SUMMARY OF THE CONTENTS

Chapter 1	Executive Summary
	Introduction
Chapter 2	This section outlines the Mayors and Municipal Manager's Foreword, the Legislative Background of the IDP and IDP Process Plan
	Situational Analysis
Chapter 3	Overview of the situation in Great Kei Municipality.
	Overarching Strategy
Chapter 4	This section provides an overarching strategy, vision, mission, and SWOT Analysis of the municipality.
Chapter 5	Community participation mechanisms and key priority areas raised by community members to inform 2013/2017 IDP Objectives and Strategies.
Chapter 6	This Section outlines Great Kei IDP Objectives, Strategies and Annual targets from 2013-2017.
Chapter 7	The section outlines 2013/2016 Municipal Expenditure Revenue Framework, Programs and Projects.
Chapter 8	This section outlines the Sector Departments and ADM Projects Planned within GKLJ Jurisdiction.
Chapter 9	Service Delivery and Budget Implementation Plan

1. EXECUTIVE SUMMARY

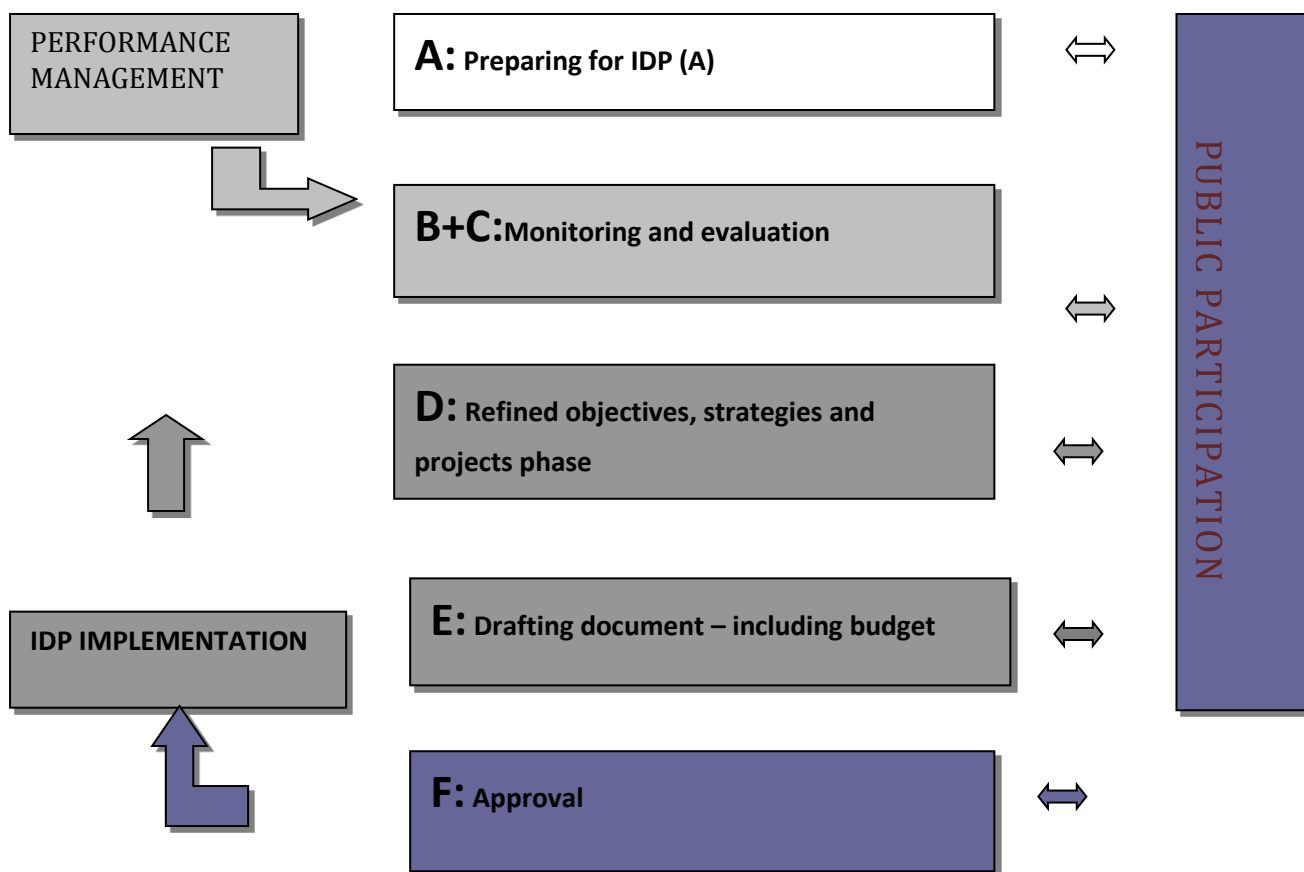

The Municipal Systems Act 32, 2000 (Act No. 32 of 2000) mandates Municipalities to develop Integrated Development Plans and review thereof annually in accordance with an assessment of its performance measurements.

Integrated Development Plan is therefore defined as a: “principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development, in the municipality” Municipal Systems Act 32, 2000, Chapter 5 s35 1(a).

Integrated Development Plan plays a pivotal role in informing all planning processes of the other spheres of government (National and Provincial) as well as all state owned enterprises, which implies a dire need for joint and coordinated effort by these parties in the IDP development processes. It is therefore essential that IDP must be formulated in accordance with a business plan, detailing roles and responsibilities, time frames and cost estimates, to ensure that the Integrated Development Plans gives effect to the Constitutional mandate.

The review of the IDP process is mainly geared towards picking up on early-warning sign for corrective action whenever it is required. The Performance Indicators are flowing from the IDP and constitute the heart of the Performance Management System. The diagram below laid the basis for the review of the Integrated Development Plan

Diagram 1: Summary of the IDP Process

DPLG, IDP Guide Pack, Guide IV

Apart from the statutory imperative, it is necessary for Great Kei Municipality to review its IDP in order to:

- Ensure the IDP's relevance as the municipality's strategic plan
- Inform other components of the municipal business processes, including institutional and financial planning and budgeting
- Inform the cyclical inter-governmental planning and budget processes

In the IDP review cycle changes to the 2012/2017 IDP were necessitated by the following

- Comments from the MEC

Previous IDP assessment results and action plan

KPA	RATING 2008/09	RATING 2009/10	RATING 2010/11	RATING 2011/12
Spatial Development Framework	Low	Medium	Medium	High
Basic Service Delivery	Low	Medium	Medium	Medium
Financial Viability	High	Medium	Low	High
Local Economic Development	Medium	Low	Low	Medium
Good Governance & Public Participation	Medium	Medium	Medium	Medium
Institutional Arrangements	Medium	Low	Medium	High
Overall Rating	Low	Medium	Medium	High

- **Action plan** is to focus on the comments raised by the MEC further to that, improve on areas which the municipality happens to have low/medium ratings. The action plan includes focus on Good Governance and Public Participation; Basic Service Delivery; Institutional Arrangements and Local economic development key Performance Areas.
- Incorporation of the Census 2011
- Review and refinement of the objectives and strategies
- Review and refinement of the projects
- Amendments in response to changing circumstances; and
- Improving the IDP process and content.

The process followed to review 2012/2017 GKM IDP and 2013/2016 Medium Expenditure Framework; 2013/2014 SDBIP

Below is a summary of some of the key activities that were carried out during review of IDP; formulation of Budget and SDBIP:

- The IDP/PMS Budget Process Plan was presented to the IDP/PMS and Budget Representative Forum on the 27th August 2012;
- On the 28th August 2012 the Process Plan was Approved by the council;
- On the 10th September 2012, a Technical IDP/PMS Budget steering committee was held to present the situational analysis of the municipality;
- On the 12th of September 2012 there was an IDP/PMS Budget representative forum to present the draft situational analysis;
- From the 27th – 30th November 2012 there were IDP/Budget Road shows to solicit community needs as presented below;
- On 14th February 2013 a Budget Technical Steering committee was held to present Draft Budget, sources of revenue and expenditure inputs from all departments;
- On 21st February 2013; there was a meeting with Sector Departments; to present Situational Analysis; where government departments presented progress report on 2012/2013 financial year programs and 2013/2014 financial year plans.
- On the 11th March 2013 there was IDP/Budget Rep forum to present 2013/2017 IDP Objectives, Strategies and 2013/2014 Proposed projects, and to solicit inputs from members;
- On the 17th to the 20th of March 2013 there was a Strategic Planning Session of the Municipality to review 2011/2012 Performance; 2012/2013 Six Months; Review IDP Objectives; Prioritize and Develop 2013/2014 Draft SDBIP; Review and Align Organizational Structure to 2013/2017 Reviewed IDP Objectives and Strategies
- On 26th March 2013, Budget Steering Committee was held to present 2013/2014 Budget, prioritize for 2013/2014 SDBIP
- Council Tabled Draft 2013/2017 IDP, Draft 2013/2014 Budget, Tariffs and SDBIP on 28th March 2013
- Daily Dispatch Advertised availability of the draft documents on 10th April 2013 Comments closing date was 30th April 2013
- From the 30th April to 8th May 2013; GKM conducted IDP/Budget road shows, to present the 2013/2017 IDP, 2013/2014 Budget, Tariffs and SDBIP also to solicit inputs.
- On the 9th May there was an IDP/Budget Steering Committee to consolidate community inputs and to prepare for IDP/PMS Budget Representative Forum on 10th May 2013.
- On the 10th May 2013 there was an IDP/Budget Representative forum to present the IDP/Budget/Tariffs and SDBIP with Community Inputs
- Council adopted final 2013/2017 IDP/ 2013/2014 and 2014-2016 Budget/ 2013/2014 Tariffs and SDBIP on 31st May 2013

2. INTRODUCTION

2.1 MAYORS FOREWORD

On 18th May 2011, the five year term of this current council came into effect and that has also ushered my stewardship of this council, for which I am forever grateful to the entire community of Great Kei.

The purpose of this however, is to present 2013/2017 reviewed Integrated Development Plan, and as such our plans for the coming four years of the council. The constitution of the Republic of South Africa is quite categorist in its prescription of the developmental roles of local government. To this effect; sections 152 and 153 of the constitution puts local government in charge of the development process in municipality, and notably in charge of planning for the municipal area. The constitutional mandate is to relate planning, budgeting, management, and functions to its objectives and gives a clear indication of the intended purposes of municipal integrated development planning:

- To ensure sustainable provision of services;
- To promote social and economic development;
- To promote a safe and healthy environment;
- To give priority to the basic needed of communities; and
- To encourage involvement of communities

I am quite happy that our planning and consultation processes have, over the last few months evolved to become among the best in terms of actual consultation and the processes of inputs received. We have always held that ours is not merely compliance but a genuine belief in the need for development to be people centred and driven. The responses we have received during our IDP consultation processes have been very encouraging. We can only hope that this cooperation would continue for the rest of our turner of office.

Yours Truly

.....

N. W. Tekile

Honorable Mayor/Speaker

2.2 MUNICIPAL MANAGER'S FOREWORD

I join His Worship, the Mayor/Speaker in submitting the reviewed Integrated Development Plan for 2013- 2017. This document forms the basis of our planning within the municipality for the next four years. It will inform all operational plans to be evolved within the municipality and, in particular Service Delivery and Budget Implementation Plan (SDBIP). This process will also ensure the integration of the new Performance Management System (PMS).

The Local Government: Municipal Systems Act, 2000 (Act No 32 of 2000) defines Integrated Development Planning as one of the core functions of a municipality in the context of its developmental orientation and mandate. It should be framed in such a way that it integrates all available resources such as: human, financial, and other related resources.

Suffice to say; the inclusive, participatory and consultative process culminated to the Integrated Development Plan.

Importantly, this overarching document fulfils the legal requirement, and also represents the popular aspirations of the community under the Great Kei Local Municipality Jurisdiction.

.....

C.M.MBEKELA
MUNICIPAL MANAGER

2.1 PURPOSE OF IDP, BUDGET, SDBIP AND PMS PROCESS PLAN

The purpose of formulating a Process Plan is to ensure the following:

- ✓ Involvement of the local community in the development, implementation and review of the municipality's performance.
- ✓ To allow the community to participate in the setting of appropriate key performance indicators and performance targets for the municipality.
- ✓ To depict and commit on time frames for smooth running and sequence of activities.
- ✓ Cost estimates with dedicated involvement from specific role players in the municipality space.

The Process Plan therefore aims to address the following aspects:

- ✓ Distribution of roles and responsibilities in the IDP Process;
- ✓ Organizational Structures/Institutional Arrangements for the IDP Process;
- ✓ Action Plan with time frames and resource requirements;
- ✓ Mechanisms and procedures for community and stakeholder participation;
- ✓ Mechanisms and procedures for alignment;
- ✓ Binding plans and planning requirements from provincial and national level; and
- ✓ Cost estimate for the planning process;
- ✓ Performance Management System.

Great Kei Local Municipality IDP Process Plan has been aligned to Amathole District Municipality Framework Plan and legislative requirements.

The Process Plan was submitted and adopted by Council and to the MEC for Local Government. The process plan was approved by a ordinary council meeting under **Resolution no: 9.19**. The council resolved that Great Kei IDP Review Process Plan 2013-2014 be considered and adopted by council and that the Municipal Manager ensures that the process concerned is taken to its logical conclusion.

3 LEGISLATIVE BACKGROUND

The need for an IDP is raised in a number of pieces of legislation whereby some give direct guidance and directions on the path to be followed in developing and implementing IDPs. Therefore the preparation of this IDP framework is a legal requirement as according to the Municipal Systems Act 32 of 2000.

3.1 Constitution of RSA Act 108 of 1996

The Constitution mandates that a municipality must undertake developmentally-orientated planning so as to ensure that it:

- a) strives to achieve the objects of local government set out in section 152;
- b) gives effect to its developmental duties as required by section 153;
- c) together with other organs of state contribute to the progressive realization of fundamental rights contained in sections 24, 25, 26, 27 and 29;

3.2 White Paper

The White Paper established the basis for a new developmental local government and characterized it as a system, which is committed to working with citizens, groups and communities to create sustainable human settlements which provide for a decent quality of life and meet the social, economic and material needs of communities in a holistic way.

To achieve developmental outcomes will require significant changes in the way local government works. The White paper further puts forward three interrelated approaches which can assist municipalities to become more developmental:

- Integrated development planning and budgeting.
- Performance management.
- Working together with local citizens and partners.

3.3 Municipal Systems Act 32 of 2000 as amended

The Municipal Systems Act (32 of 2000) is the key legislation that gives direction and guidance on the development processes of the IDP. Chapter five of the act details the process as follows:

Section 25(1) mandates that each municipal council must, upon election adopt a single, inclusive and strategic plan which:

- Links, integrates and co-ordinates plans;
- Aligns the resources and capacity with the implementation of the plan.

Section 27 mandates the district municipality, in consultation with the local municipalities – to adopt a framework for integrated development planning, which shall bind both the district municipality and its local municipalities.

On the basis of the agreed framework plan, Section 28 mandates that each municipal council must adopt a process plan to guide the planning, drafting and adoption and reviewing of its integrated development plan.

Once the IDP document has been prepared, one should bear in mind that thereafter it will have to be reviewed annually as enshrined in section 34:

- (a) A municipal council must review its integrated development plan
 - (i) Annually in accordance with an assessment of its performance measurements in terms of section 41; and
 - (ii) To the extent that changing circumstances so demand; and
- (b) May amend its integrated development plan in accordance with prescribed process.

3.4 Local Government: Municipal Planning and Performance Management Regulations, 2001

To develop further guidelines and clarity in the issues of IDP, regulations were issued in 2001. The Municipal Planning and Performance Management Regulations set out in detail requirements for Integrated Development Plans.

3.5 Municipal Finance Management Act, 2003

The MFMA (56 of 2003) speaks about promotion of cooperative governance and makes special emphasis on alignment of the IDP and the Budget. This is enshrined in chapter five of the MFMA (Act 56 of 2003).

4 THE FRAMEWORK PLAN

The Amathole District Municipality has presented a draft framework to guide the process plan of individual local municipalities. The function of the Framework plan is to ensure that the process of the district IDP and local IDP's are mutually linked and can inform each other ensuring co-operative governance as contained in section 41 of the Constitution. The Framework must:

- a. Identify the plans and planning requirements binding in terms of national and provincial legislation and identify those which were omitted in the past IDP process.
- b. Identify the matters to be included in the district and local IDP's that require alignment.
- c. The preparation and review of relevant sector plans and their alignment with the IDP.
- d. Determine procedures for consultation between the district municipality and the local municipalities.
- e. Determine the procedures to effect amendments to the Framework Plan
- f. Incorporate comments from the MEC and those derived from self-assessments.
- g. Provide guidelines for the Performance Management System and IDP implementation and communication plans.

5. MECHANISMS AND PROCEDURES FOR ALIGNMENT

Alignment is the instrument to blend and integrate the top-down and bottom-up planning process between different spheres of government. There are two main types of alignment required:

- ⇒ Between municipalities and the district to ensure that planning processes and issues are coordinated and addressed jointly.
- ⇒ Between local government (municipalities/districts) and other spheres especially provincial/national sector departments, particularly in terms of programmes and budget alignment.

The District Municipality has the responsibility to ensure that alignment between the local municipalities occurs.

It is important for municipalities to take note of both National and Provincial budgeting cycles to ensure relevant and useful input into the budgeting processes of national and provincial government at strategic times. In so doing, municipalities will ensure that their priorities are captured and addressed and that IDP implementation is facilitated.

6. ALIGNMENT WITH OTHER GOVERNMENT PROGRAMMES/POLICIES

To ensure that all relevant binding and non-binding national and provincial legislation including policies, government priority programmes and strategies are considered in the IDP process of the municipality, as a district we looked at the relevant information pertaining to the district to address issues emanating from the programmes/policies listed below.

6.1 National Government Priority Areas

The National Government has committed itself to make a difference in the lives of people by addressing five key priority areas being education, fighting crime, health, employment and rural development. Government is moving with speed to ensure that the aims of its five key priorities are met.

a) Improved Health care Services

Plans are already in place to set up a National Health Insurance (NHI) by 2013. This will ensure that all South Africans, even those who are not on medical aid, will have access to affordable quality healthcare.

b) Rural Development

On rural development, government, through the Department of Rural Development and Land Reform, started the Comprehensive Rural Development Programme in provinces that were hardest hit by under-development.

This has seen government's War on Poverty Programme being the central point of the Rural Development Programme. It involves various other departments including Social Development, Agriculture and Water Affairs.

c) Job Creation through New Growth Path

Late last year, the National Government through the Department of Economic Development announced its plan to create more than 50 000 jobs every year. The plan is known as the New Growth Path (NGP) and all government stakeholders need to play a role towards realization of the national government approach towards creation of decent jobs. This approach will assist in reducing high dependence on social security grants.

d) Fighting Crime

Government has recently strengthened its crime-fighting programmes with more resources. These include equipment and vehicles, as well as more staff for the South African Police Force.

e) Improved quality of basic Education

On the education front, the Department of Higher Education and Training announced that government would begin fulfilling its promise of providing free education to poor students at institutions of higher learning. These include universities, universities of technology and colleges for Further Education and Training (FET).

6.2 National Spatial Development Perspective

A number of initiatives have been launched over the past couple of years, one of which, the National Spatial Development Perspective (NSDP), was launched by the Presidency in May 2003. The NSDP describes the national spatial development vision of government and the normative principles that underpin this vision. The basic principles of the NSDP underpinning this vision are:

- Economic growth as a prerequisite for the achievement of other policy objectives, key among which would be poverty alleviation.
- Government spending on fixed investment,
- Efforts to address past and current social inequalities should focus on people not places.

In order to overcome the spatial distortions of apartheid, future settlement and economic development opportunities should be channeled into activity corridors and nodes that are adjacent to or link the main growth centers.

6.3 Provincial Growth and Development Plan 2014

The Provincial Growth and Development Plan underline the strategic key focus areas for intervention which are:

- The systematic eradication of poverty
- The transformation of the agrarian economy.
- Developing and diversifying our manufacturing and tourism sectors.
- Building our human resources capabilities.
- Infrastructure, including eradication of backlogs and the development of enabling infrastructure for economic growth and development.
- Public sector and institutional transformation in support of improved service delivery.

6.4 Eastern Cape Provincial Spatial Development Plan 2010

In order to plan and manage the spatial implementation of development in the Province it is crucial that all core values of the province are seriously considered by all stakeholders. The core values are intended to achieve integration between stakeholders through better linkages between sectoral programmes, aligned infrastructure, social services, government spending, private sector investment and economic development. The core values or broad development codes for the Eastern Cape Province are recommended to be the following:-

- Environmental integrity and sustainability through achieving a balance between safeguarding natural resources, optimizing the livelihoods of communities and developing a flourishing economy;
- Optimum use of existing resources including agriculture, forestry, renewable energy potential, already impacted land (brown field areas) minerals, bulk infrastructure, roads, transportation and social facilities;
- Reduced settlement sprawl and more compact formalized settlement through densification and diverse, mixed land uses;
- Economy and efficiency of development clustered along strategic transport routes;
- Integration, synergy and linkages between urban and rural areas supported by appropriate infrastructure;
- Community based spatial planning and enforceable land use management based on agreed sustainable community development codes with unified provincial legislation; and

- Correction of the historically distorted spatial patterns of settlement with optimum use of existing infrastructure, integration of residential and employment opportunities in close proximity to each other;
- Achieving integrated development at community level;

Moving towards sustainable communities in our province will require adaptation of the way we plan and focus our resources to address seven major components of sustainability (Governance, transport and connectivity, appropriate and adequate services, environmental quality, a flourishing and diverse economy, a quality built and natural environment and finally vibrant harmonious and inclusive communities).

6.5 Accelerated and Shared Growth Initiative for South Africa

The following are the highlights that will be considered in the municipal IDP:

- Expanding women's access to economic opportunities
- Improve budgeting in government, particularly at micro level where they tend revenue and overestimate expenditure.
- Ensure improvement in expenditure management particularly in government capital investment.
- Address human capacity issues including skills development.

6.6 Millennium Development Goals

The municipality will attempt addressing millennium development goals based on the applicability and the districts available resources however this can be achieved through involvement of all stakeholders.

6.7 New IDP Framework for B4 Local Municipalities

The municipality is categorized as B4 (one or two small towns with the majority of the municipal area being rural in its nature) and will have to develop its' IDP in accordance with the new Simplified IDP Framework.

6.8 Community Based Planning and Sustainable Livelihoods

The municipality is engaged in community based planning and promotion of sustainable livelihoods approach. All IDP projects to be implemented will be the results of the above approach.

6.9 Expanded Public Works Programme

Programmes like the Expanded Public Works Programme (EPWP) are already being implemented through implementation of municipal projects. Refer to Chapter 7: of the Great Kei IDP. However the EPWP policy will be developed soon.

6.10 Cabinet Lekgotla Reports

Decisions on issues at the Lekgotla mostly inform the content of the Medium- Term Strategic Framework which in turn guide the budgeting process for the next three years. Therefore the resolutions taken at Cabinet Lekgotla have been considered in drafting municipal IDP. The three strategic focus areas for local government are:

- Mainstreaming of hands on support to improve government and accountability;
- Addressing the structure and arrangement of the state and way of operating; and
- Refine and check policies, regulations and financial calendar fiscal environment that exist and see if they are empowering local government.

6.11 Community Development Workers Programme

Community Development Workers (CDWs) are a key programme of the South African government emanating from the president's 2003 state of the nation address aimed at

bridging the gap between government and communities. CDWs are community-based resource persons who liaise, co-ordinate, inform, and assist communities with access to services provided by government with the aim of learning how to progressively meet their needs, achieve goals, realize their aspirations and maintain their well-being.

They are participatory change agents who work with and within communities in which they live, to foster the implementation of Government's programmes. The CDWs are accountable to Government and supported financially and functionally by a range of government spheres and departments.

6.12 Government Outcome Based Approach

The Cabinet Lekgotla adopted 12 Outcomes Approach that strategically address the main strategic priorities for government and these strategic outcomes and outputs will be the strategic focus for of government until 2014. As Local Government Sphere, Great Kei Local Municipality will put more emphasis in realizing within its planning and implementation of IDP outputs (Output 7-Single Window of Coordination where local government is the entry point of coordination of government programmes) for Outcome 9 and that does not exclude other Outcomes, however the municipality can play a coordinating role in relation to other Outcomes.

6.13 New Growth Path

There is growing consensus that creating decent work, reducing inequality and defeating poverty can only happen through a new growth path founded on a restructuring of the South African economy to improve its performance in terms of labor absorption as well as the composition and rate of growth. To achieve that step change in growth and transformation of economic conditions requires hard choices and a shared determination as South Africans to see it through. The Government is committed to forging such a consensus and leading the way by Identifying areas where employment creation is possible on a large scale as a result of substantial changes in conditions in South Africa and globally. Developing a policy package to facilitate employment creation in these areas, above all through:

- a. A comprehensive drive to enhance both social equity and competitiveness;
- b. Systemic changes to mobilize domestic investment around activities that can create sustainable employment; and
- c. Strong social dialogue to focus all stakeholders on encouraging growth in employment-creating activities.

The New Growth Path must provide bold, imaginative and effective strategies to create the millions of new jobs South Africa needs. It must also lay out a dynamic vision for how we can collectively achieve a more developed, democratic, cohesive and equitable economy and society over the medium term, in the context of sustained growth. The strategy sets out critical markers for employment creation and growth and identifies where viable changes in the structure and character of production can generate a more inclusive and greener economy over the medium to long run. To that end, it combines Macro-economic and microeconomic interventions.

The shift to a new growth path will require the creative and collective efforts of all sections of South African society. It will require leadership and strong governance. It takes account of the new opportunities that are available to us, the strengths we have and the constraints we face. We will have to develop a collective national will and embark on joint action to change the character of the South African economy and ensure that the benefits are shared more equitably by all our people, particularly the poor. Achieving the New Growth Path requires that we address key trade-offs. Amongst other decisions, government must prioritize its own efforts and resources more rigorously to support employment creation and equity; business must take on the challenge of investing in new areas; and business and labor together must work with government to address inefficiencies and constraints across the economy and partner to create new decent work opportunities.

It was therefore imperative for GKLM to outline its 5 year strategic development plan with legislative framework as summarized above. Chapter 6 & Chapter 7 Objectives and Strategies, Projects of the IDP directly link the National Priorities, Provincial Priorities with Great Kei Strategic Priorities.

6.14 The National Development Plan 2030

The plan sets out six interlinked priorities:

- Uniting all South Africans around a common programme to achieve prosperity and equity.
- Promoting active citizenry to strengthen development, democracy and accountability.
- Bringing about faster economic growth, higher investment and greater labour absorption.
- Focusing on key capabilities of people and the state.
- Building a capable and developmental state.
- Encouraging strong leadership throughout society to work together to solve problems.

Thus GKM sets its strategic objectives as outlined in Chapter 6 in line with the Six Priorities of the National Development Plan 2030.

6.15 GKM Powers and Functions

The Constitution of the Republic of South Africa; 1996 outlines the following functions to be performed by the municipality;

Schedule 4 Part B	Schedule 5 Part B
• Air pollution (local function)	• Beaches and amusement facilities (local function)
• Building regulations (local function)	• Billboards and the display of advertisements in public places (local function)
• Child care facilities (local function)	• Cleansing (local function)
• Pontoons, ferries, jetties, piers and harbors, (local function)	• Control of public nuisances (local function)
• Storm water management systems in built-up areas (local function)	• Control of undertakings that sell liquor to the public (local function)
• Trading regulations (local function)	• Facilities for the accommodation, care and burial of animals (local function)
• Water and sanitation services (district function)	• Fencing and fences (local function)
• Municipal health services (district function)	• Licensing of dogs (local function)
• Electricity and gas reticulation (district function)	• Licensing and control of undertakings that sell food to the public (local function)
• Local tourism (shared function)	• Local amenities (local function)
• Municipal airports (shared function)	• Local sport facilities (local function)
• Municipal planning (shared function)	• Markets (local function)
• Firefighting services (shared function)	• Noise pollution (local function)
• Municipal public transport (shared function)	• Pounds (local function)
	• Public places (local function)
	• Street trading (local function)
	• Street lighting (local function)
	• Traffic and parking (local function)
	• Municipal parks and recreation (local function)
	• Refuse removal, refuse dumps and solid waste disposal (shared function)
	• Cemeteries, funeral parlors and crematoria (shared function)
	• Municipal abattoirs (shared function)
	• Municipal roads (shared function)

	<ul style="list-style-type: none"> Traffic and parking (local function)
	<ul style="list-style-type: none"> Municipal parks and recreation (local function)
	<ul style="list-style-type: none"> Refuse removal, refuse dumps and solid waste disposal (shared function)
	<ul style="list-style-type: none"> Cemeteries, funeral parlors and crematoria (shared function)
	<ul style="list-style-type: none"> Municipal abattoirs (shared function)
	<ul style="list-style-type: none"> Municipal roads (shared function)

It is thus important to note that the municipality has distributed and performed its functions amongst the key performance areas as follows. Further the budget has been allocated in 2013/2014 Financial year for the functions; refer to Chapter 7 of the document

KEY PERFORMANCE AREA	FUNCTION PERFORMED
Basic Service Delivery: Infrastructure; Community Services; Environment	Building regulations
	Public Safety
	Storm water management systems in built-up areas
	Firefighting services
	Municipal public transport
	Cemeteries,
	Traffic and parking
	Municipal roads
	Refuse removal, refuse dumps and solid waste disposal
	Street lighting
	Fencing and fences
	Cleansing
	Beaches and amusement facilities
	Local amenities
	Local Sport facilities
	Beaches and amusement facilities
	Electricity reticulation
Pounds	
Municipal parks and recreation	

Local Economic Development: Planning and Development	Local Tourism; Agriculture
	Municipal planning
	Markets
	Institutional Performance Management
Institutional Development and Organizational Transformation: Council and Administration	Administrative Functions Human Resources Development Council Support Asset Management Labor Relations Records Management
Financial Viability: Finance and Information Technology	Revenue Management Expenditure Management Financial Reporting Asset Management Indigent Administration Supply Chain Management Budgeting
Good Governance and Public Participation	Risk Management Institutional Communication Public Participation Special Programmes Unit Delegation Framework Legislative and Policy Compliance Indigent Management Public Participation

7. INSTITUTIONAL ARRANGEMENTS

The following institutional arrangements have been set out to institutionalize community participation and also to enable the municipality to manage the drafting output. The Council adopted IDP/Budget Process Plan outlined in August 2012, adopted under council **Resolution no: 9.19** in an ordinary council meeting.

The Council

Terms of Reference:

- Considers and adopts the process plan
- Is also responsible for adopting the IDP.

IDP Manager

The Municipal Manager, C.M. Mbekela, will manage the Great Kei Municipal IDP.

Terms of Reference for the IDP Manager

The IDP Manager shall, in accordance with the provisions of the IDP legislation framework:

- Ensure that the local framework is drafted and approved by Council,
- Manage the IDP by ensuring that all daily planning activities are performed within an efficient and effective consideration of available time; financial and human resources;
- Ensure that the planning process is participatory, strategic and implementation orientated and is aligned with and satisfies sector planning requirements, planning process and compliance with action programme;
- Ensure that the planning process outcomes are clearly documented;
- Chair the IDP Steering Committee
- Will coordinate with various government departments and the district IDP Manager to ensure that all projects, strategies and objectives of the local municipality are shared and distributed amongst government departments so that they might incorporate them in their planning process and vice versa.
- Responds on comments on the draft IDP from the public, horizontal alignment and other spheres of government to the satisfaction of the Council.

- Ensure that annual business plans and municipal budget are linked and based on the IDP.
- Adjust the IDP in accordance with the proposals issued by the MEC responsible for the Local Government as per the provision of Section 32(2) (a) of the Municipal Systems Act.

IDP Steering Committee

- The IDP Steering Committee will consist of:
 - Municipal Manager – Mr.C.M.Mbekela
 - Director Technical Services – Mr. F. Van Dalen
 - Chief Financial Officer – Mrs. P.Gwana
 - Manager– Mr. Z. Mbulawa
 - Community Services Manager – Mr.Z.Plata
 - Human Resources Manager – Miss.Dumalisile
 - IDP/PMS Manager – Mr.M.Cekiso
 - Budget officer – Miss. N. Sana

Terms of Reference of the IDP Steering Committee

- Provides terms of reference for the various planning activities,
- Compile departmental operational and capital information
- Commissions research studies;
- Consideration and making comments on inputs from role players and sub-committees;
- Makes content recommendations;
- Prepares, facilitates and document meeting outcomes
- Meet regularly to consider issues to be tabled before the Rep Forum.
- Integrated budgeting
- Monitoring of the implementation of the municipal IDP.

IDP Representative Forum

The forum will consist of:

- The Mayor (convene and chair meetings);
- IDP Steering Committee,
- Councilors;
- Ward Committees;
- Community - based organizations;
- Advocates for unorganized groups
- Civil society
- Business People
- Organized Labor
- Sector Departments

Terms of Reference

- Represent the interests of their constituencies,
- Contribute to the Situational Analysis update at Ward Level and the development priorities thereof
- Provide organizational mechanism for discussion, negotiation and decision making between the stakeholders;
- Ensure adequate communication amongst all the stakeholders' representatives
- Monitor the performance of the planning and implementing process

PROCEDURES FOR COMMUNITY AND STAKEHOLDERS PARTICIPATION

The IDP and Budget Processes demand the involvement of community and stakeholder organizations in the process. This ensures that the IDP addresses the real issues that are being experienced by the citizens' within the municipality.

Participation Procedure

Provisions of MSA Chapter 4 Section 17 provide for mechanisms for participation:

- IDP Representative Forum to verify and add data
- District Municipality's Representative Forum to ensure that local priorities are adequately reflected in the District's IDP
- Use Ward Councilors to call meetings to keep communities informed about the IDP progress (including Ward Committees and CDWs)
- Publish annual reports on municipal progress
- Advertise in local newspapers
- Making the IDP document available to all units and public places for public comments
- Making use of municipal website.

Appropriate Language Use

English will be used as a medium of communication. However in community meetings languages that are spoken in that community will also be used.

Appropriate venues and transport

- Officials will be responsible for arranging venues and transport for all wards;
- Transport will be arranged for Designated Groups and Ward Committees;
- Great Kei Municipality will be responsible for the costs of these meetings

Mechanisms and Procedures for Alignment

The IDP Manager (Municipal Manager) and the IDP Manager (Mr. M. Cekiso) of Great Kei Municipality will be responsible for ensuring smooth co-ordination of the IDP process and its alignment with the District's IDP through bilateral discussions with affected sector departments and neighboring Municipalities. Inter-Governmental Forums will also be used to ensure that beneficial alignment of programmes and projects do occur.

THE BUDGET PROCESS

The budget proposals for the 2012/13 financial year should be informed by Council's Integrated Development Planning process, particularly in terms of objectives, outputs and targets envisioned for the next 3 years. In this way, budget proposals and the Integrated Development Plan will be linked directly to each other.

Better budgeting enhances service delivery. This is the main message underlying recent reforms that Council has been subjected to. In particular, integrated planning, budgeting and monitoring of service delivery performance strengthen the link between the services that departments provide and the benefits and costs of these services. The performance management system gives effect to the emphasis on improved transparency and accountability for the management and use of public resources.

The budget process allows Council to:

- Revise its policy priorities, macroeconomic framework and resource envelope.
- Evaluate departmental plans and allocate available resources in line with policy priorities.
- Obtain the required authority from Council to spend.

MATCHING POLICY PRIORITIES AND RESOURCES

Deciding and agreeing on the best allocation of scarce resources to fund Council's many social, economic and political goals is the main purpose of the budget process.

The budget process starts early in the year with a review of the IDP and budget processes of the previous year and the budget parameters.

Additional resources for funding new priorities arise from a review of the overall budget framework, including fiscal policy considerations, overall spending growth, inflation assumptions, and debt interest projections.

The budget and IDP are to be presented for approval on or before 31 May 2013 as indicated in Table 2 below:

Table 2: Budget Process Plan timeline

July – August	Review previous IDP and budget process plans
September	Set parameters and establish the budget task team
October	Consider the revision of Council's establishment plan – meeting the HR capacity needs and the cost application of such capacity [functions to be considered]
November to January	Align the budget to Council's policy priorities
February	Consolidate the budget and macro summary
March	Table the draft budget in Council for approval
April – May	Consult the public on the IDP and budget
May	Table the final budget in Council for adoption
June	Submit adopted budget to National Treasury

POLICY PRIORITIES AND PUBLIC EXPENDITURE

Strengthening the link between Council policy priorities and expenditure is at the core of budgeting. Expenditure allocation translates policy priorities into the delivery of services to communities, and is therefore a key tool for accomplishing Council's goals.

POLITICAL OVERSIGHT OF THE BUDGET PROCESS

The key to strengthening the link between priorities and spending plans lies in enhancing political oversight of the budget process. The Mayor should establish a *Budget Steering Committee* that is chaired by the portfolio Councillor for finance; with the committee consisting of the chairpersons of each of the standing committees and chairpersons of each cluster.

Political oversight of the budget process is essential to ensure that:

- The political executive is responsible for policy and prioritization
- Policy priorities are linked to cluster spending plans and the delivery of quality services

The budget process commences with parameter and policy assessment and formulation.

Budgeting is primarily about the choices and trade-offs that Council has to make in deciding how to meet the agreed set of policy objectives through better service delivery. Political oversight of the budget process allows Council to manage the tension between competing policy priorities and fiscal realities.

BUDGETING FOR SERVICE DELIVERY

Strengthening the link between Council's priorities and spending plans is not an end in itself. The goal is to improve delivery of services and ultimately the quality of life of people throughout the municipal area.

Sound budgeting as mentioned in the introduction leads to enhanced service delivery. In particular, integrated planning, budgeting and monitoring of service delivery performance strengthen the link between the services that departments provide and the benefits and costs of these services. It is important to emphasise the role of performance management which serve to monitor performance against measurable performance objectives that are informed by service delivery targets as captured in the various sector plans.

SCHEDULE OF KEY DEADLINES

Phase	Activities	Timeframe	Responsible Department
Phase 0	Preparation phase / Pre-planning		
	<p>Preparation involves the production of an IDP process plan to ensure proper management of the planning process:</p> <ul style="list-style-type: none"> • Establish institutional structures for management of the process • Establish structures for public participation • Prepare time schedule for planning process • Identify roles and responsibilities • Discuss how the process will be monitored 		
	o Receive and consider ADM Framework Plan and prepare process plan accordingly	14 August 2012	IDP/PMS Manager
	o Present Draft IDP Review Process Plan to the steering committee	23 August 2012	IDP/PMS Manager
	o Undertake ward meetings on process plan and ward based briefing	27 August 2012	Mayor
	o Induction of council, ward committee, section 56 managers on IDP and Ward Based Planning (Tools)	28 August 2012	IDP/PMS Manager
	o Present IDP/Budget Process Plan to council	29 August 2012	Municipal Manager
	o Submission of IDP Review Process Plan to ADM & DLGTA	10 September 2012	IDP/PMS Manager
	o Advertise on adopted process schedule and solicit inputs	10 September 2012	IDP/PMS Manager
Phase 1	Analysis Phase / Monitoring and evaluation		
	<p>This phase deals with existing situations:</p> <ul style="list-style-type: none"> • <i>Assessment of existing level of development</i> • <i>Priority issues or problems</i> • <i>Information on causes of priority issues/problems</i> • <i>Information on available resources</i> 		
	o IDP & Budget Steering Committee	10 September 2012	IDP/PMS Manager
	o IDP Rep Forum	12 September 2012	IDP/PMS Manager
	Ward Based Planning programme	19 September 2012 - 11 October 2012	IDP/PMS Manager/ DLGTA

	o ADM IDP Rep Forum	28 September	IDP Manager/ADM
	o IDP & Budget Steering Committee to consolidate information gathered (Sector Engagement) and review service delivery plan	15-16 October 2012	IDP/PMS Manager
	o IDP Rep Forum	25 October 2012	IDP/PMS Manager
Phase 2	Strategies Phase / Refined objectives, strategies, programmes		
	This phase includes the formulation of: <ul style="list-style-type: none"> • <i>The vision</i> • <i>The development objectives</i> • <i>The development strategies</i> • <i>Project identification</i> 		
	o Revenue projections and proposed rates, taxes, tariffs and service charges by BTO	31 October 2012	CFO
	o Departments (external & internal) to meet to discuss adjustment budget, projects and strategies for next year	5-9 November 2012	IDP/PMS Manager/ CFO
	o Budget Steering Committee to discuss adjustment budget	13 November 2012	CFO
	o IDP Rep Forum	20 November 2012	IDP/PMS Manager
	o ADM IDP Rep Forum	21 November 2012	IDP/PMS Manager/ ADM
	o IDP/Budget/PMS technical steering committee to discuss monthly performance progress on IDP process plan	3 December 2012	IDP/PMS Manager

Phase	Activities	Timeframe	Responsible Department
Phase 3	Projects Phase		
	Ensure link of identified projects to priority issues and objectives with clear intended beneficiaries, the location of the project, commencement and end date, responsible person and budget (SDBIP and Strategic Scorecard). Furthermore formulation of targets and indicators to measure performance and impact of the project.		
	o Strategic Planning Session	23-24 January 2013	Municipal Manager
	o Mid-term performance report	30 January 2013	Municipal Manager/ IDP/PMS Manager
	o CFO, CS Manager and TS Manager review national and provincial policies and budget plans, potential price increases of bulk resources (ESKOM & DWA) and potential salary increases	31 January 2013	CFO
	o Budget & Treasury to draft operational expenditure per function/ department on personnel expenditure, general expenditure, repairs and maintenance and contributions to capital and IDP projects	01 February 2013	CFO
Phase 4	Integration Phase		
	Ensure identified projects are in line with the municipality's objectives and strategies, and also with the resource framework and comply with the legal requirements. Harmonize the projects in terms of contents, location and timing in order to arrive at consolidated and integrated programme, e.g. LED programme.		
	An operation strategy should include:		
	<ul style="list-style-type: none"> • Financial Plan • Capital Investment Plan • Integrated Spatial Development Framework • Integrated sector programmes (LED, HIV, poverty alleviation, gender equity etc.) • Consolidated performance Management System • Disaster Management Plan • Institutional plan • Reference to sector plans 		
	o IDP, Budget and PMS Technical committee – finalization of draft budget	7 February 2013	CFO
	o IDP, Budget and PMS Steering committee	14 February 2013	IDP/PMS Manager
	o IDP, PMS and Budget Representative forum	19 February 2013	Mayor

	<ul style="list-style-type: none"> o Meetings with sector departments to Harmonize the projects in terms of contents, location and timing in order to arrive at consolidated and integrated programme 	20 February 2013	Strategic Service/ Municipal Manager
	<ul style="list-style-type: none"> o IDP Budget Steering Committee to prepare draft budget 	10-25 February 2013	IDP/PMS Manager/ CFO
Phase 5	Approval phase		
	Submit the IDP to the council for consideration and approval: <ul style="list-style-type: none"> • Tabling of the draft IDP to council • Public comment on the draft • Approval of final IDP 		
	<ul style="list-style-type: none"> o IDP & Budget Steering Committee to finalize service delivery agreements and entities, finalize organogram, finalize proposed national and provincial allocations and review district municipality allocation 	8 March 2013	IDP/PMS Manager
	<ul style="list-style-type: none"> o IDP Rep Forum to present draft IDP & budget 	10 March 2013	
	<ul style="list-style-type: none"> o ADM Rep Forum 	20 March 2013	IDP/PMS Manager/ ADM
	<ul style="list-style-type: none"> o Mayor tables draft budget, draft resolutions, draft service delivery agreements and draft budget related policies and tariff increases 	28 March 2013	Mayor
	<ul style="list-style-type: none"> o Advertise for comments & public participation on draft IDP/Budget, service delivery plans, resolutions, service delivery agreements, budget related policies and tariff increases 	01 April 2013	IDP/PMS Manager
	<ul style="list-style-type: none"> o IDP/Budget Roadshows (Mayoral Imbizos) 	03-23 April 2013	IDP/PMS Manager
Phase	Activities	Timeframe	Responsible Department
	<ul style="list-style-type: none"> o IDP & Budget Steering Committee 	07 May 2013	IDP/PMS Manager
	<ul style="list-style-type: none"> o IDP Rep Forum 	14 May 2013	IDP/PMS Manager
	<ul style="list-style-type: none"> o ADM Rep Forum 	23 May 2013	IDP/PMS Manager/ADM
	<ul style="list-style-type: none"> o Council approves final budget, system of delegations & IDP 	31 May 2013	Municipal Manager
	<ul style="list-style-type: none"> o Submit budget and service delivery plans, resolutions, service delivery agreements, budget related policies and tariff increases to National and Provincial Treasury 	06 June 2013	CFO
	<ul style="list-style-type: none"> o Final IDP Submitted to MEC for Local Government 	06 June 2013	IDP/PMS Manager
	<ul style="list-style-type: none"> o IDP Budget Steering committee (PMC Agreements & SDBIP) 	07 June 2013	IDP/PMS Manager

	<ul style="list-style-type: none"> o SDBIP and draft performance agreements of section 56 Managers submitted to Mayor 	20 June 2013	IDP/PMS Manager
	<ul style="list-style-type: none"> o SDBIP submitted to Provincial Treasury & MEC for Local Government 	01 July 2013	IDP/PMS Manager
Performance Management System			
	<ul style="list-style-type: none"> o IDP & Budget Steering Committee receive and discuss quarterly SDBIP reports quarterly o IDP & Budget Steering Committee receive and discuss mid-year performance report 		IDP/PMS Manager

3. SITUATIONAL ANALYSIS

3.1 EXECUTIVE SUMMARY OF THE SITUATIONAL ANALYSIS

The situational analysis established that Great Kei Municipality occupies 1 421 square kilometers (km²) of the Amathole District Municipality in the Eastern Cape Province. The population is estimated at 338 991 according to Statistics 2011 and some 10 310 households distributed into seven wards.

The GKM is bounded in the East by the Great Kei River and Mnquma Local Municipality, by the coastline between Kwelera and Kei Mouth in the South East, by the Buffalo City Municipality in the West and the Amahlathi Municipality, which is situated to the North.

The population is predominantly female accounting for approximately 53%, male compose only about 47% of the population. The municipality has had a high prevalence of poverty in 2007, where 54 percent of households were below the poverty line, declining employment levels (an average of 2 percent decline per annum) and resultant high unemployment levels (40 percent of the economically active population). (Urban Econ, 'Local Economic Development Training Workshop' 13 November 2007).

It is evident that GKM has a relatively high standard of water provision; however water is a key prerequisite for development and is therefore important. The road network within the Great Kei Municipality consists of 729, 55 kilometers of surfaced and unpaved roads.

Social and community services are also not in a satisfactory manner. Health Facilities are also a concern within the municipality jurisdiction; where 58% of people live more than 5 km from medical facilities and only 1, 5% have access to a medical benefit fund (DBSA, 1997).

The economic profile of the municipality is characterized by a small population, low populations density, concentration of employment in agriculture, disinvestment in rural areas, the dominance of one urban centre in the region and the resultant disparity between rural and urban areas.

3.2 LOCALITY

3.2.1 GEOGRAPHIC PROFILE

The Great Kei Municipality (GKM) is located within the Eastern Cape Province and covers an area of 1 421 square kilometers (km²). The Municipality's Headquarters are in Komga; and satellite offices in Haga Haga with 5 employees; Kei Mouth with 5 employees and Chintsa with 5 employees. Municipal Services offered in Satellite offices are as follows:

- Refuse Removal
- Grass Cutting and Clearing of Bushes
- Roads Maintenance services

The GKM is bounded in the East by the Great Kei River and Mnquma Local Municipality, by the coastline between Kwelera and Kei Mouth in the South East, by the Buffalo City Municipality in the West and the Amahlathi Municipality, which is situated to the North.

Population of the municipality is distributed into seven wards, which are the amalgamation of previously different communities and municipal entities, including Komga, Kei Mouth, Morgan Bay, Haga-Haga, Chintsa East, Chintsa West, Mooi plaas and Kwelera.

Regional access is obtained through the district via the N2 National Route from East London to Butterworth with a provincial main road N6 connection between Komga and Sutterheim and the connection between Komga and King William's town and Bhisho is via the R63.

A graphical representation of the Great Kei Local Municipality is illustrated by in Figure 1. below.

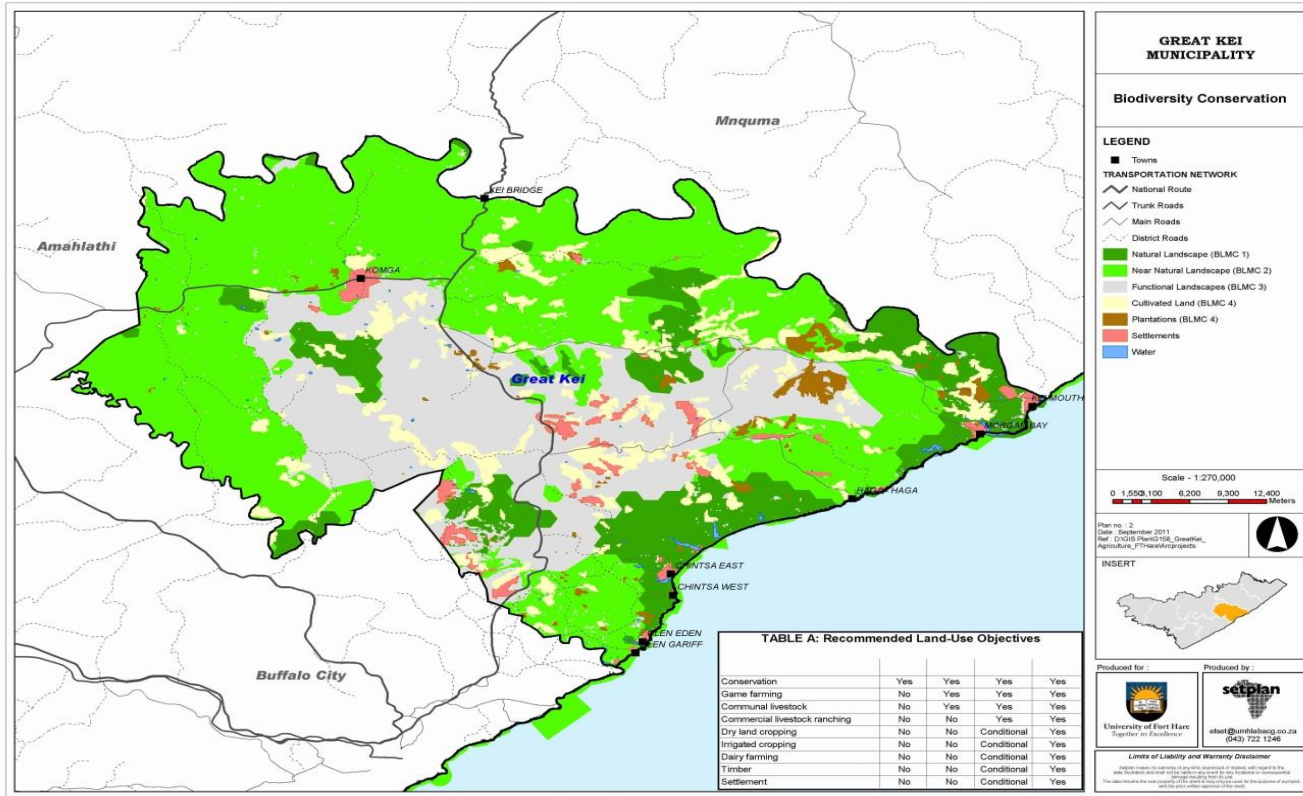

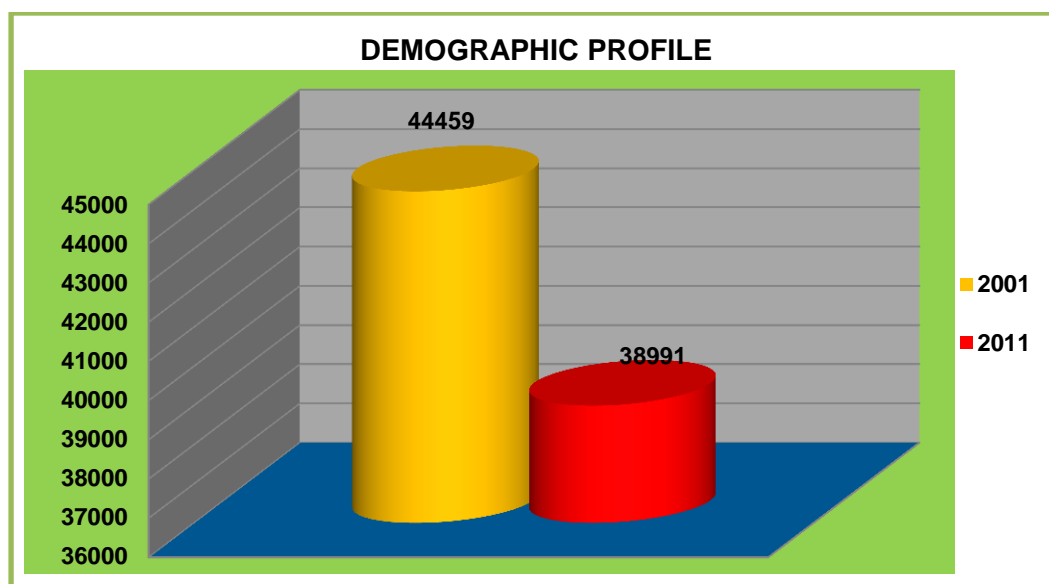

Figure 1- Map of Great Kei Local Municipal Area

3.3 DEMOGRAPHICS ANALYSIS

3.3.1 Population Size

According to the Community Survey of 2011 conducted by Statistics South Africa, the total population of Great Kei Municipality is estimated at 338 991 and some 10 310 households, which is a decline from Census 2001 Statistics that estimated a total population of 444 59 and some 11 365 households. The average household consist about 3.8 % people.

The Figure 2 below illustrates the decline of population and households in 2001 and 2011:

SOURCE: STATISTICS 2011

3.3.2 Population by Density

Population		
Density		people/km ²
1	Urban Areas	185.5
2	Great Kei Municipality	28.2

The service centers of Komga and Kei Mouth as well as the coastal settlements of Morgan's Bay, Haga Haga and Chintsa can be described as urban areas falling within the national definition of "an urban area administered by a local authority or municipality".

The population density within urban areas is estimated at 185 people/km (refer to Table 1). This can be attributed to the diverse economic activity and higher level of social and physical infrastructure services to be found within the centers.

Urban centers within the area display a growth rate of around 1, 5% per annum compared to a negative growth rate of -1, 9% for the entire Great Kei Municipal area. This is believed to be the result of the steady exodus of families from farming areas and adjacent rural settlements, causing a population increase within local urban centers. Recent studies in South Africa have found that resettlement to nearby small towns remains an attractive option to dislocated rural families and individuals (particularly women), as opposed to moving to larger urban environments such as Buffalo City, Port Elizabeth and Cape Town (DBSA 2001).

3.3.3 Gender and Age Distribution

The population is dominated by female of approximately 53%, male compose only about 47% of the population. About 62.0% of the populations fall between 15-64 years, whilst 9.3% are in the pension group (over 65 years) and only 28.7% is less than 15 years.

This indicates that there is a high dependency ratio of about 61.3%. This underpins the need to develop social and youth development programmes and proper infrastructural planning, provision of basic services and job creation.

Population by Gender

SOURCE: STATISTICS 2011

AGE DISTRIBUTION

SOURCE: CENSUS 2011

3.4 SOCIO- ECONOMIC PROFILE

3.4.1 ECONOMY AND POVERTY

The economic profile of the Great Kei Municipality is characterized by a small population, low populations density, concentration of employment in agriculture, disinvestment in rural areas, the dominance of one urban centre in the region and the resultant disparity between rural and urban areas.

In addition to this, the GKLM had in 2007 a high prevalence of poverty (54 percent of households below the poverty line), declining employment levels (an average of 2 percent decline per annum) and resultant high unemployment levels (40 percent of the economically active population). **(Urban Econ, 'Local Economic Development Training Workshop' 13 November 2007).**

An analysis of the contribution of the various economic sectors to the Great Kei Municipality economy may be summarized as follows:

- The government sector (particularly health and education) contributes significantly to the GDP.
- Finance and Business Services and the Manufacturing sector also contribute significantly to the GDP
- The contribution of Agriculture has declined slightly.
- There has been a significant decline in the contribution of the Wholesale and Retail Trade sector, which indicates leakages to other areas, particularly since the population has remained stagnant
- The contribution of Community Services and Construction to the GDP has increased over the years

Overall, the Great Kei Local Municipality's economy registered positive growth during the past decade. The area will, however, have to maintain its economic growth rate in order to significantly improve welfare indicators.

3.4.2 EMPLOYMENT PATTERNS

Over 39% of the GKLM are employed in the formal economy. This is line with the ADM and is significantly higher than the average for the Eastern Cape. Unemployment levels are similar to the provincial average (17%), but the proportion of those that are not economically active (not working, nor looking for work) is lower than the provincial rate of 53%.

There has been a gradual increase in the unemployment rate from 1996 which originally stood at 34.4%.

Total employment within the Great Kei Local Municipal area is dominated by the agricultural sector comprising 35.58%. Although the level of reliance has been declining in recent years, agriculture remains the dominant sector of employment in the region and contributes just less than a third of total employment.

Services, ranging from social and personal to financial and business, have been one of major growth sectors in terms of employment, as too has trade, catering and accommodation (much of this due to the growth in tourism products). Construction has also experienced grown due to the construction of new housing schemes. The manufacturing and government sectors have been consistent contributors to employment.

3.4.3 EDUCATION

Illiteracy levels are very high within the municipal jurisdiction with only 2.5 % of the total population that has higher level of Education as illustrated in Figure below. Although there is a decline of illiteracy level between 2001 and 2011, percentages of illiteracy are still high

- Percentage of people with No schooling= 19.2 %
- Percentage of people with Higher Education= 2.5 %
- Percentage of people with Matric= 15 .0%
- Percentage of Primary Education Enrolment (Ages 6-13)=93.7 %

There are 34 primary schools within the Great Kei municipal area - located at Komga, Mooiplaas (9), Kwelerha, Ocean View, and Icwili and upon Farms (20).

There are 8 combined schools - located at Springvale, KwaTuba, Eluphindweni, Kwa-Jongilanga, Mooiplaas (2) and Farms (2). Three (3) secondary schools exist at Mooiplaas, Icwili and Eluqolweni.

Table: Number of Primary and Secondary Schools

Great Kei Municipality	Primary Schools	Secondary /Combined Schools
Number of schools	34	8
Number of Schools/1000 children	2.62	0.19

Table above illustrates the total number of schools and average number of schools per 1 000 children (between the ages of 5 and 19).

In the area there is a notable deficiency in secondary schools available (only eight), resulting in this municipality being forced to send their pupils to secondary schools outside the municipal area.

There is a trend that the educational facilities within the urban areas are of better quality and regular maintenance is being undertaken. Most of the population is leaving the municipality to receive further secondary and tertiary education, they do not return to the municipality after completing their education.

Table : Adult Literacy Rate

Adult Literacy rate	Defined as the percentage of people' (male and female) age 15 years and over who can, with understanding, both read and write a short simple statement on their everyday life.	
1	Total Gt. Kei (female and male)	Adult Literacy 74,4%
2	National (female and male)	81.8%

Source MDB, 2001

The Great Kei Municipal area appears to have a high illiteracy rate (25, 6%) when compared to the rest of the country (refer to Table 9). This fact may be ascribed to a general low provision in higher education facilities within the municipality, a low demand for literacy within the local economic sector and the loss of a portion of the literate population to other work centers outside the municipality.

3.4.4 HEALTH

Health facilities within the area consist of one community health centre (Komga) and 5 clinics (Komga, Kwelera, Mooiplaas (2), and Icwili). The availability of health facilities is an important determinant of the health status of the sub-region. This refers not only to their existence, but also ease of access to and quality of health facilities. As most health facilities fall within the urban areas, most of the rural population has limited access to these facilities. Some 58% of people live more than 5 km from medical facilities and only 1, 5% have access to a medical benefit fund (DBSA, 1997).

Table 20: Hospital Beds

Hospital beds	Number of persons per hospital bed.	
	Total population should be divided by number of beds.	
	Great Kei Municipality	Number of beds
1	Com. Health Centre	16
5	Other (Clinics)	4
6	Total	20
5	Number of person/bed	2234

Source Department of Housing & Local Government, 1997

According to the Department of Housing and Local Government (1997) the total capacity of hospitals and clinics in the district is 20 beds (refer to Table 7). This amounts to ½ bed / 1 000 people in the district or 2 234 persons/bed. This figure is much lower than that of the central sub region (2, 3 beds per 1 000 people) and 5, 1 beds / 1 000 for South Africa.

There is a strong trend towards decentralization in South Africa and tremendous demands are being placed upon the local government sphere. Local government currently does not have the capacity to accept and carry out additional functions.

It is in this context that the District Health System is being established. The process of developing such a system will have to take account of current reality and the various processes that will impact on health service delivery. It will be important for people involved in the health sector to:

- participate in the Integrated Development Planning process;
- explore new mechanisms for delivering services;
- engage with the allocation of health service functions to Municipalities;
- Continue to improve the rendering of high quality health care in an integrated manner.

3.5 SPATIAL ANALYSIS

The municipality adopted a Spatial Development Framework in 2005/2006 Financial Year. It is against this background that the SDF is currently reviewed in partnership with Amathole District Municipality, for alignment with 2013/2017 Integrated Development Plan.

The spatial characteristics of the Great Kei Municipal area are largely determined by the influence of the coast, the Great Kei River and the National Road which dissects it in an east/west direction. There are four main nodes which are dominated by the influence of nearby Buffalo City. Komga is the main service centre, with Kei Mouth, Haga Haga, Cintsa and the Glens forming the other nodes.

There are three significant development areas in the area; the two settlement areas of Kwelera and Mooiplaas and the coastal belt. The settlements of Kwelera and Mooiplaas can be classed as model 2 type settlements. Formal planning has been carried out in Kwelera and currently being carried out in certain villages in Mooiplaas. Small scale subsistence farming is practiced in both settlement areas. Densification of these settlements is proposed, with the provision of basic services.

The areas of Kei Mouth and Chintsa East are regarded as major coastal resorts and settlement model type 1. With the upgrading of the main road MR 695/687 to Kei Mouth, tourism has increase significantly. These areas have large amounts of tourism potential but an upgrade in infrastructure is required to support development.

Within the municipality itself there are agricultural areas and game/ tourism reserves which offer a wide variety of land uses and opportunity. It is significant to note that the entire municipal area is dissected by roads but the majority of the population is living in areas which are relatively remote from the service centres, the municipal offices and the coastal employment opportunities.

Upgrading of the road network, especially the links between Kwetyana (Newlands on the N6) and the junction with the N2 at the Mooiplaas Hotel area and onwards to Kei Mouth, has a significant impact on development and transportation in the area. In addition, it is envisaged that focused development in the vicinity of Mooiplaas junction could see the longer term establishment of a Service Centre which would bring services, commerce and local economic development closer to the communities of Kwelera and Mooiplaas. This is enhanced by the location of the Multi-Purpose Centre and the Sports Complex in closer proximity to rural communities.

Finally, it is noted that from a transportation point of view, this junction is at the central pivotal point in the area where all transport has to pass. This creates an opportunity for travellers fuelling centre, tourism information centre, taxi and bus facility shops, workshops, education, skills training. It is anticipated that private sector investment will occur in all areas of the Municipal area provided an enabling environment of infrastructure and Land Use Management is created. Prime areas for investment are in coastal resorts, eco-tourism, game farming and commercial development.

The Reviewed Spatial development framework will be used by the Great Kei Municipality to guide its land use management procedures in future. With the Spatial Development Framework, the Municipality is able to proceed in carrying out a detailed land use survey of its area and through a consultative process establish a land use management system.

3.6 LAND AND AGRICULTURE

The Great Kei Municipality covers an area of 1 421 km². 1 364 km² of land is used for agricultural production. 96% of the agricultural land is owned by private commercial farmers. 77% of this land is utilized as a grazing land for livestock (Cattle, Sheep, and Goats & Game). The remainder is utilised for Crop production (vegetable), Hydroponics & Dairy. Therefore GKM is predominantly a livestock producing area. Farmers Associations

- Commercial Farmers Association
- Emerging/Small Scale Farmers Association
- Communal Farmers Association

The table below illustrates the results of the Land Audit commissioned by the municipality.

Land Use		Urban	Great Kei Municipality
		Areas in Km2	Agglomeration
1	Residential	57.00	1,421.00
1a	Formal residential	20.00	20.00
1b	Informal residential	10.00	10.00
2	Business	1.00	0.50
3	Agriculture	1.00	1,364.00
4	Services	3.00	20.00
5	Transport	1.00	1.00
6	Other	21.00	4.50
7	Total	57.00	1,421.00
8	Conservation area (%)	5.0%	0.4%

Source: D Data (1995) - Existing Land Use / Magisterial district

3.6.1 CASP Projects 2012/13

Project Name	Km fenced	Budget	Progress/Outputs/Outcomes
Grey Valley Farm	10.4km	R 400 000	Grey Valley Farm- Tender process has been used, 7 people are employed in the project
Quku Valley Farm	11km	R 480 000	Quku Valley Farm- Community fencing has been used, DRDAR has provided fencing material. 16 people from Soto community that were trained in fencing are employed in the project.

3.6.2 Veterinary Services

- 15 dip tanks dipping about 8 836 Cattle in the communal Areas of GKM.
- Sheep Scab Campaign (1 952 sheep)
- Rabies Vaccination (2 131 dogs)
- Ngxingxolo Dip Tank has been finished

3.6.2.1 AGRICULTURE

a) Veld Conditions

The study commissioned by the municipality to University of FortHare identifies Six Veld Conditions with Great Kei LM:

- Afromontane forest
- Coastal forest
- Coastal grassland
- Dune thicket
- Eastern thorn bushveld
- Moist upland grassland and the valley thicket
- Four different sample sites showed a variation of 36% to 78 % in the veld condition score afromontane forest
- Average grazing capacity of the place was found to be 4.9ha/AU

b) Small Holder Development

The Average Hectares is 457.88. When compared with other municipalities the Smallholder development is illustrated as follows

Smallholder Development – Livestock Production

Municipality	Cattle	Goats	Sheep	Pigs
Amahlathi	85.7%	42.8%	28.5%	14.2%
Great Kei	100%	66.6%	16.6%	0%
Mbhashe	40%	40%	10%	0%
Mnquma	85.7%	42.8%	42.8%	0%
Ngqushwa				
Nkonkobe	100%	100%	0%	0%
Nxuba	100%	25%	32%	33.3%

Smallholder Development – Crop Production

LM	Maize	Cabbage	Potatoes	Spinach	Butternuts	Carrots	Beans
Amahlathi	28.5%	14.2%	0%	14.2%	28.5%	14.2%	0%
Great Kei	25%	16.6%	0%	16.6%	0%	16.6%	0%
Mbhashe	10%	20%	20%	20%	0%	20%	0%
Mnquma	57.1%	57.1%	14.2%	57.1%	42.8%	14.2%	0%

Nkonkobe	87.5%	100%	75%	62.5%	62.5%	25%	25%
Nxuba	25%	25%	0%	25%	25%	50%	0%

(Source Study Commissioned to University of FortHare).

3.7 ENVIRONMENTAL ANALYSIS

A) ENVIRONMENT AND NATURE CONSERVATION

Great Kei Local Municipality adopted an Integrated Environmental Waste Management Plan commissioned by the Department of Environmental Affairs in 2011/2012 financial year, in line with GKLM Waste Management By-Laws.

There is a need for vigorous efforts to take these factors into consideration by ensuring adherence to current environmental legislation. The municipality is in a process of licencing one existing landfill site. The municipality is also planning to co-ordinate processes of licencing the existing Transfer Stations. Specific environmental issues affecting the local municipality and requiring attention at present include but not limited:

- Recycling is also suggested to deal with the waste as well as add value to the current unemployment levels.
- Soil erosion across the area, through a practical rehabilitation plan. Productive land is being lost every year as topsoil is eroded, reducing grazing area and crop production potential.
- Invasive plants and noxious weeds need control as they overtake land which could be used for more productive and sustainable purposes.
- Blue Gum
- Black Wattle
- Acacia Karoo

Funding of Environmental Management Programs by the Department of Environmental Affairs:

- The Department of Environmental Affairs dedicated human resources for Great Kei local Municipality
- The Department funded Removal of Alien Species Program Cwili and Kei Mouth and 77 job opportunities were created in 2012/2013 financial year
- 109 Job opportunities were created for Kei Mouth to Chintsa Working for the Coast project funded by the Department of Environmental Affairs.
- Cleaning of Great Kei Local Municipality Street Cleaning and Beautification funded by the Department of Environmental Affairs at a total amount of R7,6 million raised the profile of the town.
- In 2013/2014 financial year; the Department has further funded **Working For the coast EC- WFTC Fish River to Great Kei Project** under the auspices of Expanded Public Works Programme (EPWP) and Adopted Great Kei Expanded Public Works Programme (EPWP) Policy.
- Project budget is R12,750 000.00
- The Business Zone 852 cc is Appointed as An implementing agent by DEA and is expected to create at least 35 jobs within GKM

Project Deliverables aim at addressing some of the challenges identified above and promote cleanliness and beautification such as:

- **Coast cleaning and tourism nodes:** removal of foreign objects and disposal Daily Sweeps, Litter picking,
- **Maintenance of the Coastal Infrastructure:** Construction of the Board walks and maintenance of existing ones, braai areas, picnic areas.
- **Creating of access** through construction of Hiking Trails and pathways to the Different areas.
- **Upgrade and Maintenance of Coastal infrastructure** : Renovation of the Tidal Pool, Bins installation, Braai facilities, Signage, Educational and Directional
- **Alien Clearing and planting of trees:** clearing and removing of alien plants applying the appropriate methods.
- **Rehabilitation of Coast Lines:** Stabilising Dunes Gabions and vehicles control measures

B) CLIMATE CHANGE

The Great Kei Municipality Spatial Development Framework proposes that GKM should approach spatial planning with climate change in mind. The following recommendations were proposed to advance the thinking:

- Greenhouse gases are thought to contribute to global climate change, and these gases include carbon dioxide, carbon monoxide and methane. Carbon dioxide and carbon monoxide are released from inter alia vehicle tailpipes and during the burning of fuel-wood. Methane is released by domestic livestock and waste disposal sites. However, it is important to note that the subtropical thicket found within the GKM is very efficient at capturing carbon and hence at offsetting the effects of the greenhouse gas emissions.
- Therefore the SDF further proposes that the protection of biodiversity is the primary motivation for the protection of the subtropical thicket, it nevertheless has additional value as inter alia a potential means to slow down, or buffer the rate of climate change.
- Generally temperature has risen (0.11% / decade)
- Precipitation has generally declined in the south-eastern part of the Eastern Cape while it has increased in the northern part of the EC
- Consecutive dry days (CDD) have increased while Consecutive Wet Days (CWD) have declined which generally contributed to the decline in precipitation.
- **Environmental Sensitive Areas have been identified as follows:**
 - Mountain catchment areas
 - River systems
 - Wetlands
 - Coastal areas
 - Severely degraded areas

- Riparian Zones

Current Environmental Risks:

C) OPEN SPACE SYSTEM (PARKS & RECREATION)

The Department of Environmental Affairs funded the Great Kei Municipality Recreational Park at an amount of R5 Million.

D) NATURAL ENVIRONMENT

i) Great Kei Coastal Zone

Since it is particularly the coastal areas that are under pressure for the development in Great Kei, it is therefore important to define the Great Kei Coastal Zone:-

- The coastal zone in GKM is considered to extend from the edge of the territorial waters (12 nautical miles) on the seaward side, including the seashore (coastal public property); stretching between the high and low water spring tide marks, and extending inland for 1km from the inland boundary of the coastal public property in areas not zoned as residential, commercial, industrial or multiple-use or within 100m of the high water mark within these zoned areas.
- The coastal zone includes estuaries which are defined as that part of a river near mouth which is influenced by tides and in which marine and mixing of marine and fresh waters occur, extending up to the uppermost region of the system which is influenced by the tidal cycle. And includes the terrestrial/riparian area of the estuary up to the 10m contour for wide valleys or the crest of the ridge in deeply incised river valleys.

The coastal area definition is relevant as it is in this zone that coast-dependent activities should receive priority from the planning perspective.

ii) Temperature and Rainfall

The GKM Spatial Development Framework indicates that the climatic conditions of GKM varies from mild temperature conditions (14 - 23 °C) along the coast to slightly more extreme conditions (5 – 35 °C) in the hinterland, (source: National Botanical Institute, Cape Town).

The mean annual rainfall in the municipality amounted to 756.7 mm per annum.

The annual temperature amounted to 17.8 °C.

The mean maximum temperature of the warmest month of the year amounted to 25.7°C.

The mean minimum temperature of the coolest month of the year amounted to 8.1 °C.

Potential evapotranspiration amounted to 589mm per annum.

The potential evaporation ratio for the area is 0.77, which falls within the hold ridges "humid" humidity province.

3.8 BASIC SERVICE DELIVERY AND INFRASTRUCTURE DEVELOPMENT

3.8.1 Water services

a. Water services delivery strategy and main role-players:

The ADM is the Water Services Authority and a Water Services Provider, thus the Great Kei Local Municipality participates in the development of Water Services Plan to inform planning and funding requirements. The ADM is planning Construction of Water Reticulation to 1140 erven and Upgrading of bulk water supply for Great Kei Local Municipality.

b. Levels and standards in water services:

An increase in the water services provision is noticed between 2001 and 2011 where in 2001 only 8.4 % households had an access to piped water services whilst in 2011 about 13.7 % households have access to piped water services.

3.8.2 Sanitation Services

a) Sanitation services delivery strategy and main role-players

Great Kei local Municipality is not the sanitation service provider but this function is contracted to Amathole District Municipality and with counter funding from MIG. Only 9.4 % of the total population has access to flushed toilet services, which is an increase from 2001, where only 8.9 % of the population had access to the service. **(Census 2011)**

The ADM plans for the financial year 2013/2014 are as follows to reduce the sanitation backlogs:

PROJECT NAME	BUDGET
Komga Commonage Settlement Services	R8 578 000
New Waste Treatment Works- Morgan's Bay	R700 000

NEW PROJECTS STILL TO BE REGISTERED TO MIG

Area Wide Sanitation Projects (Great Kei Phase 1A) All Regions	R10 300 000
Morgans Bay WTW Upgrade	R100 000
Kei Mouth Reticulation	R500 000
Upgrade Komga WTW	R100 000

TOTAL

R20 278 000

3.8.3 Electricity Services

According to Statistics 2011, a total population of 80.2 % has access to electricity services; however there is still a need to reach universal access. The Department of Energy funded upgrading of bulk electricity supply.

The Bulk Electricity Upgrade Project has been completed in December 2012 and 300 split meter were procured to curb tampering. The municipality further plans to engage Eskom and the Department of Energy to fund electrification of new households estimated at 3000 that do have access to electricity.

It is also important to note that High Masts Lights will be installed, Street Lights to be maintained in the financial year 2013/2014.

3.8.4 Public Amenities and Social Infrastructure

The municipality has existing social amenities. Each ward has an existing community hall, such as; Siviwe Community Hall, Komga Town Hall, Komga Great Hall, Kei Mouth, Chintsa Community, Haga-Haga Hall Museum, Morgans Bay Community Hall, Nokhala, Kwelerha, Zozo, Diphini, Nyarha, Ngxingxolo, Makhazi Red Crosss, Mzwini, Mangqukela and Komga Recreation Hall.

There is limited budget allocated for sports and recreational facilities maintenance. This is evident on the status of the sports fields in the municipal area. Other funding institutions on sporting and recreational facilities need to be explored as the municipal budget for this purpose is not sufficient.

Municipal Infrastructure Grant has been utilized by the municipality in the last three financial years for construction of public amenities such as sport fields, pre-schools and community halls.

In 2012/2013 financial year the municipality completed Belekumntwana Community Hall. The plan is to construct Phumelele Crèche, Cefane Community Hall, Lusasa Community Hall, Plangeni/Kwelerha Sport field, Icwili Community Hall, Komga Sport Field, Chintsa East Sport Field, Tuba Community Hall, Eluqolweni Crèche, Gwaba Community Hall, Soto Community Hall and Renovation of Gwaba Art Centre.

3.8.5 Human Settlements

A) Housing

The Municipality has an existing Housing Sector Plan (2011-2016). The Department of Human Settlement appointed a Service Provider to review the Sector Plan in line with 2013/2017 IDP. The key focus areas of the review are as follows:

- Situational Analysis Review
- Feasibility Studies of all planned projects
- Development of the Draft Housing Sector Plan
- Presentation of the Housing Sector Plan to Stakeholders and Final Adoption.

The project is expected to be completed within seven months from June 2013.

The Great Kei Municipality has a diverse housing need relating to the fact that many families live in traditional dwellings in Mooiplaas and Kwelerha (see bar chart below). The coastal towns of Kei Mouth, Morgan's Bay, Haga Haga, Crossways, Bulugha, Glen Muir and Chintsa East have a need to provide serviced sites and low cost housing for the workers who would like to live in these centres. There is also potential for development of holiday homes and tourism related accommodation. Currently, we've applied to our provincial housing department for the following projects: Komga Zone 10 1200 units, Komga phase 2 400 units, Haga Haga 300 units, Cefane 250 units.

Figure: Housing Type

Source Department of Housing & Local Government, 1997

Table: Housing Type

Traditional	Informal	Formal	Other
57%	6%	35%	2%

Most households live in traditional structures (57 percent) with 35 percent of households living in formal structures (refer to Table 14). The total housing need for low-income families in Komga is estimated by the Council at 3 000 houses with serviced sites. The settlements in Kwelera and Mooiplaas also require formalization of tenure and infrastructure. The municipality has to plan for the extension of services inclusive of housing for Chintsa East, Kei Mouth and Komga.

B) Formal Housing

Private developers are involved in the provision of most formal housing within the urban areas; however people in the lower income groups have been marginalized by this as they cannot afford the types of housing presently provided. This has led to a high demand for rented accommodation, overcrowding and increased numbers of backyard shacks. A very high demand for serviced sites and housing thus exists.

The Provincial Housing Board subsidy projects have the opportunity of making inroads into the affordable and low cost housing need. However, the over allocation of funding together with the slow rate of delivery places a number of new housing projects on the waiting list.

During the IDP/ Budget Review 2005/ 2006 an allocation of 6000 Units was identified and it was broken down into allocation by Wards that is, 1000 Units per Ward. Due to the problem with the existing housing projects a Directive from the Office of The MEC, Housing, that priority must be given to blocked, stopped, and incomplete projects.

Developments are that, the Icwili Phase I (255) housing project has been unblocked and therefore 84 houses will be built an additional 19 houses will be completed. With regard to Chintsa East housing project, bulk infrastructure is the problem and the Municipality is advised

to talk to ADM for temporary provision of these services whilst waiting for the completion of Bulk Water Scheme project.

The Municipality has forged relations with Afesis Corplan and our Provincial Housing Department. Afesis Corplan promotes a concept known to be LAND first in an attempt to discourage expansion of shacks. The approach emphasizes the notion of being pro-active as government of the people by providing surveyed sites to all home seekers, provide basic services and guarantee the occupant to be the owner of that piece of land through certificate of ownership. We have identified Kei Mouth –Icwili as a pilot. We have consulted the immediate community and agreed to the program/project. We are now awaiting approval from the office Surveyor General.

The Municipality with the Department of Human Settlement have agreed to work together: The main purpose was for the Department to provide technical support to the municipality by developing business plans for capacity enhancement in performing the housing function including management of housing projects.

Table 15: Current Housing Access

Proposed Housing Development

Morgan's Bay	200
Kei Mouth (Icwili)	250
Chintsa East	500
Komga Zone 10	1140
Komga Phase 1	96
Komga Phase 2	400
Haga-Haga	300
Cefani	250
Tainton	250
Municipal wide	6000

Informal Housing

The in-migration of people to urban centres is manifest in informal settlements developing in the periphery of towns and small centres. This leads to an increase in the urban population density through further fragmentation of urban land for housing, including the establishment of backyard shacks.

The number of informal settlements is growing because existing accommodation cannot meet the demand for housing. There is an increasing demand by the lower income groups for land and services for housing.

It is envisaged that the Reviewed Housing Sector Plan will address the following challenges identified:

- Screening of Beneficiaries

- Land Availability and Land Ownership
- Bulk Infrastructure
- Environmental Studies such as Geotechnical Surveys ets

C) HEALTH

Health facilities within the area consist of one community health centre (Komga) and 5 clinics (Komga, Kwelera, Mooiplaas (2), and Icwili). The availability of health facilities is an important determinant of the health status of the sub-region. This refers not only to their existence, but also ease of access to and quality of health facilities. As most health facilities fall within the urban areas, most of the rural population has limited access to these facilities. Some 58% of people live more than 5 km from medical facilities and only 1, 5% have access to a medical benefit fund (DBSA, 1997).

Table 7: Hospital Beds

Hospital beds	Number of persons per hospital bed.	
	Total population should be divided by number of beds.	
	Great Kei Municipality	Number of beds
1	Com. Health Centre	16
5	Other (Clinics)	4
6	Total	20
5	Number of person/bed	2234

Source Department of Housing & Local Government, 1997

According to the Department of Housing and Local Government (1997) the total capacity of hospitals and clinics in the district is 20 beds (refer to Table 7). This amounts to ½ bed / 1 000 people in the district or 2 234 persons/bed. This figure is much lower than that of the central sub region (2, 3 beds per 1 000 people) and 5, 1 beds / 1 000 for South Africa.

There is a strong trend towards decentralization in South Africa and tremendous demands are being placed upon the local government sphere. Local government currently does not have the capacity to accept and carry out additional functions.

It is in this context that the *District Health System* is being established. The process of developing such a system will have to take account of current reality and the various processes that will impact on health service delivery. It will be important for people involved in the health sector to:

- participate in the Integrated Development Planning process;

- explore new mechanisms for delivering services;
- engage with the allocation of health service functions to Municipalities;
- continue to improve the rendering of high quality health care in an integrated manner.

3.8.6 Transport Services and Roads Infrastructure

a) Transport Services

Council adopted Terms of Reference and resuscitated Roads Forum in 2012/2013 financial year. It is envisaged that the Forum will sit on quarterly basis effectively from 2013/2014 financial year.

It is a known fact that public transportation is very limited in GKLM. A Roads Management Plan would address the above issues and the Amathole District Municipality and Department of Roads and Transport were approached for funding. A Transport Forum is functional and they meet on a quarterly basis.

The provision of formal public transport is lacking between the major travel destinations within the area. There are few registered taxi routes and no formal bus routes. Bus Shelters; Landstrip and maritime transport are other existing types of Transport.

A backpacker bus runs on request between Kei Mouth and East London but is expensive. The Baz bus (a back packer bus) from Cape Town to Durban stops daily at Buccaneers at Chintsa West.

There is a Kei-Rail passenger service running between East London and Umtata passes through Komga. The East London, Amabhele to Umtata Railway which once was an important service to the Transkei has come back in the area. The Provincial Government and Department of Transport has revived this railway to offer commuter and freight transport opportunities.

As a result of the current lack of formalized public transport, commuters travelling between Komga and Kwelera must travel via East London.

There is a need to establish formal taxi and bus routes within Great Kei to link Kwelera, Mooiplaas, Komga, other coastal towns and East London. Transport routes traversing in an East-West direction should be investigated to link Mooiplaas and Kwelera, currently situated either side of the N2 to the N6.

b) Integrated Spatial Development Framework in terms of transportation

The spatial characteristics of the Great Kei Municipal area are largely determined by the influence of the coast, the Great Kei River and the National Road which dissects it in an east/west direction. There are four main nodes which are dominated by the influence of nearby Buffalo City. Komga is the main service centre, with Kei Mouth, Haga Haga, Chintsa and the Glens forming the other nodes.

There are three significant development areas in the area; the two settlement areas of Kwelera and Mooiplaas and the coastal belt. The settlements of Kwelera and Mooiplaas can be classed as model 2 type settlements. Formal planning has been carried out in Kwelera and currently being carried out in certain villages in Mooiplaas. Small scale

subsistence farming is practiced in both settlement areas. Densification of these settlements is proposed, with the provision of basic services.

The areas of Kei Mouth and Chintsa East are regarded as major coastal resorts and settlement model type 1.

With the upgrading of the main road MR 695/687 to Kei Mouth, tourism has increased significantly. These areas have large amounts of tourism potential but an upgrade in infrastructure is required to support development.

Within the municipality itself there are agricultural areas and game/ tourism reserves which offer a wide variety of land uses and opportunity. It is significant to note that the entire municipal area is dissected by roads but the majority of the population is living in areas which are relatively remote from the service centres, the municipal offices and the coastal employment opportunities.

Upgrading of the road network, especially the links between Kwetyana (Newlands on the N6) and the junction with the N2 at the Mooiplaas Hotel area and onwards to Kei Mouth, has a significant impact on development and transportation in the area. In addition, it is envisaged that focused development in the vicinity of Mooiplaas junction could see the longer term establishment of a service centre which would bring services, commerce and local economic development closer to the communities of Kwelera and Mooiplaas. This is enhanced by the location of the Multi-Purpose Centre and the Sports Complex in closer proximity to rural communities.

Finally, it is noted that from a transportation point of view, this junction is at the central pivotal point in the area where all transport has to pass. This creates an opportunity for travelers fuelling centre, tourism information centre, taxi and bus facility shops, workshops, education, skills training. It is anticipated that private sector investment will occur in all areas of the Municipal area provided an enabling environment of infrastructure and Land Use Management is created. Prime areas for investment are in coastal resorts, eco-tourism, game farming and commercial development.

c) Roads Infrastructure

Road construction and improvement is considered as the prime infrastructural component to the municipality that would assist in bringing about improved access for tourism, health facilities and agricultural developments. Roads leading to coastal areas are usually gravel or in a state of disrepair.

The road network within the Great Kei Municipality consists of 729, 55 kilometers of surfaced and unpaved road. Unpaved roads are defined as gravel roads as well as non-gravelled roads and tracks i.e. identified access or minor roads that have not been upgraded in any way. The responsibility for capital expenditure and maintenance rests with various authorities including the Great Kei Municipality.

The Table below schedules the various categories of road, the length of road and the authority responsible for capital expenditure and maintenance.

Table: Categories of Road

Road Classification	Lengths (km)		Responsible Authority
	Paved	Unpaved	
National	48,97	0	South African National Roads Agency
Trunk	23,45	0	
Main	4,27	41,11	Department Of Roads and Public Works Great Kei Municipality
Minor	32,45	71,82	
Access	21,30	463,65	
	0	22,53	
TOTAL	130,44	599,11	

The Great Kei Municipality is thus directly responsible for 21, 30 kilometers of surfaced and 486, 18 kilometers of unpaved road.

Available records indicate that, of the unpaved minor and access roads approximately 258 kilometers have gravel surfacing i.e. some betterment, drainage work and gravelling has taken place previously while approximately 228 kilometers can be classified as non-graveled roads or tracks i.e. no improvement has taken place and roads have only been identified but are in use.

It is also important to note that located on the unpaved minor and access roads a total of approximately 41 structures i.e. stream crossings with minor structures and causeways (not pipes) have been identified and a total of approximately 56 stream crossings requiring minor structures have been identified. The status of unpaved minor and access roads in terms of upgrading and structures is given in the table below:

Table: Road Status

Road Classification	Roads Status 1.		Structure 2.	
		Non-gravelled/Tracks	Existing	
Minor Access		214	401	
		14		
TOTAL	258	228	401	

Structures exclude all pipe culverts.

Existing gravel roads and structures have been assessed to determine if the existing infrastructure meets desirable standards and any upgrading required.

With the establishment of the Transport Forum, Great Kei Municipality can safely say coordination and management of various activities implemented by responsible authorities such as the Department of Roads and Public Works in regard to both capital and maintenance works on roads under their jurisdiction i.e. trunk and minor roads to ensure a holistic approach. Existing infrastructure as well as infrastructure developed through capital expenditure requires regular and on-going maintenance to preserve the asset created and to prevent premature deterioration.

An overall integrated strategy will be achievable which will address issues such as higher order strategies developed by National Departments, Provincial Departments and the District Municipality as well as local issues and requirements such as, road standards, policy. This must also integrate with other initiatives within the Great Kei Municipality e.g. the construction of a clinic, school or sports facility should be preceded by the construction of an access road to ensure a holistic approach to the provision of services.

Municipal Infrastructure Grant (MIG) has been utilized by the municipality in the last three financial years for construction of roads. The municipality adopted a three year capital plan which is reviewed each financial year. A capital grant (MIG) of R15 M has been set aside for roads and bridges construction projects in 2013/2014 financial year. The municipality has a functional Project Management Unit, responsible for implementation, reporting and monitoring of capital projects.

The following roads infrastructure projects and bridges are planned for the financial year 2013/2014:

PROJECT NAME	ESTIMATED AMOUNT
INTERNAL STREETS OF SILATSHA	R 1 250 000.00
REHABILITATE CEFANE BRIDGE	R 850 000.00
SIVIWE INTERNAL STREETS	R 1 500 000.00
MANXIWENI INTERNAL STREETS(MZWINI EXTENTION)	R 1 500 000.00
KOMGA INTERNAL STREETS	R 1 142 250.00
MORGANS BAY ACCES ROAD- YELLOW WOOD	R 2 450 000.00
CHINTSA EAST TOWNSHIP ROAD AND NEW SETTLEMENT	R 2 320 000.00
SOTO SOCCER PITCH	R 1 000 000.00
KEI MOUTH ROADS	R 1 100 000.00

The municipality plans to develop and implement its own Roads Management Plan in 2013/2014 financial year.

3.9 Community Services

A) PROTECTION SERVICES

The GKM has three sections dealing with Protection Services, namely: Traffic, Fire and Disaster Management.

Traffic services are the core competency of the Department of Transport, and GKM and the Department of Transport have a formal working relationship guided by a Service Level Agreement (SLA). The GKM has five traffic officers and there is still a need to appoint one officer and an examiner of vehicles.

Fire Services and Disaster Management are core functions of ADM. The ADM however renders the services on behalf of the GKM (without a SLA). Disaster Management volunteers have been established in the three (3) towns of Kei Mouth and Morgan's Bay, Chintsa and Komga. All of them have been trained on basic disaster management principles such as first aid; radio communications, firefighting, etc. The Fire Services have appointed Fire Fighters and a Station Commander who are working in putting the systems in place. There is a fully Hazmad vehicle and a Fire engine fully equipped stationed at the Fire station at Komga

Traffic By-laws are available. Great Kei Disaster Management Risk Assessment Profile will be developed in partnership with ADM. Peace Officers have been trained, but not yet appointed as such.

The Community-based planning initiative identified a major need for crime prevention associated with community based Taverns and alcohol consumption. In an attempt to address such instances of crime by means of a Community Policing Forum, which could undertake nightly neighborhood watches. The Municipality is represented in the Community Policing Forums. The GKM plans to develop a Liquor Trading By-Law.

Protection services are an important function of the municipality because it provides vital emergency services as well as signage, etc. that make the navigation of the towns easy for tourists and potential investors.

B) SAFETY

The municipality has Integrated Safety Plan and Existing Community Safety Forum. The municipality works in partnership with SAPS; Moral Regeneration Movement; Community Safety Forums to do awareness campaigns towards combating crime.

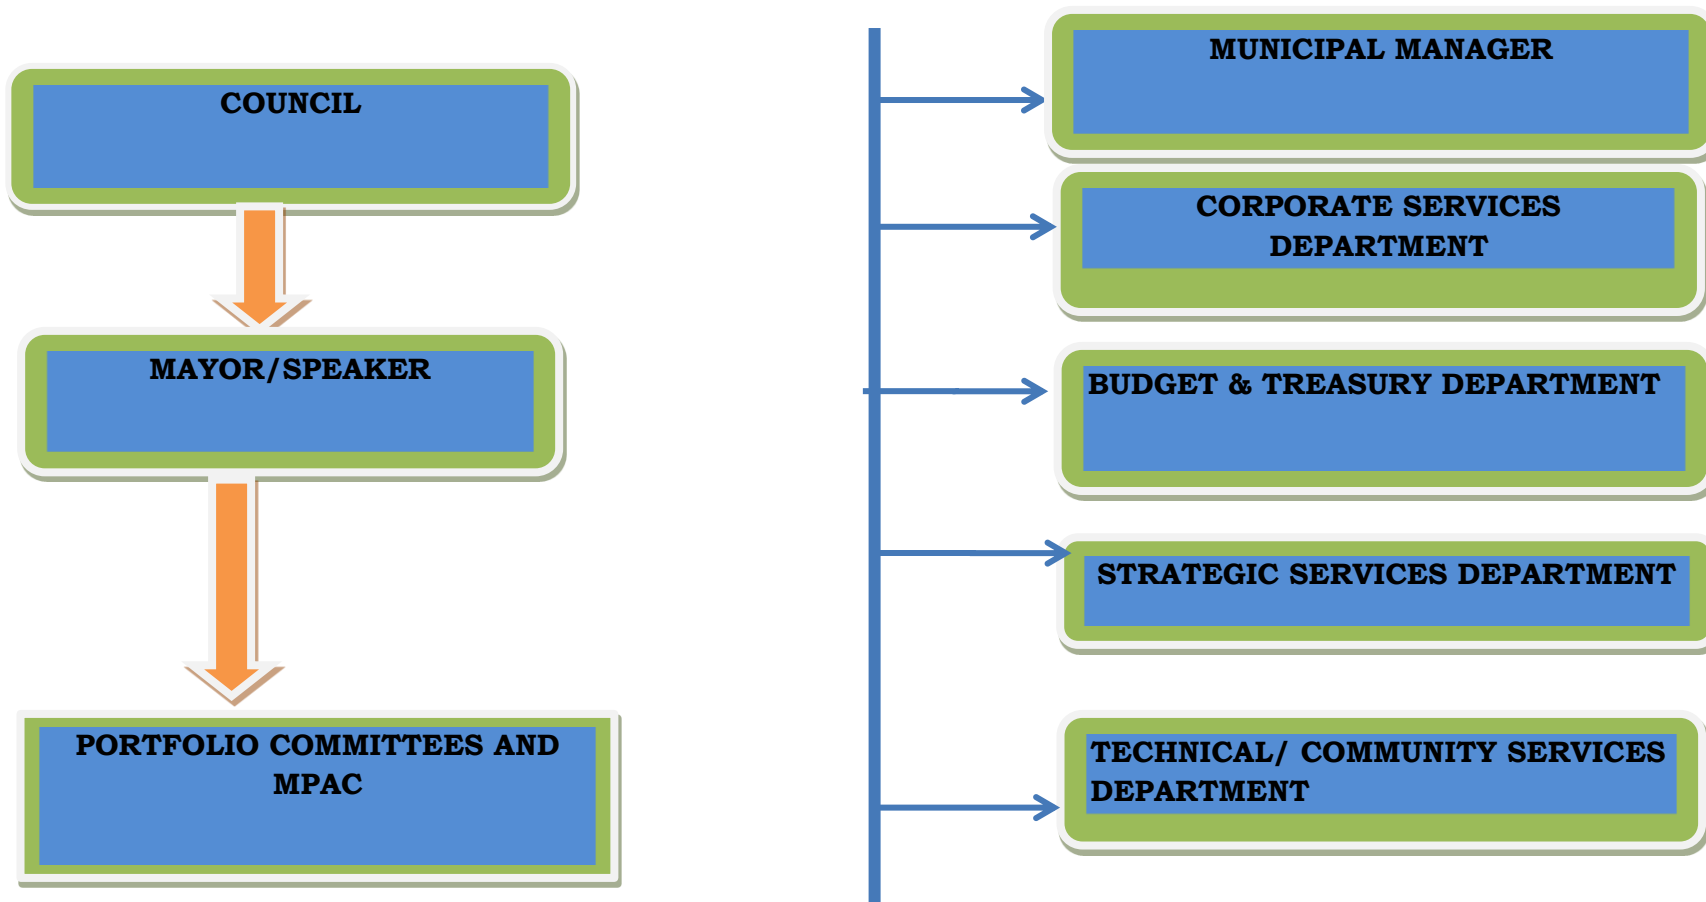

3.10 INSTITUTIONAL DEVELOPMENT AND ORGANIZATIONAL TRANSFORMATION

3.10.1 ADMINISTRATION

On Institutional Development and Organizational Transformation, the municipality has adopted an Organizational Structure in 2012/2013 financial year. The GKLM Organizational Structure is reviewed simultaneously with Integrated Development Plan for 2013/2017. Statistics on recruitment are as follows:

Year	Total Posts	Filled Posts	Vacant Posts
2009/2010	110	102	8
2010/2011	120	106	20
2011/2012	134	123	11
2012/2013	173	126	47

GKLM Organisational Structure

3.10.2 Staff Profile in the Financial Year 2011/2012 and 2012/2013 Financial Year

- Number of positions in the organogram 2011/2012 = 134
- Number of filled positions 2011/2012 = 123
- Number of Vacant positions 2011/2012 = 11
- Number of positions in the organogram in 2012/2013=173
- Number of positions filled=126
- Number of Vacant Positions=47

It is important to note the progress made in filling of Vacant Funded Positions in the following departments:

- Municipal Manager's Office- 1 Position advertised; recruitment and selection process underway incumbents expected to report beginning 2013/2014 financial year
- Corporate Services- 03 positions advertised; recruitment and selection process done for two positions and will be reporting in 2013/2014 financial year.
- Budget and Treasury Office- 08 Positions budgeted and advertised; recruitment and selection process underway; incumbents expected to report beginning 2013/2014 financial year
- Community Services: 14 Positions budgeted and advertised; one incumbent to report in July 2013 and 13 incumbents to report beginning 2013/2014 financial year
- Technical Services: 07 Positions recruitment and selection process underway incumbents expected to report beginning 2013/2014 financial year
- Strategic Services: 02 positions one incumbent reported in 2012/2013 financial year and one to report beginning 2013/2014 financial year.

The following are the positions that were either vacant as per the Approved Organizational Structure or vacant due to resignations and they were filled in 2012/2013 financial year:

MONTH	POSITION	DEPARTMENT
July 2012	Director: Technical and Engineering/Community Services	Technical & Engineering / Community Services
July 2012	Director: Strategic Services	Strategic Services
July 2012	Administration Officer	Technical & Engineering / Community Services
July 2012	Supply Chain Management Practitioner	Budget & Treasury

July 2012	General Worker	Technical & Engineering / Community Services
July 2012	Tractor Driver – Haga Haga	Technical & Engineering / Community Services
August 2012	Payroll Officer	Budget & Treasury
August 2012	Senior Accountant	Budget & Treasury
August 2012	Temporary Technician	Technical & Engineering / Community Services
August 2012	Temporary Infrastructure Manager	Technical & Engineering / Community Services
August 2012	IDP/PMS Manager	Strategic Services
September 2012	Secretary to the Mayor	Municipal Manager's Office
October 2012	Admin & Asset Manager	Corporate Services
October 2012	Project Manager	Technical & Engineering / Community Services
January 2013	Records Officer	Corporate Services
January 2013	Supply Chain Management Practitioner	Budget & Treasury
January 2013	Executive Secretary – Office of the Municipal Manager	Municipal Manager's Office
January 2013	Internal Audit Manager	Municipal Manager's Office
January 2013	Finance Intern	Budget and Treasury
February 2013	Acting Director: Corporate Services	Corporate Services
February 2013	Acting Director: Strategic Services	Strategic Services
April 2013	Asset Officer	Budget & Treasury
June 2013	Supply Chain Management Officer	Budget & Treasury
June 2013	Supply Chain Management Clerk	Budget & Treasury
June 2013	Supply Chain Management Clerk	Budget & Treasury
June 2013	Local Economic Development Officer	Strategic Services

It is important to note that Technical/Community services make use of contract workers when the need arises in the following sections within the department:

- Electricity services
- Waste Management services
- Roads Maintenance services

The municipality has budgeted **R33 250 399 for 12/13** financial year. Total expenditure for 11 months till end May 2013: **R26 540 917.73 (11 MONTHS PERIOD)** which reflects **79.82%** of the total expenditure.

3.10.3 Employment Equity Plan

The Municipality has formulated an Employment Equity Plan with the assistance of Service Provider (Yizani Services Agents) and was submitted to the Department of Labour on the 15 January 2013.

An employment Equity profile for Great Kei Municipality has been concluded for all categories and levels in the workforce. All the information provided is in line with the requirements of the legislation.

The implementation of the Employment Equity Plan has enabled the municipality to make reasonable progress towards equitable representation of suitably qualified people from the designated groups in all occupational categories and levels in the workplace.

The Municipality has further established an Employment Equity Committee. In the financial year 2013/2014 the municipality plans 60 % compliance to the Employment Equity Act. It is against the background that the Committee will be trained and committee sittings will be included in the Institutional Calendar. Summary of the Profile is as follows:

Workforce profile including people with disabilities

Extracted in the Employment Equity Plan form November 2012

Occupational Levels	Male				Female				Foreign Nationals		Total
	A	C	I	W	A	C	I	W	Male	Female	
Top management	1	0	0	0	0	0	0	0	0	0	1
Senior management	2	1	0	1	1	0	0	1	0	0	6
Professionally qualified and experienced specialists and mid-management	14	2	0	1	9	1	0	1	0	0	28
Skilled technical and academically qualified workers, junior management, supervisors, foremen, and superintendents	8	3	0	2	11	3	0	2	0	0	29
Semi-skilled and discretionary decision making	2	2	0	1	15	2	0	1	0	0	23
Unskilled and defined decision making	31	1	0	1	23	1	0	1	0	0	58
TOTAL PERMANENT	58	9	0	6	59	7	1	5	0	0	145
Temporary employees	0	0	0	0	0	0	0	0	0	0	0
GRAND TOTAL	58	9	0	6	59	7	1	5	0	0	145

3.10.4 Workplace Skills Plan 2012/2013

Workplace Skills Plan for the financial year 2012/2013 has been developed. Training programs implemented 2012/2013 financial years are as follows:

a) 2012/2013 FINANCIAL YEAR

Total Number of People Trained	Designation	Course Name	Duration
11	Councilors	Computer Training for Councilors	2 days
1	Councilor	Certificate in Public Administration for Community Services	1 Year
1	Mayor/Speaker	Diploma in Local Government Law	1 year
1	HR Practitioner	Project Kaedu - Strategic Leadership Management Course	2 Weeks
1	Cashier	Local Government	1 Year

		Accounting Certificate	
3	Chief Financial Officer Municipal Finance Intern Municipal Manager	Municipal Finance Management Programme	1 year
2	Payroll Officer Personnel Officer	Payday Training	2 days
13	Project Manager Human Resources Manager ICT and Research Specialist Administration Officer Supervisor Municipal Finance Intern Community Services Manager Cemetery Attendant Superintended Solid Waste Supply Chain Officer Chief Financial Officer DBSA Intern	SCM Internal Workshop	1 day
08	Finance Intern Supply Chain management Officer Chief Financial Officer Human Resources manager Superintended Solid Waste Community Clerk IT Officer	BID Committee	2 days
14	General Workers	Basic Hygiene Skills	3 days
17	General Workers	Waste Management for Genera	3 days
2	Councilors	Certificate in Advanced Programme and Diploma in Local Government Law and Administration	1 year
7	5X Interns 1X Chief Debtors Clerks 1X Income Accountant	GRAP	2 days

Implementation of the Work skills Plan is funded through LGSETA and Operational Budget of the municipality. A total cost of R218 334.58 spent in 2012/2013 financial year has been utilized for training and capacity building. Human Resources Practitioner serves as a Skills Development Facilitator of the municipality with Training Committee. Reports were submitted to LGSETA for the period July 2012 to June 2013.

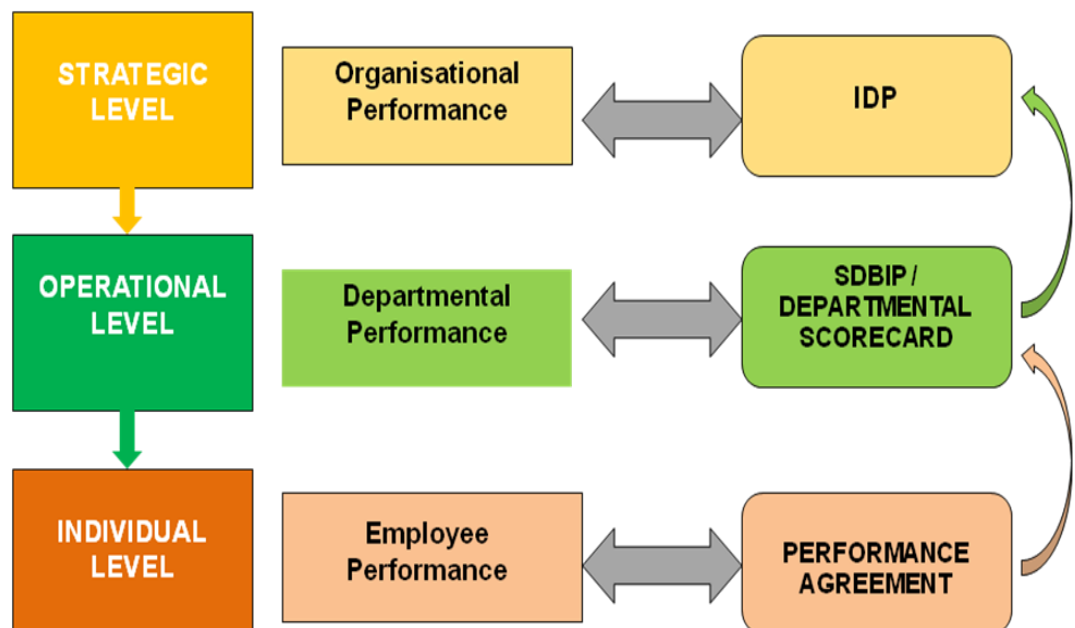

It is further important to note that a Work skill Plan for 2013/2014 Financial year was submitted to LGSETA; developed in line with the 2013/2017 IDP Objectives and Strategies and 2013/2014 Service Delivery and Budget Implementation Plan.

3.10.5 Human Resources Planning

In 2012/2013 Financial year the municipality identified a need to review and draft Job Descriptions for all positions in the adopted Organizational Structure. It is envisaged that the project will be finalized by the beginning of 2013/2014 financial year. Currently 80 % of filled positions do not have job descriptions and 20% of the job descriptions are outdated. In the process of Reviewing and Development of Job Descriptions; Succession; Promotion; Transfer Policies will be applied.

3.11 Performance Management System

Great Kei Local Municipality Performance Management Systems is illustrated in the figure below:

A Summary of Levels of Performance Management

The Great Kei Local Municipality Performance Management System at organizational level in the Municipality is characterized by the steps that are set out in the figure below. Although the steps and what follows relate mainly to performance management at organizational level, the principles and approaches as espoused could also be applied to performance management at departmental level.

FIGURE: STEPS FOR MANAGING PERFORMANCE AT ORGANISATIONAL / DEPARTMENTAL LEVEL

Great Kei Municipality Local Municipality monitors performance through reports submitted to the following authorities on monthly, quarterly and annually:

Submitted to	Frequency
Council	at least quarterly
Municipal Manager	at least monthly
Internal Audit	at least quarterly

As indicated earlier, the organizational scorecard and SDBIP has been adopted by Council in 2012/2013 financial year for consideration and review on a quarterly basis. The reporting therefore took place as follows in 2012/2013 financial year:

Quarter	Period Under Review	Month of Reporting
1 st	July to end of September	October
2 nd	October to the end of December	January
3 rd	January to the end of March	April
4 th	April to the end of June	July

The annual review in January coincided with the mid-year performance assessment as per section 72 of the MFMA. In this realm, GKLM also tabled the Annual Report to Council in January 2013 and Final Annual Report in March 2013, which was further

publicized for public comments. It is also important to note that 8 Performance Contracts for the Municipal Manager; the Chief Financial Officer; Director Strategic Services; Director Corporate Services and Director Technical and Community Services; Internal Audit Manager; Office Manager in the Office of the Municipal Manager and Executive Secretary in the Office of the Municipal Manager were signed.

3.12 Policy Environment for Institutional Development and Organizational Transformation

It is important to note that ADM has appointed Service Provider (Price water Coopers) to review and identify Policy Gaps on behalf of GKM. The following policies are in the process of review; where gaps were identified and amendments proposed in the Training Session with Councilors on 16th May 2013:

Policy	Brief Description/Purpose of the Policy
- Code of Conduct Policy	To ensure adherence to Schedule 1 and 2 of the Municipal Systems Act 32 of 2000
- Recruitment and Selection Policy	Ensure that the Municipality follows best practices in its recruitment and selection processes To comply with the provisions of Employment Equity Legislation
- Subsistence and Travelling	to set out the basis for the payment of subsistence and travel allowance for the purposes of official travelling, either to outlying areas of the Municipality's area of jurisdiction or beyond.
- Telephone Usage Policy	To ensure the effective and efficient use of Municipal telephones; To curb the abuse of Municipal telephones by employees of the Council;
- Training and Development Policy	To improve productivity in the workplace, the quality of life of Municipal employees, prospects for work opportunities and labour mobility (targeting work-related-career planning and development);
- Leave Encashment Policy	To regulate the encashment of leave with due regard to the specific circumstances of employees that may arise from time to time.
- Employment Assistance Policy	To lay a foundation for sustainable, participatory and penetrating

	Employee Assistance Programmes (EAP) and Employee Wellness Programmes (EWP)
- Acting Allowance Policy	To outline procedures for Acting of Municipal Employees and Payments thereof.
- Bereavement Policy	To build a caring environment within the Local Municipality community
- Promotion; Demotion and Transfer Policy	To provide directions on the circumstances under which an employee may be demoted; promoted and transferred and the procedure to be followed in connection therewith.
- Policy on Staff Occupying Council Property	To define the policy for staff occupying Great Kei Municipality property and to provide guidelines for the application thereof.
- Employment Equity Policy	Creating equal opportunities and fair treatment in the employment through the elimination of unfair discrimination.

It is envisaged that the Reviewed Policies including unavailable policies such as Succession Policy; Human Resources Plan; Occupational Health and Safety Policy will be adopted by Council beginning 2013/2014 financial year.

3.13 LABOUR MATTERS

The municipality has established a Local Labour Forum with 10 member's representation as follows:

- Chaired by the Chairperson SAMWU Representative;
- 2 X IMATU Representative
- 2 X SAMWU Representatives
- Portfolio Head Corporate Services
- 2 Councilors and
- 2 Officials In 2012/2013;

Terms of Reference for LLF were adopted by Council. In 2012/2013 financial year three meetings were held and key resolutions were implemented.

The municipality has outsourced Legal Services; which amongst the functions handles disciplinary matters of the municipality after all internal processes have been followed in line with the Code of Conduct Policy.

3.14 Major challenges and remedial actions in regard to human resource and organizational management:

Challenges	Remedial Action
Fully Fledged Top Management- The municipality has functioned without the fully fledged top management structure in 2011/2012 financial year	<ul style="list-style-type: none"> ➤ All 56 Managers Positions were advertised and filled in 2012/2013 financial year.
Skill gap: Labour relations and Employee wellness	<ul style="list-style-type: none"> ➤ Funding of Labour Relations officer. ➤ External Assistance sought for EWP
Audit Queries: Leave and overtime	<ul style="list-style-type: none"> ➤ Improving internal controls: Written Procedures ➤ Improve functionality of HR Module (Pay Day) ➤ External Assistance sought to put leave proper leave administration in place and clean the current leave information.
Salary Disparities	<ul style="list-style-type: none"> ➤ Job Description writing ad bench marking process to be outsourced
Out Standing Labour issues	<ul style="list-style-type: none"> ➤ Expediting pre arbitration ➤ Seeking assistance from SALGA for skilled Presiding and prosecuting officials ➤ Internal Dispute resolutions mechanisms to be explored for salary related matters.

3.15 LOCAL ECONOMIC DEVELOPMENT ANALYSIS

The profile highlighted key challenges facing GKM that impact on local economic development:

- The structural profile (small population, large area and resultant low population density) of the GKM limits access to facilities, services and employment;
- Disparity exists between development in urban and rural areas within the municipality;
- Rural areas have seen a decline in investment;
- High levels of unemployment (40% of economically active population);
- A concentration of employment opportunities (75%) in agriculture and community/ government services;
- High levels of poverty within GKM (more than half of the population living below poverty line);
- Developmental role of LED stakeholders and principles of LED are not clearly understood;

Possible causes of some of these challenges include:

- Low levels of investment;
- Lack of opportunities;
- National trends;
- Lack of skills, education and support;
- Regional influences;
- Developed tourism potential and facilities.

The municipality hosted Local Economic Development Indaba in 2012/2013 financial year towards development of Local Economic Development Strategy.

Key objectives and expected outputs/outcomes of the Indaba were as follows:

- Great Kei Municipality to identify local economic development opportunities based on empirical research
- To identify areas of collaboration with academic institutions; sector departments; Non-Governmental Organizations and Private sector in relation to local economic development planning and implementation
- Promote robust and inclusive local economies.

The following stakeholders participated in the LED Indaba to ensure stakeholder involvement:

- DEDEAT
- SEDA
- ADM
- DLGTA
- DRDAR
- Aspire
- Fort Cox College of Agriculture
- University of Fortthare
- Communal Farmers
- Commercial Farmers

- Emerging Farmers
- Tourism Product Owners
- Wild Coast Jikeleza
- SMME's/Co-operatives
- Milo Granite- a private company that has a mining right CASTLETON Farm.

The municipality is currently implementing key resolutions of the LED Indaba highlighted as follows:

- Ensure availability of the LED Strategy by September 2013
- Start implementation by October 2013
- Establish LED Technical Team/Committee by July 2013
- Resuscitate LED Stakeholder Forum
- Ensure Co-ordination and Sitting of all Forums (Agricultural Stakeholders Forum; Tourism Forums etc)

Key objectives of the LED Strategy are as follows:

- As outline on the National Led Framework, the led strategy seeks to create an environment that enables sustainable economic growth that creates jobs for the local community.
- An economy that emerges to support the national framework and promote sustainable human settlements in rural and urban areas.
- to exploit opportunities in agriculture and tourism, as outlined in the Eastern Cape medium term strategic framework.
- Build the capacity of local community members and other local stakeholders to plan and manage local economic development.
- Stimulate and develop partnerships to plan and implement sustainable local economic development projects
- Facilitate business growth (especially small & medium enterprises) and lever private investment that will specifically benefit the poor.
- Monitor and evaluate led with a view to understand its impact and share learning's.

The Feasibility study commissioned by the Municipality to University of Fort Hare identifies stock farming as the main activity in the local municipality. Historically, the commercial farmers have produced slaughter stock, wool, grains, fruit, vegetables, poultry and poultry products, milk and dairy products (Houghton, 1960).

The coastal belt is the main area of production of cash crops; dairy farming is done on irrigated pastures. Inland, commercial livestock production is the main focus. For the winter months commercial farmers plant fodder crops. Game farming has expanded in the commercial sector, with provision of watering points. In the communal farming sector cattle, goats and sheep are kept in patches in both the coastal belt and inland.

There is a need for farm managers to develop responses that are specific to each farm, based on an assessment of resources and climate risks. The management plan must have four major components (Mavi & Tupper, 2004):

- Identification of the risks to enterprises. This involves estimating the critical times for rainfall and the absolute minimum required to operate
- Analysis of the local climate to establish the chances of the risk occurring – e.g. historical patterns and seasonal forecasts, etc.
- Identification of factors to monitor (rainfall measurement, thresholds of pasture loss before action is taken, e.g. % of ground cover, species changes and weed percentage per paddock, and dry matter produced in kg/ha
- Formulation of an action plan; for crops this tends to involve yes/no decisions; for livestock a wide range of decisions is involved, e.g. areas to be protected from stock, areas that need additional fencing or watering points, which classes of stock to sell, whether to sell or keep stock.

On Tourism, The Department of Environmental Affairs is the lead department in streamlining LED programmes in partnership with municipalities and public entities.

The municipality further plans to develop Business Retention, Expansion and Attraction Strategy.

On EPWP, the Municipality is working in partnership with Department of Environmental Affairs and ADM. A Memorandum of Understanding between Department of Environmental Affairs and the municipality for funding of Municipal Recreation Park and Working for the Coast Project Cwili and Kei Mouth funded in 2012/2013 financial year.

77 job opportunities were created. 109 Job opportunities were created for Kei Mouth to Chintsa working for the coast project funded by the Department of Environmental Affairs.

The objectives and four year term strategic prioritized within LED are outlined in Chapter 6 subsection 6.3 of the IDP are informed by community interactions.

3.15.1 Retail Industry

The Spatial Development Framework identifies Primary, Secondary, Local Mixed Land Use and Local- Level Rural Development Nodes. Kei Mouth and Chintsa East are secondary Administrative Centres of the municipality as well as areas with good tourism development potential. Intersection of Schafli Road and Chintsa East Access Road and Intersection of the N2 roadway and the Mooiplass access road are seen as having the potential for the development of mixed land uses of a business/service character as well as outlets for locally produced crafts and associated products, subjects to approval of access arrangements off N2. It is against this background that the municipality is partnering with private partners with an initiative to develop the identified areas as Primary and Secondary Nodes.

3.15.2 SMME development

The municipality plans to develop Business Retention and Expansion Strategy to focus on amongst other things:

- Establishment of Strategic Partnerships in of Support to SMME's
- Training and Capacity Building of SMME's
- Implementation of Programs towards sustainability of SMME's.

The municipality has strategies that support SMME's/Co-operatives such as Informal Trading By-law; EPWP Policy to create job opportunities. Currently EPWP Policy co-ordination is performed by two departments within the municipality; Technical/Community and Strategic Services.

a) Support to SMME's and Co-operatives in 2012/2013 financial year

In 2012/2013 financial year the Municipality in partnership with Department of Rural Development and Agrarian Reform supported Ngxingxolo and Mtyana Maize Production Projects with Maize and Herbicides.

The list of programs/projects to be funded in 2013/2014 by the Department of Agrarian Reform is detailed in Chapter 8 of the document.

CASP programs for 2013/2014 financial year are as follows:

- Oomdraai Farm- fencing & small irrigation- R445 000
- Khayelitsha CPA- Fencing- R300 000
- Melody Farm- Fencing – R200 000

Amatole District Municipality

- Amatole District Municipality has funded the Summer Festival with an amount of R100 000.00.
- Amatole District Municipality also trained of 3 Great Kei Tour Guides.
- Funding for the 2 Visitor Information Centre Administrators.

Great Kei Local Municipality Support

- R 151 578.00 paid to Weno Trading Enterprise cc for the Cleaning of 3 Dams namely, Nokala, Lusizini and Tuba Dam.
- R 33 792.75 paid to Komga Seedlings Producers to supply ward 4, 5, 6 & 7 with agricultural inputs (seedlings and equipment) for Cooperatives.
- The Municipality also funds for transporting of the Cooperative members to attend to LED related Imbizo's and other Capacity Building Sessions.
- The Municipality facilitates trainings and workshops for Cooperatives.
- LED Indaba funding R45 000.00
- 100ha planted with maize in GKM= 50ha @ Mtyana & 50ha @ Ngxingxolo
- Great Kei Municipality assisted the farmers with an amount of R180 000 for seed & chemicals (Herbicides & Insecticides) for 100ha.

3.15.3 LED Stakeholder forums

The municipality adopted Terms of Reference for Agricultural Stakeholder Forum and Local Tourism Forum in 2012/2013 Financial Year. The First sitting of the Forum will be in September 2013.

Amongst other key role players to be involved in planning, implementation and monitoring of programs and projects are as follows:

- DEDEAT
- SEDA
- ADM
- DLGTA
- ECDC
- DWAE
- DRDAR
- DSRAC
- ASGISA-EC
- IDC
- ANDA
- DAFF
- Aspire
- Dohne Agric. Development Institute
- Fort Cox College of Agriculture
- University of Fortthare
- Commercial Farmers
- Emerging Farmers
- Tourism Product Owners

In 2012/2013 financial year, the municipality coordinated Project Steering Committee for the Development of GKM LED Strategy. At least four meetings were arranged represented by the following stakeholders:

- ADM
- DLGTA
- DRAR
- DEDEA.

The attached 2013/2014 Budget has the details of the amounts budgeted for 2013/2014 LED Programs.

3.15.4 LED Twinning Programs

Great Kei Local Municipality participates in South African Local Government Association Economic Development and Planning Working Group Programs; with a particular focus to:

- Establish better relationships with established business, and better integrate them into the GKM planning process.
- Improving capacity, knowledge sharing and analytical skills
- Increasing alignment to National Government and Provincial Government initiatives and the ability to access government funding.

An initiative to partner with Mbombela Local Municipality in Mpumalanga has been started by SALGA and the municipality will be part of the LED Study Tour.

3.15.5 Tourism (The Competitive Advantage of GKM)

The coastal settlements of Kei Mouth, Morgan's Bay, Haga Haga and Chintsa, whilst having a small number of permanent residents, have over many years provided a tourism and holiday destination for both local and national visitors who regularly spend their holidays in the area.

The municipality does not have a Tourism Sector Plan that would set out the strategic direction for tourism within the GKLM. In order to assess the best strategic direction to grow tourism within GKM, the following issues will be examined during development of GKM LED Strategy:

- Product strengths and Unique Selling Points (USP)
- Market segmentation and target markets
- Proposed strategic direction

In terms of the current market, the situational analysis for the GKLM showed the following:

- Most of the visitors to the area are domestic tourists.
- The primary reason for international tourists to come to the area is for hunting and to visit natural attractions, and these visitors are primarily from Europe.
- In line with the trends within the province as a whole, the majority of tourists to the GKLM are from within the province, Gauteng and the Free State.

The Tourism Plan would therefore be based on the following five (5) focus areas, which are used as reference points to identify specific projects:

- Focus Area 1: Tourism Product Development
- Focus Area 2: Tourism Marketing
- Focus Area 3: Tourism Infrastructure
- Focus Area 4: Human Resource Development
- Focus Area 5: Creating an Enabling Environment

The availability of a LED expertise;

- The Great Kei Local Municipality has employed one LED Officer with an extensive background in Local Economic Development, Project Management, SMME Management and LED Learner ship Programmes. The trainings and workshops have enhanced the knowledge and Skills of the incumbent.

The following are the key deliverables expected in 2013/2014 financial year

- To develop credible action plans
- To present a conceptual framework of current and future socio economic development interventions necessary to support core service delivery areas on Agriculture, Tourism, Heritage, Arts & Culture and Rural Development.
- To conduct economic comparative and competitiveness research and introduce programmes for prioritized sectors of the economy.

3.16 FINANCIAL VIABILITY AND MANAGEMENT

The GKM strives to comply with all financial management requirements.

The GKM is in the process of implementing free basic services to Indigent households. In order to provide these services the municipality annually reviews the indigent policy as well as implementing annual registration and review of all municipal beneficiaries.

The municipality is further involved in improving revenue generation, hence the appointment of a Service Provider for Revenue Project Solution to that would boost the financial status of the municipality.

The municipality reviews its tariff structure annually. The financial management analysis reflects detail to include updated information regarding financial resources differentiated by source income and type of expenditure.

Policies such as:

- Tariffs Policy and Tariff Schedule
- Credit Control & Debt Collection Policy,
- Indigent Policy,
- Investment & Banking Policy,
- Asset Management Policy and GRAP Compliant Asset Register, and
- Supply Chain Management Policy with functional Bid Specification; Bid Evaluation and Bid Adjudication Committees are available.

Adherence to the above mentioned policies has been noted; however all policies will be reviewed in 2013/2014 financial year so as to comply with relevant legislative requirements.

Great Kei Local Municipality infrastructure and capital projects are predominantly funded through conditional grants i.e. MIG. Below is the summary of the municipality's sources of revenue for 2013/2014 Financial Year:

Sources of revenue	Amount Projected
Rates	R19 651 384
Refuse	R17 241 514
Electricity	R12 947 040
Other Revenue	R7 303 678
TOTAL PROJECTED INTERNAL REVENUE	R57 143 616

Great Kei Municipality has a Financial Plan which includes budget projections for the next 3 financial years in line with section 26(h) of MSA and other Treasury requirements.

The IDP/SDBIP has been implemented with our own Revenue and external grants.

3.16.1 ANNUAL FINANCIAL STATEMENTS

The 2011/2012 annual financial statements have been prepared on an accrual basis of accounting and are in accordance with historical cost convention unless specified otherwise.

These annual financial statements; including Asset Register have been prepared in accordance with Generally Recognized Accounting Practice (GRAP), issued by the Accounting Standards Board in accordance with Section 122(3) of the Municipal Finance Management Act, (Act No 56 of 2003).

3.16.2 DEBTORS AND CREDITORS TURNOVER RATE

The municipality has a Credit and Control Policy; which is to be reviewed in 2013/2014 financial year. As at 30th April 2013 the rate per category is as follows:

a) DEBTORS COLLECTION RATE

Debt Collection Rate as at 30 April 2013

MONTH	SERVICE BILLED	ACTUAL BILLED	ACTUAL RECEIVED	VARIANCE	Collection Rate
July 2012 - April 2013	RATES	11 559 047	6 284 148	5 274 863	54%
July 2012 - April 2013	REFUSE	3 500 917	4 068 415	(567 498)	116%
July 2012 - April 2013	ELECTRICITY	2 471 593	1 507 350	964 243	60%
Total all services		17 531 557	11 859 913	5 671 608	67%

b) **CREDITORS AGE ANALYSIS as at 30 April 2013**

Description	Budget Year 2012/13							Total
	0 - 30 Days	31 - 60 Days	61 - 90 Days	91 - 120 Days	121 - 150 Days	151 - 180 Days	181 Days - 1 Year

GKM's Top Creditors are as follows:

Amathole District Municipality (Water)	- R1 551 991.88
Auditor General	- R2 615 326.00
<u>Other Creditors</u> :	- R321 749.13

The table below illustrates the Audit history for the municipality and the improvement is been recognized in the last three financial years as reflected:

Financial Year	Audit Opinion
2009/2010	Disclaimer
2010/2011	Disclaimer
2011/2012	Not yet finalized

An action plan towards clean audit has been developed and is currently implemented; however an external support has been acquired by the municipality to expedite its implementation.

Summary of the issues raised by the Auditor General in the last three financial years relate to:

- Property, Plant and Equipment
- Receivables
- Revenue and Expenditure

Summary of the Audit Action Plan:

AREA	SUMMARY OF AG REPORT	REF OF AG	PROPOSED APPROACH	RESPONSIBILITY	ACTION OWNER	DEADLINE DATE

3.16.3 REVENUE MANAGEMENT FRAMEWORK

REVENUE ENHANCEMENT STRATEGY

The Great Kei Municipality is experiencing challenges that are inherent in many municipalities in that the level of municipal revenue generated is not at a stage where the municipality would like it to be. As a result, the municipality has embarked on a conscious revenue enhancement strategy to address the challenge in 2012/2013 financial year. This revenue enhancement strategy is a combination of bringing about additional revenue streams and also increasing revenue within existing revenue streams. This strategy includes immediate and short-term revenue enhancement goals, medium term and long-term goals.

OBJECTIVES

Develop and implement a revenue enhancement strategy which will serve as a strategic framework for addressing revenue management challenges of the Municipality. The objective is to identify opportunities, prioritize these and allocate approaches [and responsibilities] to ensure that the desired revenue enhancement outcomes are achieved and sustained.

3.16.4 DELEGATION REGISTER

The Municipal delegation register is in place, it has been structured in line with Institutional Arrangements. It delegates powers to Directors reporting to the Municipal Manger (S56 Managers) and all other managers (middle managers). The Delegation Framework/register supports the Internal Controls within the municipality as it defines segregation of duties; outlines responsibilities and authority.

3.17 GOOD GOVERNANCE AND PUBLIC PARTICIPATION

3.17.1 Overview of the Executive and Council functions and achievements;

Great Kei Municipal Council is a Plenary Type Municipal Council wherein all its decisions are taken by Council. The council performs both legislative and executive functions. They focus on legislative, oversight and participatory roles, and have delegated its executive functions to the Mayor/Speaker.

Up until May 2011, the Council comprises of only 13 elected Councilors, some come from Proportional Representation (PR). There are portfolio head councilors.

The municipality has established Section 79 Committees in the form of 7 Standing Committees namely: Public Participation & Social Needs Committee, ICT, Finance & Risk Management, Corporate Services, Infrastructure & Community Services, IDP/ LED & Strategic Services, Municipal Public Accounts Committee and the Audit Committee. All these committees have functioned relatively well, they have set as per the 2011/2012 and 2012/2013 Annual Council Schedule, their resolutions or recommendations have been escalated to Council for consideration.

3.17.2 Governance Structures

a) Audit Committee

The Great Kei Municipality has an Audit Committee as prescribed by the Municipal Finance Management Act, Chapter 14, Section 166(1), that serves the purpose of being an independent advisory body to the Council, Political Office Bearers, Accounting Officer, Management and Staff, thereby assisting Council in its oversight role. The role, functions and authority of the Audit Committee are prescribed in terms of Section 166(2) of the Act. Audit Committee Charter is available to guide functioning of the Audit Committee.

Amongst other functions of the Audit Committee, the following are the core functions:

- To monitor the integrity of the Council's financial statements and announcements relating to its financial performance, review significant financial reporting judgments;
- To review the reliability and effectiveness of the financial and internal control systems of the municipality.
- To monitor the effectiveness of the internal audit function and review its material findings.

The audit committee of Great Kei Municipality consists of three independent members, with experience in the field of Auditing, Local Government and Law.

b) Internal Audit

The municipality has further taken an initiative to appoint Internal Audit Manager who performs amongst other functions the following:

- Provide an independent appraisal function to examine and evaluate the Municipality's activities as a value added service.
- Review the adequacy and effectiveness of internal control systems and governance systems.
- Compiles Strategic and Operational Risk registers in line with Strategic Objectives and Annual Plan i.e. SDBIP; monitors implementation of Risk Action Plan and Compile Reports.
- Assist members of the Municipality in the effective discharge of their duties and responsibilities via its reviews, reporting and recommendations.
- Provide analyses, appraisals, recommendations, counsel, and information concerning the activities reviewed.
- Promote effective control at reasonable cost.

c) Anti- Corruption strategy

The Municipality has Fraud prevention strategy, which is currently reviewed to ensure its alignment with National and Provincial Legislative Framework. The strategy is to be finalized presented to Council in the beginning 2013/14 financial year for adoption and approval.

3.17.3 Ward committees' , Community Development Workers establishment and functionality

The Municipality has an approved Policy on the Establishment and Functionality of Ward Committees, Public Participation and Petitions Policy.

All the 70 Ward Committees have been elected in all 7 Great Kei Municipal Wards, in electing Ward Committees Great Kei Council resolved on an election criterion which stated that there will be elected Voting District Representation, Stakeholder/ Sector representation. All the 70 elected Ward Committees with all the prescribed election adopted by Council. The municipality also adopted a Public Participation Plan and will be developing a Public Participation Strategy in 2013/2014 financial year which will also be used as a Stakeholder Mobilization Strategy.

Progress in submission of monthly and quarterly activity and progress reports by Ward Committees and Community Development Workers has improved since 2012/2013 financial year. This has been a major challenge in 2011/2012 financial year. Council therefore considers quarterly progress reports as submitted by Ward Committees.

The Mayor/Speaker holds meetings/engagement programs with Ward Committees on quarterly reports and all issues reported/discussed are escalated to Council.

Great Kei Municipality has 6 Community Development Workers and these are in Ward 2 [2 CDW's due to the delimitation of Municipal Wards and the second CDW have been deployed to assist in Ward 1], Ward 3, Ward 4, Ward 6 and Ward 7, currently there are only two Wards which do not have Community Development Workers. All the six

[6] CDW are participating in GKM activities like IDP/ Budget processes, attend Council Meetings and other Local Municipality and District Municipality activities.

A Memorandum of Understanding has been signed between the Department of Local Government and Traditional Affairs for functioning, implementation of programs and monitoring of Community Development Workers.

(d)Ward committee relations with community members

Relations between ward committees and community members are not hostile; ward committees convene meetings in their respective wards once a quarter under the leadership of their ward councilor's as chairpersons.

3.17.4 Marketing Communication Strategy

Great Kei Local Municipality does not have an approved Communication Strategy; however a budget has been set aside for the financial year 2012/2013 to develop an Institutional Marketing Communication Strategy. Furthermore the Communication plan has been adopted by Council in 2012/2013 financial year.

The Strategy is expected to have an action plan to detail the resources and the infrastructure required for its implementation. The function is currently performed within the Municipal Manager's office by the ICT Research Specialist.

A newsletter has been developed as a communication tool; published on quarterly basis. Provincial Newspaper (Daily Dispatch) and National Newspapers (Sunday Times and City Press) are used as other communication tools.

3.17.5 Social Cohesion Programs

In partnership with the Department of Home Affairs the municipality has established a Home Affairs Forum.

An annual event of Mayor's Cup is coordinated annually with the aim of ensuring integration of all sporting activities at ward level to municipal level. It is thus important to note the success of 2013 Mayors Cup; where a total budget of R517 111.54 was utilized to host the event.

Moral Regeneration Movement has been established with the aim of championing and initiating dialogues amongst communities. Working Committee also been established to ensure implementation of Moral Regeneration Programs. A budget has been set aside for 2013/2014 financial year to ensure implementation of the Program.

3.17.6 Special Groups

The municipality identifies Women, Youth, Physically Challenged, Elderly OVC's and HIV/AIDS as groups with special needs.

Statistics 2011, indicates 62% of total population is at the age of 15-64 years. High percentage is female population at 53%. This therefore indicates that the municipality must focus on special groups' activities.

The municipality has a Special programs Officer who performs all functions of the special groups. It is thus the plan of the municipality to Mainstream Special Programs

within its jurisdiction; already strides were made in 2012/2013. Great Kei Municipality appointed a service provider (Isisaba Consulting) at a total cost of R101 965. This service provider was tasked with the assignment to revive, establish non-functioning structures and development of programme of action for each focal group. Furthermore the Service Provider was assigned to develop a Resource Mobilization Strategy for all Focal Groups.

A working session with the executive members from all focal groups converged to discuss how each structure should function. Members of the focal groups identified areas in which support is needed including funding and the development of sustainable programmes. A need for the development of socio economic opportunities was also identified

The assignment has been completed and will inform a Comprehensive SPU Strategy which will cover all aspects within SPU HIV/AIDS Mainstreaming; Gender Mainstreaming and other aspects; budgeted for 2013/2014 financial year.

3.17.7 Status Quo Analysis of Each Focal Area

a) Great Kei Youth Council

This structure was established in July 2011. The structure is made of stakeholders drawn from such Youth Political Organisations; Youth in Business, Youth in Churches, Youth in Agriculture, Youth in Sport. The National Youth Development Agency was central in the establishment of this structure and it promised to induct the GKM Youth Council at a later stage. Members of this structure are actively involved in youth development issues in the area. The Youth participate in provincial and national events.

Youth development in Great Kei involves other partners such as NYDA and Restless Development.

b) Children's Advisory Council

The structure was established in April 2011 in conjunction with Amathole District Municipality and the department of Social Development. The executive members are mostly women that are involved in early childhood development. Great Kei municipality supported the Children's Advisory Council by providing transport to meetings that the structure has attended.

c) Great Kei Women's Forum

This structure was established in August 2011. Women that were elected are social activists that have been working in their communities towards the upliftment of socio economic issues and women abuse. The structure was established with the support of ADM and the Department of Social Development. Capacity building workshops have been attended on economic empowerment and they have been exposed in a number of national and provincial activities.

Great Kei municipality has been very consistent in providing information and facilitation of the establishment of businesses and cooperatives run by women. Training programmes have been facilitated and ADM has committed support for these cooperatives.

d) Disability Council

The structure was elected into function in November 2011 with the involvement of the Department of Social Development and Special Programmes. Its executive members are actively involved in the Disabled People of South Africa. Meetings are held on a regular basis.

e) Local Aids Council

The structure was first launched in 2007. Since then there have been challenges on its operations. Plans are underway to revive the Local Aids Council.

f) Great Kei Moral Regeneration Movement

The structure is in place and functioning well. Programmes are undertaken however there is room for improvement. The structure was established in 2011. A number of programmes have been undertaken by the Great Kei Moral Regeneration Movement including awareness programme, family values and meetings that have been attended.

g) Great Kei Sports Council

The Structure was established in September 2010. It has active members that assisted community members in improving sport development in the area.

Great Kei Municipality has convened a Mayor's Cup and the Sports Council was central in the process. Other talented sport activists were supported with transport and accommodation to take part in the Gauteng Marathon and Ocean to Ocean in Cape Town. Through municipal support initiatives, boxers from Komga, Chintsa, Kei Mouth and Kwelerha participated in ECABO tournaments. Golf has been introduced as a new sport code. In the Mayor's Cup 2013 emerging golfers participated.

Summary of Achievements with Special Programs noted in 2012/2013 financial year are as follows:

- Each Focal Group (HIV; Youth; Women; Elderly; Children; Physically Challenged; Sport; Moral Regeneration) has an existing structure and a Constitution.
- Other Programs coordinated and supported are as follows:
- Drug Awareness Event in Kei Mouth
- Family Values Dialogue in Komga
- MRM Home visit in Ward 7 and Ward 4
- Support to Tigers Rugby Club
- Support to talented sport activists
- Transportation of Young people to Youth Parliament Eastern Cape Legislature and the Provincial Youth Event
- Facilitation for development of Cooperative (Youth in Sotho)
- Great Kei Mayor's Cup

4. OVERARCHING STRATEGY

The main purpose of a vision statement is to link the current situation with the future potential of an area. As such a vision statement plays a central role throughout the various processes of the IDP. It guides the prioritization of needs, the setting of objectives and the implementation of various strategies and projects. The vision statement should be brief, inspiring, realistic, relevant and mobilizing.

Vision and Mission for the Great Kei Municipality

4.1 VISION

"To achieve a peaceful and sustainable environment, where all communities enjoy an improved quality of life"

4.2 MISSION

Provide affordable services, democratic governance and employment through infrastructural development, thriving agriculture, commerce, SMME's and tourism activities."

4.3 SWOT ANALYSIS

It is also important for Great Kei Local Municipality to clearly identify our Strengths, Weaknesses, Opportunities and Threats. Great Kei Local Municipality SWOT Analysis serves as a basis of providing information that is helpful in matching resources and capabilities to the competitive environment.

FINANCIAL, HUMAN RESOURCES, MARKETING, ADMINISTRATION, MANAGEMENT		
INTERNAL	STRENGTHS	WEAKNESSES
	<ul style="list-style-type: none"> ▪ Financial Systems in place. ▪ Internal policies, by laws & procedures in place. ▪ Planning systems in place ▪ IDP, Budget Steering Committees, IDP Representative Forum, Ward Councillors and Committees. 	<ul style="list-style-type: none"> ▪ Asset inflation. ▪ Economic shocks and low economic growth. ▪ Unrealistic real rate of exchange

	<ul style="list-style-type: none"> • Availability of prime land for local economic development initiatives i.e. agriculture ▪ Tourism opportunities i.e. coastal location, unique culture, heritage sites; arts & crafts and ▪ natural attractions 	<ul style="list-style-type: none"> ▪ Lack of institutional credibility as a result of disclaimer audit opinions ▪ Poor road infrastructure ▪ Soil erosion ▪ Poor technology infrastructure,

CHAPTER 5: COMMUNITY PARTICIPATION.

The White Paper on Local Government 1998, establishes the basis for a new developmental local government system, which is committed to working with citizens, groups and communities to create sustainable human settlements which provide for a decent quality of life and meet the social, economic and material needs of communities in a holistic way.

The Local Government Municipal Systems Act, Act 32 of 2000 Chapter 4 and Chapter 5 respectively prescribe as follows:

Section 16 (1) A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose-

Encourage, and create conditions for, the local community to participate in the affairs of the municipality, including in—

- (i) The preparation, implementation and review of its integrated development plan in terms of Chapter 5".

Section 29. (1) The process followed by a municipality to draft its integrated development plan, including its consideration and adoption of the draft plan, must--

- (a) be in accordance with a predetermined programme specifying timeframes for the different steps;
- (b) through appropriate mechanisms, processes and procedures established in terms of Chapter 4, allow for—
 - (i) the local community to be consulted on its development needs and priorities;
 - (ii) the local community to participate in the drafting of the integrated development plan; and
 - (iii) organs of state, including traditional authorities, and other role players to be identified and consulted on the drafting of the integrated development plan;

It is against this background, Legislative Mandate that Great Kei Local Municipality in line with her vision and mission is committed in ensuring a sound participation by members of the community.

5.1 Community Participation Mechanisms

In pursuing the legislative mandate and its mission, Great Kei Local Municipality has vigorously engaged community members in the form of IDP Road Shows and Mayoral Imbizo in November 2012; April-May 2013 and community members raised issues as listed below. The table below illustrates the summary of priority issues raised by community members. The picture depicts that Great Kei Local Municipality must robustly focus on Basic Service Delivery and Socio-Economic Development.

The five priority issues relate to:

1. Institutional Development and Organizational Transformation

- Skills Development Programs for the Youth

2. Basic Service Delivery

- Roads Construction and Maintenance
- Transport Networking
- Water and Sanitation
- Electricity
- Installation of Street Lights
- Access to Free Basic Services
- Construction, and Maintenance and Furnishing of Public Amenities (Pre-Schools, Community halls, Sport Facilities, Clinics)
- Human Settlement (Provision of RDP Houses to deserving Community Members)

3. Socio-Economic Development:

- Funding of Community Development Initiatives/SMME's
- Mainstreaming of vulnerable groups into economic activities
- Access to Enabling documents and Social Relief Programs
- Safety and Security
- School Transport and School Nutrition Program
- Conservation of Environment
- Land Reform
- Construction of Dams, Dipping Tanks & Irrigation Schemes

4. Good Governance and Public Participation

- Communication Mechanisms and Public Participation of the municipality to ensure maximum community participation
- Ward Based Community Involvement in programs and projects
- By-Law Formulation and Enforcement – Traffic Regulations, Roads and Safety
- Improvement in the Audit Outcomes
- Community Satisfaction Surveys
- Corrupt Free Governance

5. Public participation challenges

The public participation challenges includes the following, it is law of nature that every achievement is accompanied by its challenges, the challenges are as follows.

- Unsatisfactory implementation of the community needs solicited during IDP road shows.
- Poor expenditure of the Municipal Infrastructure Grant (MIG) while service delivery is not satisfactory.
- Poor monitoring of Municipal Projects by the municipal officials at the construction stage, that results to bad output.

That was the summary of the major challenges of service delivery.

WARD 1: COUNCILLOR BANGANI
