management should address route causes which may be due to one or two of the following factors: Staffing shortages and capacity of existing personnel in the finance department;

Gaps with existing policies and procedures;

Inadequate legal compliance monitoring mechanisms;

Staff training on municipal policies as well as legislation such as MFMA;

Lack of decisive action taken against people that flout municipal policies and systems.

With regards to distribution losses that were not calculated we recommended that in addition to what is planned for KSD municipality, the action plan should indicate how and when this finding will be resolved with respect to other local municipalities. The subsidy of R21.60 per month should be reviewed since figures that were used when it was first calculated are likely to have changed now. The accuracy of this figure should be checked at-least annually.

Response plans that are prepared by management should not be limited to the audit report but be extended to include all issues contained in the management letter.

The Committee considered the reports from the internal audit without management responses. The reports had identified the inadequacy and ineffective internal controls on the following areas:

The billing process;

Usage of vehicle fuel and oil;

Safeguarding of assets (laptops and cameras); and

Processes of paying suppliers.

Review of the 2008/2009 annual financial statements;

The audit committee is required to report its findings to Council, identifying any matters in respect of which it considers that action or improvement is needed, and make recommendations as to the steps to be taken.

The audit committee has also been assigned responsibilities of providing advice on risk management and performance management. Management of the municipality manages and monitors the assessment and control of risks on a prioritized basis throughout the organisation. The Internal Auditors use this risk control framework to prepare their audit coverage plans and to undertake audit work in the higher risk areas identified.

Composition of the audit committee

Name	Gender	Designation	Profession	
Mrs. T. Njozela	Female	Chairperson	Finance and auditing	
Mr. J.L. Moshesh	Male	Member	Legal	
Mrs. N. Galeni	Female	Member	Finance and auditing	
Miss. N. Mangisa	Female	Member	Finance	

There has been no resignation in the committee during the 2008/2009 financial year.

Meetings and attendance

The committee met once during the 2008/2009 financial year. The chairperson of the audit committee normally invites the Municipal Manager, the Chief Finance Officer, the head of internal audit, the office of the Auditor General and other heads of departments to attend audit committee meetings. During committee meetings, external auditors are allowed to talk with the committee in the presence of management.

Attendance of the meeting by members of the audit committee was as follows:

MEMBER	24 April 2009		
Mrs. T. Njozela	Present		
Mr. J.L. Moshesh	Present		
Mrs. N. Galeni	Present		
Miss. N. Mangisa	Present		

Internal audit

The audit committee would receive presentations from the head of internal audit about the results of work undertaken by the unit.

Overview

As a result of the inactivity of the committee for part of 2008/2009 financial year, the Audit Committee has concluded that it has not fully acted in accordance with its terms of reference.

Mrs. T. Njozela Chairperson - Audit Committee ANNEXURE 3. APPROVED ORGANISATIONAL STRUCTURE

ANNEXURE 4. COUNCIL RESOLUTION ADOPTING THE ANNUAL REPORT

ANNEXURE 5. NTINGA O.R. TAMBO DEVELOPMENT AGENCY ANNUAL REPORT
